DID SIR WILFRED DECLINE PEERAGE?

Did Not See Way Clear To Accept In 1902 Says La Presse.

RESPONSE BETWEEN SIR WILFRED AND GOVERNOR-GENERAL EXISTS, IT IS CLAIMED.

Montreal, March 16.—La Presse justifying its statement that Lord Minto in 1902 was most desirous that Sir Wilfrid Laurier should be raised to the peerage, and that although his Majesty spoke on behalf of the peerage, the Prime Minister did not see his way clear to accept the honor.

Entering in the first place to the alleged rumor that ex-Premier Laurier had been offered knighthood in 1902, the paper says: "It is certain that the offer of knighthood was made to Hon. Mr. Parent, at the time of the visit of the Duke and Duchess of Cornwall, now Prince of Wales, to Canada. The then Prime Minister of the province did not deem it expedient to accept. We ignore, however, if Lord Minto considered these nominations as personal and took them away with him instead of leaving them to our archives, but we know that other people had knowledge of them, and the fact can be proved if necessary."

"We desire also to commit another error, but what is that? It is the fact that Sir Wilfrid Laurier, when Governor-General, in the name of the Duke of Cornwall, asked Sir Wilfrid in the House of Lords in 1902. 'We hope that some historian will be able to render public these conversations, the existence of which is perfectly assured.'"

SHIPS' OLDEST CITIZEN GONE.

Samuel Wintle, Sr., Dies Aged 103 Years.

HAD LIVED EIGHTY YEARS IN RICHMOND COUNTY—BORN IN 1803.

Richmond, March 16.—(Special)—Samuel Wintle, Sr., farmer of the Township of Cleveland, near here, died yesterday. Mr. Wintle was probably the oldest man in the Eastern Townships, being in his 103rd year.

He was born in Gloucestershire, England, May 15th, 1803. He emigrated to this country in 1826, coming to Quebec after a voyage of six weeks. Here he met the late Robert Tremblay, Sr., of Kingsley, who induced him to accompany him home and settling in that township he worked around for about a year, where he bought some land, afterwards the Hunttons place, on which he made a small clearing. The Hunttons had come out from England but a short time. Mr. Wintle sold out to John Huntton and bought the "Allen" farm, which had only a small clearing on it at the time. The Allen farm is next to Gib. Wintle's (Ling place) and near to the present Samuel Wintle farm in Cleveland. On selling the Allen place he bought the farm where he has lived with his only son, Samuel, Jr., by way of Kingsley. The Port St. Francis Road and the Craig's Road were under construction, however, but it took many years to complete them through fit for vehicle travel. Mr. Wintle had married just previous to emigrating but had no children, those were born to him and his wife afterwards, only one of whom still survives.

Mr. Samuel Wintle, Jr., Mr. Wintle's second wife was the widow of George Smith, who was drowned in Spooner Pond, and his third wife was widow Rogers. He had no children by either of these. He was one of the first batch of emigrants to the Township of Cleveland after its separation from Shipton. In early days when stores were few and far between, he like all the early settlers, used to do most of his trading in Three Rivers, travelling down the river bank by way of St. Gregoire, in winter by horse and sled, and sometimes in the fall with a ruder can. He used to get as much frequently as \$9.37 a hundred (112 lbs.) for pork, and for his butter seldom more than 7 pence a pound. He was a member of the Church of England, had a good memory and was regarded in his younger days as a very intelligent man.

VENICE FOR HIS. (From the New York Tribune.)

Marion Crawford recently gave a dinner in Rome, and during the dinner the talk turned to Venice. "There is a young woman from Duluth," Mr. Crawford said, "whom I met one bright October morning in Sorrento. She told me that she was touring Italy with her father. She said her father had liked the Italian cities, but especially he had liked Venice."

"Ah, Venice, to be sure," said I. "I can readily understand that your father would prefer Venice, with its gondolas," and St. Mark's, and Michael Angelo's—"

"Wasn't that," said the young lady: "it wasn't that, but he could sit in the hotel, you know, and fish out of the window."

Mr. C. M. Copeland, of Toronto, spoke on "The Claims of Association Upon Its Members." It is his right to claim from its members, interest, loyalty, work, and lives in accordance with Association ideals. "The Sherbrooke Association must now have a building."

Rev. Thos. Hall, of Island Pond, spoke in a very interesting manner on the value of a building as a unifying force and a place where character would be developed.

In a few well chosen words Mr. A. M. Sangster thanked the Ladies' Auxiliary for their excellent service, and Mr. B. C. Howard, thanked all who had helped to make the occasion such a signal success. After "God Save the King," the event became a matter of Association history.

During the evening excellent music was rendered by the Princess Orchestra, the Association Quartette, Mr. E. Armitage and Mr. T. R. Willis.

V. M. C. A. BANQUET A SUCCESS.

Eloquent Address By Col. Dale, Of Island Pond.

AN INTERESTING TOAST LIST—ABOUT 175 WERE PRESENT.

One of the most successful events of the season was the banquet given at the Young Men's Christian Association last night, by the Board of Managers, the occasion being the completion of the membership contest, which has been in progress for the last two weeks.

At about 7 o'clock, the guests, 175 in number, began to arrive, and visited freely for half an hour, the parlors of the photographic studio being kindly offered for the occasion. At 7.30 the guests sat down to the tables, heavily laden with meats and delicacies prepared by the Ladies' Auxiliary. After singing of the "Invocation" and grace by Rev. P. L. Richardson, ample justice was done to the bounties supplied.

After supper the excellent toast program was eagerly listened to. Mr. J. K. Edwards, President of the Association, ably presided. "The King" was patriotically responded to by singing the national air.

Mr. A. C. Skinner gave the results of the membership contest. The "Blues" had won by 24 points. The total number of new members added was 176, making the total membership of the Association 436.

Mr. H. V. Haight, B.A.Sc., proposed the toast to the "New Members," in which he welcomed them to the Association, and urged them to take a deep interest in its work and life, never missing an opportunity to work for it. Mr. Jacob Nicol, B.A., L. M. W. responded very eloquently, and developed the thought that the right spirit and the spirit which would govern them all would be not to see how much they could get out of the Association, but how much they could put into it, and in this way they would get the most out of it.

The "Young Men's Christian Association" was ably proposed by Mr. J. H. Bryce, in which he reviewed the origin and signal growth of the Association, until to-day it belts the globe and has 700,000 members. Mr. W. S. Hopkins responded to the toast, and gave further details of the work.

Rev. G. E. Read spoke eloquently and earnestly on "Elimination and Selection," in which he said the successful young man must eliminate much that is even good, always the bad, and select the best. He sounded the keynote of the whole evening when he said that the Association must have a building and prophesied that it would come now.

Everyone present was stirred by the oratory of Col. Porter H. Dale, of Island Pond, as he spoke on "Opportunity." In his address he referred to many of Canada's leading men of history who improved their opportunities, and urged the men present to improve theirs by making the most possible they can with their lives. "Opportunity is the port which we are trying to reach. We have to search for it." Young men must have profound faith in God if they best use their opportunities.

THE SITUATION IN NORTH CHINA.

The Foreign Residents Are Uneasy.

CHINA AID RUSSIA—FORMER DEMANDS WITHDRAWAL FROM MANCHURIA.

Pekin, March 16.—The intention of the diplomatic corps, in spite of all remonstrances, to support their respective governments in the withdrawal of the foreign garrisons from the province of Chihli, is causing uneasiness among the former residents of North China. The Government is sincere in its announced intention to protect foreigners and evidently is not taking the necessary for action. It will adopt drastic measures in the Government of anti-foreign communities and will punish all offenders.

RUSSIA IN MANCHURIA. The negotiations between China and Russia are at a standstill. China may put her own policy into effect as to Russia's status in Manchuria and so force some agreement. China demands that Russia withdraw from Manchuria all her railway guards, give up all mining concessions, with the exception of laying railways between Kirin and Changchun and between Mukden and Sinitum, restore all Chinese property held by her troops, open the Amur river to trade, compensate for Chinese property destroyed during the war, abandon the projects for laying railways between Kirin and Changchun and between Mukden and Sinitum, restore to China the Kulung Kiakta telegraph, consent to the revision of the Kiakta treaty, give back to China land appropriated by Russia, and fix the boundaries of the two countries.

THE 53RD REGIMENT Annual Meeting Held Last Night.

COMMITTEES SELECTED—ANNUAL DRILL WILL BEGIN APRIL 10TH.

The annual meeting of the 53rd Regiment was held last evening with a large attendance. There were present Lt.-Col. Sparling, in the chair, Majors Odell and Somers, Capt. Wray, Lieutenants Fletcher, Elliott, Spearing, Allen, Rugg, Odell and Lynch, and Lieutenants Fletcher, Elliott, Spearing, Allen, Rugg, Odell and Lynch. After an informal mess dinner, which was much enjoyed, regular routine business was proceeded with. The financial statement of the Regiment for the past year was read by Captain Fraser, Secretary-Treasurer of the Regiment, and was extremely satisfactory, as was also the financial statement of the Band which was read by the Sec.-Treas. of the Band Committee, Lieut. Rugg.

The appointment of committees resulted as follows: Regimental Executive Committee—Major Somers and the Captains of Companies, Captain Fraser re-elected secretary and treasurer. Band Committee—Major Odell, chairman, Capt. Blue and Lieut. Lynch, Lt. Rugg, secretary-treasurer. A Regimental Rifle Association Committee was formed to arrange for matches and rifle practice during the season.

It is the intention of the Regiment to send a team to compete in the P. G. R. A. D.R.A. matches, as was done last year. It was decided to procure the services of a band-master at once, and to thoroughly re-organize the 53rd Band. The date for beginning annual drill was fixed for the 10th of April. Recruit drill will commence at once.

MRS DOWIE HAS DOUBTS.

CALLS IN BROKERS TO MAKE INVENTORY OF THE FURNITURE.

Chicago, March 16.—John Alexander Dowie, head of the Zion Church, and his wife, have parted, according to a story printed in "The Daily News." It is understood that the wife of Dowie to his home was ignored, and that Mrs. Dowie has thrown in her lot with the ordinary followers of Zion. It is asserted that Mrs. Dowie has said to her friends that she has been deceived as to the real condition in the Church and believed that the millions of money were available when there was no such condition existing. Mrs. Dowie called in brokers, who made an inventory of the furnishings of the Dowie home in Zion City, which is described in a most expensive manner. She said she desired to sell everything for the good of the Church and that when the furnishings had been sold the house itself was at the disposal of the society.

BRITISH CRUSH A REVOLT.

Nearly Annihilate Body of Nigerians.

KILLED MORE THAN 300—NATIVES CHARGED BRITISH SQUARE.

London, March 16.—A despatch to the Daily Mail from Zungeru, Nigeria, says that a British punitive force, commanded by Capt. Goodwin, attacked Sokoto on March 10. The natives twice charged the British square, but were almost annihilated. The British were found to be strongly held. They bombarded the place. The defenders fought desperately, facing the British charges. The place was finally captured at the point of the bayonet. The natives were driven out and pursued by mounted troops. More than 300 of them were killed, including their leader. The revolt is now crushed. Loyal chiefs are now co-operating with the troops. One British officer was severely wounded.

NATURE SPARES.

The Stricken Rose From Grief

What a fortunate provision of nature it is that deprives the case of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a cancer fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness, a casta gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Nowro's Herculic absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herculic Co., Detroit, Mich. W. The guests from out of town included relatives from Boston, and (Laramont, N.H.). A wedding breakfast was served, the decorations of the table being carnations and ferns. The bride is a graduate of the Sherbrooke Protestant Hospital, and the groom is one of the office staff of the Canadian Pacific Railway. The popularity of the young people was shown by the very many benedictions received. The bridal couple left on the afternoon train for Montreal, and after a short trip will be at home to their friends at 15 Filton avenue, Sherbrooke.

THE RIGHTS OF THE MANY VS. THE RIGHTS OF THE FEW.

(F. B. Sanborn, in Springfield Republican.)

The automobilists, a lean minority of the good people of Massachusetts—probably not more than 100,000 out of 3,100,000, or one in thirty—are besieging the State House to have greater liberty of frightening horses, riding over children and dogs, and wearing out the highways in towns where they pay no taxes or fifty cents a year.

They wish to be under the oversight of a State Board, instead of a lot of pesky selectmen, who bring them into court, and make them pay a part of the town outlay on roads and fences.

They are for the greatest good of the greatest number, of course; but number is No. 1. When this vehicle becomes the convenience of the many and no longer the luxury of the few, it may be well to relax the laws; but that time has not yet arrived.

The lawmakers of our forty or fifty republics are too much occupied, and long have been, in providing for the few, and only now and then very stingily, do they take care of the rights and the property of the many.

The savings banks are restricted to three or four per cent. dividends for persons of small means; but the capitalists who build or buy up steam and trolley roads must have the limit set at seven or ten per cent., and then have got into the habit of violating their own law, and pocketing more, as well as legislating in New York, for example, that a policyholder or stockholder must not bring suit, if he has himself wronged, unless he gets the consent of some attorney who has himself been put into office by the same class of capitalists. Probably the angry voters will have something to say the next year or two on the big and little branches of this subject.

It is in New Jersey, where automobilists from New York and Pennsylvania have violated the existing laws without hesitation, the farmers and laborers are going to have stricter laws instead of looser ones; in New Jersey fashion it might be well for us to follow, while repealing our gas-works-planters' corporation laws, enacted for the benefit of promoters.

THAT DITCH.

(Charles R. Barnes, in the New York World.)

Comes Roosevelt, with a master air, And says, "An' won't I get anywhere with this canal, my friends, you know, Unless you build it so and so."

Then Cromwell, learned, brainy man, Submits a clever little plan: "The thing," he says, "is never go Unless you build it so and so."

And Shonts, with salaries galore, Decides to think the matter o'er: "Tw'll end," he claims, "in untold woe Unless you build it so and so."

Now Mr. Wallace has his say: "There is," he tells us, "just one way. Your canal will be a hunk of dough. Unless you build it so and so."

A horde of others, great and small, Have heard a loud inspiring call: "To say," "The flood will never flow Unless you build it so and so."

But then, despite this stirring fuss, We realize it—most of us— That while the winds of bombast blow That ditch is building—slow and slow.

SERENADERS OF A WEDDING PARTY USED GUNS AND DYNAMITE.

Perryopolis, Pa., March 16.—Because he was besieged in his home all night and because of damage to his property by serenaders upon the occasion of the wedding of his son, H. J. Mossbury, of this place, has sworn out warrants for the arrest of a number of the town's prominent young men. Mr. Mossbury says that the serenaders made him a target for stones and stones, riddled his house with shot and caused other damage with dynamite. In addition to the criminal prosecution, Mr. Mossbury announces he will bring civil suits.

The serenaders, 59 in number, appeared at the Mossbury home last Thursday night, and when Mossbury, with his son and daughter-in-law, appeared on the porch, the crowd threw a volley of stones, one of these wounding the elder man.

Members of the mob began a fusillade, which did not diminish until nearly two hours later. Over 350 shots were fired, and when the crowd ceased firing at 2 o'clock Friday morning, the shade trees in the front yard were destroyed, and the roof of the porch and parts of the house were riddled. Later the besieging force secured five sticks of dynamite and exploded all of them simultaneously. Nearly every window in the house was shattered and its occupants were badly frightened. When the crowd dispersed, nearly two bushels of empty shot gun shells were picked up in the front yard.

PLOT TO KILL DR. PARKHURST

POLICE OFFICIAL ALLEGED TO HAVE PLANNED TO KILL NEW YORK REFORMER.

New York, March 16.—An alleged plot to assassinate Rev. Dr. Chas. H. Parkhurst, following the recent municipal election, inspired, it is asserted, by a police official in revenge for raids made by agents of the Society for the Prevention of Crime, was revealed Wednesday when District Attorney Jerome summoned, in John Doe proceedings, Acting Captain John D. Shields, of the West 100th street police station, John Phelan, a plain clothes policeman, and two civilians, Richard Wilson and L. Rogers.

As a means of keeping money in circulation a bill has been offered in Congress providing for putting into bank as a Government deposit the moneys collected as customs duties through the country. We venture to say that most people will be surprised at the mere proposal of such legislation. Why should it be more necessary than providing by law that farmers should keep their horses in the barn, or that anything else should be where it ought to be? What reason for doing anything else with the customs revenue, and what is done.

That, indeed, is the interesting question in the case. At present every dollar taken in by the collector of customs must be shipped in its identical form to Washington. It is not sent by registered mail, although the Government furnishes that admirable and safe method of transportation. It all goes by express, and the accounts for the milk in the account. Express companies charge so much the dollar for carrying money. The Government pays the railroads for running fast trains, and these trains haul express cars, and the Government pays more again for having its own money carried on the cars it pays for.

This scheme of the express companies is worth a lot to them, and they cling on to it hard. The optimist who looks to see the repeal of the statute which requires the Government to support the express companies in this interesting way is welcome to his optimism. How would New York senators vote on such proposition? One of them is himself an express company and made what there is left of his collocation.

ABSOLUTE DIVORCE.

THE CASTELLANES DETERMINED TO TERMINATE THEIR UNION.

Paris, March 14.—Comtesse Boni de Castellane (formerly Anna Gould), accompanied by Edmond Kelly, her lawyer, yesterday appeared before Judge Ditté, president of the Civil Tribunal of the Seine, and asked for permission to amend the proceedings in her application for a separation from the Court, her husband, so that the decree will give her an absolute divorce. The application asked for a separate domicile and custody of the children pending the legal procedure. Judge Ditté, before finally deciding, complied with the usual formality of requiring the husband and wife to appear together, for the purpose of interrogating them concerning the possibility of a reconciliation. The latter will fulfil the legal requirement, but it is not expected to yield favorable results, as the parties are fully determined to terminate the union. Their joint appearance before the Court will occur in four or five days and immediately thereafter an amended bill will be served on the same grounds as previously, the only change being a petition that the bonds of matrimony be dissolved.

SPANISH DEPUTY ASSAULTED.

Madrid, March 15.—As the royal college was passing the Chamber of Commerce, a nephew of General Primo Rivera, the former commander of the Spanish troops in the Philippine Islands, savagely assaulted Deputy Sociano for criticizing acts of the Spanish generals in Cuba and the Philippines. Signor Sociano was knocked down and lost two of his teeth.

The assault followed united declarations upon the part of Generals Rivera, Weyler, Barrera, Polavieja and Lineros denying the charges of irregularity in Cuba and the Philippines. General Rivera announced that he would resign from the army unless the Government defended the generals against the charges, and General Weyler declared that he intended to take their defence into his own hands. Rivera's nephew thereupon determined to publicly assault Deputy Sociano who was chiefly responsible for the criticism.

THE FRENCH MINISTRY'S POLICY

CHURCH AND STATE SEPARATION LAW TO BE CARRIED OUT WITH FIRMNESS.

Paris, March 16.—The new minister presented himself to the Chamber of Deputies yesterday and outlined its policy as follows:

The Government intend to carry out the Church and State separation law with inflexible firmness and establish the responsibility for resistance to the taking of inventories.

"Concerning Morocco, we intend to follow the policy of the preceding ministry, hoping that the equity and the ability of our position will permit an early and satisfactory solution."

The Cabinet approves of the French-Russian alliance.

The Chamber, by a vote of 200 against 197, approved the ministerial statement.

WILL FIGHT DUEL.

SPANISH COLONEL AND DEPUTY MUST HAVE BLOOD.

Madrid, March 16.—As a result of the altercation Wednesday between Col. Primo Rivera and Deputy Sociano, growing out of the latter's charges against certain generals, a duel will be fought between them, Col. Primo Rivera will be tried by a martial court for striking a deputy.

It is feared that in view of the recent anti-military ferment, the occurrence is a most serious trouble. The Republicans tried to raise a discussion of the assault, but the president ruled that it was out of order. An angry scene ensued, resulting in the Republican leaving the chamber in a body.

SEMI-READY garments are built to fit live men. Most clothing is built to fit measurements.

The Semi-ready system of sizes is based on the permanent measurement... Once the figure is formed, weight never changes...

But according to clothing makers' methods, a 40-inch breast is supposed to belong to a 6-foot man...

The four extra inches on the tail of his coat make him ridiculous.

You see, the old system was wrong—it could only fit normal men...

Of course, fit is an important thing to get so satisfactorily settled, but Semi-ready didn't stop there.

Semi-ready system of tailoring is different, too. Instead of employing a man simply because he is a tailor...

We have reached such a high plane in tailoring that we couldn't afford to use anything but the best of materials...

Perhaps you have never been in a Semi-ready wardrobe! We would like to show you what it is like.

STRONG FOR FREE TRADE.

Majority in British Commons Overwhelming. LONDON, March 16.—In the House of Commons yesterday a resolution, offered by Sir James Kitson, Liberal, affirming that the election had demonstrated the people's fidelity to free trade, and that therefore the House assented to record its resistance to any proposal creating protection, either by taxing grain or by the establishment of a general tariff, was carried by a vote of 473 to 98.

Mr. Fitzgerald condemned the system of assessment insurance and said that no company hereafter should be permitted to do business along that line, and that the Government should take these four assessment companies doing business in Canada, the Independent Foresters, which order was regularly licensed; the Woodmen of the World, the Commercial Travelers' Association and the Catholic Mutual Reserve, which was registered.

Mr. Fitzgerald said that generally after going along a while they collapsed. They pretended to collect as they went along, and as the companies advanced, the death rates increased correspondingly, the assessments became larger. Then members, he says, the old or impaired ones, who couldn't get insured elsewhere, dropped out, and it was only a question of time when the company went up.

Mr. Fitzgerald said that generally after going along a while they collapsed. They pretended to collect as they went along, and as the companies advanced, the death rates increased correspondingly, the assessments became larger.

RUNAWAY ENGINE

PECULIAR ACCIDENT ON THE C. P. R. NEAR WHITEWOOD. Winnipeg, March 16.—A railway accident of a peculiar nature occurred on the main line of the Canadian Pacific a short distance from Whitewood Tuesday night. About midnight an engine proceeding eastward was left standing on the siding at Broadview when the engine crew went to lunch. During the absence of the engine crew, a fireman from the back pressure of steam apparently blew the throttle open, and the big engine started on its way eastward with no one aboard. It continued its journey a distance of thirty miles. About 2 o'clock the runaway engine struck a freight train and transcontinental train No. 2 proceeding eastward from the coast. A large passenger list was being carried by No. 2, but no one was injured.
