## CITY OF ST. CUNEGONDE OF MONTREAL.

A city adjoining the city limits of Montreal, district of Montreal. This municipality is governed by a mayor and corporation. A permanent, fire and police force is maintained; it is lighted with arc electric light, and possesses first-class water works. The corporation purchased the old St. Jude's Church, which they have converted into a handsome town hall with commodious offices and court room, fire station and a large hall, for public meetings as well as a private residence for the Chief of Police. The Jacques Cartier Bank has also opened a branch in the building, with Mr. G. N. Ducharme as manager. The Post office has been lately transported into the Hall. The city contains two churches: one Roman Catholic and one Protestant; two convents, one under the St. Ann's sisters and one under the control of the school commissioners; an asylum under the supervision of the Grey Nuns; one college, and two schools—one Protestant and one Catholic. It possesses some extensive industries, the most important of which are the Montreal Rolling mills, the Mona Saw mills, Davidson's Stamping works, Luttrell's cracker factory, Findlay's foundry. A town on the River St Lawrence and Island of Montreal (parish of Les Saintes Anges), seignior of Montreal Island, county of Jacques Cartier, district of Montreal. It is the summer residence of many Montrealers, and has become famous by its annual regattas. Sportsmen meet there daily at the Lachine Boating club, and at the Bel-Air Mansion, Upper Lachine or Dorval. In the winter months it is greatly frequented by pleasure parties, and at all times of the year a drive from Montreal to Lachine by the Upper, and in by the Lower road, is considered a rich treat to the stranger, and even to the citizen of Montreal. Lachine possesses a large brewery, an extensive sawmill, Dominion wire works, wire rope and screw factory, Montreal car wheel and pipe foundries, and the works of the Dominion Bridge Co.; has good local business and extensive lumber trade. The Grand Trunk Railway use several trains a day to Montreal. A ship canal connects the navigable waters at Montreal with Lake St Louis at Lachine. Great North-Western Telegraph Co. have offices here, also a fire alarm system and a complete system of water works. Distant from Montreal 9 miles, fare 40c., 25c., and 12½c. Mail twice a day. ## LAPRAIRIE.

An extensive municipal village and parish of the south shore of the River St. Lawrence, between the Lachine rapids and Victoria bridge, district of Montreal, seigniorly and county of the same name. Incorporated March 30, 1846. The parish was erected on the 17th November, 1870. A market is open every day. An aqueduct is constructed. The first railway in British North America was constructed from here to St. Johns in 1836. It was first worked with horses, afterwards by steam, but was discontinued, and the rails taken up a number of years ago. A steamboat maintains regular communication between Montreal and Laprairie. A branch of the Grand Trunk Railway, starting at Fort Covington, in the State of New York, to reach the Victoria bridge, now runs twice a day in close proximity to the village, with a good station and depot, and contributes materially to the future development of the locality, which is considered a very healthy and pleasant summer place. There is also a fire station, thoroughly supplied with new fire apparatus, such as a fire engine and hook and ladders. Fishing and hunting is also largely practised. A new billiard room has been organized. A permanent wharf has been erected, and will be much improved during

the present summer. A new channel is also partly made up. The aqueduct is now giving a very good service to the village, and the work of putting up pipes is being done very rapidly in the different streets. The pressure of water in case of fire is also very powerful, as the water is drawn by steam and air pressure, which brings it at a distance of 1,350 feet, from the St. Lawrence river. The premiums upon insurances have also been greatly reduced on account of the recent ameliorations to the fire system apparatus. Great North-Western Telegraph Company has an office here. Distant from Montreal, 9 miles, fare 15 cts.; from St. Johns, 18 miles. Mail daily. Population of village about 1,800; of parish 2,200.

## TOWN OF ST. HENRY.

(Incorporated in 1876.)

An incorporated town, adjoining the City limits of Montreal, and formed by the amalgamation of the former villages of Tannery West and Coteau St. Augustin. The Town of St. Henry is situated in the seigniory of Montreal, county of Hochelaga and district of Montreal. The Lachine canal passes on the south side, and signal stations of the Grand Trunk Railway are situated here at the junctions where the roads branch off east and west, and to Montreal and Lachine. The Grand Trunk Railway Co., with the aid of the Council of the Town, has erected a splendid station, at the curve, near the Notre Dame street bridge. The municipality of St. Henry is governed by a Mayor and Corporation, and a separate permanent Fire and Police force is maintained. The town contains a new Roman Catholic college and convent, church and presbytery, and several important industries, amongst others two extensive tanneries, boot and shoe factories, brick yards, Ingersoll Rock Drill Co. of Canada and J. & C. Hodgson, rolling mill, the C. W. Williams Manufacturing Co., employing 600 hands, a cotton manufacturing Co., one of the finest in the Dominion, and a public Abattoir and stock yard Co. The Council has built a very fine Town Hall, Fire and Police station at the corner of Notre Dame and St James streets, at the cost of \$25,000. Building is being prosecuted briskly, and the town bids fair to rise into some importance, having Fire and Police system of alarm telegraph. The town is now lighted by arc electric light. Distance from Bonaventure depot  $2\frac{1}{2}$  miles, from Lachine 6 miles. Population 15,500.
