

## FRENCH TROOPS LAND AT SALONIKI TO ASSIST GREECE

### All Doubt as to Entry Into War by Greece Now Disposed Of. Bulgaria Given Until This Afternoon to Concede Demands Made by Russia. Concentration of Bulgarian Army Has Begun. Total Effectiveness of Bulgarian Army is Placed at 350,000. French Troops Make Progress North of Arras. Airmen Drop Heavy Bombs on Railway Station at Metz.

Athens, October 1, via Paris.—(Special).—All doubts as to the entrance of Greece in the war on the side of the Entente Allies has now been disposed of. The official organ of the Government says that the landing of French troops at Saloniki is for the purpose of assisting Greece. In regard to the landing of the French troops the Government organ says that if for the present the Government considers the assistance of the Allies is premature, it is none the less to aid and support Greece that the Allies are at Saloniki. France and Great Britain enter the Balkans as traditional friends of Greece, and not otherwise. The Greek Government has seized the Macedonia railways, of which two are Austrian and one French.

It was reported unofficially last week that the Entente Allies had landed troops near Saloniki to co-operate with the Greeks against Bulgaria. No official announcement to this effect has been made, but the foregoing despatch indicates that such a movement either is impending or has already been made.

#### GENERAL IAN HAMILTON AT SALONIKI.

Rome, Oct. 4, via Paris.—(Special).—A telegram from Athens to the Tribune says that General Sir Ian Hamilton, British commander at the Dardanelles, has been at Saloniki to inspect arrangements made for the landing of troops.

#### BULGARIA GIVEN FEW HOURS TO ANSWER RUSSIA.

Petrograd, Oct. 4, via London.—(Special).—Unless Bulgaria has conceded fully the demands of Russia concerning the breaking off of relations with the Central Powers by 2 o'clock this afternoon, the Russian minister Alsolia and his staff will depart. However, as Russia draws a distinction between the Bulgarian Government and the Bulgarian people, no repressive measures will be adopted against Bulgarian subjects in Russia. Even M. Madjarlov, Bulgarian minister to Russia, will not be expelled. His passports will not be given to him and he will be permitted to remain undisturbed, although no official relations will be maintained with him as the representative of King Ferdinand.

#### FRENCH TROOPS MAKE PROGRESS NORTH OF ARRAS

Paris, Oct. 4, 2.28 p.m.—(Special).—The French troops have continued to make progress to the north of Arras, according to the announcement given out by the French War Office this afternoon.

There has been almost continuous fighting between the trenches, accompanied by artillery exchanges, in the vicinity of Nouvren and Quennevires. There has been also artillery fighting in the Champagne district. A squadron of French aeroplanes has thrown down some forty shells of heavy calibre on the railway station at Metz.

The text of the communication follows:

"We have continued to make progress to the north of Arras, in the forest of Givenchy, and at Hill No. 119. Here we occupied the crossroads of five highways.

"There has been almost continuous fighting with hand grenades and bombs, accompanied by artillery fighting from each side, in the vicinity of Quennevires and Nouvren. "In the Champagne district there has been artillery fighting in the vicinity of the Navarin Farm.

"Yesterday evening two counter-attacks on the part of the enemy to the north of Mesnil were repulsed. The night passed quietly on the remainder of the front.

"One of our air squadrons has thrown down on the Sablons Railway station at Metz no fewer than forty shells of heavy calibre. Other French aviators have continued the bombardments from the air of the railway lines, junction points and railway stations behind the German front."

#### CITY OF DVINSK IS NOT YET FREE FROM PERIL

London, Oct. 4.—(Special).—"The city of Dvinsk is not yet free from the peril of envelopments," says the Petrograd correspondent of the Times, "since the enemy still holds the district to the southeast, in the region of Lake Drislata, while a bombardment of Liwnehof, on the Riga-Dvinsk Railway, shows that the enemy is still well within artillery range of the river, and in the region of Dvinsk itself he has also drawn nearer to the river line.

"But the Russian success compels the enemy's enveloping columns to guard against a flank attack, which necessarily impairs his operations. According to the Novere Vremyaz

## DESPERATE FIGHTING IN DARDANELLES

### Press Representative With The Australians Tells of Glorious Charge" by Troops

#### INFANTRY ADVANCE ON RIDGES HELD BY TURKS UNDER GALLING MACHINE-GUN FIRE.

London, Oct. 4.—(Special).—As illustrating the difficult and desperate character of the fighting in the Dardanelles, at the same time paying tribute to the fighting qualities and heroism of both Australian and Turk, Captain C. E. W. Bean, official press representative with the Australian forces, sends a belated description of the "glorious charge" by two Australian light-horse brigades at Anzac.

"This charge differed from that of the Light Brigade," says Captain Bean, "in that it was made by horsemen who had volunteered to fight on foot or in any way provided they could get to the Gallipoli Peninsula and help the other Australians there."

After describing the preliminary bombardment of the Turkish trenches by artillery, which lasted a half hour, Captain Bean tells of the actual infantry advance, which really consisted of three desperate charges on three sides of irregular-shaped ridges, abreast of which the Turks had planted infantry defence works. In the first of these movements the second line men were ordered to advance two minutes after the first line, the third line coming along after another ten minutes. The orders were obeyed as if by a machine, although every man knew death almost certainly awaited him at the top of his own parapet from the machine guns of the Turks.

Describing the Turkish fire at this point, Captain Bean says: "It was all over within a quarter of an hour. But in the extreme southeastern corner of the Turkish trench there did appear for just two minutes a small flag, indicating the presence there of a group of our men. Nobody saw them get there; nobody ever will know who they were or how they did it. For two minutes the flag fluttered and then an unseen hand tore it down."

After a description of similar unsuccessful charges on other sides of the ridges, Captain Bean concludes his story by stating that the only man who returned from the Turkish parapet reported that the Turks there had their packs on and were in full marching order, probably being ready to hurry off to reinforce further north, when this attack in the centre delayed them.

## GERMAN TROOPS ON SERBIAN FRONTIER

### Preparations Being Made for an Attack Under Direction of Von Mackensen

#### TEUTONS WERE WITHDRAWN FROM THE EASTERN FRONT WITHIN LAST FEW DAYS.

Bucharest, Oct. 1, via London, Oct. 4.—(Special).—(Delayed in transmission).—Two hundred and fifty thousand Austro-German troops, with 2,000 guns, mostly withdrawn from the eastern front, already have arrived on the Serbian frontier, and preparations for an attack are being hurried forward under the direct supervision of Field Marshal von Mackensen, who has established his headquarters at Versez, says the correspondent of the Epoca.

GERMANS WITHDRAWING TROOPS FROM CARPATHIANS.

Milan, October 4.—(Special).—While Roumanian keeps one hundred thousand men on the Austro-Hungarian frontier, says a Bucharest despatch to the Corriere Della Sera, the Germans have withdrawn the infantry massed along the south-western slopes of the Carpathians, but have left a strong force of artillery. On the other hand, in the region between Kronstadt, Transylvania, and Hermannstadt, near the Roumanian frontier, there is a constant coming and going of German officers.

## UNDUE ADVANCE IN FEED AND PROVISION PRICES

### Situation in Some Respects Improved Since Last Fall—Hon. Geo. E. Foster Says Problem a Difficult One—Discussion at Associated Boards Meeting.

(Tenth Article Eastern Townships Associated Boards At Knowlton)

The following letters from the Minister of Trade and Commerce and the Minister of Labour were read at the Associated Boards of Trade meeting at Knowlton in reply to representations, which had been made to the Government upon the undue price of feed with a request that action be taken to remedy the existing state of things, which was attributed to speculators.

REPLY FROM HON. G. E. FOSTER President E. T. Boards, Sherbrooke, Que.,

Dear Sir:— I have yours of the 21st, and I am transferring it to the Labor Department which has the question particularly under its jurisdiction, and will be glad to discuss it with the Minister of that Department.

The regulation of prices as you quite well know, is one of the most difficult things which can be attempted by a Government. Supply and demand and transport largely determine price.

With regard to transport, rates of freight are regulated by the railway commission and any undue rates can be protested against and will be examined into at that board. Parliament has given the board absolute authority in that respect.

As regards demand and supply, this is one of the most fluid things in the universe and changes almost with every hour. As to how far speculators interfere as a deleterious influence in the advance of prices depends very largely on the article in question, but the purpose of this letter is not to enter into a discussion of the question. Suffice to say that

## MUST DELIVER UP ALL COTTON

### Decree Issued in Hungary to Effect That Supply Will be Used For Military Purposes

#### ABOUT 200,000 WORKERS HAVE BEEN THROWN OUT OF EMPLOYMENT.

London, Oct. 4.—(Special).—A Government decree ordering all factories in Hungary engaged in the manufacture of cotton goods to cease work and surrender their stocks for military purposes has thrown 100,000 persons out of work in Bohemia alone, and at least as many more in other parts of the empire, says a Budapest despatch to the Post.

The decree has affected Czechs particularly. Wholesale and retail dealers in cotton goods are said to be going bankrupt by hundreds. There is a similar paralysis in building, and other industries.

MARCHANT GETS LEGION OF HONOR

Paris, Oct. 4.—(Special).—Brigadier-General Marchand, of Fashoda fame, has been promoted to be a grand officer of the Legion of Honor.

WILL PRESENT JOINT NOTE TO BULGARIA.

Rome, Oct. 4.—(Special).—The belief prevails in Italian official circles, says the Tribune, that the Quadruple Entente Powers will soon present a joint note to Bulgaria, demanding an explanation of her attitude.

THE WEATHER

Northeast winds; with showers.

personally and departmentally I take a deep interest in the subject to which you refer, and hope to be able to do something in my own Department towards controlling and equalizing products and markets as related to each other.

Yours sincerely, GEORGE E. FOSTER.

REPLY FROM MINISTER OF LABOR.

Dear Sir:— The Honorable Sir George E. Foster has forwarded me your letter to him of the 21st ultimo, which has only just come to my notice, as I have been out of the city for a week. For your information, I am enclosing you a copy of the Combined Investigation Act.

Faithfully, T. W. CROTHERS.

DISCUSSION. The President observed that no particular result had been reached in connection with this question which was no doubt a very difficult problem. The members of the Boards, particularly those engaged in farming, felt they had a serious grievance in connection with what they believed was an undue advance in the price of feed and the various restrictions operating upon the purchase of feed.

Mr. J. N. Davignon was satisfied that prices had been raised. Flour had been advanced from \$2.50 to \$4.20 per bag through the speculators and farmers had not obtained any benefit through the advance. It had now gone down to its normal price of \$3.10 per bag, and meal men were offering feed to be delivered on October 1st at greatly reduced prices, although it was being offered at much lower prices a year ago, which showed that the speculators had the matter in their own hands.

Mr. Davignon quoted from a letter received by him on the subject: "I am not very familiar with conditions in the Northwest, but I have heard it said the farmers are now in a position to hold a goodly part of each crop, having the means of storing it themselves and that they do get a goodly share of any increase in prices. Speculation there will always be, no doubt, nor can it very well be hindered. I have never been offered Canadian flour nor indeed any other kind from Europe, but I have heard it said that Canadian flour could be brought back from Liverpool and sold here at less than Canadian prices. In any of, of course, be interested in anything which would keep prices from going unduly high. I use about 50,000 barrels of flour in a year and feed 140 horses."

In view of the reduction of the prices of flour and meal, although wheat had gone up, it was decided to let the matter rest for the time being.

The Board having received so many complaints from parents as to the cost of the new books, it was decided to levy no school fee until January, 1916.

**SCHOOL FAIR A SUCCESS.**  
The School Fair held at the Exhibition grounds on Friday, under the auspices of the Macdonald College, was very successful. The weather was all that could be desired and the attendance was good. The boys and girls of Hampden district are worthy of great praise for the interest taken in raising their different exhibits and the presence of so many parents goes to show they have had some one to encourage them in their undertakings.

The vegetable exhibits were very good, both in quality and number, consisting of potatoes, turnips, carrots, squash, pumpkins, corn, cabbage, tomatoes, apples, also threshed grain and sheaves of grain, which were neatly put up.

The display of sweet peas, asters and flax was exceedingly good considering the cold and windy weather of late.

The poultry exhibit was also good, the chickens were hatched from eggs supplied by Macdonald College.

A short address was given on "Turnips," by Mr. P. A. Bovin, in charge of root investigation work at Macdonald College, after which the names of the prize-winners were announced. Messrs. A. G. Taylor, C.H. Hodge, W. G. McDougall, all of Macdonald College, were judges for the different departments.

Mr. J. H. King, demonstrator for Compton County, thanked the Agricultural Society of Scotstown, for the use of the main building and the Exhibition ground for this occasion.

**S. S. CONVENTION AT SCOTSTOWN.**  
The annual district S. S. Convention was held in the Presbyterian Church on Thursday. A fairly good number attended the afternoon session which was opened by Mr. F. Start, D.P., by a praise and prayer service.

Mr. Samuel Boy in a very efficient manner, spoke from a general point of view on the question, "The things in the district that are helping or hindering the making of Christians." In the first place the preaching of the Gospel is one of the forces which helps to make Christians. The Christian home training and moulding of the character have proven one of the greatest helps to being an individual up to a standard of manhood or womanhood, or in other words, Christianity. One of the moral influences upon the children today is the day school teacher. In this way, if there is discipline, kindness and respect in the day school, teacher to pupil and vice-versa, it is reflected in the Sunday School. Right here is where the co-operation of the parents with the day school teachers is so essential in helping to maintain one of the standards of morality, or moral duties. The criticizing of the S. S. teacher is one of the greatest forms to retard the progress of Christianity, as boys and girls are governed more by prejudice than reason in the tender age. A low estimate of anything that is religious, the scarcity of the real home religious training, these are some of the barriers to Christianity.

A very interesting discussion was opened in the spirit of love and charity co-operating with the speaker in all that had been said regarding the question.

The Rev. P. R. Roy gave a very interesting paper on the "Laws of Teaching," showing how in order to be a successful teacher, one must teach from a full mind and a clear understanding, study the lesson until its truths take hold of ourselves, then there will be no difficulty in imparting it to the child.

The round table conference led by the General Secretary was very much appreciated, the different questions called for being answered with ease and alacrity.

The Rev. J. J. Roy closed the session with the benediction.

The Church was comfortably filled for the evening session, which opened with song service and prayer. Two very fine papers were given by Mrs. D. L. McRitchie and the Rev. J. J. Roy, "The Girl and the Week Day Life," "The Boy and the Week Day Life," after which the Rev. J. G. Fulcher gave an excellent address on Canadian Standard Efficiency, Test, dividing it into four parts, namely, Wisdom, Physical, Religious, Social Abilities, distinctly showing that efficiency in these four qualities makes a good all round Christian man.

The collections for the day were good.

The officers elected for the ensuing year were: Mr. Samuel Boy, President; Mrs. Glorind and Mrs. Fred Start, Vice-Presidents; Miss H. Gilford, Sec. Treas.

There were sixteen schools reported in the district.

ENGLAND'S POST-WOMEN
Experiences of a Cheerful Substitute on Country Route.

At the present time hundreds of girls in the British Isles are patriotically acting as post-women, both in the town and in the country, thus enabling men to join the army.

"How do I like my work?" said one young lady, "well, I think it simply splendid! Before I became a postgirl I worked indoors for the greater part of the day, but now I am out in the fresh air and sunshine from morn to night, which, besides being very much pleasanter, is far healthier. My beat is in the country, and that makes the work more enjoyable. I go on a bicycle, of course, for I have to cover nearly thirty miles daily.

"I commence my journey about nine o'clock in the morning, though often a little later, for the trains are not very punctual in these out-of-the-way places. I am rarely troubled with the weight of the postbag. I need be in no particular hurry to finish my rounds, so long as I am back by three o'clock, so that my letters may catch the afternoon mail. On fine days I take something to eat with me, and have quite a little picnic of my own in some pleasant wood. On bad days I have my dinner in a picturesque little inn half-way round my beat.

"There is scarcely an unpleasant person on my beat. All willingly overlooked the few little mistakes I made at first. At one house in particular they have always a glass of milk waiting for me, cold in warm weather, and comfortably hot on bad days, and they would be very much offended if I refused to take it. At first the people I met on the rounds were very much amused, but now they seem to take me as a matter of course.

"In these sparsely populated country districts there are few pillar boxes, and consequently I have not only to deliver letters, but to collect them from house to house as I go along. I always carry a big supply of stamps with me, for there is always a large demand for them. It is nothing very much out of the common, too, to be asked to sit down while the person to whom I have just handed an important letter is writing an answer straight away.

"A town postgirl is invariably in a hurry. She has a far shorter beat, of course, but then there are usually three or four deliveries every day in a town. Taking everything into consideration, she concluded, "I lead a delightful life. The work is at first a little tiring, but one soon gets accustomed to it, and I prefer it infinitely to my predecessor, through my taking his job, has now been able to enlist. I am doing my little bit, too, you see."

Duty Quoted by Money
Thousands of Italians have settled in the manufacturing town of Wuertemberg since the war began. They replaced the German workmen who are now at the front in France and Poland in the factories and are paid higher wages than they ever expected. When Italy declared war against Austria most of these immigrants were called home for military duty, but many ignored the mobilization order. They have now received a second call to the colors, but still they stay, although they know that very severe punishment awaits them if they evade their military duty.

GLEANERS HOLD SUCCESSFUL SALE.
The "Feast of Days" sale at Wesley Hall, Saturday afternoon, under the auspices of "The Gleaners," a fishery society in the Methodist Church, was a unique affair and successful from every point of view. The attendance was large and representative of all the congregations in the city, and the decorations were carried out with the greatest taste.

The various booths, one for each day in the week, were adorned with flowers, flags and festoons of red, white and blue bunting, and were in charge of the members of the society. Monday's booth had for sale every requisite for that housekeeper's dream, "washing day"; Tuesday's booth was stocked with the various necessities for ironing day; Wednesday's devoted to mending and darning; Thursday's booth illustrated "baking-day" being supplied with tempting home cookery. Friday's pointed to sweeping, and Saturday to Market Day, the booth being heaped with fruit, vegetables, as well as more prosaic articles, in the shape of eggs, butter and other farm produce. The entire display was very attractive and did credit to the skill and ingenuity, as well as the generosity of the officers. The young members were assisted by Mrs. B.C. Howard, who is the president, Mrs. Rogers, Miss Van Vleet and Mrs. McIntosh.

Ten was poured by Mrs. D. J. Salls, assisted by Miss Mildred Cate, Miss Doris Stevens, Miss McCullough and the younger girls, while Miss Campbell acted as cashier.

The proceeds amounted to upwards of ninety dollars, a very gratifying result.

## PLEADS GUILTY TO HOUSEBREAKING

### Gusta Yarvin to Receive Sentence on Tuesday For Robbing Cottages on Lake Massawippi.

J. DESSAINT FINED FOR NEGLECTING WIFE AND CHILDREN AND BOUND OVER TO KEEP PEACE  
Gusta Yarvin appeared before Judge Mulvena on Saturday on a charge laid by Fred B. McGaffey, of breaking into a cottage at Bacon's Bay on the shores of Lake Massawippi, belonging to Elma McClary. After hearing the evidence the Court committed the accused to stand his trial at the next term of the Court of King's Bench for housebreaking and theft. On another charge laid against him for breaking into a house belonging to Ed. Durbin, adjoining the other one, the defendant was also committed to stand his trial.

It appeared from the evidence that a third house adjoining the others had been broken into and despoiled, but nothing was proven to show that it had been done by the same man.

Defendant afterwards asked for a speedy trial in both cases and pleaded guilty, and was remanded to jail until Tuesday morning to enable the Court to look into his record.

RELEASED ON SUSPENDED SENTENCE

The King vs. Thos. Bellavance who had been committed for trial in June last on a charge of obtaining by false pretences in connection with the sale of a horse. Defendant asked for a speedy trial and pleaded guilty. After hearing the evidence and the argument of the attorney for the defence, the Court allowed the accused to go on suspended sentence holding that although the evidence at the preliminary hearing was ample to commit him for trial and showed a technical breach of the criminal law, it still was a question of how far the intention of the defendant was fraudulent.

FINED FOR NON-SUPPORT

In the case of Celia Griffin against her husband, Julien Dessaint, on a charge of neglecting to support herself and her children under 16, a large number of witnesses were examined on both sides. The Court held that in his evidence the defendant had failed to show any lawful excuse and that as far as the necessary circumstances of the complaint were concerned, it being a purely relative term and she having been obliged to work for her living for some months past, the defendant was held liable, but in view of all the circumstances he was merely fined \$10 and costs or 30 days in jail.

BOUND OVER TO KEEP PEACE

On a second charge against Dessaint for threats to shoot and do bodily harm to his wife, he withdrew his previous charge of not guilty and pleaded guilty. The Court accepted his personal bond in the sum of \$100 to keep the peace for twelve months, with payment of costs.

## TURKS MALTREAT CHRISTIANS

### New Series of Outrages is Reported in Zone Just Ceded to Bulgaria

London, Oct. 4.—A new series of Turkish outrages against Christians is reported to have taken place in the zone which Turkey has just ceded to Bulgaria and which Turkish officials and troops are now evacuating. A despatch to Reuters' Telegram Co. from Athens says: "Bands of Turkish irregulars have been organized expressly to village Christian shops and habitations."

All the women have been maltreated. Four Christian villages outside the ceded region have been forcibly evacuated to make room for Turks who did not wish to remain under Bulgarian rule."

## CANADIANS MAKE PROGRESS

### Sir Max Aithen Reports Several Demonstrations on Front

OFFICIAL REPORT OF ENEMY THAT ALLIES HAD BEEN REPULSED WITH HEAVY LOSS DENIED

Ottawa, October 4.—General Sir Sam Hughes Saturday night received the following cable from Sir Max Aithen, general representative of the Minister of Militia in France: "Canadian headquarters in France, October 3.—During the latter half of the period September 20-30 a combined British and French offensive has been steadily developing. Fierce fighting has taken place at various points along the allied line in weather alternating brilliant sunshine and torrential rains. Progress has been made on our front. Hostile fire has been somewhat heavier than usual and the enemy's artillery has been more aggressive but with little net results. The enemy's aeroplanes and snipers have been particularly active."

"On the morning of Saturday, September 25, a demonstration was carried out by our divisions. The German trenches were heavily shelled and our artillery, machine gun and rifle fire are believed to have caused numerous casualties. The enemy's official communique stated that an attack had been made by us and had been repulsed with heavy loss. This, of course, is false. "Reports indicate considerable movement of troops in the rear of the enemy's lines opposite our front. Our working parties have repaired the slight damage to our wire and parapets caused by the enemy's shell fire, and have been continuously employed improving our lines. Our patrols continue to be very active at night."

The Courant says that these figures increase the total Prussian casualties to 1,916,148.

How the severity of the fighting recently has increased, continues the paper. It is indicated by the following figures: The lists from number 300 to 309 announced 49,705 casualties; from 310 to 319, 53,395 names; from 320 to 329 gave 53,445 names, and the remaining lists as above.

## TURKISH EFFORTS TO WIPE OUT ARMENIANS

London, Oct. 4.—Every day brings further reports of the truth of which it is no longer possible to doubt, of attempts by the Turks to wipe out the Armenian people so that in the words attributed to Talaat Bey, for the next 50 years there will be no Armenian question. These attempts are of a comprehensive character, ranging from isolated killing to massacre on wholesale scale, accompanied by brutalities hitherto unheard of.

## PARLIAMENT TO MEET JANUARY

### War Vote Has Not Been Exhausted And There is Sufficient to Last Three Months

Ottawa, Oct. 4.—While no official announcement has been made, or is likely to be made it is understood that it is the intention of the Government at the present time not to summon Parliament before January. Unless some crisis or special circumstances which will require Parliamentary action arises Parliament will not be called until the regular time after New Year's. There is no special reason now for calling it. The war vote has not yet been exhausted, and is sufficient to last until January, while there is no special legislation pending which calls for immediate action. The war revenue taxation has proven successful, so that there is no need of legislation for the present at least on that score.

Letters from Shorncliffe Camp state that the 5th Canadian Mounted Rifles are still there, with date of departure for France uncertain, though not likely to be long delayed.

The 5th Rifles have been given cavalry equipment but have not been actually restored as cavalry, that is they have equipment, saddlery, etc., but not the horses.

It is expected that they will go to France dismounted, but will be among the first corps to receive horses and operate as cavalry when the opportunity occurs.

The health of the camp is reported to be excellent and letters continue to express appreciation of the field kitchen provided by friends in the Eastern Townships.

One letter says: "The kitchens are now in the lines and in daily service. They are giving every satisfaction and are a constant reminder of the thoughtfulness of friends at home."

## FRENCH LAND AT SALONIKI

(Continued from page 1.)  
Italian general headquarters was issued yesterday:  
"In the higher mountain regions, there have been small engagements which ended in our favor at the Lagoscuro pass (at the head of the Genova Valley and at Pramasio in Carnia)."

"In the Tolmino section Italian troops repulsed an attack directed against positions recently conquered by us on the heights of Santa Maria. The following official communication from general headquarters was issued last night:

"Along entire Osonzo front from Mont Rombon to Carso the enemy yesterday wasted a large amount of heavy gun and rifle ammunition; in certain districts the action was so precipitate that the large shells from distant batteries fell on the most advanced Austrian trenches. However, the enemy's infantry made no effort to advance on any part of the front. Only on the slopes of Mont Rombon did enemy detachments try to approach our lines, but they were promptly repulsed by a well-directed fire."
