### Newfoundland Case Likely to Lead to Collision.

MEMORIALS OF GOVERNMENT ALLOWING ITSELF TO BE PLACED IN POSITION TO CONFLICT WITH COLONY.

London, March 19.—In the House of Commons yesterday Alfred Lyttelton, Liberal member from St. George's, called attention to the Newfoundland controversy with the United States. While he was ready to admit that it was impossible to ignore the American case, he was likely to lead to friction and collision unless it was settled. No precise ought to arise in the future, he said, from the making of a modus vivendi with the United States. He complained of the pathetic and negligent attitude in which the Government had handled the matter before the autumn. He said the Government ought to have at once consulted the colony, and both had the right to have such a policy as would, if possible, have been satisfactory to the United States. If not, the policy ought to have at least been acceptable to Newfoundland and Great Britain. He complained most seriously that the Government had allowed itself to be placed in a position of conflict with the colony.

## DRUGS DO NOT CURE DISEASE.

### Medical Professor of Laval Makes Startling Statement.

THE EFFECT OF DRUGS IS PROBLEMATICAL, BUT DIET WILL CURE.

St. Johns, Que., March 19.—A few days ago the Medical Association of the Counties of Chambly, Iberville, Repulse, Napierville and St. Johns, met in regular meeting. There was a good attendance of the members. The News says in report of the meeting:

Dr. C. N. Valin, Professor at Laval University, Montreal, delivered a lecture on the relative values of diet and drugs in the treatment of disease. Assisted by a series of diagrams, he showed conclusively that diet was of greater importance than medicine.

He instanced a number of cases which had come under his observation, in his private practice and in his hospital patients, in which he performed cures solely by a judiciously prescribed diet, and with his charts he was able to show in a graphic manner, the exact reasons why the diseases were cured.

Dr. Valin showed that the effect of drugs was more or less problematical, and in any case, did not cure disease, diet on the contrary could be shown almost mathematically to effect a cure by eliminating the causes which contributed towards the prolongation of the disease.

The lecture was most eloquently delivered and listened to with the closest attention by those present.

## QUAKE CROP ARRESTED.

### WORLD HAS BEEN OMINOUSLY QUIET FOR A FORTNIGHT, SAYS SEISMOLOGIST.

London, March 19.—Mr. John Milne, a seismologist, says that the world, which normally has a very steady output of earthquakes, has been strangely and ominously quiescent for the past fortnight. This perfect quiescence suggests there is something to be feared.

## TRIAL IS NEAR ITS END.

### Verdict May be Reached Friday Night.

AFFIDAVIT STATES THAW TREATED NESBIT WOMAN WITH GREAT BARBARITY WHILE IN EUROPE.

New York, March 19.—When the trial of Harry K. Thaw was adjourned yesterday, but four expert witnesses were disposed of in a little more than an hour, so it is generally believed that the last word of evidence may be uttered in the famous case to-day. In that event, the summing up by Mr. Delmas for the defence will begin Wednesday morning. District Attorney Jerome will reply on Thursday. Justice Fitzgerald may proceed immediately with his charge to the jury, or he may defer it until Friday. Unless the unexpected happens, there should be a verdict by Friday night.

The case for the people was closed by the introduction of the much-discussed Hummel affidavit, which, with the consent of the defence, was read in full to the jury. The affidavit proved a surprise only as to the severity of the alleged assaults by Harry K. Thaw upon Evelyn Nesbit during their trip through Europe in 1903, when, according to the testimony of Abraham Hummel, Miss Nesbit would not sign statements which Thaw had prepared, accusing Stanford White of having drugged and ruined her.

In this affidavit, Miss Nesbit charged Thaw with having attacked her with a cowhide whip while they were stopping at an old castle in the Austrian Tyrol, and lashing her bare skin until she became faint from the pain and swooned. He repeated the attack the next day, according to the affidavit, and afterwards in Paris he beat her at half-hour intervals throughout an entire day, leaving off only when she would faint away and could no longer understand what was happening. Miss Nesbit is alleged to have sworn in the affidavit that she has in daily fear for her life, and that she has been a distressed person during some of the assaults.

## PANIC IN THE COMMONS.

### WOMAN ENTERED CHAMBER AND MARCHED ON THE SPEAKER'S CHAIR.

London, March 19.—For a few brief minutes last evening the House of Commons suffered an agony of terror, under the belief that not only the precincts of the House, but the sacred chamber itself, had been invaded by suffragettes. Undisturbed even with male intruders, or shortened even with a well-dressed woman walked collectedly through the doors of the chamber and began to move towards the Speaker's chair. An intrepid attendant roused upon the intruder, seized her by the arm and hastily led her back, while the shrinking legislators timorously watched, expecting that the fiery Pankhurst crew would rush to the rescue. Mr. Kennaway, the nearest member to the speaker, after the rescue, treated the woman, followed in hot haste by the sergeant-at-arms, whose arduous duty it is to maintain decorum in the chamber and its approaches. Happily the peril passed. The members recovered their equanimity upon learning that the petticoated invader was innocent of any offence, having mistakenly followed Mr. Kennaway, who had come to procure her a ticket of admission to the women's gallery.

The lady, who was unfamiliar with the topography of the House, was covered with confusion when she realized the enormity of her unpremeditated intrusion, and hastened, blushing, under Mr. Kennaway's escort, to comparative privacy behind the grille which shields the women's gallery.

The Sherbrooke Camera Club have transferred the photographs loaned them by the Photo Era of Boston, to the club rooms, where they have been hung on the walls. This evening the members and their friends will visit the rooms when the photos will be fully explained.

## THREE INQUESTS IN SINGLE DAY.

### Week Opens With Several Calls For Coroner.

FIVE WITNESSES EXAMINED IN CASE OF LUSIPPE LEMAY—RICHMOND INQUEST CONTINUED TO-NIGHT.

Dr. L. C. Bachand, coroner, has started off with a busy week. His first call was to Richmond to hold an inquest into the death of Eugene Codere, killed at the G. T. R. crossing. This inquest was begun yesterday morning and adjourned till this evening.

The coroner on his return to Sherbrooke found the call awaiting him in connection with the death of Lusippe Lemay, the old man who dropped dead on King street.

As this inquest was about to proceed, the body of the young lad Patton, drowned in the St. Francis river, was brought to the morgue, and the same jury sat for a brief inquiry into his death, returning a verdict of accidental death.

THE CASE OF LUSIPPE LEMAY. The jury sworn in the inquest into the death of Lusippe Lemay was composed of L. H. Guay (foreman), G. Loranger, J. O. Royer, G. A. Darche, R. Bertrand, T. Gobeille, J. Demers, F. Demers, Victor Audet, T. Sargier, Jos. Couture, D. Legault, F. Belanger, Jos. Plaisance.

Five witnesses were examined. When the deceased was picked up there was a cut and bruise on his head, caused by his fall on the sidewalk. The jury was called upon to determine whether this was the cause or contributed to his death.

A postmortem examination had been made by Drs. Ritchie and Gobeille. They found death to be due to a form of heart disease. The blow on the head had not caused a fracture of the skull or injury beneath the skull.

J. Gonthier, the first person to reach the deceased, testified that he was attracted by a sound, and turning found the old gentleman lying on the sidewalk.

The jury after considering the evidence, returned a verdict, in effect, that death was due to natural causes and that no blame was attached to anyone.

## CELEBRATE THEIR GOLDEN WEDDING.

### Mr. and Mrs. N. M. Smillie, of Richmond, Receive Congratulations.

FINE OLD COUPLE WHO HAVE SPENT ALL THEIR LIVES IN TOWNSHIPS.

Richmond, March 19.—Mr. and Mrs. N. W. Smillie, of Riverview Farm, celebrated the 50th anniversary of their wedding yesterday, and Mr. Smillie also celebrated his 80th birthday.

Mr. Smillie comes of fine old pioneer stock, and was born on the farm that he now owns on March 17th, 1827. His wedding took place on the same date thirty years later, his bride being Miss Rebecca Mountain, of Durham. Seven children were born to the couple, five of whom are living today, namely: Ida, wife of Rev. Hugh Cairns; Napanee, Oct. Jas. Malcolm, of Lismore, Australia; Anna, wife of Chas. Davidson, of the fire department, Edmonton, Alberta; William Nelson, of Toronto, Ont.; and Miss May Smillie, of Boston, Mass. They now have 11 grandchildren.

Although they are getting on in years, Mr. and Mrs. Smillie both enjoy excellent health and spirits. They are not a bit troubled, like a good many of their age, with failing eyesight. Last Christmas they went down to Boston to spend the festive season with their youngest daughter, Miss May Smillie. Since their return, Mr. Smillie has been engaged, among other things, in the strenuous occupation of breaking in a three-year-old colt, and people who have seen him handling the frisky animal in and around Richmond can hardly believe that he has celebrated his 80th birthday.

Among Mr. Smillie's most prized possessions is an old-fashioned clock, which has been in the Smillie family for over a hundred years. It was brought out to this country by his father, who settled on the farm that he now owns. It is intended that the clock shall always remain in the Smillie family, and on Mr. Smillie's death it will go to his eldest son, James, now in Australia.

The house in which Mr. Smillie now lives was built by him in 1863, all the brick he used in building the home being baked by him on his own farm, a fact that gives additional interest and value to the old homestead.

The aged couple received the congratulations of many friends, all wishing them many happy returns of the day.

## SAD DROWNING IN THE ST. FRANCIS.

### Young Son of Cecil Patton Loses His Life.

HIS BROTHER, ALSO, FELL INTO THE WATER BUT WAS RESCUED.

The first of the season's drowning accidents occurred yesterday afternoon, the victim being the young son, about ten years of age, of Cecil Patton, an employee of C. G. Thompson & Co., who resides on Alexander street.

The drowning occurred in the St. Francis opposite the Thompson bobbin factory below the St. Francis River bridge, about 4.30 o'clock. It appears that the mild weather had caused the ice to break up near the shore. There was a channel of water, filled with broken ice, between the shore and the bobbin factory. The victim and his younger brother were playing along a plank to the solid ice. Among the lads were two sons of Cecil Patton, the victim aged about ten and his younger brother.

The exact circumstances of the drowning are not quite clear, as only the children were witnesses. Certain it is that a double drowning accident was very narrowly averted, one brother making a brave attempt to save the other.

The surviving brother this morning, states that the boys were crossing on a plank and reaching down to pick something from the water fell in. The other brother ran to his assistance and, also, fell in.

The older boy quickly went down, beneath the ice, while the younger was rescued. The alarm was at once given and word was sent to Mr. Patton, who is employed as fireman at the bobbin factory. He with two other men launched a boat and the work of chopping away the ice and dragging the bottom of the river commenced.

The body of the boy was drawn up at several yards below the scene of the drowning, after it had been in the water over an hour and a half. The rescued lad was taken to No. 3 Station and given proper care, and then conveyed to his home on Alexander street.

The body of the brother was taken to the morgue where the inquest was held last night, a verdict of accidental death being returned.

### Dominion Land's Act Before Committee.

SIR WILFRID REFERS TO COLONIAL CONFERENCE—JUDGES' SALARIES.

Ottawa, March 19.—A hard day's work was put in yesterday in committee on Mr. Oliver's Dominion Lands Act, but little progress was made. The discussion was confined chiefly to western members, and when the House adjourned at 11.30 eleven clauses out of the total of 143 had been disposed of for the time being.

Sir Wilfrid Laurier referred to the approaching colonial conference by remarking during question hour that, owing to his intended visit to London, a measure dealing with the extension of Dominion boundaries would not be introduced this session. The Grand Trunk bill was read a third time.

JUDGES' EXPENSES. There was a series of questions on the order paper regarding travelling expenses of judges. Mr. Beauparlant was told by the Minister of Justice that the travelling expenses of Judge Teller for the years 1891, 1892 and 1893, when he had his official residence at St. Hyacinthe, were in 1891, \$1,362; in 1892, \$1,500; in 1893, \$1,488. He made special claim for 217 days of court sittings outside the district of St. Hyacinthe in 1891, receiving \$1,392; in 1892, 217 days, receiving \$1,392; and in 1893, 227 days, receiving \$1,362.

Mr. Bergeron was informed that since his appointment to the bench at Sherbrooke, Judge Hutchinson had received in travelling expenses, 1904-5, \$165; '05-'06, \$207; '06-'07, \$149. In 1892, when he had his official residence at St. Hyacinthe, he received \$1,392; in 1893, 217 days, receiving \$1,392.

Mr. Bergeron was informed that the travelling expenses of Judge Paradis, since his appointment to the bench at St. Johns were \$1,473. He had made claim for 208 days of court sittings outside his district, and had received \$1,473. The Government was not in possession of any information regarding the number of cases pending before Judge Paradis.

"Erin go Bragh," the true Irish drama in three acts, was presented at Clement Theatre by local talent last night to a full house. Almost every person in the house wore the strip of green ribbon or the sprig of shamrock as did the actors and actresses. The audience was an enthusiastic one.

This play was produced last year, also, on the occasion of St. Patrick's Day, and the success attained brought back the play for a second season, and a great increase, who were anxious to see the production. They were not in the least disappointed. From start to finish the play was equally as good if not much superior to last year's production.

The cast of characters was well chosen, and all did themselves credit in their different roles. The lady participants were presented with attractive bouquets of flowers. The curtain rose for the third and final act. Mr. W. G. Tracy, as manager of the troupe, appeared before the audience and thanked them for their kind attendance and appreciation of the play. The following is the cast of characters: Squire Donnelly, a government official; J. H. Moroney, formerly a patriot, now a traitor; W. C. Tracy, James O'Brien, captain of rebels; P. P. McCabe, Terry Murphy, ready to fight for "Erin go Bragh"; T. J. Maguire, Margaret Donnelly, Miss Squire's daughter; Miss M. There being no man about the place, Miss McClary procured a rifle and with the second shot brought to the ground a handsome specimen of an animal quite uncommon in our parts.

### DISEASE AMONG HERD OF CATTLE.

Cowanville, March 19.—(Special)—Mr. George Tibbits, living near here on the Lenham road, is having much trouble with his herd of dairy cows. None of his herd have prematurely lost their calves. The origin of this mischance is unknown, but Mr. Tibbits has cured other animals of his herd by feeding them 25 drops of carbolic acid on their feed for three days in succession, then allowing them to eat their feed undoctored for three days, and then repeat the same dose for three more days. This seems like heroic treatment, but is really pleasing to the cows, who lick their feed with much more gusto when the acid is applied. It seems to delude them into the idea that it is molasses on their feed. The result of this costly misfortune to Mr. Tibbits will be that the proceeds from his dairy this season will be reduced by about the same amount as the cost of the carbolic acid, between nine new milk cows and nine farrow animals. The cattle treated as above have all been cured, although evidencing symptoms of the same nature as those who lost their offspring prematurely.

Lake Megantic, March 19.—(Special)—A meeting of the Lake Megantic Conservative Association was held in the Town Hall, Megantic, on Friday, March 15th last, in connection with the organization of a Junior Conservative Club. Tibbits and Davine, accompanied by Mr. Pope, despite having travelled all day, got right down to business and made an eloquent speech on the past history and future prospects of Canada, closing with a few reminiscences of happy days spent in the vicinity of Megantic, and congratulations on the flourishing aspect of the town.

At the close of the meeting officers were elected for the ensuing year and new members enrolled. Although the club is only yet in its infancy, it has a membership of ninety, and its members believe it will become one of the largest in the county.

**The Onlooker.**  
The Appeal of the Y. M. C. A.

From the nature of the case it would be impossible for the Y.M.C.A. to realize its proposed new building without outside aid in the shape of subscriptions. In common with all kindred institutions it is the established policy of this one to allow the use of its various privileges for an annual membership fee that in the aggregate is not sufficient to meet running expenses. If the membership fee was so arranged as to meet the ordinary expenses of maintenance and administration even, it would necessarily be so large that many of those whom the Association aims particularly to help would be unable to remain members. It is not necessary here to recount the claims which the Y. M. C. A. has upon the community. They are fully understood and thoroughly appreciated already. Suffice to say that its concentrated aim is to make better citizens in every sense of the word, than which no aim could be more deserving of credit and honor. The time has arrived when, in order to do the work which it seeks to do, the Association requires larger and better facilities. A splendid start has already been made in the purchase of what was probably the most desirable property for the purpose in the city, but to repair and extend the present buildings as required call for an outlay of some \$30,000. For this amount the Association is about to appeal to the public. It is a large sum but a hundred lessons furnished by other cities lead the officers of the Association to believe that it will be forthcoming. Every subscription will be an investment in character, not offering direct returns in money but certain to pay prodigious interest in an improved citizenship.

**Losses on Stocks.**  
For the average man speculating in stocks is a game of loaded dice with the odds against him. A few powerful financiers in Wall Street manipulate the market at will and none but they can more than guess what is to happen to-morrow. By combining their efforts they are able to boost prices and when they purposely stand under prices they tumble. When such a coup is planned they can sell short, but again at twenty or thirty or fifty points lower, at enormous profits to themselves. With them it is largely a question of paper merely, whether loss or gain, but not so with the average man who buys on margin and for cash. Dealing in speculative stocks has little or no connection with business conditions. The crash in Wall Street last week, when securities shrank to the extent of \$1,200,000,000, scarcely caused a ripple on the industrial sea, which would furnish the proof if any were needed that stock speculation and the regular business of the country bear little or no relation to each other. The motive which impels a man to dabble is a desire to get something for nothing, sometimes a vision of sudden wealth, but something for nothing is in the same category as perpetual motion and the man chasing either has all his ears against the wind. It has been estimated by someone, with what accuracy it is of course impossible to tell, that local stock dabblers lost \$35,000 in the crash of last Thursday. An amount very much smaller than this would be sufficient to convince all, but the most reckless of the footloose and fancy-free carried money into the hungry maw of a

**KNOWLTON.**  
March 19.—Messrs. Francis Garrette of Sugar Loaf Pond, and Angus St. Martin, of Knowlton's Landing, were in town Saturday on business.  
Dr. N. M. Harris was called to Cook's Corner on Sunday on professional business.  
A very beautiful memorial window was recently put into St. Paul's Church in memory of Miss Emma G. Barber, who for many years before her death was one of the most prominent workers in the Knowlton Home. The subject of the window is faith, charity and love, and it is exquisite in every point. It is a valuable feast for the eyes to gaze upon it.  
The Ladies' Parochial Guild of St. Paul's Church will meet at the home of Mrs. George Wilson on Wednesday afternoon.  
Messrs. Price, of Waterloo; Gibson, of Sherbrooke, and L. Mathewson, of Montreal, were in town Monday on business.  
The Ladies' Aid, which was held at the home of Mrs. Chester Bullard on Friday afternoon last, was very well attended. A good quantity of sewing with all the most up-to-date electrical machines, including the X-ray, etc., was completed and a fine time is reported.  
The many friends of Br. White, former Medical Supt. of the Knowlton Sanitarium, will be glad to learn that he has been favorably received in North Troy, where he is working up a good practice, and has found the change much to his advantage. The doctor has a fully equipped office, with all the most up-to-date electrical machines, including the X-ray, etc.  
Mrs. Frank Barnes and little son, of Bromie, spent Sunday in town the guests of Mrs. Thos. Duboyce.  
Dr. Page, who has been long and favorably known in the Townships, has received a lucrative Government position at Quebec, as medical examiner of incoming immigrants. After leaving Waterloo, Dr. Page opened an office in Quebec, as specialist of the eye, nose and throat. His distinguished abilities were immediately noticed and he received the office which he is now so ably filling, without even putting in an application. He has four men under him and the position is one of great importance. It was stated to our informant that an unusually busy time is looked forward to this summer, as a much larger number of immigrants are expected this summer to arrive at Quebec and will pass through Dr. Page's hands.  
Mr. Thos. Duboyce, who has been confined to the house for a number of days through illness, has recovered and is again about his usual duties.  
Mr. L. H. Pibus has been having a new counter put into his store and part of the old one remodelled. He has made many improvements in his store during the last few months which have greatly added both to the convenience and attractiveness of the place. Mr. C. Turner has been doing some carpentry work with his usual ability.

**WEST SHEFFORD.**  
March 19.—Mr. and Mrs. R. E. Scott and daughter, Mollie, of West Ely, are spending a few days with Mr. and Mrs. G. S. Hayes.  
Mr. Roy Neil has been obliged to give up work at the bank for a couple of weeks on account of illness. Mr. Saunders is relieving.  
Miss Janet Blackwood spent Sunday with friends in Waterloo.  
Mr. and Mrs. P. M. Hayes gave a progressive nation party on Friday evening. There were eight tables. The ladies' first prize was won by Mrs. A. Grant, the second going to Mrs. W. Cunningham. Gents' first prize was won by Capt. Clark Hall, Mr. R. E. Scott taking the second.  
Mr. and Mrs. Robert Strange, of Cowansville, were the guests of T. H. Kennedy on Friday.  
Recent arrivals include: A. C. Stearns, Coaticook; P. W. Tubor, East Farnham; Theo. Robert, Berville; Chas. Smith, Haverhill, Eng.; Jas. E. Stewart, London, Eng.; A. E. LaBelle, W. L. Ployart, P. A. Mrs. A. W. Mitchell spent a few days at Knowlton, last week, the guests of Mrs. F. P. Williams and Mrs. N. Pettis.  
Mr. Ernest Bovin left on Saturday for Troy, N.Y., having received word that his wife who has been undergoing a critical operation at a private hospital in that city, was not progressing as favorably as first reports indicated.  
Mr. George Elkins spent the week end in Farnham.  
Mr. V. J. Racette will remove his cigar factory to Marieville where it will be run by a stock company with a capital of \$25,000.  
Mr. W. O. Fuller is spending a few days in New York.  
Mr. Thos. McPherson, lately in the office of the Empire Tobacco Co., left on Saturday for Montreal where he has secured an appointment in the office of the C.P.R., at Dalhousie Square, Montreal. Mr. McPherson was four years station agent for the Central Vermont Ry. here, and was secretary of the Granby Poultry and Pet Stock Association, and also, secretary for the Horticultural Society. Mr. McPherson expects to remove his family to Montreal about May 1st.  
Mr. Josiah Payne, one of Granby's oldest and most respected citizens, who had the misfortune to severely scald his foot recently, is recovering from this accident and will soon be able to be out again.  
Mr. Jos. Lessard, who was reported to have left the employ of A. C. Savage & Co. is back at his old post in the store.  
Mrs. D. K. Cowley entertained about forty friends to a most enjoyable tea on Tuesday and Saturday, twelve old ladies spent a pleasant afternoon, Mrs. Cowley again being hostess.  
The King Edward Club has given up the rooms over J. Mullin's store, having become disorganized, presumably by want of sufficient support.  
Road and Rural Inspector Peter Larive was obliged to go to Montreal on Tuesday for an operation on one of the hospitals.  
The many friends of Mr. Jos. Bergeron are pleased to see he has again resumed his duties after his illness.  
The funeral services of the late F. C. Banfill took place on Thursday morning at his late residence, City Avenue, the Rev. J. Lamont Alexander officiating, after which the remains were taken to his old home at East Farnham for burial. Among the floral offerings were a wreath from the teachers and pupils of the Academy, and a pillow from the School Commissioners.

**CORRESPONDENCE.**  
**MAIL DELIVERY QUESTION.**  
Editor of Record:  
Sir,—A report appeared in yesterday's Record of an improved mail service on the C.C.R. All this is very well and it may not be out of place now, to call attention to the possibilities of securing for Sherbrooke a daily delivery of mails by postmen. The subject was recently raised and discussed before the authorities, but nothing definite was promised, and to the average "man in the street," appears to have been forgotten.  
Comparing our present postal system with that which obtains in England, one is lost in wonderment why it should be found profitable and efficient to have a daily "house to house" delivery in even remote and obscure villages of attenuated population, in one country, and not find it advisable—even in the case of a growing business town like Sherbrooke—in the other. Perhaps it is to one of those infinitely subtle processes of reasoning which appear to be part and parcel of most Government concerns, that we owe the present antiquated inefficient box system, in preference to the up-to-date, satisfactory, and in every way superior personal delivery system. Like the railroad and the steamboat and other matters of national and municipal importance, which have arrived only after a long and tedious evolution, the long desired postman will appear in our town. A CITIZEN.  
Sherbrooke, March 19, 1907.

**SAFE ROADS VS. GOOD ROADS.**  
Editor Record:  
Sir,—Much has been written on this road question and cases are frequently before the court. There is no denying that the lives of the public are unduly exposed in some cases, and culverts have been out of repair for years. One near the city line, where a hole some three feet deep, extending nearly half way across the road, has more than room to pass with a team, was left for months with a rail stuck up in it, and another culvert that rotted out ten or more years ago with nothing left but a crust of dirt, has been a source of danger for years. A councillor that passed over the road last spring, informed a party that his horse stepped in a bad hole and probably would have been hurt if he had not been holding him pretty tightly.  
Some two months later I met the inspector and warned him that if anyone was hurt he would be apt to get into trouble. He said the matter was before the Council at a meeting several days before, and that one of the councillors was appointed to inspect and order the work done that was required, and later the usual application, a few shovels of dirt, was packed into the hole. How much did that inspection cost the ratpayers?  
Make your roads safe first and then fight unjust claims with all your might.  
This question of good roads has been pretty well discussed by the friends of the movement, and a resolution has been passed in committee at Quebec, which is both ill-advised and mischievous, a sort of a grabbing measure, the first that grabs in the county, first served, the rest line up and wait.  
The main condition attached is to do away with statute labor. Both county and municipal councils should consider the consequence well before taking that step.  
Some municipalities find it very difficult to get the work done under the money tax system. The citizens are impatient and in short and there are many miles in each municipality. Then again, when very heavy rain storms wash out the roads in many places, they must be repaired at once by men in the vicinity.  
We are informed that the State of New York is laying out from \$200 to \$200,000 per mile on roads, but the farmers of the Townships are not able to expend large sums macadamizing their roads.  
Our roads were built by statute labor, wild land tax and government grants.  
The Government should assist the new settlers on the recommendation of the different councils, and not those that apply for themselves or friends who wish for roads through large tracts of land they have acquired and hold for big prices after they have taken all the timber off. Citizens are secure and permission given by municipalities to street railways and the public are crowded into the ditch, and motors are granted the privilege to run at a high rate of speed, scattering death and destruction in their wake. No one would object to them running on a straight road where there are no teams, but when they rush around a sharp curve and cause an accident, they are a hundred times more guilty of manslaughter than the engineer or conductor that drops a link as they rush through his care-laden brain.

### MR. T. A. BOURQUE DIED THIS MORNING.

Mr. T. A. Bourque, merchant of this city, died this morning, after a long and trying illness. Mr. Bourque, born in Watton some fifty years ago, was a member of a large family. Coming to Sherbrooke, for some years he has carried on successfully a retail and wholesale grocery business on Wellington Street. His health began to fail and for several months he has been confined entirely to his home.

Mr. H. A. Odell continues to improve daily, and his physicians are confident that he is on the road to complete recovery.

The Lord Bishop of Quebec arrived in Lennoxville yesterday, and is the guest of his son, the Rev. E. A. Dunn, at Divinity House.

Mr. Camille Millette, formerly with the firm of Gendron, Denault & Co., has taken the position of general agent for the Eastern Townships of the Hook City Tobacco Co.

Mr. J. H. Poff, manager of the Sun Life, has leased the residence on Quebec street, formerly occupied by Mr. C. Knight and family and now owned by Mr. B. C. Howard.

Mrs. Meyers and her daughter, Miss Adella Meyers, from North Hatley, were in town yesterday, the latter leaving in the afternoon for Montreal, en route to California, to spend some months with friends.

Mr. C. A. E. Lefebvre, of this city, was unable to leave for Manchester to attend the consecration of the Rev. George Albert Guerin to the Roman Catholic bishopric of Manchester, on account of the severe illness of his brother-in-law, Rev. P. E. Beaudet, of this city.

Mrs. E. C. Fraser was the organizer of a snow shoe party on Saturday afternoon for her sister, Miss Maud Johnston, who is her guest. Although the advancing spring has put the winter sport somewhat into the background, all enjoyed the exercise, and on their return a jolly tea at Mrs. Fraser's hospitable home.

Yesterday morning the funeral took place at St. Michael's cathedral of Mr. J. B. Daigle, a well known citizen of Sherbrooke, whose death occurred on Friday, at the age of seventy-one years. The deceased was originally from St. Apollinaire, but had been a resident of this city 21 years. He is survived by his wife and two sons and three daughters, and leaves behind him the memory of a well-spoken, religious life, devoted to duty. The interment took place in St. Michael's cemetery, East Sherbrooke.

Master Willie Gill celebrated his 16th birthday on Saturday by a party, at which some thirty of his young friends were present. Tea was first served. The Rev. T. B. Brown made a pleasant little speech, to which Master Gill replied in a suitable manner, and after singing "For he's a jolly good fellow" all repaired to the parlor, where games were played during the remainder of the evening. The first prize was won by Master Glenn Sampson, and the consolation prize (a box of home-made candy) by Master Willie Atkinson. The party broke up at 11:30. The young host received a large number of very pretty presents in addition to numerous wishes for many other happy returns of the day.

The weekly rehearsal of the Sherbrooke Choral Society in Plymouth Hall last night was one of the best of the season. The attendance, though not as large as on other nights, owing to the practice in the Theatre, was enthusiastic and in good voice. The musical numbers that are to be given in the Art Hall on April 10th and 11th, and which the society have been studying during the winter, are now thoroughly mastered, and only an additional practice in the Theatre is required to render them perfect. It is believed a treat is in store for the music lovers of the Townships who attend the concerts. The society has been fortunate in securing the services of Miss Katherine Hester, of the Theatre, well known of Boston, and of Mr. E. J. Raymond, the popular baritone of the same city, to assist in these concerts.

### 53rd Drum and Bugle Corps will meet for practice in the band room Thursday night.

### MEETING OF PROTESTANT BOARD OF SCHOOL COMMISSIONERS.

The Protestant Board of School Commissioners met yesterday afternoon to consider several matters in connection with the schools.

The question of fire protection at the schools was first taken up. Mr. R. H. Gooley, government building inspector, was present.

The Chief of the Fire Department was unable to be present. Inspector Gooley stated that he had conferred with Chief Davidson regarding fire escapes and that the latter was still of opinion that none were required at the Academy and that he preferred some form of permanent fire escape be ordered from Bouvier & Beland for the third storey of the Academy.

An amendment was moved by Commissioners Jenckes that iron fire escapes be put on the three buildings, but was not seconded.

Commissioners Jenckes and Sangster were appointed a committee to see to the purchase and installation of the iron fire escapes decided upon.

Commissioner Sangster undertook to see to the procuring and installing of fire alarm gongs at the Central School, Academy and Prospect St. School.

The question of the engagement of teachers for the next year was then taken up.

A motion was made by Commissioner Jenckes seconded by Commissioner Campbell that the services of one member of the staff be dispensed with. The motion being put the vote stood, for Commissioners Jenckes and Campbell, against Commissioners Sangster and Fuller.

The chairman gave his casting vote against the motion on the ground that it did not go far enough. He had stated his position at a previous meeting and if the motion was enlarged to meet his views he would be prepared to support it by his casting vote if necessary. The motion was made seemed inadequate to the situation and he could not see the advisability of passing it. He, therefore, cast his deciding vote against it and declared it lost on division.

The meeting adjourned sine die.

### DEATH DID NOT PART THEM.

PROF. BERTHELOT SUCCUMBED TO SYNCOPE AT WIFE'S BEDSIDE.

Paris, March 19.—Mme. Berthelot, wife of the distinguished professor of chemistry, died yesterday. Prof. Berthelot, when summoned to her deathbed, suffered an attack of syncope, from the effects of which he died.

# Edwards Dutch Auction

To-morrow morning we open up the first day of our annual Dutch Auction. We have searched carefully the entire seven flats and comparatively few pieces can be found for this unique auction event.

However, we expect to have all our front windows full of odds and ends selected from the different departments, even if we have to take some of the new stock to fill up.

## Dutch Auction Explained

Every article in the windows will be ticketed to-morrow at the regular selling price, and each day following for five days the price will be reduced ten per cent. For example an article at \$5.00 on Wednesday would be \$4.50 on Thursday, \$4.05 on Friday, \$3.65 Saturday, \$3.29 Monday, and on Tuesday, the last day, \$2.96. Look at the windows, examine carefully each day's prices, but don't make the mistake of waiting for the last day.

Mr. George R. Boardman, organizer of the C.O.F., is in town on business in connection with the club.

Mr. and Mrs. Charles Lipp of New York, are in town today and leave this evening for Halifax, N.S.

Mr. C. Vickers, who has been on the Halifax express between Montreal and Montreal for a number of years past, is in town and favorably known in Sherbrooke, left this morning for Vancouver, B.C., where he will engage in railway work.

An annoying incident occurred upon the Beaton road, yesterday. A sleigh, with two occupants, upset in the muddy road. No one was hurt, and the sleigh only jumped and was soon controlled, but much damage was done to clothes and temper.

Mrs. Savage, of Montreal, has been spending a couple of days in Lennoxville, and while in town was the guest of Mrs. J. M. Leslie, London street.

Mrs. Savage was present at the confirmation of her son, Master Geoffrey Savage, who is at Bishop's College School.

Messrs. Mulvany, Leonard, Walsh, Stenson, McManamy, Maguire, Broderick, P. Hackett and M. F. Hackett had lunch, Sunday night, at the Chateau Frontenac, in honor of St. Patrick's Day. They lingered for some time afterwards to talk over matters pertaining to the old sod.

The Rev. P. E. Beaudet, brother of Mrs. C. A. E. Lefebvre, who has been absent for some years from the active ministry, and lives on Gordon street, was taken very ill on Sunday, with an attack of heart trouble, with which he has suffered for some years, and is still in a very serious condition.

It is said that the purchase price of the Bacon Block on Wellington street, recently purchased by Messrs. J. A. Leblanc and E. St. Laurent, is \$16,660. This is not officially announced but it is not far from the mark. Consideration for the closing of the driveway, upon which the Colere estate had a claim, also, entered into the transaction.

The Singer Sewing Machine Co.'s horse ran away yesterday afternoon. The team was left standing in front of the office and it is supposed took fright when a blast was set off in the old Colere block. The horse rushed along Wellington street, as far as Colere's where the wagon struck a hydrant and stopped, the horse continuing his run as far as the Square, where he was captured. The only damage caused was a broken axle to the wagon and one or two breaks in the harness.

The holy rite of confirmation was administered by the Lord Bishop of Quebec, the Right Rev. Dr. Dunn, last evening, to a number of the boys of Bishop's College School. The ceremony, which was very solemn and impressive, took place in the college chapel, the clergy present being the Rev. Dr. Allant, Rev. E. J. Bidwell, Rev. E. A. Duni and Rev. M. Husband, Danville. The candidates were presented by the Rev. Mr. Bidwell, and the hymns appropriately chosen for the service were rendered by the chapel choir. Among the parents of the candidates, who were present at the ceremony, were Mrs. Savage, Montreal; Mrs. Husband, Danville; Hon. E. Joly de Lotbiniere, Quebec, and others.

C.P.R. WORK HERE MAY BE DELAYED. It was stated recently by a C.P.R. official that the improvements and additions at Sherbrooke will be delayed for some time owing to the fact that the attention of the company is so

much directed towards the West, in an endeavor to keep up the equipment to meet the increasing requirements of the country.

IMPROVING COURT ROOM. Mr. Charest, of the Public Works Department, Quebec, is in town to-day. The acoustic properties of the court rooms in the Court House have not, in the past been of the best. The contract was given a few days ago to have the walls and ceilings of these rooms covered with plaster of Paris. This will then be covered with two or three coats of paint. It is expected that when this work is finished that the inconvenience complained of will be removed. Workmen are now engaged in the Court room where Judge Mulvany presides.

JUDGMENT CONFIRMED. The Court of Appeals in Montreal yesterday confirmed the judgment of Mr. Justice Hemery in the case of Gendron vs. Donnell. This was an action brought by the plaintiff to have the defendant punished for having used the firm name of Gendron, Donnell & Co., when the former partner had dropped out. The law now provides that when a firm name is so continued after one of the originals has retired that it can only be used when the word "registered" follows the name. The judgment of the Court here was in favor of the defendant on the ground that there was nothing to show that the Gendron complained of was the same man as the plaintiff. There were many of the name of Gendron. This view was maintained in the Court of Appeals.

COATCOOK HORSE FOUND IN SHERBROOKE. The police were notified on Sunday, by telephone, from Coatcook, of the loss of a horse and rig which had been stolen from the Catholic Church shed, and which belonged to Mr. Frank Rodrigue. Albert Carrier, 15 years of age, came here from Coatcook, yesterday, and after driving a young lad named Tinker, to Bromfield, he returned here and put the horse up in Mr. Tinker's barn. When Mr. Tinker returned home in the evening he noticed the animal, and furthermore, that it was a valuable animal, the whole outfit probably being worth about \$250. He questioned the Carrier but received no satisfactory answer. He then went to the police station where he learned that the rig was the one the police were watching for. The Carrier boy was arrested, and Mr. Rodrigue arrived in the city and took possession of his team this morning.

IS LAKE MEMPHREMAGOG BOOM COMING. (Stanstead Journal.) Few people have any idea of the rapidity with which desirable sites for summer cottages are being bought up along the shores of Memphremagog which are noted for beauty. A striking illustration of this is afforded in "Woodlands" which is the latest summer settlement to spring into existence.

By the way, the origin of the name is of interest. The original consent of the colonists desired that the name of the colony should be Woodlands, each household should call his particular property after the name of the Principal Flanders, hence "The Deacons," "The Birches," Mr. Grant-Schaffer, the eminent musical composer of music, "The Henlocks," Mr. Douglas Weir, of Montreal, "Tall Timbers," Mr. E. Douglas, of Montreal, "The Maples," etc.

Not two years ago, Principal Flanders went into "the forest primeval" on the farm of Mr. Daniel Campbell, off down the trees and up a cottage on an old Indian camping-ground. Since that time thirteen sites have been purchased from Mr. Campbell by people from various places. Of these four different purchasers come

from Chicago, and as many more from Montreal.

There is every prospect of a busy summer along this shore as the south of the saw and hammer will be heard in the land with the Head smiles in reflected sunlight across the placid waters of the lake. Strangers are beginning to search for the beauty spots which abound on the eastern shore of Memphremagog, and the summer population in the near future is bound to be large, for two few years North Harbor has deservedly received and entertained hundreds of visitors.

The commendable enterprise of her public-spirited men, together with the natural attractiveness of the scenery of Memphremagog, has been the success which has been achieved. But Memphremagog has much more of charm and beauty. Her scenery is more picturesque in its Alpine grandeur, her waters bluer and far less confined, rivaling the loveliness of the lakes of Switzerland, while her sunsets and cloud effects could not be out of place in Italian skies.

As yet there are hundreds of choice sites for summer homes on her shores, which can be purchased at remarkably low rates and these all within easy access from the towns and cities of Eastern Canada and the Northern States.

DAILY NEWS FROM TOWNSHIPS

Hall on St. Patrick's eve, Saturday, was well attended and deserved to be so. Mrs. A. E. Ross had made one of her always successful attempts to entertain local audiences, and the credit for the success of the affair was almost entirely due to her accompaniment of choruses and solos. These latter were sung by Miss Savage, of West Bromie, Miss Bolman, of Sweetsburg; Mr. J. C. Froy, of Montreal, a great favorite with Cowansville audiences; Mr. G. H. McDowell, of Knowlton; Mrs. G. Ross, Dubouey and Carson, of this place; Mr. Carson sang "Chimney Sweep's Song" entitled "Nora, my Irish Rose," with chorus. Mr. Dubouey followed with Moore's lyric, "The Minnie Boy," which was encored as well as "Black and White." The Girl-who-Loved-a-Boy like me, Miss Savage sang "The Hungarian Love Song," composed by J. J. Koehel, and was obliged to sing again, in reply to loud applause, rendering "Petrie's Darling, Good Night," as well as "Black and White." Mr. Froy was encored for each of his three numbers, singing Moore's beautiful song "Astoria," with "Absence," as an encore; Mack's "Aileen Alannah," with "Long Ago," as an encore, and Kennedy's "Fusheng," which was also well received. This gentleman has a mellifluous and lyric voice, under perfect control and of sweet quality. Mrs. Johnston's number was "Come, with chorus of Mr. and Mrs. J. L. McCall, Mr. and Mrs. Carson, Miss Lou Ross, Messrs. Hugman, Johnston and Ross, and brought down the house. The other contributions were furnished by Mr. McDowell, whose comic selections and violin excursions were very taking, and by Mr. J. F. Leonard, of Sweetsburg, Pruthonary, who gave Dr. Drummond's appreciation of Paul Kruger, the favorite song, "Killmeek," of the comic, and was encored. Master Willie Ross and Calvin Church caught the fancy of the audience in their green costumes to represent "Two Little Irish Girls," and their dancing and singing occupied a large place in the program. Messrs. Ross and Johnston, sang the favorite "Killmeek" quartette, sung by the Cowansville's prominent benefactors, the burden of which was that "Although it is said peaches grow in the garden of love, we picked each a lemon," was about as funny a bit of play-acting as has been seen here for a long time. These gentlemen all wore military caps and silk hats, as well as glasses and carried canes, promising, according to programme, "never to appear again."

LOST. LOST—LAST FRIDAY AFTERNOON, on Wellington Street, cardboard box containing suit of clothes. Reward for returning to Imperial Laundry.

LOST—ON FRIDAY, MARCH 15, 1917, a gold pocket watch with chain, and a carnelian ring, engraved with initials "J. C. Froy." Reward for return to Box 47, Record Office.

Mr. W. E. Stevens, of Huntingdon, a large farmer there, and one of the speakers at the farmers' meeting held here a few days ago, stated that his corn was decidedly superior to other sorts for green feeding or in a cured state to dairy cows, and also stated that he had grown "Perry's Hybrid" Sweet Corn, and considered it a most excellent sort, as it stood heavily and produced largely of both foliage and ears. I am handling this variety of sugar corn altogether for the above purpose and have a fine stock of it that tests 94 per cent germination. Farmers who would like to try this corn to supplement shortage in fall plantings, and there is nothing better for the purpose, had better get their orders in soon, as I am sure to get sold out before planting time. Send for samples and prices. Did you read my ad. in last Saturday's Record. If not you had better look it up now, and send in your orders at once. My prices are reasonable, and my seeds as good as can be grown.

"Mother wants another can of St. George's Baking Powder—and she says not to give her any other kind?" "Bless your heart!—that's the only Baking-Powder I sell these days. Since your mother, and all the other little girls' mothers, have tried St. George's, they won't use anything else." "How do you like the Pies and Cakes that Mother makes, now? Fine, eh?" "And Father thinks Mother is a good cook, now? Well, ST. GEORGE'S is doing good in more ways than one." "I am not a bit surprised at your mother liking ST. GEORGE'S BAKING POWDER. I knew she would. Everybody likes it." "Good-bye." A pure Cream of Tartar Baking Powder makes white biscuits—while a baking powder containing alum, turns the biscuits yellow. St. George's makes white biscuits. We ask you to buy just one can of St. George's. We depend on its quality to make you buy the second.

PROVIDING COAL FOR POSTERITY.

(From the Chicago Inter-Ocean.)

Our forefathers started this nation with the theory that private enterprise in the development of natural resources should be encouraged in every possible manner. The whole tendency of our land laws has been to make it easy to reduce the public domain to private possession.

But it is at least a fair question whether the time has not come when changed conditions have made a continuance of this policy unwise, especially with respect to those stores of mineral fuel which are still public property. For these stores, when once exhausted, can never be replaced.

When we consider the attitude which the private owners of certain coal lands in Pennsylvania took a few years ago, it is not surprising that the public distress it caused and the somewhat extra-constitutional measures that had to be taken to convince these persons that their "private business" was affected with a public interest which they must consider—we can see no reason in the President's suggestion that it would have been better if some Eastern coal lands had been left under Government control and for his urgency that measures be taken "against recurrence in the West of the conditions we deplore in the East."

THE ORIGIN OF THE EMERALD ISLE.

One of the most prominent actors of the American stage in a recent interview said, "The only regret I have about being an Irishman is that I am not more of one, and the only regret that I have about St. Patrick's Day is that it comes only once a year." This statement sums up very cleverly the feelings of every son of the old Green Isle beyond the sea.

It seems that when Satan was banished from above he stole a fragment of heaven and tried to make off with it, but the angels followed fast in pursuit that in his endeavor to escape the devil let his prize fall into the sea. And when the angels saw how calm and beautiful it lay on the bosom of the water, they took it to be a blessing mankind, and named it Ireland.

PROGRESS OF BROMPTONVILLE PARISH.

CITIZENS APPRECIATE WORK OF REV. FATHER LAROQUE — CHURCH AND SCHOOLS RECENTLY ERECTED.

Bromptonville, March 19.—(Contributed)—At the completion of his fifth year of ministry in Bromptonville, Rev. J. S. Laroque has the happiness to see his parish in possession of a church, a college, a convent, and a new presbytery, all edifices which have been erected at the cost of great sacrifices and hardships. It is true, but also, at the joy and contentment of each of the inhabitants of this active and prosperous town.

Yesterday morning, on the occasion of the Rev. J. S. Laroque's taking possession of his new presbytery, the parishioners led by Mr. W. Tobin, M.P., presented him with a set of officers for his dining room and private office. Some time ago, in December last, on the occasion of the fifteenth priesthood anniversary of Father Laroque, the "Ladies of Ste. Ann," as well as the society of the "Children of Mary," presented him with gifts of gold and crystal. The amount of the gifts are now over two hundred dollars.

The citizens always, in union with their priest, have achieved great things which will tell the future generations of the great force there is in working hand and hand when the aim is to promote general prosperity as well as the general development of all that is good and holy, the diffusion of religion and the thorough education of youth.

Rev. J. S. Laroque understood so well the latter part of this programme that on his arrival in Bromptonville, his first care was given to children, and now his convent directed by the Reverend Sisters of the Congregation de Notre Dame, and his Academy in charge of the good Brothers of the Sacred Heart, enlist about three hundred pupils. The Church is a credit to the generosity of the people. For it must be said that this building was not asked for but was offered as a token of gratitude to the zeal and devotedness of Father Laroque, during the banquet given for the blessing of the church, Oct. 29th, 1905.

SIR WILFRID TO SAH FOR ENGLAND APRIL 5.

ACCOMPANIED BY SIR FREDERICK BORDEN, TO ATTEND CONFERENCE OF THE EMPIRE.

Ottawa, March 18.—It has been definitely settled that Sir Wilfrid Laurier and Sir Frederick Borden will sail for England on April 5. The question has been in doubt for several days as many of the first minister's supporters have been urging that he should not leave Canada with Parliament still in session. However, different counsels have prevailed. It is felt that in a sense it would be humiliating for Canada not to be represented at the great conference of the Empire, although it is quite true that no Canadian proposals appear on the agenda paper. The invitation to the colonial representatives is to the premiers only, so that Sir Wilfrid could not send a substitute. Were the first minister to absent himself, it would reflect upon Canada's interests in Imperial affairs, and would certainly lead to misunderstandings throughout the Empire. It has therefore been thought wise that he should go, even though Parliament has not concluded its labors.

TAXING SPECULATION.

(From the Omaha Bee.)

The tax of 25 cents which the Missouri Legislature has just levied on future delivery on boards of trade or in bucket shops was undoubtedly suggested by the New York law specifying taxing two cents a share on transfers of stocks. There is, however, a material difference of method. The New York law bears proportionately to the value transferred on the number of shares, while the Missouri law fixes the tax at 25 cents on a transaction whether the value involved be \$100 or \$100,000.

The principle involved in special taxation of such dealings for future delivery, the great bulk of which are purely speculative, has been fully vindicated by the courts. The New York law evoked most vehement protest, but it was mainly from the comparatively small class who as middlemen thrive on the volume of such speculation, and they exhaustively litigated the law only to have the Court of Appeals uphold it in its length and breadth. Experience has confirmed public satisfaction since the New York tax yields an annual revenue of about \$5,000,000.

In point of fact such special taxation does not fall on the boards of trade or the bucket shops, but for the most part is ultimately charged back to the speculators themselves. The former would be affected by material reduction of the volume of speculation

People of Sherbrooke PROCLAMATION BY D. J. McManamy. Wherein, the people of this city have been led to purchase so-called remedies from which they have received no benefit whatever, and having thus wasted so much hard-earned money, it has come to pass that they know not what to believe. Inasmuch as this unsatisfactory state of affairs now exists, know, therefore, all persons who are in need of a medicine for any of the hereinafter mentioned ailments, that we will supply them with Vinol, our delicious cod liver preparation—without oil—on a positive guarantee that if it does not succeed in benefiting them we will refund the entire amount of money they have paid out on the medicine, without question or quibble. There is no one medicine that will cure everything, but there are some we know to be honest, reliable and of great curative value. Such is Vinol. It is not a "patent" or secret medicine—everything in it is plainly printed on the label. We are familiar with every part of it and know that it should be a blessing to all persons who are suffering from any of the troubles hereinafter described; and, unlike other medicines, it will cost absolutely nothing if it produces no benefit for the user. Could any offer be more fair than this? You are ill; we offer you medicine which we believe will benefit you, and if it does not we will return to you every penny you paid us for it. If you are ill and need such a medicine you owe it to your family, your friends and yourself to try Vinol, which we guarantee to be a genuine cod liver preparation made from cods' livers containing their oil. We could not afford to lend our name to the praise of Vinol as we have been doing in the newspapers if we did not know it to be an honest and valuable remedy for the ills for which it is prescribed. We ask you, our neighbors, friends and acquaintances, to accept our assurance that this is a genuine offer and that any and all persons who need a medicine of this character should feel a sense of security in our offer. Vinol is not only a real cod liver preparation, but it represents the most scientific method of manufacturing such a preparation, and only by the elaborate process employed in its manufacture can all the medicinal elements or alkaloids be recovered from the cods' livers and their oil. Vinol is not made up of drugs or active principles which are said to resemble the medicinal elements found in a cod's liver, as are many so-called extracts or wines of cod liver oil. Vinol contains not only all the medicinal elements of cod liver oil—but those of the liver as well. The nauseating, useless oil—from which all the medicinal elements are extracted by the Vinol process—is thrown away. Vinol is deliciously palatable and agreeable to the weakest stomach and contains all the goodness, the soothing, healing, strengthening and curative elements of cod liver oil—actually taken from fresh cods' livers. To the medicinal elements recovered from the cod's liver is added Magma of Iron Peptonate (Organic Iron), made by chemically combining Iron Oxy Chloride with Beef Peptonate dissolved in a very fine medicinal wine. It is for these reasons that Vinol is fast superseding old-fashioned cod liver oil and emulsions in the treatment of coughs, colds, bronchitis and all throat and lung troubles, and as a body-builder for old people, delicate children, weak and run-down persons and convalescents. We want all persons suffering from loss of appetite, tiredness, loss of flesh, loss of strength, indigestion, dyspepsia, irritability, nervousness, chronic coughs and colds, bronchitis, sore lungs, also pale, delicate women and children, nursing and weak mothers, and all debilitated and run-down persons to try Vinol on our "satisfaction or money back guarantee." We stake our reputation on this offer being genuine and meaning exactly what we say—satisfaction or money back without question to all who purchase Vinol at our store. Remember you are absolutely under no obligation to us whatsoever if, after having given Vinol a fair trial for any of the above ailments, you consider that you have received no benefit. You have only to tell us so and we will cheerfully refund the entire amount of money you have paid us. You see our faith in Vinol, and you must admit that we know something about medicine. Therefore, when we tell you that Vinol is one of the most valuable cod liver preparations we have ever known, and a wonderful tonic, reconstructor and a builder of flesh and strength, appetite and health, at the same time being absolutely free from any drugs or harmful ingredients of any description, we are not unreasonable to expect you to believe us. Remember, Vinol is delicious to take and agreeable under all conditions. D. J. McManamy 121 Wellington Street, Sherbrooke, Quebec
