DESPERATE PLIGHT OF RUSSIAN JEWS

Are Subjected to Persecution on
Relentless and Unprecedented
Scale.

Berlin, April 12.—Expulsion of Jews from Russia is taking place on a scale unprecedented in extent and cruelty. The details received by the German Jewish Relief Association indicate that the number is increasing from day to day and already reaches far into the thousands.

The entire Jewish population of the Russian Empire is in a state of the utmost terror. Almost every community outside the limited regions where Jews are permitted to dwell is daily the scene of wholesale evictions. Jews who have lived for many years in the Baltic Provinces, and also those resident in Kiev are being persecuted with especial severity.

In Kiev alone 1,200 families have been deprived of the right of further domicile.

One thousand six hundred families of Bokhara Jews have been driven from their homes during the last few weeks, and now find themselves in a most desperate plight. The Emir of Bokhara, acting in co-operation with the Jews' Russian persecutors, has refused to permit them to re-enter the country.

Several Bokhara refugees arrived in Berlin last week with harrowing tales of oppression.

Even in the so-called settlement districts, where Jews are supposed to enjoy the unmolested right of domicile, the expulsion regime is in full swing. The authorities have harked back to the notorious Ignaziev 'May laws' of 1882 and 1891, and with unrestrained cruelty are driving out the comparatively few Jews who inhabit the settlement districts and are compelling them to seek refuge in the overcrowded cities, where starvation and pauperism sooner or later will compel them to flee the country.

WANT \$35,000 FOR MISSIONS

Toronto, Ont., April 12.—Thirty-five thousand dollars for western Baptist missions. This was the figure aimed at by the Western Mission Board today by the Western churches of Ontario and Quebec. The Baptists are anxious to advance the work in the western country where so many immigrants from all parts of the world are arriving. Other denominations, it was pointed out, are energetically coping with the new conditions, and the hope was expressed by the Board that the Baptist Churches will respond to the call.

SAD STATE OF A YOUNG MAN

Toronto, Ont., April 12.—Wm. N. Wilson, the young man who dropped a letter in a store in this city a few days ago, directing that if he should be found dead his remains were to be embalmed and shipped to his wife in Portland, Oregon, was remanded to jail on a charge of lunacy by Magistrate W. H. Paterson, of Agincourt, was today handed over to his brother Robert Wilson, of Galedon East, who will take care of him. Dr. R. W. Bruce Smith gave his consent to this arrangement. The unfortunate young man is said to be an expert telegrapher as well as understanding the operation of a railroad engine. He was a conductor on a railway while living at Portland, Oregon.

BOXING CHAMPIONSHIPS

Boston, April 12.—Following are the results of the final contests to-night for the A.A.U. boxing championships: 105 pounds, James Rothwell, Boston, defeated Chas. O'Leary, New York, in 3 rounds. 115 pounds, John Gallant, Boston, defeated N. McEwan, Irish-Canadian A.C., Toronto, in 2 rounds. 125 pounds, Frank Smith, New York, defeated C. Christie, Irish-Canadian A.C., Toronto, in 3 rounds. 135 pounds, Wm. Volk, Quincy, defeated Wm. Hopkins, New York, in 2 rounds. 145 pounds, H. Lang, Irish-American A.C., Toronto, defeated Thomas Conklin, New York, in 1 round. 158 pounds, Wm. Beckman, New York, defeated W. Kenney, New York, in three rounds. Heavyweight, W. W. Barbour, of New York, 205 pounds, defeated J. Burke, Boston, 179 pounds, in 3 rounds.

'Lost 16lbs. in Weight'

Was Kept Down by Bilious Indigestion, and When in Despair

Dr. Hamilton's Pills Cured.

In the following interesting letters Mrs. H. R. Plunkett, well known in her home town of Ilwaco, tells how she conquered bilious indigestion: "I think it was drinking ice water on a very hot July day two years ago that caused an inflamed condition in my stomach, which gave me such repeated and weakening attacks of biliousness and stomach trouble. So severely did I suffer, that my strength was impaired, and I lost sixteen pounds in weight. My whole body was weakened, both kidneys and bowels failing to keep the system in natural condition. Food fermented, skin was dry and yellow. I had flushes of heat, and prickling sensations in various parts of the body. In the winter I had cold feet and clammy hands, and not until I commenced to take Dr. Hamilton's Pills did I obtain relief. In a short time Dr. Hamilton's Pills cured the bilious dyspepsia, and in a month I gained almost four pounds. The pain over the liver disappeared, the bowels acted regularly, and I kept on improving so rapidly that in three months I was vigorous and well. I recommend Dr. Hamilton's Pills to every one in poor health."

To receive the same benefit as Mrs. Plunkett, commence Dr. Hamilton's Pills to-day, 25c. per box. All dealers, or The Catarhogue Co., Kingston, Ont.

GIGANTIC SPECIAL PURCHASE Of New Spring Dress Goods

THOUSANDS of yards of handsome new Dress Fabrics for Spring 1910 will be placed on sale Wednesday morning, at 8 o'clock sharp, at less than HALF PRICE. These beautiful Fabrics were secured by our Buyer from one of Canada's leading Wholesale Houses. The Garment Makers' strike in Montreal caused this wholesaler serious loss through cancelling a number of large orders. Our Buyer was on the spot, as usual, and offered to take over the entire lot for cash. Our offer was accepted, and the result is one of the greatest dress goods bargains ever offered in Canada. It is only through a circumstance like this that such desirable materials can be offered at LESS THAN ACTUAL WHOLESALER COST. Positively not one single yard will be sold before Wednesday morning. Come bright and early.

Splendid programme of fine Motion Pictures for Wednesday. Children under seven years of age admitted FREE when accompanied.

PREMIER GOUIN'S ANNOUNCEMENT

Of His Pulpwood Policy Precipitates
a Serious Situation for United
States Publishers.

New York, April 12.—John Norris, Chairman of the Paper Committee of the American Newspaper Publishers' Association, commenting on the pulpwood situation in Quebec, said to-night: "The announcement by the Quebec Premier precipitates a serious situation in the paper trade and tends to embarrass many paper mills which have supplies of pulpwood cut, but not yet delivered to the United States."

Washington, April 12.—Officials of both the State and Treasury Departments declined to comment to-night on the statement of Premier Gouin before the Quebec Legislature to-day that the exportation of wood pulp from the Province to the United States soon would be prohibited.

Under the Payne-Aldrich tariff law, the President could impose retaliatory duties upon Quebec, if that Province discriminates against the United States.

BUILDING OF THE QUEBEC BRIDGE

Tenders for Its Construction to be
Called for Next Month—Specifi-
cations Complete.

Ottawa, April 12.—Tenders for the construction of the Quebec bridge are to be invited next month. The plans have been on exhibition since January and the specifications are now about completed.

ALL LITIGATION SETTLED

Syracuse, N.Y., April 12.—A former officer of the People's Mutual Life Insurance Association, discussing the payment of \$150,000 to the Society and the settlement of all litigation, said: "The trustees of the Society, with one exception, paid back the money he received for its transfer. Lieutenant-Governor Horace White, who received \$20,000 as a debt due from John Tevo, contributed \$40,000, and the directors of the First National Bank as individuals gave a like sum. The First National will sue the Farmers' Bank of Toronto to recover on a certificate of deposit for \$150,000."

PROHIBITION FOR NOVA SCOTIA

Halifax, N.S., April 12.—The Government's temperance measure introduced in the Local Legislature this afternoon, provides for prohibition all over the province, excepting Richmond county and Halifax city, as soon as an existing license expires. For the City of Halifax it provides for a reduction of retail liquor licenses from ninety to seventy, with a further reduction to one license per one thousand population of the city after the 1911 census is complete. There is to be a Board of License Commissioners for the city three appointed by the City Council and two by the Governor-in-Council, and the province is to appoint a chief inspector.

TRUE BILL FOR A DOUBLE MURDER

Cobourg, Ont., April 12.—The Grand Jury to-day brought in true bills on all charges against George Mancure, the Italian charged with the murder of Frank Merino and Cranfione at Grafton in January, and attempting to murder Lombard and Jas. McCormack.

AN IMPROVED FIRE BRIGADE

Increased Appropriations Will Be
Asked For by the Fire
Committee.

An improved fire brigade, well-equipped and increased in numbers, was foreshadowed by the estimates which the Fire Committee called for by the appropriations discussed last evening. The total appropriations called for to meet with the expenses of the coming year amount to \$85,500.

Ald. Cumming presided at last evening's meeting and there was a full attendance of the committee. There were some fifteen applicants for positions on the brigade, and one resignation. Quite a long discussion ensued on the appointment of men to fill vacancies. It was, however, decided, to have all the candidates come before the Chairman and Chief for examination before appointment. Three of the applicants have already served on the force, and their claims were strongly put forward by different Aldermen.

The division of the shoeing of the horses of the fire brigade between the two English-speaking contractors was discussed, and upon motion of Ald. Lockwell it was decided that each should have a fair share.

The question of the appropriations then came on, and the details were discussed. The appropriations show a big increase over last year, and include provision for an increase of twenty more men, new engines, and horses, establishment of salvage corps, purchase of life-saving nets, etc.

AN APRIL WEDDING

Lin'lev, Ont., April 12.—St. Mary's Roman Catholic Church was the scene of a very pretty April wedding when one of Lindsay's most popular young ladies, Miss Theresa Imogen Benson, daughter of the late Edward Benson, became the wife of Mr. Harry Stanfield Times, son of Mr. J. W. Sims, of Montreal. Ven. Archbishop Cashey performed the ceremony in the presence of a number of invited guests.

HON. A. B. AYLESWORTH TO RETIRE

Toronto, Ont., April 12.—It is stated in well-informed local circles that A. H. Clark, K.C., of Windsor, will succeed Hon. A. B. Aylesworth, esq., Minister of Justice, and Attorney-General for Canada in the near future. Mr. Aylesworth's retirement on account of his deafness has been foreshadowed for some time. Mr. Clark was created a K.C. in May 1902. He is a past president of the Ontario Bar Association.

MADE A FATAL JUMP

Windsor, Ont., April 12.—The body of Harry West, the young Englishman employed at the Canadian Bridge Works, of Walkerville, who jumped from a derrick last night when a Wabash freight crashed into it, was found this morning in Ruscob River. This young man jumped from the derrick to save his life. He was probably stunned and drowned. The track is still closed. An autopsy has been sent from Hamilton.

WANTS RIGHT OF WAY

Hamilton, Ont., April 12.—At the Canadian Fire Chief's Convention in Toronto this year Chief Ten Eyck will introduce a motion urging that municipal ties pass legislation giving fire wagons responding to calls, right of way over everything. He declares that the fact that at present a fire wagon has no more rights than any other vehicle has been responsible for the death of more than one fireman here and serious injury to several others as a result of collisions with cars.

CANADIAN PACIFIC RY. CO'S TELEGRAPH

Will Render Night Letter Service—
Between All Its Offices—Com-
mencing Today.

Montreal, Que., April 12.—The Canadian Pacific Railway Company's telegraph announces that beginning Wednesday, April 13th, they will render a night letter service between all C. P. R. offices as well as to connecting line offices in the United States, not including telephone points. The new service will be known as the "Night Lettergram Service." The charge for a night Lettergram of 50 words or less will be regular day rate for ten words and one-fifth of this rate will be charged for each additional ten words or less. Messages must be written in plain English, code or cipher prohibited. Lettergrams may be accepted either prepaid or collect under usual regulations and will be taken at counter or over telephone or collected on call any time up to midnight, but as in the case of other night telegrams, will not be put on the wires until night and when wires are clear of full paid day business. Night lettergrams will be delivered free within one-half mile of company's office in towns of 5,000 population or less, and within one mile of such offices in other cities or towns. Beyond these limits the company does not undertake to make delivery, but will without liability at sender's request and as his agent, and at his expense endeavor to contract for him for such delivery at a reasonable price. This service is inaugurated at practically one half the cost of the former night service and will no doubt be taken advantage of to a great extent by the company's patrons.

NEW FISH MARKET.

Mayor Drouin, Ald. M. Madden, Jos. Cote and W. J. Guillot, who were appointed a special committee to investigate the situation for a new fish market on the Jacques Cartier square, paid a visit to the site, accompanied by Mr. W. D. Baillairge, City Engineer, and decided upon the removal of the present stands to the square behind the market building on the north side St. Joseph street. It is proposed to improve the site and erect a canopy over it, so that the vendors may carry on their business without interruption from the weather.

SYMPATHETIC STRIKE

Marcellus, April 11.—The store clerks and tramway men to-night voted to strike to-morrow in sympathy with the naval reservists.

All run down, easily tired, thin, pale, nervous? And do not know what to take? Then go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alterative, an aid to digestion.

The Quebec Chronicle

QUEBEC, APRIL 13, 1910.

THE BOARD OF TRADE.

The monthly meeting of the Board of Trade yesterday was most interesting, and a number of important questions were actively discussed, amongst others, the question of the abolition of the Harbor Commissioners' tax of five cents per ton upon steamships, so as to put vessels coming here upon the same basis as in Montreal. A proposal was adopted to urge the Government to alter the present arrangements for the Atlantic mail service, by arranging with the six fastest steamers now running to the St. Lawrence and giving them a good subsidy to run a bi-weekly service, making Quebec their terminus in summer and Halifax in winter. By this means the service could be done by six steamers instead of eight, the new Canadian Northern twenty knot steamers to be two of these six. It was contended that this plan would give all Canada a much faster service than we now get by the fastest New York boats. A steamship manager present pointed out that the C.N.R. Prince Edward and the Prince George are light draught steamers and can go easily to Montreal, but that they carry very little cargo—only 1,500 tons. This should make it all the more easy to arrange, as there should be no difficulty to get 1,500 tons of pulp, paper and cheese at Quebec for each of these ships, and a substantial mail subsidy, to which their great speed would entitle them, would more than compensate for any advantages in going to Montreal. It is to be hoped that the Postmaster-General will arrange this small matter for the benefit of the district he represents. A very serious complaint was made against the present management of the Lake St. John Railway for diverting the traffic of the Lake St. John and La Tuque to Montreal, and the Council of the Board was urged to enquire into this. The necessity of a lightship on the reef near Matane, to avert accidents, such as that which occurred to the Empress of Ireland last year, was strongly urged. A member drew the attention of the Board to the fact that although the new car ferry is doing splendid service and crossing cars for the moderate sum of five dollars, it is almost impossible to use it, because the C.P.R. charge fifteen dollars for shunting a car from the dock to their station. This seems too ridiculous for comment, and should be quickly cured. Some surprise was expressed at the reported intention of the Harbor Commission to give over a large area of the water front of the city to the Grand Trunk without asking any expression of opinion from the Board of Trade or the commercial community. Yesterday's meeting was most interesting, the discussion very energetic, and good results should follow.

THE OPPOSITION'S OPPORTUNITY

Time was when there were few French Canadians but bowed the knee unquestioningly at the Laurier shrine. That he was Laurier, sufficed; always his personal charm as a man—still an asset to be reckoned with—and his ability as an orator have overshadowed any political consideration, although in this last respect also he has inspired in the days past more confidence than is the case to-day. There are those who still believe in him personally, but put no trust whatever in the entourage of his iconoclasts, who would barter the country's very birthright under the plea of opportunism. That there should arise a large body of his compatriots to rally round Mr. Bourassa is far from surprising. There may be divergent opinions amongst the Opposition. That is the privilege of most Oppositions; there is usually more freedom of thought to be found amongst them. They have not submitted to the indignities of the composing room, nor felt the pressure of the political thumb-screws, which are by way of bringing the Government party to that supposedly blissful state, when their various brains are obsessed with but one single thought, and their various hearts beat as one. But whatever its attitude be on other points, the Opposition as a party is in absolute unity in its campaign against the Government graft and the dissipation of national revenue for the benefit of grafters and favorites.

Scandal follows scandal ad nauseam in the matter of railways, dredging contracts, sawdust wharves, and rake-offs of every description. If popular outcry compels investigation, then partisan committees are attempted

with a view to whitewashing the hoodlums. The "machine" through years of bovine fatness has accumulated by every questionable method of extortion a huge campaign fund to be employed in corrupting the electorate. The Government press, faithfully partisan, has sold all freedom of speech for its subsidies, and has no desire to kill the goose that lays the golden egg. As Sir Richard Cartwright put it, the wells of public information are poisoned at their source. There is therefore no particle of independence amongst these journals, which reproduce slavishly the opinions of their masters as dictated to them. Such being the case it is small wonder to find them endeavoring with futile servility to explain away, minimize, or absolutely ignore the most flagrant instances of criminal dishonesty. The Senate composed for the most part through political favoritism or expediency is merely ancillary to the Lower Chamber, and consequently useless. Any Liberal, who ventures an opinion of his own is immediately gagged or thrust out into outer darkness. The Bench too has gained nothing in prestige during the Laurier administration, and the indiscriminate allotment of offices to the Government parasites is little short of a national disgrace. The prolonged continuation of such a regime, which has already brought so much discredit upon the country, is bound to destroy confidence and in time to involve us in financial chaos. There can be no doubt that the country as a whole is wearied of this gilt, swat-bellied corruption, and is no more inclined to worship in the house of Rimmon, alias the Liberal Government. To quote from the Mail and Empire:

"There is a situation in Canada today that is practically unprecedented. It is full of danger to the country in its business relations and in its morals. It works for extravagance, for dishonesty, for corruption, for national ruin. And it is in the presence of such a state of affairs that the would-be wreckers are seeking to divide, to disorganise and to paralyse the Conservative party and to destroy its usefulness as a part of the machinery of the State. It is time for the substantial rank and file to let the creators of mischief understand that the welfare of the country, which depends in so large a degree upon the uprightness and effectiveness of the Opposition, makes their operations as offensive as they are unpatriotic."

THINGS ON THE MOVE.

We see that Montreal would take a leaf out of Quebec's book in its eagerness for a Civic Promotion Commission. Now it will be in order for Quebec to outrun Montreal in the practical as well as in the theoretical, as soon as Mayor Drouin has taken Ald. Morin's proposal into full consideration. The Harbor Commission, with the project for the terminals engaging their special attention, cannot but have heard of the steamships laden with immigrants, that will be seeking moorage at our wharves in a few weeks. And, though the community has not heard of the Commission doing anything to accommodate other lines than the Empresses, yet it is expected that, outside of the grumbling that retards growth, our harbor will soon wear a livelier look, when the Commission gets thoroughly down to work. Beyond the industries referred to the other day, there is every prospect of a rubber shoe factory being established in Limoulin. The bridge contractors are expected to give employment to further gangs of workmen, while the street railway will soon be making a stir in the extension of its lines. These and other industrial activities, limited as they may yet be, cannot but give heart to those who are keen to see Quebec launched as a place eager to make the most of its own advantages. The Montrealers with all their prosperity would make that prosperity more prosperous through their own energy. They would have a Bureau of Publicity as well as a Civic Promotion Commission. Their campaign in favor of securing more industries, they propose to make an aggressive one. They would have an active commissioner with an assistant or two to keep in the way of making a study of trade conditions, and to approach capitalists who are looking for suitable factory locations or favorable investments. And this is what the most of us would like to see established in Quebec, even if we have to start with a commission, such as has been recommended by Ald. Morin, and is in course of organization in other cities.

There is something for the Province likewise in the movements of the times.

There is Only One
"Bromo Quinine"
That is
Laxative Bromo Quinine
USED THE WORLD OVER TO CURE A COLIC IN ONE DAY.

Always remember the full name. Look for this signature on every box. 25c. *E. W. Grove*

The Premier of the Province has adhered to his policy on the export of pulp wood, which he has already exposed on more than one occasion. "It is my intention," he said, "to prohibit the export of pulpwood from the Crown lands of Quebec just as it is prohibited in Ontario. We are determined that our pulpwood will be the means of giving an impetus to Quebec trade in the manufacture of paper and pulpwood ware as it is in the sister provinces." Then, there is work for the prospector and capitalist to accomplish in the Chibougamu region, and possibly in the vast hinterland of Ungava, when steps have been taken to temper the dangers of climate and travel in the far north. If Ontario has its deposits of the precious metals Quebec has its deposits of asbestos and economic minerals, and these latter as a means of wealth may be further enhanced by the discovery of gold and silver and other valuable lodes in Labrador and the rough lands around Hudson Bay.

THE JEWS IN QUEBEC.

Evidently our contention that the Jews in Quebec have some right to be accorded fair play and justice, has displeased the anti-Semitic scribe, who delivered such an intolerant and reckless diatribe against that race a fortnight or so ago. The result is a torrent of vituperation even more acrimonious if possible than the last. We would remind the public that on that occasion our challenger by alleged quotations from the Talmud strove to prove that the Jews were murderers, robbers, and utterly subversive of morality in every respect. He now reiterates these charges, and defies us to prove that the race, which with questionable taste he calls "the tribe of Judas," is not dominated by all these reprehensible characteristics. For our part—and perhaps we are not mistaken—we should have thought that the onus of proof rested rather with the bringer of such malicious accusations, which are so extravagant as to need no attention either from us or from any serious-minded citizen. However, we have no hesitation in advising our readers to study our correspondence column, where they will find some quotations from the Talmud in a letter from Rabbi Glazer, of Montreal—who, we suspect, has a more intimate acquaintance with the Talmud than is the case with the irresponsible lecturer of the other evening. At the least they furnish a complete refutation of his accusations, which appear rather to have been based on works by the most malignant enemies of the Jewish race than on the doctrines of the Talmud, and seem prompted more by personal malice than any genuine, disinterested concern for the future of Quebec. La Vigie plainly states that the grievance arises from the fact that the supposedly aggrieved has been succeeded in the occupation of his house by a Jew, and suggests that the fault lies rather with the outgoing than the present tenant. We have no axe to grind in this matter, but we desire that every section of the community should have fair play, and we insist that the Jews have their rights, "no more and no less," as one of our correspondents said in connection with this subject. For instance we see no reason why the Jewish children should have any advantage over the English in the Protestant schools.

"The quality of mercy is not strained."
"And earthly power doth then show likest God's,
When mercy seasons justice."

"Nerviline" Cures
Rheumatism
And Here is the Proof—A Solemn Statement From a Four-years' Cripple, Who Says "Nerviline" Did It.

"If I had lived through my sufferings another year it would have been a miracle." This is the opening sentence of the declaration made by Mr. J. Eccles Squires, member of one of the best-known families for twenty miles round Sydney. "My hands were drawn out of shape, even my fingers were gnarled and crooked—my lameness, stiffness and inability to get about all showed the havoc. Rheumatism made with my health. The blessing of it all is that I have heard of Nerviline, and now I am able to tell and advise other how they may get well, too. My system was so weakened that I had to build up with a good tonic, so I took Ferrozone at meals. But I never stopped rubbing on Nerviline—it had a magic influence on my stiff, painful joints, and bottle after bottle was rubbed on the painful parts. Nerviline cured me. I am well to-day—have been well for 4 1/2 years."

You also can cure rheumatism, lumbago, sciatica, neuralgia or any pain or stiffness in the muscles or joints—to do so use Nerviline. Don't let your druggist substitute. Get Nerviline only, large bottles, 25c., or five for \$1.00, sold everywhere, or The Catarthozone Co., Kingston, Ont.

ROUGH TRIP WITH MAILS

Toronto, April 12—Four days' accumulation of mail at Porcupine has just reached Haileybury after an adventurous trip. It was carried in a bushel basket by George Chridakos, a Macedonian navy, through swamps and across swollen streams. His Majesty's mails were safely delivered at the post office at Haileybury, though for days the courier had to wade through ice-cold water to his knees. In Porcupine Lake the ice is now three feet under water and about to break up. The creeks and streams running into the lake are now in freshet. Only the Frederick House river has a ford.

MUST STAND HIS TRIAL
Toronto, Ont., April 12.—Despite a vigorous protest from W. E. Raney, K.C., in the County Judge's Criminal Court to-day Judge Winchester fixed the trial of J. E. Wilkinson, president of the Wilkinson Refining and Smelting Co., for April 27th. Mr. Wilkinson is charged with purchasing Cobalt ores from parties who were illegally in possession of the same and had no power to dispose of it. Mr. Raney attempted to charge the crown with persecuting Mr. Wilkinson, but his objections were summarily disposed of.

Board of Health

Quebec, April 7th, 1910.

SEALED TENDERS, endorsed, "Tenders for supplies for the Board of Health," addressed to the undersigned, shall be received up to Monday, the twenty-fifth instant, at four o'clock p.m., at the office of the undersigned, City Hall, for the following articles required by the Board of Health:

- I.—Carbolic acid (B. P.) per bottle of one pound.
 - II.—Creoline, per can of five kilograms.
 - III.—"Sublimate" (Sublime) dissolved in methylated spirits in the following proportion: One of sublimate to five of alcohol, per bottle of 10 ounces.
 - IV.—"Compressed Antiseptic Tablets," 7.5 grs. bichloride of mercury, 7.7 grs. ammonium chloride—per bottle of one pound.
 - V.—"Formaline," per five gallons.
 - VI.—"Lusoforme," per 25 kilograms.
 - VII.—"Antidiphtheric Serum" Pasteur Institute Paris, France, per bottle of 5 centimetres, and per bottle of 10 centimetres.
 - VIII.—Hypodermic syringe for the tuberculin test on animals, (in metallic case).
 - IX.—Needles, per dozen, for the said syringes.
 - X.—Absorbent cotton, first quality, per package of one pound.
 - XI.—Clinic veterinarian thermometers, per half dozen.
- L. CATELLIER,
 Medical Health Officer.

City of Quebec, City Hall, March 8th, 1910.

Public Notice is hereby given that the city of Quebec will apply to the Legislature of this Province, at its next session, for certain amendments to its charter of incorporation, for authorization to borrow \$200,000 for permanent works to be executed in Limoilou ward: \$20,000 to purchase land and rights of servitude in connection with the city waterworks; \$15,000 to reimburse to the city the cost of permanent works made on Cote d'Abraham and indemnities and costs paid in connection with the said works; \$72,000 for pavement of St. Andrew street, and \$93,000 for other permanent improvements; to change the mode of deciding on complaints made against the assessment books; to further protect the water of the waterworks from pollution; for authorization to build, subject to certain conditions, uniform permanent sidewalks in the streets; to compel telegraph, telephone, and electric light companies to build subterranean conduits for their wires; to borrow an amount sufficient to municipalize the lighting system of the city, and to undertake the supply of light, heat and power, to construct or aid to the construction of a bridge or bridges on River St. Charles to communicate with Limoilou Ward, and to borrow for this purpose a sum not exceeding \$100,000, and for other purposes. By order. H. J. J. B. Chouinard, City Clerk.

STOMACH COMFORT

When the Stomach Rebels, Headache, Indigestion and Nerve Pain Follows—Mi-o-na Brings Relief

Just as soon as you are done eating the healthy stomach commences to churn the food around and mixes it thoroughly with the juices of the stomach.

If the food is not churned, it lays heavily on your stomach, turns sour and causes all kinds of distressing symptoms, such as headache, indigestion, stomach pain and dyspepsia. Mi-o-na helps the stomach to properly mix the food.

John S. May, of Isabella street, Belleville, Ont., says: "For over seven months I was in constant agony with a case of nervous dyspepsia and indigestion that medical skill could not relieve. I was weak and had lost much weight through loss of appetite and suffering. My meals would fill me with gas and a feeling of oppression across the stomach and all up the left side, left me in a miserable condition. I was restless at night and as tired and unrefreshed in the morning as on going to bed. A choking sensation in my throat was always constant when lying down, and my heart seemed to flutter and pound as though it were coming out through my side. I was benefited from the first two days' use of Mi-o-na. I began to feel like myself again, my appetite returned and the depressive feeling left me. I can enjoy my meals without the least worry of after suffering. I have gained in weight and can sleep the night through in comfort.

Go to Henry Willis, the druggist, and get a 50-cent box of Mi-o-na Tablets. Money back if Mi-o-na does not cure.

METAL MARKET.

New York, April 12.—Standard copper weak; spot and April 12.60 to 12.75; May at 12.60 to 12.80; June at 12.60 to 12.75, and July at 12.60 to 12.80. Arrivals reported at New York to-day, making 1,285 tons; exports 10 tons, making 3,848 tons so far this month. Tin was easy with spot quoted at 32.60 to 32.75; April at 32.65 to 32.80; May and June at 32.60 to 32.80; July at 32.67½ to 32.82½. Lead was dull with spot quoted at 4.40 to 4.45, New York, and 4.22 East St. Louis; spelter dull; spot, 5.55 to 5.65, New York; 5.25 to 5.42 East St. Louis. Iron, quiet; northern grades, 17.50 to 18.50; southern, 16.75 to 17.75.

TRAINS FOR WINNIPEG AND CALGARY.

Cook Medicine Co., Toronto, Ont. (formerly W. & A. G.)

NOTES FROM THE CAPITAL

Conservative Caucus—Confidence Voted in Mr. Borden—Money Awaiting Owners.

Ottawa, Ont., April 12.—A high court jury to-day awarded \$1,500 to the parents of a young man named Clairmont killed by an electric car one night in July, 1908, on St. Patrick street. The Ottawa Electric Company were defendants.

A Conservative caucus to-morrow will have before it the recommendation of the committee of fifty to postpone the party convention which was arranged for June for some time. It will be delayed it is thought. The Conservatives were in prolonged caucus this morning. Mr. Borden did not attend. At the conclusion a statement was issued that the reports that have lately appeared in newspapers concerning discussions in the party were without real foundation. The caucus unanimously passed a resolution expressing its implicit confidence in Mr. R. L. Borden and its unanimous desire that he should continue as leader. It pledged him its allegiance and loyalty.

The Militia Department has completed arrangements for the bringing on to Ottawa of the Royal Military College cadets in the first week in May.

Lieut.-Colonel Edwards, of St. John, N.B., will command the Canadian rifle team at Biele this year.

Annie McGill, of Mrs. Steven Stevens, arrested in Montreal on a charge laid by her Gypsy father that she stole \$1,000 before eloping, will be tried on Friday. She says she won't go home to Nepean and has done nothing wrong.

A bundle of money is lying in one of the Ottawa banks and the owners of it cannot be located. It belongs to shareholders in the defunct York County Loan and Savings Co., who have apparently moved away from Ottawa, for City Auditor Cluff has been unable to locate them. The money belongs to about 20 shareholders and ranges in amounts from \$5 to \$60.

Fire Chief Graham is looking into the question of protection for the Government buildings. One thing which he particularly desires is that the firemen should have access to the buildings at all times in case of fire. At present after the buildings are officially closed, even in case of fire, the city firemen might not be admitted by the Government Police in charge, except on an order from some one in authority. This trouble has been evidenced on several occasions.

A new telephone system is to be installed at Rockcliffe range. The system will be underground instead of on poles along the sides as now. The work will be conducted under the engineering branch of the Militia Department and will make an important change in conditions at the D. R. A. ranges this year.

BOYCOTT AGAINST BUTCHER SHOPS

New York, April 11.—The boycott against Kosher butcher shops leaped the East River to-day and spread from Harlem across the Bronx, where it originated to Williamsburg, Brownsville and East New York. All meats advanced one cent a pound wholesale. The protest against high prices is spreading more rapidly than any similar movement remembered in New York city. Already 95 percent of the Kosher butcher shops in the city, supplying a population of 750,000, have either been forcibly closed or have shut in sympathy with the movement. In turn the butchers, who say they cannot sell lower and live, descended 200 strong on the United Dressed Beef Co. to-day in such threatening mood that the company telephoned for police protection and the crowd was dispersed. Agitators from Harlem and the Bronx went through the newly affected districts last night and their success was seen when the butchers tried to open this morning. There was the wildest disorder, much damage by broken glass and meat spoiled with kerosene, and a few scattered cases of individual violence. Morris Posner, a giant fighter, hired by a butcher for an emergency errand boy, was mobbed by women and beaten unconscious. The police saved his life. Kosher restaurants have been doing an overwhelming business, but now they find it difficult to serve their trade, and if the slaughter houses are forced to close as the butchers have been, even the restaurants will find it impossible to get Kosher meat.

LORD'S DAY ALLIANCE ACTIVE

Very busy with the good work, but not more efficient than the old reliable Putnam's Corn Extract, which cures corns and warts in one day. Fifty years' use proves the great merit of Putnam's. Use no other.

REFUSED COMPANY'S OFFER

New York, April 11.—A second offer by the New York Central and Hudson River Railroad to increase the wages of conductors and trainmen was turned down by the men at the meeting of their representatives in New York to-night. The company will be so notified to-morrow and if an agreement is not reached then, the employees will adhere to their strike vote as recently taken, in which 97 per cent of the men between this city and Buffalo favored a strike unless their original demands for wage increase are granted. The terms of to-day's offer were not made public. An increase ranging from 8 to 64 per cent is what the men are holding out for. The company offered a compromise of increases from 8 to 25 per cent and it was upon this proposal that the strike vote was taken. If the road fails to come to terms to-morrow the men of this division can strike if they so desire with the sanction of their national officers. It is believed, however, that negotiations under the Erdman Act would prevent a sudden walk out.

Montreal, April 12.—It is announced that the Railway Commission has decided against the application of the Elder-Dempster Steamship Co. that railways should be compelled to charge export rates instead of domestic rates from Eastern Canada points to British Columbia points.

Gained 23 Pounds Appetite and Strength

MR. MAX SIMONS

Mr. Max Simons is so strong and vigorous that he can do half as much work again as an ordinary workman, thanks to this great invigorator and tonic. His weight has increased 23 pounds in less than a year.

Read what he says: "When I started to take your wonderful Duffy's Pure Malt Whiskey I weighed 145 pounds. In less than one year I now weigh 168 1-2 pounds. I take one tablespoonful of your Whiskey in water three times a day, and two tablespoonfuls in a glass of milk at bed time. My wife also uses it at bed time, in milk. It is better than medicine; it gives me an appetite and strength. I can do as much work in two days as my workman does in three days. I use one bottle of Duffy's Malt every week, because it is the purest and best I can buy."—Max Simons, 2619 E. Clearfield St., Philadelphia, Pa.

No medicine has stood the test of fifty years like Duffy's Pure Malt Whiskey, and always been found absolutely pure and full of good medicinal virtue. Men and women in all walks of life who have been benefited join in singing its praises as the true elixir of life which invigorates body, brain and nerve.

Duffy's Pure Malt Whiskey

If you wish to keep young, strong and vigorous and enjoy perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, grippe, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting, weakening conditions. Prescribed by physicians and recognized as a family medicinal everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey and is sold IN SEALED BOTTLES ONLY—never in bulk. Look for the trade-mark the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.25 a large bottle. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N.Y., for doctor's advice and an illustrated medical booklet, containing testimonials and rare common sense rules for health, both sent free.

SHIPPING NEWS

WRECK OF THE STEAMER ICELAND

Full Account of the Accident—R. & O. Navigation Co's Steamer—First Boat from Montreal.

New York, April 12.—The story of the loss of the steamship Iceland, in the ice fields northwest of Newfoundland, on March 30, news of which reached here at the time in fragmentary form, was told to-day when Frank Perdue, who was a passenger on the Iceland, reached this city. The Iceland was one of the oldest of the great fleet of sealers which goes out from Newfoundland each spring to reap the harvest of Arctic mammals, which come down as far as Newfoundland from Labrador and Greenland to breed. Her crew had killed 5,000 seals, more than 2,500 being stowed on board when the great floes of ice closed in on her and she went down, the twenty-seventh steamer to pay tribute to the seals since 1863. Her crew of 125 men escaped over the ice to the steamship Eagle, and later were transferred to the Red Cross Line steamer Florizel, on which they were brought down to St. John's.

"We sailed from Pool's Island, Newfoundland, on March 12," said Perdue to-day, "and struck the ice there three days later. There were plenty of seals, but the ice was so heavy that the wooden steamers could make but little headway against it. Nevertheless Captain Edwin Kean sent his men out on the ice to kill each day, and, despite their inability to get among the pans, they had been fairly successful. I have made several trips after the seals, but I have never seen the ice heavier. Some of the pans were ten miles square, and in thickness the ice ranged eight to fifteen feet. For the first fortnight we repeatedly were jammed. It was Captain Kean's first year in command of the ship, but he had learned her ways and kept her moving steadily. In their search for seals, the men were compelled to travel many miles over the ice and then drag the pelts back again. On Easter Saturday, March 26, the Iceland received her first bad nip. We were between two breast pans of ice when the wind sprang up strong from the sea and pressed the field against us. We could hear the timbers cracking and groaning, but she withstood the pressure. We did not sleep a wink that night, and everyone was ready to go over the side at a moment's notice. Some of the more timid ones did go over onto the ice, believing it safer. On Wednesday after Easter the wind increased again and the ice began to press against us and the ship began to shiver and shake. At midnight the sides were bulging in and threatened to cave in. Then her seams opened and the water began to pour in, as the sternpost, fourteen inches of oak, cracked like a match. Chief Engineer Bradbury started five pumps going, but the water gained on them, and the Iceland would have gone down had not the pressure become so great that she rested on the ice. Soon the water extinguished the fires, and, with the pumps stopped, all hope of saving her was gone. Slowly the ice closed in, finally cutting the ship in half horizontally, the bottom below the ice dropping into the sea. The men hastily gathered up what they could and went over the side. Before he left the ship Captain Kean broke a dozen cans of kerosene oil over her and applied the torch. The glare lit up the ice for miles and she burned for two hours before the heat melted the ice enough for her to drop through. After much hardship and suffering the men made their way across the ice to the Eagle and the next day the shipless sailors were transferred to the Florizel."

The Iceland was built in 1870. She made her first trip to the ice in 1872 and was one of the best of the wooden steamers, having been rebuilt in 1895, at a cost of \$20,000. She had been commanded in her time by some of the most celebrated Newfoundland captains, including Windsor Bartlett, a cousin of Captain Robert A. Bartlett, of Commander Peary's ship Roosevelt.

ALLAN LINE.
R.M.S. Hesperian, from Glasgow, 2nd instant, and Liverpool, 3rd instant, arrived at Halifax at 7 p.m.

on Sunday. She has on board 39 saloon, 325 second cabin, and 1,283 third-class passengers.

Steamer Numidian, from Glasgow for Halifax and Boston, sailed from Greenock midnight 9th April with 133 second and 264 steerage for Halifax, and 101 second and 153 steerage for Boston.

Steamer Mongolian from Glasgow and Liverpool for Philadelphia via St. John, Nfld., and Halifax, sailed from Liverpool 5 p.m. 9th April, with 23 saloon, 137 second cabin and 613 steerage passengers.

QUEBEC STEAMSHIP CO.
Steamer Oceana sailed from Bermuda for New York at 11 a.m. yesterday.

R. & O. NAVIGATION CO.

The first steamer of the Quebec and Montreal line of the season, the Quebec, Captain R. Demers, will leave Montreal on Thursday evening next for this port, and will leave here on her return trip on Friday afternoon. This will be the earliest date for a boat of the Company to open the service between the two ports in the spring, within the recollection of the oldest inhabitant in this burg.

The Company's steamer Murray Bay will leave here on Saturday morning next for the Saguenay. She will go to Tadoussac, and if the ice in the Saguenay permits, she will proceed to Chicoutimi.

Mr. M. P. Connolly, the energetic agent of the Company in this city, has had the pontoons placed in position, and the wharves cleared up for the reception of the steamer.

LEFT FOR MONTREAL.
Steamer Gaspesien, Captain Blouin, left for Montreal yesterday, to resume her service on the Gaspe and Baie des Chaleurs route.

FIRST OUTWARD FOR SYDNEY.
Steamer Kronprinz Olav, Captain Nilsen, arrived from Montreal yesterday afternoon and proceeded for Sydney. She is the first outward bound vessel for outside the province this season.

OUT FOR THE SEASON.
The Island of Orleans and St. Romuald ferry steamers Orleans and Frontenac, came out of winter quarters yesterday to resume their season's work.

The Corporation pontoons at the Champlain Market wharf have been placed in position.

FARMERS !! FARMERS !!

Save Your Money by Buying
"ABUNDANCE OATS"
From William Carrier & Fils

The destruction of the grain Elevator actually obliges us to sell, at cut rates, our stock of seed oats as quickly as possible, in order to make room for our new stock of horse oats, which we must have delivered in May.

We draw your attention specially to our famous Abundance Oats. Once seen, at once bought. He who once tried it, has no longer any use for any other brand. This is hardly surprising since it gives a return of twelve or fifteen for one. Ask for our prices.

WILLIAM CARRIER & FILS, Regd
108 Dalhousie Street,
QUEBEC.

FIRE ON A STEAMER.

Kingston, Ont., April 12. — The steamer D. D. Calvin, recently sold by the Calvin Company to Carlot and Smith, of Belleville, was badly damaged by fire at Garden Island at an early hour this morning. Capt. J. H. Smith, part owner, was aboard fitting out the boat. The Garden Island and Kingston fire apparatus was used to subdue the flames, which were confined within decks. The loss is covered by insurance. The steamer was valued at \$8,000, and was built in 1883.

SIGNAL SERVICE REPORT.

TONOMEAD

UP BLOOR STREET HILL!

ONE of the stiffest hills in Southern Ontario is on Bloor street, west of High Park, Toronto. Not only is it steep and long, but from bottom to top it is covered with loose sand into which the wheels sink some ten or twelve inches.

From a "standing start" in deep sand, and immediately at the point where the heavy grade begins, a Russell "30" plowed its way upward in a recent test without a moment's faltering, and arrived at the top going fast.

It is service like this which proves what the Russell "30" can do. It is power like this which makes a Russell owner so sure of his engine.

And yet the power of the Russell "30" is only one good feature important as it is. With this splendid power plant is comfort and style which make the

Russell \$2,950 Fully Equipped
The most remarkable "30" value in the market.

SPECIFICATIONS—115 inch wheel base, 34 inch wheels, shaft drive selective transmission, metal to metal clutch; floating type of rear axle, etc.; choice of four different bodies, five-passenger touring, toy tonneau, surrey and special runabout.

Do not do yourself the injustice of deciding on any make of car without first having this car demonstrated to you. Catalogue sent on request.

New York, April 12 — The "Black Jacking" of Walter L. Clark, which prevented the beginning yesterday of the Heinz copper stock theft trials, had its sequel to-day in the arrest of Chas. Katz, one of the three men indicted with Donald Persch, at whose trial Clark, having turned state's evidence, was to be a witness. District Attorney Whitman declared that he was convinced that the assault was an attempt to obstruct justice and he ordered the arrest of Katz when informed, he says, that Katz was heard to say: "We will put something over the plate on Clark." The hearing was postponed until tomorrow and bail for Katz was fixed at \$5,000. He is already under \$25,000 bail in connection with the alleged theft of the copper stock.

PATROL WAGGONS FOR POLICE
Aldermen Consider Them a Necessity
—Force Will Cost Nearly \$60,000.

There was a meeting of the Police Committee at the City Hall last evening. Ald. Paquet, president, and a full attendance of the members being present. Chief Trudel and Deputy Chief W. Walsh, as well as many of the Council, were also present.

THE NICKEL.
First appearance in Quebec of Harry Bennett, the most popular character singer in Canada.

ROSS RIFLE AT BISLEY.
A despatch from London says that the Council of the National Rifle Association, having received a certificate from the Canadian Department of Militia and Defence that the Ross Rifle mark two doubt star is the recognized service arm in the Dominion, the council has decided to treat it and the mark two as admissible in all competitions for service rifles at Bisley.

THE BANJO CLUB.
The Quebec Banjo Club are giving a concert at Loyola Hall on the 18th inst. The club will be assisted by some of Quebec's most talented amateurs, and a treat is anticipated. To all music lovers we would advise going to Loyola Hall on the evening of the 18th inst. The tickets are now for sale at J. L. Dussault, 350 St. John street; A. A. St. Michel, 18 St. John street; Art. Beaudoin, 76 St. John street; J. E. Giguere, 233 St. Joseph street.

ACCIDENT ON THE I.C.R.
A despatch received from Campbellton, N.B., states that an immigration special over the I.C.R. left the rails yesterday morning near Mill Creek while running at a rate of twenty miles an hour. Although the tender and four cars were derailed, the side of one car being turned, the casualties were small, only three of the passengers sustaining slight injuries.

THE NICKEL.
Harry Bennett. Afternoon: 2.30, 3.45 and 4.45. Evening: 7.45, 8.45 and 9.45.

DEATH OF MRS. JOSEPH WHITEHEAD.
The obituary column of the Chronicle this morning contains the notice of the death, at Toronto, on the 11th inst., of Mrs. L. Louis Whitehead, relict of the late Mr. Joseph Whitehead, a highly esteemed lady, formerly a resident of this city. Her late husband was senior member of the well-known and extensive wholesale firm of Messrs. Whitehead & Turner. A resident of this city, the deceased lady was well-known for her many acts of benevolence and aid to her less fortunate fellow beings. To her bereaved relatives the Chronicle extends its deepest sympathy in their sad affliction. The funeral will leave the C. P. R. station this afternoon, at 3.15 o'clock for Mount Hermon Cemetery.

AT THE NICKEL.
Harry Bennett, who is appearing at the Nickel, is one of the cleverest and most popular character artists in Western Canada. Last year the management of the Lyric Hall, of Montreal, who are always on the lookout for the best, engaged this artist for two weeks. He proved such a great drawing card that his engagement was continued for four weeks longer. This year they again secured his services for eight weeks, making in all fourteen weeks in the one house. Mr. Bennett has appeared and sang at every concert of any account in Ontario and Manitoba, also for years appearing at some of the best concerts and entertainments in Detroit, Buffalo and other border cities. His impersonations of different characters are true. He has made a great success with his impersonations of Harry Lauder, the famous Scotch comedian. Don't miss this treat.

FINE LIGHTWEIGHT OVERCOATS.
Many exceptionally fine Lightweight Overcoats are now being shown by Mr. J. L. O. Proulx, the sole agent in Quebec for Fit-Reform.
The styles are exceptional, because they are the exclusive creations of the famous Fit-Reform designer.
The fabrics are exceptional, both in pattern and in quality.
The tailoring is exceptional, for only the famous Fit-Reform tailoring corps can do such superior workmanship.
At \$18, \$20 and \$22, these Overcoats are exceptional values, as all men who have seen them, agree.
New styles and patterns are constantly arriving, so that it is well worth time stopping in at the Fit-Reform Wardrobe, 04-96 St. Joseph street and thus keeping in touch with the latest novelties of the season.

Latest Sporting News

HORNER REAL ATHLETIC MARVEL

Michigan Youth Who May Go After Sheridan's Title of All-Round Champion.

"Give up Horner, of Ann Arbor, Michigan, six weeks in which to train properly and I believe he could take the all-round championship of America from Martin Sheridan."

This is a statement made by Keene Fitzpatrick.

Horner is thinking seriously of entering the contests which decide the individual championship title of America in track and field events next July. His trip East and the men with whom he came in contact at the Boston Athletic Club meet are for the Grand Rapids boy to compete with Sheridan. And Keene Fitzpatrick's confidence in him will undoubtedly figure in Horner's decision.

The Michiganander made somewhat of a stir in old Boston town. He is a versatile athlete, and seemed to be at his best when competing at the invitation meet. Eastern critics are already pointing him out as a strong contender for the title now held by Sheridan.

"Of course Horner would be a novice at some of the events," said Fitzpatrick, "but he is superior to Sheridan in others, and this should more than even things up."

"He would be handicapped on account of his work here with our team. You see, he will specialize in two or three events from now on, and after the season closes there would be only a short time for him to prepare for the other contests."

The following is a list of events that are contested by the aspirants for the all-round championship title: 100-yard dash, 120-yard high hurdles, shot-put, high and broad jumps, pole vault, hammer throw, 56-pound weight, half-mile walk, mile run.

On the first three events the Michigan man is generally considered superior to Sheridan. He is a fairly good jumper and an ordinary pole-vaulter. Fitzpatrick holds the opinion that he could outvault the Irishman. Horner would be in splendid shape for the hammer throw, as he will toss the lead for Michigan this spring. The 56-pound weight, half-mile walk and mile run are the events that would bother him. He has never handled the big weight, never walked in contest, and has never posed as a distance runner.

Horner is just at present undecided.

YACHT CLUB IS PROSPEROUS

Prospects Bright for One of Most Successful Seasons in its History.

The annual meeting of the Quebec Yacht Club was held last evening at the St. Louis Hotel, there being a large attendance of members. Many matters of interest were discussed, and several new features were decided upon. The present position of the club has not been in such a flourishing condition for many a year past. The Club has now a fleet of nearly fifty boats, and several new and up-to-date craft will be added during the present season.

The dues of the Club will be raised to about double, and a special fund will be inaugurated to provide prizes for the season's races. The Club will as a consequence be in an exceptional position in this respect during the coming summer.

A programme of races was decided upon for the coming season, which includes two yacht races and two motor boat races. There will also be a series of special challenge races for challenge cups, and the season of the Club promises to be a most interesting one.

A large number of new members were elected at last night's meeting.

The election of officers resulted as follows:—

Honorary Commodore—Wm. Price, M.P.

Commodore—Dr. S. Gaudreau

Vice-Commodore—F. J. Cockburn

Captain—J. Smith

Secretary-Treasurer—Laurier Auger

Managing Committee—Lorenzo Auger, Hon. E. B. Garneau, Dr. A. Lavoie, Dr. E. G. Gale, C. Fremont.

Sailing Committee—T. S. Hethington, J. S. Thom, W. A. Home, Delphis Mercier, H. B. Poliwka.

Club Room Committee—J. B. Matte, E. E. Turgeon, E. Tanguay.

Auditors—H. Desrivieres, A. E. Scott.

MILLER BILL COST \$55,700.

It is always interesting to know what private legislation costs in the House of Commons.

The celebrated Miller Anti-Gambling bill, which was killed last week, cost the public treasury about \$55,700.

Of this the expenses for witnesses amount to \$1,700; and \$31,500 for the time taken up by the House in its discussion.

TOM BURNS, GENTLEMAN.

Tommy Burns, ex-lacrosse player of Hanover and Galt, Ontario, former heavyweight champion of the world, who lost the title to "Lill Artha" Johnring, has won the championship of Australia from Bill Lang by decision after a twenty-round fight.

There may be some consolation in knowing that a Canadian holds the championship of Australia, but there is little doubt that Tommy will hardly ever again hold the world's boxing premiership.

Tommy has been a social lion in clear to agree to a prize fight, and lived like a prince. He is now worth \$300,000, and owns tenement houses in Los Angeles, Tommy is too rich and comfortable to ever come back to the position that his friends would wish for him.

TO CUT RACE MEETINGS SHORTER.

Hamilton, Ont., April 12—If the owners of the Fort Erie and Windsor racing tracks do not see their way clear to agree to the limitation of the Canadian race meetings to eight days each, a proposition which will be made at the coming meeting of the Canadian Racing Association in Toronto next week, it is quite likely that the Montreal, Toronto and Hamilton Clubs will break away from the Fort Erie and Windsor tracks and leave the two latter concerns to their own resources. This statement was made to-day by a leading officer of the Hamilton Club when questioned in regard to the report that the frontier clubs do not relish the idea of such curtailment. "We do not propose to have the racing game stopped altogether just because these clubs are eager to run longer than is safe under present conditions. We believe that by cutting the meetings to reasonable length, the racing game will be kept safe for all time in Canada and the Hamilton Club will heartily support any move in this direction. Montreal and Toronto will also support this move. It is our proposal that the Canadian Circuit open on May 21st at Toronto and run for eight days actual racing. Blue Bonnets track would then open. On June 4th and also run eight days, to be followed by our meet, which we propose to spread over two weeks of four days racing each, the Windsor and Fort Erie tracks to follow suit. As far as the Hamilton Club is concerned, we propose to increase the size of our purse and stakes in order to hold the horse owners, while at the same time the new arrangement would do away with many small stables, leaving the sport to the larger and wealthier stables with a better class of horses."

TO THE PUBLIC.

Correspondence.

THE JEWS AND THE TALMUD.

To the Editor of the Chronicle:

Dear Sir,—The Talmud, throughout the generations, shared the fate of the people of Israel. The searching eyes of friendly critics, the evil tongues of prejudiced, the destructive hands of inconsiderate foes, and even torches of the fagot, in centuries gone by, endeavored to discredit, destroy and burnish it, but, like Israel, it has outlived its adversaries and continues to be a source of virtue to all those who look into and understand its antiquated

Commercial News
NEW YORK STOCK MARKET.
From McDonald, Lesperance & Co.,
Hochelaga Bank Building. Over
Their Private Wire. Phone 1227.
New York, April 12—The action of the stock market today was watched with curiosity, and some anxiety for expectations of the wider effects of yesterday's action of the Supreme Court and the effect it will have in delaying the final settlement of the anti-trust cases. Definite conclusions were not arrived at by close observers of the market, but enough occurred to modify the first enthusiasm of the more strictly professional element of stock operators yesterday. It was evident, for instance, that the violent rise in prices yesterday had brought into the market large selling orders both for home and foreign account. Side by side with these was an influx of further buying orders. The latter were believed to be largely for short account. The toning down of the first effects of the Supreme Court's action was due to the more conservative view taken of its effect by the financial and business community at large than by the stock market element. It is believed that every large corporation will feel itself prescribed in its plans and in the scope of its activities until the questions at issue in the anti-trust cases shall be defined and settled. There remains an apprehension that a repressive influence of the same kind will extend to general business activities and will join with the effect of the political campaign in restricting commercial and industrial activity. Other news developments were of mixed effect. The resort to applications of the parties to the New York Central wage dispute was confirmatory of the confidence that labor troubles would find a settlement without widespread strikes this year. The long engagements for to-morrow's steamer did not rise above \$4,000,000 which was considerably less than last week's estimates. There was a corresponding decrease or apprehension over possible depletion of the bank reserve from this cause. Bonds were irregular. Total sales per value \$1,677,000. U. S. Bonds were unchanged on call.

New York, April 12—The action of the stock market today was watched with curiosity, and some anxiety for expectations of the wider effects of yesterday's action of the Supreme Court and the effect it will have in delaying the final settlement of the anti-trust cases. Definite conclusions were not arrived at by close observers of the market, but enough occurred to modify the first enthusiasm of the more strictly professional element of stock operators yesterday. It was evident, for instance, that the violent rise in prices yesterday had brought into the market large selling orders both for home and foreign account. Side by side with these was an influx of further buying orders. The latter were believed to be largely for short account. The toning down of the first effects of the Supreme Court's action was due to the more conservative view taken of its effect by the financial and business community at large than by the stock market element. It is believed that every large corporation will feel itself prescribed in its plans and in the scope of its activities until the questions at issue in the anti-trust cases shall be defined and settled. There remains an apprehension that a repressive influence of the same kind will extend to general business activities and will join with the effect of the political campaign in restricting commercial and industrial activity. Other news developments were of mixed effect. The resort to applications of the parties to the New York Central wage dispute was confirmatory of the confidence that labor troubles would find a settlement without widespread strikes this year. The long engagements for to-morrow's steamer did not rise above \$4,000,000 which was considerably less than last week's estimates. There was a corresponding decrease or apprehension over possible depletion of the bank reserve from this cause. Bonds were irregular. Total sales per value \$1,677,000. U. S. Bonds were unchanged on call.

DODD'S KIDNEY PILLS

BUDGET DEBATE BROUGHT TO AN END

After a Lengthy Debate—Carried on a Straight Party Vote of 50 to 13.

Yesterday afternoon and evening sittings of the Legislature were almost entirely taken up with the continuation of the debate on the budget speech which was adopted at 12.45 this morning by a straight party vote of 50 to 13 when the House adjourned until this afternoon. The principal speeches of the day were delivered by Sir Lomer Gouin who spoke for two hours and a half and who concluded his remarks by declaring the new pulpwood policy of the Government, and Mr. Bourassa who spoke for over three hours in the evening, criticizing in his usual eloquent manner the fiscal policy of the Government. A very large crowd of interesting spectators were present at the evening session.

During two and a half hours yesterday afternoon, Sir Lomer Gouin addressed the House on the budget speech, concluding his remarks shortly after six o'clock, when Mr. Bourassa moved the adjournment of the debate. The Premier's speech, which was a reply to that of Mr. Tellier, was practically all the business done during the afternoon with the exception of the first reading of a couple of bills. He began by remarking that never were the finances of the province in such a healthy condition and quoted the Gazette, a Conservative organ, as having admitted that the finances of the province were never as solid nor as prosperous than they were at present. Such an authority as the Montreal Gazette should be taken into consideration even by the members of the Opposition, and he knew that from the bottom of his heart, the leader of the Opposition thought likewise, and when the latter replied to the Provincial Treasurer's speech he pleaded more to the form than to the merits of the question. Mr. Tellier had specially criticized the system of book-keeping in vogue by the Treasury Department and had even stated that the summary of the Public Accounts did not agree with the details given in that document, but he failed to see, after comparing the figures, where the leader of the Opposition could arrive at such a conclusion. Moreover, he could not agree with Mr. Tellier when the latter stated that Hon. Mr. Marchand had not inaugurated a new fiscal policy in 1897, as the latter had succeeded in turning deficits into surpluses, and the present administration had religiously carried out that programme.

Premier Gouin then quoted from the annual report of Hon. Mr. Atwater, who was Provincial Treasurer in 1896, when the latter said that for five years the deficits amounted to \$1,732,000 or an annual average deficit of \$347,000, and this is the statement of affairs which the leader of the Opposition wanted to compare with the fiscal policy of the present Government. The Conservatives on coming to power, imposed taxes upon property, professional men and manufacturers, but before leaving power, had abolished these taxes, thereby depriving the province of a revenue of \$357,000 and the Liberals had not re-established these taxes. The Conservatives had promised not to incur any more loans but they borrowed \$16,000,000 in 34 loans and increased the public debt by \$8,800,000. The credit of the province had dropped to 77 cents on the dollar during the Conservative regime and the only loan contracted by Mr. Marchand was for an amount of \$700,000 to meet a debt contracted by his predecessors, and when debentures were issued for the Montreal Jail, the present administration refused to accept a loan at 102 cents on the dollar.

Mr. Tellier asked at what rate? Sir Lomer Gouin—Four per cent.
 Mr. Tellier—We borrowed at three.
 Sir Lomer Gouin—Yes, but at 77 cents on the dollar.

Continuing, Premier Gouin made a comparison of the expenditure and revenue of the year 1897 with the present administration, and drawing a conclusion that the latter showed yearly surpluses while their predecessors had not done so.

Mr. Tellier remarked that in 1897 the Conservative administration had distributed \$1,200,000 in railway subsidies. Yes, replied Premier Gouin, when these obligations were prompted. At all events, continued the Premier, the Conservative still remained with their deficits. The policy of the Liberal party was to try and bring in everything possible to the Provincial Treasury, while the Conservatives did quite the opposite, and previous to the election of 1897, Hon. Mr. Mackett insisted upon not forcing municipalities to pay up what they owed. The leader of the Opposition had stated that the present Government had collected more in succession duties than their predecessors had, but if such was the case, it was because those duties were collected with more vigilance, and if a similar state of things existed for commercial corporations, it was due to the increase of these companies.

From 1897 to 1897, water-powers were leased at 30 cents an acre, by fact they were given away, but since the latter year the Government has obtained high prices for these water-powers, and the present administration

intended to continue that policy as it helped to develop towns such as Grand Mere and Shawinigan.

Regarding the permits to work stone quarries, the Premier remarked that an ex-employee of the Mines Department informed a number of people, that a law existed by which they allowed the issuing of permits to work stone quarries and mineral water sources and as a result a large number of applications were received and seven permits granted which brought in a revenue of \$3,000. For the present these permits had been withdrawn until the law was amended.

Premier Gouin spoke also on the cost of the technical schools and schools for the high commercial studies, remarking that the Government only granted the loan for the construction of these schools, and that the cities of Montreal and Quebec also granted financial aid to these institutions.

In concluding his remarks Sir Lomer Gouin announced the new pulpwood policy of the Government and informed the House that it had been decided to prohibit the exportation of pulpwood out on Crown Lands before it was manufactured in this Province, to increase stumpage dues 60 per cent. and also to increase ground rent from \$3 to \$5 per square mile. He remarked that some time ago he had promised that his Government would follow the example of Ontario regarding the exportation of pulpwood out on Crown Lands and if he had delayed in making there had been a threat of a tariff war between the United States and Canada and he did not wish to embarrass the Federal authorities. An Order-in-Council, prohibiting the exportation of pulpwood would be issued during the present session.

The Premier resumed his seat amidst the applause of his friends and Mr. Bourassa moved the adjournment of the debate.

The evening session was practically entirely taken up with Mr. Bourassa's reply to Premier Gouin, the member for St. Hyacinthe speaking for over three hours.

In his opening remarks, the member for St. Hyacinthe, in reply to Premier Gouin's statement that such Conservative organs as the Gazette and Star had commented favorably on the present financial condition of the Province, remarked that whatever the newspapers said would not change the financial affairs of the Province. The Premier had also stated that he had not found any errors in the Public Accounts but he (Mr. Bourassa) would reply to him with the documents of his own Government. Not only were the moves voted by the Legislature misapplied but the reports of the different departments were false. In 1908-1909 the Provincial Treasurer was authorized to spend \$150,000 for the encouragement of elementary schools in the Province, but only \$133,214 was spent according to the Public Accounts. Referring to the new pulpwood policy of the Government the member for St. Hyacinthe, remarked that all interested parties had had plenty of time to prepare for this legislation and as a result considerable pulpwood would escape the new law. The Premier's speech, at the Windsor Hotel on that question, had its effect as speculators had taken their precautions. He considered that the proposition to stop the exportation of pulpwood was a good one but the manner in which the Government proceeded would defeat the project they had in view. Among those who would escape the law were the false settlers, who, in the interest of the lumber merchants, secured land for speculation purposes. An investigation into the Crown Lands Department would show that in their case the law would not apply. He criticized the action of the Premier in making an announcement in June last which he only brought before the House to-day as such an announcement regarding the public domain was a most important one. Mr. Bourassa referring to the Government's programme on the quarry question, condemned it entirely, remarking that they were appealing to an old regime for authority to take possession of property, which had always been considered private property under all previous governments. The best examples of personal liberty existed in Great Britain, remarked Mr. Bourassa. The Government should follow the example of Great Britain where no law is enforced when it deals with the moral rights of citizens. Land subsidies to railways, was another question referred to by Mr. Bourassa, who argued that they should have appeared as a liability, as other persons could not get possession of them. Granting such subsidies was only voting away part of the public domain and it was a debt of the Province which should be acknowledged in some way, in the Public Accounts. Moneys had been voted for Agricultural purposes but had been spent for other purposes, and in this respect Mr. Bourassa drew the attention of the House that \$94,000 had been paid Le Canada, of Montreal, for publishing Le Journal d'Agriculture, and this should be explained in the Public Accounts. Premier Gouin had stated that the sale of water powers meant the establishment of new towns but the interests of companies and private parties were also taken into consideration. The system of book-keeping in the Treasury Department was also condemned by Mr. Bourassa, who remarked that the Federal or Provincial Governments, as well as all large corporations should have a statement of their liabilities and assets and in that respect the Public Accounts of this Province were incomplete. An investigation into the Crown Lands Department, he considered, was absolutely necessary, and the Premier should not be afraid to hold such an investigation. There was considerable work to be done in that department which should be entirely reformed. At present it took one year to get a title from the Department and that was a sufficient cause for an investigation as it showed that there was something wrong. He never had accused the ministers of personal malversation but they were guilty of public malversation. If an investigation was held into the affairs of the Crown Lands Department, it would be shown that a large proportion of patent letters had been issued to parties under borrowed names. That explains why the revenues of the Department decreased while the issue of patent letters increased. In concluding his remarks, Mr. Bourassa said that the Government was not justified in looking backward in comparing their actions with those of preceding governments, but should look to the

future for the prosperity of this Province.

Mr. Bourassa, who was frequently applauded by his friends during his eloquent speech, resumed his seat shortly before midnight.

Mr. Blouin moved the adjournment of the debate but on the suggestion of Hon. Mr. Prevost that a vote should be taken, continued the debate being followed by Mr. Lafontaine (Maskinonge) and Hon. Mr. Mackenzie. A vote was then taken on Mr. Tellier's motion which was defeated by 50 to 13 and the House shortly after adjourned at 12.45.

PILES CURED IN 6 TO 14 DAYS
PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

THE GREAT NORTH WESTERN TELEGRAPH CO. OF CANADA.
 The unqualified success of the night letter service recently inaugurated by the Western Union Telegraph Company in the United States has decided the management of the Great North Western Telegraph Company to make the service effective at all G. N. W. points in Canada. Starting 13th inst., night letters will be accepted by all G. N. W. offices for transmission to any G. N. W. or Western Union office in Canada and the United States for delivery the following morning. A night letter of fifty words or less may be sent under these regulations at the rate regularly charged for a ten word day message and one-fifth this rate for each additional ten words or less. The many advantages of this new service to commercial houses and the public in general are too obvious to require any detailed explanation.
 I. McMICHAEL,
 General Manager.

A MIRACULOUS ESCAPE
 Toronto, Ont., April 12.—Richard Gadston, aged 38, married, a brick-layers' helper, employed in the construction of the annex to the City Dairy building on Spadina Crescent, fell fifty-five feet from the second storey of the building to the ground this afternoon and escaped death by a miracle, his only injuries being minor cuts and bruises. Not a bone was broken.

INDIGESTION CURED EVIDENCE IN PLENTY
 Your Neighbors Can Tell You of Cures by Dr. Williams' Pink Pills.

Every case of indigestion, no matter how bad, can be cured by Dr. Williams' Pink Pills. Not only cured, but cured for good. That's a sweeping statement and you are quite right in demanding evidence to back it. And it is backed by evidence in plenty—living evidence among your own neighbors, no matter in what part of Canada you live. Ask your neighbors and they will tell you of people in your own district who have been cured by Dr. Williams' Pink Pills of dizziness, palpitation, sour stomach, sick headaches, and the internal pains of indigestion. Dr. Williams' Pink Pills cure because they strike straight at the root of all stomach troubles. They make new rich blood, and new blood is just what the stomach needs to set it right and give it strength for its work. Mrs. Geo. E. Whitcomb, Hatfield Point, N.B., says: "I am glad to have an opportunity to speak in favor of Dr. Williams' Pink Pills, for they deserve all the praise that can be given them. I was a great sufferer from indigestion, which was often accompanied by nausea, sick headache and backache. As a result my complexion was very bad and I had black rings under my eyes. I took a great deal of doctor's medicine, but it never did more than give me the most temporary relief. About a year ago I was advised to give Dr. Williams' Pink Pills a trial. Before I had taken a couple of boxes I found relief, and by the time I had used a half dozen boxes I found myself feeling like a new woman, with a good appetite, good digestion, and a clear complexion. I can strongly recommend Dr. Williams' Pink Pills for this trouble and advise similar sufferers to lose no time in taking them. Dr. Williams' Pink Pills cure all the troubles which have their origin in bad blood. That is why they cure anaemia, indigestion, rheumatism, eczema, St. Vitus' dance, partial paralysis, and the many ailments of girlhood and womanhood. Sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50, by writing The Dr. Williams' Medicine Co., Brockville, Ont.
