Taylor home after several weeks in Montreal; Miss H. Scott to Fringar, Iowa, on Tuesday to visit friends; Mr. and Mrs. Ed. Bridette the guests of his parents, Mr. and Mrs. J. Bridette; Mrs. Geo. Long of Sherbrooke, visiting her sister, Mrs. (Dr.) Yorston.

DANVILLE. Miss Granberg, of Beauharnois, returned home after a pleasant visit to Mr. and Mrs. Thos. Johnson.

ROCK ISLAND AND DERBY LINE Arrivals and departures: Mrs. Lewis Merrill of California visiting Mrs. R. Whitcher; Mr. John G. Foster of Ottawa, the week with his family at the Foster Home; Miss Marion Copp of West Derby at Mrs. A. M. Aldrich's Mrs. Strout with relatives here; Mr. A. M. Aldrich in town making repairs on his buildings on Maple Avenue.

Ottawa and Pembroke for the past month, returned home Thursday after spending a very enjoyable vacation. Guild of the Federated Church was entertained by Mrs. Geo. Wilson and Mrs. W. Stockwell on Friday afternoon at the home of the former. Many ladies availed themselves of the occasion to enjoy a pleasant afternoon. Dainty refreshments were served.

BURY. Going West. Big closing out sale, beginning August 25, of Watches, Clocks, Jewelry, Cut Glass, Silverware, etc., at E. L. Cork's, Cookshire, Que.

EAST ANGUS. Going West. Big closing out sale, beginning August 25, of Watches, Clocks, Jewelry, Cut Glass, Silverware, etc., at E. L. Cork's, Cookshire, Que.

ROCK ISLAND AND DERBY LINE Arrivals and departures: Mrs. Lewis Merrill of California visiting Mrs. R. Whitcher; Mr. John G. Foster of Ottawa, the week with his family at the Foster Home; Miss Marion Copp of West Derby at Mrs. A. M. Aldrich's Mrs. Strout with relatives here; Mr. A. M. Aldrich in town making repairs on his buildings on Maple Avenue.

MISS NANCY WALKER gave a recital in the Pierce Hall Friday night the 22nd., for the benefit of the Boy Scouts. The Universalist Sunday School held their picnic, Thursday, August 21st., at Lake Park and chartered the Yveco for the day. The Sunday Service at Kitemany Lake Park was a great success. Rev. G. Ellery Reed's sermon was one of his best productions. The singing was one of the greatest musical treats of the season, and last but not least the collection which amounted to one hundred and forty dollars, seventy dollars each for the Fresh Air Fund of Montreal and Floating Hospital, Boston.

BIRCHTON. Going West. Big closing out sale, beginning August 25, of Watches, Clocks, Jewelry, Cut Glass, Silverware, etc., at E. L. Cork's, Cookshire, Que.

LISGAR. A Century Social will be held on the lawn of Mr. W. H. Hughes home Thursday evening, August 28th., instead of Friday evening as was reported. A good programme, consisting of choruses, songs, recitations, speeches, etc., will be rendered. An old fashioned supper will be served, the tables being lit up by candle light.

Recent arrivals are: Misses Hayes; Misses Russell; Mrs. Pife; Mrs. McLean and two daughters, all of Montreal, at Mr. G. Hepworth's; Miss Jane Armstrong of Sherbrooke guest of Mr. and Mrs. George Hepworth. One of the most enjoyable picnics ever held here, took place Wednesday, August 20th., in Mr. Coote's grove. There was a large gathering of young and old. At noon an excellent luncheon was served in picnic style. The afternoon was devoted to races, etc. for children of all ages. First and second prizes were given in each race. The gathering dispersed about four p. m.

BISHOP'S CROSSING. Going West. Big closing out sale, beginning August 25, of Watches, Clocks, Jewelry, Cut Glass, Silverware, etc., at E. L. Cork's, Cookshire, Que.

THREE HOUSES DESTROYED BY FIRE (Continued from Page 1) ding, which they threw out of the window was totally destroyed. Mrs. Sykes' pig, dog and hens were roasted alive, and the hay was all destroyed.

BABY HAD CLOSE CALL. Mrs. Booth lost all the upstairs furniture, clothing, etc., but saved some of the downstairs furniture. Her baby had a narrow escape from being burned to death. The mother placed it in front of Bell's barn while removing some of her goods and when Bell's place was caught the child's clothing was set on fire. Mrs. Booth saw it in the nick of time and extinguished the flames.

SAW HOUSE BURNING. Mr. and Mrs. R. C. McFadden were at Moulton Hill while their place was being destroyed. When driving back they saw their house burning and thought it was a bush fire. All their furniture was saved. Miss Partington, who lives with them, was untiring in her efforts and succeeded in getting out many valuable articles.

OTHER BUILDINGS ATTACKED. The fire also caught the roof of Mr. Knowlton's house, and Mr. Fairbrother's attic and barn, but very little damage was done to either place.

PARTIAL INSURANCE. Mrs. Reed's property was partly insured, Mrs. S. A. McFadden's house was insured, and Mr. R. C. McFadden's house valued at \$2,500 was insured for \$1,500. It is understood that Mr. Bell also carried some insurance.

Those who were burned out are staying with relatives and friends in and around Lennoxville and Sher-

brooke, there being not a vacant house in the village. LOSS IS \$10,000. The loss is estimated at \$10,000. The general opinion is that the fire originated through a spark from the Montreal train catching the hay in Sykes' barn. Tramps were seen hovering round the place in the forenoon and a few persons think it may be the work of an incendiary.

TO PROVIDE SIGNS TO WARN AUTOISTS Contribution Given to Knowlton Council For This Purpose

SEQUEL TO THE RECENT, UNFORTUNATE, FATAL AUTO-MOBILE ACCIDENT.

Knowlton, Aug. 23.—(Special)—As a sequel to the recent unfortunate automobile accident near Knowlton, in which Mrs. H. R. Owendon, of Montreal, lost her life, it is learned that previous to his departure from Knowlton, Mr. Z. I. Martin, Mrs. Owendon's brother-in-law, handed Mr. L. G. Green, of the Lakeview Hotel, a cheque for \$100 to be given to the secretary-treasurer of the municipality of Knowlton to provide signs wherever it may be deemed necessary to warn autoists against the use of roads which may not be perfectly safe for the use of cars.

The road on which the car owned by Mr. Martin came to grief was a narrow crossroad, not much used by autoists, and which was not of the standard required for such a machine as that owned by Mr. Martin, a powerful 109 horse power Amplex, one of the largest and heaviest cars made. The result was that, on getting off a small bridge, the car sank in the sandy ground and dislodged a log, which was the cause of the accident, the heavy car being thrown off the roadway for a considerable distance. Mr. Martin's object in making his contribution to the municipal funds is to prevent any such loss of life in the future, by having signs on such roads warning automobile parties to be careful. Mr. Martin's action is most commendable, and what he has provided for will certainly be appreciated by all autoists.

DAILY NEWS FROM TOWNSHIPS

FOUND ANCIENT ARROW HEAD. Cowansville, Aug. 23.—(Special)—While playing along the river bank near Mr. P. A. Ruitter's Master Sherman Rodgers picked up an ancient arrow head made of stone. This is believed to be the first one found in this vicinity.

EXHIBITS FOR BROME HORTICULTURAL SOCIETY. Knowlton, Aug. 23.—(Special)—A representative of the Brome Horticultural Society was in Knowlton on Thursday procuring specimens of crops to be competed for in the annual fall exhibition.

FIRE DAY AT GRANBY. Granby, Aug. 23.—(Special)—Wednesday was fire day here. There were three alarms given, one at Mr. Cyril Harper's, where water did considerable damage. Mr. Ellis Horner's barn also suffered to some extent, and the last was a run to the west end of the town.

HORSE GORED BY BULL. East Farnham, Aug. 23.—(Special)—Mr. Dion found one of his horses dead in the pasture on Thursday morning with an ugly wound in the chest and a deep cut in the flank. A bull had strayed into the pasture that night, and it is supposed gored the animal. A mare and colt were there also, the mare receiving a nasty wound about 18 inches long, but the colt escaped harm.

HORSE IS STILL GOING. Knowlton, Aug. 23.—(Special)—Mr. J. S. Poulin, of Farnham, drove here on Wednesday evening to visit Mr. Giasson at his cottage on the lake shore. Mr. Poulin tied his horse to a tree, and the next morning the horse was missing, having broken

SEASON'S CROP DESTROYED BY FIRE Mr. A. W. Wallace, Near Granby, Sustains a Serious Loss

OWING TO SCARCITY OF WATER DWELLING HOUSE AND BARN WERE BURNED TO THE GROUND.

Granby, Aug. 23.—(Special)—All eyes were turned in the direction of Canada on Thursday evening where the reflection of a big fire illuminated the sky. However it was quickly phoned to the village that the fire barn on Mr. A. W. Wallace's farm was in a blaze and nothing could save it. Every effort was made to save the house, but this also soon caught, and owing to the scarcity of water the flames soon got beyond control and the entire building was burned. The barn contained a large quantity of hay and most of the grain was also harvested and stored.

The house was occupied by Davignon, and most of the furniture was saved, although farming implements and miscellaneous articles were burned. The loss will be considerable, as the buildings were only partially covered by insurance.

the reins with which it was tied. The tracks of the horse showed that it was going towards Tibbits Hill.

FULL STAFF OF TEACHERS FOR SUTTON ACADEMY.

Sutton, Aug. 23.—(Special)—Miss Lena R. MacKinnon, of Gould, has been engaged as teacher for the Primary Dept. of Sutton Academy. Thus a full staff of teachers have been engaged and a successful season's work is looked forward to for the coming school year now close at hand.

BOARD OF TRADE MEETING ADJOURNED.

Stanbridge East, Aug. 23.—(Special)—The meeting of the Board of Trade, which was called for Tuesday night, was adjourned until next regular meeting. On account of harvesting there were only a small number of farmers present, and as the matters before the board at present are of interest to farmers it was deemed wise to adjourn.

IMPROVEMENTS TO SCHOOL HOUSE.

Stanbridge East, Aug. 23.—(Special)—The Catholic School Board are having improvements made on their school building. There is a new hardwood floor being laid in the school room and a room is being finished up stairs in order that the teacher may live in the building. The building will be painted outside and inside.

DIED FROM LOCK JAW.

Stanstead, Aug. 23.—(Special)—Mr. Arthur Loisel's eldest daughter, Rosalida, while out raspberrying, got a sliver in her foot. Blood poisoning set in, followed by lockjaw, which caused her death. She was in her twelfth year. The funeral will be at the Roman Catholic Church on Saturday morning.

DO NOT WANT RURAL MAIL DELIVERY.

Glen Sutton, Aug. 23.—(Special)—The proposal has been put up to cut out the Glen Sutton post office and establish a rural delivery route leading in here from some other point. At present the mail service here is very satisfactory, and the new idea is meeting spirited opposition. Mr. G. W. Brock is circulating a petition addressed to Mr. G. H. Baker, M.P., pointing out the many disadvantages of the proposed change, one feature of which is that as the mail is now nearly all called for on the evening of its arrival if the change is made the delivery will be practically one day later. Mr. Brock's petition is being largely signed.

STRONGLY ADVISES "FRUIT-A-TIVES"

Because They Cured Him, And They Will Cure You

WALKERTON ONT., MAY 9th. 1911. "I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods was precarious. My trouble was extreme Nervousness, brought on by indigestion and Dyspepsia, from which I suffered in the most severe form. It was so bad that I could not sleep before about four in the morning. I noticed one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can eat with every degree of satisfaction and sleep without an effort. I strongly advise anyone suffering from like complaints, to commence using "Fruit-a-tives". ALEX. McCARTER. 50c. a box, 6 for \$2.50—trial size, 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

FALLING HAIR

Dandruff and Itching Scalp are Caused by Microbes

There is no doubt about it. Doctor Sangerbond proved it when he infected a guinea pig with dandruff germs and all its hair disappeared in a short time. The entire medical world has accepted Dr. Sangerbond's discovery as final. Ask any worthy physician.

Paris leads the world in knowledge of diseases of the hair and remedies for the same. Parisian Sage which can now be obtained at leading druggists all over Canada is the one great remedy that kills the dandruff germs. That is why F. T. Ansell says to every reader of the Record if Parisian Sage does not banish dandruff, stop falling hair or itching scalp in two weeks he will refund the purchase price.

Dandruff is the forerunner of baldness. Take care of your hair while you have hair to take care of. Kill the dandruff germs now before the dandruff germs kill your hair. Use Parisian Sage, the guaranteed dandruff cure and delightful hair dressing. It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair. Comes in large 50-cent bottle at F. T. Ansell's and leading druggists everywhere. Girl with Auburn hair on every package. Made in Canada by The R. T. Booth Co., Ltd., Fort Erie, Ont. Mail orders filled, all charges prepaid.

Why is the Carmangay Opportunity like the flight of Time?

Because it won't wait for anything or anybody. Now is the time to start letting this "Star Town of Southern Alberta" make money for you. Every day our lots are growing more valuable in.....

Carmangay the town with the future.

IMPORTANT Carmangay is but three years old. Only one-fifth of the fertile surrounding lands are cultivated. What must the future of this town hold for you if it can make this remarkable progress in so brief a time. What must Carmangay become when all the surrounding lands are developed?

Answer: One of the most important cities of the West.

This future railway centre is situated at a point on the Little Bow River canyon where all future railways in this richest district of the best wheat country in the entire west must concentrate and build up Carmangay.

The greatest shipments of grain from any town in Alberta are coming out from the 1912 crop at Carmangay. No less than 1,500,000 bushels is the record. Last year it was a million. The increase alone equals the entire shipments of towns many years older than Carmangay.

Carmangay to-day is operating coal mines. The whole surrounding district is underlined with the famous Galt coal. Says a mining expert, "I believe that Carmangay is destined to become a great coal mining centre in the near future. Carmangay has abundant supplies of pure water from its municipally owned waterworks system. Carmangay has fifty places of business. Carmangay has built one of the finest public schools in Canada.

At the concluding meeting of the Rebekah Assembly, held at the same time in Montreal, Mrs. James Lowe, of Sherbrooke, was elected

Vice-President, and Mrs. H. Spencer, Sherbrooke, re-elected Secretary.

IN AID OF FRESH AIR FUND.

A special "Fresh Air Fund" service took place last Sunday in the beautiful grounds of "Kittamaug," the summer residence of General F. G. Butterfield, of Derby Line, Vt., situated on the shores of Lake Memphremagog.

A large crowd from all points attended, arriving in automobiles, motor boats, carriages, and on foot and the congregation was composed of summer residents from both Canada and the United States.

The preacher of the day was the Rev. G. Ellery Read, pastor of Plymouth Church, Sherbrooke, who inaugurated the first service of this kind on Lake Memphremagog six years ago. Mr. Read made a strong appeal for the children and urged his hearers to lay aside all questions of creed, race or color in the noble work of saving the lives and future of the children in the crowded cities.

A particularly appropriate and attractive feature was the singing of "The Children's Home," by Eugene Cowles, the famous Canadian basso. Mr. Cowles rendered the song with the appeal and pathos which belongs to it and it was felt that his performance was as effective as many sermons.

Mr. Grant Schaeffer, of Chicago, a well known composer and musician, presided at the piano. The collection amounting to \$150, will be divided between the Montreal Fresh Air Fund and the Boston Floating Hospital, both of which are doing good work among the tenement children.

## THE ONLOOKER COMMENTS

### Thaw Case and British Fair Play.

A great legal battle, with astute lawyers on one side and more astute lawyers on the other, and an individual between, whose fate depends upon the issue, always elicits great public interest. The Harry K. Thaw case is one of these.

Seven years ago the eyes of the world were riveted upon the court room in New York where the great trial was in progress. From time to time since then the fight to free Harry K. Thaw has been renewed and has failed.

Now through his own dash for liberty the scene of the battle and the focus of public attention has been transferred from the United States to Canada, from New York to Sherbrooke.

The question of public sympathy cannot rightly enter into a discussion of the matter. It may or may not be for the hunted individual. It cannot and ought not to affect the issue.

There is, however, one element which should always figure in dealing with a man who has sought refuge on British soil and that is British fair play.

It is alleged that the arrest of Thaw in Barford was effected illegally. A writ of habeas corpus has been taken and decision will be given next week. A strong feeling prevails that the writ will be sustained and that Thaw will be set free. The next act will come from the immigration department at Ottawa. It is conceded that Thaw's history is such as to warrant his deportation under the department's regulations.

It will be within the power of the government to conduct him to any point on the international boundary. It is here that British fair play will enter in.

If he has been arrested illegally at Barford, the officers of the law have committed an offence against the individual.

There are only two courses which the authorities can in fairness pursue.

They may return Thaw to Barford and give him say twelve hours start of his pursuers or they may give him forty-eight hours in which to leave the country he to select his own point of exit, and during which time he would be under the surveillance of Canadian officers. The latter would be the fair and reasonable course. Public opinion would support such an act on the part of the government.

To hand him over to American officials, considering the circumstances of his arrest and all circumstances attending the case, would not meet the public idea of British fair play.

### Water Power Development.

The water powers of the Eastern Townships, developed and undeveloped,

probably represents 125,000 horse power. Here is one of the greatest assets this territory possesses and it will have an important bearing upon the future development and prosperity of the Townships.

For a long time the people did not realize this. And even in these later years of electrical development, municipalities have been singularly slow to grasp the importance of available water powers.

Private enterprise has shown more activity and foresight, and foremost in this direction is Mr. C. J. McCuaig, of Montreal, head of the Sherbrooke Railway and Power Company. Mr. McCuaig succeeded in picking up an important water power in the heart of Sherbrooke city, under the very noses of the city fathers. He later acquired the North Hatley and Stanstead system and his transmission lines extend from Sherbrooke to the boundary. He very nearly secured the Westbury power and it is even a question now if he has not a string on it. It is now reported that Mr. McCuaig is negotiating with Granby to acquire the local powers and, also, to transmit additional power from a plant at Drummondville. Granby needs more electric power. The town cannot grow industrially without it. So this offer of Mr. McCuaig will be interesting.

The relative merits of private and municipal ownership have been much debated. Sherbrooke citizens were once pretty well divided upon the question. It is now pretty safe to say that very few ratepayers would vote to relinquish any of the municipal control of local water powers. The tendency rather would be to acquire more and develop more. And yet the city has been very blind to its opportunities in this direction. It is but a few years since valuable water power rights on the St. Francis between Sherbrooke and East Angus were acquired by a private company. The city had not even discovered that they existed.

Eastern Townships industrial development depends upon its water powers. Towns and villages which have ambitions in this direction should make careful investigation of their assets in this connection.

Municipalities will be well advised to keep their eyes on their water powers.

### Something About the East

Reference has been made in the news columns, to a booklet just issued by the C.P.R., containing information regarding farm properties for sale in Eastern Canada. These booklets are to be distributed in the Old Country and in the United States.

This is a commendable act on the part of the C. P. R. It is no more, and, indeed, not as much as circumstances demanded for the C. P. R. has been an important instrument in depopulating Eastern Canada farms, through its efforts to induce western immigration.

The Dominion Government and the Canadian Pacific Railway have wrought injury to Eastern Canada in their efforts to fill up the West. They have induced people to go west who would have been better off in the East.

It is to be hoped, now that the homestead days of the west are pretty well past, that the booklet just issued may herald a reform in the general publicity policy.

The Dominion Government may well act in this direction. Eastern Canada representatives in parliament have been singularly remiss in looking after the interests of the eastern provinces in the matter of publicity.

Damage has been done but it may not be too late to make amends. The West with its idle thousands is for the moment overcrowded.

Let the story of the East be told as vigorously as possible through government, railway and steamship literature.

The need of the hour is a larger agricultural population.

### Where Civilization Degrades.

Representatives of the Chinese Government have been in England to induce the British government to release China from her treaty obligation to permit a certain annual importation of opium from India. According to press reports the request has been refused and the Chinese envoys are appealing to the British public to force its rulers to accede to the request in the interests of morality.

In recent years the Chinese government has been making a strenuous effort to rescue its people from the degrading opium habit. It seems incomprehensible that the most enlightened Christian nation, for the sake of trade, would force the deadly narcotic upon a people among whom it works such havoc. The poppy growers of India are interested. The returns to the producers, in the eyes of the Government, are of greater moment than the consequences to

the users. One is British, the other only Chinese.

The situation is not new in history. Opium to the Chinaman is what whiskey was to the American Indian.

The Christian nations in Europe introduced both, extending to the savage and the heathen, with one hand the Bible and with the other the poison which has been his undoing.

It is rising a man only for the sake of knocking him down.

### Made in The Townships

It is unfortunate that it has never been possible to bring together at Canada's Great Eastern Exhibition a comprehensive exhibit of "Made in the Eastern Townships" goods. Individual manufacturers exhibit but there is no general, collective showing of Eastern Townships manufactured products.

The Eastern Townships produces some \$45,000,000 annually in manufactured articles. Some of Canada's most important industries are located within this territory.

It would be interesting, indeed, to see assembled in one building at the Great Eastern Fair a representative exhibit in this connection.

It is to be hoped that this may eventually be brought about.

## The Real Estate Agent Tells Why

"I DON'T see why this house is worth \$3.00 more rent than the house across the road which is about equal in size."

"But, madam, this house is heated with a McClary's Sunshine furnace. The house across the street has just an ordinary furnace."

"In this house you are sure to be warm, cozy and comfortable. Houses heated with Sunshine Furnaces are known among real estate men as warm houses."

"I've a McClary's Sunshine in my own home, madam. And it's a great comfort. We don't fear zero weather any more."

"I guess that's true, Mr. Douglas. Some of my friends have that furnace and they are always praising it up to the skies."

"Well, you see, madam, the Sunshine furnace is made and guaranteed by the biggest stove and furnace makers in the Empire. You naturally expect such a furnace to be of the very highest class."

"Just come down stairs with me, madam and I'll show you the four radiating surfaces, the semi-steel fire-pot, the dust-flue, the automatic gas damper, and the other big labor-saving and fuel-economizing features of McClary's Sunshine Furnace."

ed upon him and although many errors and omissions mentioned by the auditors had occurred in his department yet the auditors personally and by letter informed him (Ald. Jenckes) there was no spot or blemish in his character so far as his administration was concerned. The auditors had simply criticized his errors and omissions, but had assured him his work had been honorably carried out and there were no defaultations or shortages in his department in any shape or form. In view of this, he did not feel they should depose him from a position with the city. "He is well qualified to act as secretary," concluded Ald. Jenckes. "He has a good memory and is acquainted with the various by-laws and general conduct of the city's affairs, and I feel we cannot afford to lose him and I shall vote against the amendment."

Ald. Darche asked Ald. Brault if he proposed to give Mr. Gatten the same authority Mr. Griffith had.

Ald. Brault—Yes, until you appoint a comptroller to take charge of the financial part.

Ald. Darche—It was in our minds to appoint a man who could engage the staff and control the office. Is that your intention?

Ald. Brault—That would be left entirely with the Council. Until we can come to an understanding about a comptroller, we must have a secretary-treasurer. If after you appoint a comptroller you see fit to limit the duties of each, my view would be to have Mr. Gatten for secretary and treasurer, but not to look after the mechanical part of the office. He would receive the monies from the cashier and sign the cheques.

Ald. Darche was surprised to see Ald. Jenckes come to the Council at the last moment and say he wanted to keep Mr. Griffith. "He told me he wanted a comptroller to do the whole thing. He acted that way in caucus, and at the last moment he says they are perfectly satisfied. He kept the report relating to Mr. Griffith in his pocket."

Ald. Jenckes denied the allegations.

Ald. Darche—I have the floor, you cannot speak for Mr. Jenckes.

The Mayor asked for personalities to be omitted.

Ald. Ewing—Did not Ald. Darche get a report and claim to this Council he let it? No one has ever seen it since.

Ald. Darche—That was my property—don't mix things up."

Ald. Ewing—You have not shown it yet.

The Mayor again called for order.

Ald. Darche said that Mr. Jenckes previous resolution showed that after thirty years Mr. Griffith was not worthy of the position. Now he came here and said he was all right. When the auditors' report was read it was said they had no further use for anyone at the office. The Council was placed in an awkward position. The Finance Committee had charge of the auditing matter and they should have given them all information before putting them in this position. At the last moment Ald. Jenckes was not satisfied with the auditors' report and wants to appoint another man for another month. It was wrong to pass the resolution relieving Mr. Griffith of his office if they had nothing against him.

Ald. Jenckes—When the rearrangement or the preparation for the organization was taken up by the Finance committee, we considered in caucus the resolutions dismissing all the officers of the city and at the same time there was a resolution proposed and brought before the members of the Council in the caucus, re-engaging Mr. Griffith as secretary, but at the wish of the Council that resolution was withheld until the matter of the treasurer should be filled. It was the understanding in the Finance Committee that while Mr. Griffith had too much work as secretary to appoint another man as a new man as Treasurer who would separate the office of secretary-treasurer, the secretary to act as clerk. This resolution was read and laid on the table to be taken up and considered further when the whole matter was ready to submit to the Council. My only desire is to put the affairs of this city in the best possible business shape. I have no axe to grind or no prejudice. I only want to see a competent man in the position. For a long time the duties we have imposed on Mr. Griffith have been far too onerous, but he is quite competent to act as clerk. He is at the call of all the citizens and one man cannot do all the things right on time. I desire to work with the Aldermen in every way to better the situation. I have expressed my views in regard to Mr. Griffiths, and whether the other Aldermen coincide or not, I think the accounts are in such a state that call for some action to be taken after a better state of affairs.

After further discussion the motion of Ald. Jenckes was lost by 6 to 3. Those voting for it were Jenckes, Ewing and Darche. Against Thomp-

son, Genest, Desautel, Prunier, Simons and Brault.

Ald. Jenckes and Ald. Ewing vigorously protested against the motion of Ald. Brault in respect to the dual office of secretary and treasurer. Ald. Ewing stated it would be a disgrace to dismiss Mr. Griffith in that way.

Ald. Brault afterwards altered his motion to read as follows: "That Mr. Gatten be appointed city treasurer at a salary of \$2,000 per annum." This was carried, Ald. Jenckes alone dissenting.

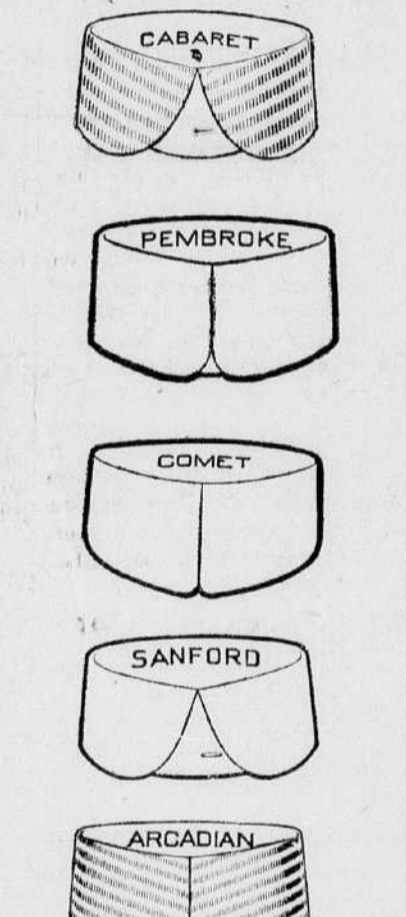

On the motion of Ald. Jenckes, seconded by Ald. Simons, Mr. Griffith was unanimously appointed city clerk at a salary of \$2,000 per annum.

**The Extra Weight in a KELSEY Saves Coal Bills**

You can buy a Kelsey Warm Air Generator for less than any good steam or hot water heating system.

But a Kelsey costs more than an ordinary warm air furnace because it weighs more.

This extra weight is built into a Kelsey to give it more heat-radiating surface.

It has 61 square feet of radiating surface for one square foot of fire-grade surface.

A Kelsey heats larger volumes of air than an ordinary furnace, and does it with less coal.

Because a Kelsey consumes about one-third less coal than an ordinary furnace it is more economical to operate.

A house heated with a Kelsey is worth more to live in and will rent or sell for more money.

The cost of a Kelsey is small when the saving in coal bills and repairs is considered.

This economical heating system is fully described in our booklet, "Achievements in Modern Heating and Ventilation." Send for it.

### HORSE USELESS 2 YEARS

Till Cured by 2 Bottles of Douglas' Egyptian Liniment

A peculiar case and remarkable cure is described by Mr. E. J. Horwood, of St. John's, Newfoundland, who writes:

"I have a horse which suffered from fractured ribs. Symptoms—a large swelling in the side, very prominent, uniting the horse for any work. It was treated by a Veterinary. Pus had formed. An incision was made, a continuous running took place, the swelling getting very little less. My attention was attracted by the label attached to a bottle containing Douglas' Egyptian Liniment, which read, 'For Man or Beast.' I was induced to give it a trial. Directions were strictly adhered to, and I have much pleasure in stating that my horse is completely cured, after having used two bottles only of Egyptian Liniment."

"The horse referred to was suffering for nearly two years before Douglas' Egyptian Liniment was brought into use."

Those who have never used it before are astonished to see how quickly Egyptian Liniment cleans out festering wounds and ridding sores, removes the unhealthy conditions and permanently heals.

25c. at all dealers. Free sample on request. Douglas & Co., Nananee, Ont.

# HARRY THAW WILL BE DEPORTED

## Mrs. CARNEGIE

MRS. CARNEGIE, SISTER OF HARRY K. THAW. (From Photo Taken When in Sherbrooke)

(Continued from page 1)  
parison was made by Sheriff Hornbeck.

#### THAW PREFERS VERMONT.

The plan of Thaw's lawyers, and there is reason to believe that they have had assurances of its success, is to have Thaw examined before the Advisory Immigration Board and ordered deported at Montpelier. Thaw would prefer Vermont to any other State as a refuge. Investigation made in his behalf has convinced those who are working in his interests that Vermont would present the most involved extradition proceedings. The New York authorities, while exerting pressure at Ottawa to bring about Thaw's deportation to the New York border, is possible, or to have him transferred to Montreal, as a prisoner of the immigration department, have nevertheless anticipated the Vermont contingency and have sent John E. Mack, former district attorney of Dutchess County, to arrange for possible hearing.

#### NO EXTRADITION FOR LUNACY.

Examination of the status of New Hampshire and Vermont do not reveal authority for the extradition of Thaw from either of those States to New York on the ground that he is an escaped lunatic. The statutes cov-

shown the gist of an interview which appeared in certain New York papers, purporting to be a statement from him to the effect that he had practically been a prisoner with Thaw on the trip with Thaw, and that he had pleaded with Thaw to return to Matteawan. He replied that he had never made such a statement, and asked the Record reporter to see the warden and the latter would also deny that he (Thompson) ever made such a statement.

Mr. Louis St. Laurent, Thompson's lawyer, also gave the press a straight denial of the interview.

**BRYAN TELEGRAPHS SULZER.**  
Washington, Aug. 23.—Secretary Bryan sent the following telegram yesterday to "Hon. William Sulzer, Albany N. Y.":

"This case of Thaw being one which, in its present aspect involving the application of Canadian immigration laws, this Government cannot act officially, steps have been taken to lay the information as to his escape informally before the Canadian authorities."

Mr. Sulzer asked that the Canadian immigration authorities be requested to return Thaw to Rouse's Point, N. Y.

Secretary Wilson, who has charge of the Immigration Bureau, yesterday sent this despatch to Acting Governor Glynn and Attorney General Carmody:

"I am unable to find any law which would authorize the Department of Labor to ask the Canadian Government to deport Harry K. Thaw to the State of New York as requested by you. I am advised that steps have already been taken by the Department of State to bring the matter to the attention of the Canadian Government through proper diplomatic channels."

**WITNESSES SUMMONED.**  
Colebrook, N. H., Aug. 23.—Canadian immigration officials were here rounding up witnesses for the proceedings at Sherbrooke, Que., against Harry K. Thaw.

Deputy Sheriff B. H. Kelsea, who brought about the fugitive's arrest was asked to be in Sherbrooke today. He left for Canada and expects to tell of the route taken by Thaw after he left Beecher Falls, Vt.

Kelsea said that Thaw entered Canada from Vermont. Beecher Falls is less than half a mile from the line, but Thaw took a roundabout route with the idea of reaching Barford, and so covered about four miles before reaching Canada, but did not at any time reenter New Hampshire.

Others requested to appear at the hearing at Sherbrooke include the livery stable owner who drove Thaw and his companions from the railroad station at Beecher Falls, Vt., to a point just north of the Canadian line.

#### EVELYN THAW WRITES HER LIFE.

London, August 23.—According to an announcement yesterday, John Lane, the well-known publisher, has in preparation a biography entitled "The Story of My Life," by Evelyn Thaw.

The announcement says: "In her book she declares herself to

### VERMONT DOES NOT WANT THAW

ENTERED CANADA FROM VERMONT AND NOT DIRECTLY FROM NEW HAMPSHIRE.

Cavendish, Vt., Aug. 23.—It appears that Harry K. Thaw entered Canada from Vermont and not directly from New Hampshire, as had been supposed. The village of Beecher Falls, where he left the train, is on the Vermont side of the boundary line, between the States. It is in the town of Canaan, Vt. This is believed by State officials to be the basis for the report from Sherbrooke, Que., that Thaw was likely to be turned over to the Vermont authorities.

Beecher Falls is in the extreme north-east of the State and very close to the Canadian line. From this village Thaw drove by team and he probably did not again enter New Hampshire, though he might easily have done so, by taking a roundabout route. It is expected that this point will be definitely determined and the Canadian authorities informed accordingly.

Governor Allen M. Fletcher, at his home here, yesterday said that he did not wish to make an official statement as to the attitude of Vermont, should Thaw be returned to this State as an undesirable immigrant to Canada. The governor, however, had before him a statement by Attorney General Rufus E. Brown, which, the executive said, best expressed his own view. "The attorney general declared that he considered Thaw an undesirable and dangerous person, and that if he had the authority to do so he would surrender the fugitive to the police of New York State."

ering extradition relate only to fugitives from justice from another State who must be charged with a crime committed in that State. This was the interpretation given by competent attorneys. It was pointed out that the warrant charging Thaw with conspiracy issued by the authorities of Dutchess County, N. Y., could be made the basis for extradition proceedings. It was held that if the question were then brought up in the State where extradition was asked that Thaw, being insane, could not have committed a crime—that this question could not be adjudicated by the authorities of that State. The question would be for the New York authorities to decide after his extradition, it was said. A decision of the United States Supreme Court in the matter of extradition between States holds that whether the charge brought is legal and "sufficiently laid in the indictment" is a judicial question to be decided by the courts of the State in which the crime was committed and not by the executive authority of the State upon which the demand is made.

examined Thaw came from. It was first reported that it came from the Minister of Justice, at Ottawa. Later on it was learned that Dr. Noel received his orders through the Governor of the Jail.

#### C. D. WHITE, K. C. VISITS NEWPORT.

Yesterday Mr. C. D. White, K. C., one of Thaw's lawyers, paid a visit to Newport, Vermont. On his return last night he would give out no statement, but it is generally understood that his visit there was for the purpose of conferring with a prominent Vermont attorney as to the State's deportation laws as affecting other States in the Union, and particularly New York State.

#### THOMPSON DENIES TRUTH OF INTERVIEW.

This morning Roger Thompson was

trying to prevent Thaw's escape. Albany, N. H., Aug. 23.—Acting Governor Glynn yesterday requested Governor Fletcher of Vermont to have Harry K. Thaw apprehended to await requisition in case the Canadian authorities deported Thaw to Vermont. Mr. Glynn's telegram to Governor Fletcher reads:

"I am informed that Canadian immigration authorities will deport Harry K. Thaw into Vermont on or about Wednesday, the 27th, that being the State from which he entered Canada. I respectfully request you have him apprehended immediately upon his arrival in Vermont and have him held awaiting requisition from me."

#### CALLS FOR AUTOMOBILE.

Rochester, N. H., Aug. 23.—Automobile No. 36824 N. Y., in which Harry K. Thaw is supposed to have made his flight from Matteawan, N. Y., at times attained the speed of eighty miles an hour, in the expert opinion of Richard R. Fox, who yesterday took possession of the car for the owner, John Collins of New York. Fox found all the tires in bad condition. The machine was not badly damaged. City Marshal George Young surrendered the car only after Fox had presented papers, including a message from Deputy Police Commissioner George Dougherty of New York.

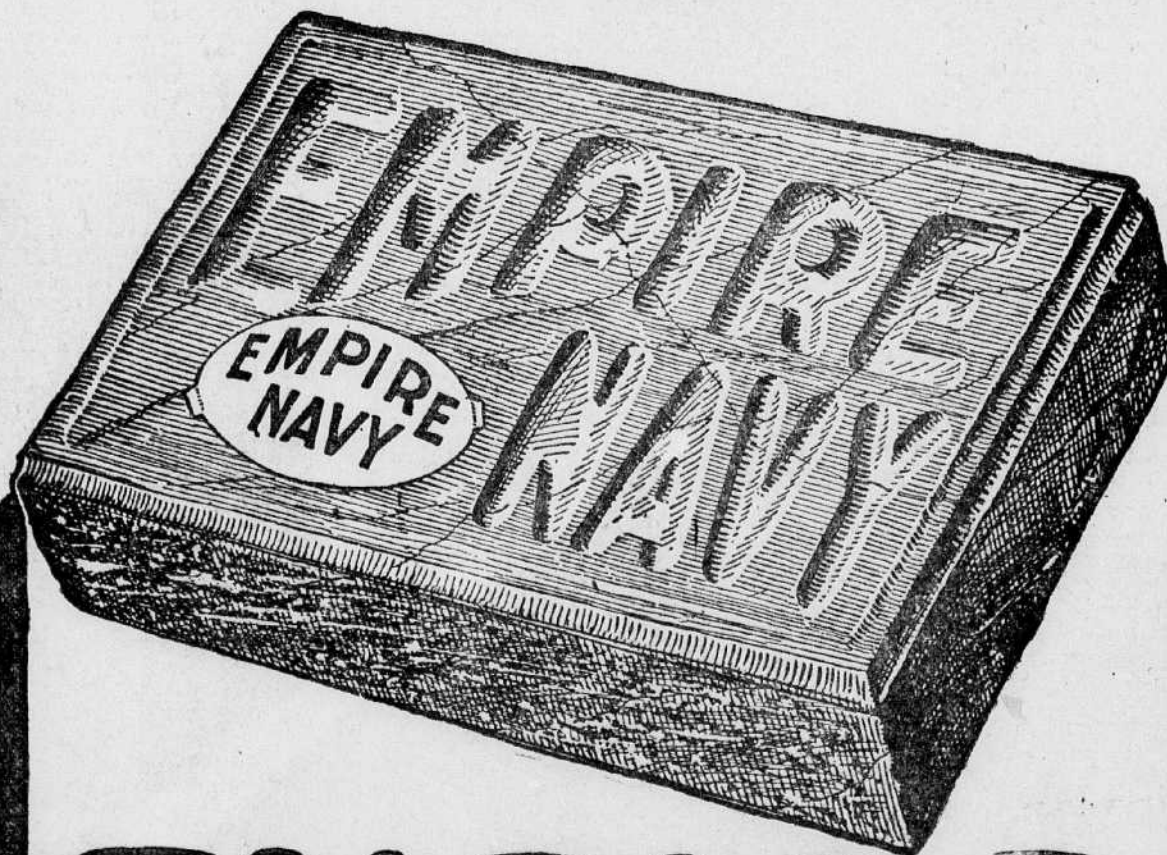

#### COMMENTS ON BRYAN'S NOTE.

Dublin, N. H., Aug. 23.—Secretary of State Bryan's personal telegram notifying the British ambassador, Sir Cecil Arthur Spring-Rice, that Harry K. Thaw wanted in the United States, was held in Canada and the subject of probable deportation proceedings, had not been received at the summer embassy here last night.

"If I find that it is a matter requiring the official attention of the Canadian authorities I shall simply forward the message of the Secretary of State to Ottawa," said the ambassador. "Extradition of prisoners is not a matter for the diplomatic department. All those things are arranged by treaty and I should have no authority to make overtures to the Canadian officials. The usual course to be pursued in such matters would be for the Washington officials to communicate with the consul at Sherbrooke, Que., or call the matter directly to the attention of London."

#### "PERFECTLY SANE," SAYS DR. NOEL.

Dr. J. E. Noel, of this City, examined Thaw yesterday, and states that he is perfectly sane. "I am perfectly sure that Harry Thaw is sane" was his statement to the Record reporter last night. There is a slight difference of opinion as to the order given Dr.
