Prices committee hears:

Breakfast profits high

OTTAWA (CP) — "Kellogg's are the only thing Kellogg's job makes, and it holds fully half the Canadian market with sales of \$28,000,000 annually. Post cereals are just a minor part of General Foods' business of \$97,000,000 a year."

Mr. Andrews also claimed that price changes in the last 18 months in his company's products are saving its customers \$1,000,000 a year.

He said 97.5 per cent of sales volume leaving General Foods plants is priced the same or lower than it was on March 31, 1965.

The company recorded price reductions in such main lines as Jell-O deserts, Birds Eye frozen foods, Baker's chocolate chips and Maxwell House instant coffee.

PROMOTIONS NEEDED

And both companies said the promotions are necessary, not only to hang on to existing customers, but to expand the overall use of cereals.

Committee members stormed over the massive television advertising that employs Yogi Bear and various other creatures to excite youngsters about cereal products.

Kellogg's president Gerry D. Robinson said Yogi Bear's "initial penetration" was indeed good, and he did a fine job before he was dropped from the payroll.

But Yogi Bear could sell a package on his own only once, Mr. Robinson said. The customer would buy again only if it was a good product in itself.

Besides, television audience analysis had shown that, "surprising as it may seem, 52 per cent of Yogi Bear's audience was adult."

Both Mr. Andrews and Mr. Robinson said that millions of Canadians fail to eat a nutritious breakfast. Both admitted that their teen-age daughters are good examples of the bad habit.

DON'T EAT

The Kellogg solution is to concentrate on bringing young persons back into the fold once they have married and started raising children of their own. The company reminds them its corn flakes are still "a mighty good product."

General Foods intends to market a new breakfast mix for people who "cannot or will not take the time to eat a regular sitdown breakfast."

ONLY TEN MINUTES MORE — The president of Kellogg Co. of Canada, Garry D. Robinson (right), after his appearance before the Senate-Commons committee on living costs, discusses his testimony with co-chairman Senator David Croll. Mr. Robinson told the committee that an extra ten minutes in bed is a strong competitor facing cereal products. He said the extra time spent in bed does not leave enough time for a proper breakfast. (CP Wirephoto)

Fugitive quickly caught after city-wide manhunt

Sherbrooke was the scene of a fast and furious noon-time manhunt yesterday as Robert St. Pierre, fresh from appearing in Court of Sessions on a charge of burglary, jumped from the car that was transporting him to Sherbrooke Jail, stole a car and almost escaped. He was captured 10 minutes later at a roadblock where a Provincial policeman recognized the suspect and fired a shot at the stolen vehicle.

After he appeared before Judge Benoit Turmel in Court of Sessions yesterday morning, St. Pierre was kept for a short while in a cell in the courthouse. About noon, with other prisoners bound for Sherbrooke jail, he was put into a taxi.

Like the others, he was handcuffed. But somehow he got out of them and jumped from the moving car.

He ran to Montreal Street and on to Dufferin Street where he stole a car.

Meanwhile, the prison guards had alerted both provincial and municipal police who set up roadblocks around the city and circled the area where he had last been seen.

Sergeant Fernand Lanthier of the Provincial Police said that his men had blocked off the exit out of the northern end of the city and had two men on a roadblock at the corner of Route 5 and St. Francis Street when the suspect was sighted.

When Constable Jean-Louis Lagueux recognized the escapee in the stolen car at this roadblock, and saw he wasn't stopping, the constable drew his gun rapidly and shot at the fleeing car.

The bullet struck, crashing through the back window and front windshield. The path of the escaping car was blocked by a loaded pulp truck.

Seeing that the policeman meant business, St. Pierre gave himself up.

He was taken to Sherbrooke jail; this time he arrived.

Meteors due

TORONTO (CP) — Astronomers throughout the Northern Hemisphere next week will be watching for the most spectacular display of meteors in a generation.

The earth passes each November through the orbit of a meteor shower known as the Leonids, from the constellation Leo. The display is at its best every 33 years and the last close intersection was in 1933.

The best time for viewing is 8 p.m. local time Wednesday, Nov. 16.

Smile for today

The best way to stay youthful is to stay useful.

VOTE DECISION

OTTAWA (CP) — The question of a secret ballot or a standing vote on party leadership has been tossed to the annual convention of the Progressive Conservative party for decision.

The party's resolutions committee recommended overwhelmingly that next week's convention give John Diefenbaker a vote of confidence as leader. E. A. Goodman of Toronto, committee chairman, announced Thursday.

Mr. Goodman said the 20-member committee defeated "by a very narrow margin" a bid to hold a secret ballot on the confidence resolution.

The Canadian Press erroneously quoted Mr. Goodman as saying the narrow-margin vote

came on the committee's recommendation for a vote of confidence.

Mr. Goodman said he will accept for debate amendments to the confidence resolution, including any which propose a secret ballot rather than a standing vote.

But any decision on a secret-ballot amendment would be made through the party's normal voting procedure—a standing vote. If approved, the secret ballot then would be used to decide the confidence resolution.

BONN (AP) — The Christian Democrats launched a campaign today to counter the Nazi taint of Kurt Georg Kiesinger, their choice to succeed Ludwig Erhard as West Germany's chancellor.

A threat by Socialist Mayor Willy Brandt of West Berlin to bid for the job added urgency to the task of the party which has ruled West Germany throughout its 7-year history.

A large air and sea search was under way, including air force planes from Labrador and Bermuda, coast guard cutters and fishing vessels from Nantucket Island off the Massachusetts coast.

BOSTON (AP) — A U.S. Air Force Constellation carrying a crew of 19 was believed to have crashed in the Atlantic about 125 miles east of Cape Cod early today in patchy fog and churning seas.

SAIGON (AP) — U.S. commanders sent another brigade of 4,000 men to South Viet Nam's Tay Ninh front today as the reported enemy toll in just slightly more than a week of fighting rose to 900 dead.

WORLD NEWS

Means business

LONDON (A) — Prime Minister Wilson drew widespread praise today for saying Britain means business about joining the European Common Market.

Overshadowing favorable reaction, however, was doubt that French President de Gaulle would change the stand that brought his 1963 veto of British membership on grounds that Britain was too closely linked with the United States. It still is, as far as de Gaulle is concerned.

Plane down

Government digs up cash for pay

OTTAWA (CP) — The minority Liberal government organized a treasure hunt and came up with enough money to sidestep a crisis that had been building almost to election proportions.

Prime Minister Pearson announced the successful search of the government's cash drawers to the Commons Thursday night in his first speech on the forces unification issue, which has stalled approval of a money supply bill to meet November accounts.

Conservatives, who made no bones in the debate about holding up money on the defence issue, immediately claimed the government's hunt for funds was deliberately delayed for political reasons.

And the government's announcement that it had found enough money to meet civil service and armed forces payrolls for the middle of November didn't resolve the issue that has blocked passage of the interim supply bill for more than a week.

Conservatives have insisted the government's bill to turn the three armed services into a unified force be sent to committee

before the Commons is asked to give it approval in principle through second reading.

WARN OF VOTE

They warned earlier in the day that unless the government changed its mind the country could be plunged into another

election. Mr. Pearson said that because of delay in passage of the \$372,000,000 supply bill a thorough study had been made of money bills passed to date. Enough available funds had been turned up to meet the

November payrolls and other contractual obligations. Several thousand civil servants did not get cheques Thursday, the first federal pay day of the month. But Revenue Minister Benson announced outside the House that enough money

had been turned up to cover all federal employees Monday and Tuesday, the next pay days coming up.

He accused Opposition Leader Diefenbaker of trying to stage a financial crisis to rally Conservatives behind him for the party's national convention here next week, adding gleefully that "the opposition's bubble burst."

Michael Starr (PC-Ontario), Conservative House leader, said it appeared the Liberals had "played around" with the civil servants, delaying the cheques while knowing all along that it had money to pay them.

Major bridge to the moon

Gemini doubleheader scheduled

CAPE KENNEDY, Fla. (AP) — The Gemini project, a major bridge to the moon, reaches the end of the trail today with the scheduled blast-off of a veteran astronaut and a rookie on a four-day flight that may determine man's physical limitations in space.

The pilots, Navy Capt. James A. Lovell Jr. and Air Force Maj. Edw. E. Aldrin Jr., slept in preparation for their big day. Adjusting to hours they will keep in orbit, they went to bed about 2 a.m. EST today and were to be awakened about 11:30 a.m.

The Gemini 12 doubleheader was to start at 2:08 p.m. with the blazing liftoff of an Atlas rocket to hoist an Agena target satellite into orbit.

Lovell and Aldrin were to ride into space at 3:45 p.m. atop a Titan II to start the five-mile-a-second pursuit of the Agena.

Troubles with an automatic pilot system in the Titan II forced the original Wednesday launch date to be delayed 48 hours.

The problems were cleared up Thursday and the National Aeronautics and Space Administration flashed the go-ahead for the mission to start today.

LBJ's Great Society legislation to be slowed by election result

WASHINGTON (AP) — President Johnson's announcement that he will put fewer Great Society proposals before a new Congress pointed today toward a resurvey of the U.S. domestic course.

"I think it will be more difficult for any new legislation we might propose," Johnson told a press conference at his Texas ranch Thursday in assessing Republican gains of 47 members in the House of Representatives and three senators in Tuesday's balloting.

Asked if he would be sending Congress many new recommendations, the president said he would have some new proposals

but fewer of them than in 1966. He added that his principal job will be to find ways of financing programs already authorized.

Among politicians, there was general agreement that the president was recognizing the realities of a situation in which the Republicans can combine with Conservative Southern Democrats to balk almost any welfare legislation they oppose.

Senate Republican Leader Everett M. Dirksen said "a good hard look will be taken at the poverty program and any other program where there may be waste or inefficiency."

Not all Republicans, of course, are advocates of the kind of domestic retrenchment Dirksen might like.

A leading critic of Johnson's Viet Nam policies, Senator Wayne Morse (Dem. Ore.) said today in an address prepared for delivery at North Carolina State University in Raleigh that the election results "reflected a lack of confidence in the administration."

Morse blamed this on a "lack of information among the public and lack of candor on the part of high officials."

As for the balloting itself, Johnson conceded that Republicans had captured from five to 10 more House seats than administration experts had anticipated. And he said he had looked for a net Republican gain of only one in the Senate instead of three.

He issued a statement outlining the position he will take as leader of the Quebec delegation to the Conservatives' national convention in Ottawa next week.

The statement followed comments by Brian Callery, vice-president of the Quebec association, who said Wednesday Mr. Trepanier will have to support

BENSON EXPLAINS

Mr. Benson insists the computer-conducted search for unused dollars was only proved successful at a 3 p.m. meeting Thursday of the treasury board, a committee of the cabinet.

Mr. Benson also said that the 30 days allotted for Commons discussion of government spending will all have been used up in another six or seven sitting days and the government has enough money to meet urgent obligations until then.

Cora Austin dies after 101st birthday

One of Sawyerville's best-known and beloved citizens, Mrs. Cora Austin died last night in Sherbrooke Hospital only five days after she had celebrated her 101st birthday.

The energetic woman who had spent her life active in community affairs lived by herself in a Sawyerville apartment until two weeks ago when she was hospitalized. Before moving to her apartment last spring, Mrs. Austin had lived alone in her family's farmhouse at Randboro where she was born Nov. 5, 1865.

"If I had sat back and folded my hands, I certainly wouldn't have lived this long, for it's my idea that a lot of hard work can keep you going for a good many years," Mrs. Austin pointed out on her 91st birthday. That past year she had knit more than 100 pairs of men's socks which were sent all over the world. Until her 99th birthday she had regularly attended all church and social gatherings.

Forty guests and more than 100 cards helped Mrs. Austin celebrate her 95th birthday when, as the Record correspondent of that time wrote, everyone was "seated in the spacious dining-room to enjoy sitting around the huge iron wood-stove, chatting with Mrs. Austin and hearing her tell about "the old days" in her inimitable and cheery manner." A banquet had been given in her honor by Col. W. O. Bishop at the home of Mrs. Hazel Arnold.

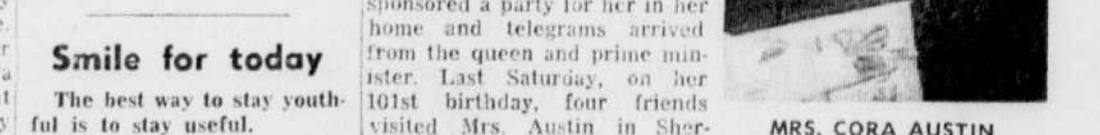

At the time she said it was a miracle that she had reached this "ripe age" and continued to enjoy her work, her friends and was able to share with others her manifold blessings.

Her 100th birthday was also a memorable one, when the Sawyerville Women's Institute sponsored a party for her in her home and telegrams arrived from the queen and prime minister. Last Saturday, on her 101st birthday, four friends visited Mrs. Austin in Sher-

brooke Hospital where she was presented with a cake.

Mrs. Austin's husband died 32 years ago and the couple had no children. Surviving her is a niece, Mrs. Edna Smith, of Montreal. The funeral will be at 2 p.m. Monday in Randboro United Church, leaving for French's Funeral Home, Sawyerville.

Mr. and Mrs. Walter Foy and daughters, Nancy, Terry and Kathleen, of Coleraine, were recent guests of Mr. Foy's sister Mrs. Thomas Williams, and Mr. Williams.

**Blood clinic record**

The Red Cross annual fall blood clinic set a record last night. The objective of 2,000 donations has been exceeded by 303 donations, the biggest total ever for a fall clinic.

Last night was the last day of the four-day clinic sponsored by the Sherbrooke Red Cross Society.

Once or twice in the past the clinic has exceeded its objective but by a few donations only.

This year's clinic was termed a huge success by Red Cross officials.

The clinic set up by the Canadian Red Cross Society at the Belvedere Street Armoury was open each day from 1:30 to 9:30 p.m. without interruption.

Red Cross officials said this morning that much of the credit goes to new donors and donors who have not given blood for several years, but who returned this year.

A spokesman for the Red Cross said this morning that the city of Sherbrooke, the service clubs, and the various associations deserve a vote of thanks for their part and effort in making the clinic a success.

**Hit by car, boy dies**

WINDSOR—(Staff)—A 16-year-old St. Georges de Windsor boy died in St. Vincent de Paul Hospital following an accident in which he was struck by a car a short distance outside the limits of the town late last night.

The boy, Marcel Perrault, son of Mr. and Mrs. Lucien Perrault, of St. Georges Windsor, was struck by a passing car, Richmond Provincial Police reported, after the same car had just met another in the road. The boy was on his bicycle at the time.

He was taken to St. Vincent de Paul Hospital in Sherbrooke and admitted around 10:45 p.m. He died at 11:10 from multiple injuries.

**Was native of North Hatley**

MONTPELIER, Vt. (AP)—Vermont agriculture commissioner Reed H. Rexford, 41, a native of North Hatley, Que., died Wednesday night at a Montpelier hospital after a lengthy illness.

Rexford had been appointed commissioner by Governor Philip Hoff Sept. 7, 1965. He lived in Montpelier with his wife and five children. Funeral service will be held today in the Montpelier Unitarian Church.

**Raps Ottawa's 'meddling' in trucking**

**Machine to replace court stenographers? Never, say scribes in Sherbrooke**

Faced by a scarcity of court stenographers, the Quebec judiciary has gone electronic.

It is now testing the effectiveness of the electronic stenographer, a tape-recorder based total recall ear that memorizes and records evidence.

If the results of the testing are favourable or even encouraging, old time stenographers — the ones with shorthand — might become obsolete, a relic of the past so to speak, like the horse replaced by the horseless carriage.

In an effort to evaluate the effects of this new turn of automation, the three stenographers at the Sherbrooke courthouse were interviewed on the subject.

The questions were general, such as "Do you think the electronic stenographer will ever replace the old time stenographer?"

Gerard Nadeau who has been a stenographer for the last twenty years said he didn't think that the electronic substitute for the stenographer was a serious threat.

"For one thing, there are many technicalities that it would be difficult for a machine to do effectively," he said. "The business of recording can be effective only if all sounds are captured clearly. Let me give you an example: Suppose the machine is used in a courtroom. How will you pick up all the mumbblings of the lawyers and witnesses?"

Mr. Nadeau went on to explain that the business of stenography was not just so much mechanically copying whatever one heard.

It was necessary, he said, that the stenographer be alert to the signs and the tone of voice and idiosyncrasies of certain lawyers.

He felt an electronic recorder could not easily be installed to pick up all this.

"You would have to have a microphone on each lawyer and witness and judge, and they would have to stay pretty well in place all the time. This goes against the practice of freedom of movement and gesture that lawyers have always enjoyed.

Henriette Desrochers felt much the same way. She said that the electronic system had been tried in Montreal courtrooms and had come out with shabby results.

"For one thing there is a terrific acoustic problem in most of our courts. I know

of an exhibition which is part of the science week display at University of Sherbrooke. At the left is Carol Grant of

Sherbrooke and at the right, Claire Perusse of Sherbrooke. (Record photo by Doug Gerrish)

By CLAUDE LABRECQUE (Record staff reporter)

that here in our Superior court, there is so much echo that it is virtually impossible to record anything that can be replayed and understood."

When asked how she would view the possibility of becoming an electronic stenographic

technician she came out strongly with: "No, I definitely wouldn't do that. I wouldn't play assistant to a machine."

The third stenographer, who requested that her name be omitted, said that she too did not think that court stenographers had anything to fear from electronics.

**Caisse populaire planned for North Ward corner**

A Caisse Populaire is to be constructed at the corner of Ontario and Prospect Streets if, as learned yesterday afternoon from Henri Paul Emond, the city clerk.

Mr. Emond said that zone D-6 was zoned for residential purposes until a request was made for a change in the zoning law. The zone is now planned for a residential area al-

lowing the construction of a bank only.

At a public meeting held Tuesday evening only four ratepayers asked that a referendum be held. A minimum of six ratepayers was required to hold a referendum.

At the present time the caisse populaire is located in a nearby home.

JOINT MEETING — The Eastern Townships branches of the Canadian Association of Purchasing Agents and Cost Accountants met last night in the King George Hotel. From left to right are Leo Ladouceur, vice-president of the Canadian Association of Purchasing Agents, R. Pedneault, guest speaker, of the Department of Revenue, G. Pepin, of the Department of Revenue, and L. A. Goguen, Cost Accountants president. (Record photo by Gerry Lemay)

**Sentenced to 1 year for forging cheques**

Appearing before Judge Benoit Turmel yesterday in Court of Sessions was Armand Grandbois, 25, who was given a sentence of one year in prison for forging two cheques.

The man pleaded guilty to the charge for cheques of \$42.50 and \$47.20. This sentence will be added on to a two year sentence he was given recently.

Condemned to three months in prison was Rene Boulanger for gross indecency in front of minors.

Defence lawyer Jean Carrier told the court his client was not very intelligent and thus probably did not understand the repercussions of his acts.

Three young men pleaded guilty to a charge of theft of \$16 and violence on the person of Jean-Roch Sansoucy, of the theft of a watch worth \$50.

Louis Even Gauthier, 23, Andre Leblanc, 21 and Frederic Hetherington, all of Sherbrooke, will receive their sentence on Nov. 16.

Quebec Transport and Communications Minister Dr. Fernand Lizotte last night blasted railroads for their entry into road transport and the federal government for its "meddling" in the trucking field.

Dr. Lizotte was guest speaker at a banquet ending a two-day conference of the Eastern Townships Branch of the Quebec Truckers' Association.

Rapping the controversial Bill C-231 passed by the federal government to end the rail-road strike and which places intra-provincial trucking under Ottawa's control, Dr. Lizotte said that he was in complete agreement with the Quebec truckers in this matter.

After the bill's passage, the Quebec Truckers' Association passed a resolution stating their entire support for total control of road transport by the provincial governments and protesting any form of control by the federal government.

Since 1959, Dr. Lizotte went on, the federal government has sunk more than \$500,000,000 in subsidies into the railroads, taxpayers' money that would be used to the detriment of the truckers and the population.

He said that the grants kept the merchandise transport rates on the railroads below the current levels, which is unfair.

Dr. Lizotte also said that special rates granted certain industries under certain conditions allowed favored companies to acquire "an abusive influence on the orientation of Canada's economic development."

He added parenthetically that this influence was not always used "in a manner compatible with the interests of Quebec's French-Canadian population."

"It is in a context of this nature," Dr. Lizotte said, "that the railroads are striving to introduce their own system of road transportation — allow me to say that my department has no intention to permit it."

In an attack of railroad policy, Dr. Lizotte said that though Quebec was the largest of the provinces and accounted for 15.4 percent of the country's land surface and one third of its population, it had only about 11 percent of the total length of Canada's railway.

Some blame this deficiency on history, he said, but added that he remembered another historical fact.

"At the turn of the century, at the time of the great French-Canadian exodus from Quebec, when tens of thousands of French-Canadians, reduced by poverty were forced to travel to the factories of the New England States, the railroad companies encouraged and helped colonists from Great Britain and Europe to settle the better land of Canada's west."

Speaking at a dinner ending a two-day congress of the Eastern Townships branch of Quebec Truckers' Association, Dr. Lizotte did not go into detail.

He said said that the Department of Transport had two series of amendments ready to present to the Legislative Assembly on December 1, one to the Board of Transport Law and the other to the Highway Code.

"I do not wish to reveal the nature of these amendments before they have been submitted to the Legislative Assembly," Dr. Lizotte said, "but I can say that one of them will make the illegal transport of merchandise more difficult and the other will aim at making municipal traffic laws more uniform."

Later in his speech, Dr. Lizotte said that he deplored the frequency and the seriousness of traffic accidents in Quebec.

The city of Sherbrooke has decided to place \$2,500,000 worth of bonds on the Canadian market.

Olivier Routhier, city treasurer announced the city's decision this morning.

For several months the city has been planning to float a bond issue. Trips to New York City by aldermen and city employees were not fruitful.

City council then decided to float a bond issue on the Canadian market. Tenders are to be called for the sale of the bonds it was also learned today.

**Illegal transport, sign bills coming**

Quebec Minister of Transport and Communications, Dr. Fernand Lizotte, promised Eastern Townships truckers last night that the provincial government would take steps to make life "more difficult" for men engaged in illegal transport, and to put some uniformity into the road signs and speed rules of the different municipalities in Quebec.

Last year, he said, there was an average of 14 accidents per hour, and four traffic deaths.

In Quebec last year, he said, there was an average of four killed and 107 injured in traffic accidents per day. There was a total of 130,144 accidents, he added, or 14 per hour.

"Each of you," the minister said, "can understand what a fantastic sum of human suffering these figures signify. As a doctor who has treated traffic victims and who has watched them die I feel a strong moral obligation to urge each of you, as well as your drivers, to drive with additional caution."

Dr. Lizotte added that the accident record of truck drivers was far superior to that of other road users.

Speaking at a dinner ending a two-day congress of the Eastern Townships branch of Quebec Truckers' Association, Dr. Lizotte did not go into detail.

He said said that the Department of Transport had two series of amendments ready to present to the Legislative Assembly on December 1, one to the Board of Transport Law and the other to the Highway Code.

Later in his speech, Dr. Lizotte said that he deplored the frequency and the seriousness of traffic accidents in Quebec.

True meaning of Remembrance Day

Failure to observe Remembrance Day, or Armistice Day, as a general holiday in many parts of Canada and especially in the Province of Quebec, may have removed much of the impressiveness of the idea of a whole nation pausing at the same time to honor those who fought, suffered and died in two major wars and a number of smaller engagements.

But basically, the idea of remembrance still remains in those ceremonies held over the week-end in most communities. If the Remembrance Day services are held on a Sunday morning or a Sunday afternoon instead of the middle of the week makes little difference in the final analysis.

They still provide the citizens with an opportunity to pay homage to those who made sacrifices in the attempt to preserve humanity and human dignity.

At times the cynically-minded are tempted to question whether these sacrifices were worthwhile.

They point to a world beset with many problems and perhaps hint that it might have been better if the affairs of humanity had been placed in the hands of a group of self-styled supermen.

But the very fact they are able to ask these questions and make these criticisms openly is an answer to their outbursts.

Can anyone imagine an individual or a group being permitted to express doubts and discontent on the policies of the ruling superclasses under a Hitler or a Mussolini?

Nor can anyone envisage a strike by civil servants or workers in key and defence industries under a militarist dictatorship?

These are privileges which the people of the democracies regard as minimal basic rights, but which would have been the first taken away from them if loyal men and women had not been prepared to make the supreme sacrifice to safeguard them.

With cool weather here, the kids who slammed the doors last summer now leave them open.

Indictment of South Africa remains

The recent decision of the United Nations to revoke South Africa's mandate, granted by the old League of Nations, over the former German territory of South-West Africa is being ridiculed in some quarters as a "paper proposal."

Critics of the resolution claim that it cannot be enforced without the use of force, a commodity of which the United Nations is sadly lacking.

In all probability there is an element of truth in their assertions.

Even so, it is difficult to understand

the reasoning that would have the United Nations refrain from passing resolutions it cannot put into force.

In a world that is far from being peaceful and ruled by international law, the United Nations itself remains a "paper proposal."

South Africa stands indicted by the parliament of the world for having betrayed the purposes of the mandate.

Even if in generations hence this indictment is nothing but words on paper, it will still be a fact of history.

The most frightened man in the world isn't in Viet Nam combat. He's the guy who has just lost a wallet full of credit cards.

Senator Pouliot's bid for sanity

At least one Canadian, Senator Jean-Francois Pouliot, sees some blessings resulting to him if the post office workers decide to stage a strike just at the start of the Christmas rush.

He has decided to be a good citizen and not aggravate the situation that will be caused by any tie-up in the mail service. To accomplish this end, he told his fellow Senators, he has decided not to purchase any Christmas cards this year. To offset this breach of courtesy, he issued a general Yuletide message in which he thanked everyone for all the kindness extended him during the year.

Perhaps Senator Pouliot's sacrifices may offer an example for other Canadians, many of whom have been seeking some excuse to cut down on that Christmas chore involved in the wholesale sending of Yuletide greetings.

The practice of sending Christmas cards has grown out of all reasonable proportions.

Originally intended as a means of old friends, now separated by long distances, communicating with each other once a year, it now involves the sending and receiving of hundreds of cards.

Cards are sent to old friends and not-too-distant relatives, as originally intended.

Then there are friends of those friends involved.

A third group comprises those whom you have seen on a bus but never spoken to, whose names you had to ferret out.

Added to this list are people who sent you a card last year by mistake but you feel duty bound to send them a card this year.

Then what about being forced to leave the office party for a few minutes with the excuse:

"Sorry, guys and gals, but I have to mail your Christmas cards."

Maybe Senator Pouliot is leading us back to sanity at the festive season.

Other papers say:

Civil servants must show caution

(The Calgary Herald)

Rumors of new spy investigations taking place within a federal government department are current in Ottawa. Maps and aerial photos of Canada reportedly have been supplied by civil servants to a foreign power. Three guesses as to which foreign power.

There appears to be speculations as to whether any breach of security would be involved if maps and aerial photos have indeed been turned over to foreign agents. Canadian maps and aerial photos are obtainable almost anywhere and wouldn't seem to require any undercover methods of obtaining them. At the same time, of course, no civil servant should ever put

himself in the position of having dealings with foreign agents, however innocent such contacts might really be. Civil servants have to be above suspicion, since they have access to secret information.

Unfriendly foreign powers are not likely to consider Canada to possess any great military secrets of its own worthy of intensive spy activities. But it has to be remembered that Canada is privy to a certain amount of secret information belonging to its powerful neighbor and ally, the United States. This could make spying in Canada profitable to the extent that

it was successful. It makes it doubly necessary that Canada maintain tight security precautions and regulations, particularly within its own civil service.

Any civil servant suspected of performing tasks for foreign agents should be summarily dismissed. Civil servants should be made fully aware that they can expect short shrift if they are caught in any suspicious activities.

Naturally, there should be room for appeal to court judgment, but the national interest must always come ahead of an individual's personal interest where the nation's security is involved.

The Ottawa Journal

Two-way radios menace jail safety

All work has been stopped in the radio workshop at Wormwood Scrubs prison in Britain — and no wonder. What, pray, would a long-term prisoner do with radio equipment except try to make two-way contact with the "outside?" And what experienced prison officer would think otherwise?

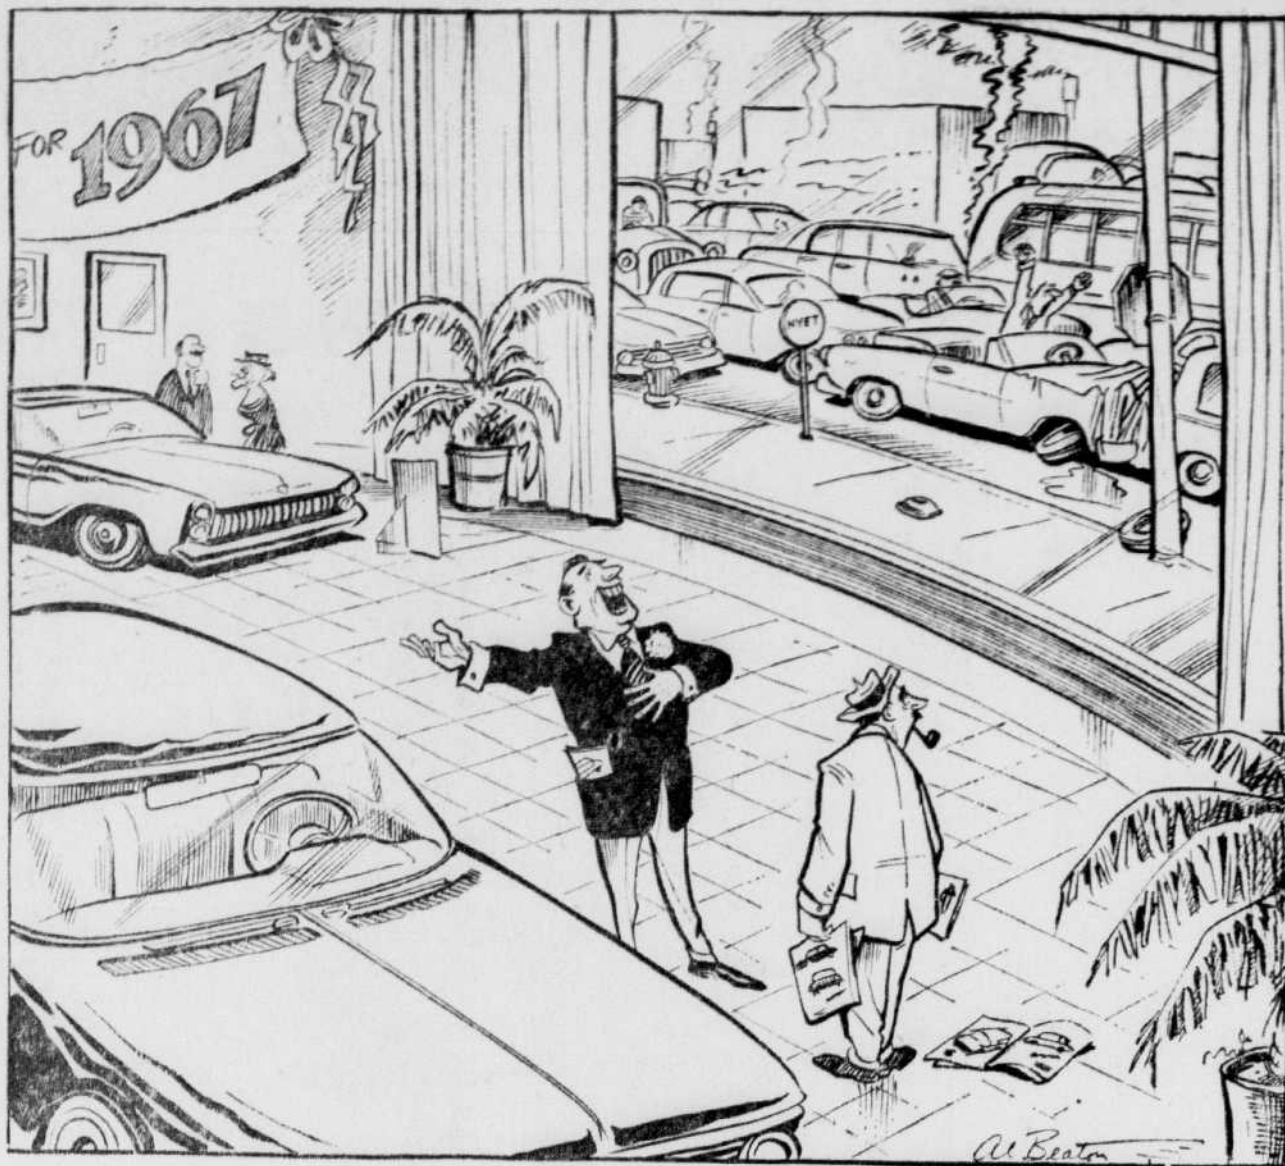

Anyway, the British police who investigate the escape of George Blake, the so-called "master spy," think he may

have been communicating with friends beyond the walls via two-way radio and, if he was, the prison authorities look foolish.

All Canadian prisons have radio channels from which a prisoner can choose to hear a program through earphones. In a maximum security prison he can't have a radio of his own but he may in some medium security and all min-

imum security prisons.

Canadian training programs to fit prisoners for employment after release have radio workshops like that in Wormwood Scrubs and a start has been made in training prisoners in the intricacies of color television repairs. Officials have no doubt that ingenious and determined men could make two-way sets in Canada, too, but they declare every possible check is made to prevent it.

Separatist yappings that come from Dan on down pinch Quebec

Montreal La Presse—It was with the eloquence of figures that Mr. Jean Chretien, Liberal MP for St. Maurice-Lafleche and parliamentary secretary to the minister of finance, showed that Quebecers are paying dearly for the ultra-nationalistic yappings of those who proclaim, hither and yon, to be their interpreters.

He said that if one objectively analyzes the reasons that prevent Quebec from attracting investments despite all its potential riches, it is found that an important factor is the climate of insecurity created by Quebec's hesitation to choose its constitutional status.

During the two years 1963-65, investments in the manufacturing sector in Quebec dropped from 27 to 22.6 per cent of the Canadian total, while in Ontario it climbed from 49.1 to 51.2. In the textile industry, where Quebec had the lead, investments in Quebec made a flea hop of \$10,000,000 between 1961 and 1965 while in Ontario they made a kangaroo leap of \$38,000,000.

In 1964-65, Ontario recorded \$100,000,000 of new investment in chemical products, while Quebec had \$28,000,000.

During this very period, Quebec made a special effort to regain ground, something the speaker did not fail to mention. Yet despite these efforts, our province lost ground in comparison with other regions and the country as a whole, which is not a very happy situation.

Mr. Chretien believes as we do in the need for a sane provincial autonomy and in a firm resistance to federal paternalism, but like us he is anxious that Quebec and its leaders "reach political maturity and abandon purely symbolic fights."

Our Quebec paranoias and fabulists can continue to cuss one another and to spread the myth of an immensely rich province which a federal monster has been robbing of its riches for the last 100 years. But the picture is different for those who look coldly at the figures. Again this year, Quebec receives in family allowances, in unemployment insurance and in equalization payments much more than it contributes.

What one can gather from all this is that it is high time we settled on the most logical constitutional formula. And then let us shout loud enough to draw out interfering noises. — Renaude Lapointe (Nov. 3)

Granby La Veix de l'Est—A statement we cannot ignore is one made by the premier of Ontario at the federal-provincial conference on fiscal affairs. Mr. Robert's appears to have had enough of conferences on the division of the fiscal pie, and is demanding a constitutional conference to revise the pact of 1867 according to the needs of Canadians and to assure the future of the country.

The premier of New Brunswick is of the same opinion. Instead of always seeking expedients, he said, let us look for real political and constitutional solutions to the problems of the nation.

One will recognize that the

idea is one frequently expressed in other ways by Quebec. However, in the past Quebec was alone in asking for such a conference.

It is obvious that revision of the constitution will not be an easy matter. It will give rise to complex problems. It will engender acrimonious debate. But dialogue alone will enable us to understand one another and to arrive at a definitive solution. . . . Sooner or later this dialogue will become inevitable and it appears that is why Mr. Roberts and Mr. Robichaud supported Quebec's argument that it should take place as soon as possible. To our way of thinking, that is a remarkable evolution in Canadian opinion. — Roland Gagne (Nov. 2)

Moncton L'Evangeline — In three weeks, the Conservatives of New Brunswick will be called on to choose a new leader. On the eve of the convention which will designate a

successor to Mr. C. B. Sherwood, one might ask what is wrong with the Conservatives of New Brunswick, and cast an eye on what awaits the new leader.

The first fact which cannot be forgotten is the need for unity in the party. Dissension has never been more evident among the Conservatives of the province, and if the party ever wishes to regain the power it lost in 1960, the members should stop the whispering campaigns against one another.

The 600 delegates who will choose the new leader Nov. 25 should . . . pick a leader who will know how to go out and seek among the people the generation that now is lacking among the ranks of the Conservatives, the generation of French-language people.

It is conceivable that at the moment there is not a single French-language member in the opposition? During the last throne speech debate, two members, both from predominantly French-speaking constituencies, spoke briefly in French. Otherwise, not a single word of French would have been heard from the opposition benches. — Fernand Richard (Nov. 3)

Quebec Le Soleil—The provincial minister of labor, Mr. Maurice Bellemare, is a realistic man and one with a good deal of common sense . . . but that does not prevent him from coming up with some good ones from time to time.

It was thus when before a delegation of industrial commissioners from Quebec province he denounced what he described as a campaign of disparagement against Quebec allegedly undertaken by certain elements in Ontario. In Mr. Bellemare's opinion, the campaign is one that could

discourage the foreign investments needed for the development of the province. And it is at this point that the minister's remarks become significant: "Let no one tell me that Quebec is a hotbed of revolution and that it is on the verge of separating from Canada."

Yes, Mr. Bellemare really comes up with some good ones. Who is saying that Quebec "is on the verge of separating from the rest of Canada," if it is not his cabinet colleagues, starting with Mr. Johnson the premier.

In fact, during the last two fiscal conferences, the premier very imprudently declared that if the federal government did not give Quebec what it wanted the result would be separation.

Furthermore, the day before Mr. Bellemare received the industrial commissioners, another of his cabinet colleagues, Mr. Jean-Noel Tremblay, spoke of Ottawa as a foreign capital and more or less bracketed French-Canadian MPs with traitors.

As long as ministers of the likes of Mr. Jean-Noel Tremblay . . . speak of Ottawa as a foreign capital and claim that French-Canadian MPs are "no longer valid representatives," Mr. Bellemare will not have to look beyond his own cabinet to find the source of the evil he deplors. (Nov. 5)

Montreal Le Devoir — Mr. Jean-Noel Tremblay (Quebec's minister of cultural affairs) apparently would be more at home in a truly separatist party such as the Rassemblement pour l'indépendance nationale. For just as the separatists, he considers Ottawa a foreign capital and wishes to leave the impression that Quebec ministers of the federal cabinet are nothing more or less than traitors.

At least that is what one can gather from the off-the-cuff remarks which he made to newspaper men shortly before a meeting of the provincial cabinet. It appears that for Mr. Tremblay, Quebecers have only one government, that of Quebec, and that they cannot expect anything from Ottawa.

A non-defeatist, non-separatist Quebecer rather sees in the situation a reason to fight more ferociously to make the central government, in its fields of jurisdiction, treat Quebecers with greater justice and generosity. And this fight can be carried on as well in Ottawa as at Quebec.

If the minister of cultural affairs expects nothing more from Ottawa, if he considers that he can no longer even rely on the Quebec ministers and members who are there, why doesn't he simply demand an end to the federal system? Then we would at least know under which banner he is marching.—Vincent Prince (Nov. 4)

BOOKS PILE UP VANCOUVER (CP)—The University of British Columbia's library is being stretched by the information explosion, as 300 new books arrive every day. This is a good sign, says librarian Basil Stuart-Stubs, but he admits there is usually a backlog of 40,000 uncatalogued books.

Bygone days TEN YEARS AGO

SPOONER POND — The November meeting of the Spooner Pond WI was held at the home of Mrs. Orvis Taylor, with Mrs. O. Lockwood, Mrs. Noel and Mrs. H. Blanchard as assisting hostesses. The president, Mrs. V. R. Beattie, was in the chair.

Mrs. Oakley read an article about Mrs. Butters and the Cecil Memorial Home. It was decided to bring a donation to the next meeting for the home and 35 cents to buy members' children's gifts for Christmas. An exchange of gifts among members is to be held at the Christmas meeting.

FIFTEEN YEARS AGO MAGOG — Maurice Leveseur was elected president of the Kiwanis Club of Magog which will celebrate its first anniversary on the 27th of this month.

Other first vice president, Jack Peters; second vice-president, M. Xie Dingman; treasurer, Charles Messara, secretary Ted Foggio. The directors are Hal Patterson, Ron Mino, Tom Thomas, Roland Daoust, Lorne MacPherson, Arthur St. Martin and H. Jorgenson.

TWENTY YEARS AGO

FOSTER — Mr. and Mrs. F. C. Inglis were given a pleasant surprise on the occasion of their wedding anniversary when several relatives and friends came to their home. Cards were played during the evening, after which dainty refreshments were served by the ladies. Mr. and Mrs. Inglis were presented with a beautiful electric toaster as a remembrance of the occasion. Among those present were Mr. and Mrs. Harry McClay, Mr. and Mrs. Edward Dorman, Mr. E. A. Dorman and Miss Edwina Dorman, of Sherbrooke, Mr. and Mrs. Bruce McClay, Mrs. Carl McClay and Miss Lorna McClay, of Knowlton, Mr. and Mrs. Ernest Inglis, Mr. and Mrs. Arthur Inglis and Mrs. Clayton Inglis, of Foster.

Snow goose comes back

By CLAUDE HENAUET

QUEBEC — (CP) — Canada's exclusive game bird, the greater snow goose, is staging a strong comeback, government experts say.

Although the snow goose has not been in danger of extermination, the number of young had been diminishing, experts say, thus cutting down the hunter's bag.

A tasty bird, whose average weight is six pounds and who boasts a span of five to six feet from one black-tipped wing to the other, it is an autumn staple for game-bird fanciers in Quebec.

The birds, snow white except for the wing tips and reddish-yellow beak, nest and spend their summers on Bylot Island, north of Baffin Island.

Toward the end of summer the older birds and their solid-grey offspring begin their migration, darkening the sky as they head for the halfway point on their journey to winter feeding grounds.

This point, which happens to be only one where it is legal to hunt them, is centred about Cap Tourmente on the St. Lawrence River 30 miles downstream from Quebec City.

This year, says William Munroe of the federal wildlife service here, the snow goose arrived in greater numbers than for the last four years.

The birds generally begin arriving by Oct. 1 and this year some 5,000 were present by Oct. 13. Twelve days later the government count showed the number had shot up to 68,000. The total in 1965 was 48,000, of which few were young.

BIGGEST IN DECADE

Game clubs in the area estimate the 1966 flock at more than 100,000, making it the largest in more than 10 years.

Munroe says the main reason for the increase is the bumper crop of young. Adults numbered about 40,000 in this year's flock.

"It's a very good year for the hunt because of these young. The adults are much too intelligent to get shot and unless there are many young the hunters stay away."

The wary adult spots the hunter quickly and seldom comes closer to the trap than 80 yards.

Hunt clubs say the bag has been excellent this year although they have not yet compiled statistics.

Seen from the air at stop-over spots, the big white birds obscure the grey rocks on which they roost. There are so many geese that the competition for a spot to settle makes the scene resemble a wind-whipped snow drift.

# Contracts are announced for Cowansville prison expansion

OTTAWA — Two Quebec construction companies have been awarded contracts totaling \$1,253,401 for work at the Cowansville Medium Security Institution, Cowansville, P.E.I. The highest bid of the six tenders opened on October 5, was \$1,045,000.

Les Entreprises Alpha Compagnie Limitee of Montreal tendered the lowest bid of five opened on October 5 and were

awarded a \$368,000 contract for Phase 3 of the Cowansville Institution construction program. High tender was \$463,447.

The industries building is to be erected in a fenced compound adjacent to the institution housing units and will provide shop areas for the training of inmates.

The chapels will be established in their own landscaped compound and access will be through a covered walkway.

Included with the chapel construction will be a fire truck shelter, parking areas for staff vehicles and security fencing of certain built-up areas. In addition, partitioning of the existing stores will be completed under this contract.

Plans and specifications for both projects were prepared by Paul O. Trepanier of Granby. Supervision of construction will be under the direction of the District Architect at Montreal for the federal Department of Public Works.

Work is to be completed in six months.

**AFTERMATH** — Part of a tin roof wrapped around a wind-blown tree testify to the passage of a tornado through the Hope Hill, Alabama, area yesterday. The tornado, one of a number spawned over Alabama by a passing squall line, demolished two barns, unroofed a rural store, and narrowly missed a home. (AP Wirephoto)

## Mixed weather faces Canadians

By THE CANADIAN PRESS

Canadians have been greeted by the weatherman with mixed emotions in the last few days. Prairie residents were complaining of cold temperatures while most easterners were warm, but wet.

Peace River, Alta., recorded a low of -18 Thursday and Edmonton expected a high today of 10 above, about 27 degrees below normal for this time of year.

There was three inches of snow in Regina and four to six inches in southern Alberta.

Cold weather covered all the western prairies and temperatures below zero were expected in most regions.

Ontario and Quebec were wet in most of the southern regions, but temperatures were well above normal.

Ottawa has had snow or rain each day since Oct. 31. The high Thursday was 64 with fog and rain.

**GETS DOUBLE RAIN**

Toronto, with a temperature of 62 Thursday, received more than double its November rain quota in the first 10 days of the month—more than three inches of which 1.07 inches fell Wednesday and Thursday.

Clearer weather for most of Ontario was forecast today. The heavy rain and fog all but halted air traffic over eastern Canada Wednesday but most flights were back to normal Thursday. Police were kept busy answering flood calls in Toronto and Kitchener.

In Montreal the temperature was 60 Thursday, the warmest Nov. 10 since 1948 when the temperature reached 65.

The area has had rain for three days but sunny weather and cooler temperatures were forecast today.

Temperatures were reported normal in the Maritimes and Newfoundland with some rain reported in most areas Thursday.

The rain was welcomed, however, in parts of the Maritimes where rainfall for the first 10 months of the year were lowest since record-keeping began 99 years ago.

Temperatures have been ranging in the 40s and 50s, with lows dipping to freezing.

On the West Coast, the southern half of British Columbia was generally cloudy with temperatures in the 40s and 50s. There were snowflurries in the north with temperatures about 30 degrees lower.

## Bedford parish leaders to talk over assessments

**BEDFORD** — (Special) — On Nov. 13, at 8 p.m. there will be a meeting in Dunham for the wardens, delegates to the synod and treasurers of the various parishes in the Deanery of Bedford.

The business of the meeting will be the change in the assessments of parishes, which was formerly set by the synod at a certain sum. The proposed change is that the deanery will in future set the assessments for the parishes under the deanery's jurisdiction.

On Nov. 16, the monthly meeting of the Church Women's Year of St. James Church will be held in the parish hall at 8 p.m. and will be a social evening. The guest speaker for the meeting will be Mrs. M. T. Bancroft of West Shefford, who will speak on the work of the Grenfell Mission. Films will be shown.

## Royal Winter Fair opening in Toronto

**TORONTO (CP)**—The Royal Agricultural Winter Fair opens today with about 17,000 entries in all classes competing for \$200,000 in prize money.

Competitions in the fair, which continues until Nov. 19, include farm animals, poultry, field crops, dairy products, vegetables, honey and maple products.

Another of the fair's main attractions is the International Horse Show. This year teams from Canada, the United States, Chile and Ireland, and individual riders from England and Mexico will take part in the show, the final horse-jumping event on the North American circuit.

A record number of entries in one class of steers forced the fair to hold judging Thursday in a stock yard outside of Exhibition Park, then bring the winners to the fair for display. The judging was originally planned for Saturday.

Alberta took three of the four main awards in the class. Winner in the section for steers up to 1,000 pounds was Byers Flour Mills Ltd., of Camrose, Alta. Runner-up was D. B. Weldon of London, Ont.

JOHN S. GILCHRIST

## Service today for manager of Bruck Mills

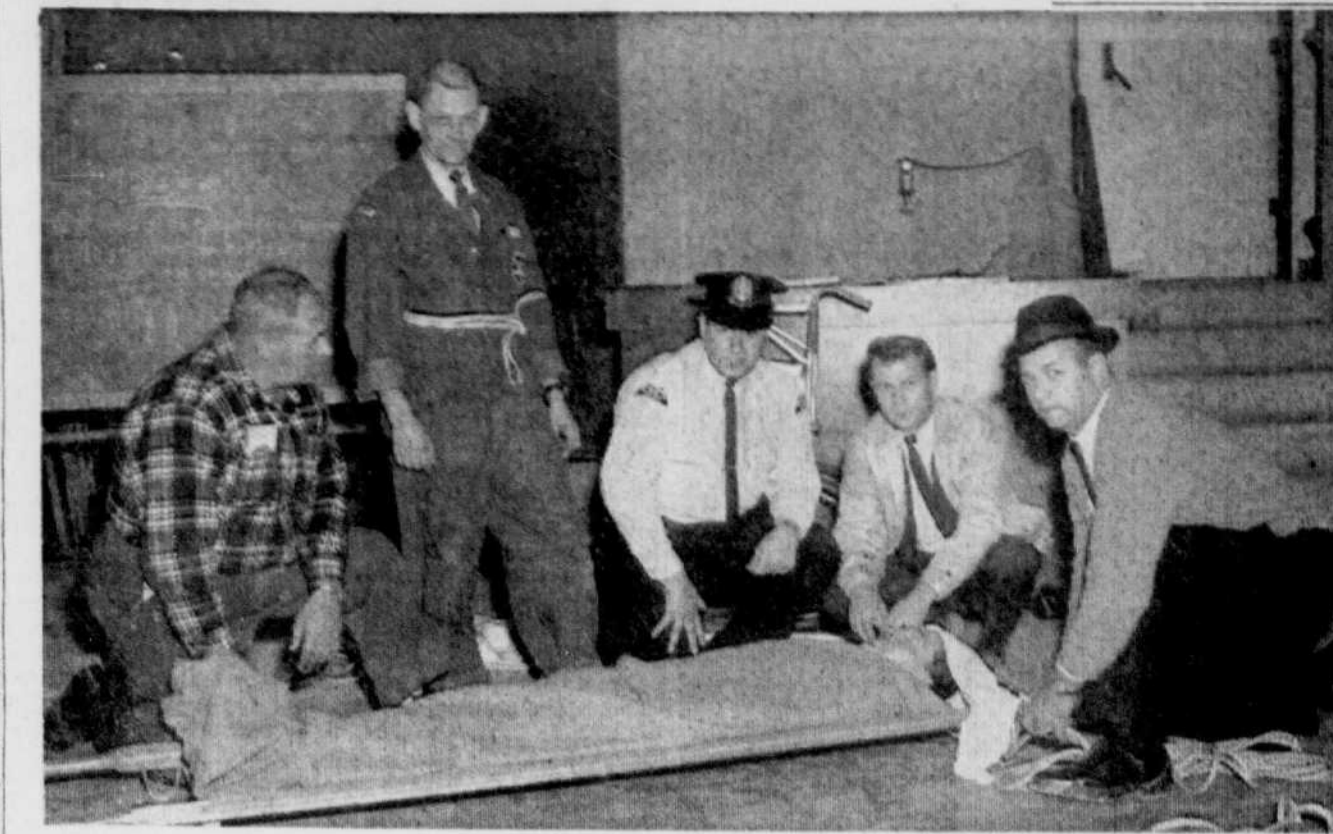

**COWANSVILLE** — (Staff) — A memorial service will be held at the Cowansville United Church this afternoon at 2:30 p.m. for the late John Swales Gilchrist, a native of Magog, and the manager of Bruck Mills.

Mr. Gilchrist succumbed to a heart attack in Nassau on Monday morning. He was recuperating from a similar attack that occurred in September.

Fifty-year-old Mr. Gilchrist is survived by his wife, Muriel Archer, two daughters, Phyllis and Kathleen, his mother, Mrs. C. Williams, and sister, Mrs. J. Russell, of Vancouver.

**ESSENCES ENDURED**

Perfumes buried with King Tutankhamen of Egypt could still be smelled when the tomb was opened 3,272 years later.

**RESCUE COURSES GIVEN** — About 35 policemen, firemen and other public servants are presently taking courses in the techniques of rescue, in case of disaster or emergency. Instructor Claude Beiner assembles the group twice a week at the Waterloo Town Hall. The above photo shows some students practicing stretcher handling. Left to right are: Deodat Cabana, Waterloo fire chief; Mr. Bernier; Sgt. Claude Cabana of the Waterloo police force; Denis Page, taxi driver; and Captain Rodolphe Larose, also of the police force.

## 2 quilts made by Sutton W.I. for fire victims

**SUTTON** — On Nov. 3 the monthly meeting of the Women's Institute was held at the Baptist Church Hall. Mrs. B. Russell and Mrs. Prentice were hostesses.

A busy afternoon was spent. Two quilts were made, the tops of which Mrs. Russell had generously donated. The quilts will be given to a family who recently lost their belongings by fire.

The meeting was conducted by the vice-president, Mrs. Seaman. The motto for the afternoon was, "Am I my brother's keeper?" For roll call each bought a poppy, with funds donated to the Legion Auxiliary.

Conveners for agriculture, home economics and publicity each gave short talks.

The W.I. has accepted an invitation from the Home Extension Group, Richford, Vt., to attend their meeting on Dec. 8 at 12:30 p.m. in the Dorion Hall. This gathering will be in the form of a Christmas party and will take the place of the December meeting.

Mrs. R. Phelps and Mrs. Woodard were appointed to plan for the program.

## Many articles packed by Sutton Red Cross group

**SUTTON** — As scheduled the women workers of Sutton branch of the Red Cross assembled in their workroom in the Baptist hall on October 31, to pack articles to ship to Montreal headquarters.

Included in the list of garments packed were the following: 10 quilts, 29 long sleeved sweaters, 25 sleeveless sweaters, two coat sweaters, two pair mittens, 38 pair socks, 48 girls pantie dresses, one boys T-shirt, nine infants gowns, 34 diapers, 20 boys undervests, 10 boys undershirts.

Among new articles to be made for next packing are afghans.

Tea and cookies were served following the afternoon work session.

## Neighbors join for surprise birthday party

**EAST FARNHAM** — Mr. Clarence Powers had just settled down for a quiet evening of TV on Nov. 2, when, to his surprise, 18 neighbors arrived with everything necessary for a birthday celebration.

Five hundred was played at five tables, then the tables were placed in line for a friendly gathering.

The ladies had provided cake, sandwiches, tea and coffee, even the birthday cake appeared.

All enjoyed a social hour and after each had autographed a birthday card, extended best wishes to Mr. Powers, hoping in 21 years to be with him for his centenary celebration.

### Christmas tea and sale

The Home League of the Salvation Army will hold its annual Christmas Tea and Sale on Thursday, Nov. 17, from 2:30-5:30 p.m. at the Citadel, 175 Wellington Street South.

### Men wear cologne to please girls

OTTAWA (CP) — Canadian men splashed and dabbed themselves with \$40,000,000 worth of scented toiletries last year, says an article in the Imperial Oil Review.

And the 260 kinds of cologne and 166 lotions available today offer twice the variety on the market two years ago.

Best places to sniff the sweet smell of the cosmetic industry's success is at a gathering of young executives or on a college campus. It is the young swinger who is leading the delicately scented pack, manufacturers say, and he's doing it because of his girl friend.

"Women like a nice fragrance," says one advertising manager. "They buy it, give it to men, and men, being what they are, decide that if their girls like it they'd better wear it."

Quebec men lead all North America in their enthusiastic acceptance of scents, the magazine reports. Ontario is close behind in cross-Canada ratings but those in the West and Atlantic region are said to be moving into the field with hesitation.

### Today's recipe CHICKEN WINGS ORIENTAL

18 chicken wings about 3 lbs.  
Water to cover  
1 medium onion, sliced  
2/3 cup (one 5-oz. bottle) soy sauce  
1/4 cup sugar or honey  
1 teaspoon powdered ginger  
1/2 teaspoon cinnamon  
1/2 teaspoon ground cloves  
Cut off tips of chicken wings, if desired. Saute wings in margarine until lightly browned. Add water to cover; add sliced onion. Cover and simmer about 30 minutes or until wings are tender. Remove wings from pan and drain liquid, reserving one cup for sauce.  
Combine soy sauce, sugar or honey, ginger, cinnamon and cloves; blend well. Add to 1 cup of liquid in pan. Add wings to the sauce and simmer until wings are well-cooked, about 20 minutes.  
Serve over hot, fluffy rice. Four servings.

**BRING YOUR OWN SOAP POWDER**  
When packing for a trip, pour soap powder into a Handi-sac then close securely with a bag tie. The Handi-sac can be tucked into the corner of a suitcase and when the bag is empty it can be used for soiled lingerie.

## Carry-On Club tea well-attended event

Despite the rainy weather, a large crowd turned out Wednesday afternoon to attend the annual Carry-On Club Fall Tea and Sale held at the Norton Residence.

The lounge glowed with candlelight accenting the warm colors of the decorations and the brightly hued furnishings. Mrs. G. Fields was responsible for the artistic decorations.

Guests arrived early making a bee-line for the large selection on the home baking table, supervised by Mrs. H. Mooney, Mrs. R. Allatt and Mrs. H. L. Williams.

From there they visited the other tables, knitting, in charge of Mrs. S. Cross and Mrs. G. Braut; sewing by Mrs. L. Morgan and Mrs. W. Willard. Mrs. D. Coates looked after the large attractive array of Christmas decorations.

Mrs. L. Pettigrove was in charge of tickets and Mrs. K. Dietz received the admission at the door.

Co-conveners for the successful event were Mrs. R. Planche

and Mrs. J. Allen. The guests were received by Mrs. G. Delisle, president and Mrs. F. Bampton, past president of the club.

Tea was served at individual tables each centered with a lighted candle in a nest of greenery and small flowers. The main lace covered tea table had a centerpiece of bronze and yellow baby mums; silver tea services and autumn bronze candles completing the table arrangement.

Presiding at the table during the afternoon were Mrs. R. Cathart, Mrs. H. McLeod, Miss C. Aitkenhead and Mrs. H. Grundy. Mrs. W. Hammond was tea replenisher and Mrs. R. Cotterell, tea maker.

Mrs. J. Allen, supervised the dining room assisted by Mrs. K. King, Mrs. D. Bourne, Mrs. W. Mutchler, Mrs. E. Fuller, Mrs. G. Monty, Mrs. T. J. Quintin and Mrs. M. Scovell.

Kitchen duties, looked after by Mrs. J. Planche, Mrs. L. Pettigrove, Mrs. A. Swan and Mrs. J. Bryant, were convayed by Mrs. F. Fleming.

## Veronica Anne Patten weds John Sanford Cluett

KNOWLTON — The marriage of Veronica Anne, daughter of Mr. and Mrs. Godfrey Patten of Knowlton, to Mr. John Sanford Cluett, son of Mr. and Mrs. W. Cluett of Dorval, Que., took place Saturday, Oct. 22, in St. Paul's Church, Knowlton. Rev. Canon T. E. R. Nurse officiated and the wedding music was played by Mrs. Wilson Frizzle. The church was decorated in autumn colors, with yellow and bronze chrysanthemums.

The bride, who was given away by her father, was in a Colleen original gown of pure silk peau de soie featuring a Sweetheart neckline, and long tapered sleeves. The bodice and sleeves were appliqued with hand made ribbon lace. The gown fashioned on slim lines, fell into a full cathedral train. Her full length veil of tulle illusion was held in place by a caplet of pearls and she carried a bouquet of shasta lilies and white heather from Scotland.

Miss Elizabeth Mary Patten, sister of the bride as maid of honor, was in a full length gown of sunset gold peau de soie having a Sabrina neckline and tulip sleeves. The front of the slim gown falling into deep pleats with bow and train at the back. Her headdress was of velvet and silk autumn leaves in shades of gold, green and bronze and she carried a shower bouquet of yellow and bronze chrysanthemums.

Miss Cheryl Cluett, niece of the groom as bridesmaid, wore a full length gown of bronze peau de soie styled identically to that of the maid of honor and she carried a shower bouquet of yellow and bronze chrysanthemums. Her headdress was similar to that of the maid of honor.

Mr. Gordon Cluett, brother of the groom acted as best man and the ushers were Mr. Reagh Simpson and Mrs. John C. Asher, cousin of the bride.

Mrs. Patten, mother of the bride chose a gown of French Chantilly lace in sierra brown, the entire ensemble being hand applied, a hat of French velvet and silk petals in green, bronze and autumn shades and a corsage of flame carnations.

Mrs. Cluett, mother of the groom, wore an emerald green brocade gown and mink stole, a hat of green and gold lame, and a corsage of Talisman roses.

Following the ceremony a reception was held at the Benvenuto, the home of the bride's parents, in Knowlton, where floral decorations were carried out in autumn colors. The bridal table was in a marquee erected in the grounds, where approximately 200 guests were entertained.

After the reception the couple left for a honeymoon south of the border, in the U. S. A. and Eastern States, the bride travelling in an ensemble of full length coat and dress to match in Irish tweed in mint green, sage and tan, with a small pill box hat to match. Her corsage was of yellow carnations and white heather.

On their return Mr. and Mrs. Cluett will take up residence in Dorval, Que.

### BE KIND TO RUGS

Don't let stains from soiled, wet boots spoil the beauty and shorten the life of rugs. Polyphane rug mats placed in entrance halls will spare your rugs. They resist acids, grease and dirt and wipe clean with a damp cloth.

### DRIP DRY SAFELY

To prevent rust marks on drip dry clothing, always put them on plastic hangers to dry.

## Irwin-Skinner marriage

COATICOOK — The Baptist Church, Coaticook, was the scene of a pretty wedding on Saturday afternoon, Oct. 22, when Lenore Elaine, daughter of Mr. and Mrs. Waldo Skinner, Barnston, became the bride of Mr. Leslie William Irwin, son of Mrs. Muriel Irwin, of Way's Mills, and the late Mr. Irwin. Rev. James Gibson officiated at the double ring ceremony and the wedding music was played by Miss Jean Donaldson. Seasonal flowers were used in decorating the church and satin bows marked the guest pews.

The bride, given in marriage by her father, was in a lace trimmed gown of peau de soie, featuring an empire bodice with scoop neckline and elbow length sleeves; the floor-length skirt falling into a slight train at the back. Her shoulder-length veil of pearl trimmed tulle illusion, was held in place by a single white rose and she carried a traditional bouquet of autumn flowers.

Miss Judy Goodsell, as bridesmaid for her cousin, wore a street-length dress of orange ice chiffon over taffeta and carried a bouquet of mums.

The flower girl, Kin Markwell, was in a floor-length gown of pale pink satin, her headdress was of flower trimmed net in cap effect and she carried a basket of tiny mums.

Mr. Richard Irwin was best man for his brother and Mr. Keith Markwell, cousin of the bride, the usher.

The bride's gift to the organist, a former teacher, was a silver maple leaf brooch, to her bridesmaid silver heart locket with chain and to the flower girl a bracelet and locket set.

The groom presented the best man with a set of cuff links and tie clip.

Mrs. Skinner, the bride's mother, chose a dress of navy blue silk crepe with white collar and cuffs. Her hat and accessories were in beige.

The groom's mother, Mrs. Irwin, wore a royal blue lace dress with hat and accessories of black and white.

Following the ceremony a reception was held in the Church Hall, where the bridal table, trimmed with a white wedding bell and candles, was centered with a two-tier wedding cake, topped with a miniature bride and groom.

Later, the couple left on a wedding trip to points in Maine and New Hampshire, the bride travelling in a blue suit with beige accessories. Her corsage was of red roses.

Guests were from Montreal, Manitoba, Sherbrooke, Lennoxville, Barnston, Way's Mills, Coaticook, Ayer's Cliff and Thompsonville, Conn.

Mr. and Mrs. Irwin are now residing at Stanstead.

## Belvidere Women's Institute marks Second Vice-Presidents' Day

The monthly meeting of Belvidere Women's Institute, was held at the home of Miss Edna Smith, on Saturday, Nov. 5, when a good attendance of members and visitors were welcomed. As this was second vice-president's Day, Mrs. Garcia Montgomery presided.

Members responded to the roll call by naming a pioneer family and giving an interesting fact, also by bringing in a Christmas gift for a cancer patient.

Correspondence included letters of thanks from Lennoxville Parks Commission for a donation; from Lennoxville High School for a donation to the Prize Fund; from the Wales Home for a gift of two overbed tables, to be used in the Infirmary; and from friends who had received gifts of appreciation; also a news letter from Maplemount Home in Cookshire. Adding to the many cards and notes of congratulation on the 30th anniversary, was a card recently received from the Egypt Branch W.I. near Sutton Ont., and signed by all the members.

A cheque for \$2 was received from Salada Foods for Symbols sent in. Copies of Federated news were received and distributed.

Conveners reporting were: Agriculture, Miss Hazel McGee, who read an outline on agriculture; citizenship, Mrs. K. Smart, for Mrs. C. Drummond, discussed plans for laying a wreath at the Cenotaph on Remembrance Day; education, Mrs. G. Montgomery, mentioned the discontent of teachers in Montreal; home economics, Miss Edna Smith, reporting on the W.I. Handicraft Booth at the Sherbrooke Exhibition, stated that \$422.23 had been taken in by all branches during the week.

Publicity, Mrs. C. Pitman, reported all meetings and activities in the local press and had them announced by radio; welfare and health, Mrs. J. Tarte, announced that three pairs of socks, five pairs of booties and three pairs of mitts were turned in for the Welfare Society. Miss Smith reported for the Special Committee, planning the County Anniversary.

Mrs. K. Smart was appointed to assist Mrs. Arthur Coates in obtaining data on the past history of the County.

Ways and means, Mrs. A. E. McGee, reported on the recent paper drive and thanked all who had worked on it. Special thanks go to Mr. Earl Smith for the use of his truck as well as his assistance; sunshine, Miss Eva Beaton, reporting for the past two months on get well and birthday cards sent out, five gifts to grandmothers, a spray to a bereaved family; three gifts of cups and saucers to friends; and cigarettes to a patient in hospital.

Mrs. Charles Pitman was appointed to act as delegate to the County meeting, held Wednesday, Nov. 9, in Lennoxville Town Hall, with Belvidere Branch entertaining.

A committee was named to work on the road-naming project. It was decided to donate \$5 to the Northern Extension Fund and to donate \$20 to the Sunshine convener for Christmas cheer.

MR. AND MRS. BRIAN DOUGHERTY. (Record photo by Doug Gerrish)

## \* Dougherty-Gale wedding \*

AYER'S CLIFF — A pretty autumn wedding took place on Saturday morning Oct. 29, at St. Bartholomew Church in Ayer's Cliff, when Elizabeth Rae, daughter of Mr. and Mrs. Kenneth E. Gale was united in marriage to Mr. Brian Dougherty, son of Mr. and Mrs. Luke Dougherty, of Greenfield Park, Que. Father Bertrand officiating at the double ring ceremony.

The wedding music was played by Mr. Dionne, who also accompanied the soloist, Mrs. Nelson Pierce, in singing the solo Ave Maria. The altar was adorned with baskets of pink and white carnations and chrysanthemums with autumn leaves in contrasting colors.

Given in marriage by her father, the bride wore a gown of white peau de soie fashioned with an Empire waist - line, light blue veiling, and carried colonial bouquets of yellow mums. Miss Lee Gale, junior bridesmaid, carried a basket of yellow and white carnations.

Mr. Richard Dougherty was best man for his brother, and the ushers were Mr. John Dougherty and Mr. Alex. Clavel.

Mrs. Kenneth Gale, mother of the bride, wore a two - piece pink wool dress with a mink stole and brown accessories.

Mrs. Luke Dougherty, mother of the groom, chose a burgundy and black brocade silk gown with matching hat and mink stole.

Mrs. Jean Gale, grandmother of the bride, was in a turquoise blue silk suit with toning hat and accessories.

The reception was held at Ripple Cove Inn, Ayer's Cliff, where the bride's table was centered with a double - tier wedding cake, made by the bride's mother and decorated by Mrs. Rose Thompson. Yellow and bronze mums surrounded by autumn leaves completed the table arrangement.

Later, Mr. and Mrs. Dougherty left for a honeymoon in the Laurentians, the bride travelling in a black and rust heringbone dress coat of fine wool, with matching accessories.

Out-of-town guests were from Ottawa, Toronto, Montreal, St. Johnsbury, Vt., New Hampshire, Sherbrooke, Magog and Massachusetts.

## IODE chapter sponsors salad buffet supper

The Aldershot Chapter I.O.D.E. was hostess at a delightful salad buffet supper at I.O.D.E. House recently. The rooms were decorated in the Halloween theme, the individual tables being centered with tiny jack o' lanterns, in which were inserted black candles. The tea table and serving tables featured large pumpkins carved in the usual Halloween tradition, with lighted candles inside.

The Salad Bar, presided over by Mrs. R. Wheeler and Mrs. G. Foreman, featured an attractive array of fruit and vegetable salads.

Mrs. H. Y. Durrant, Regent of the Chapter, received the guests and Mrs. O. Ilves acted as cashier.

Two attractive work tables, featuring African violets, colous, aprons, dressed dolls, etc., were in charge of Mrs. Allan Wark and Miss F. Clark.

The kitchen was in the capable hands of Mrs. F. T. Page, assisted by Mrs. G. Bennett and Mrs. George Smith. Mrs. P. J. Legallais and Mrs. K. Hammill acted as replenishers.

Tea was poured by Mrs. A. A. Munster, Honorary Regent of the Chapter, and Mrs. P. A. Dauncey, Regent of the Duke of Wellington Chapter.

## Polly's Pointers

DEAR POLLY—I have a problem in common with relatives and several friends. I bought a fluffy chenille bedspread which sheds lint and fuzz so badly. This sticks to clothes or anything that gets near the bedspread and also makes the room look dirty. I have hung this spread out in the wind, shaken it and washed it but nothing helps. Anyone have any other suggestions?—MRS. E.S.

DEAR POLLY—When I am planning a short trip with my small daughter and want to carry her bottles of milk safely refrigerated, I put about two inches of water in the bottle sterilizer, with the bottle rack in place, and put it in the freezer in the night before our jaunt. In the morning, I put the filled bottles of milk in the sterilizer, on top of the ice, and after an hour's drive we arrive with the bottles still chilled.—MRS. J. J. S.

DEAR POLLY—Do not throw away those unused baby bottle sterilizers. They make wonderful corn on the cob holders to go in the cooking kettle. Just stand each ear up in the individual bottle sections and cook as usual. After the corn is cooked, you can lift the rack out and serve with the corn still in it, thereby eliminating the task of taking the ears out one by one.—KAREN

**THE PHILIP CAREY COMPANY LIMITED APPOINTMENT**

**A. M. McATEER F. D. BRUCE**

Two recent appointments have been announced by P. F. Theobald, Vice-President of The Philip Carey Company Limited in Lennoxville, Quebec.

A. M. McAtteer becomes Assistant Manager of the Lennoxville operations. Mr. McAtteer was formerly associated with the E. B. Eddy Company and has moved to Lennoxville from Ottawa.

F. D. Bruce of Lennoxville is appointed Controller. Mr. Bruce has been with the Carey organization since 1948, and has most recently been Plant Controller at Lennoxville. Mr. Bruce will continue to headquarter at Lennoxville.

**Rhodesia reaction is slight**

By CARL MOLLINS

LONDON (CP)—The first anniversary today of the rebellion of Rhodesia's white minority aroused few public ripples in the officially-affronted mother country.

Nobody says Prime Minister Wilson planned it this way. But his declaration Thursday of the government's intent to seek membership in the European Common Market served to divert attention from the fact that the Rhodesian problem is still with him after a year of threats, cajolery and economic sanctions that were to be "quick and sharp" in bringing rebellious Rhodesian Ian Smith "to his knees."

Wilson's Common Market statement dominates national newspapers, radio and television newscasts.

References to the anniversary of the Rhodesian problem are relatively brief and perfunctory.

The references might have been even briefer but for the fact that the minor Liberal party forced a reluctant and seemingly embarrassed Parliament to talk about Rhodesia late on the eve of the anniversary of Smith's unilateral declaration of independence.

**AGREE PRIVATELY**

The Labor government and Conservative opposition had agreed privately in the House of Commons lobbies to renew without debate the temporary legislation of a year ago under which Britain was to have dealt with the Smith regime through sanctions.

But Liberal Jeremy Thorpe, who has suggested pinpoint bombing of Rhodesian railways to make sanctions effective, insisted on forcing a debate.

Leading Labor and Tory spokesmen "confined themselves to relatively short speeches explaining why they were not making long ones," as the Conservative Daily Telegraph columnist puts it.

The government, which has promised the Commonwealth to seek UN sanctions if Smith fails to yield to a settlement before the end of the year, has been studying the Rhodesian reply to Britain's latest offer for almost a week. The word is that the government will report a decision "within 10 days."

He did not say whether the medical care scheme he himself favors would be universal, public, portable and compulsory. These are the conditions which the federal government has laid down to provinces which wish to establish shared cost medicare schemes.

Speaking at a press conference, Mr. Cloutier said the commission will report to the government as each section of its study is completed and is to submit a final report by Jan. 1, 1968.

Other bilateral questions included proposals to increase cultural relations between the two countries and to continue the program of permitting senior Soviet citizens to emigrate and join relatives in Canada.

Bilateral questions took up an hour of the talks today. The remainder of the meeting was devoted to international questions, particularly those involving the United Nations.

The Canadian side expressed confidence in the UN as an instrument for peace and called for strengthening the financial

**MOLSON APPOINTMENT**

**ERIC H. MOLSON**

The appointment of Eric H. Molson to the position of Brewmaster of Molson's Brewery Quebec Limited has been announced by C. Marc Robert, president.

Mr. Molson, who joined the Brewery in 1960, is a graduate of Princeton University with honors in chemistry, and of the United States Breweries Academy, New York. He has had brewing experience at several breweries in Canada.

**Two-Chinas plan ruffles the Japanese**

TOKYO (CP-AP)—Herbert O. Moran, Canadian ambassador to Japan, met with Vice-Foreign Minister Takezo Shimoda today amid reports Japan is deeply concerned with a reported Canadian plan for the admission of "two Chinas" to the United Nations.

The foreign ministry declined to say what was discussed but said Shimoda invited Moran to the foreign ministry.

The ministry also declined to comment on the reported Canadian plan.

In Ottawa, Prime Minister Pearson confirmed Thursday that the government is trying a new approach on the China question. He gave no details.

Opposition Leader Diefenbaker asked whether Canada would co-sponsor a resolution along the lines of asking the United Nations secretary-general to explore the basis upon which Communist China might be seated in the Security Council and Nationalist China in the General Assembly.

"We are considering the matter," Pearson replied in the Commons.

The mass circulation Asahi Shimbun reported the United States also was perturbed by the reported Canadian plan and that Tokyo and Washington planned to ask Canada to reconsider its decision.

A foreign ministry spokesman said William P. Bundy, U.S. assistant undersecretary of state, conferred in Washington Wednesday with Japanese Ambassador Ryuji Takeuchi. But the spokesman declined to elaborate on topics discussed.

Asahi says both Washington and Tokyo are afraid that the reported Canadian proposal will find wide support in the UN and jeopardize the plans of the U.S., aided by Japan, to block Communist China's membership for at least another year.

The newspaper says the U.S. Japanese strategy is to propose, as in the past, that Communist China's admission be declared an important matter, requiring a two-thirds majority of the 121-member General Assembly.

The two governments are said to be confident Peking would fall short of such a majority in the Assembly.

UN debate on the seating of Communist China is tentatively scheduled to begin Nov. 21.

Asahi says the Japanese government was informed that the Canadian proposal would consist of three points:

1. Both prevention of Communist Chinese admission and expulsion of Nationalist China would be opposed.

2. Communist China will be made a member of the UN and given China's seat as permanent member of the Security Council.

3. Nationalist China will no longer be a permanent Security Council member but will retain its UN membership as the state exercising jurisdiction over Formosa.

Receipts: 1,877 cattle, 1,570 calves, 349 hogs and 239 sheep and lambs.

Choice steers 25-26.85; good 24-25.50; medium 22.50-24.10; common 18-22.50.

# Country notebook

By WALKER RILEY

Macdonald College

"If you want to make the most out of your dairy cow, supply her with enough energy in her feed each day to just balance her needs. And follow this rule right through her lactation."

This was the advice given by Peter Hamilton to a meeting of D.H.A.S. members at the College the other day. They had come in to see how IRMA (the Infra-red Milk Analyzer) and the computer are used to turn out their monthly Dairy Herd Analysis report. Prof. Hamilton has been working closely with the program since it started last May.

Peter used a neat trick to get his point across. He pictured a balance, or a scale, like a teeter-totter. On one side, he loaded all the things a cow needs energy for - body maintenance, milk production, reproduction, and growth. Then, he met her needs with energy from hay, silage, and concentrate until the scales balanced.

He used for an example a 1200 lb. mature cow, early in calf, giving 40 lbs. 4 per cent milk. She would need, according to National Research Council tables, 7.4 lbs. (Therms) net energy for body maintenance, and another 12.8 lbs. N.E. for milk production. This cow, then, required a total of 20.2 lbs. N.E. from her feed.

Suppose she cleaned up 30 lbs. corn silage (10 lbs. dry weight) and 12 lbs. hay. The silage, with a net energy value of 60 would supply 3.4 lbs. energy value. The hay, valued at 43, would supply another 5.2. Total 10.6.

That left Peter's cow short 9.6 units of energy to come from the meal mix. The net energy at most dairy rations is about 7.4. Based on this, it would take 13 lbs. meal to make up the difference.

And that is just how, Peter explained, the computer arrived at the figure for the "Lbs. Concentrate to Feed" column on the monthly D.H.A.S. report. The computer, he added, didn't do anything you couldn't do at home with a set of good feeding tables and a pencil - if you had the time and patience.

Dick Welton's talk which followed Peter's, emphasized the importance of good quality forage and knowing how to measure it. Dick is a post graduate student working with Dr. Donfer to develop a feed-testing service.

He pointed out that hay could run all the way from a value of 34 to 63 depending mostly on the date it was cut.

Tel. 562-9315

If Peter had only fed his cow with green, leafy, early cut stuff, he not only could have allowed a higher energy value for the hay, but also she would have eaten more. Result - the "concentrate to feed" would be down to perhaps two or three pounds, a real saving in the feed bill.

There are several ways to measure the usefulness of livestock feeds. The most familiar scale is T.D.N. - short for Total Digestible Nutrients. It is simply the sum of all the digestible organic nutrients in a feed - protein, fibre, other carbohydrates, and fat. Only the fat is multiplied by 2.25 because its energy value is that much higher than that of protein or carbohydrates.

Another system is Net Energy. This is the one used in the D.H.A.S. It's harder to work with, but more accurate, especially with roughages. With concentrates, the difference is not great.

T.D.N. simply divides a feed into two portions, digestible and non digestible. Net Energy takes into account that energy is lost not only in the faces, but also in the combustible gasses, urine, and "work of digestion." Net energy values are usually expressed in Therms. A Therm

is the amount of heat needed to raise the temperature of a ton of water about two degrees. But for convenience, we often think of N.E. in terms of pounds per 100 lbs. Feed. To get around this awkwardness, you sometimes hear "net energy value", or "net energy code."

## The Doctor Says

by Dr. WAYNE BRADSTADT

Q - What would cause my husband to have drenching sweats at night? He may sweat three or four nights in a row, then be dry for a few nights.

A - Night sweats are commonly seen in persons who have tuberculosis but they usually occur every night. Other possibilities include a deficiency of vitamin C or D, nightmares which may be due to a variety of causes, a general run - down condition or, according to some authorities, a decrease in male hormone (male menopause). The treatment is to remove the cause if it can be found.

Q - My son, 18, has excessive sweating of his hands. What causes this and what can be done for it?

A - Sweating limited to or chiefly on the palms is usually caused by instability of the nervous control of the blood vessels in the skin. When the surrounding air is warm or the victim is emotionally keyed up, these blood vessels dilate and sweating occurs.

Q - What will make one's clothing turn yellow from sweat?

A - In persons who are not jaundiced, yellow sweat may be caused by the invasion of the sweat glands by certain harmless bacteria or (usually in the armpits) with a fungus called Nocardia. Yellow sweat is occasionally seen in woman who are pregnant.

Q - I am a housewife. I am taking Tylosterone. What is it given for? Are there any harmful side effects?

A - This combination of male and female hormones is used chiefly in the treatment of menopausal symptoms and especially for the osteoporosis (softening of the bones) associated with the change of life. Such side effects as nausea, a sense of fullness in the breasts, headache and abdominal distress can usually be controlled by adjusting the dosage to your individual needs.

Q - What are streptomycin shots for? What effect do cortisone shots have on lung viruses?

A - The chief use of the antibiotic, streptomycin, is in the treatment of tuberculosis. Cortisone has no direct effect on any kind of virus but is given to reduce inflammation. It is also used with streptomycin in the treatment of tuberculosis.

Q - Please send your questions and comments to Wayne G. Bradstadt, M.D., in care of this paper. While Dr. Bradstadt cannot answer individual letters he will answer letters of general interest in future columns.

On behalf of the guests, Mr. and Mrs. Brown were presented with a purse of money.

Out-of-town guests present were Mr. and Mrs. Michael Brown and four children, Mr. and Mrs. Stanley Lake and two children, all of Toronto.

**FAIRLANE**  
(usable in wide or narrow front layout)  
Exterior Dimensions: 25'7 1/2" x 34'0"  
Overall Area: 872 square feet  
(Carports are adaptable to either style)

HALLIDAY'S series of versatile houseplans, features among its collection this design that may be set as a wide front plan, or set with the narrow side facing front to accommodate narrow lots. The Fairlane is compact, has two bedrooms, and without doubt is the ideal small inexpensive type of building that a very small family or couple can live in and enjoy.

Complete blueprints for this house plan may be obtained for \$10.00 a set. In ordering, it must be specified whether the plans are to be as shown here, or in reverse to the above layout. It should also be specified whether or not the plans wanted will be used with a brick or stone finished house, or for one to be covered in wood or other materials. The above home can be built conventionally, or is available in complete factory-manufactured component sections, for which literature is immediately available. For details and plans, write to:

## Roses require care so give it to them

One of the most important garden jobs in November is to provide adequate winter protection for roses.

Our southern Ontario winters are just a bit too severe to allow roses to remain over winter without some form of protection.

Because of the cold factor, the roses we grow in this part of the world are not grown on their own root stocks, but are budded onto more hardy kinds.

Despite this, unless some further winter protection is given, the parts of the roses above ground are easily killed by the severe temperatures which occur each winter.

### MOUNDING

Pick the first nice day or weekend that comes along this month to do this necessary garden chore.

The most satisfactory way so far developed for protecting hybrid tea, floribunda and hybrid perpetual varieties is to hill or mound up soil around each bush at least eight inches high.

This will not only protect the rather tender branches above ground but will prevent the cold from penetrating deep into the soil to kill the roots.

Plants whose roots are killed but whose top remains alive will leaf out normally, grow for several weeks and then collapse almost overnight when they've exhausted the food stored in the branches.

With no root left to pump food and moisture upwards, the branches could not remain alive.

It is a mistake to scrape up sufficient soil from the area immediately surrounding the bushes. When you do this you very often expose some of the roots which are then easily killed or damaged by the winter cold.

Soil should be either brought in from another part of the garden or you should buy one of the commercial top soil mixtures readily available from any garden center or nursery.

### FUNGICIDE

It is also a good plan to buy an all purpose fungicide so that the bushes and the ground immediately surrounding them can be given a thorough spraying before mounding up the soil.

## Mrs. F. Bennett is honored on 92nd birthday

BURY - On the occasion of her 92nd birthday on Nov. 1, Mrs. F. G. Bennett, of St. Paul's Rest Home, was feted by her family and friends.

On Friday evening, her son, Ralph, of Ottawa, arrived and on Saturday he took his mother to Flanders, where they had dinner with Mrs. A. E. French, Mr. Bennett's mother-in-law.

On returning to the Home in the afternoon, they were joined by Mr. and Mrs. Eric Purdie and daughter, Heather, of Pointe Claire and Mrs. Robert Foxworth, of Philadelphia, Penn. The out of town relatives were Saturday night guests of Mr. and Mrs. Teddy Bennett in their old home in Canterbury.

On Sunday, accompanied by Mr. and Mrs. Teddy Bennett and their mother, they went to Sherbrooke for dinner at the New Sherbrooke Hotel.

From there Mr. Ralph Bennett and Mr. and Mrs. Purdie and daughter returned to their homes in Ottawa and Pointe Claire, Mrs. Foxworth leaving for her home early Monday morning.

On her birthday, several other relatives called on Mrs. Bennett, including Mrs. William Shaw, of North Hatley, who brought her a lovely birthday cake, Mr. and Mrs. Gordon Parsons, of Windsor, Ont., Mrs. Arthur Herring, Mrs. Douglas Harrison and Mrs. Thos. Parsons, Bury.

Mrs. Buchanan served afternoon tea to the guests, making it a pleasant occasion for Mrs. Bennett, who received birthday cards and greetings from far and near as well as many gifts.

### MELBOURNE

Mr. and Mrs. James Kemsley, Dorval, were called here by the death of Mr. Fred Henderson, Mr. and Mrs. Kemsley are spending a week with the latter's sister Mrs. Fred Henderson, Mr. and Mrs. E. Henderson and sons, Messrs. Milton and Carl Henderson, Stoney Creek, Ont., were guests of Mrs. Fred Henderson, Mr. Milton Henderson returned home on Oct. 30, owing to previous commitments, while the others remained to attend the funeral of Mr. E. Henderson's father, Mr. Fred Henderson.

Recent guests of Mr. and Mrs. Alfred Phipps were Mr. and Mrs. J. A. Lundeborg, Huntingville, and Mrs. R. M. Wharham, Montreal.

Mr. and Mrs. Ernest Ingram, Montreal East, were weekend guests of Mr. and Mrs. H. J. Henderson.

Miss Margaret Brill and Mr. Fred Brill have returned after spending ten days with their sister, Miss Evelyn Brill at Wrentham, Mass.

Among those who were in town to offer condolences to the family of the late Mr. Fred Henderson were Mr. and Mrs. Henry Boul, Montreal, Mrs. Albert Mallette, St. Laurent, Mr. Leslie Kemsley and son Dorval and Mr. and Mrs. Daryl Henderson, Drummondville.

### Do-it-yourself

## Proper putty very important

The professional cabinetmaker has a trick of making his own wood putty by mixing fine sawdust with resin type glue. The result is a tough filler that will not shrink and will match the original wood.

There are, however, a number of different compounds on the market that can be used for filling cracks and holes which are easy enough for anyone to use. Even the professional is turning to them. It is important to pick the right type and to apply it properly.

These products are referred to as wood putty, wood plastic or simply filler. They are not the same as past wood grain, which is brushed over open grain wood to fill the pores. There are both ready-mixed putty or powders which can be mixed with water.

If you leave the bushes as they've grown during the spring, summer and fall, it would require an extra large amount of soil for their winter protection.

You can cut down considerably on the amount of earth required by pruning back all the branches to 16 inches before applying winter protection.

No harm will be done to the bushes and in all cases they'll need to be cut back much further in the spring.

The main reason for using soil is that it is a fairly good conductor of heat and so carries the heat from the soil below ground level even though it is frozen.

This will be sufficient to keep the temperature above the killing point - not freezing point.

After cutting back the roses to 16 inches be sure to pick up the trimmings and any leaves so that insects and diseases will not be able to winter on them.

Next, cover the crown of each plant with a mound of soil at least eight inches high. After the earth has been mounded up for a few days you'll probably find that some of it has settled or washed away and it is a good idea to add additional soil.

The amount of soil needed for this purpose can be reduced by one - third to a half by using some of the aluminum or plastic hilling up collars.

The ultimate in winter protection is to cover the entire plant and mound of soil with a y. straw or other humusy material which will help prevent repeated freezing and thawing of the soil around the canes.

### CLIMBERS

The best way of protecting climbing roses is to take them down from their support and cover with soil. You do this before the ground has frozen solid and tie them together in a cone shape and then lay them on the ground.

Be sure to provide a raised portion of earth on which to lay the cone of branches to ensure good drainage. Cover the complete bush to a depth of four inches.

Follow this by covering the earth completely with a mulch of straw or evergreen boughs. Early next spring remove the straw or evergreen boughs from around the branches so that the earth will thaw out more quickly.

Ordinary Putty  
Ordinary linseed oil putty, the kind used on windows, often is used to fill cracks and holes. It consists in part of white lead and oil, is cheap and handles easily. While not for cabinetmaking, it is ideal for cracks in siding outdoors and can be painted over immediately. It does not take stain too well. To use linseed oil putty, simply apply with a putty knife or your finger and smooth.

Linseed oil putty has little strength so do not use it where there may be stress (such as on an open edge) or as an adhesive. If you have a lot of filling to do get dry powder filler. Mix it with water as you need it. It is cheap and it lasts indefinitely. What you mix will harden quickly. It adheres well, whether in large amounts or thin layers and it smooths out with better results than the ready-mixed putties.

If a sizable opening must be filled, take preliminary steps to insure a good job. If you undercut the edges of the opening so that it is narrower at the top than the bottom, this will prevent the filling from pulling out.

Build Filling  
If the opening is deep, build up the filling in layers rather than filling it with a single glob. Allow each layer to dry before applying the next. The last layer should be a filler.

Quick-drying ready-mixed fillers come in tubes or cans and dry quickly as soon as exposed to the air. Though handy, since there is no mixing required, they are also rough and sometimes hard to smooth since they harden quickly before a surface can be smoothed. Since they do

water to make a filler. Quick-drying ready-mixed fillers come in tubes or cans and dry quickly as soon as exposed to the air. Though handy, since there is no mixing required, they are also rough and sometimes hard to smooth since they harden quickly before a surface can be smoothed. Since they do

not take stain readily, it is best to get one with a color that resembles the wood.

Ordinary Putty  
Ordinary linseed oil putty, the kind used on windows, often is used to fill cracks and holes. It consists in part of white lead and oil, is cheap and handles easily. While not for cabinetmaking, it is ideal for cracks in siding outdoors and can be painted over immediately. It does not take stain too well. To use linseed oil putty, simply apply with a putty knife or your finger and smooth.

Linseed oil putty has little strength so do not use it where there may be stress (such as on an open edge) or as an adhesive. If you have a lot of filling to do get dry powder filler. Mix it with water as you need it. It is cheap and it lasts indefinitely. What you mix will harden quickly. It adheres well, whether in large amounts or thin layers and it smooths out with better results than the ready-mixed putties.

If a sizable opening must be filled, take preliminary steps to insure a good job. If you undercut the edges of the opening so that it is narrower at the top than the bottom, this will prevent the filling from pulling out.

Build Filling  
If the opening is deep, build up the filling in layers rather than filling it with a single glob. Allow each layer to dry before applying the next. The last layer should be a filler.

Quick-drying ready-mixed fillers come in tubes or cans and dry quickly as soon as exposed to the air. Though handy, since there is no mixing required, they are also rough and sometimes hard to smooth since they harden quickly before a surface can be smoothed. Since they do

## Coach Roy's changes pay off as locals stop Gauls, Tigers upset Eagles, play here Sunday at 7.30

By LEN O'DONNELL  
(Record Sports Editor)

Gilles Cartier came up with a two-goal performance and the Sherbrooke Beavers posted a 3-1 win over the Gauls of St. Hyacinthe last evening before 3,250 fans at the Sports Palace in a wide-open battle. The Beavers' next home game is Sunday evening at 7.30 p.m. The Tigers of Victoriaville pulled the upset of the season last evening when they put an end to the Eagles' string of victories. It was the first defeat of the year for the Eagles who had rolled up a string of six consecutive victories before last evening's loss. Sherbrooke and Victoriaville remain on even keel following the outcome last evening. They are both tied with six points each, one behind St. Hyacinthe while the Eagles hold a six-point spread over the second place club. On Sunday evening at the Sports Palace the Beavers will be at home to the Tigers in what could turn into a hard-fought battle as both clubs will be gunning for a victory. The Eagles will travel to St. Hyacinthe in the other fixture.

Gilles Cartier came up with a two-goal performance while Jim Beckman registered the other Sherbrooke marker. G. Gosselin robbed Serge Aubry of his shut-out when he tallied St. Hyacinthe's only marker in the middle session. Andy Payette, St. Hyacinthe's rangy notminder, had a busy evening as the Beavers kept the pressure on all night. It was his work in the nets which held the score down. Serge Aubry, at the other end of the ice although he didn't have so many shots, was forced to come up with some key saves while his mates were in the cooler. The changes Coach Roy came up with certainly made a difference in the team. Gilles Cartier working with Bill Dupre and Rene Pepin had a great night. Claude Cardin with Georges Guilbault and Rejean Richer also clicked well while Jim Beckman with Gaston Bouchard and Rod Gaudreault turned in a top job also.

Jean Levesque handed out some tough checks as well as young Serge Roy. The local rearguards held their own and with Levesque's hard checking the Gauls were forced to keep their heads up and didn't take too many chances. Guy Black, the veteran winger for the Gauls, was their best man as he had a busy evening. Pit Martin and Wayne Connelly were the Boston scorers. Delvecchio scored his first goal of the game in the second period to give the Wings a 1-0 lead. Boivin scored just past the 10-minute mark of the third period and 58 seconds later, Delvecchio connected again.

While the 190-pound centre was putting the puck in the Chicago nets, Detroit netminder Roger Crozier stopped everything the punchless Black Hawks had to offer for his second consecutive shutout of the season. He blanked Montreal Canadiens 6-0 Sunday. The acrobatic netminder, a native of Bracebridge, Ont., has led the NHL in shutouts the last two seasons and Thursday's shutout gave him the leadership again. Gump Worsley of Montreal, Ed Giacomin of New York Rangers and Cheevers have a shutout apiece. Crozier stopped 29 Chicago shots while the Red Wings fired 35 at Denis Dejordy in the Black Hawk nets. The victory moved the Red Wings into a tie for third place with the Canadiens. Both clubs have nine points, three fewer than league-leading Chicago.

Rejean Richer came up with an end-to-end rush but missed on his shot. He rounded the whole club and out-skated them to get in deep but his drive just missed. Serge Aubry was jagged with a major for butting but the Beavers managed to keep control. First Period: 1-Sherbrooke, G. Cartier (Cardin, G. Roy) 5:17; 2-Sherbrooke, J. Beckman (Robidas) 14:15; Penalties: Caisie, 4:00; Aubry, 8:38; Nadeau, 10:37; Lambo and Gaudreault, double minor, 14:45; Morin and Cardin, 16:35; Nadeau, 18:02.

Second Period: 3-Sherbrooke, G. Cartier (Dupre) 11:35; 4-St. Hyacinthe, G. Gosselin (unassisted) 14:14; Penalties: G. Bouchard, 13:09; Cardin, 13:25; Boileau, minor and misconduct, 13:52; Levesque, 16:37. Third Period: No Scoring. Penalties: St. Vincent, 3:01; S. Roy, 8:55; Aubry, major, 13:09. STOPS: A. Payette 13 12 9-34; S. Aubry 9 9 2-26.

Grey Cup champions, will take any break they can get to prepare for the first game of the two-game, total - point series against Ottawa Rough Riders. Rough Riders, first-place finishers in the EFC this season, have elected to play the first game at 2 p.m. EST here. Second game is scheduled for the following Saturday in Montreal, base for the Riders while their home field in Ottawa is being renovated. Meanwhile, a tarp covered the field at Hamilton after city workmen spread nearly a ton

A MISS — Rejean Richer of the net when he had Andy Payette out of the play with a deke. The puck is seen just missing the upper corner. The Beavers won 3-1. (Record photo by Gerry Lemay)

## Eastern Conference final could turn into plowing match with chances for good field remote

HAMILTON (CP) — Steady rain has ravaged the football field at Civic Stadium for the last three days, but somebody up there seems to like the Hamilton Tiger-Cats. The rain, which threatens to turn Sunday's opening game in the Eastern Football Conference final into a plowing match, has stopped each evening at 6 p.m. when the Ticats file out for their workouts. The Tiger - Cats, defending

absorbent sawdust in an attempt to soak up the water. IT'S A QUAGMIRE The worst part of the field is a section running from the 35-yard line to the centre line. It was bare of grass all season and a series of high school games early in the week churned it into a quagmire. Jake Gaudaur, general manager of the Ticats, surveyed the damage Thursday and conceded Hamilton would be happy

## THE WORLD OF SPORTS

to accept a 1-0 total for the series if the rain keeps up. The long-range weather forecast calls for colder weather today with a few sunny periods. The weatherman says the rain will stop today, but declines any prediction for Sunday. "The chance of a good field is very remote," said Gaudaur. "There's no point in saying otherwise even if it would sell more tickets. But everything that can be done will be done." The Tiger-Cats are slim 1 1/2-point favorites to defeat Ottawa Sunday. The game will be

carried nationally on the CTV network with Toronto, Hamilton and Kitchener blacked out. Possibility of a muddy field was Ralph Sazio, Tiger - Cat coach, worried. He figures the biggest improvement in Ottawa is their defence. TAKES STRENGTH "Ted Collins moved into their defence this year and it takes quite a bit of strength to move up the middle," he said. Collins, who was used offensively last year, moved into the front four with defensive ends Billy Joe Booth and Rob Brown and defensive tackle Marshall Shirk. Sazio also thinks the return of Jim Conroy to his corner linebacker position bodes ill for the Cats. Conroy, out last year with an injury, toughened Ottawa's defensive along with Bill Cline, deep defensive back, Sazio said.

## Racing Program

- SUNDAY, NOV. 13TH, 1966
- 1ST. RACE — TROT Purse: \$200.00
- 1-INDIAN J. BOY, O. Surprenant
- 2-MR. LULU, F. Jodoin
- 3-MISS FRANCINE C.
- 4-PETER PIREX, A. Rouleau
- 5-TULLICAN, F. Desrochers
- 6-BARRE STORM, Mrs. E. Babin
- 7-THE MIXER, Gilles Jutra
- 8-MISS MILWAUKEE, C. Briere
- Eligible: Burnbrae Jimmy, Raoul Bernard Devitry, G. Robichaud
- 2ND. RACE — PACE Purse: \$225.00
- 1-TINA CLAP, Y. Lepage
- 2-ROCKY SPIRIT, Andre Morin
- 3-TWILIGHT STAR, M. Marcoux
- 4-PEGGY ANGUS, C. Grenier
- 5-ROYAL PAT, Gilles Jutra
- 6-DOMINION GOOSE, C. Chabot
- 7-SHELBY T. F. Nadeau
- 8-LUCY C. HARVESTER, Lefebvre
- Eligible: Mr. O'Keefe, G. Paquette George Lewis, F. St. Denis
- 3RD. RACE — PACE Purse: \$200.00
- 1-ROCKY G. SCOTT, R. Rhoame
- 2-GOOSE EXPRESS, R. Bernard
- 3-CECILIA'S PRIDE, G. Chagnon
- 4-MIGHTY GERRY C. R. Bernard
- 5-ANN DIRECT ADIOS, F. Turcotte
- 6-ABBE SPENCER, Gilles Jutra
- 7-SWEEP CLEAN, R. Cossette
- 8-ADIOS SPENDER, G. Pelletier
- Eligible: Crystal Widower, A. Rouleau Early Limer, W. Lancaster
- 4TH. RACE — PACE Purse: \$200.00
- 1-ADIOS SHERBROOKE, R. Lafond
- 2-ABBE DEAN, J. Lefebvre
- 3-COUNT E. LEE, L. Huckins
- 4-MISS BLACK BIRD, N. Lachance
- 5-TOM ELKINGTON, C. Briere
- 6-GUY UP, J. Robinson
- 7-HAPPY GUY, A. Horan
- 8-LADY SONG, O. Morin
- Eligible: Jay Spangier, Stoney Mite, Guy Jutra
- 5TH. RACE — PACE Purse: \$200.00
- 1-KATY IBAF, G. Robichaud
- 2-HOLIDAY SONG, F. Nadeau
- 3-BORDEVIEW MAY, H. Lepage
- 4-HAPPY GAL, Gilles Jutra
- 5-MISS TRIAL, C. Grenier
- 6-DICKORY DOC, J. C. Poulin
- 7-ELDORA'S IRISHMAN, C. Chabot
- 8-BIDGET WICK, Guy Jutra
- Eligible: Philgion, G. Chagnon Prince Blaze, A. Rouleau
- 6TH. RACE — PACE Purse: \$200.00
- 1-LOVELY PALIS, Guy Jutra
- 2-TRAILBLAZER, C. Chabot
- 3-FUNNY BOY, G. Pelletier
- 4-PANDA, O. Morin
- 5-MISS THUNDERCLAP, JAMES R. FRISCO
- 6-BARE EXPRESS, A. Rouleau
- 7-FEDOR'S FURY, C. Chabot
- 8-UNTOUCHABLE, N. Lachance
- Eligible: Rebel Land Mite, L. Huckins Lady Lori, H. Lepage
- 7TH. RACE — PACE Purse: \$225.00
- 1-GO HANOVER, D. Watson
- 2-TRUE PRINCE, A. Rouleau
- 3-TREASURE MIB, C. Chabot
- 4-JUSTA WITCH, J. Robinson
- 5-LOU DIRECT C. R. Lafond
- 6-PERSHING'S LAD, F. Nadeau
- 7-ADIOS KENT, G. Robichaud
- 8-BIG ANDY, G. Pelletier
- Eligible: Senator Spenser, Gilles Jutra
- 8TH. RACE — TROT Purse: \$300.00
- 1-BEL RIVER, Gilles Jutra
- 2-KUNO STOUT, F. Jodoin
- 3-HERO PICKET, H. Lepage
- 4-PINE ACRES SCOTT, J. Robinson
- 5-VAN DEAN, C. Chabot
- 6-LIVE STEAM, F. Desrochers
- 9TH. RACE — PACE Purse: \$400.00
- 1-GORDON IBAF, G. Adamson
- 2-DIAMOND NEEDLE, C. Hebert
- 3-ANTIO ADIOS, F. Desrochers
- 4-GRANBY GIRL, F. St. Denis
- 5-RICHMOND GAIL, R. Jutra
- 6-BABY SANDWICH, A. Rouleau
- 7-COAST DISPATCH, W. Storia
- 8-BOZO ELKINGTON, H. Lepage
- 10TH. RACE — PACE Purse: \$250.00
- 1-CARLA GALLON, S. Kisd
- 2-JEAN CLAP, N. Mineault
- 3-TREASURE MIB, F. Desrochers
- 4-MISS JESSIE DIRECT, R. Jutra
- 5-BREZZEWOOD, J. Robinson
- 6-MISS MIRONAC, J. Robinson
- 7-LITTLE KENT CONE, C. Grenier
- 8-ADAM BYRD LAD, W. Mosher
- Eligible: Lone Elm Reedy, A. Horan

to test referees Basketball 'rookie-refs' in the Eastern Townships will be blowing whistles for the first time this season tomorrow in Lennoxville. Over 20 candidates undergo their floor tests at Lennoxville High School and at Bishop's University in order to obtain a rating from the Eastern Townships Association of Basketball Officials for the 1966-67 season. Four high schools will provide competition so that the referees can be graded on actual officiating in a game. The whistle-tooters who will pound up and down gymnasiums in this area for the next five months have been attending the annual referee clinic, reviewing and interpreting the rules and basics of the sport. Sherbrooke High School, St. Pat's, Lennoxville High and Princess Elizabeth High from Magog take part in a round-robin tournament, beginning at 9 a.m. tomorrow. Three games played in Bishop's Memorial Gymnasium schedules St. Pat's against SHS at 9 a.m., St. Pat's and Lennoxville High at 10:30, and St. Pat's meeting PEHS at 11:30. Meanwhile at Lennoxville High, LHS meets Magog at 9 a.m., with the Magog-Sherbrooke encounter at 10:30, followed by SHS - LHS at 11:30.

## School Sports Scene

AS SOON AS BASKETBALL referees begin to spruce up on their profound knowledge of game regulations and fundamentals, it's time to look into the immediate future and foresee what's in store in high school gymnasiums.

TWO TOURNAMENTS scheduled within the next two weeks should be some indication of what senior b-ball calibre will be like for the long seasons, even though only a few of the teams have been hitting the varnished floor and netted hoops to date.

FOR INSTANCE, tomorrow morning, players from four teams representing high schools in the Sherbrooke area will put their best dribble forward at Bishop's U. and Lennoxville High, enabling the reputable officials to clear stomach butterflies and polish off the summer rust before the 'real' seasons begin. The round-robin affair should have some interesting games, and one team in particular may show up the best. St. Pat's High, having been under practice routines for a number of weeks, is expected to win their three games.

IT'S INTERESTING to note that 14 invitations were sent out to schools in the ET, seeking participation in this ETABO refs tourney. Replies to the invitation numbered six, with four in the affirmative.

HI-LO AND IN BETWEEN VOLLEYBALL 'playday' in the SPVIAA for players of junior age is underway tomorrow at Sherbrooke High. The playday is not an interscholastic event, as school competes against school, but rather one player from each school form a team . . . fostering teamwork and sportsmanship.

THE SENIOR TOURNEY in volleyball will be held on November 26, also at Sherbrooke High. Entries should be trickling in very shortly. Please note, an audience for the Playday is discouraged.

SHERBROOKE OPTIMISTS, of the Sherbrooke Juvenile Hockey League, are being strengthened rapidly by students from Sherbrooke High and LHS, who are in the player districts of this club. An English minority that existed at the start of the season is quickly developing into a majority.

ONE OBSERVATION FROM A PLAYER in this league: the only thing one learns from playing in such a circuit is that you must keep your head up . . .

COWANSVILLE HIGH SCHOOL'S annual invitational basketball Jamboree slated for December 3 in Granby is expected to have defending champions Rosemere High, of the Montreal Island, back for a possible fifth straight championship.

AND WHILE BACK on the subject of B-Ball, now that the season approaches, it would be wise for some high schools to check their gymnasium equipment. Are baskets and backboard secured, firmly attached to wall supports? How about proper lighting fixtures?

IF GAME CONDITIONS are not investigated, and if necessary, rectified prior to scheduled games, one would wonder whether interest in the welfare of players, and attention to the game itself is truly taken to heart.

## NHL big 10

The only change in the National Hockey League's top 10 scorers was in 10th place where three Boston Bruin players raised their season totals following Thursday night's action. Pit Martin had a goal and an assist in Boston's 4-0 victory over Toronto Maple Leafs to move into a tie for 10th place with team-mates Murray Oliver and Wayne Connelly and Toronto's Dave Keon. All have eight points.

Norm Ullman of Detroit Red Wings was held pointless in his club's 3-0 victory over Chicago Black Hawks Thursday but continues to lead the scoring race with 14 points, one more than Stan Mikita of Chicago. The leaders:

	G	A	Pts.	Pen.
Ullman, Det.	2	12	14	18
Mikita, Chi.	5	8	13	2
Rousseau, Mtl	4	8	12	2
Govette, N.Y.	0	12	12	2
Hender'n, Det.	8	3	11	0
Gilbert, N.Y.	4	6	10	4
D. Hull, Chi.	5	4	9	6
Marshall, N.Y.	5	4	9	2
Smith, Det.	3	6	9	2
Martin, Bos.	6	2	8	0
Connelly, Bos.	4	4	8	0
Keon, Tor.	2	6	8	0
Oliver, Bos.	2	6	8	2

## LAST NIGHT'S STARS

Gerry Cheevers, who kicked out 31 shots to record his first National Hockey League shut-out as Boston Bruins blanked Toronto Maple Leafs 4-0. Alex Delvecchio, who scored two goals to lead Detroit Red Wings to a 3-0 victory over Chicago Black Hawks.

## Alex Delvecchio assumes role of scorer as Wings blank Hawks and Bruins upset Maple Leafs 4-0

Lo and behold! Alex Delvecchio is a scorer! He counted twice Thursday night as his Detroit Red Wings blanked Chicago Black Hawks 3-0 in a National Hockey League game. That's pretty good for an NHL player who went 15 seasons before he broke the 30-goal mark in 1965-66 with 31 goals and who had scored only one goal in nine earlier games this fall.

Leo Boivin scored the other Detroit goal as the 34-year-old Delvecchio, a Fort William product, became Marksman of the Night. In the other NHL contest, rookie netminder Gerry Cheevers stopped 31 shots in his first NHL shutout as Boston Bruins upset Toronto Maple Leafs 4-0. Murray Oliver, John Bucyk

and Wayne Connelly were the Bruins scorers. Delvecchio scored his first goal of the game in the second period to give the Wings a 1-0 lead. Boivin scored just past the 10-minute mark of the third period and 58 seconds later, Delvecchio connected again. While the 190-pound centre was putting the puck in the Chicago nets, Detroit netminder Roger Crozier stopped everything the punchless Black Hawks had to offer for his second consecutive shutout of the season. He blanked Montreal Canadiens 6-0 Sunday.

The acrobatic netminder, a native of Bracebridge, Ont., has led the NHL in shutouts the last two seasons and Thursday's shutout gave him the leadership again. Gump Worsley of Montreal, Ed Giacomin of New York Rangers and Cheevers have a shutout apiece. Crozier stopped 29 Chicago shots while the Red Wings fired 35 at Denis Dejordy in the Black Hawk nets. The victory moved the Red Wings into a tie for third place with the Canadiens. Both clubs have nine points, three fewer than league-leading Chicago.

## Yvon Fournier rushed to hospital

Yvon Fournier, Sports Editor for La Tribune, was rushed to the hospital last evening just prior to the hockey game at the Sports Palace. Fournier, who was in the Palace at the time, felt ill and left the building. Upon reaching outdoors he fell. Raymond Bergeron, past-president of the Beavers, was entering the building at the time and rushed to his side. An ambulance was called and he was taken to St. Vincent de Paul Hospital.

It was reported this morning that he was suffering from a partial paralysis of the left side. He was taken to Notre Dame Hospital in Montreal for special treatment. His condition is considered serious.

## Optimists join OTJ clubs at top of Juvenile League

OTJ Meteors or Braves have the opportunity to move into sole possession of first place in the Sherbrooke Juvenile Hockey League Saturday evening at the Sherbrooke Arena, provided one team loses and the other wins.

If both the Meteors and Braves lose their games against the Aces and St. Pat's, a four-way tie could develop, as the Aces would climb one bracket higher in a class with the Meteors, Braves, and the Optimists.

Action Wednesday evening saw the Optimists defeat the Braves 6-4 in the second game of the double program, following a 3-3 tie between the two cellar teams, St. Pat's and Cardinals.

In each period, St. Pat's answered the Cardinals with a goal of their own, to tie the match after every fifteen minutes of play. The deadlock gives them each their first points in the standing.

Kevin Bowen scored the sixth goal of the game, unassisted at the five minute mark of the last frame, which saved St. Pat's from remaining winless in three starts. Other St. Pat's goals came from M. Marchand, assisted by Kevin Bowen and Mark Greenland, and the other scored by A. Boutin.

The Cardinals' markers were made by P. Goulet, Y. Mongeau and Y. Longpre. OPTIMISTS SHARE FIRST Sherbrooke Optimists moved into a first place tie with a 6-4 upset over the leading Braves, on goals by G. Perron, Pete Klossner, Ian Hanson, and Alan Oxford.

Perron was tops for the Optimists with a hat-trick and two assists for the evening, followed by Allan Oxford with one tally and three assists. Ian Hanson also helped out in two tallies.

Scorers for the Braves were Gregoire (2), Hamel and Laflamme.
