

WILL STEP OUT TO-DAY.

Appointed Time for Sir Charles Tupper's Exit Arrives.

MR. GUEVREMONT MAKES TROUBLE

Wants the Sorel Postmastership as Per Arrangement—Mr. Ratz Elected in North Middlesex.

Ottawa, July 6.—As was stated in to-day's Herald, Sir Charles Tupper intends tendering his resignation along with that of his colleagues to Lord Aberdeen to-morrow.

Mr. Guevremont, who resigned his Senatorship so as to give the position to Mr. Forget, president of the Richelieu and Ontario Navigation Company, is in the city. His friends say he was promised the Postmastership of Sorel when he resigned, but has not so far got it.

It now looks as if Mr. Guevremont had given up his Senatorship and is to get nothing in return. He was interviewing the Government to-day on the matter, and if he does not get a satisfactory answer, there is likely to be trouble over the deal, which was arranged for the purpose of electing Mr. Desjardins in Richelieu, but it was a lamentable failure.

Sir Hector Langevin is to get one of the two vacant Senatorships in the Province of Quebec. Mr. Angers, it is understood, is going to throw up his claims in favor of Sir Hector.

THE SCHOOL QUESTION.

Windsor, July 6.—The following item is taken from to-night's Free Press. Many rumors regarding a reported settlement of the school question are in circulation in the city. The chief report was to the effect that the question would be settled by the Manitoba Government bestirred by the Manitoba government yesterday.

POLITICAL NOTES.

Windsor, July 6.—Joseph Martin's friends say they are now raising a fund to contest Hugh John Macdonald's election. Mr. Martin left for Regina yesterday to act as counsel for the Liberal candidate, McInnes, who is protesting the election of Nicholas Floyd Davin.

Quebec, July 6.—The re-counting of ballots in L'Islet took place at Montmagny to-day, before Judge Pelletier. The result of this re-counting leaves six votes of a majority for the Liberal member, Dechene, instead of seven.

London, Ont., July 6.—The re-count held here to-day before Judge Edward Elliott, reduced Major Beattie's, Con., majority from 118 to 41. The judge did not count ballots marked outside the disc.

Beverton, Ont., July 6.—North Ontario's returning officer gave his official declaration here to-day, the vote being: Major John A. McGillivray, Con., 2,828; Mr. D. Graham, Ind., 2,827; majority for McGillivray, 1.

Walkerton, Ont., July 6.—A re-count in the North Bruce election was held here to-day before Judge Barrett, and resulted in increasing Mr. McNeill's, Con., majority from 10 to 31.

Berlin, Ont., July 6.—The re-count in South Waterloo resulted in reducing Livingston's, Ont., majority from 150 to 89. Judge Lacombe took the ground that if the cross appeared either in the oblong or disc it showed the intention of the voter, and allowed such to count.

Toronto, July 6.—An evening paper says it learns on excellent authority that Mr. Geo. O'Rourke, of this city, has been appointed to the vacancy in the Senate, occasioned by the death of Senator Reid.

Milton, Ont., July 6.—A re-count was begun in the Milton election before His Honor Judge Hamilton, here, to-day, and adjourned until Wednesday, the 8th inst.

MR. FRANKLAND'S APPEAL.

Toronto, July 6.—The counsel for Mr. H. R. Frankland in the return of East York, before Judge McDougall, say they have not the slightest doubt of winning on an appeal. A protest asking for the annulling of the election and alleging corrupt practices by agents is being prepared and a "scrutiny" will be asked for. A "scrutiny" is practically another re-count before the election courts, composed of Superior Court judges. Then the whole question of the mis-marked ballots will be opened up again.

ALONGSIDE THE CANDIDATE'S NAME SHOWED THE INTENTION OF THE VOTER TO VOTE FOR THAT CANDIDATE, ALTHOUGH NOT IN THE DISC.

Judge Masson declared Mr. V. Ratz, Liberal, duly elected by a majority of 62.

TERREBONNE TO BE CONTESTED.

Mr. Pettit, N.P., of St. Jerome, was in town yesterday, and, as a result, Messrs. Dandurand & Brodeur were retained to contest the election of Mr. Chauvin, Con., in Terrebonne. Some interesting and unexpected revelations of political corruption are expected.

DR. CHRISTIE'S MAJORITY 4NCREASED.

Lachute, Que., July 6.—Dr. Christie's majority in Argenteuil has been increased to 75 at the re-count, held here to-day, before Judge Taschereau, making a gain of two votes.

THE ST. ANTOINE RE-COUNT.

The scrutiny of the votes cast in the recent election in St. Antoine division for the House of Commons was concluded yesterday before noon. The final result was that Dr. Roddick's majority was increased from 137 to 173; the corrected figures being: Roddick, 3,077; Mackay, 2,904. Mr. Justice Lagunelo, at the conclusion of the re-count, declared the petition for the re-count to have been upset. He certified that Dr. Roddick was elected by a majority of the voters, and ordered that the costs of the successful candidate in the proceedings for the re-count should be paid out of the deposit of the defeated candidate.

All the ballots cast at poll 57, at 1208 St. James Street, which gave 45 for Mackay and 42 for Roddick, were thrown out, because they had been numbered and not initialized, as required by law.

MR. MORIN'S POSITION.

Some days since, the Conservative press published an alleged letter from Mr. Morin, the M.P.-elect for Dorchester, in which that gentleman was made to say that he would vote against Mr. Laurier. Since its publication, Mr. Morin has clearly and categorically denied the imputation sought to be drawn from his letter. He wishes it to be emphatically understood that he has been elected as an independent, and has further asserted that he will vote with the Laurier Government in favor of the repeal of the Franchise Act, and for the abolition of the superannuation and pension systems. Mr. Morin is a strongly an advocate of a return to the old system under which the electoral lists were prepared as the most ardent Liberal. In these respects, and probably in others, Mr. Morin is a strong supporter of the Liberal policy.

STILL WAITING.

The Liberal Leader awaits the Vice Regal Call—Political Notes.

There were no new developments in the local political situation yesterday. Hon. Mr. Laurier has not yet received the expected summons to Ottawa, and consequently the advent of the new administration is not yet in apparent sight. The Premier-elect will probably return to Arthursville to-day and will await in the seclusion of his own home the call to the highest position in the gift of the Canadian people.

GOVERNMENT SUSTAINED

On a Motion Concerning the Expedition to Suakim.

London, July 6.—The House of Commons by a vote of 275 to 190 rejected an amendment by Mr. Morley, protesting against a Government proposal that the Indian Government should bear the cost of the Indian troops sent to Suakim to participate in the Nile expedition against the Dervishes.

This proposal has proved so very unpopular that there was an idea that it might lead to a defeat of the Government on Mr. Morley's amendment. As it was, some twenty Unionists voted with the Liberals for the amendment, while many others abstained from voting.

After Mr. Morley's amendment was voted down, the original proposition was carried by a vote of 252 to 106.

London, July 7.—The Times has an editorial this morning on the Government proposal carried in the House of Commons yesterday to place upon the Indian Government the cost of the Indian troops at Suakim. The Times denounces the action of the Government in this matter as a shabby transaction and adds:

"The ministers have received such a lesson in the reduced majority on the question that it is unlikely that India will ever again be called upon for such a contribution."

AUSTRALIAN LINE.

Queensland May Join in Granting a Subsidy to the Steamers.

Vancouver, B.C., July 6.—From advices received by Australian steamer Mlowers, it now seems probable that the Queensland Government will join New South Wales and Canada in granting a subsidy to the Canadian-Australian steamship line. Capt. Bird on behalf of Jas. Huddart, managing owner of the line, recently interviewed the Queensland Government, and it is said the Government will recommend Parliament to grant a subsidy of six thousand pounds per year for three years. The company are at present negotiating in England for the construction of a larger steamer for the line.

GREAT DAY'S WORK AT THE CITY HALL.

Council Fails to Agree on Civic Hospital Question.

NEW ALDERMAN IN HIS SEAT.

No Agricultural Musee Likely—Road and Other Committees in Session.

There was a meeting of the City Council held yesterday afternoon, with His Worship the Mayor in the chair. Although there was much discussion of serious questions, no decision of any importance was arrived at.

The agreement for the construction of the East End Station bridge was discussed at length, and was passed after some radical amendments.

The Civic Hospital question was on the tapis for over an hour, but matters are still in the same position, for the matter has been sent back to the Finance Committee, by a division vote of 10 to 8.

At the opening of the meeting the city clerk reported that Mr. Geo. W. Sadler had been elected alderman for seat No. 1, of St. Antoine Division. Ald. Rainville then presented the newly elected alderman to the Mayor, who bade Ald. Sadler welcome in the name of his constituents.

St. Antoine Ward was then conducted by Ald. Costigan to the seat until occupied by Ald. Atwater. Ald. Rainville proposed that Ald. Sadler take the seats occupied by Ald. Atwater on the various committees. Carried.

The report from the Light Committee for permission to vote an amount of \$950 for the purchase of an electric testing apparatus, was granted without discussion.

The Mayor read a letter, which he had received from Vice-Admiral Eskine, stating that he could not bring his flagship H.M.S. Crescent to Montreal, on account of the low water, but he would sail Tuesday morning at day light from Quebec with H.M.S. Interpid and Tartar, and he expected to reach Montreal Tuesday evening.

His Worship said that the distinguished visitors would probably wait upon him at the City Hall Wednesday morning, and he would be glad if there would be as many aldermen present as possible to give the visitors a cordial reception, and to what would be done to entertain the guests during their stay with us.

A report from the Finance Committee recommending that a special appropriation of \$300 be granted to the office necessitated by the new by-law, re the registration of death certificates drew forth the remark from Ald. Costigan that it was unfair to give \$300 to the Finance Committee while the Fire Committee could not get a cent, and there were a number of apparatus lying idle in the stations for want of repairs.

Ald. Rainville explained that this was a new departure entirely unforeseen at the time of the giving out of the appropriations, and was absolutely granted unconditionally.

Reports from the Finance Committee recommending that an amount of \$600 be voted for a secret service and also recommending that Mr. Rene Beauséjour be appointed 2nd assistant City Clerk, were adopted unanimously.

A report from the Road Committee in re the agreement between the city and the C.P.R. Co. for the construction of a bridge on Notre Dame Street, east, caused a very long discussion, which lasted over an hour.

What caused the row, was a certain clause in the agreement by which the city bound itself to apply to the Legislature for money to reimburse the C.P.R. Co. for the cost of the bridge. The original contract it was agreed that pending the decision of the courts as to whom should pay an amount of \$35,000 for the construction of a certain portion of the bridge, the city was to advance the money, so that work could proceed. The City Attorney had declared that the city could not advance that money without an authorization of the Legislature and there were no funds for that purpose.

There had been conferences between the parties with the result that the company now agreed to advance the amount of \$35,000 with the understanding that the city will apply for power from the Legislature and when it had obtained it, the money would reimburse the amount to the C.P.R., pending the decision of the courts.

Ald. Rainville said that in the opinion of the Finance Committee there was no doubt whatever as to who was obliged to do the work, so he was opposed to obliging the city to take legal proceedings. "Let the C.P.R. construct the bridge or sue us, and if the judgment of the court is against the city we will pay, but not before."

MAY BE ALIVE.

Rappings Heard in the Ill-fated Pits on Mine.

Wilkesbarre, Pa., July 6.—Some of the entombed miners in the twin shaft are evidently still alive, although a week has passed since the cave in occurred.

The 11 o'clock shift this morning, heard the rappings, and every man came up feeling absolutely convinced that some of the victims of the disaster are alive. They not only heard rappings, but answered them. Several of the men on the shift had managed to crawl over the debris about 110 feet from the place of the fall. Here they found an open space blocked by a mass of rock and coal, over which it is impossible to force a way. While they were examining the fall they were startled by hearing five distinct taps on the rail. Two with a little interval between them, and then three rapidly. Before they recovered from their astonishment the rapping had been repeated.

THREE MAY DIE.

Two With Their Throats Cut and a Young Girl Drugged.

Palmyra, N.Y., July 6.—The little village of Marion, four miles north of this place, is excited over what may prove to be a triple murder or a case of double murder and suicide.

There has been nothing stolen apparently from the house, and the murder theory does not seem plausible. Mr. Murrill seemed to be quite a happy man, and has no financial trouble. If he returns to consciousness, the mystery may be solved.

A CLOSE SHAVE.

Cornwall, July 6.—The first harvest accident of the season took place last week, across the river from here, at Palmyra, N.Y., where Mr. George Jock had a very narrow escape from a terrible death. Mr. Jock was mowing on Mr. John Braly's farm, when his team ran away with the mowing machine, which struck against a stone pile and threw the unfortunate driver in front of the cutting bar. Luckily this broke off short, or he would have been instantly killed. As it was he was frightfully cut and bruised and Dr. McArty, of Fort Covington, N.Y., who dressed his wounds, was obliged to use nearly 80 stitches. Mr. Jock's recovery is hoped for.

DUNDAS ORANGEMEN.

Cornwall, July 6.—The Orangemen of Dundas County will celebrate the anniversary of the Battle of the Boyne at Winchester Springs on Saturday next, July 11th. At the annual county meeting in February, Morrisburg was selected as the place for the celebration, but at a recent meeting a change to Winchester Springs was decided upon. An energetic committee have charge of the demonstration and they will secure several first-class orators for the occasion.

Sir John Pender Stricken.

London, July 7.—The Times announces that Sir John Pender, formerly director of Ocean Telegraphy, has had another paralytic stroke and that his condition is critical. Sir John Pender was stricken with brain paralysis in January last, and was compelled by reason of his ailment to resign his seat in Parliament. His health was, however, much improved afterwards.

Killed by an Explosion.

Northampton, Mass., July 6.—A gasoline stove in the house of Adolphe Menard, exploded about eight o'clock this morning. Mrs. Menard and her daughter Eva received injuries which resulted in their death. The daughter died within a few minutes after the accident. The mother was taken to the hospital, and died at 12 this afternoon.

Italia Arrives Safely.

Genoa, July 6.—The British steamer Italia, Captain Wards, which left New York on June 11, for this port, Naples, etc., and which was spoken in a disabled condition off Cape Capri, France, arrived here to-day and reported all well on board.

THE GOLD MEN SCORE FIRST.

Senator Hill Selected for Temporary Chairman

OF THE DEMOCRATIC CONVENTION.

A Hot Fight Expected From the Start—The Anti-Silver Men Counseled to Stand Firm.

Chicago, July 6.—Only a few hours remain before the Democratic National Convention will be called to order and the tense strain, the bounding enthusiasm, the surging of crowds, and the hurried arrangement of details which marks the crisis is already evident. A clear sky and cool breeze favor the delegates who are now here in full force. Every train brings political clubs uniformed and plain, accompanied by bands of music and flags and drum corps.

The work of the convention began to-day when the National Committee met at ten o'clock to decide upon the temporary chairman for the convention. After from this ticklish question the National Committee had to hear such contents as were presented. They were from Michigan, Nebraska, Nevada and South Dakota.

At the convention hall all has been put in order, every chair placed, every decoration hung.

At the state headquarters the minor details of selecting representatives on the committee on platform, rules, credentials, etc., are being arranged, and by night will be completed.

The programme of the gold standard men has begun to assume shape. Mr. Whitney, their recognized leader, has counseled the anti-silver men to stand together and be ready to act solidly when occasion requires. He has not indicated what action is to be taken, but it is understood that there is to be a fight and plenty of it. As the matter stands now, the gold men do not propose to walk out of the convention, but to remain to its close. When the silver men have finished everything well adjured, a conference will be held and arrangements made for holding a later convention of gold Democrats at which another candidate for President may be nominated. There is no disguising the fact that many gold men are opposed to another convention, believing it better to remain in the party.

The idea of a second ticket is advocated by those who do not wish to be left to choose between supporting silver principles and Republican principles, and by those who want to protest against the silver platform as emphatic as possible. The Tammany men who arrived this morning are anxious to independent candidates, saying that Democratic conventions have always been obedient to the rule of the majority, and if the east is defeated it should accept defeat gracefully.

The National Committee to-day selected a temporary chairman, and passed upon the contested cases which were brought before it. As has been generally predicted, Senator Hill, of New York, a leading gold delegate, received a majority of votes of the committee, and to-morrow, when Chairman Hartery calls the convention to order, he will present Mr. Hill for temporary chairman.

A minority report will be presented, and Mr. Daniel, who was defeated in committee, will be made the choice of silver men for temporary chairman. This means that there will be a fight in the convention to-morrow as soon as the Chaplain finishes his prayer.

By selecting the minor officers, to which the committee completed its work there will be no objections.

FORECAST OF TO-DAY'S CONVENTION.

On the eve of the Democratic National Convention, which convenes in the Coliseum on the Lake Front at noon to-day, all is confusion. Only one thing looms up like a search-light in the fog, that is the convention will be for silver at 16 to 1. As for candidates, the convention is groping in the dark. Bland is unquestionably in the lead so far as actual votes are concerned, his strength approximating:

LADY BIGH'S SUICIDE.

Drowned Herself in a Pond Because of a Love Affair.

London, July 6.—Lady Mary Bigh, a daughter of the Earl of Darnley, has been found drowned in a pond at Cobham Hall, near Gravesend. As she had been ill health for some time past, it is believed that she committed suicide. Lady Bigh's death is understood to have been occasioned by a love affair. She had been despondent and was seen weeping in secluded parts of the park. She was missed yesterday evening and her clothes were found beside the pond this morning.

Struck by a Spent Ball.

Cornwall, July 6.—A peculiar shooting affair is reported from Summers-town, Glangary County. It appears that the other day a Mr. W. Shields, of Bombay, N.Y., who is camping on Hamilton Island, was indulging in trap shooting, when a man came across from the mainland to tell him that one of his stony bullets had struck a farmer, near Summers-town. The bullet, which was fired from a Winchester rifle, was evidently pretty well spent when it struck the farmer's side, and its force was further broken by a heavy watch chain, which he wore. It inflicted only a slight flesh wound. Both men were strongly impressed with the serious nature of what the accident might have been. Mr. Shields presented his rifle to the wounded farmer in exchange for the bullet.

SLEEPY BELLE WON YESTERDAY.

Mr. J. P. Dawes' Mare Ran Away From the American Entries Easily.

A GREAT RACING PROGRAMME.

Interesting Entries for To-day, and a Big Crowd Expected at Bel-Air—General Sporting News of the Day.

The races at the Bel-Air track were free to the public yesterday and the largest crowd since the opening day was in attendance, and the ladies, too, were out in large numbers and witnessed an excellent afternoon's sport.

The drivers of the early afternoon meeting in a progress at the Bel-Air track and ordered the gates thrown open to the public, and the same rule will be followed to-day.

The races at the Bel-Air track were free to the public yesterday and the largest crowd since the opening day was in attendance, and the ladies, too, were out in large numbers and witnessed an excellent afternoon's sport.

Surly, if smaller cities in the country loyally support an interior race meeting and look forward to it, each year as the crown of the season, Montrealers can and will enjoy the present meeting and show in the next five days that they appreciate the efforts of the Bel-Air Jockey Club to give them the best race meeting in its history, and each year will eclipse the last.

Favorites and well played outsiders took down the purses yesterday. The track was heavy but drying out, and the fast track races should be run over a fast track.

The betting ring received a scorching that it will take a long time to recover from, over the victory of J. P. Dawes' Salvoir filly, Sleepy Belle, old filly at half a mile and Lady Callahan who has performed well on a dry track was made at odds an favorite. Sleepy Belle was held at 8 to 1 in the betting and was liberally played. She carried the favorite of her fans before the stretch was reached and galloped home an easy winner by two lengths.

Robert Davis' Killmore was a hot favorite in the third event but fell at the head of the stretch when running in a prominent position. Neither the horse or Jockey Songer were hurt.

The mile and a half with race, fourth on the card brought forth a sensational finish with Partner, who got his head in front of Merry Duke just at the wire after the latter had made all the running.

The steeplechase as usual was exciting and created great enthusiasm. Two horses fell with their riders but were not injured.

B. A. Smith won two races with Red Top and Sky Blue and Paget rode them both.

The winners with their jockeys and odds were: Red Top (Paget), 3 to 1; Sleepy Belle, (Songer) 8 to 1; Sky Blue, (Paget), 4 to 1; Partner, (Callahan), 5 to 1 and Joco, (Pierce), 2 to 1.

THE RACES. The first race, of three-quarters of a mile, was a good one, and, despite the heavy track, the favorites showed up well. Red Top, winner on Wednesday, was favorite at 2 to 1 throughout the race with Alamo second, fancy Red Top got off first by half a length, with Crocus second by a half and Kapanga Col third by a neck. On the half the favorite still led by 2 to 3 lengths, but got second. At the three-quarters Red Top had increased the lead to two lengths, and Whiff was coming strong at half a length. Crocus was third by a neck and Alamo fourth. On the stretch Red Top had a lead of two lengths, with Alamo second by a half length, and Whiff had fallen behind by two lengths, clearly tired. The horses were coming beating down through the mud in great shape, but, try as he would, Alamo could not get in front of Red Top, who finished by two lengths, with the latter two lengths ahead of Kapanga Col. Whiff had fallen to eight lengths behind.

The half-mile, second race, was a good one. Mr. J. P. Dawes' horse was backed heavily at 6 and 8 to 1, and for place he was well patronized. Lady Callahan and Redena were also hot favorites, but the latter mare proved the best through Bel-Air track. She got a start by a neck, and, although Callahan was up on the three-quarters, the Dawes' horse was first, and going easy. Majesta, who was third at the start, came strong, and finished second. Belle increased her lead of a length on the stretch to three lengths, and finished well. Lady Callahan had fallen to third by eight lengths, and Redena was three behind.

Sky Blue was an unexpected winner in the third race. Right at the start, this horse gradually forged ahead, and finished by two lengths. Gladys Lee, not much fancied, came second, three lengths ahead of the Red Monk, Mr. Dawes' horse. The others were strung along, and Killmore, who was favorite,

and leading at the start, finished last. The fourth was one of the best races of the day. All the horses were well tipped, Mrs. Morgan having the majority of fanciers. Partner started in ahead by a neck, and kept it right up to the last, finishing by a head. Merry Duke, who was third at the start, came in second and three lengths ahead of Hoosa. Mrs. Morgan never had a chance, and Peytonia did not run up to her usual standard.

The fifth race, Mount Royal Steeplechase, saw some starts, and it was a long and a good race. The Vicar of Wakefield, Joco and Tuscarora, were the most fancied at 2 to 1, and Mr. Dawes' horse Royal George at 4 to 1. Brother Bob started out ahead two lengths over Lou Daly. Campayne came third, and fell behind. Lou Daly drew in front by a neck, and increased the distance with Brother Bob second. Royal George's rider fell over the last jump, as did Brother Bob's. The Vicar ran out having broken his saddle. Joco and Tuscarora came in ahead with the former in the lead by several lengths, and Campayne, who had been fifth, gradually drew up to third, and they finished in that order. Lou Daly finished fourth.

SUMMARY First race, 3 mile, purse \$250; for 3-year-olds and upwards. Led Top, 119, Paget, 3 to 1, 5; Alamo, 116, Newmeyer, 3 to 1, 2; Kapanga Col, 114, Overton, 5 to 1, 8.

CRICKET. AMERICANS IN ENGLAND. London, July 6.—In the cricket match between the Haverley College eleven and the eleven from Haverford, Pa., to-day the Americans made 245 runs for three wickets. Mifflin made 86, Adams 123, Howson O. Lester 18 and not out, and Hinchman 8 and not out. Haverley made 137 runs for three wickets.

GOSSIP OF THE CREESE. In the Middlesex v. Gloucestershire match, which finished a week ago Saturday, at Lord's, the former county ran up 450 runs in their first innings, of which Dr. G. Thornton contributed 121. Gloucestershire made only 143 in the first innings and 230 in the second. Both the "W.G.'s," senior and junior, played for their county, the former making 60 and 55, and the latter 8 and 83.

A similar beating—only more so—was administered to Leicestershire by Yorkshire, the latter winning by an innings and 302 runs. The scores were: Yorkshire, 245; Leicestershire, 131; Leicestershire, 165; Yorkshire, 183. The Midland Counties eleven inflicted another defeat on the visitors from the

Antipodes at Birmingham, making 267 in the first innings and 120 for 6 wickets in the second. The Australians, against the Australians, 128 and 274.

A record came very near being beaten in the England v. Australia match at Lord's. Within the space of 7 overs of the Australian wickets fell for three of the Australian bowlers, and 4 runs! Then Giffen, the "W.G." of Australia, went, caught at the wicket, first ball. There was no excuse for the miserable collapse of the Australian batsmen, for the wicket was simply perfect. Of course, it is unnecessary to say that the bowling of Lohman and Richardson was the cause of the trouble and was unexceptionable.

THE CAMBRIDGE UNIVERSITY MATCH v. SUSSEX, Prince Ranjitsingh, for Sussex, went out for a duck, and W. G. Grace, Jr., made 27 for the "Varsity." The Cambridge men scored 227 for 5 wickets, against 129 made by Sussex. There were seven "pros" on the county team.

SOMERSETSHIRE MADE ONLY 149 AGAINST LANCASHIRE'S 182 FOR 8 WICKETS, IN THE FIRST INNINGS OF THE COUNTY MATCH. That is the first century made against Surrey this season, was made at the Oval by Mr. Waddy, not out, 107, for Oxford University.

FOLLOWING ARE THE LEADERS IN THE BATTING AND BOWLING AVERAGES IN ENGLISH FIRST-CLASS MATCHES UP TO DATE: BATTING (40 Innings).

BOWLING (20 WICKETS). HENNE, J. T., 73.2; TRIMBLE, H., 70.9; CUNNING, F. H., 20.4; ATWOOD (W. G.), 19.3; PAYNE, 18.1; HARRIS, 17.4; HARRIS, 17.4; HARRIS, 17.4; HARRIS, 17.4; HARRIS, 17.4.

FOLLOWING ARE THE NAMES AND CONTENTS OF THE "ALL ENGLAND" TEAM who played against the Australians at Lord's: W. G. Grace, Gloucestershire; (capt.); F. S. Jackson, Yorkshire; A. E. Stoddart, Middlesex; Albi, Surrey; Brown (J. T.), Yorkshire; Gunn, Nottingham; Haywood, Yorkshire; Heame (J. T.), Middlesex; Lilly, Warwickshire; Lohmann, Surrey; Peel, Yorkshire; Richardson, Surrey; White, Yorkshire.

THE CHAMPIONS' FIRST APPEARANCE. The Capitals will play their first championship match of the season in Montreal, on Saturday next, against the Montreal team.

THE ENGLISH YACHTS. Hunter's Quay, July 6.—Britannia, Albatross, and Cavendish started at 10.15 a.m. in the order named. Light airs prevailed at the start, Albatross was awarded second place, owing to Britannia having fouled her at the start.

TO MAINTAIN CANADIAN HONORS. (Toronto), Ont., July 6.—Canadian yachtsmen are to depart on a cruise to the west coast of Canada which will defeat the Victor, and some of them are at work on a boat which they think can beat both the Aggie and Zelta. This is the Aggie which was always a weak craft. She has been remodelled and now has lead keel instead of shifting ballast. Last year she could beat the Zelta except when close hauled and it is expected in this respect she will be equal to the keel which enables her to excel in this respect. The Aggie will be met there by the Victor, who will meet the other two at the first opportunity. Should she win she will likely be chosen to race against the Victor.

WANDERERS' BICYCLE CLUB. The ride this evening will be to Mount Royal Park leaving at 8 o'clock. The Williams, Greene and Rose trophy, which the Wanderers' won at Quebec for the team race, will be on view at Robertson's and Anderson's, 10 Prince George, later on in the week.

THE WHEEL. The ride this evening will be to Mount Royal Park leaving at 8 o'clock. The Williams, Greene and Rose trophy, which the Wanderers' won at Quebec for the team race, will be on view at Robertson's and Anderson's, 10 Prince George, later on in the week.

FOOTBALL. THE MOHAWKS. The Mohawks will turn out for practice this evening on the Montreal base-ball grounds, (Exhibition Grounds) at 6.30. Every player, both senior and intermediate, is expected to be present, as the boys must be in the best of form for the matches in connection with the Canadian Cup contest.

MISCELLANEOUS NOTES. Every member of the Red Stars is requested to attend practice this evening at 7 o'clock.

LOWER THE RECORD. Cedar Rapids, Ia., July 6.—Investigation proves that the ten mile open race won Saturday at the L.A.W. meet by Art Coyle in this city in 25:09.2-5 given as the state record in a lowering of the world's amateur record, the best previous time being 25:32, by Linneham at Chicago in 1893.

AHEAD OF THE SCHEDULE. St. Catharines, Ont., July 6.—Hall, a Chicago cyclist, who left that city on March 4 for a trip round the world in 181 days, passed through this city at seven o'clock last night, 111 days and 12 hours ahead of schedule time. He left Chicago with Mackenzie, who died in Australia, and Hall continued the journey alone. The journey was a wager of \$6,000.

PROSPECTS AT HENLEY. London, July 6.—The Sporting Life, whose reports have been the most accurate of all those English press, writes that the Shamrocks, who will be the leader will win by a long way. A NEGRO UPRISING. They Are Excited Over a Lynching, and Threaten Violence. Washington, July 6.—A special to the Post from Brockville, Md., dated July 5, says: The excitement caused by the lynching of the negro, Sydney Randolph, Friday, which was almost entirely died out, was stirred to a high pitch to-night, when it became rumored that that the colored people in the vicinity of Gaitheburg had organized a party and were coming to Rockville to lynch R. L. Buxton, the father of the Buxton family that was assaulted for which Randolph was lynched.

THE ROMAN CATHOLICS OF St. Lambert hope soon to have a new church in the place of the humble building which has served them up to the present time. The Rev. Father Fabre, who is the pastor of the church, has had the corner stone laid yesterday afternoon, assisted by Rev. Abbe Rabreau, care of St. Lambert. There was a very large attendance of clergy and laity, and the proceedings were highly interesting.

ETHICS OF ECONOMIC COMPETITION

Few persons would think of claiming in the fierce struggle for existence and personal material progress which is called economic competition ethics had any real influence whatever. A French statesman and political economist has just discovered, to his own evident satisfaction, that it has, in a paper which he read at a dinner tendered to him by the Political Economy Circle of the National Liberal Club, London, recently, M. Yves Guyot.

there, and never was, that is capable of being determined. It has been the story almost always of unoccupied regions, that their boundaries were utterly vague. No occasion to define them having arisen, and the world having no use for the territory involved, the monuments and landmarks on paper that were supposed to designate them usually turn out either not to exist, or to be too indefinite and uncertain to be ascertained.

WHAT IS THE BEST FOR THE CHILDREN?

Lincoln, who broke the chains of the slave, uttered in the speech of his inauguration the great truth which he sealed by his death, that the people is not its own ruler; that there is a righteous ruler over it who calls it to account for its oppression and sins, and whose righteousness it must confess, if it would not perish.

BRITISH OPINION.

On the Result of the General Election in Canada.

Canada has followed our good example. We have by killing our Education Bill rid ourselves of a reactionary attempt to cripple our national system of education, and the Canadians have by the decisive general election of Tuesday shaken themselves free from the grip of the Clerical, as well as of the Protectionist party.

NO ACTION HAS BEEN TAKEN.

Westmont officials know nothing of Mr. Warrington's alleged suit. On Saturday a report was circulated throughout the city that Mr. Richard Warrington had been sued against the town of Westmont for something over \$112,000, but no one seemed to know what the ground of the action was.

WISDOM! STRENGTH! BEAUTY!

The greatest boast of Paine's Celery Compound is, that it is when all other medicines fail, and it is the only advertised remedy that is regularly prescribed by physicians.

At a meeting of the Light Committee, held yesterday afternoon, with Ald. Prevost in the chair, it was resolved: "That it would be necessary for the proper working of the Light Department, to get an electric-testing apparatus."

LIBERAL PLATFORM

ADOPTED BY THE

NATIONAL LIBERAL CONVENTION,

OTTAWA, JUNE, 1896.

We, the Liberal party of Canada, in convention assembled, declare:

1.—Free Trade—Reduced Taxation.

That the customs tariffs of the Dominion should be based, not as it is now, upon the protective principle, but upon the requirements of the public service.

That the existing tariff, founded upon an unsound principle, and used, as it has been by the government as a corrupting agency where with to keep themselves in office, has developed monopolies, trusts and combinations:

It has decreased the value of farm and other landed property

It has oppressed the masses to the enrichment of a few;

It has checked immigration;

It has caused great loss of population;

It has impeded commerce;

It has discriminated against Great Britain;

In these and in many other ways it has occasioned great public and private injury, all of which evils must continue to grow in intensity as long as the present tariff system remains in force.

That the highest interests of Canada demand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing injustice to any class, will promote domestic and foreign trade, and hasten the return of prosperity to our people;

That to that end the tariff should be reduced to the needs of honest economical and efficient government;

That it should be so adjusted as to make free, or to bear as lightly as possible, upon the necessities of life, and should be so arranged as to promote freer trade with the whole world, more particularly with Great Britain and the United States.

We believe that the results of the protective system have grievously disappointed thousands of persons who have honestly supported it, and that the country, in the light of experience, is now prepared to declare for a sound fiscal policy.

The issue between the two political parties on this question is now clearly defined.

The Government themselves admit the failure of their fiscal policy and now profess their willingness to make some changes; but they say that such changes must be based only on the principle of protection.

We denounce the principle of protection as radically unsound and unjust to the masses of the people, and we declare our conviction that any tariff changes based on that principle must fail to afford any substantial relief from the burdens under which the country labors.

This issue we unhesitatingly accept, and, upon it we await with the fullest confidence the verdict of the electors of Canada.

2.—Enlarged Markets—Reciprocity.

That, having regard to the prosperity of Canada, and the United States as adjoining countries, and with many mutual interests, it is desirable that there should be the most friendly relations and liberal intercourse between them;

That the period of the old reciprocity treaty was one of marked prosperity to the British North American colonies;

That the pretext under which the Government appealed to the country in 1891 respecting negotiation for a treaty with the United States was misleading and dishonest and intended to deceive the electorate;

That no sincere effort has been made by them to obtain a treaty, but that, on the contrary, it is manifest that the present Government, controlled as they are by monopolies and combinations, are not desirous of securing such a treaty;

That the first step towards obtaining the end in view, is to place a party in power who are sincerely desirous of promoting a treaty on terms honorable to both countries;

That a fair and liberal reciprocity treaty would develop the great natural resources of Canada, would enormously increase the trade and commerce between the two countries, and would tend to encourage friendly relations between the two peoples, would remove many causes which have in the past provoked irritation and trouble to the Government of both countries, and which promote those kindly relations between the Empire and the Republic which afford the best guarantee for peace and prosperity;

That the Liberal party is prepared to enter into negotiations with a view to obtaining such a treaty, including a well-considered list of manufactured articles, and we are satisfied that any treaty so arranged will receive the assent of Her Majesty's Government, without whose approval no treaty can be made.

3.—Parity of Administration—Condemn Corruption.

That the Convention deprecates the gross corruption in the management and expenditure of public moneys which for years past has existed under the rule of the Conservative party, and the revelations of which by the different parliamentary committees of enquiry have done much to enlighten the public mind;

The Government which profited politically by these expenditures of public moneys of which the people have been defrauded, and which nevertheless have never punished the guilty parties, must be held responsible for the wrongdoing. We arrange the Government for retaining in office a Minister of the Crown proved to have accepted very large contributions of money for election purposes from the funds of a railway company, which, while paying the political contributions to him, a member of the Government, with one hand, was receiving Government subsidies with the other.

The conduct of the Minister and the approval of his colleagues after the proof became known to them are calculated to degrade Canada in the estimation of the world and deserve the severest condemnation of the people.

4.—Demand Strictest Economy—Decreased Expenditure.

We cannot but view with alarm the large increase of the public debt and of the controllable annual expenditure of the Dominion and the consequent undue taxation of the people under the Governments that have been continuously in power since 1878, and we demand the strictest economy in the administration of the government of the country.

5.—For Responsible Government—Independence of Parliament.

That the Convention regrets that by the action of Ministers and their supporters in Parliament, in one case in which serious charges were made against a Minister of the Crown, investigation was altogether refused, while in another case the charges preferred were altered and then referred to a commission appointed upon the advice of the Ministry, contrary to the well-settled practice of Parliament; and this Convention affirms:

That it is the ancient and undoubted right of the House of Commons to inquire into all matters of public expenditure, and into all charges of misconduct in office against Ministers of the Crown, and the reference of such matters to royal commissioners created upon the advice of the accused is at variance with the responsibility of Ministers to the House of Commons, and tends to weaken the authority of the House over the Executive Government, and this Convention affirms that the powers of the people's representatives in this regard should on all fitting occasions be upheld.

6.—Land for the Settler—Not for the Speculator.

That in the opinion of this Convention the sales of public lands of the Dominion should be to actual settlers only, and not to speculators, upon reasonable terms of settlement, and in such areas as can be reasonably occupied and cultivated by the settler.

7.—Oppose the Dominion Franchise Act—Favor the Provincial Franchise.

That the Franchise Act since its introduction has cost the Dominion Treasury over a million of dollars, besides entailing a heavy expenditure to both political parties;

That each revision involves an additional expenditure of a further quarter of a million;

That this expenditure has prevented an annual revision, as originally intended, in the absence of which young voters entitled to the franchise have, in numerous instances, been prevented from exercising their natural rights;

That it has failed to secure uniformity, which was the principal reason assigned for its introduction;

That it has produced gross abuses by partisan revising barristers appointed by the Government of the day;

That its provisions are less liberal than those already existing in many Provinces of the Dominion, and that in the opinion of this Convention the Act should be repealed, and we should revert to the Provincial franchise;

8.—Against the Gerrymander—Conny Boundaries Should be Preserved.

That by the Gerrymander Acts, the electoral divisions for the return of members to the House of Commons have been so made as to prevent a fair expression of the opinion of the country at the general elections, and to secure to the party now in power a strength out of all proportion greater than the number of electors supporting them, and to prevent an end to this abuse, to make the House of Commons a fair exponent of public opinion, and to preserve the historic continuity of counties, it is desirable that, in the formation of electoral divisions, county boundaries should be preserved, and that in no case parts of different counties should be put in one electoral division.

9.—The Senate Defective—Amend the Constitution.

The present constitution of the Senate is inconsistent with the Federal principles in our system of government, and is in other respects defective, as it makes the Senate independent of the people and uncontrolled by the public opinion of the country, and should be so amended as to bring it into harmony with the principles of popular government.

10.—Question of Prohibition—A Dominion Plebiscite.

That whereas public attention is at present much directed to the consideration of the admittedly great evils of intemperance, it is desirable that the mind of the people should be clearly ascertained on the question of Prohibition by means of a Dominion Plebiscite.

THE MONTREAL HERALD ENGRAVING BUREAU. HALF-TONE AND LINE CUTS A SPECIALTY. ALL WORK GUARANTEED PRICES RIGHT. TELEPHONE 343. VISION OF AFRICAN BUSINESSMEN: A Small Race who Have Eyes Which Possess Telescopic Powers. There is a race of men who can see as far with the naked eye as an ordinary man can with a telescope. "Every man his own telescope" might be applied with propriety to these fortunate persons. They live in a wild state in the south of Africa, among the tribes of bushmen. The name "bushman" is an Anglicism of the Dutch word "Boesman," meaning "man of the woods," says a writer in the San Francisco Chronicle. These human telescopes have derived their extraordinary power of vision, according to Herbert Spencer, through necessity. If it were not for this they might long ago have become extinct. They are remarkably small in stature for wild men, and they offer an easy prey for the larger, fierce beasts that infest certain parts of southern Africa. And, on account of their diminutive size, they are not able to fight on equal terms with their war-like and larger-proportioned neighbors. Travelers in the region of the long-sighted bushmen have reported some truly remarkable feats with the eyes. One day while a European was walking in company with a friendly bushman the latter suddenly stopped, and, pointing ahead in some alarm, exclaimed: "A lion!" The white man stared until his eyes ached, but he could make out nothing. Thinking that the native must have made a mistake, he insisted on going forward, though his companion urged him to retreat. When they had advanced a little farther the bushman again came to a halt and absolutely refused to go another step; for, as he explained, he could distinguish not only a lion but also a number of cubs. It would be dangerous, he said, to tamper with a lioness while nursing her little ones. The European, however, still unable to see a lion, much less the cubs, pushed on boldly. When he had advanced a quarter of a mile he saw an object moving slowly along in the distance at the point to which the bushman had directed his gaze. Still doubting that a human being could possess such marvelous power of vision, he approached nearer, and finally distinguished the

Catching Cod in Maine. The Fishermen Set Out Trawls With Three Thousand Hooks Attached. In the herring fishery everything is done with the seine. In fishing for cod, halibut and hake hand lines are used to a limited extent, but most of the captures are made by trawls. All of the craft are schooner rigged, and but few of them carry topmasts. This gives them a slovenly appearance aloft, but they do away with the spar because the craft rolls less in a sea when at anchor. There are no fine lines about the hulls. The object is room and stability, and while they are good seaboats they are not fast sailers. The owners of the craft tow trawls, small boats, salt and provisions, and two trips a year is the average for the craft which salts her fish on board. Out of the fleet a few take ice and return to market with fresh fish every two or three weeks, but the majority catch and salt down. The crew go on shares. When the craft returns, the owners figure up the expense of the outfit and add to it half the value of the catch. What is left is divided pro rata among the crew. If the catch has been good, each crew of the 16 or 18 men has made about \$40 per month, but it is quite as likely that he won't have made a dollar a day, though he has had free board all the time, and good board at that. Fishing on the banks at any time of the year is hard and disagreeable work. Codfish are very erratic in their movements. A schooner may have fish around her for 800 days, one day being as good as another, and the may sail and drift for three or four days without getting a bite. If luck is with her, down goes the anchor, and the trawlers begin to work. A trawl may be described as a rope many hundred feet long, to which at intervals of 88 inches fishhooks are attached by lines about two feet long. There are 3,000 hooks to the average trawl, which is attended by two men. Each man has 1,500 hooks to bait and care for. The rope is weighted to sink within a few feet of the bottom and is then buoyed. The trawl is generally set late in the afternoon and overhauled the next morning. If luck is with the fishermen, 500 cod may be taken from a trawl. They are a voracious fish, and in seizing the bait firmly hook themselves. It often happens that the 3,000 hooks may be overhauled without securing more than 50 fish, but again the catch may be 2,500. The boats of the trawlers look something like ordinary gill nets, but are very buoyant and easily handled. A schooner with 16 men aboard puts out 4 trawls and 8 men. The rest are left to work the craft and attend to the fish as they come in.—Leviston Journal.

NEW YORK GOSSIP. J. S. Bache & Co. telegraph their local manager, C. D. Monk, as follows:

The feeling on the floor of the stock exchange is intensely bullish and predictions of a panic are freely made.

The day passed off so strongly on way that it is well to note the chances of a complete revulsion of feeling after the convention.—J. S. B.

Lackawanna is said to be in the market for 1,200 cars and Southern Railway 22,000, and Grand Trunk 4,000.

Duluth, South Shore and Atlantic third week June increased \$12,115.

Despatches from Chicago say the silver men are not quite as confident as they have been.

The influence of the gold delegates is being felt in several lines of the political work, and it may be that enough delegates will be controlled to modify the silver plank.

Cheese & Ohio fourth week June increased \$37,149; month increased \$38,707.

Louisville special: Committee of Kentucky distillers will report on the 15th, they will definitely determine whether distillers will close for 18 months. It is believed that it will fail.

Chicago special: Political situation is badly mixed. Deadlock likely to occur against Blair. Hill doing his political work, and may be nominated as a compromise candidate.

Keene is selling sugar. He says the reduction in refined grades is nothing compared with Havemeyer's assertion that they do not take the political outlook.

For the first six months this year, St. Paul brought into Chicago and Milwaukee 12 million more bushels of grain than for the same time last year.

The difference between the price of raw and refined sugar makes it certain that sugar is getting large profits at the present.

THE DAY IN WALL STREET. New York, July 6.—Evening Post's financial column: London—The stock markets were exceedingly lively to-day, the heat being very great.

The recent buying of Americans is said to have been for the account of certain African financiers, who profess to see a better prospect of making money than in Wall Street. To-day the market was featureless.

BRAZILIAN EXCHANGE. New York, July 6.—The quotation for Brazilian Exchange to-day was 9 28-32.

Chicago Markets. Messrs. J. S. Bache & Co. report the following quotations from Chicago:

Table with columns: Wheat, Corn, Oats, Lard, Short Hubs. Lists various commodities and their prices.

RECEIPTS IN MONTREAL. Wheat, bush, G.T.R. C.P.R. Canal Total.

HEARD ON 'CHANGE. "This decline in Chicago," remarked a grain man this morning, "has rather put a stop to the export enquiry from the other side. We did a fair export business on Thursday and quite a little on Friday."

THE LOCAL GRAIN MARKETS are pretty quiet at present, and prices are generally steady. Oats are selling at 26c.

A message from Chicago to-day said: "Capt. Phillips has just returned from Kansas. He says that the crop is larger than reported, and will certainly be over 50,000,000 bush."

It is reported to-day that the Ohio crop report makes the condition 45 against 53 last year.

Cable advices to the Board of Trade this morning were as follows: London, July 6.—Cargoes of wheat, wheat and maize quiet at present; cargoes on passage, wheat steady, maize quiet; English country markets, wheat dull; Liverpool, spot wheat quiet, spot maize easy; Minneapolis first bakers' flour, 15s.

Advances from the other side offer no prospect of a recovery in the market, with the exception of some cattle and hogs, which are selling at a profit.

The public cable remains unchanged for both descriptions.

Stocks of available wheat east of the Rocky Mountains, United States and Canada, on July 1 proved disappointing large from the point of view of holders, though it seems strange that fault should be found with an article of food, although a necessary article of food.

Speaking of the situation in Liverpool, Hodgson Bros.' circular, under date of June 27th, said: "The market generally has been slow this week. The arrivals of heavy flour from the States with a small quantity of medium wheat; decline. Last season's make of old wheat are difficult to sell and offered at irregular prices. We quote to-day most new colored and white 35s to 36s per cwt., and low to medium grades are offered at 30s to 36s per cwt."

Butter—The market offers very little news. The feeling remains easy and the demand is slow. Creamery is quoted 10s 1/2 to 11s 1/2; milk, 10s 1/2 to 11s 1/2.

Milwaukee—Closing—54 1/2 July, 55 1/2 bid Sept. Toledo—Closing—57 1/2 July, 58 1/2 bid Sept. St. Louis—Closing—52 1/2 bid July, 53 1/2 bid Sept. New York—Closing—Wheat, 61c July, 61c bid Sept. Flour, 8 1/2c bid Sept. Dec, corn, 32 1/2c July, 33 1/2c bid Sept.

MOVEMENTS OF GRAIN AND FLOUR. The movements of grain and flour at given points to-day are as follows:

Table with columns: Description, Receipts, Shipments. Lists grain and flour movements.

GRAIN—The tone of the market shows very little change. Owing to the poor demand, holders are not at all firm in their views, and in most cases sales have been made at inside prices.

Oats are quoted quiet about the same basis, with the movement altogether extremely limited. No. 2 white were sold on 'Change to-day at 20c, and for the present seem to be the outside figure, it being difficult to get a fraction more. Mixed for export are quiet at unchanged quotations.

There is very little doing in peas at any price. The idea for No. 2 adroit here seems to be about 54c to 55c.

ed a number of fair sized orders in for flour to-day, but on the whole there was not a great deal done. Ontario flour, were also very quiet, and it is difficult to say just how things are. What few orders there are coming in just at present come from the east, the Maritime Provinces probably sending in more than any of the others.

There was no new business reported in an export way.

Meal—Dullness is as usual the feature of the market, and there is nothing else to note. Prices remain the same.

Feed—The comparative cheapness of feedstuffs seems to be responsible for a good steady demand from almost all points. The present movement, in fact, shows a slight increase over last year from the eastern part of Ontario, and there is also a fair demand from this province.

CHICAGO MARKETS. Messrs. J. S. Bache & Co. report the following quotations from Chicago:

Table with columns: Wheat, Corn, Oats, Lard, Short Hubs. Lists various commodities and their prices.

RECEIPTS IN MONTREAL. Wheat, bush, G.T.R. C.P.R. Canal Total.

HEARD ON 'CHANGE. "This decline in Chicago," remarked a grain man this morning, "has rather put a stop to the export enquiry from the other side. We did a fair export business on Thursday and quite a little on Friday."

The news received from Manitoba to-day regarding the crop outlook was encouraging, although some still adhere to the idea that the crop will be short.

Some of the earlier sown wheat that is up in the ground before the rains has already begun to show itself.

The local grain markets are pretty quiet at present, and prices are generally steady. Oats are selling at 26c.

A message from Chicago to-day said: "Capt. Phillips has just returned from Kansas. He says that the crop is larger than reported, and will certainly be over 50,000,000 bush."

It is reported to-day that the Ohio crop report makes the condition 45 against 53 last year.

Cable advices to the Board of Trade this morning were as follows: London, July 6.—Cargoes of wheat, wheat and maize quiet at present; cargoes on passage, wheat steady, maize quiet; English country markets, wheat dull; Liverpool, spot wheat quiet, spot maize easy; Minneapolis first bakers' flour, 15s.

Advances from the other side offer no prospect of a recovery in the market, with the exception of some cattle and hogs, which are selling at a profit.

The public cable remains unchanged for both descriptions.

Stocks of available wheat east of the Rocky Mountains, United States and Canada, on July 1 proved disappointing large from the point of view of holders, though it seems strange that fault should be found with an article of food, although a necessary article of food.

Speaking of the situation in Liverpool, Hodgson Bros.' circular, under date of June 27th, said: "The market generally has been slow this week. The arrivals of heavy flour from the States with a small quantity of medium wheat; decline. Last season's make of old wheat are difficult to sell and offered at irregular prices. We quote to-day most new colored and white 35s to 36s per cwt., and low to medium grades are offered at 30s to 36s per cwt."

Butter—The market offers very little news. The feeling remains easy and the demand is slow. Creamery is quoted 10s 1/2 to 11s 1/2; milk, 10s 1/2 to 11s 1/2.

Milwaukee—Closing—54 1/2 July, 55 1/2 bid Sept. Toledo—Closing—57 1/2 July, 58 1/2 bid Sept. St. Louis—Closing—52 1/2 bid July, 53 1/2 bid Sept. New York—Closing—Wheat, 61c July, 61c bid Sept. Flour, 8 1/2c bid Sept. Dec, corn, 32 1/2c July, 33 1/2c bid Sept.

MOVEMENTS OF GRAIN AND FLOUR. The movements of grain and flour at given points to-day are as follows:

Table with columns: Description, Receipts, Shipments. Lists grain and flour movements.

Saturday! Mongolia, Scotland, Liverpool. Saturday, Megantic, Ormston, London. Thursday, Fremont, London. Friday, Escalona, Newcastle. Saturday, Queenstown, Bristol. There were about 500 butchers' cattle, 350 calves and 500 sheep and lambs offered for sale at the East End Abattoir to-day. The butchers were out in large numbers, but trade in cattle was slow, and prices rather lower, more especially for half fat stock, which were much more numerous than were needed. Prime stall fed heaves sold at about 3 1/2c per lb., and shipped a little more for the best large steers; pretty good stock sold at from 2 1/2c to 3 1/2c; common half fat steers at from 2 1/2c to 3 1/2c per lb. Calves were in fair demand at from 2c to 3c each. Sheep continue very difficult to sell, and prices are from 1 1/2c to 3c per lb. Lambs sold at from \$2 to \$3 each. Fat hogs are rather plentiful, and prices are ranging from \$3.75 to \$4.10 per 100 lbs.

Under date of June 24th a leading English live stock firm writes as follows: "We are pleased to report that after a temporary decline, prices of choice light weight cattle have advanced a shade. Heavy and rough cattle are difficult to sell on account of the hot weather, and it does not look as though any advance will take place in these until cooler weather sets in. The sheep trade is not so firm, prices have declined a shade. However, sheep will now be coming into the market in stronger numbers, and we do not think there can be any great improvement in prices."

"Liverpool—Best Canadian Ballocks, sinking the oval, 5 1/2; mottling and inferior bullocks, sinking the oval, 4 1/2 to 4 3/4; South American bullocks, sinking the oval 4 1/2 to 4 3/4; 10 bales hides; Lake of the Woods MILLING Co., 485 boxes flour; Co-operative Duckett, Hodges & Co., 160 boxes cheese; A. THE WEST LOOKS TO LAURIER.

British Columbia Hopes to Exclude the Asiatic Alien.

SOME STARTLING STATEMENTS.

How the Pacific Province is Suffering From Chinese and Japs.—An Appeal to Eastern Canada.

THE CHINESE AND THE JAPS MUST GO!

That was the expression used to a Herald man yesterday by Mr. J. M. Gordon, of New Westminster, B. C., who passed through the city on his way from the Pacific province to Great Britain on business.

"You Eastern people," he said, "have no idea of the intensity of feeling upon this subject in British Columbia. The fact is that the entire existence of our province as a valuable member of the Canadian Confederation is threatened by the influx of aliens in progress."

"The Chinese and the Japs must go!" That was the expression used to a Herald man yesterday by Mr. J. M. Gordon, of New Westminster, B. C., who passed through the city on his way from the Pacific province to Great Britain on business.

Incidentally, Mr. Gordon told the Herald some facts about the situation of white women in British Columbia, which were somewhat appalling. No family newspaper could attempt to recount the evils which are said to exist. Suffice it to say, that when a girl grows up there to an age where she should be able to earn her own living, she has either to remain in idleness or else to adopt a life of degradation. It is impossible for a Canadian girl to compete in domestic service or factory work with Chinese or Japs. She must either starve or adopt a life of dishonor. To use Mr. Gordon's words: "Is that a condition of things which the people of Eastern Canada desire to continue?"

OBITUARY.

New York, June 6.—General Pierce, M. B. Young, United States Minister to Guatemala and Honduras, died at 11.20 o'clock to-day in the Presbyterian Hospital. With him when he died was his brother-in-law, Dr. Jones of Georgia.

THANK YOU.

The Black Diamond, the official journal of the retail coal men of the United States, has this to say of the recent visit of this association to Montreal:

"Montreal, the metropolis of Canada, is especially enticing to the tourist, by the vivid example of the pertinency of the old French colonial in holding on, not only to the peculiar French patois, so-called to-day, but in days gone by, the language in France, but also their

THE GOLD MEN SCORE FIRST.

Continued from Page 1.

225, a liberal estimate, with Boles moving along his heels with about 200, yet how he can win. The dark horse are William J. Bryan, Vice-President A. A. Stevenson, John R. McLean, the Ohio journalist; Senator Joe Blackburn, of Kentucky; Senator White, of California; Senator Hill of New York; and ex-Gov. James M. Campbell, of Ohio. At work in the background is the movement for the Republican bolter, Teller, with the free silver Republicans and their allies, the Populists leaning steadily every nerve to impress on the convention the advisability of nominating him. With all these silver forces struggling against each other, and with the gold men solid, it is a shrewd political prophet who can

forecast the result. The radical gold men there is still talk of a bolt. McDermott, one of the delegates from New Jersey announced to-day that he would walk out of the convention and the gold delegation from Texas made up their minds that they did not want to admit to a convention which was, as they expressed it, determined to plant itself on the silver horse. But under the advice of Whitney and Hill, the fear of a bolt of any proportions is being dispelled and some of the gold men who were expressing exceeding bitterness, are now composed and ready to accept the situation. Should there be a physical withdrawal from the convention, however, it is likely that the bolters will later place a ticket in the field.

A very considerable number of the delegates desire to completely ignore the tariff question, while others are in favor of a moderate declaration for a tariff which will raise sufficient revenue to the Government. On the other hand there are radicals who want an absolute free trade plank in the platform. The Nebraska delegation to-day elected a member of the Committee on Resolutions who wants a free trade declaration.

Governor Allgold and Senator Benjamin Franklin are pressing for a condemnation of the President by name, while others insist there shall be a denunciation of the administration's bond issue, and would forego any mention of Mr. Cleveland. The friends of the administration are very anxious to keep out of the cooler heads among the silver leaders are disposed to acquiesce.

The contest will be precipitated the moment the vote is taken. The gold men had control of the National Committee to-day, despite every effort of the silver men to wrest it from their grasp, and they used it in a way that cannot but inflame the silver men. They elected Senator Hill for temporary chairman, notwithstanding the protests of the silver men, that although in the majority, their side was entitled to the initial utterance in the convention. The result is that the silver men will suggest Senator Daniel, and Senator Hill may be humiliated by defeat. It said that if elected, Senator Hill will, perhaps, greatly surprise those who elected him by making a speech, which, while it would oppose free coinage, would advocate submission to the will of the majority as one of the cardinal principles of the Democratic faith.

SCHOOL COMMISSIONERS.

Annual Elections at Montreal Junction and Longueuil.

A meeting of the proprietors of real estate at Montreal West was held in the Aberdeen Hall yesterday morning for the purpose of electing school commissioners. Mr. T. A. Trebilcock, chairman of the School Board, presided. The secretary-treasurer read the financial statement which showed that the total revenue was \$2,407.59, and the total expenditure \$2,260.71. The liabilities were reduced by \$400 during the year, leaving a mortgage of \$7,500 still on the building. The cash on hand, amounting to \$268.22, is also available for the sinking fund. The scholastic work for the year was touched upon, and the meeting was declared open for nominations. Mr. Gray proposed, and Mr. W. Ramsey seconded, that Messrs. J. J. Milne and W. J. Percival be nominated as school commissioners. After waiting until eleven o'clock and no further nominations being offered, the chairman declared these gentlemen duly elected.

THE POLICE COURT.

There were eight prisoners for the Police Court yesterday. Charles Belanger, Ovide Bertrand, L. Labelle and Arthur Belanger, charged with stealing a bicycle Sunday, and charged with shoplifting on St. Lawrence Street, pleaded not guilty to having stolen four pairs of shoes, and were remanded for enquiries. Patrick Shanahan and James Muller for stealing one pair of boots were sent to jail for three months, having pleaded guilty. Frank Hart and Thomas Burke, also charged with petty theft, were remanded on a plea of not guilty.

THE DUCHESS OF YORK STORY.

Steamer Duchess of York, Captain McGowan, arrived in port last evening, and cleared up some newspaper reports about the drowning accident of Saturday. The captain reported that there was a man missing from the steamer since Saturday night. His name is Napoleon Payette, a drummer in an orchestra, that was engaged for the excursion. It was not certain that Payette was drowned. The story is this: The missing man appeared to have been drinking Saturday evening before he came on the steamer, and was seen sleeping on chairs during the evening. The pilot stated that after the steamer anchored for the night, the orchestra was called to furnish amusement, and Mr. Payette was missing. The managers of the steamship line do not sell liquor on board the steamer, and three special policemen were employed for this excursion. The Coroner has not yet been informed of the case.

A Fatal Cloud Burst.

Columbus, Ohio, July 6.—A cloud-burst at Weege Creek, near Belleaire town, drowned James Perry, wife and child, and destroyed the Bellville-Zanesville and Cincinnati railroad bridge, a large trestle on the Pittsburg and Ohio Valley railroad, a Presbyterian Church and a dozen other buildings.

The Thought Switch.

"I suppose," said Mr. Glimmerston, "that if a man is blessed with fairly good health he ought to be able to sleep nights, but as a matter of fact, many people lie awake half the night worrying over things not worth fretting about, and waking up in the morning tired out to start with."

"What is needed is a thought switch that will switch the thoughts over from unpleasant lines to lines that are pleasant and keep them there. There are plenty of such switches now, but the trouble with 'em all is that they don't lock. They're all open switches. A man gets over all right, but it's always up grade where this switch is laid, and the first thing he knows he slides back on the old line of thought. What we want is a switch that will keep him on the right track till he's gathered strength enough to climb the hill to the level, where the going is easy, and where the track lies straight for dreamland."

There's money for the inventor in this, and what a boon he would confer on his brother man."—New York Sun.
