PRICE ONE CENT.

LICENSES AT ROCK ISLAND.

The Hotels Secure Necessary Papers.

The Rock Island liquor question continues to puzzle the legal fraternity. After passing a prohibitory law, the council passed, at their next meeting a resolution to annul this by-law. At the same meeting a resolution was passed granting the licenses applied for at the same meeting. These should have been in the hands of the secretary-treasurer for eight days before being acted upon, but were handed in and voted upon the same evening. Requisition was then made upon Mr. Morkill for the licenses, who is supposed to have no discretion in such matters but to issue upon the order of the town officials. The irregularities were so obvious, however, that he refused point blank and wired his superiors for instructions. They approved his course, but later wired him again to issue as called for, which he accordingly did, leaving the matter for the town authorities to settle amongst themselves as best they can. Serious complications are likely to result as the irregularities are so obvious as to need no inquiry.

INDIA'S VICEROY.

Thanks Canada for Assistance in Famine.

OTTAWA, May 19.—His Excellency Lord Elgin, Viceroy of India, in a letter to Lord Aberdeen expresses his appreciation of the assistance rendered by Canada to famine stricken India. His Excellency says, "Though our grateful thanks are due to friends all over the world, still, outside Great Britain, Canada stands first in the aid which has been sent us. Perhaps you will pardon me if, as a Canadian born, I mingle a little pride with my gratitude."

HORSE TALK.

Afrite, 2:07½, has been jugged all winter and is looking well this spring. There will be a wide difference in the free for all trotting classes of this and last year.

Owing to the bad financial results of last year's meetings there will be fair or racing meetings held in 1897 at Helena, Mont.

Game little Sir Walter, who is expected by Rollins to capture a great many races this year, appears to be improving every day.

There is nothing uncertain about the warmth of the welcome given the entrance of the Glen Falls association into the grand circuit.

The grand trotting stallion J. S., 2:16½, exported last year, is doing well in Albion, and already several very fine colts by him have been foaled.

Julia Patchen, the dam of Sea Girl, 2:18½, and Shadeland Leona, 2:28½, is dead. She is also the granddam of Shadeland Bellewood, 2:54½.

Payne & Proctor, Boston, have added to their stable the bay horse Le Simons, 2:15½, that Joe Thayer had out last year and gave his present record.

The reported accident to Ed Geers proves to be all too true. The broken arm and injured ankle did not keep him indoors but a couple of days, however.

The great brood mare Cricket, by Mambrino Abdullah, dam of Vera Capel, 2:07½, pacing, and Jim Young, 2:26½, died recently at the farm of her owner, Richard Curtis, Lexington, Ky. —Horseman.

EQUINE HISTORY.

The Newmarket races were founded by James II in 1667.

Tattersall's, the famous horse resort, was founded in 1766.

As late as the ninth century European horses were shod only in the winter time.

The first horses in New England were introduced into Massachusetts in 1629 or 1630.

Wild horses are found in great numbers in Asia and North and South America.

As early as 1607 in England a famous race course was established near York. The victor's prize was a little golden bell, which he hung on his horse's neck.

The long hairs of the horse's mane and tail make an article of cloth valuable for many purposes, while the short hair is useful to plasterers and in other ways.

One of the most remarkable adaptations of nature of an object to its proper use is found in the hoof of the horse, which combines lightness with strength and is suited to every kind of ground.

From the time of William the Conqueror to the period when artillery came into use horses were protected by chain armor. The weight of this provided a serious objection, knights sometimes substituted an armor of dried ox-hide instead of the metal protection. —St. Louis Globe-Democrat.

COMPTON AND WOLFE COUNTIES.

Woman's Christian Temperance Union.

The thirteenth annual convention of the Compton and Wolfe Counties W. C. T. U. will be held (D. V.) in Marleton, on Wednesday, Thursday and Friday, May 26th, 27th and 28th, 1897, opening at 1:30 p. m., on Wednesday, May 26th, and closing at noon on Friday, May 28th, in order that good railway connections may be made for the delegates. All the meetings will be held in the Town Hall at the following hours 9 a. m. 2 p. m. and 7:30 p. m. Wednesday evening will be devoted to welcomes, greeting from fraternal delegates and pastors of Marleton, and an address by Mrs. Ella M. Keith, of Worcester, Mass. A prohibition rally will be held on Thursday evening, addressed by Mrs. Sanderson, Provincial President, and Mr. John Nicholls. A cordial invitation is extended to ministers of all denominations, members of sister societies and all friends of temperance to attend this annual gathering of white ribbon workers in Marleton. —Yours, "For God and Home and Native Land,"

MARIA G. CRAIG, President.
SARAH CAIRNS, Secretary.

BUSINESS NOTES.

Messrs. Gilbert & Guillet, butchers, of Danville, have dissolved partnership. H. S. Guillet will continue the business.

James Chalmers & Son, tin-smiths, of Granby, have dissolved. The business has been taken over by Messrs. James Chalmers, Alex. I. Chalmers and George T. Chalmers, who have formed a new partnership. They will do business under the name of Jas. Chalmers & Sons.

Mrs. F. Watson, of Mansonville, has resumed her millinery business at that place.

A BOOK THAT HELPED HIM.

Would Be Reporter Took City Editor's Advice With Great Results.

"Do I think that a classical education helps to give a man a start in journalism?" echoed the man whose experience entitles him to be heard with respect on such a topic. "In endeavoring to answer such a question it would be hard to speak excepting from personal experience. Many contend very ably, that a man should start in early instead of spending the time at college. No man is able to analyze the career of another so closely as to indicate exactly what turn of fortune or circumstances has caused him to achieve or fail."

"What would your own career lead you to say about the matter?" persisted the young man who was seeking information.

"I don't hesitate to say that it was the possession of a slight acquaintance with the classics that gave me an opening. I was fresh from college and was comparatively without resources. I wanted to do newspaper work, and I hung around the office of a metropolitan journal, despite numerous rebuffs and assurances that there was no chance for me."

"Did you tell them that you had just completed your education?"

"I think I let some remark to that effect drop. It was a time when the ability to write a startling story was more of a recommendation to a man than the ability to make sure that it was true. This was especially the case in the office which I was haunting. The city editor was a man of abrupt manner, and being quite low in my funds, and on the verge of desperation, I resolved to give up trying to win him by gentle diffidence. He was very busy when I went up to his desk and said:

"Well, I've been here a good while now; it's about time you were giving me an assignment." He did not look up from his work, and he spoke only three words. It was a most ungentlemanly speech—one which I should have resented under any other circumstances. I smothered my pride and turned away from his desk very much discouraged. I don't know when I have ever felt more blue than I did on that occasion. I was thinking of all the study I had wasted and of how little value the books I had read were in such a crisis, and then I had an inspiration. I recalled as much as I could of Dante's "Inferno," which I had studied in the original, and put it into colloquial phrase. I described the scenes of the great poem with the graphic enthusiasm of a modern eyewitness. It took me about two hours to finish it. I held on to it until I knew the city editor would be over his worry with the paper, and it was after midnight when I went up to him with a spectacular burst of speed and dropped my story on his desk.

"What!" he exclaimed. "Are you back here again?"

"What did you think was going to happen to me?" I returned, putting on as bold a front as possible.

"He seemed dazed and picked up my manuscript. When he had read two or three pages, he looked up at me and said:

"This is live stuff."

"He finished it without another word, but I could see that I was leading him a lively chase with the shades. Then he wrote headlines for it, and, turning to me, said:

"That's a great story. I'll have you put on the pay roll and you can report for duty tomorrow. A rival sheet has run in several fakes on us and we'll beat 'em at their own game. But I'd like to know this: How did you come to do this?"

"You sent me to get the story yourself," I answered.

"To the infernal regions?"

"Yes, sir," I said, "in so many words."

WILLIAM JENNINGS BRYAN

Will Speak in New York on Labor Day.

(Special to Record.)

NEW YORK, May 19.—Wm. J. Bryan, of Nebraska, has accepted an invitation from an important labor union to visit New York city and speak at an important labor demonstration to be made in Union square on September 6th, labor day.

It is expected that the occasion will be a memorable one, and will be marked by the adoption of anti-capital, anti-corporation and anti-trust resolutions.

THE GOLD FEVER.

Off for Far Away Yukon.

In two weeks 12 young men from Winnipeg will leave to seek their fortunes in the gold fields of the Yukon. They will go to Vancouver and from there along the coast to Dyea, Alaska, whence by a journey of 85 miles, over the mountains the head waters of the Yukon are reached. They will then proceed by boat 700 miles down the river to Circle city, the center of the gold excitement.

I am glad to tell all that Menthol Cough Syrup is great for coughs and colds.

WHAT WOMEN WEAR.

The use of sun plaiting is an important feature of fashion this season.

Some Parisian authority is responsible for the announcement that gloves embroidered with black are considered out of date.

Bright red silk parasols will be very popular this season, and the old Victorian styles with fringe around the edge have come back again.

Black grenadines, in various conventional patterns, made over colored silk, are very fashionable gowns this season, and the variety of fancy grenadines has no limit.

Something called astrakhan lace is set forth as a novelty, and it is made of silk, very airy and light like old fashioned lounion, with a pattern prettily defined by close loops of silk.

It seems that ears are decidedly out of fashion for women in Paris except for hearing purposes, as the hair is drawn to cover them so completely that there is no trace of their existence left.

Very desirable hats of Java and Panama straw, trimmed with plain bands of ribbon and stiff quills, are now in evidence in the shops. They are to be worn for cycling and all other outdoor sports and are very stylish with the simple tailor made gown.

Ponched bodices have vigorously renewed their popularity, and some of the latest models are ponched at the back as well as the front. A wide folded belt is the usual accompaniment, and it should be made of black satin if you would look slender.

The English tailor made coat has no gathers at the top of the sleeve. It has a little fullness, which is arranged in small dart seams covered with fancy braiding. Many of the coats are elaborately braided, and several different kinds of braid are used on one garment. —New York Sun.

The Stupefying Effect of Cold.

One of the most powerful modes of checking the increased action of local inflammation is to diminish the temperature of the parts. Heat to a certain extent is necessary for all vegetable and animal action. Increase the temperature, and these actions are increased; diminish the temperature, and these actions are diminished. That this is the case, we think, is apparent from the influence of the returning spring upon the vegetable kingdom and hibernating animals. They leave their abode and commence a new series of actions. On the return of the winter we find both again shut up in a state of indolence and inactivity. Now, although we are not dormant, we feel the change from heat to cold very disagreeable, and we know that some degrees of cold very much diminish our muscular efforts.

When Dr. Solander was with Captain Cook in his voyage around the world, a party landed on some part of North America. Among them was the doctor himself. He had just been cautioning them against the numbing and stupefying effects of cold and of the danger there was of giving way to such feelings. He had just finished what he had to say on the subject when he was taken in the very way himself. He said: "I am very weary. Let me lie down. Do let me lie down for a few minutes." But if they had he would never have raised himself again. The other officers insisted upon his exerting himself and absolutely drove him before them, and it was with the greatest difficulty that he could reach the ship.—New York Ledger.

Too Much For Him.

"Did you hear that the champion steeplechaser broke down last week?"

"No. How was it?"

"They sent him over to take down a Sorosis meeting."

"Yes!"

"Well, they were trying the experiment of limiting the members to five minute speeches. He went all to pieces at the third speech."—Cleveland Plain Dealer.

HUMOR

THAT MOTHERS' COLUMN.

The Editor Tells the Sweet Young Thing Why It Was Given Up.

"Yes," said the editor, "we had to give up that mothers' column."

"Dear me, I don't see why," answered the sweet young thing. "It seemed to me it was invaluable."

"Yes, that's what we all thought, including the very bright young woman who wrote it," admitted the editor.

"There didn't seem to be any problem of the home that she wasn't qualified to settle. But she finally married."

"That didn't lessen her ability any, did it?" asked the sweet young thing in surprise.

"No-o," replied the editor slowly.

"Of course she knew just as much as she did before, but somehow she didn't seem to be quite so certain of it. However, she kept up her work, even if she did show that she occasionally had doubts that never came to her before. She was a little shy as to some points regarding the management of the home, but she still knew all about the training of children, and of course that's the principal feature of a mothers' column."

"Of course," acquiesced the sweet young thing.

"At last, however," continued the editor, "she became satisfied that she wasn't even competent to lay down rules and decide knotty problems in the line of the management of a nursery."

"Dear me," said the sweet young thing, "that was very strange. When did she make up her mind to that?"

"About four months after her first baby was born," answered the editor.—Chicago Post.

An Unreasonable Mother.

Two small and lively urchins were attired in their best the other afternoon to attend the matinee with an auntie, and in the interval before her appearance escaped just a few seconds from under the watchful eye of their careful mother. When they reappeared after this brief absence, the youngest boy, Donald, was in a condition not to be described, but which necessitated at once a change of linen and general repolishing before he could be seen in polite society again.

"Donald! Donald!" exclaimed his indignant and long suffering mother. "What do you mean? Where have you been? Now, I shall have to keep auntie waiting while I dress you all over again. You are a naughty, naughty boy."

"Pshaw!" retorted Donald in an injured, defensive tone. "That ain't nothing. What 's makin' such a fuss about? I only crawled through the sewer twice."

—Louisville Courier-Journal.

Tolerated Them.

"Who are these people that live next door?" asked the caller.

"I've forgotten their name," said the wife of the prosperous pugilist. "They have queer ways, and they are rather poor, but they seem to be respectable. The husband, I think is a professor in some school or other. It takes all kinds of people to make a world."

—Chicago Tribune.

QUEEN'S JUBILEE.

EXTENSIVE PROGRAMME OF SPORTS IN THE AFTERNOON.

GRAND DISPLAY OF FIREWORKS IN THE EVENING.

The adjourned meeting of the sports and entertainment committee, in connection with the Queen's Jubilee celebration, was held in the City Hall last evening.

The convener, Mr. T. J. Maguire, occupied the chair and in a few well chosen remarks explained the object of the meeting.

The business to be transacted was the drawing of a programme of sports, etc. To facilitate this, special committees were formed to look after the sports and illumination.

The sports will consist of cricket, baseball and, probably, lacrosse matches as well as foot races and other athletics. These sports will take place at the exhibition grounds. The Gun club will also hold a field day at their grounds, where a shoot will be held.

In the evening a grand display will be given at the St. Francis river. All the boats, connected with the Boat club, will be illuminated. These will be stormed by an attacking party placed on the east side of the river, when a beautiful effect in fireworks will be obtained.

During the day all bicycles and boats in the city will be decorated, a prize for the best in each instance being offered.

A large number of trophies are also to be offered for athletic competition an appropriation of \$100, having been asked for this purpose.

After estimates of the appropriation, necessary for each department had been made it was found that the committee would require about \$500 to carry out their proposed programme.

The Jubilee arrangements have now developed to a stage which guarantees a day in Sherbrooke unequalled in the annals of the city. The Finance committee will immediately commence an active campaign for funds, when it is expected that all loyal citizens and subjects will subscribe liberally, and that a respectable sum will be forthcoming to defray the expenses of a grand demonstration.

The Jubilee arrangements have now developed to a stage which guarantees a day in Sherbrooke unequalled in the annals of the city. The Finance committee will immediately commence an active campaign for funds, when it is expected that all loyal citizens and subjects will subscribe liberally, and that a respectable sum will be forthcoming to defray the expenses of a grand demonstration.

After estimates of the appropriation, necessary for each department had been made it was found that the committee would require about \$500 to carry out their proposed programme.

TORONTO STREET RAILWAY STOCK.

Handsomely Profited Realized by Sherbrookers.

We are happy to learn that a number of Sherbrooke's people profited very handsomely in the recent rise of the Toronto Street Railway Stock. This is a valuable property whose stock has been at an exceedingly low figure for some time past. Even now it is not at a price at anything like its value.

For several months past it has stood at 70 and 73. The vote as to whether they should or should not have Sunday cars in Toronto was to take place on Saturday last the 15th. If it carried there would undoubtedly be a large advance in the price of the stock. The consensus of opinion seemed to be that it would carry, and so it turned out.

The majority was some 500 in favor of Sunday cars. The stock at once advanced to 80 and there was of course an immediate rush for sales. We understand that some holders of the stock here sold out at 79 and 79 1/2, realizing an exceedingly handsome profit.

LOSS \$250,000.

Toronto Again Visited By Fire.

John Eaton Co's Store Destroyed this Morning.

TORONTO, May 20.—The John Eaton Co's departmental store, at the corner of Yonge and Temperance streets, was destroyed by fire early this morning.

Numerous streams of water were soon pouring on the immense building but they looked altogether useless against the roaring flames that seemed threatening to take in the whole of the block.

HER EXCELLENCY SPEAKS.

On The Victorian Order of Nurses.

OTTAWA, May 20.—Her Excellency, Lady Aberdeen, addressed a meeting of Senators and members of Parliament yesterday, on the Victorian Order of Nurses.

OTTAWA, May 20.—At the Railway Committee meeting this morning, Hon. Mr. Blair, minister of Railways, speaking on Casey's bill re drainage across railway properties, announced that he proposed bringing up the whole question of railway construction and requested that Mr. Casey withdraw his bill.

Dissatisfied With Canadian Government.

TORONTO, May 20.—A London cable to the Telegram says that importers of Canadian cheese and butter in that city expressed themselves as much dissatisfied at the Dominion Government's neglect in failing to subsidize cold storage steamers between Canadian ports and London.

FLYNN WILL RESIGN TODAY.

Marchand Invited to Spencerwood.

MONTREAL, May 20.—The Hon. Mr. Marchand has received an invitation to dine at Spencerwood on Monday, May 24th, and it is generally believed that he will be premier by that day, as it is stated on good authority that Premier Flynn will hand in his resignation this afternoon.

WILL NOT RESIGN TILL SATURDAY.

QUEBEC, May 20.—It is said on good authority that the Hon. Mr. Flynn will tender his resignation, and that of government on Saturday.

TURKEY QUILTS.

First Takes Dhomoko. Then Murders 2000 Greeks.

LONDON, May 19.—Turkey has, at last, ceased her hostilities against Greece, but not before the whole of Christian Europe has been disgraced and their diplomats seemingly humbled before the Sultan's gory throne.

The effect of a revolution is availed with the keenest apprehension. The conditions for a revolution are more aggravated than they were in 1870 in Paris. The Greek people are of much the same temperament as the Parisians. The popular rage and grief are indescribable and it is impossible to believe that they will keep within bounds.

In fact not short of a miracle will prevent a revolution and should one break out Greece will be thrown into a state of anarchy and ruin. The position at present is a most desperate one and to-day is looked upon as the most critical one for the country and the present dynasty.

MONTREAL CELEBRATION.

Warships Will Be Present.

MONTREAL, May 20.—Admiral Erskine, commander of the North American squadron, has written Mayor Wilson Smith from Bermuda, under date of May 12th, promising to come to Montreal for the Jubilee celebration with as many vessels of the squadron as possible, if the exigencies of the public service should enable him to do so.

RAILWAY COMMITTEE

Hon. Mr. Blair Makes Important Statement.

OTTAWA, May 20.—At the Railway Committee meeting this morning, Hon. Mr. Blair, minister of Railways, speaking on Casey's bill re drainage across railway properties, announced that he proposed bringing up the whole question of railway construction and requested that Mr. Casey withdraw his bill.

HON. J. R. SEDDON.

Premier of New Zealand.

OTTAWA, May 19.—New Zealand's Premier, Hon. Richard John Seddon, who is now in Ottawa on his way to London to attend the Queen's Diamond Jubilee, is a very remarkable man. Thirty years ago he migrated from England to New Zealand in search of his fortune. His popularity and ability have raised him to the high position he now holds.

TO SHELVE MARCHAND.

Is a Scheme on Foot to this End?

TORONTO, May 18.—The Toronto World calls attention to-day to a "well authenticated rumor" that Hon. Mr. Marchand is to be overlooked and Hon. Horace Archaumont called upon to form a government.

Communications have been passing between Hon. J. I. Tarte and Lieutenant-Governor Chapeau and the former gentleman is urging the latter to call upon another than the present Liberal leader.

A Liberal member from the Eastern Townships said to a World representative, "These intrigues between Spencerwood and the department of Public Works at Ottawa must be resented and we want Mr. Marchand called."

A RICH UNCLE DIES.

His Heir in Canada Will Get \$250,000.

MONTREAL, May 20.—Mr. James Mayhew, of Montreal, who has been recently in the employ of the Post Office department, received yesterday a letter from England informing him of his uncle's death and that he was heir to \$250,000.

PROVINCIAL W. C. T. U.

Convention at Westmount this Month.

MONTREAL, May 20.—The provincial convention of the W. C. T. U., will be held at Westmount on May 28-29th. Over 200 delegates are expected to be present and preparations are being made which will ensure a very successful meeting.

AUTUMN.

How beautiful the tree shadows lie on the pale grass of the lawn.

The trees are like a golden fountain's spray. Like golden waters raining.

Which is more beautiful, the living tree, Like golden waters shining.

SAVED BY A WHEEL. I had come to Florida to take up an appointment as assistant engineer on a new line of the great millionaire hotel owners.

There were five white men only in residence at the camp, and the number of darkies varied generally between 70 and 100.

Two weeks after his arrival, the catastrophe occurred. Marriot, the paymaster, with his colored servant, Cicero, drove to Warrenton one Saturday to draw the week's money from the bank there.

Five miles from camp, where the road ran through a moss hung oak scrub, the pale starlight revealed a horse, a broken buggy and two riddled lodges.

Four furious men were soon scouring the country for assistance, and ere morning a strong party of white settlers and planters were following with bloodhounds the trail of the cowardly scoundrel.

Port Leas and ours are now by no means the only bicycles you may see spinning down the beach by moonlight.

Touch Talk Failed. It was recently suggested that it would be a vast improvement of the existing method of teaching deaf mutes to talk.

Two hours had passed. Scarcely five miles now before I must turn to the left into the track cut through the scrub from the camp to the beach.

The Four Friends. Nearly every man can count four friends on the tips of his fingers.

John replied: "Four clever fellows, each in his own way. When Bill does a thing, you know it's effected."

And so had been talking about me. Another curious outcome of the innovation developed into an intolerable subservience of discipline.

What a Local Minister Says. I have been using the great North American Indian Rheumatic Cure and am glad to say it has been very helpful to me. Rev. J. H. HUNTER, Coaticook, March 19th, 1897.

Well in Four Weeks. I was afflicted with sciatic rheumatism for fifteen years, and last April I got a bottle of the Great North American Indian Rheumatic Cure, and in less than four weeks I was a well man and have been perfectly free from rheumatism ever since. I would gladly recommend it to anyone who has this terrible disease. MATTHEW CLARK, North Coaticook, March 18th, 1897.

Intense Suffering Relieved by One Bottle. This is to certify that about four weeks ago I was taken with a violent attack of rheumatism. I was so bad that I could not leave the house, and at times confined to my bed. I got a bottle of the Great North American Indian Rheumatic Cure, and to-day I am perfectly free from pains, and well satisfied that this is a good medicine to cure the rheumatism. WM SMITH, Trar. Coaticook, Que., March 22nd, 1897.

One Bottle Cured Him. I have had the sciatic rheumatism, and my pains were intense. I could not work or sleep for four months. About four weeks ago I got a bottle of the Great North American Indian Rheumatic Cure, and I am thankful to-day that I am a well man. I can cheerfully recommend this medicine to anyone. ALEXANDER LAMOURNE, Barford, Que., March 18th, 1897.

One Bottle Generally Enough. To whom this may interest: About a week ago I was taken with a very violent attack of rheumatism. My pains were in-

The Greatest Wonder of the Age. RHEUMATISM CURED. Rheumatism is caused by uric acid formed in the blood. This acid is poisonous matter and is nothing more than the waste, worn out matter—the ashes, so to speak, of the fire that burns when you think, speak, act or work.

North American Indian Rheumatic Cure is the only thing that has ever been known to effect a perfect cure. It is a new thing to the white man, but an ancient thing to the North American Indian. This medicine contains no drugs, and is made of purely roots, herbs, barks, seeds and flowers gathered by the dusky sons of the forest.

WM. SMITH, Coaticook, Que. Sole Agent and Patentee for Canada and the United States. TESTIMONIALS.

Will Cure in Four Weeks. This is to certify that I have been afflicted with the rheumatism for the past seven years, and at times confined to my bed. About a month ago I got a bottle of the Great North American Indian Rheumatic Cure, and to-day I am a well woman. I have no hesitation in recommending the medicine to cure the worst cases of rheumatism in four weeks time.

Sciatic Rheumatism Cured by Two Bottles. To all who suffer with rheumatism: In August, 1895, I had a violent attack of sciatic rheumatism. Words cannot express the intense pain which I suffered. I got some of the Great North American Indian Rheumatic Cure, and before I had used two bottles I was perfectly well, and have been since. I know this medicine will cure any case of rheumatism in the worst form.

Intense Suffering Relieved by One Bottle. This is to certify that about four weeks ago I was taken with a violent attack of rheumatism. I was so bad that I could not leave the house, and at times confined to my bed.
