## THE SURPLICE QUESTION.

CANON DUMOULIN EXPLAINS WHY HE PREACHES IN THE SURPLICE.

After the order of morning prayer in St. James's Cathedral, Toronto, on Sunday, the Rev. Canon Dumoulin stepped into the pulpit, clad in his surplice, and before announcing his text, stated he desired to say a few words in loving kindness, such as should exist between a pastor and his people, in reference to a matter that had caused some comment—his preaching in the surplice.

First, he said, as regarded doctrine or churchmanship, this change had no significance whatever. If the black gown had ever been a badge of party it had long ceased to be so. In proof of this it might be cited that the most pronounced low churchmen in Canada now preached in surplices, and not in gowns, as every one could ascertain for himself.

Second, the change was made simply as a matter of convenience. Every one must have seen that it was highly inconvenient that a clergyman should be obliged, in these days when clergy were so scarce, to retire from the service and address and dress himself twice over during the same service. It seemed to be much more simple, and certainly was easier, that he should perform the whole service in the same dress. It enabled him, with the approval of the Bishop, to do work of the Church altogether in a better way. He trusted they would see that this was done, not to hurt anyone's feelings, but in the best interests of the Church and her work.

And finally having said this in a manly, open, and, he trusted, loving spirit, he had said all that he meant to say on the subject.

## JOE VINCENT.

PRESENTED WITH A GOLD WATCH AND CHAIN BY THE MINISTER OF MARINE

The Minister of Marine and Fisheries at Ottawa presented Joe Vincent with a magnificent gold watch and chain in recognition of the services he has rendered humanity in saving over thirty lives within the last few years. Mr. McLeelan made some fitting remarks, and in reply Joe Vincent said: "Gentlemen, you do not expect me to make a speech. As I am not a Chaplain, I will merely say what my heart dictates. I think you most sincerely for the honor you have conferred upon me. I wish to express my gratitude to those who have taken an interest in this matter. I have always been well rewarded for the acts I have done in life saving for the pleasure felt in saving life cannot well be added to."

## WHEN THE GENERAL THOUGHT IT WAS HOT

While Capt. Grace, of the Midland Battalion, had charge of the extreme left of C Company, he discovered that the ferry at Batoche, which was being used by Riel as a means of transporting troops from shore to shore, afforded an excellent opportunity for our men to fire on them. He reported the discovery to Col. Williams and then Gen. Middleton ordered the guns of the Winnipeg Field Battery to shell the houses and tepees on the opposite side, which before were considered neutral. When the General came down to view the position before ordering the guns the rebels fired a very severe volley on this point. The General remarked coolly that this was a hot corner, and ordered the men to take shelter, although he himself smilingly remained out in the open and proceeded to quietly view the position.

## INCIDENT ON THE "GALLIA'S" VOYAGE

On the Gallia's recent ill starred voyage across the Atlantic a cabin passenger died and was buried at sea at four o'clock in the morning. The disabled steamer was progressing at only four miles an hour, and as there was not sufficient weight put in the coffin to sink it, it appeared to follow the steamer's wake for hours, a gloomy reminder of what might be the fate of the unfortunate's companions.

The Admiralty has decided to construct several torpedo rams similar to the Polyphemus, owing to the latter's effective services during the recent revolutions in Bantay Bay.

A young man named McKenzie died on Saturday night from injuries received by falling off a Toronto street car.

## AN ALARMING DISEASE AFFLICTING A NUMEROUS CLASS.

The disease commences with a slight derangement of the stomach, but, if neglected, it in time involves the whole frame, embracing the kidneys, liver, pancreas and, in fact, the entire glandular system, and the afflicted drags out a miserable existence until death gives relief from suffering. The disease is often mistaken for other complaints; but if the reader will ask himself the following questions, he will be able to determine whether he himself is one of the afflicted:—Have I distress, pain or difficulty in breathing after eating? Is there a dull, heavy feeling attended by drowsiness? Have the eyes a yellow tinge? Does a thick, sticky, mucous gather about the gums and teeth in the mornings, accompanied by a disagreeable taste? Is the tongue coated? Is there pains in the side and back? Is there a fulness about the right side as if the liver were enlarging? Is there costiveness? Is there vertigo or dizziness when rising suddenly from a horizontal position? Are the secretions from the kidneys scanty and highly colored, with a deposit after standing? Does food ferment soon after eating, accompanied by a flatulence or a belching of gas from the stomach? Is there frequent palpitation of the heart? These various symptoms may not be present at one time, but they torment the sufferer in turn as the dreadful disease progresses. If the case be one of long standing, there will be a dry, hacking cough, attended after a time by expectoration. In very advanced stages the skin assumes a dirty brownish appearance, and the hands and feet are covered by a cold, sticky perspiration. As the liver and kidneys become more and more diseased, rheumatic pains appear, and the usual treatment proves entirely unavailing against this latter agonizing disorder. The origin of this malady is indigestion or dyspepsia, and a small quantity of the proper medicine will remove the disease if taken in its incipency. It is most important that the disease should be promptly and properly treated in its first stages, when a little medicine will effect a cure, and even when it has obtained a strong hold, the correct remedy should be persevered in until every vestige of the disease is eradicated, until the appetite has returned, and the digestive organs restored to a healthy condition. The surest and most effectual remedy for this distressing complaint is "Seigel's Curative Syrup," a vegetable preparation sold by all Chemists and Medicine Vendors throughout the world, and by the proprietors, A. J. White, Limited, 17, Farringdon Road, London, E.C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

Market Place, Pocklington, York, October 2nd, 1882.

Sir,—Being a sufferer for years with dyspepsia in all its worst forms, and after spending pounds in medicines, I was at last persuaded to try Mother Seigel's Curative Syrup, and am thankful to say have derived more benefit from it than any other medicine I ever took, and would advise any one suffering from the same complaint to give it a trial, the results they will soon find out for themselves. If you like to make use of this testimonial you are quite at liberty to do so.

Yours respectfully,  
(Signed) R. Turner.

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

St. Mary street, Peterborough, November 29th, 1881.

Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup, I found relief, and after taking two bottles of it I feel quite

cured. I am, Sir, yours truly,  
Mr. A. J. White. William Brent,  
Hemingham, Whitehaven, Oct 16, 1882.  
Mr A. J. White—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health—I remain yours, respectfully,  
(Signed) John H Lightfoot,  
15th August, 1883.

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup, which he got from me has saved his life.  
Yours truly,  
(Signed) N. Webb,  
Chemist, Calne,  
September 8th, 1883.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.  
Faithfully yours,  
(Signed) Vincent A. Willis,  
Chemist-Dentist, Merthyr Tydfil.  
To Mr A. J. White  
Preston, Sept 21st, 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicines possible.  
The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."  
The sale keeps up wonderfully, in fact, one would almost fancy that the people were beginning to breakfast, dine and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.  
I am, dear Sir, yours faithfully,  
(Signed) W. Bowker.

## ANALYSIS OF JOHN LABATT'S CELEBRATED ALE AND PORTER OF LONDON, ONTARIO.

—BY—

Rev. P. J. E. Page, Professor of Chemistry, Laval University

Quebec, 4th May, 1885

I have analysed the India Pale Ale manufactured by JOHN LABATT, London, Ontario, bottled by N. Y. MONTREUIL, Quebec. I have found it a light Ale, containing but little alcohol, of a delicious flavor, and of a very agreeable taste and Superior Quality, and compares with the best Imported English or American Ales.

I have also analysed the Porter, XXX Stout, of the same Brewery, which is of Excellent Quality; its flavor is very agreeable; it is a tonic more energetic than the above Ale, for it is a little richer in alcohol and can be compared advantageously with any imported article.

These Ales and Porter of John Labatt, of London, Ontario, are manufactured with the best quality Malt and Hops and they do not contain any unhealthy ingredients.

**QUEBEC DAILY MERCURY**  
WEDNESDAY EVENING, JULY 22

The Governor General has left Ottawa for Dalhousie, N.B., on a fishing excursion.

The Admiralty is maturing measures for the defence and protection of the commercial ports in the British Empire.

Colonel Ridgeway, commander of the Afghan Boundary Commission, is gazetted a Knight Commander of the Star of India.

The Right Hon. W. E. Forster, Liberal member of Parliament for Bradford, and formerly Chief Secretary for Ireland, will, it is said, soon visit Canada.

The Marquis of Salisbury, for England, and the Marquis Tseng, for China, have signed the new opium treaty between China and Great Britain by the terms of which the interior of the Empire is opened up freely to the opium trade.

Despatches from Rome state that Cardinal Howard is expected to spend a short holiday in Ireland as the guest of the Earl of Carnarvon at Dublin Castle. It is stated at Rome that the reports to the effect that the Vatican has empowered Cardinal Howard to negotiate with England for close relationship between that country and the Vatican, are untrue.

The gradual emancipation of the slaves in the Brazilian Empire is said to be proceeding satisfactorily. Within the past fourteen years more than half a million have been set free, and, although perhaps double this number is not an excessive estimate for the rest still in bondage, they will all have gained their liberty before ten years more.

The Parnellites, who hope to carry a number of English constituencies, have alienated at least one influential Radical. Mr Brillaugh says he was so shocked at "the exhibition of Irish ferocity" in the Commons the other day, when he was being discussed, that he will feel justified in opposing any Irish candidate who stands for any English constituency.

The speech from the Throne by which the Houses of Parliament were prorogued, after a session of 172 days, promises, though we doubt it, that the increase of the Tariff will enable the Government to meet the various engagements of the country. Indeed, the Finance Minister will have to cut his coat with much more economy than he has done in the past if he does not propose to make use of material that is now at his disposal. There is so little to congratulate the country upon in the business which has been transacted that the ordinary reference of that character is of the baldest possible kind. The speech speaks for itself. It is noteworthy that not one of the organs in their authorized forecast had the hardihood to announce that the session had been satisfactory to the Government or that its transactions under their direction were likely to be of material benefit. The trump card with all of them is Sir Leonard's financial operations in England.

William T. Stead, editor of the Pall Mall Gazette, says a recent writer, is about 40 years of age, a slim, wiry, nervous man, with push and energy stamped upon his brow. He has dictated English foreign policy of late more than any other man. He is of the "slasher" type, full of earnestness. He met Chinese Gordon at Dover, talked over the then situation in Egypt, returned to London, and wrote the article which compelled the Government to send Gordon to the Soudan, and once there he raised such a row that the Government had to send Wolseley to Gordon's rescue.

**THE RETURNED VOLUNTEERS**

**PROCEEDINGS OF THIS EVENING**  
The 9th Battalion mustered eight companies at the drill shed at ten am and were dismissed for the day, to assemble on Jacques Cartier market square at 7.30 pm, and march by St Joseph street west to its intersection of St Valier street, thence by Abraham Hill, St Genevieve, St John, Fabrique, Boat, Fort and St Louis streets to St Louis Gate and Dufferin Avenue, where the fireworks will be sent up in their honor, after which the committee will take supper with the corps at the expense of the city.

**BALL AT THE ISLAND.**  
The summer residents of the Bout de l'Isle intend to give a ball on Friday evening, at Lizotte's hotel, to the officers of the 9th Battalion of Quebec and 65th Battalion of Montreal.

**SOUNDING THE ALARM.**

**A GREAT CONSTITUTIONAL CHANGE IMMINENT**

Le Canadien foreshadows in the following language a great constitutional change imminent in the Dominion:—"The session of the Dominion Parliament now closed will be from certain standpoints reckoned one of the most memorable in our history. Among the questions solved must be placed in the foremost rank the Franchise Bill, in virtue of which the Commons of Canada have legislated upon the electoral basis of their own representation. The Federal sentiment was sufficiently strong enough to ensure the passage of this measure by a large majority, and this is a sign of the times which every one that is not blind will perceive. We are drifting directly and rapidly towards the disappearance of the Provincial powers to form but one nation. Those who believe that the difference of races and creeds can prevent this result will see their ideas disappointed before long. From the moment that it is no longer the Provinces that are represented at Ottawa the principle itself of their existence is extinguished. Before long, the only interest left to the control of the Provinces will be education and colonization. And even as it is, does not the aid towards the construction of rail ways for the development of colonization in the provinces come at this very moment from the Dominion Treasury? It is only necessary to lend an ear to hear in the Parliament of Canada the premonitory rumblings which are the forerunners of a change in our form of government, of a remodelling of our constitution. The question, discreetly discussed and agitated, though only in private as yet, will soon take a more accentuated and tangible shape. It is better to be prepared for it than to shut our eyes on the subject."

**GUBERNATORIAL.**

The Lieut Governor and Madame Masson will pass the Summer months at Point au Pic. Lieut Governor Masson has signified his intention to present to Laval University for annual competition a gold medal during his term of office, for subjects to be hereafter determined upon.

**MORE ICEBERGS!**

The steamship *Lauderdale*, which arrived from Barrow yesterday, met a forest of icebergs to the east of the Straits of Belle Isle and was 12 hours passing through it. One berg of huge dimensions had taken up its position as a sentinel just at the entrance of the Straits.

**RIEL'S TRIAL**

A despatch from Regina today announces that Riel's counsel have obtained a postponement of the trial for eight days and the Government are to pay the witnesses.

**THE "NORTHAMPTON"**

The flagship is under orders to leave port on Saturday for Halifax.

**CUSTOMS COLLECTIONS**

Duties collected at the Custom House today amounted to \$4264 94.

**RECORDER'S COURT.**

An immense number of carters, dog owners, grocers, &c., were before the court for not having their licenses and were fined. Four drunks were sent up for short periods. A grand piano, just presented to the Princess Beatrice, is a unique affair. It is in a black case, ornamented with gold. The sustaining pedal enables the player to prolong the sound of one or more notes on the organ principle. The piano has so elastic a touch that all the gradations, from the most subdued whisper to the greatest fortissimo passage, can be accomplished with fine effect.

**QUEBEC VOLTIGEURS RETURN.**

**THEIR RECEPTION AT OWEN SOUND—GREETED WITH THE WILDEST ENTHUSIASM ALL ALONG THE LINE**  
(Toronto Globe.)

About 8 o'clock yesterday morning the C.P.R. steamship *Alberta*, which carried the Ninth Battalion Quebec Voltigeurs and the Midland Battalion, was discovered on the horizon about twenty miles out from the enterprising town of Owen Sound, and instantly, by a preconcerted arrangement, the fire bells of the town began to ring and almost the entire population, as well as many who had come from the surrounding country, crowded down to the docks, which had been decorated by arches and bunting in royal style. The *Alberta*, with flags flying from every available rope and spar, and her decks covered with red and dark uniformed soldiers, presented a really beautiful spectacle. Cheer after cheer was given with all the might of lungs and throat, and the assembled crowd fairly dashed with enthusiasm. The cheers were answered with deep feeling by the Volunteers, some of whom afterwards confessed to have felt a rising lump in their throats as the kindly greetings met them. All of the troops looked pretty well battered up. They were tanned as brown as butternuts and their clothes were well covered with dirt and pork fat. The patches were many and variegated, the prevailing material being bag linen. Col Straubelzie, Col Smith, and Colonel Amyot, on landing were cordially welcomed by the Mayor, and Miss Allen gracefully pinned a rose on Col Straubelzie's breast. The Volunteers were taken to a refreshment room at the dock, and given a lunch. Every thing was arranged in a thoughtful manner, and the refreshments were partaken of without the slightest confusion, the young sons of the most prominent people of the town acting as waiters. The following are the officers of the 9th Quebec Voltigeurs:— Col Amyot, commanding; Lieut Col Roy, Lieut Col Evanturel. Staff Officers—Paymaster Major Dugal, Adjutant Casgrain, Chaplain Rev F Faguy, Surgeon De Bois. No 1 Company—Major Frenette, Lieut Laun, Lieut Hamel. No 2 Company—Acting Capt. Fiset, Lieut Fancher de St Maurice, Lieut Casgrain. No 3 Company—Capt Drolet, Lieut Baillarge. No 4 Company—Capt Garneau, Lieut Labranche, Lieut Fiset. No 5 Company—Capt Penny, Lieut Dupuis, Lieut Dion. No 6 Company—Capt Fages, Lieut Stehyn. No 7 Company—Capt Pinault, Lieut Routhier, Lieut Pantaleon Pelletier.

The reporter entered into a conversation with the men of the 9th Battalion and found them to be GENTLEMANLY, GOOD NATURED, AND INTELLIGENT.

They gave him a short account of their share in the campaign but as they were kept most of the time on guard duty in Edmonton, Calgary, Gleichen, Langdon, and other places their adventures were neither numerous nor startling, the only event of an interesting character being the theft of 15 horses, by Indians, on the morning from Calgary to Edmonton. A bright looking young fellow was asked by the reporter how the grub agreed with him. His English was not as good as that of the majority of the battalion, but the reporter made him out to say that it was all right but for "ze little fellows in ze tea." The reporter was considerably puzzled but another cleared the mystery of a comically saying "pollywog."

**THE FINANCE MINISTER**

HOW SIR LEONARD TILLEY FLOATED HIS LOAN

Sir Leonard Tilley, Finance Minister says his mission, has been a great success and has provided altogether for about \$55,000,000, \$27,500,000 of which was a matured loan and \$27,500,000 was a new loan. Of this last \$4,400,000 was a new issue and \$1,500,000 a temporary loan of only from six to twelve months as circumstances might require. The average amount realized on this loan was £10, 1s 8d on the £10. It was doubled at first whether more than par could be got for the issue, but the competition was sharp. The whole amount of the tenders was about £12,000,000. A remarkable feature in connection with this is the fact that over £4,400,000 sterling was tendered for in sums between £100 and £10,000, showing that the large proportion of tenders came from actual investors. There is no doubt that the average obtained for the loan was increased by the confidence given to investors by the able and patriotic manner in which the Northwest rebellion was dealt with.

**SKIN DISEASES**

Are of two kinds; firstly, those which are only skin deep (which are not now to be considered); secondly, those which are caused by a bad state of the blood, and which attack various parts of the body in different ways. Skin disease shows itself in the HEAD, sometimes in the form of Dandruff which will get rid of and sometimes in the form of Scaly Eruptions. In the NECK, by an enlargement of the glands (commonly called Glandular Swellings, which if unchecked become very unsightly warts. In the ARMPITS, and the inside of the ELBOWS, by an inflamed roughness of the skin, which is very painful when washed. In the HANDS, by deep cracks or fissures, which, if healed for a few days speedily open again, or by horny scaling patches. In the LEGS by Hard, Shiny and Inflamed Swellings, or by warts more or less deep. And on the BODY, by Scaly Patches, which as often as rub off, return again, or in the discharge of a thin, watery fluid, a very disagreeable nature. In all these cases the treatment must be twofold. An Ointment is required to relieve itching, and to induce must be taken to change the state of the blood, and render it pure. Both these requirements are supplied by

**Dr. H. H. H. Celebrated Medicines.**

IMPORTANT NOTICE

The following Certificate from such a high authority as the Port Physician has a value that cannot be denied even by the most skeptical. Mr. Gilman President of the St. Leon Spring Co., to whom the letter is addressed, is one of the proprietors of the Hotel at St. Leon Springs.

DEAR MR GILMAN, I think the fact should be made known that the St. Leon Mineral Water is a most excellent remedy for Scarlet Fever and Measles. I claim the merit of having been the first to discover this property in this water and to have proved its virtues by a fair trial. How it forces out the eruptions of scarlet fever and how rapidly the sore throat is cured by its use, without the aid of any other remedy, is surprising...

A. ROWAND. The above has been handed by Mr. Gilman to the undersigned and needs no comment. The celebrated ST. LEON WATER is for sale, wholesale and retail, by

GINGRAS, LANGLOIS & CO., Opposite Archbishop's Palace. 161-3

LATEST CABLE NEWS.

Turkish Grand Vizier's Views on an Alliance with England.

A Life Boat Sunk at Yarmouth—Eight Men Drowned.

Wimbledon Meeting—Kolapore Cup Won by the English Team

Royal Wedding—Emperor William's Health—Other News.

By cable to THE MERCURY:

CONSTANTINOPLE, July 22—The Grand Vizier, in an interview yesterday with Hobart Pasha, said he recognized the necessity of Turkey forming an alliance with England, and declared that the conclusion of such an alliance would be much easier now than it was before.

THE APPROACHING ROYAL MARRIAGE

LONDON, July 22—Early announcements regarding the marriage of Princess Beatrice to Prince Henry of Battenberg were that the guest list would not be extended beyond the members of the families of the high contracting parties; but an addition here and there were made until now the ceremony, which takes place tomorrow, promises to be as largely attended as the marriages of any of the bride's royal brothers and sisters. The Gladstone Government, the present Ministry and Lord Wolseley have been invited. That the marriage is not generally approved of by the Royal family is an open secret. The Prince of Wales opposed it to the utmost and only consented to be present and to allow his daughters to act as bridesmaids when he found it impossible to prevent the marriage. The Crown Princess of Germany positively refused to attend, and it is only now, at the last moment, at the intercession of the Princess of Wales, that she and the Crown Prince have yielded.

EIGHT MEN DROWNED

YARMOUTH, England, July 22—A life boat containing fifteen men started from here this morning to rescue the crew of a brigantine, which was in distress. Before reaching its destination, the life boat struck a sunken wreck and sank. Eight of the occupants were drowned. All of the unfortunate men were married.

THE WIMBLEDON MEETING.

WIMBLEDON July 22—The English team won the Kolapore Cup with a score of 650. The Guernsey team scored 639, the Jersey team 612, and the Canadian team 597.

OTTAWA, July 22—Mr Caron has returned to the city from attending the funeral of Col Williams at Port Hope.

COLLAPSE OF A HOUSE IN HULL.

A house on Main street, Hull, owned by Mr Read, of Albany, N Y, collapsed yesterday. The lower part of the building was used as a carpenter shop and the upper as a dwelling by a Mr Poirier and family. He was absent at his work and Mrs Poirier and her three little children were eating their dinner. She heard a slight cracking and suddenly she saw the wall swaying, and next she was thrown violently to the floor. The youngest child, a little girl of 15 months, was thrown into the oven of the cooking stove and badly burned about the face and body. The walls and roof fell in and the house was burned to ruins. Mrs Poirier and the other two children were unhurt.

THE IRON AND STEEL MARKET

By telegraph to the Mercury.

PHILADELPHIA, July 22—Rail makers have inquired for 30,000 tons of steel rails, mostly for Western roads, within a week. Orders for 11,000 tons have been booked at \$25. Today \$26 is offered for round lots. The wrought pipe mills throughout the State have in sight large orders. The merchants' orders keep the mills on full time. Sheet iron requirements are gaining. Indications point to a steady demand for all kinds of iron and steel in small lots.

THE GRASSHOPPERS IN SAN FRANCISCO

A prominent San Francisco drug house has sent 2000 pounds of arsenic into the valley in the past few days. This gives some idea of the onslaught that is being made on the grasshoppers. The preparation is found to work like a charm. The hoppers, at it, whether wet or dry, and rather seem to like it and there is no danger of communicating the poison to the fruit or anything of that kind, as they never fly after eating it, simply contenting themselves by crawling off and hunting a shady place to die in.

RECEPTION TO THE HALIFAX REGIMENT

The Halifax regiment arrived in the city this morning and received a magnificent reception at St Henri. Waiting to receive them were Mayor Beaugrand, Lieut Colonel Worsley, Hon Mr-Baubbien, Ald Stroud, Mr M H Gault, MP, most of the staff and officers and 200 men of the various city regiments. About 10 o'clock, as the engine steamed into the station, the guns of the Field Battery, under Col Stevenson, fired a salute, while the band of the Victoria Rifles played "The British Grenadier," and the pipers of the 50th Royal Scots struck up a soul inspiring pibroch. The Mayor welcomed Colonel Bremner in the name of the city, presenting him with a bouquet. Flags were displayed, and one with "Well done, Halifax!" The men were served with a substantial breakfast, members of city regiments acting as waiters. The officers had breakfast served in marquees, the city officers doing duty in serving. The train was then again boarded and a pleasant run was taken out to Lachine, where the steamer Prince of Wales was in waiting. All being ready the steamer proceeded down the Rapids. The trip was most delightful. The approach of the steamer to the city was heralded by cannons from the Field Battery, and drawn up to receive the comrade volunteers was the Montreal cavalry and 300 officers and men from other city regiments, while the revolted wall was thronged by thousands of enthusiastic spectators. A procession was then formed to the City Hall, where Mayor Beaugrand addressing Col Bremner welcomed them as soldiers returning from doing duty for their country. They were our compatriots and we looked upon them as the vanguards of our Canadian nationality, whose territory was only bounded by the roaring waves of two oceans. They were brave boys and at their country's call had not hesitated to leave their families in defence of the Dominion. The speech was received with tremendous applause. Col Bremner said it was well worth all their hardships to receive such an ovation. The men then marched through the city amid the greatest excitement and when at Victoria Square the fountains were turned on full power, throwing a head of water, 70 feet into the air. Lunch was partaken of at the Windsor at 2 o'clock and the men were driven in busses and carriages through the beautiful mountain park. After dinner this evening the men will leave for home.

A SICK SOLDIER

Private Holte, one of the members of 65th Battalion, has been taken to Notre Dame Hospital, he being extremely weak from the long journey he has undergone.

La Minerve

La Minerve says that "the Director of the Geological Commission is not exactly popular. It is well known that last year Mr Selwyn spent a most unpleasant quarter of an hour before a special Committee of Inquiry. This year Mr Holton returned to the charge and made a regular attack upon that officer whom he accused of incapacity and bad training. We are not in a position to give an opinion as to the talent of Mr Selwyn; but he seems to have shown that he does not possess the gift of conciliating the sympathies of his subalterns. They complain of his snobishness, his self assertion and his general conduct which does not accord with the good understanding and respect that one expected in good company. Mr Selwyn is an importation from Australia."

PUBLIC NOTICE.

We caution the Public against certain persons who offer unknown and spurious Waters as the St. Leon Mineral Water. This celebrated Water is known as an effectual cure for certain diseases which no other Mineral Water possesses.  
 At the same time we warn those persons who pretend to sell St. Leon Mineral Water, which is not the genuine article, that we shall proceed against them according to law.

Another Proof of the Efficacy of the Celebrated St. Leon Mineral Water.

CERTIFICATE.

Messrs. GINGRAS, LANGLOIS & CO. GENTLEMEN,—For a number of years I suffered from the terrible complaint of dyspepsia to such an extent that, for two years, I was unable to eat meat. Having read of the different cures wrought by the St. Leon Mineral Water, I commenced to drink it as prescribed in your advertisement. I used it for a month and can now eat meat. I have a good appetite and gain strength every day. I deem it my duty to recommend this marvellous water to those who suffer from the same complaint.
