AND HE WALKED ALL THE DAY!

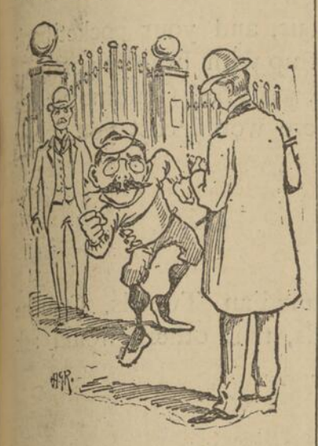

WALTER I. JOSEPH MAKES A ROAD RECORD TO ST. ANNE'S.

DESPITE ADVERSE CIRCUMSTANCES HE DOES IT IN 4 HOURS 55 MINUTES.

The Shamrock Football Club Whitewashes the Mets—Scots Defeat Mohawks—A Big Budget of Local and Foreign Sporting.

Twenty-five and a quarter miles in five hours, less five minutes, is fifty minutes or so behind the record, but it's pretty good walking, all the same, and it was in just this time that Walter I. Joseph, the well-known insurance man, covered the distance between Montreal and Ste. Anne's on Saturday.

The undertaking had its origin in a bet of a champagne luncheon by H. L. Putnam that a gentleman whom he named would beat Mr. Joseph in a walk to St. Anne's. Charles Holt accepted the wager on Mr. Joseph's behalf, but

THE START FROM M'GILL GATES.

for reasons into which it is not necessary to enter Mr. Putnam's nominee did not start.

Mr. Joseph made his appearance at McGill College gates at 6.30 on Saturday morning. He was dressed in a heavy white sweater, a broad canvas belt, grey knickerbockers, black stockings and walking boots. G. W. Stephens, jr., and the sporting editor of the Herald arrived on the scene in a victoria, and at 6.35 the athlete was given the word to go. He was suffering slightly from the effects of a strain that his ankle had received on Thursday, but he pluckily announced his determination to walk to St. Anne's, anyhow.

There were few people on Sherbrooke Street at that hour, but the few there were stared amazedly as Mr. Joseph swung rapidly along. He took a long stride, and his arm action was of the most approved style. With the obvious intention of making the best time

DOWN GRADE.

while he could use the sidewalk, he spun along at a remarkably rapid pace to Greene Avenue. Then, by Western Avenue, which was reached at 6.55, he passed out to the Asylum road, and thence to the Upper Lachine road.

Kensington was passed at 7.22, and here Mr. Joseph met his first adventure. A big black retriever took a fancy to the pedestrian's calves. It so happens that Mr. Joseph was once badly bitten, and he is not particularly fond of strange dogs. He gave the retriever a wide berth, but the dog thought this was some new sort of game, for he barked joyously and gambolled round Mr. Joseph until finally, seeing it was no use, the canine slunk back with his tail between his legs.

In exactly one hour, that is at 7.38, Montreal Junction was passed, and Knapp's Hotel was immediately afterwards left in the rear. The occupants of the victoria, accompanied by the driver, poured a libation over the altar of Bacchus and lit fresh cigars, but Mr. Joseph went steadily onward. Rockland saw the athlete pass at 7.50, and Lasalle at one minute past eight he reached the Lachine toll gate, the journey thus far having taken 1 hour 23 minutes. It required another 14 1-2 minutes to reach Harvey's Hotel, and here Mr. Joseph

THE ONLY STOP.

made his first and only stop, for 2 1-2 minutes, to refresh himself with a draught of cold tea.

Out again on the Queen's highway, and the good people of Lachine stared curiously as Mr. Joseph sped swiftly by. The Dorval toll gate was reached at 8.29, and from this the pace was slackened for the first time, the up grade proving a little trying. The Royal St. Lawrence Yacht Club's blue ensign was fluttering in the breeze as at 8.27, and from this the pace was the walking had been excellent, but the sun grew stronger and the wind blew up a fine dust which was anything but pleasant. At 9.21 Valois post-office was reached, and here it was noted by the judges that the last 6 1-4 miles had been covered in the excellent time of 1 hour 5 minutes. Pointe Claire toll at 9.37 1-2 and the boat house at 9.51 were the next two points noted. Mr. Joseph's

UP GRADE.

pace slackened somewhat, as the heat evidently began to tell on him. The Grove was left behind as the watches showed 10.02, and the down grade from this helped the now perspiring pedestrian a good deal.

William Ramsay was in his beautiful garden, sniffing the ozone-laden breezes of Lake St. Louis at 10.28 1-2 when he caught his first glimpse of the flying figure. He ran to the gate, but Mr. Joseph was already in the distance, so Hartland Macdougall and Spencer Ramsay, who also came out, had merely a glimpse of his back.

Nearer and nearer came the goal and worse and worse became the road. The last five miles had been newly macadamized, and Mr. Joseph's ankle, which had been paining him considerably, began to show signs of collapsing altogether. Mr.

INCIDENT ON THE WAY.

Stephens advised him to give up the walk at this stage, but this Mr. Joseph absolutely refused to do.

"By gummy!" he said, "I've given my word that I'm going to walk to St. Anne's, and I'm going to walk there if I die for it."

Mr. Joseph is mild of speech, and "by gummy" is his strongest expletive, but when he says that something has got to go.

The awful condition of the road as a discourager was supplemented by a growing interest which the dogs displayed in the Montreal gentleman's performance. When he wasn't picking his

RUBBING DOWN.

way gingerly over the roughest of rough stones, he was dexterously avoiding the yelping curs, which snapped gleefully at his bulging calves. He showed evident signs of fatigue, and here the pace became very slow. But at last Leslie Dowker appeared, and upon his assurance that only three-quarters of a mile remained to be covered, Mr. Joseph put on a tremendous spurt, and at 11.35 1-2 he brought up all-standing at the Clarendon Hotel.

His two friends took him at once to a room, gave him a thorough rubdown, bathed his swollen ankle and put him to bed for an hour or so. He got up

A WELL-EARNED REST.

as fresh as a daisy, and the return was made to the city by the afternoon train. The athlete was the recipient of hearty congratulations upon the successful conclusion of his walk. The actual time was, as already stated, 4 hours 55 minutes, the only stop being that of two and a half minutes at Lachine. Considering the badness of the road in places, and the condition of Mr. Joseph's foot, the performance is certainly remarkable. He has already achieved something more than local fame as a long-distance oarsman, but this was his first attempt at establishing a walking record in Canada. He has been strongly urged to enter for the walking match at the Canadian championship meeting, and will probably do so.

CRICKET.

Dr. Grace's Hundredth Century.

London, May 18.—The famous English cricketer, Dr. Grace, who is now 47 years old, scored 283 runs yesterday while playing against a Somersetshire eleven. This was the hundredth time he has scored 100 or over while playing in first-class matches. The feat excites unparalleled interest in England, and the Times and other newspapers this morning print leading articles on the subject.

Buffalo Cricketers Beaten.

St. Catharines, Ont., May 18.—In the game of cricket played here to-day between the first team at Bishop Ridley College and Buffalo first team, the following scores were made:

Buffalo—First inning, 82; second inning, 27. Total—109.

Bishop Ridley College—First inning, 44; second inning, 67. Total—111.

Ridley College won by 2 runs and six wickets.

St. John's School vs. Abingdon School.

St. John's School on Saturday, on their own ground, defeated Abingdon School by an innings and 4 runs. The feature of the game was the bowling of Mr. P. Davies for the winners, who captured fourteen wickets for only 28 runs. Campbell, Davies and MacLeod, for St. John's, made their runs freely and well, while on the losing side Holmes-Orr did some very good and steady batting in the first innings, Ogilvie showed good defence each time, and Arblaster was beginning to look dangerous in the second attempt. Arblaster took six wickets for 33 runs. The weather was all that could be desired and the cricket very fine.

Curran Just Feels Sore.

(Special to the Herald.)

Ottawa, Ont., May 18.—There was talk here to-day to the effect that Curran, of the Capitals, was dissatisfied because he was not likely to be on the team to meet the Shamrocks on Friday, and had removed his clothes from the Capitals' grounds. Enquiry elicited the information that while disappointed because he though he would not be picked, he had not gone so far as to take away his belongings from the grounds and was not likely to.

FOOTBALL.

Shamrocks Whitewash Mets.

From the showing made by the Shamrock team on the Exhibition ground on Saturday it is obvious that they have a ver fine line on the Canadian Association's championship. They defeated the Metropolitans by 8 goals to 0 after a very one-sided exhibition of the game. The teams were:

Shamrocks—Walker, goal; Coates, Barnes, backs; Smith, Duncan, W. Wheble, half-backs; Chilton, G. Wheble, Wheatcroft, Bird, Birchmore, forwards.

Mets—Auburn, goal; Hughes, Cox, backs; Stenning, Huckle, Hoerner, half-backs; Neilson, Lidgate, Whiting, Parkes, Clark, forwards.

Mr. Gillespie was referee.

The Shamrocks goals were scored respectively by Wheatcrift, Wheatcroft, Bird, Wheatcroft, Bird, Wheatcroft, Birchmore and Wheble.

REFUSED A GRANT,

But Mr. Stiles Says the Exhibition Will Go Ahead All the Same.

"The Government has refused a grant to the Montreal International Exhibition," is a copy of a despatch received by His Worship Mayor Villeneuve Saturday.

J. H. Stiles, the creator of the Canadian International Exposition idea, spoke freely to a Herald representative last evening, regarding the action of the Government with reference to a grant. He was not yet officially informed of their refusal, but expected a despatch Monday morning.

What do you expect?

"I think from the attitude of Hon. Mr. Foster that no grant will be given, but that medals and diplomas will be provided."

At any rate he argued that the best World's Expositions were held without Government money grants. The committee will probably meet at once and will be much distressed. However, there was nothing to worry about, as Montreal and Canada were good for an Exposition.

MACKAY INSTITUTE.

CLOSING EXERCISES BY DEAF MUTE AND THE BLIND.

Staisfactory Report by the Examiners—Eulogistic Addresses by Visitors.

A very enjoyable afternoon was spent by those who were fortunate enough to attend the closing exercises of the MacKay Institution for Protestant Deaf Mutes and the Blind on Saturday. The attendance was by invitation, this feature having been introduced on account of the limited space in the institution, and to avoid the crowding experieneed in former years. One hundred and fifty invitations were issued, and the large number of acceptances was proof of the great interest taken in the institution.

Among those present were Mr. and Mrs. F. Wolferstan Thomas and Miss Thomas, Mr. MacKay and Mrs. Robert MacKay, Lady Galt and the Misses Galt, Sir Joseph and Lady Hickson, Mr. and Mrs. Montagu Allan, Dr. and Mrs. Lockhart, Mr. and Mrs. George Durnford, Mr. A. Durnford, Rev. and Mrs. J. Edgar Hill, Dr. and Mrs. Anglin, Mrs. P. Stevenson, Canon and Mrs. Henderson, Dr. Williams, Dr. Birket, Dr. and Mrs. McEachran, Mrs. Springle, Mrs. Redpath, Sir William and Lady Dawson, Mr. and Mrs. Sutherland Taylor, Dr. and Mrs. Buller, Mr. Chas. Alexander.

The proceedings opened with an address from Mr. F. Wolferstan Thomas, president of the Board of Directors. Mr. Thomas sketched the growth and advancement of the institution from its inauguration in the month of September, 1869, with thirteen pupils, to its present stage, with elegant and commodious premises, a large and competent staff of teachers, and an attendance of fifty-five pupils. During the time that the institution has been in existence one hundred and sixty-eight pupils have received education and training, and are now earning their own living and doing very creditably. Such practical results are of themselves the highest encomium possible to bestow on the thoroughness and practicability of the branches taught. These branches include various different trades, and even the blind are not devoid of an occupation, as they are taught chair caning, in which they become very perfect. The female pupils are taught dressmaking and also chair caning. A new feature, which has been introduced during the last year, is a course for the curing of vitiated speech. The president, in closing, highly eulogized the members of the staff for their good work and cleverness in teaching, and also referred in glowing terms to the munificent donations of the MacKay family. Reference was also made to the fact that additional ground had been purchased and plans drawn for a new recreation hall and gymnasium for pupils.

The report of the examination of the MacKay Institute for Protestant Deaf Mutes, held at the Institute Tuesday, May 7, 1895, was as follows: Examiners, the Revs. Edward Bushell, Henry Kittson, Dr. Smythe and J. Edgar Hill. Mr. Charles Alexander, vice-president, and Mr. George Durnford, treasurer, also a number of ladies, friends of the institute, were present.

There are 55 children in the institute. Nothing could be more satisfactory and gratifying than the pleased, happy and healthy appearance of the children. From the youngest to the eldest there were apparent a cheerful alertness and a sparkling intelligence very striking in the circumstances. The exercises in grammar, mental arithmetic and geography were very creditably rendered. The handwriting on the black board and otherwise was excellent. The senior girls, especially, gave evidence of accurate instruction in the facts and parables of Gospel story. One young lady recited, in the language of symbols, "Rock of Ages" so effectively as to move deeply every spectator. The senior boys seemed to have interested themselves in the daily papers, and to be familiar with the doings of the outer world. One boy pointed out very promptly on the map Nicaragua, and seemed to understand Great Britain's recent firm dealing with that perverse little state. The war between China and Japan had evidently been the topic of conversation and reading among the senior pupils during the past winter. I commend this evident desire of the lady superintendent and the teachers to keep the pupils in touch with the current affairs of the great world without, in which they are some day to play their independent part. That is a feature of their education which should be carefully cultivated.

The lip reading and articulation were very wonderful, and illustrated better than anything the triumph of scientific skill over bodily infirmity. In course of time such training will reduce to the minimum the barrier hitherto regarded as insuperable of incurable dumbness. Besides the acquisition of the mechanical art of speech, there will be a concomitant development of the intelligence, proceeding as the skill in lip reading progresses. It was a revelation, this lip reading and articulation, which to our ancestors would have seemed something miraculous.

The methods of the instructors of the deaf and dumb, as exemplified at this examination, are true teaching methods. These educate in the best sense of the term. From first to last the teacher's aim is to cultivate the pupils' faculties and draw out their intelligence. There is no scamp work or cram work in bringing out the splendid results which were submitted to the examiners. Some teachers of speaking and hearing children might learn a lesson in the teacher's art from the methods adopted in the MacKay Institute.

The blind pupils gave specimens of their skill in reading, writing and summing, which gave earnest of good work well done in this comparatively recent addition to the scope of the institue's activity. But Montreal should have a separate institution for the education and training of the blind for industrious and independent life. It is very good of the governors to do what they can in the lack of a school for the blind to meet the sad case of those so pathetically cast upon the heart of the Christian people.

The cordial mutual understanding obviously subsisting between the superintendent and the teachers presented a fine illustration of that honest co-operation in a noble Christian work which is the first condition of success. Between the teachers and the pupils a like understanding was as apparent. All are good friends and happy fellow-workers. To Mrs. Ashcroft is due the credit of this fine spirit of friendliness, with all its excellent results.

Mrs. Wolferstan Thomas kindly showed me all over the building and the workshops. The furniture of the dormitories and the other rooms, mostly made by the pupils of the institute, would have done credit to skilled workmen. The printing would take its place in the market with any hand printing I have ever seen. Shoe repairing is a new feature of the industrial side since last year, and it promises to be successful.

The examiners were all thoroughly convinced that a most important benevolent work is proceeding very successfully in the MacKay Institute. Those in charge are fully alive to the Christian character of the work and to the value of the resources which the training of the institute affords to the unfortunate deaf and dumb for useful employment, for the cultivation of knowledge, social intecourse and communication with their more fortunate brothers and sisters. How many lives are constantly helped to be useful, minds to be intelligent and hands to be skilful through such an institution as this, which otherwise had been dull and darkened and useless.

May the MacKay Institute gather evermore to itself that confidence of the community in its mangement, its education and its industrial life which it so richly deserves.

In name of the examiners,

J. EDGAR HILL, M.A., B.D.

The programme was well carried out in the following branches: 1. Primary steps in the education of children born deaf. 2. Articulation by pupils born deaf. 3. Defective speech, stuttering, stammering, etc. 4. Defective hearing and lip reading. 5. Peculiar children. 6. Sign recitation "Rock of Ages." 7. Reading by the blind class. All the different exercises were splendidly executed and spoke plainly of the great care and ability taken by the teachers. The main point, or most interesting portion, was, undoubtedly, the wonderful way in which pupils, who on entering were victims to which pupils, who entering mere victims stuttering and stammering of the worst kind, had been entirely cured. Amazing also was the exhibition of visible speech. Words were given in French, Latin, Greek or any foreign language, and written in "Bell symbols" on the blackboard, when they were pronounced perfectly by the pupils. This is undoubtedly astonishing in view of the fact that the pupils of that class are deaf, and have no knowledge whatever of foreign languages.

At the close of the programme an address was made by Mr. Robert MacKay, one of the directors.

Mr. MacKay spoke in very flattering terms of the progress shown by the children, and alluded to the programme, which he said was highly appreciated. He was folowed by Mr. Alexander, the first president of the institution, and Rev. Mr. Hill, both of these gentlemen speaking to the same effect.

The following compose the executive staff of the institution: Superinendent, Mrs. Ashcroft; assistant teachers, Miss Grace Haughton, Miss Marjory Curlette, Miss Jessie Macfarlane, Miss Ida MacLeod, and Miss Eugene Crawford, teacher of drawing. In the latter connection, an exhibition was given of drawings and oil paintings which were of a very high standard of excellence.

A visit through the building, shops and grounds, followed by refreshments, concluded an exceedingly pleasant afternoon.

The MacKay Institute has been presented with portraits of Mr. Hugh MacKay and Mr. Edward MacKay. These portraits hang on each side of that of the founder, Mr. Joseph MacKay.

HUSTLED INTO JAIL.

"DERBY MASCOT'S" MANAGER TREATED IN A REMARKABLE MANNER.

TAKEN A PRISONER ON SUNDAY WITH NO CHANCE OF BAIL.

His Friends Could Not See Him—Plaintiff Likely Gone to New York.

Mr. Edward Salter, manager of the now disbanded "Derby Mascot" company, was arrested yesterday afternoon on a capias issued at the instance of a man named Frederic E. Melville, an actor.

The facts in connection with the arrest reveal a story the sequel of which it is at present difficult to determine.

The company played at the Theatre Royal last week, and Saturday evening saw the close of their season. Mr. Salter purchased tickets via the D. and H. for all the people for New York, and everything was in readiness for the departure at 6.10 last night. About 4 o'clock Mr. Salter was sitting in the Balmoral Hotel, when a message was brought to him that a gentleman wished to see him outside. Outside he went, and he was immediately hustled into a cab by a bailiff named Mirault and an assistant, and driven to the Montreal jail. The big gates were opened, and in a few moments Mr. Salter was locked up, away from friends, and without a possible chance of communication. This may readily be believed, judging by the following conversation:

Herald representative at the jail gates to a turnkey: "I want to see the governor." "He's not here." "Then who is in charge?" "No one." "What, no one in charge of the jail?" "Well, the guards to look after the prisoners, that's all." "Is Mr. Salter here?" "Yes." "Can I see him?" "No." "What is he charged with?" "I don't know; he's just locked up, that's all." "Can he not be bailed out?" "You come and see in the morning." "Then he must stay in here all night?" "Yes," and the hole in the gate was closed.

A visit was then paid to Governor Vallee's house, but the governor had gone to Lachine.

Up to quite a late hour at night it was impossible to tell on just what charge Mr. Salter was arrested. Then the Herald reporter learned that it was Frederic Melville who, in real life, proposed to bring to a fitting end the character he had portrayed in the "Derby Mascot"—the money grabber. Melville claimed that Manager Salter owed him $60, so he slyly waited until Sunday and secured the services of Lawyer Debreuil, who, as a commissioner, issued a capias for $60, which sum Melville claimed. The capias was endorsed by Judge Loranger, and then, without a chance to secure release even on bail to any amount, which he could easily have secured in Montreal, Mr. Salter was locked up for the night, and will be arraigned this morning.

In the meantime, he is expected by Robins' circus to join them to-day as one of its managers. Melville paid his bill at the Richelieu and left for the depot. Presumably he is now in New York, while Mr. Salter is held without bail.

THE FIRE RECORD.

St. Alban's, Vt., May 19.—This city was visited by a fire this afternoon which destroyed property to the value of half a million. The fire started in W. B. Fonda's lumber yard, and fanned by a high wind spread to Main Street, a leading business thoroughfare.

The first Main Street structure that ignited was the stores of W. S. Bailey and F. B. Morton. The Wallace Printing Company's building, the store of Lombard & Winthrop, Marceau & Vincent and Fuller's livery stable were laid in ashes soon after. The Government buildings, on Kingman Street, caught fire a few minutes after five o'clock and were gutted. The Hill Block, occupied by J. E. Walsh and W. N. Adams, was levelled to the ground.

At 5.30 the Messenger Building caught fire and burned fiercely for over half an hour, the fire extending to the block occupied by W. H. Ellis and W. B. Woodward's stores. Moore's marble works, on Foundry Street, Ryan's grocery store and 12 tenement houses on the same street were destroyed.

Shortly before six o'clock the entire Burlington Fire Department arrived, and all companies joined forces in an attempt to check the fire on Main Street. The attempt was partially successful and the fire was checked about 6.30 o'clock in time to save the more valuable blocks on Main Street. The stores of A. L. Weeks, A. J. Lang and G. H. Harvey, on Main Street, however, were burned, and at this point the progress of the fire was stayed. Control of the fire was obtained on Foundry Street, six blocks north of Moore's marble works. The fire made almost a clean sweep from Stebbins Street to Hoyt, turning scores of people out of their homes. The St Alban's House was saved with great difficulty.

WHARF BURNED AT HALIFAX.

Halifax, May 19.—Fire this morning destroyed the Intercolonial Railway terminal wharf at Richmond, causing a loss of about $250,000. Since the destruction of the deep water terminus some months ago the railway has been depending on the facilities afforded by the Richmond property, and its destruction will greatly hinder shipping for some time. The wharf was 1,000 feet long, on which was built an extensive coal trestle and two freight sheds. Fifty-six head of cattle owned by J.A. Leaman & Co. were cremated, and twenty empty freight cars were burned. The coaling of ocean steamships will have to be done in the stream for the present, as this and the deep water terminus fire have destroyed all such facilities.

Being Federal property, there was no insurance. Leaman's loss will be about $5,000. There are indications of incendiarism.

OBITUARY.

Toronto, May 19.—Ex-Ald. Thomas Murray died to-day at his residence in Parkdale. He was in his 64th year, and had been ill for some weeks.

London, May 19.—Lieut.-General Randell Joseph Fielden, Conservative member of Parliament for Chorley, North Lancashire, is dead.

Victoria, B.C., May 19.—Capt. Trench, of H.M.S. Royal Arthur flagship of the Pacific station, who had charge of the British troops landed at Corinto, died on April 30, and was buried at sea the following day. Capt. Trench was sick only a few hours, suffering from gastric fever.

Princeton's Whitewashing.

New Haven, Conn., May 18.—Yale defeated Princeton at baseball to-day by a score of 10 to 0.

Cornell Beats Pennsy.

Ithaca, N.Y., May 18.—Cornell beat Pennsylvania to-day by a score of 5 to 1.

TURF AND TRACK.

Confectioner Works a Very Fast Trial.

Toronto, May 18.—This was Derby Day down at Woodbine Park, for many of the stables and several hundred people, including Joe Seagram, Alex. Shields, Mike Daly, Charley Parker, Joe Duggan, Dr. Smith, and other well-known owners of race horses, witnessed some of the best performances of the season. The track was fast and the grounds in charming condition. Weather fair, next week's meeting will undoubtedly be the greatest ever held in Canada. Everything is in readiness and the horses are all on racing edge.

The trials this morning were of a sensational character, as one of them at least showed that Confectioner, one of Mr. Seagram's Plate candidates, and a gelding that has been overlooked by both the public and the bookmakers, has a turn of speed that may land him in front in the big event if it is decided to start him. In company with Joe Miller, Lewis up, Confectioner ran a mile and a quarter, carrying Tommy McManus, who weighs about as much as the horse would be asked to handle on race day, and actually beat the speedy winner of last year's plate in the smashing time of 2.18. Waterflow went with the pair, but was knocked out by the killing pace at the mile. This is considered an excellent trial, and Confectioner finished with plenty of running to spare. The fractional time was: Half, 53 secs.; three-quarters, 1.21; mile, 1.50; mile and a quarter, 2.18. Although this was fast work it was not equal to the performances of Millbrook and Bonnifield, two more Platers from the Seagram string. They ran the distance, with all their weight up, in 2.17 1-2, coming along the last mile in 1.50.

After Confectioner had beaten Joe Miller home there were scores looking for the bookmakers to put a few dollars down on the gelding, but it was found that the odds had dropped with lightning rapidity from 10 to 4 to 1, and they did not want any Bonnifield or Millbrook money at shorter odds. Silk Gown, the fleet footed filly who was sent over to Saratoga last summer for a killing, but failed, was cut loose for a mile and a quarter in company with her stable mates, Victorious and Saragossa. She fought for her head all the way, and the little rider just sat in the saddle and held her as she galloped along, easily showing the way to the two old campaigners of the string. They were going at a rattling pace, but it looked as if the black beauty could have gone much faster had she been driven out. The half was reached in 51 1-2 secs., three-quarters in 1.19, mile in 1.38 1-4, and mile and quarter in 2.15. Such work as that for a 3-year-old maiden is hard to beat.

The other horses were out in bunches, and they were breaking at every pole simultaneously. Again Mr. Davies' Thorncliffe was worked the full distance, with little Joe Martin on his back, and the colt showed beyond question that he is the rankest kind of a counterfeit, and would be troubled with the slows even at a country exhibition race meeting. After being punched all the way the best he could do was a mile and a quarter in 2.30. Devis, another of the Davies string, showed that he could run the tread of the Plate at any time.

Waterloo, the once famous jumper, was galloped two miles, after which he broke down, and the accident will throw him out of the races in which it was intended to start him next week. Two of the Shields string, Lotus and Iron Duke, ran a mile in 1.54 1-2, which was good going for the steeplechasers. Logan was sent along a half in 53 secs.; Copyright, five-eighths, galloping, in 1.09 1-2; Max and the Maid of Ellerslie, a half in 57 secs.; Rio Grande and the Duchess, a half in 54 secs.; Athol, a mile in 1.53; Runaway, three-eighths in 40 1-2 secs.; Laurel and Vermillion, a mile in 1.51; Running Bird, three-quarters in 1.22; Fair Flora, Lou D. and Tetie, three-quarters in 1.22; Kapanga colt and Merry Duke, three-quarters in 1.21; Eppleworth running easily a mile and a quarter in 2.24; Zeal and Kilrona, a half in 51 secs., and Lady Sinclair, the long shot candidate for the Guineas, a mile and a quarter in 2.21, carrying big weight. All of the horses entered at the meeting have arrived, the Hendrie, Boyle and Dyment strings reaching the tracks at noon. They are a fine looking lot, and Lochinvar stands up better than was expected.

The Saratoga Programme is Changed.

New York, May 18.—The Saratoga Racing Association held a meeting to-night and declared all stakes off. This action was not taken with any idea of avoiding any obligations or of expressing any doubt as to the practicability of the new law.

When Saratoga's stakes were offered the association was a member of the Western Turf Congress, and there was a stipulation in the conditions that they would be conducted under the rules and supervision of that body. There was also the condition giving the association the right to declare the stakes off in the event of legislation that would not admit of racing. Under the Percy bill Saratoga must race under the rules of the Jockey Club, and to continue the programme might lead to questions the solution of which would be difficult. Besides, the National Steeplechase Association will insist on the jumps in the field being raised and the course being materially remodelled. Under all the circumstances, this action on the part of the association was deemed necessary. Fifteen new stakes will be conditioned and presented to the horsemen at the earliest possible date.

Trotting at Baltimore.

Baltimore, Md., May 18.—The first meeting of the New York, Philadelphia and Baltimore circuit closed to-day on the track of the Gentlemen's Driving Park. The starter announced that the 2.35 class race for trotters was off, under the rule that, 4 o'clock having come and gone on Saturday, it could not be started. Summaries:

Class 2.27, trotters; purse, $500—Boston won second, third and fourth heats and race. Time—2.27 1-2, 2.25 1-2, 2.26 1-2. Prince Albert was second and Hutenina third. Mary Spillman, Nellie, Alfred and Happy Earl also started.

Class 2.18, pacing; purse, $500—Prairie Lily won the first, third and fourth heats and the race. Time—2.21 1-2, 2.20, 2.20 1-4. Dalgetty was second, being first in second heat; time, 2.19 3-4. Harry ran third. Miss Woodford, Daisy Dean, Flying Nig, Frank B. and Dr. Wood also started.

Hornpipe Has Gone Lame.

New York, May 18.—Hornpipe, the winner of the Brooklyn Handicap, has gone lame, and his trainer says he will never race again.

Banquet Treated Too Favorably.

London, May 18.—The Sportsman, commenting on the handicap of Banquet, says: "The future of Banquet seems a certainty, whatever the handicap selected. Possibly the Manchester Cup race is the one in which he is most favorably treated, with only 8 stone, 7 pounds weight, which is less than the weight allotted to Reminder. On this showing the best horse in America at a mile and a quarter to a mile and a half is supposed to be 40 pounds worse than our best horse. Why the handicappers should treat Banquet so favorably is a mystery."

Raconteur the Derby Favorite.

London, May 18.—Raconteur is now the favorite for the Derby at 4 to 1. Laveno is next at 5 to 1. The Sporting Times predicts that Laveno will win.

A 20 to 1 Shot Wins at Gravesend.

New York, May 18.—The threatening weather and rain of this morning cleared off nicely in the afternoon, but it came too late to induce a large crowd to go to the track at Gravesend. The card was fairly attractive but no more than 5,000 people went down to face the cold east wind. There were several close finishes and interesting races, although the stake events were processions. The upset of the day was in the second race, when four three-year olds were sent for a mile and a sixteenth with Tinge an odds-on favorite and Paladin a strong second choice. Langdon was the rank outsider, no one caring to have anything to do with him. He lay back in fourth place until the stretch ws reaches, when he came with a rush and had the others in difficulties, winning by a head from Paladin, while Tinge had to give it up, the distance being too long. Summaries:

First race—1 mile. Ajax, 106, Lamley, 9 to 5, won by a head; Long Beach, 116, J. Lamley, 10 to 1, second by a half length; Baroness, 107, Hamilton, 10 to 1, third. Time—1.45. Hermanita and Santiago also ran.

Second race—1 1-16 miles, selling. Langdon, 107, Littlefield, 20 to 1, won by a head; Paladin, 109, Penn, 2 to 1, second by 1 1-2 lengths; Tinge, 109, Griffin, 1 to 2, third. Time—1.51 1-2. Marettia also ran.

Third race—Hudson's Stakes, 5 furlongs. Applegate, 118, Reiff, 5 to 1, won by a length; Hazlet, 118, Griffin, 11 to 5, second by 2 lengths; Formal, 118, Penn, 4 to 1, third. Time—1.03. Mormon, Sagamore, Montezuma, Axiom, Sebastian and Lucullus also ran.

Fourth race—Carlton Stakes, 1 mile. Counter Tenor, 122, Lamley, even, won by 4 lengths; Kenel, 122, Dogget, 8 to 1, second by 2 lengths; Sir Galahad, 122, Taral, 4 to 1, third. Time—1.44 1-2. Waltzer and Bright Phoebus also ran.

Fifth race—4 1-2 furlongs. Refuge, 109, Griffin, 5 to 2, won by half a length; Abuse, 112, Penn, 2 to 1, second by 3 lengths; Barytone II., 112, Lamley, 10 to 1, third. Time—56 1-2. Teke, Izmir, Wellman, Type of Beauty, King T., Imperial, Ben Amela, Bernardine, Salverine, Bodyguard, Arline and Ardath also ran.

Sixth race—6 furlongs. Stephen J., 98, Sheedy, 10 to 1, won by a length; Silvie, 106, Littlefield, second by a length; Beldemere, 116, Taral, even, third. Time—1.15 1-2. Shelly Tuttle, Manchester, Hailstone and Inna also ran.

GOLF.

The Drummond Cup Competition.

The third drawing for the Drummond Cup took place on Saturday over the links of the Royal Montreal Golf Club, with the following result:

The Burnett Cup was won by J. H. Dunlop, with a score of 91 less 14, or 77 net.

CHESS.

Results in the Inter-Club Matches on Saturday Evening.

On Saturday night last were held the inter-club matches between the Montreal and Heather Clubs, and between the Central and St. Denis clubs. The result was as follows: Montreal, 8 1-2; Heather, 1 1-2; St. Denis, 6; Central, 4. The result of these matches to date therefore is that the Montreals have won 15 games out of a possible 20; the Centrals 10; St. Denis 9 1-2, and the Heathers 5 1-2.

The Montreal and Heather Clubs played as follows, the first man in each pair belonging to the winning team: C. F. Bardorf vs. J. C. Senez, 1—0; P. Barry vs. A. J. Flint, 1—0; J. Bemrose vs. R. L. Strathy, drawn; J. D. Cameron, vs. H. C. Russell, 1—0; Prof. Cox, vs. W. B. Kirkham, 1—0; T. R. Davies, vs. W. Brisbane, 1—0; Geo. Falconer vs. E. C. Pratt, 1—0; Dr. Gillard, vs. A. Angus, 1—0; C. C. Wheeldon vs. J. C. Lanskail, 0—1; J. Yull, vs. J. C. Cuttle, 1—0. Total Montreal, 8 1-2; Heather, 1 1-2.

The following is the scoring of the St. Denis Club against the Centrals, the the first man in each pair representing the French club: J. Pelletier vs. F. J. Marshall, 0—1; J. N. Laperle vs. A. C. W. Wurtele, 0—1; W. Kurrie vs. P. Farrell, 0—1; E. Beaudry vs. L. Stuwe, 0—1; O. Trempe vs. A. Dubreuil, 1—0; A. Germain vs. P. Dahl, 1—0; H. Bertrand vs. J. Ferris, 1—0; J. A. Goulet vs. G. Breeze, 1—0; E. St. Maurice vs. O. L. Fuller, 1—0. The Centrals being a man short Mr. J. E. Lamere scored by default, making the score 6—4 in favor of the St. Denis Club.

The last matches of the series will be played to-night as follows: Montreal vs. Central, at the Montreal Club rooms; St. Denis vs. Heather, at the St. Denis Club rooms.

The Blackburne-Von Bardeleben Match

London, May 17.—Curt Von Bardeleben and J. H. Blackburne agreed to call the chess match, as played at the British Chess Club, drawn. Following is the record of the games:

First game, Vienna opening, 59 moves, Blackburne.
Second game, Fianchetto, 58 moves, drawn.
Third game, Falkbeer gambit, 59 moves, Bardeleben.
Fourth game, P—Q4, 47 moves, drawn.
Fifth game, Evans gambit dec., 49 moves, Blackburne.
Sixth game, irregular, 64 moves, Blackburne.
Seventh game, Evans gambit dec., 41 moves, Bardeleben.
Eighth game, irregular, 60 moves, Bardeleben.
Ninth game, Ponziani, 40 moves, drawn.
Summary: Bardeleben, 3; Blackburne, 3; drawn 3.

ATHLETICS.

Hickok Breaks His Records.

Cambridge, Mass., May 18.—Yale won the dual games from Harvard this afternoon on Holmes Field, scoring 65 points to the Crimsons' 47. In the field events Captain Hickok outdid himself by breaking the dual records in the shot and hammer events by a wide margin and bettering the Inter-Collegiate records as well in the same events.

California Ties Pennsylvania.

Philadelphia, Pa., May 18.—The University of California Athletic Team verified their predictions of a hard tussle with the University of Pennsylvania by scoring a tie in the track and field sports today. The points were not reckoned as they were at Princeton last week, when the Tigers were beaten 61 to 51. Only firsts were counted to-day and at the finish each team had scored seven.

Princeton Again Beats Columbia.

Williamsbridge, N. Y., May 18—For the third time in four years the "Tigers" of Princeton to-day defeated the Columbia College boys in trials of speed and muscle at the annual athletic games held here on the Columbian oval, the wearers of the Black and Orange beating the Blue and White striped Columbians by a score of 63 1-2 to 48 1-2 points.

The features of the day's sport were the wonderful bursts of speed exhibited by Bogert, of Columbia, in the finish of the mile walk, and the breaking of the Inter-Collegiate two-mile bicycle record by Fearing, of Columbia, who sped over that distance in 5 min. 2 3-5 seconds.

LACROSSE.

The Champions in Good Shape.

The senior Shamrocks held a very good practice with the Young Shamrocks on Saturday afternoon at the new grounds, in preparation for their match with the Capitals in Ottawa on the Queen's Birthday. The club have completed arrangements with the G.T.R. for an excursion. A special train will leave Bonaventure station at 10 o'clock in the morning, and the fare for the round trip has been fixed at $2.25.

The Junior Shamrocks' Meeting.

The Junior Shamrocks will meet to-night to elect a captain. The meeting will take place at the S.A.A.A. rooms, St. James Street.

Young Shamrocks' Executive.

The Young Shamrocks' executive is to meet on Wednesday evening at the S.A.A.A. office to make a special arrangement for practices. The Young Shamrocks have to meet the Nationals on June 8th.

The Crescent-Gabriels' Trip.

There will be a special committee meeting of the Crescent-Gabriels' held this evening after practice at the Exchange Hotel, to make final arrangements regarding the trip to Quebec on the Queen's Birthday. It is very probable that the team and followers will travel by steamer Quebec instead of by rail, as originally intended.

The Brockville-Young Capitals Match.

(Special to the Herald.)

Ottawa, May 19.—D. Patterson, of Montreal, who has been named by the Brockvilles for referee of the Intermediate League match in Brockville on Friday, is acceptable to the Young Capitals, so is Geo. Popham, of this city, for umpire. The Young Capital team to meet the Brockvilles on Friday will likely be picked to-morrow, but it is pretty certain to be as follows: Goal, Redmond; point, Divierger; cover point, McGibney; defence field, Grimes, Griffith, Binks; centre, Hyde, home field, W. Powers, Templeton, P. Murphy; outside home, E. Murphy; inside home, J. Egan. As the executive has not been notified that E. Murphy will not play with the team he will be picked.

The Tecumsehs Won.

Markham, Ont., May 18.—The Tecumsehs, of Toronto, played an exhibition game of lacrosse with Markham to-day, resulting in a victory for the visitors by 6 goals to 4.

ROWING and SAILING.

Britannia Wins Again.

Gravesend, Eng., May 18.—Ailsa and Britannia started again at 11.45 this morning in a race for prizes offered by the Royal Thames Yacht Club. The course was the same as yesterday, from Gravesend to and around a buoy beyond Southend and back here, a total distance of about 50 miles. Both yachts carried club-topsails, and although Britannia got away in the weather berth, Ailsa soon had a lead of ten seconds, but passing Southend Britannia was ahead.

Britannia maintained her lead and won the race, crossing the line two minutes and a half ahead of Ailsa.

London, May 18.—Mr. J. Arthur Brand, the well-known English yachtsman, a member of the Minima Yacht Club, of Dartmouth, will issue a challenge to race for the International Challenge Cup, established by the New York Yacht Club, with his new half-rater, Spruce IV., the races to be sailed on Long Island Sound in September next.

The times at the finish were:
Britannia...................... 3.55.00
Ailsa.......................... 3.56.03

consequently, Britannia won by 1 minute 3 seconds, but Ailsa allows her 2 minutes 11 seconds; thus the Prince of Wales' cutter wins by three minutes 14 seconds corrected time, and not by 2 minutes 30 seconds as at first estimated.

The Ottawa Canoe Club.

(Special to the Herald.)

Ottawa, May 19.—Fortnightly races for the championship of the Ottawa Canoe Club are to be held during the summer. The championship will be decided by points. There will be single, tandem and four paddle contests, and sailing races.

THE WHEEL.

The Ladies' Club's Engagements.

The Ladies' Club (the City Cycling Club) have arranged the following as their fixtures for this week: Wednesday, 22nd, 8 p.m., Blue Bonnets; Friday, 24th, 3 p.m., Lachine; Saturday, 25th, 3 p.m., Verdun.

At the several runs held thus early in the season the ladies have turned out well, and, with the assistance of the gentlemen members, the future of the club seems to present a bright front.

Pro's Reach Toronto.

Toronto, May 18.—The following professional bicyclists have arrived here to take part in the tournament at Island track on 24th: Frank Waller, Joe Gannon, New York; Harry Kauaska, Chicago; Starbuck, Meixele, Van Amburg, Bartholomew, Louisbourg, Pa. Waller will attempt to make a new world's record for an hour.

FOOTBALL.

Scots Defeat Mohawks.

The Scots have won the first match in the senior series of the Eastern Association; but it was by no means a walkover. The play was a trifle loose on both sides part of the match; but at intervals both teams got on a spurt which aroused the enthusiasm of the spectators to fever heat. It was nearly 4.30 when the ball was kicked off, and it travelled towards the Scots' goal, only to be returned to centre. There was some hustling done on both sides; but every man was on the qui vive, and twenty minutes had elapsed before the Scots succeeded in notching their first goal. From the kick-off the ball again got into dangerous territory for the Scots, but the Mohawks were off in shooting capacity, and the ball found itself shot from defence to defence with lightning rapidity; however, the Mohawks succeeded in putting the ball between the posts, but the goal was not allowed on account of off-side play, and the Scots managed to pass through the Mohawk defence in quick time, and placed another goal to their credit. From this till half-time the play was very slow, and no further scoring was done.

The Mohawks seemed to waken up during the few minutes' rest they had, and entered second half not in the least discouraged by the odds against them; but the lack of discreet shooting when they had every opportunity to score was the cause of their losing the match.

The Scots missed Conway off their forward division, he being unable to play on Saturday. The ball was kept hustling from end to end for fifteen minutes in the second half, when Dickie added the third goal to Scots' score. It was altogether an even game from this out, but Badger, by as nice a piece of play as was done during the match, took the ball from midfield, and, passing neatly through the Scots' defence, scored the only goal for the Mohawks.

The match throughout was clean, good football; only an occasional dispute was heard between the players. The spectators seemed to be highly pleased, and no doubt should these two clubs choose to play and charge a gate, they would have the largest crowd of spectators of any club in this district.

The teams lined up as follows:

Scots—Mallinson, goal; Lawrence, Cooke, backs; Barclay (captain), Birse, Burnett, half-backs; Lees, Turner, Kyle, Dickie, Morris, forwards.

Mohawks—Jones, goal; Ahern, Chidley, backs; Wylie, McKenzie, Robinson, halves; Binning, Badger, Wauds (captain), Booth, Boddington, forwards.

Referee, Mr. Robert Reid, president of the Eastern Association; linesmen, W. Alstone and Conway.

The match was witnessed by a great crowd of Association enthusiasts, among whom were seen: D. G. Frazer Crierie, F. Fowler, J. A. Garvin and R. Crawford, of the Canadian Football Association.

The Mohawks' Practices.

There will be an interesting match on the Mohawk grounds to-morrow evening between the first and second elevens of the club. The teams chosen will line up as follows: First eleven—Jones, goal; Chidley and Ahern, backs; Robinson, Morrison and R. Binning, half backs; Wauds, Lidgate, Badger, Boddington and Dempster, forwards. Second eleven — John McKenzie, goal; Levasseur and McKenzie, backs; Murray, Wylie and Fulton, half backs; Bush, P. McKenzie, Forrester, A. Binning and Mowat, forwards; reserves, Robertson, Anderson and Meldrum.

The above players, as well as all members of the club, are requested to be on the ground at 6.30 p.m. sharp.

Primroses, 3; Scots II., 1.

The Primrose and Scots II. played their match in the intermediate series of the Eastern Football Association on Hampden Park on Saturday. The Primroses won the toss, and chose to play with the wind and the sun in their favor. Flynn kicked off for the Scots, and the Scots' forwards brought the ball well down, but Adair promptly returned it and the Primrose forwards, securing the ball, kept it around the Scots' goal for some time, when Doyle relieved, sending the ball well down the field. The Primroses worked the ball down again and kept the Scots' defence hustling for a while, Phillips, in goal, saving time and again. The play was pretty even after this, until Doyle, trying to kick the ball over his head, sent it through his own goal, thereby giving the Primroses the only goal scored in the first half. The playing was pretty even after this until the call of half time.

In the second half C. Vickers passed to Stott, who in turn passed to Dick, who took the ball well down and shot for goal, but Phillips saved and sent it back, when G. Vickers, obtaining the ball, placed it in front of the Scots' goal, where a scrimmage took place and Stott, securing the ball, passed to Burton, who put it through after about fifteen minutes' play. Score—Primrose, 2; Scots, 0. In the third game the Scots started in with a rush and brought the ball well up, but Smith and Donald relieved, sending it well down; the ball was soon returned, when Reaper, heading it, sent it through his own goal, thereby giving the Scots their only goal. In the fourth game the Scots tried hard to score, but the Primrose defence was playing a fine game, and managed to clear, when Kenyon obtained the ball, brought it down the field and passed to Vickers, who scored. There was about ten minutes more to play, during which neither team scored, and the game ended 3—1 in favor of the Primroses.

John McKenzie acted as referee, giving the utmost satisfaction to both teams. The teams and positions were:

Primrose—Dow, goal; Reaper and Smith, backs; G. Vickers, Adair, Donald, halves; Burton, Kenyon, C. Vickers, R. Stott, J. Dick, forwards; G. Bradley, linesman.

Scots II.—Phillips, goal: McDougall and Doyle, backs; Brown, Melville, Aitchison, halves; A. R. Wilson, Miller, lFynn, Reif, Mills, forwards: W. Hodgson, linesman.

The Wanderers' Affairs.

To-night's run of the Wanderers will be a city one. A large muster is expected. A number of the Wanderers will go to Ottawa on the morning of the 24th, leaving the G.T.R. station at 9 a.m. H. A. Coussirat and A. R. Crawford will represent the club in the Ottawa races. The new pins designed by Alfred A. Eaves are very neat, and are in great demand.

The Game in Toronto.

Toronto, May 18.—One of the best exhibitions of Association football seen in Toronto for many a day took place this afternoon at Rosedale between the Hurons and the Riversides. The Hurons scored two goals in the first 20 minutes, and for the remainder of the time the game was most determinedly contested. The teams were very evenly matched, each having four corners allowed, and both were in good condition. There was no squabbling throughout, and the game was free from any unpleasantness. Both goalkeepers were kept busy, and there was not a weak place on either side. Hurons 2, Riversides 0. This decides the senior series.

Mechanics Beat Glencoe.

Berlin, Ont., May 18.—The first championship game of the series in the Western Football Association was played here this afternoon, when Glencoe team faced the Mechanics, of Berlin. Notwithstanding an almost continuous light rain, the attendance was fair and enthusiastic. Glencoe started in with a spurt, but were soon rattled, evidenced by the fact that the home team scored 3 goals in 15 minutes. From this to the end of the first half better play was the order of the day, and no more goals were made by either team. The second half opened up better, and a very close and exciting game was played till near the finish, when the visitors again weakened, and lost 3 more goals. The game resulted: Mechanics, 6; Glencoe, 0.

CRICKET

Invictas II. Beat McGill II.

The Invictas v. McGill II. teams played their first schedule match on the McGill grounds on Saturday, the Invictas won the toss and decided to take the advantage of a good wicket. Before the Invictas were dismissed the total reached 72. McGill then went in to bat, but their score only reached 26, both bowlers being on the spot, and they followed on. In their second venture they reached 28 for seven wickets, leaving the Invictas winners on the first innings by 46 runs. For the winners Lawrence took ten wickets for 18 runs.

Trinity School Beats the University.

Port Hope, Ont., May 18.—Trinity University vs. Trinity College School: Score—Trinity College, 115; Trinity University, 66. This match was played on the school grounds, and won by the school by 49 runs. The morning was fine, but in the afternoon an incessant rain rendered play unpleasant. The school won the toss, but four wickets fell for 14 runs, and things looked rather blue till Francis partnered Strathy, and the two put on no less than 66 runs. Both played good cricket, but Strathy's inning was the best seen on the school grounds for several years. On Trinity going to bat, Rogers and Douglas made a good start, and at one time it looked as if they would score heavily and win the match. Tucker, however, parted them, and later on Francis took Douglas c. and b. for a well-played 29. The inning closed for 66, Tucker having seven wickets for 30 runs.

A Skeleton in the Closet.

How often do we hear of this in domestic life at this day. But what is more appalling than the living body made repulsive with skin and scalp diseases, salt-rheum, tetter, eczema and scrofulous sores and swellings. Dr. Pierce's Golden Medical Discovery is the positive cure for all these diseases. If taken in time is also cures lung-scrofula, commonly known as pulmonary consumption. By druggists.

Keyser, N. C.

Dr. R. V. Pierce: Dear Sir—When about three years old I was taken with mumps, also had fever, finally I had that dreaded disease scrofula. The most eminent physicians in this section treated me to no avail. I had running scrofulous sores on left side of neck and face. I was small and weakly when eight or nine years old, and in fact was nearly a skeleton. Six bottles of Dr. Pierce's Golden Medical Discovery wrought marvelous changes. Although the sores were healed in eight nonths, I did not quit taking it until I was sure it had been entirely routed from my system. The only signs left of the dreadful disease are the scars, which ever remind me of how near death's door I was until rescued by the "Discovery." I am now eighteen years old and weigh 148 pounds, and have not been sick in five years.

Yours respectfully,

WITH THE MILITIA.

RESULTS OF THE SHOOTING AT COTE ST. LUC RANGES.

Victoria Rifles' Church Parade to the Church of St. James the Apostle.

Saturday was a perfect day for shooting. No rifleman however particular about a shooting day had any reason to complain. If there is such weather for the league match next Saturday the scores will be, without a doubt, very high.

There was little or no wind at the 200 yards, but on reaching 200 there was a puffy wind from the left rear. The scores were, however, very satisfactory. The left half battalions of the Prince of Wales Rifles and Victoria Rifles and the right half of the Sixth Fusiliers did their annual firing. A detachment of the 65th Battalion, commanded by Major D'Orsonnens, were doing a little practice before choosing their league teams. Col. Burland acted as range officer. Among those on the range were Col. Starke, Col. Hood, Major Atkinson, Major McCurley, Capt. Desnoyers, Capt. Wilson, Capt. Ogilvie, Capt. Hamilton.

The ranges were 100, 200, 300 and 400 yards, five shots at each range; value of shots, bull, 4; inner, 3; outer, 2; possible 80. Sergt Scott, 6th Fusiliers, was high man, with 71 points.

No. 4 and 6 companies Victoria Rifles fired for marksmen's badges. All those making 75 per cent. or over were entitled to one. The scores for the day were as follows:

1st Prince of Wales Rifles, 25 men, Lieut. Brown commanding; total score, average, 39.7: Pte. Jenkins, 37; Pte. Melville, 37; Corp. Patterson, 31; Pte. Mann, 48; Pte. Lavorbeck, 23; Sergt. The Victoria Rifles paraded 318 strong for church parade yesterday, Col. Starke commanding. The corps left the armory in a drizzling rain, and marched in column of companies along Cathcart Street to Phillips Place, thence to Dorchester, thence along Dorchester to Mountain. They then marched in fours along St. Catherine to the Church of St. James the Apostle. Rev. Canon Ellegood preached a very impressive sermon. Returning, the regiment marched in column of half companies to the armory. While in church the rain had increased considerably, but directly the men were outside it came down in sheets. There was not a man in the corps who was not soaked through. Col. Houghton, D.A.G., accompanied the regiment to church. Yesterday was the first time the bicycle corps ever accompanied the regiment to church on their wheels.

SHERBROOKE PERSONALS.

Sherbrooke, May 81.—Mr. Frank Grundy, general manager of the Quebec Central Railway, Mrs. and Miss Grundy have returned from their visit to England.

TELEGRAPHIC NOTES.

St. Jerome, Que., May 18.—The Colonization Society's special passed through here with 200 people on board, and many are boarding it all along the line. More are expected on the evening train.

New York, May 18.—Mr. Cornelius Vanderbilt authorizes a denial of the report that either he or his brother is interested in the purchase of the Reading railroad.

St. Petersburg, May 18.—The town of Bres-Litowski, in the Province of Grodno, Russian Poland, was completely destroyed by fire last evening and thirty persons burned to death. Bres-Litowski was a town of about 40,000 people.

Ottawa, May 18.—H. F. Slack, of Arnprior, died suddenly here last night. He was formerly Public School Inspector of Lanark County, and a school teacher of considerable reputation. He was born in the Eastern Townships and has many relatives there.

Shanghai, May 18.—It is stated that China has asked Japan for an extension of the time in which the former country is to hand over the Island of Formosa to the Japanese, pending a consideration of further proposals. Japan has declined the proposition.

Sorel, Que., May 18.—The third man found in the river here has been identified as Martin Paquet, of 300 Montana Street, Montreal. He was a widower aged 41. The verdict in the case was "found dead in the St. Lawrence with a wound on the head; cause of death unknown."

Sherbrooke, Que., May 18.—Mr. Rand, a farmer, of the township of Newport, Compton County, was arrested and imprisoned here last evening, on the charge of having some time since broken into the Sawyerville post-office. Detective Carpenter, of Montreal, in order to confirm his suspicions had his assitant hire out on Rand's farm for a couple of weeks and Mr. Carpenter is pretty sure he has the right man. Rand will be arraigned before the magistrate here.

Ottawa, May 18.—The report of the Department of Trade and Commerce for the quarter ending 31st March shows that the imports for the nine months ending that date were $78,446,500, a decrease of $7,751,418, compared with the corresponding quarter of last year, and a decrease of $2,024,007 in duty. The exports, $86,223,495, decreased $3,382,811.

Ottawa, May 18.—His Excellency has received a despatch from Lord Ripon, Secretary of State for the Colonies, in reply to the application made by the British Columbia sealers for an advance of $425,000, pending a settlement with the United States Government, in which His Lordship expresses sympathy with the sealers, but says that the British Government does not feel authorized to ask Parliament to make the advance.

FUN FOR THE MILLION.

An Old Typo on Drinking.

"Mind you," said an old printer, "I'm a temperance man, if I do drink; but as I do drink, permit me to say that a big drunk has something of a chastening effect on a fellow, too. I am powerfully conceited—most all old 'regulars' are; but a thorough debauch humbles me for three months at least, during which time I am reasonably deferential to my fellowmen, and in my mental round-up do not claim to include all the cattle of the intellectual universe. Just before a jag I think I know more than anybody and am superior to all other human kind; but when after a week's tilt at the fiery bowl I wake up in the morning with my hands shaking so I can't button my shirt, my head full of confused memories of dirty things I've said and done, with perhaps a practical reminder of both over each eye, and a slaughter-house taste in my mouth, I am ready to take oath that I am the biggest fool in the strike, and am willing to enlist as a pupil to a jack-rabbit that I may learn something. Then, when I enter the smooth road of sobriety once more, while my self-confidence is restored I feel that 'the greatest of all these is charity.' The quotation may not be exact, but you know what I mean, anyhow. Take one? No, I thank you; my manliness is only two weeks old. You know I have taken the Keeley Cure for drink habit. I do not expect to ever have again any slaughter-house taste in my mouth. You call at 69 Osborne St., Montreal, you will there find a regular Keeley physician in Dr. L. S. Brown, who will pull you through your debauch and forever free you of its manacles.

EASTERN TOWNSHIP MINING.

Gold Found at Marbleton—Chrome Iron Mining Booming.

(Special to the Herald.)

Sherbrooke, May 18.—Gold in paying quantities has been discovered on Mr. W. Oughtred's farm at Marbleton, on the line of the I. C. Railway. Mr. J. Obalski, Inspector of Mines for the Province of Quebec, who was out inspecting the place last week, reports the vein to be a very promising one.

From latest reports, chrome iron is to be found almost everywhere in Wolfestown Township. The Wolfestown range of mountains are said to be very rich in this valuable mineral. Mr. A. Blanchard, of Garthby, is now working a very rich mine, situated in these mountains, a few miles from Coleraine. A company has been formed, who will buy Mr. Blanchard's rights and operate the mine on a large scale.

Mr. Hugh Leonard, of Garthby, who some time ago shipped several hundred tons of chromic ore to Liverpool, has received large orders from England and Belgium. Orders from the United States are above the present output, and Mr. Leonard will be forced to double the number of his men.

Italy's Universities.

Italy is thinking of reducing the cost of her universities by suppressing the smaller ones. The cost of each student to the State, after deducting the fees they pay, is as follows in the different universities: Naples, $43; Turin, $69; Bologna, $92; Pavia, $94; Palermo, $102; Genoa, $103; Padua, $110; Catania, $123; Rome, $140; Modena, $204; Messina, $206; Pisa, $208; Sassari, $209; Parma, $262; Cagliari, $269; Siena, $272. Naples has 5,000 students and Siena less than 200. There is much local opposition to the reduction, but it is difficult to defend the existence of separate universities at places as near to each other as are Messina and Catania, Pisa and Siena, Parma, Modena and Bologna, or the two universities for the Island of Sardinia.—Exchange.

THAT INCREASED REVENUE

Predicted by Mr. Foster Not Being Realized.

(Special to the Herald.)

Ottawa, May 18.—The trade figure in to-day's Canada Gazette shows that duty on imports for the month of April was increased by $60,000 over the same month last year. Mr. Foster in his budget speech predicted that there would be a betterment of trade to the extent of $500,000 for two and a half months which were then to run of the current fiscal year.

The revenue will have to increase at a much faster rate before the prediction of the Minister of Finance will be realized. The exports for last April were $5,027,035, compared with $3,792,847 of April 1894. The increase is principally in animals and their products.

RECIPES.

Egg Cutlets.—Boil three or four eggs for ten minutes; place them then in cold water; allow them to remain about five minutes; then strip off the shells, cut off the ends of each egg and divide into four slices; dip each piece into the well-beaten yolk of an egg; then in bread crumbs, rather highly seasoned with salt and pepper, and a teaspoonful of very finely minced parsley; fry in boiling hot butter until brown; serve with potatoes sliced thin and fried to a light brown; garnish with parsley.

Egg Rolls.—Beat two eggs thoroughly; add one cupful of milk, one tablespoonful of melted butter (or lard) and one teaspoonful and a half of Cook's Friend Baking Powder, with flour enough to make a stiff biscuit dough. Roll out, cut the desired size, and bake in a hot oven.

Strawberry Mourse.—Soak one-fourth of a box of gelatine in half a cup of cold water for twenty minutes. Whip a pint of thick cream until stiff; mix with half a cupful of powdered sugar. To the dissolved gelatine add half a cupful of strawberry juice; mix the cream in carefully; turn into a mould and pack in ice, salted, and allow to stand two hours. Be sure and cover so that no salt can get into the dish. When ready to serve, turn out of mould on to a large glass plate and garnish with fresh strawberries and whipped cream.

Brockton Cake.—Take two cups of flour and sift with it (twice) two and one-half teaspoonfuls of Cook's Friend Baking Powder and two teacups of sugar; then add two beaten eggs, two-thirds of a cup of sweet milk and one and a half cups of butter. Mix all well together. Divide the cake dough in half. Take about a quarter of a pound of baker's chocolate and add to it one-half cup of brown sugar and three tablespoonfuls of milk; heat the milk, sugar and chocolate together until melted, and when cool put with one-half the cake, adding a little more flour; flavor with vanilla. Bake each half separately in tins and put together with a frosting or jelly.

Sandwiches for Travelling Lunch.—Chop fine, sardines, ham and a few pickles, quite fine; mix with mustard, pepper, catsup, salt and vinegar, and spread between bread nicely buttered.

Pot Roast Beef.—Take a lean piece of beef, cut a little fat from it and fry in an iron pot a few moments. Season the beef with salt and pepper, and then sprinkle over a little flour; put in hot water to half cover the beef; cover tightly and cook until tender. Add a little boiling water at intervals to prevent burning. Thicken the gravy and pour around the meat on the platter.

Potato Balls.—Mash boiled potatoes fine; stir into them the yolk of an egg and make into balls; then dip them into a beaten egg; roll them in cracker crumbs, and brown them in a quick oven or fry them in a small quantity of nice dripping, and in that case flatten them so that they can be easily turned, and brown both sides.

Cake Pudding.—Take bits of old cake or cookies, and to them add one cup of milk, one teaspoonful of butter, two teaspoonfuls of molasses, one teaspoonful of cinnamon, one-half teaspoonful of ground cloves, one teaspoonful of soda, one teacup of chopped and seeded raisins or currants; stir thoroughly. Place the mixture in a nice greased pail or steamer, well covered, and steam two hours. Serve with hot or cold sauce. If your cake is very rich, roll a few biscuits with it, using half and half.

LEMOINE APPEAL.

Dismissed by the Judicial Committee of the Privy Council.

City Attorney Roy received a cablegram from London Saturday informing him that the Judicial Committee of the Imperial Privy Council had dismissed the appeal of Lemoine against the city.

The appeal was against a judgment which had been rendered by the Superior Court. The Lemoine estate, which adjoined some property belonging to the Allan estate, was with the latter expropriated when Mount Royal was made a public park. The Lemoine estate objected to the money allowed by the expropriation commissioners—some $40,000—and sued the city. Judge Gill awarded the estate $100,000. The city appealed from this decision, and it was reversed. Both the Court of Appeal and the Supreme Court decided in favor of the city. The Lemoine estate then asked the Imperial Privy Council for permission to appeal to it, and this application has now been dismissed with costs.

THE BOOTH COLONY.

They Are Coming to Canada Ten Thousand Strong.

London, May 18.—If the expectations of General Booth are fulfilled, 10,000 persons will leave England this autumn to establish an industrial colony in Canada. The work of recruiting the emigrants is now under way, branch stations for this purpose having been established at all the Salvation Army barracks in the East End, from which quarter the most of the emigrants will come. The only difficulty met with by the recruiting officers is in the proper discrimination among the many applicants, being careful to select only those whose associations and surroundings are such as to justify the Army in sending them across the sea to seek a livelihood in the new world; and, at the same time accepting only those possessed of some qualification that would tend to promote the general prosperity of a new community.

MONTREAL, MAY 20.

A SUGGESTIVE REVELATION.

In the days of the Old Man, though there was a thorough understanding between the Government and the protected manufacturers, it was the habit of the Conservatives to deny it; for Sir John knew the danger of letting such a belief grow in the popular mind. But his successors, in this as in every other matter of policy, have failed to continue the illusions which the wizard employed; and have thrown open to the scrutiny of the electors the operations by which they fleece the great consuming class for the advantage of the trusts. Last year the country saw the degrading incident of the Government retreating from a position which it had taken because the protected gentlemen had figured out that there would be, because of it, some interference with their plans. Later the secretary of the manufacturers, in a vainglorious moment, boasted that Mr. Foster had been given a brief by the Manufacturers' Association, and had followed it so closely that in many cases he had used the exact words. Still more conclusive proof that the relationship between the Government and the manufacturers is that of master and servant—the Government filling the latter position—is contained in the revelation made in the House of Commons on Friday by Sir Richard Cartwright.

A year ago in the revision of the tariff, in pursuance of the policy of throwing a bone to the growling farmers, there was a slight reduction in the duties levied on agricultural implements. The duty on scythes was reduced from a specific $2.40 per dozen to an ad valorem rate of 35 per cent. There was a vigorous kick at this, and Mr. Hawthorne general manager of the Wellandvale Manufacturing Company, which controls the Canadian output, visited Ottawa to ask that the specific duty be restored. This was not complied with; but the Government apparently consoled him with the assurance that it would take other means to shield him from foreign competition. The way it did so is refreshing in its frank indecency.

By a provision in the customs law—which in itself is perfectly proper, and was, indeed, placed there by Hon. Isaac Burpee—duty on an imported article has to be paid on the actual value in the country in which it is purchased; and thus in the event of a sacrifice price being made the invoice does not constitute the basis for the calculation of the duty. This provision, with the extreme powers vested by legislation in the customs officers, can be made an instrument of tyranny; and is being constantly so employed. Most merchants have had an experience with the customs appraiser, who looks upon price lists with indifference and insists on valuing articles according to his own whims. After placing the duty on scythes on an ad valorem basis, the department found it necessary to get a statement of the actual prices at which these were sold in the United States, so that in the event of Americans seeking to slaughter them in this country the revenue would not suffer. This it was quite proper for the Government to do. But when it looked about to find a confidential agent to visit the United States and report, it chose, of all men in the world, Mr. Hawthorne; a man who was interested in making the prices as high as possible, since every added dollar meant higher duties, and therefore more protection for his own wares. If the Government had really wanted to get the information exactly, it could not have sent a man who has as little chance as Mr. Hawthorne to get it, since the American manufacturers, who alone can give the actual prices, would certainly fight shy of one who was an actual rival. But the Government didn't want the real facts; it wanted information more or less bogus, which would enable it to harass importers of scythes, and thereby give Mr. Hawthorne's company additional protection; and it very accurately concluded that no one could do this work half as well as Mr. Hawthorne himself. The natural result has followed. The Government now has a scale of American prices which represents the high water mark of possible values; and the Canadian importer of American scythes finds his goods seized; an additional duty demanded, and a considerable fine inflicted—all with a view to hinting to him that if he wants scythes he should buy them from Mr. Hawthorne.

With manufacturers telling the Government in the first place what duties shall be imposed, and afterwards fixing the value on which the ad valorem duties shall be levied, the Government seems to be doing its whole duty to its masters.

THE CASE OF NEWFOUNDLAND.

The likelihood of Newfoundland ever becoming a province of the Dominion is small until she learns to have a more moderate estimate of her worth. Half a dozen times during the past thirty years negotiations looking to union have ended in smoke because the Island put too high a value on her consent; and not even the possible loss of responsible government through failure to meet her financial engagements has reduced her ideas as to the dowry she should receive as a reward for entering the union. The terms offered by Canada at the late conference, as made public, cannot be regarded as ungenerous; but they will be thrown out of the Island Legislature with a scant show of courtesy. Canada offered to give an annual subsidy of $500,000; to assume $10,000,000 of the public debt; to take over and administer those services which in the Canadian provinces are performed by the Federal authority and which at present cost the colony nearly a million dollars annually; to extend all regulations as to the payment of bounties to fishermen to the Island; to maintain an Island Constabulary at a yearly cost of $40,000; and to allow a subsidy of $6,000 per mile for the uncompleted portion of the railway running from River Exploits to Port aux Basques. Newfoundland asked much more than this, and because it did not have its proposals accepted is not inclined to further entertain the project.

There is no occasion for Canada to feel badly over the outcome. There are many good reasons why, in any case, the accession of Newfoundland to this country would not be an unmixed blessing; first among them being the necessary introduction to our politics of international difficulties over the French Shore question, though scarcely less important is the probability that the experience of other nations as to the impossibility of nationalizing the people of a large insular possession would be repeated in this case. The people of the Island would always, in a sense, consider themselves aliens, and would require constant humoring. But, notwithstanding these real objections, Canada, in the interests of the Empire, and in charity to her sister colony, struggling to achieve impossible ambitions, should let her latchstring hang on the outside for the encouragement of the wayward sister. Nor would it be seemly to exact onerous conditions as the price of shelter. All this Canada has done and is still prepared to do; and there remains nothing more to do than to wait, without eagerness on the one hand or coolness on the other, until the Island learns that Canada is not conspiring against her freedom, as her anti-confederate politicians have it; and that she is willing, but by no means anxious, to have her on terms which will be just to both parties to the contract.

The new Free Trade Government of New South Wales has, through the Premier and Colonial Treasurer, Mr. G. H. Reid, brought down a very radical budget. The protective tariff of 1892 is to be abolished. The bulk of the duties will cease to be imposed after twelve months; and after that time the duties on candles, kerosene and sugar will be reduced year by year until they disappear. It is the intention of the Reid Government to have, in about five years' time, duties on only five lines of imports—spirits, wines, beers, tobacco and opium. As an alternative to indirect taxation by a customs tariff, the Government has adopted the principle of direct taxation, on which, Mr. Reid explained in his budget speech, it is prepared to stand or fall. A land tax of 1d. in the pound is to be imposed, as well as an income tax of 6d. in the pound on all yearly incomes in excess of £300. There is to be a thorough reform and reorganization of the Civil Service by the appointment of a permanent Civil Service Board apart from Ministerial control. Political patronage will be swept away. By this the Government anticipates a saving of a quarter of a million sterling. Our fellow-colonists at the Antipodes are never averse to the making of striking innovations. It will be some time before, in Canada, it will be healthy for a public man to propose raising revenues by land and income taxes, notwithstanding their superiority to the existing clumsy and extravagant methods of taxation.

The report of the "British Commission on the Aged Poor," recently made public, has many encouraging features. The commissioners had to deal with paupers over 65 years of age, and they found that three out of every ten persons over that age are not self-sustaining—a proportion which, though large, is much less than it was some years ago. The reason given for this decrease is no less interesting than the change itself. In the minority report, which was signed by Mr. Chamberlain, and which expressed some very mild regret at the failure of the commission to recommend some scheme of state insurance, it was stated that the diminution of pauperism is due only in part to a stricter administration of the laws, and "chiefly to the increased prosperity of the working classes generally." The commissioners did not agree in their findings. Mr. Chamberlain urged the adoption of an insurance system. Mr. Charles Booth recommended a weekly pension of five shillings. Other commissioners, Mr. Broadhurst and Mr. Joseph Arch, recommended radical and socialistic changes.

The greatest gathering of women that the world has ever seen will be that of the World's Women's Christian Temperance Union in London next month, when the Polyglot Petition which was presented to President Cleveland in November last, by Lady Henry Somerset and Miss Willard, at a great demonstration in Washington, will be presented to members of the British Cabinet. The petition now numbers over two million signatures, and will be conveyed to England in the SS. Berlin, packed in large cases. This steamer has been chartered for the delegates of the W.W.C.T.U. and their friends. It will take five large cases to hold the petition and its signatures.

The Galt, Ont., Reformer wants to know whether Newfoundland's rejection of the terms of union was due to the pride of a codfish aristocracy; or to the pride that goeth before a fall.

OTTAWA NOTES.

(From an Occasional Correspondent.)

Ottawa, May 18.—The 14th annual meeting of the Royal Society began on Wednesday morning in the Convocation Hall of the Normal School and continued until Friday evening. Dr. Bourinot, in his annual report, touched upon the free library scheme in Ottawa, which was first agitated by the local Council of Women. In Massachusetts every town of over 1,000 inhabitants has a free library, while in Ontario there are only some six or seven cities that have made any effort in that direction. One great and forcible objection is that it means taxation for the reading of novels, many of which are injurious to the mind. The report says when one looks at the mass of rubbish published every year and considers that one of the most popular novels is "Dodo," it does not say much for modern culture; but after all there may be no real fear in the establishment of free libraries, so long as there are the works of Dickens, Thackeray, Eliot, Stevenson and others, for the mind must weary of light literature and turn to something invigorating. It might be mentioned here that the Finance Committee returned the petition for our free library to the City Council with a recommendation that it be submitted to the people next January. Hon. D. G. W. Ross, during his reminiscent remarks, enumerated a list of men of letters and science in Canada of whom any country might be proud, and said that one of the pleasures he enjoyed in connection with the Royal Society was that he was the seconder to the proposal for its establishment.

On Wednesday evening, Mrs. S. E. Dawson gave a brilliant reception at her house to the fellows, delegates and the ladies accompanying them. Their Excellencies especially invited the fellows, delegates and ladies accompanying them to luncheon on Thursday at Government House, so that they might have an opportunity to become better acquainted with each other, and as invitations had been previously sent out for a garden party there was a large gathering on the lawn in the afternoon. Old Sol shone forth bravely, as though to make up for the shameful way the elements had been treating us. He was successful, for in the sunshine it was delightful. How very different from last week's garden party. Then everyone was seeking the shady places, and denouncing the unseasonable weather. The frost had spoiled the tulips; instead of standing upright in all their gorgeous beauty they were drooped and faded; but that was to be expected, however disappointing. The chapel was opened for those who wished to listen to the organ, and many availed themselves of the opportunity.

On Friday the Royal Society had an evening with the English-Canadain poets, to which the public were invited, and the large audience showed how much the Ottawa people enjoy poetry, and the enthusiastic applause told plainly that their own poets were appreciated. Still, the Rev. Prof. Clark made a point when he said that if a volume of Canadian poetry were to be published in London it would be thought first-class, and very good if published in New York, but if published in Toronto, Montreal or Ottawa it would be only third-class, or, at any rate, inferior. In his opening address, Prof. Clark said that many people claimed that Canada had no material for poetry. But have we not been making history on our own soil for 400 years? And then, is not the history of England, Scotland and Ireland ours? Indeed, so long as have thoughts, emotions, enterprises, beating in our hearts, we have poetry. It is a much debated question whether a poet can read his own poems better than can a professional reader. But, even if he cannot, there is a charm about hearing one give expression to his own thoughts, particularly when they are so musically expressed that it fully atones for any loss in the rendering. "The Song My Paddle Sings," by Miss Pauline Johnson, was to have been read by Mr. A. Lampman, but as Miss Johnson was among the audience in her Indian costume she was called to the platform and gave, instead, a piece more personal, and was encored, but Prof. Clark would allow no encores until after the programme had been finished. Afterwards Miss Johnson gave "Beyond the Blue," a phase of Canadian backwoods life. Another Indian legend was by Mr. Edgar, M.P., entitled "The White Stone Canoe," and was read in a way that brought each thought clearly before the listeners as they followed the story. Earlier in the evening Mr. Edgar read a beautiful sonnet by John Reade. The others who were encored and responded after the regular programme were Mr. A. Lampman and Rev. F. G. Scott. Mr. Lampman, who has just been elected a fellow of the English section, read "At the Ferry," in which there is a vivid description of Ottawa from the Chaudiere Falls down to Gatineau Point. When Mr. N. F. Davin, M.P., came forward to read his poem, "A Song of Canada," he said that such an audience tempted him to make a speech, but still he would like to show that a man could be a politician and also a poet, because it was thought impossible that a politician could be afflicted with the malady of thought. When asked to read, he thought he would compose something new, but it was in vain he called upon the muse; she refused to help a man who had been so deep in tariff debates. His poem was a woman's indignation at one of the many attacks of the "blusterers" to the south of us when they cry for that which they cannot get. (Applause.) The line, "Let the wolf howl," brought forth great applause.

His Excellency moved a vote of thanks to the chairman, and to those who read their own poems, as well as the poems of others, and particularly to Miss Johnson. He said he was only the mouthpiece of the whole audience, and thought the old Scotch saying, "Happy to meet; sorry to part; hope to meet again," expressed all that could be said in so short a time. The Hon. Dr. G. W. Ross, when seconding the motion, said the press was a daily felt want; a minister was useful; politicians and tariff reformers needed; but poetry we have and must always have to elevate man. In reply, Prof. Clark said he was not as strong as he looked; when he was abused he would put his back against the wall and show fight, but when he received praise he knew not what to do. He could say that the present Governor-General held a place second to none in the hearts of Canadians. (Loud applause.) He noticed that all those who had just spoken were Scotch, and although the national modesty of a Scotchman prevented him from saying much, he would add that a Scotchman loves Scotland, but loves still more the land where he makes his living, thus combining sentiment and oatmeal.

All spring there have been baseball games every Sunday afternoon over in Hull, so the Ottawa University was advertised to play against the Hull Club last Sunday, but the game did not take place, for in the morning Father Lauzon denounced the practice in his sermon, and asked his parishioners to discountenance the games, as they were a desecration of the Sabbath. Then after mass he came over to consult with the clergy of the university, and consequently the students were forbidden to play that afternoon. In spite of that there was a game played, for the National team, of this city, thought the Hull men should not be disappointed and crossed over to play them.

The Ottawa Electric Railway Company announced the quarterly dividend of 2 per cent. and a sale of 250 shares at 181. The terms of agreement for the construction of the line through Hintonburgh to the Experimental Farm were finally settled at a meeting of the directors of the O.E.R. and the municipal representatives of Hintonburgh. As soon as the Theodore loop line is finished, work will be commenced on the western extension. This enterprising company is to construct and equip the Oshawa Railway immediately. Messrs. Ahearn & Soper expect to have a line of that railway extending to Lake Ontario ready for summer traffic, and it is well known that whatever that company says it will do it does inside of the prescribed time, unless something unforeseen should happen.

To have personal recollections of the Irish rebellion in 1798 is a privilege few indeed possess, and Mrs. O'Meara, of Hull, is perhaps the only woman in Canada who can distinctly remember those heart-rending times. Mrs. O'Meara is now 110 years old, so she was then but 13, and can be seen any day sitting in the doorway of her daughter's (Mrs. Ryan's) house, smoking her pipe. Her face is deeply wrinkled, and she has long whiskers coming from both sides of her chin. She is eager to tell everyone of the terrible suffering at the time of the potato rot in Ireland. She says she remembers seeing men lie down in ditches and die there. So gruesome are her tales that one concludes that in the years of telling she must have unconsciously added to them.

CORONER AIKINS

The Principal Witness in the Hyams Case on Saturday.

Toronto, May 18.—This, the ninth day of the Hyams trial, witnessed the completion of the case for the Crown. The greater part of the day was taken up with the testimony of surgeons for the prosecution, all of whom testified that the injuries to the head showed evidence of having been made by well defined lines of force. It was also proven that there was no obstruction in the weight shaft.

Dr. W. H. B. Aikins, the coroner who thought that the death of Wells was not a subject for an inquest, spent an uncomfortable half hour in the witness box. He had been called by the defence, but under the fire of Mr. Osler's cross-questioning, made some very damaging admissions.

His Lordship decided that the evidence of character put in by the defence did not go to the extent of entering into the general reputation of the prisoners, and, therefore, the Crown could not submit evidence of bad character. The testimony of Detective Heidelberg, of New York, and of Robert Pearson, a Jersey City detective, who came here to tell of the Hyamses' past records in the States, was therefore ruled out.

Dr. Aikins, who was the principal witness this afternoon, when called stated that he had a conversation with the Deputy Attorney-General as to the advisability of giving expert evidence for the defence. The Deputy Attorney-General thought he had better not do so, and he had decided that he would not do so.

Continuing, Dr. Aikins said that he received a telephone message from Dr. King about ten o'clock on the morning of January 16, 1893, and went down on a street car. He made enquiries from one of the twins, but did not know which one. He did not notice that the man's hands were bleeding. He had a dim recollection that Fox, the expressman, was there. "I went down into the basement," said the coroner, "and saw a body there." He described the position in which he found it, and the shattered condition of the head.

After examining the body he went upstairs and examined the top flat and found the rope and hook there. He could not remember whether he had examined the first flat. He had gone there in consequence of a request by King that he should examine and see if he could hold an inquest. Under the circumstances he could not take the necessary affidavit under the law. "In cases of death by accident, mischance or natural causes, a coroner is not supposed to hold an inquest. As it presented itself to me entirely as an accident, from enquiries and examination, I telephoned Dr. King that I did not think I could take the necessary affidavit."

In answer to Mr. Osler, he said he did not think the conditions existing at the time of his examination indicated murder.

"And what you were told assisted you in arriving at your conclusion?" Answer—"Yes."

After some further cross firing between Mr. Osler and witness, the court adjourned until Monday.

Rich Red Blood

In the body of an adult person there are about 18 pounds of blood.

The blood has as its most important elements, small round corpuscles, red and white, in proportion of about 300 red to 1 white one.

If the number of red corpuscles becomes diminished and the white ones increased the blood is impure, thin, lacking in the nutrition necessary to sustain the health and nerve strength of the body.

Then That Tired Feeling, Nervousness, Scrofula, Salt Rheum, or others of the long train of ills, according to the temperament and disposition, attack the victim.

The only permanent remedy is found in a reliable blood medicine like Hood's Sarsaparilla, which acts upon the red corpuscles, enriching them and increasing their number. It thus restores the vital fluid to healthy condition, expels all impurity, cures Nervousness, That Tired Feeling, Scrofula and all other diseases arising from or promoted by low state of the blood.

That these statements are true we prove not by our own statements, but by what thousands of perfectly reliable people say about Hood's Sarsaparilla. Read the testimonial in the next column from a beloved clergyman. Then take

"In view of the benefit I have had from Hood's Sarsaparilla I wish to give the following testimonial. I have several times been badly

Poisoned With Creeping Ivy.

As the old school of medicine simply tried to remove the symptoms instead of the sources of them, much of the poison was left in my system to appear in an itching humor on my body with every violent exertion in warm weather. At all times there were more or less indications of poison in my blood, up to a year ago last winter, when

Large Sores Broke Out

on my body. I then purchased a bottle of Hood's Sarsaparilla, and after using that and a half of another bottle, the sores and humor disappeared. I attended the Christian Endeavor Convention in Montreal and also visited the World's Fair in the hottest weather of the summer. Was on the go all the time, but

Had No Recurrence

of the burning and itching sensation which had marred every previous summer's outing. I have reason, therefore, to be enthusiastic in my praises of Hood's Sarsaparilla." SAMUEL S. SCHNELL, pastor of Free Baptist Church, Apalachin, N.Y.

Kingston, May 18.—Anthony Farwell, farmer, was killed near Sharbot Lake in a runaway. His wife and child were also badly injured.

Findlay, Ohio, May 18.—The Sagem Wire Nail Company and the Findlay Company have advanced wages 10 per cent. This advance affects 6,000 men.

New York, May 18.—Arthur M. Wellington, editor of the Engineering News, died at his residence, 34 Gramercy Park, after a prolonged illness of kidney disease.

Athens, May 18.—Several earthquake shocks occurred this morning on the Island of Zante. The people were panic-stricken, but the damage is slight.

London, May 18.—Mr. E. M. Satow, British Minister at Tangier, Morocco, has been appointed British Minister at Tokio, Japan, in succession to the Hon. P. Lepoer Trench.

Hamilton, Ont., May 18.—Charles L. Briggs took an overdose of chloral last night, and died from the effects. It is not believed that he intended suicide. He was formerly a successful business man in Buffalo.

London, May 18.—Mr. Gladstone is suffering from an attack of lumbago. It is said that he will go cruising in June on the Mediterranean in Sir Donald Currie's yacht Iolanthe. Mr. Gladstone has accepted an honorary membership of the lodge of Oddfellows at Hawarden.

London, May 18.—A despatch to the Times from Tien-Tsin says that France, Germany and Russia object to any financial scheme, under which China shall confer special rights on any nation. This frustrates the reported proposals of an American syndicate to advance the amount of the indemnity.

London, May 18.—The Times prints a despatch from Hong Kong, which says that Anarchy prevails in the northern part of the Island of Formosa and riots are of daily occurrence, numerous persons having been killed and wounded. General Ku Hung Kuk, a Hatta chief, has proclaimed himself king of the northern portion of the island.

Benton Harbor, Mich., May 18.—The most disastrous frost of the week on Thursday night froze grape buds and leaves solid. Vineyards look as though a fire had swept over them, not 20 per cent. can now mature, even in the more sheltered places. Some growers were working with fires in various portions of their fields, hoping to lessen the damage, but ice had formed on the underside of leaves at midnight, and a thick white coat covered the ground and foliage. Peaches will be injured.

The National Conservatory of Music.

The examinations for the admission of pupils to the National Conservatory of Music, founded by the Canadian Artistic Society, have been going on for two weeks. A great number of pupils have been examined, and the professors are very well satisfied with the result. Let it not be overlooked that the lectures, which are to commence in the month of September, at this institute, will be given gratuitously by the professors, whose names have already appeared in the papers. These professors are sufficiently well known not to make it necessary that we insist on their merits. Every talented Canadian is cordially invited to benefit by the great inducements offered by the above mentioned society.

The examinations will be carried on at the Conservatory, No. 210 St. Lawrence Street, at the Monument National, to-day and Thursday of this week, 20th and 23rd of May, at 10 a.m.

To every person who has requested an admission to the National Conservatory of Music, be it for vocal or instrumental music, and has not yet presented himself, we would enjoin to call at the above mentioned time. The sole condition upon which one can be admitted is to be provided with a certificate testifying that they are not in a position to pay for such advantages. This certificate should bear the signature of a clergyman, the Mayor, or any well known citizen.

You can have your pianos or organs put in good order on application to us. None but first-class workmen kept by the N.Y. PIANO CO.

A New Company.

Henri Lemire, notary; Arthur Fiset, notary; Pierre Catelli, manufacturer; Edouard Pambrun, gentleman, and Chas. Auguste Rocher, advocate, of Montreal, are applying for incorporation by the name of "The National Sculpture Society, with a capital of $50,000.

Hit by a Jug.

At the unseemly hour of 2 o'clock Sunday morning a jollification was in progress among some gentlemen inmates of a Brunswick Street boarding house. There was a convivial little party of four or five, some of whom were by no means young, and the occasion was one of good cheer in the usual hospitable style of Brunswick Street boarders. There was a little dispute, a little scuffle, and one of the party picked up a large earthen water jug and struck a gentleman named Weir over the head with it. The jug was shattered to pieces, several of which were embedded in Mr. Weir's head. His right ear was nearly cut off, and he was a pretty bad wreck by the time that the General Hospital ambulance arrived. He was removed and his wounds dressed, and by the afternoon was able to leave the hospital.

A GAME OF BLUFF.

The Water Cut off Westmount Where There is Only One Consumer.

Waterworks Superintendent Davis received the following letter from City Treasurer Robb Saturday:

City Treasurer's Office,
Montreal, May 18, 1893.
A. Davis, Esq., Superintendent Water Department.
Sir—You will please stop any water supply which may exist in connection with the Water and Power Company of the municipality of Westmount (Cote St. Antoine) through the mains of the city.
W. ROBB,
City Treasurer.

A Herald reporter went to the Water Department when he heard that this letter had been received by Mr. Davis, and he learned that the city does not supply water by main to Westmount. Mr. Seargeant is the only resident of Westmount who is supplied with water from the city, and this he received through a one-inch pipe.

Ald. Penny, on being interviewed in reference to the matter said: "That order to cut off the water supplied to Westmount is simply a piece of bluff procured by the friends of the Water and Power Company. Westmount receives no supply of water from the city at all. If the intention were to bring the Water and Power Company to terms the supply would be cut off from Maisonneuve, which, I understand, owes the city $4,-000 for water. It is ridiculous to single out Westmount. I cannot for the life of me comprehend why so long a delay has taken place in regard to giving effect to the resolution of the Finance Committee. It would seem as if some strong occult influence were at work in the matter."

Honors to Canadian Actuaries.

The "Institut des Actuaires Francais," has recently conferred the title of corresponding member of the society on two Canadian actuaries, Mr. T. B. Macaulay, F.S.S., A.I.A., secretary and actuary of the Sun Life Assurance Company of Canada, Montreal, and Mr. Wm. McCabe, LL.B., F.I.A., manging director of the North American Life Assurance Company, Toronto. The distinction which this title implies may be judged from the names of the seven other gentlemen in English-speaking countries who have been thus honored: Messrs. D. Parks Fackler, New York, and Howell W. St. John, Hartford, both ex-presidents of the Actuarial Society of America; I. C. Pierson, New York, secretary of that society; Rufus W. Weeks, New York, actuary of the New York Life; Augustus Hendriks, London, ex-president of the Institute of Actuaries of Great Britain; George King, London, vice-president of the institute, and H. W. Manly, London, a member of the council of the institute.

A Violent Death.

(Special to the Herald.)

COAL HEAVERS' STRIKE.

Attempt at Reconciliation—The Murcia Sails.

There was every prospect of a good sized row Saturday morning at the Hochelaga Docks of the Dominion Coal Company. The men who had gone on strike were surprised to see a number of Italians taking their place in unloading the coal steamer Murcia. The union men assumed such a threatening attitude that the Italians fled from the vessel. In their haste two of them dropped into the river, but were rescued. The patrol waggons were called out and the men quickly quelled the riot. The steamer Murcia sailed yesterday morning with a portion of her coal.

Black Diamond Assembly and Grand Hermine Lodge (French), of the Knights of Labor, held a meeting yesterday afternoon at 662 1-2 Craig Street. There were about 700 persons present, 400 of the first named lodge and 300 of the latter. Superintendent McKenzie, of the Dominion Coal Company, sent a message to the meeting, asking them to send delegates to meet him and Mr. Hugh McLennan and Mr. Kingman Brown, of the coal company, this morning at 11 o'clock to endeavor to arrange a settlement of the present difficulties between the coal handlers at the Hochelaga towers and the company. Mr. McKenzie stated that the company were willing to accede to the demands of the men, with the exception or reinstating the engineers who went on strike with the coal handlers. The meeting was unanimous in its intention to stand by the men, and stated that unless the hands are re- engaged the strike will be continued.

The firemen who came from Farnham all went home Saturday. They are members of the Brotherhood of Locomotive Firemen and have steady work, but by some means get leave of absence to come down here to work in the summer. The Montreal union communicated with their society and they were given the option of staying in Montreal for the summer or of keeping the steady job. They chose the latter. All the engineers who worked Friday and Saturday have decided to quit work, except one. These men would have stopped at once, but they thought it advisable to hold a meeting first. This meeting was held yesterday morning with above result.

If the coal boats go to any other wharves to be unloaded the men state that the strike will be extended to those wharves.

PROTESTANTISM.

ITS CONDITION IN EASTERN ONTARIO AND QUEBEC.

Paper Read Before the Presbyterian Synod at Its Session in Sherbrooke.

(Special to the Herald.)

Sherbrooke, Que., May 18.—Immediately after the report on education at the Presbyterian Synod, the Rev. J. R. MacLeod read a paper on the condition of Protestantism in the bounds of the Synod. In order to get a clearer idea of the condition of Protestantism within the Synod, he divided the Synod into two parts, viz., 1, that portion of the Province of Ontario embraced in the Synod, which includes Ontario as far west as Brockville and Nipissing District; and 2, the Province of Quebec.

The reverend gentleman stated that in the first portion of the Synod indicated the Protestant population is ascendant, and gradually increasing. Only in a very limited section is there any decrease of the English-speaking Protestant population, which decrease is attributed to the removal of some families westward, and the flow of young men to the cities. In many portions of the Province of Quebec the state of matters is different. In several portions of the Eastern Townships, in the Counties of Chateauguay, Huntingdon and Argenteuil, there is a gradual decrease of the branch of the population. Various reasons for the exodus were assigned, such as: 1, the severity and length of the winters; 2, poor character of the soil in some portions of the province; 3, the tendency of population toward the cities; 4, the tendency of young men to enter the learned professions or follow commercial life; 5, difficulty of sustaining schools; 6, disabilities and difficulties under which Protestants labor in this province. Some of these were pointed out, such as:

The erection of ecclesiastical parishes by bishops of the Roman Catholic Church —which parishes become civil municipalities. It was held that at times this was a grevious gerrymander of Protestants.

The depreciation of property and increase of the burden taxation.

Here it was pointed that the Roman Catholic Church (with its many orders of brotherhoods and sisterhoods) is ever increasing its possession of real estate; that as soon as it becomes such property it becomes free from taxation; that in consequence the burden of taxation on the taxable property is increased.

It was held that the treatment which Protestants receive at the hands of the powers that be is very different fron that accorded to their fellow citizens—Roman Catholics. A contrast was vividly drawn between the treatment given by the federal authorities to Protestants in the matter of the Jesuits' Estates Act and to Roman Catholics in the Manitoba School matter. In the first case Protestants claimed they had a grievance; that a wrong was done them; that their consciences were wounded. They sent petitions to the authorities at Ottawa, some of which were not considered nor acknowledged till the time for remedy had expired; that other petitions were virtually waste-basketed; that a request was made to submit the matter to the courts to test its legality (a private citizen guaranteeing the cost); that this request was spurned; that deputations waited on the Governor-General for the time

WHO RECEIVED BUT SCANT COURTESY

at the hands of Her Majesty's representative—he being guided in the matter by his advisers; that the House almost by unanimous vote found that act to be intra vires and the matter there ended without any attempt whatever being made to hear or remove the grievance complained of.

How different the treatment given to Roman Catholics in the Manitoba School Act ! Here Catholics complained that a wrong was inflicted upon them: that they had a grievance. They sent petitions which were at once considered; they sent deputations which were most graciously received. The Government in their behalf submitted the matter to the highest tribunals of the Realm and that at the public cost; that when a decision or two was given in favor of the Manitoba Act, other questions were submitted; and that as soon as the Privy Council decided that the minority have the right of appeal, the Government hastily passed a remedial order—and there the matter stands.

"We shall see in a few weeks," said the speaker, "whether the Dominion Government and the House of Commons will have as sacred regard for the provincial autonomy of Manitoba as they had for that of Quebec a few years ago. Why this difference of treatment of the subjects of the same Sovereign?" He could give but one of two answers: either the Government is one that is guided by political expediency, or else the hierarchy have the Government by the throat, so to speak, and with threats or promises, as suits their purpose, force or persuade them (the Government) to do their bidding.

As to the remedy against the exodus complained of, Mr. MacLeod urged the loyal support of the weak charges or congregations and those who stand by them; the general use of the English language in all the schools (but not to the exclusion of the French); the repeal of the law which enables bishops to erect civil municipalities at their will.

The speaker further held that the Synod should in every way possible lend aid to all in this province who are crying for better education for their children, be they French or English, Catholic or Protestant. This paper was warmly received and called forth applause at various points.

The Rev. S. J. Taylor followed with an address on

FRENCH PROTESTANTISM WITHIN THE BOUNDS.

He showed that there are more than 12,000 French Protestants in the Dominion, whereas there were not a hundred fifty years ago. He further showed that a large number of the French in this province are seeking for blessings which are at present denied them, especially more efficient schools for their children. Mr. Taylor's address was a most tender plea for the enlightenment and advancement of French fellow-citizens who he claimed are our equals in many respects and who might be our superiors had they our advantages. The consideration of these papers was left over for the evening sederunt.

At yesterday afternoon's session of the Synod they heard the appeal from Lanark and Renfrew presbytery on the Graham case, and in the evening it was referred to a committee to prepare a deliverance on the subject. Subsequently the committee reported recommending the dismissal of the appeal, and sustaining the action of the presbytery of Lanark and Renfrew, which on a vote being taken was adopted. At 8 p.m. a discussion on the papers read in the morning was commenced, and the authors, Rev. J. R. MacLeod and J. S. Taylor received the thanks of the synod for their able contributions. A committee was appointed to wait on the Government in reference to inadequate representation of the church on the Protestant section of the Council of Public Instruction. Reports on Sabbath schools and mission to lumbermen were presented, and at 10 o'clock this morning synod adjourned to meet in Erskine Church, Montreal, on the second Tuesday of May, 1896.

BUILDINGS COLLAPSED.

Inmates Buried Beneath the Wreck and Killed.

Providence, R.I., May 18.—A two and a half storey wooden tenement house, owned by Joseph Le Moine, and occupied by him and several other French families, in that part of the town of Coventry known as "Jericho," seven miles from this city, collapsed yesterday afternoon and three persons were killed and eleven injured, two of the latter fatally.

Chicago, May 18.—Three men were buried last evening under a brick wall which collapsed at the Globe Moulding Works. One of the men, William Nangle, was so badly injured that he died within a few minutes of being taken to the hospital. Of the other two, James Carbino received a fractured skull and will probably die, and Thomas Burns, who was badly battered up about the body, will recover.

CAMBRIDGE CRICKETERS.

Coming in August to Play in the United States.

London, May 18.—Arrangements were completed yesterday evening by Mr. Scott, of Philadelphia, for a Cambridge University cricket team to visit the United States. The English cricketers will leave England on August 23 and will play a series of matches at New York, Boston and Philadelphia. Mr. Scott sails for New York to-day from Liverpool on board the Cunard Line steamship Campania.

N.Y. Piano Co. is the leading house for tuning and repairing and regulating pianos. Send or call telephone 2045. Fine dry storage for furniture, pianos or organs.

People Who Are Ill.

Washington, May 18.—Secretary of State Gresham is better.

Representative Hitt is also better.

Miss Mary Abigail Dodge (Gail Hamilton), is much worse to-day. Her condition is regarded as very critical and made serious in view of her advanced age. She has been sinking steadily for some hours.

IN THE WEST.

Word From the Northwest Territories About a Marvel of Modern Science.

Calgary, May 14.—The fame of Dodd's Kidney Pills has spread all over the Northwest, and they have come into universal use, being found in almost every farm house and village throughout the territories. The cures of Kent, Drs. Rose and McCormick, Rymal, Fisher, and dozens of others have been eagerly read and have consequently produced a large demand. People are becoming convinced that a very large percentage of diseases may be traced, as it was in these cases, to the action of the kidney's in failing to do their proper work, and inducing rheumatism, paralysis, Bright's disease, diabetes and blood poisoning.

NEW YORK STOCKS.

The New York Post of Saturday says: The bank statement was a special point of interest and curiosity to-day; for the movement of money during the period covered by to-day's returns of averages has been rather remarkable. At the close of last week something like $12,000,000 was turned over by the bond syndicate to the auxiliary banks. To-day's statement shows that this was paid in legal tenders; for holdings of that form of money increase $11,148,100. It is reasonably certain that payments made as described came from the special fund whose withdrawal from the market supply a month ago, caused so much perplexity in analysis of weekly bank returns. The statement, however, hardly reflects the full increase in the local money supply. Fully $3,000,000 is believed to have come this week from the interior, and nearly $2,000,000 net was paid out here by the treasury. What the week's actual gain has been must therefore remain somewhat a matter of conjecture. The loan account has meantime expanded $6,374,600, and this in the face of enormous profit taking by speculators. This shows, at all events, the over adequacy of the supply of money for current needs, and amply explains the one per cent. money rate at the very time of heavy speculation. Probably this, like many other seeming inconsistencies, has its explanation in the enormous purchases by Europe, paid for in exchange. In stocks, to-day's movement was not important, and was interesting chiefly as showing the state of the speculative mind. Attention has for some time been converged on a rumored "deal" in Reading, through which the anthracite complications might finally be adjusted. That the control of this property was gradually changing through continuous purchases of its stock and bonds, the stock tables have themselves made evident. But this was not enough for Wall Street. Precisely as an irresponsible rumor-monger in Tacoma started lately a silly story that the "Sugar Trust magnates" were buying Northern Pacific, so a tale of "Vanderbilt purchase" of the Reading was loosely contrived, and was published to-day, with amusing detail, in several more or less responsible quarters. Professional traders, noticing these oracular statements, put up Reading stock 3-4, Jersey Central 1-8, and other coal stocks proportionately. Towards noon "the Vanderbilts" calmly announced that they had nothing to do with Reading, and the trader's bubble of the day collapsed.

NEW YORK GOSSIP.

J. S. Bache & Co., New York, telegraph their Montreal manager, C. D. Monk, as follows:

London market heavy; prices ½ lower for St. Paul and L. &. N.; ⅜ lower for U.P. and N. Y. C.; Reading ¼ lower.

The air is full of rumors in New York of Vanderbilt control of Reading, but the story is getting a little shop worn.

Texas Pacific second week decrease $1,213, Canadian Pacific increased $6,000.

Trade reports are all encouraging.

Clearings outside of New York 11 per cent. larger than last year.

The miners' strike at Pittsburg collapsed last night. Work will be resumed at operators' terms.

It is said that a block of a million Illinois Central bonds held by a syndicate has been sold abroad.

Missouri Pacific, 2nd week May, increase, $25,000; year to date, decrease, $184,000; Central branch, 2nd week, decrease, $6,000. St. Louis South Western, 2nd week, increase, $9,300. Louisville, Evansville and St. Louis, 2nd week, increase, $3,862. C. and O., 2nd week May, increase, $61,540; July 1 to May 14, increase, $337,386.

Chicago special: McNulta filed a petition in the United States Court yesterday afternoon on the subject of payment of leases. He sets up that there are 67 different parcels of land under lease by the trust, that distilleries on some of these lands have been permitted to fall into disuse, have been abandoned or dismantled. He asks for an order of the court to pay rentals of present quarter on 35 of these leases, the aggregate of which is $20,861. As to 27 leases of land where distilleries have been in disuse, he asks authority to investigate further, and as to five pieces of land which appear to have been abandoned or the lease annulled, he asks for an order to formally annul.

No Contract Yet.

Sir William C. Van Horne was seen Saturday with reference to the rumor that the New York Central, Michigan Central and Canadian Pacific had formed a combination to complete the Toronto, Hamilton and Buffalo Railroad with the understanding that the C.P.R. should control that part of the road between Toronto and Hamilton.

Sir William stated in effect:

"This is not the first time that the name of the Canadian Pacific Railroad has been connected with that of the Toronto, Hamilton and Buffalo. When a contract is made between these companies I will let you know."

COMMERCIAL.

Saturday, May 18.

J. S. Bache & Co.'s Chicago letter today said: "Board of Trade markets opened with a weaker feeling among local operators and rather free selling for both long and short account was the order of the day. Longs having large and suddenly acquired profits in sight, were disposed to realize. Professional bears, who had been watching to take advantage of such a condition, were heavy sellers to recoup recent losses. Wheat, having had the largest advance, was the object of the severest attack, and July receded 3-4c to 70 1-2c, after having sold at 71c on the curb last night. The market finally steadied around 70c on new public buying, and later advanced to 72 1-2c, owing to distress of shorts who were called for unusual security on contracts for future deliveries of all grains on account of the signal service prediction of severe frosts in Western and North-western States to-night. Final closing price of July was steady at 71 1-2c, a gain, compared with 24 hours ago. The advance was chiefly owing to speculative conditions, and the ordinary statistical news of the day was hardly mentioned.

"Corn opened easy, and declined 3-8c to 1-2c on local raiding, induced by receipts of 700 cars and early estimate of 1,000 cars for Monday. Later estimates were for 550 cars only, and short sellers caused a cyclonic advance of 4 5-8c by trying to cover on predictions of a heavy frost throughout Kansas and North-western States to-night.

"Oats and provisions lagged, but advanced finally on buying, done in sympathy with the wheat and corn markets."

Exports of wheat, including flour as wheat, from the United States, both coasts, for the week ending May 16, according to Bradstreet's, were equivalent to 2,397,513 bush, against 2,805,320 bush last week, 2,420,900 bush for the same week last year, and 3,885,120 bush two years ago. Exports of corn were 1,210,728 bush, as compared with 933,897 bush last week, 1,111,600 bush a year ago, and 1,274,875 bush two years ago. Since July 1, 1894, to May 17, 1895, the aggregate imports of wheat and flour were equivalent to 130,677,510 bush, against 151,869,351 bush for the same period last year, and of corn, 214,491,690 bush, against 57,728,310 bush last year.

Special late cables report red winter wheat futures at Liverpool firm at 1-4d to 1-2d advance; spot firm and 1-2d higher. Corn futures steady; May, 3-4d higher; distant deliveries, 1-4d lower. At London wheat cargoes off coast were firmer, 3d higher; corn quiet. Sales, 6 cargoes wheat and 1 cargo corn. Wheat on passage firmer, 6d higher, and corn quiet. At Paris wheat was firm, 1-2c to 3-4c a bush. higher; flour firm, 50 centimes higher. At Berlin wheat was steady, 5-8c to 3-4c a bush higher. At Antwerp wheat was firm.

The English farmers' deliveries of wheat in 196 towns in the United Kingdom during the last week were 43,200 quarters, at an average price of 22s 10d, against 48,600 quarters at 22s 4d the previous week.

The Chicago Herald says: "Who has made the money on this 14c wheat advance? The outsider must have made the most of it. It would be a good deal easier to give a list of losers, so far as Chicago is concerned, than a list of the other sort. The assumption is that Armour has done better than anyone else, although there are those who believe he thought the bull turn was over when the price of July got to 65c. He certainly was an enormous seller at around that figure and under. Kent took his profit long ago. Wall Street is supposed to have done well; well, at least, in recouping past losses. Professionals? Well, the list of the winners among these is short. John Lyon has bet the market like a man thirty years younger. Some idea of what he has done can be judged from a proposition he made one commission man to start with a line of 2,000,000 bush. The pit thinks George T. Smith and the so-called Smith-Trego party must be well up at the top of the list. The Englishmen have done well. Tom Welles has been talking $1 wheat since he came back from Europe. Like everyone else, he talked and bet it too soon, but he is not the sort to get tired out. Ward and White are both long. Then there are W. T. Baker and Frank Dunn, and T. M. Baxter and the Congdon party, and Driver. That would about close the list. Mitchell and John Scott are about the only scalpers who have played it right; all the rest are in mourning."

The following table gives the movements of grain and flour at given points.

	Receipts.	Shipments.
Chicago—Wheat, bush	8,000	91,000
Corn, bush	231,000	110,000
Oats, bush	31,000	94,000
Flour, brls	9,034	4,025
New York—Wheat, bush	218,500	......
Corn, bush	80,925	35,578
Oats, bush	15,600	441
Flour, brls	8,163	9,801
do., sacks	6,414	260
Chicago—Wheat, bush	12,000	4,000
Duluth—Wheat, bush	19,000	165,000
Detroit—Wheat, bush	53,000	13,000

Grain—All lines continue to show more or less strength, but business at the moment is not especially active. Oats are quoted on the basis of 43c here, while a lot of business has been done in the west within the range of 36 1-2c to 37c. Peas are strong, but rather inactive. Exporters, however, show more disposition to trade.

Wheat, No. 1 hard	00c to 00c
Wheat, No. 2 hard	Nominal.
Corn, duty paid	Nominal.
Peas, per 66 lbs. afloat	74c to 75c
Oats, per 34 lbs. in store	42½c to 43c
Rye, No. 2	55c to 56c
Barley, feed	50c to 51c
Barley, malting	58c to 59c

Flour—The further advance in wheat has imparted additional strength to the flour market, and there is every indication that prices will go higher next week.

That the country trade are acquainted with this fact is quite evident. Orders are pouring in from all points, buyers being anxious to get booked at the lowest prices possible.

Ontario flours have lost none of the strength which has been manifested right along. The demand, however, is said to be a little slower.

No new business has been accomplished with the other side, but several cables were received.

Straight rollers	$4.10 to $4.25
Extra	0.00 to 3.75
Superfine	0.00 to 0.00
Fine	0.00 to 0.00
Strong bakers', Man., best brands	0.00 to 4.50
Spring patents, Man	0.00 to 4.65
Winter patents, Ontario	4.30 to 4.40

Meal—A fair demand exists for this time of year, and prices in sympathy with the advance in oats are strongly maintained.

Granulated and rolled, per brl	$4.05 to $4.15
Granulated and rolled, per bag	2.00 to 2.05
Standard, per brl	4.00 to 4.05
Standard, per bag	1.90 to 2.00

Feed—Manitoba millers were asking $16.50 for bran to-day and $19.50 for shorts. A fair business was put through. Mouille is unchanged.

Bran	$16.00 to $16.50
Shorts	19.00 to 19.50
Mouille	21.00 to 23.00

TELEGRAPHIC MARKETS

Toronto, May 18.—Market firm. Wheat—A few odd cars of Ontario white sold at 88c west and 90c asked for more with 88c bid. Manitobas strong, buyers bidding 85c for NO. 1 hard afloat and holders asking 87c; it was held, Montreal freights lake and rail, at 92c and 93c Toronto and west.

PRODUCE AND PROVISIONS.

Cheese—The cable furnished the feature for another day. The declines continue, and white and colored are now quoted down to 43s and 44s respectively.

Locally there is nothing new. No business of importance has been put through, and prices are nominally the same.

The N.Y. Commercial Bulletin says: "Small cheese were in large accumulation early in the week, and liberal inducements offered to exporters who relieved the market of a good many at 5c to 5 1-2c, and tone at the close is about steady at 6c to 6 1-4c, occasionally 6 1-2c in a peddling way. Part skims in moderate supply, but very few wanted, and most of the few sales have been at 2c to 3c, though a few of the best have reached 3 1-2c to 4c. At Sinclairville yesterday 250 boxes were offered; 100 boxes sold at 6 1-8c to 6 1-4c, balance consigned. Exports for the week foot up 19,295 boxes, including 11,594 boxes to Liverpool, 3,791 do to London, 3,705 do to Glasgow and 200 do to Bristol."

Hodgson Bros.' Liverpool circular says: "The demand for choice old has been to a moderate extent, which has been met by holders at a decline of about 1s per cwt. We quote to-day: Finest September-October make, 46s to 47s per cwt for colored, and 45s to 46s for white. Low to medium grades are difficult to move, although offered at irregular prices; we quote such at 15s to 30s."

Butter—There is nothing new in the butter market. A few small lots of creamery have changed hands at low prices.

Speaking of butter, Hodgson Bros.' Liverpool circular says: "It has been offered at a considerable reduction this week, which has brought on an improvement in the demand. We quote to-day: Finest States creamery, 48s to 52s: finest Canadian creamery, none offering; States ladles and imitation creamery, 44s to 47s; finest Australian, in boxes, 65s to 71s. Irish butter—Cork firsts, 66s per cwt; seconds, 61s; thirds, 47s, and fourths, 38s."

NEW BUTTER.

Creamery, fancy	15½c to 16½c
Eastern Townships	13c to 15c
Fancy Western	10c to 13c

Eggs—The market is easy, with sales at 10c to 10 1-2c.

Pork-Lard—There is somewhat less demand for Canada short cut pork, but prices are well maintained.

Canada short cut mess, per bbl.	$16.00 to $18.000
Beef, extra mess, per bbl	00.00 to 00.00
Beef, plate, per tierce, 300 lbs	10.50 to 11.00
Hams, city cured, per lb	0.10 to 0.11½
Bacon, per lb	0.10 to 0.11
Lard, pure Canadian, per lb	0.08 to 0.09½

OTTAWA, Ont.

HIGHER STILL.

WHEAT IN CHICAGO SCORES ANOTHER BIG ADVANCE.

VIGOROUS FLUCTUATIONS IN CORN — THE MARKET HIGHER.

The bulls had things pretty much their own way again to-day, and at one time ran the price of July wheat up to 72 1-2c. The market closed strong at 71 3-4c for both July and September, a gain of 1-2c from yesterday's close.

While the market was on its upward career the excitement among local traders was even greater than on the day before. The "ticker" on 'Change was surrounded continuously, while the instruments and quotation books in the brokers' offices on the street were scanned by a no less eager crowd. The corn longs who were not given an opportunity to participate in the general jubilation manifested among the wheat traders yesterday came more in evidence to-day. Corn distinguished itself. Shortly before noon —Chicago time—the market went up by leaps and bounds, July touching 53 3-4c and September 56 3-4c. The options closed at 53 1-8c to 54 1-4c respectively, making substantial gains for the day.

Traders of late have been almost unanimous in attributing the repeated advances in wheat to the bad crop news, but at the same time they do not lose sight of the fact that the bulls have shown remarkable aggressiveness on the slightest opportunity. The general disposition to buy wheat is more noticeable than ever, and according to Chicago advices, much of the wheat that was thrown over to-day by profit takers was greedily absorbed by a fresh lot of outside investors. A special said: "Large number of new investors are on the floor, and commission houses are doing a big business."

One of the most interesting and important items of the day, and one which already has been pretty well discounted, was the estimate of Monday's visible. The authorities said that the decrease will amount to nearly 4,000,000 bushels.

Wheat's statistical position seems to be improving weekly. Decreases in home supplies have quite reached expectations. In fact the only real drawback seems to be the extraordinarily heavy shipments from Russia and Argentina. Regarding shipments from the latter place, private advices place them at 1,440,000 bushels for the week ending Friday, against 1,530,000 bushels for the preceding week.

THE CROP.

CONSIDERABLE DAMAGE DONE TO WHEAT IN ONTARIO.

A prominent grain man in Winnipeg writes as follows to a local dealer: "I made a personal inspection of some wheat fields a little west of Winnipeg, and found the plants just slightly nipped with frost. The recent rains have given considerable moisture to the ground, however, and the outlook is more encouraging." The Toronto Globe contains the following: "Mr. Charles Band, manager for James Carruthers & Co., of this city, has just returned from a visit to Brampton and vicinity, and reports that the winter wheat there is much damaged. Not only was it frozen badly by the recent frost, but ensuing snow broke it off about four inches above the ground, whereas its growth had been about 12 inches. Mr. Band brought some samples of the damaged stalks back with him. Another gentleman who has been on a trip over the G.T.R. west, and has viewed the crops carefully in the vicinity of Blyth, says that practically the same conditions exist out that way as Mr. Band reports. The frozen and broken stalks of winter wheat are now beginning to dry, and the fields smell as if haying time were in progress. The result will be a delaying of the maturing of the grain, even if the stalks are not permanently injured."

WHEAT LOCALLY.

THE MARKET VERY STRONG IN SYMPATHY WITH CHICAGO.

Manitoba wheat is higher. No reliable values have been established, however, owing to the almost complete absence of business.

Wheat afloat, Fort William is held from 87c to 90c, while 70c is being occasionally paid to farmers in the interior. Millers are willing to pay that price for all they can get. A car of No. 1 hard Manitoba wheat actually sold in the west at $1.01, but the sale was an exceptional one, and scarcely affords a criterion of the market.

A miller reported on 'Change to-day that he bought 50,000 bushels of No. 1 hard at Fort William in the early part of the week.

There is another cargo of wheat en route to Kingston, consigned to a leading miller. It will, of course, with the rest, go into consumption.

MONTREAL SHIPMENTS.

CONSIDERABLE QUANTITY OF GRAIN SHIPPED SINCE NAVIGATION OPENED.

Grain shipments from Montreal since navigation opened have been quite large. The total shipment of wheat is 143,528 bushels, and corn, 145,900 bushels. Several manifests have not yet been filed, so that more grain has gone out than the figures given below denote. In detail the shipments are as follows:

	Wheat.	Corn.	Peas
Liverpool	111,928	83,691	22,1 0
Glasgow	......	45,456	8,97.
Avonmouth	31,600	16,753	......
Total	143,528	145,900	31,078

There is no particular change in freight rates. Grain space to Liverpool and Glasgow has been taken at 1s to 1s 3d, and 1s 3d to 1s 6d to London. There is a good demand for sack flour space. Quotations are: Liverpool, 6s; Glasgow, 7s, and London, 8s.

PROVINCIAL PROHIBITION.

Leave Granted to Ontario to Appeal to the Imperial Privy Council.

London, May 18.—The Privy Council has granted permission to the Attorney-General of Ontario to appeal from the decision of the Supreme Court of Canada of January, 1895, with reference to the right of provincial legislatures to pass a prohibitory liquor law.

A SUFFERING ARMY

Borne Down by a Relentless Foe.

The great army of sufferers from various rheumatic conditions joyfully welcome Chase's K. & L. Pills because the foster parents of their aches and pains are the Kidneys, which, on account of a diseased condition, are unable to relieve the blood of uric acid poison, which is deposited in the joints, producing on the first provocation irritating aches and pains in the bones, joints and muscles. The reason that Chase's Pills relieve and cure is their wonderful power in restoring degenerate Kidneys to a perfect and natural condition, without which the system is supplied with blood teeming with poison that adds fuel to the fire of rheumatic complaints, demoralizing the entire system and rendering it liable to a complication of diseases terminating in dropsy, diabetes or Bright's disease. A pleasant feature of these Pills is that while most Kidney remedies encourage constipation, Chase's relieve and cure it. In nearly all rheumatic attacks there exists constipation of the bowels, which is easily overcome by Chase's Kidney-Liver Pills, in fact, they are a perfect cure for constipation. This is endorsed by Edward Garrett, editor and proprietor of Bradford, Ont., Weekly Witness, and thousands of others. One pill a dose, 25 cents a box. The cheapest medicine on earth.

"HEALTH FOR THE Mother Sex."

MILES' (Can.) VEGETABLE COMPOUND (price 75c) cures Prolapsus Uteri, Leucorrhœa, and all weaknesses of the female sex.

The periodic pains to which every woman is liable are perfectly controlled and the dreaded time passes by almost unnoticed. Ladies who suffer from uterine troubles must of necessity turn to the most reliable help, and thousands testify that MILES' (Can.) VEGETABLE COMPOUND is that remedy and sure cure. Letters from suffering women addressed to the "A.M.C." Medicine Co., Montreal, marked "personal" will be opened and answered by a confidential lady clerk, and will not go beyond the hands of one of the "Mother Sex." Druggists everywhere sell MILES' (Canadian) VEGETABLE COMPOUND. Price 75c.

IN BEHALF OF CHATELLE.

Ottawa, May 18.—The case of Chatelle, the murderer of Jessie Keith, sentenced to be executed on the 31st instant, has taken a new turn. His lawyer, Mr. East, has submitted a contention to the Department of Justice that the man is afflicted with a peculiar form of insanity mentioned in the works of a German expert, and that he was, therefore, irresponsible for his crime.

FOR BREACH OF PROMISE.

Birdie Sutherland Brings Suit Against Hon. Dudley Marjoribanks.

London, May 18.—A writ has been issued for breach of promise of marriage to Miss "Birdie" Sutherland, a chorus girl at the Gaiety Theatre, and a reigning beauty of the Music Hall stage, against the Hon. Dudley Churchill Marjoribanks, eldest son of Baron Tweedmouth and of Fannie Octavia Louisa, daughter of the seventh Duke of Marlborough, his wife. Amongst counsel retained for the plaintiff are Sir Edward Clarke, who has been the leading counsel for Oscar Wilde in his recent trial, and Mr. C. F. Gill, who was junior counsel for the Marquis of Queensberry in the suit of Oscar Wilde against him for libel, and who afterwards appeared on behalf of the treasury in the prosecution of Wilde in his subsequent trial.

ANGERS—PACAUD.

The Action For Contempt Comes Before the Court.

Quebec, May 18.—The special term of the Court of Review, to hear the argument in the case of Angers vs. Pacaud and to adjudicate on the rule for contempt against the defendant began today.

Messrs. Cook and Fitzpatrick represented the defendant, and the former stated the case and read certain authorities to show that the language used in L'Electeur against Judge Andrews was inoffensive. He then read an affidavit and apology on behalf of Mr. Pacaud stating he submitted that the extracts quoted (in contempt) do not represent the spirit of the articles criticising the judgment.

Mr. Pacaud in his plea states he may have overshot the mark and continues: I beg to express my regret and apologize to the court for any expressions in such articles which it may deem to have gone beyond the bounds of fair and legitimate criticism.

No decision was rendered to-day in the contempt case, and the case of Angers vs. Pacaud was gone on with in review.

BREVITIES.

The body of the boy Morin who was drowned in the canal Friday has not yet been recovered.

Mr. George Caverhill, of the firm of Caverhill, Learmont & Co., was sworn in Saturday a Justice of the Peace by Deputy Clerk of the Crown Charles Doucet.

James Palingio, an Italian who was arrested Friday for bringing stolen money into Canada from Jersey City, was discharged Saturday, as the detectives were unable to make any case against him.

One Patrick Cleary, while attempting to steal a ride Saturday on a freight train on the G.T.R. at Point St. Charles, was knocked down by the engine and badly injured. He was removed to the General Hospital and it is feared he has sustained internal injuries.

Mr. David Legault was sworn in Saturday by Deputy Clerk of the Crown Charles Doucet as chief of the Provincial Inland Revenue Police.

Mr. Wm. Sclater, of the firm of Wm. Sclater & Co., 211 Commissioners Street, was thrown out of his buggy Saturday and had his right arm fractured. After being attended to at the General Hospital he returned to his home.

The Council of the Board of Trade has sent a petition to Ottawa praying the Government to cause tariff changes to come into effect on the day following the introduction of the budget as hitherto, instead of making them retroactive as this year.

In the case of Armour vs. the city, in which damages of $1,500 were allowed the plaintiff for the depositing of garbage at Gregory Farm to the injury of his property, the action was based, not on the presence of the incinerator at that place but on the dumping of refuse there, which had been going on for two years prior to the erection of the incinerator. There is no reference to the incinerator as a nuisance in the pleadings.

Messrs. Delphis Turcot, contractor, and J. B. Martineau, shoemaker, of St. Denis Ward, have fyled an application in the Superior Court for an injunction to restrain the city from awarding a contract to the Montreal Gas Company as contemplated.

The foundation stone of the new Methodist Church, Knowlton, will be laid on Wednesday, May 22. Services at 10.30 a.m., to be conducted by Rev. Wm. Blair, chairman of the Waterloo District, assisted by several ministers. The corner stone will be laid with Masonic honors at 2 p.m. Music will be furnished by the Knowlton brass band.

The Kneipp Water Cure.

Every person who keeps himself abreast of the time has heard more or less about the famous "Water Cure" which is in great vogue in Europe.

The treatment is very simple, and its aim is to prevent as well as to cure diseases by hardening the body.

Sib. Kneipp himself is the living picture of health. At the advanced age of 76 he is able to give consultations to the 15,000 patients who visit hi slittle village of Woerishofen during the year, besides attending to all his other duties.

To all those who wish to familiarize themselves with the treatment, we would advise them to call at the Kneipp Pharmacy, 229 1-2 St. Lawrence Street, where all information wanted will be gladly given.

Sousa's Band.

Miss Currie Duke, the pride and pet—the fille du regiment, so to speak—of the band and its director, both by her beauty and her skill upon her instrument, takes captive all who listen to her playing. She is one of the delightful trio of violinists which include Maude Powell, Leonora Von Stosch and herself, who have inspired the instant admiration of the musical public wherever they have been heard. Miss Duke is the daughter of General Basil Duke, of war renown, and is a typical representative of the daughters of the sunny south, who are among the most resistless of our charming American girls. She was for years the pupil of Joachim—her talent and her industry inspiring his earnest interest and his best efforts to make her the delightful artist she has become. Miss Duke will be with Sousa's peerless band in the Drill Hall on June 1st and 2nd. The concerts are given under the auspices of Lieut.-Col. Houghton, D.A.G., 5th Military District, Lieut.-Col. Prevost and officers of the 65th, Major G. R. Hooper and officers of the Montreal Field Battery in aid of the Battery Association Fund. The advance sale opens on the 23rd.

STRAIGHT CUTS, LARGE PACKAGE 15 CENTS.

The large packages, containing 20 Straight-Cut cigarettes, are sold for 15 cents at Jacobs' stores, 134 St. James Street and 2317 St. Catherine Street.

PRISON REFORM.

The Work Accomplished by the Quebec Council of Women.

Quebec, May 18.—The first annual report of the local branch of the National Council of Women, founded under the auspices of Her Excellency the Countess of Aberdeen, has been made public by the secretary, Mrs. Dr. Grondin. In substance it says that on May 1, 1894, a committee was appointed to visit the Quebec District prison and take steps to obtain certain improvements as to the condition of the female prisoners; for instance, the nomination of women as guardians in place of men. The committee had several interviews with the Attorney-General on the matter, which resulted satisfactorily. In consequence of the steps taken by the committee, hereafter the female delinquents under sixteen years of age will be sent to the reformatories instead of the jail. Women incarcerated for their first offence will also be separated from the other prisoners at the refectory, the dormitory and as much as possible during the hours of work. At a subsequent meeting of the Executive Committee, held on the 29th April, 1895, a special committee was appointed to visit the jail at different periods of the year.

TRADE IN CANADA.

The Movement of Wheat—The Week's Failures.

New York, May 18.—Bradstreet's state of trade reports: Exports of wheat from the United States and rom Montreal this week (flour counted as wheat) amount to only 2,397,000, against 2,305,000 bushels last week, 2,420,000 bushels in the week one year ago, 3,885,000 bushels two years ago, and 3,603,000 three years ago.

Advices from the Province of Ontario report some improvement, based on higher prices for staples. At Montreal, as at Toronto, the business outlook is favorable. Crop prospects in Nova Scotia are also favorable. In New Brunswick collections are far from satisfactory.

There are 28 failures in business reported from Canada this week. Last week the total was 27, a year ago it was 25, and two years ago 19.

Robbery at Maplewood.

The office at Maplewood of Mr. Henry Bogue, the well known real estate man, was broken into Friday and completely emptied of every article it contained, with the exception of the furniture and the case for a field glass. As the robber got the glass Mr. Bogue is patiently waiting his return to get the case.

The Long and The Short of it

Do you want your hair cut short? asked the barber of his customer, after adjusting the apron and the scissors and being ready for work. "Well," was the witty reply, "if you leave it too long I will be back shortly, but if you cut it short it will be long before I return." This leads us to say that the short and long of it, so far as we are concerned, is just this, we are a little short and long for a little ready cash, so in order to get a little stream of it into our money drawer we have marked down our prices of clothing for Men and Boys to the lowest step of the ladder. Let everyone catch on to them before they begin to climb.
