

DAILY WITNESS

MONTREAL, TUESDAY, JULY 29, 1890.

PRICE ONE CENT.

VOL. XXXI, No. 176.

Notices of births, marriages and deaths, favorably must be endorsed with the name and address of the sender, or otherwise no notice can be taken of them. Veritas and extended obituary notices are charged for at regular rates.

BIRTHS.

MACKENZIE.—At Lin Ching, North China, on Saturday, June 7th, 1890, the wife of the Rev. Murdoch MacKenzie, (Canadian Presbyterian Missionary to Honan), of a daughter.

COCKBURN.—In this city, on the 21st of July, 1890, the wife of John Williams Cockburn, of a son.

MARRIED.

TUCKER—GRANT.—On the 9th instant, at St. George's, Hanover square, London, England, by the Ven. Archdeacon Fortin, rector of Holy Trinity, Winnipeg, the Rev. L. N. Tucker, M.A., assistant minister of St. George's, Montreal, to Lydia Mary, only daughter of the Rev. John White, of Ampfield, Hants, and widow of the late George Grant.

DIED.

RUSSEL.—At Hillbrook, Grafton, Ont., 24th July, 1890, Jane Cameron, widow of the late John Russel, in the 77th year of her age, fourth daughter of the late Alexander Cameron, Inverness, Inverness-shire, Scotland.

GOW.—In this city on the 26th inst., Catherine McConechy, beloved wife of Peter Gow, aged 63 years. Funeral from her late residence, 264 St. Patrick street, Point St. Charles, on Tuesday, at 2:30 p.m., to Mount Royal Cemetery. Friends and acquaintances are respectfully invited to attend.

BEATTIE.—At her father's residence, Brompton, July 22nd, 1890, Janet Beattie (Nellie), youngest daughter of William Beattie, aged 30 years. Interred at Elmwood Cemetery.

GODFREY.—At Montreal, on the 28th of July, Margaret Miller, aged 62 years, widow of the late Robert Godfrey. Funeral from her late residence, 49 Jurons street, on Thursday, the 28th July, at 2:30 p.m. Friends and acquaintances will please accept this intimation.

EXTERNAL

VS.

INTERNAL!

Talk about heat that wilts your linen; that takes every atom of energy out of you; that prostrates you at the moment you require the best effort of brain or hand; that pours down upon you with the scorching breath of the tropics; that robs you of loose change for cooling drinks that have no more effect than castor oil upon Nelson's Monument—but this is the weather to try the strength and temper of the suffering citizen.

Still, the case is not hopeless. You can keep cool.

Change your underclothing frequently, and see to it that you get Tooke's Gossamer Garments, and you will be comfortable in spite of the heat.

"Cooling off" internally is one of those pleasing delusions which some people like to cling to in spite of the patent fact that it is the surface of the body that needs the "cooling" all the time.

Here is a recipe, gentlemen, that will fill the "bill," even if the torrid wave should be hotter than it is now: Frequent changes of Tooke's Featherweight Underwear, manufactured expressly to meet the requirements of the "dog days."

TUESDAY AFTERNOON, JULY 29.

Last Edition

TELEGRAPHIC NEWS.

CABLE.

LOST HER JEWELLERY.

LONDON, July 28.—Miss Eastlake, the actress, who has just arrived from New York, lost jewellery valued at \$500 on the voyage. It is believed a thief among the passengers on the steamer on which she travelled stole the jewellery.

THE EMPEROR LOOKS WELL.

BERLIN, July 28.—The Emperor William arrived at Wilhelmshaven to-day on his return from his trip in Norwegian waters. He is looking exceedingly well, and there is no doubt the trip has greatly improved his health.

(Via C. P. R. Telegraph.)

MR. YATES' GOSSIP.

AN UNFORTHCOMING VISIT.

NEW YORK, July 29.—Edmund Yates cables to the Tribune from London as follows:—It is no secret that the Queen would gladly have dispensed with the Emperor William's visit, which happens for many reasons to be peculiarly inconvenient. The Emperor is to arrive at Cowes next Monday afternoon, and will dine with the Queen at Osborne, where there is to be a family dinner to welcome him. There is no fleet now at Spithead for the Emperor to inspect, but he is to spend a day at Portsmouth dockyard, and the squadron regatta will occupy another day, and probably he will visit the fortifications at the Needles. The Emperor is to leave Cowes on Friday morning for Wilhelmshaven, unless he reverts to his original plan and goes to Edinburgh to see the Forth bridge, in which case he would embark at Leith on the "Hohenzollern."

THE PRINCE OF WALES.

The Prince of Wales is going to Hungary toward the end of September to visit Count Festetics and Count Karolyi and there will be a series of hunting parties on their respective estates. The Prince of Wales' yacht "Alin," which is to take part in some of the squadron regattas next week, has undergone extensive refitting at Cowes during the last few weeks and has been fitted with new masts and a new deck.

CHURCHILL'S SPEECHES.

A great deal of ill-natured nonsense has been talked about Lord Randolph Churchill's speech on Wednesday. Whenever he speaks it is at once interpreted as a bid for office, and this speech was discussed accordingly. No one knows better than Lord Randolph himself that his coming back into office now is not at all likely, and what is more, he does not desire it. If he came back now it would be on conditions imposed on him by a Cabinet not at all anxious to have him, and whose object would be to curtail his influence in every way possible. If he waits till the election he knows how powerful his aid must be to his party, and he would then be in a position to make better terms for himself.

PROBATION.

The anticipation of a speedy prorogation has been rather retarded by the work of last week. Things are going slowly and members are beginning to wonder whether they will get away before the middle of August. There can be no doubt that what is really wanted is thorough reform of parliamentary procedure. Eventually it will be found that Mr. Erskine May's proposition is the only feasible one, namely, to abolish the Committee of Supply and to put in its place a grand committee to examine details of finance. At present every small vote is made the peg upon which to hang a speech while practically the whole House is sitting in Committee of Supply. The present chairman is not half as strong in curbing a debate as the Speaker.

A PLEASANT PLACE FOR MEMBERS.

The terrace of the House of Commons has become the favorite resort of the wives and daughters of members and their friends. Every fine afternoon it is gay with tea parties, and ministers and members relieve the tedium of the debates by pleasant talk and quiet flirtations on the terrace. One of the signs of the time is the large increase of lady visitors at the House.

A PRESIDENTIAL ADMIRAL.

Admiral of the Fleet Sir Thomas Symonds has addressed a long and interesting letter to the subject of our naval deficiencies to Lord Salisbury. His main contention is that the fleet is dangerously weaker in comparison with those of other nations than it was at the time of the last great war, while the duties devolving upon it have enormously increased in the interval. The principal of these are the supply of coal to ships and, entirely dependent on this, the supply of food to the country. In 1815 ships did not require coal and the country could feed itself.

AMERICAN.

SAVED THEIR WAY OUT.

ESCAPE AND RECAPTURE OF PRISONERS FROM A VERMONT GAOL.

MONTPELIER, Vt., July 28.—The most daring gaol delivery committed in this vicinity for years occurred here on Saturday night, when four desperate prisoners escaped from Washington county gaol, by sawing the grating out of a

window. The men were J. M. Weaver, aged 23 years, imprisoned for horse stealing; William Jenkins, of Barre, aged 23, committed for attempted rape; James Hathorn, of Washington, Vt., aged 16, committed for highway robbery; Peter Amour, of Barre, aged 29, committed for keeping a house of ill-fame. Weaver is a desperate character. He nearly killed the sheriff when the latter arrested him. When the gaoler switched in the prisoners at ten o'clock Saturday night all four were apparently asleep in their cells, but it turns out that they had placed dummies in their beds and were probably concealed in the water closet. About midnight it was discovered that the men were gone. Sheriff Atherton organized a search. At five o'clock this afternoon the pursuing party wired that they had captured Jenkins and Amour at Hartford, Vt. Weaver was arrested early this morning on a train at Essex Junction, Hathorn was arrested this afternoon at Richmond, Vt.

NEWS.

TRANSATLANTIC.

Prince Bismarck's proposed visit to England has been postponed. He will go to Kissingen in the middle of August. The Munich *Zeitung* says Bismarck will meet Prince Albert of Prussia at Kissingen, and will be placed at his disposal, as in former years.

A detachment of gendarmes surprised a number of brigands in a cave on the Island of Crete and killed and wounded four of them. One gendarme discovered large stores of ammunition and provisions.

The West Scotland steel manufacturers have announced their intention of reducing wages ten percent, the decrease to go into effect in August. The workmen threaten to strike.

The village of Brod, in Switzerland, has been visited by a disastrous fire. Many buildings were destroyed, four women were killed and many persons were injured.

Messrs. Dillon and O'Brien will start on a tour of America about the middle of September. The Heligoland Bill passed its third reading in the House of Commons on Monday.

AN ENGLISH RAILWAY COLLISION.

THREE MEN KILLED AND NINE INJURED. LONDON, July 28.—Through some unexplained stupidity on the part of a switchman two workmen's trains collided on the new Manchester ship canal to-day, causing a terrible wreck. Three workmen were killed and nine seriously hurt.

INFAMOUS OUTRAGES BY ARNAUTS.

LONDON, July 29.—A correspondent of the *Daily News*, who is making a tour of Macedonia, describes the province as in possession of the Arnauts. The Arnauts, he says, are leagued with brigands and share their booty and the lives of Christians are held as nothing. He instances a number of outrages by Arnauts. At Pristina a party of Arnauts entered a school of Serbian Christians, maltreated the three masters, violated the schoolmistress and closed the school. The owner of a farm at Pristina and his three sons were murdered by Arnaut raiders and on another farm at Pristina the inmates were cut to pieces. The correspondent declares that there are a hundred cases similar to those recited.

THE NEWFOUNDLAND GRIEVANCES.

THE ACTION OF BRITISH NAVAL OFFICERS TO BE INVESTIGATED.

LONDON, July 28.—In the House of Commons to-day Sir James Ferguson said that as the legality of the actions of the British naval officers in Newfoundland will be tried by a court of law it was not desirable to state under what Imperial law of prerogative the Crown office instructions had been framed.

STANLEY'S HEALTH.

NEW YORK, July 28.—One of the first passengers to land from the *Canard* steamer "Umbria" when she reached her pier yesterday afternoon was Mr. Charles Combs Tennant, brother-in-law of Mr. Henry M. Stanley. He came to make arrangements for the reception of Mr. Stanley himself, who will arrive some time in November to fill his engagement for a lecture tour in the United States. "Mr. Stanley was still very ill when I left home," said Mr. Tennant; "but Dr. Parke, his physician, hopes to pull him through all right. He has what is known as jungle fever, and his system is still full of malaria. He is now at Milford, the country seat of Lady Ashburton, in Hampshire. From there he will go to Malvern Springs, and after a stay of three weeks he will proceed to Carlsbad, where, it is hoped, the treatment will prove of great benefit. He is still unable to take any but liquid nourishment, but he is gradually raising in strength."

DOLLS WITH A "TWANG."

MESSENGER'S TOY COMPANY FLOATED IN LONDON FOR \$1,500,000.

LONDON, July 26.—An Edison photographic company was floated by subscription this morning for \$300,000. Last night, in order to give an impulse to the enterprise, a select party of newspaper men were given a private exhibition of the talking dolls at the Savoy Hotel. A number of representative people were present, and all appeared to be delighted with the exhibition. To-day's papers, however, while speaking highly of the marvellous abilities of Mr. Edison and the supernatural efforts of his dolls, comment upon the strong nasal accent of the talking mannikins. They say it is evident that the cylinders bear the reproduction of American voices somewhat affected by climatic influences. It is suggested that if Mr. Edison, or the company bearing his name, is anxious to make a success of the enterprise, the dolls must be talked into by Britishers and the "twang" obliterated by the popular Cockney.

AMERICAN.

AN AMERICAN SENATOR'S VIEW

REGARDING THE CASE OF THE SCHOONER "HATTIE EVELYN."

WASHINGTON, July 28.—The case of the seizure of the American fishing schooner "Hattie Evelyn," at Bay St. George, Newfoundland, has been brought to the attention of the senators by Mr. Steele, president of the American Fishery Union. The statement Mr. Steele has forwarded from Gloucester shows that the schooner went into Bay St. George for the sole purpose of purchasing bait. Payment of \$16 light-house dues was demanded and made under protest. The captain was then notified he could not purchase bait until he had procured a license therefor at an expense of \$65. He protested against this in vain and was compelled to go elsewhere in search of bait. His plea that under the treaty of 1818 he was entitled to purchase bait without avail. A senator who has had occasion to look up the law says ample remedy is lodged in the hands of the President. In such a case he is authorized, and by implication it is made his duty, to close the ports of the United States to Canadian vessels. He should say to those vessels coming to Gloucester with cargoes of fish, "Please stay out until our vessels are permitted to enter your ports for legitimate commercial purposes in accordance with treaty rights secured by them."

AN EXCURSION STEAMER COLLISION.

BALTIMORE, July 28.—The steamer "Virginia," of the Old Bay line, en route from Baltimore for Norfolk, collided this evening off Fort Carroll, five miles from here, with the steamer "Louise," on her way to Baltimore from Colchester Beach, on Chesapeake Bay, with fifteen hundred excursionists. It is said the collision resulted from the efforts of the steamer to avoid a schooner in tow of a tugboat. The weather was thick and rainy. The "Virginia" struck the "Louise" on the starboard side aft of the wheel, cutting away the outer woodwork and crashing into the saloon. The "Virginia's" stem was badly twisted and her bow stove. Many excursionists are missing. Five bodies had been recovered up to eleven o'clock. It is supposed others have been lost. The steamer came to Baltimore under her own steam. There were no fatalities on the "Virginia."

CHICAGO SPECULATORS FAIL.

CHICAGO, July 28.—Ernest Hess, formerly of the K. Hess Elevator Company, a member of the Board of Trade since its organization, failed

to-day. He was short about 2,000,000 bushels of oats, and the recent rapid rise in the price of that cereal forced him to the wall. His liabilities are estimated at \$150,000, and he had about \$80,000 up on margin three months ago when oats first commenced to advance. Hess made a great deal of money. He turned out quickly, however, and began selling enormous quantities. He kept on selling, and the market continued to advance. To-day it reached a point where Hess could put up no margin, and his property was bought in under the rule. While the buying was going on the market rose to unusual figures, but it reacted a little after his creditors had protected themselves. Besides his speculations in oats he had sold a small line in corn. F. G. Tennant, a small trader in provisions chiefly, was also forced to order his trades closed to-day. He at times traded very heavily, and was supposed to be acting for a well-known banking firm.

The Daily Witness.

TUESDAY, JULY 29, 1890.

THE HUNT CLUB will be, at least, as much
interested as any one else in investigating the
charge of cruelty to one of their dogs, which
it would seem from the statements made is
not a unique case. They are probably as
tender hearted as other men, and have the
additional incentive of not only owning but
knowing the dogs. They will, of course,
naturally be inclined to resent outside inter-
ference and to assume that any strictures on
their servants are frivolous. It would, there-
fore, be to the interest of all parties if, instead
of prejudging the case, they would calmly in-
vestigate it for themselves and if they find it
necessary take the prosecution into their own
hands as the natural protectors of the dogs.THOSE WHO PURPOSE to build a ship rail-
way between the Georgian Bay and Lake
Ontario should wait and see how the Chi-
cago ship railway, which can only serve as
an experiment, works before they go
on with their Hurontario railway. Of
course, the enthusiastic ship railway pro-
jectors expect Government aid, which
means that they expect the people to
furnish all the money needed in the con-
struction of the railway. The time has come
for Canada to cease piling up her national
debt. The people, especially the farmers,
need time to pay off their debts and recover,
if possible, from the long period of heavy
taxation to which they have been subjected,
and under which they are still suffering be-
fore another era of extravagance is entered
upon.THE CROP PROSPECTS in the North-West
are magnificent, and the people of all Canada
may well be jubilant over them. Every-
body should guard against over-optimism,
and should especially beware of paying the
way for a great disappointment not only here
but in Great Britain. If the British people
are informed that a magnificent crop is as-
sured, that it is already as good as in the
elevators, and any disaster occurs, it will
tell tenfold force against our country. Let
there be no boasting, no ranting, and espe-
cially no exaggerations as to scores of mil-
lions of bushels of wheat which will be
over for export. Let there be
a chance for once of its being said
that Canada was even better than her word,
that her crop was larger than it was stated to
be. It is only railway stock and land specu-
lators who seek to make immediate profits
out of values enhanced by too much assurance,
by exaggeration and even by falsehood, who
profit by such courses as have been pursued in
regard to booming the Canadian North-West.
Let there be an end of it. The prospects at pre-
sent are favorable for a larger crop per acre
and with a larger acreage than in 1887, but
the risk of an early frost in the second or
third week of August has yet to be run.

THE EASTERN QUESTION.

European newspapers are again discussing
the likelihood of the revival of the long dor-
mant Eastern Question this fall. The work
of Russian intrigue throughout the Balkan
peninsula and of strengthening the Russian
army on the southwestern frontier of the
Empire has been steadily pursued and Russia
is now probably as ready for war as ever she
will be. The condition of things throughout
the Turkish Empire at present is such as to
encourage Russia in interfering if she is de-
termined to do so at some time. In both
Serbia and Bulgaria the Governments seem to
be at the mercy of mere political intrigues,
and there is no enthusiasm among the people
of either principality over its chief ruler, as,
indeed, there could hardly be in view of
the weak character of the princely families
at the head of the states. Russia's power
is more strongly felt by both principalities
than ever before since the time of Alexander
of Bulgaria's accession. At Constantinople
Russia has been steadily strengthening her
influence until it has become a question
whether Germany and England can again
dominate the Porte as they have done.
England has won a momentary diplomatic
victory in strengthening the hands of Bul-
garia by means of the attachment, at the
Porte's command, of the Greek Church
throughout Macedonia to the Bulgarian
patriarchate, but the question of how far the
Sultan will be influenced by England for the
future depends upon the power England is
willing to exercise in case of war in the Bal-
kans. It is questionable whether the Eng-
lish people would sanction a war for the
maintenance of the Turkish em-
pire. The fear of Russia domi-
nating the Mediterranean from Constantinople
has about passed away in England, though,
of course, a panic in case it immediately
threatened is possible. The English people
have come to feel that Germany and Austriaare far more deeply interested in the future
of Constantinople and the Balkan peninsula
than is England, and that as long as England
can depend upon the alliance of Italy the
Mediterranean can never pass from under her
naval domination. Germany will some day
take over Syria, and the danger of the Medi-
terranean becoming the naval battleground be-
tween powers fighting for India will have be-
come a thing of the past. If Russia, there-
fore, shows her teeth to the Porte,
it is not improbable that her in-
fluence will be met by that of Aus-
tria and Germany rather than that of Eng-
land, and that if Russia has determined to
pick a quarrel, in order to acquire a large
slice of the Balkan peninsula and of Armenia,
the only effective resistance she will meet
with will be from the Teutonic empires.
Will Russia deliberately proceed to precipi-
tate what cannot but prove in the end a great
and devastating European war? The Armen-
ian and Cretan massacres and the political
disturbances in Bulgaria, Serbia and Roume-
lia afford a good opportunity for Russian in-
terference on moral grounds. The Pan-
Slavists were never more active and
hopeful than at the present time. The
English newspapers, which worked up
public opinion against the Turks over the
Bulgarian massacres prior to the late
war, are again arousing English opinion over
the Armenian murders, but the English Gov-
ernment seems unable to protect the people.
On the other hand, the German army is at
the command of a young emperor whose
activity and ambition apparently know no
bounds, and it is hardly likely that he will
leave Austria to fight it out with Rus-
sia alone. The Czar knows the danger,
and is, it is said, fat and lazy as well
as peacefully inclined. Northern plots to
deprive Russia of Finland by consolidat-
ing Scandinavia are being talked of.
It is most probable that, in spite of many
signs of an approaching cyclone in Europe,
the clouds will roll harmlessly over and
Europe will enjoy peace until some sudden
incident or affront, rather than deliberation,
results in a storm-burst.

CHILDREN IN FACTORIES.

At the regular meeting of River Front L. A.
7628 K. of L., held in Weber Hall, St. James
street, on the 27th inst., the following resolu-
tions were unanimously adopted:—Whereas certain individuals in this Province have
proposed an alteration in the legislation regulating
child labor in factories, reducing the minimum age
at which a child is allowed to work from fourteen years
to twelve; andWhereas, the motive of this proposition is a desire
on the part of a privileged section of the community,
namely, the manufacturers, to obtain labor cheaper
than they can obtain under present circumstances, while
at the same time these manufacturers are protected at the
expense of the whole community for the alleged pur-
pose of paying high wages to their employees;Therefore be it resolved, that we denounce this pro-
posal as inhuman, out of harmony with the progressive
spirit of the age, and subversive of the children's
moral and physical welfare; and that in our opinion
the men who have proposed this action are deserving
of the indignation of every right thinking man for their
attempt to coin money out of the blood and sinews of
helpless children.Resolved further, that copies of these resolutions be
sent to the press for publication.

VERDICT OF MANSLAUGHTER.

The adjourned inquest upon the body of
Samuel Faillie was continued at the Notre Dame
Hospital last night. Dr. Harwood's report of
the post mortem examination held upon the
body yesterday shows that the deceased met his
death from the effect of blows on his head.
After the coroner had heard the jury retired,
and after long deliberation returned a
verdict of "manslaughter" against Jean Baptiste
Perreault, the carter who inflicted the
wounds. Coroner Jones then formally com-
mitted Perreault to stand his trial at the
September term of the Court of Queen's Bench.

POOL PLAYING FOR LIQUOR.

Magloire Dumont, saloonkeeper, St. Cath-
rine street, was tried yesterday afternoon in the
Recorder's Court for permitting gambling. The
winner at pool at Dumont's place is given a
ticket entitling him to a five cent drink at the
bar. Mr. Forges argued that this was permit-
ting gambling. Ald. Jeannotte made a fervid
argument for the accused, contending that pool
was a game of skill and not gambling, and that
the pool license entitled the keeper to award a
drink, if he chose, to the winner. Judgment
has not been given yet.

"WILSON."

The New York Times has published a de-
spatch from Chicago regarding the notorious
"Wilson," whose part in the Bonanza Station
robbery is well known here. "Wilson,"
the despatch states, has been employed as an
agent by Charles Peckham & Co., insurance ad-
juster, Chicago, for several months, and has
suddenly disappeared.—after, it is alleged, forg-
ing his employer's name quite extensively.

THE COTE ST. ANTOINE FIRE.

Mr. de Bellefeuille says he intends to rebuild
as soon as possible. He bitterly complains of
such large places having no local fire company.
He says he has tried several times to get one
started, but nothing came of his efforts.

PERSONAL.

Mr. James Marwick, M.A., of Edinburgh
University, who from 1879 to 1882 was secretary
to the Hon. J. J. C. Abbott in this country, has
just died in New Zealand, whither he had
gone to recruit his health.

CITY ITEMS.

Mr. Beauregard again denies the rumor of the
sale of La Patrie to a Mercier syndicate.The grocers have made elaborate preparations
for their picnic to-morrow at Knowlton. A big
excursion is promised.The Visiting Governors to the Notre Dame
Hospital for the week are Messrs. Joseph Bar-
sillon and John Hope.Under the auspices of Lieut.-Col. Massey and
officers of the Sixth Fusiliers the Harmony
Band is to have a moonlight excursion on the
4th of August.The prizes won at the picnic of the Catholic
Young Men's Society at Hochstadt Springs on
Saturday were distributed last evening at the
society's hall on St. Alexander street. An en-
joyable concert followed. The Rev. Father
Callaghan presided.THE AGRICULTURAL SOCIETY of the County of
Chateauguay will hold its annual exhibition at
St. Martin on the 4th September. No inter-
esting liquors will be allowed on the ground.

SECOND TIME THIS YEAR.

THE BALMORAL HOTEL SERIOUSLY
INJURED BY FIRE EARLY THIS
MORNING.After damaging Cote St. Antoine to the ex-
tent of some \$50,000 the fire king took a few
hours' rest, but visited the heart of the city at an
early hour this morning, and partly destroyed
one of our finest hotel buildings, the Balmoral,
doing damage to the extent of between \$25,000
and \$30,000.At three o'clock this morning, a gentleman
—whose name is not known,—rushed into the
Balmoral and told the night clerk that flames
were issuing from the roof. The clerk instantly
gave the alarm, and then ran to the room of the
manager, Mr. Joseph Drodrique, who at once gave
the alarm to the guests. Running up to the
top flat, he opened the door leading to the
garret, where he was greeted with a burst of
flame. Hastily shutting the door he ran to a
sick gentleman named Dawson, whose room
was on the third floor, and carried him to a place
of safety, down stairs. By this time the ut-
most confusion prevailed. Guests were hur-
riedly dressing and dragging their trunks, etc.,
to places of safety. Two ladies in the third flat
were so terribly excited that they were about toTHROW THEMSELVES OUT OF THE WINDOW,
thinking that the whole building was in flames.
Happily, Mr. Drodrique rushed into their room
and throwing blankets over each of them, hur-
ried them down stairs.About a minute and a half after the sound-
ing of the alarm the apparatus from No. 4 station
was on the spot. The Hayes ladder was then
raised to the central cupola, out of which the
flames were now bursting and illuminating the
sky. The firemen bravely ran up the ladder to
the cupola, into which they poured a heavy
stream. This act was loudly applauded by the
hundreds of spectators that had already been
attracted by the illumination. A second and a
third alarm were given, and soon the whole brig-
ade was battling the roaring flames, which were
now pouring from the centre of the roof and
cupola. Ladder after ladder was quickly reared,
and firemen dashing hither and thither, attack-
ing the fire at every available point, were dimly
discernible through the clouds of smoke. At
one time so fierce was the blaze that it was
feared the fire would spread through the entire
roof. This the firemen stubbornly fought to
prevent. For a moment the flames subsided,
and it was thought that the firemen were going
to have an easy victory. Not so, however; for
next moment fire

BURST OUT WITH INCREASED FURY

through the roof west of the main tower. Three
branches were now pouring water in at the
cupola, while eight or ten branches sent tor-
rents through the roof, which had now been
burnt through. The Merryweather and the
Clapp & Jones engines did good service, the
masses of water which they pumped doing splen-
did execution. At 4.15 the fire was completely
under control. After a little over an hour's
work, what threatened to be one of the most
disastrous fires of the season, was subdued;
thanks to able firemen and a strong pressure of
water.All the time the fight with the fiery element
was going on, exciting scenes were being enacted
inside the hotel; the great volume of water that
was being poured in at the roof went rushing
down the grand stairway, leaping from step to
step, making a noise like that of a mountain
brook, and saturating and destroying the beau-
tiful carpets on its way. The men of Nos. 2 and
4 salvage wagons did good work, spreading
covers on the billiard tables and the furniture.
No. 2 salvage wagon had to make two trips
for covers; so many being needed. By the
prompt spreading of these covers a great deal of
valuable furniture was saved from damage.

TWO CHAMBERMAIDS

did excellent work in assisting and pacifying
some lady guests who were so nervous that they
hardly knew what they were doing. Happily
no one was hurt, but some baggage belonging
to guests has been damaged by water.The fire started, without doubt, in the attic in
the centre of the hotel, but its cause is a mys-
tery. In this attic, which is a very large one,
was stored a great quantity of old mattresses,
old furniture, etc. Only the centre of the roof
and the attic are damaged by fire, while all the
centre of the hotel down to the basement, includ-
ing the best bedrooms and parlors in the house, are
completely ruined. There were 120 guests in
the hotel when the fire commenced, all of whom
have now left for other quarters.The Balmoral was badly damaged in its
eastern wing in January. That fire was attrib-
uted to the unprotected coils in the bedrooms,
in one of which it originated. It is estimated
that the entire damage done to the hotel this
morning will reach \$30,000. The insurances
are as follows:—On furniture—Western, \$10,500; Lancashire,
\$7,500; Citizens, \$5,000; Phoenix, \$5,000;
National, \$5,000; Queen's, \$2,500; total, \$35,500.
On the building—North British, \$15,000;
Guardian, \$15,000; Commercial Union, \$10,000;
Royal Canadian, \$10,000; Royal
of England, \$10,000; Caledonian, \$5,000;
Scottish Union, \$5,000; Aetna, \$5,000; London
and Lancashire, \$5,000; Connecticut, \$5,000;
Fire Association, \$5,000; Norwich Union,
\$5,000. Total, \$96,000.Mr. Samuel Myers' jewellery store is slightly
damaged by water. Mr. Tardif's barber and
cigar shops are also ruined with water, as are
the main entrance to the hotel and the office.
In fact all the centre of the hotel from the roof
to the basement is dripping with water. The
painters got through painting the kitchen at 11
o'clock last night, having previously painted the
entire hotel.Mr. Henry Hamilton, president of the Bal-
moral Hotel Company, only heard of the fire on
his way into the city from the country this
morning.Captain Beckingham succeeded in rescuing a
lady on the fourth floor who was nearly un-
conscious from smoke. He had to break open
the door to get at her.Shortly after the fire had commenced Com-
missioner Perry was on the spot and rendered
assistance.Firemen on the streets were endangered by
falling slates, but fortunately no accidents oc-
curred.All the female help of the hotel were dis-
charged this morning, there being no further
work for them for the present.

THE OWNERSHIP OF "SIR MAURICE."

(To the Editor of the Witness.)

SIR,—In your issue of 16th July you publish an
article on the Clydesdale stallion "Sir Maurice,"
No. 4721, imported by R. Beith & Co., of Bow-
manville, which is apt to mislead the public (and,
in fact, has misled some parties in this locality).
You state that Messrs. Beith & Co., are still
owners of the horse, whereas we purchased him
in March last, and now travel him in the county
of Wellington.Some parties here circulated the report that
we are travelling a horse under a name we have
no right to use, thereby causing us an injury.
We trust you will do what you can to repair
mischiefs done by publishing the facts in your
valuable paper.
Drayton, Ont., July 25th.
ADAMS BROS.

A FOXHOUND'S "FIT."

AN EYE-WITNESS CONTRADICTS AN
EXPLANATION.MONEY TO HELP IN BRINGING CRUELTY TO CON-
TACT WITH LAW.Under the heading "An Exaggerated Re-
port," a morning paper publishes the following
to-day:—With reference to the report published that two men
in charge of a pack of hounds out for exercise on
Fletcher's field yesterday morning had inhumanly
flogged one of the hounds, Dr. Charles McEachran said
last evening:—"The hounds were those of the Mont-
real Hunt and were in charge of the huntman and
whip. One of the hounds took a fit, and of course
while caring for the sick one the rest of the pack stood
still. During this one of the hounds became unruly,
and in order to induce him to return he had naturally
to be punished. The sick hound, which at this time
was foaming at the mouth, was then carried off the
field, and this was probably the one which was reported
as so cruelly ill-treated. I myself was subsequently at
the kennels and saw the hound which had been pun-
ished, and which was undoubtedly all right, and cer-
tainly did not bear any marks of ill-treatment."

(To the Editor of the Witness.)

SIR,—Referring to your report of the ill-
treatment of one of the hounds belonging to the
Montreal Hunt and also to the statement of Dr.
Chas. McEachran this morning regarding the
affair, permit me to say that your report is cor-
rect in every particular. If the men in charge
of the hounds on this occasion were the hunt-
man and whip of the Montreal Hunt Club, as
Dr. McEachran says, all I can say is that their
act of yesterday morning proves them utterly
unfit to be entrusted with the care of a pack of
dumb animals. I was an eye witness of the
affair, and a more cruel and brutal act I never
saw.Dr. Chas. McEachran's report of the sickness
of the hound and the necessity of its being
carried away in consequence of illness is no
doubt the report given him by the men who had
done the deed, and who, when it was told them
the matter would be reported to the press, had
to fix up some sort of an excuse for their act.
The hound I saw was bleeding the mouth, not
"fit," as the report says. If the treatment is required
in order to keep the hounds in order, it will have
to be done where decent people will not be wit-
nesses, or the guilty parties will be reported and
punished for their cruelty. The matter is now
in the hands of the Society for Prevention of
Cruelty to Animals, and will be dealt with in
the courts.
J. H. CARSON.

(To the Editor of the Witness.)

SIR,—I am glad you have taken up the case of
cruelty to a foxhound which occurred yesterday.
I am on Fletcher's Field every morning between
six and seven o'clock with my own dogs, and
only wish I had been near at hand on this oc-
casion. I enclose \$10 to aid in the prosecution
of the human brutes.

JOHN NAPIER FULTON.

57 Prince Arthur street.
[We hold the above cheque to the order of the
S.P.C.A. if a prosecution is entered upon.]One of our most respected citizens writes as
follows:—

(To the Editor of the Witness.)

SIR,—I will give \$5 toward convicting the two
brutes who ill-treated a helpless third on
Fletcher's Field, as described in last night's
Witness. A similar exhibition occurred a few
weeks ago, as likely as not by the same parties,
at the corner of Sherbrooke and St. Urban
streets, which made my blood boil. Surely the
gentlemen of the Montreal Hunt cannot be
conscientious of such public exhibitions of out-
rageous cruelty on the part of their servants.While on the subject I may say that I feel
convinced our city takes the lead in passive
cruelty to animals, especially in overloading our
horses. The evil, I fancy, arises to some extent
from the retention of the primitive two-wheeled
vehicle, which has always been a marked and
ugly feature of French Canada. Our city is
surrounded with toll roads and this serves to
discourage the use of double teams. Nowhere
do you see such loads attached to one horse as
in Montreal. This will apply to our city cabs
as well as the country charette. If the Society
for Preventing Cruelty to Animals will station
an officer at the corner of Sherbrooke and St.
Charles Borromeo streets for an hour any day,
they will have abundant opportunity for the
exercise of their usefulness in the cause of
humanity.It is to be hoped that our progressive Govern-
ment will fulfil their promise to do away with
our toll roads as relics of feudalism, and thus
encourage the introduction of double teams,
both on the score of economy to the owner and
humanity to his beast.I once asked a gentleman stranger his opinion
of our city. His reply was that he thought it
"a horse town," referring to the general
use of one horse vehicles.
PROGRESS.

(To the Editor of the Witness.)

SIR,—In last night's Witness is a report of
the ill-treatment of one of the hounds on
Fletcher's Field. This is not the first occa-
sion of brutal treatment by men in charge
of the Montreal Hounds. I personally wit-
nessed a somewhat similar case five or six
weeks ago in R.-Bain street, Cote St. Louis.
The man in charge got off his horse and with
the butt end of his whip punished one of the
hounds most cruelly. I am ready to give evi-
dence in case of prosecution. WM. LEACH.
10 Raban street, Cote St. Louis.

WHY THE HOUND WAS PUNISHED.

Mr. J. A. Stevenson, secretary of the Hunt
Club, makes an addition to the explanation
given by Dr. McEachran. He says that when
the pack came to a standstill (a hound having
taken a fit) a "cur" passed, and another hound
made a rush for this dog to worry him. "This
is an unpardonable act," says Mr. Stevenson,
"and the only safety is in punishing the hound
at once for this breach of discipline. Suppose we
allowed such a thing to pass,—suppose the whole
pack should thus act,—they might attack any
dog might attack and

THE ARGENTINE REVOLUTION.

THE REBELS CARRY EVERYTHING BEFORE THEM AFTER DESPERATE FIGHTING.

LONDON, July 29.—The Times has the following from Buenos Ayres, dated July 27, noon:—Fighting began yesterday at dawn and ceased at dark, both sides maintaining their position. Celman's police and cavalry suffered terribly in attacking the civilians and troops. The Provisionals were entrenched in an artillery barracks. The city during the night was like a city of the dead, but behind the shutters the citizens were on the alert armed with rifles. After nightfall the "Civics" advanced two blocks. The Provisionals reopened a heavy artillery fire at dawn to-day on the troops under Vice-President Pellegrini.

A TERRIBLE MISTAKE OCCURRED

during the fighting. The Eleventh Regiment, suddenly turning in favor of the Provisional Government, approached the artillery and before they could make their friendly intentions known to the insurgents they were mown down within a narrow street. The Minister of War was wounded, the Minister of Finance was taken prisoner, Colonel Marcondes, Mayor Campos and many other officers were killed and the commander of the firemen was shot by his own men. A short armistice was held at noon, and an effort was made to stop the butchery. The armistice lasted one hour. At one o'clock the ships began firing on the Government House, Pellegrini having refused to accept the terms of the Provisional Government. The Civics Union seized twenty tugboats and the gunboats Chacabuco, Mespu, Canadense and Retiro. The British gunboats "Beagle" and "Bramble" have arrived to protect the English inhabitants.

THE NAVY JOINS THE REBELS.

3 p.m.—The whole navy has declared in favor of the provisional Government. The "Patagonia" is bombarding the Government House, and the "Parana" is shelling President Celman's residence. Gunboats command the railways from the north.

4 p.m.—The warships have ceased bombarding. Bullets announce that the revolution has triumphed. It is certain that the Provisionals up to the present hour have got the best of the fighting. The armistice negotiations continue at the Government House. The adherents of Celman are positive that three thousand troops and forty pieces of artillery are ready when the armistice is over to attack the Civics.

Monday, 9 a.m.—President Celman's troops have occupied the houses around the Plaza Mayo, and have placed light artillery in the plaza. The demands of the Civics Union have been reduced to a request that Celman resign. The fleet lies a good way out with steam up. The armistice has been extended until two o'clock.

THE FIGHT RENEWED

3 p.m.—The Government troops have resumed firing. The streets leading to the Plaza Mayo are blocked with piles of hay. Celman offered terms to the Civics, promising not to proceed against civilians surrendering and to permit officers supporting the Civics to resign. The troops of the Civics show no signs of yielding. Celman's troops tried to carry the artillery positions of the Civics, but were repulsed with heavy loss.

5.30 p.m.—The chiefs of the Union Civics have rejected Celman's terms. The troops halted the decision with vivas. Firing has been resumed.

THE LEADERS OF THE REVOLUTION.

LONDON, July 28.—A despatch received here from Buenos Ayres states that the leaders of the revolutionary movement belonged to that city. They were incensed that the best posts under the Government were given to men from Cordoba. The despatch further says that Senor Roca will probably resume the presidency, as it is believed he is the only man capable of restoring confidence. Previous to the arranging of the armistice the warships, which had just joined the revolutionary movement, bombarded the loyalists' stronghold.

PARIS, July 28.—The members of the Argentine colony in this city publish a note in the *Liberte* bailing the revolution in Buenos Ayres because, they say, President Celman's financial policy has ruined the public credit and private fortunes. The signers of the note approve the formation of a provisional government, which, they declare, will lead to the establishment of good government for the republic.

A despatch from Buenos Ayres, sent at 10 a.m., says the Government troops have been largely reinforced, and President Celman has returned.

FIRES.

OMAHA, Neb., July 28.—A fire to-day destroyed E. D. Meadimber's carriage factory and several frame structures. Loss, \$50,000.

TACOMA, Wash., July 28.—C. M. Johnson's saw factory was burned to-day. Loss, \$75,000.

MINNEAPOLIS, July 28.—The plant of the Monitor Plough Works here was burned to day. Loss, \$115,000. The fire caught from a locomotive spark.

OTTAWA, July 28.—At noon to-day an alarm was sounded for fire in W. N. Bate & Sons' warehouse on Canal street. The flames were quickly extinguished by a private stream on the premises. The explosion, however, for such it proved to be, resulted in serious injury to Willie Bate and Harry Haggarty, an employee of the firm, who were both frightfully burned about the hands and face. Haggarty was engaged in setting highwines out of a barrel when he accidentally stepped on a match. This ignited the alcohol had been spilled. The flames blazed up around the can, which then caught fire. Haggarty at once dashed for the door with the can, when he collided with Willie Bate, who got so badly burned about the face as to make him unrecognizable.

RAILWAY RATES.

CHICAGO, July 28.—The Chicago Freight Committee of the Central Traffic Association to-day decided to meet the reduction in rates from St. Louis to the seaboard. The present rate of 50 cents, Chicago to New York, will be reduced to 34 cents, and the 40 cent basis now in effect from St. Louis will be adopted from upper Mississippi River points by way of Chicago.

OBITU.

ST. JOHN, N.B., July 28.—Edward Sears, formerly vice-president of the Bank of New Brunswick, and who filled many important public positions in years gone by, died to-day, aged 82. He was a native of St. John.

NOTES AND NOTICES.

EVERY BOTTLE of Dr. Harvey's Southern Red Pine for coughs and colds is warranted.

"ACME" AND "PIK ROK."—The popularity of Wolff's "Acme" blacking and equally marvellous "Pik ROK" paints continues to increase, and the sales throughout the Dominion are proportionately large. With reference to the personnel of the general Canadian agency, regarding which there appears to be some misapprehension, it ought to be explained that the name "Olmstead & Co., was, on the reorganization of the firm, May 1st, retained merely as a matter of convenience. The head and managing partner in the concern is Mr. A. L. Anderson, who resigned an important position on the Toronto *Globe*, which he had held for eighteen years in order to take hold of the business. Mr. Anderson is well-known in Toronto for his honorable and upright character, and thorough business attainments.

"IN DARKEST AFRICA," by Henry M. Stanley, two volumes, cloth, \$7.50. Address orders and communications to G. F. Goddard, sole agent, 750 Craig street.

ENGLISHMEN CHARY OF THE STOCK.

CHICAGO, July 27.—The cable from London to the effect that Englishmen were not subscribing for the stock of the Chicago Stock Yards Corporation was in the nature of a surprise here as it was supposed it would go readily there. However, the stock has not taken very well here, and it is said one bank that opened subscription books did not receive a single call. Chicago was underwritten for \$3,500,000, and of this but a very small percentage has been taken, which will leave the underwriters here in something of a hole. They took the stock at 95, and were to work it off at par. Not only will they lose their five percent commission, but will find themselves compelled to take large blocks of stock they do not want.

NEW NUMBER 8168.

A CITY PASTOR SPEAKS PLAINLY!

A GREAT AMOUNT OF SICKNESS

IN HIS CONGREGATION!

The pastor of one of the most prominent

Protestant churches in the west end of our

city last Sunday evening made the startling

declaration that he had been called upon to

visit more cases of sickness during the last

three weeks than at any previous period of

his ministry in the church.

One prominent lady member died last

Saturday, and another regular attendant, a

gentleman, was very low indeed, and many

others were confined to their homes.

This is, indeed, a startling declaration to

make before a large congregation; and there

is no doubt the able and popular pastor was

only voicing what is, unfortunately, the state

of affairs in other city congregations.

City authorities, through the press, may

boast of the general health of the city, but

we must draw our own inferences, when we

hear pastors speak, who visit from house to

house, and whose testimony is undoubted.

We are all aware of the fact that at this

season, owing to prevalent summer troubles,

the mortality is larger than at any other

time of the year. However, setting aside

the fact that many deaths occur from these

summer diseases, we believe we are right in

asserting that there are more deaths from

other causes during the heated term than is

generally imagined.

The nervous and weak during hot weather

are very susceptible to sickness. Those who

are depressed in spirits, and who are the

victims of insomnia, irritability, dizziness and

languor, are easily carried off with any sick-

ness or excitement. The nervous system is

all out of gear, as can plainly be seen by

the trembling hand, the unsteady footstep,

the dull and lifeless eye, and the irresolute

and scared countenance. Overwork, worry,

and the heavy, depressing influence of the

atmosphere, all combine to help on the deadly

work; and even in many cases where there

is no predisposition, insanity is often

brought on.

Seeing that this state of things is not un-

common in our midst, it behooves the ailing

and afflicted to seek immediate and sure re-

lief. Some physicians have already pre-

scribed the only effectual remedy—Paine's

Celery Compound; others are treating their

patients with drugs, without a shadow of

success.

Paine's Celery Compound is the great re-

medial agent that must be used to restore the

nervous system, from which the sickness

springs. It is now used every day by hun-

dreds in our city and elsewhere with the

greatest results.

Sufferers, it is your own fault if you linger

on in sickness and misery. Commence to-

day with this unfailing remedy and check

the disease that is surely running down your

system. You are looking for relief; take

hold of it at once and enjoy health!

Summer Resorts.

MONTREAL'S SUMMER RESORT.

"THE GROVE."

BEACONSFIELD.

The Prettiest Point on LAKE ST. LOUIS.

Easily reached by G. T. R. and C. P. R.

Good boating, bathing and fishing from the grounds.

in June. Boating and good deep sea fishing can be had

smooth seas for bathing. Terms from \$1 to \$10 per

week, according to room. Address:—

Mrs. McDONALD, Bethel Cottage, Peak's Island.

HOTEL WINDSOR,

ON LAKE CHAMPLAIN

ROUSE'S POINT, N.Y.

A cool and delightful family resort. No malaria.

No hay fever. No mosquitoes. Sanitary arrange-

ments perfect. Delightful drives. Celebrated for its

catches of black bass, pike, &c.

Croquet and Lawn Tennis Grounds. Water and

mountain scenery of unsurpassed beauty.

Only one and a half hour from Montreal by Grand

Trunk Railway. Send for Circulars C. F. BECK.

CALUMET HOUSE.

Valuable Hotel, suitable for summer resort, for

sale at Calumet, Que. Situated on C. P. R. midway be-

tween Ottawa and Montreal. The above hotel is a first-

class brick building, three flats and basement, and well

furnished with all necessary furnishings, stables, garden,

etc. Calumet is used for its beautiful mountain scenery,

brook fishing and lovely shade grounds. Also, the Grand

Ottawa River, splendid for boating, fishing and bathing.

This property is now offered for sale, as the present owner

feels rather advanced in years to longer continue the busi-

ness, which is a very profitable one both summer and win-

ter. Four trains from Ottawa and four from Montreal

stop daily at Calumet, which is also the ferry junction for

the celebrated Calumet Mineral Springs. Mineral mines

are opening up in the near back country. Large saw mill

and grist mill within quarter mile of hotel. Immense

timber business done in vicinity. Calumet has two

churches and several stores. The hotel is within two

minutes' walk from depot. For further particulars write

OUR HARBOR.

LATEST DOCUMENTS FROM THE GOVERNMENT.

The following documents have to-day been received by the Montreal Harbor Commissioners from Ottawa. The first is a report of a Committee of the Honorable the Privy Council, approved by His Excellency the Governor-General in Council on the 1st July, 1890:

To the Honorable the Minister of Public Works:

On a memorandum dated 27th June, 1890, from the Minister of Public Works, stating that on the 18th June instant he submitted to Council a memorandum (hereto annexed) upon the report made to him by Messrs. John Page and Louis Coste, who had proceeded to Montreal to ascertain the views of the Harbor Commissioners of that city in reference to the improvements proposed by them in that harbor.

The Minister further states that in that memorandum, after quoting at length from the report of Messrs. Page and Coste, and especially that part thereof relating to a special study of the action of the ice being needed before they would feel justified in advising the Government to sanction unconditionally the construction of the works proposed, he (the Minister of Public Works) recommends that steps be taken to make observations and obtain information both this fall and next spring in order that the points referred to in their report may be fully elucidated.

The Minister further states that a letter has been received from the Chairman of the Montreal Harbor Commissioners in reference to the report made by Messrs. Page and Coste. In that letter the Chairman, Mr. Bulmer, refers to the report made by the Flood Commission in 1885, and states that that report gives as much information as can be obtained on the movements of ice, etc., by a new Commission, that the members of that Commission did approve of the guard wall proposed by the Harbor Commissioners, that as indicated on a plan submitted by him and which is attached hereto, it is shown that the wall will not diminish the area through which the ice and water pass down in the spring, and that in any case the difficulty could be remedied by further dredging. The Chairman further states that without asking for an endorsement of the entire plan of improvements in all its details, he would request the Minister of Public Works to allow a commencement of the guard wall to be gone on with at the earliest possible moment, and its effects on currents and floods observed—the said guard wall being an essential feature of the plans recommended.

The Minister further states that upon a reference to him of the letter received from the Chairman of the Harbor Commission, Mr. Page, with the concurrence of Mr. Coste, makes the following statement:—

"I have carefully read over the enclosed letter from the Chairman of the Harbor Commissioners of Montreal, and observe that he is disposed to deal with the question of harbor improvement and protection of the city from floods as coming under the range of what is called the 'Flood Commission,' this may in some respects be correct; the Commission no doubt took a vast deal of trouble to obtain and collect information relative to the ice floods, etc., that would be of great service in dealing with the question of harbor improvements; still the subject of enlarged accommodation for the shipping interest at the head of ocean navigation appears to be one that it would scarcely be judicious to deal with, on information obtained for another, although very important purpose.

"To allow a part of the guard wall to be proceeded with would be little or no test of what would be its effects as a whole.

"I quite agree with the gentlemen who have given their opinion that the carrying out of the plan would be unlikely to be detrimental in causing or increasing the floods which take place at and opposite Montreal, still I am not prepared to say what would be the effects elsewhere, consequently cannot advise the Government to assume the responsibility of authorizing the guard wall to be undertaken until more information has been obtained."

The Minister, in view of the above statement of Messrs. Page and Coste, does not see any reason to change the conclusion of his report of the 18th instant, recommending that further enquiry be made both this fall and next spring into the points referred to in the first report of the above named gentlemen, especially as plans have now been obtained from other distinguished engineers which will be placed in the hands of the Government engineers without delay, in order that they may consider them in connection with those before the Department of Public Works from the Harbor Commission and City of Montreal and be ready to report on all of them, so soon as they have obtained the information referred to by Messrs. Page and Coste in their first report.

The committee submit the above for your Excellency's approval.

(Signed) JOHN J. McGEHEE,
Clerk Privy Council.

OTTAWA, June 18, 1890.

Memorandum:

The undersigned has the honor to report:—

That on the 13th May last, Messrs. John Page, Chief Engineer of Canada, and Louis Coste, acting for the Chief Engineer of Public Works proceeded under instructions from the undersigned to Montreal, in order to ascertain the views of the Harbor Commissioners of that city in connection with certain works of improvement proposed by them, and plan of which has been submitted for approval.

That these gentlemen have now submitted their report which is hereto annexed and which, after referring to the statements made in support of the scheme of improvements proposed, and the probable effects of the ice and construction of the Guard wall (which is one of the principal features of the plan submitted) upon the flow of water in the river and below the harbor, is concluded as follows:

"Viewing the locality as represented and the 'guard wall' as indicated on the plan, theory leads to the conclusion that there would be little or no interference or obstruction to the flow of either ice or water, but it is greatly to be feared that there might be disturbing conditions and circumstances of which theory is unable to take any account.

"It, therefore, seems necessary in so important a matter not only to obtain all possible information, but to guard against relying upon uncertain theories, for although the main cause is known the effects are so variable as to beset the mind of two consecutive seasons. It was stated to have been observed that at certain times the greatest block by ice and consequent rise of the river had taken place some days before the ice of Lake St. Louis came down, still the prevailing opinion seems to be the reverse, so much so that proposals have been made to retain the ice in that lake by means of piers and booms until the river below subsides.

"Much valuable information on these matters was obtained by and under the immediate directions of the Montreal Flood Commission appointed by the Dominion Government in June 1886.

"Access to this information would doubtless be of great advantage to any one engaged in looking into the improvement of the Harbor of Montreal, and in view of the importance of the subject it seems to us that a special study of the action of the ice in the harbor should be made in connection with any projected work of improvement in this upper part of the harbor of Montreal, before we would feel justified in advising

the Government to sanction unconditionally the construction of any such work.

"In the course of examinations and enquiries having solely for their aim and object the extension and improvement of the harbor of Montreal, it is not improbable that a design may be arrived at by which the object could be effected in a manner satisfactory to all parties."

The undersigned, in view of the above report, has the honor to recommend that steps be taken in order that observations be made and information be obtained both this fall and next spring in order to collect all the data necessary to elucidate the points referred to in the annexed report. Respectfully submitted,

(Signed) HECTOR LANGVETIN,
Minister of Public Works.

NO INTENTION OF DEMOLITION.

MR. MERCIER WILL REPAIR THE CATHOLIC NORMAL SCHOOL AT A COST OF \$10,000—THE PROTESTANT POSITION.

The sub-committee of the Finance Committee, composed of Aldermen Rolland, Farrell, and Hurteau, with a deputation of the Catholic school commissioners, comprising Grand-Vicar Marchal, Curé Sentenne, Mr. Sempie Mr. F. D. Monk, Alderman Hamelin and Principal Archambault, and also a deputation of the Protestant School Commissioners, composed of Ald. McBride and Mr. Arthy, waited upon the Hon. Messrs. Mercier and Langvetin this morning, with reference to the Jacques Cartier Normal School on Logan's farm. The School Commissioners had been requested by courtesy to attend, in case they might have something to say in the matter.

As spokesman of the civic deputation Ald. Rolland asked if it were the intention of the Government to rebuild the school or to demolish it. If it were to be demolished, on what conditions could the ground be purchased to be added to Logan's park. The Premier replied that there was no intention of demolishing the building; on the contrary, a \$10,000 contract had just been given for a reconstruction of the main tower and other parts of the building. A temporary wing was also being built for the accommodation of the students until the repairs were complete.

The sub-committee then asked the Protestant School Commissioners if they would be disposed to part with the ten acres of land given them also on Logan's farm by the Federal Government when the Normal School property had been granted to the Catholics. The Protestant deputation replied that the Government had given them leave to sell the land and provided the proceeds were applied to the construction of a new school in Panet street or elsewhere.

This virtually implies that the Protestant School Commissioners are free to negotiate. The deputation then withdrew.

THE PROTHONOTARY DYING.

The many friends of Mr. A. B. Longpré, Prothonotary, will regret to learn that he received the last rites of the Church this morning, and is not expected to live over the day. Shortly after he went into office, three years ago, Mr. Longpré became aware that he was troubled with that inextinguishable malady, diabetes. A voyage across the ocean, the most careful diet and the best medical attendance gave him a certain time strong hopes of recovery, but in the last few weeks a rapid change for the worse was noticeable, and although he attended to business up to Friday last his friends expected a more sudden change at an early date. His condition has been really alarming only since yesterday.

ASSIGNED ON HIS SICK BED.

An order having been obtained from the Judge, Deputy Prothonotary Collard proceeded to the Hospital this morning to receive the judicial abandonment of Mr. W. H. Arnton, upon whom a demand of assignment was made yesterday. The young and popular assignor is so weak that he could hardly sign the papers, but he keeps his spirits up, and is being tenderly nursed by his devoted wife. His liabilities, as stated in last night's *Witness*, are about \$30,000, and the principal creditors are:—W. G. Arnton, \$4,000; Department of the Interior, Ottawa, \$8,532; Wm. Scott & Sons, \$1,159; J. C. McLaren Belling Co., \$1,015; John J. Arnton, Jr., \$1,800; Jas. Baxter, \$1,000.

THE ILLICIT STILL CASE.

In connection with the seizure of the illicit still, reported in the *Witness* of yesterday, the Inland Revenue Department has taken possession of a large compounding establishment, where it is believed the product of this illicit still was being manufactured into all varieties of bogus brands of liquors and placed upon the market as "genuine imported." Further interesting developments are expected. Mr. T. R. Cooper, "importer and vendor of spirits, wines and liquors," 1339 St. Catherine street, was arrested in connection with this affair yesterday and admitted to \$1,000 bail. The charge is that he kept an illicit still.

FORESTERS FROM MASSACHUSETTS.

Messrs. W. E. Sanderson and T. G. G. Gammons, representing Canton Springfield, No. 23, P.M., Springfield, Mass., left for home last evening after completing arrangements for the visit of their canton to Montreal on Sept. 25, 26, and 27th. The party will number about 125, under Capt. C. K. Willis, Lieut. Happy and Ensign Kolmar, and the different city lodges assisting, are forming committees to arrange for a suitable reception.

THE ATHLETIC CLUB HOUSE.

The directors of the Club House Company have called a gathering at the Club House, for the 17th of August, to consult the snowshoe and other clubs, through their officers, as to the best means of increasing the interests in and improving the prospects of the Club House. Carriages will leave Mechanics Hall, St. James street, at five o'clock, and the Club House waiting room, 2401 St. Catherine street, at 5.30.

THE FIRE AT THE BALMORAL.

"Yes, it was a bad fire," said Sub Chief Naud, referring to the Balmoral Hotel fire. "We had over one hundred men out and every piece of apparatus, though the pressure was so good that only two steamers were required. There was a tremendous lot of water poured into the building, which, doubtless, did damage, but you can't put out a fire without water."

SNEAK THIEVES AT A FIRE.

A gentleman who was burnt out yesterday at Cote St. Antoine complains of sneak thieves, who carried away a large quantity of silverware and valuable ornaments that had been carried to vacant lots to save them from being consumed.

EMMANUEL CHURCH.

Mr. Palford has accepted the call to the pastorate of Emmanuel Congregational Church in this city.

THE PALLIUM ARRIVES.

KINGSTON, July 29.—By yesterday's mail Archbishop Cleary received the pallium from the papal authorities at Rome.

The Liberals of the County of Richelieu have decided to give a demonstration in honor of the Hon. Mr. Laurier at St. Ours early in September.

THIRTY OR A THOUSAND.

THE MINISTERIAL GATHERING AT RIGAUD.

The Hon. Messrs. Mercier, Robidoux and Boyer, with a number of friends, proceeded from Lachine to Rigaud, yesterday morning, in Mr. Dawes' yacht, to attend the Nationalist political meeting there. Upon their arrival the party were the guests of Dr. Lalonde, M.P.P. for Vaudeuil, with whom they dined. In the afternoon, the political meeting took place on the grounds of the Manor House. Mr. Denis, Mayor of Vaudeuil, presided, and among the speakers were the Hon. Messrs. Mercier, Robidoux and Boyer, Mr. Lalonde, M.P.P., Mr. A. Evanturel, M.P.P., and Mr. De la Durantaye. Dr. Lalonde, flatly denied the rumor that he would resign his seat, and declared, on the contrary, that he was determined to fight the contest of his election to the very end. There were about one thousand persons present. *La Presse* yesterday published the following special despatch respecting the meeting: "There are only about 30 persons on the scene. No addresses, no cheers, no elaborate preparations, not even a pretty girl with a bouquet to present to the First Minister."

STANLEY'S BOOK AT LAST.

The first copies of Mr. H. M. Stanley's book to reach Montreal, arrived to-day. This is the Canadian edition,—it is printed and published, that is to say, in Canada; but the stereotyped plates, the paper, and even the cloth for the binding, were sent on from New York. The book is exactly like the American edition, and differs greatly in get-up from the English. The latter has a sensational scene from "darkest Africa" on the outside; the American and Canadian cover is much neater, bearing an effectively black outline map of the dark continent. The Presbyterian News Co. of Toronto has control of the book all over Canada, except in the Maritime Provinces; and Mr. G. F. Goddard is sole agent for Montreal.

LIQUOR LICENSE FIGURES.

(To the Editor of the *Witness*.)

SIR,—Since the letter in yesterday's *Witness* was written, I have been able to get the number of licenses issued from May 1st to June 30th, 1889, viz.: hotels, 204; restaurants, 287; groceries, 549; total, 1,040. Compare that with this year for the same time, May 1st to June 30th: hotels, 157; restaurants, 303; groceries, 572; total, 1,032. Your readers can easily see how the matter stands.

S. A. LEBOURVEAU.

THE HOTTEST DAY YET.

To-day was the hottest this year. At McGill College Observatory the mercury reached 87 degrees Fahrenheit, or fully three degrees more than yesterday. On the 15th it registered 86.

PERSONAL.

Baron Poliniere, from France, arrived at the St. Lawrence Hall this morning.

Col. Von Zenz, of Berlin, is a guest at the Windsor.

Mr. W. Owens, M.P.P., from Lachine, Mr. C. H. Gooderham, from Toronto, and the Hon. L. A. Robitaille, from Quebec, arrived at the St. Lawrence Hall this morning. The Hon. Judge and Miss Taschereau are also guests there.

The Rev. James Sutherland, of Inverness, Que., has been offered a hearty and unanimous call by the Bristol congregation in the Ottawa Presbytery at a salary of \$900 and manse. Mr. Sutherland has labored in his present charge with remarkable success for nearly seven years, and is very much beloved by his people, and they will probably object to the separation.

CITY ITEMS.

Adolphe Helen, tailor, has assigned at the demand of H. Shorey & Co. Liabilities about \$5,500.

The Fire Commissioners have summoned witnesses for an investigation of the Balmoral Hotel fire.

The "Lake Superior" sails for Liverpool to-morrow morning with about 40 saloon passengers, 600 cattle and 470 sheep.

One of Judge Davidson's youngest sons fell from the yacht "Orca" at the Valois regatta, but was pluckily rescued by his brother, Mr. Peers Davidson.

The firemen were called out at 7.15 last night for a blaze in the roof of 257 Peel street. It was extinguished by the use of Babcocks. Little damage was done.

Messrs. Joseph Belair & Co., boot and shoe manufacturers, of this city, are going to remove their shops to Upton, where the municipality has voted them a bonus of \$10,000.

Mr. John Ford has furnished Messrs. John Markum and Robert Beckham as his sureties in the appeal from Judge Taschereau's judgment dismissing the seizure taken by him against Mr. J. P. Whelan.

Al Lee, alias Sam Long, has had his brother, T. Lee, alias Wheeler, arrested on a capias for \$195 on the ground that he was secreting his goods and about to leave the country. This is the first instance of a Celestial being capiased in Montreal.

A little girl named Annie Milne was brought by train yesterday from Windsor Mills and taken by ambulance to the General Hospital where she is suffering from a bullet wound in the knee. It appears that the wound was inflicted by the accidental discharge of a revolver, held by a twelve year old boy who did not know it was loaded.

CRIMINAL COURT NOTES.

Alfred Lapointe, 22 years of age, described by the police as a dangerous character, was last night arrested by Chief P. G. St. Onge, for recently breaking into Miss Burroughs' house during the evening and stealing several articles. He pled guilty before Mr. Desnoyers, police magistrate, this morning.

Joseph Valiquet, a laborer, has been fined \$20 and costs or two months' imprisonment for smashing windows at last's Hotel, Bord-a-Picouffe. He was intoxicated at the time and a Montreal officer, Deputy High Constable Douglas, was sent for and made the arrest.

John Clark, a sailor who had refused to obey orders, was to-day sent to gaol for seven days.

Olivier Leclaire stole a watch at Lachine. Sentence, four months' imprisonment.

G. Ward, a stranger here, who gave an unsatisfactory account of himself and recently stole a set of harness, was to-day sent to the penitentiary for two years.

Joseph St. Pierre, called by the police "the chief of Jacques Cartier street gang," and six companions, were arrested last night for loitering.

J. B. Perrault, charged with assaulting the deceased Samuel Fafille, has been remanded to gaol for eight days.

David Deschêlles has been sentenced to six months with hard labor for stealing a horse belonging to the Bonaventure station baggage department.

James Hardie, for stealing a horse belonging to Mr. W. Cole, of St. Michel, was sent down to-day for six months.

The young man Hart and the two Wiggins brothers, convicted on Thursday of stealing a roll of cloth, have each been sent to gaol for four months.

Sergt. Beatty and the men of No. 2 station have raided the Melville Lacombe house of ill-fame and arrested four inmates. They will be tried on Friday.

Magloire Bellise and E. Gagne, both of St. Urbain street, have been fined \$95 and costs each in the Recorder's Court for selling liquor without a license, and Alf. Dand, saloon-keeper, \$75 and costs, for allowing a ladder in his house.

LAST WORDS BY WIRE.

AN ANGLO-AFRICAN REQUEST.

CANBERRA, July 29.—Premier Rhodes gave notice in the Assembly yesterday of a motion expressing regret that the colony had not been consulted on the Anglo-German agreement as far as it concerns territory south of the Zambezi, and asking that the colony be consulted in subsequent negotiations with reference to such territory.

THE WAR IN CENTRAL AMERICA.

ATTEMPT TO ASSASSINATE BARRILLAS.

NEW YORK, July 29.—A despatch from Guatemala says an attempt was made on Sunday night to assassinate President Barrillas of Guatemala, by a native Indian, who was found concealed in Barrillas' bedroom armed with a machete and a revolver. The President was with a number of guests in his parlor when he was rushed upon by the Indian, whose name is Xaching Tubaq, with his long knife or machete. The Indian attempted to cut Barrillas to the ground. The President eluded the blow, drew his revolver, kept the man at bay and shouted for his aides-de-camp. These rushed in and seized and disarmed the Indian, who was marched off to prison. The Indian confessed that he had been employed by the Conservatives to do the deed. The disaffection among the troops continues and they have not yet been paid. Inflammatory circulars have been surreptitiously circulated accusing Barrillas and his officials of robbing the national treasury and custom house.

THE ARGENTINE REBELLION.

PARIS, July 29.—Gen. Mitre, who was formerly president of the Argentine Republic, and who has been residing here for some time, has suddenly left this city.

LONDON, July 29.—A despatch to the *Times*, dated Buenos Ayres, July 28, seven p.m., says: It is rumored that terms for a settlement between the Government and the revolutionary forces have been agreed upon.

According to these, the civilians who have taken part in the insurrection will not be punished. All captains of the revolutionary forces and all officers above the grade of captain will be deprived of their rank. The artillery of the insurrectionists will be surrendered to-morrow.

The above despatch is President Colman's version of the situation in Buenos Ayres. Private despatches received here from that city, dated July 28, 9.30 p.m., state there is no change in the situation and no chance for a compromise between the two factions. The matter, despatches say, must be fought out.

A BASEBALL UNPLEASANTNESS.

THE FATHER OF THE BROTHERHOOD ORDERED OFF THE FIELD.

CHICAGO, July 29.—John Montgomery Ward, father of the Baseball Brotherhood, was ordered from the field yesterday in the Chicago-Brooklyn game at South Side Park. It was in the first half of the eighth inning that Capt. Ward discovered himself to be a smaller man than the umpire. He was several minutes making the discovery, but he was finally convinced. The game stood five to two in favor of Brooklyn when Ryan sent the ball over left field fence for the home run. He was tipping his bonnet to the admiring spectators when Comiskey sent a little ground to first, where it was fumbled by Orr, the Chicago captain landing safely. Then Pfeiffer made a long hit to right Van Halren's territory, which was good for a base. When Van Halren finally got the ball Comiskey was speeding for the third bag and to that corner Van Halren fired the ball. He threw about a yard too high and Comiskey continued his journey to the plate, Pfeiffer following close behind. Third baseman Joyce recovered the ball as soon as he could and sent it to the catcher, who dropped it. Then the fun commenced. When the umpire Snyder decided Comiskey and Pfeiffer saved his mis in the sixth and declared Comiskey had deliberately stood in the way to prevent a catch and save Pfeiffer. Ward came on the run to give the umpire the same information, and soon the whole Brooklyn team were gathered about Snyder. Comiskey, who had walked to the bench after scoring, joined the excited crowd at the plate, and announced that the ball had been blocked in a little line of spectators after leaving Van Halren's hands and should have been returned to the pitcher, that the third baseman had been throwing it to the plate. The umpire said he would not change his decision. Ward said he would not play in such a game, and walked over toward the bench. "Good-bye, baby Ward," came from a spectator and others in the stand took up the cry. The crowd was excited and yelled itself hoarse. "Pull the watch on him," was the next demand, and Snyder was getting ready to call the game and the spectators were pouring into the field when Ward started his men back to work. As he passed Snyder, however, he fell called upon to tell that gentleman how little he knew about umpiring and to make other unkind remarks. So Snyder quietly put a hand on the Brotherhood father's shoulder and told him to get out of the game and stay out. Ward got out and stayed. The crowd cheered and play was resumed.

THE WORLD'S FAIR.

CHICAGO, July 29.—The directors of the World's Fair say they intend to put in Jackson Park the agricultural display in all its divisions, including products of the soil, live stock and food products, machinery of all sorts, the forestry exhibit; the railway display, electrical appliances, printing exhibit, glass making and pottery exhibits, mineral display, architecture and engineering, cotton and woolen mills and their manufactures, military and sporting weapons, marine display, etc. It is intended that this portion of the exhibition shall equal in interest that on the Lake front. On the latter it is proposed to locate the art building, the decorative art and art manufacture building, Turkish, Indian, and Egyptian villages, Government department, exhibits, etc.

A SINGULAR MISFORTUNE.

FORT DODGE, Ia., July 29.—The new Congregational Church at Moorland was dedicated on Sunday. At the conclusion of the services none of the people arose to leave their seats. The varnish on the seats was not sufficiently dried, and the entire congregation were tightly glued down. It took three quarters of an hour to free all the prisoners. The ladies' toilets were ruined.

A MURDER TRIAL POSTPONED.

(Special to the *Witness*.)

SHERBROOKE, Q., July 29.—The trial of Remi Lamontagne was opened here this morning before Judge Wurtelle, but as the trial for the extradition of Leda Lamontagne, the principal witness in the case, and who was arrested a few weeks ago in Boston, has not taken place yet, Mr. L. C. Belanger, Crown counsel, applied to have the case adjourned until the 2nd of October, which was granted. The prisoner Remi was represented by Mr. L. E. Fanneton, who made application to have the prisoner released on bail. But this will in all probability be refused.

OCEAN PASSENGERS.

SS. "LAKE SUPERIOR" DEPARTS.

List of saloon passengers for Beaver Line SS. "Lake Superior," Montreal to Liverpool, 30th July, Wm. Stewart, captain—Mr. Frank Bond, Mr. Oord, Mr. W. Carter, Miss Day, Rev. J. H. Drake, Mr. R. Dodd, Mr. C. Gordon, Mr. J. A. Glass, the Rev. James Greenfield, Miss Greenfield, Miss Hodgson, Miss M. A. Kavanagh, Miss S. J. Macpherson, Mr. Mortimer, Capt. J. T. McBride, Mrs. J. T. McBride, Mrs. Geo. L. Orme, Master Louis Orme, Mr. D. Phelan, Mrs. J.

Russell, Mrs. C. N. Reade, Miss A. B. Ring, Mr. S. C. D. Roper, Rev. C. V. Spear, Mrs. C. V. Spear, Mr. H. F. S. Weatherall, Mr. F. S. Weatherall, Mr. John Wallace, Mrs. C. Drew and infant.

SHIPPING.

The Row Line SS. Norse King arrived at London on the 25th inst. and landed her entire shipment of live stock (44 cattle, 121 sheep) in good condition except a cattle and a sheep which died on the voyage.

The Hansa Line SS. Grimm sailed from Antwerp for Montreal, July 28th.

New York, July 29.—Arrived, steamer Kaiser Wilhelm II., from Bremen.

New York, July 29.—Arrived steamer Illinois from Antwerp.

The Dominion Line SS. "Sarnia," from Montreal July 17th, with a shipment of 951 sheep and 213 cattle, arrived at Liverpool Sunday, July 27th, and landed her live stock in good condition, with the exception of 18 sheep.

THE "VANCOUVER'S" LAST TRIP.

The ice is not all out of Belle Isle Straits yet. The Dominion Line's flagship, the "Vancouver," passed through it for several hours on the trip which ended at Montreal on Sunday afternoon. A score or so of bergs, some of them quite large, had been passed before land came in sight, but the weather was clear and there was no possible danger. Until then, however, the whole trip had been performed in hazy atmosphere, raw cold, and drizzling rain, while a constant head wind did much to lessen the ship's speed. The trip up from the Straits was most enjoyable. On Friday night the usual concert was held. Mr. Walter Drake presiding, and the feature of the evening was a series of glee songs sung by a little choir organized by Father Garceau, who was till last year musical director of the Jesuit Church in this city. Father Garceau was not "bred for the Church," and in his time has fought both on the field of war and in the courts of law. His delightful manners made him a prime favorite with all on board.

MONTREAL, July 29.

Readings by Hearn & Harrison's Standard Barometer at noon to-day: 30.16; yesterday, 30.18. Temperature to-day: 54° max.; 36° min. 70°. Yesterday, max., 54°; min., 60°.

COMMERCIAL.

WITNESS OFFICE, Tuesday, July 29.

FINANCIAL.

Money is quiet at 5 percent on call and at 6 to 7 percent on time.

Sterling exchange is dull with very little doing; rates reduced.

The stock market continues firm, with not much doing, however.

Morning sales—1 Bank of Montreal, 230; 45 at 229; 1 at 229; 25 at 230; 35 at 230; 10 City Passenger Rights, 381; 25 City Passenger, 1454; 50 Gas, 2094; 125 at 2094; 275 at 210.

Afternoon sales—14 Bank of Montreal, 2304; 60 at 231; 75 Commerce, 1281; 25 at 1282; 50 Montreal Street Rights, 84; 30 at 84; 100 City Pass., 1941; 100 Gas, 2104; 100 Can. Pac., 80.

The prices at the close of the Board reported to-day by Messrs. Nichols & Marler, Stock Brokers, corner St. Francois Xavier and Notre Dame streets, were as follows:—

READABLE PARAGRAPHS.

AN AID TO TRUTHFULNESS.

Jessup (Georgia) Citizen—"You can get the story from an intelligent negro's own lips, sir. Caspar, is your paper expressed in this state?"

Caspar (promptly)—"Nonsense; we're comfortable as chipmunks, sah?"—Judge.

SENDS LOVE TO MAMMA.

A little child, seeing another, somewhat older than herself, looking in at the garden gate, ran to her in a most friendly manner.

"What is your name?" she asked several times, without receiving an answer. "Where do you live?" she continued, with the same effect.

The visitor then slowly walked away, and the socially inclined child called after her: "Did my love to mamma, too, tood!"

CROUP, WHOOPING COUGH and Bronchitis immediately relieved by Shiloh's Cure. B. E. McGee, 2123 Notre Dame street; Laviolette & Nelson, 1605 Notre Dame street; J. T. Lyons, corner Craig and Bleury street.

DURING A RECENT PERFORMANCE at one of the Paris theatres, a man and his wife had to quarrel on the stage—the woman in a rage of jealousy, the man trying to persuade her that she was too suspicious and too passionate. Both were acting with great spirit, when the wife moved her arm too near the candle, and her husband's dress was in flames in an instant. Both actors kept their heads, however; the husband extinguished the fire, and proceeding with his part, interlarded: "You see, my dear, I was right; you are ready to flare up for the least thing."

CARWELL, MARNEY & Co.'s Emulsion of Cod Liver Oil, with Peppin and Quinine, has given greater satisfaction than any other preparation of Cod Liver Oil. Palatable and easily retained by the most delicate stomach. Prescribed by all the leading physicians. Sold by all druggists. W. A. Dyer & Co., sole agents and manufacturers for the Dominion.

THE REASON WHY.

The other day in one of the public schools it happened that Atlas became incidentally a subject of reference, and the teacher asked the children if any of them could tell her something of this fabled personage. One of the little girls remembered having heard that Atlas used to hold up the earth and said so. "Used to hold it up?" said the teacher; "and can any one tell me why he stopped holding up the earth?" This was silence for a few seconds, when a lad in the middle of the room said he "succeeded it was coz the earth got old enough to hold itself up."—Binghamton Leader.

THIS REV. GHO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to Shiloh's Consumption Cure. B. E. McGee, 2123 Notre Dame street; Laviolette & Nelson, 1605 Notre Dame street; J. T. Lyons, corner Craig and Bleury street.

AN ENGLISH TOURIST lately travelling in a railway carriage, near Dumfries, remarked to a fellow-passenger, a retired minister, that the most interesting thing he had seen in the course of his travels in Scotland was "the caves and holes in the Covenanter's used to hide in the days of Tam o' Shanter and Souter Johnny." (C)

THE HAPPY PADDLERS.

ENJOYING THE TORRID SPELL ON THE LAKE OF TWO MOUNTAINS.

NEW RACERS IN CAMP—GOOD GRUB GALORE.

ISLE CADIEUX, July 28.—I am writing in the headquarters tent of the Northern Division of the American Canoe Association, in the very centre of the third annual meet of the Division. The moonlight is falling in floods of silver light on twenty or thirty tents; the chorus of the bullfrogs on the banks is filled in with an undertone of canoe chat from the neighboring tents, and a gentle breeze is doing its utmost to allay the fevered heat which an attempt to write under such conditions invariably produces. I am now a veteran in so far as canoe meets and camps are concerned, but never have I been in a camp which promised so well for the future and was so pleasantly situated as this. The camp is located at the north-west extremity of Isle Cadieux, and the headquarters wharf is on the little strait that divides the island from the mainland. The camp ground is a more or less level stretch of stony meadow land, with a few scattered maple trees about it and a few groves of the usual scrub to form a background for the tents. Already the shores of the camp point are adorned with not a few rough stages, crowded to their utmost capacity with canoes, and the racing fever is in the air. One enthusiastic racer purposed to get a buoy out to-morrow and go to work "sneaking" buoys as preparation for that Orilla cup race, the result of which will decide the sailing canoe championship of the year for all wide Canada. There are

THREE NEW RACERS IN CAMP now—the "Chum," a canoe designed by Mr. Will. G. Mackendrick, of Toronto, and sailed by Mr. Harry Mackendrick, who is beyond doubt the fastest single-blade paddler in the West; the "Aloha," a canoe designed by Mr. D. B. Jacques, (the "Hyla," of the Toronto Canoe Club), and owned by Mr. H. MacLean; and the "Isis," owned by Mr. David A. Poe. The "Chum" is the most likely looking of these three craft. She is equipped with a tremendous standing rig and a forty-inch hysing seat and self locking steering gear. Besides his sailing canoe Mr. Mackendrick has a very light—but not legally too light—paddling canoe, and he intends to try his powers against the fast Lachine men.

The paddling races at this meet will be indeed most interesting, as they will be a conclusive proof of the superiority of one or other of the two schools of single paddles that have sprung up in Canada during the last five years. This will be a new feature at a meet, for as a general rule the A. C. A. paddling races, excepting the record race, are profoundly uninteresting, excepting to the very few who take part in them. There is never any lack either of interest or of entries for the sailing races; but the paddling races, although never flaxies, are somewhat disregarded.

One of the most important of the features of a meet is the GENERAL MEET.

It is possible to enjoy a canoe meet without good food, but it is sometimes difficult; and in any case, it is decidedly conducive to pleasure to have the healthy appetite that is engendered

by camp life well provided for. An unwritten law of the Association, which is never violated, is that not more than a dollar a day shall be charged for meals at the general meet, and as the cost of erecting mess and cooking tents, is considerable the quality of the food generally suffers. This year, however, the mess is simply unexceptionable in every way, and if the canoeists do not enjoy themselves it will not be because they are ill fed.

Among the A. C. A. members in camp are Vice Commodore, W. J. White, Mr. C. M. Whitlaw (the purser), Mr. B. White, Mr. S. White, Mr. F. W. Stewart, Mr. J. H. Garth, Mr. T. R. Howard, Mr. W. E. Christie, Mr. Hugh C. MacLennan, Mr. J. H. Stewart, Mr. D. McIntyre, Mr. G. Barry, Mr. W. A. Munn, Mr. R. O. Nelles, Mr. A. Morris, Mr. H. M. Molson, Mr. H. Mackendrick, Messrs. G. A. Kohl, A. Adamson, J. Lay, H. A. Adamson, R. D. Jones, G. A. Elliott, D. A. Poe, A. F. Gunchey and L. Miller.

A LARGE PARTY FROM OTTAWA

is now crossing the river to the meet. Mr. W. G. Mackendrick, Mr. D. B. Jacques, and a number of other Toronto men, are either on the way or will soon start; and the Back Lake contingent, as the men from Peterborough, Lakefield, Lindsay, Bobcaygeon, and thereabouts are styled, led by the veteran Dr. Douglass, V.C., will be in camp before the paddling races commence. To-morrow is to be devoted to cleaning up about camp; on Wednesday there will be a cruise to Comox and Oka; and on Monday, when the St. Lawrence Yacht Club will be in camp, the regatta will begin with the paddling races.

RETAU.

HAVE QUIT THE SALOONS.

THE WHARF COFFEE HOUSE HAS LOTS OF PATRONS.

A Witness reporter this forenoon dropped into the new W. C. T. U. coffee house on the wharf, and found a number of boaters enjoying their midday meal. Happy change! The soup, the tea and coffee were fresh and good, and the potatoes and roast beef looked tempting. There were two long tables filled with laborers, who, apparently, greatly relished the repast before them. The coffee house, although only two weeks in existence, has accomplished a wonderful work. Each day it is visited by 35 to 40 men working in its vicinity,—opposite the Beaver Line sheds.

A good dinner is served for fifteen cents, with five cents extra for dessert, while for five cents one can have a plate of wholesome soup and fresh bread. Mrs. Frank H. Wheeler is at present in charge, with Mr. King as cook. Mrs. Wheeler says the results of the two weeks business is very encouraging, and that in a short time it will be found necessary to open another branch at the foot of McGill street. Next year, she says, they will have a "palatial place," with reading rooms, etc. On Monday evening next the dining rooms will be opened for mid-night meals until the end of the season. This is being done at the request of a number of employers who have promised to send "scores of men." The undertaking is much appreciated by the men, and will no doubt soon develop a much larger sphere of usefulness.

OUR POPULATION.

Montreal and its suburbs are now estimated to have a population of 277,000. This places it as high up as tenth among American cities in point of population. The cities which, according to the United States census of 1890, surpass Montreal in population are: New York, 1,627,227; Chicago, 1,086,000; Philadelphia, 1,040,499; Brooklyn, 806,583; Baltimore, 432,093; St. Louis, 430,000; Boston, 447,720; Cincinnati, 315,000; San Francisco, 300,000; while Montreal has a greater population than Pittsburgh, Buffalo, Cleveland, Milwaukee, Newark, Detroit, Minneapolis, St. Paul or any city of the Southern States.—Ottawa Evening Journal.
