

THE SITUATION IN RUSSIA.

The Duma Will Demand Amnesty of Prisoners.

St. Petersburg, May 14.—The Duma's demand for immediate amnesty for political exiles and political prisoners, and the suspension of political exiles, was raised as soon as the special session of that body opened Saturday for appointing a committee to draft the reply to the Czar's speech. A dozen members, mostly peasants, ascended the tribune, and demanded that the Duma adopt a resolution on the amnesty question separately and immediately. Great cheering greeted M. Morozov's proposal that Professor Morozov, president of the Duma, go to Peterhof and convey to the Czar the Duma's will that political prisoners be forthwith liberated. The cooler heads implored their fellows to remain content that amnesty would remain the first question in the Duma's reply to the speech from the throne. One member appealed to his comrades not to invite an affront from the Czar, who might refuse to receive the president at a moment's notice. He further said that the members did not dare to return to their villages and confess that they had compromised the programme of liberty and the land by disorderly impetuosity, which would make possible the disposal of the Duma. The members eventually proceeded to the election of a commission, the groups continuing excited debates in the great lobby. The evening session resulted in a complete victory for the tactical leaders of the Duma, which assented unanimously to allow its commission of 33 members to draft the reply to the throne speech, which will be presented to the Duma tomorrow afternoon. It was agreed that the claims of Poland would be treated in the reply to the throne.

THE E. T. CAVALRY BRIGADE.

Regiments Will Go Into Camp June 18th.

ALSO GRANBY RIFLES, ARMY SERVICE CORPS AND PROBABLY MEGANTIC INFANTRY.

The training grounds for the Eastern Townships Cavalry Brigade selected by the Government are located on the east side of the St. Francis river, and consist of something over a thousand acres. The site is not of the "billiard board" type as is Laprairie, but is made up of hills and valleys, typical of the Eastern Townships in general where the brigade is trained to operate. There are said to be about 1100 acres in the site.

The Eastern Townships Cavalry Brigade is made up of four regiments, namely Six Hussars, headquarters in Huntingdon; Seventh Hussars, headquarters at Bury; Eleventh Hussars, headquarters at Richmond, and 13th Scottish Light Dragoons, with headquarters at Waterloo.

The Army Service Corps, headquarters at Sherbrooke, and the Granby Battery will, also, go into camp here. It is said that the 55th Megantic Regiment of Infantry is also likely to be drilled here.

The whole will represent some 2200 men under the command of Colonel Buchanan.

MURDERED HER CHILDREN.

SULTAN HAS WITHDRAWN TROOPS

Orders Them Out of Egyptian Territory.

IN COMPLIANCE WITH BRITISH DEMANDS—INCIDENT MAY BE CLOSED.

Constantinople, May 14.—Tahab has been evacuated by Turkish troops by order of the Sultan. The Porte's reply on Friday to the British note agreed to the evacuation of Tahab and to the appointment of a commission for the delimitation of the boundary, but it was not couched in such terms as to make it acceptable to Sir Nicholas R. O'Connor, the British ambassador, and he has insisted on complete satisfaction being given before the expiration of the limit set by the British note. It is fully expected that this will be accorded.

Cairo, May 14.—A special edition of El Mokattam states that Turkey has ordered her troops to evacuate all Egyptian territory.

London, May 14.—The Foreign Office neither confirms nor denies the report that the Sultan has yielded conditionally, but it authorizes the statement that there are signs of a more conciliatory attitude on the part of the Sultan.

TIME FOR REFLECTION.
London, May 14.—The Constantinople correspondent of the Standard says the Sultan has accepted a majority of the conditions contained in the British ultimatum. It is thought probable that further time will be allowed for reflection. The feeling of indifference at the palace early last week sensibly disappeared with the arrival almost hourly of telegrams recording fresh additions to the fleet in Greek waters. These messages spoke of nothing but battleships, cruisers, torpedo boats and naval excursions. The secrecy with which the latter was conducted added to the alarm, and its effect on the Sultan was very strong. On Friday a definite communication was handed to the British ambassador, the precise purport of which has not been permitted to leak out, but it is certain that the Porte communicated its decision to withdraw the troops from Tahab, in addition to agreeing to a delimitation of the frontier. The correspondent suggests other conditions, the acceptance of which will end Turkish intrigues in Egypt. It was the fear of surrendering the right of a future intervention in Egyptian affairs which caused the Sultan such hesitancy. The instructions to the British ambassador permit him to accept only unconditional compliance with the British demands.

APOLOGIZES TO GERMANY.
Constantinople, May 14.—The Porte yesterday replied to Germany's protest against the boarding and detention of the German sailing ship Odyssus by Turkish officials recently while the vessel was discharging cargo at Chibuklu. The reply expresses regret at the occurrence, and promises to punish the officials responsible for it, but it proposes a reduction of the indemnity of \$3,500 which Germany demanded. The German protest described the seizure of the Odyssus as an act of piracy.

GREAT FIRE IN PARIS
Leather Market Scene of Conflagration.

MANY FAMILIES HOMELESS—LOSS MANY MILLION FRANCS.

Paris, May 13. (Night)—One of the most destructive fires that has ever occurred in Paris broke out in the Leather Market, Friday night, and it has not yet been extinguished. The firemen have been working unceasingly. No lives have been lost but many poor families dwelling under the market have been forced to abandon their homes. Eleven hide and leather merchants had their warehouses and offices in the market. The value of the destroyed property is 10,000,000 francs. At one o'clock yesterday morning, the roof of the market fell. The fire then became more intense, reaching the oil and petroleum cellars.

CHURCH STRUCK BY LIGHTNING.
SACRED EDIFICE ON MOHAWK RESERVE DEMOLISHED.

Deseronto, Ont., May 14.—During a fierce electric storm, which passed over this section of the country Saturday night, the English Church situated on the Mohawk reserve, about one mile west of Deseronto, was completely demolished. Lightning struck the northwest corner of the structure, igniting the framework, and a heavy wind from the west fanned the flames the entire length of the building. Relief was sent out from Deseronto, but as there was no water within reach, they could offer no resistance to the flames. The beautiful stained glass window presented by Dr. Ornhayt was destroyed, but nearly all the fixtures were removed. This church was a very old one and had an interesting history, having in its possession a communion set directly presented by Queen Anne. Many of the chiefs and their families of this tribe of Mohawks have been buried within its burial grounds.

There was quite a landslide on Frontenac street, Saturday night. The rain had loosened the soil on the side hill of the Seminary property, and a portion of it went down into the street.

VICE ADMIRAL IS ASSASSINATED.

Commander of Port of St. Petersburg.

ATTEMPTED TO STOP MAY DAY DEMONSTRATION OF WORKMEN.

St. Petersburg, May 14.—(Special.)—Vice-Admiral Kuznich, commander of the port, who was very unpopular with the workmen, was assassinated here to-day by workmen whose May Day demonstration he had attempted to stop.

THE COWANSVILLE DAIRY BOARD.

Butter Reaches 20 1-2c and Cheese 11c.

BUYERS DO NOT PUT UP GUARANTEE AS EXPECTED—MATTER DISCUSSED.

Cowansville, May 14.—(Special.)—The regular session of the Dairy Board was held in the Town Hall on Saturday with a full quota of members present, but disappointment was in their hearts at the conclusion, for the fair promises of a week ago resulted in nothing.

The chairman, President T. L. Burnett, was in the chair and opened the meeting by stating that owing to existing conditions and to By-law No. 21, providing for a deposit of guarantee before purchase, no buyer present was prepared or qualified to buy on the Board at this meeting. This By-law was framed by the Directors at a lawfully called meeting and voting had taken place on the 12th of March last. Many of the salesmen were present and three of the largest exporting houses had been represented at the meeting in question, namely, Lovell & Christmas, Gunn, Langlois, and A. A. Ayer, yet, after unanimously adopting the By-law, not one of these firms thus far had lived up to the spirit or letter of that meeting. The promise was for two weeks past that a guarantee was forthcoming, but, thus far, none had appeared, so he wished to have the matter thoroughly understood. Mr. Jones, representing Gunn, Langlois & Co., responded to this by saying that the Produce Association had agreed that none of its members could, without violating terms of membership, buy by guarantee on this Board, and it is for the Board to say what they will do under the circumstances.

Mr. Beattie, as a salesman, wished to say that no man would dislike having security if he could get it, but would it not be better to have the competition of the Board, yet sell goods without guarantee, than to dissolve the Board. No buyer present, he felt sure, would refuse the attaching of a bill of lading to goods and thus secure the seller. About three months of last year, business was done in this way, why not do it again?

The business was seemingly at a dead-lock, the following motion was placed by the Directorate before the Board. At a meeting of Directors, it was moved by H. F. Williams, seconded by Wm. Curley, and resolved, that if we cannot get the guarantee we will replace By-law No. 21 by the following: "That goods to-day offered for sale on this Board be sold, draft attached to bill of lading, or cash at point of shipment." Mr. H. H. Hibbard objected to this motion, saying the salesmen should have liberty of choice in the matter of sale, without bill of lading, if desired, but, on explanation, that this was to relieve the Board of responsibility of such sales, he assented. The chairman further stated that the Board guaranteed the weights, but, as there is only one official weigher, this will be the test. On being questioned, he stated that an official slip of reference as to weight is necessary to the Board's guarantee. On the motion being put it was carried and sales proceeded with.

An important and unusual run of bidding then followed. Starting with a bid of 18 1/2c for butter, by H. H. Hibbard and no sale, 18 3/4c by LaJeunesse and Durolo, also refused; Adams Bros., same bid; 19c was then bid by Mr. Dalrymple and refused, 19 1/2c by Hodgson Bros., with the same result; 19 3/4c by H. H. Hibbard and refused, all Montreal inspection; 19 1/2c was offered and sale made of a few factories to Jas. Alexander. Bidding then went up to 19 3/4c by H. H. Hibbard and Jas. Alexander. It then took a leap to 20 and 20 1/2c, clearing out the boardings—20 1/2c. Cheese was then sold. Total number of boxes of butter offered for sale by the 26 creameries represented were 1357, while seven cheese factories boarded 175 cheese.

Jas. Alexander bought: Acme, 39 boxes at 19 1/2c. Adamsville, 50 boxes at 20 1/2c. West Brom or Bromo Valley, 45 boxes at 19 1/2c. Beranger, 20 boxes at 19 1/2c. B 56, 25 boxes at 19 1/2c. Bay View, 25 boxes at 19 1/2c. Clarencoville, 23 boxes at 19 1/2c. Crown (Iron Hill), 55 boxes at 19 1/2c. Cowansville, 75 boxes at 19 1/2c. Daisy (Sutton), 240 boxes at 20c. Dunham, 55 boxes at 20c. Eastman, 60 boxes at 19 1/2c. Green Valley (Mansenville), 35 boxes at 20c. Foster, 65 boxes at 20c. Knowlton, 90 boxes at 20c. Miranda, 25 boxes at 19 1/2c. Mystic Gem, 45 boxes at 19 1/2c. Noyan, 15 boxes at 19 1/2c. No. 325, 60 boxes at 19 1/2c. Stanbridge East, 55 boxes at 19 1/2c. Stanbridge Station, 25 boxes at 19 1/2c.

THE FIFTY-THIRD REGIMENT.
Church Parade Held Sunday Morning.

SERMON BY REV. C. W. NICOL AT ST. ANDREW'S PRESBYTERIAN CHURCH.

The 53rd Regiment attended church parade Sunday morning.

The Regiment fell in at the Drill Shed at 10:30 and by the way of Frontenac street, Dufferin ave. and Frontenac street, marched to St. Andrew's Presbyterian church, where divine service was attended.

Rev. Mr. Nicol officiated. After service the regiment reformed ranks and returned to the Drill Shed by the way of Frontenac, Belvidere, King and Wellington streets, Dufferin avenue, and Montreal street, and was dismissed.

The regiment presented a very good appearance, and was strong in numbers. Both bands under the direction of Mr. Henry Turcotte, turned out in full strength.

The regiment was under the command of Lieut.-Col. R. J. Spearing, with Major T. S. Somers, second in command.

The company officers were as follows: No. 1—Lieut. H. B. Fletcher, Lieut. V. Spearing.

No. 2—Capt. F. C. Bowen, Lieut. W. S. Allen.

No. 3—Lieut. Blue, Lieuts. Elliott and Odell.

No. 4—Capt. C. K. Fraser, Lieut. Goodhue.

Lt.-Col. Fraser, late in command of 53rd Regiment and Capt. E. W. Farwell, of the Signallers, attended the parade with the Regiment.

Taking as his subject "Soldiers of the King," and speaking from the double text—1 Sam. 4: 9, and 1 Cor. 16: 13, the Rev. Mr. Nicol said in part: "The good Queen Victoria—that womanly queen, that queenly woman—for whom many laid down their lives in the late South African war, burdened with years and the cares of an Empire, covered with honor and glory, has laid aside earth's royalty to join that illustrious throng of redeemed victors, crowned and uncrowned, before the throne of God. But Britain boasts her throne never lacks a monarch, and Edward, the good queen's son, reigns over all her vast, world-wide empire, upon the bounds of which the sun never sets, and of whose flag—the flag that braves the battle and the breeze—floats from the masthead and tower in every clime and in every port where men and ships may go. Men of the 53rd you are a part of that glorious, world-wide empire. You are more than an ordinary part of it; for in your dual relationship to it, you are both civilian and soldier. Yours is a double responsibility: To encourage and promote commerce and to protect with your body the rights of your country." The speaker then spoke of the glories of British military history, brilliant and immortal with victory and replete with valiant deeds of heroism. To the maintenance of this historic glory and of the peace of the empire, Canada had contributed no inconsiderable part

CRICKET AT MAGOG.
Magog, May 14.—(Special.)—The Bishop's College School cricket team came to Magog Saturday morning to play the local team. The grounds were soggy and wet and good cricket could not be expected from either team. The game had to be stopped frequently on account of the rain. The school was too much for the local team and won by a score of 35 to 13. Several of the boys took the opportunity of going through the cotton mill in the morning. The school team was represented by the following: Messrs. Davis, W. Campbell, R. Redmond, B. Graham, B. Price, E. Spafford, E. Evans, F. Morkill, D. Green, K. Stuart, B. Schwartz. Messrs. V. Rice and A. Campbell accompanied them.

SUDDEN DEATH OF TWO SISTERS AT INVERNESS.
Inverness, May 14.—(Special.)—Two very tragic and sudden deaths took place in our village last week. Miss Emma Layfield was found dead in her bed on Monday morning, and on Tuesday afternoon, as Miss Agnes Layfield was sitting in the dining room talking to some friends, and giving directions for the making of another will, necessitated by the death of Emma, her head dropped forward on the table near which she was sitting and she expired. Death was instantaneous. Arrangements had been made for the funeral of Emma on Wednesday, so it was decided to have a double funeral and both sisters were buried on Wednesday in the same grave. One sister belonged to the Presbyterian church, and the other to the Methodist church. The funeral was held in the Presbyterian church and was conducted by the two pastors of the village. The old Layfield home, one of the first established in Inverness, is now broken up. Thus the old landmarks are disappearing.

STOLE TWO CANT HOOKS.
Magog, May 14.—(Special.)—On Saturday morning Mr. J. B. Oliver and two helpers left their "cant hooks" in a boat in Cherry river near the bog road, being called to other duties for a short time. On returning to the boat the hooks, which had been left there, were found to be missing. A

team had been noticed a short time before going toward Eastman and suspicion naturally fell upon the occupant. Mr. Arthur Gendron was notified of the circumstances and immediately, in company with another, set out to capture the suspect. It was a long chase, but after getting about eight miles from Magog the team was overtaken. Admission was made that the hooks had been taken, but they were minus the handles. These had been broken off and thrown away. The miscreant did not wish to return as he was moving to Eastman, whereupon Mr. Gendron demanded security of \$10 that he would appear to-day (Monday). He was unable to do so, and finally handed over his gold watch and chain as the necessary security.

THE STANSTEAD METHODIST CHURCH.
Rock Island, May 14.—(Special.)—The "Silver Anniversary" of the W.M.S. of Centenary Methodist Church, on Wednesday evening was a most interesting gathering. Rev. George S. Clendinning, the pastor, presided, and in an opening address showed the reason for Woman's Societies for Mission work, and gave a few interesting facts in the history of the Society now celebrating its 25th anniversary.

Mrs. (Dr.) Flanders and Mrs. (Dr.) Rugg gave brief and bright addresses on the Chinese and Japanese missions of the Society. Miss Irene Mallory gave a most telling reading from Van Dyle, in her best style, and Miss Violet B. Smith, B.A., sang two exquisite solos. Mrs. A. F. Bell and Misses J. McIntosh, E. Monte and Ruth Stevens also gave musical selections which were much appreciated. Refreshments were passed and a social time enjoyed. The proceeds of this entertainment and the Easter Thank Offering together aggregate over \$45, and the ladies are gratified.

The closing meeting of Centenary Church Board for the current year was held on Thursday last, and the work was shown by reports to be making encouraging progress. Messrs. D. W. Davis, J. E. Telford and A. F. Bell were elected delegates to District meeting. The membership of the Church has increased during the year, despite a number of removals, and contributions are increasing steadily.

A resolution expressing cordial appreciation of the work of Rev. Mr. Clendinning during the past year, and requesting his return for the next year was unanimously passed.

The Montreal Conference, of which Mr. Clendinning is secretary, meets at Smith's Falls, Ont., on the 1st of June.

Continuing, the speaker said that, in the first place, the text sounded the recruit call for men. Manhood, he defined to be something more than proportionate physique or fine apparel or social standing, instancing the weaknesses of each. Manhood spells courage, not foolhardiness, not bravado, but courage. The King of Kings is daily seeking recruits for the army of the Lord. His call is for men, men of courage, men who live as if they had no time to waste, men who would stand shoulder to shoulder in true comradeship, men who will face any issue and stand for a principle against odds. The religion of Jesus Christ is not a religion of hysteria, of tears, of weak inactivity, a spiritual chloroform to soothe the hours of death. It is a religion of manly courage. The Lord's army he declared to be officered with the best brains and muscle which the world affords, while over all was the invincible King, a past master of strategy, and who never knew defeat.

Again the text suggests the dangers of camp life. "Watch ye," said the Apostle Paul. Camp life, with its picket and sentry duty and its surplus leisure time was, asserted the speaker, the pivotal test of character for the soldier. The temptations of the camp were then outlined, and the application to life's leisure hours forced home upon the audience, the speaker urging the men to watch against all invasion of the soul.

To recruit men and to encamp form only the preliminaries of war. The text enjoins: "Quit you like men; fight." Dress parade is no test of a soldierly manhood. It is the firing line where tests, courage and the gall of the drill. There is no poetry about war; it is a grim reality as it digs its trenches and trails its lines of blood across the hemispheres. Life's warfare is to the death. There is no honorable discharge in that war. With comrades, dropping on all sides of us, brought low by the sharpshooters of vice and lust, and godlessness and temptation, as we face daily the cruel ranks of organized wickedness in high places and low, may we not gather something of the spirit of the appeal of Marco Bozzaris, and "Strike—till the last armed foe expires. Strike for your altars and your fires. Strike for the green graves of your sires. God—and your native land."

STR. EMPRESS REACHES QUEBEC.

New C. P. R. Liner Crosses In 6 Days 17 Hrs.

BATTLED WITH FIERCE GALE AND PROVED HERSELF A MAGNIFICENT SEA BOAT.

Quebec, May 14.—The Empress of Britain, the new mammoth liner of the C.P.R., swung into her dock on Saturday night, completing her maiden voyage from Liverpool. She made the passage from Liverpool to Quebec in the fast time of six days 17 hours, and considering the fact that the safe southern route round Cape Race was taken, and that one of the fiercest gales of the season was encountered on Wednesday, the quick voyage is regarded as highly satisfactory by the officials of the company.

The average speed of the Empress, maintained during the voyage, was 18 knots, and at times the new flyer was speeding through the water at a 20 knot clip. The daily runs shown on the logs were: 110, 117, 123, 132, 140, 143, 176. The highest run, 176, was made under fair weather conditions and on the following day, Wednesday, the Empress had her sea-going qualities tested by a northwesterly gale, and although her speed dropped to 26.9, and the Empress stood the ordeal of wind and sea splendidly, and came through what Captain Stewart regards as one of the worst gales he remembers for some years, with flying colors.

IN A POISON FACTORY.
THE WORKMEN'S STRONG DESIRE TO TASTE PRODUCT OF THEIR LABORS.
 (From the St. Louis Globe-Democrat.)
 "Slip on this glass mask," said the foreman. "You will need it."
 The visitor donned the uncanny mask of glass, and the foreman led the way to the cyanide of potassium department.
 "We make 1,000 tons of cyanide a year," he said. "A dose of five grains is a fatal one. Thus our annual product is enough to kill 2,500,000 people."
 He opened a door and a room filled with writhing flames, dense shadows, sparks, smoke and weird figures in glass masks was revealed. In the centre of the room, in a great cauldron, 100 pounds of molten cyanide of potassium bubbled and seethed. The flames glinted strangely on the glass masks.
 The foreman coughed.
 "These fumes," he said, "are wholesome. The men, you see, are all robust. I have known weakly chaps, working here among these strange fumes, to pick up health and strength."
 In another clean, cool room the finished cyanide was stored. It looked like crystallized white sugar, good enough to eat.
 "Good enough to eat," said the foreman, gravely. "Well, we have had men eat it. Four men committed suicide in that way. The fumes seem to create in our men a desire to taste the drug. They fight this desire, most of them successfully, but they feel it, the same as workers in coffee plants want to chew the coffee beans, and some feel it so strongly as to succumb."

THE MAINSPRING OF PROSPERITY.
 (From the Wall Street Journal.)
 The San Francisco disaster is rapidly becoming history, the passage of the rail bill is assured, the coal miners have agreed to go back to work, the Russian loan has been floated, the French Government is succeeding in maintaining order during the May time strikes; and has gained in the May elections; there has been a sharp reaction in the stock market, and other causes of financial disturbance, at home and abroad, have passed, leaving the situation practically clear for the crops.
 Always highly important to American prosperity, the wheat, corn and cotton crops become this year the test of combined commercial activity. There have been years when the partial failure of one of these three great crops caused no special depression, but this year, owing to the peculiar financial conditions, and the pressing call for new and free capital, there is need of prime agricultural conditions.
 From this time on, therefore, the interest of the markets will centre more and more in the crops, for with the farms yielding their full annual increase of wealth there will be new inspiration for American enterprise.

DEPARTURE OF R. C. D.'S FOR ST. JOHNS, QUE.
 (From Toronto Globe.)
 It has now been definitely decided that the "A" Squadron of the R.C.D.'s will leave Stanley Barracks for St. Johns, Quebec, on Tuesday morning next. The horses will be dispatched on the previous day. A smoking concert is being arranged at the Barracks in compliment to the troops leaving the station. It is expected that a detachment of infantry will be leaving shortly for Halifax. The trumpet band of the R.C.D.'s under the direction of Trumpet Sergeant Ebbain, will attend the garrison church parade on Sunday. This is the first time the cavalry have had a trumpet band in Toronto.

THE RUINATION OF THE MILITIA.
 (From the New Orleans Pionyeune.)
 The worst evil that can befall the militia is the placing of responsible command in the hands of mere military martinet. Such people who can see no difference between the militia and the regular army and are promptly in favor of mustering out whatever fails to please them, may do in regular service, but they are simply impossibilities and misfits in the militia and should be got rid of wherever they develop. The militia will never increase again to its proper proportion until it is placed under the command of some experienced man who is fully imbued with the militia spirit as distinct from the purely military spirit as it is understood in the army.

THE SLOW UNSAING OF SMOOT.
 (From the New York Evening Post, Ind.)
 Reed Smoot was first brought before the Senate Committee on Privileges and Elections in March, 1903. Now, in May, 1906, the committee resolves that he is not entitled to his seat as a senator of the United States from the State of Utah. In the three years of his trial one senator, Hoar of Massachusetts, has died; another, McComas of Maryland, has retired from the Senate, and a third, Clarke of Arkansas, has refused to serve and been displaced by Patterson of Colorado. It has been freely said that the committee was not at all anxious to come to any agreement during Smoot's term, but pressure from the anti-Mormon element in Utah, Idaho and the Pacific slope has finally forced this eight to five vote for expulsion. Three of the senator's six years in Washington have passed, and the general feeling is that he has been a useful, hard-working member. His committee assignments have included membership in the Forest Reservations, Pensions and Public Lands committees of the Senate. There has been no charge of polygamous practices brought against him. The case rested on the implication of his oath of allegiance to the Mormon Church prevented him from giving complete allegiance to the United States. In two weeks the Senate will be asked to vote on the resolution of the committee proposed by Senator Heyburn.

THE CONSULTING DRESSMAKER.
 (From the Queen.)
 We are all cognizant of women who are simply without the feeling for dress. They are capable of wearing a monstrous chignon picture hat with a short tweed cycling skirt, or a motorcap with a muslin frilly frock. When young they wear the heavy mantles of age; when "getting on" they will take suddenly to the most girlish flippers. They do their best to solve an injustice. The consulting dressmaker is doing much to help women of this type.

SUNLIGHT SOAP
 is better than other Soaps but is best when used in the Sunlight way. Follow directions.

SUNLIGHT WAY OF WASHING
FIRST.—Dip the article to be washed in a tub of lukewarm water, draw it out on a washboard and rub the soap lightly over it. Be particular not to miss soaping all over. Then roll it in a tight roll, lay it under the water, and go on the same way until all the pieces have the soap rubbed on, and are rolled up.
Then go away for thirty minutes to one hour and let the "Sunlight" Soap do its work.
NEXT.—After soaking the full time rub the clothes lightly out on a washboard, and the dirt will drop out; turn the garment inside out to get the seams, but don't use any more soap; don't scald or boil a single piece, and don't wash through two suds. If the water gets too dirty, pour a little out and add fresh. If a streak is hard to wash, rub some more soap on it, and throw the piece back into the suds for a few minutes.
LASTLY COME THE RINSING.—Squeeze out the water in lukewarm water, taking special care to get all the dirty suds away, then wring out and hang up to dry.
For Woollens and Finer proceed as follows:—Shake the articles free from dust. Cut a tablet of SUNLIGHT SOAP into a gallon of boiling water and whisk into a lather. When just lukewarm, work articles in the lather without rubbing. Squeeze out dirty water without twisting and rinse thoroughly in two relays of lukewarm water. Squeeze out water without twisting and hang in the open air.
The most delicate colors may be safely washed in the "Sunlight" way.

\$5.00 REWARD will be paid to any person who proves that Sunlight Soap contains any injurious chemicals or any form of adulteration.

5c. Buy it and follow directions. **5c.**

THE SHERBROOKE W.C.T.U.
 The annual meeting of the Sherbrooke W. C. T. U. was held yesterday afternoon at the residence of Mrs. B. C. Howard, London street.
 Mrs. Jones presided at the meeting. The reports of the treasurer, corresponding secretary, and recording secretary, were read and approved, being found very satisfactory.
 The reports of the superintendents of departments were next in order, and an excellent showing was made, good work having been done in the Flower Mission, Literature and Lumber Camps, and Sick Visiting Departments in particular.
 The election of officers then took place as follows: Hon. President, Mrs. Skinner; President Mrs. Jones; 1st Vice-President, Mrs. Hodge; 2nd Vice-President, Mrs. Andrew McDonald; 3rd Vice-President, Mrs. Wm. Bailey; Treasurer, Mrs. Dowlin; Recording Secretary, Mrs. Morehouse; Corresponding Secretary, Mrs. G. E. Hyndman; Assistant Secretary, Miss McLellan. Superintendents of Departments—Mrs. George Amantje, Flower Mission and Hospital Work; Mrs. Hodge, Evangelistic Work; Mrs. Jones, Social Purity; Mrs. Lord, Juvenile Work; Mrs. Thornton, Literature and Lumber Camps; Mrs. Howard and Mrs. Keene, Parlor Meetings; Mrs. Lyster, Sick Visiting; Mrs. Hovey, Mother's Meetings; Mrs. White, Press, Home Missions; Mrs. Jones was conducted to the chair and spoke briefly, thanking the members for the compliment of her reelection, and making a few remarks concerning the work. The question was often asked, she said (sometimes with a sneer) of a member of the Union, "What do you do?" and it was a difficult one to answer, for little could be shown in the way of actual aggressive temperance work.
 But, the influence of the W.C.T.U. was all on the right side, and it

On Aches and Pains.
 There never was a headache, or a heart ache or any other suffering, without some cause for it; therefore, locate the cause and remove it if you can, and you will effect relief. There is a species of foot trouble which causes them to burn as though they were scalded. We know what this cause is, and while it is not a professional secret, for the benefit of suffering humanity, we will expose it in this space within a few days. This is our duty, it will also be our pleasure.

A Correction

We wish to correct a typographical error in connection with our hosiery advertisement of last Friday which drew special attention to a line of hosiery at 2 pairs for \$1.00.

It should have read

3 Pairs for 1.00 every pair worth .45

We might add that these 3 for a 1.00 stockings are really the most satisfactory we have ever been able to offer.

Mr. Pat Gilmore and bride returned from their honeymoon on Thursday night.

Mr. Harry Smith, of Boston, Mass., is spending a few days in town on business.

The sewer in front of the Derby Line Bank is being taken up, it being stopped up so the water will not run through.

Mrs. Louis Moreau who has been in very delicate health for the past year, passed away on Saturday morning with her family around the bedside. Everything was done that could be by loving hands and medical aid. She

leaves a husband, two daughters and one son to mourn her death. The funeral will be held on Monday at the R. C. Church.

We understand that the village of Derby Line contemplate building more granolithic sidewalks this summer.

G. T. R. EXPRESS IN COLLISION

Ran Into Open Switch And Hit Freight.

ACCIDENT OCCURRED JUST AFTER PASSENGER TRAIN CLEARED VICTORIA BRIDGE.

Montreal, May 14.—An open switch caused a head-on collision Sunday morning in Point St. Charles yard, between the incoming Portland passenger train just after it had cleared the Victoria bridge, and a freight train moving up towards the bridge on an adjoining track. By the greatest good luck nobody was seriously injured though the passengers got a scare, and after running out to see what had happened were relieved to find that the train hands had also by a close shave escaped though both engines were hooked hard together and two freight cars were wrecked. One of the cars was reduced to kindling wood, and its contents of short pine blocks, were piled up on top of the tender of the freight engine. The second car behind was badly smashed up. The heads of both engines were stove in, but luckily not far enough to smash the boilers and scatter their scalding contents on the crews in the engine cabs. Both cow-catchers and the front ends of the boilers, known as the smoke boxes, were knocked in, so badly that the engines had to be forcibly pulled apart.

The fireman of the Portland train jumped and complained afterwards of a sprained back, and one or two of the train hands had a few cuts. The accident was due to an apparent oversight of a switchman who had just let in a freight train from the bridge, and had forgotten to close the switch again.

HATLEY.

May 14.—The Mensuro Social, given by the ladies of the Methodist Church, on Friday evening, was quite a success, notwithstanding the bad roads. The supper given was a good one, in fact, better than could be profitably given under the circumstances. Music was rendered by Hatley Cadet Band, who are always ready to do their duty.

At the last meeting of the Ladies' Guild of St. James Church, held at the home of the President, the chief officers were re-elected as follows: Mrs. E. R. Whitcomb, President; Mrs. Dora LeBaron, Treasurer; Mrs. Nellie Perry, Secretary; Mrs. M. Louisa, Supt. of Meetings, and Mrs. E. LeBaron, and Mrs. Grace Bowen, Visiting Committee. It was decided to donate the sum of \$25 towards the repairs of the Rectory this year.

A DISASTER NEXT WEEK.

New Englanders Warned of Coming Danger.

EARTHQUAKE AND ELECTRICAL DISTURBANCE SAYS "BIG GUN" JOHNSON.

The following extraordinary prediction of a dire disaster was made Friday last by Horace Johnson, of Middle Haddam. "Come," the man who has achieved a notable fame throughout the country as a result of former prognostications of disasters that have overtaken different States of the Union.

Eighty-three years of age now, he has been prognosticating along the lines of natural science ever since the time that he was sixteen years old. Throughout the State of Connecticut where his predictions are widely published, the warnings of "Big Gun" Johnson, as he is sometimes called, are eagerly sought for by the farmers, who have followed his words since time beyond memory.

His prediction is as follows: "Our earth will be stretched to a point on or about May 22nd, which will cause a general disturbance in our country for a distance of over 3,000 miles.

"An earthquake will shake a goodly portion of New England between the 22nd and the 24th, just what section will be most affected I cannot tell, but a danger far greater will accompany it.

"New England will suffer a terrible electrical disturbance, such as the country has never experienced, and a vast amount of damage is certain to result.

"The sun, moon and Mars will occupy angles relative to the force centre of the earth, which will bring about this disturbance just as sure as the sun shines above us now, and though I do not like to be an alarmist, I must state what I know is in store for New England."

As the Eastern Townships border on the New England States the people of this section of the country will doubtless anchor their houses and plug the telephones prior to the 22nd.

CORRESPONDENCE.

DANVILLE FIRE PROTECTION.

Editor of Record:

Sir—After due consideration of the unsatisfactory condition of our village (Danville), in case of fire, I take the liberty to suggest what seems to me to be the proper course to be pursued to safeguard and protect our property against the ravage of a fire.

1st. I would lay an iron or a wooden conduit from the pond above the village along Water street to the Square, thence down Depot street to the G. T. Station, with hydrants at proper distances. This would furnish ample protection along the main line, and to protect all property outside this line I would furnish a sufficient number of small iron wheeled vehicles, with holders on to contain as much water as a team can haul; and to fill these quickly place a pipe or spout in the dam at the grist mill, sufficiently large to fill the tub in short order; keep them always full in summer (will do to sprinkle streets.)

2nd. To meet this expense I see no injustice in loaning money for a number of years, as future generations will reap the benefit of the enterprise, pay interest and sinking fund annually.

My reason for suggesting plank is that iron pipe of sufficient size would cost considerable more than tannar or cedar plank, and not as good. My experience with water has taught me that in order to get the full force of water it must be still when put in motion sufficient to produce a current it loses power. Some may imagine it difficult to make it tight, not at all. If rightly made it will calk itself perfectly tight; use plank ten and twelve inches, wide iron bands, leave this empty in freezing weather.

3rd. This done would suggest the adoption of the system of Municipal Insurance, i.e., the corporation forms the insurance company, assumes all responsibility, pays all loss by fire. Does not cost one-half what is now being paid. It is largely practiced in the Western States. This will dispense with the army of insurance agents and put a break on the enormous profits of insurance companies.

DISCUSS CHURCH UNION.

UNION OF CONGREGATIONALISTS, UNITED BROTHERS AND METHODISTS CONSIDERED BY CONGREGATIONAL CONVENTION.

Chicago, May 14.—A proposed union of the Congregational denomination with the United Brethren and the Methodist Protestant denominations was the subject of a spirited discussion by delegates to the general Congregational meeting in Oak Park. The radical Congregationalists opposed anything that would tend to encroach upon freedom of thought and action in the local societies. The more conservative delegates held that uniform method of co-operation in Congregational Church work was needed. A resolution was adopted which provides for a union of the churches along general lines, but with some well defined restrictions.

Chicago, May 14.—The British Columbia Methodist conference meeting in their city has under consideration two serious cases. The first is that of Rev. J. J. Baer, charged with habitual drunkenness. It has been waiting investigation for some time. The other case is that of Rev. John Stone, of New Westminster, who is charged with debauchery by his own daughter.

WAR ALL MATHEMATICS.

THE PERSONAL ELEMENT NOW REPLACED BY SCIENTIFIC CALCULATION.

(From The Technical World.)

Never again will a Farragut "damm the torpedoes" and lead his fleet past the guns of a land fort. Never again will a Dewey, no matter how brave—take his battleships into the harbor of a hostile city. Modern seacoast fortifications, in the opinion of all experts, cannot be successfully assailed from the water side.

In the muzzling and operation of these impregnable fortresses, calculating science and electrical apparatus have taken the place of individual derring-do and keen human eyes. Where, of old, the gunner raised or lowered his great weapon into place, and carefully sighting along its barrel, aimed it at the approaching foe, the gunner of today, seated far down underground, behind and below heavy earthworks, pulls a few levers which elevate or depress the gun and give it proper direction, and then starts the mechanism which lifts the concealed weapon above the top of the parapet. The instant it comes to rest it is automatically discharged, and the recoil sends the gun back to its covered resting place, out of sight and fully protected from the enemy's shots.

Rarely does the modern pointer of a great coast-defense gun see the target at which he aims. Rarely can he note the effect of his fire. Instead of listening to the hoarse cheers of his comrades in the trenches, his ears are strained to catch the whispers which come over the telephone receiver fastened to his ear from the commander of the gun crew, who is stationed at the distant range-finding and fire-control station.

More Remarkable Proof that Kimo Cures

Here's some more proof that Kimo Tablets cure rheumatism—of the kind too, that other remedies can't drive out. Read this letter from J. R. Andrews & Co., a well known firm of merchants at Bishop's Crossing, Que.

We have their permission to publish the testimonial of Mr. Levi Clark, of this place, of the time unable to work for a good many months of the time during the past year.

One of the features of his case was the development of a virulent eczema, tormenting him beyond description. His face became red, swollen and scabby, and taken all around, swelled to a miserable existence for him.

He tried all sorts of "cures" without any apparent relief. We sold him four boxes Kimo Tablets and after taking them and the trial he considered himself CURED.

When he began he was dropping and heavy looking. To-day he is lighter in weight, comfortable, able to work every day in a mill-yard, and his face is clean and smooth looking as anybody's. And he says it has all been brought about by the use of five boxes of Kimo Tablets, at a cost of only \$2.50.

Everyone in this part of the country knows him, and are able to recognize the change in his condition. Yours very truly, J. R. Andrews & Co.
