- BELLEVILLE, C. W.**—A Town in the Township of Thurlow and County of Hastings, situated on both sides of the River Moira, which debouches into the Bay of Quinté. It is the chief Town of the County, and it is a Port of Entry, doing a considerable business in imports, and also in the export of lumber, flour, and other agricultural produce, supplied by various manufacturing establishments in the neighbourhood, and by a flourishing farming district. There is a probability that the business of the port will be largely increased by its contiguity to the Marmora Iron Works, and to the quarries of valuable marble lately discovered and brought into active operation. The County is divided into North and South Ridings, each returning one Member to the Legislative Assembly. A steamer leaves every morning for Kingston, distant 54 miles, fare \$1.50 and \$1, and returns the same evening, calling also at Picton and Bath. Two other steamers, plying between Trenton and Montreal, call here on their passage up and down; fare to Montreal \$5 and \$2.50. The Town is on the line of the Grand Trunk Railway. There are two daily stages to Stirling, 15 miles, fare 50c., the earliest of which meets stages from Marmora and Seymour; another to Hungerford, 25 miles, fare \$1; and another daily to Madoc, 25 miles, fare \$1. Distant from Montreal 220 miles, and from Toronto 113 miles. Daily mails. Population about 7000.

**CHATHAM, C. W.**—A Town in the Township of Raleigh and County of Kent. It is the chief Town of the County. It is situated on the River Thames, about 18 miles eastward from where that stream debouches into Lake St. Clair. The river is navigable to Chatham for vessels of the largest class. Some of the finest sailing craft on the inland waters of the continent have been built at this place. The progress of Chatham within the last few years has been very rapid, and it owes much to the fine agricultural country and the enterprising class of settlers with which it is surrounded. It has several fine public buildings. The Great Western Railway passes through the Town near its present southern limits. An extensive trade is carried on here in wheat and other agricultural produce, and it is constantly increasing. Oak and walnut timber, West India and pipe staves are exported in large quantities. It is expected that a Canal from the River St. Clair to the Rond'Eau Harbour will shortly be constructed, passing through this place. Two steamboats ply regularly between Chatham and Detroit. Distant from Windsor and Detroit by Great Western Railway 48 miles, from London 64 miles, from Hamilton, 38 miles, and from Toronto 176 miles. Daily mail. Population about 6000.
