VETERANS RENEW PICKETT'S CHARGE 50 YEARS AFTER

IMPRESSIVE SCENE AS OLD
BATTLEFLAGS REAPPEAR
ON GETTYSBURG FIELD.

Gettysburg, Pa., July 3.—A handful of men in gray re-enacted today the charge of Pickett across the field of Gettysburg. Up the slope of Cemetery Ridge where death kept step with them in '63, one hundred and fifty veterans of the Virginia regiments of that immortal brigade made their slow parade. Under the brow of the Ridge in the Bloody Angle, where the Philadelphia brigade stood that day, was a handful in blue, scarcely larger, waiting to meet the onslaught of peace. There were no flashing sabres, no guns roaring with shell, only eyes that dimmed fast and kindly faces behind the stone wall that marks the Angle.

At the end, in place of wounds or prison or death, were handshakes, speeches and mingling cheers.

MARCH OVER OLD GROUND.

The veterans in gray marched for a quarter of a mile over the ground that they traversed during the charge. They came up the slope with column of fours, irregular, but responsive to the commands of Major W. W. Bentley, of the 24th Virginia, one of the few officers of either Pickett's or the Philadelphia brigades who was present. Ahead of them marched a band and well down the column was a faded Confederate flag, its red field pierced with many holes, its cross bars dim and its shaft colored with the sweat of many a man who died that it might fly high in that last desperate effort to pierce the Union lines. Its progress was slow and painful, for the timothy in the field was high and its plowed surface was not easy for world weary feet. Up to the very edge of the stone wall, covered now with tangled vines, shaded by trees and peaceful as a summer lane, they marched in the hot sun while the band played "Dixie." There they stood for half an hour while they comrades in blue peered across at them.

The Blue line formed behind the walls. Over their heads floated a faded standard of the Second Army Corps. Behind them were the statues of the Philadelphia brigade and the Fourth United States Battery where General Armistead died in the midst of the guns, killed, the historians say, by a shot fired by its dying commander, Lieut. Cushing.

Flags Crossed in Amity.

As the men in Gray formed in a long line facing the wall, the Stars and Stripes and the flag of the Second Corps were crossed in amity; the Stars and Stripes were unfurled and the crowd that came to watch burst into a cheer. Representative J. Hampton Moore, of Pennsylvania, made a long speech and Major Bentley answered on behalf of the South. The veterans in Gray were given a medal provided by John Wannamaker. They crowded over the stone wall, shook hands and the charge was over. There was many a picturesque figure in the line that came up the slope.

W. H. Turpin, of the 53rd Virginia, appeared in the uniform he wore on the day of the charge. His feet bound in cloth. He had an army blanket strapped to his back and he calmly smoked a long stemmed corn cob pipe. There were 13 regiments in Pickett's charge.

THAW WOULD AID GENERAL SICKLES

OFFERS \$1000 TO START FUND
TO PAY THE DEBTS OF THE
VETERAN.

Gettysburg, Pa., July 3.—Harry K. Thaw has come to the financial rescue of General Daniel L. Sickles from his cell in Matteawan. He sent a letter to Chairman Schoonmaker, of the Pennsylvania Commission having charge of the celebration of the fiftieth anniversary of the battle of Gettysburg, in which \$1000 in cash was enclosed.

In the letter Thaw wrote that he felt the deepest sympathy for General Sickles because of the misfortunes that had come to him in his old age. This sympathy, the writer declared, was heightened by the fact that Thaw had two uncles in the Union army and a near relative in the Southern army. These circumstances impelled him, he wrote, "to offer a thousand dollars with which to start a fund for the payment of the debts of a gallant Union officer who had in his old age been bowed by financial misfortune."

Colonel Schoonmaker, after consulting some friends, was advised to return the money to Thaw with a letter informing him that the Pennsylvania Commission is interested in extending to him the courtesies of the state while he is within its borders, and that it could not undertake to be the custodian of such a fund.

AUSTRALIA FAVORS PACT WITH CANADA

NEW PRIME MINISTER SAYS
FOSTER NEGOTIATIONS
WILL BE CONFIRMED.

Melbourne, Australia, July 3.—The Canadian-Australian reciprocity negotiations started by the Hon. Geo. E. Foster during his recent visit to Australia will be continued by the successors to the Fisher administration.

Such was the statement made by the new Prime Minister, Mr. Joseph Cook, who also said that the reciprocity agreement already concluded with New Zealand would be carried through.

Mr. Cook outlines the attitude of his party very fully, and states in unmistakable terms that it is for reciprocity within the Empire. "The disposition of the Government," he says, "is entirely in favor of such arrangements as those with Canada and New Zealand, and trade between different parts of the Empire is our ideal."

GOLD MINERS STRIKE IN SOUTH AFRICA GROWING

Johannesburg, South Africa, July 3.—Practically all the mines in the Rand district are now involved in the strike, which is bound to have a serious effect in the gold mining industry of South Africa. The engineers, carpenters and masons decided to day to go out. This will necessitate further protection by the troops. The strikers are displaying an ugly temper towards the "blacklegs." At Benoni a number of soldiers were badly mauled by a mob of strikers. Wild scenes were enacted at various points.

One of the strike leaders says that the men know they cannot win, but they hope to compel Parliament to reform the law regulating working conditions.

SAVED WOMEN AND CHILDREN FROM FLAMES

BUSH FIRE THAT DESTROYED
BELLE RIVER DESCRIBED
AS TERRIBLE ORDEAL.

North Bay, Ont., July 3.—M. Courtwright, resident engineer at Belle River, 180 miles east of Cochrane on the Northern Transcontinental Railway, arrived in North Bay tonight with his wife and baby, but with very little luggage, as, with the exception of a few clothes saved by his wife, they lost everything in the bush fires which swept over Belle River Tuesday and left nothing but a pile of smoking cinders of one of the newest Canadian communities. With the Courtwrights came Mrs. F. Palm of Hespeler, whose husband has building contracts on the National Transcontinental Railway.

A TERRIBLE ORDEAL.

Mr. Courtwright describes the Belle River fire as a terrible ordeal, rendered more trying by the presence of six women and seven children. There were sixty people in all there when the fire attacked the town. For days bush fires had raged, with black curtains of smoke hiding the sun by day, while the night was illuminated by flames, but the Belle River folks stayed with their possessions and homes, hoping that the fire would pass them by. On Tuesday, however, the wind blew a gale direct on the clearing and at 2 o'clock a wall of flames leaped on the buildings so quickly that the inhabitants had just time to escape to the river, leaving all their household goods to be destroyed.

The women and children were taken in canoes away from the fire. Women with babies were paddled for several miles through blinding flames and hot cinders. The flames swept away at right angles and the danger was now over. A Russian laborer who had been sent back to headquarters early in the afternoon for a relief train managed to get through and after the refugees had been in the canoes from two in the afternoon until midday the welcome whistle of the rescue train was heard in the distance, but it was not until some hours later that the party was able to reach the train, as the fire zone could not be crossed until it had cooled down. Everywhere along the National Transcontinental Railway east of Cochrane bush fires have reaped a harvest of ruin and as far as heard from, 12 camps and engineer residences have been destroyed, while only experience has prevented loss of life. At Belle River was the supply headquarters of the New North Railway, a Montreal enterprise, and that was wiped out with many tons of supplies.

The total loss at Belle River is placed at \$300,000, including supplies and the fur stores of Messrs. Bernard, Wright and Martyn Camellay. There was no insurance.

SITTING ON MAN IS NOT MURDER

JUDGE LAFONTAINE OF MONT-
REAL ACQUITS MAN OF A
SERIOUS CHARGE.

Montreal, July 3.—James Olsen, charged with having murdered James Shaw, in a St. James street saloon three weeks ago by sitting on his chest in a room in the rear of the bar, was acquitted by Judge Lafontaine in the Arraignment Court yesterday afternoon.

While the evidence proved that Olsen had sat on Shaw's chest, Judge Lafontaine held there was no evidence to prove that Olsen had done so with any idea of causing Shaw's death. He said that the men were friends, having known each other for years. They were drinking and having what they evidently thought was a good time together.

William Patterson, K. C., represented the Shaw family, while Maurice Tetreau appeared for Olsen. He called no witnesses for the defence, but cross-examined the witnesses called for the prosecution.

INSPECTOR OF WESTERN EXPERIMENTAL FARMS.

Regina, Sask., July 3.—Angus McKay, superintendent of the Indian Head Experimental Farm, one of the best known agriculturalists of western Canada, has received a more important appointment. It is understood he is to be made inspector of western experimental farms.

Prof. Harris, of the Manitoba Agricultural College, will be his successor.

NEW YORK WEATHER.

Washington, D.C., July 3.—Forecast: New England: Fair Friday, warmer west portion. Saturday fair; light to moderate winds mostly south.

C.N.R. COMPLETE FROM QUEBEC TO PACIFIC BY FALL

SIR DONALD MANN DENIES
THAT GOVERNMENT WILL
TAKE OVER ROAD.

Toronto, July 3.—"The new Canadian Northern line from Quebec via Montreal and Ottawa, to Port Arthur, will be ready for traffic by the time navigation closes this year. This will take the completed road through to the summit of the Rocky Mountains in British Columbia. The railway, thence to Vancouver will probably be completed two or three months later."

MANN DENIES RUMOR.

This important statement, announcing the practical completion of another Canadian transcontinental railway, was made today by Sir Donald Mann, and formed the railway builder's rejoinder to the press rumor that negotiations were pending which might result in the government taking over the Canadian Northern system. The transcontinental line will be completed even before Parliament meets, and the company expects to have through traffic in full swing within a year from next month.

"Not a word of truth in it," was Sir Donald's brief comment on the press report. "We have not approached the government in the matter; nor has the government approached us."

THREE MILITANTS ARE REARRESTED

"CAT AND MOUSE" BILL AGAIN
FINDS SUPFRAGETTES ABLE
TO CONTINUE SENTENCE.

London, July 3.—The police re-arrested today three of the officials of the Woman's Social and Political Union, the militant suffragette organization who had been released in license on June 21, owing to ill-health, the result of their "hunger strike," in jail. They are Miss Annie Kenney, Mrs. Rachel Barrett, and Miss Harriet Kerr who have been re-arresting at a watering place.

Miss Laura Lennox, another suffragette leader, who was released on license on the same day as her companions and re-arrested a few days ago, was again released today from jail, where she had made herself ill by a "hunger strike."

Miss Agnes Lake, business manager of the militants' organ, The Suffragette, who on June 21st, was sentenced to six months' imprisonment at hard labor and later was released on license with several other militants, was convicted on conspiracy to commit malicious damage to property.

CHANGES IN C. P. R. STAFF.

Winnipeg, July 3.—Official announcement was made this afternoon of the following appointments in the Canadian Pacific Railway:

Arthur C. Shaw, assistant general passenger agent at Winnipeg, has been appointed general passenger agent to succeed C. B. Foster, transferred to Montreal.

R. G. McNellie, district passenger agent at Calgary, succeeds A. C. Shaw, assistant general passenger agent at Winnipeg.

Robert Dawson, chief clerk, passenger department, Winnipeg, goes to Calgary as district passenger agent at Calgary, succeeding R. G. McNellie.

J. W. Dawson, chief clerk to the district passenger agent at Calgary, comes to Winnipeg as chief clerk, succeeding his brother, Robert Dawson.

C. H. Books, chief clerk, passenger department, at Vancouver, has been appointed assistant general passenger agent at Vancouver.

SIR JOHN SCOTT WAS GENEROUS TO LADY SACKVILLE

GAVE HER MONEY AND JEW-
ELRY AND PROMISED HER
A MILLION.

London, July 3.—The "fight for the millions," the suit in which the relatives of the late Sir John Murray Scott are endeavoring to have pronounced invalid on account of alleged undue influence, the will by which he left the bulk of his fortune of \$5,000,000 to Lady Sackville, was resumed today before an audience composed largely of women and including several wives of British Cabinet ministers and judges, as well as other notable persons, and which filled every seat in the probate divorce and admiralty court.

PROMISED HER MILLION.

As soon as the presiding judge, Sir Samuel Thomas Evans, had taken his seat on the bench, Lady Sackville returned to the witness stand and under direct examination by Sir Edward Carson, her counsel, took up the thread of the story of her friendship with the Baronet. It was, she said, in the spring of 1900 while she and the Baronet were driving together that Sir John first told her of his intention to leave her \$1,000,000. He said to her that now his mother was dead, Lady Sackville had taken a great place in his life and that he was going to leave to her the \$1,000,000 his furniture, his houses and bagatelle in Paris and at Lisbon, and in fact all except the houses in London, which he had left to his sisters and brothers.

Later on, according to Lady Sackville, he said he intended to reduce her legacy to \$750,000. He was going to keep back \$250,000 in order to help in the keeping up of Knowle Park, the Sackville seat at Seven Oaks, Kent, during his lifetime. This he did.

Lady Sackville testified that she had had nothing to do with the will made by Sir John in 1900. After 1901 Sir John, she said, was a frequent visitor to Knowle Park, while she often went to his residence in London. Lady Sackville swore she never saw the will and did not know it had been made until months later, when Sir John Scott spoke of revoking it.

Lent Her Father Money.

Speaking of her father, who had been British minister at Washington, Lady Sackville said he was at times fruitfully depressed about the overdrafts on his account at the bank. Sir John Scott, she declared, noticing this, gave him \$45,000 at different times.

Part of this was to pay a demand for \$8,000 to the children of one of his relatives, who had died, and \$3,000 to pay expenses at Knowle Park, including the restoration of some Van Dyck pictures. Scott, she swore, told her he could not bear to see her worried, especially over money matters, adding: "Your father is a poor old man, and I shall help him."

Lady Sackville testified that on another occasion Sir John paid \$15,000 into her bank in order to help her father out of his difficulties, and he spent \$25,000 in purchasing silver and gold plate which originally had belonged to Knowle Park, but had been sold by various members of the family. Sir John also occasionally gave her \$250 for Christmas or birthday presents, and he sometimes paid her travelling expenses.

Lady Sackville added Sir John Scott had given her daughter furs which cost \$15,000, and to herself an emerald bracelet which cost \$25,000. This was the only piece of jewelry she had had from him.

Didn't Want to Kill Him.

Referring to an occasion when Sir John's doctor would not let her see him because he was ill, Lady Sackville said the doctor remarked: "Of course you want to kill him." "I did not want to kill him," added the witness earnestly.

In 1909, said Lady Sackville, Sir

NO DECLARATION OF WAR BUT ALLIES ARE FIGHTING

Diplomatic Representatives Still At Their Posts
But Hope Of Preserving Peace In
Balkans Is Very Faint

London, July 3.—The condition of affairs in the Balkan rupture is extraordinary. The twenty-four hours which the Bulgarian Government accorded to Greece and Serbia to cease operations has expired. During the same period Bulgaria undertook to abstain from hostilities in order to give Russia time to intervene in favor of peace. But hostilities are being carried on on both sides, apparently with the fierceness characteristic of the Balkan soldiers, and no declaration of war has yet been made. The respective diplomatic representatives are still at their posts.

FAINT HOPE OF PEACE.

There is now only the faintest hope that Russia or the powers will be able to prevent the struggle which is to decide whether or not Bulgaria shall be predominant in the Balkan confederation.

A new complication arose today in the decision of Roumania to mobilize her army. What role Roumania will play is quite unknown, but she is generally expected to follow her traditional policy of waiting on events, in readiness to take advantage wherever it may be obtained with the least risk and trouble. Roumania's mobilization causes uneasiness in Austria, where it is regarded as a defeat for Austrian diplomacy.

Little news has come to hand today of the military operations in Macedonia and, owing to the fact that Bulgaria, as in the former campaign, is very reticent concerning her military movements, and because the reports from the Serbian and Greek sides are clearly exaggerated, it is exceedingly difficult to form any estimate of the actual position of affairs.

It is believed from the disposition of her troops that Bulgaria has carefully prepared a plan to place some of her forces between the Greeks and Serbians and prevent their junction, and it is reported that the Bulgarians

DUKE RETURNING AT KING'S BEHEST TO GUARD PRINCE

KING GEORGE WISHES UNCLE
TO ACT AS CHAPERONE TO
THEIR APPARENT.

London, July 3.—It has been learned that the Duke of Connaught's decision to return to Canada to take up his duties as Governor-General was taken rather suddenly, owing to the King's expressed desire that his uncle should act as chaperone to the Prince of Wales when he visits the Dominion next year.

Physicians assured the Duke that he need have no fear that the health of the Duchess will be injured by spending another winter in Canada. She is now almost well after her recent severe illness. She has been taking drives daily in the west end, but is careful not to fatigue herself.

KILLS HERSELF—TELLS WHERE TO FIND BODY.

Vancouver, B.C., July 3.—Mrs. Boulton R. Kean, of 1683 George street, reached the police station this morning carrying a note signed by her husband, which read as follows: "I am going to kill myself. You will find my body in the park near the beach."

This afternoon when a call came that a body had been found near the First Narrows Beach, it proved to be Kean's, who had taken poison and had evidently been dead since early morning. He was 30 years old.

He was a partner in the Commercial Transfer Company, and his business was prosperous.

The Oracle drew a long breath this morning and said: "Well, here we are on the verge of another day—from all indications a fine one. I always like to predict a nice day—it sort of cheers one up."

TITANIC OWNERS MUST PAY.

The judgment of the English Court of King's Bench in regard to the liability of the owners of the Titanic for losses caused by the loss of that vessel is eminently satisfactory. There was a little doubt as to how far either British or American law could hold the White Star Company responsible for damages. The obligations seemed perfectly plain to most people but their repudiation by the company and its attempts to escape from them by means of legal technicalities aroused some apprehension of a possible miscarriage of justice. There would indeed have been a shameful miscarriage of justice, for instance, if the poor Irish farmer to whom the Court had awarded \$500 for the loss of his son on the ill-fated ship had ultimately been refused even that small compensation in consequence of the company's extraordinary plea of non-liability.

What the company contended was that the conditions printed on the passenger tickets which it issued exempted it from liability for loss by a passenger, even though the loss were caused by negligence on the part of the company's servants. Now, the negligence of its servants is legally the negligence of the company, and the plea of non-liability for any result of negligence because of a disavowal of liability on the ticket was both petty and preposterous. The obligations and responsibilities of transportation companies or "common carriers" are clearly defined by statute and regulated by the spirit of a common law that makes equity supreme. It avails a company nothing to print on its tickets a notice equivalent to an assertion that thereby it puts itself beyond the reach of the law. Such a ticket may deceive some ill-informed passenger, but when it is brought into court, the law vindicates its authority in the administration of justice, regardless of the ticket trick. The White Star Company said on its tickets that it would not be responsible for any loss, even if caused by its negligence, but the King's Court Bench holds it responsible and makes it pay.

ALARMIST TALK.

Canadian bankers in New York are doing good work in counter-acting what appears to be an organized effort there to send abroad word of a supposed impending crash in this country. "They are inclined to scout the alarmist talk," says the Wall Street Journal, "that the country is on the verge of a pronounced trade recession as a sequel to the rapid expansion characterizing the last half dozen years or so. Commercial transactions, by and large, they affirm, are conducted on safe and conservative lines, thanks, for one, to the vigilance of the banks, with their network of branches spreading over the land, which keep them in close touch with economic development."

No doubt, money is tight in Canada in keeping with conditions the world over. No one, however, who can prove a legitimate need of capital, is being turned away. Naturally, in the present state of the market, lenders are discouraging any extension of commitments and are narrowly scrutinizing all applications for commitments. Requests for loans on the security of inflated real estate are given little consideration.

It is not deemed likely that this denial of capital to weak speculators will induce any widespread and drastic liquidation in real estate and cause the collapse of its value. Undeniably, the rate of its appreciation has received a check and in many sections prices have suffered actual declines. But, it is pointed out, the tremendous influx of immigrants with thrifty and settled ways of living is helping to sustain values. Besides, those in possession of a good deal of the newly-opened land are people of means who are threatened with no financial embarrassment which would force them to dispose of their holdings before a turn for the better sets in in the real estate market.

Stress is laid by those who indulge in gloomy forebodings over the situation on the huge trade balance which Canada is rolling up against herself. In the past four years the imports have annually exceeded the exports in the neighborhood of a quarter of a billion dollars, which adverse balance is undoubtedly absorbed by external borrowings of capital. But the point is made that due weight is not given to the important fact that between 400,000 and 500,000 immigrants are yearly added to the population. It is conservatively estimated that each of these immigrants represents \$500 on the average. On this basis the country receives every year from this source an aggregate of \$200,000,000. It is maintained, therefore, that she cannot be accumulating as vast a foreign indebtedness on balance as would appear simply from the record of her commodity imports and exports.

A SECOND BALKAN WAR.

Once more there is fighting in the Balkans. The friction between Greece and Serbia on the one side and Bulgaria on the other has generated flame. The bickering between outposts which has been going on for weeks has warmed watching Europe to expect trouble. If Europe was a unit in the desire and purpose to avert war, it could soon prevail upon Bulgaria to act with moderation towards its recent allies. But unfortunately there is at least one of the Powers which eggs on to the fight in the hope that when the combatants are exhausted it will be able to gratify its land hunger undisturbed. That power is Austria, which with Germany and Italy at its back promoted "autonomous Albania" to prevent Serbia getting an independent outlet to the Adriatic. Vienna statesmen believe that Serbia, if kept landlocked, will wither. All Europe followed Austria in the recent naval demonstration to coerce poor little Montenegro, and the triple entente will find it a trifle difficult now to get rid of that embarrassing precedent. Great Britain, France and Russia had their choice then. They chose to second the Dreibund and it will be a most awkward volte-face for them to step in now to thwart the Austrian scheme.

The responsibility for what may follow the war between the allies will rest upon Bulgaria which has resorted to "pin-pricks" in the confidence that it can deal more sword blows than Serbia and Greece put together. Its aspirations are plain. It seeks to take all the territory that it wants from that conquered by

the Balkan allies. Then, if there is anything left over to divide, Greece and Serbia may divide it, the division being subject to Bulgaria's approval. What the Bulgarian lion does not care for he will let the jackals have, for that is the view which he evidently takes of his late associates. If a haughty spirit always goes before a fall, Bulgaria is in imminent danger of humiliation. Greece has, in effect, picked up the gage of battle. It has sought to keep peace and Salonica. Bulgaria is unwilling that it should keep either. Greece has endured much in the past few weeks but it has reached the limit at last.

THE C. P. R.

The fact that the C. P. R. is to spend \$100,000,000 in 1913 for equipment, terminals and extensions and upon hotels and steamships is perhaps the most striking evidence that Canada has had of the remarkable prosperity of this wonderful road which has been the greatest factor in the upbuilding of the Dominion. The evidence is all the more amazing in view of the world-wide stringency and of the fact that retrenchment and not extension is the order of the day almost all over the globe.

The decision of the C. P. R. to go ahead with this work will not only be a great advertisement for Canada but it will also be proof of the great faith that the directing powers of the railway have in the future of the country. Incidentally the expenditure of so much money must go far to prevent any business depression.

SURGERY AND CANCER.

One of the most notable features of the great medical conventions being held on this continent at the present time is the attention that is being given to the cure of cancer. It is not that interest in this disease has suddenly developed, for there has been research work in progress at all the great centres for many years past. What is new is that it is through surgery rather than medicine that a cure is now being worked out, the principle being that every cancer is originally a local lesion which if taken in time can be removed and the disease disposed of. It was this view which was presented by Dr. Cullen of John Hopkins University before the Canadian Medical Association recently and which has been proclaimed elsewhere by Dr. Mayo and Dr. Hartwell.

In the United States this view of cancer has taken such a hold that a national campaign against the disease is under way, led by the foremost medical investigators of the country and strongly backed by lay forces. The effect of such a campaign may be compared to that against tuberculosis with which all are familiar and the results of which are everywhere apparent. If the fight against cancer should succeed in the same degree, there would be two notable preventive achievements in the record of this decade.

Comment of The Press

On behalf of the Canadian Pacific Railway Company, Sir Thomas Shaughnessy has authorized a statement that in the next year \$100,000,000 will be spent by that corporation on its western extensions, hotel and steamship extension development, and the addition of rolling stock. Coming at the present time of money stringency, when even the big American systems are feeling acutely the necessity of restricting their financing and curtailing expenditures, the expansion programme of the Canadian Pacific is not only a grand demonstration of the resources of the company, but a monumental mark of confidence in Canada's immediate prospects. Were there any liability of a pause in Canada's productive progress and commercial development, would such an immense project of expansion be announced and at once undertaken? The very expenditure of this sum in so short a time will, along with the other extensive railway development under way, supply new motive power for our progress. The Canadian Northern Railway has a very large programme in hand for the completion of its transcontinental system and subsidiary companies lines, and there can be no halt in its operations for the next two or three years. The Grand Trunk Pacific Railway will be completed by August, 1914, and by the end of this year the National Transcontinental will be ready, except for the Quebec bridge and an eastern section. Such railway development as this is founded on keen knowledge of and faith in Canada. It is only one of the many uses of rock upon which the prosperity of the country stands.—Toronto Mail.

The peaceful occupation of Gettysburg that is being accomplished now by the survivors of the fierce conflict that drowned its grassy slopes in blood fifty years ago, is a reminder of the change that has come over public feeling here in recent years. Less than thirty years ago President Cleveland and his advisers decided to return to the Southern States certain battle flags captured from their regiments. The survivors of the Union Army, who numbered many hundreds of thousands then, were stunned at the proposition. Mass meetings were held, and the President's action was denounced on all sides in the North. The event proved the wisdom of Mr. Cleveland's action. His first presidency, by uniting for the first time since Buchanan's administration, all sections of the country in the administration of Federal affairs, paved the way for the generosity and good feeling that characterize both North and South today. What happened at Gettysburg in the three days of terrific fighting has been related and recorded by both sides in the great battle. It is well to recall what would have happened if Lee and Longstreet had triumphed over Meade and Hancock. The South was in the meridian of its military power. Its embattled armies stood not on slavery ground, and not on debatable ground, but in one of the most prosperous and most sincerely union States in the North. Lee's victory would have been followed by the fall of Harrisburg, the capture of Baltimore, and the evacuation of Washington by the Federal troops. Such a transcending military success meant the immediate recognition of the confederacy by England and France, the collapse of the blockade which was ruining the traffic in the great Southern staple, cotton, and an inglorious peace with two nations of one stock and one purpose in the world set to rend each another while European despotism looked on. So the men who wore the blue at Gettysburg did the greatest work of their lives, while the men who wore the gray proved themselves there as elsewhere splendid soldiers in an impossible cause.—Brooklyn Times.

A HUNDRED YEARS AGO TODAY

The Shannon and Chesapeake.

Another account of this engagement from that of yesterday, is given as follows: The American frigate Chesapeake, Captain Lawrence, sailed from Boston with 388 picked men on board, to attack H. M. Shannon, Captain Broke, then in the bay. The Shannon met her about 3 or 4 leagues from the lighthouse. The action commenced within pistol shot, and continued about 13 minutes, when the Shannon boarded the enemy, and carried her almost instantaneously. Captain Broke was the first man on board the American, was followed by nine of his men, when the ships separated, and the remainder of the boarders were obliged to go aloft and board by the yards. Captain Broke unfortunately received a severe wound on the head with a sabre, but did not leave his duty till he could no longer stand from loss of blood. His recovery is doubtful. Lieutenant Watt, 1st of the Shannon, Mr. Oldham, purser, and the captain's clerk, were killed. Total loss: 23 killed and 56 wounded. On board the Chesapeake, Captain Lawrence, Lieut. Ballard and Lieut. Broom were killed. Total: 70 killed and 100 wounded. The Chesapeake mounted 52 guns, 30 long 18's and 22 32's, and was in every respect completely prepared for action. The action commenced at 6 p.m. Captain Broke was wounded by a man to whom he had previously given quarter. The American guns were all named. Every opposite gun bearing the same name. The following are some of the names: Wilful Murder (It is a curious circumstance that every man at these two guns were killed by two shots); Death and Liberty, Seaman's Rights, Dreadnought, Revenge, Nancy Dawson, Bull Dog, Jumping Billy.

A MILLIONAIRE ON DIET.

John R. Booth, Canada's millionaire lumber king, whose mills and paper plant at Ottawa are of international fame, recently celebrated his eighty-seventh birthday by working all day as usual and going out to dinner in the evening.

The "gentleman of the old school" took occasion to give a few pointers on how to live to be eighty-seven—or more.

Said he: "Our constitutions are what we make them at meal time. Most ailments can be cured by observing the laws of nature and common sense. Doctors are necessary only in extreme cases. No man ought to eat a meal when he is tired. (Only persons who do manual labor should eat three times a day. Two are enough for brain workers. We are all inclined to eat too much.")

And the man who still persists in "doing odd jobs" in his huge mills and never mixes a day is testimony to this diet creed.

NURSING HEROINE DEAD.

Mother Stanislaus Jones, whose death occurred at the age of 90 in London recently, was the last survivor of the band of Sisters of Mercy who accompanied Miss Florence Nightingale to the Crimea in 1854 to minister to the sick and wounded. She passed away at the Hospital of St. John and Elizabeth, St. John's Wood, London, which she and other Sisters of Mercy, with the assistance of Cardinal Wiseman, had founded. Queen Victoria in 1887 bestowed on her the Order of the Royal Red Cross.

NEW YORK MARKET LETTER

Received over the private wire of McDougall & Cowans, stock brokers. Phone 4076.
New York, July 3—The range of prices from the close of last Friday to the close of tonight in the leading railways and industrials shows changes of so little consequence as to make mention of them superfluous. It has been a listless week in spite of the more or less important news which has been received. The approval of the Union dissolution plan settled a matter which for almost two years had been a disturbing factor in the market.

CLOSING LETTER

By private wire to Neuville Belleau & Co., 93 St. Peter st., Quebec. Phones 946-4076.
New York, July 3—Today's market has been of the typical midsummer holiday variety, small fluctuations and limited business, with an absence of commission house orders.

appeared possible some three or four months ago. So far as the movements of money for the first five days of a short bank statement week, they anticipate a loss in cash by the local banks of about \$1,500,000. The banks gained from the interior very nearly \$9,000,000, but they have lost to the Sub-Treasury about \$10,500,000.
Today the Government condition figures of cotton and acreage was issued and although close to expectations the market broke 15 to 17 points. Acreage shows an increase of about 3 per cent with a condition of 81 against ten year average of 80.25.

A WISE INNOVATION

The Richelieu & Ontario Navigation Company is certainly bound to keep up to date, and to do everything it can for the comfort and pleasure of its patrons. This is very evident, especially since the reorganization. Since the opening of the season an orchestra has been placed on the boats running between Quebec and Montreal. The music is of a high order and the orchestra plays while dinner is being served, and also during the evening in the saloon until 10 o'clock. People who travel will readily understand how very much the music adds to the pleasure of the passengers. It is to be hoped that this enterprising company will just as soon as possible during the busy season, do as much for their patrons on the Saguenay boats.

Congress and Senate to further their nefarious attempts to pull down corporations, must be very humiliating to the wise legislator and ultimately react in good to the corporations, especially as to Steel and Union Pacific. The muck rakers have received a severe blow.
The charge of book juggling made against the Union Pacific seems to have been disproved.
New York Central net earnings for May increased \$536,000. Southern Railway decreased \$224,000. Baltimore & Ohio lost only \$10,000.
The foreign situation is complicated by declaration of war by Serbia against Bulgaria and threat of the Turks to reopen hostilities if the allies are going to be allowed to fight. The closing of the Rand mines by strikes is also a serious subject for Europe at the present moment.
Copper metal is not in free supply and the price is firm, with little doing. The market closed dull, with prices at last night's parity and only 112,000 shares traded in for the day.

CONGRATULATIONS TO UNCLE WALT MASON'S DAILY PROSE POEM HOME AND ABROAD. "Shell out," says my Aunt Dinah, "some kopecks for the cause; the woe in darkest China is worse than ever was! And as the Chink's defenders, we ask you for your rocks; they're needing silk suspenders, and union suits and socks; their children have no candy, no dolls or roller skates; so cough up like a dandy," my good old aunt orates. But just across the alley old Bill Persimmon dwells, and I am keeping tally upon his groans and yells; a derrick fell and hit him, and broke ribs eight or ten; his occupation quit him when he could work again. He hears his children clamor for cake and apple pie; it gives him katzenjammer to mark the doleful cry. His wife is weak and sickly, and yet, to bring in bread she hits the tub while thickly the steam curls round her head. Old Bill is sadly breathin' appeals for work each day, so I pass up the heathen to help that troubled jay.—Walt Mason.

DOMINION DAY FLORAL DANCE AT PORTNEUF

The forty-sixth anniversary of Confederation was celebrated among the English speaking people of Portneuf by an event termed a Floral Dance. The Dance Hall, which was the scene of the festivities, was artistically decorated with both wild and cultivated flowers. The walls were draped with the Canadian flag and the ensigns of other nations, prominent among which were the Union Jack and the Stars and Stripes.
Being a "Floral Dance," the ladies attended the function in costume, which were both unique in their originality and pleasing to the eye. All those who figured in the "Who's Who" of Portneuf were there.
The Guitar and Mandolin Club opened the dance with the anthem "Owe" Canada, which was followed by a program of many of the latest airs, and forthwith everybody danced to their heart's content. The ladies provided refreshments.

SYNOPSIS OF REGULATIONS. GOVERNING TIMBER ON DOMINION LANDS IN MANITOBA, SASKATCHEWAN, ALBERTA, THE NORTHWEST TERRITORIES AND THE RAILWAY BELT IN THE PROVINCE OF BRITISH COLUMBIA, AND THE TRACT OF THREE AND A HALF MILLION ACRES LOCATED BY THE GOVERNMENT OF THE DOMINION IN THE PEACE RIVER DISTRICT IN THE PROVINCE OF BRITISH COLUMBIA.
LICENSSES. A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of \$5.00 per square mile, per annum, is charged on all timber berths excepting those situated west of Yale in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rate set out in section 20 of the regulations.
TIMBER PERMITS AND DUES. Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills to cut over definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 50c per thousand feet B.M., and of a fee at the rate of \$100.00 per square mile for each permit.

W. W. CORY, Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS. Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made to any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.
Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.
In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.
Duties—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry including the time required to earn homestead patent and cultivate fifty acres extra.

TRENT CANAL.
Steel Pontoon Gate Lifter.
Notice to Contractors.
 SEALED TENDERS addressed to the undersigned and marked "Tender for Steel Pontoon Gate Lifter, Trent Canal," will be received at this office until 10 o'clock on Tuesday, July 29th, 1913.

Plans, specifications and form of contract to be entered into can be seen on or after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Office of the Superintending Engineer, Trent Canal, Peterborough, Ontario.

Parties tendering will be required to accept the fair wage schedule prepared or to be prepared by the Department of Labor, which schedule will form part of the contract.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and in the case of firms, unless there are attached the actual signature, the nature of the occupation, and place of residence of each member of the firm.

An accepted bank cheque for the sum of \$1,000.00 made payable to the order of the Minister of Railways and Canals, must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted.

The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted.

The cheque of the successful tenderer will be held as security, or part security, for the due fulfillment of the contract to be entered into.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
 Asst. Deputy Minister and Secretary,
 Dept. of Railways and Canals,
 Ottawa, 25th June, 1913.

Newspapers inserting this advertisement without authority from the Department, will not be paid for it—44228.

LATONIA RACES.
 Latonia, Ky., July 3.—E. C. Cowdin's Swannanoa, the favorite, won the six furlong sprint today, beating out Silver Bill and Jim Basey, in the opening event, the kindergarten affair, Emerald Gem justified her supporters by bringing victory to the Reid stables, while Borham and Bradley's Martha McKee, a rank outsider, took the place.

LIVE WIRE WAS FATAL.
 Ottawa, July 3.—Dollard Lafontaine, a lineman in the employ of the Ottawa Electric Company, died in St. Luke's Hospital this afternoon from burns received in falling across a live wire while working on a pole. The Central section of the fire brigade was called out to take the man from the pole and he retained consciousness long enough to receive the last rites of the church from a priest who was rushed to the hospital.

GERMANS SELECT YACHTS FOR MARBLEHEAD RACES
 Kiel, Germany, July 3.—The committee in charge of the elimination races has selected the Tilly XVII, the Serum and the Sonntagskind as the German representatives to participate in the Sonderklasse races off Marblehead, Mass., in September.

Tilly XVII is owned by Prince Henry of Prussia and C. V. Krogmann of Hamburg; Serum by Waldemar Tietgens of Hamburg, and Sonntagskind by Herr Drezwitz, of Berlin.

The prize for the greatest number of points won during the Sonderklasse races here was awarded to Tilly XVII, which, however, gave up in today's extra race after dropping from second to fifth place. Prince Henry was at the wheel.

MORE SURPRISES IN GOLF TOURNEY

CONTEST AT TORONTO NOW IN SEMI FINAL STAGE, FOUR QUALIFIED.

Toronto, July 3.—Once again the play in the Canadian Amateur Golf Championships at the Toronto Club's links today teemed with surprises, and as a result many of the most fancied players have had to acknowledge defeat at the hands, or rather clubs, of lesser known exponents of the game. Today saw the finish of the third and fourth rounds of the contest of the Blue Ribbon of Canadian golf, so that the competition is now in the semi-final stage. Those who have qualified are Gerald Lees of Ottawa, S. T. Blackwood of Toronto, G. H. Turpin, Royal Montreal, and Norman Scott, of Ottawa.

One of the chief surprises was the defeat of Fritz Martin, of Hamilton, by G. Moss, the Toronto player. Though the latter played an excellent game, completing the course in 75, it was palpable to all that the left-hander was far from his real form and his reverse hardly represents the calibre of the two golfers. In the fourth round he encountered Gerald Lees, of Ottawa, who defeated him by two up and one to play. There was no luck about the Ottawa player's victory. Throughout he played excellent golf, and it is likely he will succeed in reaching the final.

Norman Scott, the youthful phenomenon from Ottawa, found little difficulty in defeating J. N. Lang, of Lakeview, in the third round. A. Wright, of Lambton, his opponent in the next stage, however, gave him a harder battle, though the issue could never have been said to be really in doubt.

A. A. Adams, the Hamilton golfer, who has been playing an exceptionally strong game in the present tourney, defeated F. C. Stephens, of the Royal Montreal, in the third round. It was a titanic tussle and had to be carried to the 19th green before the mountain city representative could claim the victory.

The draw for the semi final is as follows:
 Gerald Lees, Ottawa, vs. S. T. Blackwood, Toronto.
 G. H. Turpin, Royal Montreal, vs. Norman Scott, Ottawa.

The game will be the full thirty-six holes, the first eighteen in the morning and the second in the afternoon.

Summary:
 Amateur championship, third round.
 Gerald Lees, Ottawa, beat W. I. Hogg, Beausoleil, 5 and 7.
 G. F. Moss, Toronto, beat F. R. Martin, Hamilton, 3 and 1.

A. A. Adams, Hamilton, beat F. C. Stephens, Royal Montreal, one up on 19th.

S. T. Blackwood, Toronto, beat W. S. Greening, Toronto, 5 and 4.
 G. H. Turpin, Royal Montreal, beat G. A. Hutton, Beausoleil, 3 and 2.
 Dr. Novinger, Outremont, beat John Gemmill, Royal Ottawa, 5 and 4.

Norman Scott, Ottawa, beat J. N. Lang, Lakeview, 5 and 4.
 A. Wright, Lambton, beat C. T. Clark, Lambton, 2 up.

Fourth round:
 Gerald Lees, beat G. F. Moss, 2 and 1.
 S. T. Blackwood beat A. A. Adams, 4 and 2.
 G. H. Turpin beat Dr. Novinger 3 and 2.
 Norman Scott beat A. Wright 2 up.

DROWNED AT OTTAWA.
 Ottawa, July 3.—Henry Martin, a young Englishman, was drowned in the Ottawa river while bathing at Westboro, a suburb of the city, this afternoon, in sight of his wife and mother-in-law. He was 22 years old and came to Canada from Edmonton, England, two years ago. The body has not been recovered.

QUEBEC RAILWAY BONDS ARE DOWN THREE MORE.
 Montreal, July 3.—Quebec Railway bonds had a three point break today to 42, a new low level.

Usually the declines have been less precipitous and the loss is accepted as reflecting the temper of the market over the failure of the company to either meet its half yearly bond issue or offer any adequate information of its intention. The company has until the end of July to make good or surrender the property to the bondholders, and in the meantime a variety of rumors are in circulation regarding efforts to secure control by means of proxies.

It is stated that even directors are unable to throw any light on the company's intentions and the future is shrouded in mystery.

THREE DEAD AT CINCINNATI.
 Cincinnati, O., July 3.—Three deaths and fifteen prostrations were reported today as the result of the terrific heat here. Shortly after noon the thermometer took a jump of three degrees and went to 96 with prospects of going higher later in the day. A breeze that swept the city during the morning was all that prevented the number of casualties from being greater.

SQUALL ROBS THE PIRATES OF PREY

AUSTRIAN VESSEL PURSUED OFF THE AZORES HAD A NARROW ESCAPE.

Philadelphia, July 3.—A strange tale of the sea, reminiscent of the far-away days when the black flag of Morgan, Kidd and a hundred other marauders swept the shipping lanes of the Atlantic and the Caribbean, was told yesterday afternoon by Captain Luigi Martioliich, of the Austrian steamship Ida, which came into Philadelphia yesterday from Trieste and Ocan.

According to Captain Martioliich, the Atlantic Ocean, even in this day of steam and steel, is infested with pirates, who, although they lack the picturesque features of the olden sea rovers, may, nevertheless, be quite as dangerous to peaceful merchantmen.

On June 19, as the Ida was passing the last little islet of the Azore group about 3 o'clock in the afternoon, Captain Martioliich observed two double-masted felucca-rigged craft put out from a concealed cove. He gave little heed to the two vessels, assuming them to be fishing craft, until his first officer, who had been observing them intently through his glasses, declared that they carried far too many men to be ordinary fishing boats. The captain looked them over carefully, and, judging discretion the better part of valor in this particular case, signalled the engineer for "full speed."

The Pirates Were Gaining.
 The Ida is a small vessel of some 2,000 tons displacement, and can at most make but nine nautical miles an hour. With the strong breeze prevailing at the time the suspicious feluccas were making from 10 to 11 knots. When first observed they were some four miles distant, but when the Ida swung into her highest speed the rakish craft was but a little more than two miles away, and, despite the efforts of the Austrian merchantman, were overhauling her rapidly.

Determined to be prepared for any contingency that might arise, the Ida's captain investigated the number of fire arms of his vessel and brought to light a motley collection, ranging from one flintlock musket to a modern automatic pistol. What weapons there were he distributed among the 40 men comprising the crew. Having done everything possible in case of attack, the captain says that he waited, "hoping for a dispensation of Providence, for, had they been the pirates which I believed them to be, we would have had a very hard fight on our hands."

Luckily for the Ida, her crew and owners, the dispensation of Providence came in the shape of a violent squall, forerunner of a gale which had been gathering in the northwest since the early morning. The squall came roaring down upon the three vessels, as only an Atlantic squall can, with a sudden terrible gust of wind, plunging seas and a mighty blinding sheet of rain. This was nearly three hours after the feluccas had been sighted, and at the time they were within a mile and a half of the Ida.

Sudden Storm Intervened.
 But the storm saved the steamship. So intent had the crew of the foremost felucca been upon the steamship that they failed to observe the approach of the squall until too late, and its full fury burst upon them as they were frantically endeavoring to reef their two huge lateen sails. Caught by the gale, the vessel, lifted high on a wave-crest, crashed over on her side and capsized.

The crew had been thrown in the water and were picked up by the other felucca, which came to alongside its wrecked sister ship. The Ida did not attempt to stop, for, as Captain Martioliich said: "I would have tried to save some of the poor devils, but under the circumstances it was impossible. The seas were too high and the wind too strong. I would have risked my own vessel quite uselessly, as it would have taken me an hour to beat back to the spot where we had dimly seen the wreck, and even then we might not have found it in the darkness. Besides, in all probability, they were all picked up by the other felucca, which was on the spot."

The captain added that he was sure the two vessels were pirate craft because of their obstinate pursuit of the Ida.

VETERANS RENEW PICKETT'S CHARGE 50 YEARS AFTER

ett's division that day in '63, and the histories say that 5,000 men charged across the field. Every field officer was killed or wounded except one lieutenant-colonel and two-thirds of the line officers met the same fate. Of the 5,000 who charged only about 2,000 returned to the Confederate positions. The Philadelphia brigade, numbering about 1,200 men, lost 450 in killed and wounded.

Government's Day in the big tent was a great success. The enclosure was crowded with thousands of cheering veterans. Patriotism and love of country was the keynote of all the speeches. Interest was added to the occasion by the presence of a Congressional committee of twenty-one Representatives and nine Senators, who came here this afternoon from Washington, headed by Vice-President Marshall and Speaker Champ Clark.

One practical suggestion came from the meeting. Governor Cox, of Ohio, in the course of an address urged that the National Soldiers Home at Johnson City, Tenn., be turned over to the Confederates for use as a home for the veterans who fought under the Southern flag.

BURIED IN GRAVE HE DUG HIMSELF
 Esmond, R. I., July 3.—In the grave dug for himself a year ago, Arnold Staples, a former representative in the Legislature, was buried today. Staples was an undertaker. He started to dig his grave while in good health at the age of 89, saying that he could do a better job than anyone else in the village.

PARTY OF BRITISH M. P.'S WILL VISIT CANADA
 London, July 3.—The following are members of the British Parliament who will sail for Canada en route to Australia on July 16:

Lord Emmott, Colonial Under Secretary; Lord Sheffield, Mr. Stuart Wortley, Mr. Thomas Lough, Sir Hildred Carlile, Mr. Arthur Sherwell, Sir Arthur Priestly, Mr. Donald Macmaster, Mr. Hamar Greenwood, Captain Pirie, Mr. Will Crooks, Sir Stephen Collins and Mr. T. W. Black.

NIobe MEN ALLOWED TO LEAVE IF THEY WISH
 Ottawa, July 3.—If the men now undergoing training on the Niobe and the Rainbow wish to leave, they will be allowed to do so without buying their discharge. A number have deserted.

The order has been issued that those who enlisted can secure their discharge without paying for it, but merely upon application.

If they wish to recruit to the Imperial Navy, they will be facilitated in doing so.

STILL FIGHTING FIRE TO NORTH OF COBALT
 Cobalt, Ont., July 3.—The wind has risen again and is blowing strongly, and the north is once more fighting fires all along the Timiskaming and Northern Ontario Railway. Cobalt and its mines, while perfectly safe within their own circle of bare rock, are ringed in by fires. The settlers on the edge of North Cobalt are out fighting hard for their shacks and the blaze that caused so much consternation at West Cobalt has sprung up again, and is driving hard to the southwest. The fires in the Cillies limit are once again roaring. The Cobalt fire brigade, which spent all Tuesday night safeguarding the powder magazine at Clear Lake, will be on duty there tonight.

ELOPERS CAUGHT BUT IRATE FATHER FORGIVES
 Brantford, Ont., July 3.—All's well that ends well and although the attempted elopement of Harry Ursay-iska and a 15-year-old girl did not prove successful, it resulted in their being united in the sacred bonds of wedlock this morning by Dean Brady. The girl's father informed the police that his daughter had attempted to elope and as a result of their taking the case, the couple were apprehended in Berlin. When the two young people were brought back to this city, the father became reconciled to the idea that his daughter had been united to the man she had chosen.

GREEKS' QUICK WORK.
 Fight and Win Two Battles Against Bulgarians in Two Days.

London, July 4.—The Saloniki correspondent of the Daily Telegraph describes King Constantine of Greece as again displaying amazing rapidity in his military movements. The Greek Second Division, which left Saloniki after disarming the Bulgarians at

NO DECLARATION OF WAR BUT ALLIES ARE FIGHTING

(Continued from Page One)

are now executing a great flanking movement in the direction of Egre Palanka.

The Belgrade Government issued no reports from the theatre of war today, but, according to a despatch from Premier Pachitch to the Serbian legation at London, the Serbian losses in the first three days' fighting were six thousand killed and wounded. This included the great battle at Ovchepolje. The Serbians captured 2000 prisoners and 300 guns from the Bulgarians, whose casualties exceeded the Serbian. Sixty of the prisoners were officers.

That very heavy fighting occurred is confirmed by the arrivals of 2000 wounded at Belgrade.

Official reports issued at Athens claim the capture of Guevgheili and Kilkish after severe fighting and heavy losses. It is added that Bulgarian prisoners declare that the Bulgarians are preparing to attack Saloniki.

GERMANY AND ITALY ONE ON THE AEGEAN QUESTION
 Kiel, Germany, July 3.—The German Imperial Chancellor, Dr. Von Bethmann-Hollweg, the German Foreign Minister, Herr Von Jagow and the Marquis Di San Giuliano, the Italian Foreign Minister, and Signor Bollati, secretary general of the Italian Foreign Ministry, had a three hours' conference today aboard the Imperial yacht Hohenzollern. The Italian officials accompanied King Victor Emmanuel and Queen Helena on their visit to Kiel to meet the German Emperor.

Signor Bollati, in a statement this evening, said that all important political questions had been taken under consideration and that a complete unity of views existed.

He was asked: "Were you united as to the questions affecting Greece, and particularly with regard to the Aegean Islands?" To this he replied: "Any misunderstandings on these subjects are out of the question."

MASSACRE BY BULGARS.
 Report That Greeks Found Nigrita Burning and Inhabitants Killed.

London, July 3.—A despatch from Athens announces that the Greeks have occupied Nigrita to the northeast of Saloniki, which they found burning, the inhabitants having been massacred by the Bulgarians.

There is still no news from the Bulgarian side and no contradiction of the Serbian occupation of Istip and the recapture by the Greeks of Guevgheili, which may therefore be regarded as correct. In this case, the Bulgarians' plan to prevent a junction of the Greek and Serbian forces at Guevgheili has failed. It was believed that Bulgaria aimed at dividing the Greek and Serbian armies and defeating them separately and when, wheeling around, intended to deal with Roumania.

Greece and Serbia, however, suffered less than Bulgaria in the last campaign and their armies are in better condition.

According to a Berlin despatch to the Daily News, Bulgaria and Roumania have accommodated their differences and reached an agreement in which Eglaria is given a free hand against Serbia and Greece. But there is no confirmation of this statement from other sources and it is still unknown what course Roumania will her army of 400,000 men will adopt.

The St. Petersburg correspondent of the Times learns that in response to urgent representations at Sofia and Belgrade, both governments have informed Russia that they sent strict orders to the front to cease fighting.

An Athens despatch to the Daily Telegraph says that the Greek minister at Sofia has been recalled and that the King will proclaim war tomorrow. The Bulgarians, the despatch adds, are retreating over the Vardar bridge under fire of the Greek artillery.

13 DEAD IN PHILADELPHIA.
 Philadelphia, Pa., July 3.—Thirteen deaths from the heat in this city were reported at the coroner's office today. This is the greatest number of heat victims reported on any day this year. Both the temperature and humidity were less today than on yesterday. The maximum temperature was 88 at 3.15 o'clock, while the average for the day was 80 degrees. The humidity ranged from 59 to 63 per cent.

The Right Soap For Baby's Skin Is Cuticura Soap

In the care of baby's skin and hair, Cuticura Soap is the mother's favourite. Not only is it unrivaled in purity and refreshing fragrance, but its gentle emollient properties render it of great value in promoting skin and hair health generally. For the treatment of eczemas, rashes and other itching, burning infantile eruptions, warm baths with Cuticura Soap, followed by gentle applications of Cuticura Ointment are usually effective when other methods fail. Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 32-page booklet, the care and treatment of the skin and scalp, sent post-free. Address: Potter Drug & Chem. Corp., Dept. 16D, Boston, U. S. A.

THREATEN STRIKE ON INTERCOLONIAL

DEPUTATION OF TRAINMEN MAKES DEMAND FOR SALARY REVISION.

A deputation of I. C. R. conductors, baggagemen and brakemen a couple of days ago went to Moncton to interview Mr. Brady, assistant manager of the I. C. R., in connection with a revision of the scale of salaries.

The deputation could not agree with some of the suggestions made by the assistant manager, and as regards the collecting clerks Mr. Brady could name all he wanted, but the public would certainly consider it an injustice to remove two baggagemen from the Ocean Limited and Maritime Express, which are two of the most important trains on the system.

It is stated that if Mr. Brady does not consent to render justice to the claims of the delegation that a big strike on the line will be the result within a few days, in which all branches of the system will take part.

VISIT TO QUARRY AND SAW MILL

HARBOR COMMISSION HAS FINE PLANTS AT CHAUDIERE AND INDIAN COVE.

In response to an invitation extended by Mr. St. George Boswell, chief engineer and general manager of the Quebec Harbor Commission, a Chronicle reporter recently made a tour of inspection of the work in progress at Indian Cove and the new stone quarry opened at the Chaudiere, two miles west of the Quebec bridge.

The stone quarry was the first place visited, which was reached by the new gasoline launch recently purchased by the commission. On reaching the quarry it was found located on the south shore quite close to the river, where a pier 200 feet in length extending from the shore out into deep water has been built, and not only provides a number of berths for lighters but at the same time an excellent shelter. Here were found some 25 men getting out stone, and the plant was equipped with an up-to-date installation of machinery, including engine room, boiler and compressed air engine that works four powerful drills to pierce the rock and facilitate blasting.

The progress made at this special branch of the Harbor Commission works is marvellous and denotes the skill and energy of the chief engineer. Nothing has been omitted to make the quarry ideal in all its appointments, even to the building of a camp on the brow of the cliff where the workmen live during the week, only going home to their families on Saturday evenings to spend Sunday.

The plant is now in full operation and the men engaged have a quantity of stone quarried for shipment by lighters to the points where it is required for filling in purposes.

At Indian Cove.

The launch was next steered for Indian Cove, which was reached by the speedy boat in a half hour's run down the river with the ebbing tide. On reaching there the first thing noticed was a large saw mill built upon the pier, and thousands of Southern pitch pine sticks of timber and spruce stored safely behind a chain of booms that run the entire length of the river frontage of the property.

The saw mill, fitted with the latest of up-to-date machinery, is in use to cut the timber for the construction of crib work. Besides a powerful engine and two boilers, saws, etc., there is installed a compressed air plant to operate the pneumatic augurs that make the borings for the putting of the timbers together to make the crib work. There are two travelling derricks that handle the timber and place it in any position required with the greatest ease. The entire plant for the building of the great quantity of crib work that will be required in the work of construction for the development of the port is now installed and work is progressing.

The timber is conveyed on ways from the water to the mill and as each piece is finished it is placed on a car and driven by a railway down the pier, where it is caught by the travelling derrick and placed where required. Already one crib 170 feet in length is so far advanced that it is ready for launching into deeper water and so on until it is altogether complete and ready to be lowered to the permanent station it will occupy and be sunk there.

Three cribs can be built at the same time and the work is not only going on with every facility, but the advancement made in so short a time is wonderful.

MRS. JACQUES' FUNERAL

The funeral of Mrs. William Jacques took place from her residence yesterday and was attended by a large number of citizens.

The service was conducted by Rev. F. T. Martin, minister of Chalmers Church, and closed with benediction pronounced by Rev. I. M. Thompson, after which the body was conveyed to Mount Hermon Cemetery for interment.

The chief mourners were her four sons, Messrs. James N., William C., Frederick and Alfred J. Jacques, and six grandsons, who also acted as pall bearers. Messrs. William, William Alfred and Percy Jacques of Ottawa, and Richard, St. George Jacques, and William Walters of Quebec.

CONTINUED COMPLAINTS OF CONDITION OF STREETS

The citizens of Quebec are weary of the intolerable condition of the city streets excavated by contractors for paving, and for works afterwards left impassable and a dangerous menace to travel. Side walks have been torn up in many streets and allowed to remain in that state until the contractor is ready to give them further attention. The public is daily complaining at these conditions, but notwithstanding, receive no relief.

The City Engineer is not to blame, as he has done his best to have the contractors complete their work, without avail. It would therefore seem to be up to the City Authorities to cancel contracts unless the contractors proceed with and finish the work, and at the same time are made to understand that they are not to open any more streets or tear up sidewalks, unless they are prepared to immediately go on with the work of paving.

WORK ON TUNNEL TO BEGIN SOON

PLANS HAVE BEEN ADOPTED AND RIGHT OF WAY IS BEING SECURED.

It is learned from a reliable source that the Department of Railways and Canals is making preparations to commence the work of making the tunnel from Wolfe's Cove to St. Malo. Two sets of plans made in advance of the recent decision to build the tunnel have been considered, and one that will make unnecessary the work of boring has been adopted. The operations for construction will be commenced during the present month, and it is calculated that it will take fifteen months to complete the contract. In the meantime the Transcontinental Railway have valuers at work, valuating the properties through which the trains leaving the tunnel at St. Malo will run to reach the Union Station at the Palais.

Just as soon as the valuers are through with their work and make their report to the Commission the property holders will be approached by the right of way purchasing agent to acquire the necessary properties before expropriation, with a view to coming to an amicable settlement without recourse to the Court of Exchequer.

The Transcontinental Railway Commission is planning to operate the Transcontinental Railway trains from the tunnel at St. Malo on their own tracks and thus be independent of other railways. As soon as the line from St. Malo reaches Prince Edward street, the Transcontinental rails will run parallel with the C. P. R. tracks, and to secure that end, the Commission will expropriate the properties all along the south side of that street for a depth of 40 feet. Already the purchasing agents in the employ of the Commission have acquired a number of properties on this street.

BOY WOUNDED WITH REVOLVER

PLAYING WITH WEAPON, HE SHOT HIMSELF THROUGH THE INTESTINES.

A boy aged 14 years, son of Thomas Quinn, of Little River, received a dangerous wound from a revolver. The lad, accompanied by his little brothers, was out in the fields carrying the weapon. By some means it was discharged, the bullet entering his abdomen. Dr. Art. Leclerc was called in and immediately ordered the patient to be sent to the Hotel Dieu. The wound is a serious one, the intestines being perforated in two places.

CATHOLIC SAILORS' CLUB.

Splendid work for the entertainment of the Catholic sailors who come to this port is being done by the Catholic Sailors' Institute, which gives the men a home while they are here. Men can drop in there and smoke a pipe or read a paper or amuse themselves in other ways and there is no doubt that when they have such a rendezvous there is much less temptation for the men to go to the saloons, where they might be if they had nowhere else to go.

The Institute, which was organized under the auspices of the St. Vincent de Paul Society, is looked after each week by one of the conferences which make up the Society. This week it is the turn of the Conference of Notre Dame d'Espérance of St. Roch. Weekly concerts are held and one given last night was a great success, a large number of sailors being present from the Manchester Importer, Earl Grey, Montcalm, Druid, Lady Grey, Bellechasse, and Rouville.

A mass is celebrated at the Home every Sunday morning at 7 o'clock by Mgr. Tetu.

AN APPRECIATION OF THE LATE J. H. SIMMONS, J. P.

(From the Annual Report of the Chamber of Commerce, or Board of Trade, of the Town of Lewis for 1912-1913; translated from the French.) "The Late Mr. J. H. Simmons." "On the 7th of October, 1912, the Chamber of Commerce had to deplore the death of its third president, Mr. Joseph H. Simmons. Aged 88 years and confined to his bed a few years, Mr. Simmons was perhaps a little forgotten by the rising generation. But older people do not forget that Mr. Simmons was one of the founders of the Board of Trade, of which he was the President for a time; that he represented it at the Harbor Commission of Quebec for twelve years, and that, moreover, he always interested himself in the progress of our town.

In all these respects Mr. Simmons has had a claim for remembrance in this, our Report, at the end of the year. Carried away by the whirlwind of business matters we with difficulty get the time to tarry in order to recall a remembrance of those who fall along the way. At the least let us salute them with respect. They are those who have marked out the road for us." The Report from which this obituary is taken contains also a portrait of Mr. Simmons.

RUMOR CHANGE IN C. N. R. OFFICIAL STAFF

Winnipeg, July 3.—It is widely rumored in railway circles in the city that J. P. Driscoll, superintendent of car service of the Canadian Northern Railway, in this city, has been offered an appointment in the east. While no official announcement has been made it is stated that the appointment is that of superintendent of transportation, with headquarters at Montreal.

WRECK ON GRAND TRUNK TIES UP MANY TRAINS

Sarnia, Ont., July 3.—The breaking of the flange on the wheel of a freight car being hauled on the St. Clair tunnel, on the American side, this morning was the cause of the tying up of the G. T. R. system here today. The car left the rails and plunged off the road-bed, tearing down one of the steel towers which support the trolley wires. The road-bed was torn to pieces. The seven through trains of the company were delayed for about eight hours by the accident.

LABOR CONDITIONS GOOD THROUGHOUT CANADA

Winnipeg, July 3.—"On the whole, labor conditions are good throughout Canada at the present time," said Hon. T. W. Crothers, Minister of Labor, who arrived in the city this morning, accompanied by Mrs. Crothers and S. Price. The latter will assist the minister in his investigation into the labor troubles on Vancouver Island.

A large deputation from the Trades and Labor Council, headed by R. A. Rigg, waited on Mr. Crothers shortly after noon. One of the most important questions was introduced by Mr. Rigg, dealing with the regulation of the immigration rush into the country. He pointed out that what the labor men objected to was the bringing out of hundreds of skilled men under false pretences. In reply to the delegations' demands, the minister said the Government was not encouraging artisans to emigrate to Canada but sought agricultural labor.

WEALTHY WIDOW WEDS A PRINCE IN LONDON.

London, July 2.—Mrs. Joseph Stickney, of New York, was married in the Catholic Cathedral here today to Prince Aymon de Faucigny-Lucinge, of Paris. Mrs. Stickney is the widow of the New York coal man, who left her a fortune estimated at \$10,000,000.

BEFORE THE RECORDER.

In the Recorder's Court yesterday eight prisoners appeared, charged with drunkenness. Four were condemned to fines ranging from \$2 and costs to \$5 and costs, and four were discharged.

BODY UNIDENTIFIED.

Coroner Jolicœur held an inquest on the body of the man killed on the Lake St. John railway on Wednesday morning, near Valcartier. A verdict of accidental death was returned. The body has not been identified.

COURT OF SESSIONS.

In the Court of Sessions yesterday Octave Chavenel, laborer, who was arrested on the demand of Ferdinand Redard of Notre Dame des Laurentides on a charge of stealing \$13 from his residence, appeared, and declared his innocence. He was remanded to jail to await investigation.

SANTANECA WAS DISQUALIFIED

THIRD RACE AT DELORMIER PARK AWARDED TO TOM HANCOCK

Montreal, July 3.—The first disqualification of the season in half mile racing was made at Delormier Park this afternoon, when the judges put Santaneca, which finished first in the third race, out of the money for fouling Tom Hancock in the stretch run.

Jockey Feeney turned wide at the head of the stretch with Santaneca, and when he saw Knight coming through on the rail with Tom Hancock he pulled in on the rail, forcing Knight to pull up and go around him. Tom Hancock, even after the interference, was only beaten half a length.

For the first time at the meeting the card was featured by the running of a cup race, which was won by Golden Treasure.

The summaries:

First race: 3-year-olds and up, selling, five furlongs—Duspan, 113, Franklin, 6 to 1, 2 to 1 and even, won; John Marrs, 113, Knight, 6 to 5, 1 to 2 and 1 to 4, second; Isabelle Casse, 111, Mondon, 3 to 2, 3 to 5 and 1 to 3, third. Time: 1:03.5. Ponkatsset, W. T. Buckner, Jim O. Refugita, Johnny Harris and Ethel Barry also ran.

Second race: 3-year-olds and up, selling, five furlongs—Donwell, 105, F. Moore, 12 to 1, 4 to 1 and 2 to 1, won; George Karme, 100, Snider, 3 to 2, 4 to 5 and out, second; Donation, 106, Feeney, 12 to 1, 4 to 1 and 2 to 1, third. Time: 1:03.4.5. Stedcliff, Satin Bower, Turkey Trot, Sheriff Norton and Tophet also ran.

Third race: 2-year-olds, selling, five furlongs—Santaneca, 105, Feeney, 5 to 1, 2 to 1 and even, won; Tom Hancock, 110, Knight, even, 1 to 2 and out, second; Shippigan, 110, Warrington, 8 to 1, 3 to 1 and 3 to 2, third. Time: 1:03.2.5. Madge's Sister, Freelan G. Salvation Nell and Joe Milliner also ran.

Santaneca disqualified.

Fourth race: 3-year-olds and up, selling, five furlongs—Curious, 113, Knight, 3 to 2, 3 to 5 and 1 to 3, won; Tannie, 111, Gaines, 10 to 1, 4 to 1 and 2 to 1, second; Court Belle, 111, Warrington, 10 to 1, 4 to 1, and 2 to 1, third. Time: 1:02.4.5. Coal Shoot, Monkey, Shepherd's Song, Sally Savage and Lady Nute also ran.

Fifth race: The Peter Dewar Handicap, mile and a sixteenth—Golden Treasure, 118, Knight, even, 2 to 5, and out, won; Husky Lad, 101, Dreyer, 6 to 1, 2 to 1 and even, second; Princess Thorpe, 107, Johnston, 5 to 1, 2 to 1 and even, third. Time: 1:49. Veneta Strome, Lady Rankin, Eva Tangy, Horricion and Ursula Emma also ran.

Sixth race: 4-year-olds and up, selling, five furlongs—Cloak, 107, Dreyer, 5 to 2, 1 to 2 and out, won; Starboard, 110, Knight, 5 to 1, 2 to 1 and out, second; Miss Felix, 102, Snider, 3 to 5, out, third. Time: 1:02.2.5. Modern Priscilla, McAndrews, and Golden Ruby also ran.

Seventh race: 3-year-olds and up, selling, five furlongs—Merise, 113, Dennison, 10 to 1, 4 to 1 and 2 to 1, won; Jim Milton, 115, Hall, 6 to 1, 2 to 1 and even, second; Pink Lady, 103, Feeney, 15 to 1, 6 to 1 and 3 to 1, third. Time: 1:03.2.5. Senator Jim, Bryn, Artful Art, Annah, Shreve, Miss Menard, Phew, Elsie Herndon, Incomplete also ran.

STANDARDIZING PROGRAM FOR THE OLYMPIC GAMES.

New York, July 3.—A standardized games program for future Olympic meets which will have the support of the United States delegates at the Berlin meeting of the International amateur athletic federation on Aug. 20 has been prepared by James E. Sullivan, American representative of the I. A. W. F.

The schedule, which the Federation will be asked to recommend to the International Olympic Committee for the Berlin games in 1916, contains thirty-two events.

The Americans will request that the Graeco-Roman wrestling be dropped in favor of the catch-as-catch-can style and that boxing be added to the supplementary program. Also in case football or cricket is scheduled the delegates will request that baseball be added, as it is now played in the United States, Canada, England, Australia, France and Sweden.

ENGLISH CHAMPION BEATEN IN GOLF GAME.

LaBoulle, France, July 3.—For the international golf tournament, J. N. Stearns, 2nd., of the Nassau Country Club, Long Island, N.Y., beat Hilton of England, by two up and one to play. This was the most notable performance of the day. Stearns started in nervously and lost the first hole, but drew level with Hilton at the third. He was two down at the turn, but won the tenth and was level again at the twelfth. He took the lead for the first time at the thirteenth and increased it at the fourteenth. After losing the fifteenth he won at the seventeenth hole, which he played perfectly on four. Hilton was somewhat erratic in his long game, but gave on chances after the third hole and Stearns won by his excellent play.

In the second round J. N. Stearns, 2nd., was defeated by Lord Charles Hope, of England, by 6 up and 5 to play.

C. W. Inslee, of the Oneida Community Club, New York, beat MacFarlane, of England.

W. Heinrich Schmidt defeated De Bellitt of La Baulle.

H. W. Stucklen beat Vagliane of La Baulle.

OUTFIELDER CLYMER OF CUBS SOLD TO BOSTON

Chicago, July 3.—Otis Clymer, outfielder of the Chicago National Club was sold today to the Boston club of the same league, according to an announcement made at the local headquarters by President Murphy. Clymer came to the local club by draft last year. Clymer formerly played with Pittsburgh and with the Washington Club of the American League. Chicago drafted him from the Minneapolis club of the American Association.

LOBBY ON LEMONS AND WALL STREET

U. S. SENATE INVESTIGATING ACTIVITIES OF WIDE-SPREAD INTERESTS

Washington, July 3.—Two short sessions today covering subjects from Wall Street operations to lemon growing in California brought the Senate lobby investigation to a temporary close again. The committee adjourned tonight until Monday, when an effort will be made to clear the decks for the opening of the "Mulhall testimony," involving alleged lobbying operations by the National Association of Manufacturers.

Wall Street and sugar and wool men were ordered tonight to appear Monday. Edward Lauterbach and David Lamar will again be questioned as to their participation in efforts to influence members of the Morgan firm. The "sugar lobby" investigation will terminate with the examination of A. D. Baldwin, Cleveland; W. L. Bass, and Charles D. Westcott, Washington.

The "wool lobby" phase will open Monday with the following witnesses: William Whitman, Minthrop L. Marvin and Thomas O. Marvin, Boston; S. W. McClure, Salt Lake City; C. H. Brown, Philadelphia, and William F. Fitzgerald, Brookline, Mass.

The committee expects to consume but a short time with the probe of the wool men's activities. Officers of the National Association of Manufacturers have been instructed to be present and Chairman Overman expects that the Mulhall charges will be taken up early in the week.

The demand of the House for a separate investigation of the Mulhall charges, which involve the character of several members of the House, has been informally considered by the Senate Committee. It is probable that if the House wants to appoint a committee to act jointly with the Senate Committee, that the latter will agree to such an arrangement and will allow the House Committee members to take their places at the table when the investigation of the Mulhall charges begin. All the letters, telegrams and other papers belonging to Mulhall and which he had turned over to the New York World, were given to the Senate Committee today, and are now in the custody of John T. Wayland, assistant sergeant-at-arms of the Senate. These papers, which Mulhall claims show that he represented the National Association of Manufacturers in attempting to control legislation, will be gone over by the committee members and a large part of the correspondence introduced as evidence.

NEW U.S. TARIFF BILL NOW READY

SENATE DEMOCRATIC CAUCUS APPROVES MEASURE AS REVISED.

Washington, July 3.—After three months tinkering, Democratic tariff revision is at last on the ways ready for launching in the Senate as the Underwood-Simmons bill. The Democratic caucus of the Senate late today finally approved the measure as revised by the Finance Committee majority and by its own action, and a final meeting of the caucus will be held Saturday when the resolution to bind the Senators to its support will be presented and adopted.

For the first time in history the bill as it comes through the Senate revision machinery is a lower tariff measure than passed the House, notwithstanding the fact that the estimated revenues to be derived from the bill as it is now framed are larger by about \$5,000,000 than under the measure as it came from the House. The total estimated revenues under the Underwood-Simmons measure will be, including the income tax, about \$310,000,000. For the first year it will be \$8,000,000 greater than that, inasmuch as the Senate caucus has approved the amendment of the Finance Committee postponing effectiveness of the cut in sugar until March 1, 1914.

Tomorrow majority members of the Finance Committee will meet to check up the final draft of the bill and also to fix a date when all the schedules not specifically provided for shall become effective. It is planned to fix October 1, 1913, as the date when all the new rates, except sugar and a few other matters otherwise directed, shall become operative. As to wool, a recommendation of the Finance Sub-Committee, will be made Saturday.

THREE YEARS FOR SHOOTING TRUDEL

YOUTHFUL "DESPERADOS" ARE SENTENCED FOR LAKE ST. JOSEPH CRIME.

Jean Foisy, Raoul Demers and Jeanne D'ar Lecours, the young prisoners, who broke into Mr. H. O. Sullivan's camp at Valcartier and carried away valuable contents therefrom, and then escaped to Lake St. Joseph, where they were located by the Provincial police on April 21st, which ended in the shooting and serious wounding of Detective Trudel, were brought from the jail to the Police Court yesterday afternoon, where they pleaded guilty.

The three prisoners, after their arrest, pleaded guilty to breaking into the O'Sullivan Camp at Valcartier, for which they were each sentenced to serve six months' imprisonment.

Recently, on the recovery of Detective Trudel, the prisoners were again brought from the jail to the court, when the preliminary investigation of the more serious charge of attempt to murder was proceeded with. The investigation was finished yesterday afternoon. Foisy pleaded guilty of having fired the shots from a revolver that wounded Detective Trudel, and also of resisting arrest.

Raoul Demers pleaded not guilty to the charge of wounding Detective Trudel and guilty of the charge of resisting arrest.

The young girl in the case, Jeanne D'ar Lecours, pleaded guilty of being an accessory to the fact.

The prisoners pleaded on the advice of their legal advisor, Mr. J. A. Lane, K. C., who had followed the evidence during the investigation, and acted in the best interests of his clients. Judge Langelier, in rendering sentence, severely lectured Foisy, and in the course of his remarks pointed out the enormity of his offence, which might have caused the death of Detective Trudel, when he would have had to stand trial for murder.

He also read the law, which gave the Judge the right to sentence him for a long term, but taking into consideration his youth and inexperience, and previous good character, as well as consideration for his family and counsel, who had worked faithfully in his interest and had asked the clemency of the Court, Judge Langelier sentenced Foisy to three years in the St. Vincent de Paul penitentiary.

Raoul Demers was sentenced to two and the girl, Jeanne D'ar Lecours to two years in the Hospice St. Charles reformatory.

The prisoners, who were all neatly dressed, and of juvenile appearance, accepted their sentence with resignation, and were conveyed back to jail to serve out the balance of their jail imprisonment, when the boys will be taken to St. Vincent de Paul penitentiary, and the girl to the Hospice St. Charles.

WIDER INVESTIGATION

Demands for a wider lobby investigation have been made at the House end of the Capitol and the rules committee today took up its task of framing a resolution to provide for an investigation of a far-reaching character. Although unable to secure a quorum Chairman Henry began work with those members who appeared and an urgent call was sent out for the absentees. It is probable that the committeemen will give up their holiday tomorrow with the hope of having the resolution ready for the House Saturday.

David Lamar, the Wall Street "operator," whose sensational disclosures yesterday showed how he had misrepresented public men, did not testify again today. Instead, Henry B. Martin, of Washington, the active figure in an "anti-trust league" took the stand and admitted that he and Lamar had had many conferences, had agreed on a resolution for the investigation of the United States Steel Corporation and had taken an active part in trying to exert influence in many Washington matters.

Martin asserted that the resolution under which the Stanley Steel Trust investigation was begun was introduced practically as he and Lamar had drawn it, although Representative Stanley, who introduced the resolution, denied that he knew anything of Lamar's connection. He vehemently denied that Lamar had "hawked" the resolution about New York before it was introduced in the House.

G. Harold Power, manager of the California Fruit Grower's Exchange, testified late today as to his activity to prevent lemons being placed on the tariff free list.

REGINA'S HOUSING SCHEME.

It is a wise young city that provides now for the future housing needs of its workers. Regina, ambitious to become a manufacturing centre, is seeking to avoid these mistakes which have been added unnecessarily to the difficulties of factory owners in Montreal, Toronto and Hamilton.

Several schemes are now being discussed. Perhaps the most popular is that the city should purchase a subdivision and serve it with water, sewers, electric light, etc., sell lots to workmen at low rates and assist them, financially, to erect their own houses.

The city will be well repaid for its humane and practical plan, because manufacturers will be induced to locate their factories where they know that their employes will be happy, comfortable and reasonably free from the alternative evils, rent or interest.—Industrial Canada.

WILL BE RARE LIBRARY.

When St. Augustine's Roman Catholic Seminary on the Kingston road, near Toronto, is opened in August it will contain one of the most unique libraries in the world. Archbishop McNeill, who has decided to make the library a special feature of the new institution, has sent forth agents to obtain books in different centres of Europe.

Efforts are being made by these to secure volumes which, during the confiscations of the monasteries by the French Government, were taken and sold by public auction. Rare volumes, dating back to the twilight of antiquity, were then seized and disposed of at low prices by Government agents ignorant of their worth. The majority of them are now resting, for the most part, dust-laden on the shelves of bookstalls in various parts of Europe.

Archbishop McNeill's agents will scour Europe in order to find them, so that the young priests who attend at the seminary on Kingston road will be able to read the literature written in some humble monk's cell in the dawn years of Christianity. One agent is now in Paris and another is in Rome, and the prospects of selecting a great library are reported to be bright.

NEW YORK, July 3.—Affairs were virtually at a standstill today in the stock market. The principal theme was the outbreak of serious hostilities among the Balkan nations and the consequent depression of European exchanges. Ending of the war between Turkey and the Balkan allies and the successful conclusion of the mid-year settlements had given promise of a gradual improvement in the financial situation. Fear was expressed today, however, that the renewal of war would upset these calculations by prolonging the period of strain and delaying the return to the usual channels of Europe's hoarded millions of gold.

The immediate effect on this market was a small downward movement in sympathy with the foreign exchanges. London sold some Union Pacific and Canadian Pacific, and would probably have unloaded stocks here on a larger scale but for the thinness of the market. Traders were inclined to follow the course of the foreign markets. At home there were no developments on which to base speculative movements, and the new crisis in the Balkans was utilized as a bear argument. Trading, however, was entirely perfunctory. The volume of business fell to the lowest of the year and while the drift was downward the movement was so slight as to be almost imperceptible. None of the prominent speculative stocks moved up or down as much as a point. There was no outside interest in the market, and professional traders were unwilling to make extensive new commitments on the eve of the holiday.

United States 2 per cent bonds declined again today, the bid price falling 1/4 more to 99. No large transactions in government bonds were reported, but it was evident that the refunding provisions of the new currency bill had caused some banks to readjust their holdings.

Bonds were irregular. Total sales, per value, \$1,116,000.

United States bonds declined from 1/2 to 1 point on call for the week.

NEW YORK CLOSING LETTER.
By private wire to M. L. Dohan, broker, Dominion Building, St. Peter street, Phone 4748.

New York, July 3.—The late trading represented nothing more important than retirement of contracts by floor traders unwilling to leave commitments outstanding over the recess and there was not much of that. The majority of the few brokers on the floor at any time during the session left long before the close. With these remaining, sentiment was bearish, the foreign situation being used as principal bear argument, but it was noticeable that this bearishness was not converted into short sales to any extent. The bid price for United States 2's dropped from 99 1/2 to 99. This bid price is the lowest ever made for 2's without takers. The market form is very thin. Money 1 1/4 per cent. No market Friday and Saturday. Total sales 112,200 shares.

NORWEGIAN BARQUE DERELICT IN PATH OF OCEAN STEAMERS

Montreal, June 3—That the entire crew of the barque Glennark, hailing from Fastund, Norway, has been lost at sea is the belief of the crew of the C. P. R. steamer Montezuma. Arriving here this morning, Captain Griffiths of the Montezuma, reported having boarded on June 27 the hulk of the Glennark, now a dangerous obstacle directly in the path of the Atlantic navigation.

Mastless and sparless, on her beam ends, the wave-washed derelict was sighted on the morning of June 27 at 9 o'clock, 840 miles west of Fastund, in latitude 50.57 north, and longitude 23.11 west. On the orders of Captain Griffiths, the Glennark was boarded by the chief officer of the Montezuma and seven men. The derelict's official number was found to be 96,402, and the certificate was found on board, and is in the possession of Captain Griffiths, who will send it, with other papers found, to Lloyd's, who will send a ship out to sink the derelict, and make inquiries whether the crew have been lost.

Drifting Three Weeks.

"No masts were found on her," said Captain Griffiths, "and two small row boats were on the deck smashed to matchwood, while the tackle on the starboard side was hanging in the water as if the crew abandoned the ship in an effort to save themselves."

"The Glennark had evidently been floating around the ocean for three weeks. She was loaded with ballast only, and in the cook house the men found a dead pig hanging up. The crew may have escaped in a boat, because the stores were all up set as if somebody had gathered up a lot of provisions. I think there must have been a crew of 24 besides the captain, who I think had his wife and family on board, for they found tiny boots and a woman's garments."

According to the papers found on the Glennark, she was built at Dundee in May, 1889, and her length is 231.28, breadth, 36.15, depth, 21.75, and net tonnage, 1,256.96. She is built of steel.

On the night of the 25th of June the steamer Carlton sighted a derelict schooner upside down floating among the icebergs near Belle Isle. It was apparently the remains of a three-masted schooner, the Carlton, which arrived in port last night and reported the ice field so thick with bergs that the ship had to stop until it had floated past and then proceed with the utmost caution.

SIR JOHN SCOTT WAS GENEROUS TO LADY SACKVILLE

(Continued from Page One)

John Scott, in referring to his will, said he would leave a letter which his family would respect. She pleaded that such a letter was useless if his family was not going to respect his wishes. This letter was read at the beginning of the trial.

Witness said that she and her family were referred to by the Scotts as "the locusts."
 She was then examined at length as to the unfriendliness of the members of the Scott family, although they were charming to her face. She said Sir John was angry about it.

A Clever Mimic.

At other times she kept the court in roars of laughter as when she described Walter Scott's actions in making love to her and in her mimicking of the persons she mentioned in the course of her evidence.

She had another outburst when Frederick E. Smith, one of the lawyers suggested that her story of Walter Scott's love making was an invention, but Mr. Smith retorted "I shall not be afraid to say so when the time comes."

She insisted that Scott had left his money for Knoke Park and not for her and that the great link between herself and Scott was their knowledge of art.

Another extract from Lady Sackville's letter to her friend said: "Vive le liberte. * * * So there it is my dear, I never expected he would carry out his fine promises."

When questioned in regard to her income of \$30,000 yearly witness said it was not so enormous for the life she led. Her father, she said, at one time had \$75,000 a year, but later in life that was reduced to about \$500.

Another letter from Lady Sackville referred to "dear old Pierpont Morgan." She explained that he had bought one of her pictures for \$200,000.

Later in her evidence she said that Scott in leaving his money to her did the same for her as Lady Wallace did for him when she had grandchildren alive.

"Do you suggest that Lady Wallace left legitimate descendants," asked Mr. Smith.

Lady Sackville replied "She had a son. I do not know whether his children were legitimate or not."
 Mr. Smith: "I suggest that there were no legitimate descendants."

Witness was still under cross-examination when the court rose for the day.

MISSIONARIES ARE ALL SAFE AT SALONIKI

Boston, July 3.—A cable despatch from its missionaries at Saloniki received by the American Board of Commerce for Foreign Missions today read: "Inform relatives all safe." The message was dated July 2 and is believed by the board to indicate that there has been sharp fighting between the Bulgarians and Greeks within the city of Saloniki, as the missionaries are instructed to cable only under urgent circumstances and when they have reason to think that their friends are alarmed for their safety.

COURT REFUSES TO FORFEIT JOHNSON'S BAIL

Chicago, July 3.—The government's motion for the forfeiture of the \$30,000 bond of Jack Johnson, the negro pugilist, to secure his appearance for trial October 13 was denied by Federal Judge Carpenter here today. This bond was on an indictment charging Johnson with white slavery in transporting Belle Schreiber from Milwaukee to Chicago. The case in which the fighter was convicted was in bringing the Schreiber woman from Pittsburgh to this city. He has appealed and pending decision was allowed his liberty on \$15,000 bail.

Judge Carpenter stated that precedent does not warrant forfeiting a bond merely because a defendant has left the jurisdiction of the court.
