## ANGLO-UNITED STATES WAR OBJECTIVES LISTED

### Joint Policy Is Announced After Mid-Ocean Talks

Final Destruction of Nazi Tyranny and Assurance of Fair Treatment After Hostilities that Will Afford All Nations Means of Dwelling in Safety Within Their Boundaries Listed as Chief Objectives After Churchill-Roosevelt Talks.

By FRANK FLAHERTY

Ottawa, August 14.—Out of a secret ocean meeting between Prime Minister Churchill and President Franklin D. Roosevelt today came a formal declaration of war aims which went beyond the destruction of Hitlerism.

News of the history-making meeting was released at the office of Prime Minister Mackenzie King today.

It put an end to more than a week of speculation over the whereabouts of the two world-famous figures, the one leader of a nation at war and the other leader of a nation nominally at peace but giving all possible aid to the other.

Problems of supplying munitions of war to the forces of the nations fighting aggression and of the United States were examined at the conference and Lord Beaverbrook, British Minister of Supply is on his way to Washington for further detailed discussions including matters relating to supply for Russia.

The eight-point declaration on war aims called for "final destruction of the Nazi tyranny" but made no mention of the situation in the Far East.

It held out to the warring nations, including Germany, assurance of fair treatment after hostilities end as it called for "a peace which will afford all nations the means of dwelling in safety within their own boundaries."

The two leaders declared Britain and the United States sought no aggrandisement, would respect the right of all peoples to choose the form of government they wished and would endeavor to further enjoyment by all states of equal access to the trade and raw materials of the world. Disarmament of nations which threaten or may threaten aggression pending the establishment of a permanent system of general security was declared essential.

Although the declaration made no direct reference to any Government other than the "Nazi tyranny" the preamble said the two leaders considered the dangers to civilization arising from the policy of domination by conquest embarked upon by "the Hitlerite Government of Germany and other governments associated therewith."

The announcement, made simultaneously in London, Washington, Ottawa and broadcast from London by Clement Attlee, Lord Privy Seal in the British Government, was the first official indication here of the meeting.

More than a week ago, when reports of the meeting were first circulated, Prime Minister Mackenzie King let it be known he had no knowledge of any Roosevelt-Churchill meeting. Later, spokesmen for his office declined to comment in any way on further queries about the meeting.

So far as could be learned no Canadian officials took part in the conference, but Mr. King was expected to make a statement endorsing the

### Defence Activities Create Jams In Newfoundland Communications

By WADE WERNER (Associated Press Staff Writer) St. John's, Nfld., Aug. 14.—(P)—Newfoundland has become one of the most important cross roads of the Western Hemisphere and the result is a quagmire traffic jam. Telegraph and cable communications are overcrowded. The island's railway facilities are swamped. Automobile roads are pinch-hitting as arteries of military supply. The shipping shortage felt everywhere on the North Atlantic handicaps deliveries here, too. And lakes all over the island are being used as landing places while airplane runways are rushed to completion.

St. John's has become one of the world's busiest seaports, crowded with ships carrying Canadian and United States supplies to Britain, or with ships bringing men and supplies for new United States bases. The narrow-gauge Newfoundland railway, operating trains on a three-times-a-week basis, is attempting to serve the transportation needs of two armies—Canadian and American—whose garrisons are established here; as well as that other army of construction workers busy on big new military bases.

As for roads to carry traffic over-

### EDMONTON HAS WARM WELCOME FOR VISITOR

Large Throngs Greet Duke of Kent During Brief Stay in Alberta Capital—At Medicine Hat Tonight.

Edmonton, Aug. 14.—The Duke of Kent, an Air Commodore of the Royal Air Force, was given a rousing welcome by thousands of Edmonton citizens upon his arrival in Edmonton yesterday following a rest at Jasper, Alta., since Sunday. His Royal Highness spent more than three hours inspecting units of the Commonwealth Air Training Plan in the Alberta capital before departing on a special train for Medicine Hat.

He is scheduled to arrive in the Southern Alberta town about 10 a.m. M.S.T. (1 p.m. E.D.T.) today where he will inspect the No. 34 Service Flying Training School, operated by the R.A.F. under the Commonwealth Air Training Plan.

The Duke, bronzed and smiling, was greeted here by civic, provincial, Air Force, naval and military authorities before leaving to inspect three Air Force units.

The day recalled to many the visit of the King and Queen in 1939 when the streets were lined with thousands and also of the time fourteen years ago to the day, the Duke and his brother, the Duke of Windsor, then Prince of Wales, visited Edmonton.

### HIGH COMMISSIONER CLAIMS SITUATION IN FAR EAST AT CRITICAL STAGE

Halifax, Aug. 14.—Sir William Glasgow, Australian High Commissioner to Canada, told newsmen here last night the situation in the Far East is "at a critical stage" and "we are ready to give our everything should the need be to defend our country."

Sir William is here to visit members of the Australian forces stationed in the area. "Australia values its present way of life and form of Government and the world can rely on our country to do its best to preserve them," he declared.

### Personal Action By Stalin May Reverse Critical Situation Of Russians In Ukraine District

By DON GILBERT (Canadian Press Staff Writer) The facility with which Nazi propaganda changes its tune makes it difficult to judge whether the Germans expect heavy fighting in front of the Black Sea ports of Odessa and Nikolaev.

On Tuesday Berlin spokesmen pictured the Russians as "scrambling to withdraw their troops by sea" after the German army had cut off, or so the Germans claimed, all avenues of escape by land. The German news agency said six Soviet troop transports had been sunk by German bombers off Odessa.

Last night and early today the story from Berlin was that Odessa would be no Ukrainian Dunkerque, that the Russians would hold on and sell their position dearly. The German army, it was conceded, faced the stiffest sort of fight before either Odessa or Nikolaev could be occupied.

Then at noon in Berlin today the high command communique, the daily document which is said to have been edited in recent weeks by Hit-

### SUPER-BOMB IS DEVELOPED FOR UNITED STATES

Noted Science Writer Declares New Bomb Will Wreck All Buildings Within Hundred Miles.

Falls Village, Conn., Aug. 14.—(P)—John J. O'Neill, President of the National Association of Science Writers, charged last night the United States Government had "clapped a censorship" on laboratories developing an element which is contained in a 10-lb. pound that "would blast a hole twenty-five miles in diameter and more than a mile deep, and would wreck every structure within 100 miles."

The science editor of the New York Herald-Tribune asserted in an address that the administration "is staging a totalitarian revolution against the American people."

He said scientists recently had discovered the method of releasing energy from the uranium atom, and after attributing terrific destructive power to a 10-pound missile of uranium 235, asked:

"Can we trust our politicians and war-makers with a weapon like that? The answer is, no. Nevertheless our politicians have taken over control of the scientists who have been working on the application and control of this discovery and are deterring them to develop it for war uses."

### German Offensive Smashed On Eastern Front, Reds Say

Official Russian Statement Indicates that Fighting Is Developing into Isolated Actions and that German Armies Which Yesterday Spurred Through Ukraine Have Been Halted by Red Defences Again.

Moscow, Aug. 14.—(P)—The German offensive is being smashed, Pravda, Communist party organ, declared today in explanation for Soviet communique reports that there was no important change in the front.

Russian war dispatches indicated that fighting again was developing into isolated actions and that German armies which spurred yesterday in the areas of Kakhkalmi, Stanya Russia, Smolensk and Bel Tserkov again have been halted.

"Behind the modest Soviet reports," said Pravda, "lie great and serious events. No important changes occurred in the disposition of troops because the German offensive is being smashed by the mighty resistance of the Red Army, exhausting the German forces."

"Simultaneously, however, very important changes are taking place in the composition of the German army."

"In the Western direction, many German divisions already have been annihilated and only countless graves recall the existence of these divisions. Dozens of other divisions, after several battles with the Red Army, have lost nearly half, and others more than half, of their make-up."

The Soviet Information Bureau's communique, again reporting "nothing of importance occurred" during the night, avoided mention of fighting sectors and said only that the Red army was co-operating with land troops in attempts to halt the Nazis.

Earlier information indicated Soviet forces were fighting to stop a German thrust to the Moscow-Leningrad railroad. A communique said some Nazis had reached the area of Staraya Russa, eighty miles from the rail line and 140 miles Southeast of Leningrad.

Staraya Russa, a small summer watering place on Lake Ilmen, also has steamer connections with Leningrad via the Polista River. Nazi troops which reached this area apparently came from the direction of Solsti, forty miles Westward.

A Russian communique, mentioning this sector for the first time, also acknowledged that Smolensk was abandoned "a few days ago."

(The Germans first claimed capture of Smolensk in mid-July. An Associated Press correspondent with the German army told of visiting Smolensk this week.)

Another German move toward Leningrad from the North was reported.

### Position Of Japan Also Received Consideration At Atlantic Conference

Authoritative British Sources Declare that Disarming of Germany and Other Nations with Aggressive Designs One Point Decided Upon by Churchill-Roosevelt Conference—Action Against Japan Planned.

By HAROLD FAIR (Canadian Press Staff Writer)

London, August 14.—(C. P. Cable)—Prime Minister Churchill and President Roosevelt met with the full knowledge of the Dominions but the historic eight-point declaration was described today as a United Kingdom-United States agreement.

There was no Dominion participation in the conference but a copy of the statement was sent to each Dominion capital immediately after it was prepared.

It is regarded as possible that the Dominions and Allies will be asked to associate themselves with the policy outlined.

The full story of the meeting obviously is not told in the statement. An authoritative source said the two leaders dealt with many other matters.

A more human story will be provided when the Ministry of Information releases the eye-witness accounts of three British journalists. Pictures were taken by four cameramen who were present.

An early broadcast by Prime Minister Churchill was regarded as a possibility. Clement Attlee, Lord Privy Seal, told the British people of the conference and its result.

It is doubtful whether Parliament will be called back into session, but the historic event will be one of the first items of discussion when Parliament resumes its sittings after the summer recess.

The authoritative source, commenting on the final point of the statement regarding the disarming of aggressors, said:

"The gangsters are going to be disarmed. That's the golden rule of the show. We are not going to be the fools we were the last time and scrap our weapons when the war is over."

It was firmly believed by many competent observers that although the eight points—which they regarded as strongly reminiscent of Woodrow Wilson's famous fourteen points in the First Great War—dealt mainly with general questions, the meeting was marked by adoption of a "down to brass tacks" attitude in dealing with the Japanese.

It is quite probable, according to these informants, that the two leaders agreed on:

1.—The precise moment when the British and United States Governments would discard passive resist-

### Flying Fortresses Play Part In Undermining Reich Civil Morale

London, August 14.—Bad weather over the continent last night prevented the Royal Air Force from carrying out its usual overnight forays against Germany and Nazi-occupied territory. The German air force at the same time failed to make any raids on Britain.

The full-scale British planes blasted at Germany and Nazi-occupied countries in the greatest twenty-four-hour assault of the war. Hundreds of bombers and fighters took part and Canadians made up many of the crews.

Dispatches reaching London said that the latest R.A.F. weapon, the giant Flying Fortresses which drop bombs with accuracy that drop spheres, is spreading fear and contributing towards signs of revolt in Germany and Axis-occupied Europe.

Contributing to the undermining of morale is the fact that the Fortresses are known to be from the vast industrial resources of the United States.

One source said that "The Germans cannot see the Fortresses, but they can see the damage they do."

This silent, invisible weapon terrifies not only civilians in Germany, but garrisons in the occupied nations," the source added.

# WIDE POWER IS PROVIDED FOR TRANSIT AGENT

### Quebec Man Named to Position of Transit Controller with Complete Power Over Transport Services.

Ottawa, August 14.—(P)—Appointment of a Transit Controller with wide authority over all forms of transportation and power to stagger working hours to relieve transportation congestion and shifts in two other major posts in the Munitions and Supply Department were announced last night by Munitions Minister Howe.

The Transit Controller is W. J. Lynch, of Quebec. His office will be in Montreal.

F. B. Kilbourn, of Montreal, is appointed Steel Controller, succeeding H. D. Scully, who will devote all his time to his duties as Commissioner of Customs.

E. J. Brunning, Government-appointed Controller in the Hamilton plant of National Steel Car Corporation, is succeeded by Howard B. Chase, Director-General of the Labor Relations Branch of the Department.

In addition C. Blake Jackson, Deputy Priorities Officer in charge of civilian construction control in Mr. Howe's department, announced the appointment of a three-man British Columbia Construction Control Committee.

Mr. Howe said Mr. Lynch will have "widespread powers over all forms of transportation throughout Canada." He will have complete control over use and operation of transport facilities and transport companies, and power to establish schedules of fares, or rates. He may issue orders to cancel permits or licenses and "prohibit, restrict, limit or extend the parking of vehicles."

"Empowered to stagger working hours to relieve transportation congestion, Mr. Lynch may order any employer to arrange or alter hours of employment of employees in order to assure that such proportions as the Controller may fix will, as far as possible, arrive at, or depart from, their places of employment at such

declaration on behalf of the Government of Canada.

Newspapermen were advised last night to come to Mr. King's office for an important announcement. A secretary delivered copies of the official statement a few minutes before Mr. Atlee's speech came over the radio.

There was more than one discussion during the time the two leaders were together.

In several conferences, the announcement said, they "considered the dangers to world civilization arising from the policies of military domination by conquest upon which the Hitlerite government of Germany and other governments associated therewith have embarked."

The statement said they "made clear the stress (explained here as probably meaning steps) which their countries are respectively taking for their safety in the face of these dangers."

The joint declaration, constituting the most concrete war aims yet disclosed on the British side set out "certain common principles in the national policies of their respective countries on which they base their hopes for a better world."

The President and Prime Minister declared their belief after their historic meeting at sea, that "after the final destruction of the Nazi tyranny" the disarmament of aggressor nations "is essential" pending the establishment of "a wider and permanent system of general security."

The eight points on which the President and Mr. Churchill agreed to "base their hopes for a better future for the world" were:

"First, their countries seek no aggrandizement, territorial or other;

"Second, they desire to see no territorial changes that do not accord with the freely expressed wishes of the peoples concerned;

"Third, they respect the right of all peoples to choose the form of government under which they will live; and they wish to see sovereign rights and self-government restored to those who have been forcibly deprived of them;

"Fourth, they will endeavor, with due respect for their existing obligations, to further the enjoyment by all states, great or small, victor or vanquished, or access, on equal terms, to the trade and to the raw materials of the world which are needed for their economic prosperity;

"Fifth, they desire to bring about the fullest collaboration between all nations in the economic field with the object of securing, for all, improved labor standards, economic advancement and social security;

"Sixth, after the final destruction of the Nazi tyranny, they hope to see established a peace which will afford to all nations the means of dwelling in safety within their own boundaries, and which will afford assurance that all the men in all the lands may live out their lives in freedom from fear and want;

"Seventh, such a peace should enable all men to traverse the high seas and oceans without hindrance;

"Eighth, they believe that all of the nations of the world, for realistic as well as spiritual reasons, must come to the abandonment of the use of force. Since no further peace can be maintained if land, sea or air armaments continue to be employed by nations which threaten, or may threaten, aggression outside of their frontiers, they believe, pending the establishment of a wider and permanent system of general security, that the disarmament of such nations is essential. They will likewise aid and encourage all other practical peace-loving measures which will lighten the burden of armaments."

The White House statement said only that President Roosevelt and Prime Minister Churchill "have met at sea" without indicating where the unprecedented conference occurred.

It said they were accompanied by high ranking officials, including Lord Beaverbrook, but there was no specific mention in the announcement of Harry Hopkins, United States Lease-Lend Administrator, whose whereabouts also has been a mystery since he flew back to London after talks in Moscow with high Soviet officials.

The omission did not mean that Hopkins was not also present, and in London today he was reported either back in the United States or on his way back.

Mr. Roosevelt left Washington August 3 for what was announced as a short vacation cruise and some fishing off the North Atlantic coast. He left his special train at New London, Conn., and boarded the Presidential Yacht Potomac.

The ship was not many hours at sea before the first rumors were born. They multiplied with each passing day.

The President and Britain's Prime Minister planned an extraordinary personal meeting at sea. . . Prime Minister Mackenzie King of Canada would sit in, and Harry L. Hopkins, United States Lease-Lend Administrator, and probably Lord Beaverbrook, the British Minister of Supply. . . Mr. Churchill would fly the Atlantic by bomber to keep the appointment. . . Mr. Churchill would come by warship. . . The rendezvous was Canada, Greenland, Iceland, a man-o'-war in mid-ocean.

Mr. Atlee informed the House of Commons the day after the Potomac put to sea that Mr. Churchill was preoccupied "with urgent matters connected with the war" and hence would be unable to participate in an important debate on the conduct of the war.

Then Mr. Hopkins, who had returned to Britain from his visit to Russia only a few days before, dropped out of sight. The cabled explanation was he had retired into

2—Mutual use of British and United States bases in the South Pacific.

3—A request to the Soviet Union to open a Northern front with a Siberian Red Army of 1,000,000 men if war should start in the South Pacific.

Japanese sources admitted ruefully that "all these are possibilities, not necessarily probabilities."

The presence of United States Lease-Lend Administrator Harry Hopkins at the meeting, an American source said, "assured a full and complete picture of the Russians' war needs, for war not only on one front but on Siberia is necessary."

Mr. Hopkins had returned to London from Moscow shortly before leaving with Mr. Churchill for the meeting at sea.

Japanese here declared that announcement of the meeting was not news to them and probably not news to Tokyo since the first admissions in the Japanese press that Britain and the United States were jointly opposing Japanese expansion Southward appeared "after it was pretty certain that Churchill and Roosevelt were meeting."

Things left unsaid in the statement are regarded as fully as important as those of the eight-point joint declaration.

Omission of reference to Japan "implies that Japan was one of the main points of discussion," a Japanese diplomat admitted.

British informants said the meeting was in Mr. Roosevelt's invitation.

The Japanese source said that the tempo of the Japanese advance in South Asia was slowed down by the news of the historic message between the British and American leaders spread around the world.

The Roosevelt-Churchill conferences, which were attended by senior officials and military naval and air experts from both countries, were reportedly held for a week or more, but neither the time nor the place of the meeting was disclosed here immediately.

There would be no surprise in London if a further announcement were made that Messrs. Churchill and Roosevelt had sent personal messages to Joseph Stalin and the Russian people, that Britain and the United States will give the U.S.S.R. the fullest industrial co-operation in arming and supplying the Red Army, air force and navy.

News of the meeting was broadcast to Britain by Clement Atlee, Lord Privy Seal, who has been acting as Mr. Churchill's Deputy in his absence.

Workers in factories and workshops in the country heard the news by radio instead of their usual "music-while-you-work" programme. In some factories machinery was stopped or otherwise made quiet so the workers could listen.

With the entire nation warned a day ahead of time to stand by for a "momentous announcement" dealing with the war effort, radios in millions of homes and in offices and shops were tuned to the broadcast.

Short wave transmitters in addition carried translations of Mr. Atlee's words to Germany, France and other parts of the world.

## Flying Fortresses

Continued from Page 1.  
that Red Army forces trapped in the Southern Ukraine by the advance of the German army to the Black Sea are preparing an attempt to escape by sea and that German bombers are pounding their transports anchored along the coast.

German and Rumanian forces have reached the sea between the Soviet port of Odessa and the Bug estuary in a "continuous, relentless pursuit in the Ukraine," the war bulletin from Hitler's headquarters claimed.

"The air force yesterday struck severe blows against transports held in readiness for the flight of Soviet troops in the coastal areas off Odessa and Nikolaev," it went on.

Two transports totalling 14,000 tons were destroyed and five additional large ships were badly damaged."

All German war reports stressed air blows behind the Russian lines, both in the South and the North.

One 5,000-ton Soviet merchantman was said to have been beached near Odessa and another, of 6,000 tons, had shown a list after air attacks.

Rail facilities at Gomel, in White Russia North of Kiev, and "another important rail centre" between Moscow and Lake Ilmen sector were hammered overnight, DNB said.

Elsewhere on the Eastern front "operations also are continuing according to plan," said the communique.

German infantry was said steadily to be tightening its arc around Odessa and advancing toward Nikolaev, sixty-five miles farther East, after annihilating a rear guard covering retreating Red Army forces.

Nazi spokesmen asserted a decision is impending in the gigantic struggle raging in this sector, but expressed belief the Russians would put up the stiffest kind of fight to hold both Odessa and Nikolaev.

Reports of operations in other sectors of the far-flung Eastern front dealt mostly with the activity of the German air force, which was claimed to have downed 184 Soviet planes in the twenty-four hours ending last night while losing only four.

DNB, Nazi propaganda and news agency, told of a heavy Nazi air raid on an important railway junction at Bryansk, 150 miles Southeast of Smolensk, where German forces are aiming a spearhead at Moscow.

DNB claimed the Moscow-Kiev railway line was badly damaged in this assault and a great number of railway cars set afire. A Russian armored train, eleven guns and eight armored cars were claimed destroyed in raids on Soviet troops in the same area.

The reported Nazi advance toward Nikolaev, a city of about 150,000 situated at the confluence of the Bug and Ingul rivers, apparently helped strengthen a ring the Germans claim they are drawing around Odessa, seventy miles to the West.

Large Soviet forces in the area between the two cities were said to be virtually trapped, with no avenue of escape except by sea, but German observers expressed doubt the Russians would attempt such a flight.

It is more likely, these sources said, that the Russians will hold on and try to sell their positions as dearly as possible.

The push toward Nikolaev was said to have been held up temporarily by a Russian covering force occupying strong positions in an unspecified village to the Northwest.

## CHANGE IN CONTROL AT HAMILTON

Hamilton, Ont., August 14.—(P)—Developments in the dispute between Union representatives and management of the National Steel Car Corporation here shifted to Ottawa late yesterday as it was announced that Howard B. Chase, former Director-General of Labor Relations, had been named to succeed E. J. Brunning who resigned as Government Controller of the munitions making plant.

Shortly before Chase had been appointed controller, it was announced in Ottawa that he would go to Hamilton Tuesday to re-open discussions with Union representatives of the Steel Workers' Organizing Committee. This announcement followed an earlier telegram sent to Prime Minister Mackenzie King by C. H. Millard, Executive Director of the Union, who said that the situation was "grave" and urged Federal action "without provocative delay."

News of Mr. Chase's appointment was welcomed by Eric Dalrymple, Field Organizer of the S.W.O.C. He said: "It will be better for us if Mr. Chase is easier to deal with. We have been in conference with him on different occasions in the past and our deliberations were always satisfactory."

The telegram to the Prime Minister said the Union committee had attempted to meet Mr. Brunning and failed.

A. F. Gill, Deputy Controller of the plant, said that he had known for considerable time Mr. Brunning desired to be relieved of his post as Controller and return to Ottawa to continue his work as Associate Director-General of the Munitions Production Branch of the Department of Munitions and Supply.

## STATEMENT ISSUED ON GREAT PARLEYS

Ottawa, Aug. 14.—(P)—Text of the Statement issued from the office of Prime Minister Mackenzie King today on the meeting between Prime Minister Churchill and President Roosevelt and the joint British-American declaration follows:

Prime Minister Mackenzie King announces that the Prime Minister of Great Britain and the President of the United States have agreed to a joint declaration to be issued on Thursday, the 14th of August, with respect to their recent meeting at sea. The following is the text of the statement, which is being released simultaneously in the United Kingdom and in the United States:

The President of the United States and the Prime Minister, Mr. Churchill, representing His Majesty's Government in the United Kingdom have met at sea. They have been accompanied by officials of their governments including high ranking officers of their military, naval and air services. The whole problem of supply of munitions of war, as provided by the Lease-Lend Act, for the armed forces of the United States and for those of countries engaged in resisting aggression has been further examined.

Lord Beaverbrook, the Minister of Supply of the British Government, has joined in these conferences. He is going to proceed to Washington to discuss further details with the officials of the United States Government. These conferences will also cover the supply problem of the Soviet Union.

The President and the Prime Minister have had several conferences. They have considered the dangers to the world civilization arising from the policy of military domination by conquest upon which the Hitlerite Government of Germany and other governments associated therewith have embarked, and have made clear, steps which their countries are respectively taking for their safety in facing these dangers.

They have agreed upon the following joint declaration:

The President of the United States and the Prime Minister, Mr. Churchill, representing His Majesty's Government in the United Kingdom, being met together, deem it right to make known that certain common principles in national policies of their respective countries on which they base their hope for a better future of the world.

First, their countries seek no aggrandizement, territorial or other; Second, they desire to see no territorial changes that do not accord with the freely expressed wishes of the peoples concerned.

Third, they respect the right of all peoples to choose the form of government under which they will live; and they wish to see sovereign rights and self-government restored to those who have been forcibly deprived of them.

Fourth, they will endeavor, with due respect for their existing obligations, to further the enjoyment by all states, great or small, victor or vanquished, of access, on equal terms, to the trade and to the raw materials of the world, which are needed for their economic prosperity.

Fifth, they desire to bring about the fullest collaboration between all nations in the economic field with the object of securing for all improved labor standards, economic advancement and social security.

Sixth, after the final destruction of the Nazi tyranny, they hope to see established a peace which will afford all nations the means of dwell-

# POLIO OFFERS BIG PROBLEM FOR MANITOBA

### Number of Cases of Disease in Western Province this Year Expected to Exceed Previous Epidemics.

Winnipeg, Aug. 14.—(P)—Manitoba health authorities today continued a stubborn battle against the infantile paralysis epidemic which since last May has resulted in 422 cases throughout the province. Of the total, 228 cases have been in Winnipeg.

The dreaded infectious disease which delivers its main attacks on children during the summer months is threatening to become more widespread in Manitoba this year than ever before. Twenty-four new cases were reported by health authorities yesterday.

Last week-end, Pine Falls, seventy-five miles Northwest of Winnipeg, closed its borders to outsiders. Municipal officials of suburban Transcona have barred children sixteen years and under from theatres and all public gatherings.

Public health authorities here said that authority to take such steps rests with the medical officer of each municipality.

Dr. F. W. Jackson, Deputy Minister of Health, said recently that the epidemic is a mild type and that most of the persons stricken will regain normal use of their limbs and muscles through treatments.

When the outbreak reached epidemic heights, Manitoba health authorities called upon Dr. Donald W. Gudakunst of New York for advice. Dr. Gudakunst is medical director of the United States National Foundation for Infantile Paralysis.

He predicted that Manitoba cases might top 700 before the outbreak subsided. This would be almost double the number of cases in the province in 1936 and would be the second highest number for any Canadian province in a single year. In Ontario in 1937, a total of 2,431 cases were reported.

ing in safety within their own boundaries and which will afford the assurance that all the men in all the lands may live out their lives in freedom from fear and want.

Seventh, such a peace should enable all men to traverse the high seas and oceans without hindrance.

Eighth, they believe that all the nations of the world, for realistic as well as spiritual reasons, must come to the abandonment of the use of force. Since no future peace can be maintained if land, sea or air armaments continue to be employed by nations which threaten, or may threaten, aggression outside their frontiers, they believe, pending the establishment of a wider and permanent system of general security, that disarmament of such nations is essential. They will likewise aid and encourage all other practicable measures which will lighten for peace loving peoples, the crushing burden of armaments.

# PLAN REVISION OF SELECTIVE SERVICE RULES

### United States Army Considering Means of Easing Burden Upon Men Rejected from Army Service.

Washington, Aug. 14.—(P)—A sweeping revision of United States selective service induction procedure has been ordered by the War Department in an effort to meet protests that many men called to arms have quit their jobs and made other final arrangements only to be turned down at the last minute by army doctors.

The Department worked out a system last spring and tested it in Pennsylvania. It was learned today that this system has been approved in principle and that the high command has ordered it extended to all other states as rapidly as State Selective Service Directors and Army Corps Commanders can work out details covering local situations.

The principle of organization will be to give the potential soldier his physical examination as far as possible ahead of the date set for induction, and as close as possible to his home.

This amounts to almost a complete reversal of the present general practice of giving army examinations at reception centres after a man reports for military duty.

Doubtless it is to this newest German menace that Stalin, as Supreme Commander of the Red Army, is now devoting his organizing ability. During the civil war of two decades ago Stalin made a name for himself by pulling the Red forces out of many tough situations.

Stalin is an expert on supplies and organization, two vital factors of the present serious position of the Soviet forces in the Ukraine is to be retrieved.

Once in the revolutionary war when the City of Tzaritsin (now Stalingrad) was on the point of falling to the White Army, Stalin arrived on the scene and with ruthless energy re-organized the Red set-up so that the city was held. And in other tight positions his intervention changed the tide of battle.

seclusion.

Next came an unexplained halt in the messages received from the Potomac for publication. One, two, three, four, five days passed without any official word of the President being released.

That ample subject matter existed for a Roosevelt-Churchill conference no one denied. The outstanding problems facing the two men were well known:

1.—The Vichy Government's decision to embrace closer collaboration with Germany—a decision that raised the question of the future disposition of the French fleet and possible Nazi domination of French colonies;

2.—Japan's new Southward expansion in Asia, with its potential threat to American, British and Netherlands possessions or interests in the South Pacific;

3.—The Axis programme for a new world order, in which Hitler has made plain that National Socialism and the present democratic systems cannot both survive;

4.—Further acceleration of arms production in the United States to provide a larger and faster volume of Lease-Lend aid to Britain, to increase the military and naval strength of both the United States and Hemisphere nations, and to build up stock for Russian cash purchases.

Informed diplomatic sources, noting that each of these topics had manifold ramifications, said they expected the United States and Britain to cope with them, not by an Anglo-American alliance, but by a flexible agreement for generally parallel policies and action.

Ice cream social for Anglican Church, Friday, August 15, 8 p.m.

IN THE WEST They call this fun!

But West and East agree when it comes to choosing breakfast! It's a fact! In three successive years, independent investigators have asked more than 5000 housewives, living in every part of the Dominion, what cereal was the family favourite. And year after year Kellogg's Corn Flakes have been the outstanding leader. Finally, when one group was asked this specific question: "What brand of corn flakes do you think tastes best?"—more than 4 out of 5 said Kellogg's.

Now your family will be no exception. They'll enjoy Kellogg's rich, mellow flavour, too! And that is important because breakfast eaten with appetite is easier to digest. Kellogg's are grand, too, as a between-meal or bedtime snack.

Get two or three packages of Kellogg's tomorrow. Breakfast-outers! Ask for the individual package, now triple-wrapped for extra freshness. Made by Kellogg's in London, Canada.

The Self-Starter Breakfast costs only a few pennies for the whole family. Ask for Kellogg's Corn Flakes in either the large family-size or the regular size package—which ever suits your family best.

MY VOTE IS THE SAME: KELLOGG'S ARE FIRST FOR FLAVOUR

DIETITIANS TELL US . . . when food makes your mouth water, it starts the gastric juices flowing, digests so much better. Flavour experts and housewives agree that Kellogg's exclusive flavour is positively "top" for tempting breakfast appetites.

## Summer Montle Committed To Criminal Assizes For Murder Of Housekeeper At Stanstead

Daughter of Victim Testifies at Preliminary Inquiry that Accused's Proposal of Marriage Had Been Turned Down by Her Mother—Witnesses Claim Montle Admitted Killing 55-Year-Old Woman.

Summer Montle, 54-year-old chicken farmer of Stanstead, was committed for trial before the Court of King's Bench on a charge of murder by Magistrate J. H. Lemay in Magistrate's Court yesterday afternoon following preliminary inquiry into the death of Amy Geer Moranville, housekeeper at the Montle farm, who was murdered July 18. Montle will probably be tried on the capital charge at the November term of the Court of King's Bench and in the meantime will be held in jail either here or in Montreal. Accompanied by a lone jail guard, Montle was whisked away to jail in a taxi following the enquete.

Facing the alleged murderer of her mother from the witness box, Miss Virginia Moranville, twenty-year-old daughter of the victim, told the Court that the accused had on several occasions proposed marriage to her mother but that the latter had declined his attentions.

She said her mother had "made up her mind to leave" and that the "attentions paid her by Montle" was the reason for his decision.

When Crown Prosecutor Cesaire

Gervais asked the girl if the accused had at any time made any advances to her mother, the witness broke down and had to be given a chair before she could continue with her testimony.

The body of Mrs. Moranville was found by her young son, Kimball Moranville, just outside the rear stairs of the Montle home on the afternoon of July 18. The boy rushed to Dr. Arthur White, a neighbor, who with Bernard Thompson, who was a patient in the doctor's home, went to the aid of the woman.

Mrs. Moranville, according to the evidence of Dr. Rosario Fontaine, Provincial Police medic-legal expert, was shot in the stomach with buck shot and then battered over the head with a blunt instrument, presumably the butt of the gun which was found near the body.

Young Moranville, who was working in a field near the house, heard the report of the gun and rushing to the house saw his mother lying face-down in the grass, her head and dress covered with blood. He said Summer Montle said, "I did it but I don't know why." The witness added that Montle's shirt and trousers were covered with blood and that his throat was bleeding.

Thompson testified that the accused was walking up the lane from the Montle home when he and Dr. White met him. He said the doctor told him to look after Montle while he (Dr. White) attended the slain woman.

"Did you notice anything particular about Montle when you accosted him?" asked Mr. Gervais.

"Not right away but later I noticed that he was cut about the throat," the witness replied.

The witness related that Montle was "all covered in blood in front and his throat was cut."

"What did you do with him?"

"I took him by the arm and started to lead him back down to the house."

"Did Montle say anything to you?"

"All he said was 'I did it'."

"Did you ask him any questions?"

"No, he volunteered the information."

"Did he say anything else?"

"Yes. He said he wanted to change his clothes so that he could have clean clothes on him when they hung him."

"Did he change his clothes?"

"Yes. I and Officer Bouchard of Stanstead were with him when he put on clean clothes."

The witness said that the victim was lying on the grass, face-down when he returned to the Montle home with the accused.

Asked if Montle said anything while he was changing his clothes, Thompson said he kept repeating "Poor girl, poor girl."

Miss Moranville said that prior to the month of May last she and her eighteen-year-old sister attended school in Belleville, Ont., and that they returned to live with their mother at the Montle home during the

Desfosse, and choir (H. Holmer and G. Krier); Maytime, selection (S. Romberg). God save the King.

middle of April and the beginning of May. She said that their father had died eighteen months ago and that she understood her mother had been working at the Montle home since the beginning of March. Prior to the death of her father the family had lived at Pithsburg.

Besides her mother, sister, brother and the accused, the Montle home was inhabited by John Montle, Stanstead lawyer, she added.

The witness related that on the 18th of July, the day of the crime, she had returned home from work shortly after noon and had had lunch with her sister and brother.

"Did you see your mother with you?" asked Mr. Gervais.

"No. She served lunch and sat with us for a while."

"Did Summer Montle have lunch with you?"

"No. He was sitting on the veranda, I think."

"Did he have lunch that day?"

"I think he was eating when we left for work."

"Was your mother serving him?"

"I couldn't say."

"Were there any words exchanged between Montle and your mother that noon?"

"Not at noon."

"Was your mother intending to leave the employ of John Montle?"

"Yes."

"What was the reason . . . what was the apparent reason?"

"She wanted to go somewhere else."

"She had made up her mind to leave?"

"Yes. Definitely."

"I don't like to ask you this question, but in answer to your late mother and in the interest of truth, had the accused any intentions of marrying your mother?"

After hesitating for some time, the witness replied: "Yes. In fact, I am sure of it."

"Did your mother approve of it?"

"No. She did not."

"Did the accused use abusive language to your mother?"

"Yes."

"Was that the reason your mother wanted to leave?"

"I think that was one of the reasons."

Cross-examined by Defence Counsel P. S. Rugg, K.C., Miss Montle was unable to state the exact reason for Montle using abusive language to her mother.

"Was it brought on by some imaginary slight?" asked Mr. Rugg. The witness was unable to reply.

During the entire proceedings, Montle sat in the prisoner's dock facing the witness stand and displayed no emotion when he was committed to trial by Judge Lemay.

### Silk Stocking Stock Shortage Starts Stampede

From Under a Counter Somewhere on Wellington Street Aug. 14.—(Delayed)—If it wasn't for the fact that a worm started the whole business he and the writer would feel sort of kindred spirits right at the moment. Hiding under a counter as hundreds of French heels stampede about the floor we can quite understand just how the worm feels as he ducks for cover as voracious fishermen dig the bait for their weekend outing.

It all started when the City Editor decided to find out if there really was a rush on silk stockings caused by Government war restrictions on the importation of silk. There was a sale of silk stockings today so the City Editor thought it would be a good time for him to find out just what was the situation. That's how we got to the sale.

Having always been an admirer of silk stockings we thought it would be a good idea to drop in on the "some time during the morning." That was our first mistake.

In the past we have always experienced more difficulty getting out of places than getting in. But we had never been to a sale before . . . particularly a sale of silk stockings under present conditions.

Getting into a store where a sale is in progress requires a technique all its own. Overcast skies this morning and the fact that the majority of the women brought their umbrellas didn't help matters very much. With a miniature trunk under one arm and an umbrella seized firmly in the right, just try to stop a woman from getting to the counter where silk stockings (worth \$1.25 and retailing for fifty cents) are on display.

Starting on the curb we made our way halfway across the sidewalk before the door of the store was closed for the first time. The second time we made the entrance and on third down finally got inside the store. We thought we were safe.

That was our second mistake.

A man's division then moved in and the first thing we knew we were right in front of the counter.

"How many pair?" asked the somewhat harassed saleslady. We tried our best to explain our mission but unfortunately we were unable to breathe at that moment and that brought a storm of protest from the milling housewives and photographers bringing up in the rear.

"What is HE doing here?" sniffed one of the sniftest sniffers we have ever met.

We started to explain again but the door had opened once more and the pressure increased. That's when we ducked under the counter.

When we got out of here we promised never to mention a run in a stocking again.

### LENNOXVILLE MAN INJURED IN ACCIDENT

Walter Armstrong, Lorne Avenue, Struck by Car While Crossing Main Street Yesterday Afternoon.

Lennoxville, Aug. 14. — Walter Armstrong, Lorne Avenue resident, fell unconscious to the pavement of Main Street yesterday afternoon after he was clipped by a car when attempting to cross the street a short distance below Lennoxville High School.

Armstrong stepped out past a vehicle which was parked at the curb, and as he did so the approaching car knocked him down.

Apparently caught on the bumper or mudguard of the machine, Armstrong was dragged several feet along the street before he fell clear. Regaining consciousness, he managed to drag himself to the sidewalk.

The driver of the car, Maurice Waite, of Sherbrooke, stopped immediately after striking Armstrong, who was picked up by Dr. J. B. Win-

### Extension Of St. Francis Street Plans Are Progressing Favorably

With possibly two exceptions, all proprietors of land situated on the East bank of the St. Francis River which will be purchased by the city for the extension of the street along the waterfront have practically agreed to terms and it is expected that the others will fall into line within the next few days, it was learned today at City Hall.

Ald. J. O. Chartier, a representative of the East Ward, who has been working on the project for the past several weeks, said today that the majority of property holders had expressed their willingness to co-operate with the city in extending the street and he did not foresee any great difficulty facing the authorities in bringing the matter to a successful conclusion.

It is estimated that the cost to the city of acquiring the necessary property will be between eight and ten thousand dollars but no estimate has been made by the City Engineer as yet as to what will be the actual cost of putting the street through.

The main problem, according to Ald. Chartier, is to obtain a uniform agreement between all the property-holders so that they will all be given equal treatment.

At the present time, he pointed out,

some of the property-owners are willing to cede their land to the city at a certain reduced price providing that an agreement is entered into whereby they will not be assessed for paving and sewerage charges when the street is completed.

"We want to place everybody on the same footing so that when the project is completed and that section is developed there won't be one set of regulations governing one property-owner and a different set fixing the charges which may be assessed against his neighbor," he explained.

Even if the city is successful in obtaining all the property which it requires within the next couple of weeks, the actual extension of the street will not proceed this year as the City Council must first authorize a loan to finance such a project, it was explained.

SLEEPING AGAIN

An examination of the schedule for the concluding portion of the visit of the Duke of Kent to Canada reveals that His Royal Highness will not visit the Eastern Townships despite the fact that he will stop at a number of outside places of less importance.

Although advised to do so by the Sherbrooke Record, supported by a number of organizations and local citizens, the municipal authorities simply sat back with the attitude that whatever course the organizers of the tour wished to take was all right insofar as Sherbrooke was concerned.

GRIEF GROWS FOR NAZIS

Reports reaching the outside world from the Balkans by way of Ankara, Turkey, indicate that the Germans are experiencing considerable trouble in their efforts to subjugate the Serbians, many of whom fled to the mountainous regions of the country when the Nazi hordes overran Yugoslavia.

So great has been this wave that a virtual state of revolt in Croatia, with a nine o'clock curfew being enforced throughout the country as the result of bombings at Zagreb, while military sources report wholesale execution of Serbs charged with being participants in these uprisings, with Sarajevo and Zagreb being the centers of the large-scale slaughter.

Coupled with this trouble in the Balkans are the ever-growing acts of sabotage and resistance in Norway and Holland, where the German authorities are facing continuous problems of attempting to rule a sullen people determined to leave no stone unturned to ensure its ultimate freedom.

It doesn't matter now. The swashbuckling Bruno, courting danger with a gleam of medals and the flash of a scarlet-lined cloak, is one in death with the inoffensive Norwegian youth who died with an unaccustomed rifle in his hand.

NORTH HATLEY BELIEVES IN ACTION NOT WORDS

It is a pretty safe bet that if you do something worth while and you do it well your efforts will not go unnoticed. And it is not always the "big shot" who wins the race. This is true of communities as well as of individuals.

Take the Village of North Hatley. North Hatley does not profess to be a prominent industrial or commercial centre. Its people do not point to their humming industries. They have no imposing business blocks. No crowded streets. But they have a community spirit which is second to none.

The Calgary Herald recently published the following article under the heading "Speaks For Itself." We reprint the article because it tells a story which is worth telling. It shows what has been done in the picturesque village of North Hatley. It shows what can be done in any community where co-operation and civic enterprise are not restricted by misunderstanding, jealousy and the many other community obstructions which are not known in North Hatley.

habitants—men, women and children. It is located in the Province of Quebec, a fact that makes the incident related here of special significance, especially to those disposed to charge Quebeckers with lukewarmness in war effort.

"During the recent Victory bond campaign the people of North Hatley, with not a single rich family among them, bought \$117,000 worth of the bonds. To a visitor from across the United States border the village postmaster answered the question, 'Where did it all come from?' Here is the answer as published in a letter to the New York Times:

"Come from? Why, it came from the new cars we won't buy this year, the new bathtubs we won't put in; the new bicycles and skates and skis the boys and girls won't get; the old barns that will go unpainted; the old kitchen stoves that will have to do a while longer; old fur coats patched up; summer vacations spent at home instead of at the shore; no Christmas shopping. We had two fairly big subscriptions, one from a man who happened to have sold his farm, but the rest was in small sums. We were surprised ourselves to find how much it mounted up to when we put it all together. But, you see, with fifty-five of our village boys in active service we had to do what we could."

"Here's the chance for you to do a simple sum in arithmetic. To equal the record of North Hatley in the war effort how many enlistments for active service would your town need? Or how many of the whole of Canada on an eleven million population basis?"

North Hatley and its fine residents deserve every ounce of praise they have received. They did a fine job.

RISTELHUEBER SHOULD GO

The increasing pro-Nazi sentiment of the re-organized Vichy regime and its desire for even closer co-operation with Germany have definitely ended any legitimate reason why the present French Minister to Canada, Rene Ristelhueber, should be tolerated any longer as the official representative of France in the Dominion.

Thus, the Council can couple to its failure to secure any new industries an inability to secure visits of distinguished personages to the district.

Reports reaching the outside world from the Balkans by way of Ankara, Turkey, indicate that the Germans are experiencing considerable trouble in their efforts to subjugate the Serbians, many of whom fled to the mountainous regions of the country when the Nazi hordes overran Yugoslavia.

So great has been this wave that a virtual state of revolt in Croatia, with a nine o'clock curfew being enforced throughout the country as the result of bombings at Zagreb, while military sources report wholesale execution of Serbs charged with being participants in these uprisings, with Sarajevo and Zagreb being the centers of the large-scale slaughter.

Coupled with this trouble in the Balkans are the ever-growing acts of sabotage and resistance in Norway and Holland, where the German authorities are facing continuous problems of attempting to rule a sullen people determined to leave no stone unturned to ensure its ultimate freedom.

It doesn't matter now. The swashbuckling Bruno, courting danger with a gleam of medals and the flash of a scarlet-lined cloak, is one in death with the inoffensive Norwegian youth who died with an unaccustomed rifle in his hand.

They are one today in the democracy of death; how each may fare in some later Judgment is another matter, not given to man to know.

FROM THE RECORD FILES OF THIRTY YEARS AGO

A serious fire occurred at North Sutton when the farm property of Horace French was destroyed. On other parts of the district, many bush fires were reported, the prolonged drought aggravating the situation.

The Federal Department of Agriculture has purchased the creamery station at Brome and plans the operation of an Experimental station for the development of dairy products.

Class leaders in the final examinations at the Lake Megantic Model School were Elizabeth Matheson, Gladys Ellsworth, Anna Gleason, Neil MacLeod, Melvin MacDonald, Oliva Dutil, Della Douglas, Mildred Greenspan and Malcolm Gonyer.

The following staff of teachers has been announced for the Hatley Model School: Miss D. J. Seiveright, B.A.; Miss Agnes Oliver and Miss Alta Bryan.

THAT SILVER PATH

By Rev. B. S. Murray Brome Lake on that lazy August afternoon with the sun irradiating a path of light on its waters presented a picture of great beauty. As I watched this exquisite scene the words "The path of the just is as a shining light that shineth more and more unto the perfect day" stole through my mind.

THE UNWEARIED SUN If there were no sun, what then? But there is! "The Lord God is a sun" wrote the psalmist implying that health and heat, harmony and happiness, light and love are the rewards for walking in God's paths.

THE MOON TAKES UP THE TALE In her evening attire Brome Lake was again a spot of beauty. As I stood on the beach I saw a straight path of silver from the moon to my feet. There in the silence I realized afresh that he who looks wistfully towards the Cross finds a similar direct nexus between the Crucifix and himself and in that love he knows his inalienable worth to God.

## NEW NECKLINE IN SHIRTWAISTER

MARIAN MARTIN  
Pattern 9758

9758

What word stands for 'round-the-clock usefulness... trim smartness... ageless style? It's "shirtwaister," of course! Marian Martin shows this perennial favorite in a bright new version—Pattern 9758—style that's easy to cut and stitch.

The popular new plunging V-neckline is accented by a well-shaped, notched collar and a deep pointed yoke. Optional link buttons give a smart touch. There's a trim band about the waist and the front of the skirt boasts two panels. If you make short sleeves, do add neat little bands. Have this striking frock in pure snowdrift white, or use bright flashes of contrast for the yoke and the collar, the waist and sleeve bands.

Pattern 9758 may be ordered only in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 requires 3 1/2 yards 39 inch fabric. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Marian Martin pattern. Be sure to write plainly your size, name, address and style number. Send your order to Sherbrooke Daily Record, Pattern Department, Sherbrooke, Quebec.

Dr. and Mrs. W. O. Rothney and family left today on a ten days' motor trip around the Gaspé Peninsula.

The Misses Marthe, Rita and Mariette Chauveau and Lillian Beaudry, of Montreal, are spending a holiday at Little Lake Magog.

Mr. P. D. Mathias, who has been in Ste. Anne's Military Hospital for the past three weeks, is returning today to his home on Howard Avenue.

Aircraftman Douglas Heath, R.C. A.F., of Mossbank, Sask., has returned to his duties after spending a leave with his parents at their home on Queen Street.

Mr. James Dick, of Great Neck, Long Island, N.Y., is arriving at St. Hubert Airport today, and will spend some time in Sherbrooke as the guest of his uncle, Mr. Jacob Dick, and Mrs. Dick, Walton Avenue.

Miss Jean Richardson, who has been the guest of Mrs. M. V. Long, Victoria Street, for the past few days, is returning to Montreal today. She will be accompanied by Miss Mary Long, who will be her guest for the week-end.

Among the out-of-town guests who are arriving in Sherbrooke tomorrow to attend the Carroll-Hall wedding on Saturday are Miss Marion Crosby, of Caldwell, N.J., and Miss Katharine Richardson, of Westmont. They will be the guests of Mr. and Mrs. G. Parsons, Portland Avenue.

Mr. and Mrs. Sydney P. Rider, of Lake Megantic (Ditchfield), announce the engagement of their second daughter, Viola June, to Mr. William Bruce Simpson, eldest son of Mr. and Mrs. William P. Simpson, of Montreal. The wedding to take place on September 8th.

Mrs. Frank Caunter, Marquette Street, entertained the Ladies' Guild of Plymouth Church last night in honor of Miss Pearl Whiting, a bride-to-be of the month at a kitchen shower. The many useful gifts were displayed in a miniature church, which was wheeled into the living room. Delicious refreshments were served in the pink and white decorated dining room on a lace covered table centered by pink candles in silver holders and pink and white sweet peas in a silver basket.

Mr. and Mrs. Thomas Smith, of Waterville, Quebec, announce the engagement of their youngest daughter, Eleanor Martha, to Mr. William Aftack Wolfe, B.A., M.Sc., only son of Mr. and Mrs. A. Wolfe, of Vancouver, B.C. Mr. Wolfe is a graduate of the University of British Columbia, where he received his B. A. and B. Sc. degrees and was affiliated with the Phi Delta Theta Fraternity. He also attended Case University in Cleveland, Ohio, where he received his M. Sc. degree and was given an honorary membership in the Sigma Psi Fraternity. At present, he is a member of the staff of the Science Faculty at Queen's University, Kingston, Ontario, where the marriage has been arranged to take place at Morgan Memorial Chapel early in September.

The Misses Susie and Dorothy Hodge, and Miss Phoebe Arnsen, who for the past month have been visiting the former's aunts, Mrs. William Hodge, of Sherbrooke, and Mrs. Hamby Hodge, of Albert Mines, left on Monday. On their return trip to their home in Republic, Mich., they will spend a few days in Montreal, and then will proceed to Toronto and Niagara Falls. While visiting here, they were much feted, among the entertainments being a reunion of the Hodge family, at the home of Mr. and Mrs. George Milford, Albert Mines. Forty-six guests were present, among the guests being Mr. and Mrs. A. E. Hodge and family, of Falconbridge, Ont., Mr. and Mrs. R. A. Hodge, Mrs. L. Lummis and Reta Lummis, of Montreal, as well as other members of the family from Sherbrooke, Ayer's Cliff and Minton.

Dr. E. Couture, of Ottawa, is a guest at the New Sherbrooke House.

Mrs. O. Ralph Webster, Portland Avenue, returned to her home yesterday, after spending two weeks with friends in Swampscott, Mass.

Mrs. Frank Mitchell, of Ottawa, arrived in Sherbrooke last night and is spending a few days as the guest of her daughter, Mrs. C. J. Rose, Argyle Avenue.

Sergeant Lawrence Varney, of the Sherbrooke Regiment (R.) C.A., left yesterday for Long Branch, Ont., where he will take a special course in ammunition training.

Returning from Kingston, Ont., to their respective homes on Friday to attend the Carroll-Hall wedding will be Miss Katherine Davey, member of the staff of Kingston General Hospital, and Miss Kathleen Hall, who has completed a summer course at Queen's University.

A charming tea took place yesterday afternoon when Mrs. Miller Hall entertained informally in honor of her daughter, Miss Patricia Joyce, whose marriage takes place on Saturday. The living room and porch were attractively decorated with gladioli, white and rose phlox, and other garden flowers, while the tables on which the beautiful wedding gifts were displayed were arrayed with vases of marigolds and brown-eyed susans. The dining room was exquisitely done in a white and green motif, with white roses and baby's breath. The tea table was centered by a miniature bride against a background of tall white tapers in crystal holders which also held sprays of baby's breath and were linked with looped white ribbons. The Italian cut-work cloth was edged in lace. Mrs. George Hall, Mrs. O. Stenson, Mrs. Raymond Wood and Mrs. G. Parsons, who assisted were Mrs. F. Delisle and the Misses Anna Armstrong, Olga Reid, Molly Havard, Bessie Milford and Betty Havard.

**AMES—MILLER**  
Melbourne Ridge, Aug. 14.—A pretty wedding was solemnized in the Melbourne Ridge United Church on Saturday evening, August 9, when Muriel Violet, elder daughter of Mr. and Mrs. Stephen Miller, became the bride of Lorne Ivan Ames, younger son of Mr. and Mrs. Gordon Ames, of Melbourne, Rev. V. Buchanan officiating. The church and arch were beautifully decorated with a variety of summer blossoms, and Miss Mary Beers played the wedding music, while Mr. Rothwell Beers sang, "I Love You Truly" during the signing of the register.

The bride, who was given in marriage by her father, wore a charming floor-length gown of white tulle, with lace, over white satin, a floor-length veil falling from a wreath of lily-of-the-valley, and carried a bouquet of sweetheart roses and lily-of-the-valley, tied with white ribbon. Her attendants, the Misses Jessie and Vera Miller, wore similar floor-length dresses of pink and blue sheer over taffeta, with matching halos, and carried bouquets of pink and blue sweet-peas, tied with pink ribbon.

The bride's mother wore a black and white printed crepe gown, with black accessories, and a corsage of sweetpeas, while Mrs. Ames was gowned in a brown and white silk print, with white accessories, and wore a corsage of sweetpeas.

Mr. Kermit Doyle acted as best man, while Gordon Miller, brother of the bride, and Elwin Ames, brother of the groom, were ushers.

Following the ceremony, a reception was held at the home of the bride's parents, the bridal couple receiving their many guests beneath a canopy of pink and white streamers, centered by a white bell. A buffet supper was served, the color scheme of pink and white being continued in the decoration of the bride's table, which displayed a beautifully decorated wedding cake. In a few words Rev. V. Buchanan expressed the best wishes of the guests to the bride and groom, to which the groom responded. The bride and groom received many beautiful and useful gifts. The gifts to the bride's attendants and organist were gold bracelets, while the best man, ushers and soloist received key cases.

Following the reception, the bridal couple left by motor for a short honeymoon, the bride traveling in a navy and white printed sheer dress and navy coat, with navy and white accessories.

Among the out-of-town guests at the wedding were Mr. and Mrs. H. W. Goodenough, Miss Mildred and Mr. Alton Goodenough and Mrs. Thomas Laxon, of Danville; Mr. and Mrs. Mac Miller and Mr. and Mrs. Stewart Dunbar, of Sherbrooke; Mr. and Mrs. G. V. MacLeay and Miss M. Findlay, of Richmond; Mr. and Mrs. R. Barr and Miss H. Barr, of Melbourne; Mr. Fred Lynn, of Flodden; Mr. and Mrs. Gordon Fee, Mr. and Mrs. Malcolm Cote, Mr. and Mrs. Alex Williamson and Delmer and Kenneth Fee, of South Durham, and Mr. and Mrs. Arthur Leonard and family, of Bishopton.

Misunderstood "Nerves" Make Your Life a Trial

Repression A Common Error

Seething over inside, but trying to hide it!

Such inner crises become worse and worse for the woman who tries to control her "nerves" by repression.

If you are high-strung, you have more dynamic energy, keener sensibilities than the average person. Rightly understood, your nerves are an asset, adding to your charm.

But if you try to make yourself follow a too-rigid routine, if you keep yourself emotionally under lock and key, your sensitive nervous system gets out of gear. Edgy, miserable—you drive away friends. You may suffer from insomnia, other ills.

Have outlets. Don't be afraid to drop your duties for a day of fun. Express your creative self in a hobby—rug-making, perhaps. Talk out emotional problems instead of being grim about them. Know something, too, about diet and nerves.

In our 32-page booklet, a well known physician explains mental and physical causes of "nerves," what to do about them. Discusses nervous indigestion, insomnia, other "nerve" symptoms. Describes correct diet, body care for vitality, health.

Send 15c in coins for your copy of "Overcoming Nerves" and "Every-day Health Problems," to Daily Record, Home Service, Sherbrooke, Quebec. Be sure to write plainly your name, address, and the name of booklet.

## Open Norton Memorial Annex At Reception In Wales Home

Record Crowd Attends Annual Reception at Home for Old People of Eastern Townships at Richmond and Inspects New Three-Storey Wing—W. L. Shurtleff, K.C., in Inspiring Address.

A new era of service to the Eastern Townships by the Wales Home for old people near Richmond was inaugurated yesterday afternoon with the official opening of the ultra-modern Norton Memorial Annex, which coincided with the annual reception of friends of the institution throughout the district, and about three hundred people from widely-scattered points journeyed to the Home to enjoy the short programme and to inspect the new addition.

What was believed to be the largest crowd ever to attend a Wales Home inspection listened to a highly appropriate address by W. L. Shurtleff, K.C., of Coaticook, who declared that the Home was a magnificent institution of which the Eastern Townships may well be proud and that as long as there are interested and generous people, such as Harry A. Norton, of Ayer's Cliff, and Miss Helen Norton, of Coaticook, who financed the building of the annex in memory of their parents, Arthur Osmore Norton and Helen Richardson Norton, it will continue to be of excellent service to the Eastern Townships.

Speaking directly to the residents of the Home, Dr. Shurtleff told them that in the Wales Home, where they can spend the remainder of their days in comfort and security, is in existence in the Eastern Townships, and assured them that the people in the surrounding district have them continually in their

### Check Discharges From the Bowels

Bowel troubles, although happening at any time of the year, are more prevalent during the hot summer and early fall months.

Summer Flu is one of the worst troubles, but diarrhoea, dysentery, colic, cramps and pains in the intestines, or any looseness of the bowels should have immediate attention.

The action of Dr. Fowler's Extract of Wild Strawberry is pleasant, rapid, reliable and effective in helping to check the unnatural discharges.

It has been on the market for the past 94 years, so why experiment with new and untried remedies? Get "Dr. Fowler's" and feel safe. The T. M. Barron Co., Ltd., Toronto, Ont.

thoughts. Roberts Mitchell of Granby, President of the Home, who was chairman for the short programme, welcomed the guests to the reception and mentioned what a great benefit the Norton wing will be to the institution. He also thanked the people of the Eastern Townships for their continued interest in and generosity toward the Home, and the residents of Richmond and Melbourne, who, he said, perform many services throughout the year to assist the officials of the Home.

A pleasant feature of the afternoon was the singing of Miss Thelma Crawford, of Lennoxville, who presented four solos, "There Comes Another Morn'" (Sibelius), "Down Here," (May Brahe), "The Second Minuet," (Besley), and "When You and I Were Young, Maggie." She was accompanied by Mrs. Stanley Pergau, of Lennoxville. Rev. William MacMillan, D.D., of St. Andrew's East, led the introductory prayer, and "Unto the Hills" was sung, with Mrs. W. J. Ewing, of Richmond, at the piano. The speaker was introduced by D. J. Salls, of Sherbrooke, and thanked by K. G. Nourse, of Richmond, who also expressed appreciation for the generosity of the Nortons, for Miss Crawford's contribution to the programme and for the continued support of the Home by Eastern Townships residents.

Following the programme the guests inspected the new building, enjoying refreshments in the basement, and also visited the grounds and buildings in connection with the Home.

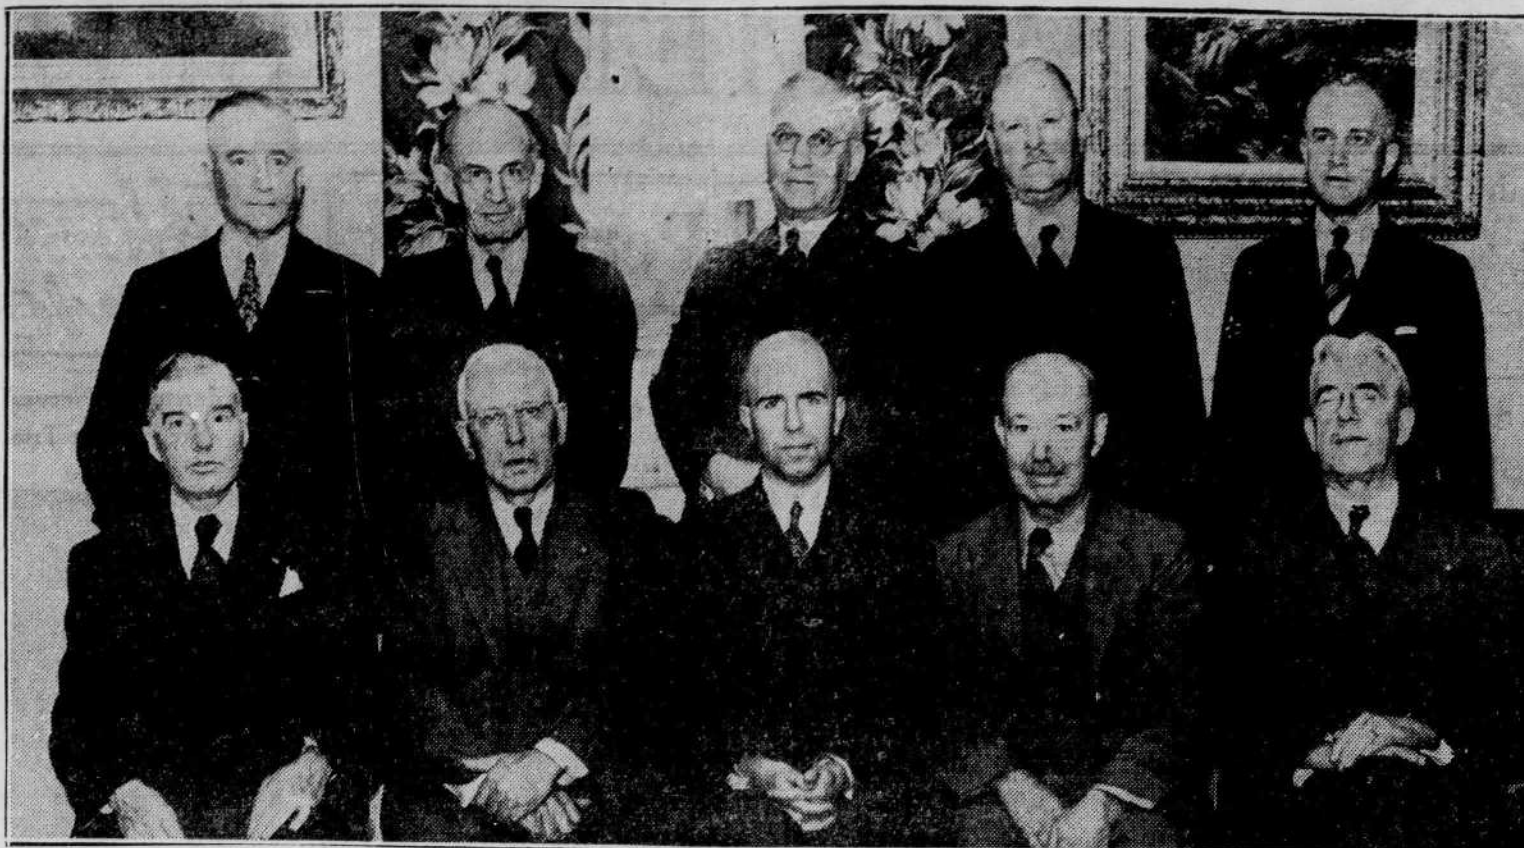

The new structure is completely fireproof. In the basement there is accommodation for the staff, a workshop, small personal laundry and storage space. The main floor has been reserved as an infirmary with eighteen beds for bed-ridden residents. There are quarters for the nurse and a ward kitchen on this floor.

The upper floor provides accommodation for twenty-three residents. Each floor has a large sitting room and there is also a screened-in porch at the front of the building. An elevator installed at the junction of the old and new buildings will adequately serve both structures.

Among the many people attending the reception were R. G. Davidson, Member of Parliament for Stanstead, and S. E. Desmarais, Member of the Legislative Assembly for Richmond.

Mr. Norton and Miss Norton arrived late in the afternoon, follow-

## Officials At Wales Home Reception

Shown above is a group of officials and directors of the Wales Home at Richmond, where a record crowd yesterday attended the annual reception and the official opening of the Norton Memorial Annex, a three-storey structure built through the generosity of Harry A. Norton, of Ayer's Cliff, and Miss Helen Norton, of Coaticook, in memory of their parents. Roberts Mitchell, of Granby, President of the Home, is in the centre of the front row.

### A Splendid Example Of Community Spirit

Yesterday the Record published two pages of advertisements, comprising chiefly stores, business and professional men of Richmond, in connection with the formal opening of the Norton Memorial of the Wales Home at Richmond.

It is inspiring and encouraging to note the different names appearing on these pages. Out of a total of thirty-one advertisements, eighteen had been inserted by English or French-speaking Roman Catholics.

The Wales Home is an institution for aged Protestant people, yet its importance to the community is realized by the population at large, and the wonderful service which it is rendering to the Eastern Townships as a whole is appreciated by all people, regardless of race or creed.

The citizens of Richmond are noted for the broad-mindedness and civic co-operation which characterizes all of their undertakings. This is a factor which might well be copied by many other communities.

In Richmond the people work together. They put things over because there is a spirit of understanding. Richmond is a town where everybody gets together and together they get somewhere. That is why Richmond is prosperous and why it is going places.

# WE SUPPLIED THE STEEL . . .

We feel that we played no small part in the construction of the NORTON MEMORIAL of the Wales Home.

It was the MacKinnon Steel Corporation, Limited, which supplied the steel used in the frame work of this splendid building.

Made possible by the generosity of two public-spirited citizens of our own Eastern Townships, the NORTON MEMORIAL, which was formally opened yesterday is now in permanent service—a worthy addition to a wonderful institution which is day after day, and year after year, rendering a great humanitarian service to the Townships.

We are proud of our association with the Wales Home. We are happy to have been of service.

We congratulate the Wales Home. May its future be happy and prosperous and may its service to humanity increase with the passing years.

**I'm coming to Help DOUBLE The Toronto Evening Telegram British War Victims' Fund!**

**Never before have I had the chance of helping a cause so splendid and worth-while as the Toronto Evening Telegram British War Victims' Fund! That's why I'm making a special trip to Toronto to settle down for the whole Exhibition! I'll be waiting there, to meet you, right in my fascinating "barn-boudoir" at the eastern entrance of the Food Products Building. And I want ALL of you to come and see me. I'll welcome you with an affectionate MOO-OO, for by visiting me, you'll be making a direct contribution to this famous voluntary fund which is doing so much to brighten the lives of the heroic defenders of Britain. You will put your contributions in my special "V" Chest which will be standing outside my boudoir.**

**Strategic suggestion!** If you're making up an overseas box, the lad who opens it will say you're a real military strategist if you include Borden's Eagle Brand Sweetened Condensed Milk. Spread on bread, Eagle Brand makes a snack that's really delicious! And it's a grand "pepper-upper," a genuine energy-booster for men on active service.

## CERTO takes the GUESSWORK out of JAM and JELLY MAKING

**ENSURES JAMS AND JELLIES THAT SET PERFECTLY... TASTE BETTER... COST LESS!**

**HOW CERTO SAVES YOU TIME, MONEY WORK, WORRY**

**So Quick and Easy**—It takes such a short time to make jam or jelly with Certo. For jam you need give only a one-minute to two-minute full rolling boil—for jelly only a half-minute to a minute.

**So Economical**—Since very little juice has time to boil away, you get up to one half more jam or jelly from an equal amount of fruit.

**Fresh Fruit Taste—Natural Colour**—Boiling time is so short it cannot affect the natural taste or darken the colour. Your jams and jellies retain both the colour and taste of the luscious fresh fruit.

**Sure Results**—With Certo you get tested, easy-to-follow recipes. Use exactly and you can be sure of good results... Always!

**LOOK FOR Book of 72 Tested Recipes under the label of every Certo bottle.**

**3 out of 4 Jam and Jelly Champions use CERTO**

Defence Activities

An automobile road from St. John's to the Placentia Bay naval base is being transformed into a real highway, so that communication between the United States army base near St. John's and the navy base at Argentia soon will be fast and smooth by land as well as by air.

On the other hand, Newfoundland airport, one of the biggest flying fields in the world—with paved runways as broad as the average runway in England—is an extremely isolated position. To get there one must travel either by rail or by air—and in no case without military permission.

This makes the movement of construction material and airport supplies to Newfoundland airport a problem. But there has been no rush to connect this great field, operated by the Royal Canadian Air Force but used also by the United States Army Air Corps—with other points on the island by motor road.

The theory has been that roads would help a potential enemy more than they would serve the field. And so it happens that Newfoundland Airport, as a vital crossroad of air traffic, is closer to London by air than it is to St. John's, by rail.

From Newfoundland Airport to New York is a little over five hours' flight. By rail and boat from New York to St. John's is almost five days.

Portable radio transmitters simplify the problem of communications between military units, between Newfoundland bases and Ottawa, London and Washington. But even so the volume of Newfoundland telegraph traffic has swollen so enormously in the last year that an SOS call for teleprinters and other equipment had to be sent to the United States.

From the United States, too, is expected to come the additional railway equipment—especially locomotives, freight and passenger cars and tank cars—needed to put the narrow-gauge railway in a position to handle its vastly increased business.

Vice-Premier

Continued from Page 1 Japanese Cabinet was struck in the chest and jaw today by pistol bullets fired by a 33-year-old assassin.

Hiranuma has been regarded as a mainstay of the cabinet of Premier Prince Fumimaro Kono and definitely a moderating influence. Observers said, therefore, that the fact that such an attack should occur was not considered a good sign in a time of tense international relations.

There was no immediate report, however, on the motive of the Baron's assailant. The attacker, identified as Naohiko Nishiyama, called at Hiranuma's home before 8 a.m. today and gained access under the pretext he wished the Vice Premier's autograph on a roll of parchment.

He pulled a pistol from the roll and fired three shots in all, authorities reported. The first missed but the others struck Hiranuma in the jaw and chest.

Despite his age and wounds, the Vice Premier pursued the attacker from the house and caught him at the gate where, with the aid of the gatekeeper, Nishiyama was held until further help arrived.

Prince Kono and Home Minister Harumichi Tanabe were among the dignitaries who visited the wounded man during the day. In this connection it was recalled that a number of men in the cabinet have looked to Hiranuma for guidance and observation said it would be a severe blow if he were incapacitated.

Shortly after the attempt on Hiranuma's life was announced former Foreign Minister Yosuke Matsuoka returned to Tokyo from his summer villa.

Baron Hiranuma was Premier from January 5 to August 28, 1939. He resigned after Russia and Germany signed their non-aggression pact, an action shortly followed by the outbreak of the war.

He returned to political office in July, 1940, as Home Minister under Premier Prince Kono. When Prince Kono formed his new cabinet July 18, Hiranuma became Vice Premier and Minister without Portfolio.

In years past Hiranuma had been considered a radical but in recent months, when he has become second

### HATLEY GROUP MEMBERS HELD BUSY SESSION

Plans Made for Annual Chicken-Pie Supper at Regular Meeting of Women's Association Held at Home of Mr. and Mrs. Hugh McClary.

Hatley, August 14.—The Women's Association held their August meeting at the home of Mr. and Mrs. Hugh McClary, with Mrs. Pellerin, Mrs. J. S. Webster and Mrs. A. McClary as joint hostesses.

In the absence of the First Vice-President, Mrs. B. Fowler, Second Vice-President, took the chair. The hymn "What a Friend We Have in Jesus" was sung and Scripture read by Mrs. C. Moulton. This was followed by the Lord's Prayer repeated in unison.

Mrs. Edwards, as Secretary pro-tem, gave the roll call and read the minutes of the previous meeting.

It was decided to hold the annual chicken pie supper near the last of September.

A vote of thanks was tendered the President, Mrs. T. J. Little, for the gift of ten yards of print.

Mrs. Davis, Treasurer, reported all bills paid and twenty-seven dollars in the treasury.

The meeting was adjourned to

meet early in September. Thirty-three members and friends partook of the very delicious supper.

**General Notes**  
Dr. Leslie Pidgeon and Mrs. Pidgeon recently called on Miss Nellie Whitcomb. Many years ago Rev. L. Pidgeon, Presbyterian minister in Hillhurst and Massawippi, and at times filled the pulpit of the Methodist Church here. His wife, then Miss Edith Gilker, taught in the Model School.

Mr. and Mrs. Leslie McClary, who have been in Keene, N.H., for nearly two weeks, the guests of their daughter, Mrs. Donald Markwell, and Mr. Markwell, have returned to their home.

At the last meeting of the Town Councilors, Fred Webster was elected to fill the vacancy made when Claude Whitcomb moved away.

Pte. Robert Vaughan, of the Sherbrooke Fusilier Regiment, C.A., and Mrs. Vaughan are spending his leave with his parents, Mr. and Mrs. Elwin Vaughan.

#### COATICOOK

As pastor of the Compton United Church, Rev. Roy P. Stafford, accompanied by Mrs. Stafford, Miss Stafford, Mrs. Anson Rogers and Miss Beatrice O'Dell attended a tea at the home of Mr. and Mrs. Herbert Allison, of Draper's Corner, given under the auspices of the ladies of Ives Hill. Many from the surrounding towns were present and enjoyed the delicious supper and entertainment. Songs were rendered by Miss Gladys Swanson, of Waterville, and by Miss O'Dell, a duet by Rev. Mr. and Mrs. Stafford and readings by Miss Stafford.

Rev. Roy Stafford, Mrs. Stafford and Miss Stafford were guests of Mr. and Mrs. Walter Armitage in Coaticook.

Mr. Grant and Mrs. Alexander, of Montreal, were week-end guests of Rev. W. Harris Wallace and Mrs. Wallace and upon their departure were accompanied by Mrs. Grant, who had been a guest for some time previously at the parsonage.

Mrs. Peters and two daughters, Jean and Shirley Ann, of Lacombe, N.H., who for two weeks were guests

of Mr. and Mrs. Vera Andrews, have returned home.

Twelve cars filled with members of the Baptist Church congregation and Sunday School and their friends went to Lake Massawippi where they enjoyed a picnic and sports. Lunch was served at the close of the afternoon.

Mayor W. L. Tomkins, of the Sherbrooke Fusilier Regiment, C.A., was in town for a few hours, a guest at the home of his aunt, Mrs. E. F. Tomkins.

Mr. and Mrs. Frank Bagley were delighted hosts to their children and grandchildren on Friday last in celebration of their fiftieth golden wedding anniversary. Mr. and Mrs. Bagley have for more than fifty years been residents of Coaticook, having come as small children to this locality, Mr. Bagley from England and Mrs. Bagley as Mary Ann Kelly, with her parents, from Ireland. Mr. and Mrs. Bagley received many expressions of good will from friends and acquaintances as well as from their children, who gathered with them at their home.

Mr. Keath Armitage, of New York, was a guest of his grandfather, Mr. P. H. Armitage. Miss Marion Wallis is a patient at the Sherbrooke Hospital, where she was operated upon last week for appendicitis.

Miss Mary Bacon, of St. Hyacinthe, is the guest of her grandparents, Mr. and Mrs. F. J. Meade. Mrs. Guy Carr, of Compton, was in Coaticook, calling on friends last week.

# CARDS' NATIONAL LEAGUE MARGIN SLICED

## Dodgers Rout Phillies As Reds Edge St. Louis

St. Louis' Margin Over Brooklyn Narrowed to Half a Game—Dolph Camilli's 23rd Circuit Clout Helps Flatbushers to 7-2 Conquest of Philadelphia—Yankees and Senators Split Bargain Bill—Indians Walloped 9-3 by Browns.

The tangle in the National Baseball League is as hopeless of an early solution as the first day of a six-day bicycle race.

St. Louis Cardinals and Brooklyn Dodgers keep whirling round and round till one or the other spills off. Then they get up and do it all over again while everybody gets dizzy.

Last night the Cardinals lost 3-2 in ten innings at Cincinnati as the Dodgers drummed out a 7-2 triumph over the Phillies to narrow the Cards' margin to half a game—where the matter is bound to rest today because neither team is scheduled.

The Cards collected a dozen hits off Bucky Walters, but they didn't get them close enough together. Young Mort Cooper was the losing pitcher.

Dolph Camilli, current homer king of the senior circuit, notched his 23rd with two on in the third inning as the Dodgers coasted to victory.

In another National night game Chicago Cubs sent Pittsburgh Pirates sprawling to their third straight defeat 6-4, for their longest losing streak in seven weeks.

New York Giants and Boston Braves divided. Babe Young sparked the Giants to a 7-6 victory in the opener, and then Lefty Art Johnson pitched seven-hit ball for a 3-1 triumph in the nightcap.

In the American League New York Yankees split a bargain bill with Washington Senators.

The Yanks were whipped in their first game 5-3 but had no trouble taking the second session 5-1. The Indians were walloped 9-3 by St. Louis.

This spurred Boston Red Sox to a 4-0 conquest of Philadelphia Athletics in a night game that

lifted Boston within a game and a half of second place.

Buck Newsom came through with a six-hit pitching performance to steer Detroit Tigers to a 4-1 victory over Chicago White Sox.

The good-old-times

If Nova happens to take Louis' title (with or without Yogi), the heavyweight championship will go back on the fight-once-a-year basis of Dempsey's days, and Louis' Bum-of-the-Month Club will fold its tent.

But if Joe wins, he'll take on the Buddy Baer-Abe Simon winner in January.

Hit-and-run

Frank Leahy is tipping Notre Dame Alumni not to be too disappointed if the Irish drop as many as three decisions this fall. Damon Runyon, the promoted sports writer, heads for Hollywood in a couple of weeks to produce a picture from one of his own short stories. Just to show how much chance the Indians still have of winning the pennant, an agent is getting in touch with syndicates to see who wants to buy Bobby Feller's by-line for World Series coverage.

## PHELPS READY TO RETURN TO DODGER SQUAD

Catcher's Two-Months-Old Break with Brooklyn, Whom He Left June 12, May Be Ended if Club Comes to Him.

Odenton, Md., Aug. 14.—(AP)—Babe Phelps is ready to return to Brooklyn and help the Dodgers in their pennant drive, but he won't beg for the opportunity—and the Flatbushers could use their hard-hitting receiver but won't plead with him to re-enter the fold.

That's the way matters stand between himself and the pennant-bidding National League club, says Phelps, round, gentleman-farmer of Odenton, discussing his two-months-old break with the Brooklyn, whom he left June 12 with a complaint he was sick.

He said he went to Chicago two weeks ago and, with Leo Durocher, Dodger manager, discussed his case with Commissioner K. M. Landis. "I told Landis then," he said, "that I would probably request voluntary retirement from baseball, but now I plan to write him right away and tell him I've changed my mind about quitting organized baseball."

Phelps said he wasn't backing down in his contention that, as an ill man, he was justified in leaving the club when the Dodgers departed from New York June 12 for a series with their pennant rivals, the St. Louis Cardinals.

Phelps said he had licked the sinus, gripe and rheumatism that floored him in the spring and brought his illness and team difficulties. He had been working out daily and is down to 212 pounds, about his best playing weight.

Now he's willing to get back into harness, if the club capitulates.

YESTERDAY'S STARS

Babe Young, Giants, and Art Johnson, Braves — Former hit two doubles to drive in three runs toward victory in first game and latter pitched steady, seven-hit ball to win nightcap.

Bobo Newsom, Tigers — Stopped White Sox with six-hit shutout. Dennis Galehouse, Browns — Kept Indians in check on eight hits and made three singles himself.

George Archie, Senators, and Marvin Breuer, Yankees — Former hit two-run homer in 11th inning to win first game and latter pitched five-hit ball to capture second.

Dolph Camilli, Dodgers — Smacked three-run homer to pave way to victory over Phillies.

Charley Wagner, Red Sox — Shut-out Athletics by keeping eight hits well scattered.

Charley Gilbert, Cubs — Delivered pinch single with bases loaded in ninth to beat Pirates.

Frank McCormick, Reds — Singled with bases filled in 10th inning to drive in winning run against Cardinals.

## IN SPORTING VEIN

By ALLAN BRYCE

This has been a queer softball season, and both fans and officials of the City and Industrial circuits are becoming more and more befuddled as confusion piles upon confusion.

Latest in the series of screwy developments was the default of the Fairbanks team, which was engaged in a battle with Superheater for the Industrial League title. Fairbanks lost 14-1 Monday night in the opening game of the best-of-three series, and the teams were scheduled to meet again last night, but the E. and T. troupe announced that they would be unable to go any farther and handed the championship to the Tigers.

It is unfortunate that Fairbanks could not continue, and their default is the second unexpected occurrence in the Industrial circuit since the start of the playoffs. Just a few days ago Fairbanks, at that time engaged in a semi-final series with Kayser, protested to the league over Kayser's use of Deziel, who also participated for La Tribune of the City League. When the loop executive ordered the second game wiped out, the Kayser team decided against a re-play, and Fairbanks went into the final automatically.

Of course it is always easy to second guess, but in all probability the Kayser outfit would have been able to play the complete final had they, instead of Fairbanks, faced Superheater.

The other disappointing event this season was the withdrawal of the Kayser seniors from the City League at the start of the playoffs. Kayser, practically a charter team in the loop, was hit by a wave of disinterest on the part of players with long service records, and also was crippled by the fact that several performers were being transferred away from Lord Sherbrooke, Training Camp.

In view of what has happened nothing can be considered a sure thing, so don't be surprised if Superheater and Boissonneault fail to get together for the city championship. At this stage, however, it seems fairly safe to say that the two teams will play the first game of the title series at the Parade Grounds on Monday night, and that by next week-end the champions will be declared.

Montreal Royals have only one player hitting .300, yet they are in second place in the International Baseball League, hot on the trail of the pace-setting Newark Bears, and this unusual state of affairs shows that Sukeforth's outfit must have plenty of class in other departments of the game besides hitting. For that matter, there is nothing wrong with the hitting, either, because while the Montrealers are not setting the league on fire with big percentages, they are constantly delivering those base pokes, home runs included, when they count. The Royals lead the circuit in stolen

bases, collecting four last night against Toronto, three of them coming in a triple pifer play, and their pitchers are doing better than any Montreal has had since the pennant year six seasons ago, and the infielders and outfielders are turning in great fielding performances. Then, Jack Graham, with 28 home runs, thirty doubles, three triples and 91 runs driven in, is almost a team in himself.

Yvan Robert and Lou Thesez, who met last night in the Forum for the "world's wrestling championship," more properly the championship of Montreal. Pointe-Aux-Trembles, Ville St. Pierre and the Back River, seemed to spend most of their time throwing each other out of the ring, to the great delight of some 8,000 spectators. Thesez twice used a dropkick tooust the Lion of French-Canada, and then Robert fired Thesez out three times. On the third heave-ho Thesez landed on the press table and fell to the floor stunned. Robert was promptly disqualified.

Although upsets will always happen, Johnny Hibbard should be able to get past Hec Prefontaine tonight in their Eastern Townships Tennis Tournament match at the St. Francis Club. Hibbard, one of the best athletes turned out by St. Pat's Academy in recent years, and a football and hockey standby at Bishop's University before he entered McGill to study medicine, got past one of his biggest barriers to the singles crown when he bumped off Majella Charest the other night. Charest is one of Sherbrooke's best players, tenacious and steady, and Johnny won't meet many more as tough from now on. As a matter of fact, he had eliminated another talented performer earlier in the tourney in the person of Leo Choquette, of Waterloo.

It will be interesting to see how war conditions will affect the size of the field competing this week-end in the Eastern Townships amateur golf championships at the Country Club. Bart Holtham, genial Eastern Townships Golf Association official, has high hopes of a mammoth turnout for the tourney, and is praying mightily for a fair, windless two days on Saturday and Sunday.

It is too bad Harry Fowlis, now a sergeant in the Sherbrooke Fusilier Regiment, will be unable to defend the title he carried off last year with a brilliant display of shot-making in the face of stubborn opposition, but on the other hand, the scramble among the contenders for the vacant throne should make up for the absence of the champ.

No doubt the keen-shooting Brault brothers, Roland and Gus, from Cowansville, will be back again to pit their skill against that of Sherm and other Country Club stalwarts, Duke, and Col from Granby, and a number of other men who constantly turn in scores in the vicinity of par.

The distance around the equator has shrunk 1 1/2 miles in the last 100 years, according to scientists.

## FINAL TRACES OF MCGRAW'S DAYS FADING

They Are Getting Ready to Cancel McGraw Stamp Under Coogan's Bluff—Giants to Be Rebuilt.

New York, Aug. 14.—(AP)—At long last, they are getting ready to cancel the McGraw stamp under Coogan's Bluff, and the prospect is none too pleasant.

For the first time since the Grand Old Man turned the reins over to William Terry in '32, the future that John McGraw built for is past. And for the first time, New York Giants' reconstruction plans no longer include any of the "McGraw Men" with whom Terry won three National League pennants.

That much was clear today from the talk President Horace Stoneham is making about the long-needed rebuilding of the Coogan's Bluffers for 1942. He won't point to this man or that and say he'll do or he won't. But the indications are not even Mac's most durable and dependable warriors—Carl Hubbell and Melvin Ott—fit exactly front and centre in the picture.

Master Mel and King Carl probably will be around next year, but the only two current performers on the club sure to hold down their jobs — the two around whom Terry and Stoneham will try to put a new ball team—are Babe Young on first base and Johnny Rucker in the outfield.

The solid infield blocks that were Dick Bartell and Billy Jurges are crumbling, a good portion of the outfield needs repairs and the pitching staff this year, except for occasional flashes, is travelling under false pretences. Stoneham says the job will be re-done from top to bottom.

## OLD FOX TELLS WHY CLEVELAND CLUB COLLAPSED

Too Many Dumb Players Held Reason for Indians' Poor Showing—Hal Trosky Described as "Fumblebug."

New York, Aug. 14.—Clark Griffith gives as good a reason as any for the annual Cleveland floperoo—too many dumb players.

"Too many Indians have a bad mental attitude," says the old-time pitcher who runs the works in Washington.

"They haven't got a winning slant." Owner Griffith takes Ray Mack's hitting—or lack of it—into consideration when he brands the right side of the Tribe's infield as weak.

He calls Hal Trosky a fumblebug, with or without a headache. "I don't care if Trosky hit 1000, a club can't win with a player like him at first base," asserts Griffith.

The Old Fox first leased Zeke Bonura to the Giants and then sold him to the Cubs despite the fact that he couldn't miss batting in 100 or more runs a campaign.

The trouble was that Bananas Bonura let in an equal number of runs by giving grounders that should have been fielded the Fascist salute.

One of the biggest differences between the Yankees of 1940 and the current edition is found in Frankie Crosetti's batting average of .194 and Phil Rizzuto's present .310. Crosetti made no more than 109 hits and batted in only 31 runs in 145 games. Rizzuto made 101 hits, and drove in 28 runs in his first 85.

Crosetti aptly demonstrated that he was a championship shortstop, but he never could match Little Scooter Rizzuto at bat.

And the hardest hitting outfit can't carry an All-America out. As Griffith points out, Rizzuto hits a curve and can punt when the infield plays deep and hit hard when it is in.

Rizzuto is the last word as a double play maker. He could use a stronger arm, but Griffith estimates that not more than one play a week comes up that he is incapable of handling with 100 per cent efficiency.

Clark Griffith adds that even the brilliant Lou Boudreau of Cleveland has trouble throwing from deep short.

With the Giants travelling at breakneck speed in that direction—Down Under, Manager Terry speaks of doing baseball missionary work in Australia when the war is over. Meanwhile, it wouldn't do the Polo Grounds any harm if Bill Terry took time out to do a little missionary work for the Giants.

## Royals Win Again As Toronto Boss Quits Field In Disgust

Montreal Rallies for Six Runs in Sixth Inning to Top Leafs 10-7 in Fourth Straight International Baseball League Triumph—Sukey's Team Clings to Heels of Fast-Travelling Newark Bears—Buffalo and Rochester Split Double Header.

It just wasn't Joe Vance's hour last night as Montreal Royals defeated Toronto Leafs for their fourth straight International Baseball League victory.

Vance not only was charged with the defeat after he went to the mound to relieve Walter Lanfranconi in the sixth inning as the Royals began to get out of hand, but he suffered the misfortune of being victim of a triple steal.

It was that sixth inning which permitted the Royals to cling to the heels of the fast-travelling Newark Bears. The Leafs had worked their way to a 7-4 lead going into that frame, but the Royals put on a rousing rally to push six runs over the plate and win 10-7. The show so sickened Toronto Manager Lena Blackburne that he quit the field in the sixth in disgust.

Frank Kellerer was the whole show as Newark defeated Baltimore Orioles in the rubber-game of their series. His three hits, including his 32nd home run, drove in all Bear runs and enabled Allen Gettel to coast to his ninth victory, 4-3.

Buffalo and Rochester split a double header. In the abbreviated opener the Bisons took a 0-3 decision, thanks to some classy pitching and hitting by Floyd Giebell, making his first start since being purchased from Detroit.

In the regulation nightcap Hershel Lyons pitched Rochester to a 5-4 decision.

Lynn Nelson was right at home in football weather as he pitched Syracuse Chiefs to their fourth straight victory over Persey City Giants 6-5.
