GERMAN GARRISON AT GZHATSK NOW ENCIRCLED

Soviets Claim Nazis Suffer Big Ship Loss

Two Enemy Transports, One Trawler and Patrol Ship Reported Sunk by Russian Naval Units in the Barents Sea—Soviet Troops Reported Making Heroic Effort to Pierce German Lines in Crimea.

By EDDY GILMORE
(Associated Press Staff Writer)
Moscow, March 18.—(AP)—The Soviet armies of the centre were reported today to have encircled a German garrison at Gzhatk, one hundred miles West of Moscow and closest foothold to the Russian capital still retained by the Nazi invaders.

It was at Gzhatk that the Germans withdrew after their disastrous defeats at Mzhaisk and Borodino. On the rail line from Moscow to Smolensk, Gzhatk lies one hundred miles West of the capital and thirty-five miles North-east of the key German defence position at Vyazma.

The Western front dispatch which reported the city had been cut off, told of a supply-laden transport plane being shot down in an attempt to reach the German garrison.

More than 4,750 Germans were reported to have been slain in a series of actions ranging from Leningrad to the Crimea, and the Moscow radio said Red army men had recaptured five more communities in the Smolensk area.

It is said one of the five recaptured settlements protected a strategically important area before which the Germans left 1,250 dead and wounded after a vain counter-attack. The survivors were declared routed.

Cutting off Rzhnev-Vyazma pocket, where German garrisons held out approximately half way along the 230-mile route from Moscow to Smolensk, is a major aim in current Russian operations on the Central Front.

The Soviet Information Bureau said Red army troops killed 1,000 Germans to over-run a Southwestern defence position and levied heavy tolls in other sectors.

(A Morocco radio station broadcast a Moscow report that heavy fighting was under way in the suburbs of Kharkov, German-held industrial city of the Donets Basin, 400 miles South of Moscow.)

Nazi survivors of the Southwestern fighting, the site of which was not specifically located, were said to have retreated.

At the upper end of the battle line, in the Leningrad region, the Soviet Information Bureau said 2,000 German officers and men were destroyed in two days of fighting.

(The Crimea is the scene of especially heavy combat, said a Bucharest dispatch to the Vichy news agency, Russian tank and artillery crews were reported keeping German and Rumanian troops under continuous fire along the twenty-mile front between Arbatyska Stralka and Feodosiya.

Many Problems Facing MacArthur In Organizing Australia Defence

By JOHN M. HIGHTOWER
(Associated Press Staff Writer)
Washington, March 18.—(AP)—Gen. Douglas MacArthur is facing an extremely formidable task in directing the battle for Australia, military experts here declared today in cautioning against a wave of false optimism.

The odds, they pointed out, are still heavily in the enemy's favor, however much the United Nations may have been heartened by the arrival of American ground troops and air force units in considerable strength or by MacArthur's dramatic shift from Bataan to supreme command of United Nations forces in Australia.

In all analyses of the situation, the most these authorities would venture was that the Japanese would be in for the fiercest campaign of the war if they attempt to smash Australia as they have smashed Singapore and the Netherlands Indies.

The expectation is that the enemy will risk the campaign. If the Japanese do not attempt it, or if they attempt and fail, then the great island continent down under remains in the hands of the United Nations as the Southern jumping-off point

CANADIAN NAVY RESERVIST IS GIVEN REWARD

Ontario Member of British Fleet Promoted for Part in Running Fight with Three German E-Boats.

London, March 18.—(C.P. Cable)—Sub-Lt. P. A. R. Thompson, youthful Canadian commander of a British gunboat which the Admiralty revealed last night had engaged three German E-boats in a running fight in the North Sea, attained his full lieutenantcy today.

It is not known how long the 25-year-old officer of the Royal Canadian Naval Volunteer Reserve had been in command of the gunboat, a secret type of craft mentioned officially for the first time in last night's communique.

Lieut. Thompson, whose grandmother lives in Oakville, Ont., was mentioned in dispatches in July, 1940. In peacetime he worked as a salesman.

The new gunboats are not the clumsy things their name implies. They are understood to resemble fast motor torpedo boats and to carry shell-firing guns instead of

House Likely To Override Roosevelt Views On Labor

Provision for Recapture of All War Profits in Excess of Six Per Cent Likely to Assure Passage of Measure Removing Forty-Hour Limit on Working Week—President Is Opposed to Proposals.

Washington, March 18.—(AP)—President Roosevelt's blunt opposition to any immediate changes in the forty-hour-week law in the United States found important support in the Senate today, but the House of Representatives still seemed bent on taking matters into its own hands.

The House manifested every intention of pushing ahead with consideration of legislation which would suspend all maximum-hour laws in war industries, and some administration backers privately were dubious about the chances of defeating such any change in the law at the present time because, he said, things are going along pretty well.

Mr. Roosevelt conceded, in response to a question, that some legislation on the forty-hour-week and strikes might be required in time but advised against rushing things. Prior to the conference Mr. Roosevelt

The President told a press conference yesterday there had been "an amazing state of public misinformation on the forty-hour-week question. He spoke out against any change in the law at the present time because, he said, things are going along pretty well.

Notes Approving Alaska Highway Scheme Are Formally Exchanged

Ottawa, March 18.—(AP)—Formal exchange of notes between the United States and Canada providing for the construction of the Alaska highway took place today in the office of Prime Minister Mackenzie King.

A note setting forth the terms under which the highway is to be constructed was handed to the Prime Minister by Pierpont Moffat, United States Minister to Canada, and Mr. King handed over his reply

agreeing on behalf of Canada to the terms set forth.

The highway will extend from Fort St. John in Northern British Columbia to Fairbanks, Alaska. Engineering units of the United States Army already are on the job to get an early start on construction of a pioneer road which will later be widened and surfaced into a permanent highway.

The notes will be released later today.

TECHNOCRACY BECOMES BIG ORGANIZATION

Cure-All for Economic Ills Has Uniformed Membership, Special Salute and Mystical Symbol.

New York, March 18.—(AP)—A uniformed membership using a special salute and a mystical symbol, the organization closed 200 clubs in Canada in June, 1940, following the ban, Scott said the Government's action was prompted because the movement "cross-purposed the British Empire by advocating union with the United States for the war's duration."

The Herald Tribune article said "this reborn technocracy is no longer just a parlor theory on how to get the world straight." Its members wear gray uniforms and the organization "has a sizable treasury, fleets of gray-painted autos in a number of Western cities and an emblem called the monad symbol which rivals the swastika in antiquity."

Full-page advertisements in at least forty newspapers from New York to California have been inserted by Technocracy, Inc., the article continued. All "call for a victory programme consisting of total government control of all persons and materials and plants and corporate wealth."

Mr. Roosevelt remarked yesterday that Axis short wave propagandists would try to make capital of Gen. Douglas MacArthur's transfer to Australia by picturing it as abandonment of the Philippines. Following is the first Japanese reaction to the transfer to be broadcast.

Tokyo, (from Japanese broadcast), March 18.—(AP)—Domestic circulation of this dispatch today.

"Observers commenting upon MacArthur's abandoning his own forces and fleeing to Australia declared his flight is fatally similar to flights of (Australian Maj.-Gen.) Gordon Bennett and (British Gen.) Sir Archibald Wavell from Singapore and the Netherlands East Indies, which immediately after fell into Japanese hands.

"They said 'This treacherous abandoning of a sinking ship seems to characterize Allied commanders who flee from post to post, leaving their soldiers to suffer the consequences.'"

"Pointing out the importance of a Commander's presence to inspire fighting spirit, these quarters expressed the opinion that 'with such cowardice shown repeatedly by Allied generals it is no wonder that Allied forces are lacking in the will to fight.'"

Protestant Education Problems Reviewed In Legislature Brief

Montreal, March 18.—(AP)—A brief to be sent to the Provincial Government giving the entire case for the centralization of the administration of Protestant schools of Montreal was issued here yesterday by the Protestant Committee, a representative body of the people.

It gives the background of the "desperate situation"—as it has been described—with which the school system today is confronted. Also attached to the brief will be two suggested methods of furnishing Government aid to the school system in Montreal.

One is a long term project which the Central Board of the Committee has brought forward in the past and the second is a plan to meet the immediate financial needs of Montreal Protestant schools at a cost of \$2,083,550.

The brief will be presented to the Government with the Island Board Bill which lists proposed administrative changes. The brief gives the reasons for these changes.

GODBOUT FEELS PRESS REPORT NOT ACCURATE

Claims Story Gave False Impression of Meeting Held Recently in Montreal Bye-Elections.

Quebec, March 18.—(AP)—Premier Godbout in an interview with The Canadian Press yesterday said he believed The Canadian Press report of a Provincial bye-election meeting in Montreal Monday night "gave an unfair picture of the meeting."

He was referring to a report of activities of youths who were outside the St. James market in Montreal while Mr. Godbout and others were speaking within the market in support of Liberal candidates.

Mr. Godbout in his address, for which he was cheered by his audience, said the country of all Canadians is the whole of Canada and that no Canadian can refuse any sacrifice at the present hour.

During most of the meeting a group of youths marched around the outside of the building, shouting and singing "a bas la conscription" (down with conscription).

Mr. Godbout said he felt The Can-

War Appropriation Bill for \$2,000,000,000 and Measure Approving \$1,000,000,000 Gift to Britain Now Before House of Commons—Opposition Resolution on Wheat Prices Turned Down by 125 to 44.

Ottawa, March 18.—(AP)—With Finance Minister Isley's money bills before it, the House of Commons today turns to the provision of billions of dollars for direct war activity and aid to the United Kingdom.

The resolution preliminary to introduction of the bill to authorize a gift to the United Kingdom of \$1,000,000,000 in food, munitions and supplies is the first order of business for today and Mr. Isley indicated last night he hopes the bill will pass before Easter so the appropriation may cover supplies to be sent during the present month.

The Finance Minister made his statement on the resolution dealing with the main \$2,000,000,000 War Appropriation Bill for the coming year and said the Government's war programme would represent the country's utmost capacity, the maximum Canada could carry out with the physical and economic resources at its disposal.

"That capacity," he said, "increases each year as the war goes on, as existing plants are expanded and new plants are constructed to produce war equipment and supplies, as labor is trained and administrative skills are developed, as civilian expenditures are more and more restricted and as our economy generally is more and more concentrated on the war effort."

Sir Thomas Chapais Honored On Half Century In Quebec Council

Quebec, March 18.—(AP)—The Legislature will pay tribute today to Sir Thomas Chapais, who was appointed to the Legislative Council fifty years ago.

Sir Thomas, Opposition leader in the only Provincial Upper House in Canada, now eighty-one, will receive tributes from Government officials and House members when the Council reconvenes for its first sitting since February 25.

The celebrations will take up part of the sitting of the Legislative Assembly which yesterday gave final reading to four Government bills.

The Lower House adopted on division a bill which would repeal a law that reduced the legal rate of interest to three per cent in so far as the Legislature had the jurisdiction to do so.

Quebec, March 18.—(AP)—Hon. Arthur Matheson, Provincial Treasurer, said in the Legislative Assembly yesterday that he expects the budget estimates for the fiscal year ending March 31, 1943, will be ready sometime next week.

He did not say when the estimates would be presented to the House. The estimates are usually submitted as the Treasurer gives his budget speech address.

TIME FOR COMPROMISE PAST

New York, March 18.—(AP)—The time for compromise and half-measures has past, Robert P. Patterson, United States Under-Secretary of War, declared last night, and from now on America is going to fight it out to her enemies with "every shot we have in the locker."

He urged that no one underestimate the might of the Japanese and the Nazi.

Odds Still Favorable To Japanese In Developing Struggle For Australia

Allied Military Experts Convinced That Japanese Will Open Fiercest Campaign of War if They Attempt Invasion of Australia, However—Large-Scale United States Reinforcements Aid Commonwealth Effort.

(By The Canadian Press)
The developing Battle of Australia presented a grimmer aspect for Japan's invasion armies today as "most substantial United States forces were officially reported helping to man the Commonwealth's war posts.

Allied military experts cautioned against too great optimism, pointing out that the odds still were heavily in favor of the enemy, but they declared that the Japanese would be in for the fiercest campaign of the war if they attempted to storm Australia as they did Singapore and the East Indies.

"The arrival of Gen. Douglas MacArthur in Australia is the healthiest and most welcome sign we have had," said Maj.-Gen. Gordon Bennett, Australian commander in the Malay jungle campaign.

Coinciding with Gen. MacArthur's shift from the Bataan Peninsula to Australia, Prime Minister John Curtin announced that another United States officer, Lt.-Gen. George Brett, fifty-six, would command the Allied air forces in the Australia-New Zealand theatre.

Brett also will hold the post of deputy supreme commander of United Nations forces under MacArthur.

Allied bombers continued to smash at the enemy's potential jumping-off bases, raiding an airfield at Kupang, capital of Netherlands East Indies, the East Indies, and off-bombed Northern Australian port of Darwin.

In the Battle of Burma, British military quarters reported little change in the situation but warned that Japanese troops driving North from Rangoon toward Meiktila had received "strong reinforcements" released by the conquest of Java.

A Tokyo radio broadcast asserted that the Japanese now had "a complete air superiority" as the start of perhaps a decisive phase in the Burma campaign.

The British authorities acknowledged that the invaders had received heavy aerial reinforcements but declared the Tokyo claim was "exaggerated," with R.A.F. and American volunteer fliers still inflicting heavy blows on the enemy.

NEW YORK GETS AN INDUSTRY
New York, March 18.—(AP)—The first tangible result of the city's eighteen-month effort to obtain a substantial slice of war production will be in the form of a huge aluminum plant to be built soon within the city limits and employ between 10,000 and 20,000 workers.

The plant, which will be built on the site of the old Alcoa plant, will produce aluminum for the war effort.

QUALITIES OF NEW CLOTHING ARE PRAISED

Bright Colors Prove Frequent in Latest "Utility Ranges" of Clothing Sponsored by British Government.

(Written for The Canadian Press By ALISON SETTLE) London, March 18.—Britain's retail stores are unanimous in their praise of the qualities of the Government-sponsored "utility ranges" of women's clothing...

In London, the Regent Street shops and the highest grade stores of Knightsbridge are finding that their best class charge customers are asking, "where are your utility ranges?"

Only a small number are as yet on the market, but those which are get snapped up quickly. Take, for instance, an old established firm with a good class clientele; indeed, in the dress department a special range of dresses has always been kept for the Lady Mayresses of the country.

For all their public appearances, this was the store to which these city leaders were accustomed to go. Now their same clientele has fallen completely in love with the newly arrived utility ranges. "In dresses," said one of the directors, "already one-fifth of our turnover has been done in utility clothes, although so far only a fraction of these clothes has come in."

And certainly the dresses are far above the value suggested by their price. For less than £3 (about \$13) you can get models in the purest wool, including an angora mixture, in the newest of the British Color Council shades for spring—the "colors of the English countryside"—in wheat-car yellow, maypole red, millpond blue, sunbonnet pink, linnet brown, woodpecker green or gothic grey. The dresses are made to suggestions of the buyer and are in no way of standardized design.

The "colors of the English village" and of the countryside, sponsored by the British Color Council, have been the most successful promotion put out by this body, and have contributed greatly to the success of the utility ranges.

The pretty pastels of former years seem strangely out of place in a world at war and all these shades are fresh and heartening. Knitwear has even brighter shades than the wool colors—lancer blue, ruby red, gold, jade and orange are among those listed.

Millinery is much quieter despite Guardsman red being a favored tone. The "countryside colors" which are most favored, however, are forge blue, gothic grey, woodpecker green, and a lovely spring violet.

In shoes, the three leading tones are harness tan, tudor red and cavalier brown. Hosiery to tone is now no longer made in silk but in listles.

LONG SENTENCE IMPOSED UPON IMPERSONATOR

Twenty-Three Months Sentences on Each of Two Charges Imposed Upon Woman Posing as Male Munitions Worker.

Montreal, March 18.—A two-year deception had its climax today when Antoinette Arsenault of Ottawa, who masqueraded as a male and who went through a "marriage" ceremony with another woman, was sentenced to twenty-three months in jail on each of two counts to which she had previously pleaded guilty. The sentences are to run concurrently.

Dressed in feminine apparel, the thirty-four-year-old munitions plant worker was sentenced by Judge Gustave Marin of the Sessions Court in the Judge's private chamber. Newspapers were not permitted to be in the courtroom at the sentence later by Judge Marin.

Miss Arsenault, known to fellow workers at a St. Therese, Que., munitions plant as "Andre Arsenault," had pleaded guilty last Saturday to charges of falsifying her birth to the Agricola bureau Commission. An amendment to the second-reading motion sponsored by the C.C.F. group, seeking to commit the house to a \$1-a-bushel wheat price was defeated on a straight Liberal vs. Opposition division by a vote of 125 to 14.

The Senate met during the evening and heard many tributes to Rt. Hon. Raoul Dandurand, Government Senate Leader, and Hon. E. N. Rhodes (Conservative, Nova Scotia), both of whom died since the last meeting of the Upper House a week ago. The Senate adjourned after a long session and then adjournment was taken to March 24.

Mr. Halsey gave a breakdown of war expenditures by departments in the current fiscal year and also of proposed outlays for the new fiscal year. He said the outlay for the present year at \$111,000,000 and the proposed to introduce a supplementary war appropriation bill for \$135,000,000 to take care of the excess over the \$1,300,000,000 voted last session.

Against an outlay of \$515,000,000 the Army in 1942-43 the Minister said \$297,600,000 will be spent in 1942-43. The Navy required \$139,000,000 this year and will need \$259,000,000 next year. The Air Force required \$268,000,000 this year for training and Canada's share of the British Commonwealth Training Plan in addition to \$136,000,000 for home war and Overseas Establishments and will need \$85,000,000 for these purposes in 1942-43.

The Munitions and Supply Department will spend a total of \$252,000,000 this year and \$355,000,000 next year. The Minister placed expenditures by other departments in the present year at \$111,000,000 and estimated their outlays in 1942-43 at \$146,000,000.

In addition to the main expenditures of the three defence branches in 1942-43 he estimated there would be sundry expenses amounting to \$21,000,000.

The Government's 1942 wheat program which, besides the increased price, calls for continuation of the wheat acreage reduction bonuses, a limitation on deliveries to 280,000,000 bushels, and minor changes in the Prairie Farm Assistance Act which deals with crop failure acreage bonuses, now is entirely in the hands of the Agriculture Committee.

Before the wheat price bill passed Conservative House Leader Hanson, later supported by M. J. Coldwell, Acting C.C.F. House Leader, and E. Perley (Conservative, Qu'Appelle), urged a full inquiry by the committee into operations of the Canadian Wheat Board. Mr. Perley, however, expressed a preference for establishment of a smaller and more select committee than the sixty-member body now existing.

Trade Minister MacKinnon said he would see that members of the Wheat Board and of the Board of Grain Commissioners are available to the Agriculture Committee for questioning on points raised by Mr. Hanson.

Mr. Hanson's speech on wheat was a long one and touched on all phases of the problem.

fine country wool and rayon, the rich warm tone of dyed brown and the burnished earth lead. In colored stockings, millpond blue and reaper gold are expected to rank high.

The Board of Trade lays emphasis on the fact that the customer is in no way restricted in choice by these new sponsored ranges. Waste may be eliminated—indeed must be—but the customer notices no small choice. There has been a confusing and unsettled variety in goods offered.

ST DENIS RIOT AGAINST LOSS OF FREIGHTER

Anti-German Feeling Mounting Steadily Through Uruguay After Loss of Vessel on High Seas.

Montevideo, Uruguay, March 18.—(P)—Threatened police guards were thrown around the German Legation office and the home of the German Minister today in the wake of student riots last night over the sinking of the Uruguayan merchant ship Montevideo off the coast of Haiti.

(Youths also rioted in Santiago, Chile, in protest against the sinking of the Chilean freighter Tolten last Friday outside New York harbor. They smashed windows of shops belonging to Axis subjects and suspected sympathizers.)

(The youths called for an immediate diplomatic break with the Axis. Chile and Argentina are the only Pan-American nations which have not broken off relations.)

(Ten of the youths were arrested in front of the Conservative newspaper El Imparcial, at which stones were thrown.)

(Extra guards were placed before the German consulate and German stores.)

(Some 200 youths attacked a toy shop here operated by a Spaniard allegedly belonging to the pro-Fascist Falangists. Then the crowd swarmed toward the offices of the Nationalist newspaper El Debate, crying "To jail with Herrera.")

(The youths tried to Nationalist leader Luis Alberto Herrera, an opponent of inter-American co-operation.)

Several demonstrators were slightly injured when police used sticks to break up the riot.

The Montevideo was the first shipping loss suffered by Uruguay in the war. She promptly countered with the seizure of the German ship Tacoma, which has been idle in Montevideo harbor since the scuttling of the German pocket battleship Admiral Graf Spee, in 1939.

The Government announced the Tacoma would be placed in the merchant fleet to continue commerce with the United States.

Godoubt Feels Continued from page 1. adian Press report gave the impression that the youths were shouting their comment in reply to what he was saying inside and he felt this would give a wrong impression to outside provinces. He said his own impression was that the youths, whose voices could sometimes be heard inside the market, had stopped shouting when he expressed his views on Canada. He felt the report of the meeting gave undue emphasis to the activities of a number of youths.

In a statement earlier yesterday he termed the Canadian Press report inexact, adding that the meeting was one of the best ever held in the division in a long time.

The Canadian Press report dealt with both the meeting inside the market and activities outside. It was not intended to convey that activities outside were a part of the meeting inside.

By a third measure, town councils would be prohibited from awarding a contract for the sale of bonds to anyone other than the lowest tenderer, without the consent of the Minister of Municipal Affairs.

The Government, through another bill, would extend to civil employees on exterior services the same pension privileges as enjoyed by those on the inside services.

The other bills would make minor amendments to the Industrial and Commercial Establishment Act, the Quebec Bar Act and the Municipal Code.

After handling the bills, the House adopted \$55,000 of the \$75,000 supplementary budget estimates for the Department of Lands and Forests, Game and Fisheries.

Soviets Claim Continued from page 1. ("Efforts of Soviet troops in the last few days to pierce Axis lines on the Kerch isthmus," the dispatch said, "are considered in military circles to be the greatest that can be undertaken in such a confined space.")

Russians killed 500 invaders to recapture a number of settlements on the Kalmyk front, between Simonsk and Leningrad, the Information Bureau said. Moreover, the enemy was reported to have left hundreds of dead on the battlefields of another sector when Red army infantrymen repulsed several counter-attacks by tank-supported Nazi rifle units.

Red navy forces operating from far Northern bases, guarding the Allied supply line to Archangel and harassing Finnish-German sea communications, also came in for official mention.

"Our ships in the Barents Sea," a communique said, "have sunk two enemy transports, one trawler and a patrol ship with an aggregate displacement of 16,000 tons."

MISSIONARY MEETING OF PRESBYTERIANS Toronto, March 18.—(P)—The annual meeting of the General Board of Missions of the Presbyterian Church in Canada opened here last night with more than fifty delegates from many parts of Canada in attendance.

NELSON STILL DETERMINED TO SPEED OUTPUT

No Reason for Complacency in Improved United States Output War Production Chief Declares.

Washington, March 18.—(P)—Donald M. Nelson has given the United States a new promise—to knock down all interference to war production, whether from management lagging or union slowdowns.

In a broadcast message last night the War Production Chief said the country's factories already are turning out war goods in large volume and that plant production had gone up more than fifty per cent since December 7.

"But this is no reason for false complacency," he said. "We need more and more of these weapons, and we need them now. We have got to realize the value of time."

"Here is what time is worth. A machine-gun factory in full swing can equip a whole regiment in a day and a half. Thirty-six hours of work. That's why hours are important."

Nelson said Axis propaganda agents are trying to wreck the Government's speed-up drive and cautioned that "groundless fears of a few people could bog down the whole effort."

Many Problems Continued from page 1. He can expect no reinforcements, whereas it was virtually impossible to get them to the Philippines.

He can develop numerous air bases—the important ones beyond the reach of fighter-protected Japanese bombers—whereas in the Philippines his air bases were few, vulnerable and completely situated.

He is not apt to be hampered by any Japanese fifth column or espionage activity.

The disadvantages: He has to defend a vast, sparsely settled country with a long coastline. He has an enormous problem of supply because of the great distances, meagre transportation facilities in much of the country. Moreover, he must use some of his forces to protect the long route running North-Darwin area from the Brisbane-Sydney-Melbourne industrial region in the Southeast corner.

His life-line to the United States is likewise extremely long and the Japanese can be expected to exert every effort to harry it.

He faces an enemy that still holds the initiative and heavy numerical superiority.

It is considered doubtful that MacArthur, if he tried—could prevent establishment of enemy beach-heads along Australia's long, exposed coastline. A static cordon defence would require an astronomical number of men.

Rather, it is believed that he will meet such threats by counter-punching as fast, hard-hitting mobile ground forces, backed up by overhead blows of fighter and bomber commands held in reserve at silent bases for just such an emergency. Thus, if the Japanese landed, they would have the difficult assignment of exploiting their advantage in the teeth of strong Allied air and ground opposition.

Strategists here said that so long as Australia could be held by such tactics, and as long as reinforcements continued to arrive there, the Japanese could not undertake a major new offensive in any other direction without grave risk.

TARGET FIXING BY VOLUNTEERS

London, Mar. 18.—(P)—Thousands of foreign guide-books, maps, technical periodicals, directories and other reference works no longer obtainable through usual pre-war channels are pouring into the Ministry of Economic Warfare which uses them to fix potential targets in Nazi-occupied territory.

A Ministry official discussing results of an appeal for the material, said that thanks to the donor of one obscure foreign reference book the whereabouts of a certain vital factory in Nazi-occupied Europe have been settled. "The book provided the missing link in a long chain of evidence," he said. "For some time we had been trying to locate the position."

The mother of a dead Royal Air Force pilot sent her son's collection of foreign maps with an accompanying note which said that if they helped to drop bombs on German objectives she would feel her son's death had been avenged.

Refugees from occupied territories have sent hundreds of guide-books, maps and journals with pictures of factories and other key sites. Many marked places shown to them personally are likely targets.

BEAVERBROOK WILL ACCEPT U.S. POSITION

Former Minister of Production to Co-ordinate Facilities of United Nations Industrial Concerns.

London, March 18.—(P)—Lord Beaverbrook is being sent to the United States to aid in pooling war resources of the United Nations. Clement Attlee, Dominion Secretary, announced in the House of Commons today.

The announcement dispelled recent doubts whether Lord Beaverbrook would continue to lend his talents in war production after his rejection of a place in the War Cabinet.

In addition to his work on pooling resources, it was explained that Lord Beaverbrook would perform "such other duties as may be entrusted to him from time to time by the War Cabinet."

The nature of these duties was not disclosed. Prime Minister Churchill said last week that Lord Beaverbrook was "understood" to be prepared to undertake a mission in Washington.

Some doubt was left, however, that Lord Beaverbrook, a chronic sufferer from asthma, felt able to go.

He turned down reappointment in the new War Cabinet recently because of his health, and his duties as Minister of Production went to Oliver Lyttelton.

Canadian Navy (Continued from page 1). torpedoes. The fact they are high-speed craft is indicated by the Admiralty disclosure that Thompson was able to withdraw after exhausting his ammunition in the one-sided affray.

The Admiralty gave this account of Thompson's clash with the enemy E-boats: "Four E-boats approached from the Eastward. One of our motor gunboats commanded by Thompson fought a running fight with three of these E-boats until all her ammunition was exhausted. She then withdrew, severely damaged."

The episode was part of a series of week-end clashes in the North Sea in which the 1,000-ton British destroyer Vortigern was lost and at least five German motor torpedo boats were destroyed. Two other German E-boats were listed as damaged, and the Admiralty credited the R.A.F. with heavily damaging three more.

There were at least six separate fights, starting the morning of March 14th when two German E-boats were destroyed. That night the speedy German boats attacked a British convoy. The convoy escaped, but the 1918-model destroyer Vortigern was torpedoed and sunk while the destroyers Holderness and Humber sank one E-boat and damaged another.

Seeking to join this fight, the sloop Guillemot sank one enemy E-boat and vainly chased a second. On the morning of March 15th the British motor gunboats, including Thompson's craft, went into action, and later the R.A.F. took its share of the kill.

URGES INCREASE IN OUTPUT OF FLAXSEED Ottawa, March 18.—(P)—Flaxseed production of 20,000,000 bushels in 1942, compared with 6,473,000 bushels last year, is being aimed at by the Dominion Government, Agriculture Minister Gardiner said today.

He said the programme is being encouraged because normal sources of imported vegetable oils have been cut off by war in the Pacific.

To provide the total production sought, at least 2,000,000 acres should be sown to flax in 1942. The five-year average acreage in 1936-40 was 800 for the prairie provinces, the area of main production and where the bulk of the increased output of 1942 will be found.

The increased production of 1942, if achieved, will represent a spectacular gain for the second year in a row. Prairie production in 1940 was only 2,870,000 bushels.

Four Soldiers Are Sentenced For Assault On Taxi Driver On Windsor-Richmond Highway

Raoul Boucher, of St. Hyacinthe, Received Four-Year Penitentiary Term—Joseph Kingsley and Oliva Boissonneault Given Three Years and Ernest Marsan 23 Months.

Pleading guilty to charges of robbery with violence, four soldiers from the Lord Sherbrooke Training Centre were sentenced this morning when they appeared before Judge J. H. Lemay in Maristate's Court. Raoul Boucher, twenty-five years old, of St. Hyacinthe, was given a four-year term, while Joseph Kingsley, twenty-six, and Oliva Boissonneault, twenty-seven years old, each received a three-year sentence, and Ernest Marsan, nineteen years old, was sentenced to twenty-three months. Boucher was given a four-year term in view of the fact that he had a previous record, it was brought out at the hearing. The men were taken into custody early yesterday morning at the Canadian National Railway station at Richmond by Traffic Officer Vital Lemire and Constable A. Blanchard of Richmond, after they had been arrested by the four soldiers upon the person of Henri Leblanc, Sherbrooke taxi-driver, on the highway between Windsor Mills and Richmond. Leblanc had taken the four men

LENOXVILLE

The members of the Lennoxville Women's League of St. Andrew's Church, Sherbrooke, held their regular monthly meeting at the home of Mrs. A. MacKenzie, Church Street, with the President, Mrs. G. B. Christian, in the chair. The guest speaker for the afternoon was Mrs. A. E. Abercrombie, who gave a very interesting talk on price ceiling and wise buying.

Final plans were made for a rummage sale and the sum of five dollars was voted to buy wool to be knit for the V Bundles of Lennoxville for Britain. This brought the business to a close and the members were invited to meet at the home of Mrs. H. Ross, Clough Avenue in April. Tea was served by the hostess, assisted by Mrs. R. Stevenson and Mrs. H. Ross.

Inquest into Death of Emile Robert, 23, of Chartierville, Found Lying on Wellington Street South Early Yesterday Morning, Adjourned by Coroner—Victim Died of Skull Fracture Before Reaching Hospital.

Reopened today after being opened and adjourned last night, the inquest into the death of Emile Robert, 23, of Chartierville, who died while being taken to the St. Vincent de Paul Hospital after being found early yesterday morning lying on Wellington Street South, was once again adjourned until further information can be gathered by police. Believed by authorities to have fallen from a moving car or to have been struck by a hit-and-run driver, Robert suffered a skull fracture, which caused his death, and several lacerations to the body.

George Baker, of Lennoxville, saw the man's body lying on the street while on his way home at about two o'clock yesterday morning, and immediately notified the police. When Sgt. Joffre L'Heureux and Constable Walter Pigeon arrived at the scene they found the man's pulse still beating feebly. He was dead when they got him to the hospital. Two witnesses were heard last night, Sgt. L'Heureux, who told what he and Pigeon had discovered and the action they took, and Dr. Paul Emile Belisle, hospital interne, who reported on Robert's injuries. Today three witnesses gave testimony, Detective Lieutenant Vanier, Detective Sergeant Allard and Technician Georges Boudrias. Robert, an employee of J. A. Blanchette, M.P. for Compton, was identified through his national registration card.

Gives Story On Study Of Jitterbugs

(Written for The Canadian Press By EDDIE LEE) Visits of United States "name" bands to Canadian cities has brought to the fore a Canadian version of that menace of the modern American dance floor known as the "jitterbug."

IRISH MUSIC AT ROTARY MEETING "Danny Boy" sung by Rotarian R. L. Curphey, and "Rose O'Day," sung first as a chorus and then as a solo by Rotarian S. A. Belmont, gave last night's Rotary Club meeting at the New Sherbrooke Hotel an Irish flavor in keeping with St. Patrick's Day. Russell McBrien, of Montreal, showed the members a sound film entitled "Pioneers of Progress" which was much enjoyed.

FURTHER SUBSCRIPTIONS ACKNOWLEDGED

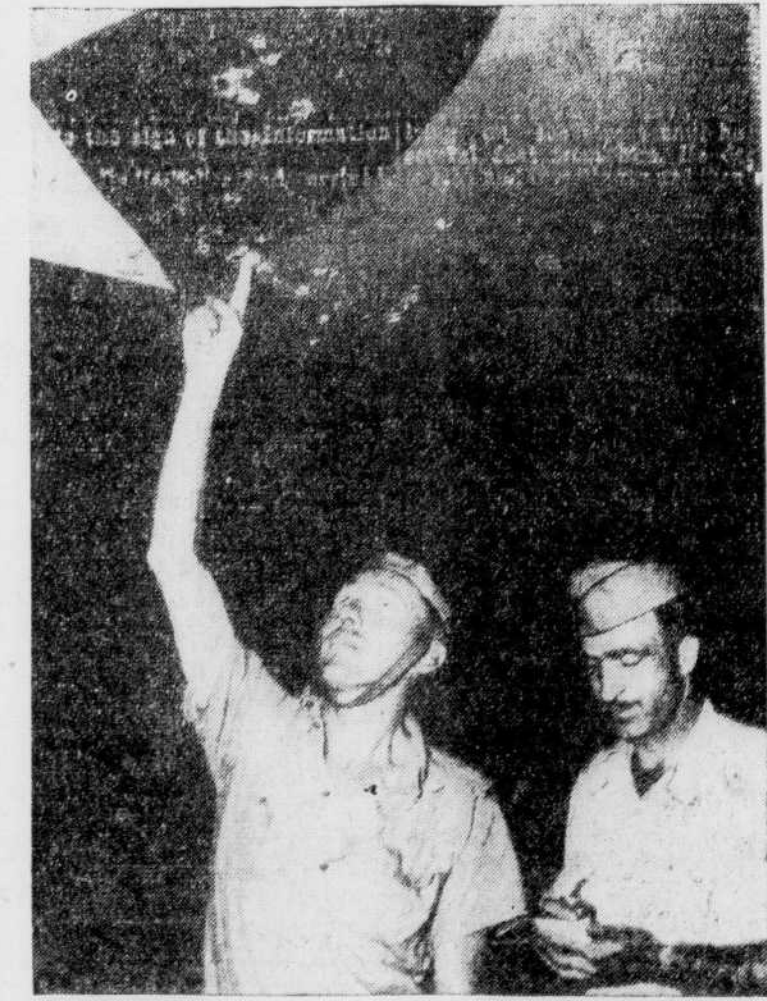

The following additional subscriptions to the campaign on behalf of the local branch of the Canadian National Institute for the Blind were acknowledged today: \$2: Rev. Father Chasse, Mr. Gerard Lussier. \$1: Mrs. Henry Veilleux, Mrs. L. Laverdiere, Mrs. Maurice Melvior, Mrs. Amedeo Dube, Mrs. Alfred Rousseau, Mrs. Omer Blais, Mrs. Xavier Paradis, Mrs. A. Mariel, Ernest Darby, A. T. Roy, Welle Blais, M. Fontaine, Gilbert Roy family, Donaldson family. St. Jeanne d'Arc Parish collection, \$88.40. \$5: Chateau Frontenac.

Study of the subject is hindered by lack of competent authority. Little appears to be known of jitterbugs. Psychology has nothing to offer by way of explanation and the dictionary and encyclopedia fail to give a definition. But further search reveals that the jitterbug also passes under such quaint names as "hep-cat, alligator, five bound or rug cutter." Both male and female of the species are said to closely resemble the human being. Your best friend, your sweetheart, your own child or even your brother or sister may possibly turn out to be a jitterbug.

The symptoms—things that are known about the jitterbug—are plain. Take the suspect to a place where the jazz is "hot." When the hand begins to "jump" watch your patient closely. If he, or she, suddenly grows exceedingly violent and seems to be doing his or her, best to imitate in rapid succession an ape, a kangaroo and a common house fly, then you must brace yourself for the worst. Only one further test is necessary. Stealthily approach the subject and say suddenly: "Dig that horn bub!" If the reply comes back "right in the groove, or "but solid," or "on the beam," then and there you have a jitterbug. It is best to leave at that point because most authorities refuse to commit themselves as to what will cure a jitterbug. Some suggest wrapping it in a straight-jacket and taking it to the nearest symphony orchestra. This treatment is to be applied three times weekly until the cure is complete. Another suggested cure is complete solitude for a period of from six to ten years.

Age of the jitterbug ranges from sixteen to twenty-one years and few of the species are found beyond that age. Jitterbugs usually travel in pairs—male and female. When this number is not sufficient to clear a satisfactory space on a crowded dance floor they gather in groups of five or six couples and dance what they mysteriously refer to as "routines." The Canadian jitterbug is said to be less violent than the American form. One Canadian is reported to have apologized after thrice stepping on the toes of a passing dancer. But, then, the American jitterbug has been at it longer. The smallest American mammal, the smoky shrew, has a life span of less than a year.

SHERBROOKE'S IRISH HONOR PATRON SAINT

Banquet Under Auspices of St. Patrick's Old Boys' Association Held at New Chateau Hotel.

Members of Sherbrooke's Irish community yesterday paid fitting tribute to the Patron Saint of Ireland with a special Mass at St. Patrick's Academy Old Boys' Association at the New Chateau Hotel last night. And apart from the largely-attended events, the city's Irish residents took advantage of the occasion for the "wearin' of the green."

Ashton R. Tobin was the principal speaker at the banquet, giving an historical talk on the early days of the Emerald Isle and of the life of St. Patrick and the service of the revered St. Patrick.

Providing additional Irish flavor, Mayor-elect A. C. Ross pointed out that St. Patrick's Day would have a new significance for him in the future, since he had been elected Chief Magistrate by acclamation on March 17th. Speaking briefly, Mayor-elect Ross expressed his thanks to the electors of Sherbrooke for the honor they had conferred on him, and promised that he would do all in his power to maintain the city's reputation of excellent administration during his two years in office. Dealing with Ireland prior to St. Patrick, Mr. Tobin, who was introduced by J. K. Flaherty and thanked by George W. Murphy, pointed out that the island was invaded at least five times by pagan and savage tribes, and that it was inhabited by Gaels, a war-like people. Religion of the people was Druidism, of which practically nothing is known. Rev. Canon J. C. McGee, of St. Patrick's Church, said Grace, and Francis Merton, President of the Old Boys' Association, proposed the toast to the King. The singing of Irish songs was an enjoyable feature, with Francis Parker as Master of Ceremonies of the musical programme.

Jimmy Gallagher sang two Irish selections, "When Irish Eyes Are Smiling" and "Rose O'Day," with the gathering joining in the choruses. Mrs. L. E. Codere accompanied him at the piano. Miss Kathleen Shea was also enjoyed in solos, with Miss Mimi Shea at the piano. Irish flags, green candles and shamrocks provided the decorations. Seated at the head table were Mr. and Mrs. Milton, Mayor-elect and Mrs. Ross, Mr. and Mrs. Tobin, Rev. Canon McGee, J. K. Flaherty, Mr. and Mrs. J. S. Moore, J. J. McManany and Miss Mimi Shea. Among those present were Brother Joseph, Rev. Father Charles Pepin, Mr. and Mrs. Cesaire Gervais, Mr. and Mrs. J. R. Simms, Mr. and Mrs. Austin Workman, Frank Conway, Charles Stenson, W. R. Eight Judgments Rendered In Local Court By Justice White

In one of eight judgments handed down in Superior Court yesterday by Mr. Justice Charles D. White an action for \$7,000 instituted by the Sherbrooke Clothing Ltd., against Achille Lemieux, of Johnville, was dismissed with costs. Three of the judgments dealt with accidents, two were based on oppositions and the eighth concerned alleged damages caused to a farmer's property by cars travelling on his land during the winter.

In its action against Lemieux, the clothing concern maintained that the sum of \$7,000 was owed by Lemieux as the balance of payment for shares of capital stock in the company which it was claimed the defendant purchased. Pointing out in its declaration that it was incorporated under letters patent on October 3, 1940, the company said that by agreement between Lemieux and one Armand Latulippe, dated September 9, 1940, the defendant subscribed by verbal application for 400 shares of capital stock at \$25 per share. According to the conditions of the application the plaintiff paid \$3,000 in cash and agreed to pay the balance of \$7,000 on the demand of the Directors.

It was maintained that on October 19, 1940, the attorneys of the plaintiff notified the defendant that his subscription had been accepted and called on him to pay the \$7,000. In defence, the defendant had denied that he had subscribed for the 400 shares.

In his judgment dismissing the action, Mr. Justice White pointed out that the defendant denied having made any agreement, except with Latulippe, and declared that there was no lien de droit between the plaintiff and the defendant, since the only agreement proved was between the defendant and Latulippe and not between Lemieux and the Company.

In a case based on a collision at the intersection of Belmont Street and 7th Avenue last July 27 Henry and Irving Richards, of Sherbrooke, were condemned to pay \$161.73 damages to John Pratt, of East Aunty, with Francis Parker as Master of Ceremonies of the musical programme. Pratt declared that he was driving along Belmont toward Sherbrooke at a moderate rate of speed when the other vehicle, travelling at an excessive rate, with Irving Richards at the wheel, swung around the corner from 7th Avenue and struck

his machine violently. In defence the Richards had maintained that they made the turn slowly, and that the other car had smashed into them. Mr. Justice White said that the evidence of independent witnesses showed that the cause of the accident was the fact that Richards had not stopped at the intersection, and that the Richards' car was travelling faster than that of Pratt.

Mr. Justice White dismissed an action of \$199 entered by Olivier Besette, of St. Edouard de Clifton, against the Corporation of St. Edouard Township, for damages he claimed were caused when the Municipality, after building a winter road across his farm, failed to build guards to make the road, with the result that automobiles drove all over the land. The judgment said that the defendant's claim to have sent valuers to inspect the land for damage who found that no damage had been caused, had been proved, and that in any case the required notice of action had not been given by Besette.

Omer Villeneuve, of Coaticook, was awarded \$101.59 damages from Roger, Paul Emile and Joseph A. Vaillancourt, also of Coaticook, as an aftermath of a crash involving the Vaillancourts' truck and Villeneuve's car on March 22, 1941, on the Sherbrooke-Coaticook highway, the plaintiff proving to Mr. Justice White's satisfaction that the truck had stopped suddenly in the middle of the road, leaving Villeneuve no other course but to slam into the rear of the stationary machine.

Mr. Justice White dismissed with costs an action for \$132.82 entered against Adolard Lehoux, of Distract, by Philippe Paquette, who claimed he was owed the money to complete payment for having leased a truck and two men to the defendant during the summer of 1940.

Ernest Martineau, Sherbrooke wood dealer and trucker, was awarded \$217.68 from Evangeliste Rouleau, of Stoke, as compensation for damages suffered by his truck in a collision in Stoke on October 21, 1937.

Mr. Justice White maintained an opposition to the sale of a property for taxes, entered by Dame Dolly Theresa Grey from Evansville, Garnet Hole, of Windsor, Ont., against the Corporation of Bury Township, and also an opposition to the seizure of two trucks, made by Clifford Brazel, of Birchton, against Haddon and Savage, of Lennoxville.

CHINESE WOMAN IS REAL GOOD GOLFER

Vancouver, March 18.—(P)—Home town of many a golf champion, Vancouver now boasts what is believed to be the country's first Chinese woman golfer. She's twenty-one-year-old Vancouver-born Miss Toy (Buddy) Chong, who was sold on the game when she first saw women playing it a Banff. Already an all-around athlete, she's taking lessons and her teacher, Billy Barr, says she's developed "a nice compact swing." Miss Chong thinks golf is the "nicest game in the world," and already is planning to get her brothers and sisters playing it too.

Nearly 12,000,000 persons in Great Britain use gas, despite the growing popularity of electricity.

No matter what washing method you use... you must have SUNLIGHT'S "EXTRA-SOAPINESS" for those extra dirty parts

Pillow-cases show dirty marks where the sleeper's head has rested.

Sheets often get very soiled and dingy-looking where they are turned down.

WEEK after week as you look over your wash, you find that whenever clothes are at all badly soiled it is nearly always in the same places. Here and there the dirt has become almost ingrained and while ordinary washing methods suffice to remove the ordinary "all over" soiling, these extra dirty parts just won't come clean without the help of Sunlight! Sunlight has a wonderful "extra-soapiness" that enables you to get right at the soiled

parts at once. Just a touch leaves a thin soapy film in contact with the dirt. As the clothes are washed, this thin soapy film lathers instantly into rich thick suds that speedily loosen every last speck of grime.

That is the Sunlight method—a method that saves so much time and work you'll want to use it for all your washing and for your household cleaning as well! Sunlight is all-pure soap—gentle and safe for everything you wash—gentle to your hands, too.

You can't do without SUNLIGHT SOAP A LEVER PRODUCT

MACARTHUR TAKES COMMAND

The selection of General Douglas MacArthur to take supreme command of the forces of the United Nations in the Southwestern Pacific, coupled with the announcement of the arrival of substantial United States ground and air troops in Australia may indicate a turn in the Allied policy in its war with Japan. Although the rather unpleasant position held by MacArthur and his men in the Philippines has been anything but favorable to an offensive war, the strategy displayed by the Philippines commander has been based essentially on offensive action. Although outnumbered, the General lost no opportunity to strike out at the enemy whenever the chance offered, with the result that his position on the Bataan peninsula has not materially weakened since the first surprise of the Japanese attack was over.

The new United Nations commander is a veteran of the Far Eastern military machine, being the second generation of a family which has served the United States in the Orient, his father being a veteran of the Philippine campaign at the beginning of the century. MacArthur has commanded the Philippine army since 1933, when he completed a tour of duty as Chief of Staff of the United States War Department. Assigned to Manila as military adviser to the Philippine Commonwealth Government, he undertook the organization and training of the Philippine army, which with United States forces in the Philippines has defended these islands against the Japanese in a campaign that has won the admiration of the world.

Despite the fact that mobilization of the Philippine army was not completed, MacArthur's principal forces were able to delay the invading Japanese drives to permit withdrawal from Manila, which was declared an open city and was not defended, toward Bataan peninsula on the Western side of Manila Bay. In the early fighting, air forces under MacArthur's command inflicted heavy losses on Japanese invasion fleets, including the sinking of the Battleship Haruna off Northern Luzon. The Japanese, however, obtained aerial superiority almost immediately, and the heavy bombers of MacArthur's forces were withdrawn to the Netherlands Indies after enemy bombing had destroyed the usefulness of their bases. MacArthur still retained an unspecified number of pursuit planes, which he fitted out temporarily as bombers for raids against Japanese installations in the Philippine Islands. To date the Japanese have extended control in the Philippines over the major portion of Luzon, the Island of Masbate, and a part of the Southern Island of Mindanao. MacArthur, his communications apparently still in good order, has been able to keep in touch with the operation of numerous guerrilla bands on the Philippine Islands, including such irregular forces in the portions of Luzon which the Japanese supposedly had occupied completely.

HITLER EXCUSES HIMSELF

Herr Hitler's Memorial Day speech in Berlin on Sunday has received less attention abroad than any other he has delivered since the war began, and yet it strikes some observers as being one of his most important utterances, for it is a tacit admission that things are going badly for the Fatherland. The unconquerable Hitler finally has had to come before his people and admit in as euphemistic terms as possible the terrific beating which the Nazi armies have been taking at the hands of the Bolsheviks. It is safe no longer or wise to evade the truth.

The Fuehrer blames his troubles on what he describes as the worst Russian winter in 140 years. That is a long time to go back in weather records, and gives rise to the suspicion that it is calculated to antedate the great Napoleon's disastrous retreat from Moscow in 1812 and thus minimize the present misfortunes. Still, this thin sugar-coating to the pill cannot conceal the evil taste of the dose from the German public. The Nazi chief's speech is fair indication that he is worried. Acting Secretary of State Sumner Welles of the United States goes even further and declares that "there is implicit in every word and every phrase Hitler's own recognition of his impending downfall."

Quite likely the Fuehrer's boasted "intuition" has indeed shown him some unwelcome writing on the wall. In any event he has called on his people for greater efforts and has warned that "the Bolshevik colossus is a cruel menace."

However, while all this is encouragement for Hitler's enemies, it would be a vast mistake to place any dependence on the weakness which his war scheme has developed, for he is still the greatest threat which the Allies face. You want to keep your fingers crossed when you even let yourself think that he may be on the way out, for he is likely to prove most dangerous when he is cornered. The Nazi dictator is not beaten yet.

The moral of Hitler's confession is that now is the time, when he is showing signs of weakness, to redouble the effort to finish him off before he has a chance to recover. As Maxim Litvinoff, Soviet Ambassador to Washington, said in urging greater Allied efforts:

"Time is but a treacherous ally, ready to fight on either side."

The way to beat Hitler is to jump on him with both feet, hobnails and all, while he is part way down. That is not according to the Marquess of Queensberry's rules for gentlemanly fighting—but this isn't a Queensberry type of scrap.

The Bolsheviks have given a fine example of what is called for. When the fierce Russian winter caught the Hitlerites unprepared deep in Soviet territory, the Reds struck at them with all their might. The Muscovites themselves had taken fierce punishment and up to that juncture had been mainly on the defensive, battling for every inch of ground they had to give up. But they pulled themselves together and counter-attacked—they rushed green men through training and flung them into their battered lines—they worked day and night to create new war factories to replace those destroyed.

All through the horrors of the winter the Russians have hammered Hitler until now he is showing weakness. Along the Northern two-thirds of the long battle line the winter still has a month or six weeks to run. And the Reds are redoubling their efforts to try to deliver the knockout.

To do that they need military equipment. That's America's cue. Every part that's added to a tank or airplane in North America plants is another nail in the coffin of Hitler's hopes. And since the Japs are riding on Hitler's coattails, his finish means theirs.

Production will play a large role in Russia's swelling offensive. The experts in British and American shops, whose technical training is essential to the production of war machines, may hold the balance of power between victory and defeat. And time is racing to the crucial spring.

FROM THE RECORD FILES

Impressive ceremonies were held in Havana, Cuba, for the bodies of the crew of the U. S. Battleship Maine, recently raised from Havana Harbor where it had been sunk prior to the outbreak of the Spanish-American war. The remains of the ship itself were taken out into the Gulf of Mexico and scuttled.

A general advance in the price of foodstuffs and other consumer goods is reported from the Old Country, where trade is virtually paralyzed as the result of the coal mine strike, which has spread to some other industries.

Railway service in many parts of the Eastern Townships has been curtailed or cancelled owing to the heavy snow and unusually cold weather.

The following directors have been named for the Eastern Townships Telephone Company, recently incorporated to take over the People's Telephone system: Lt.-Col. E. S. Bernard, C. H. Kathan, William Farwell, J. A. Begin, C. A. Jenkins, B. Quinn, C. H. Lovell, M.P., C. A. Young, J. A. Gauthier, L. W. Wright, Dr. H. A. Meagher and C. H. Fletcher.

PRESS COMMENTS

AUSTRALIA'S DEFENCE
St. Thomas Times-Journal

Java is Australia's last line of defence before being subject to direct attack. Allied strategy appears to be a holding operation in the Netherlands East Indies so as to give time for the defence of the only Dutch possession that has not been sacrificed.

Darwin in the extreme North of Australia is a naval and air stronghold. If Java falls and Darwin is made untenable by constant aerial assaults, there is only one thing that will save Australia from becoming a battleground as France, Greece and all the other countries became battlegrounds. That is a vast desert which is as dry as the Sahara, worse than Libya, a sort of defence in depth which proved so successful in the case of Moscow. It is rough ground covering over 500,000 square miles, and within that area, 100,000 miles greater than the whole of Ontario, there are only about 5,000 people. If the Japs started to march South they would have to take everything with them, even water. There is a 650-mile highway to Darwin, but that would be destroyed.

The Japs would rely heavily on air power. Still, it is an uncomfortable feeling to know that there is a ferocious and fanatical enemy army on one's homeland.

NEED YOUNG MEN IN PARLIAMENT, TOO
Ottawa Journal

Not only for combatants is this a young man's war. It is noticeable that of the civilians brought to Ottawa for important posts in war industry and war finance the majority are men under 50—men old enough to have had long and varied experience, but young enough to stand long hours of hard work, to welcome new ideas, to stand the rough and tumble of new circumstances and new conditions.

It is an extraordinary fact, however, that the same call upon the younger men has not extended to the political field. When we pick members for Parliament the tendency is to reverence age, and to assume that wisdom comes with grey hair.

A quick survey of the Parliamentary Guide shows that of the 245 members of the House of Commons 56 are over 60 years, or nearly one-quarter of them, and more than one-half, or 139, are over 50. Of the senators 73 in the chamber of 96 are over 60. And in the Cabinet itself, only three of 19 members are under 50—sixteen are more than 50, seven are above 60, and one has passed 80.

We should have in Parliament more of the fire and vigor General McNaughton is trying to develop in the Army through bringing along young men to high posts. A young man's army run by a Parliament and Cabinet not so young might lack something in the hard, smooth efficiency which is General McNaughton's objective.

ORGANIZED JUSTICE
Daily Telegraph and Morning Post, London

If anything more is to come of the policy of retribution for war-crimes than came of it after the last war, it must be kept before the mind of the civilized world, and not allowed to degenerate into a mere emotion of revengefulness that ends in nothing. Dr. Temple dealt recently with this subject in his presidential address to the Convocation of York, drawing the essential distinction between "just retribution as a means to the vindication of moral principle" and the simple returning of cruelty for cruelty. The radiation of the barbaric rule of mere retaliation lies at the root of Christian morals; and some of the correspondence that has appeared lately in this paper suggests, or indeed demonstrates, that there are those who, on grounds of religious principle, would rule out the idea of retribution altogether.

This war is an open-and-shut proposition—open mind and shut mouth.—Owen Sound Sun-Times.

FRENCH PRESS

UNFOUNDED FEARS
L'Information, Montreal.

At the beginning of the (Victory) campaign there were those who doubted of its success. They insisted, for example, that the time of year was very badly chosen to undertake a campaign of that nature. It was difficult, they said, to reach everyone because communications would necessarily not be as good as in the summer. On the other hand, it was argued that the second loan came too soon after the first. Canadians had just subscribed \$800,000,000. It was not easy to see how they could, a few months later, subscribe as much once more. It is also to be noted that some people reproached the Government with launching this loan without having made known the budgetary measure for the next fiscal year, that is to say, without having informed us of the taxes we would have to pay in 1942-43. All these critics no doubt spoke quite understandably, but it will be established by the results that the fears entertained were not justified. As Mr. Spinney, chairman of the committee of the second Victory Loan, said, it can no longer be a question of selling Victory bonds, for everybody in Canada understands that it is his duty to buy them. Under these conditions the time of year was of very secondary importance in view of the fact that it was less necessary than before to see every person individually, since everyone, according to Mr. Spinney, should clearly understand the existing situation.

Today's Favorite Poem

I NEVER HEAR

Her eyes were blue
Like pieces out of a one-time Danish sky.
Her hair was gold,
Gold as corn in the fields that used to smile
Beneath an unclouded Danish sun. . .
She did not smile, as we walked along
Where fields rolled wide and free and where
hills arose.
Canadian fields, Canadian hills.
"Your people—they are safe?" I asked.
"Back on the farm in Denmark—they are well?
Your mother, and your brother Andres, and—"
She shook her head. "I do not know. I never hear.
It's good to be in Canada. But oh,
If I could hear from home!"
Some day
Our suffering world shall know a lasting peace,
And new Canadians shall hear from home.

—Mary Katherine Bell.

THE WAR STORY

HAVE A SMILE

Mary: "How is it Bill never takes you to the movies any more?"
Heim: "Well, one evening it rained and we stayed home."

An inspector, after examining a class in school one day, asked, "Who drove the Israelites out of Egypt? You!" he said, pointing to a small boy in the corner.
"No, sir, 'twasn't me," replied the boy, trembling. "I only came back from the country last week."

Doctor: "I can't quite diagnose your case. I think it must be drink."
Patient: "All right, doctor, I'll come back when you're sober."

A minister was asked by one of his least respectable parishioners to say prayers on Sunday for Anna Bell. He did so.
A few days later the pastor asked the church member if he wished the prayers for Anna Bell to be repeated. "No, thank you kindly," answered the man. "She won't last Wednesday at seven to one."

"This crime," said the judge, summing up, "was carried out in an audacious and skilful manner."
Blushing, the prisoner interrupted. "Now, my lord, no flattery, please."

"Ah say, Mary, would you jest soon?"
"Look here, Jim Jackson, don't you get fresh wif me. Mah name's Miss Smif, not Mary. I don't low only mah bes' and mos' paticular friends to call me Mary."

"Ah begs yo' pardon, Miss Smif. But say, miss? Would you gif to de oder knee? Dis one's getting tired."

Mr. McPherson gave some advice to his wife when they were expecting friends to tea.
"Just mind, Jeannie," he said, "to put the sugar-tongs in the basin, an' not a spoon."

"But we have no lump sugar in the house," she expostulated. "We've only granulated."
"I was mindin' that," said McPherson.

Miss Bride (loftily): "Oh, I didn't accept. Arthur the first time he proposed."
Miss Rival: "No, dear; you weren't there."

Attorney: "Where was the defendant milking the cow?"
Witness: "It's hard to describe, Judge, but if you'll bring in a cow, I'll show you the exact place."

McKENNEY ON BRIDGE

By Wm. E. McKenney, America's Card Authority.

PLAYER BLOCKS OWN SUIT DELIBERATELY; WINS EXTRA TRICK

This is the third of a series of six articles on colorful hands played in 1941.

I happened to be a kibitzer at a rubber bridge game when today's hand was dealt. The bidding of course was inaccurate, since it failed to uncover the fact that North-South held no diamond stopper. But a very pretty point arose in the play. East won the opening lead with the king. He returned the jack, avoiding the usual return of the fourth highest card since to do so might block the suit. Then he led the nine, West overtook, and East was surprised to find himself back in the lead with the three of diamonds on the fourth trick. This was because West had carefully saved the deuce to force him in.

East made the obvious lead of a spade, and so West made a trick with the queen of spades, which otherwise would have been lost. I said to West, "How did you have the foresight to save the deuce of diamonds?"

He replied, "When I saw dummy I knew that declarer could cash five clubs and some hearts as soon as he got in. We were sure to get five diamonds and the ace of spades, but the minute the jack of diamonds came down I planned to block our suit and force East to lead spades. So I played the eight on the jack, instead of the deuce."

"Well," I said, "I only wish that

the late Milton C. Work could have been here. Back in 1925 or earlier in one of his auction bridge books he gave a hand just like this to show how a defender might gain by deliberately blocking a suit.

"In some points the resemblance to the hand you just played is startling. The crucial suit was diamonds, the leader held five headed by ace-queen and ending with the deuce, his partner held four diamonds topped by the king, and the leader's tenace that he wanted led up to was the ace-queen of spades doubleton!"

IN THE WOMEN'S SPHERE

Sherbrooke Library Book Review

Messrs. George Christion, Jr., and Wesley W. Bradley today review two of the latest books to arrive at the Sherbrooke Library.

Walter D. Edmonds, the author of such well-known novels of American life as "Drums Along the Mohawk" and "Chad Hanna," has now had published in book form under the title of "Young Ames" the complete series of connected stories which appeared from time to time during the past few years in the Saturday Evening Post.

"Young Ames" relates the adventures of a country-bred boy, John Ames, who, in the year 1823, arrives in New York City with no near relations and no immediate prospects of livelihood other than an immutable determination to become a millionaire in the best rage-to-riches tradition.

From this point on we are shown in what manner and to what degree this aim is fulfilled; from the time when John Ames, unemployed and aged eighteen, is taken on as office boy by the mercantile firm of Chevalier, Deming and Post, to the moment, some three years later, when our hero becomes a partner in the same firm.

Between these two momentous dates John Ames falls in love at sight with an unknown young woman who he later learns is the niece of the senior partner of the firm for which he works. Nothing daunted by the difference in their social positions he attends a New Year's reception given by her uncle and effects a meeting; the difficulty that

Of particular timeliness is C. Hartley Grattan's new book, "Introducing Australia" (The John Day Company, New York, February 1942). Designed primarily for American consumption, it contains much material of particular interest to Canadians and to all who have but a hazy idea of the land "down-under" and the people who dwell there. Mr. Grattan's survey of Australia, her people, institutions and problems is not by means a superficial one. He has spent considerable time there since 1927, much of it under the auspices of the Carnegie Corporation which made it possible for him to spend (in his own words) "my twenty months in Australia, acquiring a wide and accurate knowledge and travelling widely within the Commonwealth to familiarize myself with the environment in which Australian events take place."

Such then is the background of the book. At times it is reminiscent of John Gunther's style in his "Inside..." series, but Mr. Grattan is gifted with more powerful facilities of analysis and insight than the former. He also avoids personalities to a greater extent than Mr. Gunther. This is by no means a superficial book, although that does not mean that it is not a "popular" appeal and will not please a wide variety of readers. "Introducing Australia" contains a wealth of information served up in an attractive and readable form. The photographs which serve as illustrations, the maps which accompany the text and the tables and other material in the substantial appendices are all excellent.

Worthy of particular mention is the very good analysis of British Commonwealth constitutional relations—always a somewhat confusing and complicated business to a foreigner. Mr. Grattan has written one of the best short summaries that it has been my good fortune to read.

Written before the outbreak of hostilities in the Pacific, the author's predictions of future course of events are interesting. Subsequent events illustrate the realistic and authoritative character of his conclusions. His chapters on post-war reconstruction and rehabilitation contain many matters of special interest to thoughtful Canadians.

Of outstanding interest was the Educational Secretary's review, read by Mrs. Munster, the Provincial and National Treasurers, and moved a special vote of thanks to Messrs. G. S. Sharpe and P. W. Johnston, auditors, for their valued services.

The announcement made by Mrs. A. A. Munster, Organizing Secretary, whose comparative statement of the chapter membership created great interest, that in 1941 the combined membership of the Sherbrooke I.O.D.E. totalled 239 and had increased to 339 this year was a special feature, as was the information gleaned from Mrs. R. M. Loomis, the report on Child and Family Welfare that this important work, upon which \$925 had been expended, had been faithfully carried on.

Year Of Outstanding Achievement By I.O.D.E. Chapters Is Reviewed

Last night the Imperial Order Daughters of the Empire in Sherbrooke, through their Municipal Chapter, wrote finis to a year of outstanding achievement and high endeavor, closing a page in the local history of the Order upon which they may well look back with pardonable pride and satisfaction as having nobly contributed their "bit" in defence of the British Empire in her darkest hours of war and tribulation.

Happy indeed are the I.O.D.E. in this city in having for their Chief Executive Mrs. W. E. Loomis, whose loyalty, dignity and kindly tact have even an inspiration to emulate the highest ideals of the Order, the members giving tangible expression to their esteem in re-claiming her as Municipal Regent last evening.

Among the most outstanding highlights of the largely-attended annual meeting was the wonderful war service report, presented in detail by Mrs. A. W. Reid, whose unavoidable resignation as its convener, and as Secretary of the Chapter, is keenly regretted by each and every member of the Order.

In close rivalry comes the financial statement presented by Mrs. Matthew Graham, treasurer, who stated that during the year just ended, the Primary and Municipal Chapters raised for the general purposes of the Order \$2,342.49, of which amount \$2,309.94 was disbursed and these same Chapters have on hand \$1,053.73 with which to start the year's work. The Primary and Municipal Chapters raised \$5,044.09 for war services, of which amount \$4,553.71 was spent. These Chapters have \$1,053.95 on hand to start this year's work.

In conclusion Mrs. Graham quoted congratulatory remarks from both the Provincial and National Treasurers, and moved a special vote of thanks to Messrs. G. S. Sharpe and P. W. Johnston, auditors, for their valued services.

Social and Personal

Mrs. B. Cohen spent the past week-end in Montreal.

Friends of Mr. A. H. Cross will regret to hear that he is a patient in the Sherbrooke Hospital.

Friends of Mr. Lionel Forest will regret to hear that he is seriously ill at his residence on Moore Street.

Flight-Lieutenant H. E. D. Ashford, R.C.A.F., is spending today in Sherbrooke visiting his sister, Mrs. Nelson Lothrop, and Mr. Lothrop, at their home on London Street.

Pte. John Davis, Sherbrooke Fusilier Regiment, C.A. (A), arrived from Debert to spend his furlough with his wife and family at their home on Wellington Street South.

Mrs. O. R. Webster and her daughter, Miss Patricia Webster, returned last night from Boston and New York where they have been visiting friends for the past ten days.

Mrs. W. E. Loomis, Regent, acted as hostess last evening serving dainty refreshments at the close of the 11th annual meeting of the Municipal Chapter, I.O.D.E., at the MacKinnon Memorial. Assisting were Mrs. Walter Kinkead, Mrs. Gordon Loomis, Mrs. J. W. Thompson and Mrs. Ross Bishop.

On February 20th, 1942, Sub-Lieutenant John H. E. Colby, R.C.N.V.R. of Montreal, and Miss June Arnot, of Elnabank Bowling, were married in Glasgow, Scotland. The bridegroom is the son of the late Dr. and Mrs. J. C. Colby, of St. Andrew, the grandson of the late Hon. C. Colby, of the late Senator G. G. Stevens, and the granddaughter of the late Sir Bruce Seton, Bart., C.B.

Miss Ella Sykes entertained the members of the Jolly Friends Club very pleasantly last evening at her home on Island Street. Cards were played at two tables, the prizes being won by Mrs. Hopkinson, Mrs. H. L. Ames and Mrs. Phelps. At the conclusion of the game the hostess served dainty refreshments, each service plate being daintily garnished with sprigs of green. The St. Patrick's motif was prettily continued with a green and white table cover and matching serviettes. Mrs. M. Miller assisted the hostess in her pleasant hospitable duties.

requests been refused. We have received many requests for a share of space in the columns of the press. No item has been too long or too short to receive the attention of members of Sherbrooke's Fourth Estate, whose knowledge of our work has often been embodied in Editorials and Press comments in most laudatory terms.

The election of officers for 1942 made only a few changes in the 1941 personnel. Following is the slate as presented by Mrs. A. W. Reid: Mrs. W. E. Loomis, Regent; Mrs. Malcolm H. Mitchell, First Vice-Regent; Mrs. A. L. Duberger, Second Vice-Regent; Mrs. Gordon Loomis, Secretary; Mrs. K. D. Jencks, Assistant Secretary; Mrs. Matthew Graham, Treasurer; Mrs. A. A. Munster, Organizing Secretary; Mrs. H. Gallinger, Educational Secretary; Miss Mary Mitchell, Standard Bearer, and Mrs. Walter Kinkead, Echoes Secretary.

Upon resuming the chair the Regent thanked the members for the privilege they had once again conferred upon her and for their expression of confidence expressed in her re-election.

Mrs. Loomis warmly congratulated the officers and members upon the wonderful work achieved during the past year, especially mentioning Mrs. A. W. Reid, Mrs. Malcolm Mitchell, Mrs. A. L. Duberger, Mrs. K. D. Jencks, Mrs. Gordon Loomis, Mrs. K. D. Jencks, Mrs. Matthew Graham, Mrs. A. A. Munster, Mrs. H. Gallinger, Mrs. Mary Mitchell, Mrs. Standard Bearer, and Mrs. Walter Kinkead, Echoes Secretary.

The Regent's closing remarks were potent with loyalty, as she stressed the importance and solemnity of the "oath of allegiance" which each and every member takes before she is admitted to the Order.

"We, as members of the Order, should set an example," the Municipal Regent, "in loyalty to our Order, to each other, as well as to our King and Empire.

"Guard your speech in war time," advised the Chief Executive, "much is expected of women today and we members of the I.O.D.E. must take precedence in kindness and consideration, never forgetting loyalty to officers and members of the Order to which we have pledged our allegiance."

A vote of thanks to the retiring officers was moved by Mrs. A. W. Reid and seconded by Mrs. A. A. Munster.

The meeting closed with "God Save the King."

Mrs. F. N. Westman, who has been quite seriously ill, is somewhat improved in health.

The many friends of Mrs. L. L. Mackay were indeed sorry to learn of her illness. Mrs. Mackay is a patient in the St. Vincent de Paul Hospital, Sherbrooke. She was accompanied there by her husband, Mr. L. Mackay.

Mrs. M. Bartlett, who has spent several months at the home of Mr. and Mrs. H. H. Bishop, has returned to Bishopton.

The highway between Sherbrooke and Debert was opened for traffic on March 14th.

Messrs. Kenneth Currie and Clinton Weston were in Sherbrooke on March 14th.

Sgt. Pilot Arnold Elliott, who has been on furlough at the home of his parents, Mr. and Mrs. Elliott, left on March 11th, for Halifax.

ADD FLAVOR AND SAVOR TO MEATLESS MEALS

BY MRS. GAYNOR MADDOX
It's important to add taste interest to Lenten meals. Fish, seafood and eggs, all excellent protein sources, should be prepared carefully and served attractively. Warmtime demands that every ounce of food cooked be eaten. That means good cooking is a patriotic "must."

SAVORY SHRIMP PIE (Serves 6)

Two No. 1 cans shrimp, 1/2 cup sliced stuffed olives, 1 cup cooked celery, 1 No. 1 can asparagus or fresh asparagus, 1/2 cup chili sauce, 1/2 standard baking powder biscuit recipe.

Drain shrimp and combine with olives, celery, asparagus, and chili sauce. Cook over low heat for 10 minutes. Remove to casserole. Roll out biscuit dough to 3/4-inch thickness. Cut in squares and arrange on top of shrimp mixture. Bake in a moderately hot oven (400° F.) for 18 to 20 minutes.

TOMORROW'S MENU

BREAKFAST: Grapefruit and orange juice, oatmeal, coffee, milk.
LUNCHEON: Corn chowder, whole-wheat bread, chopped lettuce sandwiches, canned fruit, tea, milk.
DINNER: Savory shrimp pie, watercress, tomato salad, orange Bavarian cream, coffee, milk.

BAKED SPAGHETTI WITH EGGS

Six eggs, 1/2 package spaghetti, 1 pint milk, 3 tablespoons flour, 3 tablespoons butter, 3 green pepper or pimiento, chopped, curry powder or Worcestershire sauce to season, 1 teaspoon salt, pepper to taste.

AFTER ALL WARS ARE LONG Plainfield, N.J., March 18.—(AP)—Dr. H. S. S. Chinese Ambassador, said last night, Americans need not worry because the war hasn't been won in three months. China, he remarked, has been warring for four years and eight months. The Ambassador said critics of Great Britain "sometimes forget there are only 80,000,000 critics in the whole Empire, the same number as in Germany."

EXAMPLE OF FIRST AID TRAINING

An excellent example of first aid training being given to members of the Brome County C.P.C. is exemplified in the following official report, submitted by A. J. Todd, Chief Warden for the Sutton Junction Unit of the Brome County C.P.C.

On the afternoon of March 6, 1942, Mr. Todd was called to the scene of a serious accident in the woods covering the property of Reubin Martin, of Sutton Junction.

On reaching a house the injured man was placed on a bob sleigh, covered with branches. He was transported in this manner through woods and across the countryside to a house where he could be placed on a firm couch. Dr. Boulay, of Sutton, was telephoned and arrived within a short time.

X-rays were taken at the Royal Victoria Hospital and Dr. Cone sent for Mr. Todd and congratulated the first aid man on his handling of the case and for the help he was able to give medical authorities.

The Brome County Chairman of the C.P.C. has commended Mr. Todd and forwarded an official report to the St. John Ambulance Association. Mr. Sutcliffe states that such cases are ample proof of the necessity for first aid training in all C.P.C. units, rural as well as urban.

RETAIL TRADE DELIVERIES TO BE RESTRICTED

Administrator of Services Orders Single Delivery Daily in Each Area to Conserve Rubber and Equipment.

Ottawa, March 18.—James Stewart, of Toronto, Administrator of Services for the Wartime Prices and Trade Board, has started a campaign to conserve rubber and motorized equipment by ordering curtailment of retail deliveries.

After tomorrow no retailer may make a delivery to a customer of either himself or a customer more than one regular delivery a day over any particular route or in any particular area except with special authorization of the administration. The Prices and Trade Board said last night.

Authority is also required for any type of special delivery. The Board said, but delivery of daily newspapers, and of fuel including coal, coke, oil and wood is exempted. So are deliveries to hospitals, railways and attachments on to the Defence Munitions and Supply Department.

An order was said to be expected this week prohibiting double-breasted suits and trouser cuffs and limiting the number of pockets in garments.

BRITISH PLACE FURTHER CURBS UPON CLOTHING

Reduction of About One-Fourth in Clothing Allowance Becomes Effective on June 1—Designs Simplified.

London, March 18.—A reduction of about one-fourth in Britain's clothes ration starting June 1—from sixty-six coupons a year to a rate slightly over fifty-one—was announced today.

Sixty coupons will be issued for a fourteen-month period. Only twenty of these will be available between June 1 and October 10 and the remaining forty must last until the end of July, 1943.

Coupons on the current card will be valid until October 10. The practice of giving extra coupons awards to children and workers with special needs will be continued.

Some 10,000,000 industrial workers will not be asked to bear the full cost of most of their getting their supplementary coupons which will be valid after October 10.

A Government spokesman said the reduced ration would affect persons mainly in sedentary occupations and those living at home.

An order was said to be expected this week prohibiting double-breasted suits and trouser cuffs and limiting the number of pockets in garments.

CHURCH GROUP HELD MEETING AT RICHMOND

Mrs. S. J. MacNaughton, President of the Women's Association of Richmond and Melbourne United Church, Presides at Monthly Session.

Richmond, March 18.—Mrs. S. J. MacNaughton, President of the Women's Association of the Richmond and Melbourne United Church, presided at the regular monthly meeting held in the Melbourne Church Hall.

The meeting opened in usual form after which the minutes of the previous meeting were read and approved. Included in the correspondence read was a letter of thanks from Mrs. H. Jones for the remembrance sent to Mr. Jones and herself, namely a leather bilfold and gold brooch by the W.A. on the occasion of their fiftieth wedding anniversary. Mrs. Fred Dyson, in addressing the chair, voiced her appreciation of the outstanding work done in the church by Mrs. Jones, and added that she personally could look back through the vista of years, recalling that there were few indeed who had worked so wholeheartedly as Mrs. Jones for the past fifty years.

The Treasurer's report showed a substantial balance on hand. Miss Nellie Burrill, reporting for the Flower and Card Fund, said fruit had been sent to shutins, also cards. Group reports showed that two quilts had been made by the Ruby Group. A food sale was held by the Melbourne Group, the other groups being inactive during the month.

Mrs. C. R. Boast reported that thirteen boxes had been sent to boys in Overseas service for Easter. The Red Cross unit report was given by Mrs. W. Moreland, who stated that 255 articles had been made during February.

At the end of the business session, refreshments were served by the hostesses, Mrs. T. P. Ross, Mrs. S. J. MacNaughton, Mrs. W. Lyster and Mrs. E. G. Pierce.

Thirty-One Lads From Bury Took Part In Gallant Stand

The contribution which has been made to date to Canada's war effort by Eastern Townships municipalities, from the point of view of men who have joined up for active service and the generous support that has been accorded every venture launched on behalf of the titanic struggle being waged to save democratic ideals and principles, is a source of pride to every resident of this district.

trained at Valcartier from July to September 30, 1940, and left Sussex on December 1 of the same year for Newfoundland where they remained until August 31 of 1941 when they returned to Valcartier. They again left Valcartier on September 23 for Saint John, N.B., returning to Valcartier on October 11 and leaving twelve days later for Hong Kong via Vancouver.

Among the thirty-one men from Bury were two officers—Major W. A. Bishop and Major Thomas G. MacAulay. Major Bishop is the only son of the late Shirley Bishop, of Marleton, and Mrs. C. A. Stokes, of Bury, and was born in Marleton in 1895. He is in the Canadian West upon the outbreak of the First World War and enlisted with the 49th Battalion at Edmonton, the first Canadian Regiment to go Overseas. He was wounded three times at Vimy and Mons and spent a year in hospital in England. He received two medals, the King George V. Service Medal and another decoration for bravery at Mons. Returning to Canada late in 1919, he was connected with the 7/11 Hussars until he transferred to the Royal Rifles. He married Miss Marjorie Stokes, of Bury, and has one son, Eugene. Major MacAulay, 45 years old, is the son of the late Mr. and Mrs. John MacAulay and is also a veteran of the First World War, having enlisted with the 11th Battalion and later transferred to the 5th Mounted Rifles. He received the D.C.M. at Passchendaele. He married Miss Evelyn Sherman, of Scottstown, and has two sons and a daughter.

FINDING METAL FOR WAR NEEDS IS MAJOR TASK

Canada's Metal Controller Brings Long Experience with Public to Aid in Important Job.

By JACK WILLIAMS (Canadian Press Staff Writer) Ottawa, March 18.—George Cecil Bateman may be remembered by the Canadian public as the man who took the tin out of cans, he may be remembered by soldiers as the man who found metal for their tanks and guns and he may be remembered by miners as the executive who was at the helm when the Canadian mining industry went to an all-time high to meet war demands. But this sixty-year-old mining engineer from Toronto is concerned at the moment only with one thing, that Canada and her allies shall have cause to remember there was enough metal to fight through to victory. That's his job as metal controller. He is one of the men who have stepped from private industry to a Government position and is finding a Government job without salary often means a lot harder work than an executive position in private life but he is enjoying it.

discussing Canada's wartime metal problems, but not at length—time is too valuable. He sits behind his desk in the corner, a plain sort of desk, similar to hundreds at which minor clerks sit in government offices. A man of moderate height, rather stocky, bald, with a fringe of ruffled dark hair. He takes his pipe out of his mouth, covers the bowl with the palm of his hand when he talks. He is serious when he talks of his job. He knows it is a serious job, in a mechanized war victory or defeat may easily hinge on metal, but there are periodic flashes of humor and a spontaneous smile. Before he came to Ottawa last year, Mr. Bateman was secretary-treasurer of the Ontario Mining Association. Part of his job was developing co-operation among Ontario mine operators in accident prevention, in fighting silicosis, and in other fields of common interest. Developing co-operation is part of his job now and he is equipped with plenty of authority to enforce co-operation, but there is little use for the "big stick" methods, he says. The mines are co-operating "wonderfully."

And the public? "Well the public is just a bit ahead of us," he says. "We told them restrictions were coming and they seemed to welcome them, they feel they are helping when they give something up, and they are. There will have to be more restrictions, too, there is no doubt about that." Canada's metal contribution to the war is likely to have an important effect on her mining industry after the war Mr. Bateman says. Already the largest metal exporting country in the world war conditions have opened new fields and several important metals previously imported now are being produced in Canada. Canadian mines may have a more important place in world trade than ever before, that is an interesting thought for this man who has mined iron in Nova Scotia, silver in Mexico and gold in Ontario; but right now he hasn't much time to think about it. He is too busy finding metal to fight this war with.

STANBRIDGE RIDGE

Mrs. Belle Huse, of Lawrence, Mass., has been spending a short time here with her parents, Mr. and Mrs. Delbert Corey. Mr. Mervin Corey and son, Eric, went to Pike River, recently. Lawrence Lawlor of the Canadian Active Army, who has been sent from Newfoundland to Nova Scotia,

PROBE ORDERED INTO BLAST AT NIAGARA PLANT

Two Persons Killed and Five Injured by Second Explosion at Chemical Plant in Few Months.

Niagara Falls, Ont., March 18.—Investigations were proceeding today into an explosion Monday in an isolated building of the Welland Chemical Company about seven miles southwest of here. Two men were killed and five injured. Steve Keleman Diens of Port Colborne, Ont., and Alfred Lever of Merriton, Ont., were fatalities in the explosion with Donald Brooks, Paul Campbell, Paul Scott, George Smith and Paul M. Reilly injured. Addresses of the injured men were not available. Campbell and Brooks, with severe burns and lacerations, were more seriously injured than Scott, Smith and Reilly. The explosion was caused by a rupture in cooling coils and was felt in a ten-mile area around the company property. The building in which it occurred was wrecked but only slight damage was believed done to other buildings of the plant. It was the second explosion within seven months at the plant, in which about two thousand persons are employed. Three men were killed and thirteen injured last September 3 when a faulty pressure-valve caused an explosion.

OBITUARIES

HARRY NELSON RICKARD, OF DERBY LINE.

Derby Line, March 18.—Harry Nelson Rickard, a much respected citizen of Derby Line for many years, passed away at his home here on Thursday morning, March 12, after a lingering illness. For some years he had been spending his winters in Florida, but last fall did not feel equal to the trip and entered the Royal Victoria Hospital in Montreal as a patient of Dr. Hamilton, where he remained for a week for observation and treatment, and then returned to his home here.

The funeral was held at the home in Derby Line on Saturday afternoon, March 14, at 2:30 o'clock. Rev. H. A. Carson, of Stanstead South Church, Rock Island, officiating. The bearers were Messrs. B. Lewis, C. R. Darby, Fayne Hovey, Roy Petelle, Ben Hazen and Ralph Hunt.

Mr. Rickard was born at Fitch Bay, Que., on June 10, 1874, being a son of the late Nelson and Lavinia (Merrill) Rickard.

He began his business training with the late J. H. Merrill, Tomfoha, when that place was an active business centre. From there he went to Derby Centre, where he engaged in the hotel business. Coming later to Derby Line, he joined the clerical staff of the Caswell and O'Rourke store, where he was later taken in as a salesman. He was president of the Fitch Bay Cemetery Association. He is survived by his widow, Mary Reed, and one sister, Mrs. Lavinia (Rickard) Tanner, of Santa Clara, Calif.

ERNEST POMERLEAU, OF NEWPORT, VT.

Newport, Vt., March 18.—Ernest Pomerleau, of Newport, Vt., formerly of Derby Line, passed away at the O.C.M. Hospital at Newport, Vt., on February 26, where he had been a patient since New Year's Day. A High Mass service was conducted at St. Mary's Roman Catholic Church in Newport, Vt., on Saturday, February 28, Rev. Father Norbert Lachance officiating. The bearers were E. C. Duchesneau, Hiram LaBoulaye, Alec Lacasse and Joseph Demers.

Ernest Pomerleau was born in St. Epiroque, Que., on June 7, 1883, one of four children born to Anthonie and Marie Boldie Pomerleau. He married Alma Poulin, of St. Victor, Que., coming to the States in 1919. For eight years they resided in Barton, Vt., coming to Newport, Vt., in 1927. Three children were born of this union, Louis P. Pomerleau, of Newport, Vt., Mrs. Eli Bushnell, of Sherbrooke; Philip Pomerleau, of St. Victor; Rev. Father Armand Fortin, of St. Johnsbury, Vt.; Rev. Father Bisson, of Rock Island, and Mr. and Mrs. Latis, of Barton, Vt.

WINDSOR MILLS STAVES OFF ELIMINATION

Short-Handed Grant Gang Trounce Tribe By 7-4 On Arena Ice

Paper Makers Keep Hopes Alive in Best-of-Seven Eastern Townships Senior B Hockey League Playoff Series—Lick Indians Minus Doyle, Leger and Melanson—Teams Resume Play Tonight—May Battle to Finish.

With Joe Doyle, Francis Leger and Pat Melanson hors de combat, and with elimination staring them in the face, Dallas Grant's amazing Windsor Mills Paper Makers sprang a 7-4 surprise on Sherbrooke at the Arena last night to keep their flickering hopes alive in the best-of-seven series for the championship of the Eastern Townships Senior B Hockey League.

It was the way the Paper Makers won that made the fans sit up and take notice. They held full command of the play during the first period, held the home team even in the middle stanza, and then outscored the Corners Club 4-3 in the final twenty minutes.

The result showed that a club may be down but is never out until the final whistle blows. With three men out of action and trailing 2-0 in games after an opening 5-5 deadlock, it was expected that Sherbrooke would breeze through last night and go on to face Shawinigan Falls Cataracts, who took the Montreal and District League crown by outlasting Valleyfield 8-7 in a marathon game, but the Paper Makers fought like tigers from start to finish and fully deserved the triumph.

Sixth game in the series will be played tonight at nine o'clock, it was announced today. Before the game Grant and Corners will discuss whether or not, in the event of a Windsor Mills victory, the teams will play to a finish tonight. Time is short, and the winner should be ready to open the series with Shawinigan Falls tomorrow night.

Emile Letarte will miss tonight's game because of a bad ankle, and young Roger Bedard will take his place on the line with "Pee Wee" Leblanc and Ovide Gaudet. Windsor will still be without Melanson, Doyle and Leger.

There was some mighty hard hitting last night, particularly during the second and third periods. Bus McLanahan was rocking the local players at the Paper Makers' blue-line, knocking Yvan Dugre and Gerard Plamondon down like ten pins, while Dugre and Ranger were handling out the left in Sherbrooke's defensive area. Big Ben Bouchard, nineteen-year-old Windsor rear-guard, was in truculent mood and drew four minor penalties. He and Ovide Gaudet clashed near the boards in the third frame and for a minute it looked like a general free-for-all, as Bedard tried to jump over the backs of several peace-makers and take a clout at Bouchard. The two principals escaped with minor penalties.

Leading the Windsor Mills offensive were the three "Mighty Midges" Bob Morey, Robert Cote and Roger Desilet, fast-acting George Guilbeault, from Drummondville, and the two defencemen with forwards' characteristics, Jack Vitkuske and Bus McLanahan.

Desilet, Cote and Morey split eight points, with Desilet getting two

goals and an assist, Cote a goal and two assists and Morey one of each, while Guilbeault had a pair of goals and an assist. Vitkuske collected one goal and an assist, with McLanahan helping out on Cote's marker.

On Sherbrooke's first two goals the glory went to a pair of speedy youngsters. Leblanc tallied on Bedard's pass in the second period, and the tables were reversed early in the third. Sherbrooke's desperate rally late in the final stanza saw two veterans join forces, Fernand Ranger twice hanging in passes from an angle, while parked in front of Roger Longpre's crease.

A penalty to Letarte for slashing gave Windsor the break for the opening goal, halfway through the initial period. Desilet doing it all by himself. Then with less than a minute left, one of the prettiest plays of the season put the Grantmen up 2-0. Guilbeault racing around the right side of the Sherbrooke defence and laying a perfect pass on Vitkuske's stick. Big Jack made no mistake from point blank range.

Sherbrooke's first goal came at the twenty-second mark of the middle frame, and then the Indians staged a desperate attack when McLanahan and Bouchard were sent to the sin bin within a few seconds of each other. Windsor held the fort, however, and also kept the Tribe at bay when McLanahan took a penalty. Shortly after McLanahan's return he raced up to send Cote in for the third Windsor marker.

When the Indians were two men short, they failed to keep the Grant Gang in check, Guilbeault banging home the puck with Leroux and Boisvert assisting in the first minute of the closing chukker. The teams were even when Morey scored from Desilet and Cote in a precision passing play. Bedard, Guilbeault, Desilet and Ranger, 2, were the scorers over the rest of the route.

S.R.R.A. Snares Industrial Rifle Loop Championship

Although held to a 490-490 deadlock by the Rand while Dominion Textile defeated Lennoxville 493-492 in the last matches for the season in the Industrial Miniature Rifle League, the Sherbrooke Rifle Association carried off the league championship by a margin of three points over the Textilemen.

S.R.R.A. thus replaced the Rand snipers, who had topped the circuit for two years in succession, and during the season won eight matches, drew three and lost one for nineteen points. Textile won seven, lost two and tied two for sixteen points, with Lennoxville winning three, dropping eight and tying one for seven points. George Mulvagh, of Dominion Textile, who recorded the only possible of the closing shoot, retained the high individual average championship for the season with a mark of 99.42, followed closely by Elwin Patton, of S.R.R.A., with 99.25.

EDDIE SHORE'S SQUAD WINS IN PLAYOFF START

Eastern A.H.L. Champs Hand Indianapolis Caps 4-2 Defeat—Hershey and Cleveland Triumph.

The playoff trail for hockey's Little World Series is underway today and riding the coveted positions after first games are three clubs which have done consistently well in their respective Divisions through the regular schedule.

Springfield Indians, who had little trouble in clinching first place honors in the Eastern section, served notice they are going to be tough to beat for league honors, when they hung a 4-2 defeat on the Western Division champs, Indianapolis Capitals, in the first of their best-of-five game series last night.

On the other two league fronts last night, however, Western section clubs held forth as HERSHEY BEARS turned aside New Haven Eagles, 2-1, in the battle between second-place teams and Cleveland Barons trimmed its rival third-place finisher, Washington Lions, 4-1. Both these series are to be best-of-three game affairs.

While the Indians looked impressive in turning back a hard-fighting Indianapolis team, the highlight of the night's performance was supplied by Bill Summerhill, veteran right-winger, who spent a short time in the National Hockey League this winter with Brooklyn Americans.

Noted as a money player, the former Toronto amateur, labelled as one of the real comers in the big time when he jumped to pro ranks with Canadiens back in 1938, came through with three of the Indian goals to personally account for his

day and Saturday, probably will be pleased to know that they won't be unduly fatigued by the chore. . . . Doc H. C. Carlson, the Flyers' coach, has been making a study of the subject and his conclusion is that the athletes ease up late in the game before reaching their limit of stamina. . . . Only if the Indians let up, they'll likely get licked.

Shear nonsense! Jack North of the Des Moines Tribune claims Hal Trosky will be back with the Indians "providing he finds a good headache remedy and Cleveland raises the salary offer". . . . An unidentified Denver Post writer says: "Big Crosby's La Zonga is a candidate for the Arkansas Derby. All the crooner needs to do now is out a little la zonga in La Zonga."

Vanishing Amerks Fade Before Bruins, Putting Canadiens In Playoffs

Frankie Brimsek Wins Vezina Trophy for Second Time as Brooklyn's Lingering Hopes of Catching Montreal Are Blasted—Eliminations Start in Toronto Saturday Night and Boston and Detroit Sunday.

The Vanishing Americans have completed their annual March display of expert vanishing, leaving the National Hockey League's sixth place and last playoff spot safe in the clutches of Montreal Canadiens. Red Dutton's Brooklyn took their last dusting of the season in Boston last night, with Bruins winning 8-3 after piling up six goals before Amerks counted their first. The result gave Frankie Brimsek his second Vezina Trophy and wiped out Brooklyn's lingering hopes of catching Montreal and the sixth playoff berth.

Americans will disband today while the league's other six clubs prepare for the Stanley Cup playoffs, scheduled to start in Toronto Saturday night and Boston and Detroit Sunday. Toronto Maple Leafs and New York Rangers completed a deal by telephone last night whereby the opening game of their best-of-seven Stanley Cup semi-final series will be played in Toronto Saturday instead of in New York Sunday.

Boston will meet Chicago Black Hawks in one best-of-three quarter-final series while Detroit Red Wings and Montreal tangle in the other. Rookie Jack McGill continued the hot race to have been setting with Bruins by scoring twice and assisting on two other goals as the Brooks

team's victory. His first goal tied the score after Ed Keating had given Caps an early lead. Then he put Springfield ahead, with Bob Dill scoring again for Indians in the same period. His third marker came after Keating had tallied his second goal in the game, late in the closing session.

Although weakened by loss of several players due to injuries, Cleveland Barons looked anything but crippled as they walked through Washington's Lionel. The veterans Norm Locking and Joffre Desilet put Barons in front in the initial period and from there or Cleveland held sway with Rod Lorrain scoring the only Lion marker, which was followed by additional Cleveland goals from the sticks of Les Cunningham and Stan Smith.

Maybe the Barons were inspired by the pre-game announcement from President Al Suppin that he was adding \$3,000 to the players' share of the playoff pool, win, lose or draw.

It took Hershey until the second period before they could dent Goaler Phil Stein's armor for a pair of goals by Phil Hergeshimer and Wally Wilson, which gave them a lead they never relinquished.

Bill Altam, on loan from Buffalo, spoiled Nick Damore's chance for a shutout when he tallied a freak goal on a shot intended as a pass to a team-mate. This tally was nullified in the last period by Hergeshimer's second goal of the contest.

All in one series will be resumed tomorrow night. Springfield again plays at Indianapolis; Cleveland remains at Washington and New Haven switches to Hershey.

Today's guest star: Walter Stewart, Memphis Commercial Appeal; "George Washington Case, the Senator base burglar, has a separate source of income. His father left him a secret formula for horse liniment. It's in great demand on trotting tracks, but must be pretty useless in the Washington room. For few of Griff's hands are fast enough to raise a trot."
