HELP Yourselves by making money when a golden chance is offered, thereby always keeping poverty from your door. Those who always take advantage of the good chances for making money that are offered, generally become wealthy. when those who do not improve such chances remain in poverty. We want many men, women, boys and girls to work for us right in their own localities. The business will pay more than ten times ordinary wages. We furnish an expensive outfit and all that you need, free. No one who engages fails to make money very rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address STINSON & Co., Portland, Maine

"SULPHOL LOTION."—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. Pepper & Co., London, England.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and return to robust health certain. Bottles, 32 doses, 4s. 6d ; next size, 11s. Sold by Chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or fabrile condition

TARAXACUM AND PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LOCKYER'S SULPHUR HAIR RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin. Large bottles, 1s. 6d.—Lockyer's is equal to the most expensive hair restorer.

LOCKYER'S SULPHUR HAIR RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade, and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair

LOCKYER'S SULPHUR HAIR RESTORER—Sulphur being highly prized for its stimulant, cleansing, healthful action on the hair glands, LOCKYER'S RESTORER is strongly recommended. It is most agreeable in use, and never fails in its action on the colour glands, always restoring and maintaining that which has been lost. No other hair dressing is requisite. Large Bottles, 1s. 6d. Sold by Chemists, Hairdressers, and Perfumers in London, the Country, and throughout the world.

Lockyer's is equal to any of the high-priced preparations.

LIVER COMPLAINTS.

DR. KING'S DANDELION and QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILIOUSNESS STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEADACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent Surgeons to be the safest and mildest pills for every constitution.

In Boxes, at 1s. 1½d., 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendor throughout the world.

Prepared by Jas. Rorke, London.

Specially valuable Pills for residents abroad and travellers.

AFTERNOON DESPATCHES.

GREAT BRITAIN.

Froude and Carlyle—Bradlaugh to Appeal to the People.

(Per Montreal Line.)

LONDON, May 6.—Mr. Froude states Carlyle at first gave him the manuscript of the "Reminiscences," with instructions attached, but afterwards left the publication to Froude's discretion.

It is stated Bradlaugh will appeal to the people, pointing out how the Commons are treating him and asserting that the Conservatives, under cover of his case, jeopardize the Land Bill and impede the business of the Commons.

AUSTRIA.

The Approaching Royal Marriage.

VIENNA, May 6—One hundred thousand strangers have arrived on account of the approaching marriage of Prince Rudolph and the Princess Stephanie.

SOUTH AFRICA.

Native Rising against the Boers Feared.

DURBAN, May 6—News from the Transvaal tends to increase the fear that the natives will attack the Boers when the British withdraw. A number of Caffre chiefs have formed a league against the Boers.

UNITED STATES.

A Sign of Prosperity—Fire—The Presidential Nominations.

WASHINGTON, May 6.—It is believed the postal revenue for the year will exceed $36,000,000,000, which is $4,000,000 more than estimated eighteen months ago. The excess is due to the revival of business.

BROOKLYN, May 6.—The cabinet factory of Hugh McCreem was burned this morning ; loss, $500,000.

NEW YORK, May 6.—The *Sun* says, editorially :—The nominations President Garfield made, if unfit, should never have been made ; if just, they should not have been withdrawn. President Garfield has lowered himself immensely and immeasurably.

CANADIAN DESPATCHES.

OTTAWA, May 6—The St. Lawrence and Ottawa Railway Co. are rapidly completing the laying of their track with steel rails.

A large number of farmers from this section leave for Manitoba by the next special train on Wednesday next.

Sir Francis Hincks, who arrived in the city on Wednesday, left last night for Toronto, where he lectures this evening on the "Ontaria Boundary Award." Sir William Howland will preside.

The extensive cheese exporter, Mr. George Morton of Kingston, is at present in the city. He has had several interviews with the Governor-General and members of the Cabinet pertaining to matters in connection with his North-West colonization scheme. His intentions are to form a company with a paid-up capital of $400,000, to fence 224 farms of 160 acres each, break up 40 acres on each farm, build up a good house and stock each lot with 30 milch cows. All these farms are to be served by a narrow gauge railway, two feet, with a station at every man's door, the railway to be 35¼ miles in length, with 58 stations ; also to collect the milk twice daily for six months or longer, to raise all the calves instead of "deaconing" them as practised in dairy districts in America, and to build an immense cheese and butter factory for manufacturing Cheddar, Stilton and Gruyere cheese, from 6,700 cows, which could be sold or rented at the option of the settler. This scheme will be of great advantage to poor men having families who can milk the stock, thus saving the otherwise necessary outlay for labor. It will doubtless cause a stir in the cheese-producing communities of America and Great Britain. Connected with this scheme 75,000 acres of a ranch for feeding steers are required and are expected to be leased from the Government.

SPECIAL FROM TORONTO

TORONTO, May 6—Mr. Riley, the secretary of the Commercial Travellers' Association, has been missing since Saturday last. He was seen a few days ago in Hamilton, but since then members of the Association have not heard of him. The supposition is that Mr. Riley has gone away on important business and will return shortly.

At a meeting of the License Victuallers' Association to-day, it was decided to contest the several clauses of the Commissioner's By-Law prohibiting the keeping open of billiard-rooms after certain hours, and the serving of alcholic liquor to persons under 14 years of age.

SPECIAL FROM ST. JOHN, N.B.

ST. JOHN, N.B., May 6.—A little boy, six years old, son of Mr. James Mackie, yard master at the railway station in Charlottetown, was sitting on a sofa after having eaten his breakfast, when he suddenly threw up his hands and exclaimed "Oh, father, I'm dead," and within a few minutes expired.

Great excitement was produced at Indiantown this forenoon by the breaking out of fire. Joseph Rowan's house was destroyed : four other buildings caught fire, and it looked at one time as if the whole place would be burned down. The fire department worked well, however, and a catastrophe was averted.

There will be a grand anniversary re-union of the French populations of New Brunswick and the State of Maine, held at Waterville, Maine, on the feast of St. Jean Baptiste.

SPECIAL FROM OTTAWA.

OTTAWA, May 6—The Governor-General and party left this evening for Quebec, where they will remain until July.

A French Canadian, it is claimed, will be appointed to the vacancy in the Customs Department here, caused by the death of Mr. McLean, and Alderman Lauzon's name is mentioned as the one having most influence for the position.

The Minister of Marine and Fisheries will leave the city next week for Prince Edward Island, where he will remain, it is said, several weeks.

Mr. Wm. McLeod, M. P. for Cape Breton, N.S., is in the city.

The girl Lucy Patoine, arrested on suspicion of being the mother of the dead infant found on Slater street, has confessed to being its parent, and will be prosecuted for concealment of birth.

SPECIAL FROM MONTREAL.

MONTREAL, May 6.—Lawrence Foran was brought to the Hospital here to-day suffering from loss of sight and other injuries received in a quarry near Cornwall, from a premature explosion.

Amadee Archambault, advocate, who was charged with larceny by Narcisse Bolduc and acquitted, has brought an action against his prosecutor for $10,000 damages for false arrest.

The new abattoirs erected in the East end of this city will be ready for business on the first of next month.

The Duke of Sutherland, his son, the Marquis of Stafford, and a large party of English railway magnates, are expected here on Monday next.

The drivers of the Shelden Company's wagons have received an advance of pay from $1.10 to $1.20 per day. They were about to strike.

Le Petard, a weekly comic journal which has been in existence here for 15 months, has ceased publication owing to a threatened prosecution for publishing two articles of an obscene character against the Christian Brothers and church choristers.

An action by the Customs authorities in the United States against Ald. Mooney, of this city, for alleged infraction of the revenue law, has been decided in the defendant's favor.

The Grand Trunk authorities have compromised with the striking freightmen by giving them $1.10 per day, with 15 cents per hour for over time.

Mr. B. Connaughton has served a notarial document on the Mayor and Corporation claiming the seat for St. Ann's Ward from which James McShane was unseated.

The City Council is about to sue all recalcitrant tax-payers. The amount due the city up to the end of 1880 is nearly two millions.

The wharves are lined with freight for the steamers going West. Business in the freighting line promises to be very large.

A proposition has been made here by Mr. Coursol, M.P., to send a troop of our militia to attend the inauguration of the statue of Lafayette in the United States.

The Orangemen refuse to alter the inscription on Hackett's monument.

The Bishop of Three Rivers writes to Senator Trudel, that he did not sign the petition of the Archbishop and Bishops in favor of Laval University.

A young man named Singers, employed by Mr. Henry Joseph, stole two checks that had been paid in the Bank of Montreal and afterwards returned to the drawer as vouchers. In his simplicity he again presented them for payment at the Bank ; he was arrested, but as the checks are of no value it is doubtful if the thief can be punished.

Mr. Orland P. Bloss, Vice-Consul of the United States here, has resigned.

Fat cattle are being shipped from this port to Newfoundland.

The stock market opened strong this morning, eased off somewhat in the course of the day, but closed firm. Bank of Montreal advanced 1½ on the day.

Jacques Junior, a wealthy farmer of Maryville, while driving home from this city last night in his buggy, fell asleep and the horse wandered into the canal. When found the unfortunate man was dead.

SPECIAL FROM HALIFAX.

HALIFAX, May 6—Messrs. Dickey and Buckley are now slaughtering about 40 head of cattle per day, at their slaughter-house in Amherst, for shipment to the English market.

Michael Devin, of Dartmouth, has discovered a rich gold-bearing lead on his claims from 8 to 12 inches wide, which shows handsome specimens, and several small leads showing the gold cast of the Rose lead in Montague.

In the Supreme Court to-day the trial of the Bank of Nova Scotia (assignee of the Bank of Liverpool) vs. Forbes was began. This is one of about 40 suits brought by the Bank of Nova Scotia, as assignee of the Bank of Liverpool, to recover double calls from the shareholders of the latter. The defence is that the bank was never a corporation in the legal sense of the term, as the sum of $100,000 was not paid before the meeting called by the provisional directors, as required by the act, and that the additional sum of $100,000 was not paid up within the year after the bank began business, that the directors did not fulfill the requirements of 34 Vict., chap. 5, of the acts of Canada, before issuing notes and commencing business. The defence also alleges that false and fraudulent statements were made as to the financial condition of the Bank of Liverpool, when in fact the bank was insolvent, and also that fraudulent entries were made in the books of said Bank of Liverpool. The case well occupy the best part of a week.

SPECIAL FROM RIMOUSKI.

RIMOUSKI, May 6.—A grand dinner was given by the Bar and citizens of Rimouski to Judge Alleyn, last night.

Mr. Oswald and Major Holmes and party arrived from Anticosti at 7 p.m. to-day.

News of the City and District.

NEW OFFICE.—The Dominion Telegraph Co. has opened an office at Stromness, Ont.

ENGLISH CATHEDRAL.—The members of the choir are specially requested to attend the practice, this (Saturday) evening, at 8 o'clock.

RIDING.—We are pleased to find that Mr. F. Villiers' classes for tuition in riding have been so well patronised by our citizens this season. We refer them to his advertisement.

DOMINION S.S. LINE.—The tender with passengers for the s.s. "Dominion" will leave the Richelieu Company's wharf at nine a.m. to-day.

THE GOVERNOR-GENERAL.—His Excellency the Governor-General left Ottawa yesterday for this city. A portion of His Excellency's staff and baggage have already arrived in town.

PUBLIC ACCOUNTS.—The Public Accounts now before the House are those which cover the period from 30th June, 1879, to 30th June, 1880, the principal details of which were communicated to the House last session.

THE BELLECHASSE ELECTION.—The return of Mr. G. Amyot for the County of Bellechasse, is to be contested. We believe the necessary deposit of $1,000 was made yesterday. The petitioner is Mr. Bilodeau, of St. Gervais, and the attornies are Messrs. LaRue and Picard, with Hon. F. Langelier, counsel.

SALE AT THE STADACONA BANK THIS MORNING, when the whole of the office furniture, stove, brass railing of bank ; also, iron lining of safe, cost $700 ; safe by Taylor, of Toronto, cost $1,200 ; two safes by Edwards, of Montreal, cost $1,000 each. Sale at Stadacona Bank, this morning, at 10 o'clock.

Y. M. C. A.—The young men's meeting will be held at 9.30 Sabbath morning for one hour. Strangers will receive a hearty welcome Mr. John Harper will conduct the Bible class in the Secretary's office at three o'clock Sabbath afternoon. Young men not attending any other Bible class are invited.

TRINITY CHURCH PURCHASE FUND—The Revd. Mr. Ker acknowledges, with many thanks, the receipt of $150 from Mr. J. T. Orkney, being the amount of his subscription towards the purchase fund ; also the sum of $5 from Florence Orkney, $5 from Rodney Orkney and $5 from a friend, on the Esplanade, yesterday ; from two friends $20.

JANAUSCHEK—This celebrated tragic actress, who has been described by the Philadelphia *Times* as "the greatest living actress," by the Chicago *Interocean* as "Head and front of the tragic actresses of the day," and by other leading journals in equally complimentary terms, will shortly fill an engagement in this city. She is to appear in Montreal next week.

THEATRICALS.—The box plan for the grand musical soiree and theatrical entertainment to be given by the Young Irishmen's Histrionic Club on the 16th instant, under the distinguished patronage of His Excellency the Governor-General, who has signified his intention of being present, is now open at Lavigne's music store, John street, where seats can be secured.—See advt.

BRITISH AND CANADIAN SCHOOL.—We are glad to see by advertisement in another column that this valuable institution is in so encouraging a state of efficiency in the hands of its able teachers, Mr. and Mrs. Purdie. We congratulate the people of St. Roch's in possessing such superior educational advantages, and are gratified to find that they practically appreciate them by their patronage.

ORNAMENTAL AND FRUIT TREES—Mr. A. Dupuis, of St Roch's des Aulnais, has as usual a fine assortment of trees which he offers at reasonable prices. Large sales have already been made to readers of the advertisement in the CHRONICLE. The firm of H. Pepin & Co, of Montreal, has ordered 1600 plants for planting in their own grounds. Mr. Dupuis catalogue is valuable to intending fruit-growers by the information it contains.

QUEBEC CRICKET CLUB.—We beg to direct the attention of all who are interested in keeping up the manly game of cricket, to the advertisement, in another column, announcing that the adjourned annual grand meeting will take place at the Quebec Skating Rink Building, at eight o'clock this evening. We hope to have the pleasure of seeing them play many friendly matches with the sister clubs of the Province during this coming cricketing season.

MEETING OF RATEPAYERS—A meeting of proprietors of St. Roch's Ward was held in the shop of Mr. Beaudoin, King street, on Thursday night. Messrs. Cote, Vallee and Samson addressed the meeting. It was decided on motion of Dr. Samson that an organization be formed to watch the proposed bill of amendments to the City Charter, which the Council intended to present to the Legislature, and also to work for necessary reforms in the present municipal service. Mr. Rosa was elected President of this assembly and Mr. Beaudoin Secretary.

LEFT FOR MONTREAL.—Mr. Gagnon, M.P. P., who was arrested here last week by High Constable Bissonnette, of Montreal, on complaint of Mr. L. A. Senecal for criminal libel, and gave bail to appear to-day before the Police Magistrate of Montreal to answer to the charge, left town last night for the sister city, accompanied by a portion of his counsel, Hon. Mr. Mercier and Mr. Picard. Hon Mr. Laurier will also appear for the defence. Hon. Mr. Irvine was to have left at the same time to appear for Mr. Gagnon, but was unable to get away.

MILITARY.—"A" Battery was out on the Esplanade yesterday morning for a commanding officer's parade. The men were very neat and soldierly in appearance. The mounted division was commanded by Captain Wilson, and the Field Battery by Lt.-Colonel Cotton. A large number of people were present as spectators.——At the Drill Shed last evening, the 8th Royal Rifles were present in strong force, being the general weekly drill night. As usual the men presented a fine appearance. A large number of spectators were present.

COURT OF QUEEN'S BENCH.—The Jury in the case against S. Mohr, agent of the Bell Telephone Company, for creating a nuisance by erecting telephone poles on Buade street, have returned a verdict of "Guilty." Judge Cross has reserved sentence, awaiting the decision of a point of law upon the rights of the Dominion Government to empower companies to plant poles in the streets, which he intends to refer to the full Court of five Judges. The case of Pierre Gignac, accused of robbing from the person of Louis Tremblay, was also before the Court yesterday, the prisoner being found guilty.

THE MONTH OF MAY SERVICES—The services of this month which, by the Catholic Church, is called the "Month of Mary," are being held nightly in the different churches of the city. At the Basilica last evening a very eloquent sermon was preached by Rev. Mr. Simard, Assistant Director of the Seminary, and, after the recitation of appropriate prayers a very fine musical service was gone through with a choir of ladies, presided over by the organist, Mr. Gagnon. Miss Boisvert sang a solo—*Ecce Panis*—in very fine style. The litany was also chanted. Benediction of the Blessed Sacrament was given by Revd. Cure Auclair.

FOOT-BALL—We sincerely hope the weather to-day will favor our foot-ball friends more than it did on the last occasion on which the rival teams of the two chief cities in this province met on the foot-ball field, when it will be remembered the match was played in a down pour of rain. Judging from the well-known names that are to be found on both teams, the match this afternoon promises to be unusually interesting, and we are sure it will be witnessed by a large number of spectators. As the Montreal team return by boat to Montreal at 5 o'clock, the match will begin at half-past two o'clock. The following are the players :—*Montreal*—H Abbott, Captain ; A. D. Braithwaite, J. A. Ready, F. W. Hamilton, H. M. Grahame, C. Lane, G. L. Cains, F. Cairs, J. K. Bruce, F. S. Walker, W. L. S. Jackson, W. E. Glyn, R. J. Campbell, A. Lockwood, A. B. Taylor. Average about 154 lbs. *Quebec*—W. B. Scott, Captain; R. Hartcourt Smith, A. Boswell, P. Anderson, W. Laird, R. Campbell, N. Campbell, C. Miller, H. Bickell, A. Colley, F. E. Meredith, J. Hewson, J. J. Dean, W. McLimont. Average about 151 lbs.—See advt.

THE UPPER GATINEAU.—Latest intelligence from the Gatineau is to the effect that the gloomy prognostications of the early part of the spring, will not be fulfilled. It was feared that on account of the scarcity of snow in the woods the small creeks would not rise to their accustomed level so that some thousands of logs would remain on their banks until the autumnal rains set in. Contrary to all expectation, two or three gentle showers in the early part of last week sufficed to raise the water some five feet in the main stream, and on every creek drivers are now at work getting out the lumber. It is computed that this season's work will send out more timber than has been floated down the Gatineau for eight or ten years. A large number of cedar ties for United States railroads have been prepared during the winter, one contractor in Wright Township having filled a contract for 45,000 sawn. This spring a number of parties have been quietly at work prospecting through the district. Rich deposits of mica and ochre have been discovered, and plumbago, and galena have also been struck in paying quantities. The finders, however, keep their discoveries very secret as they will be unable to profit by them until railway connection with Ottawa and Provincial lines becomes a certainty.

A CHURCH FOR LUMBERMEN.—A meeting of the Church of England people of Wright township, was held a few days ago at Pickanock, seventy miles above Ottawa, on the Gatineau river. Mr. J. Ellard, J.P., a well-known lumberer, took the chair. After some discussion, it was fully agreed that a church was much needed in the township, the school house, where service is held at present, being much too small in the winter season, when the woods around are filled with lumbermen from all parts of the country. The chairman announced that he would give an excellent site for church and grave-yard and also $100 in money. A farmer present offered $25, and all evinced the liveliest interest in the proposed undertaking. It was decided, on motion that owing to the numerical and financial weakness of the congregation, collectors should be appointed and requested to act as such in their respective localities, in order that the required sum of $1,200 might be raised. Of these the principal ones, outside of the parish, are Mr. Alonzo Wright, M.P., Dr. Duhamel, M.P.P., Mr. L. H. Davidson, M.A., D.C.L., Montreal ; B. Fisher, Victoria ; E. T. D. Chambers and J. H. Richardson, Quebec ; Hector MacLean, Eardley, and Mr. Driscoll, Prothonotary, Aylmer. All agreed in considering that as a great number of those for whom provision would be made came from other districts, these districts, should in fairness, assist in making provision for their people's spiritual welfare when far away from friends and home.

Provincial Legislature.

Fourth Parliament—Fourth Session.

LEGISLATIVE ASSEMBLY.

QUEBEC, May 6.—The House met at three o'clock.

After the reading of several petitions, Mr. Wurtele moved that he be allowed to introduce a bill to amend the act of incorporation of the Quebec Central Railway.

Mr. HOUDE introduced a bill to amend the Municipal Code.

Hon. Mr. LYNCH introduced a bill to incorporate the Trinity Church of Quebec.

In answer to Mr. Gagnon, asking the amount of insurance on the Kamouraska jail, and the amount that the Government has received,

Hon. Mr. LORANGER said the report is not yet ready.

Dr. RINFRET asked for a list showing the names of the employees of the Quebec, Montreal, Ottawa and Occidental Railway, their residences and salaries respectively, including that of L. A. Senecal, Esq.

Hon. Mr. LORANGER said that the report has already been asked in a more complete form by Hon. Mr. Mercier, and consequently it is not worth while to make two different reports.

Hon. Mr. MERCIER drew attention to a supposed deficiency in an entry in the Public Accounts of last year.

Hon. Mr. ROBERTSON explained the matter by referring to another printed statement in the report signed by Mr. Machin.

The House then adjourned at 3.45 p.m.

From the *easy expectoration, increased respiratory power of the Lungs,* and the *removal of irritation,* manifest from cessation of Cough and other alarming symptoms, after using Fellows Compound Syrup of Hypophosphites, it is clear that the formation of tuberculous matter is not only stopped, but that already deposited is being arried away.

Mothers ! mothers ! ! mothers ! !

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it ; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, an pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold every where at 25 cents a bottle.

January 26, 1881 Lm-d&w

REST & COMFORT TO THE SUFFERING

"Brown's Household Panacea " has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache Lumbago and any kind of a Pain or Ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful.' "Brown's Household Panacea," being acknowledged as he great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted," as it really is the best remedy in the world for Cramps in the Stomach. and Pains and Aches of all kinds, and is for sale by all Druggists at 25 cents a bottle.

QUININE WINE!

The Tonic of the Day.

Effectually Cures Dyspepsia, Indigestion. Loss of Appetite, Langour, or any indisposition arising from a disordered state of the stomach. It enables the partaker to endure great fatigue.

PREPARED BY KENNETH CAMPBELL & CO., MONTREAL.

April 14, 1881. mch26-Cm

QUEBEC, SATURDAY, MAY 7, 1881.

SOMETHING ABOUT THE CANALS.

Capt. MURRAY, a prominent shipowner in the West, and lately a delegate to Ottawa, has been saying some extraordinary things to the St. Catharine's correspondent of the Toronto *Mail*, concerning the prospects of the enlarged Welland Canal. The old Canal, which has been in a sort of tumble down state for several years, has recently been repaired, but the hopes of the people are centered entirely on the contemplated enlargement, the advantages of which it is almost impossible to estimate with much success just now. The enlargement, however, must be completed to tide water. Until that is done Capt. MURRAY thinks the increased business cannot be of very great benefit to the Dominion. Vessels ought to be able to load in Chicago and proceed on their way to Montreal or Quebec. The whole scheme embraces an enlargement of 72 miles, and when the St. Lawrence Canals are made similar to the Welland, even if the depth be but twelve feet, a vessel can carry grain from Chicago to Montreal at about the same cost that it can be conveyed from Buffalo to New York by the Erie Canal with its present lockage capacity. This rate should be about 5 cents per bushel, at which price the traffic would yield a handsome profit. It is suggested that special new canal crafts be built to embark into this trade, vessels capable of carrying from 70,000 to 90,000 bushels, according to the fineness or fulness of the lines. Two millions of bushels of grain, during the summer season, can be moved through the Welland Canal daily, without difficulty, the lockage capacity being ample. Last season, the smaller canal worked about one-fifth of its capacity, and owing to stoppages and other reasons some of the business drifted into the way of the New York route. Every year the Canadian percentage of grain shipments has been steadily declining, as compared to New York, Boston, Philadelphia and Baltimore, owing to the limited facilities enjoyed by Canadians for handling grain. Some 14,000,000 of bushels of grain only were moved in the Welland Canal last year. That quantity could be moved through the enlarged Welland in one week. To retain that volume of trade in our own hands, all that will be necessary, will be the establishment of facilities at Montreal and Quebec for the handling and furtherance of it to Europe. So soon as the Canadian canal system is completed to tide water, there will be no route on the continent that will be in a position to compete with it at all successfully. Powerful steamers carrying 70,000 or 90,000 bushels, with one or two consorts of equal burthen, may make the trip from Chicago to Montreal in a week or eight days at the outside. A freight of 5 cents per bushel will pay such craft very handsomely. Vessels of the capacity mentioned above would cost, for the propeller and consorts, about $150,000 each. Among the advantages to consumers, which would result from the employment of large vessels in this trade, would be the reduction in freights from the West to the East—a difference of 66⅔ per cent. Western bound freight in turn from Montreal or Quebec to Chicago could be carried at a much lower rate than is now charged to carry the same freights to Kingston. These inducements would encourage the Western consumer to patronize exclusively the St. Lawrence route. The imports which now come to Canada *via* New York would come by our own route, the carriage being very much less by way of Montreal, especially for Ontario, than by any other road. In almost every instance profitable return freights could be had. In response to the query, "when our canal system is completed, how will the cost of transporting a bushel of wheat from Chicago to Liverpool *via* St. Lawrence route and *via* Erie compare?" Capt. MURRAY told the correspondent:—

"COST VIA ST. LAWRENCE.

From Chicago to Montreal, per bush. of 60 lbs.	5c.
From Montreal to Liverpool	11c.
	16c.

COST VIA ERIE CANAL.

From Chicago to New York	8½c.
" New York to Liverpool	11c.
	19½c.

The difference in favour of the Canadian route will thus be at least 3½c. per bushel.

TIME BY ST. LAWRENCE ROUTE.

Chicago to Liverpool via Montreal	26 days.

TIME BY ERIE ROUTE.

Chicago to New York	18 days.
New York to Liverpool, say	12 "
	30 days.

A difference in favor of the Canadian route in time of 4 days.

CANAL NAVIGATION.

The Dominion canal system only extends over 71½ miles from Chicago to the water, as against 352 miles by the Erie canal.

The lockage capacity of the former will reach 90,000 bushels, as compared with 8,000 bushels of the latter.

The number of locks to be passed on the Erie enormously exceed the couple of score met with on the St. Lawrence route.

The depth of water in the Erie is 6 feet, as compared with 12 feet in the enlarged Canadian system."

With reference to our present facilities at Kingston, Capt. MURRAY put forward these points, which are well worth noting, in considering the question. He said:—

"If we had better elevating and forwarding facilities at Kingston, we would have increased commerce; but you must recollect that while we have to trans-ship at Kingston cargoes of grain have to bear additional expenses for elevating, handling, shortage, &c., whereas if the vessel from Chicago could make the trip to Montreal or Quebec that cost could be saved, which on say 100,000,000 bushels would be a considerable sum. Suppose a city required a water supply, and laid down two sections of six-inch pipe at the ends of the route, and then placed a connecting pipe of one-inch, that would be similar to our present canal system. The one-inch pipe represents the route from Kingston to Montreal. Every year the quantity of grain has increased, and will increase to an extent which we can hardly conceive. Nevertheless, although we have the

BEST, CHEAPEST, AND SHORTEST ROUTE

from the wheat-growing portions of America to Europe, we are shipping less grain by the St. Lawrence than we did twenty years ago. Why, our old canal has never been worked to anything like its full capacity. The money expended on the Welland canal enlargement will, however, have been wasted unless the St. Lawrence canals are also enlarged and deepened."

It is thought that in time, after the proposed enlargement has been effected, vessels will be able to load at Chicago and proceed direct to England by the St. Lawrence route, without transhipment of cargo, or delay of that sort. Captain MURRAY thinks that a vessel, built from a description in his possession, and which we give below, would be about the proper style of craft to undertake the needed work. "She would be a steamship with 250 feet length of keel, 38 feet breadth of beam, 22 feet depth of hold; about 265 feet extreme length of vessel. She would load to 12 feet, and carry a fine cargo. When she reached tidewater she might be loaded down to 15 or 17 feet, giving good freeboard. She would be an excellent seagoing vessel, classed A 1 at Lloyds, constructed of white oak throughout, thoroughly well fastened, and have compound engine and steel boilers. She would be fitted with a 30 in. and 40 in. high pressure cylinders, 30 in. bore, 40 in. stroke; low pressure 50 in. bore, 60 in. stroke. Her two steel boilers would each be 16 ft. long, 9½ in. shell, 10-16 in. plate. The boat to have iron straps running entirely round her, 10 in. wide and 1 in. thick, and diagonal straps 6 in. wide and ⅞ in. thick. Such a vessel could make excellent passages from here to South America with which a profitable trade in our products might be established; her cost would range from $135,000 to $140,000. Such craft with a somewhat less depth of hold, say 16 to 18 ft., would be the vessel which with her consorts would carry grain from Chicago to Montreal for five cents per bushel or even less, and carry westward-bound freight at $1 or less per ton, and make good profits on capital invested."

On the completion of the railroad from Winnipeg to Fort William, the volume of exports, it is expected, will be very large. To meet that increase of trade many grain-carrying vessels will need to be built, and elevators, by that time will doubtless be erected at Quebec for handling the product. The rail carriage from Winnipeg to Prince Arthur's Landing, is estimated at 8 cents. The water carriage from the latter place to Montreal 5 cents; from Montreal to Liverpool 11 cents; total, 24 cents per bushel. These prices are rather over than under the mark. From Winnipeg to Fort William the distance is about 413 miles, and for the railway carriage that distance the rate is estimated at 8 cents per bushel. The New York Central and the Erie roads carry grain from Buffalo to New York, 480 miles, as low as 4 cents per bushel of 60 pounds. Wheat in Winnipeg to-day is worth from 60 to 70 cents a bushel. Add to this, cost of freight to England, 24 cents, making the total cost of the wheat 94 cents at the most. To-day, wheat in England is quoted at $1.40 per bushel, This would leave a handsome profit to the merchant.

Some American journals have hinted that the enlargement and deepening of the Welland Canal, would likely benefit Oswego, and divert the trade at that point. Capt. MURRAY, however, entertains little fear on that score, it being his belief that no route can be planned to convey grain from Chicago, Duluth, or Fort William as cheaply as it can be carried by the St. Lawrence, when the completed system of canals shall have been made. He thinks the Erie would be unable to compete even if all tolls were removed. As regards the Mississippi route, as a possible competitor with Canada for the grain trade to Europe, the Captain says:—

"The Mississippi is available for navigation during a portion of the season, when the water is high in the Upper Mississippi during spring. During the winter season it is not navigable above Cairo for boats having any considerable draught; neither is it in summer after the small streams have dried. The main ground, however, on which that route will not become largely used by grain-shippers is that it injures grain to send it through a warm country. The cooler you can keep the hold of the vessel the better condition will the grain be in when it reaches its destination. The warm current always surrounding the vessel which takes the Mississippi route gives a higher temperature to the wheat than the northern water-way, and the grain is therefore more liable to become heated. The channel of the Mississippi is, moreover, constantly changing, and capitalists will fight shy of erecting elevators and storehouses on its banks."

The Captain is a strong advocate for the reduction in tolls on canals, and thinks that such a step would naturally increase the extent of the business done. Canal tolls on wheat and corn should be reduced at least 25 or 50 per cent.

The following were the invitations to dinner at Spencer Wood, Thursday evening, 5th May, 1881:—Sir Leonard Tilley, C.B., K.C.M.G., Minister of Finance; Hon. John O'Connor, Secretary of State; Hon. Hector L. Langevin, C.B., Minister of Public Works; Hon. McKenzie Bowell, Minister of Customs; Hon. J. A. Mousseau, President of the Privy Council; Hon. Adolphe Caron, Minister of Militia and Defence; Hon. Mr. Justice Casault, Hon. Mr. Justice McCord, Hon. Mr. Justice Alleyn, Mr. Hector Cameron, M.P., Toronto; Mr. Thos. White, M.P., Montreal; Mr. Massue, M.P., Varennes; Mr. Tass[illegible] M.P., Mr. J. G. H. Bergeron, Hon. Mr. Chapleau, Premier of Quebec; Hon. J. [illegible] Beaudry, M.L.C., Hon. Thos. Wood, [illegible]L.C., Hon. P. E. Dostaler, M.L.C., Hon. J. B. G. Proulx, M.L.C., Hon. J. G. Laviolette, M.L.C., Hon. E. Dionne, M.L.C., Hon. Thos. Savage, M.L.C., Hon. George Bryson, M.L.C., Hon. E. Remillard, M.L.C., Hon. W. H. Webb, M.L.C., Mr. C. Bergevin, M.P.P., Hon. George Irvine, M.P.P., Mr. Robillard, M.P.P., Mr. J. I. Tarte, M.P.P., Mr. D. N. St. Cyr, M.P.P., Mr. O. Gauthier, M.P.P., Mr. E. Beaudet, M.P.P., Mr. L. C. Champagne, M.P.P., Hon. Louis Beaubien, M.P.P., Mr. N. M. LeCavalier, M.P.P., Dr. V. P. Levallee, M.P.P., Mr. Charlebois, M.P.P., Mr. Meikle, M.P.P., Mr. N. Blais, M.P.P., Mr. Jos. Poirier, M.P.P., Mr. Boutin, M.P.P., Mr. R. Prefontaine, M.P.P., Mr. E. Laberge, M.P.P., Mr. W. J. Watts, M.P.P., Dr. A. Cameron, M.P.P., Mr. C. A. E. Gagnon, M.P.P., Mr. Chas. Langelier, M.P.P., Mr. J. J. Foote, Mr. Pacaud, *L'Electeur*; Mr. Carrel, *Daily Telegraph*; Mr. MacIntosh, Mayor of Ottawa; Mr. C. Peers Davidson, Q.C., Montreal; Lt.-Col. A. A. Stevenson, Montreal; Capt. Sheppard, A.D.C.

THE LATE CHIEF JUSTICE DUVAL.

After a terribly long illness, borne with heroic courage and fortitude, His Honor ex-Chief Justice Duval died at three o'clock yesterday afternoon, at his residence in St. Louis street in this city. In his earlier days the late Chief Justice was a very successful Quebec lawyer, and practised here for many years before being elevated to the Bench. We believe he formed a portion of the Seignorial Commission. On his retirement from the honorable position of Chief Justice of the Court of Queen's Bench for the Province of Quebec, to which he had attained, the Hon. Sir A. A. Dorion was appointed his successor. Since that time the late Chief Justice has been almost entirely confined to his room[illegible]

PERSONAL

Mr. L. N. Carrier, of the Credit-Foncier, and Mrs. Carrier, the Revd. M. DeGaspe and Mr. Marcoux, leave this morning by the s.s. "Dominion" for London, Paris and Rome.

The First Prize for Pianos

—AT THE—

MELBOURNE,

(AUSTRALIA,)

EXHIBITION.

THE VARIOUS PARTIES HERE WHO are puffing up their particularly interested Pianos at the above Show all claim they received 1st Prize. It's a good job for these exhibitors that the principal American manufacturers decided not to be represented there, or I'm thinking the Schiedmayer, Herz's, &c., Pianos would have been entitled to Leather Medals. If there are any sceptical on this point, let them call at

Mr. R. MORGAN'S,

the Agent in this City for the

Albert Weber N.Y. Pianos,

and see and hear the astounding difference of their relative merits alongside of one another.

May 7, 1881.

LATEST FROM EURO

GREAT BRITAIN.

(Per Montreal Line.)

LONDON, May 6.—A parcel of powder exploded under the walls of the barracks at Chester last night, but the damage was trifling. It is believed the perpetrators are some militiamen who had been punished.

The British consular agent at Biserta telegraphs that there are seven war vessels there. Three large transports arrived on Tuesday with troops, consisting of infantry, cavalry and artillery, and are now landing; seven thousand have already landed.

The Conservatrve Peers meet on Monday to ratify the selection of Lord Salisbury for the leadership, which they have already made. Although Lord Salisbury may not at once be styled chief of the whole Conservative party, there is little doubt he will really occupy that position. The relations between Sir S. Northcote and Lord Salisbury will be those of mutual confidence.

Telegrams from Tunis say the Kroumirs have declared their intention to resist the French to the last extremity.

Bradlaugh's appeal to the people is published.

It is announced Lord Dufferin will succeed Mr. Goschen at Constantinople, and Sir Ed. Thornton will take Lord Dufferin's place at St. Petersburg.

FRANCE.

PARIS, May 6.—A St. Petersburg despatch announces the arrest of the Grand Duke Constantine will likely be followed by a Nihilist movement of the sailors of the Russian fleet, who are said to have an understanding with other Nihilists at Odessa. The text of the Nihilist appeal to the Russian army, which has been widely circulated in St. Petersburg, is published here. The autocratic principle is compared to a decrepit, despised and abandoned creature. The proclamation ends by calling on the army to rise and strike down the tyrant.

The statement of the German delegate in the Monetary Conference yesterday was that Germany adheres to the single gold standard only, that she is prepared to agree to suspend the sales of silver for some years, presuming in a certain defined amount yearly to be agreed upon; she would agree to increase the quantity of marks in circulation, possibly also the quantity of silver per mark, and withdraw the five-mark gold pieces. The English delegates declared they attended the Conference through deference to the States issuing the invitation; they were ready to afford all the information asked, but would not vote on the proposals submitted. The Indian and Canadian delegates made similar statements. The Russian, Norwegian, Swiss, Swedish and Greek delegates made reservations in regard to the acceptance of bi-metallism; the Austrian delegate pointed to his delicate position as representing a State having a forced paper currency; the Spanish delegate proposed that the Conference adjourn after Saturday's sitting, that members might ask instructions from their Governments. This proposition will be considered to-morrow.

The *Journal des Debats* recommends that France should cause the Bey to confide the administration of Tunisian affairs to agents approved by the French Government.

The Minister of Foreign Affairs states that the military part of the Tunis difficulty will be succeeded by diplomatic action. France is bound to protect her interests by imposing substantial conditions on the Bey.

GERMANY.

BERLIN, May 6—The Reichstag has adopted the report of the committee, that the Reichstag meet yearly, and rejected the Conservative motion for biennial budgets, but sanctioned quadriennal Parliaments.

Free-traders are much dissatisfied at the bills recently introduced in the Federal Council for increasing the duties on grist and introducing a duty on grapes. When the bills come before the Reichstag the Left intend to re-introduce a motion for the abolition of duties on corn. The bill for erecting a new Parliament House will be immediately introduced, thus removing all grounds for conjectures concerning the removal of the seat of Government to some other city as intimated by Bismarck.

AUSTRIA.

VIENNA, May 6.—Prince Rudolf, on his arrival here to-day, was cordially received by a deputation of 18 of his former tutors. The arrival at Schonbron of the train bearing the Queen of the Belgians and the Princess Stephanie was awaited by the Emperor, Prince Rudolf, the Stadtholder of Vienna and the President of Police. The train entered the railway station to the strains of the Belgian National Anthem. Prince Rudolf affectionately embraced Stephanie and presented her to the Emperor, who kissed her on the forehead. When the greetings of the royal party were concluded the Burgomaster presented the Princess Stephanie with a bouquet. The party then entered carriages, being received with the deafening cheers of the populace, and proceeded to the Fest Platz, where representatives of the six suburbs of Vienna presented homage to the party. The party then proceeded to the Castle. The route of the procession was lined with troops and the crowd of people numbered thousands, who greeted the party, especially Stephanie, with the loudest and heartiest acclamations. At the Castle the party were affectionately welcomed by the Empress in the great gallery of the Castle. The Burgomaster will to-morrow pay a visit to the King of the Belgians and present him with a gold medal struck in commemoration of the marriage.

TUNIS.

TUNIS, May 6.—The General commanding the French troops which landed at Biserta yesterday has notified the Tunisian authorities that 800 men would advance to Porto Farina, while the others would advance to a spot between Biserta and Beja. The French Consul-General complained to the Bey of an attempt by a native tribe to remove the rails of the railway near Beja.

The Bey has addressed a fresh protest to the powers, imploring them in the name of humanity to stay the horrors of war.

It is confirmed that five powerful native tribes have revolted and refuse to submit either to the Bey or the French. The Bey is strenuously endeavoring to regain authority.

WEST INDIES.

HAVANA, May 6.—The constitution of Spain was extended to Cuba on the 1st inst. The press is now free and the censorship abolished.

IRISH TROUBLES.

(Per Montreal Line.)

DUBLIN, May 6—Brennan, Secretary of the Land League, has started for London, but will return on Sunday.

LONDON, May 6.—Patrick McGloin, Wm. McGloin, Wm. Elliott, Patrick McLaughlin, tenant-farmers, have been arrested at Glenade under the Coercion Act.

It is now thought the plot to blow up Chester barracks was concocted by Fenians.

The report that Sullivan wrote Parnell declining to acknowledge is authority his denied. It is stated the dissensions among the Home Rulers are exaggerated. Several conferences were held to-day. It was determined that before the vote on the second reading of the Land Bill is taken there shall be another meeting of the party, when it is expected an unanimous agreement will be reached relative to the course of action to be pursued.

At the Land League conference to-day, Parnell presiding, arrangements were made to supply the places of any officers arrested. A. M. Sullivan had a long interview with Parnell to-night, but declined to abstain from voting on the Land Bill. Probably 40 Home Rulers will vote on the second reading and 25 abstain.

DUBLIN, May 6—The cities and counties of Cork and Kilkenny have been proclaimed under the Arms Act.

LONDON, May 6—A Dublin despatch says King's and Queen's Counties are proclaimed and several baronies in Kilkenny are proclaimed under the Arms Act,

IMPERIAL PARLIAMENT.

HOUSE OF COMMONS.

(Per Montreal Line.)

LONDON, May 6—It is estimated the second reading of the Land Bill will be carried in the Commons by a majority of nearly one hundred without the Parnellites.

There was an animated debate to-night on the Government's Oath Bill. A hostile amendment moved by Mr. Gorst was only defeated by 128 to 122. The extreme Conservatives resorted to dilatory tactics.

HOUSE OF LORDS.

In the House of Lords this evening, Earl Granville said the French Minister for Foreign Affairs yesterday requested the British Ambassador at Paris to assure us that France had no idea of the conquest or annexation of Tunis. We are not jealous of French influence at Tunis, Earl Granville said, so long as it is exercised within treaty rights and without violence to the interests of British subjects. The Government will carefully watch any arrangement arising out of the operations and see it does not clash with those rights.

Money saved and pain relieved by the leading household remedy, *Dr. Thomas' Eclectric Oil*—a small quantity of which usually suffices to cure a cough, heal a sore, cut, bruise or sprain, relieve lumbago, rheumatism, neuralgia, excoriated nipples, or inflamed breast.

La Banque Nationale.

ANNUAL STATEMENT, 1881.

The twenty-first annual general meeting of the shareholders of this institution was held at the office of the Bank this day (Friday, the 6th of May, 1881), at three o'clock p.m.

There were present:—Sir N. F. Belleau, Hon. I. Thibaudeau, Mr. Le Chevalier Ol. Robitaille, M. M. Joseph Hamel, E. Beaudet, Hy. Atkinson, Ul. Tessier, jr. Cy. Tessier, Ant. Painchaud, J. B. Z. Dubeau, J. W. Henry, S. W. Roy, Nicholas Maheux, Jules Fremont, A. Gaboury.

Hon Isidore Thibaudeau was called to the chair and Cy. Tessier, Esq., was requested to act as Secretary.

Before proceeding to the reading of the annual report, the following gentlemen were unanimously elected scrutineers. viz:—M.M. Cy. Tessier, Ant. Painchaud, and J. B. Z. Dubeau.

Hon. I. Tibaudeau, President, read the following report and statement of the affairs of the Bank:

TWENTY-FIRST ANNUAL REPORT OF THE DIRECTORS TO THE SHAREHOLDERS OF LA BANQUE NATIONALE.

GENTLEMEN,—It is the duty of your Directors to report upon the business of the Bank each year; they now therefore submit an account of same for the year just ended, as also one of its financial position at the same date.

Your Directors have not been deceived in their expectations as expressed last year; the monetary crisis has disappeared, and has been followed by universal prosperity.

The Bank has not sustained any new losses. Certain properties held as security have been disposed of, and the sale of several others has been promised upon favorable terms.

The profits of the year have not favored an augmentation of the Reserve Fund, nor has it been lessened by the withdrawal of any sum.

Owing to economy and the payment of small dividends, the Bank has been able to deduct from old accounts, a sum of $22,862.58, as bad or doubtful debts, keeping the Reserve fund at $150,000, and about the same amount as last year, $30,105.28, to credit of Profit and Loss Account.

You will observe from the statements laid before you, that the financial position of the Bank justifies the estimate made by your Directors, and with a continuation of same prosperity, will resume its former advantageous position.

All the officers and clerks of the Bank deserve your thankful acknowledgment, together with those of your Directors for their services.

And if after the explanation of the different items of Assets and Liabilities, you wish to put any question or ask for such further information, your Directors are at your command, and will consider themselves in honor bound to share with you the confidence placed in them.

The whole respectfully submitted, for the Directors.

I. THIBAUDEAU, President.

Quebec, 6th May, 1881.

N. MATTE, Inspector.
F. VEZINA, Cashier.
Quebec, 30th April, 1881.

Moved by Hon. I. Thibaudeau, seconded by A. Joseph, Esq.,

That the report and statement of the Directors now read, be adopted, published and printed for distribution amongst the Shareholders.

Moved by J. B. Z. Dubeau, Esq., seconded by F. W. Roy, Esq.,

That the thanks of this meeting be presented to the President, Vice-President and Directors, for their attention to the affairs of the Bank during the year now elapsed.

Moved by N. Maheux, Esq., seconded by Ant. Painchaud, Esq.,

That the thanks of the Shareholders be presented to the Cashier, Manager and other clerks of the Bank for their particular attention in the fulfillment of their respective duties.

The following gentlemen having obtained the largest number of votes, were duly elected Directors for the ensuing year, viz:

Hon. I. Thibaudeau, Chevalier Ol. Robitaille, P. Vallee, Esq., Hy. Atkinson, Esq., Jos. Hamel, Esq., Ulric Tessier, jr., Esq., and Elisee Beaudet, Esq.

The Hon. I. Thibaudeau left the chair, and A. Joseph, Esq., being called thereto, it was then

Moved by Dr. O. Robitaille, Esq., seconded by Hy. Atkinson, Esq.,

That the thanks of this meeting are due to the Hon. I. Thibaudeau for his services in the chair, as also to the Secretary and Scrutineers for the fulfillment of their respective duties.

And the meeting adjourned.

I. THIBAUDEAU, President.
CY. TESSIER, Secretary.

Quebec, 6th May, 1881.

The following gentlemen were subsequently elected, viz:—Hon. I. Thibaudeau, President; and Jos. Hamel, Esq., Vice-President of the Bank, for the ensuing year.

F. VEZINA, Cashier.

WINDSOR HOTEL, MONTREAL.—This superb hotel, furnished with elevator and all the latest improvements, and carefully maintained at the highest standard of excellence, offers good rooms with board at $2.50 to $3.50 per day. The Windsor is but four blocks from the G. T. R. Station, and a free coach plies constantly between the hotel and the Post Office. Sample room at 183 St. James Street, free to commercial travellers. cm

THE TIDY HOUSEWIFE.

The careful, tidy housewife, when she is giving her house its spring cleaning, should bear in mind that the dear inmates of her house are more precious than houses, and that their systems need cleansing by purifying the blood, regulating the stomach and bowels to prevent and cure the diseases arising from spring malaria and miasma, and she should know that there is nothing that will do it so perfectly and surely as Hop Bitters, the purest and best of all medicines. See other column.

Soothe the Invalid.

A few drops of SOZODONT mixed with water, and placed in the mouth of the invalid, will refresh him. It aromatizes what else would be dry and uncomfortable, and gives infinite pleasure, and incites appetite. No nurse should neglect SOZODONT.

May 2, 1881. mch28-Lm-co-d&w

WORKINGMEN.

Before you begin your heavy spring work after a winter of relaxation, your system needs cleansing and strengthening to prevent an attack of Ague, Billious or Spring Fever, or some other Spring sickness that will unfit you for a season's work. You will save time, much sickness and great expense if you will use one bottle of Hop Bitters in your family this month. Don't wait. See other column.

ZOPESA from Brazil.—As a result of the new commercial enterprise just assuming importance with Brazil, is the introduction of *Zopesa*, so justly celebrated where it is known for the cure of all forms of Indigestion. The company have opened a laboratory in Toronto. *Zopesa* comes to us highly endorsed and recommended, its wonderful affinity to the Digestive Organs, it certainty to relieve and cure Dyspepsia and Constipation, makes this remarkable compound a necessity in Canada. The company make ample bottles at the trifling cost of 10 cents, to be had of R. McLeod.

February 22, 1881. nov25-Lm-co-d&w

Mrs. Barnhart, cor. Pratt and Broadway, has been a sufferer for twelve years through Rheumatism, and has tried every remedy she could hear of, but received no benefit, until recommended to try *Dr. Thomas' Eclectric Oil*; she says she cannot express the satisfaction she feels at having her pain entirely removed and her rheumatism cured.

QUEBEC Timber Towers' Association.

THE TIMBER TOWERS OF QUEBEC having formed themselves into an Association for the purpose of securing a fair remuneration for their work, and also for the purpose of binding the members to assist one another, when, in consequence of an accident or otherwise, the property entrusted to the charge of any of the Members of the Association is in danger of being lost, the following TARIFF OF PRICES has been adopted, which will, in no case, be deviated from:—

Towing Oak from Indian Cove, Cap Rouge and River St. Charles, 20 cents per load. Crossing from North or South Side, 15 cents per load. Between Victoria Cove and Lower Town, 12½ cents per load.

Towing Square Pine, Elm, or Ash, from Cap Rouge, Indian Cove, St. Charles River, or crossing the St. Lawrence, 12½ cents per load. From Victoria Cove to Lower Town, Square Pine, Elm and Ash, 10 cents. Between New Liverpool and Patent Slip and intermediate places, 12½ cents per load. Board Pine, 2 cents extra from all places. Sleepers, same price as Board Pine.

Towing Birch, Walnut, Hickory, Maple, Cherry, Sawed Oak, and Short Railroad Ash, 30 cents per load.

Towers not responsible for Sinking Timber if lost through passing steamers or sudden storms.

BOOM TARIFF:

Birch, Walnut, Hickory, Maple, Cherry, and Sawed Oak, 15 cents per load. Oak, 6 cents. Pine, Elm and Ash, 6 cents. Board Pine, 2 cents extra.

All Timber and Deals towed from below the Long Wharf at Indian Cove to ships loading in the Cove, full tariff.

Floated Deals from Hamilton Bros.' Cove to New Liverpool, 25 cents per St. Petersburg Standard. To all other places, 50 cents per Quebec Standard.

Towing less than 40 loads, $5 per tide.

☞ The undersigned is authorized to collect all moneys due to the Timber-towers' Association for 1881.

NOTICE TO MARINERS.

THE "TIME BALL" ON the Citadel, each day, (Sunday excepted), at half-past Twelve o'clock, will be hoisted half way up, and at five minutes to "One" it will be hoisted to the top, and at "One o'clock," Mean Time, it will be dropped.

A Chronometer keeping "Greenwich Time" should then show 5h. 44m. 49s., and the difference between this and the time shown by the face of her Chronometer is its error on "Greenwich Mean Time" at that instant.

N.B.—Should the "Ball," by accident, drop at the wrong time, it will immediately be hoisted half-mast, and kept there half an hour.

Death Through Fun.

BY REV. WILLIAM CODVILLE.

A startling cry at night is heard,
How rings the watchman's mournful sound,
A tragedy has just occurred,
A dying victim hugs the ground,
Great God! how pours the crimson flood,
He writhes in agony and blood.

Say watchman, who is this you've slain?
What act of crime did this man do?—
The watchman groans in mental pain,
As now he lifts the dead to view,
"'Tis this alone my friend has done,
"He threw away his life through fun."

How many lives are lost on earth,
In just the way poor Seidehl died,
Young men of good and sober birth,
Their mothers' love and fathers' pride;
Yet on their epitaphs might run,
"Here lies a victim to his fun."

To some, it seems a jovial thing,
That they should wine together sup,
Forgetful of the damning sting
That hides its form in every cup;
They crave society and rum,
And perish for the sake of fun.

But others who are less inclined
To touch the mad and fiery bowl;
And yet with light and scoffing mind,
Take ne'er one thought about the soul,
E'en they who with the giddy run,
Will doubtless perish through their fun.

When ends the great and final day,
The day of God's eternal right,
And saints and angels speed away
To dwell forever in the light;
Men then will know what they have done,
If they have perished through their fun.

A Column for the Ladies.

How did you enjoy moving?

Eight big roses are worn as a belt bunch by New York girls. Daises and Capucine are combined for breastknots.

The gradual disappearance of kilt plaiting from fashionable gowns is a thing for which women should be thankful, but they seem determined to use it as long as they can.

The London *World*, speaking of Mother Hubbard cloaks, says that it prefers the light-fitting costumes of last season, to the style of draping the figure so as to make it like a barrel.

Henry Ward Beecher places, as the lowest in the scale of humanity, the great conquerors, the Alexanders, Cæsars and Napoleons; next, inventors, physicians, lawyers, editors, teachers, clergymen; and, highest of all, Christian mothers.

"She is very pretty," said Mr. Ragbag to Miss O'Brien. "Ah, you men will leave your best friends to run after a pretty face. A plain woman has no attractions for you." "Oh, you are unjust!" cried Ragbag, warmly, "I haven't left you to go after her, have I?" and then he saw by Miss O'Brien's look the mistake he had made, but it was too late to rectify it.

The latest thing in socials, it is said, is called a "Thread Social." The *modus operandi* is to take a thread about two feet in length, and tie a knot in the middle. Then let a lady and gentleman each take an end of the thread in their teeth and gradually absorbing it see which gets hold of the knot first. The new social is said to be very popular up west.

It is remarkable what little bites a woman takes when eating in the presence of her sweet-heart. What a little mouth she has then! She nibbles with her little white teeth like some dainty squirrel eating a hickory nut. But wait until wash day comes, watch her when she goes to hang up clothes and gets in a hurry. By the time she gets the big ends of fifteen clothes-pins held in that mouth, you will begin to think it is a pretty good-sized, hearty mouth after all.—*Bloomington Eye.*

Here is a story they are telling just now in London of a troop-ship: In the ladies' cabin were four wash basins, one of which was much larger than the others. There were three ladies in the cabin whose husbands were about equal in rank. The women always think they have a right to presume on the rank of their husbands when taking choice of berths, etc., and their was a great discussion as to who was entitled to the use of the big basin. It was referred to the paymaster of the ship, who could settle nothing, and eventually to the captain. He gave a decision worthy of Solomon. After first asking them if they would abide by his verdict and not give any more trouble in the matter, which they readily agreed to do, he said he thought it was only fair that the oldest lady should have the biggest basin. That basin was never used during the voyage out.

Society in New York.

THE MODERN STYLE OF COURTSHIP.

The manners of engaged girls are subject to constant modification at the caprice of fashion. As soon as a virgin becomes a betrothed wife she is placed under surveillance by society, and is not released from close scrutiny until she has stood at the altar. In this city, among scrupulously conventional people, a girl was formerly expected under such circumstances to be more circumspect than ever before; she was not permitted to be much alone with her sweetheart, or to concede to him a hug or a kiss; she maintained a primness which was suggestive of a nunnery. However, fashion has decreed a change in this matter. The engaged couples of 1881 are not commanded to hide their endearments under a bushel. They may even kiss in company if they are chaste about it. I saw a daughter of one of the wealthiest and most refined of our families touch lips with her husband-to-be before at least hundreds of persons in a picture room of the academy of design the other day. He had been out of town for a week, I was told, and their meeting here was by chance. She greeted him affectionately, but without ado, and put up her mouth in the most self-possessed way imaginable. He was not so cool about it, yet he gave her a smacking salute with a good grace, right in the presence of his future mother-in-law. The girl did not blush nor simper. Such a public kiss would have been scandalous in March, 1880; but in 1881 it is fashionable, and therefore proper. The theory that an accepted lover is not to be trusted seems to have given place to a confidence in his honor. He is now allowed to take his affianced bride to places of amusement without a chaperon (a proceeding which used to be discountenanced by the high clique of lower Second avenue, that ultra-exclusive quarter of the metropolis) and to take possession of her to a considerable degree. This makes courtship costlier, but more enjoyable. A new custom is for a more preferred suitor to keep his lady-love supplied with flowers, candy and fruit. A small fortune can be spent in this way with perfect propriety. Gifts of jewelry and other unperishable things are not considered quite the proper thing. Many fellows make contracts with florists to deliver bouquets regularly every morning to their girls; and the opportunity of studying and gratifying peculiarities of floral preference is taken advantage of. The flowers thus sent are commonly used for the adornment of hair and corsage, and sentiment is thus kept warm on both sides. Candy for courtship purposes is very expensive, for the confectioners not only devise dollar-a-pound mixtures, but put them in elaborate baskets and boxes. A receptacle for gum-drops, made of satin with hand-painted pictures upon it, may cost anywhere from $1 to $10. As for fruits, it is the aim of the enterprising lover to give his adorned one her first taste of the season in his line. To this end he haunts the market and pays fabulous prices for the first lot of strawberries, etc. The betrothed wife is, therefore, living high this spring. On her own part, however, the latest usage sanctions equal expenditure. The worsted work and rag patchery of former times will not do. She must make presents of the elegant art objects now in vogue. The best thing she can do, in the estimation of fashion, is to beautify his room with an elaborate mantel cloth, and some of these are marvels of skill, work and cost. Thus do the wealthy adorn their courtship, but, after all, they do not produce happy marriages with any more certainty than the plainer methods of poorer people.

"The Last Forty Years."

An important historical work, in parts, is now in progress of publication in Toronto, by Mr. George Virtue, the well-known publisher of books in serial form. The title of it is "The Last Forty Years: Canada since the Union of 1841," and as it deals with many events of a most exciting character and purport in our history, it cannot help achieving an enormous circulation among Canadian and other readers. "The Last Forty Years," will of course deal thoroughly and graphically with the leading events in our political, social and religious life, from the date of the Union of the Provinces of Upper and Lower Canada in 1841 down to the present time. The inauguration of the Union under Lord Sydenham; the struggle between Sir Charles Metcalfe and his Ministry, and the final establishment of Responsible Government; the advent of the Railway Era; the long and hotly-waged contest which ended in the secularization of the Clergy Reserves and the abolition of the Seigniorial Tenure; the making and subsequent abrogation of the Reciprocity Treaty with the United States; the Legislative Dead-Lock, and the ensuing movement which led to Confederation; the amalgamation of the Maritime Provinces, Manitoba, the "Great North-West," and British Columbia with Canada; the inception and subsequent history of the Canadian Pacific Railway Scheme; the Fisheries Question; the ational Policy—these are merely a few out of the many prominent episodes in our modern history which will receive consideration in the pages of this work. A review of the Canadian literature and journalism of the period, will form the concluding chapter. The work will be written in a popular and readable style, and will, it is hoped, be the means of disseminating a wider and more accurate knowledge of the events of "The Last Forty Years" than at present prevails in Canada. "The Last Forty Years" will not be a mere compilation, but will be the result of original inquiry and research. It will involve the discussion of various incidents of local and general interest not touched upon in ordinary histories of Canada. As its name implies, it will be a veritable Canadian "History of Our Own Times." Events will be contemplated from a modern, but not from a partisan point of view; and there will be no attempt to serve the interest of any political party. The fact that this forthcoming work is to issue from the pen of Mr. John Charles Dent, editor of *The Canadian Portrait Gallery*, who is at once a scholar of eminence, and one of the best writers in the Dominion, is a guarantee of the sterling and reliable character of the History in every sense. Mr. Dent is well-known to our readers as a master of perfect and graceful English, and the new enterprise with which his name is prominently associated, and upon which he has devoted a great deal of attention for some time back, will add very considerably to his reputation as a historian and biographer.

The work will be issued monthly, and completed in about fifteen parts at 50 cents. Each part will contain 48 pages of letterpress and four full-page engravings, executed in the best style of contemporary Canadian Art. The illustrations will include life-like portraits of eminent persons referred to in the text, among which are numbered tinted portraits of His Excellency the Marquis of Lorne and Her Royal Highness the Princess Louise, produced expressly for this work by special permission; also graphic delineations of Picturesque Canadian Scenery. We wish the enterprise every success.

City Council.

LAST NIGHT'S MEETING.

The Council met last evening. There were present the Mayor in the chair, and Messrs. Gunn, Langevin, Vallerand, Roy, McLaughlin, Samson, Vallee, Henchey, Archer, Guay, Chouinard, Peachy, Hearn, Rinfret, Johnston Bourget, Russell and McWilliam.

The following receipts were reported from the various markets for last month:—Jacques Cartier $1,562, Berthelot $386, Montcalm $2,095.

The usually quarterly accounts from the Gas Company and Sheriff of Quebec were presented.

Read, a letter from Councillor Turner, resigning his seat at the Council for St. Peter's Ward.

Also, a letter from Thos. McCullen, complaining of having been discharged for absence caused by two days' illness as shown by the medical certificate annexed.

Alderman Henchey censured the Fire Committee for their action in this matter. The letter was referred to the Committee.

Councillor Chouinard presented a petition against the removal of the Central Police Station, signed by His Grace the Archbishop and the representatives of the leading religious communities and Insurance Companies and principal citizens.

The report of the Special Committee on amendments to the charter came up as an order of the day.

Councillor Chouinard read the first important clause, providing for the issue of debentures to replace outstanding debentures.

Councillor Johnston thought about $400,000 was all that could be redeemed of the city debt.

The Mayor said it was only desired to take up part of the debt of the city with new debentures, as the Corporation could now obtain money at 5 per cent., instead of paying 6 and 7. He also alluded to the fact that a certain monetary institution had offered him to loan the city between $400,000 and $500,000 at 5 per. cent.

Councillor Johnston approved of economy, but thought there were other principles at stake, such as the city honor, which would suffer by any attempt to violate its obligations with people all over the world.

Alderman Hearn supported the same view, and thought it would be wrong to use such power, even it it was possessed.

The Mayor said the saving proposed by this arrangement was between $115,000 and $120,000.

Councillor Russell thought the city's sinking fund invested in bank stocks, amounting to $70,000 annually, should be sold and the proceeds devoted to buying up whatever bonds could be obtained on the English market.

Alderman Hearn could not see where the $115,000 annually was to be saved. He also showed that the city had not the right to compel bondholders to give up their debentures for one cent less than their actual market value, and as many of the bonds were now at a premium of some 20 per cent., he could not see where the saving would come in.

The clause was put to the vote and carried on the following division:—For—Messrs. Guay, Vallee, Samson, Roy, Chouinard, Archer, Rinfret, Peachey, Langevin, Bourget, Russell, Henchey, Vallerand and McWilliam. Total, 14. Against—Messrs. Gunn, McLaughlin, Hearn and Johnston. Total, 4.

The clause respecting the redistribution of Aldermen and Councillors in the several Wards of the city came up and was discussed at some length, the arguments being exactly the same, as reported on a previous occasion.

Councillor Vallee moved in amendment that the Council in future consist of eight members only. This was defeated, only five members voting for it.

The clause was then adopted on division.

The clause giving the Corporation the option of assessing either on annual rental or real value of property was then taken up.

In the discussion which ensued, Councillor Peachy said that a valuation had some years ago been made of the value of real estate in the city, and that it was discovered that after all, the Corporation would lose by this system of assessment.

A long rambling discussion ensued until about 11.30 p.m., when the Council adjourned on motion of Alderman Henchey, all the other orders of the day remaining over.

Shipping Intelligence.

The Allan ss "Parisian," Captain J. Wylie, from Liverpool, 28th ult., via Derry, the 29th, passed Cape Ray at 5 p.m. yesterday; due here on Sunday.

Probabilities for the Next 24 Hours for the St. Lawrence, etc., etc.

TORONTO, May 6, 10 a.m.—St. Lawrence—Moderate to fresh winds and fair to cloudy weather with local showers.

Gulf—Moderate to fresh winds and showery weather.

The Allan ss "Hibernian," Captain H. Wylie, from Liverpool, on Tuesday, April 26, for Baltimore, via St. John's, N.F., and Halifax, arrived at St. John's, at 11 p.m., on Thursday, the 5th May, and continued her voyage at 6 p.m. yesterday.

Report of the ss "Mississippi," W. H. Gibson, master, at this port, at 6 a.m. yesterday:—Left Liverpool, April 21st, at 4 p.m. Experienced strong westerly wind with high head sea during the entire passage. May 1st, on the Grand Bank, signalled the bark "Queen of Australia," of Liverpool for Quebec,—all well. May 3rd, seventy miles below St. Paul's, signalled the bark "Ellerslie," of Liverpool, bound up. Same date, steamed along the edge of twenty miles of field ice, on the C. B. shore. May 5th, at 1 p.m., passed the ss "Valetta," off Father Point, bound down.

QUEBEC STEAMSHIP COMPANY.—The steamer "Flamborough" sailed from New York for Bermuda, at 3 o'clock on Thursday afternoon.

The ss "Bermuda" arrived at New York, from Porto Rico, at 11 a.m. on Thursday.

The ss "Canima" arrived at Halifax, from St. John's, N.F., yesterday morning, and sails again this afternoon, for New York.

THE WRECKED BARK "CERERE."—A despatch from Fox River states that the bark "Cerere" is slowly breaking up. Parts of the lining are on the beach. The deck is swollen up and broken in all directions. The port side is entirely gone, and the sea is washing in and out. The cargo is badly wet and damaged, and it is thought that it will prove practically a total loss. The bark "Cerere" cleared from this port on November 19 for Cork, for orders, with a cargo of 29,000 bushels of peas. She is understood to be fully insured.—Montreal *Herald*, May 5.

Schooner "C. Bernier," (of Quebec), Captain Belanger, loaded with lumber, at Bridgewater, N.S., arrived at St. John's, Newfoundland, yesterday,—all well.

DOMINION S.S. LINE.—The ss "Mississippi," Captain Gibson, left port for Montreal, at 10 a.m. yesterday.

Liverpool, April 30.—BEAVER S.S. LINE.—The ss "Lake Champlain," Capt. Stewart, sailed to-day, for Quebec and Montreal, on her first voyage this season.

Delaware Breakwater, May 3—Sailed, ship "Vancouver," Carver, from Havre, has been ordered to Quebec.

London, May 3—Bark "Oliver Emery" (Br), Brown, from St. John, NB, for Belfast, has been aground at the latter port.

Port Hawkesbury, CB, May 2—Arrived, schr "Aldytha," Nelson, from Havana, for Montreal.

Steamer "Mayfield" (Br), from Cow Bay for Montreal, put into North Sidney, CB, May 1, damaged by ice, and was run ashore to prevent sinking; jettisoned a portion of her cargo.

Boston, May 3—Bark "Mary A Nelson" (Br), Franks, arrived here to-day from Cienfuegos, and reports in lat 33 30, long 75 20, picked up a small boat containing the master and steward of the schr "L B Wing," of Mobile, from Matanzas for New York, who reported that on the 16th, the schooner shipped a heavy sea, which washed the remainder of the crew overboard. On the 17th, the gale continuing, the vessel rolling on her beam ends and making water, and it being impossible to keep her free, the survivors took to the boat. Both were very much exhausted when rescued, having been 108 hours in the small boat.

Schooner "Mystery" (Br), before reported stranded at Bermuda, was sold at auction 21st ult., hull and materials netting £56 sterling.

Rimouski, May 6—Mr. Oswald and party, who arrived from Anticosti to-day, report that they left the brig "Pamlico," in good state. They report heavy weather, but no ice through out the voyage; the schooner is loading cargo.

London, May 6—Ship "Governor Langdon," from Pensacola, reports that on March 31st, off Cape Florida, rescued from a small boat J. W. Giles, who said he was a son of a General in the U. S. Army, had been blown to sea, and had been five days without food.

Channel, N.F., May 6.—Steamer "Parisian" passed west at 5.30 p.m.

London, May 6—Arrived out—Steamships Alsatia, Abyssinia, Bothnia, and Silesia, from New York.

New York, May 6.—Arrived—Steamship Celtic, from Liverpool.

Queenstown, May 6—Arrived—Steamship City of Brussels, from New York.

May 6—South-West Point Anticosti Light-house Signal Station—355 marine miles to Quebec—Weather cloudy and cold; stiff SE breeze this a m; light east breeze; one schooner inward at 2 p m.

Cape Rosier Light-house Signal Station—345 marine miles to Quebec—Weather cloudy and mild; therm. 36; strong SW breeze; one three-masted steamer inward this a m, and one ship inward this p m.

Fox River Light-house Signal Station—330 marine miles to Quebec—Weather cloudy and mild; light SE wind; one three-masted steamer inward at 5 a m—too far out to distinguish funnel.

Cape Magdalen Light-house Signal Station—290 marine miles to Quebec—Weather clear and fine; light NW wind; one two-masted steamer inward at 9.30 a m—passed out of signal distance; ss Lake Winnipeg inward at 8.30 a.m.

Martin River Light-house Signal Station—255 marine miles to Quebec—Weather cloudy; light east wind; ss Barcelona inward at noon; ss Lake Winnipeg inward at 12.30 p m.

Cape Chat Light-house Signal Station—230 marine miles to Quebec—Weather raining; light NE wind; ss Lake Winnipeg inward at 2 p m; ss Barcelona inward at 2.20 p.m.

Matane Light-house Signal Station—196 marine miles to Quebec—Weather cloudy and cool; light breeze NE wind; ss European inward at 8.45 a.m.; one two-masted steamship inward at 5.20 p m—did not make any signals.

Little Metis Light-house Signal Station—175 marine miles to Quebec—Weather raining and cool; strong breeze NE wind; one two-masted steamer inward at 11.15 a.m.

A distinct and peculiar combination.

FELLOWS'

COMPOUND SYRUP OF

HYPO-PHOS-PHITES

FOR THE RELIEF AND CURE
—OF ALL—
WASTING DISEASES,
—SUCH AS—

Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhœa, Dyspepsia, or Loss of Nervous Power. It is unequalled in the treatment of Palpitation of the Heart, Trembling of the Hands and Limbs, Loss of Appetite, Energy or Memory.

It acts with vigor, gentleness and subtlety, owing to the exquisite harmony of its ingredients, akin to pure blood itself. Its taste is pleasant, and its effects permanent.

Its first apparent effect is to increase the appetite. It assists digestion, and causes the food to assimilate properly—thus the system is nourished. It also, by its tonic action on the digestive organs, induces more copious and regular evacuations. The rapidity with which patients take on flesh while under the influence of the Syrup, of itself indicates that no other preparation can be better adapted to help and nourish the constitution, and hence be more efficacious in all depression of spirits, shaking or trembling of the hands or body, cough, shortness of breath, or consumptive habit. The nerves and muscles become strengthened, and the blood purified.

READ WHAT THE INVENTOR, MR. FELLOWS, HAS TO SAY ABOUT HIS SYRUP OF THE HYPOPHOSPHITES.

In the summer of 1864, I was suddenly effected by a copious expectoration of muco-purulent matter. I had been declining in health for some months, and, being exceedingly nervous, the symptoms caused alarm. As my business was that of a dispensing chemist, the shop was constantly visited by medical men, all of whom tendered their advice. During 1864 and 1865 my chest was examined by ten first class physicians, some of whom pronounced the case Bronchitis; some, not wishing to cause alarm, or unwilling to venture an opinion, gave no decision; some stated unequivocally that I had Tubercular Disease of the Lungs, and located the trouble where the pains were felt. By professional advice, I used, in turn, horse-back exercise, country life, eggs and ale in the morning, tonics, Bourbon whiskey, cod-liver oil, electricity, tar, and various inhalents, but the trouble increased. Expectoration became more profuse and offensive. Night-sweats set in. Cold chills, diarrhœa, dyspnœa, cough, blood-streaked expectorations, loss of sleep, loss of appetite, loss of memory, loss of ambition, accompanied by general prostration, showed themselves. Under the microscope the blood was found to contain but a small portion of vitalized corpuscles; the heart's action was feeble; the pulse intermittent; the stomach could not digest properly, so that flatulency and acidity was the result. Finding the symptoms indicated Consumption, I determined to use every effort to stay its progress, and, if possible, to cure it. I selected the most powerful tonics and moderators, and combined them with the vital constituents of the human body. For months I endeavored to amalgamate them before my efforts were crowned with success. I cannot speak too plainly or too strongly of the effects produced, and the benefits I received from the composition.

At first my appetite increased; the expectoration became easy, digestion better; the [illegible] became copious and less frequent; cold chills ceased; night-sweats lessened; I gained in weight; the hacking cough left me; refreshing sleep returned; my spirits became buoyant, the mind active and vigorous. I continued taking the Syrup month after month; but owing to the damp, foggy climate of St. John, my recovery was necessarily slow, although I could observe a gradual return of strength for three years, during which time I continued taking the remedy. My present weight is one hundred and eighty-eight, being thirty-eight above my usual. I have no symptoms left denoting disease. The only notable sign during twelve months was the expectoration. Now that has stopped, and I consider myself well. The reader may ask, How do you know your difficulty to have proceeded from ulcerated or tuberculated lung? I answer, In the most certain of all modes for ascertaining. In March last I coughed from the right lung a piece of PHOSPHATE OF LIME, half the size of a pea, which could have come from no other place, and which the highest authority in Lung Diseases (Laennec) states is the result of tubercle, *which has been cured.* Added to this, I had the leaden-colored, purulent, blood-streaked expectoration, and the opinion of one of the best diagnosticians in the country. I believe I have experienced all the symptoms incident to the two first stages of Consumption, and have successfully combatted them, so that I do not despair of any case where there is left sufficient lung-tissue to build upon. I can only add that the mere monetary consideration of increased sales would never induce me to publish this report, but a sincere sympathy for the poor Consumptive, with whose misfortune I believe it villany to trifle.

Respectfully,

JAMES I. FELLOWS,

Inventor of Fellows' Compound Syrup of Hypophosphites.

SOLD BY ALL DRUGGISTS.

When Fellows' Compound Syrup of Hypophosphites *is required, ask for*

Agents for the Dominion of Canada,

MONTREAL.

SUBSTITUTES!

☞ The public are cautioned against a custom which is growing quite common of late among a certain class of medicine dealers, and which is this: When asked for a bottle of **Pain-Killer**, they suddenly discover that they are "sold out," "but have another article just as good, if not better," which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the **Pain-Killer**; and being compounded of the vilest and cheapest drugs, are bought by the dealer at about half what he pays for the genuine **Pain-Killer**, which enables him therefore to realize a few cents more profit per bottle upon the imitation article than he can on the genuine.

For SUDDEN COLDS
NEURALGIC, RHEUMATIC AND
ALL OTHER PAINS IN ANY PART OF THE BODY,
PERRY DAVIS' PAIN-KILLER
IS UNEQUALLED.
IT CURES ALMOST INSTANTLY.

The PAIN-KILLER is put up in 2 oz. and 5 oz. bottles, retailing at 25 and 50 cents respectively,—large bottles are therefore cheapest.

SOLD BY ALL MEDICINE DEALERS.

pril 16, 1881. my8'80-Lm-sat-d&w

☞ **Notices of Births, Marriages and Deaths, 50 cents. No exception will be made to this rule.**

BIRTH.

SPORTING NEWS.

THE TURF.

NEWMARKET, Eng., May 6—The race for the Newmarket Stakes, three-year-olds, one mile, was won by Lorillard's "Iroquois." Lennox's "Love" second; only two ran.

LONDON, May 3—The Newmarket Spring Meeting commenced to-day. The following was the result of the race for the Prince of Wales' Stakes, for which there were forty subscribers and eleven starters:—

Count F. de Lagrange's b.c. Maskelyne... 1
Mr. Leopold de Rothschild's b.c. Valentino. 2
Mr. P. Lorillard's ch. c. Mistake.......... 3

Mistake was ridden by Morgan, Lord Falmouth's second jockey. He held a good place until a furlong from home, when Maskelyne and Valentino challenged him and beat him easily. Mr. W. S. Crawford's Elf King was the favorite, and Mistake was well backed as second favorite.

The race for the Visitors' Plate resulted in a dead heat between Colonel Forester's six-year-old gelding Tower and Sword and Mr. Saville's six-year-old chestnut horse Lincolnshire. Count F. de Lagrange's four-year-old brown filly Tafua came in third. There were eleven starters. Mr. P. Lorillarid's four-year-old chestnut colt Wallenstein started at an outside price, and though his opponents were better than any he had previously run against, he acquitted himself far from badly, finishing a good fifth.

A Hint.

When you ask for a bottle of Perry Davis' Pain-Killer, and the gentlemanly store-keeper, without scarcely looking, remarks, "we are just out, but have another article as good or better, which sells for the same price, viz., 25 cents." Turn on you heel and say, Good bye, Sir! That man cares more for the two or three cents extra profit which he gets than he does for your health or happiness.

AN ASTONISHING FACT.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent.

April 16, 1881. oct9-Lm

The value of medicines compounded by a thoroughly educated physician and scientific chemist must be apparent to all. As such we take pleasure in commending Dr. J. C. Ayer's Cathartic Pills. Public confidence in them has steadily increased, until now their use can be said to be universal. Great and permanent popularity does not come without great merit. Our experience convinces us that Ayer's Pills are superior to any others in all the uses for which a cathartic medicine is employed. They are pleasant to take, and are perfectly safe, sure and effectual. Ayer's Pills satisfy all the requirements of a reliable family physic and their timely use undoubtedly prolongs many lives and promotes the health and comfort of thousands.—*Northern Ohio Democrat.*

The Barn Yard.

To be remunerative and free from disease, must always keep on hand a sufficient supply of HARVELL'S CONDITION POWDERS. Without these there is no fair play for any description of stock, whether fowls or animals. Try them! There money n them. Sold everywhere.

WOOLY HORSES.

Wooly horses are not so rare as many suppose, not such great curiosities either, there are many to be found in various parts of the country, but we doubt if they will ever prove as valuable to their owners as the one exhibited by Barnum; we imagine their owners would consider them more valuable without the wool, for this rough and wooly state of the hair indicates that the horse is not in a healthy condition—probably hide-bound, or suffering from some disease which occasions this unnatural appearance; in such cases use "Darley's Condition Powders and Arabian Heave Remedy," it purifies the blood, corrects the appetite, removes all obstructions from the lungs and liver, and gives to the coat a sleek and shining appearance

Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., Proprietors of Canada. Sold by all Medicine Dealers.

May 4, 1881. dec24-Fm-d&w

THOUSANDS PERISH before the meridian of life is reached, in consequence of disregarding lung disease in its earlier stage. Consumption fastens its relentless grasp upon them while they do not even suspect its advent. Trifling or tampering with a cough will not answer. Delay, and unwisely chosen medicines both encourage its progress. The proper course is to select a well-known and sterling remedy, and use it systematically at the outset. The best is Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. The value of cod liver oil as a pulmonic is too well known to require comment. The hypophosphites are specially useful for their invigorating properties, contributing to the development of muscular and fibrous tissue, both of which are greatly depleted and weakened in cases of pulmonary decline. The bones are also strengthened by their use. This time-honored specific and tonic also possesses properties as a blood purifier, which render it valuable in cases of scrofula. Persons of weakly constitution derive from it a degree of vigor obtainable from no other source, and it has even proved itself a most efficient protection to those troubled with a hereditary tendency to the maladies it is adapted to prevent and relieve. As before intimated, its prompt use is particularly recommended. In a climate rigorous as our own, and where the summer is so fleeting, persons with weak chest and lungs are specially in need of a reliable medicinal safeguard. They will find none so well adapted to their wants as this thoroughly tested and highly approved article Prepared by Northrop & Lyman, Toronto, and sold by all druggists.

Apil 12, 1881. Jm-d&w

Advertising itself wherever it goes by wondrous and gratifying effects which it produces, that sterling medicinal preparation THOMAS' ECLECTRIC OIL, is winning "golden opinions" in all parts of the United States Testimonials constantly pour in demonstrating its superlative efficacy, in a manner as pleasing to its proprietors as it must be convincing to those who read it in the public prints, those evidences of its popularity and genuine worth. Never was there a remedy which received ampler or more satisfactory endorsements; never was there one which better deserved it. IT IS A TRIED REMEDY. Experience has demonstrated that it *not only relieves, but eradicates* the most obstinate coughs, sore throat of a malignant type, catarrh of long standing, rheumatism, neuralgia, stiffness and lameness of the back, muscles and joints, piles and kidney troubles, external hurts and sores, and other bodily troubles, as well as many of the disorders peculiar to horses and cattle That it cures *in every instance*, is not pretended, but that, if systematically used, and the malady susceptible of being remedied, *it will remedy it*, is a fact amply established. Sold by all dealers. Price, 25 cents.

Prepared only by NORTHROP & LYMAN Toronto, Ont.

The Great Female Remedy.

JOB MOSES' PILLS.

THIS INVALUABLE MEDICINE IS unfailing in the cure of all those painful and dangerous disorders to which the Female constitution is subject. It invigorates the debilitated and delicate; and by regulating and strengthening the system, fortifies the youthful constitution for the duties of life, and when taken in middle or old age, proves a real blessing, and on the approach of Child-birth these Pills should be used for two or three weeks previous to confinement; the benefits to be derived are incalculable; they fortify the constitution, lessen the suffering during labor, prevent weakness of the organs, and enable the mother to perform her duties with comfort to herself and child.

In all cases of Nervous and Spinal Affections Pains in the Back and Limbs, Fatigue in slight exertion, Palpitation of the Heart, Hysterics and Whites, these pills will effect a cure when all other means have failed; and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtfu to the constitution. Sold by all Medicine Dealers.

Full directions in the pamphlet around each package.

HALL'S VEGETABLE SICILIAN HAIR RENEWER.

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

Asa dressing nothing has been found so effectual, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I cansider it *the best preparation* for its intended purposes."

BUCKINGHAM'S DYE

FOR THE WHISKERS.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade, to brown or black, at discretion. It is easily applied, being in *one preparation*, and quickly and effectually produces a permanent color which will neither rub nor wash off.
