MEMORANDUM ON THE LAWS AND ORDERS IN COUNCIL.

Regulating the Trade of the British Possessions abroad, in relation to the Import and Export Trade from the Canadas.

All British ships must be registered, but British built boats or vessels under fifteen tons, employed in navigation in the rivers and coasts of the British possessions abroad, not proceeding over sea, except within the limits of the respective Colonial Governments within which the managing owners of such vessels respectively reside, need not be registered, but they must be wholly owned and navigated by British subjects. British built boats or vessels under thirty tons, and not having a whole or a fixed deck, employed in fishing on the banks and shores of Newfoundland and parts adjacent, or on the shores of the Provinces of Canada, Nova Scotia, or New Brunswick, adjacent to the Gulf of St. Lawrence, or on the north shore of Cape Canso, or of the islands within the same, or in trading coastwise within the said limits, are admitted to be British built boats and vessels, although not registered, as long as they are solely so employed.

Coals are exported from the United Kingdom to the British possessions under bond which is cancelled on the production of a certificate of their having been landed according to their clearance, or accounted for to the satisfaction of the Commissioners of the Customs.

By the law of navigation, foreign ships are permitted to import into any of the British possessions abroad, from the countries to which they belong, goods, the produce of those countries, and to export goods from such possessions to be carried to any foreign country whatever. The privileges thereby granted to foreign ships are limited to the ships of those countries which, having colonial possessions, grant the like privileges of trading with those possessions to British ships, or which, not having colonial possessions, place the commerce and navigation of this country, and its possessions abroad, upon the footing of the most favoured nation, unless His Majesty, by order in Council, in any case deem it expedient to grant the whole or any of such privileges to the ships of any foreign country, although the above conditions in all respects be not fulfilled by such foreign country: but no foreign country is deemed to have fulfilled the conditions, or to be entitled to the privileges, unless His Majesty, by some order or orders of his Privy Council, has declared that such foreign country has fulfilled the conditions and is entitled to the privileges.

And these conditions are by orders of His Majesty in Council, dated July 16, 1827, and April 7, 1830, (which enumerates and confirms certain previous orders in Council, and which are continued in full force and recognized by the late act,) declared to be that

French ships may import from the dominions of His Most Chris-

tian Majesty, the following goods, such goods being the produce of those dominions, that is to say, Wheat, Flour, Biscuit, Bread, Meal, Pease, Beans, Rye, Calavances, Oats, Barley, Indian Corn, Rice, Shingles, Red Oak Staves or Headings, White Oak Staves or Headings, Wood, Lumber, Wood Hoops, Live Stock, Hay and Straw, Coin and Bullion, Diamonds, Salt, Fruit and Vegetables fresh, Cotton, Wool, and all articles subject on importation to an *ad valorem*, on which articles the amount of such duty should not at the time of importation exceed £7 10s. for every £100 of the value of the same, (but the importation of Wine and Brandy in French ships is not permitted,) and may export goods to any Foreign country whatever.

Ships of the Dominions of

His Majesty the King of Prussia,
His Majesty the Emperor of all the Russias,
His Majesty the Emperor of Austria,
His Majesty as King of Hanover,
His Majesty the King of Sweden and Norway,
His Serene Highness the Duke of Oldenburg,
The Republics of Lubeck, Bremen and Hamburgh,
The United States of America,
The State of Columbia,
The United Provinces of Rio-de-la-Plata,

The United States of Mexico, may respectively import from such of the Dominions to which they respectively belong, goods the produce of such Dominions respectively, except those mentioned in the "Table of Prohibitions," and may export goods to be carried to any foreign country whatever.

The manifest of every vessel entering a port of the United Kingdom must state the name and tonnage of the ship, the master's name, the place to which the ship belongs, the places where the goods were taken on board, with the marks and numbers, and the sorts of goods and different kinds of each sort of goods therein to the best of the master's knowledge ; and of the particulars of such goods as are stowed loose, with the names of the shippers and consignees as far as they are known to him ; to which must be added a general account or recapitulation of the total number of packages of each sort, and of the total quantity of goods stowed loose. This manifest must ☞ *be produced to the Collector or Comptroller of the Port of Clearance, signed by such officer and the date of its production to him signified thereon.*

All Tobacco imported into the United Kingdom must be stated on a separate manifest, distinct from the general manifest of the ship, with the particular weight of each hogshead, cask, chest or case, with the tare of the same. Tobacco and Snuff can only be imported into the United Kingdom in a vessel of the burthen of 120 tons and upwards, and must be in hogsheads, chests or cases of at least 450lbs,—not packed in bags or packages within any such hogsheads, &c. nor separated nor divided in any manner. The weight of such Tobacco or Snuff in such case, &c. with the

tare to be marked thereon. The importation of Tobacco, &c. is further limited to certain ports in the United Kingdom. The importation of Snuff Work, Tobacco Stalks stripped from the leaf, whether manufactured or not, and Tobacco Stalk Flour is prohibited.

Hides, Skins, Horns and Hoofs may be prohibited importation into the United Kingdom by His Majesty by an order in Council, in order to prevent any contagious distemper.

Surplus stores are subject to usual duty and prohibitions as merchandise, but if not excessive in quantity, the Collector may permit them to be entered for private use of the master of the vessel or warehoused for the future use of the ship, although they may not be legally imported as merchandize.

No goods can be entered as of, or from any of the British possessions in America, unless a certificate is produced from the Collector of the Port of Clearance, of the date of clearance, and an account of such goods.

No Sugar, Coffee, Cocoa or Spirits can be entered as of the produce of some British possession in America, unless there is produced a certificate stating that due proof had been made to the Collector of the Port of Clearance, and such certificate to state the place of production, the number and denomination of the packages, and also the name and master of the ship in which they are laden.

All Coffee, Sugar, Molasses and Rum (although of the British plantations) exported from any British possession in America, into which like goods of foreign production can be legally imported, upon subsequent importation from thence into any British possession in America, into which such goods, being of foreign production, cannot be legally imported into the United Kingdom, are deemed to be of foreign production, and liable on such importation to the duties or forfeitures as articles of the like description, being of foreign production, would be liable to, unless the same shall have been warehoused and exported from the warehouse direct to such other British possession or to the United Kingdom.

All goods which have been legally exported from the United Kingdom (except as below) may be reimported on the following conditions. They must be entered by bill of store, referring to the day of their entry outwards and of the exportation thereof, provided the property in such continue in the person by whom, or on whose account the same have been exported—and that such reimportation take place within six years from the date of exportation. If the goods be foreign and had been legally imported into the United Kingdom, the same duties are payable thereon as would, at the time of such re-importation, be payable on like goods under the same circumstances of importation, or such goods may be warehoused as the like goods may be warehoused upon first importation. A Bill of Store cannot be granted unless the name of the proprietor is stated, the identity of the goods exported and so returned fully proved, as well as that the proprietor was such both

at the time of export and reimport, and that the goods had not been sold or disposed of to any one. Such declarations to be made both at the ports of entry and clearance. The following goods, however, though legally exported, cannot be reimported for home use, but are to be regarded as foreign, whether such or not :— Corn, Grain, Meal, Flour and Malt; Hops, Tobacco, Tea, Goods for which any bounty or any drawback of excise had been received on exportation, unless by special permission of the Commissioners of the Customs, and on repayment of such bounty or such drawback, and all goods for which bill of store cannot be issued, according to the form already prescribed, except small remnants of British goods by special permission of the Commissioners of the Customs, upon proof that they are British and had not been sold.

The produce of the British possessions or fisheries, imported to Guernsey or Jersey direct from such possessions or fisheries, may be imported into the United Kingdom for home use from those islands, under such regulations as the Commissioners of the Treasury may direct.

The produce of America can only be imported into the United Kingdom in British shipping, unless in ships of the country of which the goods are the produce, and from which they are imported.

No goods can be carried from one British possession in Asia, Africa, or America to any other, nor from one part of such possession to another part thereof, unless in British ships.

No goods can be imported into any British possessions in any foreign ships, unless they be the ships of the country of which they are the produce and from which they are exported,

All imports into or exports (except the produce of the British fisheries) from Lower Canada by sea, to or from any other place other than the United Kingdom or some other of such possessions, must take place at the Port of Quebec, the only free port for Lower Canada, under penalty of forfeiture. Montreal, however, is a warehousing port for all goods brought by land or inland navigation, or imported in British ships.

All Blubber, Train, or Spermaceti Oil, Head Matter or Whale Fins, entered in the United Kingdom as the produce of the seas, and caught wholly by British subjects usually residing in some part of His Majesty's dominions, and imported from British possessions, must be accompanied by a certificate thereof from the Collector at the Port of Clearance, or if there should be no Collector, from two principal inhabitants of the place of clearance.

Goods, the produce of the Canadas, may be exported to the United Kingdom or the British possessions without restriction, but must be accompanied by a certificate of clearance.

No goods shall, upon importation into any of the British possessions in America, be deemed to be of the growth, production, or manufacture of the United Kingdom, or of any British posses-

sion in America, unless imported from the United Kingdom, or from some British possession in America.

No goods can be imported into any British possession as being imported from the United Kingdom, or from any other British possession (if any advantage attach to such distinction), unless such goods appear upon the cockets or other proper documents for the same to have been duly cleared outwards, at the port of exportation in the United Kingdom or such other British possession, nor unless the ground upon which such advantage be claimed be stated in such cocket or document.

NOTE.—There is no drawback whatever on any goods exported, except on Salt for the use of the Fisheries within the limits of the Province, and on

Salted Salmon, per tierce, 7d.
Salted Beef or Pork, per barrel, 4d.
Salted Fish of any kind, per barrel, 4d.

LIGHT HOUSE ON GREEN ISLAND.

The Lantern of the Light-house on Green Island in the River St. Lawrence shows a light every evening, from sun set to sun rise the next morning, from the 15th April to the 10th December, inclusive, and the following are the bearings of it, by compass, from the respective places hereunder mentioned, viz:—

Red Island.....	E. S. E. ½ S.
White Island	E. N. E. ¼ E.
Brandy Pots.....	N. E. by E. ½ E.
Apple Island.....	W. S. W.

Basque Island..... W. S. W. ½ S.
The Shoal at the N. E. end of Green Island, S. W. ½ S.
The Shoal at the west end of Green Island, N. E. ¾ E.

LIGHT HOUSE AT POINTE DES MONTS.

The Lantern of the Light-house on Pointe des Monts (or Cape Mont-Pelé) on the north side of the River St. Lawrence, nearly opposite to Cape Chat, stands one hundred feet above the water.

The Light-house lays with the outermost part of Carribou Point, N. 52° east and S 52° west, by compass, and can be seen over that point, and to the eastward of it.

Ships approaching the light from the eastward, as they draw towards Carribou Point, must bring it to bear W. by S. they will then be in a good fair way, and if necessary they can near the land by their lead.

After passing Carriboux Point, and as they draw towards the Light-house they must come no nearer than twelve fathoms water to avoid two ledges of rocks:—one of which lays E. S. E. from the Light-house, with only twelve feet water on it; the other lays S. W. from the Light-house, and E. S. E. from the western extremity of Pointe des Monts, with sixteen feet water on it; but these rocks do not lay further from the shore than a half a mile at low water.

The Light-house lays with the western extremity of Pointe des Monts, N. 64° east and S. 64° west, and distant about one mile; and when ships are to the westward of the Pointe, the Light-house is in one with the outermost rocks off the Pointe—and in the day time it forms a bold distinct land-mark—and on this line of bearing, ships are in the best possible fair way for the general purposes of navigation, whether bound up or down.

For any particular purpose of navigation, ships may safely stand to the northward, until the light bears E. by N.; they will then be drawing near the north land; and when it bears E. ½ N. it is time to tack; for when it bears east it will shut in with the high land and cannot be seen to the southward of east, and then they will be only one mile from the land, and if they are off Godbout River, Pointe des Monts will bear from them E. by S. two leagues distant.

When ships are off Saint Nicolas harbour, and the light bearing E. by N. they are in a good fair way from the north land. The S. E. spitt of Manicougan great shoal, the ship and the Light-house are all in one line of bearing.

PROVISION POSTS ON ANTICOSTI.

On the outermost extremity of the west end of Anticosti stands a Direction Board. From this board to the house of Gamache, where there is a depot of provisions, at the upper part of Grand Bay, by crossing the isthmus formed by Point Henry, the distance is six miles; but from this board round Point Henry, and up the bay to the house, it is double the distance.

Six leagues to the eastward of Grand Bay is Duck River, at the mouth of which, on the east side, stands the Direction Board.

Four leagues to the eastward of Duck River is Otter River; close to its entrance stands the Direction Board.

Four leagues to the eastward of Otter River is Seal River, on the east side of which is a Direction Board, nailed to the house used only in summer by Gamache's salmon and seal fishers; at this house there are no provisions.

Two leagues from the river is the S. W. point of the island—on both the extreme east and west ends of which stands a Direction Board, about one mile from each other, and about one mile from the easternmost stands another Direction Board, in the Bay, to the eastward of the point.

Seven leagues to the eastward of the S. W. point is Heath River, on the east side of its entrance stands the Direction Board.

Three leagues to the eastward of Heath River is Pavilion or Flag River, and two miles to the eastward of it stands the Direction Board, on a point on the east side of the bay.

Six leagues to the eastward of Flag River is Hamel's Post, at Jupiter River, where there is a depot of provisions.

Seven leagues to the eastward of Mr. Hamel, and on the south side of the east end of the island is a Direction Board, and on the north side of the east end is another Direction Board.

Four leagues from this board, on the north side of the island, is the Post of Bell, kept by Mr. Godin.

It may be remarked that all these rivers are merely creeks, there not being water in any of them for a boat at low water, except Jupiter River at Hamel's Post.

VARIATIONS OF THE COMPASS

IN THE GULF OF ST. LAWRENCE.

It appears from the observations of Capt. Bayfield, R. N. that the variations of the compass are erroneously laid down in almost all the charts actually in use. At the time the charts of Major Holland and Admiral Saunders were constructed, the variations as laid down might have been correct, but they have since materially altered, and there can be little doubt of many vessels having been thrown ashore, by errors arising from this source. For example, a vessel off Pointe des Monts shapes her course to pass to the southward of Anticosti. Consulting any of the charts now in use, the Master finds the variation marked $7\frac{1}{2}$ degrees; whilst it is in reality $23\frac{1}{2}$. He therefore steers too far to the northward by more than half a point of the compass; and if the night should be dark, and the weather bad, stands a great chance of running on the island. The same error, in the case of ships bound to Quebec, causes them to pursue a course too far to the southward; and hence many of them run on the south coast. It is conceived, therefore, that the following statements of the variation, sufficiently exact for the purposes of navigation, will prove valuable to Masters of vessels navigating the St. Lawrence.

Brandy Pots.....	$16\frac{1}{2}$ degrees west.
Island of Bic.....	$17\frac{1}{2}$
Cape Chat.....	21
Bay of the Seven Islands.....	23
West end of Anticosti	$23\frac{1}{2}$
East end of do.....	$21\frac{1}{3}$

1*st*, The said Rates are for the whole distance from Lachine to Montreal (9 miles), and so in proportion for each mile of the distance that Goods, &c. may be transported on the Canal, but all Boats, Scows, Vessels or Rafts, loading or unloading, below Lock No. 4, whether in ascending or descending, shall pay the same as if they passed through all the Locks. A fraction of a mile shall be deemed a whole mile. A fraction of a ton in the measurement of a boat or vessel, shall be taken according to the number of quarters of a ton therein. A fraction of a quarter of a ton shall be deemed a whole quarter. Timber, Boards, Plank and Scantling in Rafts, to be calculated by the quantity of feet ; no quantity under 25 feet shall pay less than for 25. Boats and Scows laden solely with Firewood or other Timber having passed down the Canal and paid the rates, are exempted from toll in ascending, if unladen and empty. Boats, &c. having descended by the River are subject in ascending the Canal to pay one-third more than the above rates of toll. Square-rigged or other Vessels from sea, Schooners, Sloops, Steamers, Barges, Boats, Scows or Vessels of any kind, and Rafts and Cribs, not using the Canal, are prohibited from entering that part of the Canal below Lock No. 7, or using the Canal Wharf below the said Lock, in order to leave the same free for the use of such Vessels, &c. as navigate upon the Canal.

2*d*, Conductors must be provided with a manifest or list of the packages or pieces comprising the cargo of each Boat, Vessel or Scow under their charge, distinguishing the species thereof ; and also the measurement, if the toll thereon be so payable. The toll

on Merchandise being fixed by the ton, the weight must be marked on each package, whereof the rate is not specifically provided for in the Tariff.

3*d*, If the Collector sees good reason to doubt the correctness of the manifest or list, the cargo may be unloaded and examined ; if found incorrect, the expense shall be paid by the owner or conductor of the Boat, Vessel or Scow ; if correct to be reloaded at the expense of the Canal.

4*th*, Boats, &c. shall be detained until the tolls are paid, and the same power of detention is given, if any damage is done by persons navigating Boats, &c. or being passengers therein.

5*th*, Horses employed in towing must not be driven at any pace but a walk. Boats, Vessels and Scows meeting others in the Canal, those coming down shall keep the side next the tow-path, and those going np give way so as to allow of the others passing over the tow-rope.

6*th*, Cribs, Boats, Scows or Vessels of any kind meeting under any Bridge shall pass in succession, the first that reaches the Bridge passing first, and they shall pass through the Locks in the same order and agreeably to the directions of the Lock-keeper.

7*th*, Cribs or Timber, when overtaken by Boats, Scows or other vessels, must give way thereto, and sheer off to the side opposite to the towing path, so that such Boats, Scows, or other vessels may pass ; and there shall be with all Cribs, Timber, Boats, Scows or other vessels, a sufficient number of men for the due management thereof.

8*th*, No timber of any kind whatever shall be allowed to be drawn up the banks of the Canal, or to lie over the sides thereof.

9*th*, No Cribs of Timber, Boats, Scows or other vessels shall be admitted into the Canal unless they are in good order, and they must proceed immediately to their place of destination without stopping.

10*th*, The entrances of the Canal at Lachine and Montreal must not be obstructed under any pretence whatever ; and all Boats, Scows or other vessels therein, must be ranged in conformity to the directions of the Commissioners, or the Superintendant or Overseer, whom they may appoint.

11*th*, Boats, Scows or other vessels, or Cribs of Timber, waiting either above or below the locks at the Windmills (Nos. 5, 6 and 7), must remain on the south-east side of the Canal, so as to leave the other side free for the convenience of loading and unloading.

12*th*, No Cribs of Timber or Boats, Scows or vessels of any kind shall remain in the Canal, except during the time of loading and unloading, or passing up and down ; if detained, however, by unavoidable circumstances, they shall not remain along the wharves without the special permission of the Commissioners or their Superintendant, and they must be placed in conformity to their or his directions.

13*th*, No Cribs, Boats, Scows or other vessels, not in immediate

employ, shall be allowed to remain in the Canal, or in any basin of the Canal, without the special permission of the Commissioners.

14*th*, No Boats, Scows or vessels of any kind, shall be allowed to be drawn up the banks or slips of the Canal, without the special permission of the Commissioners being first obtained.

15*th*, No Cribs, Boats, Scows or vessels of any kind, shall be left in the Canal, either afloat, sunk or otherwise; and in the fall of the year, at the close of the navigation, none shall remain in the Canal, without the special permission of the Commissioners.

16*th*, Persons employing Boats, Scows or vessels of any kind, are prohibited, in cleaning them, from throwing chips, dirt, rubbish or filth, into the Canal, and from allowing any timber or firewood to remain in the Canal, either sunk or afloat.

17*th*, No Merchandize or effects, or wood of any kind, and particularly Cordwood, shall remain on the banks or wharves of the Canal, longer than forty-eight hours; and at the wharf below the river lock, near the Windmills, no Cordwood shall, on any account, be landed between the said lock, and a distance of about forty feet below the second crane.

18*th*, No Cribs, Boats, Scows or vessels of any kind, which have passed through the Canal, shall remain near the wharf, below the river lock, longer than a sufficient time to unload, and to take in their loading at the same place.

19*th*, The regular hours for the working of the locks, shall be as follows:—From the first of May to the first of September, from four o'clock, A. M. to eight o'clock, P. M.; and at the seasons preceding or succeeding those dates respectively, from day-light until dusk of evening.

The downward towage to be only two-thirds of the upward rates.

Any vessel taking the boat at any intermediate distance between Quebec and the Church at Batiscan, will pay the full towage, as if towed from Quebec. If taken in tow between Batiscan Church and the wharf at Three Rivers, to pay three-fourths of the full towage. If taken in tow between the wharf at Three Rivers and

Sorel, to pay two-thirds of the full towage. If taken in tow between Sorel and the Church at Pointe aux Trembles, to pay one-half the full towage; and from the Church at Pointe aux Trembles, or any intermediate place above the said Pointe, to Montreal, to pay one-third the full towage. It being understood that when towage is engaged for vessels at Quebec, as they have a preference over others, the full towage to be paid for, whether the whole, or part, or none of the towing is performed. The deduction made referring only to vessels, for which towage has not been previously engaged at Quebec.

Passengers on board vessels taken in tow, to pay one-half the steamboat steerage rates.

The masters of vessels to furnish tow-lines and hawsers.

Not less than nine feet to be charged as draft of water.

The greatest draft of water to be taken as measurement.

Should the masters of the boats, from any just reason, deem it necessary to cast off a vessel, no deduction to be made on the towage, provided they are re-taken by first opportunity.

Vessels towed from Montreal, or any place above Sorel, to Three Rivers, to be charged three-fourths of the towage to Quebec, and from Three Rivers and above Port Neuf, to be charged half towage.

All Pilotage to be paid by the masters or consignees.

In the event of any vessel grounding, when in tow, in consequence of being too deeply laden, the detention to be paid for, also the tariff rate, for freight taken out.

N. B.—The proprietors notify to masters of vessels and others, that they will not hold themselves liable for any damage that may be done to vessels, or their warps, either in taking in tow, towing or casting them off.

Towage payable on demand.

FOREIGN MONIES, WEIGHTS AND MEASURES.

General Index of Foreign Monies, Weights and Measures, with Comparisons and Explanations by Dr. Kelly.

It should be observed, that all the comparisons and explanations of foreign measures are here computed according to the new British Imperial Standard, which is about three per cent. larger than the Winchester Measure, or more nearly thirty-one gallons, bushels, &c. of the new, answer to thirty-two of the old. Hence to reduce Imperial Measure, add the thirty-first part to the number of gallons, &c. The contrary calculation must, of course, be observed with regard to prices.
