

WARM AND COOLER

VOL. XXXVI, No. 112

Bear Garden Methods at Ottawa.

From a Special Correspondent.

Ottawa, May 11.—The pandemonium which reigned in the House of Commons yesterday afternoon, marked a very low ebb of parliamentary dignity. Three Western members—Messrs. Oliver, Davis and Scott—were the instruments chosen by the ministers to create a diversion. The connection between the mouthpieces and the masters easily can be traced. On Monday the three Western members began an attack on Mr. E. B. Osler, the "honourable junior member for West Toronto," as Dr. Sproule styles him. He, according to the Westerners, is responsible for the floods, consequent suffering, lack of seed grain and so forth, which circumstances all cluster about the construction and operation of a Territorial railway with which Mr. Osler was once connected. Amongst Mr. Osler's other alleged sins are making too much money out of the affair, and a lack of straightforwardness in his explanations. Mr. Osler's explanation is that he helped to finance the railway undertaking at a time when it was hard to raise the money and he had very hard work to do. The above covers about all the features of the subject of debate apparent to a layman.

What is behind it all? Is a question that is much asked, owing to the frequency and bitterness of the attacks made on Mr. Osler. That gentleman is a director of the Canadian Pacific Railway; he has made some very effective speeches against the Grand Trunk Pacific. As a practical railway man he has "vaded up" several of the ministers several times in the House when details of operation and finance in connection with the project came up. He is an able debater and a hard hitter; his blows leave a lingering pain. Hence the savage efforts to discredit this Toronto representative.

It would be hard to find more willing instruments for this purpose than Messrs. Oliver, Scott and Davis. The first and last named are loquacious and vituperative to a degree. Oliver assumes an earnest manner, which disguises his underlying insincerity, provoked over and over again. Davis is of the type that openly parades ignorance of good behaviour and glories in vulgar abuse. He habitually refers to Sir Thomas Shaughnessy in Parliament as "the red-headed boy."

I once referred to Davis as being of a certain type. My companion—a Western man of first rank in politics—replied: "Please do not dignify him by allowing that he typifies anything."

Scott has more regard for appearances; he is amiable and Pecksniffian, and an imitator of his master, Sifton, to a degree that excites derision. He apes the "Napoleonic" voice, gesture and pose.

All three men belong to the class that thinks it a popular thing in the West to abuse the Canadian Pacific Railway. Mr. Osler, they argue, is of the Canadian Pacific Railway; therefore he must be abused.

Mr. Osler has opposed the Grand Trunk Pacific; and one may not be accused of imputing motives, if, when the hustings version of what is now taking place is told in the West by these three members, he will be represented as otherwise than linked with the Canadian Pacific Railway. What more is required to establish the Canadian Pacific Railway's opposition to the new project?

Another very apparent motive: The whole course of the two day's debate showed that the ministers were winking at the pitiable motives and parish politics of the Western triumvirate in order that Mr. Osler might be subject to coarse misrepresentation and disgraceful abuse.

The Western men had ministerial aid. They frequently transgressed the rules of the House on Monday. It was when points of order were raised that Messrs. Laurier and Fielding brought to bear their Parliamentary skill and experience to lift their henchman out of the mire. It was not pleasant work for Mr. Speaker, but he stuck to his guns—and his party.

There is a dose of discipline in store

DUKE OF SUTHERLAND IS BACK IN ENGLAND

Interviewed at Liverpool
To-day on His Canadian Tour.

A BIG RAILWAY SCHEME For Line From Constantinople to the Pacific Ocean—Empire Day Plans in England.

Canadian Associated Press.
London, May 11.—The Duke of Sutherland, who was interviewed to-day at Liverpool on his return from Canada, said that during his visit there he had met strong expressions in favour of the Chamberlain policy, and that there was an earnest desire that Chamberlain should visit Canada. The Duke said that there seemed to be some danger of Canada becoming Americanized. The Canadian and Imperial Governments should devise some means of inducing Britishers to settle there. The Canadian manufacturers were willing to work in co-operation with the English manufacturers in order not to interfere with each other's prosperity.

ANOTHER VIEW.
Thomas Graham, of Wolverhampton, who returned Sunday from Canada, speaking to the Canadian Associated Press, expressed great delight in the pleasure his visit had given. He was most enthusiastic over the kindness and attention shown him. He had found no such strong feeling in favour of Chamberlain's policy as the Duke of Sutherland had declared existed. On the contrary, the majority of the many he had met were utterly opposed to Chamberlain's schemes.

EMIGRANTS EASILY INFLUENCED.
Mr. W. T. R. Preston, Commissioner of Immigration, has received many letters from intending emigrants in regard to the truth of the statement contained in the cablegram in yesterday's Chronicle, which stated that a dozen Londoners were returning to Canada disgusted at their experience and complaining they had been swayed by land speculators. The writers of a majority of the letters which Mr. Preston received, declare their intention of cancelling their passages already booked, owing to the statement in the Chronicle cable.

EMPIRE DAY IN ENGLAND.
The following are the main outlines suggested by the British Empire League for celebrating Empire Day in the English schools: In the morning a special lesson on Imperial history and geography, preferably from the standpoint of England's relations to the Colonies and her relative position to them geographically; in the afternoon the opening of a school to be held in the afternoon and a special Empire Day entertainment be introduced.

BIG RAILWAY SCHEME.
Dr. Conval Slatzier, in an article in Die Reform, an Austrian review, discusses a scheme for a new railway from Europe to the Pacific Ocean, whereby Vienna would be within eight days of Peking and Shanghai. The new railway would start from Constantinople.

for Mr. Belcourt, or one misreads the signs on the Opposing side of the House.

On Tuesday, by what was evidently a prearrangement, the Deputy Speaker took the chair towards the close of the afternoon session. This circumstance opened wide the door for license, which Mr. Belcourt hardly could have tolerated. The proceedings in the House up to six o'clock were singularly undignified. Messrs. Oliver, Scott and Davis repeated their attacks upon Mr. Osler, after his succinct and circumstantial explanation of his connection with the matter in question. The presiding officer lost control of the House; pandemonium reigned. Deputy Speaker Macdonald ruled that an hour's proceedings conducted under the Speaker Belcourt were "out of order," although he was not present at said proceedings. He asked the House to vote and sustain him in one of his rulings, when no one had questioned the point in the usual Parliamentary form. He had to be reminded by Sir Wilfrid Laurier that the House was considering a motion to adjourn, and, inferentially, that it was not customary for the Speaker to put a question to the House without a mover or seconder. Finally, Mr. Macdonald violated a sacred rule by rushing out of the Chamber ahead of the Sergeant-at-Arms, who, perforce, had to follow in the wake, bearing the mace, instead of the usual march ahead of the First Commoner.

And what was accomplished for the country's good in these three wasted sittings? Messrs. Oliver, Scott and Davis may have made some campaign literature for back lots distribution; but they have sunk lower than ever in the estimation of even their own colleagues in the House; and this prejudice will find an echo in the country generally.

The time of Parliament has been wasted; and upon the Premier and Mr. Fielding, who openly aided and abetted the western biatheskiters, rests the blame. The dignity of the Parliament of Canada has been lowered to a point not often reached in its previous history. As for Mr. Osler, it would appear that he comes forth from the whole affair unscathed. His simple explanation bore the stamp of truth. The official record of the whole transaction robs the statements of Messrs. Oliver, Scott and Davis of any credence whatsoever.

They occupy more prominently than ever the positions of tools for spiteful ministers, the exponents of sectional prejudice and veiling partisanship.

ON CHANGE.—Messrs. Edwin L. Lobell and Oliver R. Wilson, of Chicago, were introduced on Change to-day by Mr. H. W. Raphael.

STRIKE SITUATION IN CITY TO-DAY

Employers and Employees
in the Main Are Still
Standing Firm.

PLUMBERS CONTINUE OUT Some Workmen in Cordage Co. are Said to Have Gone Back to Work To-day.

Firmness on the part of the strikers and a profession of constantly increasing ability to run their establishments without union men on the part of the firms who have not granted the demands of the unions, is the present strike situation.

At headquarters, St. Joseph's Hall, the strikers gathered as usual. All of the men who are on strike were present or accounted for at the daily roll call, and there was no indication that the part of any that they contemplated returning to work until all of their demands were granted.

Representatives of the Marble Workers' Union told the Star to-day that the marble industry in the city was completely tied up, in spite of all reports to the contrary.

Mr. Robert Reid, one of the large employers, when seen, said there was not much change in the situation. The employers were gradually getting in foreign help. He was of the opinion the difficulty would adjust itself in time.

The men say they are not worrying about a settlement. They are confident of securing the concessions asked for in a few days.

At the Builders' Exchange it was stated that all was quiet and that no meeting of the members had been called. No trouble of a serious nature was anticipated. It was said, however, by a prominent member of the exchange, that under no circumstances would the "working-card" system be used, and that if any organized effort was made to put the system into operation there would probably be trouble.

LABOUR LEADERS TALK.
The labour leaders when interviewed regarding the above system made this statement: "The 'working-card' system is concerned we are not bothering much about it. We believe that mechanics should pay their own capital and to the local unions if they are to have the benefit of the wages and hours secured by the unions. If any of our men do not wish to work with men who have no cards they will be perfectly justified in quitting."

The strike of the plumbers and steamfitters continues. The men are very determined. They say their ranks are solid.

A general strike throughout the United States, the members of the Garment Workers' Union in to be called by the International Association of Clothiers, attempt to force the "open shop" on the garment workers.

The Boston Union has voted unanimously to go out if the "open shop" is declared in Boston.

The guarantee on the union claim that the "open shop" means a return to the old "sweat-shop" conditions, to abolish which it took years of effort and a huge expenditure of money.

THE ALLEGED "POLICY" GAME

The Argenteuil Granite Co.
Officials Formally
Committed.

THEY ELECT A SPEEDY TRIAL Judge Desnoyers Will Hear the Evidence Next Week—Names of the Accused.

Judge Choquet to-day formally committed the accused in the alleged "policy" game to stand their trial. They were immediately taken before Judge Desnoyers, who was sitting in the Court of Special Sessions. There they had the right to choose between a trial in the Sessions before a judge, or before a judge and jury in the Court of King's Bench.

Through Mr. Charles Wilson, their attorney, they chose summary trial, and His Honour fixed the 19th inst., as the date.

The accused are charged with maintaining, or taking part in the maintenance of what is known as the Argenteuil Granite Company, incorporated by letters-patent in Quebec on March 8th of this year. The authorities allege that the affair is nothing more or less than a lottery carried on in the same principal as the old-time "policy" game, which was all the rage a few years ago. The evidence showed that there were people who were lucky "shareholders" in the company, and that these owed their luck to the selection of numbers made by a committee of three of the agents who sold the "shares" to-day committed for trial.

The following are the names given by those who were to-day committed for trial:
Casimir Beaudry, T. Belair, Desautel, Nap. Boulton, Moise Richard, J. D. Coutlee, Albert Gervais, Anatole Lacasse, Louis Pilon, Edward Beaudry, Wilfrid Daoust, E. Mareau, Cyril Montgomery, Eliezer Valade, George Chevalier, Clovis St. Onge, R. Lesperance, Hypolite Dion, Henri Dugas, Damase Mathieu, Emery Therrien, Ernest Gregoire, Leon Guiguere, B. Montezone, Phillip Auclair, Edward Brouillette.

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

To Prove what Swamp-Root, the Wonderful New Discovery will do for YOU, Every Reader of "The Montreal Daily Star" May Have a Sample Bottle Sent Free by Mail.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and need attention first.

If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the new discovery for the kidneys, because as soon as your kidneys begin to get better they will help all the other organs to be health.

The mild and immediate effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root will set your whole system right, and the best proof of this is a trial.

Dear Sir: I have been suffering severely from kidney trouble, all symptoms were on hand; my former strength and power had left me; I could hardly drag myself along. Even my mental capacity was giving out. I was almost to die. It was then I saw an advertisement for Swamp-Root, and I bought a bottle. I am now a well man, and I can do my work as usual. I am very grateful to you for the discovery of Swamp-Root, and I am sure it will do good for many others.

With many thanks to you, I remain, Very truly yours, ROBERT BERNER.

You may have a sample bottle of this famous new kidney remedy, Swamp-Root, sent free by mail, postpaid, by which you may test its virtues for such disorders as kidney bladder and uric acid diseases, poor digestion, being obliged to pass your water frequently night and day, smarting or irritation in passing, brick-dust or sediment in the urine, headache, backache, dizziness, heart disturbance due to bad kidney trouble, rheumatism, diabetes, bloating, irritability, worn-out feeling, lack of ambition, loss of flesh, salivary complexion, or Bright's disease.

If your water, when allowed to remain undisturbed in a glass or bottle for twenty-four hours, forms a sediment or settling or has a cloudy appearance, it is evidence that your kidneys and bladder need immediate attention.

Swamp-Root is the wonderful new discovery of Dr. Kilmer, the eminent kidney and bladder specialist. Hospitals use it with wonderful success in both slight and severe cases. Doctors recommend it to their patients and use it in their own families, because they recognize in Swamp-Root the greatest and most successful remedy.

Swamp-Root is pleasant to take and is for sale at drug stores in Canada in bottles of two sizes and two prices—70 cents and \$1.40.

If you have the slightest symptoms of kidney or bladder trouble, or if there is a trace of it in your family history, send at once to Dr. Kilmer & Co., Binghamton, N.Y., who will gladly send you by mail, immediately, without cost to you, a sample bottle of Swamp-Root, and a booklet containing many of the thousands upon thousands of testimonials received from men and women cured. In writing, be sure to say that you read this generous offer in The Montreal Daily Star. The genuineness of this offer is guaranteed.

14th Inst., when it is hoped there will be a large turn out of members.

THE ARCHBISHOP WANTS A SCHOOL

Mgr. Bruchesi Appears Before the Catholic School Board.

SCHOOL BOARD'S FINANCES A Loan Would Have to Be Authorized by the Legislature for a New School.

The Catholic School Commissioners held their regular meeting yesterday afternoon in the Catholic Commercial Building.

When asked by the Board if he desired the school should be confided to the Christian Brothers, the Archbishop replied that it was his fondest hope.

The Board then considered the budget for 1904-1905. The report showed the receipts for the past year to have been \$221,422.18.

The following resolutions were adopted: That the principals in conjunction with the Superintendent present to the Board a list of books for the library for each school.

PRIVILEGED SLANDERERS.

The frequent abuse of the privileges of Parliament by unscrupulous and dishonourable "honourable members," suggests that it is high time to consider the question of curtailing these privileges. The one most frequently and most grossly abused is the legal right of a member of Parliament to slander without being held to account for the crime before the courts.

LONG BREATHS AND CELERY SOUP.

That women are always finding out things has long been a matter of common knowledge among the less interesting sex. If their individual efforts in this direction have been rewarded with marked success, what marvelous achievements may we not expect when they organize their researches? As a matter of fact they have already accomplished wonders.

THE WAR SITUATION.

One of the greatest surprises of the war is the recovery by Russia of railway and telegraph communication with Port Arthur. The only positive information about the matter is obtained in an official despatch from Viceroy Alexieff briefly stating that "during the nights of May 9 and 10 railroad communication with Port Arthur was restored."

Of the stock yards and of the packing houses, but of the market gardens. Doubtless some enterprising Chicagoans will learn to accommodate themselves to the new condition of things, and instead of packing beef and pork, will get rich by exporting the "Finest Canned Zephyrs from Lake Michigan."

Think of it! "Breathe right and you will not need to eat!" At one fell swoop you can get rid of butcher and baker and boarding house keeper! Instead of squandering your money on ice cream for your best girl, you invite her to stick her head into the refrigerator and take a good long breath—two long breaths—all she wants. You can afford to be prodigal in your hospitality.

But there was more than one amazing discovery announced at the Progressive Health Club. Dr. Therese Stockman, who now weighs 154 pounds, electrified the club by saying: "I used to weigh 224 pounds, but I took off 70 pounds by mental action. This seems marvellous. But it is purely a function of the soul."

ARCHBISHOP HOWLEY FOR CONFEDERATION.

It is a significant thing that the Toronto Globe's Commissioner, who is studying the Confederation situation in Newfoundland, has found his heartiest advocate of union in Archbishop Howley, of St. John's. The politicians are either hostile or "agnostics" or close-lipped; but the clergyman is out-and-out for Confederation with Canada, and he is not at all afraid to say so.

THE PASSING HOUR.

Of course, the proper thing to reserve at a Horse Show is a stall. Among the signs of an election is the renewed interest in the Trent Valley canal.

There are speechless people and speechless people. Emerson belongs to both varieties. Toronto has now had a fire on the ferry steamer. Soon she will be burning her way up.

Principal Peterson has gone to Boston, and is a little like carrying coals to Newcastle. It is just like Lachne to be thinking of a flood when the rest of the country is fearing drought.

Toronto has lost its lacrosse team. Wonder if it wouldn't like to take on our baseball team? We are not surprised to hear that the water in the river, it smells "high" in the taps.

A balloon from Port Arthur descended near Liao-Yang. What the Russians need is not balloons so much as flying machines. When Hier Bebel gets talking in the Reichstag, the Kaiser wishes that he had the power of causing a confusion of tongues.

If the Government is really anxious to kill time, why not put Emerson up to tell the House all he doesn't know about the G.T.P. bill. The Russians, in their mastery of treating, have certainly hit upon a plan of campaign which the enemy would never have guessed.

People will begin to suspect that the Liberals don't like an informed critic. Mr. E. E. Schreyer, watching the passage of the G.T.P. bill. The Russian munitions of war captured and taken into account include field pieces, machine guns and band instruments, but there is no mention of pianos.

The editor of the Globe may be committed for contempt of court, but if we know our Emerson, it is too tender-hearted to allow him to languish in gaol long. A Chicago woman's club asks that wives be paid a salary. But it is doubtful whether a man could get enough by working overtime to bring his "wages" up to a "salary."

Some one wants to amend the Scott Act. The Scott Act? The Scott—Oh, yes. The Scott Act was one of the first bills introduced by the Liberals to fool the temperance people. It seems that many Canadians only put two-cent stamps on letters for the Continent of Europe. Thus it is seen that the New York and Mr. Conkling's valet, who accompanied him on his walk from New York to Luzerne last fall, in which upward of 200 miles was made in ten days.

Our Own Emerson is too busy attending to such important matters as "firing" car-cleavers and other minor I.C.R. officers, to bother about such a little thing as the \$15,000,000 Grand Trunk Pacific. The reverend editor of the Globe is summoned before the Court of Appeals on Monday next. This will interfere with the Globe's pious Monday editorial, which is evidently written on Saturday or Sunday.

Many people, without being much the wiser, will have learned with interest that "the Tibetans fired jingals from a Jung" at the British. A jingal is a breech loader cartridge and carries a bullet and a four to eight-ounce ball. We don't believe that Sydney Fisher himself could tell what a Jung is. "Economy in Scanty Wardrobe." THE JAPANESE ARE PRESSING ONWARD.

A Russian General Tells of Activity of His Enemies. RUMOURS OF SOME FIGHTING. Russians are Delighted Because Communication With Port Arthur is Resumed.

St. Petersburg, May 11.—The general staff has received a despatch from Major-General Karkevitch, dated May 9th, which says: "On May 5th our scouts discovered at Liaoyalpuo, fourteen miles north of Takhshan, a Japanese detachment, consisting of 200 men, equipped with a line of Japanese sharpshooters one Cosack was killed."

"At Lunanyako, eight miles north of Takhshan, on the same bank of the river, our scouts were subjected to firing from the right bank. "On the same day they met on the main road from Feng-Wang-Cheng, four and a half miles from Saltzapuda, on the Tallinhe river, and twenty-one miles north of Takhshan, the extreme outposts of the enemy's scouts, who hid in the mountains."

"On the following day Japanese scouts appeared at Handajo, six miles south of Saltzapuda and in the valley of the Sedesko river, near the mouth of the Sedeskohtogo. "According to Chinese information, Japanese detachments numbering three infantry regiments in all are in the mountains, fifteen or twenty miles from Doyanche."

A telegram from General Karkevitch dated May 9th reports that the Cossack garrison of Pekton, on the Yalu river, consisting of 75 men, has surrendered to the Russian scouts in that town, and the interception of communication with Port Arthur should not have been taken so seriously, that General Kuropatkin never had any intention of making a stand on the Yalu, that the attempt to cut off Port Arthur was an absolute feature of the enemy's plan of campaign, and was bound to

Resumption of Communication. St. Petersburg, May 11.—Viceroy Alexieff has telegraphed to the Emperor as follows: "During the nights of May 9 and 10 railway communication with Port Arthur was restored. The telegraph line is being repaired."

St. Petersburg, May 11.—The most important official news from the front up to this hour is that telling of the complete re-establishment of railway and telegraphic communication with Port Arthur. Though how it was brought about and whether a battle was necessary to accomplish it are mysteries which Viceroy Alexieff failed to clear up. Viceroy Alexieff's despatch produced a feeling among the people that the defeat on the Yalu and the interruption of communication with Port Arthur should not have been taken so seriously, that General Kuropatkin never had any intention of making a stand on the Yalu, that the attempt to cut off Port Arthur was an absolute feature of the enemy's plan of campaign, and was bound to

The Right of Search. London, May 11.—Answering a question in the House of Commons yesterday in regard to the recent searching of the mails of the steamer Oairis by the Russian warship Khrabry, the postmaster-general, Lord Stanley, said ordinary postal letters were not contraband of war, but possibly despatches between the Government of a belligerent state and its accredited representatives may be so treated. No general rule of international law had been established giving special immunity to mail ships, but the right of search in the case of his vessels should be so exercised as to minimize the inconvenience.

THE PAY OF THE MILITIA

Increase in Pay for Privates to Be Retroactive—Salaries of D. O. C.'s.

Special Staff Correspondence.

The Press Gallery, House of Commons, Ottawa, May 11.—Several lively hours, with occasional outbreaks of chaos, was the record of the House of Commons yesterday.

MR. OSLER'S EXPLANATION.

The matter began when Mr. Osler rose to make a personal explanation. He had not been in the House the previous day when Mr. Scott and Mr. Davis charged him with making enormous profits as one of the promoters of the Qu'Appelle, Long Lake and Saskatchewan Railway and the Calgary and Edmonton Railway.

THE PAY OF THE MILITIA.

Several resolutions relating to the administration of the militia were considered and adopted. On the resolution by which the maximum pay of privates in the active militia may be raised from \$11 to \$12 a day, several members objected that it placed the new recruit on the same footing as men who had served acceptably for years.

MR. SCOTT AGAIN.

This stirred up Mr. Scott, who announced that he would not rest until the imputation that he was a liar, by way of disproving it, he went over the whole story again from his point of view and declared the explanation just given to be quite unsatisfactory.

MR. CLARKE'S PROTEST.

Mr. Clarke rose, and the speaker endeavored to stop him by suggesting that the matter had better be confined to the gentlemen immediately concerned. No suggestion of stopping the debate had been made the previous day when the matter was first introduced.

THE INSPECTOR-GENERAL.

The other resolution ordered was: "That there may be appointed as Inspector-General of the Militia, a gentleman of the rank of colonel in the militia, or in His Majesty's regular army, who may be, subject to the regulations of the Militia Act, and who shall be paid at such rate as may be determined by the Militia Act."

PARLIAMENTARY NOTES.

Mr. Tolton has given notice of a question concerning the number of private cars owned by the Government, and who uses them, on what occasions, and how much they cost.

THE GOVERNMENT'S OBJECT.

Mr. Lennox asserted that the object of the discussion was not alone to attack Mr. Osler, but to distract attention from the Government's dilemma on the Grand Trunk Pacific.

AND CHAOS REIGNED.

Again the Deputy Speaker intervened, but once again the confusion followed. Mr. Oliver and Jabel Robinson facing each other and frantically endeavoring to drown each other.

simultaneously claiming the floor. The clock saved the dignity of the House by registering six o'clock, which hour the Deputy Speaker abruptly left the chair, and the curtain was run down on the parliamentary comedy.

THE GOVERNMENT'S WASTE OF TIME.

Dr. Sproule pointed out that these figures ignored altogether the important fact that fourteen years had elapsed since the bargain was made. The land which was valued at three millions in 1890, would now be worth twenty millions.

MILITIA AND DEFENCE MATTER

The Annual Report Is More Interesting Than Usual.

LORD DUNDONALD'S VIEWS

A Number of Recommendations Made by the General Officer Commanding.

SALARY OF D. O. C.

On the resolution empowering the Governor-General to fix the salaries and allowances of officers of the general headquarters and district staffs, not provided for in the Militia Act, Mr. F. Clarke rose and addressed the House.

THE INSPECTOR-GENERAL.

The other resolution ordered was: "That there may be appointed as Inspector-General of the Militia, a gentleman of the rank of colonel in the militia, or in His Majesty's regular army, who may be, subject to the regulations of the Militia Act, and who shall be paid at such rate as may be determined by the Militia Act."

PARLIAMENTARY NOTES.

Mr. Tolton has given notice of a question concerning the number of private cars owned by the Government, and who uses them, on what occasions, and how much they cost.

THE GOVERNMENT'S OBJECT.

Mr. Lennox asserted that the object of the discussion was not alone to attack Mr. Osler, but to distract attention from the Government's dilemma on the Grand Trunk Pacific.

AND CHAOS REIGNED.

Again the Deputy Speaker intervened, but once again the confusion followed. Mr. Oliver and Jabel Robinson facing each other and frantically endeavoring to drown each other.

IT SPEAKS FOR ITSELF.

Death of Rev. Jas. Scouler. Special to The Montreal Star. Vancouver, B.C., May 11.—Rev. James Scouler, formerly a missionary in Hamilton, Ont., who was selected Moderator of the Presbyterian Synod of British Columbia in 1903, died at New Westminster yesterday.

CONCLUSION. Though in pursuance of my duty I have pointed out what in my opinion is necessary to secure an efficient militia, there is much to do before that object is attained. I have been careful to avoid any differences which would prevent smooth co-operation between Canadian and British troops in the field.

THE PERMANENT CORPS. The report of the Permanent Corps for the year shows a falling off in the strength from 834 in 1902 to 711 in 1903, Nos. 1 and 2 companies of the Royal Canadian Regiment being the only portions of the corps which increased their strength.

DESPONDENT WOMEN. Find New Health in the Use of Dr. Williams' Pink Pills. A few years ago Mrs. James R. Stuart, of Toronto, Ont., who is well known to most of the gentlemen of the town, found her health severely shattered as the result of an attack of aneurism.

Sturtevant, and for years a leader of the bar of his district, is to be named as the successor of Mr. Justice White, on the Superior Court Bench, for the district of St. Francis.

TURNED THE TIDE. In half an hour after Mr. Laver took the first dose of Dr. Agnew's Cure for the heart, he was on the road to permanent recovery. "I was under treatment with some of the best physicians in London (England) for what they diagnosed as incurable heart trouble. I suffered agonies through pain about my heart, fainting spells, palpitation and exhaustion. As a drowning man grasped at a straw, I tried Dr. Agnew's Cure for the heart. The first bottle relieved me greatly, and when I had used two bottles all the symptoms of my heart trouble had left me."—A. Laver, Colindale, Ont. Dr. Agnew's Ointment Cures Eczema, 35c. Sold by B. E. McGahey, 2123 Notre Dame Street.

CATTLE EMBARGO DISCUSSED IN GLASGOW. Canadian Associated Press. London, May 11.—At a meeting of the Glasgow Chamber of Commerce, a resolution was read, passed by the Chamber, and adopted by the Chamber, in support to urge the Government to remove the unfair interdiction on Canadian cattle. Sir David Richmond said the corporation had been knocking at the door of the Government continually. He wanted the resolution supported, but some members urging delay further discussion of it was referred to the Committee on Home Affairs.

BULL DEALINGS IN STOCK MARKET

Neither Bulls Nor Bears Were in Evidence During Forenoon.

TWIN CITY WAS HIGHER Decline in Grand Trunk Securities in the London Market Caused by Decreased Receipts.

FORENOON STOCK MARKET.

This was an off day in the stock market, one of those days when both bulls and bears seemed to be asleep and nothing was to be heard from either side. No effort was forthcoming to either advance or depress prices, and the trading descended to a dead level...

The decline in Grand Trunk in London was doubtless due in some measure to disappointment that the traffic receipts for the first week of May should show a decrease of \$25,000 compared with the same week a year ago...

Economy in medicine must be measured by two things—cost and effect. It cannot be measured by either alone. It is greatest in that medicine that does the most for the money—that radically and permanently cures at the least expense. That medicine is Hood's Sarsaparilla.

Hood's Sarsaparilla. It purifies and enriches the blood, cures pimples, eczema and all eruptions, tired, languid feelings, loss of appetite and general debility.

"I could not eat nor sleep nor do my housework. A neighbor presented me with a bottle of Hood's Sarsaparilla. It helped me right away. There is no better medicine. Two bottles completely cured me."

Takes Action Against Sister.

Dame M. G. Bourdeau, through her attorneys, Messrs. Blaisson, Brocard and Blaisson, has taken two actions against her sister, Mrs. A. E. Maille, the executrix of her father. By one she takes a seizure to revendicate \$800 left her by bequest, and by a second she claims \$5,000 as her share of her father's estate.

Wants \$1,000 for Loss of Eye.

Jacques Schumperli, who was employed by the Locomotive and Machine Company, has, through his attorney, Mr. D. L. Desbols, taken action for \$1,000 against the company, for the loss of the sight of one eye.

SHE STOLE HOOKS AND EYES—

Margaret O'Keefe stole thirty-nine cents worth of hooks and eyes from Carsley's and when caught in the act she denied it. Much persuasion was used to make her confess, but she would not. She was finally arrested. She was fined ten dollars or one month by Judge Desmoyers to-day.

DRUNKEN BEGGARS.—John Brady and Michael Downey were sent to gaol for three months to-day, by Mr. Recorder Weir for being drunk and begging on the street.

Catarrhal Bad Breath, Always Offensive. Proof of Taint. Corrected Quickly By The Use of CATARRHOZONE.

Catarrh is an inflammation. Where there is inflammation there is always more or less offensive secretions. Inflammation may be of the very active sort, but it is often of the slow kind, and this is the particular form in which the breath is rendered offensive, and the presence of the sufferer becomes an offence to every person of delicate sensibility.

Bad breath is in itself sufficient to urge you to correct it, because one dislikes to be unpleasant to their friends; but this form of Catarrh is dangerous, because it supplies a hotbed for the development of Consumption or of other diseases of the throat and lungs.

Bad breath is an evidence that the microbes have found a good resting place, and are carrying on their evil deeds into the health of the body.

Catarrhozone acts at once and destroys these minute organisms; but it does more—the breath is rendered offensive, and the presence of a resting place and consequently removes both cause and effects of their action.

If you only slightly estimated the value of prevention and used Catarrhozone at the beginning of a cold or just before it becomes well seated, the deadly ravages of Consumption would be stayed and the terrible agonies of sufferers of Asthma or Bronchitis completely abolished.

There is no remedy as effective for Bad Breath, Catarrh, Bronchitis, Asthma, etc., as Catarrhozone. Besides being healing and soothing, it is germ-destroying. Nothing ever offered to the public can compare with it in its promptness, efficacy and permanency of action, and you can buy it from any dealer in medicine throughout the Dominion of Canada, or N. C. Poison & Co., Kingston, Ont.

LONG SESSION OF THE LEGISLATURE

House Did Not Rise Till Three O'clock This Morning.

COLONIZATION MATTERS

Mr. Major Criticizes Commission and Defends Himself—Used Strong Language.

Special to The Montreal Star. Press Gallery of the Legislature, Quebec, May 11.—If Mr. Chrysostrone Langelier would only speak, he could tell how much that report (the report of the Land and Colonization Commission), cost to the lumber merchants.

These words formed the culminating point of a bitter attack made in the House yesterday afternoon by Mr. Major, upon the Colonization Commission, and its report. It will be remembered that the commissioners, in the report in question, handled Mr. Major without gloves. They insinuated that the member for Ottawa had been a party to fraudulent land transactions, and Mr. Major rose to justify himself as soon as Mr. Flynn had moved the adjournment of the debate on the new land bill.

His language naturally produced a sensation, both in the House and outside of it. When Mr. William Price, one of the largest lumbermen in the province, head of the firm of Price Bros. and Company and a prominent member of the Limit-holders Association, was told of Mr. Major's statement, he indignantly denied that a cent of money had found its way to the members or secretary of the commission. In the House, the Hon. L. P. Pelletier rose as soon as the words in question had been uttered, and moved that they be taken down. This motion gave rise to a discussion, the speaker deciding that he was only required to have the words taken down if they were declared to be unparliamentary.

THE PREMIER'S SPEECH. Mr. Parent spoke for about an hour and a half in introducing his bill, reading and explaining it clause by clause, showing that it was largely, though not entirely based upon the recommendations of the Colonization Commission.

By far the most important of the new provisions of the bill, is that which empowers the Lieutenant-Governor-in-Council to make a classification of public lands, so as to set apart, on the one hand, lands intended for cultivation, and on the other, lands intended for forest industries. In connection with this proposed division of the Crown domain into timber and cultivated lands, the Government proposes also to enact that no sale can be made for colonization purposes of lands intended for cultivation and classified as such.

With a view to detect more readily the theft of timber from Government lands, the bill proposes to enact that saw-mill owners may be called upon at any time to show where they have obtained their logs, and to furnish an oath that such timber is exempt from Crown dues, the refusal to do so being a valid reason for the Minister or his representative to seize the timber, having been cut in contravention of Crown laws and to deal with it accordingly.

NO DUES ON TIMBER. A new clause in the interest of colonization provides that no timber dues shall be exacted on any timber cut by settlers on lots regularly acquired by location ticket from the Crown, provided such timber is cut in good faith during clearing operations.

It will be remembered that the Commission was very severe upon the various Crown Lands agents throughout the province, accusing the majority of them of shameful neglect of duty, etc. These complaints have opened the door to the exercises of new patronage and the bill consequently provides for the appointment of as many inspectors of Crown Lands and timber agencies as may be deemed necessary, with such salary as may be deemed equitable.

There are new provisions relating to the selection of lots for parents of twelve children, respecting which the Commission found that several grievances existed.

There are also new provisions respecting agaries and firewood, which read as follows: "The Minister may grant licenses conferring the right of working agaries on Crown lands subject to the conditions determined by the Lieutenant-Governor in Council.

"Such permit may be granted in a territory under timber license, but it applies to maple only. "The Minister may grant licenses to cut, on Crown lands, fire-wood and timber for the construction of houses, buildings and fences to any person needing the same for himself, and not for the purpose of trade, subject to the conditions determined by the Lieutenant-Governor in Council.

"Such license may be renewed yearly on application if the dues exigible on the timber cut have been paid, and a statement is given under oath of the operations of the previous year. Such license may be granted in territories

Special to The Montreal Star. Quebec, May 11.—The Presbytery of Montreal moved the adjournment of the debate on the new land bill, and the House adjourned without a previous adjournment of the debate the bill was killed.

King Edward drank WHITE ROCK at the Lord Mayor's banquet

under timber license but only for lots whereon there is no appreciable quantity of merchantable timber." MOVED ADJOURNMENT. When Mr. Parent resumed his seat, amid the applause of his supporters, Hon. Mr. Flynn moved the adjournment of the debate, in order, as he said, that he might have an opportunity of studying the bill. He remarked, however, that the Colonization Commission seemed to be an expensive luxury, if its only result was to be looked for in the measure now before the House.

QUESTION OF PRIVILEGE. When the Speaker was about to put the motion for the adjournment of the debate, Mr. Major rose to a question of privilege and entered upon a lively abuse of the commission and of its secretary. He congratulated the Premier upon his statement that he did not approve of all the attacks upon the unfortunate commission, and made a rambling speech directed against the members of the commission, and the McLaren Company in particular. In regard to the evidence of Mr. Landry, upon which the commission mainly based its adverse comments, as far as he is concerned, Mr. Major declared that he was terrified by Mr. Chrysostrone Langelier and the commissioners, and the lawyers who cross-examined him, into making the assertions that he did. It was not for him, he said, to know the names of the parties whose names he applied for lots did not exist. As a matter of fact, he declared that the existence of four of them was perfectly well known to him. Mr. Major detailed a number of conversations and read quite an amount of correspondence between himself and the commissioners, and Mr. Langelier having no reference to the accusations against him.

Members of the Opposition constantly rallied Mr. Major upon his support last session of the commission and its secretary, but not a single Cabinet minister nor yet any other member on the right side of the House, uttered a single word in Mr. Major's defence. He had apparently not finished his speech upon the question of privilege when the speaker left the chair at 6 o'clock, leaving the decision already reported upon the application to take down the words in the language made use of by Mr. Major.

ANOTHER INCIDENT. There was another incident during the afternoon sitting when Mr. Flynn invited the Premier's attention to what might be called an attack upon the dignity of members of the House in a recent number of a little newspaper in Montreal, Mr. Parent, however, he said, he did not think that such attacks should be permitted to pass unnoticed.

THE EVENING SITTING. The attendance of members in the House was slim at the evening sitting, and the House adjourned at 11 o'clock. Most of the sitting was devoted to the consideration of private bills. The bill in question in committee was the whole to the bill to incorporate the Canadian Light and Power Company were read a second time, and Mr. LeBlanc was defeated on a division by 37 to 7.

THE BILL TO AMEND THE CHARTER OF THE TOWN OF FRASERVILLE also gave rise to a debate, but finally passed its third reading.

Then came another discussion on a private bill, that to amend the charter of St. Francis Water Power Company. Mr. George Smith moved in amendment to strike out the clause which directs the miners from having the company's poles removed unless one is found to be directly under them. Mr. Giarj (Compton) opposed the amendment proposed by Mr. LeBlanc, Tascher-Gau and Teller supported it. Finally the amendment was carried, the objectionable clause struck out, and the bill, as amended, read a third time and passed.

MR. MAJOR RESUMES. When Mr. Major rose to resume his talk on the question of privilege, Hon. Mr. LeBlanc contended that Mr. Major's language which Mr. Pelletier had asked to have taken down was out of order, because it reflected on a commission with quasi-judicial powers. They were, therefore, justified in asking to have the words taken down.

THE SPEAKER'S RULING. A long discussion ensued, the Speaker declaring that while he did not rule Mr. Pelletier's motion out of order, he did not think it should appear in the minutes and proceedings. The proper rule of procedure would have been to call Mr. Major to order when he used the language complained of. Then he voted and proceedings. The proper rule of procedure would have been to call Mr. Major to order when he used the language complained of. Then he voted and proceedings.

THE CONSERVATIVE LEADER. Shortly after 12 o'clock, Mr. Flynn complained that the members were fatigued and asked for an adjournment of the debate, which was refused by the Government.

A little later Mr. Pelletier drew the Speaker's attention to the fact that there was no quorum, only thirteen members being present.

Mrs. Flynn, whose motion for the adjournment of the debate was yet before the House, seeing no chance of having it put to the vote, finally got up and went home.

And at last Mr. Major finished his remarks and sat down.

The Speaker—"Shall the motion be adopted? It is moved that this debate be now adjourned."

Hon. Mr. Pelletier—"By whom?" The Speaker—"By the Hon. Mr. Flynn."

Hon. Mr. Pelletier—"He is not here."

The Speaker—"Moved by Mr. LeBlanc, seconded by Mr. Pelletier, that this debate be now adjourned."

Hon. Mr. LeBlanc—"No, we don't move the adjournment of the debate."

The Ministers suddenly called out: "Vote!" The vote would have been on the second reading of the bill, and it would have been carried without further debate. But the Opposition was not to be caught in this trap.

Mr. LeBlanc moved the adjournment of the House, and rose to speak to his motion. It was 1 o'clock. He entertained the House with a dissertation upon a variety of topics, remarking en passant upon the strange spectacle of the Government's conspiracy of silence, in view of the attacks of the commission upon the honour and the dignity of a member of the House.

All the arrangements had been made on the Opposition side of the House to keep up the debate till the House would meet again at 3 o'clock. Mr. LeBlanc was ready to speak till 4 o'clock, and Mr. Pelletier was "taken enough for four hours more, with Messrs. Teller, St. Pierre, Giarj and others to follow. In the meantime Mr. Parent had woken up from his little sleep and started in to make the best of a bad business.

Mr. Teller and Mr. Parent met on opposite sides of the clerk's table and their conversation lasted for nearly half an hour. Then both retired behind the Speaker's chair, where they were joined by Mr. Pelletier.

When Mr. Parent re-entered the House he beckoned to Mr. Kennedy, of Gaspe, with whom he had a brief conversation. Mr. Kennedy returned to his seat and moved the adjournment of the House, which was carried at five minutes to three o'clock this morning the House adjourned.
