GUESTS OF ROTARY CLUB GIVE IMPETUS TO BOYS' WORK HERE IN ADDRESSES AT SPECIAL MEETING

Messrs. Atkinson and Statton Rouse Enthusiasm by Raising Question of Great Need of Assisting the Boy to Become a Useful Citizen--Community Club Plan Outlined as Big Aid in Keeping Down Juvenile Crime--Assistance of Every Organization Is Sought in This Undertaking--Many Guests Present.

THE boy between the ages of eight and eighteen as the country's most precious asset, and the means of preserving the youth of the country and making useful and good citizens of the lads of today were topics that were discussed at length before an appreciative gathering of Rotarians and their guests, including representatives, both ladies and gentlemen, of the business, social and church organizations of the city at the special Rotary luncheon held yesterday in the Y.M.C.A. gymnasium.

The two principal speakers of the day were Messrs. C. J. Aitkinson, Chairman of the Boys' Work Committee of the New York City Rotary Club, and Taylor Stratton, of Toronto, National Boys' Secretary of the Y.M.C.A. That the message of these two workers was well received was patent, and everyone who was present at this gathering showed by hearty applause that the truth of the assertion made and the reasonableness of the plans proposed had been realized, and both speakers, discussing the meeting with officials of the club stated that this had been one of the most enthusiastic and assuring gatherings that they had ever addressed.

The meeting was opened by President Geo. MacKinnon, who, in introducing Mr. Stratton, said that Sherbrooke was one of sixty cities which had been visited in as many days in the interests of Boys' Work in Canada.

Boys Must be Looked After.
Mr. Stratton entered into his subject directly, and drew attention to the fact that the Great War was not started in 1914 but in the early seventies, when Prussian statesmen began to prepare for world conquest by instilling into the minds of the youth of the country the doctrines that were responsible for the late struggle. So today, the effects of the war would not be directly felt at the present, but in the future, when the lads of today would have grown to manhood and would either benefit from the lessons learned now or would suffer from failure to do so.

The object of the Rotary Club, the speaker said, was to lead the way by showing that it profited a man more to serve than to lead by strength alone. This had to be impressed on the growing boy, and it was with this end in view that the Rotary Club had decided to expend one quarter of its efforts this year to work among and for boys.

To accomplish the most in this line, it was necessary to get away from the fact that "little folks don't count for much" and to realize that the men of tomorrow would be those self-same little fellows of today. The tender years of boyhood were the most precious in life, and it was at this time that the seeds of future good or evil would be planted.

Value of Good Companionship.
"Character is not thought so much as it is caught," said Mr. Stratton, and it is in the influence of the "gang" that it is to be feared. If this element can be made to work for the good of the boy, then, the ideal will be reached. The home and environment had a great deal to do, but outside influences had to be depended upon after the boy reached fourteen. The secret of success in utilizing the boy's spare time and making this guarantee for the future was in team play entered into by all public organizations. These must teach the child through diversion, for "as boy or girl played, so they would live." The individual must learn to sacrifice, for the good of the many. There were certainly a goodly number of organizations already working for the good of the boy, but these must be added to and co-ordinated so as to embrace all classes and inclinations in the youth.

The child had to be taught to sacrifice self for others, and while this usually took years, the lesson should be learned in youth.

By means of a chart, the speaker showed the system by which the school, church, men's and boy's organizations could all work to the same end, the betterment of the boy. "If everybody worked together, what success would be met," said Mr. Stratton, in closing, "and if this is done, Sherbrooke will be known (Continued on Page 12.)"

EAT LESS MEAT IF BACK HURTS

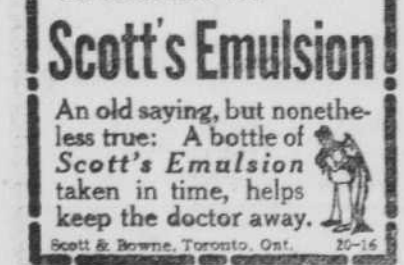

Take a glass of Salts to Flush Kidneys if bladder bothers you

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

SCHOOL BOARD LECTURE GIVEN AT N. HATLEY

Dean Laird and Inspector Sutherland Give Fine Addresses.

NORTH HATLEY, Oct. 6.—Friday evening, October 1, was the evening set apart by the Protestant Committee of School Boards to hold their meeting in this place, being one of the favored centres on their itinerary which they left on, when reducing the number of visits on the autumn campaign.

Rev. E. E. Marggraf, chairman of the School Board, presided at the gathering, which met in the Town Hall, and in a few well chosen words introduced the speakers.

Dean Laird came to the platform first. In his opening remarks, he spoke of the difficulties in trying to obtain better training for the young, and remarked that many would only give lip service, which did not amount to very much.

"It is an easy matter to weigh or measure the crop from a field," said the speaker, "thus find out the value of it and by deducting the expenses entailed in getting it out of the field, the profit is clear. This cannot be so easily done in the matter of an education. However, we know the more learning a person has the better qualified he is to fill positions in the business world, than if he had less, although in rare cases, men have risen to positions of eminence who had practically no training along educational lines in their early years, but attained greatness by hard work, coupled perhaps with genius."

The discipline of school life is absolutely essential to equip a boy or girl to battle with the problems of later life and make them sympathetic towards other people and not always feel they must have their own way. A story was told of a millionaire, who said he dreaded to leave this world as he knew that his son, who was lazy and always had his way, would do terrible things when he was gone. Therefore he planned to send him to a military training school, so he would get discipline, having to rise early, work hard, wait upon himself, doing the menial tasks as well and obey orders and later, when he came to his father's factories, he would have more sympathy with the workmen.

Dean Laird advocated long term schools, and spoke of parts of the United States where they are in session twelve months of the year, as compared with one in Canada where there is a four months' school. At the latter rate it would take twenty years to obtain an ordinary education.

All children of school age should be in school. Regularity of the attendance is another important factor. It was pointed out that, of a total enrollment of 54,000 pupils, 14,000 were absent every day, leaving only 75 per cent at any time in school. When pupils are absent they either have to lose what the others learned during that time or the other are kept back to allow the irregular attendants to catch up with the lessons.

It is a lamentable fact that so many (one quarter) of the enrollment of schools drop out after grade four, and another quarter of the remainder drops out after grade five, and so on with greater decreases up the scale, until in grade eleven, there is only one-seventh of one per cent of the number starting in the primary, instead of staying on to the last grade for which the school is equipped.

The social side of school life could not be overlooked, as team work among the boys and girls will be of great advantage to them in after life as it gives them training along organization lines which will be useful in the business world.

One reason for the closing of school owing to the lack of teachers was caused by too low valuation being placed on property, hence

little revenue was derived therefrom.

It is a surprising fact that the prevalence of contagious diseases, poor eyesight, bad teeth, etc., is greater in country than in city schools, although the latter are bad enough, as it has been estimated by good authority that it would take one hundred dentists eight years, working eight hours a day to fill the cavities in teeth of the school children of the City of Chicago alone.

Untrained teachers, mere young girls, many of whom have but little education, are teaching a large number of children, mostly in first grades, which after all, is more important than those higher up. In one place, a girl who only passed grade seven herself was teaching a school of sixty-eight scholars in a room equipped for thirty-six.

"In the finished product we look for the moral and hope to find a social adjustment on the important matters which are puzzling many at the present time. But what of those who get little training of the mind and intellect, and in a few years will take their places among the better qualified voters and their votes will count as much as the others," the speaker said.

The physical aspect is to be thought of and training in hygiene will surely have a lasting effect. A fact to be proud of is that the Province of Quebec has religious training on its school curriculum, which is not the case in any other country.

The scarcity of teachers is a serious problem, and unless steps are taken in the right direction, in a very short time the Eastern Townships will be without qualified teachers, as the salaries they receive in Montreal and other centres, with the Province of Alberta and Saskatchewan, and also the motherland advertising for thousands of teachers, they will certainly go where they will obtain a proper salary. One place in the Dominion was spoken of where a teacher of forty pupils receives a salary of \$250, while a man who feeds forty foxes at a fox farm nearby gets \$2,000. Another case was cited of a model teacher, and a medalist at that, who was keeping track of eggs laid in trap nests, for a poultry firm, as thereby she obtained more money than she had done while teacher. It is thought by many school boards that they pay all they can afford and in fact do pay double the salary they did four or five years ago.

However, they forget how the purchasing value of a dollar has decreased during that period. Neither do they take into consideration the full value of education to the coming generation and what the country will become in a few years when the boys and girls of today will be the men and women of tomorrow.

If the teachers do not have the co-operation of the parents in the training of the children it cannot be expected that the results of this work will be as far reaching.

The second speaker was Inspector-General Sutherland, who spoke briefly, and had representatives from the rural schools been present he would have been pleased to discuss consolidation and any other problems in which they might need help. As it was, he thought Dean Laird had covered the other school problems very thoroughly in his address.

He referred to a recent despatch from Bishop Faulkner, of Toronto University, in which he stated that the ones who suffered the most during the war period and since owing to the high cost of living were the salaried men. Mr. Sutherland did not agree with this. He thought it was the laboring class, in spite of the big wages they have received, as they have been spending their money on unnecessary, and oftentimes harmful things, due, no doubt, to lack of education, and therefore setting an improper value on the things that really count.

In the discussion that followed, the problem of what to do to prevent the ranks of the academy grade being depleted. The suggestion was made that the few pupils be taken to another high school. This was stoutly objected to by Dean Laird, who thought that others should be induced to come in and even though the number should be small, the expense entailed should not be thought a waste of money.

The fact that children are on the streets instead of at school was mentioned, and it was hoped that the advice to take the matter up with their parents and see if they will not give them an education, instead of allowing them to drift on and become useless and dangerous citizens a few years hence, will be taken.

It was a regrettable fact that the attendance at this meeting was so small. The national anthem completed the programme.

HOPE DEFERRED.

Palmit—You will not be able to find a flat. And I can see you wandering through the streets, wandering—wandering.

Flat-hunter—And finally?

Palmit—Then at last—at last—

Flat-hunter (excitedly): Yes, go on.

Palmit—At last you will get used to it.

STANHOPE, Oct. 6.—An event of much interest took place Tuesday evening, September 28, at St. Paul's Church, the occasion being the marriage of Miss Nellie Grant Young, daughter of Mr. F. O. Young, and granddaughter of Mr. Orange L. Young, of Stanhope, to Mr. Richard Geoffrey Springs, of North Hatley. The church had been tastefully decorated by the bride's many friends in Stanhope, with the artistic blending of maple leaves, flowers and greenery. The marriage was solemnized under a beautiful wedding veil, the ceremony being performed by Rev. J. C. Tanner. Mrs. Tanner presided at the organ.

The bride, who entered the church on the arm of her father, wore a gown of cream silk net over white messaline, with veil of orange blossoms. The veil, which was artistically arranged in cap effect, was daintily embroidered in a design of chrysanthemums and orange blossoms. She carried an arm bouquet of pink and white roses and asters tied with embroidered tulle, and wore as an ornament the gift of the groom, a period brooch. She was attended by Miss Lucy Baldwin, of Coaticook, as maid of honor. Miss Baldwin wore cream georgette and silk, with pink picture hat, and carried a bouquet of pink asters.

The groom was supported by his brother, Mr. Ralph Springs, of North Hatley. Messrs. Hanaford Carpenter and Elmer Marsh acted as ushers. Soft music was furnished by the organist during the ceremony, and at its close Miss Doris Morgan, of Coaticook, sang "Untill" very sweetly, after which the wedding party left the church to the strains of Mendelssohn's wedding march, and repaired to the home of the bride's grandmother, Mrs. Orange L. Young, where a reception was held.

The house was beautifully decorated for the occasion, and the bride and groom received the guests under an arch of evergreen. Dainty and delicious refreshments were served in the dining room, which was decorated in green and white. Four of the bride's girl friends served the refreshments, Misses May and Dorothy Parsons, of Sherbrooke, Natalie Chandler and Hazel Dougherty, of Coaticook.

The wedding gifts, which were numerous and beautiful, were displayed in an adjoining room. The groom's gift to the maid of honor was a pearl brooch, and to the best man a Masonic stick pin.

At the close of the very pleasant evening Mr. and Mrs. Springs left by motor, amid showers of confetti and good wishes. The bride's going away costume was a navy blue serge suit, with hat of tan and blue.

Among the guests from out of town were Mr. and Mrs. Ralph Springs, Mr. Fred Springs, Misses Lily and Constance Springs, Laurel Merrill and Rose Seguin, of North Hatley; Miss Gertrude Fox, Sherbrooke; Mr. and Mrs. Shehe and daughter, Berlin, N.H.; Mr. and Mrs. Edward Young, Misses May Mather and Ethel Green, Coaticook.

"Yes, sir," said the man in the cell, "when I was admitted to the very best houses."
"And what brought you here?"
"They caught me coming out."
Townley—I see you raise your own vegetables.
Subbuss—Oh, no. I simply plant a small garden so as to keep the chickens at home.

AYER'S CLIFF PERSONAL AND GENERAL NEWS

Library Entertainment Will Be Held—Christian Endeavor Has First Fall Meeting.

AYER'S CLIFF, Oct. 6.—Mr. and Mrs. P. McDermott, Mr. Bryan McDermott, Cookshire, Mr. and Mrs. Charles G. McDermott and daughter, Natalie, of Montana, were guests, on Tuesday, of Mr. and Mrs. A. J. McIntosh.

Miss Muriel Fish was at home for the week-end from Way's Mills, where she is teaching this year. Miss Gladys Buckland motored to Sherbrooke on Saturday, to attend "The Maid of the Mountains." Miss Irene Chaddock spent the week-end in Cookshire. Miss Severight and Miss Chaddock are leaving for Montreal, this week, to attend the Teacher's Convention.

Mr. and Mrs. Willis Dustin motored to Beebe on Sunday.

Entertainment to be Held.
The first entertainment under the auspices of the Ayer's Cliff library will be given on Thursday evening, October 13, Mr. S. Thompson Blood, impersonator of the White Entertainment Company, Boston, will delight the audience as he has been in this business since his boyhood, when he impersonated the parents and neighbors. He has appeared 190 times in Boston alone. Tickets are on sale at the stores at Ayer's Cliff Hatley, and Way's Mills.

The Women's Institute will meet with Mrs. R. Amy on Friday afternoon, at 3 o'clock. All should come early so as not to miss any of the important discussions. The topic for the afternoon will be "Settling the Dust."

Christian Endeavor Meets.
The first meeting of the Christian Endeavor Society after the summer holidays, was held on Sunday evening. The president, Mrs. J. M. Elam, was leader. The topic was an interesting one, and especially suitable for the opening of a year's work, "Our Church Privileges and Obligations." A number present named various privileges and obligations which were discussed. Included in the lesson were Roosevelt's Nine Points on Church Going: 1—In this actual world, a churchless community, a community where men have abandoned and scoffed at or ignored their religious needs, is a community on the rapid down grade. 2—Church work and church attendance mean the cultivation of the habit of feeling some responsibility for others. 3—There are enough holidays for most of us. Sabbaths differ from other holidays in fact that there are fifty-two of them every year. Therefore, on Sabbath, go to church. 4—Yes, I know that one can worship the Creator in a grove of trees, or by a running brook, or in a man's own house just as well as in church. But I also know, as a matter of cold fact, that average man does not thus worship. 5—He may not hear a good sermon at church. He will hear a sermon by a good man who with his good wife, is employed all the week in making hard lives a little easier. 6—He will listen to and take part in reading some beautiful passages from the Bible, and if he is not familiar with the Bible, he has suffered a loss. 7—He will take part in singing some good hymns. 8—He will meet and read or speak to good quiet neighbors. He will come away feeling a little more charitable toward all the little, even toward those excessively foolish young men who regard church-going as a soft performance. 9—I advocate a man's joining in church work for the sake of showing his faith by his works.

Next Sunday evening, Mrs. H. H. Stillier will be the leader. The young people, especially are asked to be present.

WILL EXPECT THE ALLIES TO KEEP PROMISE

Head of German Financial Delegation Discusses the Reparations Question.

(Associated Press Despatch)
 PARIS, Oct. 6.—Germany will expect the Allies to keep the promise given at Spa that the total sum of reparations to be demanded of Germany shall be fixed at the Geneva conference this autumn, Von Mutius, head of the German financial delegation in Paris, informed the Associated Press yesterday.
 To prepare the basis, he said, there should be direct but informal negotiations between French and German experts.
 Neither the time nor place of the meeting nor any of the details of such conversations regarding reparations, Von Mutius declared, had been determined upon.

ALL PERSONS MUST PAY THE THEATRE TAX

Judgment States that All Persons Entering Amusement Hall Must Pay Tax.

(Associated Press Despatch)
 MONTREAL, Oct. 6.—Persons entering places of amusements, even when not purchasing a ticket, but by means of a pass, or through the compliance of a theatre management or employee, must buy an amusement tax ticket. This was the judgment handed down yesterday by Mr. Recorder Scoble in the case of the city of Montreal vs. Joseph Jette, and the same plaintiff against Juana Brindle. The cases were joined for the purpose of evidence and argument.
 Jette is the ticket taker at the "Canada," a moving picture theatre, and the woman is the ticket seller.
 He was accused of permitting persons to enter the theatre without paying the amusement tax, and the defendant, Brindle, is accused of being a party to this offence.

HAD PLANNED TO HAVE GUNMEN ROB GAMBLERS

Gang Brought to Philadelphia to Hold Up Gambling Houses.

(Associated Press Despatch)
 PHILADELPHIA, Oct. 6.—Five gunmen were brought to this city from New York more than a week ago in a carefully laid plot to rob gambling houses and large individual winners, according to a confession the police say was made yesterday by Christopher Murano, who is in a hospital with two bullet wounds in his stomach. Murano was wounded early on Sunday when a squad of police raided an alleged gambling house and found the inmates backed up against the wall, threatened by five masked men, who were going through the gamblers' pockets and stacking money and jewelry on the table.
 Joseph McGinn, a detective, was fatally wounded in the fight which ensued. Murano, according to the police, admitted that he shot McGinn. Three of the alleged bandits are in prison, while the police are searching for the fifth man, who it is said escaped in a taxicab during the fight.

supplying of milk rations at the Central School, which began again last month, entails a heavy outlay at the present price of milk, while the nurses' salary, transportation, etc., and the work for the children of civilians at the Child Welfare Clinic strain the resources of the association to the utmost. Nevertheless, they intend to carry on, and if necessary, appeal to the public to assist in supporting work which is entirely for the benefit of the community.

The urgent need of school inspection was again emphasized, and the hope was expressed that the school board will meet the wishes of the association. The minutes of the last meeting were read and confirmed, and a letter read from Mrs. J. Charlotte Hannington, chief superintendent of the V. O. Order, in reference to the work in Sherbrooke. It was announced by the secretary that Mrs. McGlashan, the V. O. nurse, had for the present given up the idea of going further west, and had decided to remain in her position. Mrs. McGlashan's work had been so thorough and successful that her departure, it was felt, would be a distinct loss.

Miss McSwiggin, graduate nurse, who took the place of Mrs. McGlashan while the latter was absent on her vacation, gave the report of the month as follows: Old cases 7, new cases 10, medical cases 5, obstetrical 2, tubercular 1, pre-natal visits 10, child welfare 15, nursing visits 49, total number of visits 104. After some further discussion the meeting adjourned.

ST. PATRICK MISSION CIRCLE.

Misses Ethel and Gertrude Paul entertainers of the members of the St. Patrick Mission Circle at the home of Mrs. F. J. Griffith, Quebec street, and a large attendance indicated that the meetings of the Circle are much enjoyed and looked forward to. Owing to the absence of the President, the meeting was called to order by the Vice-President, Miss Gladys

receiving. The readings from "My Changeless Friend" were continued, and also an article dealing with the opportunities for work for the foreign missions.

Miss Bradley read a paper in connection with the foundation of religious orders in India among the natives. The Indian converts, after years of training under competent supervision, are able to do much good work among their fellow-countrymen, and it is the desire of every missionary to establish such congregations in his territory.

Several plans were suggested for entertainments to take place during the fall and winter, but no definite decision was made, as it had been found impossible to conclude arrangements for the entertainment already decided upon for October 25th, and the matter would have to be left until later. Mrs. Griffith kindly served refreshments, assisted by Miss Millet, and a number of musical selections were listened to with much appreciation before the meeting closed.

SHERBROOKE POULTRYMEN HELD AN INTERESTING SESSION.

At the regular monthly meeting of the Sherbrooke Poultry Association, held last evening in the E.T.A.A. office, several important matters pertaining to the advancement of the association were brought up for discussion.

Mr. George Berwick, vice-president was in the chair, and a large attendance of members was indicative of the interest in the coming winter poultry show, a much anticipated event.

Arrangements for the show were got well under way, and everything points to a "bigger and better" affair than has ever been held in the city. Some correspondence from Quebec in regard to the show were read, and a schedule for the winter prize list was drawn up, to be sent to the Department at Quebec for approval.

Mr. Lang, from the Experimental Farm, Lennoxville, was present and gave some timely suggestions, and the members realizing that Mr. Lang "knows a thing or two" about poultry, arranged to have him give a practical talk, at the next meeting, on the care and feed for birds and hens for winter laying.

After a vote of thanks was tendered Mr. Lang for his good advice, the meeting adjourned, the members carrying away with them a very satisfied feeling regarding the prospects for the big winter event.

DONATION TO G. W. V. A.

A very pleasant surprise was given to the G. W. V. A. at the regular meeting held on Monday evening in the Club Room, by the gift of \$1,492 from the Patriotic Association, which is now winding up its business affairs, concluding the great work accomplished during the war. The letter from the Treasurer, Mrs. E. H. Drury, conveying the donation, stated that the money was to be held in trust by the executive of the G. W.

LOCAL TRADE BODY ADOPTS SUGGESTION

Passes Resolution Sent by Brantford Chamber of Commerce in Interests of Merchants.

At the meeting of the Board of Trade held last evening, a resolution was adopted, at the request of the Brantford Chamber of Commerce, to co-operate with that body in drawing to the attention of the Minister of Finance the fact that several merchants have been fined for failure to send in employers' Tax return forms, because they did not know that such was necessary.

It appears that several merchants, ignorant of the necessity of sending these returns, not even knowing that such forms existed, have been fined amounts varying from \$20 to \$250, and in many cases the fine caused them to go out of business.

The Brantford Chamber of Commerce has taken the matter up, and has sent a copy of a resolution to the various trade and commerce bodies of the country, asking that they adopt similar measures to bring to the notice of the Minister of Finance the fact that injustice has been caused by this procedure, and that where the merchant was found guilty, ignorance of the regulations and not the purpose of evading duty, as nothing would have been gained by omitting to send the forms, was the cause of the error.

The local Board of Trade decided to comply with the request of the Brantford Chamber, and passed the resolution.

V. A. for the up keep of the Dormitory and when this was no longer required, any balance remaining could be applied to the general purposes of the Association. Comrade Forbes Hale, the President, who was in the chair, expressed, on behalf of the Association their appreciation of the action of the Patriotic Association, which had always concerned itself with the welfare of returned soldiers, and had, in the Khaki Club, provided a home for the homeless.

A vote of thanks was unanimously carried to the Patriotic Association, and the Secretary was requested to embody the resolution in a letter to Mrs. Bowen, President of the Patriotic Association.

Arrangements were made for a Boxing Tournament to be held in the Armoury at an early date, which it is believed will be very attractive. Although the attendance was large, it was decided to postpone the election of officers till the next meeting a fortnight hence, of which due notice will be given. No other matters of business being brought forward, the meeting adjourned.

ANNUAL RECEPTION TO BE GIVEN TONIGHT.

It is announced that the annual reception tendered by the students of the university to the new comers to Bishop's College will be given in the council chamber tonight. It will take the form of a social evening, at which all the young men and women will be able to meet each other.

With the increasing number of women who today are anxious to avail themselves of the advantages of a university course, some such arrangement as this is an obvious necessity.

Indeed, with the opening of a women's hotel by Miss Gill at Harold Lodge, which it is hoped will become a permanent establishment, it is more and more evident that the fairer sex even here in our midst intend to play a much greater part in university life than has been customary in the past.

Election of Officers for Ensuing Year.

Mr. R. T. Moore, arts '21, received the honored position of senior man of the university by a vote that was all but unanimous at a bye-election held recently at Bishop's College. Last June the choice fell upon Mr. C. Ward, B.A., who at that time anticipated returning to Lennoxville for one year's post-graduation work. Mr. Ward, however, has been unable to realize his ambition, and thus a bye-election became necessary.

Among the women students, Miss Iris I. Nichol, of Lennoxville, has been chosen as senior.

Other officers of the Students' Association for the ensuing year are: Mr. L. F. Martin, secretary, and Mr. Geo. Savage, treasurer.

"The Mitre," the official publication of the university, is under the management of the following students this year: Editor-in-chief, Mr. A. T. Carson; business manager, Mr. Aylmer Morris (of Sherbrooke); arts editor, Mr. T. W. Sweeting; assistant arts editor, Mr. A. E. P. Scott; assistant business editor, Mr. W. E. Shephard; athletic editor, Mr. H. O'Donnell (of Sherbrooke.) In addition, the women students and the divinity men are both represented on the staff, as are the graduates also.

Piping Hot Dishes and Cool Cooking

—are certain with the Electric Range

Piping hot dishes because perfect heat control permits leaving the dish in until the last moment before it is served. Oven door can be kept shut—no danger of over-cooking.

Cool cooking because all the heat is used inside the range—no vagrant heat making an inferno of the kitchen.

Those two big points are enough to make the Electric Range superior, but there are others—cleanliness, ease of operation, cheapness and general satisfactoriness.

See our demonstration of the Moffatt Electric Range. It is backed by a real guarantee. Drop in any time.

When Coulombe was arrested by the local police here last week, a large amount of goods was found in his possession, which has not as yet been claimed, the booty including a suit case filled with several pairs of oxfords; furs, four rifles, a sword, hunting knife, cartridges and odds and ends of different kinds.

INVESTIGATE THE BURNING OF BIG SHIP

Germany Will Be Asked for an Explanation by the Allies.

(Associated Press Despatch) PARIS, Oct. 6.—The Inter-Allied Commission in Berlin will be requested to investigate the circumstances of the burning of Hamburg of the German steamship Bismarck, which was building at a shipyard in the port of Hamburg, and was to have been delivered to the Allies under the terms of the peace treaty.

Berlin despatches on Tuesday announced the burning of the Bismarck, which was to have been a steamer of 56,000 gross tons, nearly 2,000 more than the tonnage of the Vaterland, now the Leviathan, which would have made her the world's largest steamer, and added that no explanation was given in the Hamburg advices as to the cause of the fire. The Bismarck had been virtually completed and would have been surrendered to the inter-allied naval commission within a few weeks, according to the provisions of the treaty of Versailles.

The French Government will also ask Germany for explanations regarding the burning of the Bismarck, the foreign office stated today.

A talk on **QUALITY:**

Nature's Quality

IT IS one of Nature's interesting providences that the colder the climate in which an animal lives the heavier and thicker his fur. This is a most important factor in Fur qualities. This is why the fur pelts produced in a consistently cold climate surpass all others in their quality and beauty. Our own Fur Buyers go each year into the heart of the great snow-covered North, the greatest and best fur-producing country of the world. They KNOW Fur qualities, and buy only the choicest or "prime" skins.

Thus Nature, together with our unequalled buying facilities and rare experience, enable us to offer you furs of quality unsurpassed,—yes, more, unequalled—the world over.

We invite you to inspect our Furs of Quality.

BY-LAWS PASSED.

The three by-laws submitted by the Council were endorsed by the ratepayers on Monday. The vote was not large but as large as could be expected, considering the fact that it was only on Saturday that the Council issued the notice of the day of voting.

Considerable opposition was manifested in the voting. This opposition was not confined to any one Ward but distributed throughout the city. Though a minority, those who voted against these by-laws should not be overlooked by the civic authorities. Their opposition was due to some reason and while this cannot be definitely defined it was probably based upon a feeling that the large sums voted from time to time are not always judiciously and economically expended.

The public are not wholly indifferent to the conduct of municipal affairs. If they are the annual tax bill rudely awakens them to the fact that they must pay the bills for better or for worse.

The passing of the by-laws clears the way for certain definite paving work next summer. The public will look to the Council to follow the plan laid down.

The ratepayers of Sherbrooke in dealing with money by-laws have always shown a disposition to meet the Council more than half way in any progressive movement. They have faith in the future of the city and ask only that wise and economic considerations shall control the expenditures which they from time to time authorize.

DR. J. O. CAMIRAND.

In the passing away of Dr. Camirand, Sherbrooke loses a man who has served the community well through many years. Not only in his profession as a leading physician of the city, but as a public-spirited citizen, interested in the advancement of the general public welfare.

As Mayor or Councilor, and as president or member of the Board of Trade, he kept for many years in close touch with municipal and commercial affairs and rendered important service to the city.

Dr. Camirand was of the type of citizen that a community can ill afford to lose. Public-spirited, broad-minded, of strict integrity, active and generous, he held through his life the respect of his fellow men. In his home community he was an outstanding figure in his generation and in his passing is closed a life, honorable and serviceable.

QUEBEC'S RURAL HEALTH PROBLEM.

(By William A. Styles, M.D., Executive Secretary Baby Welfare Committee.)

The Baby Welfare Committee of Montreal co-operating with the Provincial Red Cross Society, has recently completed a very interesting and comprehensive investigation into rural health conditions as existing in the Eastern Townships—full details of which will appear shortly in the press. It would appear as a consequence of this Health Survey that the rural child is physically inferior to the urban child of the same age.

That the welfare of people on our farms is of vital importance to all Canadians is beginning to be generally recognized. Back of the increased cost of foodstuffs lies the fundamental fact that production is not keeping pace with consumption, because of the decrease in population in farming sections and the uncertainty of securing help necessary for carrying on the business of the farm.

Because our food supply must come from the country; because many farm products are consumed without cooking and to be safe must be produced under sanitary conditions; and because of the close intermingling of rural and urban population, the problems of rural and urban Health Conservation are so closely interwoven as to be practically identical. Increased efficiency of rural health adminis-

tration present and the provision of an adequate and competent medico-nursing service through the inauguration of "Health Centers," etc., are factors which will ultimately have a part in repopulating the farms and revitalizing the physical efficiency of rural Canadians.

MENNONITES TO DECIDE TODAY RE NEXT MOVE

Mennonites of Manitoba Are Given a Final Warning by the Authorities.

(Associated Press Despatch) WINNIPEG, Oct. 6.—Mennonites of Manitoba will meet at Rhineland today, to decide, finally, whether they will obey the law or leave Manitoba to seek "religious freedom" elsewhere.

Last week it was announced that final warnings having been given, wholesale prosecutions would take place in the Mennonite districts, if heads of families persisted in defiance of the Manitoba school attendance act. Saturday summons were served on five Mennonites, inaugurating the new policy. They were to come up for trial yesterday, but postponement was authorized by Colonel J. G. Rattray, Provincial Police Commissioner until Saturday, when the Mennonite leaders will make known the decision of the meeting.

NOT A SINGLE MINE IN CROW'S NEST IS IDLE

"One Big Union" Strike Call Is Obeyed by Only a Few of the Miners.

(Associated Press Despatch) CALGARY, Alta., Oct. 6.—Not a mine is idle in the Crow's Nest Pass in spite of the "One Big Union" call to a strike in the coal mines there yesterday, following their strike in the Drumheller field.

The entire result of their efforts thus far is the strike of some 400 miners out of 1,300 in the Drumheller field. At Taber, the big Canada West Mines, one of the big union strongholds, is working full capacity, and the North American collieries at Coalhurst, another one big union camp, is also working. The Minister of Labor believes that this sounds the death knell of the O.B.U. efforts to create a disruption of the industry of Alberta.

By this order the Kelly Company was ordered to pay the Provincial Government \$1,680,956 in connection with the alleged poor workmanship in the building of the new Parliament buildings.

A. J. Andrews, K.C., acting for the appellants, characterized the award of the appraisers as: "An attempt to charge Kelly a million dollars for messing up the lot. GRAY-DORT

UNIT by unit, and feature by feature, a comparison shows the Gray-Dort to be bigger or stronger or better than other light cars. The motor is bigger, with cooling system to match; 40-pound crankshaft; three-ring pistons; Westinghouse starting and lighting; big axles; long springs; deep upholstery; hand-tailored top; side curtains opening with the doors; Thermoid brake-linings. DEATHS REPORTED

MRS. H. W. EDWARDS, COMPTON. Mrs. H. W. Edwards, one of the older residents of this vicinity, passed away at her home, "Maplehurst" on Compton Road at an early hour on Sunday, after a short illness from pneumonia, and was laid to rest in the family burial lot in Mount Forest Cemetery on Tuesday afternoon following the funeral service held at her late home. Mrs. Edwards was formerly Miss Helen Oliver, daughter of the late "Squire" W. L. Oliver, of Barnston, where she was born and lived until her marriage to Mr. Edwards forty-nine years ago. Since then she lived

in Coaticook, where her husband was in business and where their children were born to them. Later following the destruction of her home by fire she removed with her family to "Maplehurst" a few miles out of town where they have made their home for the past twenty-five years.

Mrs. Edwards was sixty-six years of age and has devoted her entire life to the service of her husband and children gaining from them a love and respect seldom equalled, and to whom the sudden and unexpected passing away of "mother" is an affliction hard to be borne.

The late Mrs. Edwards is survived by her husband, Mr. H. W. Edwards, two sons, Dr. A. H. Edwards, of Montreal, and Mr. C. O. Edwards, of Hillhurst, four daughters, Mrs. A. C. Hanson, of Manitoba, Mrs. Florence Bryan, of Seattle, Mrs. J. Lee Alexander, and Mrs. Clara McGinn, of Hillhurst, sixteen grand-children, one great grandchild, two sisters, one brother and a large circle of relatives and friends who sincerely grieve at the loss of so dear and sympathetic a friend.

In the absence of Rev. Mr. Jones, pastor of the Methodist Church, of which body Mrs. Edwards was a life long member, the funeral service was conducted by Rev. Cecil Stevens, pastor of St. Stephen's Church, with Mr. E. O. Baldwin as manager, and Messrs. James Parker, Thomas Fletcher, P. F. Smith, John Brennan, J. Broderick and H. D. Snow as bearers.

The hymns "Beautiful Isle of Some Where" and "Saved by Grace" favorites of the deceased were tenderly rendered by a quartette consisting of Mrs. R. H. Gooly, Mrs. S. C. Smith and Messrs. L. G. Moulton and S. C. Smith, accompanied by Prof. Stone, members of the choir of the Methodist Church.

MR. MORRISON, KINNEAR'S MILLS. KINNEAR'S MILLS, Que., Oct. 6.—Another great loss was felt in the

community in the passing away of Mr. Henry Morrison, Sr., an old and revered resident of this place. Death occurred on Wednesday morning September 22, after a year of falling health.

The late Mr. Morrison was born at Kinnear's Mills over seventy-nine years ago, and was a life-long resident of this place. The funeral services were conducted on Friday at 2 p.m. in the Chandalish Presbyterian Church, by Mr. Stuart, who spoke sympathizingly to the mourners of the departed loved one. How those who had labored with him in his church and Sunday school works would miss their leader. The noble personality of the man was always visible in his every-day life, showing his life to be a sacrifice to the great teaching of his master. The pall bearers were: Messrs. Henry and George Morrison, Dr. F. R. Dickson, Ernest Bailey, George Coxon and William Grady.

The deceased took a prominent part in everything that was beneficial to the place and will be greatly missed by everyone. He leaves to mourn his loss, his wife, ten children, fourteen grand-children, one sister, three brothers and a host of friends. Those of the family who were able to be present were: Mr. and Mrs. Gordon Morrison, of Beecher Falls, Vt.; Mr. Ruben Morrison, of St. Johnsbury, Vt.; Mrs. Fannie Wilson, of Hanover, N.H.; Mrs. Henry Adley, Mrs. Gertrude Blodgett, and Miss Myra Morrison, all of this place. Interment took place in the family lot of the Presbyterian cemetery.

MRS. JOHN MATHESON, MILAN. MILAN, Oct. 6.—Death has again visited the neighborhood and called Mrs. John Matheson, who for many years resided in this community. Mrs. Matheson was stricken with palsy on September 26, 1916, and since then has suffered great pain. She was tenderly and devotedly

cared for by her youngest daughter, Jenna (Mrs. Wm. Foote) until last April, when her eldest daughter, Effie, (Mrs. Alex. Morrison), of Lingwick Road, took her, and there she died on Monday afternoon, the 27th.

Her husband predeceased her thirty-six years ago, being instantly killed by a falling tree while engaged in chopping, while in the woods alone. Of their seven children, five are living, Marion having passed away in 1907, and Donald in 1914.

She is survived by (Effie) Mrs. Alex Morrison, with whom she lived all summer; Mary, of Boston, Mass.; Norman, of Milan; John, of Sherbrooke; and (Joana), Mrs. Wm. Foote, of Lennoxville.

MRS. WILLIAM ROSS, MILAN.

MILAN, Oct. 6.—One of the oldest residents of this community passed away on Sunday evening, September 26th, in the person of Mrs. William Ross, at the advanced age of ninety-nine years. Mrs. Ross was endowed with unusual good health, and remained quite active until last spring, when she was seriously ill for a couple of months. Her health improved some, but she never regained her strength as before, but she maintained all her faculties almost to the end, being even able to read without glasses until quite recently.

Her husband predeceased her nineteen years ago. She is survived by three daughters and two sons, Miss Margaret, Donald, Miss Christie, who are on the old homestead; Malcolm, also of Milan, and (Annie) Mrs. Kenneth MacIver, of Boston, Mass. These were all present at the deathbed, with the exception of Annie, who only left a few weeks ago, after visiting her mother. The funeral service was conducted at the home at ten o'clock Wednesday morning by Rev. M. McLeod, of St. Luke's Church. Interment was in the family plot in the Dell cemetery.

COVELSKIE HAD THE DODGERS BAFFLED WITH HIS SLANTS, THE INDIANS WINNING FIRST GAME

Cleveland Gave Their Pitcher Brilliant Support in the Field, Captain Speaker, Especially, Robbing the Brooklyn Players of What Looked Like Clean Hits on a Couple of Occasions—Brooklyn Used Three Pitchers During the Game—Large Crowd in Attendance.

EBBETT'S FIELD, Brooklyn, Oct. 6.—The Cleveland Indians, champion of the American League, topped over the Brooklyn Dodgers by a score of 3 to 1 in the first game of the World's Series. Yesterday the National League champions were helpless before the mystifying slants of the big spitball pitcher Covelskie. He was given sterling support by his team mates, and especially Speaker, who ranged far and near, robbing the hapless Brooklyn of apparent hits.

O'Neill started at the bat with two doubles. The official attendance was 23,894.

The following details tell how Cleveland snared the game:

FIRST INNING

CLEVELAND.—Evans, the first man up, hit to Olsen and was thrown out at first. Wambsgans lined one out to Wheat, who had to come in fast to make the catch. Speaker fanned and Marquard was given a big cheer by the crowd. NO RUNS, NO HITS, NO ERRORS.

BROOKLYN.—Olsen fled to Wood on the first ball pitched, and Johnston struck out. Covelskie's "spit ball" being too much for him. Sewell threw out Griffith at first. NO RUNS, NO HITS, NO ERRORS.

SECOND INNING

CLEVELAND.—Burns sent up a high fly behind Konetchy, who picked up the ball and threw it into left field. Burns romping around on the bases and crossing the pan with the first run. Olsen threw out Gardner at first, but Wood received four wide ones. Sewell lined out a single and Wood reached third. O'Neill then came along with a double to left field, which put Wood home and Sewell on third. Covelskie ended the inning by grounding out to Burns. TWO RUNS, THREE HITS, NO ERRORS.

BROOKLYN.—Wheat fled to Speaker, who made a wonderful catch of what appeared to be a safe hit. Myers fled to Wood, who picked the ball off the wall, and Konetchy was the third out. Sewell to Burns. NO RUNS, NO HIT, NO ERRORS.

THIRD INNING

CLEVELAND.—Evans was passed on four wide ones and was sacrificed to second by Wambsgans. Speaker hoisted to Wheat and Johnston took Burns' grounder and Evans was run

down between second and third. NO RUNS, NO HITS, NO ERRORS.

BROOKLYN.—Kilduff was thrown out at first by Sewell. It was a close play at the bag. Krueger was out. Gardner to Burns. Gardner also threw out Marquard at first. NO RUNS, NO HITS, NO ERRORS.

FOURTH INNING

CLEVELAND.—Kilduff tossed out Gardner at first. Wood came through with a long drive into centre for two bases. The ball hit the bleacher fence on the bounce. Had it struck three inches higher it would have been a home run. Sewell fled to Myers. Wood then scored on O'Neill's two base hit. It was O'Neill's second hit of the game. Kilduff threw out Covelskie at first. ONE RUN, TWO HITS, NO ERRORS.

BROOKLYN.—Olsen got Brooklyn's first hit when he lined the ball over second base. Johnston forced Olsen, Wambsgans to Sewell. Griffith singled, Johnston going to second. Wheat fled to Evans, who knocked Speaker down in going for the ball. Myers ended the inning with a hoist to Wood. NO RUNS, TWO HITS, NO ERRORS.

FIFTH INNING

CLEVELAND.—Evans fled to Wheat and Wambsgans struck out. Speaker fled to Griffith, who leaped up against the wall and speared the ball with his gloved hand. The catch cut off a short two base hit. NO RUNS, NO HITS, NO ERRORS.

BROOKLYN.—Konetchy fled out to Speaker and Kilduff sent up a high fly to Wood. Krueger was thrown out at first by Gardner. NO RUNS, NO HITS, NO ERRORS.

SIXTH INNING

CLEVELAND.—Burns fanned and Gardner fled to Wheat. Wood also struck out. NO RUNS, NO HITS, NO ERRORS.

BROOKLYN.—Lamar batting for Marquard lined out to Sewell, who made a pretty leaping catch. Olsen got his second hit, a single to centre. Johnston bunted, but Covelskie threw him out at first. Covelskie also threw out Griffith at first. NO RUNS, ONE HIT, NO ERRORS.

SEVENTH INNING

CLEVELAND.—Mamaux went in to pitch for the Dodgers and celebrated his appearance by striking out Sewell, O'Neill and Covelskie in quick order. NO RUNS, NO HITS, NO

ERRORS.

BROOKLYN.—Wheat led off by crashing a hit into right for two bases. Sewell threw Myers out at first. Wheat going to third. The Cleveland infield played back and while Burns was throwing out Konetchy at first, Covelskie taking the throw, Wheat scored. Kilduff ended the inning by fanning. ONE RUN, ONE HIT, NO ERRORS.

EIGHTH INNING

CLEVELAND.—Jamieson batted for Evans and was thrown out at first by Olsen. Wambsgans bunted and was thrown out at first by Mamaux. Johnston knocked down Speaker's grounder and threw him out at first. NO RUNS, NO HITS, NO ERRORS.

BROOKLYN.—Jamieson went into left field for Cleveland. Krueger was robbed of a three base hit by Speaker's wonderful catch of his liner. Mitchell batted for Mamaux and singled to right. Neiss ran for Mitchell. Olsen walked, but Johnston popped to Gardner and Griffith forced Olsen at second. NO RUNS, ONE HIT, NO ERRORS.

NINTH INNING

CLEVELAND.—Cadore went into the box for Brooklyn. Smith batted for Burns and was thrown out at first by Kilduff. Gardner grounded out to Konetchy. Johnston batted for Wood and was tossed out at first by Cadore. NO RUNS, NO HITS, NO ERRORS.

BROOKLYN.—Smith went into right field and Johnston played at first base for Cleveland. Wheat was thrown out at first, Johnston to Covelskie. Myers fled out to Speaker, who made another nice catch. Konetchy ended the game by fanning. NO RUNS, NO HITS, NO ERRORS.

BASEBALL BOSTON BRAVES BEAT ST. JOHNSBURY

The Boston Braves defeated the St. Johnsbury aggregation yesterday on the St. Johnsbury diamond by the count of 7 to 1. Costly errors behind Vitty, the "Saints' twirler", who pitched a wonderful game, cost the home team five runs in the second inning. The Braves had their regular line up on the field which consisted of Eays, Gowdy, O'Neill, Hoike, Ford, Wilson, Marranville, Powell, Sullivan, Cruise, Scott, McQuillen and Chrisenbury. The playing of Gowdy and Marranville were the features of the game. These two players, of World Series fame, lived up to the reputation that preceded them to St. Johnsbury and kept the immense crowd of fans on its "toes" all the time with their sensational playing.

CALGARY, Alta., Oct. 6.—There was no change in the miners' strike in Alberta last night. There are still about five hundred men idle at Union officials claim there are over Drumheller, although the "One Big" a thousand idle. At the Pas mines conditions were quiet, though it was stated that the miners at Michel came out Monday, and that Fernie is likely to strike any day.

More hospitals are needed for the sick and money is needed in order to equip these, declared Mr. Grenfell.

COUNCIL AT COATICOOK IN SESSION

Many Matters of Importance Taken Up—Big Bill Before the Council.

COATICOOK, Que., Oct. 6.—The regular monthly meeting of the municipal council was held on Monday evening, at which was present Mayor A. L. Dupuis and Aldermen Laroche, Leclerc, Parker, Dionne, Akhurst and Giroux. Alderman Nourse was out of town and unable to attend the session. The usual number of bills were received and acted upon. Among the bills received was one from the Gilmour Chair Co. for an amount something over \$2,700. Some five years ago this company approached the council with an offer to extend their business in Coaticook, thereby employing more hands, providing the council was prepared to give them some assistance.

GUESTS OF THE ROTARY CLUB

(Continued from page 1) as a better place, because of the initiative of Rotary and the co-operation of the other organizations that will work with it."

Mr. MacKinnon then presented Mr. C. J. Aitkinson, chairman of the Boys' Work Committee of the New York Rotary Club.

Mr. Aitkinson Speaks.

The speaker began by stating that, while he had spent the last six years in America, he was a Canadian born, and had lived in this country for fifty-seven years, moreover, he was an Eastern Township man, having been born in the County of Shefford. He extended the greetings of the New York Club to the local members, and said that they would be assured of a good reception if ever they visited the metropolis of the continent. He announced the subject of his address, "The Conservation of the Boy Asset of the Community," and launched into his topic by showing that, while the country paid particular attention to the natural resources of the land, and "While trees were protected, and hogs were inspected, the boy was neglected."

The speaker produced statistics to show that, while large sums were spent on the protection of real estate, little or nothing was expended on the youth, the most valuable asset the city had. He showed that, whereas property which was destroyed by fire was no longer an asset or a liability, the boy who went wrong was an expense to the community, which had to keep him in a school of correction. He also proved that with the same amount of money that was used to protect property against loss, the boy would be insured against failure and loss to the community. At the present cost of keeping inmates in reform schools, which was certainly increasing, the boy could be provided with places of amusement and gathering where he could meet those who would have an elevating influence upon him, and the need for these houses of correction, "apologies for past neglect" would be no more. The present system of juvenile correction was compared to an ambulance at the foot of a cliff, awaiting victims who would fall over a precipice, while the reasonable step would be to "fence off the dangerous places before the accidents occurred."

Work Needed Among Less Favored.

The great need was among these termed "under-privileged" those who did not have the benefits of education, home training, healthful or salutary environment. "The L. G. home with spacious grounds more often contains few boys, while the small tenement is filled with 'crowing lads,'" said M. Aitkinson. Another fact that hindered the boy's progress was prejudice against race, religion, or color. Of all boys in a given community, it was estimated 4 per cent were over-privileged, 30 were simply privileged, and the remaining 66 per cent were under-privileged. From this number came 90 per cent of the court cases. The great work lay in this class, and the cause of the under-privileged boy must be championed. If not for the boys' sake, for the sake of the community and the saving in public funds, this must be undertaken. Community clubs must be formed, without any definite creed, but embracing all under a high moral standard. Then, when the wayward had been gathered in, they could be directed in the path of their respective creed. There must be vocational classes, hobby clubs, something to interest and amuse all and suited to every capacity and taste.

Co-operation Needed.

But to accomplish this, the Rotary must have the co-operation of every organization in the community. All creeds must join in the work, and as this is done in other cities so must it be here.

The speaker quoted figures to show that since the community club had been formed in Toronto, the number of juvenile delinquents had been reduced in the section where the greater number of offenders originated, from fifty-four to seven in eighteen months. For every dollar spent in this work, \$5.55 had been saved the country, "and the boy was saved besides."

"I challenge this community to enter this work on the guarantee that, if, after one year after a community club is formed, the number of young offenders is not reduced by one-half, the Boys' Community Club will pay the expense of maintenance during that time," said Mr. Aitkinson, "and if you men don't get busy, I can safely say that the ladies here who have become interested in this undertaking will not give you a moment's rest until you do something."

Vote of Thanks Proposed

At the close of this address, Rev. Mr. Russell moved the vote of thanks to the speakers, and voiced his appreciation of the manner in which this work had been placed before the meeting. He assured the guests of honor that the citizens of Sherbrooke would readily show great sympathy for such a movement, and said that the hour had arrived when every organization must get together to work for the boy. He pointed out the great help that the Rotary had given to such work, and hoped that one meeting place for all the boys would be found in Sherbrooke. The seconder of the motion was Rev. Dr. Head, who said that he entertained high hopes for success in this undertaking here. He would like to see several such community houses opened, and would want to have everyone working together, irrespective of race or religion, with the sole object in view of making good Canadians. The men and women of the community should give all their energy to the conservation of the boy, and the speaker hoped that in this work Sherbrooke would be put on the map.

A by-law was finally submitted to the ratepayers and passed, granting the company five per cent. on all wages paid out by the company over a certain sum. This is now beginning to amount to a considerable sum, and is likely to develop into quite a serious problem for the town, as it is rumored the company is planning extensive additions to its plant and will likely employ double the number of hands which they now employ. Should this be the case, the town, under its agreement, which has five years yet to run, would be called upon to pay this company several thousand dollars per year, which will be a considerable burden upon the tax payers. The account was finally left with the finance committee for adjustment, as it was thought the wages of some carpenters who had been employed only temporarily on making repairs and extensions to buildings had been included in the statement and that only regular employees in the factory should be included. The very bad and dangerous condition of the sidewalk and railing

soon be received. Several other matters along Compton street was called to the attention of Alderman Giroux, chairman of the road committee who stated that his department would take immediate steps to remedy same. The claim of Mr. D. Lefebvre for \$35 damage caused to his auto by striking a pipe leading to a shut-off valve on the water mains on Main street, and which was protruding several inches above the road surface, was left with the road committee, with power to settle. A letter was received from the Chas. Neidner, Son's Co., requesting that a hydrant for fire protection be installed near their factory. This protection was promised to the company several years ago, and has been called to the attention of the council on several occasions, and requests have been made to the Water Company to install same, but the Water Company now claims it is not bound by their contract with the town to install any more hydrants, and that the town must stand the expense of any additional hydrants.

The council was of a different opinion, and instructed the town attorney to look into the contract between the town and the Water Company pertaining to hydrants and other matters concerning the town and Water Company, and report to the council. The matter of repairs to the water wheels at both power houses was also taken up. The council has been considerably criticized by some of the ratepayers for not making these repairs earlier in the season. However, this criticism is unjust to the council, as the parts for making the repairs were ordered as early in the spring as possible, and the repairs for one of the power houses have been on hand for some time. However, unfortunately the repairs received are for the lower power house, and it is necessary to do the repairs at the upper plant first. The repairs for this plant were shipped from York, Pa., on August 25th, and have gone astray. The railroad companies have tracers at work on both ends of the route, and the council is in hopes the parts needed will

be of importance were taken up and disposed of, after which the council adjourned. General Notes. Rally day service was held at the Methodist Church on Sunday last with a large attendance. Dr. W. L. Shurtleff had charge of the rally programme, which consisted of special music by the school and an exceedingly instructive and interesting address given by Dr. Shurtleff. The ladies of the Methodist Church intend having their annual harvest supper on October 18th, in the Methodist Church parlors. Miss Mildred Elliott left town over the week-end for Berlin, N.H., where she will visit relatives and friends. Mr. and Mrs. Stuart LeBourveau spent the week-end at Eaton Corner, visiting relatives and friends. Mrs. Ernest Bowen is spending a week with her sister, Mrs. McNaughton, of Waterville. Miss E. Cummings, accompanied by Mr. and Mrs. A. A. Woodman, left town a few days ago by auto for

Boston and other places of interest. Mrs. Guy Haynes and little daughter, of Pittsburg, N.H., and Mrs. Clark Haynes, with her two children, of Beecher Falls, are the guests of their mother, Mrs. F. D. Sylvester. Mrs. J. Crawford, of Athol, Mass., has been the recent guest of Mr. and Mrs. Stewart Lowe. Mrs. E. W. Akhurst, who has been at the home of her daughter, Mrs. A. J. Gromwell, for the summer, left town recently for Guelph, Ont., where she will visit her daughter, Mrs. Horace McElroy. Any person having notes or news of interest for the Sherbrooke Daily Record, kindly phone 61r2 from eight to twelve a.m., or mail post office box 9, and the same will be given prompt and careful attention. Mr. John Terrill, with Mrs. Terrill and family are leaving town on Wednesday next for Worcester, Mass., where Mr. Terrill has accepted a position. The first Blue Bird meeting of the season will be held on Friday evening next at the home of Miss Beal, on Stewart avenue.
