Shell Enemy Forces Near Swiss Border

French Claim Victories In Two Air Duels

Reported German Concentrations Near Swiss Border May Presage Possible Attempt to Cross Rhine Below Black Forest—German Batteries Active Southeast of Zweibruecken.

Paris, Sept. 26.—(AP)—French artillery continued today to hurl shells across the Rhine river in an effort to break up new German troop concentrations reported north of the Swiss border. A General Staff communique reported German batteries likewise were active southeast of Zweibruecken, near the left centre of the Western Front. New combats between French and German fighting planes were noted, but no details were given. Premier Daladier summoned a meeting of his Cabinet for this afternoon for a general discussion of war problems. Advice from the front said the combined French and British air forces had played a major role in detecting new disposition of the German troops. French sources speculated that reported German concentrations near the Swiss border might presage a possible attempt to cross the Rhine below the Black Forest, at the extreme southern end of the Maginot Line. These sources said, however, that such an attempt would be hazardous because of heavy French forces stationed near Belfort.

French infantry movements in the Saar River sector, which accompanied the bombardment, were said to have had the dual objective of establishing new artillery positions and seizing prisoners in a quest for information. An undisclosed number of captured German soldiers were reported taken back to Thionville for questioning. The French said the entire area north of the Saar River between Metz and the West and Saarbruecken on the East was threatened by their artillery emplacements. Coincident with the action in the Saar River sector, French forces struck at German positions in the Haardt Mountains, which stretch along a twenty-mile front between the German town of Pirmasens and the French town of Wissembourg. The French attack in the sector, one of the most difficult on the entire northern flank of the front, was described by military men as "an active defence."

In the diplomatic field, France and Great Britain pressed efforts to learn the full significance of Soviet Russia's intervention in Poland. The French vice-minister of Foreign Affairs, Auguste Champetier de Ribes, conferred yesterday with Russian Ambassador Jakob Surits. The outcome of the talks was not disclosed. Obituary notices for fallen French soldiers appeared in increasing numbers in the press. One newspaper carried three of these notices, with accompanying phrases as "Died for France," or "Fallen Gloriously for France."

French military men estimated that as a sequel to the occupation of Poland, the Germans might soon be able to mass from 100 to 110 divisions on the Western Front. This would compare, they said, to Germany's western strength in the last war of about 240 divisions. (A German report on Page 2, Col. 7.)

British Press Praises French Air Force For Bombing German Factory

London, Sept. 26.—(AP)—British newspapers today displayed prominently reports of the bombing of the German airplane works on Lake Constance and of the extension of operations on the Western Front. Congratulating the French Air Force on its exploit at Friedrichshafen, the Daily Sketch said the raid "was no mere demonstration of strength." "Its purpose, successfully achieved, was to stunt the growth of German air power by destroying factories where planes are built." "By this method, firmly but cautiously extended, we shall be able to paralyze the enemy's efforts and reduce him to a condition in which he has no alternative but to sue for peace." The military correspondent of the Daily Herald said reports of artillery action on the Franco-German frontier suggested General Maurice Gamelin is about to reap the first fruits of his careful preparation. "From the point where the Rhine becomes the Franco-German frontier to the point where both states meet Switzerland, French heavy artillery has been pounding German defences," the paper said.

CHURCHMAN PREDICTS ATTACK ON DOMINION

Washington, Sept. 26.—(AP)—An attack on Canada is predicted by Rev. Maurice Sheehy, head of the department of religious education at Catholic University. Interviewed on his return from Europe by the Washington Post, Dr. Sheehy said: "Of one thing I am certain, after talking with people who represent both sides of the present conflict, Canada will be attacked before this war is over." "Whether we shall stand by and see that done will be determined by the people of the United States, not by the President or our Secretary of State," the Catholic educationist said. "I can foresee a situation arising within a year where an effort would be made to impeach President Roosevelt if he pursues a 'peace at any price' policy." Dr. Sheehy declared that failure to repeat the arms embargo would be "the most tragic bit of stupidity in our history."

REPUBLICS TO CONSIDER WAYS TO KEEP PEACE

Panama, Sept. 26.—(AP)—Representatives of twenty-one American republics, hailing assertions of the western hemisphere never can occur in an "oppressive peace," turned today to consideration of practical measures to protect their own neutrality in the new war. Delegates apparently were almost unanimous in approving the keynote speech of Panama's Foreign Minister, Narciso Garay, who declared yesterday the neutrality conference would gain "imperishable glory" if "through our efforts we may declare peace throughout the world." Garay, president of the conference, added that the western hemisphere would resist all attempts to establish an "oppressive peace based on the points of bayonets and the mouths of cannon." Among proposals expected to receive consideration of the conference were: 1. Establishment of a co-operative patrol of American waters to protect shipping lanes against belligerent activity threatening normal maritime commerce. 2. A common neutrality declaration. Continued on Page 2, Col. 6.

AWAIT OPENING GUN IN QUEBEC BALLOT BATTLE

Quebec, Sept. 26.—(AP)—Quebec Province awaited today the opening gun of its first general election campaign since a thirty-eight-year Liberal grip on power was broken three years ago by the Union Nationale party of Premier Maurice Duplessis. It was expected campaigning would begin almost immediately. Quick assurances of readiness for battle came from the Province's various political groups after Premier Duplessis' announcement Sunday night at his Three Rivers home that voting would be held October 25, two years before expiration of the Government's mandate. Arrangements for dissolution of the twentieth Legislature were made Saturday at a long session of the Cabinet. Coincident with the Premier's announcement came rumors of a Cabinet shuffle and other changes within the party. Some of them went unconfirmed but Pierre Bertrand, member of the Legislature for St. Savelour, announced he would move into the Legislative Council, Quebec's Upper House. The office of Hon. Jean Mercier, K.C., appointed to the Council last January, said it had been "informally" confirmed on Page 2, Col. 3.

BASEL, SWITZERLAND, SEPT. 26.—(AP)—A squadron of 20 warplanes believed to be French appeared high in the sky over the Rhine today, drawing fire from anti-aircraft batteries on the German shore. The planes were seen clearly from Basel and citizens rushed to streets and rooftops of the barricaded Swiss city to watch what promised to be an air battle over the zone where the frontiers of Switzerland, France and Germany meet. Appearance of the planes drew the first bursts of fire from the nearby Rhine batteries since the war began. German air bases in Baden close to the Swiss frontier are filled with fighting planes to meet such an attack. At the same time French troops were reported to have repulsed with heavy losses a counter-attack launched during the night by German forces in an effort to relieve pressure on key forts near Zweibruecken. The German drive, the reports declared, was caught in a heavy cross-fire from French advance posts and met by French forces on both flanks. The Germans were said to have withdrawn into fortifications near Mittelbach, leaving hundreds dead and many wounded. The French themselves, the dispatches added, suffered losses during the night in the sector between the Saar river and Blies creek, where they were reported attempting to hold newly-won positions under machine-gun fire and a bombardment from the Westwall fortifications. The reports said the French had captured and were holding a four and a half-mile stretch of the main highway between Saarbruecken and Zweibruecken. (Saarbruecken is approximately in the centre of the 100-mile front between the Moselle and Rhine rivers, where the heaviest fighting has been centred. Zweibruecken is about 15 miles east of Saarbruecken on the outer edge of the German Westwall defences.) The French advance along the road leading to Zweibruecken was said to have passed beyond the hamlet of Altherbach. Further east the French were reported to have almost surrounded German forts at Fischbach and Ludwigswinkel. This was accomplished, dispatches said, by a single attack through thick woods from the ruins of the fourteenth century Palatine Castle, which the French have turned into bases. One of the first positions the French captured at the outbreak of the war was a high hill in the southern Palatine forests. Atop it are Continued on Page 2, Col. 4.

NAVY ENGAGEMENT REPORTED OFF NORWAY'S SOUTHERN EXTREMITY

Oslo, Norway, Sept. 26.—(AP)—Dispatches from Farsund, southwestern Norway, reported that a naval engagement occurred today just west of Norway's southern extremity, beginning about noon (6 a.m. E.S.T.) and ending at 1:40 p.m. Watchers from the shore said they saw three large warships, two submarines and many small craft taking part in the action and airplanes manoeuvring overhead. They estimated that between 30 and 40 shots were fired.

Formal Neutrality Assurance Given Rumania By The Soviet

Bucharest, Sept. 26.—(C.P.—Havas)—The Rumanian Government today said Bucharest had received formal neutrality assurances from the Soviet Union. The Soviet Foreign Commissar, Vyacheslav Molotov, informed N. D. Rumanian Minister at Moscow, that relations between the two countries would continue to be based on perfect neutrality, a government spokesman declared. The Bucharest Government had no knowledge of alleged heavy concentration of Soviet troops along the frontier of Bessarabia, which Rumania seized from Russia after the Great War, the spokesman said. (Reports from Moscow said the entire frontier between Russia and Rumania and Russia's Black Sea of Odessa were understood to have been closed to travellers. The closing was regarded as a "precautionary" move by both governments.)

SWEDEN FACES SHOWDOWN WITH REICH LEADERS

Copenhagen, Sept. 26.—(AP)—Sweden, holding as a basis for argument one pretext desired by Germany, was expected by informed Danish circles today to take prompt steps to settle with Berlin the future of her sea trade. German submarines are reported to have sunk two Swedish and two Finnish ships in less than a week. The captain of the Silesia, Swedish freighter sunk yesterday, said the submarine which torpedoed his ship apparently was directed by planes. Crewmen were given twenty minutes to take to lifeboats. They were rescued by another Swedish ship. (Three of the four sunken ships were loaded with woollen goods for Great Britain, shippers said. The nature of the Silesia's cargo was not disclosed. Germany has referred to the cargoes as cellulose, which she said was included in the contraband list.) Following the sinking of the Silesia, the Stockholm Foreign Office consulted various trade organizations, and observers said it was possible that Sweden would be forced to follow the lead of the United States. Continued on Page 2, Col. 8.

Canada's Minister To U.S. Assumes Washington Duties

Washington, Sept. 26.—(AP)—Loring Christie took up his duties as Canadian Minister to the United States today as Congress neared consideration of the administration's proposal to repeal the arms embargo. The legislation before Congress, it was revealed, would give Canada trade advantages not enjoyed by other belligerents. The measure would allow shipments of war goods in United States vessels on inland lakes and waters and shipments of war goods over the Canadian border by airplane, truck or railroad. Payment before delivery would apply to these sales. Senator Frederick Van Nuys interpreted these clauses of the proposed measure as possibly enabling Canada to become a sort of purchasing agent for the Allies in respect to the United States. The new Canadian Minister, who succeeds Sir Herbert Marler, resigned on account of ill health, presented his credentials to President Roosevelt yesterday, declaring: "It is my lot to assume office at a moment when, in consequence of the tragic events now afflicting Europe, my country has just become engaged in war. "People of good will cannot confront this revolutionary period in the affairs of mankind with lightness of heart; but the people of Canada, in thus taking up the cause of freedom and justice and standing for orderly democratic processes against processes of force, find an immense reassurance in their constant knowledge that these same causes are never in issue between nations in this region of the earth." President Roosevelt replied: "In like manner we share the view that processes of force can never become an issue between nations in this region of the earth." Mr. Christie said it was the earnest wish of his Government "that cordial neighborly relationship so long enjoyed between peoples of these two countries and their governments shall always be confirmed and strengthened." Mr. Roosevelt responded: "I need hardly assure you that the Government of the United States heartily reciprocates this wish." United States Senate leaders were reported authoritatively to have advised the White House and the State Department to continue their "hands-off attitude in the Congressional fight over neutrality." Those in charge of the legislation, it was learned, have argued they would have a better chance of obtaining its enactment if there was no attempt by the executive branch to influence Congress. This is in line with the position taken by President Roosevelt, who said last Thursday that Congress should make its own choice of the Continued on Page 2, Col. 7.

APPLE GROWERS ASSURED OF AID BY GOVERNMENT

Ottawa, Sept. 26.—(AP)—Canada's harassed apple industry, faced with wartime disruption of its United Kingdom market, today was relieved by assurance of sufficient Government aid to help the industry over "a difficult period." A broad scheme of Government purchasing and processing of the surplus apple crop, combined with closer regulation and zoning of the domestic apple market, was announced by the Government last night after a four-hour Cabinet session. Varying the daily practice of the last three weeks, Cabinet is not scheduled to meet today. The industry stressed the grave difficulties caused by war when almost half the country's apple production normally is sold in Britain. About half the British Columbia crop and more than 80 per cent of the Nova Scotia crop are exported. To meet this situation, the Government announced a plan. The industry stressed the grave difficulties caused by war when almost half the country's apple production normally is sold in Britain. NAZI CLAIM BRITISH DESTROYER SUNK REMAINS UNCONFIRMED

(By the Canadian Press) Oarburg, S.C., Sept. 26.—(AP)—A British destroyer continued without confirmation in London today as the known ship losses of belligerents and neutrals mounted to 52. Sinking of the 2,350-ton freighter Silesia Monday, the second Swedish vessel destroyed within twenty-four hours, led Sweden to draft a note of protest to Germany, whose submarines have sunk four neutral craft in the last three days. German officials held all four ships were carrying contraband woodpulp to Great Britain. Another submarine victim yesterday was the 2,650-ton French collier Phryne, sunk near the English coast. Crews of the Phryne and the Silesia were rescued. Britain in twenty-three days of war has lost thirty-one ships; Germany nine; France two and neutrals ten. Tonnage destroyed is estimated at 230,874. The known death toll is 730.

BRITAIN EXPECTS TO HAVE TREBLED ITS SUB-HUNTING FORCE BY END OF OCTOBER

London, Sept. 26.—(AP)—Winston Churchill, First Lord of the Admiralty, told the House of Commons today Britain's naval convoy system now is in full operation and that "large numbers of merchant ships are now leaving these shores defensively armed against submarines and airplanes." Speaking immediately after Prime Minister Chamberlain had made his fourth "war report" to members, the First Lord delivered a full statement of what Britain is doing to crush the U-Boat menace. "In a short time the immense mercantile marine of the British Empire will be armed," he said. "All guns and equipment are ready at various stations together with trained gunners to man them and instruct seamen. "Our attacks on submarines have been five or six times as numerous as in any equal period in the last war." Mr. Churchill said Great Britain had replied in three ways to the U-Boat menace: 1. With a naval convoy system which now is operating for outgoing and incoming shipping. 2. The arming of all merchant vessels and liners with defensive armament, and 3. With attacks on the U-boats themselves by destroyers and aircraft. Mr. Chamberlain told the House that last Friday's Allied War Council in England resulted in agreement on "procedure for co-ordinating and perfecting" munitions and supplies plans by Britain and France. In his fourth "war report" to the House, the Prime Minister also referred anew to the effects of the Russian invasion of Poland, but said Soviet troops apparently had not yet "occupied all the territory allotted to them under the arrangement (with Germany) which amounts to more than half the total area of the Polish republic." He called particular attention to the fact that the German-Soviet line of demarcation running through the middle of Poland "brings the Soviet forces up to the suburbs of Warsaw and leaves the Polish oil fields in Soviet control." Mr. Chamberlain then declared that "supplies of finished munitions, raw materials and foodstuffs from the Dominions are being made available in ever increasing volume for the common cause." But the Prime Minister warned against over-optimism as to choking off Germany's supplies. "Germany already possesses stocks of raw materials which she requires to import and quick results therefore cannot be expected from the (British) Ministry of Commercial Warfare," he said. Nevertheless, he continued, if Britain through this Ministry "can be relieved."

Germany May Free Battle Captives As Peace Overture Towards France

Berlin, Sept. 26.—(AP)—An army communique indicated today German forces had started to storm the defences of Warsaw after efforts had failed to convince the Polish commander of the "uselessness of resistance." The Polish capital has been besieged since September 8. In a surprise attack, the communique said, the Germans captured Mokotowski fortress and then pushed into the Warsaw suburb of Moktow. Mokotowski is one of four forts guarding Warsaw from the south and west. The others are forts Bema, Wolski and Szeszelskiwicki. Today's communique said the army in Poland was moving toward the German-Soviet demarcation line. It claimed that in brief fights with the Poles along the lower course of the San river 2,000 prisoners were taken by an armored division. Artillery fire and scouting activities were reported on the Western Front. The communique claimed six French planes and two captive balloons were shot down. This boosted the French air toll in the west, according to German figures to 32 planes and six balloons. A new gesture of friendliness toward France by the German Gov-

Sweden Faces Showdown With Reich Leaders

Continued from page 1. sible all exporting would be halted until negotiations with Germany could be completed. Whether Sweden would make use of her own argument immediately was not known. Government officials and the press were silent on that question.

Germany, importing some 70 per cent of her ore requirements from Sweden, was said to have received a Swedish promise to maintain ore exportation when war started. Informal sources believed Sweden based the U-boats shared attention with what many believed to be a naval battle off the Norwegian coast yesterday. The supposed battle started early in the morning when a pillar of flame was seen far out at sea.

Heavy cannonading began early in the day, and Norwegians reported it was so violent at times that windows on the island of Sotra, off Bergen, trembled and cracked. The fading and revival of the noise led to the conclusion a wide area was included in the action. The cannonading stopped at nightfall.

(The British Admiralty said last night it had received no report of a naval engagement off the Norwegian coast, "as would have been the case had one taken place.")

Russia and the mystery about her aims played the key role in the third week of war. Soviet troops moved into Poland, which smashed under pressure from both sides. Week's highlights are spotted, above, on map of Europe.

### First Aid Training Course Is Planned In Lennoxville

I.O.D.E. Chapter Takes Steps to Establish Course with Assistance of St. John Ambulance Association—War Work Fund to Be Raised by Monthly Contributions—Appeal for Clothing Received from Labrador Coast.

Probability that a first aid course will be inaugurated in Lennoxville shortly, sponsored by the Maple Cope Chapter, I.O.D.E., with the assistance of the St. John Ambulance Association, Sherbrooke, was seen today following a meeting of the chapter in the Town Hall yesterday, when the matter was discussed and Mrs. E. E. Boothroyd named to contact the Ambulance Association.

Three new members, Mrs. A. W. Preston, Mrs. J. E. Jamieson and Miss M. O. Boulter enrolled during the meeting, which was presided over by the regent, Mrs. M. G. Stewart. Twenty-five members were present and business dealt chiefly with war work.

Letters were read by the secretary from the national president and the provincial secretary with regard to the war work to be undertaken by the chapter, Miss Barbara Fletcher was appointed convener of the fund for war work, which is to be raised by regular monthly contributions which the members have been asked to promise. Those members who cannot attend the meetings and bring their contributions will be canvassed monthly by the Girl Guides, it was announced.

Emergency service cards were distributed to the members, who were asked to fill them out and return them as soon as possible. Miss Cora Davis will have charge of this emergency service.

It was announced that blankets and new children's clothing recently appealed for by the group to be sent to England for assistance to evacuated children will shortly be packed in bags and sent overseas, and those who intend to make contributions were asked to send their offerings to Mrs. A. V. Richardson or Mrs. Janet Reed, committee in charge.

### DEATH CLAIMS COWANSVILLE DISTRICT MAN

Howard D. Robinson Dies Suddenly at Age of 35—Funeral Services to Be Held at Dunham Tomorrow.

Cowansville, Sept. 26.—Funeral services will be held tomorrow for Howard D. Robinson, 35, well known throughout the surrounding district, who died suddenly yesterday at his residence near this community. Although Mr. Robinson had been in poor health for some time, his death was not expected and came as a shock to relatives and friends.

Born in Cowansville, Mr. Robinson was the son of the late Herman Robinson and his wife, Mrs. Martha Robinson, who now resides in Bedford. Surviving, in addition to his mother, are his widow, formerly Mabel Daudelin, of Farnham Centre; a daughter, Nellie, and a son, Walter, at home, and five brothers, Eldon, of Cowansville, Raymond, of Dixville, Herbert, of St. Alban's, Vt., and Robert and Russell, of Bedford. Prayers will be held at the residence tomorrow at two p.m., followed by services at All Saints' Church, Dunham, the Rev. Canon H. H. Coffin officiating.

### CITY BRIEFLETS

Choice quality meats at Portland Store, Tel. 304.

The Commencement Exercises of the Sherbrooke High School will be held in the school auditorium on Wednesday, Sept. 27th at 8.15 p.m. Parents and friends of the school are cordially invited to attend.

Chicken-pie supper and entertainment, Sand Hill, Oct. 4. Ad. 40c-25c.

Ladies' Aid Cafeteria Supper, St. Andrew's Church Hall, Thurs., Sept. 28th, 5:30 to 8 p.m.

**DENTAL NOTICE**  
Dr. F. H. Bradley's office will be closed Wednesday, Thursday and Friday of this week, during period of Dental Fall Clinic in Montreal.

**ELKS' PARTY SUNDAY NIGHT**  
The White House Pavilion will be the scene of a gala event Sunday night, October 1, when the local B.P.O.E. Lodge will hold a barbecue supper and entertainment. Rollie Badger's band will provide the music and a pleasant evening is assured. All Elks and their friends are invited to the party, which will begin at seven p.m. Admission is but fifty cents.

served informally by the hostesses, Mrs. Ralph H. Fletcher, Mrs. John Nichol and Mrs. Janet Reed.

### Y.P.U. NAMES LEADERS

Miss Rita Spry was named president of the Young People's Union of the Lennoxville United Church at their meeting last evening in Douglas Hall, when Rev. F. R. Matthews, pastor of the church, took the chair for the election, which was by nomination and ballot instead of by the presentation of a proposed slate of officers drawn up by a committee, as in former years. Miss Spry is the first woman to head the Union for several years. She succeeds Guy Littlejohn, who now holds the office of convener of Christian Missions.

Other elections resulted as follows: Roy Langley, secretary; Ashley Hunting, treasurer; Miss Emma Ross, convener of Christian Fellowship; Harry Teal, convener of citizenship; Miss Roberta Bown, literary convener; Miss Isabel Ross, social convener; Miss Gwendolyn George, pianist; with Mrs. F. R. Matthews, assistant pianist; and Hubert McGee, press reporter. Guy Littlejohn extended his thanks to Rev. F. R. Matthews for his loyal and unflinching support of the Union. During the worship service which opened the meeting, the call to worship was given by the retiring president, who also led in prayer. The members joined in singing several hymns.

**General Notes**  
Mrs. H. D. Taylor and her young daughter, Florence, of Winnipeg, Man., were guests of Mrs. P. Pergau and Miss Ming Pergau at their residence, Church street over the week-end.

Among those from Myrtle Rebeke Lodge No. 25 who journeyed to Coaticook last evening to attend the banquet and district meeting of lodges in District No. 6 were Mrs. W. J. Lane, Mrs. Gladys Dawson, Mrs. Beatrice Everett, Mrs. Andrew Merrill, Mrs. B. A. Crosby, Mrs. Leslie McLeod, Mrs. J. E. Bellam, Mrs. M. H. Pegz, Miss Ruby Pegz, Mrs. Frank Spry, Mrs. Howard Nutbrown, Mrs. Maude Mills, Mrs. William Stanford, Mrs. Alfred Ferguson, and Messrs. Charles Crawford and Frank Spry. Mrs. L. B. Pierce, of the Rebeke lodge at Beebe, now a resident of Lennoxville, also attended.

### Man Arraigned On Attempted Murder Count At Sweetsburg

Sweetsburg, Que., Sept. 26.—Samuel A. Browner, 60, of no address, was arraigned yesterday before Judge J. H. Lemay on a charge of attempted murder arising from the shooting Saturday night of Aldea Gazaille, 34, of Granby. Police said Gazaille was shot on his farm by a beggar after he had refused the man board and lodging for the night. The man fired three shots, one striking the farmer in the cheek, and then fled. Gazaille was taken to hospital at St. Hyacinthe. Browner will appear for preliminary hearing next week.

### Named New Superintendent Of Gas And Electric Department

Gaston Masse, for the past six years superintendent of municipal transmission lines and electrical equipment, was last night named acting superintendent of the City Gas and Electric Department to occupy the post left vacant by the death of J. R. McGregor. Announcement of Mr. Masse's appointment was made this morning by Ald. A. C. Ross, chairman of the department, who also made public the nomination of Wilfrid Noel as assistant superintendent, John Galvin as plants superintendent, and Ronaldo DeBois as meter foreman. Gaston Masse is a comparatively young man and his appointment to the responsible position as head of Sherbrooke's most important public utilities is a tribute to his work while in the employ of the city. All of the other appointees are veteran employees of the municipality. A record of twenty-two years' service with the Gas and Electric Department stands behind Wilfrid Noel, the new assistant superintendent. Mr. Noel started as a meter reader and has occupied various positions in the department, being superintendent of the municipal plants at the time of Mr. McGregor's death. John Galvin, who assumes Mr. Noel's position as plants superintendent, was the right-hand man of the late Mr. McGregor for many years during which he was foreman of the Meter Department. Ronaldo DeBois, the new meter foreman, has several years' experience in the Electric Department.

### Council To Discuss Elimination Of Two Local Fire Stations

A measure to centralize and modernize Sherbrooke's fire protection system by doing away with the fire stations on London and Belvidere streets will be advanced at the next meeting of the City Council, it was reported today in municipal circles. The question of revising the present set-up in the police and Fire Department has been considered by the Council and by the Sherbrooke Chamber of Commerce for some time and was one of the first problems to which Police Director Arthur Maranda turned his attention after his nomination. If today's report is well-founded and it has been made public by some of the Aldermen themselves—horse-drawn equipment still in use in some of the local stations will be dispensed with and only the engines will be called out to fires in the future. Station No. 2, on London street, and No. 5, opposite the Sacred Heart Hospice, will be the most effected by the proposed measure and it is expected these two buildings will be used as wood distribution centres. At present all the stations in the city except that next to the Lansdowne Market serve as municipal woodyards.

Director Maranda himself has expressed the opinion that the distribution of wood to the city's needy should be differentiated from the ordinary functions of the police and firemen. The need for bettering the present system was also stressed last spring by a special committee of the Chamber of Commerce that made a survey of the needs of the Police Department.

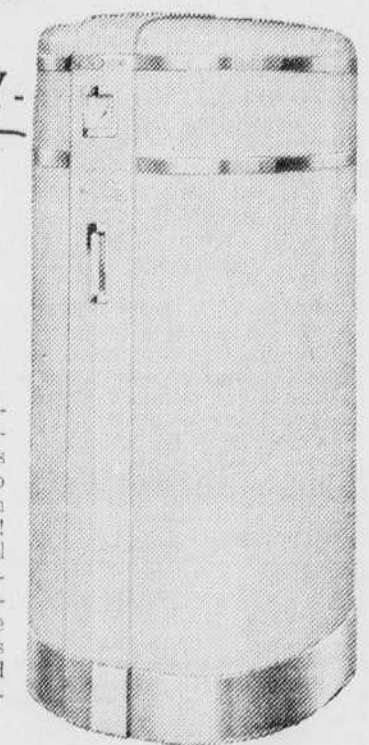

This morning Inspector Maranda could not be reached for a statement on the proposed changes.

### WAR—25 YEARS AGO TODAY (By The Canadian Press)

Sept. 26, 1914.—German Zeppelins dropped bombs on Warsaw, Polish capital, Ghent and other Belgian towns. Germans captured Fort des Romaines at St. Mihiel, south of Verdun. BEEBE

**TRADE BODY EXECUTIVE MEETING**  
A regular meeting of the executive of the Chamber of Commerce will be held in City Hall this afternoon. President W. L. Reford Stewart stated this morning that routine matters will be discussed.

### NONE HURT AS PILOTLESS CAR STRIKES HOUSE

Automobile Slips Brakes and Rolls Down Marquette Street Hill, Bringing Up with Crash on Front Porch of Residence.

One car was badly damaged, one front porch knocked askew and several persons frightened bug-eyed this morning when an automobile slipped its brakes, rolled down a hill, leaped the curb and crashed into a residence.

Owned by Charles E. Belanger, 52 Wellington street north, an instructor in St. Charles Seminary, the car, a sedan, was parked in front of the Seminary on Marquette street when the brakes released. Gathering momentum rapidly as it rolled down the steep hill towards the Wellington street intersection, the automobile bounded over the curb nearly a hundred yards from where it began its journey, ploughed through an iron railing and pitched down an embankment, bringing up with a crash against a house owned by Rev. Alfred Paron and occupied by tenants.

The front of the car was badly damaged in the smash, while the support on the front porch of the house were knocked almost completely off their moorings. No one was injured, although if the driverless vehicle had continued down the hill to the stop light at Wellington street the results might have been disastrous.

A large number, attracted by the noise of the car charging into the house, gathered at the scene. Police were also called and the car was left with its nose on the porch pending arrival of the owner.

### CANADA YEAR BOOK FOR 1939 RELEASED

Publication of the 1939 edition of the Canada Year Book, published by authorization of the Hon. W. D. C. Euler, Minister of Trade and Commerce, is announced by the Dominion Bureau of Statistics. A comprehensive study in a single volume of the social and economic condition of the Dominion, the book is the official statistical annual of the country. Thoroughly revised throughout and containing the latest information possible, the 1939 edition of the Canada Year Book extends to over 1,200 pages. A statistical summary of the progress of Canada is included in the introductory matter, giving a picture in figures of the remarkable progress the country has made since the first census of the Dominion was taken in 1871, sixty-eight years ago.

In commemoration of the Royal Visit to Canada, color plates of Their Majesties King George and Queen Elizabeth, together with official pictures of incidents connected with the unveiling of the National Memorial and of the Royal assent to legislation of the 1939 Parliament, appear as frontispiece. A short account of the Royal tour across Canada, together with a condensed itinerary, is also given.

As long as the supply lasts, copies of the Year Book may be obtained from the King's Printer, Ottawa, at the price of \$1.50, which covers merely the cost of paper, printing and binding. By a special concession, a limited number of paper-bound copies have been set aside for ministers of religion, bona fide students and school teachers, who may obtain copies at the nominal price of fifty cents each.

### Records Fall As First Snow Of Season Covers Townships

Rain Turns into Snow to Establish New Mark for Early Snow in District—Temperature Drop of 36 Degrees Accompanied Storm—September Snow Unprecedented in Memories of Oldest Residents.

If this morning can be taken as an indication of what is to come, Sherbrooke and the Eastern Townships are in for a long, hard winter. For the first time in the history of the Dominion Experimental Farm at Lennoxville, established in April, 1914, twenty-five years ago, snow has been recorded in the district in September, as rain which began during the night turned into snowflakes early this morning, covering the hills with a white blanket and making highways treacherous. Nearly two inches of moisture were recorded during the combined snow and rainstorm. The flakes melted quickly, however, and by noon no trace of the premature fall was left.

A drop of 36 degrees in temperature accompanied the snowstorm, the mercury in the Farm thermometer plunging from a maximum of 69 yesterday to a minimum of 33 during the night. At seven o'clock this morning the glass showed a reading of 34 degrees. According to the Experimental Farm records, snow has never been seen in the district before October in previous years. In the memories of the oldest residents, too, snow in September is unprecedented.

No accidents were reported as a result of the snow, although early today highways were dangerously slippery and windshield wipers worked overtime keeping the clinging snow from the glass. Other sections of Eastern Canada and Vermont also recorded light snow falls. Trees and automobiles were coated in Montreal, while snow fell in Brockville, Ont., after a drop of over 35 degrees in temperature. Heavy rain gave way to snow in Northern Vermont and hills were covered with the white mantle.

### PLEADS GUILTY TO DANVILLE ROBBERY

Adrien Houde, alias Houle, alias Talbot, who was arrested last week by Provincial Police in conjunction with a robbery at the Danville railway station, pleaded guilty to a charge of breakage and theft when arraigned before Judge J. S. Couture today. Houde, a Quebec man, was arrested in the Ancient Capital after Inspector Donat Mayer had conducted an investigation into the Danville robbery, during which a safe containing forty dollars was stolen and broken into. Houde will be sentenced Friday in Magistrate's Court.

Sherbrooke Daily Record

Established Ninth Day of February, 1897, with which is incorporated the Sherbrooke Gazette, established 1837, and Sherbrooke Examiner, established 1878.

— Eastern Townships' Only English Daily —

The Record is printed and published every week day by the Sherbrooke Record Company, Limited, of which Edna A. Beerworth is Secretary-Treasurer, at the office, 69 Wellington Street North, in the City of Sherbrooke, incorporating the news services of The Canadian Press, The Associated Press, Reuters and Havas.

The Record is a member of the Audit Bureau of Circulations, its circulation being regularly audited and guaranteed.

Subscription rates: 75c a month, delivered at any home in the city and suburbs. Post Office delivery to any place in Canada, Great Britain or the United States, \$4 per year, six months, \$2; three months, \$1; one month, 50c. Single copies, 3c.

SHERBROOKE, TUESDAY, SEPTEMBER 26, 1939.

They that know God will be humble; they that know themselves cannot be proud.—Flavel.

CANADIAN-AMERICAN FRIENDSHIP FURTHER STRENGTHENED

The bonds of friendship and understanding which for so many years have characterized the kindly relations existing between Canada and its southern neighbor, the United States, were further strengthened when a gathering of some ten thousand persons, representatives of both American nations, whose boundaries are divided by three thousand miles of unprotected and unfortified territory, witnessed the formal dedication of the new highway linking the State of New Hampshire with Quebec Province.

The dedication of this new highway afforded an opportunity for warm speeches on the part of representatives of both nations. But these were not empty words spoken just because the opportunity afforded. Rather were they sincere and meaningful words bespeaking to less fortunate nations the spirit of co-operation which exists between the two nations, where people have learned to live under two distinct flags, yet each appreciating the qualities of the other and both eager to work together in closer harmony and to live together under ideal circumstances.

Already the people of the Eastern Townships and their Vermont neighbors have frequently exchanged good-will visits. Freely have the people of Vermont come within our borders to be heartily greeted. And with equal enthusiasm and sincerity have we from these Eastern Townships journeyed across the border to enjoy that splendid Vermont hospitality which once tasted is never forgotten.

And now it is the State of New Hampshire and Quebec which stands side by side to proclaim their friendly feelings towards each other.

Meetings of this nature cannot but have far-reaching effects. In this troubled world and day it is encouraging to witness gatherings such as this. It is good for both Canada and the United States to become better acquainted, for better understanding will result in better and closer relations between the two. Canada and the United States have learned that nations can benefit more by inter-change of ideas and thoughts than they can by setting up barriers. That is why the peoples of both nations enjoy getting together. That is why good-will visits will continue in the future as they have in the past. That is why today the people of Canada and the United States are able to blend their voices in a common hymn:

Two empires by the sea, Two peoples strong and free, One anthem raise, One race, one faith we claim, One God, Whose glorious name We all love and praise Forever more."

PREMIER DUPLESSIS SPRINGS A SURPRISE

Although it had been generally expected that a provincial election would be held sometime within the near future, the sudden decision of Premier Maurice Duplessis to dissolve the Legislature and announce October 23rd as election date came as a distinct surprise.

Measures embodied in the War Measures Act have brought forth sharp and emphatic criticism from Quebec's Premier, who feels that the Federal Government is encroaching on provincial rights. It is, therefore, with the intention of securing a voice of opinion from the Quebec electorate that the Premier has decided to hold an election.

There are some who, no doubt, will say that Premier Duplessis should not resort to an election at such a time as this when the war and war activities should be uppermost in the minds of all.

In his decision to hold an election the Quebec Premier has made it clear that he wants to get things over with as soon as possible. The campaign will be a short one. There is no reason to believe that the province's efforts on behalf of the Allied cause will suffer. Nor is there any cause to infer that anything will be said or done during that campaign to put the province in an unfavorable light so far as the prosecution of the war is concerned.

The issues at stake in this campaign will not center on England, or England's participation in the war. Conscripted will not be an issue. Race or creed will not enter into the question in the slightest degree.

The whole issue will center upon provincial rights. If Premier Duplessis feels that Quebec is suffering at the hands of Ottawa, he has a right to take action. By taking action it is quite evident that

he does feel enactments by Ottawa have been unjust and unfavorable to Quebec. He has made his position clear and now he is simply asking for an expression of opinion from the people who have elected him and his government to represent and to defend their interests.

LEVEL CROSSING ACCIDENT CLAIMS THREE MORE LIVES

The bodies of a mother, her son and daughter lie in the morgue of an undertaking establishment at Shefford awaiting a coroner's inquest into the fatality which claimed their lives when the automobile in which they were riding was struck by a train at a level crossing near Shefford.

This is the same old story told over and over again throughout the Eastern Townships as elsewhere throughout the Province. The Province of Quebec certainly is not lacking in level crossings, some of the most dangerous of which are located within the Eastern Townships.

Each year a number of lives are thus claimed, yet the authorities do little or nothing to eliminate this menace. What better way can public money be spent than in the protection of human lives? What greater menace is there than level crossings. The fault often lies with the motorist, but this is no excuse. Until every level crossing is eliminated there will be a loss of life or maimed bodies left as outward evidence of a Province's backwardness.

Each year hundreds of thousands of dollars are spent on road construction and on other means of beautifying the Province. This is all well and good, but before we can justly say that we are progressing we must be able to say that we have eliminated all level crossings.

What happened in Shefford yesterday will continue to happen wherever level crossings are tolerated. The responsibility rests with the Government and with the municipalities where such crossings exist. The remedy must come from this same source.

EDITOR'S NOTE-BOOK

Another level crossing accident claims the lives of three Eastern Townships residents. How much longer will this situation be tolerated?

It's beginning to look as if one Adolf Hitler from far-away Germany was working up another speech. He must make himself heard.

Things are getting to a pretty serious state of affairs in Germany when generals are being shot.

It would seem as though Premier Duplessis sort of caught his opponents unawares. They're going to have to work pretty fast to get things in shape for October 23th.

War news and political war news will be the order of the day in Quebec for the next few weeks.

Robert Montgomery rode across from England in a ship's swimming pool because of crowded conditions aboard ship. He doesn't need a publicity man.

THIRTY YEARS AGO TODAY

From the Files of the Sherbrooke Record. September 26th, 1909.

With the number of entries in all departments considerably greater than in past years and with a noticeable increase in attendance, the annual Marbleton Fair scored an outstanding success this year. An exhibitor whose entries drew much comment was Mrs. William Hooker, 82, of Bishop's Crossing, whose entrants in the fancy work department were awarded a total of nine prizes, including four firsts. The livestock entered at the exhibition was considered of a particularly high standard.

Meeting in Quebec City, the Protestant Committee of the Council of Public Instruction decided on a fixed grant of \$200 annually to academies and \$75 to model schools. The grants are supplemented by a bonus based on the general percentage of the school and by an equipment grant based on the school's equipment.

A fine address dealing with women's work was given by Mrs. S. A. G. Morgan at a meeting of the Missisquoi County Historical Society. Mrs. Morgan is retiring president of the women's committee of the organization.

The tax rate for the Eastman Roman Catholic School has been left the same for the ensuing year, six mills, with a tuition for each pupil of twenty-five cents a month.

Believed to be a record in the Eastern Townships, Almond Stanhope and his son, Curtis, of Sutton, realized \$8 and a half bushels of potatoes from four and a half bushels of seed.

Approximately 150 relatives and friends of Mr. and Mrs. A. Gilbert Peel, Fordyce Corner, gathered at their home to honor them on the occasion of their fiftieth wedding anniversary.

FALLING APPLES

There is no sound like that of apples falling Down through the frost of an autumnal night.

When all the birds have flown and ceased their calling Through summer meadows then, when the waning light

Of afternoon suns down to muted amber And in the penciled dusk, silence is deep, Through the 'cool, red enchantment of September,

The sound of apples wakens us from sleep. This sound of falling apples after reaping Across the night is like no other sound, Between the dusk and dawnrise they lie heaping

A crimson beauty on the waiting ground, Flinging a fragrant attar on a dusk Half amber, half the burning scent of musk. —Harold Vinal.

SO THEY SAY

Those who are guilty of starting a war between human beings are traitors to all men.—Dr. Walter B. Cannon, Harvard professor.

This is not the first time that we have faced invasion of our country from east and west at the same time.—President Moscicki of Poland.

If we are going to allow every one to eventually become parents, we either will have to subsidize entirely those parental failures or see they get the opportunity to earn enough money to raise children.—T. Merrell Shipperd, secretary, Syracuse Children's Bureau.

There is something phony about this war.—Senator William E. Borah (Rep., Idaho).

I am thinking of poor Paderewski, old and sick. All the work of his life is toppling down around him now.—Fritz Kreisler, violin virtuoso.

TIMELY COMMENTS

There has been an official announcement to the effect that Britain will never resort to the use of force against other civilians for purposes of mere terrorism." It was superfluous.—Toronto Globe and Mail.

In Germany it is forbidden on pain of death or imprisonment to listen to foreign radio stations. A nation so fearful of news from the other side reaching it in the justice of its own cause.—Midland Free Press.

Last week the New York stores reported selling out all their maps of Poland. A few weeks hence, if all goes well, people will be rushing for maps of Germany to stick their pins or little flags in them.—Moncton Transcript.

The Duke of Kent is to take up a war appointment. It would have required the highest of British ingenuity to keep him out of it.—St. Catharines Standard.

Is it possible that Hitler went to the front thinking that he would be safer in the company of his generals than by remaining at home and facing his people?—Canham News.

The humiliating part of the present war for the Americans will be if the Allies win it without the aid of the United States.—St. Thomas Times-Journal.

Do we have to go ahead now with that Canadian National Railways terminal in Montreal?—Woodstock Sentinel-Review.

Some hysterical people seem to think a horse surrounded by sandbags isn't as well fortified as a home packed with bags of sugar.—Toronto Telegram.

Apparently the Nazis want the cream of Europe, with other countries expected to be content with what the farmers feed to the pigs.—Detroit Free Press.

What Canada needs at this hour is a big bonfire of the patronage lists at Ottawa.—St. Catharines Standard.

Two reasons for dieting—to cut down expenses and to rescue expensives.—Owen Sound Daily Sun-Times.

Never again can there be lasting peace in the world until this whole horrible, fantastic nightmare of Hitlerism has been exercised, no more to trouble the repose of civilized nations.—New York Sun.

Just as soon as we analyze the European situation, a new situation has arisen.—Quebec Chronicle-Telegraph.

Most persons who are said to be acting the fool aren't acting.—St. Louis Star-Times.

HAVE A SMILE

Husband (to photographer): "You have not made my wife look very attractive."

Photographer: "Sir, I am a photographer, not a plastic surgeon."

"Why do you refuse to let me marry your daughter?"

"Because you have no money."

"But I have intelligence."

"doubt it."

"Because you want to marry my daughter."

A senior boy walked into the new Head's room without knocking. The Head thought he would teach him a lesson in politeness.

"Jones," he said tactfully, "do you think I would walk into your father's house without knocking?"

"Yes, sir."

"Oh, indeed; how is that?"

"He owns the 'Rose and Crown,' sir."

CRANIUM CRACKERS

WORD BUILDING

By adding letters to words, or taking some away, you can create other words of entirely different meanings. Try these.

1. Begin with a woman, take one letter away to form a barrier, add sensility to form detriment.

2. Begin with a clergyman, subtract a woman's name to form a vehicle, add a composer's name to get a ship.

3. Start with a famous city, subtract three letters to form a boy's name, add an old French coin to get an Anglo-Egyptian protectorate.

4. Take a cattle house, subtract one letter to get a form of soap; add a bird to form a tool.

Answers on page 5.

PRESS COMMENTS

WE FIGHT PLAIN BARBARISM

(The Ottawa Journal) The spirit which murdered Edith Cavell, which sent a thousand souls to death with the Lusitania, has torpedoed without warning an unarmed passenger ship on the high seas, destroyed innocent human lives.

Shocked as must be the conscience of mankind, this is the tale that must come from Hitlerism: the tale to be expected from a creed which through its story has had upon it the brand of Cain, which has been marked by a tribal barbarism, by injustice, malice, cruelty, by a pillage of civilized ideas.

"We fight," said Mr. Chamberlain on Sunday—"we fight against brute force, bad faith, oppression and persecution." We fight against more than that. We fight against a blood-stained system which knows no law of honor, which strives with all its might to degrade humanity, which corrupts character, which releases every impulse, which abides through terrorism.

The war on religion in Germany, the persecution of Jews and Christians, the bestiality of concentration camps, are of the essence of Nazism. Every kind of dishonor, disgrace, the destruction of mind and soul through bodily torture, the corruption of justice through force until men, overcome by extreme horror, despair of justice and abuse it for the worship of force—these are the things in the lust for human degradation which, satanic or diseased, or both, have marked the Hitler regime.

Lies, the annihilation of truth the exaltation of an inhuman social order through fanaticism in carnage, these coupled with murder, tyranny and blackmail, have stupefied and dragooned a whole people to keep a dictatorial, gangster system in power. Not in centuries has the civilized world been threatened by a more desperate or hellish philosophy, or by a more evil or mad leader of a race.

Not Britain nor the British breed will kneel before the creed. More than a century ago they faced a peril as great—though not as evil—in Napoleon Bonaparte. Long, weary, terrifying years were with them then, but an unbroken British heart refused to fail. No need now to go back to the data of history; enough to recall the picture through the clear, steady eyes of Woodsworth, who "did not shrink from hope in the worst moment of those evil days." He told his countrymen—and tells them now—not to succumb to threats or fear. "It is an accused thing to gaze on prosperous tyrants with a dazzled eye," for the reason that it is only on common men's fear and seditious fear that tyrannies can be temporarily built.

HAPPENINGS IN SEPTEMBER

(Buffalo Courier-Express) September is the ninth month of the modern year, but the seventh of the old Roman year which began in March. September has given its name to the month which marks the end of summer and the beginning of the long sleep of nature. Oliver Wendell Holmes complained: "I have seen many a chill September."

September in the year 1939 is a sad month, the month which will go down in history as the month of the mankinding at its worst, mankind in its moments of stupidity.

September for some folks means canning time, the time for stocking the granary, for laying away in the cellar sufficient stores of food against the rigors of winter.

September, for millions of others this year, means the beginning of one of the most horrible tragedies in all the history of the world.

September in these parts is the month which brings back the oyster, the succulent bivalve out of the sea which bears on its shell the letter R, a passport denied during May, June, July and August. A squeeze of lemon and a dash of fresh-ground pepper turns the lowly oyster into the gourmet's delight.

September hath 30 days, say the calendar and the poets. But that cannot be all that September has to offer to the world. Let us hope that September may yet redeem herself, that this month of the year, so tragic in the past and in the year of 1939, will give us some day a proof of its right to take its place among the good months of the year.

THE WORLD'S ONE CHANCE

(Winnipeg Free Press) The one chance of escape is that the nations in combination adhere without flinching to the League principles to which from necessity, or peradventure from a belated recognition of their worth they have in fact subscribed; No yielding to force; no concession to aggression; no private deals; no acceptance of plausible argument in support of alleged right but an insistence upon submission to a real international conference in which all interests will be represented. In the alternative war in defence of principles which derive their validity from a League which still, after all the betrayals, supplies the foundation for modern conceptions of right and wrong in the relations between nations. Such an attitude, if the dictators could be convinced of its sincerity, might save the peace, though it must be recognized that there is perhaps a fifty-fifty chance that they will decide that for them it is Now or Never.

BRITISH ORDERS FOR CANADA

(Montreal Star) A special British mission, composed of Admiral Sir Percy Addison, representing the Admiralty; Major-General R. F. Lock, J. Crone and J. B. Gordon, of the Ministry of Sup-

THE LEAVES ARE BEGINNING TO FALL

ply, and A. C. Boddis, contract officer, is now in Canada consulting with the delegation organized by the Canadian Manufacturers' Association, which recently paid a visit to Great Britain to study all forms of armament and munition production, with a view to the expeditious adaptation of Canadian industry to the forms of production. This delegation made a report to the Federal Government here as to their inquiries and conclusions, and the Premier stated on Friday last that the inquiry had been carried out in the most thorough-going way and would prove of decided help to the Government both in Canada and the United Kingdom, and that it is a fine example of the capacity and readiness to co-operate of leaders in Canadian business.

The British Mission has been authorized by the British Government to place certain orders in Canada on the lines explored by the Canadian Mission. As soon as consultations between the two bodies have been completed, Canadian manufacturers from all parts of the Dominion will be invited to go to Ottawa and make contracts for the supply of all sorts of munitions and other war requirements for the British Government, particularly certain materials which Great Britain is not in a position at present to make in large quantities herself. In order to manufacture some of these necessities, it will be necessary for Canadian producers to invest many thousands of dollars in special machinery and equipment, and it is expected this will occupy a period of not less than six months. The cost, however, will naturally have to be taken into account as overhead.

There is every reason to believe that Canadian manufacturers will be eager and swift to respond to the invitation. Past experience has indicated that manufacturers here are just as patriotic as any other section of the community and can be relied upon to appreciate the gravity of the situation and do their full share in helping in every possible direction. They will, however, have to face a period of considerable financial outlay, and it is therefore desirable that they should receive all possible encouragement from the Canadian Government. This, we feel sure, will be forthcoming, in view of the statement made by the Premier to the House of Commons on Friday last.

The privilege is Canada's of playing a very important part in the struggle now going on to decide whether the forces of right or might shall prevail upon earth; and it is equally probable that any body of men in this Dominion would fail in doing all within their power to ensure that this Dominion shall play that part ably,—and successfully.

CANADA HAS BEEN HONEST WITH U.S.; WILL U.S. BE HONEST WITH CANADA?

(New York Post) Canada, as a belligerent, is no longer permitted to buy "arms, ammunitions and implements of war" from the United States. The question of revising the neutrality act, on which this embargo rests, is now brought very close to home.

What are we to do? Canada has chosen the frank and honest course. It could have refrained from declaring war (it does not plan to send expeditionary forces abroad for some time) and then hypocritically, as a "neutral" it could have bought arms in this country. These arms could have been shipped to Britain, practice hard to check, or they could have been used as replacements while the entire existing Canadian arsenal stocks were sent abroad.

By choosing to follow no such devious course, Canada has put the problem on our table in a manner which compels us to be equally honest.

The injustices of the existing neutrality law are now dramatized and are rendered plain for all to see. In the guise of "equal treatment" for all belligerents, it creates inequalities. By embargoing Britain it gives Germany the equi-

valent of an Atlantic fleet and a blockade. By embargoing Canada it gives Germany the equivalent of a second blockade. Germany possesses neither of these advantages; our law gives them to her. They are equal to the most powerful military and naval support.

In other words, our law is an actual factor in the war, weighing heavily to the advantage of one side.

That the side to the disadvantage of which the law now operates includes Canada poses the problem in a most serious form. For if anything is likely to drag us into the war, it would be an Allied defeat involving the fortunes of Canada. We are pledged to defend Canada; we must in the national interest, see that the integrity of Canada is maintained. Under no circumstances could we tolerate a subjugated or even an enfeebled Canada; that is a first axiom of our own defense.

Soon or late, and better soon, we will have a repeal of the arms embargo. If the Germans are unable to buy here because of a blockade, that is one of the conditions of the war, not of our making. Our statute will then provide legal and technical equality for all, and will let the war make its own inequalities.

FLOUNDERING JAPAN

(Sydney Herald) Japan has apparently realized that her plan could hope to succeed only if she obtained complete control of China's trade with other countries, and could bring the foreign exchange supplies so captured to the support of the yen. Tientsin appears to be a tentative step in that direction. If Japan, in violation of treaties to which she is a party, persists in this direct challenge to the rights of other nations in China, it would be appropriate for them to retaliate with economic measures. After two years of floundering in the Chinese mire, Japan's position is particularly vulnerable to such measures, the more so as it is her external economic situation, rather than domestic conditions, which gives her grounds for acute anxiety. Tremendous demands upon the country for army supplies, for development in Manchoukuo, and for attempts at industrial reconstruction in China have been met, but not without cost.

Four more times during the present century will there be dates with all odd, unduplicated figures; 1953, 1967, 1973 and 1975. Then there will be a period of 1,182 years before it again occurs.

Asia, with its 16,700,000 square miles, is the most populated continent. It has more than 954,000,000 inhabitants or more than half the population of the world.

BRIDE-ELECT AT FOSTER IS GIVEN SHOWER

Thirty Friends and Relatives Gather at Home of Mrs. Walter Inglis for Pleasant Social Event.

Foster, Sept. 26.—A very popular young lady of this place was feted at a miscellaneous shower at the home of Mrs. Walter Inglis...

Mrs. Lawrence Draper, of Knowlton, arrived early to spend an afternoon at the home of Miss Benoit...

Tested Recipes

When you are asked to do your culinary bit for one of the charity bazaars or a church supper, a candy recipe that guarantees eye appeal as well as taste appeal is sure to be appreciated.

Magic Roly Poly
1/2 cup cocoa
1 1/2 cups confectioners' (4x) sugar
1/2 cup sweetened condensed milk

Fondant Bon Bons
1/2 cup sweetened condensed milk
1 teaspoon vanilla
3 cups sifted confectioners' (4x) sugar

Whiter Pillows
Inexpensive white cotton covers will keep pillow tickings clean besides making the pillows appear whiter on the bed.

ANSWER TO CRANIUM CRACKER
1. Dame, dam, damage.
2. Vicar, car, carnival.
3. Danzig, Dan, Soudan.
4. Barn, bar, crowbar.

McKENNEY ON BRIDGE
BY WM. E. MCKENNEY
Secretary, American Contract Bridge League

WHEN TWO CARDS BALK CONTRACT PLAY ONE TO AVOID LOSING OTHER

Looking at today's hand, it seems that declarer must lose a diamond and a club. After his defeat, he will probably say, "If I had made the club finesse, or had a break in diamonds, I would have been all right."

The opening spade lead is won with the ace and the ace of diamonds cashed. When he sees that he must lose a diamond trick, the wise declarer will not depend upon the club finesse.

West will be forced to return either a club or a spade. On the latter, declarer will discard the small club from dummy and trump in his own hand.

Social and Personal

Mr. and Mrs. C. H. Mann, of Marbleton, are spending a few days in Sherbrooke.

Mrs. Kathleen B. Richards announces the engagement of her only daughter, Cora Frances, to Mr. Stanley Austin, third son of Mr. and Mrs. John H. P. Emslie, of Beebe.

Mr. Charles Burley, who has been a guest for a few days of Mr. and Mrs. P. M. Robins, has returned to Montreal.

Mrs. H. S. Horsfall entertained at the tea hour Sunday afternoon for Mr. and Mrs. W. Horsfall, of Brighouse Yorkshire, England, who are house-guests of their son and daughter-in-law in Sherbrooke.

Miss Amy Wells and her brother, Mr. J. P. Wells, are returning today from Megantic, where they have been guests for a few days of Mr. and Mrs. G. M. Stearns, at Trout Lake.

News Of Women's Clubs

Members of the Union Sewing Circle with their customary diligence sewed on flannelette garments for children during last evening's largely attended meeting at the home of Mrs. B. Grime on the Beckett Road.

Mrs. J. H. Morgan presided and the devotional period which was conducted by Mrs. L. Hodge included the Scripture lesson with that most appropriate passage, "and Jesus took little children in His arms—and blessed them."

War work has begun in earnest for the I.O.D.E. in Sherbrooke, members of the Order attending a special meeting of the Municipal Chapter at the MacKinnon Memorial yesterday afternoon to make final arrangements for their tag day campaign on September 29 and 30.

Mrs. W. E. Loomis, regent, at whose request the meeting was conducted, occupied the chair and announced tag day headquarters for Friday and Saturday would be in the vacant store facing Surathona Square.

The I.O.D.E. are putting on this campaign to obtain funds with which to meet the war emergency appeals which are being made to the Order, and it is hoped that the public will lend its wholehearted support to this effort sponsored by the local I.O.D.E.

Mrs. A. W. Reid, municipal planner for war work, discussed plans for "carrying on," and it was decided to at once commence knitting socks for local troops now mobilizing.

Tentative plans were put under way to hold a mammoth I.O.D.E. bridge later in the autumn, to be sponsored by all chapters of the Order in Sherbrooke.

Further arrangements for the tag days on Friday and Saturday included the assignment of streets and zones to the members who will act as taggers.

The regents of the several Chapters who will act as conveners for the coming campaign include Mrs. W. E. Loomis, regent of the Municipal and King George Fifth Chapters; Mrs. G. S. Thomson, regent of the Duke of Wellington Chapter; Mrs. M. Loughheed, regent of the 53rd Chapter, and Mrs. W. E. Baker, regent of the Sir John Sherbrooke Chapter.

As heretofore stated I.O.D.E. tag day headquarters will be in the vacant store in the York block, Wellington street north.

The local Order is receiving blankets, children's new warm clothing and money, in answer to the appeal from the Motherland on behalf of evacuated children in England, and the I.O.D.E. expect to have this, their initial war work, completed by September 30.

Blankets and clothing are to be sent to the MacKinnon Memorial

club from dummy and trump in his own hand. Now, of course, there is no club trick to lose.

Miss May Mitchell is returning tonight after a short business trip to Montreal.

Friends of Mr. Herbert Gibson, of the New Sherbrooke, will regret to hear that he is a patient in the Sherbrooke Hospital.

Miss Nancy Nicol, after spending the holiday season at home with her parents, Mr. and Mrs. W. O. Nicol, is leaving on Thursday for Montreal to resume her studies at McGill University.

Mr. and Mrs. Walter B. Bailey returned yesterday to their home on Queen street, after an enjoyable ten days' holiday spent in Boston and at Dermis' Port, Cape Cod.

Mr. and Mrs. H. J. Laberee, of Sherbrooke, were the guests of honor at a delightful family gathering held on Sunday at the home of their niece, Mrs. E. Blanche Cook, in Brookbury, on the occasion of their golden wedding anniversary.

Among the many gifts and messages of congratulation received by bride and groom of fifty years was a very special greeting from their son and daughter-in-law, Mr. and Mrs. Harold Laberee, of Kenogami, who were prevented by illness from attending the happy family party given in honor of an anniversary seldom attained by married couples.

Mrs. Andrew Sangster's planter garden, and in this connection the season's activities with a party at the Y's Men's Camp at Little Lake Magog on Saturday afternoon. Eighteen children, all of whom have through the kindly interest and initiative of Mrs. Sangster, taken an active interest in gardening during the past summer, were again indebted to their gracious patroness on Saturday afternoon, when she entertained them so delightfully at a jolly picnic party.

Games were played in the afternoon, when Mr. George Rothney and Mr. Kenneth Willis rendered valuable assistance in supervising the various sports events.

Later when tempting refreshments, including hot dogs and ice cream, were served, the hostess was assisted in her hospitable duties by Mrs. Lawrence Pergau and Mrs. E. A. Lathrop. Prizes were awarded to the children in order of merit according to the amount of work each child had accomplished in his or her garden, and in this connection Mrs. Sangster wishes to extend thanks of Mrs. Albert Wiggert, Mr. J. R. Sangster and Mr. Roy Gillis, each of whom donated prizes. The Garden Club members who were awarded prizes follow: In the girls' class Annie Corcoran, Joy Woolerton, Rose Hatch, Dorothy Hatch, Margaret Osborne, Thelma Broadbelt, Amy Sjolander, Thelma Smith and Shirley Billings; in the boys' class those who received prizes are also named in order of merit: George Liddell, Raymond Billings, Winston Billings, Gordon Peabody, Kenneth Maines and Warren Spalding.

BOLTON PASS

Mr. and Mrs. Carl McClay and daughters, Muriel and Lorna, visited in Sherbrooke.

Mrs. Reginald Pibus and baby, Winnifred, were the guests of Mrs. Pibus' parents, Mr. and Mrs. A. Bryant, East Bolton, for a few days.

Mrs. Carl McClay attended a district meeting of the Rebekahs at Beebe.

Miss Fraser, of Port Daniel, Que., is teaching the rural school here.

Mr. Frank Bailey is installing a new milking machine.

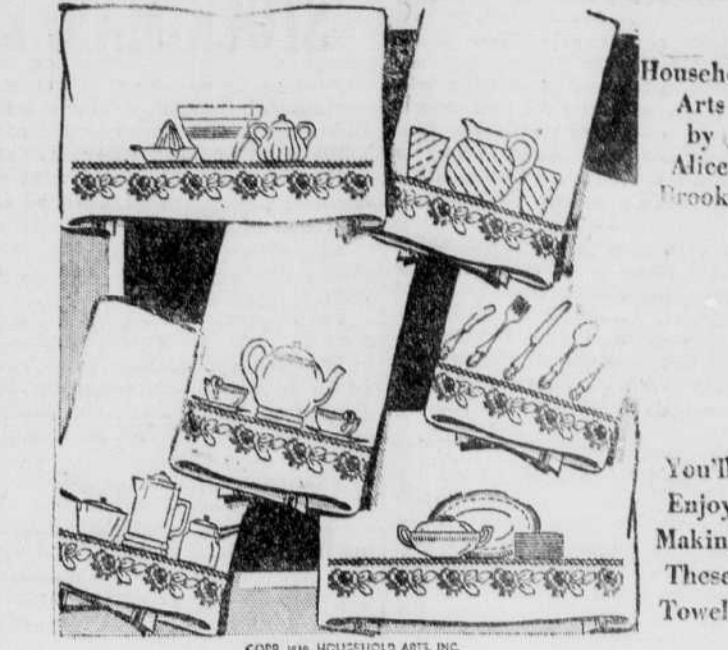

The first fall meeting of the Ladies' Guild of St. Andrew's Church was held at the home of the president, Mrs. John Pibus. Several ladies were present and considerable business was discussed including plans for a card party during October and a decision to send a box at Christmas to the Junior Red Cross. Tea was served by the hostess, Mrs. Fred Arthur kindly offered to entertain the ladies at their next meeting.

Mr. and Mrs. J. Wilson and Messrs. Lloyd and Carol Dav's are on a trip through the New England States.

STENOGRAPHERS "ENLISTS"
Drumheller, Alta.—When the Canadian Army Service Corps started recruiting here, Mary Cranston, a stenographer offered her services and assisted in preliminary work at the recruiting office here.

Hostesses for the enjoyable tea party which followed a business session of the Tenzelvez Club at the Sherbrooke High School on Friday afternoon were the Misses Frances Martin, Zella Gillman, Eta Mittleman, Eileen Seeley and Beryl Ferguson, with Miss Clare Brown assisting. During the business period new members were welcomed, and their initiation to the Club will take place at the next meeting.

Smart Kitchen Must Be Colorful

HOUSEHOLD ARTS BY ALICE BROOKS

Make these towels, done in outline, running and single stitch with cross-stitch roses, to give the kitchen that finishing touch. Pattern 6483 contains a transfer pattern of six motifs 5 x 12 1/2 inches; materials needed; illustrations of stitches; color suggestions.

COLLEGE EDUCATION IS NICE, BUT NOT ALWAYS NECESSARY

Parents who can't see their way clear to sending a son or daughter from high school on to college shouldn't feel they have fallen down on the job.

A college education is a fine thing, but it certainly isn't necessary for success—or even for "higher education."

Every June there is a bumper crop of college graduates, and, sad to say, they don't find their degrees much use to them in job hunting.

The other day I talked to three girls—all college graduates—looking for work in New York. They admitted, somewhat ruefully, that they would have just as good a chance with a high school education—and a much better chance if they could boast "experience" on top of a high school education.

So at twenty-two, with four years of college behind them, they find themselves out-classed by the girls who graduated from high school and spent the next four years, or some of them, at work—no matter how unimportant the job.

But there is more reason for going to college than to try to increase employment opportunities. Education is also for personal enjoyment and enrichment.

Many Sources For Home Study
Well, education for those purposes needn't be had on a college campus. The public library is just as good a place.

And that is why the parents who can't send their children beyond high school can still do something for them in the way of education. They can show them by their own example that education can belong to anyone who wants it.

Careful reading of today's newspapers is nothing more or less than "contemporary problems." Reading Dickens and Shakespeare is "English lit." Listening to concerts is "Music Appreciation."

College is just an easy way of getting hold of a little of the world's culture. But it can be had in other ways.

Smooth SANDWICHES
Bread for sandwiches will slice more smoothly if chilled thoroughly in the refrigerator before cutting.

Sammy lost his brother's baseball down that hole. If he don't get it, Casey his ma won't give him any tested quality Doughnuts when he gets home.

BUSY SESSION OF W.I. HELD AT TOMIFOBIA

Many Items of Business Discussed by Ladies' Group at the Home of Mrs. Donald Munroe.

Tomifobia, Sept. 26.—The Tomifobia Women's Institute was entertained by Mrs. Donald Munroe at her home and the meeting opened with the National Anthem, which was followed by the usual routine business. Owing to the short time remaining before the School Fair it was decided to drop the matter of a demonstrator for this year.

Plans were made for a food sale to be held at Rock Island, and a letter from Mrs. Whitcomb was read urging members to donate generously to the rummage sale to be held in the Women's Institute room on the day of the School Fair.

A splendid report of the Provincial convention, prepared by Mrs. Andrews, of the Beche branch, was read and much enjoyed by those present, and the convener of education and letter schools gave a concise summary of the reasons for the educational survey. The roll call consisted of notes from the Hepburn report.

A small gift was presented to Mrs. Temple, together with the good wishes of the members. Mrs. Temple is moving from the community and her help will be much missed as she has always been a faithful and efficient worker.

Mrs. Munroe served tea and the meeting adjourned to meet in the Community Hall in October.

Mrs. Brown and Mrs. Taylor represented this branch at the meeting held in Ayer's Club for the purpose of organizing a class in adult education. It is hoped this will be under way by the first of October.

General Notes
Mr. and Mrs. J. E. Clark and Mr. and Mrs. J. M. Reed spent a day in Sherbrooke.

Mrs. Ida Baldwin has returned to her home after spending the summer with relatives in Auburn, Mass.

Mr. and Mrs. C. C. Temple, of East Braintree, Mass., Mr. and Mrs. R. A. Temple, of Wilder, Vt., and Mr. and Mrs. Lee Richardson and daughter, Erma, of Lyndonville, Vt., were guests of Mr. and Mrs. Gordon Temple.

Mrs. Etta Manning is spending a few days in Marog.

The Women's Association of the United Church held a meeting at the home of Mrs. O'Leary. It was decided not to have the annual chicken pie supper, but several generous contributions to take its

place. Tea was served with the following out-of-town guests attending: Mr. and Mrs. Guy Longeway, of Coventry, Vt., Mrs. Clara Jenkins, of Rock Island, and Mrs. Brewster, of Beebe.

Mr. and Mrs. B. J. Hastings were in Montreal to attend the funeral of the former's brother, Mr. Spencer Hastings.

Mr. and Mrs. L. E. Carpenter motored to Lennoxville, Mr. and Mrs. Lee Reed accompanying them home and going on to "Camp Welcome," Fish Bay.

Mr. J. M. Reed visited his sister, Mrs. C. R. Brown, and Mr. Brown, at Brown's Hill.

## Hard of Hearing Canadian Praises Aurine Ear Balsam

A simple home treatment which is bringing new hope and happiness to sufferers everywhere. H. E. Blacklee of New Brunswick, writes: "I have used one bottle of 'AURINE EAR BALSAM' and it has been a wonderful help to me, for some months I have not been able to hear plainly, family talk at the table was a jumble to me, and had to have repeats so often that I feared I would never hear plainly again, have not heard the clock strike for months, the radio was a thing of the past. Now after using one bottle of 'AURINE EAR BALSAM' I can converse with the family as in the good old days, hear the clocks striking and listen in on the programmes presented over the air and beginning to enjoy life as in the past. Would highly recommend 'AURINE EAR BALSAM' to anyone who is hard of hearing for I know it will do them good." Before you invest in expensive hearing devices try one bottle of 'AURINE EAR BALSAM'. See if it doesn't help you too. If you are hard of hearing, have ringing and buzzing in the ear — Get 'AURINE EAR BALSAM' today. Relief is quick. Costs only a few cents a day. Money back if it does not help you. For sale and recommended by Budding's Drug Store, 25 Wellington St. N., Sherbrooke.

## Attractions at the Local Theatres

**At The Granada**  
The sharp wit of Sir William Gilbert was famous in his lifetime and remains so today. Quite as keen, but somehow never as well known, was the wit of his famous collaborator, Sir Arthur Sullivan. Both men had the advantage of being funny in more than one field. Gilbert, a witty dramatist, was also a gifted cartoonist. Sullivan was a musical wit as well as a verbal gagster. Some of Sir Arthur's subtlest musical humor was introduced into the score of "The Mikado," which opens at the Granada Theatre tomorrow with Kenny Baker in the leading role. The added attraction at the Granada is "Unexpected Father," starring Baby Sandy and Mischa Auer.

## Foreign Exchange Rates

Ottawa, Sept. 26. — The Foreign Exchange Control Board today said the foreign exchange rates, which have been unchanged for the past two days, are:  
American funds—10 per cent premium buying; 11 per cent premium selling.  
Sterling—\$4.43 buying; 4.47 selling.

## Vast Northland Contributing To Air Force

Edmonton, Sept. 26. — Canada's vast northland has started its contribution to the air forces in the second Great War.

Men who risked their lives in mercy flights, carried mail and freight in sub-zero weather and brought the north within swift flights of Canadian cities are stepping into familiar roles in defence of the Dominion.

First two to forsake the north for active service with the Royal Canadian Air Force are Con Farrell, assistant superintendent of Canadian Airways, Ltd., and Stan McMillan, chief pilot of Mackenzie Air Service. Farrell has been named officer commanding the 113th Squadron at Calgary and McMillan is on coastal patrol out of Vancouver.

Both have seen military flying service before. Farrell joined the Royal Flying Corps in 1917 and saw active service until 1919 on the Somme and all along the Western Front. McMillan was a flying officer in the R.C.A.F. for three years after 1925.

## Attractions at the Local Theatres

# FINANCIAL AND MARKET NEWS

## MONTREAL LIVE STOCK MARKET

Montreal, Sept. 26. — Receipts 186 cattle, 438 sheep and lambs, 1,231 hogs and 316 calves for sale on the two Montreal livestock markets today, the Dominion Department of Agriculture reported.

All classes of livestock were steady excepting veals. Veal calves were shade easier.

Cattle were practically all common to just fair quality cows and bulls. Medium quality cows made \$4.25 to \$5.25 with common butchers from \$3.50 to \$4.25. Common bulls \$3.50 to \$4.50.

Good veals were slow and easier. Good veals made \$9.50 to \$10 with an odd sale up to \$10.50. Medium kinds around \$9 to \$9.25 and common light veals under today. Drinkers were \$5 and \$7 and grassers \$4 to \$5 with the bulk between \$4.50 and \$4.75.

Good ewes and wethers were \$9.25, buck lambs \$8.25 and culs \$7.25. Sheep were from \$3 to \$5, mostly \$3.65 to \$4.50.

The bulk of the hogs were sold at \$9 for bacon with an odd sale at \$9.25 fed and watered. Selects drew one dollar per hog premium with the regular cuts on off grades. Sows were \$6.50 to \$7.50. Hogs sold on rail grade brought \$12 to \$12.25. Hot weight, mostly \$12.

Advances In Business Operations And Bank Deposits Were Recorded

Ottawa, Sept. 26.—Affected by the impending crisis in Europe, economic conditions in Canada were slightly less favorable in August than in the preceding month. Constructive factors included appreciable advances in business operations and bank deposits. Prices, on the other hand, were adversely affected, the indexes of common stock, bond and wholesale prices reaching a low position. The index of the sum of notice and demand deposits rose two points to 127.5, counterbalancing in part the recession of recent months. Notice deposits rose to a new high point at the beginning of the month, the total having been \$1,097,000,000. A decline in current loans on the same date was somewhat greater than normal for the season, the index receding from 88.8 to 88.3. Recessions were shown in notes in the hands of the public and call loans in Canada, while a recession in security holdings was less than normal for the season.

The European crisis was the main influence in depressing high-grade bond prices during August. The index of capitalized bond yields receded from 168.4 to 159.0 in the month under review. An appreciable recession occurred in wholesale prices in the latter part of July and the lower standing has been practically maintained from week to week during August. Marked advances were shown in the early weeks of September and the weekly index is now at a higher level than at any other time in the last twelve months. The outbreak of war led to a sharp rally in grain prices on the Winnipeg Exchange, and other sensitive commodities have moved into higher positions. Common stock prices were reactionary in August, the index dropping from 97.2 to 94.2. The recession was more than offset by sharp rallies in certain stocks during the early weeks of September. Measured by the weekly index, common stock prices were recently at a somewhat higher level than in the same period of 1938. No upward or downward trend, however, has developed since the later months of 1937, although markets have been characterized by rather sharp fluctuations.

Business operations have followed, in 1939, a similar pattern to that of last year. Reactions characterized the early months of 1938 followed by a constructive development. Marked gains were shown in April and May of this year and the position has been consolidated in subsequent months. Further improvement was noted in August when the index of the physical volume of business reported an appreciable gain over 120.5, the standing of the preceding month.

Factors indicating the trend of mineral production were uneven in August. A decline was shown in the index of copper exports, while the outward shipment of nickel showed a gain after seasonal adjustment. Copper exports were 45.7 million pounds against 46.9 million in the preceding month, the index receding from 567.7 to 500.8, while nickel exports receded from 17.3 million pounds to about fifteen million pounds, the index adjusted for seasonal tendencies rising from 238.4 to 310.2. Lead production was practically maintained in the latest month for which statistics are available. Zinc exports were 47.7 million against 34.1 million in July, the index moving up from 268.5 to 334.3. Improvement was shown in the amount of gold shipped to the Mint and to external points during August. The increase in the index was about 1 1/2 points to 299.8. The total amount was 424,524 ounces against 409,192. Silver shipments, on the other hand, showed recession in August, the index dropping about eleven points to 120.4. A slight decline was shown in the exports of asbestos.

Common stock prices were reactionary in August, the index dropping from 97.2 to 94.2. The recession was more than offset by sharp rallies in certain stocks during the early weeks of September. Measured by the weekly index, common stock prices were recently at a somewhat higher level than in the same period of 1938. No upward or downward trend, however, has developed since the later months of 1937, although markets have been characterized by rather sharp fluctuations.

WHEAT TRADE ENGROSSED BY EUROPEAN WAR

Outbreak of Hostilities Occasioned Numerous Governmental Changes in Wheat Policy.

Ottawa, Sept. 26.—War developments and subsequent adjustments to war conditions have completely engrossed the wheat trade within the past month. Unsettlement of markets dating from August 19 began with the intensified German demands for the accession of Danzig backed by concentration of troops on Polish borders. In this preliminary phase wheat prices rose and subsided with the varying war or peace prospects under conditions similar to those of the September 1938 crisis. With the German invasion of Poland on September 1, and the British and French declarations of war on September 3, North American wheat markets passed through a period of daily maximum allowable gains. At the same time the Liverpool market was closed. A third phase in the rapidly moving situation has been discernible since September 7, when trading once more became active in Winnipeg and Chicago, and prices have groped toward establishment of war-time levels. In the net result, the Winnipeg October future closing at 74 1/2 cents on September 20 registered a gain of 2 1/2 cents over the close on August 19. The Chicago September future was similarly 1 7/8 cents higher.

The outbreak of hostilities has occasioned numerous governmental changes in wheat policy designed to meet the war conditions. Outstanding among these was the action of the British Government on September 4 in requisitioning all grain stocks in the United Kingdom and in closing the Liverpool and London futures markets. Control of the nationalized wheat stocks and of imports is vested in the Food Defense Department under which the Port Area Grain Committee and a Cereals Purchasing Committee have been established. It is understood that cash trading at fixed prices is to be permitted at Liverpool and London. Imports are in the hands of the Cereals Purchasing Committee. Millers have been licensed and are for the present required to produce straight-run flour of seventy per cent extraction for sale at fixed prices. Apart from the settlement of futures contracts and the turning over of stocks at fixed prices, which appear to have been done quite smoothly, conduct of the wheat and flour trade on a nationalized basis has barely had time to get under way.

The Canadian Government announced on September 8 that the Winnipeg futures market would continue to operate for the present. Similarly the United States and Argentine wheat markets have remained open. The United States Government, however, has temporarily withdrawn the export subsidy on wheat which had just been recommended on August 21. The Argentine Government on September 6 suspended the domestic minimum price of seven pesos per quintal which had been in force for farm deliveries and domestic sales of the 1939 crop. This action also removed the peg from the Buenos Aires market. In Australia, the Commonwealth Government, which had been negotiating early in August with the States governments for a stabilization plan for the wheat industry, announced on September 14 that it would requisition all domestic wheat stocks other than those on farms, and that a compulsory marketing pool would be organized, with returns to growers equalized.

Apart from the series of governmental actions affecting the wheat trade, the unsettlement of foreign exchange rates, ocean freight and war-risk insurance rates have been

HIGH OFFICERS LODGE GUESTS AT EAST ANGUS

Worthy Grand Matron of the Grand Chapter of Quebec Among Visitors — Lodge Work Exemplified.

East Angus, September 26.—Mrs. Ruby Boast, Worthy Grand Matron of the Grand Chapter of Quebec, O.E.S., made her official visit to Silver Star Chapter No. 19, O.E.S. She was accompanied by Mr. Hugh Moore, Worthy Grand Patron, Mrs. Mary Astell, Associate Grand Conductress, and Mrs. Jessie Leach, Grand Instructress of District No. 1. There were also several visitors present from other Chapters. When the work of the Order had been exemplified, the Worthy Grand Matron gave a fine address, which returned to their home after visiting the former's sister, Mrs. R. J. Westgate, and Mr. Westgate. Miss Gladys Banfill and Miss Doris Banfill, of Montreal, were recent guests of their parents, Dr. and Mrs. S. A. Banfill.

Mr. Bruce Cooper is in Montreal and will attend McGill University this winter. He and his sister, Margaret Cooper, and a friend, Miss Elizabeth Greig, have taken up residence in the city, and his mother, Mrs. Leland Cooper, spent a few days with them helping them to get settled.

Mr. and Mrs. Rolland Little, of Oshawa, Ont., are guests of the former's father, Mr. Fred Little. Mr. and Mrs. J. M. Stevenson and son, Mr. Ernest Stevenson, have left by motor for a trip to the West and will visit their son and his wife, Mr. and Mrs. Howard Stevenson, in Alberta.

Mrs. Walter Cameron spent a few days recently with her son, Mr. Clifford Cameron, at his farm in Westbury. Friends of Mr. George Hall will regret to learn of the accident in which he was struck by a car. All trust he will make a speedy recovery.

Mr. and Mrs. M. B. Hodge, of Birchton, were recent guests of Mr. and Mrs. F. C. Barlow. Mr. and Mrs. Frank Constantine, accompanied by Mr. and Mrs. Porter of Lyndonville, Vt., were Sunday guests of Mrs. S. B. Somers.

Mr. and Mrs. Gleason Painter went to Kinnear's Mills to attend the funeral of Mrs. Painter's father, Mr. Robert McKee, who passed away in a hospital in St. Johnsbury, Vt., following an operation. The sympathy of the community is extended to Mrs. Painter and other relatives in their bereavement.

Miss Mabel Kilton, of Montreal, and Mrs. Florence Gray and daughter, Miss Lela Gray, of Columbia Bridge, N.H., were guests of Miss Edith Sherman.

Mr. and Mrs. John Williams, of Sawyerville, were visiting Mr. and Mrs. G. Hume and Mr. and Mrs. Lloyd Hume.

Miss Lessard, teacher of the Catholic school, spent a week-end at her home in East Angus.

Only scant attention has been paid to anything of a statistical nature during the recent developments. Any preliminary forecasts of international wheat trade during the 1939-40 season predicted upon peace conditions must be largely disregarded.

STANSTEAD CO. SCHOOL FAIR WELL ATTENDED

Large Number of Entries Testified to Popularity of Exhibition Held on Ayer's Cliff Fair Grounds.

Ayer's Cliff, September 26.—The twenty-third annual Stanstead County School Fair held on the Fair Grounds at Ayer's Cliff justified its reputation as being the best of its kind in the Province and attracted a large number of young people and their parents, whose presence added to the success of the event. W. G. MacDougall, of Lennoxville, was General Superintendent of this year's School Fair and was assisted by the following judges: Cooking, Miss Hayward, of Macdonald College, and Miss Alice Turner, of Beebe; public speaking, R. Alex Sim, of Hemmingford; field crops and manual training, W. S. Richardson, of Lennoxville, and sports, K. B. Monks, of Richmond.

The Fair was open to all pupils of the English schools in the County and the large number of entries received testified to the popularity of the exhibition. Displays of cooking, vegetables and school lunches were especially fine while the exhibits of woodwork displayed some real talent on the part of the young exhibitors.

Regret was expressed that more of the County schools did not enter in the parade, only Ayer's Cliff, Massawippi, Boynton and Burroughs Falls being represented. The Ayer's Cliff group, winners of the High School Prize, represented the Royal Visit and was led by the local Boy Scouts' Band in its first public appearance. Much comment on the smart appearance of the band was heard on all sides. Winner of first prize for rural schools was the Boynton School.

The later hours of the afternoon were devoted to sports which were enthusiastically entered into by a large number of young competitors. Prizes were won by the following: Fifty yard dash, girls, under six: Mary Smith, Sheila Cochrane and Betty Vivian. Fifty yard dash, boys, under eight: Adelaide Kinrich, Phyllis Embury and Edith Robertson.

Fifty yard dash, boys, under eight: Douglas Rife, Campbell MacLellan and Jimmy Rollins. Seventy-five yard dash, girls, nine years and under twelve: Ada Smith, Pearl Wallace and Ruth Malcolm.

Seventy-five yard dash, boys, nine years and under twelve: John Lavers, Lyle Woods and Bruce Johnston. Seventy-five yard dash, girls, twelve years and over: Colleen Taylor, Jean Parker and June Broadbent.

One hundred yard dash, twelve years and under fifteen: Robert Duteborn, Guy Meigs and Fernand Inkel. Three-legged race for boys: Robert Duteborn and Guy Meigs, Phillip Reed and Loren Ryan, and Anthony Duteborn and K. Knapp.

Three-legged race for girls: Alma Wallace and Rita Dezan, H. Huntington and J. Parker, and C. Conner and K. Graham. Pony race: Leola Childs, Robert Whitcomb and Marjorie Weis.

Potato race on pony: Robert Whitcomb, Leola Childs and Marjorie Weis. Mile open race: Donald Bronson, Bruce Smith and Robert Duteborn.

Contributions received toward the prize list were as follows: County Council, \$100.00; County W.L., \$75.00; Township School Board, \$15.00; Ayer's Cliff School Board, \$15.00; Barnston, Hatley, North Hatley and Beebe School Boards, ten dollars each; Magog and Hatley Township School Board, five dollars each.

ANNIVERSARY WAS MARKED AT COWANSVILLE Large Number of Relatives and Friends Gathered to Honor Mr. and Mrs. W. E. Dryden. Cowansville, September, 26.—Mr. and Mrs. Wilton E. Dryden were pleasantly surprised when between sixty and seventy relatives and friends met at their home to celebrate the fortieth anniversary of their marriage. After congratulations and best wishes had been expressed Mr. and Mrs. Dryden were presented with a purse of money and Mr. Dryden, on behalf of himself and his wife, expressed their thanks. Those present from out of town were Mrs. Dryden's brother, Mr. Jay Teel, and Mrs. Teel, and Mr. and Mrs. C. Smith, of Montreal; Mr. and Mrs. H. L. Hastings, of Iron Hill, and Mr. and Mrs. Alonzo Robinson, of Granby. The celebration was arranged by sons and daughters, Mr. and Mrs. Bureau, Mr. and Mrs. Earl Dryden, Mr. and Mrs. Leslie Dryden, and Mr. and Mrs. John Bowling, of Cowansville; Mr. and Mrs. Archie Dryden, of East Farnham, and Mr. and Mrs. Birch, of Hillhurst. A very pleasant evening was spent in games and contests and delicious refreshments were served. Members of this community, where Mr. and Mrs. Dryden have resided all their lives and are well and favorably known, join in congratulating them and wishing them many more anniversaries.

SLEEP AND AWAKE REFRESHED If you don't sleep well - if nights are interrupted by restlessness - look to your kidneys. If your kidneys are out of order and failing to cleanse the blood of poisons and waste matter - your rest is likely suffering, too. At the first sign of kidney trouble turn confidently to Dodd's Kidney Pills - for over half a century the favorite kidney remedy. Easy to take. 114

# Q.A.H.A. ACCEPTS NEW PROVINCIAL TEAMS

## St. Hyacinthe, Quebec And Verdun In Loop

Opposition of Quebec Senior Hockey League to Entry of Quebec Outfit in Provincial League Overruled—Switch of Cornwall Flyers to Q.S.H.A. Permitted—Paul Marcel Raymond Reinstated as Amateur.

Montreal, Sept. 26.—(P)—The Quebec Amateur Hockey Association at a meeting last night granted permission to Quebec Castors and team from St. Hyacinthe and Verdun to play in the Provincial Senior Hockey League this season.

The Association also voted to allow Cornwall Flyers to switch from the P.S.H.L. to the Quebec Senior Hockey League, which granted them a franchise a few weeks ago.

The three teams, recently granted franchises in the Provincial loop, were given the permission after the rival Q.S.H.L. had opposed admission of the Quebec club. Q.S.H.L. representatives based their opposition on the grounds the Association's minutes contained a resolution passed in August, 1937, ruling that the Provincial League could not enter teams either from Quebec, Ottawa or Montreal.

The Association found it necessary to pass an amendment to that motion, making it necessary for each senior team in the Province to be admitted to the Association anew. All teams in both leagues were re-admitted, except McGill and the Concordia Q.S.H.L. team, who failed to file applications this year. They will be accepted after receipt of their applications.

The executive decided to recommend that the Canadian Amateur Hockey Association grant reinstatement to Paul Marcel Raymond, of Montreal, former player with Montreal Canadiens of the National Hockey League and several minor league clubs.

There are thirteen birds which have as their specific name "Carolina," or its derivatives. The specific name of the "chuck-will-widow" is antrostomus carolinensis.

## SOUTHWORTH IN FIVE PLAYOFFS AT ROCHESTER

Manager of Red Wings Has Never Known Loser in Rochester—Mike Ryba to Start on Mound Against Louisville Tonight.

Rochester, N.Y., Sept. 26.—(P)—For the fifth time in the five years he has managed Rochester Red Wings, Billy Southworth will lead his team into the Little World Series tonight.

The winners of the Governors' Cup in the International League playoffs will face Louisville Colonels, American Association playoff victors, in the annual minor league classic.

Southworth has never known a loser in Rochester. Manager here from 1928 to 1931, he led the Wings to pennants and a Little World Series engagement each season. He returned this spring to put Rochester in it again.

Mike Ryba, a twenty-game winner, is scheduled to take the mound for Rochester in the first game of the three games to be played here. Bill Burwell, managing the Colonels in place of silling Donie Bush, has named Leroy Parmelee as his starting pitcher.

Rochester finished the International League season in second spot, eleven games behind Buffalo and Newark. Louisville finished fourth in the Association and beat Minneapolis and Indianapolis to gain the series berth.

Ottawa Hockey Team to Operate. Ottawa, Sept. 26.—(P)—Ottawa Football Club, owners of Ottawa Senators franchise in the Quebec Senior Hockey League, will operate the hockey team again during the 1939-40 season, it was learned today.

With officials of the club undecided as to their plans for this season because of the war, an offer of the Ottawa Auditorium to take over the franchise was put on record at a league meeting in Montreal last Friday.

A club official said however the directorate voted last night to continue operations at least for this season and that its decision had been sent to league headquarters in Montreal.

Allan Kuntz, Gordie Bruce, Johnny McTeer, George Greene, Joffie Seguin and several other Ottawa boys who played outside the city last year were expected to line up with several members of last season's Senators' squad to form a strong contender for honors won last year by Montreal Royals, who were defeated by Port Arthur Bear Cats in the Dominion final.

## Athletics Travel To St. Lambert On October 8th For First League Game

Sherbrooke's first Quebec Rugby Football Union game will be played away from home on Sunday, October 8, on which date the Athletics will travel to St. Lambert to meet the club they defeated in their opening game last season.

St. Lambert announced yesterday their intention of entering the circuit, which is now a four-club loop comprising Sherbrooke, St. Lambert, Rockland and McGill.

Meeting in Montreal last night, officials of the league drew up the following schedule:

Wednesday, Oct. 4—St. Lambert at McGill.  
Sunday, Oct. 8—Sherbrooke at St. Lambert.  
Monday, Oct. 9—McGill at Rockland.  
Saturday, Oct. 14—McGill at Sherbrooke.  
Sunday, Oct. 15—St. Lambert at Rockland.  
Saturday, Oct. 21—McGill at St. Lambert; Rockland at Sherbrooke.

**In Sporting Vein**  
By Allan Bryce.

Athletics now have something definite to work for—the opening league game at St. Lambert on Sunday, October 8. Admission of St. Lambert makes the newly-formed intermediate hook-up a four-club affair and gives Sherbrooke three home games at least, and more if they work their way into the playoffs.

Harking back to past achievements may not meet with general approval, but Eddie Wolfe led his Athletics for last year to St. Lambert for their first game of the season, and they won handsily to start a campaign that was the most successful—as well as the most disappointing—experienced by a Sherbrooke gridiron squad in many a moon. So Ed Sims' lads should get off on the right foot.

It looks very much as if the exhibition tilt schedule for the Parade Grounds on October 7 between Sherbrooke and Verdun Argos will not come to pass, because Argos have apparently folded this season. If true, this will leave the locals with two vacant Saturday's, September 30 and October 7.

In all likelihood a game will be arranged with Bishop's for one of the open dates, and an effort should be made to line up another game, so that when the A's step out a league fray they will have some action tucked under their belts.

All is practically well with the Provincial Senior Hockey League now that the Q.A.H.A. has put the O.K. on the entry of the loop of Quebec Castors, St. Hyacinthe and Verdun. The boys from the Q.S.H.L. fought the entry of a second senior team in Quebec bitterly, but all has turned out to be well with the Provincial. The only fly in the "ointment" is the question of the fate of the Verdun aggregation. If and when the Government snags onto the new Arena in Verdun, the hockey team will be tossed upon its uppers, and its players tossed to the four winds.

Eddie Wolfe, Lyman Tomkins, Ken Bryce and Len O'Donnell will probably do a large part of the refereeing in the Q.R.F.U. this fall. A referees' meeting was held last night in Montreal, and the four well-known whistle-tooters named likely officials.

Complete statistics of the Provincial Baseball League for the 1939 season have been drawn up by Jean Barrette, industrious loop prexy, and forwarded to the newspapers for release on Thursday, September 28. They contain plenty of reading material and a flock of entertaining averages, percentages, etc. Local fans will be interested in checking up on the final averages of members of Sherbrooke's nose-diving nine.

## YANKEES, REDS BOAST MAJORS' HITTING STARS

Players of Leading Clubs in American and National Leagues Top Most Departments of Play.

An examination of the list of players rating a place among the major league leaders as the current baseball season draws toward its close will show most of the reasons why New York Yankees were tops in the American League and why Cincinnati Reds and St. Louis Cardinals are dogfighting down the stretch in the National circuit.

In batting runs, doubles and pitching Yankees are leading the American loop, while in the National the Reds have players showing the way in runs, runs batted in, hits, triples and pitching, with the Cards setting the pace in batting, doubles and home runs.

Joe DiMaggio is the leading hitter in the big leagues, with an average of .384. Red Rolfe, dependable Yankee third-baseman is leading in three departments, runs, with 137, hits, with 208, and doubles, with 46. Steve Sundra, a member of the Yankees' mound staff, has won eleven straight games without defeat.

Other American League leaders are Ted Williams, Boston Red Sox rookie outfielder who has driven in 141 runs, Jimmy Foxx, of the Sox, who has clouted 35 round trippers, Case, of Washington, who has stolen 51 bases, and Lewis, of Washington, who has rapped out 16 triples.

Johnny Mize, of the Cardinals, is setting the pace in the National League with a mark of .354. Enos Slaughter, a team-mate, has 48 doubles and Mize 27 home runs, has Mel Ott, of the Giants, best pitcher is Paul Derringer, of the Reds, who has a 24-7 record to date, while McCormick, of the Rhinelanders, leads in runs batted in, with 125, and hits, with 199. In runs scored, Bill Werber, of Cincinnati, sets the pace with 111, while in triples Goodman, of the Reds, and Herman, of Chicago, are deadlocked with 16. Lee Handley, a Pirate, lives up to his name with 18 stolen bases.

Detailed statistics: American League. Batting—DiMaggio, New York, 354. Runs—Rolfe, New York, 137. Runs batted in—Williams, Boston, 141. Hits—Rolfe, New York, 208. Doubles—Rolfe, New York, 46. Triples—Lewis, Washington, 16. Home runs—Foxx, Boston, 35. Stolen bases—Case, Washington, 51. Pitching—Sundra, New York, 11-0.

National League. Batting—Mize, St. Louis, 354. Runs—Weber, Cincinnati, 111. Runs batted in—McCormick, Cincinnati, 126. Hits—McCormick, Cincinnati, 199. Doubles—Slaughter, St. Louis, 48. Triples—Herman, Chicago, and Goodman, Cincinnati, 16. Home runs—Ott, New York, and Mize, St. Louis, 27. Stolen bases—Handley, Pittsburgh, 18. Pitching—Derringer, Cincinnati, 24-7.

Iceland has neither prisons nor policemen. It takes ten tons of black coal turned into steam to make one horsepower, according to estimates by steam engineers.

Found in North American swamp areas, the huntsman's horn pitcher plant has a hollow stem filled with water, in which insects are drowned.

Poplars, in their prime, grow from six to seven feet in a single season but they have only a few seasons to live.

The eggs of sturgeon are not taken for caviar when the female is ready to spawn, but at an earlier period, when the roe is hard. A large female may yield as much as fifteen gallons, or 2,400,000 eggs. Because the sturgeon is such a valuable prize it is becoming very rare.

A major crime is committed every 22 seconds in the United States, which country has a crime rate seven times greater than that of England.

## Cardinals In Back To Wall Battle Against Reds Today

St. Louis and Cincinnati Open Four-Game Series—Pair of Victories Would Give Reds First Pennant in 20 Years—Gas Housers Trail by 3 1/2 Games, Each Club Having Seven Games Left—Bucky Walters Seeks 28th Mound Victory.

On the result of today's double-header in Cincinnati may depend the hopes of a National Baseball League championship of either Cincinnati Reds or St. Louis Cardinals.

A split in the four-game series— which would parallel the season's record to date of the first and second place clubs—won't be good enough for the Cardinals. They have to win all four, and even then the Reds still can slip into the World Series.

A pair of victories now would give Cincinnati its first pennant in twenty years.

The standings as they go into their four-game series:

W. L. G.B.L. T.P.  
Cincinnati... 93 54... 7  
St. Louis... 89 57 3 1/2 7(x)  
(x)—One game with New York cancelled.

When Bucky Walters, he of the twenty-seven-game victory record and Curt Davis, iron man of the Cardinal staff, take to the pitchers' hill in today's first game, the Reds will be favored to win the opening game, mainly because they are at home and have Walters hurling for them.

In today's second battle Gene Thompson and Mort Cooper will probably oppose each other, but the first game, with Walters-Davis dueling, holds most interest.

While everybody else waited for the Cardinal-Reds tilt the New York Giants made good use of their time yesterday by leading Boston six to five and Chicago White Sox claimed a four-three victory over St. Louis Browns in the only two games played.

YESTERDAY'S GAMES INTERNATIONAL PLAYOFFS NATIONAL LEAGUE

New York 6, Boston 5.
