with Bishop Bernard of St.

Montreal, Aug. 19.—A despatch from Ste. Hyacinthe, Que., says that a break has come in the ranks of the priests who so long opposed their ecclesiastical superiors in the Monnoir College case. It had been understood that the priests would submit, following the latest decision against them from the Vatican, and their formal submission as a body has been daily expected. There have been negotiations going on for some time. The despatch states that Abbe Bergeron, one of the priests, has sent in his unconditional submission and made his peace with Bishop Bernard, of Ste. Hyacinthe.

Refused by Contractors.**

The stonecutters at work on the Quebec Bridge piers and structural work that is being carried out by the contracting firm of M. P. & J. T. Davis have gone on strike for higher wages. The stonecutters, to the number of about 100, were engaged at 40 cents per hour, and later on were given 45 cents, the highest wages paid, and as they personally elected to work ten hours per day instead of the regular eight-hour day provided by union rules, earned a wage of \$4.50 per day, or \$27 per week. Last week the men on the work refused to work unless they were paid 50 cents per hour, or \$5 per day, which the contractors refused, as an unfair demand, and the stonecutters still refuse to go to work.

NO DESIRE TO REPEAL TREATY, SAYS PRES. TAFT

Urges, In Message To Congress, That Foreign Nations Be Privileged To Test Tolls Question Before U.S. Courts.

GOVERNOR'S FOOT GUARDS ARRIVE THIS MORNING

Day's Programme Includes Review, Citadel Visit and a Luncheon at Kent House.

Quebec will leave nothing undone to make the visit of the Second Company of the Governor's Foot Guards of Connecticut, who will arrive here this morning, a notable occasion. Upon arrival the visitors will be received by a large deputation of officers from the local corps and will be played up to the Chateau Frontenac by the R. C. G. A. Band. The company will be reviewed on the Esplanade by Colonel the Hon. Sam Hughes, Dominion Minister of Militia, at 10 a.m. Should the weather prove unfavorable, the review will be held at the Drill Hall. After the review, a visit will be paid to the Citadel.

Luncheon at Falls.

Hon. Lieut. Col. G. E. Amyot and the members of the officers' committee having the reception in charge, have issued invitations to a luncheon at Kent House, Montmorency Falls, at 1.30 p.m., the special train leaving the Chateau Frontenac at 12.30 noon.

Programme for the Day.

7.45 a.m.—Arrival at the ferry and proceed to Chateau Frontenac.
10.00 a.m.—Review and inspection on the Esplanade by the Hon. the Minister of Militia and Defence.
11.00 a.m.—Visit to the Citadel.
12.30 a.m.—Embark on special cars at Chateau Frontenac for Montmorency Falls.
1.30 p.m.—Luncheon at Kent House.

Dress for Officers.

7.45 a.m.—Reception at ferry, drill order.
10.00 a.m.—Review on Esplanade, review order.
1.30 p.m.—Luncheon, undress order without sword.

Combined Bands on Terrace.

On the Terrace this evening there will be a combined band concert, when the R. C. G. A. and the band of the Governor's Foot Guards will play a choice programme. George A. Heyer is bandmaster of the visiting company, and Chas. O'Neill, R. M. S. M., will conduct the R. C. G. A. Band. The programme will be as follows:

The Star-Spangled Banner.

O Canada.
March, Badajos Hume
Waltz, Ravissante Godin
R. C. G. A. Band.
March, Carillon Laurendeau
Overture, Bohemian Girl Balfé

CHINESE PRESIDENT IS ASSASSINATED

Troops at Peking Said to Have Killed Head of the Revolutionary Party.

San Francisco, Cal., Aug. 19.—Dr. Sun Yat Sen, first provisional president of China and head of the revolutionary party, was assassinated today in Peking by troops acting under orders supposed to have been given by President Yuan Shi Kai, according to an unconfirmed report in local Chinese circles. The news has reached Dr. Sun's son and daughters, who are on the Pacific Coast. The rumor was not credited at the Chinese consulate, or in the offices of the two Chinese daily newspapers, where no news of an attack upon Dr. Sun had been received. At the consulate the report was dismissed as entirely improbable.

Washington, Aug. 19.—President Taft closed a day of conferences on the Panama canal bill with a special message to Congress suggesting the passage of legislation which would permit American ships to travel the canal toll free and which would also allow foreign nations to test the legality of this provision by suits in the United States courts.

The President discussed the message with senators and members of the House, and its wording was finally decided upon at a meeting of the cabinet which began at luncheon time and lasted until late in the afternoon. The message was read in Congress soon afterwards and will be taken up to-morrow by committees of both Houses.

It was the belief here to-night that a determined effort will be made to meet the President's wishes, although some leaders, particularly in the House, were inclined to believe that the message meant no further action in regard to the canal at the present session.

Wants Courts To Decide.

The President was told that an act of Congress would have the effect of abrogating any treaty previously agreed to and the decision of the Supreme Court over the Chinese exclusion act was given as the authority for the statement. His suggestion to Congress for additional legislation designed to prevent any such construction as that of the Supreme Court in the Chinese case would allow foreigners to try their case in the United States courts. It reads as follows:

"That nothing contained in the act entitled 'an act to provide for the opening, maintenance, protection and operation of the Panama canal and the sanitation and government of the canal zone' shall be deemed to repeal any provision of the Hay-Pauncefote treaty, or to affect the judicial construction thereof, or in any wise to impair any rights or privileges which have been or may be acquired by any foreign nation under the treaties of the United States relative to tolls or other charges for the passage of vessels through the Panama canal, and that when any alien, whether natural person, partnership, company, or corporation, considers that the charging of tolls or the enforcement of any other regulation under and pursuant to the provisions of this act violates in any way any such treaty rights or privileges, such alien shall have the right to bring an action against the United States for a redress of the injury which he considers himself to have suffered, and the district courts of the United States are hereby given jurisdiction to hear and determine such cases and to decree the appropriate relief, and from the decision of such district courts there shall be an appeal by either party to the action to the Supreme Court of the United States."

"This language," continued the message, "negatives absolutely any desire on the part of Congress to repeal the Hay-Pauncefote treaty, or to violate its provisions by this legislation, and leaves open to any person who deems himself aggrieved by the provisions of the act an opportunity to appeal to our courts."

"I think the importance of our standing before the world as anxious to give to the world an opportunity to test this question in the courts is an earnestness of our good faith in attempting to keep within our treaty obligations."

"After full examination of the treaty and of the treaty which preceded it, I feel confident that the exemption of the coastwise vessels of the United States from tolls and the imposition of tolls on vessels of all nations engaged in the foreign trade is not a violation of the Hay-Pauncefote treaty. But distinguished lawyers in the House and Senate differ from this construction and the Secretary of State has received an informal protest from the British Government that the contemplated legislation is in violation of her treaty rights."

Attitude Made Plain.
"I am sure that it is not the intention of Congress to violate the Hay-Pauncefote treaty or to enact any law inconsistent with its provisions, and that it certainly is not its purpose to repeal, by subsequent enactment, the treaty, in so far as it represents the law of the land. It is of the highest importance, however, that this attitude should be made clearly known to the nations of the world."

POLICE TRY TO TAKE SCHEPPS FROM WHITMAN

Important Witness in Rosenthal Case Arrives in New York; Will Corroborate Rose

New York, August 19.—Persistent efforts of the police to wrest Sam Schepps from the custody of District Attorney Whitman and his representatives during his trip here from Hot Springs, Ark., have come to naught. To-night, Schepps, one of the State's most important witnesses in the Rosenthal murder case, is a prisoner on a technical charge in the West Side jail and under the surveillance of men from the District Attorney's office who have orders to allow no one to communicate with him without credentials from Mr. Whitman himself.

To-morrow Schepps will go before the grand jury and is expected to corroborate in every essential the story told by his friend Jack Rose upon which Police Lieut. Charles Becker was indicted for Rosenthal's assassination.

Schepps reached here to-day, accompanied by District Attorney Whitman himself, who joined the Schepps party at Albany after a journey from his summer home at Manchester, Vt., where he had been spending the week-end. How essential it seemed to Mr. Whitman that he should personally protect Schepps from New York police interference, appeared to-night when it was learned that Detective Thomas, the police officer who, with Assistant District Attorney Rubin, brought Schepps from Hot Springs, had received during the journey east several letters from Deputy Police Commissioner Dougherty ordering him to bring the prisoner to police (Continued on Page Eight.)

BETTING ON RACES WRECKS 2 CLERKS

Toronto Bank Discovers Shortage of Employees Who Had Played "Sure Things."

Toronto, August 19.—Betting on the races is given as the cause of the wrecking of the careers of two Toronto bank clerks. Roland Harris, assistant clearing house teller of the Standard Bank, has to answer to the misappropriation of about \$7,000 from the bank's funds, while Arthur Richmond, paying teller of the Elm street branch of the Bank of Toronto, lies at death's door at St. Michael's Hospital following two attempts at suicide after he had stolen \$500 or more from the funds of the bank.

According to the confessions of both tellers, they yielded to the temptation of placing large bets on "sure things" which did not fulfill expectations and their efforts to recoup their losses were in vain.

Had Charge Of Clearings.
Harris was apparently the most flagrant offender. He was considered one of the most promising employees of the Standard Bank, and although only 23 years old, had been rapidly promoted. About two weeks ago the position of assistant clearing house teller fell vacant and he was entrusted to the post. This is an important position. Harris had charge of the clearings of the Standard Bank made through the Toronto Clearing House.

London, August 19.—Hunted down by British soldiers in the depths of the jungles of Central Africa, where for years in defiance of all authority he had pursued the career of an elephant poacher and illicit ivory trader, James Ward Rogers, an American, is dead. He was shot down by a little force of troops which had been sent into the wilderness in pursuit with orders not to return without the outlaw dead or alive.

News of Rogers' death came formally to-day to the British Colonial office from Capt. C. V. Fox, inspector of Mongalla province, who commanded the expedition. Although told in an official report, the story revealed is one of the most dramatic in colonial annals.

For years Rogers had carried on his lawless trade, which popular opinion credited with netting him a fortune. The remote regions along the Lado enclave and Congo boundaries were the scenes of his operations. Time after time British officials of the Sudan had tried in vain to trap him. It was this defiance of years which determined the Government to crush the old man.

An Uncrowned King.

Captain Fox's report shows that in his long operations Rogers had done more than had been dreamed of by the Colonial Office. He had established an organized administration over the wild trackless country and among the natives was a virtual if uncrowned king.

The success of the outlaw in handling his "subjects" and in the pursuit of his trade drew from Captain Fox, in his report, the tribute that Rogers' work was worthy of a better cause.

Not since the explorer, Henry M. Stanley, pierced the jungles in 1871 and found Dr. Livingstone, has such a tale of hardships, trials and dangers come out of Africa. Capt. Fox's report, in this respect, resembles most nearly perhaps the tale of General Funston's dogged pursuit of Aguinaldo in the Philippines.

"Dead Or Alive," His Orders.

For the purpose of tracking the outlaw the English commander was given a non-commissioned subordinate and six Sudanese soldiers. Body carriers and mules for the transportation of supplies were part of his equipment. His instructions were plain—not to return until the outlaw was captured.

With a soldier's disregard for red tape, Capt. Fox in his report, fails to mention dates in describing the manhunt. Apparently the denouement of the jungle drama came three months ago.

The pursuers then had spent weeks plunging through the wild jungle that almost defied passage, Rogers cunningly leading them through the densest of swamps, forests and across deep streams. Before the outlaw was overtaken he had crossed the Nile into the Belgian Congo.

Creeping up the Uganda bank of the Nile, the expedition pushed forward for six weeks before the quarry was located.

The last twelve hours of the pursuit was particularly trying. The chase led over a mountain, with Rogers' men only a short distance in advance.

Dramatic End of Outlaw.

Dramatic in the extreme is Captain Fox's description of the death of Rogers. In the jungle into which they had descended from the mountain his party came suddenly on a camp. A native approached the English officer and said: "The commander wants you to come in. He is sick and cannot come out."

Entering the hut, Captain Fox found himself in a room dimly lighted by a candle. A white man was lying on a couch and beside him sat a companion, also white.

"Which is Mr. Rogers?" "Mr. Rogers has been shot," replied the outlaw's companion.

"Yes," interrupted Rogers, "and by your men."

"Come, stand right here so I can look at you," Rogers continued. His eyes were blazing and from beneath a blanket he drew a revolver and pointed it at the officer.

"I am a dying man, I guess," he said. "I didn't think they could kill old Rogers, but they got him this time. Still, you are in Belgian territory, and you stand more chance for arrest than I do."

MURDERS WIFE AND 3 CHILDREN, THEN COMMITTS SUICIDE

Terrible Tragedy at English Summer Resort Follows Discovery of Double Life.

London, Aug. 19.—Reports, which were given scareheads in the earlier afternoon editions of the London newspapers, that a rich American named MacKie had murdered his wife and three children and had then committed suicide by shooting with a revolver, horrified the American colony here. Later the American residents were greatly relieved when investigation disclosed the fact that the author of the horrible butchery was not an American, but the story is one of the most revolting tragedies that has occurred in England in recent years.

Capt. Hicks Murray, formerly of the Gordon Highlanders, some seven or eight years ago, took as his mistress Florence Taylor, a young woman of respectable family, and two years ago he married Florence's youngest sister, Edith.

By the Taylor woman Murray had two children and by his wife one. Mrs. Murray did not live with her husband long, but her sister remained in the house.

Represented Himself as American.

Representing himself as Richard Charles MacKie, an American, the former army officer a few weeks ago rented a house in Eastbourne, a fashionable watering place, 66 miles southwest of London, installing there the Taylor woman and their two children. Last Sunday night the legal wife and child appeared on the scene and tragedy followed.

Murray, in a fit of frenzy, whipped out a revolver and shot his wife and three little ones dead. He also fired two shots at the Taylor woman, both bullets taking effect, and then, after setting fire to the house, committed suicide. The bodies of the five persons killed were found charred in the ruins of the building.

The injured woman was taken to a hospital, where she lies to-night in a hysterical condition. She was visited at the hospital this afternoon by another sister, who said that her brother-in-law was formerly a captain of the Scots Greys and later was connected with the Territorials. He had twice suffered from stroke while in India, she said, and had shown signs of insanity, for a time having been confined in an asylum.

APPROACH OWNERS OF ST. CHARLES LANDS

Federal Government Seeks Prices for Lots Needed for River Improvements.

Acting under instructions from Hon. F. D. Monk, Minister of Public Works, an official of the department has approached the owners of the beach lots on the north side of the St. Charles River, and have been requested to name the lowest figure they are willing to take for their properties, which are required for the improvements proposed in connection with the dredging and damming of the river.

The agent for one estate that owns 2,000,000 feet has already made a price and expresses a willingness to accept 40 cents per foot, which offer the department has under consideration, but so far no contracts have been passed. The owners of the properties, who acquired the land some sixteen years ago, at approximately 5 cents per foot, in the United States and are represented by a Quebec agent.

There are other beach lot properties on either side of those under discussion that are even more important to acquire, whose owners have also been approached, but as yet have given no definite answer. These lots, however, are not so large in size and the owners consider them of higher value, but nevertheless are willing to treat with the department on a basis of valuation.

PRESIDENT TAFT AND THE PANAMA BILL

President Taft has the ball at his foot, if he can only assume courage enough to make a drive at the Panama Canal Bill, so as to save the honour of the United States. Never had any man such a chance to make a name for himself in history as a magnanimous statesman; and this we say not because this commercial interest or that commercial interest is being imperilled by the passing of that measure, but because the squashing of the bill is an absolute necessity for the saving of the good name of the nation and the establishing of an international faith in all treaty bargaining. The "pros and cons" of the situation are by this time well known to everybody; and it must be confessed that there isn't a "con" in behalf of the measure which hasn't a special pleading about it that carries its own condemnation. What a pity it is that President Taft has been a day too late in the sending of his remonstrances to the chairman of the Committee of the House of Representatives and the chairman of the Committee of the Senate. Yet that he did send such remonstrances is something in his favour, and may be taken as a plucking up of his courage to save the situation. We cannot but perceive the "voice of the nation" in its swelling to concert pitch, as a guidance to him in the line of action he ought to take as a constitutional ruler to save the people over whom he rules from the pit which has been unwittingly dug by certain misguided party men, wherein to bury the national honour and thus bring a blush of shame to every other nation in the civilized world. There is a commendably peaceful rivalry between Britain and the United States in their school-mastering of the nations who cannot of themselves get rid of the medievalism of war-threatenings and non-progressive methods of conducting public affairs. To plead for the overlooking of the terms of the Hay-Pauncefote Treaty is medievalism run mad at the behest of partyism run blind. President Taft, by vetoing the bill that embodies that behest, may lose some partisan votes in the presidential contest that is on—but he will have the good will and commendations of the republic as a whole behind him. Indeed, with him at the present moment, it is not a question of what Britain and the other nations are going to say, should the Panama Bill become law, but what the people of the United States are saying now about the action of Congress as a misguided action, that should lead him to veto the measure as a saving from national disgrace.

THE GIRL OF THE PERIOD AND THE PUBLIC

The ladies have been having a good deal of attention of late in the editorial columns of our contemporaries all over the world. The question is one of dress; and the Chronicle was satisfied to leave the question in the hands of the mothers and the modesties of our day, since, in a case of retaliation, the men folks might get as good as they gave. The dandy is never safe when he becomes impertinent; and there is an inclination to over-dress among men on state occasions as there is an inclination to under-dress on the part of the "Girl of the Period" who is so foolish as to try to out rival the sisterhood of the demi-monde in the matter of feminine attire. Yet Captain Eliason, a politician of some note on the other side of the line, has been brave enough to identify the "over-spooning" indulged in openly on excursion boats and elsewhere, as an outcome of this under-dressing that has come into fashion on the part of the "Girl of the Period." He claims that the increase in this over familiarity in company between the sexes arises from the fact that the girls of to-day are so much more attractively attired than were the girls of a generation ago. We are not prepared to take sides with the Captain, though the subject is funny enough to take part in, if only as an entertainment to the ladies of Quebec to take an interest in the editorial columns of the Chronicle for once at least. We leave the Captain, moreover, in the safe hands of the Baltimore Sun, whose editor, male or female as the case may be, goes for him in no very ungentle way in these words: "Now, the girls of twenty years ago were just as attractive as those of the present, no matter how they were attired, and the sly Captain knows it, and the girls, now mothers of other girls, know it too. And they don't like what the Captain says one bit. The fact is, clothes make the man, but changing fashions cannot add to or detract from the eternal feminine—from the unchanging attractiveness of woman. There may be more public 'spooping' than there used to be, though if Captain Eliason will cast

his mind back he will recall that the sweet little cherub Cupid has been sitting up aloft and below on his steamers these many years, and has been a regular passenger every day of every summer through innumerable changes in female fashion. The Captain owes an apology to the ex-girls, which he should make with all an old tar's frankness and gallantry."

The question of the over-attenuating of the female garb has thus developed into the attractiveness or its opposite as an inducing to "spooping" in public places; and of course the question will have to be left in "the hands of Captain Eliason" and the Baltimore Sun. Adam may have admired or found fault with Eve's way of dressing, but he had the "spooping" all to himself, and, unlike Captain Eliason, could not very well be "drawn over the coals" for speaking a kindly indirect word in its favour or disfavour.

CABINET MAKING.

What an object lesson Canadians are having given them just now in the "fish-out-of-the-water" business on the part of the under-world of Liberalism, whose only hope has ever been to keep one political party out of power and keep another party in power. The Montreal Witness is not of that under-world, neither is the Hon. G. P. Graham, former Minister of Railways, of that world, but both of them are trying, at the present moment, to pump a little hot-air, in order to bring some little measure of relief of the poor gasping "meet-mouche" as they keep leaping up and down in that under-world to get their share of the bait the organ and the Minister offer them. Mr. Graham gives another year and a half to these "fish out of the water" to beat the hot-air with their tails. A general election is not likely to take place within another eighteen months, says Mr. Graham, little knowing what an eternity that is to the denizens of the Liberal under-world, who would have another election "the day after tomorrow," and are busy at the present moment in reorganizing the Borden Ministry, and would, if they were not afraid of leaving some of the Pugsleys and the Sir Fredericks out in the cold, declare what the personnel of the next Laurier Ministry is to be. Their cabinet-making has become quite a business with the poor "fish out of the water," to the amusement of everybody.

THE SCHOOL LIBRARY IN ONTARIO.

When the Department of Education in Ontario has once got to the bottom of a school accessory as being something necessary to the welfare of the school, there is no halting in the face of theoretical difficulties, while having it placed in evidence as part of the machinery of every school. The school library has become such an accessory in every school district in that province, and a special officer is entrusted with the oversight of what is known as the Library sub-department. The present head of that sub-department is Mr. Walter R. Nursey, who lately headed a contingent of about one hundred and fifty library representatives sent by the Minister of Education to Ottawa to meet the nine hundred delegates from the libraries of the United States in annual convention, and from whom the city of Quebec had a hurried visit. The American delegates were more or less inspired at the support given by the Ontario government in aid of the public and school libraries of that province. It is said, indeed, that no State in the American Republic begins to compare in respect to the financial aid extended towards inducing every community to have its rural school library as well as a public library. Mr. Nursey continues to do pioneer work in establishing new libraries, and to inspect those that have been established; and has been invited to visit several forthcoming State Conferences on the other side of the line in order to tell the story of what the people of Ontario are doing for themselves in the matter of placing the right kind of books within the reach of their young folks.

To mention what is thus being done elsewhere in establishing school libraries, may be taken at once as a vote of want of confidence in what is being done in the Province of Quebec. The English-speaking resident in the rural districts of our province are being arraigned just now for the neglect into which their schools have run; and no doubt in time the authorities around our Superior Schools will be arraigned for their neglecting to have a suitable selection of books on general literature outside of the ordinary text books located in the school building of the villages and towns where the Academy or Model School is located. Of course there are school libraries in these institutions, that is there once was established the nucleus of a school library in each of them; but further than this it would not be safe to go, while referring to

what is being done elsewhere in this connection. The notion of having a growing school library in every well-equipped academy is all very fine in theory, just as the Consolidated School in sparsely settled districts is all very fine in theory; but there isn't time to indulge in mere theorizing, unless during a conference for the stirring up of a make-believe fama against somebody or other. There is too much time demanded for the written departmental examinations for the teacher to waste his or her time in the development of character through an appreciation of the better kind of books, the collection of which would be no easy task for an over-worked and underpaid teacher, or for the school commissioners either. That is what some of the theorists are saying to themselves, perhaps; but it cannot be accepted as a valid excuse, in the light of the principle that the school is made for the child and not the child for the school, in spite of all the money making desires there are in ever so many written examinations.

OUTSIDE CAPITALISTS WANTED.

When we hear of certain Canadian capitalists going all the way to Staten Island to invest in real estate, we wonder how many of them have heard of the bonanzas to be met with in the "new Quebec" that is on the verge of being realized. There is a mild kind of building boom on in Quebec at the present moment. The Battlefields Commission is doing its best to make a beauty spot of "upper-town," and we are all on the alert to see a counter commercial movement inaugurated in "lower-town." In connection with the latter movement, there is a splendid opportunity for half a dozen capitalists to begin operations in more ways than one. The bars of the door against outsiders coming to our aid are on the point of being removed. The Canadian Pacific and the Canadian Northern and the Allans are with us already, to help out the problem of Quebec's progress. But we would have other capitalists from outside follow the lead. The West is crowding over the chances it has for the capitalists; but there are just as excellent chances for the investment of capital in the East, and no where will there be such a chance of making money to the outsider and the insider than in Quebec, when it is once equipped as a first-class seaport, with all these pests of "knockers" put an end to.

PARTYISM AND PARTYISM.

Colonel Theodore Roosevelt is taking great pains to announce that the "Progressive Party" has been organized to stay organized; and one cannot but wonder what he would have said about that party, if a certain namesake of his had not been chosen as its candidate in the present presidential campaign. Mr. Taft, on the other hand, is anxious to classify the "Progressives" as cowardly bolters and would send every one of them to "kingdom come" as an example of what he would like also to do with every Democrat who would think of voting for his former friend and ally, the irrepressible "Teddy." It would seem, from what Senator La Follette advises, that the "Progressives" are on the brink of sore distress with two sub-partisanisms within their ranks on the howl against one another. We wonder when this whole thing of partyism run mad is going to be engulfed in the satirical laugh of the people of the United States, as it is being laughed at by the "wise and prudent" of Canada in their own political world. We have not yet over three parties in Canada; but if the under-world of Liberalism continues in its illogical wayward course there is no saying what the Hon. Mr. Graham and the Montreal Witness may do in the way of organizing one.

HOW THEY GROW OUT THERE.

A clergyman, who had his home in Quebec for over six years—the Rev. Wylie C. Clark of Knox Church, Saskatoon, passed through the city last Saturday on his way to spend a month or two in Europe. He was accompanied by Mr. Clare, one of the prominent real-estate agents in the growing city where Mr. Clark is now stationed. The story of the growth of Saskatoon, as told by these gentlemen to some Quebecers, is one of the marvels of modern city records in Canada in these later days. The first stage of Saskatoon's progress was when the Barr Settlement first broke ground, only to lift stakes to plant itself further West. Thereafter a village of about five hundred inhabitants began to spread itself out on both banks of the winding Saskatchewan River, until now it is a city of twenty-five thousand, with all the modern appliances of city life, from a university quadrangle to three railway stations. The sounds of civic and commercial progress are in all its streets; and when once there has been called a halt to the buying and selling of real estate—

Stomach Trouble of 12 Years' Standing Gives Way to Duffy's

MR. FRED F. ZINK.

Mrs. Fred F. Zink, 2228 Saratoga St., New Orleans, La., writes of the great good done her husband: "My husband suffered with stomach trouble for over 12 years, during which time he doctored with three doctors who gave him no relief. He kept growing worse, had to be very careful as to what he ate, as things always soured on his stomach, but, thank God, after taking three bottles of Duffy's Pure Malt Whiskey he was entirely cured. He still takes it as a tonic and we would never be without it. He now looks fine and weighs 180 pounds. I can highly recommend it to any one afflicted with stomach trouble."

Duffy's Pure Malt Whiskey

Few diseases inflict upon their victims greater suffering than do dyspepsia, indigestion and other stomach troubles. If you have dyspepsia or indigestion in any form you should use Duffy's Pure Malt Whiskey. Its action is most natural. When taken at mealtime it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full ration of nourishment.

Sold in sealed bottles only by druggists, dealers and hotels, \$1.25 a large bottle. Be sure you get Duffy's and that the seal over the cork is intact. Our doctors will send you advice free, together with a valuable medical booklet on application.

The Latest and Best Selling Book
A DIANA OF QUEBEC

JEAN N. McILWRAITH

The threads of the story are knit together by Nelson's meteoric visits to Quebec in the later years of the American War of Independence. Intrigue is rife, but is ignored by his susceptible heart. It is left for the sturdy woman-hating soldier who tells the story to scent disloyalty in "Diana" and struggle amid various adventures through the tangle he has to unravel.

MARC KLAU TELLS OF COMING SEASON

Says "Oh, Oh, Delphine" Will Be Big Hit—"Pink Lady" on Tour in Provinces.

Marc Klaw, of the firm of Klaw & Erlanger, who went to Europe the middle of June, has returned to New York. He spent most of his time in England and France.

"While in London," said Mr. Klaw, "I heard the music of 'Oh, Oh, Delphine,' the new play by McLellan and Caryl, and I think both the book and the music of the authors will fully sustain the reputation they achieved in 'The Pink Lady.'"

"By the way, that last night of 'The Pink Lady' in London was a memorable occasion. I have never seen such cordial response to the artists on the stage as was accorded by that audience, and at the finish many an Englishman joined in 'The Star Spangled Banner' as well as 'God Save the King,' with which the performance concluded.

"The Pink Lady' goes on tour in the provinces of England within two weeks. A syndicate of English capital was formed for that purpose two or three weeks ago. Klaw & Erlanger will be interested in this corporation. It will also be seen in China, India, Japan and Australia, and all through the Orient during the next twelve months. In fact, homecoming Americans will tell you that 'The Pink Lady' music is played about everywhere that you can get a band together.

"The two English companies which will be in 'Milestones,' respectively in New York and Chicago, will both play a week each in England, before sailing. 'Milestones' is generally conceded to be the distinct hit of the present London season.

"There is considerable interest in the forthcoming production of 'Rebecca of Sunnybrook Farm,' which opens at the Globe Theatre, London, on Sept. 2, and English people who have seen it on this side of the water believe that it has a fine chance of scoring a success abroad.

"I find on consultation with Mr. Erlanger, that the openings of our various attractions for the coming season are as follows: 'Ben-Hur,' Syracuse, Oct. 7th; 'The Round Up,' Terre Haute, Sept. 5th; 'Kismet,' Illinois Theatre, Chicago, Sept. 23rd; 'The Pink Lady,' London company, New Amsterdam Theatre, New York, Aug. 26th, and the other company will open in Newport Sept. 9th. Miss Charlotte Walker, in 'The Trail of the Lonesome Pine,' will begin her season at McVicker's Theatre, Chi-

cago, Sept. 8th. Miss Elsie Ferguson will be seen in Lehar's 'Eva' at the Columbia Theatre, Washington, November 11th, for the first time.

"Henry Miller, in 'The Rainbow,' opens the season at the Broadway Theatre, Brooklyn, Sept. 2nd, and Robert Hilliard, in 'The Argyle Case,' the Burns' detective play, in Atlantic City, Oct. 17th. 'The Count of Luxembourg' will be seen for the first time in Boston on Aug. 26th.

"Oh, Oh, Delphine' opens at the Forrest Theatre, Philadelphia, Sept. 9th. The New York company of 'Milestones' will open the Liberty Theatre Sept. 17th, and the Chicago company will open at the Blackstone Theatre Sept. 23rd. Both these organizations will sail from England on Sept. 5th.

"Tugene Walter's new play, 'A Plain Woman,' begins its season late in the autumn, and Laura Hope Crews in a new play by A. E. Thomas will be seen about the same time.

"The Little Cafe,' which is the reigning success of both Germany and France, will be given its American production in March.

"The Money Burners,' by Glen MacDonough and Raymond Hubbell, will be produced in December.

"Ben-Hur' will also make a tour of the English provinces this year, and that will be managed by a corporation in which English capital is enlisted as well as 'The Pink Lady,' although it is a different company.

"I saw nothing in Paris, which, as usual, is full of dull revues playing American ragtime songs, and London was not as interesting as usual to me, theatrically speaking."

IMPROVE YOUR SKIN WHILE YOU BATHE

Rare Benefits of POSLAM SOAP on Tender or Eruptional Surfaces

If you use Poslam Soap for bathing and every toilet use, each ordinary cleansing operation will become a source of benefit. For, besides making the skin clean, Poslam Soap assures its health, soothes tender skin, improves its color and quality, makes clear complexions and protects against infection and possible disease. It is able to do this because medicated with Poslam, the healing skin remedy, and is the only soap containing the modern elements which so readily and quickly cure diseased skin.

So many are the advantages and so great the superiority of Poslam Soap that a trial will lead to its continued use, especially by those whose skin shows any tendency to eruptional troubles. It is the best shampoo for dandruff, ideal for infants' use. Unusually large and lasting cake. Price, 25 cents. For sale by Henry Willis, 4 St. John street, and all druggists.

For free sample of Poslam Soap, write to the Emergency Laboratories, 32 West 25th street, New York city.

SHERBROOKE FAIR TO BREAK RECORD

Exhibit of Quebec Government Will Be Among the Attractive Features.

Canada's Great Eastern Exhibition will have many new and interesting features in all departments to present to the public with the opening of the gates on August 31st.

Entries to the various agricultural, horticultural, industrial, live stock, dairy, poultry, and ladies' department are already fast coming in, and it looks like a record year for entries.

One noticeable entry is that in the classes in butter and cheese, caused, no doubt, by a change in the distribution of prize money—a larger amount being awarded for first premium this year than in the past. Such change seems to have been well made, for a record entry in these two classes is assured.

Special Poultry Prizes.

The large number of special prizes, cups, medals, etc., offered this year in the poultry classes will have the desired effect, and those in charge feel that this year's show will be the best and largest ever held in the Province of Quebec.

An exhibit which should prove both attractive as well as of great value and interest will be the Quebec government farming exhibit. This exhibit, arranged for by the minister of agriculture of the province, Hon. M. Caron, will be looked after by department men, and should prove one of the attractions of this year's exhibition.

In connection with this the Quebec Government is also making another exhibit which should be attractive as well as instructive. This is an exhibit in charge of the department of education of the province, and will occupy the entire second floor of the main building.

Good Attraction Programme.

As a headliner the committee has engaged an aviator of international reputation, who will make two flights daily in his Blériot monoplane.

Other novel attractions are booked and several bands have been engaged to furnish music morning, afternoon and evening.

The races this year will be better than ever. The list of stakes are all well filled with speedy horses from all parts of the country. The class races, five in number, are rapidly filling, and by closing date all classes will be full.

GLIMPSES OF OLD QUEBEC

A HUNDRED YEARS AGO TODAY

During the months of July and August, 1812, a large number of brigs and ships arrived in the Port of Quebec, their entire passenger list as a rule consisting of troops sent here from different ports. On the 3rd of August of that year the following militia general orders were issued from the Castle St. Louis by Col. X. Lanaudiver, deputy adjutant general: "In consequence of the arrival of reinforcements of troops for this command, His Excellency the Governor General is pleased to dispense for the present and after the 12th of August, the battalions of Quebec militia from garrison duty and expresses himself as most highly gratified at the zeal and spirit displayed by the officers and men."

On the following day no less than seven ships arrived from Barbadoes with the First Battalion Scotch Royals, with H. M. S. Minerva as convoy. The Royals landed on the morning of the 6th August, 1200 strong, and the same day His Excellency the commander of the forces, issued general orders announcing the capture of Fort Michilimackinac on the 17th of July by detachments of the Tenth Veteran Battalion and Canadian voyageurs, and that Brigadier General Hull, of the United States army, had been repulsed in three attacks which he made on the 18th, 19th and 20th July, upon part of the garrison of Amherstburg. Special mention was made of H. M. Forty-first Regiment, who had particularly distinguished themselves in these attacks.

The latest news published in the Quebec Gazette on the 6th of August were letters from Halifax and St. John, N. B., and extracts from American papers giving the latest war news. Naturally enough the contents of the letters and the newspaper clipping did not agree and victories were claimed on both sides. A letter, written in Halifax on the 20th July, 1812, brought the news that American privateers were swarming around the coast and hardly a day passed that they did not capture a vessel. In fact, these privateers were so numerous around the coast that it was considered dangerous for any vessel to sail from Halifax without a convoy. News was also received in Quebec at the commencement of August that a pilot had sailed from New York for England on the 19th July, 1812, with official intelligence of the declaration of war by the United States against England, Ireland, and its dependencies.

THIRTY YEARS AGO TODAY

On the morning of the 19th August, 1882, a disastrous fire occurred in Arago street, in the soap and candle factory of Mr. F. W. Roy. The latter, who was a member of the City Council, was on his way home from a council meeting after midnight when he discovered his building on fire. He immediately sounded an alarm, which was closely followed by a second one, as all the adjoining buildings were constructed in wood. The entire brigade with the ladders then in use and the Shand-Mason and Clapp & Jones engines were early on the scene and succeeded in saving Mr. Roy's grocery store, but several of the adjoining buildings were destroyed. The loss was estimated at \$30,000 and the insurance amounted to about \$13,000.

Archbishop Gibbons, of Baltimore, was the guest of the Redemptorist Fathers at a luncheon given at St. Patrick's presbytery and Mgr. Tascheau, who was later on appointed Cardinal of Quebec, was the guest at dinner of the Marquis of Lorne and Princess Louise at the Citadel.

Hon. Mr. Mousseau, who had succeeded Hon. Mr. Chapleau as Premier of this Province, was placed in nomination in the County of Jacques Cartier on the 21st August, 1882, his opponent being Mr. Decarie, provincial secretary in Sir Lomer Gouin's administration.

Sir John Rose, who arrived in town on the 20th August was the guest of the Governor General at the Citadel, and on the following day dined with the Right Hon. Sir John Macdonald and Lady Macdonald at the Governor General's Quarters.

Great interest was taken in sporting circles as to the result of a lasso match which was played on the 21st August, between the Caughnawaga Indians and the Thistle Lacrosse Team of this city. This was the second time these teams met that year and the Indians sent down a very strong team, while the Quebec team was composed of the best players of the day. Unfortunately rain fell all morning and the ground was consequently very slippery, the heavy red men having therefore a decided advantage over their opponents and won by a score of 5 to 1.

The Quebec team was composed of Messrs. A. Colby (in goals), W. Anderson, W. B. Scott, J. Morrison, M. Davis, J. Matthews, J. Mackie, H. Smith, J. Maguire, J. Burke, J. P. O'Donnell and R. J. Davidson, with Mr. Harry Norris as captain of the team.

PERSONAL

Mrs. M. Scott, High Park, Toronto, is visiting Mrs. Geo. Craig at her cottage, Montmorency Falls.

W. J. Joyce, representing the Heron Leblanc Co., Montreal, is in town on business and stopping at the Clarendon.

Miss Mary Petry, who has been so seriously ill, is now convalescent and arrived at Cap a L'Aigle on Friday, accompanied by her trained nurse.

Mr. T. Ferguson, of the Montreal Herald, but formerly of Quebec, leaves to-day via G.T.R. for Old Orchard Beach, Boston, New York and Philadelphia.

Many old friends in Quebec will be sorry to learn that Richard William Heneker, late Chancellor Bishops' College, Lennoxville, Que., is dead at Bournemouth, aged 89 years. Mr. Heneker was well-known in Quebec and throughout the Eastern Townships.

JUNGLE HUNT ENDS IN POACHER'S DEATH

(Continued From Page 1.)

outlaw turned to his companion, whom he addressed as doctor, and said:

"I want you to witness what I say, doctor. Captain Fox, I am a dying man, so I would not lie about anything. This was my show and all my work. I am afraid I have brought you into trouble, doctor."

"Well, I had my good times as well as bad. I can't stand religious people. If you have religions, just live up to them."

"A noise in his throat interrupted the old man's words."

"Say, did you hear that?" he exclaimed. "That's the death rattle. I've heard that too many times to make any mistakes."

This prediction proved correct, for these were his last words.

Throughout his talk with Captain Fox, Rogers shielded his white companion and did not reveal his identity. Captain Fox's report also is singularly silent on this point, and he says he did not know the doctor. It is thought likely, however, that this was done to protect the man.

PROMOTERS POST FORFEIT FOR JOHNSON VS. JEANETTE

New York, Aug. 19.—Assurances that the proposed bout between Jack Johnson and Joe Jeanette would be staged in this city advanced a step tonight when the McMahon Bros., proprietors of the St. Nicholas Athletic Club, posted with the sporting editor of a New York newspaper a certified check for \$5000 as a forfeit binding them to stage the bout at the St. Nicholas A. C. on September 28. It was said here that Johnson was expected to post a \$5000 forfeit in Chicago night.

There is still great doubt whether the State Athletic Commission, which regulates boxing in New York State, will allow the two colored men to meet here. Some months ago, when promoters were trying to get Johnson to appear, the members of the commission let it be known that they would oppose the idea. It had been expected that the Athletic Commission would meet today and decide upon its attitude in the present instance, but the meeting was not held.

QUEBEC.

A clock that has been ticking away for more than 100 years has been placed on exhibition at Skowhegan, Me. The clock is said to be the only one of its particular kind. It was made by a Scotch jeweler for his own particular use and entirely by hand.

The clock has a patent lever movement, which at that time had never been applied to a clock, because the old style pendulum was so much cheaper. Another odd feature is the tiny chain that transmits the power of the spring on to the tapering drum attached to the first of the train of wheels.

MAN'S BODY FOUND IN RIVER UNIDENTIFIED

Victim of Drowning Mishap in the Water for 10 Days—Taken to the Morgue.

Samuel Vezina, jr., boatman, picked up the body of a man yesterday afternoon in the river opposite the Finlay market wharf and brought it ashore. It was subsequently removed to the morgue.

The body is that of a man about 30 years of age, and five feet seven inches in height. The clothing consists of yellow colored shirt, black trousers and vest, and tan boots. The body had evidently been in the water eight or ten days, the face being badly decomposed.

A new brass instrument has just arrived from England for the 8th R.R. band and is now on exhibition in the window of C. Robitaille's music store, St. Joseph street. It is the only instrument of the kind in the city.

ANOTHER ADJOURNMENT IN AUTOMOBILE CASES

The hearing of the cases taken in the Court of Sessions, some time ago, against a number of automobile owners, for exceeding the speed limit, was again postponed yesterday until the 23rd instant.

SEMINARY PROFESSOR DEAD IN ONTARIO.

Abbe S. A. Lortie, professor of Theology in the Quebec Seminary, died yesterday at the residence of his brother, the presbytery, Curran, Ont. Abbe Lortie, who was a well-known priest, was 42 years of age. The body will be brought to Quebec for interment, the funeral service taking place at the Seminary Chapel on Thursday morning.

WILL INVESTIGATE CANADIAN LIQUOR LAWS

W. A. Lloyd, late secretary of the Liquor Trades Defense Association of Western Australia, and official lecturer of the L. T. D., in New South Wales, will spend two months in Canada studying the liquor license situation in the Dominion. Mr. Lloyd, who was in town yesterday, is not a prohibition preacher, not because, as he says, he does not want to save the drunkard, but because he does. He will study the license law and effects in different provinces.

INFERNAL MACHINE TURNS OUT TO BE A JOKE.

At the request of the police authorities, Dr. Macintyre, of the Dominion Arsenal, has examined the contents of the supposed infernal machine received by Mr. Rousseau, grocer, of St. Sauveur, on Friday last. Mr. Macintyre declares that the box was in no way dangerous, and that the small cartridges it contained could not explode alone, even if placed near a furnace. If the box took fire as reported it must have been set on fire. Apparently the whole matter is only a joke.

CADETS EN ROUTE TO TORONTO EXHIBITION

Splendid specimens of young manhood are the two detachments of cadets, one from England, the other from Australia, who were in town yesterday on their way west to the Toronto Exhibition, where in conjunction with cadets from different parts of the Dominion, they will be inspected by the Duke of Connaught. They are a strapping lot of young fellows and in their natty rigs they attracted great attention all over town yesterday. The cadets arrived by the Allan steamship Pretorian yesterday.

RECORDER'S COURT.

Quebec could certainly not have been dry on Sunday last, if the number of "wets" who appeared before the Recorder yesterday morning is any indication of the fact. Not less than sixteen devotees of Bacchus stood in the dock when the court opened. His Honor disposed of them in the following manner: Two were fined \$10 and costs or one month's jail each, eight \$5 and costs or eight days each three \$2 and costs or a similar imprisonment, and three were discharged.

A man out on bail failed to appear, and a bench warrant was issued for his arrest.

MEALS REFUSED BY LOCAL RESTAURANTS

Evasion of Law Again Rules in Licensed Establishments in the City of Quebec.

A number of Quebec restaurant proprietors, now that they have secured their licenses, have gone back to the same old method of refusing to give the public meals in their places of business. The law distinctly requires that such a meal shall be provided on application, but it is common knowledge that it is frequently refused. In fact, when a request for a meal is made, a wave of the hand to a little soup dish full of soup and biscuits is often the reply, and one is told that that is all the lunch that is required by law. This is, in effect, an evasion of the law, and the authorities would do well to take the matter up with a view of inspecting all the restaurants in the city, so that the law can be properly enforced. More especially at this season of the year, when the city is full of visitors and tourists, a careful supervision of this act is needed.

It is the same old story, now that the licenses have been secured, that there is an evident and wilful laxity on the part of some of these proprietors in carrying out their part of the agreement.

RAISE OF PAY FOR STREET CAR MEN

Company Accedes to Request of Employes—Increase of 1 and 2 Cents Per Hour.

The management of Q. R., L. H. & P. Co. has granted an increase of pay to their street car conductors and motormen. The increases granted are as follows:

Employes with eight years' service to their credit will receive 1 cent increase per hour, and those in the service of the company twelve years 2 cents per hour. Other demands made by the union were not considered.

FIVE MORE GINGER ALE BOTTLES IN TROUBLE

Two more Quebec ginger ale bottlers who have been detected by special officers in using bottles bearing the brands of Montreal, Ottawa and Toronto manufacturing firms, are before the police court to explain how they have become violators of the law respecting the use of trade-marks not their own.

One of the firms detected, who pleaded guilty on Saturday last, had 141 dozen such bottles in its possession, which were confiscated and brought to court. The quantity found on the premises of the other accused was also extensive.

ALARM SERVICE RANG ONE; NOTHING DOING.

There was a bit of excitement last evening when the fire alarm bell rang out No. 1. This number is the City Hall, and it was thought that possibly the fire might be a serious one. However, upon investigation it was found that the alarm was not an alarm, but simply a blow from the fire alarm department, which had some little trouble with the wires and struck the single signal to show that everything was all right.

HOW TO DEFINE A HOTEL GUEST

Question Is Still Raised Under the Province Liquor Law—View of Government Official.

The proper qualification of a hotel guest in accordance with the Provincial license act is a question that is frequently discussed these days by the local hotel habitue accustomed to lunch or dine in the city hotels on Sundays or holidays and consume liquors with their meals, as the privileged traveller from outside the city limits are allowed to do.

In order to get a true definition of the word guest, a Chronicle representative called at the Provincial Revenue Department, located in the Departmental buildings, yesterday. This is what he learned: The Provincial license act provides that all restaurants where liquor is sold are compelled to close on Sundays or the holidays designated in the act. But it is different with the hotels which provide board and lodging, for the accommodation of tourists or travellers in general.

What Law Provides. Article 1333 of the Revenue Statute of 1909 provides that hotelkeepers who lodge travellers are authorized to sell liquors at any hour, day or night, and on any day of the year, Sundays included, to their bona fide guests or to travellers sojourning at such hotels, except during forbidden hours on Sundays and Good Friday. During those times and hours the bar must be closed and the liquor must be supplied at the rooms of such boarders or the dining rooms of such hotels.

The official who courteously furnished the above information was asked to give the full meaning of "guest." He replied that any traveller who registered at a hotel was a "guest."

Discussing the right of a citizen to register and partake of a lunch or dinner, he was asked if that citizen was not accorded the same privilege as a traveller from outside the city. The official said: "This was a particular case that would have to be decided by a judge if a complaint was made."

"The Alliance Association is of the opinion that a traveller would have to be registered 24 hours before he could be properly designated as a bona fide traveller. This, however, is not the case, as a traveller becomes a regular boarder after registration."

Case of Local Men in Doubt. "I cannot answer for the citizen registering under the same conditions. In such a case if a complaint were made, the judge who would hear the case would have to determine the meaning of a traveller in every particular case of complaint."

LIBEL ACTIONS AGAINST LA PATRIE AND L'EVENEMENT

Messrs. Morand & Suard, advocates, of this city, acting on behalf of Mr. Hector Authier, Provincial Crown Lands Agent in the Abitibi district, have taken an action for \$5,000 damages against La Patrie, of Montreal. The latter organ contained an article recently relative to a sale of lots by him in his region, which Mr. Authier claims is false and malicious.

Yesterday Mr. Savard also took an action on behalf of Mr. Authier against L'Evenement, of this city, for having published a somewhat similar statement and in this case the amount of \$5,000 is also claimed.

TENNIS PLAY AT NEWPORT BEGINS

Sixty Matches Mark Opening
Day of Newport Singles
Championships.

Newport, R. I., Aug. 19.—Three score matches in the opening round of the National Lawn Tennis championship in singles were run off today on the Casino Courts under fine conditions of turf and weather and with no unexpected results. Nearly all the matches to-day were decided in straight sets. One of the longest contests of the day was between E. M. Pickman, of Los Angeles, and W. P. Burden, of Newport, which went five sets. In the last set the Newport player had his man five-love and 40-15 when the Pacific Coast player rallied and took seven straight games and the match.

The Pacific Coast players showed up strongly. McLoughlin dropped only a single game against Lieut. F. B. McNair, U. S. N., stationed at the Torpedo Station here. There were several other players from the army and navy but they were unable to cope with the civilians.

Three German players are entered in the tournament and two of them were eliminated, R. A. Auspitzer, of Berlin, being the only one left. He will play his match to-morrow.

The match which was featured for the forenoon was between the two doubles champions, R. D. Little and G. F. Touchard, who had been drawn against each other in the first round. Touchard was erratic and Little had no difficulty in capturing the match in straight sets.

A large crowd is expected to witness the doubles championship to-morrow, with M. E. McLoughlin and T. C. Bundy, the Pacific Coast challengers, ruling 3 to 1 favorites in the betting at the Newport clubs over G. F. Touchard and R. D. Little, the title holders.

SAYS TORONTO RINK

IS FINEST IN THE LAND
Montreal, Aug. 19.—President T. Emmett Quinn of the National Hockey Association of Canada, has just returned from Toronto, where he made an inspection of the new hockey rink, which he says is the finest in Canada or the United States.

"That talk about two hockey leagues and either of the Toronto clubs belonging to another than the National Hockey Association of Canada is all moonshine," said Mr. Quinn.

"I have had a long talk with the backers of both the Toronto and the Tecumseh Clubs, and they fully intend to retain the right of their franchises and use them next year."

INTERNATIONAL LEAGUE GET MAJOR PLAYERS.

Cincinnati, Aug. 19.—The National Baseball Commission has issued its annual list of major players who have been released to minor league clubs that are subject to be recalled by the former clubs under optional agreement which will expire in August. The list of players released to International League Clubs includes:

In the American League:
By Chicago—To Montreal, Fournier, \$1,500; to Jersey City, Barrows, \$900.
By New York—To Rochester, Martin, \$1,000; Clark, \$500; and Klepfer, \$500.

By Boston—To Jersey City, Meyers, Schmidt, McCrone, Loneragan, White and McHale, option to purchase Janvrin and Mains for \$300 each.

In the National League:
By St. Louis—To Montreal, Murphy, \$750.

By Boston—To Buffalo, McTigue, \$750.

By New York—To Buffalo, Stock, Munsell, Bues and Fullenwinder, \$500 each; to Toronto, Drucke, \$500.

By Brooklyn—To Toronto, Kent, \$300.

The major league players released to minor league clubs on whom major league clubs have already waived claims are:

In the National League:
By Philadelphia—Baxter, Lehr, and Beck, of Buffalo.

By Brooklyn—Humphrey, Farrell and Bell, of Toronto; Zimmerman and Smith, of Newark.

In the American League:
By Detroit—Mitchell and Remneas, of Providence.

By Boston—Bedient, of Jersey City.

COMMISSIONER SEEKS CAUSE OF AMERICAN EMIGRATION

Calgary, Alb., Aug. 19.—C. L. Farrer, special agent of the Department of the Interior of the United States Government, has arrived in Calgary for the purpose of conducting an interesting investigation. He is here to ascertain the reason for the phenomenal rush of American settlers.

He will make a study of the Canadian land laws, the methods of their enforcement, and the Canadian methods of interesting the settler and bringing him into the Northwest. Mr. Farrer's visit is the direct outcome of the recent convention held in Seattle of the Northwest Development League, the purpose of which is to check American immigration into Canada.

WHY?

Do you pay high prices for imported mineral waters when you have much better here in your own city, at less than half the cost. We say much better, and we mean it, and can prove it.

According to the Report of Dr. Milton L. Hersey, M. Sc., Provincial Government Analyst.

CLAIRE-FONTAINE WATER

Leads the world, and his opinion cannot be contradicted, as he is authority when he speaks. As a medicinal and table water we challenge the best of them, and are willing to give \$100,000 to any Hospital in this city if any person can prove to the contrary.

Try it at our expense. If you have Dyspepsia, your liver is wrong or you are subject to headache. Kindly call or phone, and we will supply you for a time, and if you find it is not as we say, why, you don't pay us. The spring is upon our premises, 271 feet deep, in solid rock.

FIVE STEAMERS IN
PORT YESTERDAY

White Star Line Canada Brings
Biggest List, of 1235—Immi-
grants from Ireland.

While five steamers from Europe
landed passengers here yesterday,
they mean no means brought out a re-
cord number. Nevertheless the immi-
gration and Customs officials had a
busy time of it, as the newcomers re-
presented almost every nation under
the sun, and there was quite a Babel
in the immigration buildings when a
few hundred of them were gathered
there.

The first vessel to land her human
freight was the C.P.R. Co.'s steamer
Mount Temple, from London and
Antwerp. She brought out 476 pas-
sengers, principally from continental
Europe, bound for Western Canada;
1 the United States. Just before
the people began to disembark, a
foreign baby, five months old, died,
and will be buried here. The Mount
Temple left for Montreal at 6.30 a.m.
The Donaldson liner Cassandra,
from Glasgow, was the second steam-
er to send her passengers, 436 in num-
ber, ashore. These were mostly sons
and daughters of Auld Scotia, bound
to Ontario and the Canadian North-
West, who brought plenty of baggage
with them. By 8 a.m. the passengers
and their effects, as well as the Que-
bec cargo, was ashore, and the steam-
er left for Montreal.

1,235 on the Canada.

The White Star-Dominion liner
Canada, with the record number of
passengers for the day—1,235 all told
—was the third steamer to disembark
her passengers. These were composed
of different nationalities, but British
largely predominated. It took con-
siderable time to get such a large
number and their baggage, as well as
Quebec goods, disembarked, so it was
9 a.m. before the Canada left for Mon-
treal. As the steamer was entering
port a baby, four months old, named
Willie Charming, died of pneumonia.

The Allan steamer Pretorian, from
Glasgow, with 492 passengers, was
next on the role to land, but by that
time the immigration buildings were
well filled, and it was nearly noon be-
fore she was allowed to disembark
her travellers. However, their bag-
gage, which was considerable, had
been landed, during the morning, so
that it did not take the people long to
leave the steamer once they commen-
ced to come ashore.

Brought Party of Icelanders.

Among the Pretorian's passengers
was a party of Icelanders, accompan-
ied by an interpreter. These are a fine
healthy lot of people, and will, no
doubt, make first class settlers.

Her passengers being landed the
Pretorian went up to the company's
wharf, discharged Quebec cargo and
left for Montreal last evening.

In the meantime the Allan liner
Lake Erie, from London and Havre,
with 310 passengers, which arrived
here at 7 a.m., could find no place at
the Breakwater. She therefore went
up to the company's wharf and dis-
charged Quebec cargo. She returned
to the Breakwater at noon, landed her
passengers, who were mostly foreign-
ers, and left for Montreal at 1.45 p.m.

By last evening the majority of the
new arrivals had left by train for their
destinations.

DOMINION LINE.

Steamer Cornishman, Capt. Maddox,
having completed cargo, left port for
Bristol last night.

BLACK DIAMOND LINE.

Steamer Norwenna, Capt. Holmes,
from St. John's, Nfld., etc., with pas-
sengers and general cargo, arrived
here yesterday afternoon and proceed-
ed for Montreal.

C. P. R. LINE.

Steamer Monmouth, Captain Turn-
bull, from Avonmouth, was reported
86 miles northeast of Heath Point at
10.10 a.m. yesterday and is due in port
to-night.

MANCHESTER LINE.

Steamer Manchester Port, from
Manchester, en route for Quebec, sail-
ed from Charlottetown at 5 p.m. yes-
terday, and is due here Wednesday
night.

QUEBEC STEAMSHIP CO.

Steamer Guiana sailed from New
York for West Indies at 4 p.m. last
Saturday.

Steamer Parima sailed from St.
Thomas, W.I., for New York, at 11.00
a.m. yesterday.

FREIGHTS AND CHARTERS.

CLOSING LETTER.

By private wire to Neuville Bellevue
& Co., 93 St. Peter St., Quebec. Phones
946-4076.

New York, Aug. 19.—The market
opened steady, though somewhat ir-
regular, Lehigh Valley being weak-
est, dropping a point in the early
trading. Union Pacific and Reading,
with Lehigh Valley, were the stocks
selected by the bears for attack. Re-
ports of adverse decision on coal
rates by the Interstate Commerce
Commission in session and no deci-
sion is looked for before October.
Sales of stock during the first hour
were 115,800 shares, but after that
business dwindled until between 12
and 1 o'clock only 25,000 shares
changed hands. Requests for quotations
were disappointing, the market
being wide apart, except for the most
active issues. The short interest is
said to have been much increased
during the past week, but the bor-
rowing demand is not excessive and
does not indicate an over-extended
position. Crop reports for the past
week have been uniformly unfavor-
able both for grain and cotton.
Money continues steady to firm, with
offerings quickly taken and little long
time in sight. Higher rates for both
call and time funds must soon be
expected. Specialties were again
prominent, this time, Union Bag and
Paper, American Ice and Texas Oil.
Distillers' also gained on reports of
inauguration of dividends on Indus-
trial Alcohol, which it controls. The
New York, New Haven & Hartford
Railroad has made application to the
Public Service Commission to buy the
outstanding stock of New York, On-
tario & Western, of which it now
holds control. Further advances in
prices of steel products had no in-
fluence on Steel common, but the
price held firm and in the afternoon
dealings, some large block changed
hands at top quotations. London
quotations for copper were a trifle
lower. London bought stocks to the
extent of a few thousand shares only
on balance. Bethlehem Steel acted
well, rising to a new high record of
41 1/2 on reports that the securities
would be listed in Amsterdam.

The closing was dull, with net
changes for the day fractional, as a
rule.
We would await weak spots before
buying, anticipating ultimately higher
quotations.

LONDON MARKETS.

Public notice is hereby given that under the Quebec Companies Act, letters patent have been issued by the Lieutenant-Governor of the province of Quebec, hearing date the twenty-second day of July, 1912, incorporating Messrs. Alfred Robitaille et Joseph Robitaille, merchants, Marie Jeanne Robitaille, Marie Anne Robitaille, Marie Les Germaine Robitaille, and Marie Justine Louise Robitaille, spinners, of lawful age, and Dame Mary Smith, wife separated as to property of the said Alfred Robitaille, of the village of Beauport, for the following purposes:

To acquire and take over as a going concern the undertaking and business now carried on by the said Joseph Edouard Robitaille and others, at Beauport aforesaid, under the firm name of "La Compagnie des Carriers de Beauport," and all or any of the assets and liabilities in connection therewith upon such terms and conditions as may be agreed upon, and to issue in payment or part payment therefor fully paid up shares, bonds, debentures or other securities of the company;

To carry on business as quarry masters and stone merchants, and to buy, sell, get, work, shape, hew, carve, polish, crush, saw and prepare for market or use, stone, lime, cement, sand, ore, minerals and building materials of all kinds and to carry on business as road and pavement makers and repairers, and manufacturers of and dealers in and workers in stone, lime, cement, mortar, concrete, asphalt, and building materials of all kinds and as builders and contractors for the construction and erection of public and private works, buildings and structures, and to carry on a general contracting and mining business, and to manufacture, sell and deal in brick of all kinds.

To acquire by purchase, concession, exchange or other legal title, and to construct, erect, operate, maintain and manage all factories, shops, stores, houses, depots, machines and erections necessary for its business and all other property moveable and immovable necessary and useful for the carrying on of any of the purposes of the company, and to lease, sell and dispose of the same;

To buy, sell, manufacture, exchange, let on hire, import, export, and deal in all kinds of goods, wares or merchandise which may be required for the purpose of any of the said business or which may seem capable of being profitably dealt with in connection with any of the said businesses of the company;

To act as agent for any company, corporation, firm or person carrying on any of the business or undertaking aforesaid;

To develop and operate any water power or water powers and to generate, produce and accumulate steam, gas, electricity or other motive power for the production of light, heat or power for the purposes of the company, with the power to sell or otherwise dispose of any excess not required, heat or power purposes to any person or corporation in the city of Quebec, and in the counties of Montmagny, Quebec, Portneuf, Charlevoix and Chicoutimi on such terms as may be agreed upon, provided that the foregoing powers when exercised outside the property of the company shall be subject to all provincial and municipal laws and regulations in that behalf.

To apply for, obtain, register, purchase, lease or license on royalty or otherwise, acquire and hold, use, own, operate, and introduce, and to sell, assign, or otherwise dispose of any trade marks, trade names, patents of invention, improvements and processes, under registration or otherwise, useful to the business of the company, and to use, exercise, develop, grant licenses in respect of, or otherwise turn to account any such trade marks, trade names and inventions, licenses, processes and the like or any such other property or rights;

To hold, purchase, or otherwise acquire, and to sell, or otherwise dispose of shares or bonds of any other company having objects wholly or in part similar to those of this company, or carrying on businesses capable of being conducted so as to directly or indirectly benefit the company;

To consolidate or amalgamate with any other company having objects altogether or in part similar to those of the company, and to acquire by purchase, lease or otherwise, the property, franchises, undertakings and business of any such corporation, and to assume the liabilities thereof, and to pay for the same wholly or partly in cash, shares, bonds or other securities of the company;

To sell or otherwise dispose of the undertaking of the company of any part thereof for such consideration as the company may deem proper, and in particular for shares, debentures or securities of any other company having objects in whole or in part similar to those of this company;

To acquire or undertake the whole or any part of the business, property and liabilities of any person or company carrying on any business which the company is authorized to carry on, or which might be, of value to the company, and to issue paid up or partially paid up shares of this company in consideration or part consideration thereof;

To issue paid up shares, bonds, debentures or other securities of the company in payment or part payment for any property or rights which may be acquired by, or for any services rendered, or for any work done for the company, or in or towards the payment or satisfaction of debts and liabilities owing by the company;

To accept in payment of any debt due to the company, stock, shares, bonds, debentures or other securities of any company;

To purchase, build, construct or otherwise acquire, own, charter, maintain, operate, manage, navigate and use steam and other boats, barges, scows, and vessels, for the purpose of its business or otherwise, and to purchase or otherwise acquire shares in any ship;

To construct, maintain, after, make, own, and operate on property owned or controlled by the company, and on property adjacent thereto, all such reservoirs, dams, flumes, race and other ways, works, improvements, booms, sluice-ways, water powers, aqueducts, wells, ditches, canals, wharves, slides, piers, roadways, log rolls, and other erections and works as may be necessary;

To invest the moneys of the company, not immediately required in such manner as may from time to time be determined;

To distribute among the shareholders of the company in kind any prop-

erty of the company and in particular any shares, debentures or securities of any other company, belonging to the company, or which the company may have power to dispose of;

To carry on any other business manufacturing or otherwise which may seem to the company capable of being conveniently carried on in connection with any of the above specified business, or calculated directly or indirectly, to enhance the value of, or render profitable any of the company's properties or rights, and to do all acts and exercise all powers incidental to the due carrying out of the objects for which the company is incorporated, and necessary to enable the company to profitably carry on its undertakings, under the name of "La Compagnie des Carriers de Beauport, Limitee," with a capital stock of ninety-seven thousand dollars (\$97,000.00), divided into nine hundred and seventy (970) shares of one hundred dollars (\$100.00) each.

The chief place of business of the corporation, will be at the village of Beauport, in the county of Chicoutimi.

Dated from the office of the Provincial Secretary, this twenty-second day of July, 1912.

C. J. SIMARD,

Deputy Provincial Secretary.

MEREDITH & MEREDITH,

Attorneys for the Company.

aug.17x4.

Public notice is hereby given that, under the Quebec Companies' Act, letters patent have been issued by the Lieutenant Governor of the province of Quebec, hearing date the seventh day of May, 1912, to "La Société de Construction Ouvrière de Chicoutimi," incorporated by original letters patent dated the nineteenth day of June, 1906, granting the following powers:

To acquire land or immovable property or interest in land or immovable property, and to acquire by purchase, concession, exchange or otherwise legal title, and to construct, erect, operate, maintain and manage all factories, shops, stores, houses, depots, machines and erections necessary for its business and all other property moveable and immovable necessary and useful for the carrying on of any of the purposes of the company, and to lease, sell and dispose of the same;

To buy, sell, manufacture, exchange, let on hire, import, export, and deal in all kinds of goods, wares or merchandise which may be required for the purpose of any of the said business or which may seem capable of being profitably dealt with in connection with any of the said businesses of the company;

To act as agent for any company, corporation, firm or person carrying on any of the business or undertaking aforesaid;

To develop and operate any water power or water powers and to generate, produce and accumulate steam, gas, electricity or other motive power for the production of light, heat or power for the purposes of the company, with the power to sell or otherwise dispose of any excess not required, heat or power purposes to any person or corporation in the city of Quebec, and in the counties of Montmagny, Quebec, Portneuf, Charlevoix and Chicoutimi on such terms as may be agreed upon, provided that the foregoing powers when exercised outside the property of the company shall be subject to all provincial and municipal laws and regulations in that behalf.

To apply for, obtain, register, purchase, lease or license on royalty or otherwise, acquire and hold, use, own, operate, and introduce, and to sell, assign, or otherwise dispose of any trade marks, trade names, patents of invention, improvements and processes, under registration or otherwise, useful to the business of the company, and to use, exercise, develop, grant licenses in respect of, or otherwise turn to account any such trade marks, trade names and inventions, licenses, processes and the like or any such other property or rights;

To hold, purchase, or otherwise acquire, and to sell, or otherwise dispose of shares or bonds of any other company having objects wholly or in part similar to those of this company, or carrying on businesses capable of being conducted so as to directly or indirectly benefit the company;

To consolidate or amalgamate with any other company having objects altogether or in part similar to those of the company, and to acquire by purchase, lease or otherwise, the property, franchises, undertakings and business of any such corporation, and to assume the liabilities thereof, and to pay for the same wholly or partly in cash, shares, bonds or other securities of the company;

To sell or otherwise dispose of the undertaking of the company of any part thereof for such consideration as the company may deem proper, and in particular for shares, debentures or securities of any other company having objects in whole or in part similar to those of this company;

To acquire or undertake the whole or any part of the business, property and liabilities of any person or company carrying on any business which the company is authorized to carry on, or which might be, of value to the company, and to issue paid up or partially paid up shares of this company in consideration or part consideration thereof;

To issue paid up shares, bonds, debentures or other securities of the company in payment or part payment for any property or rights which may be acquired by, or for any services rendered, or for any work done for the company, or in or towards the payment or satisfaction of debts and liabilities owing by the company;

To accept in payment of any debt due to the company, stock, shares, bonds, debentures or other securities of any company;

To purchase, build, construct or otherwise acquire, own, charter, maintain, operate, manage, navigate and use steam and other boats, barges, scows, and vessels, for the purpose of its business or otherwise, and to purchase or otherwise acquire shares in any ship;

To construct, maintain, after, make, own, and operate on property owned or controlled by the company, and on property adjacent thereto, all such reservoirs, dams, flumes, race and other ways, works, improvements, booms, sluice-ways, water powers, aqueducts, wells, ditches, canals, wharves, slides, piers, roadways, log rolls, and other erections and works as may be necessary;

To invest the moneys of the company, not immediately required in such manner as may from time to time be determined;

To distribute among the shareholders of the company in kind any prop-

BRING BOER COLONY TO PEACE RIVER

Montreal Financier Persuades Settlers From Transvaal to Come to Canada.

Montreal, Aug. 19.—Mr. E. G. Rykert, the local financier, who has just returned from a business trip to Europe, stated this morning that during his trip he had made preliminary arrangements for bringing a large number of Boer settlers from the Transvaal to take up land in the Peace River district of Canada.

Mr. Rykert during his visit put through the formation of a large syndicate for the buying of some 800,000 acres of Peace River lands. A large amount of Dutch capital was interested in the deal.

The first batch of settlers will come in the near future. They are of fine Dutch stock, with generations of farming experience behind them, and they should prove, in Mr. Rykert's opinion, of great value in developing the country.

ALLEN IN SHERBROOKE GOAL AFTER 12 YEARS

Sherbrooke, Que., Aug. 19.—Fredrick Allen, alias Joseph Hubble, is now safely incarcerated in the local goal from which he escaped 12 years ago. Eleven of these 12 years he spent in state's prison at Charlestown, Mass.

Immediately on his release he was rearrested and brought here by Chief McCaskill, of the provincial force. He is charged with the robbery of a bank in Danville 12 years ago and with breaking goal after being arrested on that charge. His term in the Boston prison followed a later arrest for a brewery burglary at Lawrence.

ALBANIAN INSURGENTS CONTINUE TO ADVANCE

Constantinople, Aug. 19.—It is reported that Montenegrin troops to-day surrounded and entered the Albanian district of Berana on the Montenegrin frontier, where a massacre of Christians by Mohammedan Arnaouts has been in progress, but that the fort remains in the hands of the Turks.

The Albanian insurgents are continuing their advance toward Saloniki. It is reported that a force of rebels numbering 2500 men to-day occupied the town of Guevrekli, 50 miles from Saloniki. The Turkish government has concentrated troops at Keprulu and Ibrahim Pasha, who has taken military measures for the protection of Uskup, has given the insurgents 24 hours to make submission. The troops have been given orders to attack if the rebels do not surrender before the expiration of that period.

The insurgents decline to submit unless 30,000 rifles are distributed among them.

EXPECT SECOND VETO BY PRESIDENT TAFT.

Washington, Aug. 19.—President Taft, it is predicted to-night, will register a second veto against the legislative, executive and judicial appropriation bill agreed to late to-day in both the Senate and the House.

The bill as it was sent to the White House provides for the abolition of the commerce court, but does not contain the provisions which would limit to a seven year tenure civil service employees to which Mr. Taft objected when he vetoed the same bill several days ago.

The President is a strong believer in the usefulness of the commerce court, but also disapproves of the bill because Congress has attached special legislation to one of the great supply measures designed to keep the wheels of government in motion.

He has expressed a willingness to stay in Washington all summer, if necessary, to back up the commerce court.

C. P. R. IS LIKELY TO BUILD SARNIA LINE

Montreal, Aug. 19.—The Canadian Pacific Railway is always looking for good towns to get into, this morning by D. McNicoll this morning to a query put to him as to whether or not there was any truth in the rumor emanating from London, Ont., that the Canadian Pacific proposed building a new line to Sarnia, Chatham and Petrolia.

Mr. McNicoll, questioned further on the subject, would have nothing to say, except that no definite arrangements for this line had been completed as yet.

It was stated at C. P. R. headquarters this morning, however, that a party of representative citizens from these towns had visited Mr. McNicoll here last week and that, as a result of this visit, Major Lumsden visited the towns mentioned and expressed himself while there as greatly impressed with the opportunities the C.P.R. would derive from a line to these towns.

It is said that if a line is built into this district by the Canadian Pacific it will lighten Sarnia's economic burden. It will be with a view to securing the immense business of the Standard Oil interests, which will be centred at Sarnia, and from which all Canada will be served.

Children Cry FOR FLETCHER'S CASTORIA

15 MILLIONS FOR U.S. BATTLESHIP

Programme Also Calls for Eight Submarines and Big Fleet of Auxiliary Ships.

Washington, August 19.—One battleship to cost \$7,425,000 without armor or armament, and not to exceed \$15,000,000 when completed; eight submarines costing \$4,480,000 and a fleet of torpedo boats, colliers and machine ships, constitute the building programme for the navy approved to-day by the Senate, and which probably will be adopted without change by the House.

The House and Senate conferees on the naval bill met early to-day and adjusted in a few minutes the fight between the two houses over battleships and submarines. The Senate yielded to the demand of the house for one battleship instead of two, but secured in exchange the full fleet of eight submarines, instead of the four proposed by the House.

DOUBTFUL IF ERIC CAN BE FLOATED

Steamer Is Still Harder Ashore at Sable Island and Seas Are Washing Her Decks.

Halifax, N.S., August 19.—A despatch this evening from the steamer Eric, ashore at Sable Island, says the seas are washing over the deck of the steamer and she has been driven a little nearer to shore forward. It may be found possible to get her off, but it does not look as if there was much chance. The steamer Seal came in to-day with 5,000 bushels of corn salvaged from her cargo. The Eric had about 3,000 tons of it.

POLICE TRY TO TAKE SCHEPPS FROM WHITMAN

(Continued from First Page.)

headquarters directly upon his arrival.

When the train bearing Mr. Whitman and the Schepps party arrived to-day at 125th street station in New York city, five headquarters detectives, headed by Detective Haggerty, boarded it and demanded Schepps as their prisoner.

"I will order the instant arrest of any officer who attempts to take Schepps to police headquarters," Mr. Whitman told Haggerty, "and you can present my compliments to your commissioner." Mr. Whitman explained to the detectives that as District Attorney of the country he was thoroughly familiar with the evidence against Schepps as an alleged accomplice of the murder and told them that it was insufficient to arrest him on such a charge, this being the one the police have made against him.

"Schepps has come a voluntary witness into the State on a pledge from me that he is to be protected and I intend to protect him," declared the district attorney.

Other detectives were on hand at the Grand Central Station, but made no attempt to take Schepps into custody. Mr. Whitman immediately after his arrival got into telephone communication with the Deputy Commissioner, who said, according to the District Attorney: "I was acting absolutely on orders from Commissioner Waldo. It must be that the Commissioner misunderstood things in some way."

Schepps Corroborates Rose.

Schepps was arraigned and held on a technical charge of vagrancy. On the trip from Albany Mr. Whitman had a long conference with the witness behind stateroom doors and obtained from him, he said to-night, a story which materially strengthened his evidence against Becker and other prisoners, seven in all, whom he expects the grand jury will indict to-morrow.

"He has corroborated everything in Jack Rose's story that he said he would," said Mr. Whitman to-night. Just what the details were Mr. Whitman refused to say, intimating that he wished to keep them for the ears of the grand jury.

Justice Goff, appointed by Governor Dix to inquire into the general graft situation in a special term of the Supreme Court, plans to inaugurate public John Doe proceedings of the widest scope when the term opens in September. A special grand jury will be convened to co-operate with the court and witnesses whose testimony points to the commission of a crime by any person will be sent before that body.

JOCKEY JOST, HURT WITH CULLEN, MAY ALSO DIE

Montreal, Aug. 19.—The coroner this morning disposed of the case of Jockey Cullen, killed at King Edward Park Saturday in a fall, without putting the case to a jury.

The young wife of the deceased arrived in Montreal to-day from Toronto and will leave with the body to-night for Brooklyn, N. Y., where the dead jockey's mother resides. Cullen's marriage took place only this spring.

Jockey Jost, who was hurt in the same spill, is still unconscious with a badly fractured skull and there is but slight hope of his recovery.

ST. JOHN WELCOMES GOVERNOR GENERAL

His Royal Highness Turns the First Sod for the New Civic Playground.

St. John, N.B., Aug. 19.—Thousands of people gathered at Rockwood Park this afternoon to see the Duke of Connaught turn the first sod for the new civic playgrounds.

The weather was fine and the Duke was greeted with cheers from the time he left the Union Club, where he dined as the guest of Lieut.-Gov. Wood, until he reached the park entrance, after passing through several residential and business streets.

At the park Mayor Frink spoke briefly and the Duke replied. About 3000 school children sang national songs. Later the Duke visited Courtney Bay, when the school children sang and the Duke saw a large band of Gypsies, in which he was greatly interested. He then reviewed a parade of 80 decorated motor boats and in the evening attended a public reception in St. Andrews Rink, given by the mayor and commissioners.

This morning he was officially received by the mayor at the court house and then, with the Princess, drove around the city. The Princess was entertained at luncheon by the Misses Hazen. During the afternoon the Duke was presented with an address by the imperial army and navy veterans living in St. John.

Col. Lowther announced tonight that after leaving St. John tomorrow the Duke and Duchess and the Princess would go to St. Andrews to visit Sir William Van Horne. Then they will proceed direct to Toronto. From there the royal party will go to Winnipeg and the coast. The Duchess will accompany the Governor-General.

WAIT FOR EVIDENCE IN DR. NOBLE'S CASE

May Appoint Commission to Examine Mental Condition of His Monoplane.

Montreal, Aug. 19.—The case of Dr. Charles Noble, of Philadelphia, who is held in the Verdun Insane Asylum against his will at the instigation of his son, and who is petitioning the courts for his release on habeas corpus proceedings, came up to-day before Justice Demers, but was put over until Thursday to give the attorneys for the son further time to prepare their case. A commission to inquire into the petitioner's mental condition may be appointed, and the hospital authorities are asking that the case be not disposed of until Monday, when Superintendent Burgess, who has been away, will return to the city.

It is thought that he should be a member of the commission. Dr. Burgess was in England when Dr. Noble was committed and would therefore be unprejudiced.

COL. SAM HUGHES UNVEILS GENERAL BROCK BUST

Brockville, Ont., Aug. 19.—After ten years of assiduous work on the part of General Brock Chapter, Daughters of the Empire, there was unveiled this afternoon on Court House Square a bronze bust of General Sir Isaac Brock, the defender of Queen's Heights, after whom the town was named. The ceremony was performed by Col. Sam Hughes, Minister of Militia, in the presence of an immense concourse of citizens.

Among the invited guests were the Hon. W. T. White, Minister of Finance; the Hon. Senator Taylor, the Hon. Dr. Reid, Minister of Customs; the Hon. G. P. Graham, Mr. John Webster, M. P.; Mr. A. E. Donovan, M. L. A.; Mr. John R. Dargavel, M. L. A.; Mr. G. Howard Ferguson, M. L. A.; Mr. Hamilton MacCarthy, R. C. A.

MOVE TO DISMISS SECOND DARROW INDICTMENT.

Los Angeles, Cal., August 19.—A motion to dismiss the indictment of Clarence S. Darrow on the charge of having bribed Robert W. Bain, a McNamara juror, will be heard by Judge Geo. H. Hutton to-morrow.

The motion was made to-day when Darrow appeared in court for the setting of his trial on the Bain charge. Several grounds were advanced, including the facts that there had been no trial within the sixty day limit.

Girl Cured of Disfiguring Pimples

By Cuticura Ointment. Broke Out on Face when Twelve or Thirteen. Were Most Embarrassing. Had Tried Everything.

A Nova Scotia girl, Miss Mabel Morrah, of Dover West, writes: "When I was about twelve or thirteen years of age, my face broke out with pimples, and I tried everything to get rid of them, but failed. The pimples were the worst on my forehead and chin. They came out in groups and developed into great disfigurement, and were most embarrassing. "After trying so many remedies without success, I saw Cuticura Ointment advertised, and I sent for a box. I then applied it to the pimples, and in a week I saw a great change in my face. I kept using it, and in a few months it rendered a complete cure. Now you cannot tell I ever had pimples, thanks to the Cuticura Ointment." (Signed) Miss Mabel Morrah, Mar. 21, 1911.

Baby's Face Like Raw Beef

"My baby boy has a large pimple come on his forehead. It burst and spread all over his face when soon looked like a piece of raw beef, as smothered with bad pimples. It was awful to look at. The poor little thing used to scratch it and cry terribly. I took him to a doctor but he only got worse until I was quite frightened that he would always be that way. Then I got two tins of Cuticura Ointment, together with Cuticura Soap, and in two months and quite cured him. Now I use Cuticura Soap for all my children." (Signed) Mrs. E. Perry, 99, Waterloo Rd., Aldershot, England, May 21, 1910.

Cuticura Soap and Ointment are sold throughout the world, but to those who have suffered much, best hope and cure with out faith in any treatment, 2 libras, sample of each with a 32-p. booklet on the skin and scalp will be mailed free, on application. It was argued that Darrow had been tried on the Bain accusation as a part of the general conspiracy charge against him and had been acquitted and that the prosecution had no evidence against Darrow which had not been introduced in the recent trial.

INVESTIGATION OF QUEBEC GAOL STARTS

Rigid Enquiry Will Be Made Into Repeated Escapes of Prisoners.

Dr. Woods, inspector of prisons, assisted by Joseph Hudon, has started an investigation into the recent escape from the Quebec jail of Edward Guay. The investigation opened yesterday morning, and it is understood that it will be quite a lengthy one. Following so close upon the escape of three prisoners a few weeks ago, the present investigation, it is said, will be a particularly rigid one.

MESTACH, BIRD MAN, WILL AGAIN FLY

Daring French Aviator Ready to Take up a Passenger in Passenger in His Monoplane.

George Mestach, the famous bird-man, will again fly in Quebec during Exhibition Week. His manager was here yesterday and had an interview with the officials of the Quebec Exhibition. It was finally decided that the famous aviator will be here on Saturday morning to make his first flight for the opening of the Exhibition.

Mestach, who was injured at Baton Rouge, La., last spring, when he carried the first United States mail by aeroplane, and who again met with a mishap in Winnipeg in July, is greatly delighted to be able to come back to Quebec and give another exhibition of his prowess.

Those who witnessed his thrilling aerial performances last Exhibition know the fearlessness with which he navigates the air.

Mestach will have a Borel monoplane this year, and will be able to carry with him a passenger, whose weight, however, must not be more than 150 pounds.

Who will be the first Quebecer to take a chance? This is a question to be answered later.

FLIES FROM PARIS TO BERLIN

Berlin, Aug. 19.—Edmund Audemars, the Swiss aviator, completed to-day the first aeroplane trip from Paris to Berlin. He arrived at the Johannisthal Aerodrome at ten minutes to seven this evening, having made three intermediate landings and resting during the night at Bochum.

They all left, but Leftie Louis was left in their memories.

Of course the Connecticut Guards will find Quebec a new haven of hospitality.

When a newspaper man can afford to have the gout he should be compelled to keep off the grass.

With a few more poles placed in the streets Quebec will have assumed the appearance of a leafless forest.

Less than four months to the end of the year, but there is still a goodly supply of available young men on hand.

In Maryland drunken men must get their load home by freight. A court has ruled that he can't travel on a street car.

The forest is growing, and we will soon be in the woods if it doesn't stop, says the Champlain street philosopher.

Man in New York charged with killing his boarding house keeper. Is that contributory negligence or justifiable homicide?

A St. Paul young woman has written a novel with her toes. Quite a literary feat, observes the Chicago News. Many modern novels read as though they had been written that way.

Dr. Hill, of Minneapolis, has called the Bull Moose a hypermetropic. Before the States get through with their campaign all interested citizens will have to buy a \$25 dictionary.

If opportunity should knock at some men's doors, come in and sit down and stick around for six months and shout its arrival by megaphone a times each day, the woods would still be full of men who "never had a chance."

What have the people of Montclair Ward done to the man who runs the city waterworks? It is said that whenever he is out of sorts he deprives that ward of water. He must have been in bad humor again yesterday afternoon.

The English and Australian cadets who arrived yesterday, en route to Toronto, though young in years, but many in appearance, expressed their admiration of the Quebec ladies, especially those they were charmed to accost at the band concert on the Dufferin Terrace last night.

The city road inspector would do well in the course of his rounds to take a trip up St. Eustache street and take observations of the neglect in the pavement of the street in the vicinity of dwelling No. 63, where he will find a few yards that need covering.

70 MILLION BUSHELS

ALBERTA'S GRAIN CROP
Calgary, Alb., August 19.—Seventy million bushels is the estimate of Alberta's total grain crop as made by the experts of the largest elevator concern operating in the prairie provinces. In detail the estimate places the wheat crop at twenty million bushels; oats forty millions; barley, flax and rye, ten millions. That is about ten millions in excess of the Provincial Government's estimate. The total acreage under cultivation is approximately 2,500,000.

ENGINEERS KILLED IN

HEAD-ON COLLISION.

Halifax, N.S., August 19.—A head-on collision to-night at Halifax between the incoming suburban train of the Intercolonial Railway and a shunting engine badly damaged the suburban engine and inflicted fatal injuries on Engineer Hugh Hale, of the suburban train. One of his legs was split downwards from the hip and he was terribly hurt otherwise.

The shunting engine was a foot or two from the points connecting the track on which it was moving and the incoming suburban track, a curve, preventing either engineer from seeing the other. As they struck the engineers and firemen of both locomotives jumped and all escaped except Engineer Hale, whose leg and body caught between the engine and tender. It was a half hour before Hale could be released, when he was removed to the hospital. The fault was with the shunter, who should have kept on the other track. Hate to-night was reported to be in a serious condition, and the doctors say he could not live more than a few hours.

TOWN TALK IS ALL OF THE EXHIBITION

Great Improvements Made in All the Roads Leading to the Grounds at Stadacona.

"The exhibition next week!" That seems to be the watchword all over the city. On the streets, in the cars, in the stores, in social circles and in every home all the talk is of the Exhibition. Every day the enthusiasm is growing. To judge by the activity already in evidence at the grounds, one would think that the Exhibition had already started.

It would be a welcome improvement if the car service from Crown street to Stadacona was arranged more to meet the public convenience. A more frequent service would be desirable, also a direct line from the upper town direct to Stadacona. All those who have business at the exhibition grounds this week, and the crowd is daily growing larger, would greatly appreciate a change in the service. The public is confident that the street railway company will gladly respond to the general demand.

W. D. Baillarge, city engineer, yesterday informed the officers of the Provincial Exhibition that all roads leading to the grounds are in good condition and that the temporary road at the foot of Crown street, close to Drouin bridge, by way of St. Charles Home along the river front, is now completely paved with heavy timbers and will be lighted by arc lamps. The extension of Dorchester street, from Gignac street to Drouin bridge, is at present in the hands of workmen who are paving it, and it is certain that one side of the street will be open to the public by the end of the week.

The Charlesbourg road from Drouin bridge and the Commissioners' road, which extends to Stadacona, are also in good condition.

The main street, which was lately in bad shape, being torn up by the waterworks department, will also be in good condition. Therefore, in spite of all the work that has been going on for several weeks, traffic from the centre of the city to the exhibition grounds will not be interrupted, thanks to the efforts of the city engineer to have the work completed in time.

The Quebec Railway, Light, Heat and Power Co. is at present overhauling the platforms at the entrance of the Exhibition grounds, and after the plans are completed it will be of great convenience to the public, which can get on or off the cars with none of the trouble and delay that was the case last year.

The company, in attending to these improvements, intends to lose as little as possible of the enormous receipts during the exhibition, by giving proper accommodation to the public in general. Last year the company carried on Civic Holiday the enormous crowd of 70,000 people. It was a record for the company, and it can be said was one of the best days the company has had since it came into existence.

Yesterday afternoon J. H. Fortier and Elz. Turcotte, secretary and treasurer of the commission, received a great number of applications for positions during the great week, from the 24th of August to the 3rd of September. Many of these employees will begin their duties at the end of the week to accommodate the vast crowds which are expected from every part of the province.

and that we should avoid any apparent justification for criticism."

The message, after being read in the House, was referred to the Inter-State Commerce Committee on motion of Democratic Leader Underwood. That committee has adjourned for the session and Chairman Underwood sought to have the bill left on the Speaker's table, but the House immediately voted otherwise. "Its gone to bed so far as the House is concerned," was Mr. Adamson's remark. He added that he had not been able to command a quorum of his committee for the last three weeks.

There is no disposition on the part of the House leaders, so far as they would indicate to-night, to attempt to press a resolution of the character of that recommended by the President. There was an informal conference between Representative Shirley, of Kentucky, who talked with the President on the subject and all others who have taken a prominent part in Panama legislation in the House and the sentiment expressed was that there would be no further legislation and that if the President vetoed the bill the whole matter would go over to the December session of Congress.

FISHER FARM CATTLE AT QUEBEC EXHIBITION.

Mr. J. H. Fortier, Secretary of the Quebec Exhibition, has received a telegram from Hon. Sydney Fisher, of Knowlton, P.Q., informing him that he was sending a carload of cattle to the exhibition. The finest specimens in all grades of cattle will be seen at the exhibition this year.
