Rev. Clare W. Nicol was inducted as pastor of St. Andrew's Presbyterian church last evening.

The services were presided over by Rev. H. C. Sutherland, of Inverness, moderator of the Presbytery of Quebec. The other members of the Presbytery present were Rev. W. C. Clark, Chalmers' church, Quebec; Rev. J. B. McLeod, Kingsbury; and Rev. C. Tanner, Windsor Mills.

The proceedings were opened by Rev. J. B. McLeod enquiring if anyone had any objection to urge why Rev. Mr. Nicol should not be inducted. No objection was offered.

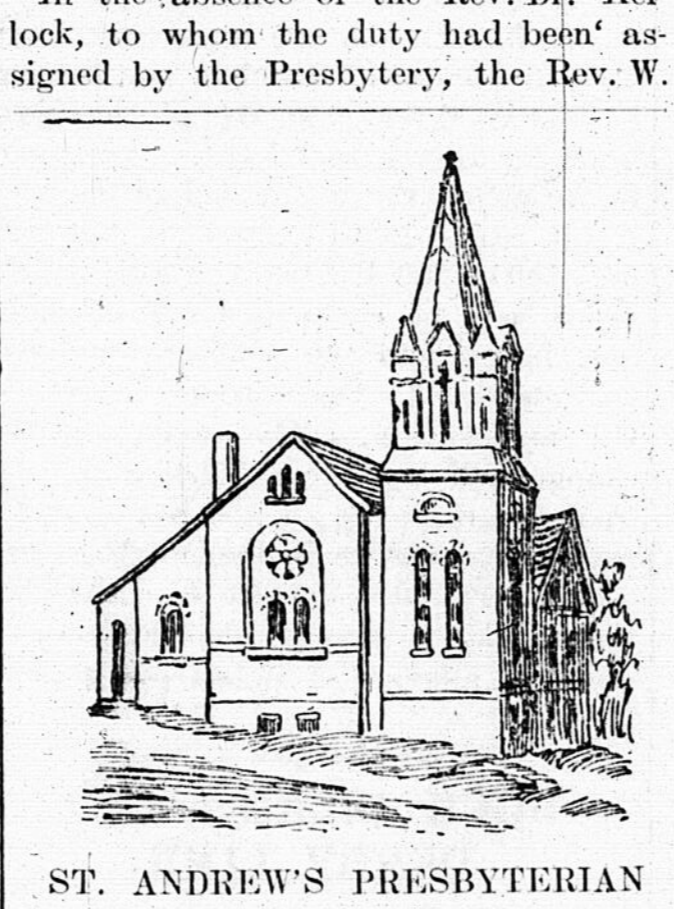

REV. C. W. NICOL, the New Pastor of St. Andrew's Church.

objection forthcoming Rev. W. C. Clark then ascended the pulpit. He preached a powerful sermon from the text John XIV. 6: "Jesus saith unto him, I am the way the truth and the life."

H. C. Sutherland, moderator, then proceeded to put the necessary questions as to the rules of doctrine and belief as laid down in the Presbyterian Church. These having been answered satisfactorily the Rev. Mr. Nicol was given the right hand of fellowship and declared duly inducted as pastor of St. Andrew's church.

THE CHICAGO STRIKE SITUATION.

Trouble Will Likely Soon be Ended.

MAYOR DUNNE SAYS HE WILL CALL OUT TROOPS IF STRIKE EXTENDS.

Chicago, May 17.—It is asserted by both members of the Employers' Association and by the conservative element in the ranks of the teamsters that the present strike will be declared off probably within 48 hours, and certainly by the end of the week.

It is not likely that any definite action looking to an adjustment of the trouble prior to the meeting of the national officers of the Teamsters' Union will be taken.

Chief among the causes which lead to the prediction of the settlement are the firm stand taken by Mayor Dunne, when, in conference with President Shea and officials of the local teamsters' union, he assured them that any further spread of the strike would certainly make it necessary for him to call for troops, and the arrival of President Samuel Gompers, of the American Federation of Labor, who reached here last night.

Although not possessed of executive power in the settlement of the strike, President Gompers declared that he had every hope that its end was not far distant. President Gompers conferred with President Shea and officials of the teamsters' union. This conference lasted until a late hour.

MAY FLOWER DAY. Coaticook, May 17.—(Special)—"May-flower" day was celebrated a few days ago by the teachers and pupils of the three lowest grades of the Protestant School. The parents are in perfect sympathy with the movement, and had provided the children with tempting lunches. Immediately after the afternoon roll-call, teachers and pupils proceeded to a neighboring woods where the children gathered May flowers, and gave themselves up to all the delights of their environment. Before dispersing, lunch was served, to which all did ample justice. The afternoon was a delightful one, and proved a profitable break in the school work, which at this season of the year becomes monotonous at times.

STRUCK BY G. T. R. TRAIN.

Peter Bourguignon Victim of Fatal Accident.

SUPPOSED TO HAVE WANDERED ON TO THE TRACK WHILE INTOXICATED.

"Pete" Bourguignon, painter thirty two years of age, and who belongs to East Sherbrooke, is lying at the Sherbrooke morgue, having been found dead at the side of the G.T.R. track this morning.

The circumstances attending are only a matter of conjecture, but from what can be learned from enquiries it would appear that the unfortunate man had been on an extended spree. Last evening he was seen around the G.T.R. track at a point at the rear of the Congregational church, and he evidently had not moved far away from that spot, for his body was found there this morning. It is believed that the deceased had been sitting on the side of the track, and was struck on the head and shoulders by the engine. The body was found about 20 feet down the bank, and there was a bad wound on the head and the shoulder bone seemed to be broken, but whether this last injury was caused by the engine or that he sustained it when thrown down the bank is not known. The skull is fractured.

Several freight trains passed over the track in addition to the regular passenger train.

Bourguignon lived in East Sherbrooke with his mother.

Deputy Coroner Gauthier was notified and will hold an inquest to-night.

ROCKEFELLER AGAIN THE TOPIC.

Boston, May 17.—Money from monopolists in general, and from John D. Rockefeller in particular, was discussed from two local pulpits Sunday, showing that the topic will not down.

At the Melrose Congregational Church Rev. Dr. Thomas Sims said of Mr. Rockefeller that his private life and domestic and religious character has always been without reproach; he is a faithful husband; a tender father; a considerate friend; a bountiful benefactor; a loyal member of the Church—a perfect constellation of personal virtues, more worthy to be canonized than half the saints of the Church.

As to the acceptance of the recent gift of the American Board, he could see nothing for the Board to do but to accept. This led the donor up to it with assurances that it would be accepted and they cannot desert him now just to escape criticism. But as to the general proposition, Dr. Sims held that the Church must not solicit gifts from men whose business methods are unchristian, neither must it advertise their donations nor in any other way flatter or applaud them. But if without solicitation and without the prospect of flattering exploitation, these rich men come forward and freely offer their money, he did not see who has the authority to reject it.

Rev. Charles A. Crane, at People's Temple, delivered another characteristic fulmination on the topic, this time aimed at Chancellor Day of Syracuse University for his recent championship of Mr. Rockefeller.

Church's ALABASTINE

is a SANITARY WALL-COATING. It is porous, and permits the free passage of air. Kalsomine, under whatever name or claim, is only temporary—rubs off on everything that comes in contact with it. Wall-paper with mouldy paste on the back, and arsenical poisoning matter in the finish and coloring on the face—is unsanitary. Besides, kalsomine, wall-paper and paint obstruct wall respiration. The walls of hospitals are never papered—the reason is obvious.

FRANCE'S NEUTRALITY.
GOVERNMENT'S MOTION FOR POSTPONEMENT OF INTERPELLATIONS PREVAILS.
Paris, May 17.—The Chamber of Deputies reassembled Monday after the Easter holidays.
M. Vaillant presented an interpellation of the Government upon the observance of neutrality in the Far East, and M. Depressenz (Socialist), interpellated the ministry upon neutrality and Morocco.
Premier Rouvier, in reply, said the Government, as recently explained, had given explicit orders to the authorities in the Far East strictly to observe neutrality, and this continued to be the situation.
The interpellations were thereupon indefinitely postponed and it was announced that the Government had abandoned its intention to issue a yellow book on the neutrality question.
The postponement of the neutrality interpellations, which was for an indefinite time, was made at the Government's request and brought on a sharp discussion between M. Rouvier and M. Vaillant and M. Depressenz. The Premier appealed, to the patriotism of the deputies to refrain from accusations affecting the good faith of the country, pointing out that a debate on the subject would not be advantageous and might lead to embarrassments.
M. Vaillant asserted, amid an uproar, that the Government's orders to observe neutrality were not executed. He added:
"Neither does the Russian fleet respect our neutrality and it is necessary to make it do so. It is necessary to show our impartial neutrality by acts instead of words."
M. Depressenz declared the country was entitled to know the exact situation so as to be able to judge of its responsibility.
M. Rouvier made a final statement to the effect that the word of France was not open to debate.
The Government's motion for an indefinite postponement of the interpellations prevailed by 499 to 84 votes.

INDIA AND ROYALTY.
(From the Allahabad Pioneer.)
The Gaekwar of Baroda in a recent speech threw out a suggestion that a prince of the English royal family should reside permanently in this country and be something like its permanent viceroy.

Directly the sun dips towards the horizon all the "beavers" of the helmet-hatted men may be seen outside the palings of the grand stand enclosure, jumping up like terriers to catch sight of their masters, each with a carefully-brushed silk hat he has brought for his employer to put on.

THE TALL HAT IN INDIA.
(From the London Onlooker.)
From noon till 1.30 p.m. is the calling hour, and, though Calcutta even in winter is a hot place, no man who is not an outer barbarian will walk into a drawing room without a tall silk hat in his hand. Should he drive round in a dog-cart to pay his calls, the man wears a helmet, or a "solatope," while he drives, pulls up at a house door, asks whether "the gate is shut," and, if told that it is not, puts on a silk hat, which the syce produces from a hat box carried under the seat, and goes in to pay his call. Another instance of the British worship of the tall hat, which the natives consider an interesting form of piety, is to be seen at the Calcutta races on the day of the Viceroy's Cup. On that occasion the lawns and paddock are

BEWARE OF "WOODEN NUTMEGS."

THIS is an age of imitations! The symbol of the period should be the "Wooden Nutmeg."

Every sincerely good and reliable article of commerce has today a score of deceptive substitutes poaching upon its market. And, if the substitutes were as good as the originals they would not need to imitate the outward appearance of these originals, but could create a market of their own, on merit.

The Maker of a sound, and reliable article makes it sound and reliable so as to deserve, and hold, a future market.

The Maker of a substitute for that article makes it for present profit only—to trade upon the goodness of the original.

He has nothing at stake for the future, and his policy is to give you the shell without the kernel—the appearance without the value.

Some Shoe Retailers prefer selling "long-profit" shoes to selling "The Slater Shoe" which is price-controlled by the Makers.

But,—don't forget that the Slater Shoe is priced by the Makers to prevent your being over-charged when you buy them.

Look for the slate-frame and the Makers' price, \$3.50 or \$5.00 on the lining.

Progress Made With Alberta Autonomy Bill.

SIR WILFRID MAKES REFERENCE TO FENIAN RAID VETERANS' APPLICATION.

Ottawa, May 17.—The House of Commons took up the Alberta Autonomy Bill again yesterday afternoon. Several clauses were adopted. In the Alberta bill all is disposed of with the exception of lands, schools and representation clauses.

VETERAN LAND GRANTS.

Replying to Mr. Monk, Sir Wilfrid Laurier said he thought it was obvious that if the veterans of the Fenian Raids of 1866 and 1870 had any federal Government. He added claims for consideration it was against in connection with the petition for land grants presented to the Government by the veterans' delegation the other day the Prime Minister said the Government had had no time to give the matter its attention. It was under consideration, and an answer might be given before the end of the session.

HIS "NOTIS."

(From Harper's Weekly.)

A theatrical company was playing recently in a one-night stand in a little town in Iowa, where the local opera house was presided over by a townsman whose experience had been more agricultural than dramatic. He had an important idea of himself, which was noticeable in signs of his own handiwork that he placed around the theatre. Here is the gem of the lot, orthography, syntax, and all just as he wrote it:

ENTERTAINMENT AT FRELIGHSBURG.

Frelighsburg, May 17.—(Special)—On Wednesday evening, May 10th, one of the most successful and pleasing entertainments ever given by the "Ladies Village Improvement Society," was held in Spencer's Hall.

The musical part of the programme consisted of vocal selections rendered by Mrs. Pharoah, Mr. and Mrs. Herbert Hibbard and the Misses Hilda and Alice Goodhue; instrumental music, by Mrs. Slack, Miss Grace Hibbard and Miss Nellie Holden. Recitations, which were much appreciated, were given by Miss Nettie Holden and Miss Grace Hibbard.

The laughable farce, "Turn Him Out," was loudly applauded. The illustrated song, by Mrs. Pharoah, and the illustrated reading of "Mary Queen of Scots," by Miss Winifred Ingalls, were pronounced to be the most beautiful ones ever presented, especially the scene of the "Five Noble Maidens," "The Wedding Scene," and the "Adieu to France."

The proceeds of the evening amounted to about \$30.

BEDFORD CREAMERY.

Bedford, May 17.—(Special)—A meeting of the patrons of the Bedford creamery was held in the Council room in the town building to consider the course to pursue in regard to the recent loss suffered by the patrons through the failure of a Montreal commission firm. After the matter was fully discussed, it was decided to divide the loss equally among the patrons—who were interested in the product during the two first weeks of April.

O'MARA—CONWAY.

East Angus, May 17.—(Special)—There was a pretty wedding, yesterday here, when Mr. Edward O'Mara, paper maker of the Royal Paper Mill, was united in marriage to Miss Sarah Conway.

The bride looked exceedingly pretty, attired in white with a long veil, which was very becoming to her. The groom was accompanied by his father, while the bride was attended by her uncle, James Conway, of Sherbrooke.

The nuptial mass was performed by the Rev. J. A. K. Plamondon, parish priest. Very excellent music was rendered, and many hymns were sung by her sisters and friends.

The happy couple have gone to spend their honeymoon in Montreal and other places.

The bride's going-away suit was of navy blue, with white silk waist. They were the recipients of a great number of pretty presents.

BEDFORD MARKET.

Bedford, May 17.—(Special)—The lowly weather with soil too moist for seeding drew an unusually large attendance at the weekly market on Tuesday. Prices of butter were slightly on the decline, but the make of dairy is decreasing and the offerings were small. The following prices were paid: Creamery, 18c to 18 1/2c; dairy separator, 17c; dairy, 15c to 16c; eggs firm at 13c; dairy skins, 6c to 9c; veal skins, \$1 to \$1.25; beef hides, 6 1/2c to 7c.

REASON No 34 WHY YOU SHOULD USE Red Rose Tea

Because it is tested by skilled tea tasters.

Tea tasting can well be called one of the fine arts. A man who can taste several hundred cups of tea a day, and, by his keen senses, detect the slightest difference between them, and who, blindfolded, can tell where each and every tea was grown, not only the country, but the particular district, and often the very plantation—such a man is the professional tea taster.

The head man in my tea-room, Mr. W. R. Miles, is a master in his profession. He learned the business in London, Eng., and is a tea taster by right of birth, as both his Father and Grandfather were tea tasters. It came natural to him and he is recognized as one of the best judges of tea in America.

He and his assistants do nothing but taste the teas, and superintend the blending.

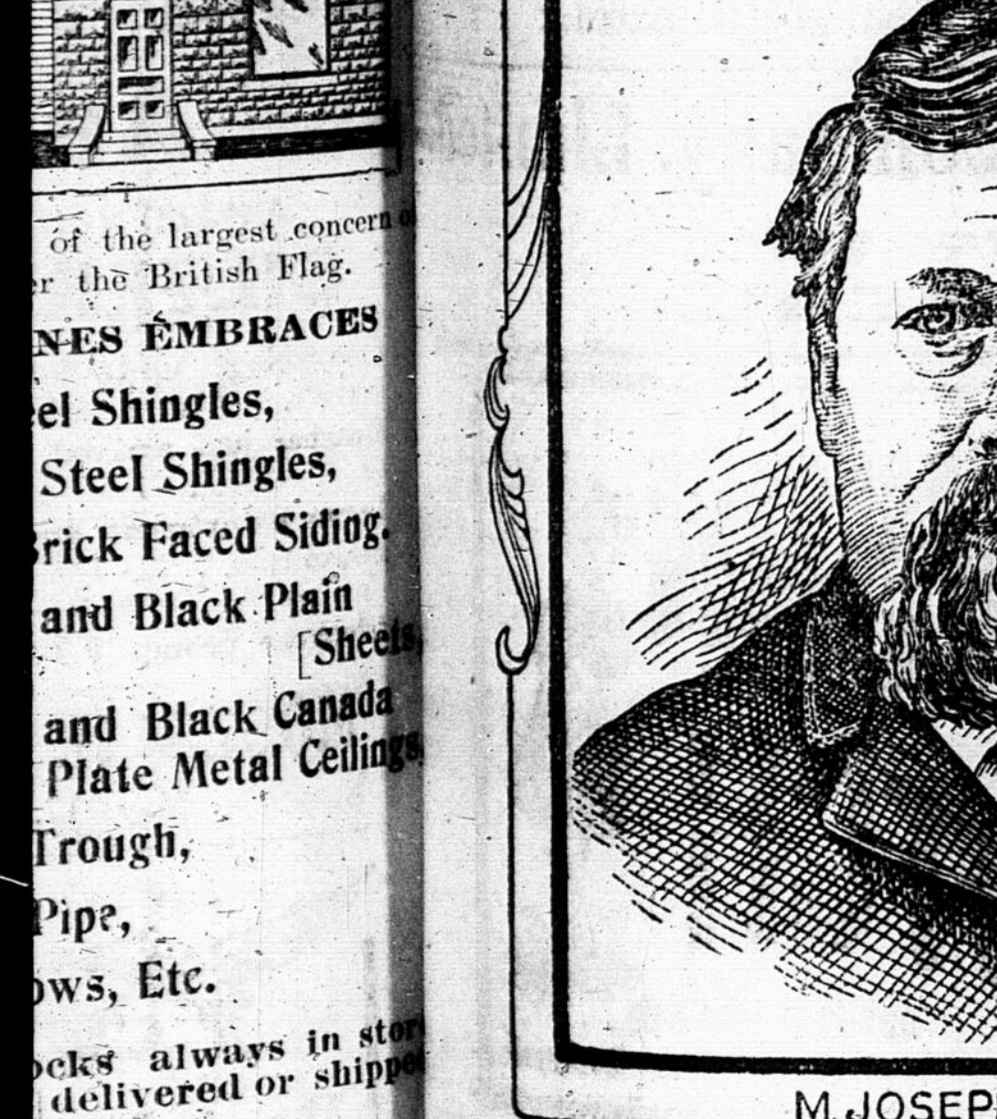

RED ROSE TEA is the result.
