PRICE ONE CENT

WOULD PROHIBIT EXPORT OF PULP WOOD.

Resolution Passed by Board of Trade of Maritime Provinces—Stop Drain Upon Forests of Canada.

John N.B. August 22.—The annual meeting of the Maritime Board of Trade opened yesterday morning at 10 o'clock. There are many important items for discussion. The first was the All-Red line proposed by the Canadian Government. G. M. Campbell, of Halifax, introduced the subject. He said he thought it was a great help to Canada, and, in fact, the Maritime Provinces, the terms would be down here. The matter taken up was "the duty on rossi pulpwood, proposed by W. B. Snowball, of Chatham, N.S., as follows:—Whereas, it has been the policy of the Federal Government to encourage the manufacture within the Dominion by duties sufficiently high to keep out foreign pulpwood, and by bounties to encourage the use of home raw materials; and whereas the Federal Government has extended large amounts to promote the manufacture of pulpwood in the Dominion, and to encourage the use of home raw materials; and whereas we have within the bounds of Eastern Canada a natural source of pulpwood, capable of supplying the Dominion with a large amount of our present people, and many who may come to find homes here, at profitable wages, instead of going west, and thus people our eastern provinces; and whereas this wood is being raised in New Brunswick, Nova Scotia and Quebec, and shipped in that state to the United States to keep their pulp mills running. Therefore, resolved, that this Maritime Board of Trade is of the opinion that the exportation of pulp wood should be prohibited by the Federal Government.

Mr. Snowball advocated a prohibitive duty on pulpwood, so that manufacturers would be induced to come here instead of taking the wood out of the country and manufacturing it elsewhere. In Chatham there was now a rossi plant that provided more pulpwood than could be used by the mill there now, and other mills should be built there. He thought also that paper should be manufactured here as well as the pulp. No raw materials should be allowed to cross the border.

Mr. Ward, of Kentville, in seconding the resolution, gave some interesting information on the scarcity of spruce in Nova Scotia, which is used for pulp. He thought no rossi pulp would be exported as the forests would soon be depleted.

After a lengthy discussion the resolution was unanimously passed, making it apply to all pulp wood.

The meeting also passed a resolution that the Dominion Express Company be allowed running rights on the I. C. R. as well as the Canadian Express Company.

THE CLEANSING OF SAN FRANCISCO.

Mayor Begins Work on Police Dept.

San Francisco, Aug. 22.—Mayor Taylor has begun his promised cleansing of the police department by sending a notification of their removal to four police commissioners. The notification is in the form of a letter, and is signed by the Mayor. It is a very strong letter, and is a warning to the police commissioners to clean up their department. The Mayor is very determined to have the police department cleaned up, and he is not going to be satisfied until he has done so.

BRYAN IN A WRECK.

HE HAS BEEN WHILE EN ROUTE TO THE SAME PLACE.

Chicago, Aug. 22.—A despatch from Bryan, Ill., says: As William-John Bryan adjusted his necktie and the clasp of his trousers, he was hurrying safely from a wreck on the Chicago & North Western road. The train was "Fou." Then drawing out the date, with these words: "The time a wreck has occurred on the Chicago & North Western road, where is the wrecking?"

With words of encouragement to the crew and other passengers, who escaped uninjured, Mr. Bryan stepped up the track for more than a half. At Belvidere, Mr. Bryan took a trolley car and made his way to the hotel. The wreck was caused by a baggage car taking an open curve. Three coaches were derailed, and there was in one of the day coaches a fire. The train was derailed.

PREMIER BOND SILENT.

NOT COMMENT ON LATEST PHASE OF FISHERIES DISPUTE.

John's, Nfld., Aug. 22.—Premier Bond and the members of the Government refuse to comment on the announcement from London that the United States and the Dominion of Newfoundland have agreed to submit the fisheries dispute to arbitration. The Premier Bond suggests that the Government is not in a position to comment on the arbitration. The Opposition papers claim that the Premier has been forced to make a statement against this will. A Colonial Conference at London is said to have opposed arbitration.

AT REGULAR RATES.

Little Buns lung on the arm of the Lanville Bugle. To the bugle and endeavored to turn his head toward the sky. "Notice the moon, William!" said a melting voice. "At the usual rates, Matilda, I shall be happy to do so," he replied. "Oh, a Companion."

SITUATION IS MORE SERIOUS.

Fanatics Before Casablanca Have Been Reinforced.

FRENCH HAVE ALSO BEEN REINFORCED—SULTAN'S BROTHER IS PROCLAIMED.

Casablanca, August 22.—The arrival yesterday before this town of three new columns of warring tribesmen, who have joined the army of the fanatics besieging Casablanca, has rendered more serious the problem under order. The new arrivals constitute an imposing opposition to the French forces, now worried with their long vigil. The soldiers are convinced that their present defensive strength is inadequate.

Vice-Admiral Philibert yesterday telegraphed to Paris the belief of General Druce that reinforcements are absolutely necessary for the protection of the town.

Whenever the men on board the cruiser Gloire sight groups of Arabs they open up on them with shell fire, and during all Tuesday night there was a constant rattle of rifle fire from the French sharpshooters directed against Arabs who were trying to steal in toward the town under cover of darkness.

Paris, August 22.—The Government has sent instructions to Oran, Algeria, to send one thousand men to reinforce the present French force at Casablanca.

GATES, THE EVIL GENIUS.

LONDON PAPER DISCOVERS THAT HE HAS CAUSED CONSOLS TO GO DOWN.

London, Aug. 21.—John W. Gates's reported ambition to follow in Richard Croker's footsteps and win the Derby has received its due measure of attention from the English press and public. One paper speaks of Mr. Gates as "the American steel magnate," and quotes with approval his aphorism on the greater share of private liberty enjoyed by Englishmen and Americans.

Another better posted organ declares that if Mr. Gates wants to bet a million on any horse he fancies he is not likely to find men of his own kidney, except in his own country.

Still another paper discovers that Gates is at the bottom of the depreciation of consols, saying: "Gates is ostensibly out of the market, but he really is in it as a bear. The principal objects of his attack are the Harriman lines, and as part of his plan of 'campaign' Gates is bearing consols to prevent London from feeling tempted to come to the rescue of unions. So long as he can promote a general feeling of nervousness here, that helps him, and no easier means of doing this presents itself than selling consols. His operations are materially assisted by the growing apprehension excited by the Socialistic programme of our own Government."

And so forth and so on. This is the history of the steel magnate's operations in the London market.

Mr. Gates meanwhile is said to be somewhere in Scotland and is expected, though not very definitely, at a London hotel about a week hence.

BAN OFF PILGRIMAGES.

POPE RECONSIDERS MANDATE ON JUBILEE FESTIVITIES.

Rome, Aug. 22.—At the insistent request of the Bishops of the United States, the Pope has consented to again allow pilgrimages, which were recently suppressed owing to the anti-clerical campaign.

MISUSED CITIZENSHIP.

In granting the rights and privileges of citizenship to subjects of foreign nations, the United States never contemplated that naturalization should be used in the way it has been by an increasing number of foreigners. The experience of the United States is of a sort to be of interest to Canada at a time when she is receiving countless strangers into citizenship. Of recent years it has become the custom among Germans, Russians, and people of other nationalities, who for one reason or another desire to evade the laws and certain forms of taxation, to go to the United States, take out naturalization papers, and after a while return to their native land and claim immunity and protection as United States citizens, though they have no intention of ever again visiting the United States.

Many more who really intended to remain in America when they came over, having once become wealthy, prefer to live among their own people in their old homes, but for the reasons stated desire to retain their United States citizenship. This has given rise to some diplomatic friction, for most foreign governments are loath to recognize a subject's right to forswear his allegiance. The British attitude was defined by the phrase "Once an Englishman always an Englishman." It was, however, abrogated in the case of public British subjects who renounce his allegiance and become a citizen of another country. Russia to this day refuses to admit the right of a Russian to forswear his nationality, or even to extend to Jews who are native born United States citizens the same right of domicile to go on the ground that they are allowed other citizens of the Republic. Generally speaking, however, the British view has been accepted by European governments. Now it is the Congress at Washington which has changed its attitude by passing an act making an alien who has been naturalized to fulfil his sworn obligation to make his permanent home in the United States. Just as the declaration of intention to that effect was deemed a sufficient reason for the extension of the privileges of citizenship to the foreigner, so now the declaration of intention to spend the rest of a lifetime in a foreign land is considered good ground for the withdrawal of those privileges. It is obviously evasive for anyone to change his allegiance while abroad, then return home for good and claim exemption from his native obligations on the ground of being a citizen of a foreign country. By leaving the United States he evades his responsibilities to that nation, and would be equally exempt at home. As this class of patriots has grown very numerous in Europe, Congress has taken a practical common sense view of their claims, and they must either return to the United States or forfeit their naturalized citizenship.

OVER CAPITALIZATION.

NEW YORK PUBLIC SERVICE BOARD WILL ATTEMPT TO CHECK IT.

New York, August 22.—Stock watering and over-capitalization by utilities corporations in this city will practically be an impossibility hereafter, as the result of a new rule adopted by the Public Service Commission. The rule serves notice on such concerns, hereafter, to make any increase in the capitalization of their stock will have to throw their books and that the most minute details will be required to be given before new bond or share issues will be even considered.

TREATY WITH FRANCE.

NEGOTIATIONS ARE DECLARED TO BE PROGRESSING FAVORABLY.

London, August 22.—The Standard's Paris correspondent says the Franco-Canadian tariff negotiations are progressing satisfactorily. French efforts have been devoted to obtaining a modification of the intermediate tariff. France is particularly anxious to succeed, because this is the first treaty Canada has proposed and there is a sentimental regard in the French-Canadian.

INDIAN MYSTERY CLEARED UP.

John Assinowass, of Rolling River, Killed by His Squaw.

CONFESSION CRIME OF SEVERAL WEEKS AGO WHEN ARRESTED—HAD NOT INTENDED TO KILL HER MAN.

Minneapolis, Man., Aug. 22.—(Special.)—The mystery surrounding the disappearance of the Indian, John Assinowass, by name, from the Rolling River Reserve several weeks ago, has been cleared up by the arrest of the man's squaw, charged with murdering him.

The squaw when arrested made a pathetic confession.

Her husband, she said, brought home to the tepee two large bottles of whiskey, which she hid from him. The man threatened to kill her if she did not give the whiskey up and chased her, whereupon, laying her child down, she threw him down and choked him, she not intending to kill him, but she did shortly afterwards. Early in the morning she dragged the corpse to a big knoll nearby, wrapped it in a blanket and buried it.

KING IN AWKWARD FIX.

NASTY REASON ASSIGNED DESIRE OF TRANSVAAL TO GIVE HIM DIAMOND.

London, August 21.—The plan of Premier Botha, of the Transvaal, to present the Cullinan diamond to King Edward meets with much criticism, both in England and the Transvaal. The finances of the colony are in bad condition, and many persons think that the expense is unnecessary. Moreover, the Transvaal has no right to the diamond. The Cullinan diamond to be a white elephant. There is no market for such huge stones. The Premier people are political supporters of General Botha's treasury and critics say that if the stone belonged to the De Beers Company, which is an opponent of General Botha, there would have been no thought of presenting the diamond to the King, adding that the Botha party want to get the credit for a patriotic act, while putting money from the treasury in the pockets of their friends at a time when the colony can ill afford such luxuries. The controversy places King Edward in an embarrassing position.

IMMIGRANTS COMPLAIN.

LORD ADVOCATE SO FAR UNABLE TO FIND ANY JUSTIFICATION FOR PROCEEDINGS.

London, Aug. 22.—In the House of Commons, Tuesday, the Lord Advocate, replying to Mr. Cleland, stated that many complaints had been received from Scottish emigrants to Canada that the promises of employment and wages whereby they were induced to emigrate, had been unfulfilled. The complaints had been the subject of careful enquiry, and the results, so far, had not justified proceedings. The Lord Advocate announced that no offenders in this direction were liable to severe penalties.

VOLIVA DEPARTS FROM ZION CITY.

He Goes to Prepare a New Paradise.

THE NEW HOME WILL BE IN NEW MEXICO.

Chicago, Aug. 22.—Overseer Wilbur Glenn Voliva at last has turned his back upon Zion City, the scene of so many troubles. The leader of the Zionites, without announcing his destination, started yesterday for the new home of his faithful followers. This new home, the faithful admitted, is near Las Vegas, San Miguel County, New Mexico. Accompanying Overseer Voliva were Theodore Forcy, John A. Taylor and George Bright, his close lieutenants and advisers.

It is planned that Overseer Voliva shall remain in New Mexico until a place has been prepared for such of his followers as care to go to the new "paradise" of the faithful. Already 3442 acres of land have been purchased. At least five thousand acres of land, it is said, will be added to this tract.

SUIT IS WITHDRAWN.

SURRENDER OF PLAINTIFFS IN THE MRS. EDDY CASE.

Concord, N.H., Aug. 22.—The suit in equity brought by "next friends" against Mary Baker G. Eddy on March 1 last came to a sudden ending yesterday morning when counsel for the "next friends" filed a motion with the clerk of the Superior Court asking for a dismissal of the petition. Later on the attorneys, through Hon. William E. Chandler, senior counsel, notified the masters who have been in session since a week ago last Tuesday for the purpose of determining the mental competency of Mrs. Eddy to manage her business affairs on or about March 1, of the withdrawal of their appearance before the masters without asking them for any findings upon the question submitted to them by Judge Chamberlain.

It was apparent that General Street-er did not appreciate the action of the counsel for the "next friends," and he made that fact further evident when he arose to address the masters. He spoke with a great deal of feeling. At the outset he said that he desired to file a motion that the masters proceed with the hearing and determine the competency of Mrs. Eddy. He said he was sure he was able to prove Mrs. Eddy's absolute competency to deal with her affairs. He also added that during the last two weeks of February she was dealing with her business affairs with ability and as a noble Christian woman, so far as her next-of-kin were concerned. The general declared that she was an honest citizen of New Hampshire, and is entitled to the protection of the court. He also said that some time it will appear that after providing liberally for her own kin, she has devoted much of her estate to the promotion of the religious views taught by her.

He admitted, however, that there was nothing to prevent the unconditional surrender of the "next friends." General Street-er referred to the suit as a unique one in legal history and as being based on false pretences. He claimed that the suit was instituted by a great newspaper, which had hired and paid eminent counsel to conduct it, and that it was primarily an attack upon the religious teachings of a great religious leader. In conclusion, the general said that any other finding than one of competency would bring down upon the administration of justice. He said he spoke not only for Mrs. Eddy, but every aged citizen of the State whose property, person and religious liberty are now endangered.

AUSTRALIAN TARIFF.

SIR WILLIAM LYNNE SAYS HE HAS NOT HEARD FROM SIR WILFRID.

The Laborites have pressed their own local following to assist Mr. Reid in obtaining material reductions. Special committees of each of the four federal parties is busy preparing amendments. Sir William Lyne, questioned regarding the attitude of Canada, said he had heard nothing from Sir Wilfrid Laurier in reference to preferential relations since his conversation with him in London. No definite practicable offer has been made.

TOWNSHIPS MAN'S INVENTION VALUABLE.

U. S. Patents of Berry Lubricator Sold.

SEVERAL TOWNSHIPS MEN ASSOCIATED WITH MR. BERRY IN COMPANY.

Mr. Austin Berry, formerly of Warden, Que., and his associates of the townships and elsewhere have sold the United States patents of the Berry Lubricator & Machine Co., to an American syndicate, recently formed in New York.

An important meeting of the company was held in Ottawa a few days ago to ratify this sale and to declare a dividend of the proceeds resulting from the sale of said patents, owing the shareholders of the parent company.

It is understood that the townships stand to make a big thing financially out of their interest in the company.

Referring to the transfer of the U. S. patents, the Ottawa Citizen says: "The American syndicate is composed almost entirely of New York capitalists incorporated under the name of the Berry Car Journal Lubricator company, with an authorized capital of \$2,500,000, divided into 25,000 shares of \$100 each. With the exception of three Canadian directors, the board of the American syndicate, which has eleven members, is composed of men who represent the principal railroads of New York, as well as men who hold high and responsible positions in the American Car and Foundry company, a gigantic car trust, whose capital is \$80,000,000, employing 15,400 men, and whose output last year was 94,875 freight and passenger cars.

"The directors of the Canadian or parent company are much pleased with the dividend which they were able to declare from the sale of the American patents, as well as with the very brilliant prospects for the future of the enterprise. Considering the class of men who compose the New York syndicate, it is quite within the bounds of reason to believe that the success of the lubricator is assured. The above device is patented in Canada, the United States, England, France, Germany and Belgium, and it is the intention of the company to push on to the other countries as early as possible.

"In the course of the meeting a resolution was moved by Hon. E. F. De Varennes, seconded by A. Wilson, that the company embody in the minutes their appreciation of the services of Mr. Berry, not only for the high inventive and mechanical genius displayed in inventing and perfecting the lubricator, but for his ability and indefatigable efforts manifested in so successfully pushing through to completion the organization of the New York syndicate.

"There were present at the meeting E. A. Dyer, ex-M.P., of Sutton, Que.; Hon. E. F. De Varennes, legislative councillor, Waterloo, Que.; William Gamble, solicitor, Ottawa; Russell Smart, of Fetherstonhaugh & Co., Ottawa; A. Wilson, Ottawa; and A. Borge, Ottawa, directors. E. A. Dyer occupied the chair.

THE VALLEYFIELD STRIKE SITUATION.

Cotton Company Declines to Arbitrate 10 p. c. Increase.

PRESIDENT PAQUETTE CHARGES THE COMPANY WITH BREAKING FAITH—STRIKERS WERE PAID OFF YESTERDAY.

Valleyfield, Que., August 22.—Expectations of a settlement of the strike here by an appeal to an arbitration board under the Lemieux Act were disappointed last evening, when Mr. Acland, the representative of the Labor Department at Ottawa, announced that the company had receded from its previous attitude, and now declined to arbitrate the question of a general increase of 10 per cent.

The company, Mr. Acland said, had held a board meeting at Montreal yesterday morning, at which they had decided that all minor questions such as grievances and complaints neglected by foremen might be referred to a committee of arbitration, but that they would not submit the question of an increase of 10 per cent. all round to arbitration.

This proved a surprise to the gathering of strikers, who had been given to believe that the whole question raised by the list of grievances prepared by their leaders was to be submitted to arbitration. Not one of them was willing to submit to such a change, and when the vote was called it was practically unanimous that the strike should be continued.

A meeting of the English-speaking strikers was held yesterday morning, at which 250 were present. The meeting was secret, but it was announced afterwards that the operatives, acting under the impression that all questions at issue were to be referred to arbitration, had voted in favor of the appointment of such a board by a narrow majority of six. When it became known later that the company did not submit the question of the general increase of 10 per cent. to arbitration, the English-speaking strikers were unanimous that the strike should be continued.

I. O. F. IN SESSION.

THE EASTERN ONTARIO COURT MEETS IN OTTAWA.

Ottawa, August 22.—When the High Court of the Independent Order of Foresters for Eastern Ontario opened its eleventh annual session in St. George's Church hall yesterday morning, 268 delegates occupied their places.

Ald. Wilson, acting mayor, Aldermen Farrow, Kilt, Davis, Lytle, Ross, Rosenthak and Farmer were introduced to the meeting by A. W. Fraser, P.H.C.R. They welcomed the delegates to Ottawa and gave them the freedom of the city. They referred in complimentary terms to the good work of the high court.

The report of the High Chief Ranger, Dr. G. H. Wade, showed how prosperous the order was. During the year 1906, 43,312 applications for membership into the order had been received, and brought the present membership of the order to 250,960. In Eastern Ontario, 1,525 applicants had joined the order for the year ending June last, which was a marked increase on last year.

Last year the surplus was increased by \$1,164.21, and now amounts to \$11,072,094.30.

The other reports for the year were likewise very favorable. The session adjourned for lunch at 12:30 and opened again at 2 o'clock. During the noon intermission a group photograph of the delegates was taken on Parliament Hill.

The feature of the meeting was the address by the supreme chief ranger, Hon. Elliott G. Stevenson. It was the first time many of the delegates had met the successor of the late Dr. Oronlyntekha. The address of the supreme chief ranger was characterized by a strong criticism of the findings of the Royal Insurance Commission.

The Accident to Mayor Farwell.

To be regretted at any time, the painful mishap which befell Mayor Farwell Monday, is doubly regrettable just now. As Mayor of the city, Mr. Farwell would have taken a prominent part in different functions of the Dominion Fair, especially with respect to the entertainment of the prominent dignitaries who will visit it, and no one is better qualified to represent the city on such occasions. It will be hoped, however, that the worthy Mayor will be out again as well as ever before the Exhibition ceases to be a green memory.

The New Y. M. C. A. Building.

Much satisfaction will be felt on all sides that actual operations have at length been started on the proposed extension to the Y.M.C.A. building. The new quarters cannot be made ready now, it is felt, in time for formal opening by the first of the year, but completion should come in February or early in March. So much time and thought have been devoted to the new building that it should be, and doubtless will be, a model for its size. When completed it will fill a long-felt need in Sherbrooke, the need of a swimming tank and good gymnasium. These facilities, it is certain, will be vastly appreciated by the youth of the city, not to mention the grown-ups, and the Association cannot fail to benefit in all its departments as a result of the increased interest.

The Level Crossing at Work.

Like every other Canadian town, large enough to have a railroad, Farnham has its level crossing nuisance. It is a particularly aggravating one in Farnham's case as buildings are located so close to the track that one crossing at least, that at Bedford street, is a blind one. Only this week two accidents occurred there, both narrowly escaping being attended by serious results. The toll of the railroads every year from this cause is a heavy one in human suffering, and human life, yet year by year passes, without the cause being removed or very much lessened. It is realized that a heavy debt is owed to the railroads for the part they have played in the growth of the country, but this consideration should not be allowed to carry weight where human life is at stake. The simple reason why level crossings go on unprotected year after year is because it would cost money to adequately protect them, and this is far from a sufficient reason. It is not expected that every level crossing, whether in town or country, is going to be furnished all at once with gates, or even with a flagman, but it is not too much to ask that all level crossings in towns ranging down to the size of Farnham, for example, should be protected by gates, which are next in efficiency to a subway or overhead crossing. In the larger cities, from 50,000 population upwards, for instance, subway or elevated tracks ought to take the place of level crossings. The railroads will do little if anything, unless compelled to do so, and the only body to do the compelling is the Railway Commission, which might well introduce regulations designed to abate the danger at once, and to remove it altogether in time.

WHAT IT COSTS TO BE A WORLD POWER.

(From the Augusta Herald, Dem.)
Everything in this world has its price, and that is everything which has a commercial or economic value attached to it. And these things may not be obtained or held without paying the price.

Japan is finding this out. The Japanese have a contempt for many of the white man's beliefs. But to the law of compensation the Jap will have to bow, even though he should regard it as the whim of the white man's beliefs. Japan had an itching to become a world power, and that ambition has been gratified. Now she must pay the price. This she can no more escape than the ordinary citizen can escape the payment of taxes.

The report for the current year just issued by the Japanese Department of Finance shows that for the current year \$55,000,000 have been added to the Government expenditures. This, it is to be noted, is not for expenditures upon education or internal improvements, but for the army and navy; and the national debt which five years ago was less than \$2.50 per capita, is now \$22.50.

Here is an increase of the tax burdens to be borne by the people of nine times their former weight, representing the difference between being an ordinary nation—just a plain, good liver—and a world power. Japan has the glory and the prestige, whatever that may be worth, but she must pay the price in tax burdens to be borne by her people.

It is a whistle for which nations that buy it must pay too dear. And Japan is not the only country in that fix.

The funeral of Mr. Henry Oliver, of New London, Conn., took place at the Niantic, Conn., took place at the Methodist Church here at 2 o'clock on Tuesday.

The late Mr. Oliver, or Henry as he was familiarly called in this section spent 22 years of his early manhood here and was universally respected for his sterling worth and honor on all occasions. The body reached here on the 9.21 a.m., mail train, having come from Niantic, via the C. P. Ry. to St. Albans and Richmond, Vt. The remains were accompanied by his faithful wife, who arose from a sick bed (having had a threatening attack of brain fever) to administer to her husband, who was attacked with appendicitis on Tuesday but he did not give up his post of duty as motorman on the electric street railway between Niantic and New London until Wednesday night, when he was obliged to give up work, dying on Friday evening at 9 o'clock, two days later, though three doctors had been called in to prescribe for him. He was attacked with this disease two years ago, coming out of it without an operation and in the present case the attack was so sudden and severe that no operation was attempted. As he stated he was the son of Mr. John Oliver of this village and he leaves beside his wife and son, a boy of 15 years, his step-mother and only brother, Mr. Nelson Oliver, also of this village. His age was 42 years, 11 months and 19 days. The funeral services were conducted under the auspices of the Oddfellows and there was a large turnout though the notice of the funeral had been but brief. The floral tokens of respect were numerous and beautiful, the Niantic, Conn., lodge sending over \$31 worth of beautiful flowers, while beautiful floral emblems were sent in by the Sutton lodge of which he was a worthy member. There were several other floral tokens of love and respect. The Oddfellows turned out about 50 strong from Sutton and a few from Glen Sutton. The funeral services were conducted by Rev. James Plettis, assisted by the Rev. J. J. Theakston. Mr. Plettis, as is his usual wont, spoke fitting words of consolation and love to the many mourners and friends present. The church was well filled. The bearers were Messrs. R. J. Parsons, F. A. Jones, Wm. Wyatt and Frank Fay, all acquaintances and friends of the deceased in years past. Mrs. Henry Oliver's maiden name was Fanny Fuller, daughter of Mr. Loren Fuller of North Sutton, and the remains of her husband were accompanied here by Mr. L. C. Carleton, a true friend of the deceased family from Meriden, Conn. They will return on Wednesday night, via the C. P. R. night express.

STANBRIDGE EAST.

A truly delightful entertainment was given to the members of St. James Church, branch of the Women's Auxiliary, last Friday evening, in the Parochial Hall. The programme consisted chiefly of vocal and instrumental music of a high character. A particularly attractive feature was the singing of Mrs. Clapp, Mrs. S. P. Knight and Mr. Guy Hurlbut, who were all most enthusiastically accorded. A reading by Rev. R. Y. Overing and a recitation by Miss Grace Cornell were very much enjoyed. A few narratives by Mrs. Clapp in which the characteristic peculiarities of the Irishman predominated, created much mirth. The entertainment was opened with a piano duet by Mrs. Clapp and Mrs. Hibbard. After the completion of the programme, cake and coffee was served to the audience which was highly pleased with the evening's entertainment, the first given by this branch of the Women's Auxiliary and it is sincerely hoped it may not be the last if the standard is in the future maintained to the degree that characterized this first event.

The work of laying a concrete sidewalk in this village, commencing at the little bridge near the Union cemetery, westward, as far as Mr. James VanAntwerp's residence, has just commenced, and in a very short time, under the able supervision of Messrs. A. R. Reynolds, W. A. Odell and Major Russell, will be an accomplished fact. The cost of this very necessary and commendable undertaking is to be met partly by the proprietors of the property that it particularly benefits, the balance coming from the funds provided for the purpose by the Stanbridge East Dramatic Club.

Through the entertainments given during the past year, this section is only a small portion of what it is intended to accomplish as there is excellent reason for anticipating for our entire village the existence of concrete sidewalks of a useful and ornamental character in the very near future.

Miss Dora Harris, of Farnham, is visiting at Mrs. O. R. Anderson's.

Mrs. P. C. Moore and Mrs. Clapp left Tuesday morning for Quebec, where they will remain ten days visiting friends. Mrs. Clapp goes from there direct to relatives in New Jersey, and will probably not return to Stanbridge for some time.

Mrs. Jos. Rosenberger was the guest of Mrs. Moore last Sunday.

ENJOYABLE CONCERT AT ART
HALL.

The autumn musical season opened
brilliantly last evening with the fine
concert given by Mr. Paul Dufault, the
famous and well known New York
tenor, in the Art Hall, assisted by a
number of gifted local amateurs.

Although many of the music lovers
of the city are absent on holidays, the
hall was exceedingly well filled, scarce-
ly an empty seat being visible, and
the audience was at once appreciative,
cultured and discriminating.

The overture was a Yale Concert,
the composition of Mrs. L. E. Codere,
rendered magnificently on two pianos
by Mrs. Codere and Miss Teresa Do-
herly and justly applauded to the
echo.

Messrs. Messier, who is always receiv-
ing with pleasure followed with "Ro-
mance" (Mehul) in which her remark-
ably sweet, sympathetic voice, was

heard to the best advantage. In re-
sponse to an encore she sang a lively
French ballad.

Mr. Dufault's first number was Me-
hul's "Grand Air de Joseph," which
displayed all the qualities of his re-
solute, pure tenor voice, of unusual
strength and beautiful quality. He
was encored and sang "A Toi" (Bam-
berg) with exquisite taste.

Later on two English songs, "The
Trumpeter" (Dix) and "I Love You,"
were finely interpreted by the versa-
tile tenor, whose English is perfect.

As an encore he gave "Love Me and
the World is Mine," another pretty
English song.

The Duo from "Roméo and Juli-
ette" (Gounod), Mrs. Messier and Mr.
Dufault, was an excellent piece of
work, and was greatly enjoyed by the
audience. The two voices blended
most harmoniously, and with the best
effect.

Miss Lanetot, who has a charming
soprano voice of fine quality, and
great range, sang "A Jeune Fille" (Ma-
cheroni) exquisitely, and for an encore
"La Ferme et la Ferme," receiving
her meed of applause.

Mendelssohn's "Caprice" piano solo,
was interpreted by Miss Caron with
the fine technique and brilliant ex-
ecution for which she is distinguished.

The encore was a delightful cham-
made number.

Mr. Emile Rioux was at his best in
the "Serenade de Don Juan," his full,
rich voice having a dramatic expres-
siveness well suited to the selection.

"The Rose" (Chaminade) which he
gave for the encore, was no less pleas-
ing while in the Dub "Joseph en Egy-
pte" (Mehul) with Mrs. Messier, the
audience was aroused to a pitch of
enthusiasm rarely excited by ama-
teurs.

The closing number "Trio final"
(Faust), Messrs. Rioux, Dufault,
and Mr. Rioux, in both singing and
difficult, but was sung with a taste,
expression and emotional intensity be-
yond all praise. The three sweet
thrilling voices were in perfect accord,
and the selection could scarcely have
been more finely rendered on the oper-
atic stage.

The house fairly rose and the per-
formers were recalled and bowed their
thanks.

Beautiful bouquets were presented to
the ladies during the evening. The
accompanists were Mrs. L. E. Codere
and Miss Caron, the former of whom
came in from her summer home at
Carleton Place.

The thanks of the music-loving por-
tion of the community are due to Mr.
A. Laberge and Dr. Ledoux, who or-
ganized the affair, and to whom much
of its success must be attributed.

The evening closed with a charming
little reception in a room arranged
for the occasion in the Art Building.

LAWRENCEVILLE.

The late Mrs. Samuel Solomon, Sr.,
who died on July 30th last, was for-
merly Christiana Marshall, and died
in the 85th year of her age.

She was born at Dollar, Perthshire,
Scotland, in the year 1823 and in
1847 she accompanied her parents to
Canada, the family taking up their re-
sidence at Granby.

In 1851 she was married to Mr.
Samuel Solomon, Sr., and with him
shared the hardships and privations of
pioneer life in West Ely. Of the fam-
ily of three children, one at the age
of four years, she seemed to be ex-
pected, was suddenly bequeathed to
join the throng of the immortals.

The two remaining Mrs. Wm. Solo-
mon, of Waterloo, and Mr. W. E. Solo-
mon, of Lawrenceville. After weat-
hering the gales together for over
half a century, Christiana, morning,
1901, the husband sweetly "crossed the
bar," and met his Pilot "face to face,"
and she was left to finish the voyage
alone.

In the early spring of this
year she removed with her daughter to
Waterloo, where the call to rest came to
her as to a weary and weather-beaten
mariner. She was a member of the Me-
thodist church, and always took a
lively interest in all pertaining to its
welfare. She was passionately fond of
flowers which appeared to her to be
God's thoughts in bloom; the little
children were her delight, for in a spe-
cial way they seemed to hear the
impress Divine. In her declining years
she was faithfully and lovingly tended
by her daughter, yet with vision dim-
med and in weakness extreme, she
longed to join the loved ones who
were beckoning her from the other
shore. The funeral services were held
in the church at Lawrenceville August
1st, Rev. J. Davidson, of Waterloo,
preaching an able and impressive ser-
mon, assisted by Revs. C. Huxtable,
of Lawrenceville, and A. H. Booth,
of Toronto. Her body was tenderly laid
to rest in the family plot beside that
of her husband in a serene and certain
hope of a glorious resurrection.

T., have returned to Kansas City after
an outing on their ranch in Lamb and
Castro counties in the Texas Panhandle.

"Our principal amusement at the ranch
was chasing antelope in the motor car,"
said Mr. Halsey. "When I first purchas-
ed the Panhandle ranch there were at
least five hundred antelope there. The
law forbids killing antelope, but we used
to chase them just the same for sport.

Last week I went out with my two
daughters in the motor car and we sighted
a drove of eighteen. In an auto
we could get within fifty yards of the
antelope easily. The ranch is covered
with brush and we can run right
across the prairie. It is dangerous, of
course, for at any time we might have
dropped into a shallow depression, deep
enough, however, to wreck an automob-
ile going fifty or sixty miles an hour.
I killed several wolves on these antelope
chases."

CENTURIES OF TENANCY.

(From the London Standard.)

A Dorsetshire farmer writes as follows
to the Standard: "A legal complica-
tion led me to look up the records of
my family, and I think the result will
interest your readers. I am a tenant
farmer in this county, where my family
has been settled for many centuries, and
I knew that our connection with our
present holding has existed for many
generations. Through hunting up records
for the case I referred to, however, I be-
came sufficiently interested to undertake a
more serious search than I had at first
intended. I found that my ancestors
have held practically the same tract of
land since the year 1604. Beyond that
I could find nothing, but very possibly if
records existed I think they would show
that we were connected with the place
even before that date."

FORMER PROFESSOR OF BISHOP'S COLLEGE, MARRIED.

(Quebec Telegraph.)

A quiet wedding took place at the
Cathedral of the Holy Trinity yester-
day morning at half-past ten. The
contracting parties were Mrs. Cath-
arine E. Steen, of New York, widow of
the late Rev. F. J. Steen, vicar of
Christ Church Cathedral, Montreal, and
Mr. Leonard B. Holme, of New York,
formerly of the Montreal Gazette, and
at one time a professor at Bishop's
College. The officiating clergyman was
the Rev. Arthur French, M.A., cu-
rate of the Church of St. John the
Evangelist, Montreal, assisted by the
Rev. H. R. Bigg, assistant at the Ca-
thedral of the Holy Trinity.

The bride, who was attired in a tra-
velling dress, was given away by the
Rev. Dr. Abbott Smith, of the Mont-
real Diocesan Theological College, and
Mr. A. Rives Hall, of Montreal, sup-
ported the groom. Those present
were Mrs. Rayson, Miss Rayson, the
Misses Eva and Anna Rayson, mother
and sister of the bride; Dr. John and
Mrs. Woddell, of the School of Mining,
Kingston; Mr. E. A. and Mrs. Bishop,
Miss Jones and Miss Corinne
Jones, Mr. and Mrs. Breakey, Mr. and
Mrs. Colin Breakey, Mr. Ian Breakey,
Miss Breakey, Miss May Breakey and
Dr. Reginald Abbott Smith.

Mr. Bishop played the wedding march
at the conclusion of the ceremony, af-
ter which a reception was held at the
St. Louis Hotel.

APOLOGY TO THE JUDGE.

(From Tit-Bits.)

When John Scott (Lord Eldon) was at
the bar he was remarkable for the sang-
froid with which he treated the judges.
On one occasion a junior counsel, on
hearing their lordships give judgment af-
gainst his client, exclaimed that he was
"surprised at such a decision."

This was construed into contempt of court and
he was ordered to attend at the court
next morning. Fearful of the conse-
quences, he consulted his friend, John
Scott, who told him to be perfectly at
ease, for he would apologize for him in
a way that would avert any unpleasant
result. Accordingly, when the name of
the delinquent was called, John rose and
coolly addressed the assembled tribunal:

"I am very sorry, my lords, that my
young friend has so far forgotten him-
self as to treat your honorable bench
with disrespect. He is extremely peni-
tent, and you will kindly ascribe his un-
intentional insult to ignorance. You must
be at once that it did originate in that.
He said he was surprised at the decision
of your lordship. Now, if he had not
been very ignorant of what takes place
at this court every day—had he known
yet but half as long as I have—he would
not be surprised at anything you did."

"If your cook is so insubordinate,
why don't you discharge her?"

"I'm afraid that would make her
worse."—Cleveland Leader.

P. S.

This advertisement is merely a
postscript to our former announce-
ment regarding the sale of Men's
Suits at \$5.00.

Just a word more, and we are
through with talking Five Dollar
Suits—or rather Suits for \$5.00—
because every Suit offered at that
price is worth more than twice
that amount.

We have yet on hand twenty-
eight suits. The assortment of
sizes are very incomplete, but
what is here you will find just as
good value as when the sale
started.

If you can wear sizes 36, 37, or
38 we can fit you—larger sized men
we will have to pass by as far as
a Suit for that price is concern-
ed.

Now that is all we have to say
about Suits at \$5.00, and if you
let this opportunity pass, why,
then you will be the loser.

About a month ago we told the
readers of this paper about a lot of

**BOY'S
THREE-
PIECE
SUITS**

which we were clearing out at \$3.

This appears to have been over-
looked in the excitement of our
Five Dollar Sale—but the fact re-
mains that at this price we should
clear out the lot (some 65 suits)
in a very short while. We desire
to put the matter before mothers
who have boys to fit out and
where every dollar counts. For
\$3.00 we will give you the choice
of this lot, and no matter what
they cost us, or the price at which
they were formerly sold, the price
to you will be \$3.00. This sale
will be run on the same lines as
our last, i. e., your choice of the
good ones or the cheap ones at the
same price—and for cash. The val-
ues are equally as good as the
Men's Suits—and that's all we
have to say.

GOLD FOR EUROPE.

HALF A MILLION TAKEN FOR EX-
PORT FROM NEW YORK
TREASURY.

New York, Aug. 20.—Another export
movement of gold was started yester-
day by the engagement of \$500,000 in
gold bars at the assay office for ship-
ment to Plymouth, although the North
German Lloyd liner yesterday, may be
continued on its way to Bremen. The
gold is taken by the banking house of
Muller, Schall & Co., who first made
inquiry for \$1,000,000. It is explained
that the transaction was made on or-
ders from their English house, and
that they did not know definitely for
whom the metal was intended. A re-
presentative of the house said, how-
ever, that it had been taken by the
Bank of England, which had made no

special concessions in the way of in-
terest in transit to get gold. As the
gold now stands on the ship's papers it
is consigned to England, with the
privilege of reconignment to Ger-
many. While a sharp rise in discount
rates in London led to a turn in for-
eign exchange rates here, it was gen-
erally believed in the financial district
that a gold movement of any import-
ance was not imminent. The general
feeling was that money rates in this
city were too high for any such out-
flow except on condition of much high-
er interest rates abroad. Bankers were
of opinion that even if a moderate
amount of gold went out it would do
no harm, for the reason that it might
help to convince European financial in-
terests of the absolute stability of the
American position in spite of the an-
ti-corporation activity.

Although Mr. Savoie had been ill for some time, his death was not looked for. He was a young man of good ability, and a character, and had many friends, who mourn his untimely demise. Mr. Savoie was only 25 years of age, and was a widower with no children.

A meeting of the Ladies' Committee of the Sherbrooke Protestant Hospital was held yesterday afternoon in St. Peter's Church Hall. There was a good attendance, and much interest was manifested in the various questions brought before the committee. Mrs. James Davidson presided, and Miss K. Lawrence, Acting Superintendent, was present and presented the needs of the institution. The most pressing in her opinion was a working housekeeper, and after thoroughly discussing the matter, the committee decided that in order to keep up the high standard which the hospital has attained, a suitable person should be engaged at once, to fill that responsible position. Fifty dollars was voted for new uniforms for the nurses, and \$25 for some necessary repairs to the Hospital Booth at the time at the disposal of the committee was consumed in appointing canvassers to obtain contributions for the booth from the citizens, but as it is manifestly impossible to call personally upon every family, those who are able and willing to assist, are begged to communicate with any member of the committee. Twenty-five members were added to the number and the meeting adjourned.

OUIDA IN A LAWSUIT.

London, Aug. 21.—The Milan correspondent of the Chronicle says that Ouida (Louise de la Rampe), the novelist, has begun a law suit at Lucca, Tuscany, for \$10,000 damages. Ouida some time ago summoned the defendants for unlawfully violating her domicile, and they were sentenced to imprisonment. They appealed and the higher court confirmed the sentence. Ouida, in order to save them from imprisonment, consented to the case being annulled on their undertaking to pay an indemnity. Their non-compliance with this agreement led to the present suit.

THE DAILY SMILE.

Beecham Tree is noted for his absent-mindedness, and it is related that he entered a cab on which was a strange driver. "Home," was all the direction the cabby received. He waited some time, fearing he might lose his fare before he asked Mr. Tree where his home was. His dismay was unbounded when the actor responded: "Why should I tell a perfect stranger where my beautiful home is?" (Argonaut.)

IN THE COUNTRY.

"You must write me lots of postal cards while I am away this summer," said one young woman.

"Why postal cards?" inquired the other.

"Oh, to make it more pleasant and so comfortable. The postmaster takes an interest in you and everybody is willing to go after your mail if you have plenty of postal cards in it." (Washington Star.)

In a school in Ancoats a clergyman was questioning a class of boys on their religious instruction. He endeavored to emphasize the virtue of avoiding occasions of sin. "What should a man avoid," he asked, "who is in the habit of getting too much drunk?"

A bright-eyed but rather forlorn-looking lad was ready with an answer: "Please, sir, a policeman." (Manchester Guardian.)

UNSELFISHNESS DIDN'T LAST.

FRENCH SOCIALIST DEPUTIES TO KEEP PART OF SALARY INCREASE.

Paris, August 20.—Delegates from all the Socialist organizations of France have held a three hours' heated debate at Nancy over the proposal to make each of their deputies pay 6,000 francs a year out of their parliamentary allowance into the party funds.

Immediately after Parliament voted to increase this allowance from 9,000 francs to 15,000 francs, the Socialist deputies declared that they would touch a cent of the extra money, but a few days later they changed their minds, and announced their intention of keeping half. For this they were severely taken to task at Nancy.

One irate delegate told them that they ought to live as frugally as before their allowance was raised. Another openly expressed the belief that they wanted the extra money for riotous living. Finally it was decided that party interests would be satisfied and dignity would be preserved by each Socialist deputy paying 3,000 francs a year.

MRS. VAUGHAN, ROCK ISLAND. Rock Island, Aug. 22.—(Special)—The death has occurred of Mrs. Edwin Vaughan.

Deceased had been ill only two or three days and her death came as a sudden shock to her friends and relatives of whom she had many.

She was a husband and one son to mourn the loss of a devoted wife and mother.

THE LATE HARRY WHITLOCK. Sutton, Aug. 22.—(Special)—The death on Thursday, August 15th, at Calgary, of Mr. Harry Whitlock, formerly for many years a resident of this town, was already briefly reported in the Record, is much regretted here.

Mr. Whitlock was about 60 years of age, and for many years up to last fall or winter, he had been a resident of this village. He was one of the best stone cutters and brick masons in this section of country and his works are in evidence from Montreal to Newport, Vt., and across the Canadian Pacific for some years past.

It will be remembered that he had charge of putting in the new concrete culverts between Farnham and Newport the past year, also raising the big passenger station at Richford, Vt., about two feet and putting in the new stone culverts at the same place.

Mr. Whitlock has been an invalid for some years and that was the principal inducement that caused the devoted husband to remove to Calgary, thinking it might benefit his health. It seems the water did not agree with him there and other troubles arising carried him off.

He leaves five or six children, besides his wife and many friends to mourn the loss of a devoted father, husband and friend.

MR. SIDNEY WILKINSON, FORMERLY OF SUTTON. Sutton, Aug. 22.—(Special)—Mr. Sidney Wilkinson, a former resident of this town for many years, died at Lyndon, Vt., at his home there on Tuesday, July 23rd, after an illness of but a few hours of heart trouble.

His wife had been on a visit here and returned on the day he was taken sick and he died the same night.

He was a son of Mr. and Mrs. Wm. Wilkinson, of this village. He, also, leaves two brothers, Messrs. V. N. Wilkinson and C. F. Wilkinson, of Sutton, and two sisters, both married, Mrs. Alton Place, living in North Troy, Vt., the other sister, Annie, being a resident of West Derby, Vt.

The late Mr. Wilkinson was born in Sutton on Feb. 25th, 1859, and is thus about 48 years of age. He came to Sutton with his parents in 1861, and lived here up to 1884, when he went to Lyndon, Vt., where he has since resided.

He leaves a wife, who was Miss S. Skinner, of Sutton. He also leaves 5 children, 3 boys aged 3, 12 and 14 years respectively, also, two daughters aged 17 and 19 years respectively.

His sudden death comes as a great shock not only to his family but to his worthy parents who are old residents of this town. He leaves as well many friends and acquaintances in this town and vicinity to mourn his early demise.

MR. JOHN MCCLARY

A GREAT CAPTAIN OF INDUSTRY. To very few men is the privilege given of witnessing such a celebration as that of which Mr. John McClary, of London, Ont., was the centre during the week that ended on July 13th.

For during that week a series of splendid jubiliations marked what was the sixtieth anniversary of the McClary Manufacturing Company. To only a few men is it given to see their business grow to such immense success as that achieved by Mr. McClary, but fewer still are granted the happiness of enjoying, with undimmed keenness of intellect, the celebration of its sixtieth birthday.

This was Mr. McClary's pleasant surprise, and in his enjoyment of it he has had the felicitations of his great army of employees and of friends from ocean to ocean.

To John McClary the past sixty years has meant a change from the control of a small tinshop to the position of the largest establishment of its kind in Canada. The Company's plant in London now covers two enormous lots of land, while there are also important establishments in Montreal, Toronto, Winnipeg, Vancouver, Hamilton and St. John.

Over 1,300 employees are on the company's pay rolls, of whom over 700 are married men supporting homes. More than \$600,000 is paid in wages annually. These are a few figures which will give the reader an impression of the size of the plant as it is at present and of its importance to the community.

Mr. McClary has always been and is still the guiding head of this tremendous business. He remains even at his present age a man of unusual and remarkable ability. A man of great business foresight and sound judgment, he was one of the first to see the approaching development of Western Canada and with it many years of prosperity for all Canada. He early backed his judgment in this respect by planning to meet this development.

With the result that now in Canada is the name McClary better known than in the newly settled sections of the West. He has always been and remains one of the most enterprising business men in Canada; sparing no money or pains to attain an end that his judgment told him could be won.

This is well illustrated in the magnificent advertising campaign this Company has entered into in all the Canadian papers, which have made the McClary products known in all the homes from ocean to ocean.

Mr. McClary's general health is so good now that he will undoubtedly enjoy many years more watching the continued development of the business he started sixty years ago.

BOSCOREL

The annual convention of the Sunday School Institute for the Rural Diocese of Sherbrooke, was held at Boscorel on Monday, the 5th of August. The proceedings were richly enhanced by the presence of the Lord Bishop of the Diocese. Half past ten o'clock was the time arranged for the confirmation service and a goodly number of the parishioners arrived. The following clergy took part in the service: Rev. T. B. Jenkins, R. D.; Rev. Chas. Ireland, H.A.; and the Incumbent Rev. W. H. Dunbar. His Lordship's address to the candidates was most impressive and instructive. The Sacrament was afterwards administered to a large number of the communicants. At 12 o'clock noon all those attending the convention were entertained to luncheon at the Parsonage. During the afternoon the following papers were read: "Church Teaching in the Sunday School," by the Rev. Chas. Ireland, B.A., and "Essentials in the Teacher," by the Incumbent, the Rev. W. H. Dunbar. Addresses were delivered by Rural Dean Jenkins and the Lord Bishop. The musical part of the proceedings was rendered by Miss M. Copping, Miss Dorothy Jenkins and Miss Olive Scott, (violinist). At 5 o'clock a company was entertained to tea at the Parsonage which, together with the luncheon was provided by the Ladies of the Congregation. Dean Jenkins and His Lordship warmly thanked those who had entertained the members of the conference, also Miss Olive Scott and Mr. Thos. Dunbar, who discoursed sweet music during the luncheon and tea and all those who had contributed towards making the conference a success. The weather which was beautifully fine added much to the day's enjoyment.

Montreal, Aug. 22. Live hog prices held steady on the local market yesterday and sales were made at Monday's quotations of \$7 to \$7.15 for lots from nearby points, and \$7.25 per hundred pounds from shipments from the West.

Fresh killed abattoir dressed hogs are quoted at \$9.75 to \$10 per hundred pounds, according to weight and quality.

There is a good local and domestic inquiry for all lines of cured and smoked meats, and retailers are making the most of the opportunity offered by the warm weather to push the sale of these goods. Values are steady on account of this brisk inquiry, and some lines are reported to be in rather light supply.

SPORTING NEWS.

BASEBALL.

Mr. J. M. Davis, Secretary of the Wanderer Baseball Club, yesterday received a letter from Cecil M. Hart, Secretary of the Star Baseball Club of Montreal, announcing that they would be prepared to play the Wanderers here on Monday, Sept. 2nd. This will be the first of a series of games to be played during the two weeks of exhibition and on the Lacroix grounds. The Stars have promised the Wanderers a return game in Montreal this fall. Arrangements have just about been completed for game with North Stratford, Vt., on the 31st inst. Yesterday the Wanderers forwarded challenge to the following clubs: Farnham, St. Hyacinthe, Frontiers, and Island Pond.

A team chosen from the Wanderers and Montcalms will probably play an exhibition game at Thetford on Sunday.

LACROSSE.

The one topic in lacrosse circles at present is the tie game to be played off Saturday between the Rand and Crescent teams.

Both teams have been putting in hard practices for the last two weeks, and each feel confident of having the whistle blow.

To add to the interest taken, the handsome trophy generously donated by Messrs. T. J. Maguire and F. Bradley has arrived and is on view in A. C. Skinner's window, and the question is who holds it for the winter—Crescents or Rand.

If the Crescents win Saturday, they will be the undisputed champions and the cup is theirs for this season, at least, but on the other hand, if the Rand turn the trick, another game will be necessary to determine the ownership of the cup.

The Rand supporters are not offering any odds but feel confident that the end is farther away than Saturday, and that the Crescents will have to keep in training a while longer, but when the wins, those who go to the game may expect a red-hot article of lacrosse.

AMUSEMENTS.

QUINCY ADAMS SAWYER.
The chief love interest in the dramatization of the well known New England novel, "Quincy Adams Sawyer," is the strong admiration of young Sawyer, the city fellow and son of a millionaire, for Alice Pettengill, a blind girl. It was a good deal of a question when the dramatization was made as to whether the public would be in sympathy with such peculiar courtship, and the dramatist seriously thought of getting away from the book in this respect by having Sawyer in love with Lindy Putnam. It was finally decided, however, to follow the book, and those who witness a performance at Clarendon Theatre, on Monday, Aug. 26th, will realize what a mistake it would have been not to have made a great deal of the love story between the blind Alice Pettengill and Quincy Adams Sawyer.

A convenience much appreciated by every owner of a Pandora is the towel rod attached to the range. As one-third of the rod is made of emery, it makes a splendid knife sharpener, too.
It's always there handy for you. You need waste no time hunting around for the easily misplaced "steel." Bright idea, eh?

An accurate thermometer is a reliable guide to successful baking, while an inaccurate one is a "cheat" of the worst kind.
Every Pandora thermometer is carefully adjusted and undergoes a practical test by heat—proven correct before being sent out.
The figures, which show the required degree of heat necessary for the successful baking of bread, cakes, pies, etc., are plainly inscribed in black on a white enamel surface, so that they are easily readable, even when the day is dull.
If your local dealer does not sell the Pandora, write direct for free booklet.
