TIME EXTENSION FOR STEAMERS' DECKLOADS
From 1st April to 12th October in Each Year.

PORT WARDENS AS JUDGES
The New Law Will Not Apply to Sailing Vessels—It Will be as at Present.

THE ALASKAN BOUNDARY.
Sir Wilfrid Laurier Says There is no Change in the Position of Affairs—The Redistribution Bill.

Special to the Chronicle.
Ottawa, July 10. — In the House to-day Sir Louis Davis introduced a bill respecting the safety of ships. He said that the object was to provide that between the first of April and twelfth of October steamships leaving Canadian ports should carry such a deck load as is approved by the warden of the port, but between the 12th of October and 1st of April deck loads must not be higher than three feet. The extension applies in the case of steamships, but as to sailing vessels there will be no change. The law in England decides that the winter begins on the 1st of November, and the date is fixed in Canada in order that vessels from Canadian ports with summer loads may reach England in time. It is expected that the law as amended will do away with one of the reasons which recently led underwriters to increase their insurance rates on vessels to Canadian ports.

Mr. Prior, in the House this afternoon, asked a statement of the Government respecting the Alaska boundary, concerning which sensational statements have appeared in the despatches.

Sir Wilfrid Laurier said there was nothing new in the situation as to the boundary. The United States and Canadian Governments had not yet been able to agree.

When the gerrymander bill came up Sir Wilfrid Laurier moved the House into committee to amend the clause relating to St. John. The amendment was only intended to make clear the intent of the clause. The bill still provides that St. John county, with 10,000 people, shall have one member, and St. John city, with 39,000, shall also have one. A long discussion arose about this.

The prohibition resolution which Mr. Flint is to move will be presented in the House next week, the Government giving a day for discussion. The postponement was determined on in order to enable Mr. Foster to be present.

ASSENTED TO.
Lord Minto assented to 70 bills this afternoon, among them the bill respecting the Richelieu and Ontario Navigation Co., respecting the Quebec Steamship Co., respecting the Quebec, Montserrat and Charlottetown Railway and changing its name, to amend the Quebec Harbor Commissioners' Act.

MILITIA ESTIMATES.
The Redistribution Bill was passed and the House went into Committee of Supply on the Militia Estimates. Hon. Mr. Borden explained that it is the intention to have annual drills. He thought it better to keep this up, even if it were necessary to reduce the number of the force. It was the intention also to provide an army medical corps. Also there would be an army service corps to arrange machinery for transportation and supply.

Sir Charles Tupper approved of annual drill. He held it better to spend all that was necessary to carry out proper military organization. He congratulated the Government on securing a commanding officer of high capacity. General Hutton had stated that the permanent force was organized by the absence of a large contingent in the Yukon. This permanent force was organized largely for educational purposes and was useless for that purpose, while they were dispersed. In Sir Charles' opinion there was not the slightest need of soldiers in the Yukon, as the Mounted Police force were a thousand times more effective.

Hon. Mr. Borden was gratified at (Continued on Fourth Page.)

A VISIT TO ANTICOSTI.

A NUMBER OF JOURNALISTS GO DOWN TO THE ISLAND AND ARE CORDIALLY RECEIVED BY THE GOVERNOR AND HIS ASSISTANTS.

Special to the Chronicle.
Rimouski, Station, Que., July 10. — The press party, composed of seven journalists from Quebec, Montreal and Lewis and Sherbrooke, returned at 5.15 p.m. from Anticosti Island on board the steamer Savoy Capt. Bernier. They left Rimouski wharf on Friday last at 3 p.m. and reached the island at 8 p.m. on Saturday. A most cordial reception was given them at Baie St. Claire, English Bay, by Governor Comettant, assisted by Mrs. and the Misses Comettant and Messrs. Dr. Jos. Schmitt, Medical Superintendent, Raoul Landrien, chief accountant, Leon Picard, agricultural manager, A. Jacquemay, chief engineer, Eugene Servais, chief storeman, who showed the party around the wonderful display of fifty-two buildings erected since three years. Stores, warehouses, hospitals, school house, farm buildings, saw mills, residences and lodgings for officials and employees. The party was met at Rimouski by Mr. N. Levasseur, Quebec correspondent of the Island owner, Mr. Menier, and received at the wharf by the Island brass band commanded by Mr. Comettant himself. In the evening a musical entertainment was given in the new concert hall, after which a charming reception took place at the Governor's residence. Piano recitals were given by Messrs. Comettant and Ernest Gagnon, graphophone recital and recitation by Mr. G. Desautels, of Montreal. On Sunday High Mass in the chapel conducted by Rev. Mr. Bell, parish priest, was sung by the parish choir, the organ being presided over by Mrs. Comettant. In the afternoon there was a drive to Ellis or Gamahe Bay where the party was received by Mr. George Martin, general agent of Mr. Menier. The Savoy left English Bay, or St. Claire Bay, on Sunday evening at seven o'clock. The yacht Roma, owned by Mr. Sloan, from New York, proprietor of the R. C. A. Hotel, north shore, also visited the island on Sunday. It is proposed to make in Ellis Bay a fine refuge harbor for transatlantic shipping, and other large improvements are under way.

CHRISTIAN ENDEAVOR.

THE CONFERENCE CLOSED WITH IMPRESSIVE SERVICES—MESSAGES TO SENT TO THE PRESIDENT OF THE PEACE CONFERENCE, LORD MINTO AND PRESIDENT MCKINLEY.
Detroit, Mich., July 10. — The eighteenth International Convention of Christian Endeavor closed to-night amid the impressive solemnities attending the utterance of the last word by the President and Secretary in each of the great tents respectively following responses from each State and country represented and last exhortations from M. E. Bishop Vincent, of Kansas, and Evangelist Chaplain, of New York. The following messages were read in both tents. The reading of the telegram from Hon. Andrew Dewitt, President of the Peace Conference at The Hague, bringing out storms of applause.

MEN WHO TREATED DREYFUS CRUELY

To be Called to Account for Their Conduct.

GOVERNMENT IS AFTER THEM.

ONE OF THE LATE MINISTERS TO BE PROSECUTED — A HANDWRITING EXPERT RELIEVED FROM DUTY — DREYFUS' GAZETTE DISMISSED — OTHERS MAY ALSO BE REACHED.

Paris, July 10. — It is rumored that as a result of the revelations of the inhuman cruelty practiced on Dreyfus while on Devil's Island, M. Lebon, the Minister who was responsible for orders to M. Deniel, while in charge of the penal settlement where Dreyfus was confined, will be proceeded against, the Government not confining its action to yesterday's dismissal of Deniel.

M. Bertillon, the handwriting expert, who testified before the Court of Cassation that Dreyfus was the author of the bordereau, still remains at the head of the Anthropometric Department of the Prefecture of Police, but has been deprived of his official duties.

Baron Bauly, another of the aristocratic promoters of the demonstration against President Loubet at Autoul, has been pardoned. It is understood that M. Loubet also decided to pardon Baron Christians, who made the assault upon him, but the Cabinet decided that this was quite out of the question.

EXTENSIVE LAW SUIT SETTLED

Out of Court — The Costs Will Amount to \$12,800.
Ottawa, July 10. — The big law suit of Alexander Fraser vs. The Hull Lumber Company, and the Hull Lumber Company vs. Alexander Fraser in which some \$86,000 was involved has been settled out of Court by the Hull Lumber Company paying the costs since institution of the action and Mr. Fraser retaining his possession of the property obtained by him through a former judgment. The property includes part of Table Rock. The costs since the action was started are some \$12,800.

MAGAZINE EXPLOSION.

Five Artillerymen Instantly Killed in Magatoland.

STRANDING OF THE S.S. PARIS.

HER CAPTAIN MAKES HIS REPORT — HE ACKNOWLEDGES THAT THE ACCIDENT WAS CAUSED BY HIS MISCALCULATION.

New York, July 10. — The report of Capt. Watkins, of the stranding of the American Line steamer Paris, was made public to-day by the local board of steamboat inspectors. Capt. Watkins makes no attempt to evade responsibility for the accident, but on the contrary says frankly that the stranding of the ship was the result of an unaccountable error on his part. The accident, he says, was not due to any want of thought or anxiety about his vessel, but resulted from a mistake he made in calculating the position of the ship. Capt. Watkins is still in charge of the Paris, and is acting in the interests of the underwriters, to whom the ship was turned over by the American Line officials. Capt. Watkins has had a long and honorable career on the sea. He entered the service of the Inman Line in 1863, and since 1876 has been continually in charge of vessels of the International Navigation Co. He has made nearly 500 voyages across the Atlantic.

AGUINALDO STILL ON DECK.

He Will Not Liberate the Spanish Military Prisoners.

Madrid, July 10. — Aguinaldo, according to a dispatch from Manila, refuses to liberate the Spanish military prisoners in the hands of the Filipinos.

DALAGOA AWARD.

London, July 10. — The Parliamentary Secretary of the Foreign Office, Mr. Wm. St. John Broderick, announced in the House of Commons that the Dalagoa award would be made in October.

PRIESTS IN THE WATER.

Upset From a Boat While Fishing at Lake Kinogami.

The Rev. Abbes J. H. Fleming, cure of Dedham, Mass., and C. I. Parent, of the Chateaufort Seminary, were fishing on Lake Kinogami on Saturday, when the frail craft in which they were seated was by a sudden movement capsized. Fortunately Abbe Parent succeeded in seizing the canoe and held on until assistance could be sent to him. As for Father Fleming, who was an excellent swimmer, he struck out for the shore. Owing to the great distance he would not have been successful in reaching it, had it not been for the gradual incline of the shore, which enabled him to walk in, as he was fatigued owing to the heavy clothing which he wore. The accident was witnessed from the window of the Chateau Saguenay, and assistance was at once sent to Abbe Parent.

FATAL FIRE IN NEW YORK.

A MAN, HIS WIFE AND SON BURNED TO DEATH — THE FIRE WAS CAUSED BY THE EXPLOSION OF MATERIALS IN A PAINTER'S SHOP.

New York, July 10. — Abraham Finkelstein was fatally burned to-day through the explosion of some material in his painter's supplies and wall paper shop at Forsyth and Hester streets, this city. The explosion set fire to the shop, and Finkelstein was killed by the flames. The bodies of Mrs. Finkelstein and her son, Isidore, were subsequently found in the hall at the foot of the stairs leading to the Hester street entrance. Both had been burned to death.

FRENCH SHORE COMPLICATIONS.

WHY THE REPORT OF THE ROYAL COMMISSION ON THE NEWFOUNDLAND FISHERIES QUESTION IS HELD BACK.

St. John's, Nfld., July 10. — The colonial authorities are understood to have been informed that the report of the Royal Commission of Inquiry into the French shore complications is withheld for the present by the British Colonial Office because it so strongly endorses the case of Newfoundland that the publication would provoke another Fashoda difficulty.

Mr. Jos. Chamberlain, the Imperial Secretary of State for the Colonies, has, however, determined to force the French to abandon their pretensions on the coast before another season opens.

FATAL FISHING EXCURSION.

SENATOR SANFORD DROWNED AT MUSKOKA — A LADY COMPANION SAVED BY TWO YOUNG LADIES — THE SAD NEWS CABLED TO MRS. SANFORD.

Windsor, Muskoka, July 10. — While fishing near his own island this morning at eleven o'clock Senator Sanford, of Hamilton, in company with a young lady visitor, his boat upset. Two young girls near by heard their calls for help. When they arrived they managed to save the young lady. Seeing the Senator's body, which could easily be reached by a rope, they managed to get it to shore, but were unable to resuscitate him. They then crossed the bay to Mr. Baker's island for help. Mr. Baker immediately sent to Windsor for medical aid. Dr. Cotton, of Toronto, left at once for the Senator's place, but when he arrived it was too late to render any assistance.

LATER DESPATCH.

Hamilton, July 10. — A private despatch was received by the Sanford Manufacturing Company, of Windsor, Muskoka, this afternoon announcing the death by drowning of Senator W. E. Sanford. No particulars were given in the despatch and the other members of the firm were not yet informed of the news, until further particulars were received. A press despatch giving fuller particulars confirmed the news, however. Mrs. Sanford is at present in the Old Country and has been advised by cable of the Senator's death. The news created great consternation in business circles and among citizens generally, the Senator being one of Hamilton's wealthiest and most popular.

The remains of Senator Sanford will arrive here from Muskoka tomorrow when arrangements will be made for the funeral. It is expected that Mrs. Sanford will arrive home from the Old Country in a few days. Senator Sanford was born in New York City, in 1838, and his parents dying when he was a youth, his uncle, the late Edward Jackson, of Hamilton, reared him. He entered the publishing firm of Freeman, Brace & Co., New York, when fifteen years old, and six years later he returned to Canada and was engaged in the foundry business in London for a while. In 1862 he entered into partnership with the late Alexander McInnes, in the manufacture of clothing, and from this the greatest clothing manufacturing firm in the Dominion resulted. The late Senator had been President of the Hamilton Board of Trade, Vice-President of the Hamilton Provident & Loan Society, one of the board of managers of Victoria university and President of the late Hamilton Ladies' College. He was also projector of the Manitoba & North-Western Railway. He was an offshoot of the Methodist Church and being a considerable employer, charitable and generous in his actions, will be greatly missed in this community. He was twice married, his first wife died in 1860 and in 1866 he married Miss Harriet Sophia Vaux with two daughters, survives him.

RUDYARD KIPLING'S OPINION

Of Some of the American Publishers — Their Fake Stories.

London, July 10. — The Author published a letter from Rudyard Kipling, which ends by setting forth explicitly the grounds on which his case against certain American publishers rests. He concludes: "They have made me responsible before a public to whom I do particularly owe the best and most honest work I can turn out, for an egregious padded fake, and all these things they did, taking advantage of that public's interest in my illness, when I lay at the point of death. I do not see how I can permit their action to pass without challenge. It establishes too many precedents which will do evil to the honor and integrity of the profession that so far has given me countenance and profit."

GETTING READY FOR THE TRIAL.

Britannia to Race Cup Challenger Shamrock.

SATURDAY'S LACROSSE MATCH.

PAPERS IN THE SETTLEMENT UP THE CREEK TRY TO MAKE EXPLANATIONS — IT IS NOT A STOLEN LETTER FAKE — BASEBALL AND OTHER SPORT IN ITEMS OF INTEREST.

Southampton, July 10. — The Prince of Wales' future Britannia has been taken out of the dock and is expected to be ready to sail tomorrow, when, perhaps, she will have a trial sail with the Shamrock. A few alterations are making in the latter's sails. Her sailing master declares he is delighted with her, particularly with the way she answers to her helm, and her quickness to fully gauge the qualities of the cup challenger at present, her supporters believe she will fulfill all expectations, unless she encounters heavy weather while crossing the Atlantic, and strains her exceptionally light hull. The course at present mapped out for the first trial sail between Britannia and Shamrock in triangular, so as to test the challenger in varying conditions of wind.

BASEBALL.

The following were the scores in the Eastern Baseball League yesterday:

At Syracuse — Syracuse 6, Springfield 7.

At Toronto — Worcester 10, Toronto 7.

At Rochester — Hartford 3, Rochester 7.

At Montreal — Montreal 7 Providence 8.

BIG TROTTERING MATCH.

Dubuque, Iowa, July 10. — A proposition was made to-day by the Nutwood Driving Club to the owners of the French and English horses, to race a four mile trot on the 14th of August. The race was to be for \$10,000. There is to be no entrance fee, but all age to enter to beat 2:08.

A rather peculiar and interesting athletic contest took place at the Racquet Court of the St. Roch Amateur Athletic Club yesterday afternoon. Mr. P. Elzalde, champion of Mexico, and Mr. N. Lavoie, champion of Canada, met in a friendly match. The men played with wooden racquets. Mr. Elzalde is a Basque and is residing here after a tour through Mexico and the United States, where he met all comers with success. The game was fast and exciting, and was well worth watching. The judgment exhibited by the players was simply marvellous. Joe Elzalde, the Mexican, was almost comical like Mr. Lavoie distinguished himself greatly by his excellent work, but unfortunately the game could not be concluded owing to darkness.

DID MISS GOULD MARRY A FRAUD?

THE PRINCE OF MONOCO SAYS CASTELLANE IS NOT A COUNT AND A CHALLENGE FROM HIM IS BENEATH NOTICE.

New York, July 10. — A Paris dispatch to the Evening Journal says the Prince of Monaco, who has just returned from a sea voyage, has declined to fight a duel with Count Castellane on account of the Dreyfus affair. In his reply to Castellane's recent insulting letter, the Prince openly gives as his reason for declining the fact that Castellane is a person inferior to his situation. He says he has reason to believe that Castellane has assumed the title of Count when he is not entitled to it. Monaco says under the circumstances the challenge from Castellane is an impertinence and is not entitled to notice.

A RUSSIAN GRAND DUKE NO MORE.

Heir Apparent to Throne Passes Away.

CONSUMPTION WAS THE CAUSE.

HE DIES IN THE CAUCASUS — THOUGH AN INVALID HIS DEATH WAS NOT EXPECTED SO SUDDENLY — HIS MOTHER NOT PRESENT AT HIS BEDSIDE — SYMPATHY FROM THE PRINCE OF WALES.

St. Petersburg, July 10. — Grand Duke George, heir apparent to the Russian throne, died at the Imperial Palace in the Caucasus to-day, where he had been residing for his health. An official despatch from Abba Tuman, in the Caucasus, announces that the Grand Duke died of a violent and sudden hemorrhage of the throat.

NOW HIGH APPARENT.

London, July 10. — The Czar's brother, Grand Duke Michael of Russia, now heir apparent, is at present in London. He accompanied the Prince of Wales to the volunteer review on the Horse Guards Parade on Saturday.

London, July 10. — The Prince of Wales visited the Grand Duke Michael this evening to convey his condolences. Grand Duke Michael will remain in England until it is decided when and where the funeral is to take place.

DEATH UNEXPECTED.

The death of the Czarevitch, though quite unexpected, so much so indeed, that his mother was not with him, has caused no surprise because it has long been known that it was impossible for him to survive, the consumption from which he suffered having assumed a serious phase, which compelled him to live the life of a confirmed invalid.

WHO STARTED THE TROUBLE?

SERIOUS CHARGES AGAINST THE DUKE OF ORLEANS — SUDDEDLY MONEY FOR THE PURPOSE OF STARTING A ROW.

Paris, July 10. — The Gazette de France to-day publishes the report which the prefect of police presented to the Government March 29 on the Orleanist party. It says the League of Patriots and the Anti-Semite League were in close relations with the Duke of Orleans, who sent 50,000 francs to Deputy Jules Guerin. Altogether the Royalists are said to have expended 300,000 francs in getting up the Neully barracks fiasco. Professor Syveton, treasurer of the League of the French Fatherland, has been suspended from his duties at the College of Reims for attempts to incite an anti-Dreyfus agitation at Reims.

Belgrade, Serbia, July 10. — Martial law has been declared throughout the department of Belgrade, including this city, owing to discoveries made during the course of inquiry into the recent attempt upon the life of former King Milan.

A CONFESSED MURDERER.

"Yes, I am Guilty, and Deserve the Severest Punishment."
Winnipeg, Man., July 10. — Emily Hilda Blake, charged with the murder of Mrs. Robert Lane, had a preliminary trial to-day. The accused was not represented. She sat throughout the trial unmoved all the time with her eyes closed. When asked if she had anything to say, the accused, rising to her feet, said, "Yes, I am guilty and deserve the severest punishment you can give me, that's all." The prisoner struggled hard to maintain her composure but her lips trembled and the short statement ended by sobs. The scene was affecting. The magistrate committed her for trial at the next assizes, November 14.

AUSTRALASIA'S SHARE.

BALLAD WRITER DEAD.

New York, July 10. — Charles Graham, the ballad writer, whose songs have been sung, played and whistled everywhere in the United States, died in hospital. In spite of the great popularity of his songs he is said to have died penniless, for most of his work was poorly paid. He was born in Boston, England.

GENERAL HUTTON'S INSPECTION

Description of the Amusements in Which the Men of Both Nationalities Participated.

One of the most interesting as well as successful camps ever held on the heights of Lewis, has come to a close. The leaders of the Chronicle have already noted with interest the daily routine of the different battalions housed in the spotless white tents, consequently I will refrain from a repetition of what they have already perused, and will confine myself to the life of the volunteer soldiers from the rural districts both on and off drill in camp.

The writer joined one of the battalions at No. 1 Fort, better known as the 11th Division or Brigade, in order to gain an insight into how the camps were conducted, and to witness the various amusements and the cost of sustaining our volunteer forces is well expended.

As I have already stated, I was attached to one of the battalions stationed in the vicinity of No. 1 Fort, and in consequence I will confine myself to what I experienced in this camp because outside of a visit to No. 2 Fort, where six battalions are under canvas, including the 55th and 60th, 17th of Lewis, and 23rd battalions. I had not the pleasure of seeing them at work on parade.

There are many people, no doubt, who have an idea that camp life was a mere idyllic dream, and that I must confess that prior to my present personal experience I was of the same opinion, but now I have come to realize that soldiering under canvas, in the open air, is anything but a sinecure. Work from early morning until night is the word here, and no army man could stand the ordeal the second day.

The food, though plain, is substantial and good, and at the same time in abundance. Certainly Tommy Atkins has no tables to surround or chairs to sit on, nevertheless the camp is anything but a sinecure, while waiting from their tin service, better known as canteens, and at night reposing between two blankets on the other camp.

Five and one-half hours' drill each lay under a hot sun, constitutes our principal work, apart from various other duties comprising picket and guard duty, and fatigue duties. The hospital service is excellent, and both "brigades" it could not be otherwise under the able supervision of one of Quebec's leading physicians, Dr. Colin Sewell, Surgeon 1st-Regt. of the R. C. A. Hospital. It is by camp physicians from various districts including Dr. Beaudry, of the 81st Battalion, of Portneuf; Dr. Groulx, of Charlesburg, attached to the 87th Battalion, of the 15th Field Battery, of Shefford, P.Q., etc. The hospitals in question are in charge of the well known qualified non-commissioned officers of the R. C. A. Hospital, who are in charge of the home for the sick, opened in the old engineers' camp, and when they awake in the morning and find that they could only see out of one eye, the other totally closed while the other was partially so. But the superior medical attendance is soon restored to their sight, however, though much praise cannot be given to this branch of the service.

AMUSEMENT DURING EVENINGS.

The joyful side of the camp is one of the happiest features of camp life. Every evening after the men are dismissed, partaken of a refreshing wash and substantial supper, every man not on duty saunters around the camp grounds in search of a diversion to counteract the fatigue of the day's work. One has not far to go, for in all parts of the ground some sort of fun is in vogue to pass the time from 7 o'clock until the bugle sounds lights out. The principal amusement, however, among the men, is the dancing and singing pavilion, situated in the centre of the camp. So as every man on grounds can take part. The Old Country or English speaking members of the different battalions in the 11th Brigade are always foremost in any and every sort of amusement that is introduced, and they are mostly attached to Nos. 1 and 4 companies of the 87th Battalion, Quebec County volunteers, and in command of Lieut.-Col. Laurin, a most able and courteous officer, while Capt. A. D. L. Panet is the chief officer of No. 1 Company, and Capt. Finbar O'Farrell commands No. 4 company. The two crack companies in the combined brigades, and officers who not only indefatigable in their zeal to perfect their respective companies but likewise officers who look evenly after their men's comfort, even at the sacrifice of their own (Continued on Fourth Page.)

The prospects are not bright for the reassembling of the International Commission in this city on August 2nd. The Conference adjourned at Washington in order to allow the British and the American governments to endeavor to reach an understanding regarding the Alaskan question. It is now said that, though there has been much negotiation, no progress has been made. The two Governments have been endeavoring to fix upon a temporary boundary line which will be acceptable to both pending the settlement of the question by arbitration. Both have gone a long way towards meeting each other, but there is still quite a chasm to be bridged. Great Britain is reported in the American press to be asking for very important concessions, notably an outlet at Pyramid Harbour prior to the arbitration, but the position of the mother country, whatever it may be, is an official secret. We may be sure that it is not accurately represented in the section of the American press which is anxious to prevent any understanding. A Canadian view of the case, which is also official, indicates that this country asks that the temporary boundary line be so fixed as to include the Indian Village of Klukwan in the Dominion to which the United States declines to accede. Seeing that both countries are agreed upon arbitration there is not much to be gained by too rigid an adherence to preconceived notions. The Alaskan boundary question blocks the way to the settlement of all the other unsettled problems submitted to the commission. It ought not to prove an insuperable obstacle.

OUR NEW PRESS.

Messrs. R. Hoe & Co., the celebrated press manufacturers of New York, have contracted to supply the Chronicle Printing Company with a first-class rapid web press, which will be installed shortly. The same firm has just furnished the Toronto Globe and the Montreal Gazette with modern printing presses. The Chronicle, with its new equipment will be able to meet the generous demands of the reading and advertising public of Quebec more completely than has ever been done before.

THE LEVIS CAMP.

Major-General Hutton, has, through a general order, expressed himself as satisfied with the zeal and energy of those who attended the Levis camp, but he finds that the training they have received is not up to the standard. This is attributed to inexperience and lack of knowledge on the part of the officers of the rural French-Canadian regiments. The Major-General considers that the instructions these officers receive are insufficient because the staff of the Permanent Corps is for the most part ignorant of the French language. It was to remedy this deficiency that the commanding officer some months ago issued orders to the officers of the Permanent Corps to acquire a knowledge of the French language. This is necessarily a slow process, though undoubtedly beneficial to those who succeed. Perhaps a shorter route to the desired end might be found by equipping some of the French-Canadian officers with the military training necessary to qualify them to give instructions to those of their own race. On the whole it must be satisfactory to those who took part in the camp to note that the patriotic zeal and military enthusiasm of the troops are appreciated, for where those qualities are in evidence we have the first essentials of good soldiers.

MAY PASS UNDER PROTEST.

The Redistribution Bill, which has received its second reading, has still to be threshed out in Committee and then to run the gauntlet of the Senate. Since it was introduced one of the objectionable features has been removed by the giving of an additional member to Toronto. Still at test it is a party measure, for while laying down the principle of respecting county boundaries it only restores them where that can be done with advantage to the Liberals. This perhaps is what is to be expected so long as in the game of politics the element of fairness is not held in high esteem. The bill would have small chance in the Upper House if it were considered upon party grounds, but everything indicates that the Senate will pass judgment upon its merits, and allow it to become law. The Upper House sanctioned the Franchise Bill, though opposed to it politically, after an attempt to remedy its most glaring defects. Likewise we may expect that the Senate will offer some remedial amendments to the Redistribution Bill and if they are rejected pass the measure under protest.

HORNBLLENDE GOLD MINE.

WHY?

BECAUSE the Company owns six claims in the heart of the famous Michipicoten district. These claims lie between the rich claims "Mackay" and "Jubilee." For one half interest in the latter \$100,000.00 in cash was offered.

BECAUSE the ore is free millin and easy to treat and will need to be shipped, the Company having already purchased a stamp mill and will crush the ore taken from the shaft and use the proceeds for further development. In this way it is expected to make the mine almost self supporting even while being developed.

BECAUSE the veins widen out as the shaft goes deeper disclosing more ore and better values. The assays gave \$17.50 at the surface, \$25 at six feet and \$30 at ten feet.

BECAUSE the Directorate is a strong and honest one and shareholders may rely on getting all the mine produces. This is a very important point. Read the names of the Directors below. These Directors will get no pay for their services until the mine is on a dividend paying basis.

BECAUSE abundant provision has been made in shares for Treasury purposes. The mine and expenses so far are all paid for and there remain in the Treasury 250,000 shares.

BECAUSE while this limited amount of stock lasts, which will be only a few days, the price will be 25c. Allotment will be made in the order in which applications come in. If you want a block while it is going, do not delay but send in your application at once.

In the days of New France
There were maids fair and courtly;
Who, with air of romance,
In the days of New France,
Stepped the stately old dance
With some Governor portly.

They revive the old dance
But not the old glory.

Mr. John Morley and Mrs. Morley are at present guests of Mr. Andrew Carnegie at Skibo Castle.

Reuter's Agency understands, with regard to recent rumors concerning Lord Kitchener's future sphere of activity, that the Sirdar intends to leave London on August 8th for Omdurman to resume his duties as Governor-General of the Sudan. General Kitchener has been almost entirely rebuilt, and will be used as the Government House.

Leo XIII. bids fair to be the oldest of the Popes. The scars of the operation performed by Dr. Mazzoni on the aged Pontiff are said to have thoroughly disappeared. Three weeks ago, when the physicians removed the last bandages, the Pope said jokingly to the doctor: "Now Dr. Mazzoni, how many years of life can you promise me?" "I believe confidently," replied the physician, "that your Holiness will live to be over a hundred." "No, no," answered the Pope, "you are stretching my years a little too far." The Roman correspondent of the "Neue Wiener Tagblatt," however, who reports this chat between patient and doctor, thinks that the doctor may prove a true prophet, as Leo XIII. exhibits signs of such extraordinary mental vigour, and his memory seems absolutely unimpaired.

Mr. Charles G. D. Roberts, the Premier poet of Canada, who was entertained at dinner by the Author's Club on Monday, was born in New Brunswick, in 1850, and educated at the local university, where he carried off scholarships in Greek and Latin, together with the gold medal for Latin prose. Until 1895 he was engaged in scholastic work, but since then he has been devoting himself exclusively to literature.

Money was dearer and Consols went down half. Americans were weak throughout the day. The New York bank statement was not liked and it is feared a worse one is coming. STEAMERS DECKLOADS

(Continued from First Page.)
The assurance of Sir Charles Tupper that he would support measures for improving the militia. He expected that from the Opposition, and knowing that he was accustomed to large statesmanlike views on matters of this kind. The Minister contended that the permanent force did good work last year, in spite of the absence of the Yukon contingent. The presence of the soldiers in the Yukon may have had a salutary influence on the mining population. Mr. Borden said that from the Opposition, Government to withdraw at once half of the Yukon force. The force had been increased somewhat, so that when the hundred troops should come back, the force would be about as large as before the two hundred went away.

At one o'clock the Opposition suggested an adjournment, but Mr. Fielding would not consent, and Mr. Borden, thereupon, was asked to explain the purchase of the Yukon military supplies from Bates & Sons, of Ottawa, amounting to \$34,000.

Mr. Taylor vigorously criticized the charges made by Bates. He was not with the statement that the firm was very respectable.

Mr. Taylor retorted that Mr. Bates had been bought and furnished the house in which Sir Wilfrid Laurier was now living.

Mr. Sutherland said this was a serious statement to make.

Mr. Fielding said it was a matter of common notoriety and he made it on his responsibility as a member.

LATE SENATOR SANFORD.
Profound regret was expressed here on the announcement of the death of Senator Sanford, who was here attending to his Parliamentary duties up to Friday last. In the Senate to-day Sir Mackenzie Bowell spoke feelingly of the late Senator and moved the adjournment.

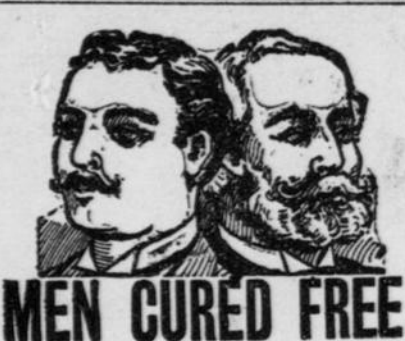

Hon. Mr. Mills spoke in a stinging strain and the Senate adjourned.

MEN CURED FREE.

A most successful remedy has been found for sexual weakness such as impotence, vertigo, shrunk organs, nervous debility, loss of manhood, night emissions, premature discharge and all other results of self-abuse or excess. It cures any case of the difficulty, never fails to restore the organs to full natural strength and vigor. The Doctor who made this wonderful discovery wants to let every man know about it. He will therefore send the receipt given the various ingredients to be used, and all other results of self-abuse or excess can cure themselves. He needs the receipt free, and all the reader needs to do is send his name and address to L. W. Knappe, M.D., 1727 Hill Bldg., Detroit, Mich., requesting the free receipt, and it is sent in this paper. It is a generous offer, and every man ought to be glad to have such an opportunity.

FIRE IN ST. ROCH.

Messrs. J. B. Laliberte and P. Brunet, et al. Properties Damaged.

An alarm from box No. 73 called out the firemen about one o'clock yesterday afternoon, for fire which originated in the upper portion of the street, on the corner of St. Roch and St. Joseph streets.

The origin of the fire is unknown, but it is supposed to have taken from a spark from a chimney near by. When the firemen reached the house it was seen that the flames were doing quick work and a double alarm was immediately given. The firemen soon after succeeded in controlling the flames but not before damages for a large amount were caused. The fire having taken through the roof the water made its way through the four floors and all the ceilings and floors were badly damaged as well as a portion of the furniture.

The firemen were still working at Mr. Laliberte's residence when they were notified that another blaze had started at Mr. P. Brunet's jewellery store, at the corner of St. Roch and St. Joseph streets. Strange to say on this occasion the fire also caught in the roof, but it is impossible to say how it originated. As at Mr. Laliberte's, Mr. Brunet's private residence is also badly damaged, while the water penetrated through the floors to the jewellery store below.

Mr. Brunet was at the first fire when his place took fire. The damages in both cases are covered by insurance in the following companies.

Mr. Laliberte's residence—\$4,000, in the Liverpool, London and Globe, \$3,000, in the Union; and \$3,400, on the contents of the house in the Queen.

Mr. Brunet's house—\$2,000, in the Liverpool, London and Globe, \$1,000, in the Scottish Union, and \$3,900 in the Queen on the contents of the building, of which \$1,200 is on furniture.

A couple of stores adjoining Mr. Brunet's were also slightly damaged by water and smoke.

NEW SAW MILL.
In Course of Construction at Valcartier.

Messrs. Lefebvre and Laberge, of Valcartier, have demolished their mill which has been in operation for seven years, and are at present constructing a large new saw mill in close proximity to the Anglican Church of that parish. It is to be run by steam, and the dimensions are seventy feet by sixty. The building itself is to cost \$15,000, while the machinery will, it is estimated, cost \$2,000.

A SMART BOY.
His Presence of Mind Probably Saved a Train from Wreck.

A young lad named Fecteau, while walking on the I.C.R. track at Levis on Sunday evening about 10.15, saw a quantity of stone on the track. He ran back to the station and notified the train dispatcher, who immediately notified the St. Charles agent. It was very fortunate that Fecteau was around, as the fact expressed due at Levis at 11.30 was just at St. Charles station when the news came and the engine proceeded along very cautiously, while a number of men cleared the track.

DOUBLE DROWNING ACCIDENT.
Inquest on the Remains of Mr. Fortin—The Lad's Body not yet Recovered.

Dr. A. G. Belleau, district coroner, held an inquest yesterday morning on the remains of the late Thomas Fortin, one of the victims of the drowning fatality in the St. Charles river, on Saturday evening, at the residence No. 46 Prince Edward street, St. Roch. The evidence taken confirmed the report published in our issue of yesterday, and the jury returned a verdict to the effect that the deceased had met his death by accidental drowning. All day yesterday a gang of men were dragging in the river in the vicinity of where the accident occurred, but up to a late hour last night their efforts to recover the lad's body were fruitless. Mrs. Fortin, who witnessed the accident from the back window of her residence, received such a severe shock that she is at present seriously ill.

Mr. Cartwright resigned the position of secretary of the World's Championship Bicycle meet to accept his present position. Mr. Cartwright will represent the firm in all the territory east of and including this city. He speaks in flattering terms of the state of trade, and says that the firm is doing more business than they ever done before. Mr. Cartwright expects to return to this city in the near future. The boys will welcome him heartily as the genial T. T. has also been a good supporter of Quebec in all branches of sport, and whenever Quebec was found playing any game in a city where he was he was always with them. The firm of E. W. Gillett could not have made a better selection for a representative in this part than they have, and both the firm and T. T. are to be congratulated on having joined forces.

ARRIVAL OF THE NUMIDIAN.

A NUMBER OF FINLANDERS ARE AMONG HER PASSENGERS—A BARK TOUCHES GROUND—ACQUIT INTO A TUG—A RECORD BROKEN.

The Allan Line SS Numidian, Capt. McNeil, arrived in port last night at 10.15, with 30 cabin, 48 second cabin and 168 steerage passengers, a general cargo. The steerage passengers were landed at the Grand Trunk wharf, and left by G. T. R. and C. P. R. last night. Among the party were Finlanders and a few Germans for the Northwest. There are also some thirty-five Finlanders and Russians for the United States. After discharging Quebec cargo the Numidian proceeded to Montreal.

A TOTAL WRECK.
Halifax, N.S., July 10.—The Red Cross steamer Portia, from New York bound to Halifax, with 75 passengers on board, was wrecked west of Cape Sable Island, off Sambro, a point fifteen miles to the eastward of Halifax. The disaster occurred during a thick fog. Everybody on the steamer, 17 at total, were landed on the island in safety and are being well cared for. They will be transferred to the mainland, only a short distance away, as soon as possible. Captain Farrel, with a boat's crew has already reached Sambro, where he sent advices of the wreck to Halifax. The Portia is full of water and will prove a total wreck. She had a large cargo on board for Halifax and Newfoundland, and her passengers are nearly all summer tourists.

NOTES.
SS Magda, which has been loading deals at Priest's wharf for H. R. Goodday & Co., sailed last night for Fecamp, France.

Capt. Chicoyn, of the schooner River Belle, who arrived on Sunday night, reports that the boats were smashed, and almost at every fishing post along the coast more or less damage was sustained.

SS Almerian arrived in port last night from Antwerp with 234 tons of freight. Captain Chicoyn reports dense fog almost all the way across, having only met with two fine days on the passage. East of the Grand Banks several large bergs and a vast quantity of heavy field ice was sighted. In the fog during the night from Saturday to Sunday the ship was anchored alongside the buoy of Serpent River, and the Captain was surprised to find twenty tons of water instead of six as indicated in the sailing orders. The ship was brought to anchor because the patent sander was lost near the reef. The Almerian left at 4 o'clock this morning for Montreal.

The Norwegian bark Alpha, Capt. Andersen, arrived in port this morning in tow of the tug Dauntless. On the way up the Alpha grounded at Crane Island, but got off in a couple of hours. She is now discharging her cargo of fire bricks, coke and fire clay at Crawford's wharf, and will take a cargo of timber and deals at Matane.

SS Morven passed up at six o'clock last evening. Pilot Treffeille reports the Pilgrim gas buoy full of water and sinking.

SS Ramore Head arrived last evening from the Orkney Islands, and went into Indian Cove to complete cargo with timber and deals.

The boiler of the tug Victor gave way in some manner yesterday morning, and the engineer got pretty badly burned by steam. His injuries are not serious.

Blindness Both red Men in Camp

(Continued from First Page.)
pleasure. I certainly must say that every officer in the camp is built of the same stamp, but inasmuch as I have watched those gentlemen closely, I take the liberty of particularizing them and that only because they merit the credit without the least intention of flattery.

It is really laughable to come on the camp grounds in the evening, and at the same time a pleasure to see the harmony which exists between the officers and men, emphasizing the different battalions; strict discipline all duty, officers dignified at all times, nevertheless desirous to see their men happy.

One of the most able officers in the 11th Brigade is the Adjutant of the 87th battalion, Major Roy, who not only knows his drill, a thorough soldier in all respects, a favorite in camp, and a gentleman in more, in fact may be said of all the officers, who look after their men, strictly if you will, but at the same time in a spirit of goodness, which have endeared them in the hearts of their subordinates.

THE INSPECTION.
On Wednesday afternoon the inspection of the 11th Brigade took place to the presence of General Hutton and staff. It was a splendid success, and notwithstanding that all the movements in brigade order were done through after only a nine day's drill, the general could not help expressing his praise. At the outset, the four infantry battalions were drawn up in review order when the general arrived on the ground, and the salute was perfect, and he so expressed himself. Afterwards the troops were marched to the upper field, where they were put through battalion movements, skirmishing drill, etc. At the close General Hutton addressed the Brigade expressing his utmost satisfaction at the outcome of the inspection, he especially complimented the 87th battalion, for their steadiness, and from his words it was plain to be seen that they were the best drilled and uniformly disciplined battalion in the brigade.

It is well known that General Hutton has no other superior officer, consequently his words bear weight.

I cannot close without giving credit to whom credit is due, Lieut.-Col. Pelletier, commanding officer of the 11th Brigade, and his staff, including Capt. Ouellette, of the 90th battalion, acting Brigade-Major, who were most indefatigable in their duties. Lieut.-Col. Pelletier is truly a soldier, and the 11th Brigade are deeply indebted to him for his respect, to one, I was a close observer of all that took place and must say as an old newspaper man that a cleaner and more disciplined campaign was never before held in the district of Quebec, and this is largely due to superior arrangements, drawn up by Lieut.-Col. Pelletier, his staff, officers of the district, instructors of the R. C. A. and R. C. I.
