(Associated Press Despatch)

WASHINGTON, Feb. 18.—Great Britain relies largely upon her air forces for the defence of Persia and Mesopotamia, according to official advice received here. Winston Churchill, British War Minister, recently informed Parliament that air bases have been established at Bagdad and Karachi, the latter a port on Arabian sea and the terminus of an important railway.

British authorities have feared that Bolshevik troops, which have penetrated Turkistan, might enter Afghanistan and attack the western flank. It is believed that the aerial forces have been organized partially to meet this threatened danger.

Citizens Of Every Profession And Rank Paid Their Last Respects To The Late Mr. Slack This Morning

Floral Tributes Were Sent by Newspaper Confreres in All Parts of Canada — The Late Mr. Slack Was Born at Waterloo and Was Well Known Throughout the Eastern Townships.

MONTREAL, Feb. 18.—Citizens of every rank and profession, with journalists predominating, paid their last respects to the late E. J. Slack, managing director of the Gazette Publishing Company, and President of the Canadian Press, Limited, at his funeral, which took place this morning. The service was held at Mr. Slack's late residence, Grosvenor Ave., Westmount, and was conducted by Rev. H. M. Little, of the Church of the Advent. Floral tributes were sent by newspaper confreres in all parts of Canada. At ten o'clock, the hour for the beginning of the service, the Canadian Press suspended operations from Halifax to Vancouver for two minutes. Internment took place in Mount Royal cemetery.

Edward Francis Slack was born at Waterloo, Quebec, in 1863, being the son of the late Edward Slack of the same place. After a public school education there, he gained his first knowledge of the printing trade and newspaper work on the Waterloo Advertiser, under the direction of the late Charles Parmelee, later King's Printer at Ottawa. Coming to Montreal in 1889, Mr. Slack entered the service of The Gazette as junior reporter, and became successively city editor, editorial writer, telegraph editor, managing editor and managing director, being given the latter position in 1912. He is survived by his widow, who was Miss Carrie Martin, of Waterloo, with two daughters, Marion and Dorothy; and by his aged mother, five sisters and one brother, Norman, Slack manager of the Canadian Bank of Commerce at Cowansville. Dr. Chas. W. H. Rondeau, Dr. F. H. Martin, Mr. Justice J. E. Martin and Marcus Martin, all of Montreal, are brothers-in-law.

Mr. Slack was organizer, first manager, and later president of the Canadian Press, Limited, and in these capacities became known to brother-journalists all over the Dominion. Previous to this he had been, for twenty-five years, Montreal correspondent of the Associated Press. In person and character he was the possessor of the characteristics that win and retain friends. His courtesy, geniality and kindness made him a favorite with all who knew him. He took an active interest in the civic affairs of Westmount and was a past president of the Westmount Municipal Association and a trustee of the Westmount Library. He was also a member of the Art Association of Montreal. His recreations were lawn bowling and golf, he holding membership in the Westmount Bowling Club and the Laval du Lac Club. He was a member also of the Montreal Club. An Anglican in faith, he was an adherent of the Church of the Advent, Westmount.

ELEVEN MILLION COLLECTED IN CHURCH DRIVE

Quebec Has Subscribed \$1,272,677 in Forward Movement Campaign.

TORONTO, Feb. 18.—With incomplete returns at the close of the financial campaign in connection with the Inter-Church Forward Movement of the Methodist, Presbyterian, Anglican, Baptist and Congregationalists of Canada the splendid total of \$11,321,089 had been piled up last night. Confidence that the original sum aimed at, \$11,440,000, would be largely over-subscribed, was expressed by the officials of the national campaign headquarters here, and it is believed that the great returns are all in. This may take several weeks.

In a statement given out last night by G. H. Wood, of this city, chairman of the executive committee, attention was called to the fact that for the first time the five great religious bodies concerned in the campaign, representing 10,330 congregations and about 4,500,000 members, had planned and carried through a joint campaign. The marvelous response to the appeals which were made on behalf of the five denominations is regarded as a thanksgiving offering for the winning of the war.

"All the co-operating communions," said Chairman Wood, "have done magnificently. Baptists, Congregationalists and Methodists having passed their objectives. The Anglicans and Presbyterians are close up with 90.25 and 95.55 per cent, respectively and these before many days will undoubtedly exceed 100 per cent.

The returns are still incomplete from all the communions and the next week or two will still further substantially increase the last night's figures. The Anglicans are actively carrying on for the whole of the present week. "Two provinces, namely Ontario and Quebec, have already reported more than their full quotas, the others reporting in the following order: Nova Scotia, New Brunswick, Saskatchewan, British Columbia, Prince Edward Island, Manitoba and Alberta."

Following are the results by communions for the whole of Canada:

	Objectives.	Total returns.
Anglicans	\$2,500,000	\$2,257,005
Baptists	840,000	872,428
Congregat.	100,000	102,856
Methodists	4,000,000	4,266,563
Presbyterians	4,000,000	3,822,177
Totals	\$11,440,000	\$11,321,089

The results by provinces of all the communions are as follows:

Ontario	\$7,010,741
Quebec	1,272,677
New Brunswick	386,487
Nova Scotia	775,183
P. E. Island	78,119
Manitoba	542,755
Saskatchewan	637,595
Alberta	202,574
British Columbia	408,958

SERIOUS EFFECTS OF THE STORM FELT THROUGHOUT THE DISTRICT --ROADS ARE STILL SNOWBOUND

Much Inconvenience Results from Recent Snow and Wind Storms — Attempts Are Made to Clear Roads — C. P. R. Trains Due Last Night Were Many Hours Late, Owing to Snowdrifts Blocking Way.

BUSINESS has suffered great inconvenience as a result of the storms during the last few days. The snow is piled into drifts along the country roads and gangs are at work trying to clear them. Logging operations are at a standstill and communication between points has been rendered very difficult.

The railroads have experienced great trouble since Sunday, although conditions are somewhat better today than they were. On the C. P. R., the Halifax, from Montreal, leaving at seven o'clock last evening overtook the 4.10 from Montreal to Sherbrooke train at St. Johns. Both were coupled together with the result that the double header was enabled to arrive in Sherbrooke at 1.45 this morning, both many hours overdue.

The Grand Trunk trains have been pretty well on time, but the Boston and Maine this morning was an hour behind time. Little or no trouble is reported from the Quebec Central.

Ploughs and section gangs have succeeded to a great extent in clearing the lines and unless another heavy fall of snow or more wind adds to the situation, no difficulty is expected in keeping the trains on schedule.

HAS MADE CLEAN SWEEP, STATES POWER CO. MAN

Quebec Man Hasn't a Trouble Left Since Taking Tanlac.

"I have never been a man to praise any kind of medicine but since taking Tanlac I have changed my mind and I am now ready to tell the world what it has done for me" was the statement made recently by Narcisse Descombes, an employee of the Quebec Railway, Light, Heat and Power Co., living at 33 Signal St., Quebec.

"During the past year" he continued, "I have learned what suffering means and I got so bad off I can hardly understand how I stood up of order and I didn't relish a thing, in fact, I was almost afraid to eat for thinking of the suffering that was sure to follow. I would bloat up with gas right after eating and my heart would palpitate terribly. At times I was so weak and dizzy I could hardly stand up and my nerves were all so on edge that the least little unusual noises would completely upset me. Many nights I was so restless I didn't close my eyes at all and then when morning came you can just imagine how I felt. I managed to hold onto my job but it pulled me down until I was almost a nervous and physical wreck."

"I had never had any faith in medicine but I kept hearing so much about Tanlac that I made up my mind to try it, and now since it has made a clean sweep of my troubles there is nothing too good I can say about it. I took only three bottles of Tanlac but to-day I feel better, work better and sleep better than I have in years. My appetite was never better in my life and I biggest everything I eat without a particle of trouble. My heart action is normal and regular and I am not bothered with dizziness any more. My nerves are as steady as steel and I sleep sound all night long. I never lose an opportunity to praise Tanlac and already I have told all my friends and neighbors about it."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. Duberger under the personal direction of a special Tanlac representative. (Adv.)

"He seems very narrow-minded in an argument!" "Not at all. He admits that there are two sides to every question; his side and the wrong side."

FINANCIAL SUCCESS.

The Forward Movement among local churches has been very successful, and the reports show what the city churches have passed their objectives.

The Dominion objective was \$11,800,000, and this is rapidly being reached.

The response to this appeal has been ready, large, and interested. The Canadian churches cannot but feel that their adherents rallied to their support, in a most creditable manner. If there is "lukewarmness" in the Church, as is often declared, it cannot be among those who give it financial support.

YOUNG CANADA.

The republic of the United States is becoming interested in Canada's protest against any infringement of her rights as a voting member of the League of Nations. One paper earnestly argues that it would not be wise to anger us, since we are neighbors; another, that our vote might be offset by those of Cuba, or Haiti, or some other American dependency; and so on.

Sometimes one is constrained to believe that uncanny truthfulness outlines our national representatives. John Bull is like England, and England is like John Bull. In the same measure, Uncle Sam is a true picture of the American nation, shrewd, canny, looking to its business interests, accomplishing great things, self-reliant, driving a good bargain. Canada likes Uncle Sam, but, also, likes to trade with his country, with her northern eyes open.

Canada is usually pictured as a young man, strong, virile, independent, looking to the future. Uncle Sam is just beginning to realize that this young man has come of age. He is cutting his wisdom teeth. He has opinions of his own, and expresses them. And he is, in no degree, in awe of Uncle Sam.

Our neighbors are a wonderful people—and have a wonderful country. So are we,—so have we. They may as well recognize that "Sonny boy" on this side of the boundary, has grown up, and shake hands over the fence. We have a vote in the League of Nations, and we intend to keep it. We hope Uncle Sam will get one, too.

JUGO-SLAVIA.

In creating the new republic of Jugo-Slavia a dispute has arisen, which is assuming formidable proportions, as to the boundaries separating the new republic and Italy. The acute primary trouble found expression during the Peace conference, when the American President crossed swords with the Italian premier, over the disposition of Fiume. This question was finally left in abeyance. Now arises a larger Adriatic problem, which is taken very seriously by the two parties to the dispute, Italy, and the new state of Jugo-Slavia.

The Serbs, Croats, and Slovenes, comprise the new kingdom, and to these peoples has been sent an ultimatum by the premiers of Great Britain, France and Greece, to the effect that they must accept the compromise on the Adriatic boundary dispute, offered by Italy, or the provisions of the London Treaty will be enforced. Italy offers to renounce claim to the Dalmatian coast, abandon part of her mandate over Albania, to accept autonomy for the state of Fiume with the proviso that Fiume shall remain Italian, and attached to Italy by a strip of territory.

Compared with the rights guaranteed to Italy by the Treaty of London, this compromise shows a great willingness to forego considerable territory, and to concede nearly everything Italy was granted in that pact. The Treaty of London gave her Istria, Trentino, and the Dalmatian coast, and several Adriatic islands, together with a certain amount of control in Albania. The Jugo-Slavs, in reply to the allied ultimatum, has declared their willingness to solve the Adriatic problem proposed by Wilson in 1919. And to give courage to the Jugo-Slavs in their contention, President Wilson has again been interesting himself in the matter. In fact it has been charged that the financial, economic, and moral assistance of the United States backed Jugo-Slavia in its refusal to compromise. Actually, however, Wilson addressed a note to the Allies to the effect that if they proceeded to settle the Adriatic problem without consulting him, or the United States, his country would find it impossible to continue to concern itself in European affairs.

Undaunted by the President's threat, the premiers of France and Great Bri-

tain, have now replied to the latest note of President Wilson, declaring that they could not consider his objection to their demands, pointing out how nobly Italy had fought during the war, and how great had been her casualties, and also asserting again that Jugo-Slavia must agree to the compromise or see the Treaty of London become operative.

When the Adriatic question became seriously acute the State department at Washington declared that it had no right, since it had withdrawn from the League of Nations, and had not concerned itself with the signing of the peace treaty, now to interfere in the matter. Possibly this was one of the "details" that brought about the resignation of the Secretary of that department. For the President evidently considered himself wholly eligible to come out on the platform of international affairs, and join in the Adriatic debate.

Italy is wholly prepared to fight her rights. In this lies the real danger of the dispute. With Jugo-Slavia determined to reject Italian proposals of compromise, and Italy wholly willing to contend for all that was promised her in the Treaty of London, it is not a far cry to another armed quarrel.

THE LATE E. F. SLACK.

Newspaper men throughout Canada have been shocked by the sudden death in Montreal of Mr. E. F. Slack, of the Gazette, and president of the Canadian Press, Ltd. The late Mr. Slack was a native of the Eastern Townships, having been born at Waterloo, fifty-three years ago. He passed through all the phases of newspaper work from office boy upward until he became general manager of the Gazette. His most important work on behalf of journalism in general was the organization of the Canadian Press, Ltd., the news-gathering organization of Canadian publishers, and of which he had been president since its beginning.

Of a genial disposition, an authority on the many questions entering into newspaper publishing, Mr. Slack was extremely popular and his passing away will be deeply regretted by Canadian journalists throughout Canada and by all who had the pleasure of his acquaintance.

LETTERS TO THE EDITOR

A PROTEST.

Editor of Record.
Sir,—Our city aldermen are strongly criticized when civic affairs go wrong. Their services are voluntary, and we believe, self-sacrificing.

If we are so particular about our civic affairs, should we not be more particular about our spiritual affairs.

On the principle, "I come not to destroy but to build," please allow me to make a distinct protest against the remarks of the Rev. Russell's sermon as quoted in the Record.

In particular, I take exception to the following: "From century to century there have been prophets of a certain class who have levelled the same hackneyed criticism at the Church."

The Magna Charta gives me the same liberty of speech, but with this distinction, I have no pupil to preach to from, neither am I paid, and must rely on the generosity of the press.

To reclaim civilization is a much surer way to convert the heathen. He seems to sure of his subject that no doubt many as well as myself will be interested to receive his version—a new light upon an old score," of what he terms hackneyed criticism: Is the Bible the Infalible Word of God?

For his guidance, I quote Dean Farrar, the noted theologian and historian. Discussing the absurd claim, he said: "Some of the books of Scripture are separated from others by thousands of years. They represent the fragmentary survival of Hebrew literature. They stand on very different levels of value, and even of morality."

If the Rev. Russell can go one better than this he will be indeed clever and do more than anything to reclaim "the many thousands of intelligent men and women who have been driven to irreligion and infidelity." (This from the Rev. Washington Gladden,) through this same spirit of intolerance.

In sublime contrast are the remarks in the Rev. Ellery Read's sermon. In detail they breathe the spirit of tolerance; tactfully evade these "bones of contention," and are a panacea of comfort and good-will for the social and economical unrest of today.

World space permit I should like to give in detail my own religious experience, but I am thankful for even small mercies. Hoping you will publish this,
IRWIN SAWDON.

Making Improvement Sure.

We can all do good work, for all that is required is to follow directions laid down by other people who have done good work before us. It may be that we can improve on what other people have done, and after a while it may be that we can strike out a line for ourselves. Most of us will find that if we do the best we can, even in the most plodding way, we shall find ourselves improving and rising, step by step, in our chosen task.—New York Evening Telegraph.

International Expositions.

The first international exposition in this country was held in New York in 1893. The centennial exhibition took place in Philadelphia in 1876, the World's Columbian exposition in Chicago in 1893, the Pan-American exposition in Buffalo in 1901, Louisiana Purchase exposition in St. Louis in 1904 and the Panama-Pacific exposition in San Francisco in 1915. These were the most important exhibitions having an international character.

PRESS COMMENT

CANADA AND THE LEAGUE

(Toronto Globe)

Among reservations of the Treaty of Peace now under consideration at Washington is one passed by the Republican majority of the Senate which provides that "the United States assumes no responsibility to be bound by any election or finding by the Assembly of the League and its self-governing dominions, colonies or parts of the Empire in the aggregate have cast more than one vote."

This reservation strikes directly at Canada. If adopted it will be an intimation that the United States desires that Canada shall be denied membership in the League of Nations and shall be regarded in all international relations as a dependent colony of Great Britain, for whom the Motherland alone has authority to speak and to negotiate.

Canadians refuse to be put in this humiliating position. The people of the Dominion have earned by their sacrifices, the right to take part in the settlement of the terms of peace and in the deliberations of the League of Nations created to enforce the future wars. There are more Canadians than Americans lying in the cemeteries behind the battlefront in France and Flanders. The United States have more than twelve times the population of the Dominion, yet in Canada more families mourn their glorious dead than in the United States. We shall not break faith with them, nor with the men who drafted the Treaty of Versailles, no matter what the Senate of the United States may say in derogation of Canada's claims to national status in the League. The British Dominions, however, could have no valid objection to increased representation of the United States in the League Assembly. Such an arrangement would not deprive them of the recognition which they claim.

SIR GEORGE PAISH AND HIS MISSION

(Financial Post)

The more people on this side of the Atlantic who have an opportunity of hearing Sir George Paish on the economic situation in Europe, the greater will be the appreciation of our fortunate position and of our obligations to Great Britain and the Allies who bore the brunt of the war in breaking the German War machine. The better also will be our understanding of the practical benefits both to Europe and to ourselves of maintaining those trade relations which have enabled the civilized nations to co-operate industrially for their mutual benefit.

Sir George not only effectively paints the picture of disaster to come if any European nation is allowed to go into a state of bankruptcy, which will be immediately followed by red revolution and social chaos, but he shows how, by the practice of sound economics, this can be averted. He has a faculty of expressing himself in clear and curt business terms which enables him to present economic problems in terms of arithmetic. He creates also an appreciation of that broad-minded and far-sightedness of the British statesmen when he talks of aiding any nation of Europe in avoiding bankruptcy and of opened financial aid for France if she needs it.

THE WILSON-LANSING SPLIT.

(Ottawa Journal)

President Wilson's going back to the days of the Peace Conference in Paris for criticism of Mr. Lansing in accepting the latter's resignation bears out the statements made from time to time by American observers in Paris as to the relationship between the President and the other members of the American delegation, and as to the attitude of Mr. Wilson in general. Some of the ablest of American correspondents disclosed long since that there was a lack of sympathetic understanding in Paris not only between the President and every other member of the delegation with the exception of Colonel House.

Lack of understanding is not quite the description of the situation given by the correspondents. There was rather a lack of co-operation and confidence. Mr. Lansing and the other members, it was said, were kept by the President in ignorance of what he was doing. They had no confidence. He kept himself aloof from all except Colonel House, neither seeking nor entertaining advice. Members of the delegation who were much more familiar with European diplomacy and European problems than he and who would have been able to assist him to avoid difficulties were ignored.

THE MIDDLE-CLASS UNION

(Toronto Globe)

From New York comes the news that a Middle-class Union has been formed. It is composed of that part of society caught in the squeeze between wealth and workers. A "union" to despatch it is "keeping in the middle" by leaps. A Supreme Court Justice is the father of the movement, and it is manned by the salaried middle class.

It has not yet been clear what this new Middle-class Union proposes to do. Its first meeting is to be held "within the next two weeks." When this event takes place its definite program and policy is to be formally determined and announced. There is no doubt that the salaried middle class in all Anglo-Saxon countries is feeling most acutely the existing economic conditions. Its plight in some cases is very serious. It is deserving of special attention at the hands of those who are studying the situation and seeking to solve its problems. But the advisability of "unionizing" this class in a manner apparently planned may well be given careful thought. The solution of most of the problems of reconstruction is more likely to be speedy and sound if the communities work in union toward that end, rather than by the organization of more class bodies, each concerned primarily with its own particular interest.

WHO SHALL BUILD THE ROADS?

(Syracuse Post-Standard)

The Dominion of Canada has decided to spend \$20,000,000 in roads, which is excellent as beginning. Comparing in New York Canada as to the area and remembering that New York has spent five times as much, we concluded that it is only a beginning that the Canadians are making.

The Congress has set aside about \$200,000,000 for improved highways,

in the United States and this also is only a beginning. For this amount plus a similar amount given by the States there may be built a few main highways. If the United States is to have highways comparable with European roads or New York or Massachusetts roads it must spend billions.

It should not spend billions, because it has other demands for all the money it can afford to collect from the people for projects whose Federal character is recognized. It should not build roads and neglect its postoffices or its army posts or its forests. If there is to be instituted that care over expenditure, which Secretary Glass says is essential unless we launch another big victory loan, we must look for ways to curtail expenditure, not to enlarge it.

THE DISCOVERY OF IRELAND.

For true obliviousness there is nothing like the mind of the United States in regard to Canada. It is, as a continental act, unique. The citizen of the United States appropriates to himself the whole name of American, and no American of literary activity ever writes or thinks of writing his Canadian impressions. The American has nothing against Canada, nothing whatever. But Canada to him is a sort of backdrop to the American scene, or a lunge into the empty air. American ignorance of Canada is as simple and inclusive as a yawn. On this account, surely, we ought to be prepared for the reminder that Victorian England was hardly more aware of Ireland. This Victorian example in respect to Ireland held its own until Bernard Shaw and George Moore and Oscar Wilde and Yeats and Synge and George Russell invaded the consciousness—and the complacency—of literary England, and compelled literary England to ask, Where on earth did these fellows come from?

MODEL WESTMOUNT.

(Quebec Telegraph)

How true it is that there are two sides to almost every question that can be discussed is shown by the attitude of some of the clergy of Montreal and neighborhood towards dancing. The Montreal newspapers have been interviewing some of the clergymen in connection with the nightly dances for young children, and it has transpired that in some instances clergymen have favored church supervision of children's amusements. The Rev. Mr. Ireland, of Lachine, is reported to have opened his parish hall for the use of children having dancing and other amusements there, which cannot be held in modern apartments. Some clergymen do not go so far as to countenance dancing at all, and those who do are warning their flocks, and parents particularly, against permitting the young to go to such extremes as are reported in some of the newspapers. Others are distinctly in favor of all innocent amuse-

ments being permitted in church halls and subject to the oversight of church authorities. But everybody agrees that whether children do or do not dance to excess in Westmount, that beautiful city can boast of having what is probably the best kept and best governed municipality in the entire Province of Quebec, a d one that will compare advantageously with the most model city in any of the sister provinces.

CRITICIZES THE ANTI-SALOON LEAGUE WORKERS

(Associated Press Despatch)

PROVIDENCE, R.I. Feb. 18.—Governor P. W. Clement, of Vermont, has sent a letter to Governor Carl E. Milliken, of Maine, in reply to the latter's invitation for Vermont to join Maine and other states in opposing Rhode Island's fight against the federal prohibition amendment in which he not only refuses to accept the invitation, but expresses the hope that Rhode Island will be successful in overturning the amendment.

In an interview supplementing the letter, Governor Clement declared that the prohibition amendment was "put on the statute books by as corrupt methods as have ever been used in legislation in the United States."

"The anti-saloon league had unlimited funds behind them. I do not mean to say that they bought votes of Congressmen. What they did do was to go to a man and tell him if he did not vote favorably they would attack him in his home district. In this manner they obtained the support of a lot of weak men."

Reports Were Presented at Monthly Meeting—Competition Prizes Arranged—Other News.

AYER'S CLIFF, Feb. 18.—The monthly meeting of the W.C.T.U. was held at the home of Mrs. C. H. Libby on Wednesday afternoon. The President, Mrs. Lillian Hitchcock, presided. Following the devotional exercises the afternoon's programme was carried out, Mrs. E. P. Lyon giving an interesting paper on the life of Frances E. W. Warland and its influence upon young people of today. Miss Alice Buck sang a solo. Nine members and several friends were present. A request had been received from Miss Stevenson, of Massachusetts, for two comfort bags to be sent to the Sailors' home in Quebec. Mrs. E. G. Davidson kindly offered to make the bags and the other ladies will donate the articles which they will contain. It was voted to donate \$6.00 to the Academy for prizes in the Provincial Essay Contest.

There are two competitions, one for the Superior Schools, whose subject is "The Liquor Traffic in the Early Days of Canada," with Provincial prizes of \$10.00 and \$5.00, and one in the Rural and Elementary Schools, the subject being, "What is the Matter with Alcohol," the prizes being \$6.00 and \$4.00. This makes it possible for four boys or girls somewhere in the Province to win three prizes on one essay, a local, a country and a provincial. Last year the prizes were well scattered. In the Superior School contest the first prize of \$10.00 went to Richmond County and the second prize, of \$5.00 to Compton County. In the Elementary Grades, the first prize, of \$6.00 went to Missisquoi and Sheffield, and the second prize, of \$4.00 to Bromie. Instructions for this competition have been sent out in pamphlet form by Mrs. F. A. Johnston, Provincial Superintendent.

The thirty-fifth annual report of the Society had been received and was given out. Mrs. Libby, assisted by Mrs. E. P. Lyon and Miss Converse, served refreshments. The next meeting will be held on March 15th, at the Parsonage. Mrs. A. Fish will be the leader. The topic will be "Medical Temperance."

FORWARD MOVEMENT CAMPAIGN.

This community has once more shown the right spirit in the result of donations for the Forward Movement. The Congregational Church was allotted \$500.00. Saturday night found them with \$1000.00 collected in the village, the subscription from the outlying districts having not been received. It is safe to say the allotment will be trebled. The collectors for the Episcopal Church report \$749.00 with other points to hear from.

Mr. and Mrs. H. G. Buck returned on Thursday from several weeks stay in New York.

Mr. and Mrs. Dudley Davis were week end guests of their parents, Mr. and Mrs. George Davis.

The Leap Year Dance in the County Hall on Thursday evening was a success in every way. Turcotte's orchestra furnished excellent music. After twelve dances, the lunch baskets were brought forth, the gentlemen having tried to out do each other in decorating same and doing credit to the lady who had escorted them. Coffee was served by the Ladies' Aid Committee. About eighty couple attended.

On Tuesday afternoon Mrs. George Woodard, assisted by Mrs. Lillian Hitchcock and Mrs. T. Morrison entertained the Ladies' Aid. On account of the absence of the President, Mrs. S. S. W. acted as Vice-President, presiding.

Among business matters attended to, one of interest was voting to pay \$25.00 per year for the work in Dondi included in the Forward Movement. A great many friends of the society attended, besides a large number coming in at the tea hour. The next day the Ladies' Aid will meet with Mrs. A. H. Libby, the same committee being in charge of the programme.

Messrs. Fred Wilkinson and George Fish have let the contract to Willis Rollins for the building of two double tenement dwellings to be erected on Sanborn Street in the spring.

MAYOR DUPUIS, OF COATICOOK, GAVE A DINNER

Several Very Interesting Addresses Were Heard — Other General News of Coaticook.

COATICOOK, QUE., Feb. 18.—Mr. A. L. Dupuis, who was elected Mayor of Coaticook at the recent municipal elections, showed his appreciation to those who had been most active on his behalf during his election in a very generous manner, on Thursday evening last. Some thirty-five of these friends and supporters were entertained to dinner at the Thorndyke Hotel, after which the evening was spent in speech-making.

Mayor Dupuis, who is a fluent speaker and has perfect command of both the French and English languages, made a most eloquent address, first addressing his guests in French, then in English. Mr. Dupuis, during the course of his remarks referred to the time he was first elected to the Council, which was a comparatively few years ago, and at that time the race cry was practically unknown in Coaticook. He expressed his regrets at certain things which had transpired during the past three or four years, and which had been brought about in such a manner as to cause a certain amount of hard feeling between the two races, but now that the elections were over for another two years and with the fair-minded business men who had been elected as aldermen, he had no fear but what the business of the town would again be conducted in as peaceful a manner as heretofore, and that all would receive a fair deal, regardless of nationality or creed.

The Mayor expressed his pleasure at the large turnout of citizens at the first regular meeting of the Council and hoped the citizens would continue to turn out to these meetings, thus showing their interest in the affairs of the town. He stated that it would be a pleasure for the Council to receive any suggestions or advice from the ratepayers regarding municipal affairs.

Mr. J. B. Gendreau, who served the town continually for thirty years as either alderman or mayor, stated in his address that he was first elected to the Council forty years ago and that at that time the population of the town was at least three-quarters English, but in spite of the large English majority the French had two representatives in the Council, and during his whole term of office his seat was never contested, but he was always returned by acclamation as long as his health would permit of his remaining in office. In view of these facts, Mr. Gendreau stated he regretted exceedingly the statements being made by a few French-Canadian citizens that the English people would not be allowed to elect another English Mayor without opposition, and it was his opinion there was no ground or reason for making any such statements. He referred to one man whom he had talked with recently who appeared to have considerable grievance towards the English, and from whom he endeavored to ascertain the reason for so doing. After being considerably pressed for these reasons, the man had turned to the town building and pointing to the sign over the door which reads Registry Office stated that the sign should read "Bureau d'Enregistrement." This appeared to be the only reason he had for his dislike of the English and he admitted that he had always received fair treatment at their hands, said the speaker.

Dr. W. L. Shurtleff, assistant secretary and town attorney, also addressed the gathering in his usual able manner. Ex-Mayor Vincent also made a

- (D) Another Bank caught in the Boom, thinks well enough of the prospects to consider locating here.
- (E) Proposed extension Southern Counties Electric Railway (now operating Montreal to Granby, Que.) to Magog, pre-emptive branches, one to Sherbrooke, one through Ayer's Cliff, to the boundary line. short address, which was very pleasing to his hearers, after which Alderman C. E. Akhurst and ex-Alderman William Wallace made a few remarks. Mr. Wallace referring to the habit many of the citizens had of continually knocking the aldermen, and more often than not when the aldermen were not deserving of the harsh criticism they were subjected to. Often remarks were made on the streets with reference to municipal affairs and passed on from one to another without securing information as to their correctness until a big story was created from some such careless remark, and the aldermen are often unjustly criticized, said Mr. Wallace. Mr. Wallace pleaded that this unjust knocking be done away with and replaced by the citizens getting together and giving the aldermen a boost, "by so doing it will be less difficult to secure good men for the Council, and the town will profit thereby," said the speaker.

Several others made brief remarks, after which the gathering arising

FRANCES WILLARD DAY OBSERVED

The meeting of the Y. C. T. U. held yesterday at the home of Mrs. W. H. Abbott, was a very interesting and instructive one. During the business routine, mention was made of the prohibition campaign, which is to be held in Montreal on March 3rd and 4th.

A special feature of the afternoon was the observance of "France Willard Day" by an excellent paper being read by Mrs. Walter Parker, on the life of the great temperance worker, which was greatly enjoyed by those present. Mrs. Trenholm sang in her usual entertaining way, and at the tea hour dainty refreshments were served by the hostess.

General Notes

Mr. Henry Downs was at home from McGill University, Montreal, for the week end.

Mrs. Downs and Mrs. Astell have returned from Montreal, where they spent a few days.

Mr. and Mrs. Albert Bradley left a few days ago on their trip to California, which had been postponed on account of sickness in their family.

The Misses Edna St. John, Kathleen Davenport, and Rhena Nutbrown, of Stanstead College, spent the week end at their homes; the latter remaining over to attend the funeral of her classmate "Tudie" Hawes.

At the meeting of the Epworth League of the Methodist church this evening, Rev. Mr. Seller will have charge of the subject for discussion. The prayer circle meets tomorrow afternoon with Mrs. Vandry, Belvidere street.

state that the weather at that most popular place of resort has not been as mild as usual, with less sunshine; also that some heavy storms have been experienced.

QUEBEC SUNDAY SCHOOL ASSOCIATION

"Owing to the numerous meetings held by the Churches in connection with the Forward Movement, the Executive Committee of the Sunday School Association of the Province of Quebec have decided not to hold a Provincial Sunday School Convention in Montreal this Spring. The annual business meeting will be held in Emmanuel Church, Montreal on Friday evening, March 5th, at 8 o'clock. As it is proposed to change the Constitution of the Association, this meeting will be one of great importance. All Sunday School Workers are invited."

PLYMOUTH CHURCH WEEKLY NOTES.

The Women's Association will meet on Thursday afternoon for the transaction of business at 3.30. At 3.45 there will be a prayer service followed by an address on mission work in India, by Miss Idonea Nourse, whose work for seven years in the Woman's Christian Medical College in Ludhiana in the Punjab well qualifies her to speak on this subject. An invitation to be present is given to all ladies. At the social hour to follow the hostesses will be Mrs. J. W. Schofield, Mrs. H. Salter and Mrs. A. T. Nourse.

The Junior Choir will meet for rehearsal on Thursday evening at 7. All members are asked to be present. Rehearsal for Easter music by the senior choir at 8.

The Boy Scouts will meet at 7.30 on Friday evening.

ASH WEDNESDAY IS OBSERVED.

Today, Ash Wednesday, the first day of Lent, derives its name from the custom still observed in the Roman Catholic churches of sprinkling ashes on the heads of the penitents, with the words, "Know, O man, that dust thou art, and unto dust wilt thou return," a solemn reminder of the brevity of life.

The day is a bank and legal holiday and special services are held in the Anglican and Roman Catholic Churches. At St. Peter's Church service was held at ten o'clock with Litany and a celebration of the Holy Communion, and Evensong at 8 p.m.

High Mass was sung at St. Michael's Cathedral at 9 o'clock by Rev. H. A. Simard, with an immense crowd of worshippers. The ceremony of blessing and distributing the ashes was presided over by Mgr. Paul Larocque, assisted by the attendant priest, deacon and sub-deacon, and was very impressive.

REMAINS OF MISS HAWES BROUGHT HOME FOR BURIAL.

The funeral of the late Miss Gertrude Hawes, who passed away on Friday at the hospital in Springfield, Mass., was held on Monday afternoon from the home of her parents, Mr. and Mrs. H. N. Hawes, of Lennoxville, to the Methodist Church. The service was conducted by Rev. G. Ellery Read, of Sherbrooke, assisted by the pastor, Rev. J. Seller, and the church was filled with sorrowing relatives and friends.

The casket, which was carried by Messrs. R. Baker, A. Sutor, I. Lowry and H. Reed, was covered with floral offerings, among them being remembrances from the Springfield Hospital. The interment was made in Malvern cemetery.

The late Miss Hawes was only twenty years of age, and the news of her early death came as a shock to her many friends in her home town, who sympathize deeply with the bereaved family. Miss Hawes went to the Springfield Hospital last October, and had been accepted as nurse-in-training, after her three months probation, before she was stricken with pneumonia.

On receipt of the news of her serious illness, Mrs. Hawes went to Springfield, and was with her daughter when she passed away, bringing the remains home on Sunday. The nearest relatives left to mourn the passing out of a young and promising life, are her parents, Mr. and Mrs. H. N. Hawes, three sisters, and two brothers, besides other relatives and young friends and school mates of deceased.

DANVILLE

The result of the Forward Movement in Danville has resulted in a very gratifying success. The members of the Methodist, Presbyterian, Congregational and Anglican Churches have put forth every effort to obtain their respective objectives. The objective of the Methodist Church, \$30.50 was placed rather high and members of the congregation admitted that it was almost impossible to reach this figure. Every effort, however, was put forth by the workers and the splendid sum of \$1,850 was raised with a few other canvassers to hear from.

The canvassers of St. Augustine's Church got to work early in the week. Their objective was \$1,600. The amount raised was \$2,335. Of this amount Asbestos raised between \$700 and \$800. The Presbyterian-Congregational canvass has not been completed, but reports say they are "making good."

NORTH HATLEY

The Baked Bean dinner at Mrs. Ham's on Thursday has been postponed. Miss Geneva Hawse has returned to Sherbrooke after spending some time here.

Among the sick ones who are recovering are Miss Hazel Tait, Mrs. A. H. Ham, Miss Helen Ham, Mr. Robert Smith's family and Mrs. J. G. Robinson and Mrs. P. B. Bresee.

Mr. and Mrs. C. A. Hawse and family are all ill at present writing. Mr. Frank Clark is ill with bronchitis. Mr. Leo Roach, of St. Johnsbury, has again taken a position at the B. & M. station. Miss Grace Reed is ill.

Mr. Louis Farrel, of Sherbrooke, spent Sunday with friends in town.

IVES HILL

The collectors for the Forward Movement of the Methodist Church in this section were Mr. A. G. Batchelder and Rev. Williams. Their efforts were crowned with quite satisfactory results.

The sick ones are all on the gain. Nurse Saunders is in attendance at Mrs. Farwell's.

Mr. William Young and Mrs. Skuse, Mr. J. Campbell and Mr. J. A. Cowan attended the Seed Fair at Lennoxville last week.

Owing to the springs being low, many of the farmers have to draw water for their cattle.

The school is closed for a week. Several from this way attended the "500" party at Mrs. Libby's on Friday evening, and report a pleasant time. Good reports were also heard from the entertainment at Compton on Thursday evening.

FRIDAY MATINEE.

The matinee on Thursday will be especially for the pupils of the schools and their teachers. The latter should, if possible, accompany their classes. It is expected that the pupils of the High School and those of the Ward schools who attend together with B.C.S. will pretty nearly fill the theatre. If possible, the pupils should reach the theatre by 2.15. The general public will be admitted only after 2.30, according to the capacity of the house.

Although the campaign to deliver Palestine from the hand of the Turk had its inception in the mind of General Allenby, and although it was his masterly strategy, his indomitable spirit and his magnificent example that nerved the splendid troops under him to their remarkable efforts and final triumph, his personality is not obscured. These pictures show him in various moments of action and leisure, it is true, but there is never any suggestion that the man is seeking public recognition. Allenby was far too busy for that. He had to decide whether it was a thing possible of achievement to cross the desert—a feat from which the great Napoleon shrank. It was his campaign, and upon him the entire onus of its success or failure would fall.

So it is that we watch, through the medium of these Travelogue pictures, both as still photographs and in motion-picture form, the start of that marvellous march, and follow there after all the various phases of the campaign till we see three staff officers walking ahead of a man who seems far less prominent than they, and who passes simply through the great gate into the City of Jerusalem, conqueror at last, and deliverer of Palestine from ever from the oppression of Mohammedanism.

We see the Camel Corps at work. Most people have the haziest ideas about camels, but after having witnessed the achievements of the famous Camel Corps with Allenby's army, they will never again be in any doubt as to the utility of the ship of the desert—or of the superhuman endurance of the animals and the magnificent devotion of the men.

We see the gallant Australian Light Horse making its magnificent charge at Gaza. Why did the press reports of the Palestine operations never tell us of this astonishing feat of arms, by men who will henceforth rank among the greatest cavalry in the world? It was as thrilling to watch as it was astonishing to learn about.

But there are many other scenes besides those which show the army on the move and its various component parts at work. There are wide stretches of desert lying beneath scorching sun or bathed in brilliant moonlight. There is the calm beauty of Mount Carmel; the wonder-colors of Damascus; the Oriental fascination of Samaria; and that aeroplane spinning out of the immensity of purple, starlit sky down, down upon sleeping Nazareth.

These and a host of other scenes pass before the eye with the ever-changing variety of a kaleidoscope. Many of the views are colored, and the coloring is singularly faithful and beautiful.

Nobody can sit through this travelogue, watch the pictures, and listen to Mr. Carnegie's—whose explanation lecture, delivered in terse and simple phrases, adds interest to the scenes and does not divert attention from their supreme importance—without realizing, in a manner impossible, therefore, that the task achieved by Allenby and his men in Palestine was one of unbelievable difficulty.

The manner of its accomplishment fills one with pride in British arms and in that splendid spirit of determination which moved the Australian cavalry and their British Tommy colleagues to attempt and attain, again and again, the seemingly impossible.

The booths were very prettily arranged and decorated for the occasion in red and white, hearts and arrows being the most prominent features. Every article was sold and dainty refreshments were served by the little members of the Club under the direction of the ladies in charge. The proceeds amounted to the substantial sum of \$52.

Haynes' mother, Mrs. S. Sylvester.

The Forward Movement Campaign, which was conducted by the Anglican, Methodist and Baptist Churches in town during the past week, was a great success, the churches all going over the top and raising more than their allotted amounts, which were considered by some as rather high in proportion to the population.

Mr. H. B. Lovell came home from Montreal on Friday, returning again on Saturday, accompanied by his little daughter, Ruth. Mrs. Lovell is in the hospital, where she recently underwent a very serious operation.

Mrs. A. F. Andrews and Mr. Kendall Andrews are spending a week in Montreal the guests of Mrs. Andrews' daughter and other relatives of the city.

Belvidere Street, between Leonard Dumoulin of Sherbrooke, and Jack Soldier Jones, of Toronto, Ont., for the championship of Eastern Canada. This fight promises to be the most important contest yet held in Sherbrooke, as both men have been waiting to meet, to settle the last argument which they had on the 10th of January last, and which was stopped by an accident happening in the third round, when both men in a rush passed through the ropes, falling off the platform, Dumoulin striking the cement floor in such force that he was unable to come back in the ring to finish the contest. In the semi-final Bouton, of the Carillon Club, will face Alex Smith or Brault. The I. C. R. Fireman Frank Dow and Eddie Smith will open the show in a five round go.

THE HOLY LAND

(And The Land Of The Arabian Nights)

LONDON PRESS PROF USE IN ITS PRAISE.

London Times:—
"Hitherto it has been considered to be practically impossible to fill the Royal Opera House, Covent Garden, during August, but Mr. Lowell Thomas and Mr. Dale Carnagey, who are lecturing on General Allenby's campaign in Palestine, have shattered that tradition. Neither heat nor rain have affected the size of the audience, and Mr. Lowell Thomas and Mr. Dale Carnagey look like repeating in this country the success which they achieved in New York, where they intended to deliver their travel talks for one week, but remained for ten. The pictures which accompany this travel talk are exceptionally interesting, and Mr. Lowell Thomas and Mr. Dale Carnagey relate how copies of them were brought from Palestine to England by a destroyer in order to secure their safety."

London Sunday Chronicle:—
"The film sensation of the year."

London Daily Mirror:—
"I had a very absorbing hour and a half at the Covent Garden Opera House. . . . The film pictures are wonderful."

Lloyd's Weekly News:—
"Many things contrived to get themselves overpraised. For once, let the praise ring true. In all London today there is nothing more completely engrossing than the Carnagey-Thomas travelogue on General Allenby's British Campaign in the Holy Land and the Land of the Arabian Nights."

"For two hours great audiences all, never moving; such is the enthrallment of the pictures and of the stories told by the travelogues—Lowell Thomas and Dale Carnagey."

"They are wonderful pictures, many of them in colors, such as have never been thrown on any British screen before."

"See our masses of cavalry riding through the desert. Fly over Holy Jerusalem in an aeroplane. Behold River Jordan from the sky. Look upon a thousand and one scenes in the land where the Crusaders were before us in the centuries gone by."

"It is impossible to express the mystic charm of it all."
"Lowell Thomas and Dale Carnagey tell their stories with great modesty and charm. They were with Allenby and saw all that they narrate. There is a wonderful feat of memory."

"With never a hesitation, never a fault, they go on for an hour and a half, holding the great audience spellbound all the time."

London Sunday Evening Telegram:—
"Crowds will flock to Covent Garden. . . . Truly wonderful, fascinating, humorous, entertaining."

London Star:—
"Fascinating the audience."

"I saw the Scott Polar films and all the official pictures of the campaigns on the western front. But these Carnagey-Thomas travelogues have gotten them all beaten a mile."

London Reference:—
"Delightfully humorous . . . swiftly dramatic and pathetic . . . rarely recounted."

London Daily Sketch:—
"Marvellous show."

LONDON PRESS INTENSELY ENTHUSIASTIC.

London Daily Telegraph:—

"What is modestly and prosaically described as an 'Illustrated travelogue' of the British campaigns in Palestine and Arabia is in reality a heroic epic capable of inspiring a dozen modern emulators of Homer or Plutarch. It is a triumphal vindication of the power of moving pictures to drive home a lesson, and simultaneously to charm the eye, entertain the spirit and move to its very depths the soul of the spectator."

"Though it has already been exhibited at Covent Garden Royal Opera House over a hundred times, the big theatre continues to be packed twice a day. . . . It seems almost a national misfortune that this series of wonderfully speaking pictures will have to be withdrawn from the Opera House in a few more days."

London Daily Mail:—

"One of the strangest sights to be seen by the Londoner as present is a large queue waiting in the vestibule of the Royal Opera House, Covent Garden, to buy seats. Such an event is beyond imagination—the reason is that Mr. Lowell Thomas and Mr. Dale Carnagey give an amazingly graphic account of these campaigns which freed the Holy Land."

"These pictures should be seen. They are vividly real. The entertainment is delightful, perfect."

London News of the World:—

"These travelogues are a brilliant success. The speaker riveted the attention of the house as he told the great story of the liberation of Palestine. He has a keen sense of the picturesque and the humorous and made telling use of the historical associations of the regions through which he passed."

"These travelogues should be seen by everyone to whom the British Empire is something more than a geographical expression."

"The huge audiences at Covent Garden have been thrilled by it."

London Times:—

"The serious and humorous were so skillfully blended that it was almost impossible to realize that Mr. Carnagey had been addressing for almost two hours an audience which filled Covent Garden to overflowing—unique—an extraordinary picture."

Westminster Gazette:—

"The Carnagey-Thomas travelogue is a fine story, listened to with rapt attention. . . . It is sincerely to be hoped that many thousands of British people in all parts of the world will take the opportunity when afforded them of making acquaintance, in the pleasantest possible way, with the conditions of one of the very great adventures in the war, and with the countries and peoples concerned."

London Evening Standard:—

"rapt attention. . . . It is sincerely to be hoped that many more enthralled."

London Morning Advertiser:—

"The most wonderful film ever seen in London. All London is talking about it."

The Tatler:—

"The most fascinating entertainment ever shown in London."

FINANCIAL AND MARKET NEWS

In The World Of Finance

Senator Hitchcock says Democrats will not accept Lodge reservations; Treaty now seems doomed.

Railroad bill to be presented to both Houses either late today or early tomorrow. Final report provides for voluntary consideration of private lines.

Committee of railroad executives to confer with Hines in Washington tomorrow on railroad rate questions and related subjects.

Mr. Howard Elliott, President of the Northern Pacific, denies report of the proposed merger of Northern Pacific, St. Paul and Burlington.

Corrected despatches now confirm the information said to have been conveyed by President Wilson that the United States may withdraw from consideration of European political affairs if the proposed British-French settlement of the Adriatic question be carried through. Prospects of a peace treaty agreement in the Senate are growing dimmer as Democratic opposition to the Lodge reservations solidifies.

Final agreement of the conference on railroad bill, with every prospect of its becoming law before March 1st, marks the beginning of a new era for the railroads and generally speaking should bring about a revival of interest in the railroad securities and a better and improved market for them. The inclusion of the regional basis in the bill for the supply of the 5 1/2 per cent. earning guarantee seems in general a highly favorable point as it affords some greater leeway for reward to the more efficient and successful management of the individual road within the specified region or district.

NEW YORK PRESS MARKET COMMENT

(Furnished by McManamy & Walsh.)

Sun: The turn in rails was naturally very gratifying to those who have looked forward to some indication of a turn for the better in the general market.

Times: Explanations of increased interest on the buying side, which was sufficiently insistent to cause sharp upturns on meagre turnouts, were mainly confined to rumors. These centered about the conference report on railway legislation.

Wall Street Journal will say today:

Corporate maturities unusually small in March. Aggregate of R.R. public utilities and industrials \$58,646,280, against \$91,454,130 in February.

Coco Cola declared initial dividend \$1 payable April 2, record March 13.

National Enameling earns \$24.41 for year ended December 31, 1919.

Montreal Market Comment

Consolidated Mining and Smelting ore receipts at Trail smelter, week ending February 1, 8,057, and total from January 1, 34,278 tons.

Dominion Power and Transmission gross earnings last year were \$3,477,386, showing a surplus of \$709,750, the largest earnings in the company's history. The company expects to increase its water power development to 135,000 horse power.

Shawinigan earnings for past year \$3,727,045, an increase of about \$100,000, or 73 per cent. on the \$20,000,000 common stock. Company retired all notes issued and debenture stock during the year.

Canadian Pacific gross for second week of February shows increase of \$660,000.

TRANSPORTATION ACTIVE ON CHANGE—OTHER ADVANCES

(Associated Press Despatch)

NEW YORK, Feb. 18.—(Wall St. Noon)—The early setback proved short duration. Industrials rallying easily when buying of rails was resumed at additional gains. For the first time in months transportation shares dominated the trading, both as to activity and extent of their advance. Oils were next in favor, and railway equipments followed the course set by rails. Losses of one to three points in General Motors, Crucible Steel and affiliated shares were more than recovered, and specialties also strengthened. Steadiness of foreign exchange and the six per cent. renew rate for call loans comprised the other encouraging features.

RUMOR OF FOOD SEIZURE LOWERS PRICE OF CORN

CHICAGO, Feb. 18.—Fresh weakness showed itself in the corn market. The chief new bearish factor was a Department of Justice report in regard to seizure of foodstuffs in an effort to compel the lowering of prices. Declines in the value of hogs tended also to act as a weight on the corn market.

Opening prices, which ranged from 1/4 to 1 cent lower, with May \$1.32 1/2 to \$1.33 1/2, and July \$1.29 1/2 to \$1.30, were followed by a moderate further setback.

Oats sagged with corn. After opening 1/4 to 1/2 cent down, including May at 80 1/2 to 80 3/4 cents, the market continued to descend.

Lower quotations on hogs pulled down provisions. Selling, however, was not urgent.

ATLANTIC SUGAR IS STILL FEATURE IN MONTREAL

MONTREAL, Feb. 18.—Atlantic Sugar pushed the advantage gained yesterday at the opening of the local stock market, this morning. It sold, at the beginning, at 92 1/2, a gain of 1/2 point. General Electric rose a point to 105.

Outspoken Athenian.

More than twenty-three hundred years ago a young Athenian, speaking of his wife, said to Socrates: "When I saw that she had powder on her face to make it whiter and rouge to make it redder, and that she wore high-heeled shoes to appear taller, I told her it was as dishonorable for her to try to deceive me about her beauty as for me to try to deceive her about my property. I added that, although her arts might impose upon others, they could not impose upon me, who saw her at all times."—Youth's Companion.

Jolly Little Chipmunk.

The place the chipmunk fills is small and inconspicuous but his sylvan "chirrup" plays a minor strain in the wordless diapason which the mighty blue soul of nature is forever singing in her forests; solemn and consoling to heal earth's scars; jubilant and glad for the free of heart. Intoning ever some clear sweet note of mystic melody for those who listen, to awaken a dreaming bliss or to thrill an untired fiber into quivering life.

Peruvian Flower Festival.

Peru celebrates a custom which dates from soon after the Spanish conquest. All soldiers' graves alike are decorated, including those of peons and Indians. Individuals little regarded in Peru, at all events during life. In the evening the populace gives itself over to feasting and merrymaking. This particular flower festival is held annually on November 1.

DESIRE TO AVOID SHORTAGE OF CONFLICT WITH RUSSIAN TROOPS LUMBER IN WEST TO BE TAKEN UP

Japanese Commander Ordered to Cease Sending Troops from Vladivostok Westward.

(Associated Press Despatch) VLADIVOSTOK, Feb. 18.—As a result of negotiations between General Krakowitski, commander of the Zensu army and M. This move is interpreted as indicating that Japan desires to avoid a conflict with the Russians.

FACES CHARGE OF OFFERING BRIBE TO TAX OFFICIAL

First Case in Huge General Swindle of U. S. Government, States the Federal District Attorney.

(Associated Press Despatch) CHICAGO, Feb. 18.—Arrest of Albert I. Lauer, Secretary Treasurer of Briggs and Turnivas, a steel wrecking, salvage and contracting company on a charge of handing a \$15,000 bribe to a Federal income tax collector, marked the opening of national tax investigations which are centered in Chicago. C. F. Clynne, Federal District Attorney, said today. Mr. Lauer spent the night in jail after efforts of other members of his company to provide bond of \$30,000 failed. Internal Revenue Department officials estimated the tax of the Briggs and Turnivas would approximate \$150,000.

Lauer's arrest came after Charles Gahner, a revenue collector laid on Mr. Clynne's desk \$15,000 in bills of \$100, and \$500, denominations, with the statement: "That's half of it. Lauer was to give me the full amount, \$30,000 when the falsified income tax returns were successfully put through the Internal Revenue Department." By pre-arrangement, Chapin, the District Attorney, and a Deputy United States Marshall, were awaiting the result of yesterday's visit. The Marshall immediately served a warrant charging "bribery to a revenue agent."

Mr. Lauer protested his innocence. This is one case in a huge general swindle of the Government, Mr. Clynne said.

PRES. WILSON CONTINUES TO SHOW IMPROVEMENT

(Associated Press Despatch) Washington, Feb. 18.—President Wilson continues to show improvement and was up yesterday, shaving himself and going about his usual routine. ROBBING THE GRAVES.

VIENNA, Feb. 18.—Systematic vandalism and robbery in cemeteries has led to demands for police protection. Newspapers say graves and vaults have been despoiled, articles of the slightest value stolen and coffins smashed for firewood.

Patetic Query.

The nurse had been entertaining her patient by singing some of his favorite songs to him. There was one song in particular that the little boy liked much, and he never failed to ask his nurse to sing it to him every time she came into the room. She had already sung it a dozen times or more that morning, when on coming into the room after a few minutes' absence she heard a little voice from the other end of the room: "Say, nurse, do you think you have enough tone left to sing that song again?"

The common glass insulators used on telegraph poles can be made to keep a refrigerator free of ants and other insects by placing them under the legs of the refrigerator and filling the interior with kerosene or similar material.

Board of Commerce Has Been Requested to Make an Investigation.

(Associated Press Despatch) OTTAWA, Feb. 18.—The Board of Commerce has been asked to consider the problem of a threatened lumber shortage in Manitoba, Saskatchewan and Alberta, caused by the steady shipment of the Canadian supply to the United States. United States firms are said to be conserving their own supply and buying up a large part of the visible supply in Western Canada for their present use. The Board of Commerce is considering the matter today.

Motion Pictures and Profit

People in the United States and Canada paid \$75,000,000 to see the "movies" in 1919. They paid \$200,000,000 to see them in 1920. The growth of the Motion Picture industry has been little short of phenomenal. Large, well-managed Motion Picture Theatres have proved most profitable enterprises.

We will shortly offer the 8% Cumulative Preferred Shares of the Famous Players Canadian Corporation, just launched to control not only a coast-to-coast chain of 31 large Motion Picture Theatres in Canada, but the first release of all "Famous Players" films. It is one of the most promising enterprises we have yet financed.

A NEW SONG BY MRS. CODERE.

(From The Montreal Star.) A new song from the pen of Mrs. J. Doherty-Codere, of Sherbrooke, bears the same imprint of a fine musical intelligence that has distinguished other of her writings. The words of this song, by X., read:

Wounded on the Veldt.
The stars are shining—they are my mother's eyes;
The wind cries softly—I know it is her cry;
The lovely night caresses—'tis her arms;
Oh, God above, I am content to die!

The music to which this verse is mated moves with easy-flowing melody and original, illustrative harmonies to a natural climax. Several songs by Mme. Codere have been sung on the stage by Eva Gauthier, and this gifted lady's setting of "In Flanders Fields," still in manuscript, is the trust to the words of any we have seen.

Banking and investment circles have always considered the packing business with confidence. Dealing in the necessities of life, the business has a stability, the history of which has proven that its securities afford safety, even during periods of financial depression.

The following information is summarized from a letter from Brigadier-General John A. Gunn, President of the Company:—

1. Net tangible assets of \$294.00 per share.
2. Net liquid assets of over \$157.00 per share.
3. Strict provisions against the ratios going below \$275.00 and \$125.00 respectively.
4. Sinking fund provision for the gradual redemption of the preferred stock.
5. No mortgage indebtedness permitted to be issued ahead of the preferred stock, except with the consent of seventy-five per cent of the preferred shareholders.
6. The stock will participate in increased earnings to the extent of 1% before the common stockholders receive more than 8% in any one year.
7. The income from preferred stock dividends is free from normal tax.
8. Exceptional security with ample earnings assuring the investor a return of over 7%.

Morris & Company, of Chicago, one of the three largest packing companies in the world, recently acquired a substantial common stock interest in Gunns Limited, the purchase price being par. The importance of this alliance is appreciated, when consideration is given to the inestimable value of Morris & Company's experience, co-operation, systems, etc. We consider the Morris connection with this fundamentally strong Canadian industry, which has recently doubled its capacity, will materially increase its volume of business and net earnings.

We offer you this stock after a most complete investigation, at:

\$97.50 per Share (\$100 par value) yielding 7.18%

and strongly recommend it as a thoroughly well secured investment.

Temporary Certificates will be ready on or about February 9.

THE FITCH BAY PARISH WENT 'OVER THE TOP'

Canvassers in Forward Movement Campaign Met with Success in Their Work.

FITCH BAY, Feb. 18.—The Parish of Fitch Bay and Georgeville went "over the top" splendidly in the financial canvass of the Forward Movement during the last week. The results were most qualifying for the three parishes was: Georgeville, \$200; Griffin, \$50; Fitch Bay, \$250. The results of the canvass are as follows: Georgeville, \$268; Griffin, \$168.25; Fitch Bay \$387, making a total of \$820.25. There is a possibility of St. Matthias reaching the \$400 mark, as several small subscriptions expected were not in on Monday.

One of the most enjoyable dances of the season was held in Brown's Hall under the management of Mr. G. H. Rediker on Tuesday evening last. Between thirty-five and forty couples were present. The music was furnished by Turcotte's orchestra of four pieces and was of the usual high standard.

Mrs. L. W. Keet met with an accident on Monday which might have proved very serious. While walking in the village a single team driven by a young lad of this village passed her. The driver was not paying strict attention and did not turn out enough, and one of the shafts struck Mrs. Keet on the shoulder, throwing her down, the runner passing over her limbs. She was badly shaken and bruised and has since been suffering from lameness.

MONUMENT

to the Late

Sir Wilfrid Laurier

Every citizen should contribute to the erection of a suitable monument to Sir Wilfrid. Subscription lists at Hotels, Stores and other public places. Not less than 10 cts.; not over \$5.00 accepted.

All parties and creeds asked to contribute.

You will be Wise to Act Promptly

EVERYWHERE, there is a grave shortage just now of telephone material.

In order to utilize our equipment to the best advantage and to avoid denying service to anyone, we recommend our two-party line service. With the central energy system in use in Sherbrooke, the operator can ring either of the telephones on a two-party line without disturbing the other. Indeed, the two-party line for residence purposes is a thoroughly satisfactory type of service and costs twenty per cent. less than individual line service.

In spite of everything we can do, the difficult situation caused by the shortage of material is sure to be greatly aggravated by the heavy demands of the Spring moving period.

If you are moving, therefore, please notify us just as soon as you decide on your new location.

By acting promptly, you will be co-operating with us in a difficult situation and will save yourself annoyance and delay.

1000 Eggs In Every Hen

If You Keep Chickens, Cut This Out—Four to Seven Eggs a Week per Hen Through Cold Winter Season. With Eggs at Dollar a Dozen, Means \$5.00 Profit per Hen in Next Six Months. Amazing Poultry Secrets Revealed by AMERICA'S FOREMOST POULTRY EXPERT

This is an offer no reader of this paper who keeps chickens can afford to ignore. We will tell you why.

Henry Trafford, Famous Poultry Expert and Breeder, for nearly eighteen years Editor of "Poultry Success," has developed a new and remarkable system of rearing, breeding and feeding chickens for heavy egg production that seems certain to revolutionize the poultry industry and give five eggs or more for every egg produced today. This plan or system is explained in Mr. Trafford's "1,000 Egg Hen," a free copy of which will be sent to any person who keeps six hens or more.

Poultry keepers, following Mr. Trafford's directions, learn how to start young pullets laying early; make old hens moult quickly and resume heavy laying during entire winter season. Most any hen will lay in spring when eggs are cheap. Mr. Trafford tells how hens lay four to seven eggs a week during coldest winter days when eggs sell at a dollar a dozen or more. His system shows how any breeder, with ordinary care, may get 1,000 eggs or more from nearly every hen in five years' time at a net profit of \$25.00.

There is big money to be made with chickens this winter by the man or woman who gets the eggs. The time to get the hens ready for heavy winter laying is now
