

MUNICIPAL ELECTION ISSUE BECLAUDED BY DOUBT AS TO DEFINITE DATE FOR VOTING

Rumor Persists P.C.'s Will Not Open Until November — No Scarcity of Candidates — Hon. Fernand Rinfret, Camilien Houde, Mederic Martin, Prominently Mentioned for Mayor — Number of "Dark Horses" — Ald. Max Seigler and B. M. Garfield Considered Certain of Nomination.

The political situation, as it affects the municipal elections, is at the present moment beclouded in a welter of conflicting opinion. The focal issue would appear to be as to whether the elections themselves will actually be held in April! Rumor has it, and this in circles which are considered usually well-informed, that there is serious possibility of postponement until November. It is asserted, in fact, that a bill with just this end in view has been prepared and is in readiness for presentation before the Quebec Legislature at an early date. Various reasons are given to substantiate the report, the principal of which is that the present Administration requires an extension of time so that it may complete the details of the onerous burden it has been compelled to carry, owing to extraordinary economic conditions, and to the vast demands upon it to meet the exigencies of existing unemployment situation.

Specific questions directed at those considered best in a position to answer them on this point have so far thrown little light on the subject. Be that as it may, however, there is seemingly no scarcity of candidates. For the majority such outstanding figures as the Hon. Fernand Rinfret, the present Chief Magistrate, Ex-Mayors Camilien Houde and Mederic Martin, and a number of "dark horses" are prominently mentioned, while it is believed the majority, if not all, of the present sitting aldermen will seek re-election. There will be few, if any, voluntary retirements, it is thought. In the North End Alderman Max Seigler, of Laurier Ward, will, in all likelihood, stand on the record of his achievements, and present himself before his constituents for another term, while, B. M. Garfield, president of the Business Men's Association, made it clear in a statement issued on Friday last that he would accept the candidacy in St. Michael's "if such was the desire of the people." And since "the people," or a very large proportion, thereof, have made it abundantly clear that such is in fact their desire, there can be little doubt of Mr. Garfield's candidacy.

Obviously, however, no move of any consequence can definitely be made until the decision as to the date of the elections has definitely been reached, and this decision will naturally be awaited with eagerness on the part of those interested—which should mean every voter.

ST. MICHAEL'S CIVIC LEAGUE BRIDGE AND DANCE

The first annual Bridge and Dance of the St. Michael's Civic League will take place at the Chevre Kadisha Hall, corner of Fairmount and Hutchison streets, on Tuesday, January 16th next, at 8 p. m. Cards will be played during the early part of the evening, and arrangements call for dancing from 11 o'clock until close. Prizes will be offered, refreshments served, and a good programme of entertainment has been provided for. Tickets are 25 cents, and may be obtained at the door, or from the following members of the committee in charge: E. Goodman, M. Colbentz, B. Gersberg, L. Marcovitch, H. Fishman, M. Bernstein, or M. Slapback, chairman.

Dominion Bank League Bowling at Joslin's

Results of Dominion Bank League bowling at Joslin's Academy last night were:
Bleury Street Blues won three games from St. James Street Blues.
Happy Five won two games from St. James Street Reds.
Fifth three, Richardson, 439.
High single, Haines, 152.

North Branch "Y" Board Will Present Reports

On Monday evening, Jan. 15, the board of management of the North Branch Y.M.C.A., will meet under the chairmanship of Mr. E. C. Townsend. Important reports on programme activities will be presented by I. R. Carlin, chairman of the Boy's Division, commenting on the busy programme of boy's activities. There are now 414 boys enrolled in the Boy's Division, and participating in a wide range of activities calculated to fill leisure hours with worthwhile interests. More and more parents are turning to the Y.M.C.A. for leadership in a leisure time activities, particularly during these trying days when so many older boys and fathers are unemployed. Plans will also be discussed for an exhibition of boys interest group work and recreation display on Feb. 24. Mr. C. J. MacGerrigle, assisted by Henry F. Peacock, are the secretaries under the supervision of Mr. Carlin's committee in charge of this work. Mr. J. H. Swift will report progress in arrangements for a social evening for senior members and their wives. This is one of the annual social events of the Senior Division.

Mr. W. A. Wilson will present his report for the Foreign Division Committee, showing that the amount of \$150 has been raised by friends of the North Branch for the support of secretaries in the Foreign field. One of the men in the foreign field in whom North Branch Y.M.C.A. is particularly interested is Chas. Patterson, senior secretary for India. Mr. Patterson was one of the founders of the North Branch Y., 25 yrs. ago and is a brother of Russel Patterson who is executive secretary of the Boy Scout Association of Montreal. A financial report will be made for

AFTER CALIFORNIA'S DISASTROUS RAINSTORM

These pictures attest to the severity of the rainstorm that deluged Southern California, taking a terrific toll in lives and property. Top, a street scene in Los Angeles, where canoes turned out to be the most suitable means of transportation. Left is a section of highway demolished by the downpour, and, right, an automobile which was one of the many washed away and almost completely buried, being dug out.

SACRED CONCERT
AT TEMPLE BAPTIST
A Sacred Concert, featuring the Montreal Welsh Male Voice Choir, will take place on Tuesday, January 16th, in the Temple Baptist Church Hall, corner Durocher and Bernard avenues, Outremont. A silver collection will be taken at the door. The proceeds of the concert, which is given under the auspices of the Temple Choir, will go to the choir fund.

QUESTION OF WIDENING AGAIN BEFORE CITIZENS

Delegation meets Ald. Monette yesterday — Encouraging outlook offered to officials of Business Men's Association.

Widening of Park Avenue from Mount Royal, northward to Van Horne, abolition of outside stairs, and the creation of a commercial district in this area will probably follow the reception today by Ald. Joseph Monette, as acting chairman of the Executive Committee of a large delegation representing 80 per cent of the proprietors in this district who asked these improvements.

North Branch "Y" Group To Visit Oil Refinery

A trip to a new oil refinery situated in Montreal East has been arranged for Sat., Jan. 20th by the Rubberneck group of North Branch Y.M.C.A. A special autobus will leave the "Y" at 2:30 p.m. A first hand insight into the refining of petroleum will be had, and the process of cracking and mixing of ethyl with gasoline will also be seen. The group making the trip is limited. However there are a number of vacancies and any young man anxious to make this trip should get in touch with Mr. Porteous, executive secretary at CR. 2253.

the month of December by Mr. Porteous, the executive secretary. Careful attention is being given to the financial stability of the association, in view of the difficulty of raising income, and the great expense involved in maintaining services of membership for 750 individuals, most of whom are paying memberships which are below the actual cost to maintain, and many of whom are enjoying free membership privileges. The financial year of the association ends on March 31st and in the nine months operation to date, the deficit in operations has been kept below \$500.00. It is hoped that through an increase in the number of smaller subscriptions from interested people in the community, the Y.M.C.A. will be able to balance its budget at the end of the term. It is hoped that it will not be found necessary to further cut an already too drastically trimmed budget of expenditures. Income from membership, and subscription sources for the month of December showed an improvement of the same month last year, and this inspires some hope for the three months to come of this year.

FAIRMOUNT-ST. GILES CHURCH NOTES

On Sunday evening next at 7:30 the minister, Rev. B. H. Robinson will follow up the address of last Sunday evening with a short series of sermons under the caption, "The Man That Nobody Knows." These sermons have a special bearing on the religious ideas of youth, and the problems of those in the very prime of life and activity, but should be of interest to all ages. At certain intervals this series may be interrupted by an address on some outstanding world Christian, whose life seems to illustrate the noblest religious ideals. Appropriate selections will be rendered by the choir and soloists.

A High School teacher of Omaha pays his accounts by cheques printed on a postal card and mailed to his creditor.

Appreciation Voiced By St. Michael's Labor Club

The St. Michael's Independent Labor Club desires, through the Examiner-Courier, to express its thanks to those North End citizens through whose generosity it was enabled to arrange an elaborate Christmas Tree celebration at its headquarters on Bernard Avenue during the holidays. A hundred children were entertained with an abundance of gifts and good things, and an additional unexpected but none-the-less welcome grown-ups were amply taken care of. All present expressed themselves as having thoroughly enjoyed the occasion. Arrangements were in charge of President J. B. Daze, vice-president H. D. Tansey, and Secretary P. Rinder, while a committee of ladies under the direction of Mrs. Daze and Mrs. Rinder took care of the tables.

FAIRMOUNT-ST. GILES CHURCH NOTES

Fairmount-St. Giles during January will be the Session, Friday, Jan. 19th, 8 p.m.; the Official Board, Friday, Jan. 24th, 8 p.m.; the Annual Meeting of the Congregation, Wed., Jan. 31st, 8 p.m.

The Women's Association under the direction of President Mrs. P. J. Jordan, and assisting conveners are making full preparation for a large "Hostess Tea" on Tuesday, Jan. 30th at 3 p.m.

The Mission Circle and Women's Missionary Auxiliary met on Monday evening and Tuesday afternoon, respectively and heard interesting addresses from Mrs. Bessie Cairns, a Hemingford young lady, now on furlough from South China.

MUSICAL EVENING AT FAIR-ST. GILES

A very interesting Musical Concert will be held in the Fairmount-St. Giles Assembly Hall, on Monday, January 15, at 8:15 P.M. Heading the list of artists, is the Montreal Citadel Band, under the direction of Mr. J. N. Audouin. Among others are: Miss Norma McLean, violinist; Miss Jean S. Williamson, Elocutionist; Miss H. McAuslane, soprano; Mrs. B. C. Case, Contralto; and Mr. T. M. Campbell. The accompanists are: Mr. Willis P. Malone, and Miss M. Cram. The evening is open to the general public, and an admission fee of thirty-five cents is being charged. A thoroughly enjoyable evening is promised.

LOCAL LANDLORDS ARE URGED TO ADVERTISE DWELLINGS AND RENTALS WILL SURELY FOLLOW

Much Moving Will Be Order of the Day on and About May First — Survey Shows Many Families Forced to Vacate — Landlord Should Start Campaign Early — Some Properties Have Been Empty Two Years or More — Lower Prices Are Seen in Some Cases.

According to a survey made during the past week here in the North End by a representative of the Examiner-Courier a large part of the local population will be on the trek on May first and the annual exchange of houses and flats will begin. Already landlords are aware of the fact that many families, through circumstances over which they have no control will be forced to seek cheaper quarters and at the same time residents of other municipalities that have been paying a higher annual rental will be forced to journey here to find lower rentals that they can afford.

The landlord who wishes to rent his flats, houses or apartments should realize that a steady and persistent advertising message in the right mediums will go a long way towards insuring him that his premises will not remain vacant after May the first.

Many of the local landlords have had their property empty since last May and some few have had their property vacant for two years or more. In many cases this is due to the fact that the landlord himself is asking far more for the property than it is really worth and far more than the residents of the district can afford to pay. On the other hand, however, the majority of these flats, apartments and houses could have been rented if the landlord had advertised them in the proper medium and at the right price. It is much better for the landlord to lose a few dollars a month on the rent than to have to lose the entire yearly income and then heat the empty building throughout the winter as well.

Now is the time for the landlord to get busy, the residents will be looking for bargains this year and will begin looking early. Advertise the advantages of your properties and you will rent them.

Attractive Antique Shoppe Opens on Park Avenue

Gilick Antique Shoppe now open at 5167 Park Ave., announce that their new store will be under the personal direction of L. Gilick, who has had long experience in the antique business. The Shoppe carries a large and varied selection of antique furniture, silver, lamps, bronzes, china-ornaments, etc. In addition there will be an up-to-date upholstery department, doing all kinds of furniture re-covering, repairing and remodelling. Estimates will be given free.

A cordial invitation is extended to the public to come in and inspect the Shoppe and its wares. The telephone number is CRescent 5361.

A RECORD IN SAFE TRANSPORTATION

Montreal, January — One passenger killed in a train accident out of a total of 489,048,529 carried 16,931,346,109 miles is certainly a record to be proud of but this is what happened on Canadian and American Railways in a single year, according to information supplied by the Bureau of Railway News and Statistics, which embraces all railways in North America. This outstanding showing, Canadian National Railways officials state, exemplifies the high degree of perfection which railway travel has reached and is the result of educating the employees along the lines of safety and the institution of safety devices.

CANADIAN MISSION NOTES

The regular Sunday Services were held in the Rialto Hall, 5711 Park Avenue, at 7 p.m.

Miss Chiyo Thomas, the first speaker of the evening, used as her text the M.I.A. slogan for 1933 and 34, "Inspired by the refining influences of Mormonism we will develop the gifts within us."

We may note as some of the refining influences: The idea that every act of man has a definite religious significance; that the personality of man goes on for eternity as does matter and energy; that God will yet reveal many marvelous things that will help man to come to a higher plane of living. These and many others lead us all to develop the gifts of faith, intelligence, appreciation of beauty, understanding and many others lead us all to develop the gifts of faith, intelligence, appreciation of beauty, understanding and many others.

ers that are in us and only need cultivating to make them thrive.

John B. Lake spoke of the Book of Mormon, small but very important in the proving the authenticity of the book of Mormon as whole. The book sets forth four claims which are proved by the archaeologists of this present age of science. They are: The first settlers of Central America came from the tower of Babel; they brought with them an account of the creation and floods told in Genesis; they built up a remarkable civilization; they were succeeded by a civilization much the same as their own at a later date. In considering the proofs of the narrative itself and at the same time thinking of the available information at the time the book of Mormon was written—1829—, a thinking person comes to the conclusion that if the narrative is correct the book itself is certainly of divine origin that being the belief of the Latter Day Saints.

Gossip Of Motor Row And Some Timely Repair Tips

Some Car Companies Are Installing Radio as Standard Equipment—Most Cars Are Wired for Receiving Sets—Germany Builds Powerful Motor Busses — 1934 Will See Autos in Brighter Hues.

It's a mystery to us . . . we men . . . the amount of effort the car companies put into the struggle of keeping information from seeping from behind the closed doors of their research laboratories . . . and yet the information leaks out to rival companies . . . take individual suspension, for example . . . not one company, but several, let it be known almost simultaneously that this new feature would be found on their 1934 models . . . research workers seem to have encountered mighty little trouble in learning what their competitors contemplated in the way of mechanical developments earlier in the year when the cars were still at the draughting board stage.

There's a motorist up near Aurora who has had a bright idea . . . He is I. Thornton, who runs a poultry farm just outside there . . . every time Mr. Thornton sets out for a long drive in his truck he fills up with tobacco nine pipes . . . then he places them all in a little rack he built on the dashboard, and smokes 'em one after another as he rolls along.

When better optimists are produced, the automobile industry will produce them . . . with 1933 a 2,000,000-car year, there are those who take this gain over 1932 as a stepping stone for calling 1934 as a 4,000,000-car year . . . and that is going some . . . It would mean that the industry would have to make and sell just two cars for every one sold last year . . . and that would be going some . . . however, there is a wide belief in the motor centres that this bright new year will register at least a 20 per cent. gain over 1933 . . . to back up that statement, it can be pointed out that one major car company has already 10,000 retail orders for its new cars . . . and that another had on hand at the end of one day last week \$4,640,000 worth of orders, the largest single day's business in the entire history of the company.

It looks like a big year ahead for radios in cars . . . for one thing, every make of car this year will be wired for the installation of a receiving set . . . and for another thing, one company now announces that it will install radio as standard equipment in one series of its new models.

There's a new word for your automotive vocabulary this year—"pant" . . . that's what the new rear-wheel

shields are being called . . . and why not—the new style fenders that sweep down over the front wheels are now almost universally designated in motor-ordom as "skirts."

Germany's new strong arm methods are even extending to busses . . . claimed to be the most powerful in the world, a motor bus has been developed in Berlin that boasts an engine giving 320 horsepower . . . it's a twin-six motor.

The last echo of the pomp that was Tammany Hall sounded softly in New York the other day . . . the car for which Jimmy Walker, one-time mayor and playboy, paid the neat sum of \$16,500 went under an auctioneer's hammer for \$3,400 . . . bidding on the former mayor's car, a masterpiece of coachwork, began at \$50.

You motorists in the last three years have been demanding service of your tires far in excess of the safe mileage built into them . . . that's the verdict of a large rubber company, which reports that in 1926 the length of time the average tire was kept on the wheel was 1.53 years but by 1930 it had jumped to 2.5 years, and in 1933 to 3.05 years . . . this growth has not been warranted by the improvements in tires during that time, the report continues, and it shows that the average motorist has been running his tires a good bit beyond the safe mileage stage.

The well-dressed automobile of 1934 will wear a little brighter colors, experts assert . . . black will still be the hue for the fashionable automobile, but attempts have been made in the new crop of cars to brighten the general effect with varicolored trims and hood louvers . . . chromium plate, by the way, will be much less used on the smart car of 1934.

And here's a handful of motor gossip from old England: When Sir Malcolm Campbell, who burned up the sands of Daytona Beach faster than any human travelled on land before or since, travels placidly over English roads, he does so to music . . . Sir Malcolm has five of his private cars now equipped with radio sets . . . the first royal automobile in the world, the car which was supplied to King Edward in 1898, is turing English motor shows as a special attraction . . . top speed was 20 miles per hour, it is still in good mechanical condition and still bears the royal coat of arms . . . a new type of safety glass for cars has been developed over there . . . when it is struck, it crumbles into small crystals, suggestive of coarse sugar . . . consisting of one pane of glass only, it is guaranteed against discoloration and blisters, and, what's more, it can be twisted ad bent without breaking.

And here's a handful of little repair tips that should come in useful some day, it tucked away in the back of your mind: Finger prints may be useful for cataloguing criminals, but they are out of place on headlight bulbs. You should be careful when installing new bulbs to wipe them clean. Even the mark of your finger will reduce lighting efficiency.

In cleaning distributor points, some motorists make a mistake that often makes necessary the early purchase of a new set. Instead of be-

W. S. Davis

Do You Know? . . .

Dick Powell, who has more than twenty-five fan clubs named in his honor, asks for a photograph whenever an admirer makes that request of him? He has a collection of more than 15,000 fan photos.

Hal Le Roy, who came from the Broadway stage to Hollywood to portray "Harold Teen," has devised more than thirty-five tap-dancing routines in popular use in American vaudeville today, although Hal is just a lad of nineteen?

Barbara Stanwyck, selected to play the title role in the forthcoming Warner Bros. picture, "Gambling Lady," eschews card-playing?

Al Jolson becomes nervous before the cameras if his wife, Ruby Keeler, is watching? And vice versa? They never appear on a movie set together, although both are working at the same studio, Warner Bros. First National?

"A Man's Castle" Has Critics Lost For Superlatives

Spencer Tracy and Loretta Young Co-Star in Lawrence Hazard's Vehicle

Frank Borzage, three times winner of distinguished awards for directorial genius, has sent critics on a joyous search for new adjectives through submitting "A Man's Castle," which he recently completed for Columbia.

"A Man's Castle" is from the play by Lawrence Hazard, adapted for the screen by Jo Swerling, with Spencer Tracy and Loretta Young in the principal roles, and has been proclaimed the screen's greatest love story since "Seventh Heaven." The later and "Bad Girl" placed Borzage in an exalted position among star directors, but both have fallen far short of the emotional appeal he is said to have crowded into "A Man's Castle."

The story centres in a penniless girl and a hard-bitten rover—the latter alert to the toot of the whistle of every passing train—who work out their problem and develop salvation in the squalor of a New York depression camp. Walter Connolly, Glenda Farrell, Arthur Hohl, Marjorie Rambeau and Helen Jerome Eddy are included in the cast, and the production is the largest made

ing content to remove the raised places on the tungsten, they try to eliminate the pits. The depressions make no difference in the efficiency of the units. The raised spots do.

The fan and its accessories are about as easy to forget as any other hidden unit of your car, but the motorist owes a bit of fidelity to this vital adjunct of the cooling system. The fan deserves regular lubrication and the belt, when worn out, should be replaced without delay.

The noises that your car makes are excellent clues to the maladies it may have. As many of today's automobile instruction books indicate, there are impressive differences between knocks, squeaks, squeals, rattles, whistles, thumps, etc.

On level ground, the well lubricated car on which the brakes are not sticking should be fairly easy to roll by hand. If it is not, lubrication, brakes and tire pressures might be checked to advantage.

Any tendency of the speedometer to vibrate should be met with an inspection by an expert on these delicate instruments. The vibration may be due to loose unions or looseness in the flexible shaft or too sharp a bend in the latter. A lack of lubrication or incorrect meshing of the gears are two other causes of speedometer troubles.

OUTREMONT PRESBYTERIAN CHURCH NOTES

The Friday evening meeting of the Week of Prayer will be held in the church commencing at 8 o'clock. The address on "The Worldwide Christian Mission," will be given by the Rev. J. F. Morris, Rector of the Church of the Ascension. At the morning service, Mr. McLean will continue the Talks on Prayer with "Some Further Achievements of Prayer." The evening service at 7.30 will be conducted by the Rev. H. S. Lee, B.A., of the St. Andrews Church, St. Lambert. At 8.45 p.m., the Young Peoples Society will hold their regular devotional meeting in the hall of the church. Mrs. H. H. Thomson will give a talk on "Hymnology."

The next meeting of the W.M.S., on Monday at 8.15 p.m. promises to be of exceptional interest. Mrs. Arthur Reeve will give an illustrated talk on the Oberammergau "Passion Play".

The evening of January 26th, has been chosen for the Annual meeting of the congregation, at which reports of all church activities will be received and passed.

FASHION NOTES

Elizabeth Allan has started a new fad, and all by accident. She was glimpsed on the M-G-M lot, dashing to work in smart brown flannel slacks worn with a vivid blue shirt. Her low-heel strap sandals in brown were perfect with the slacks, but Miss Allan started to wear them while recuperating from an injured foot. And now all the film stars are "going for" them.

Old-fashioned steel hat pins return to the mode as Fifi D'Orsay wears them on a dramatic black satin sailor hat in "Going Hollywood." Two steel hat pins are crossed at the exact front of her hat to form an interesting and decidedly different accent for the tailored costume.

The furst beret is a favorite Hollywood fashion for formal afternoon usually in fur to match one's coat. Jean Howard wears a Russian cap of black galyak with a tiny nose veil with her black galyak coat, over a black velvet afternoon frock with a bow of the same galyak posed at the neckline.

Jeanette McDonald visited the Metro-Goldwyn-Mayer studios to discuss her new starring role which she assures her waiting public is to be "Words and Music." She was very smart in a sheer black wool ensemble of black frock with three-quarter swaggar jacket accented with white wool bands in a fabric so loosely woven it looked like linen.

Florine McKinney is one of the most popular players and seldom misses any of Hollywood's social events. She attended the opening of a new club very smartly dressed in the new tri-tone evening ensemble of black frock with white evening jacket, worn with a dashing scarlet satin bolero girdle.

RESOLUTIONS OF THE STARS

Edward G. Robinson—Never to play a gangster on the screen again; but can I refuse if my studio finds me a corking story!

Joe E. Brown—To stop eating food in scenes in my pictures. My producers feed me too well, and sometimes for re-takes I have to eat the food all over again.

Ruth Chatterton—To play more light comedy roles like my recent one of a smart business woman in "Female."

William Powell—To get that sailing schooner right away. I have been without a boat for too long a time.

Dick Powell—To play dramatic roles on the screen before you and you and you brand me as a crooner.

Ricardo Cortez—To play a real nice person on the screen for a change, before my face wears a perpetual sneer.

Richard Barthelme—To make a round-the-world cruise every year of my life and find a new port each time.

James Cagney—Never to sock a woman in pictures again—unless my producers are emphatic and make me do it.

Paul Muni—To divide my time between the stage and the screen as much as possible and get in some vacation time between appearances on my new California ranch.

What One Girl Wore

Choose practical clothes for your winter cruise in the south. Costumes that can be worn later in town during the spring season.

Prints are highly favored for resort fashions. There are lovely evening gowns of either printed crepe or painted chiffons.

Exceptionally practical and up-to-the-minute is the ensemble sketched today. It may be worn for travelling or it will make a smart morning costume at the resort. It consists of a coat and suit cut of the same cloth and on similar lines. For example, the coat shows wide revers, sleeves full at the shoulders, a double-breasted effect, patch pockets and long slim lines. The two-piece suit beneath is cut just like this—the short jacket shows the same double-breasted effect, the same revers, the same pockets. There is just one difference—the cuffs on the sleeve shoulders of the jacket must of necessity be modified so that they slip under the coat sleeves easily and do not make for a bulky appearance. The skirt worn with the suit jacket is straight and slim, similar to the skirt of the long coat.

The chosen fabric is a soft checked wool in navy and beige. Navy bone buttons are used and the costume is completed with gaudet gloves of navy kid and a navy blue felt hat finished with a beige grosgrain banding.

The extras are originally from Sweden and wear their own native costumes. Among them are opera singers, concert singers, players from the Royal Stockholm Theatre, singers from Svenska-Songerna Harmoni, Los Angeles' finest Swedish chorus.

Quaint Costumes For New Picture Musicale

"Let's Fall in Love," Columbia's musical picture, boasts of many odd features. Firstly, in the sequences laid in Sweden, the costumes are not artificial, but were dug out of trunks of Swedish folk who wore them once in their own homelands.

The extras are originally from Sweden and wear their own native costumes. Among them are opera singers, concert singers, players from the Royal Stockholm Theatre, singers from Svenska-Songerna Harmoni, Los Angeles' finest Swedish chorus. Fritz Norden, for example, came to America with the Swedish National Dancers. Emil Ostlin was featured by the Rosunda Film Studios in Sweden and holds the world's talking championships, having talked for 174 hours without a halt. The oldest costume, 172 years old, is worn by John Kruse.

dergo on the screen. Ann Dvorak—To make my new farm a paying proposition, so I'll never worry about such a thing as success on the screen. But I hope to have that too.

Ruby Keeler—To improve my golf game during the coming year. My last score was 92, although once I got 82. There must be a happy medium.

Warren William—To get that sailing schooner right away. I have been without a boat for too long a time.

Dick Powell—To play dramatic roles on the screen before you and you and you brand me as a crooner.

Ricardo Cortez—To play a real nice person on the screen for a change, before my face wears a perpetual sneer.

Richard Barthelme—To make a round-the-world cruise every year of my life and find a new port each time.

James Cagney—Never to sock a woman in pictures again—unless my producers are emphatic and make me do it.

Paul Muni—To divide my time between the stage and the screen as much as possible and get in some vacation time between appearances on my new California ranch.

Bette Davis—To play roles on the screen where I don't have to get all dressed up and be so much of a fashion model, and also to play roles where I don't have to use a Southern accent. After all, I was born in Massachusetts!

NEW USES FOR MINCE MEAT AFTER HOLIDAY

Many Housewives Have Some on Hand From Yuletide Season—Tested Recipes Will Solve Problem—Can be Used Any Time

Here are just a few examples of the many ways in which mince meat can be used—in puddings, cakes, sauces and the familiar pies and tarts. These suggestions will be found useful by the housewife who prepared a quantity of mince meat for Christmas and still has a portion of it on hand.

Baked Apples (With Mince-meat)

Core apples, being sure to remove all the core but not to cut through the opposite side. Pierce every apple in several places with a fork so that the steam can escape. Arrange in a shallow baking dish. Fill the cavities in the fruit with mince meat and pour over all a syrup made by boiling 1 1/2 cups of water and 1 cup of sugar together for 6 minutes. Bake in a hot oven (400 deg. F.) until tender, basting frequently with the syrup.

Mince-meat Cookies

2 cups flour
2 1/2 teaspoons (level) baking powder
Few grains of salt
1 1/2 cups mince meat
1/2 cup shortening
1/2 cup sugar
2 eggs, well beaten
1 teaspoon vanilla.

Note: Slightly more or less flour may be required, depending on type of flour and the moisture of the mince meat. If mixture seems too dry, add a tablespoonful of milk.

Mix and sift the flour, baking powder and salt, add the mince meat and mix thoroughly. Cream the shortening, add sugar gradually then the well beaten eggs and flavoring. Combine the mixtures. Drop by small spoonfuls on a greased baking sheet and bake in a fairly hot oven, 380 to 400 deg. F.

Mince-Meat Cup Cakes

Use same recipe as for Mince-Meat Cookies, adding an extra teaspoonful of baking powder and enough milk to make of the consistency of a fairly stiff cake batter. Bake in well-buttered cup cake tins or muffin tins, in a moderate oven, 375 deg. F. Frost if desired.

Mince-meat Buns

Mince meat may be added to an ordinary baking powder biscuit mixture, to make spiced fruit buns. The mince meat may be mixed with the sifted flour, baking powder and salt, after the shortening has been rubbed into these dry ingredients. About 2 level tablespoonfuls or slightly more shortening to 1 cup of flour should

be used, and, if desired, a beaten egg may be added. The dough should be soft, but not too moist. Oven temperature required is slightly less than is required for the plain baking powder biscuits—about 400 to 425 deg. F. will be correct.

Mince-meat Fruit Cake

2-3 cup butter
1 cup granulated sugar
1 pound mince meat
1 cup currants
1 cup broken nut meats
1 teaspoon vanilla
1-3 cup grape jelly
3 eggs, beaten until foamy
2 1/2 cups pastry flour
1 1/2 teaspoon baking powder
1/2 teaspoon soda
1/4 teaspoon salt.

Cream the butter and sugar, add the mince meat, currants, nuts and vanilla, and the jelly which has been whipped with a fork until soft. Mix thoroughly. Add the well-beaten eggs and blend. Sift the flour, baking powder, soda and salt together once and fold into the mixture. Pour into a greased tube pan, the bottom of which has been lined with waxed paper. Bake in a slow oven (325 deg. F.) for 1 1/2 hours. Cool for 20 to 30 minutes before removing the cake from the pan. Serve at once or age for several weeks, as desired.

Note: As the moisture in mince meat and the absorption quality of the different brands of flour vary considerably, it is well to add the flour very gradually, as slightly more or less may be required. The mixture should be stiffer than an ordinary butter-cake batter but not quite so stiff as a Christmas fruit cake mixture.

Mince and Cranberry Pie

1 1/2 cups mince meat
1 1/2 cups cooked cranberries
1/2 cup sugar
Pastry.

Mix mince meat, cranberries and sugar. Place in a pie plate lined with pastry and place strips of pastry over the top. Bake in a hot oven, temperature 400 deg. F., for 35 minutes.

Orange Mince Sauce

1 cup mince meat
1 cup water
2 tablespoonfuls cornstarch (level)
1/2 cup sugar
1/2 cup diced orange pulp
1 tablespoon lemon juice.

Mix mince meat and water, and bring to the boiling point. Add the sugar and cornstarch, and cook for ten minutes. Add the orange pulp and lemon juice. Serve on cottage pudding or plain steamed pudding. Recipe makes 8 servings.

CANDID COMMENT ON KITCHEN OF TO-DAY

Baltimore Editorial May Strike Home to Many Housewives

"The Kitchen is the subject of an editorial in the Baltimore Evening Sun. It may strike home to a good many housekeepers and their domestic help:

"A kitchen is a space enclosed by four walls, one of which is scorched. It is a sink that grumbles because they will let grease run into it. It is four tea towels on a rack and all of them damp. It is a patent can opener attached to the wall that won't work because somebody has done something to it.

"It is a gas range with four burners: Look at them. And she has been told again and again that the iron parts should be taken off and boiled in soda and water. The range also has an oven: 'Now the idea of leaving that pan in there just as it was when the roast came out.'

"It is a china press with a door that won't stay shut and signs of mice. It is a row of receptacles containing salt, pepper, paprika, vanilla, cocoa, tea, coffee, sugar, mustard and spice, an in the corner a bottle of cough mixture and a wad of

NEW STANDARD OF MATRIMONIAL BLISS

What with the current epidemics of divorcees in Hollywood, the cast of "Before Midnight," Columbia production, sets up a new high in matrimonial bliss. For the six principals in the cast are all happily wedded.

Claude Gillingwater has the greatest number of years to his credit, but has only one son. George Cooper is a close second. He has been wedded for nineteen years and has four youngsters. June Collyer has been married to Stuart Erwin for more than two years and they have a son.

Ralph Bellamy, Arthur Pierson and Betty Blythe have all been married for several years. Bellamy and Miss Blythe to professionals. But not one of the trio has an offspring.

absorbent cotton. It is a drawer in which are to be found a cook book, three candle ends, seven clothespins, parts of a meat grinder, an apple corer and an instrument for cutting potatoes up into all sorts of fancy shapes that somebody saw demonstrated at a department store but that nobody has learned how to use.

"It's a big tin box marked plainly 'flour' with two loaves of bread in it, and a smaller box marked plainly 'sugar' with a bar of chocolate in it. And so on with exasperating revelations to the seeker after something in a hurry."

And So The World Goes On

The new year has opened bright and prospects for better business are everywhere evident. Merchants have all announced increases in their trade over the holidays and several companies have boosted salaries. But there are still a lot of people who require financial assistance before they will be out of the "red."

There are a great many families who, if they could raise sufficient cash to clear off their present liabilities, would be able to get along all right after that. The main trouble is that they can never quite get "caught up" with the over-hanging balance, and consequently they are always just a little behind.

Where to get that little difference is the big trouble. But if a little thought is given to the matter it is not so difficult as it may seem. An institute known as The Gold Scrap Shop with branches located at 363

St. Catherine St. West (just 4 doors west of Bleury), and 884 St. Catherine Street West (just 4 doors east of the Capitol Theatre), are offering the highest prices ever paid for Old Gold.

Those trinkets, watches, rings, chains, bracelets, coins, etc., long antiquated, can be exchanged for ready cash. Rummage around in the attic, cellar or old trunk, gather together all the old gold and take it to one of the branches of the Gold-Scrap Shop.

If you are unable to bring your old gold to one of the branches of this firm, just call Marquette 5423 and an expert valuator will be sent to your home with ready cash. Remember—THE GOLD SCRAP SHOP are paying the highest prices ever paid for old gold. Let us help you to help yourself out of the "red." No articles purchased by us are displayed in our windows.

LEADING DOUBLE LIFE SAYS JAPAN MINISTER

Humorously Describes Customs for Women's Club; Everything is 50-50

Bonds of international friendship were strengthened as an interested audience of members of the Women's Canadian Club sat for more than an hour recently listening to an inspiring address by the Hon. I. M. Tokugawa, Japanese minister to Canada.

As a man of fine appreciation of the arts, Mr. Tokugawa dealt with the progress which is being made in music, painting and education generally. More and more Japanese ladies are learning to appreciate western music and it is becoming a general accomplishment, he said.

Equal progress is being made in painting as witnessed at a recent exhibition in Tokio under the auspices of the government at which 60 to 70 per cent. of the pictures shown were western. Education, too, is keeping abreast of the times. It is compulsory and 96 to 97 per cent. of children of school age are at school. Japan has a larger number of universities for boys than girls although women are studying medicine and law and other professions.

Mr. Tokugawa described how women are fast becoming an important factor in the industrial life of Japan and stated that there is a very strong movement spreading in favor of votes for women, some political parties having already announced their intention to include votes for women in their election campaign platforms, he said.

Dealing with life of the present day, he said: "I often call it the double life which we are living in our country. It is more comfortable and convenient to wear two kinds of costume. When I am at home I wear evening dress for entertainments at European hotels and Japanese dress at Japanese restaurants.

"Nowadays in the streets of Tokio 50 per cent. of the people are in Japanese costume and 50 per cent. in European dress. All houses are divided into parts, a Japanese part for living in and a western part for receptions. So everything is double and it may take a long time to change completely from one or the other mode."

Examiner-Courier Weekly Patterns

No. 850—For Growing Daughter. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/4 yards of 39-inch material with 3/4 yard of 35-inch contrasting and 1 1/2 yards of 4 1/2-inch ribbon for bow.

No. 529—For Matrons. This style is designed in sizes 16, 18, 20 years,

SUGGESTS THAT CORPS TEACH MATERNITY AID

St. John Ambulance Society Leader Praises Workers of Canada

Teaching of first aid in maternity cases as it is being done in isolated parts of Australia by the St. John Ambulance Association might prove of great value in Canada in the opinion of Mrs. Lorna Atkinson, dame of justice of the Order of St. John of Jerusalem, who, with her father, Sir John Prescott Hewett, Bailiff of Eggle of the order, is visiting Canada.

A doctor or a nurse might give a course of lectures in first aid in maternity in a small community, she suggested, so there would be women available to give the necessary assistance while awaiting a physician or a nurse.

Visiting St. John ambulance centres in Canada with her father as far west as Victoria, Mrs. Atkinson found that there was great scope for the work in the west and commented on the fact that it is all done by volunteers—usually busy people to whom time spent in practice is a sacrifice.

Where Do The Old Tires Go?

Have you ever wondered where the old automobile tire casings and inner tubes go? Argentina is seeking rubber scrap from Canada for the manufacture of soles from the rubber for cheap grades of canvas shoes and the remaining portion of the fabric

"RADIO REVUE OF 1934" BY Y.P.H.L.

A series of fast-moving sketches, all original and written specially for the occasion, will be among the many features of "Radio Revue of 1934," the pretentious musical production which is being presented on Sunday evening, January 21, at His Majesty's Theatre by the Young People's Hebrew League, in aid of the Home of the Aged.

Some of these sketches on the program are "A Moment in Darkness," with Ann Freedman and Jack Gottlieb; "A. J. Wilkins, Inc.," with "Red," Lazar, Jack Myers, Betty Chervin and Ethel Roth; "The Turn of a Card," with Hilda Yossefowitch and Isidore Blitstein; "Pothers," with Charles Garber, "Red," Lazar, Betty Chervin and Jack Gottlieb; and an untitled one-act farce with Peter S. Wise, Laura Lapin, Carrie Rosenberg, Jack Myers, Henry Slover Jack Gottlieb and "Red" Lazar.

There will also be a Classical Interlude, during which Joe Goldwex and Ethel Claiman will sing, and Marvin Duchow, promising young pianist, will perform his own compositions.

The dances are being staged by Philip Schnapp; Syd Morris will conduct the orchestra, and Bernard Wall is in charge of the entire production.

of tires for the manufacture of sleeves for blowout patches, states the Industrial Department of the Canadian National Railways. Japan is also a large importer of old tires.

HEALTH

by

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

In the public mind, tuberculosis is regarded as being a disease of adult life. This attitude is quite natural because it is in early adult life that tuberculosis takes its heaviest toll. Nevertheless, tuberculosis is a serious problem at all ages, being responsible for many deaths in all age groups.

Tuberculosis is caused by a germ which invades the body and which may attack any part of the body. The germs as they affect children come either from tuberculosis cattle, through milk, or from a tuberculous person, through sputum. All danger from bovine tuberculosis is removed when milk is pasteurized, and that is one reason why children should never be fed on raw milk.

Tuberculosis in children is not the same thing as tuberculosis in adults. When a child is found to be suffering from tuberculosis, a careful examination of the parents and other adults with whom the child comes into repeated intimate contact in the home will nearly always reveal the source as being an unsuspected case of tuberculosis in the home. Tuberculosis is essentially a family disease. It is not that the disease is inherited, but rather that it spreads in the family from one member to another.

Apparently the gravity of tuberculosis in children is in proportion to the opportunity for further infection. By this we mean that if the child is left living in the home where there is an active case of tuberculosis, the outlook for the child is bad if not hopeless. If, however, he is removed from further contacts, and so does not receive any more heavy doses of tuberculous germs, the outlook is good.

Practically this means that adults with tuberculosis are responsible for tuberculosis in children. The adult with an old chronic cough may be tuberculous and should be regarded

Jacqueline's Beauty Parlor Announces Price Reductions

Jacqueline's Beauty Parlor, at 5834 Park Avenue, just above Bernard, announces that, in keeping with the times its prices for Water Wave, Komol, Marcel, Haircut, Shampoo, Manicure, Eyebrow Arching, and Massage have been reduced to twenty-five cents each, and that these prices prevail, every day, Saturday included. Jacqueline's has been established in the North End for the past four years, and its quality is well-established. Notwithstanding the reduction in prices care will be taken to maintain the same high standards which have always prevailed in this establishment, the management states.

Lord Lee of Fareham, the only holder of a Spanish-American war medal from the U.S.A., at a dinner at London, Great Britain, said of President Roosevelt that he admired his gay courage, spirit and resource.

"I would sooner take the chance of looping the loop with the brain trust than judging the footsteps of orthodox bankers of yesterday," he said.

MARTHA SEWING CIRCLE EXPRESSES APPRECIATION

The Martha sewing circle wishes to thank its many friends who were good enough to donate presents and gifts for their Christmas tree, held at MacVicar Memorial Church, and at which forty-two children enjoyed a glorious Christmas celebration. Santa Claus was much in evidence, and each child, after partaking of a bountiful supper went happily homeward, the proud possessor of a well-filled Christmas stocking and a toy.

A number of baskets were also distributed to the needy.

MR. KING AS PRINCIPAL

Suggestion that Liberal Leader is to Succeed the late Sir Arthur Currie at McGill is Interesting but Hardly true—Some Comments

The rumour that Rt. Hon. W. L. Mackenzie King is to be appointed successor to the late Sir Arthur Currie as principal of McGill University has given rise to some interesting speculations. Some Liberals of the back concessions see in it a deep-dyed Tory plot to lure Mr. King away from politics, while some Conservatives of the same calibre profess to see in it a convenient plan for the Liberals to put Mr. King "on the shelf", politically, in favour of another leader. (Some Conservatives cannot understand why the Liberals retain Mr. King any more than some Liberals understand why the Tories retain Mr. Bennett). The proposal to make Mr. King principal of McGill has nothing to do with politics, however; Mr. King's name (like that of Hon. Vincent Massey) is under consideration because of his comprehensive scholarship. Mr. King has been given a rough ride in politics, and, in this rough and tumble of public life, his academic attainments have been obscured or forgotten. But, in the small circle of our intelligensia, he enjoys considerable renown as a sociologist, economist, and philosopher. He holds earned degrees from several universities in arts, law, and philosophy, as well as the usual honorary ones conferred on prominent citizens. As far back as 1907, when he was a 26-year-old assistant to M. Lemieux, Minister of Labour, he framed the Industrial Disputes Act, which immediately gave him international prominence. The Act was not only put into force in Canada, but was used with splendid results in the United States as well, and a few years later he was invited by the Rockefeller Foundation to undertake a comprehensive study of industrial relations. The results of this study, published under the title "Industry and Humanity", comprise one of the achievements of the present century in that particular field. The book anticipated by fifteen years many of the plans now being put into force by President Roosevelt. The Ottawa Citizen believes McGill would do well to have Mr. King as principal, and thinks Mr. King would be happier in that position than in politics, but admits that the possibility of taking him away from the political arena just at this time is remote. Mr. King is

confident of his party coming back to power, and he is particularly anxious to re-establish an atmosphere of conciliation and good-will between Canada and the Motherland where he believes lies the quickest road to recovery and future well-being this country can choose. He is also exploring methods of co-operation with the United States in the new deal policies. It is not likely, therefore, that he would accept the comparative retirement of a university principalship.

CANADA IS THE LOSER

Nations with Depreciated Currency Are Taking Our Foreign Markets From Us—Australia and Japan Provide Examples.

Canadian politicians and financiers have, throughout the depression, resolutely refused suggestions that business would improve if our currency were inflated. And while we have been resolutely refusing, we have had the mortification of seeing our sister Dominion, Australia, shooting ahead with a policy the opposite of ours and taking our foreign markets from us. In 1932, for example China purchased 20 million bushels of wheat from Australia and only 6 million from Canada. (We used to outsell Australia 4 to 1 in the Chinese market). In Japan, last year Australia sold 22 million bushels; we sold 4 million. (We used to outsell Australia 2 to 1 in the Japanese market).

Australia, with a greatly depreciated currency is second in recovery only to the U.S.A. among the nations of the world. Japan, with a depreciated currency has succeeded in jumping the tariffs of every nation with her manufactures. Canada, clinging resolutely to "hard" money, has lost four-fifths of her 1929 export trade.

Gern. n youth is being educated to desire what cannot be had without war.—Mr. Rennie Smith.

It must be said that before sending us into the next world the motorist does what he can to diminish the attractions of this.—The Rev. H. D. Madge.

"I was arguing with my doctor this morning on the question of removing by appendix," said the man, "and I guess I'll go over and have it out with him."

Startford wants municipalities given the right to tax trucks and buses which operate through them. This would be one way of killing them off.

Crossing oceans is safer for the Lindberghs than crossing the average street is for the pedestrians.

Wouldn't it be funny and confusing if sometime somebody should capture a sea serpent and bring it home alive.

The week-end rain saved the city considerable expense although it didn't benefit the unemployed. The city was going to take steps to remove the snow but Mother Nature saved them the trouble.

The shoe is on the other foot. Instead of Canadians taking liquor into the States they're now bringing the cheaper U.S. drinks into Canada on their return trips.

APPRECIATION

Exam-Courier Publishing Co., 5736 Park Avenue, Montreal.

Gentlemen:—

We take this opportunity of expressing our gratification at the results obtained through our advertisements in the Examiner-Courier, and appreciation of your efforts on our behalf in the direction of publicity in general. While our establishment has been open but a short period, we have found it necessary to make substantial additions to our already large fleet of delivery vans, and are taxed almost to capacity at all times. We were convinced we had quality, workmanship and service equal to, if not better, than anything in the city, and at prices which were materially lower than those generally charged. It remained only to find a medium through which to make adequately known our facilities, and we are glad to be able to say that the EXAMINER-COURIER has more than fulfilled our expectations.

Wishing you, and through you our ever-increasing number of patrons a bright and prosperous New Year. We remain,

Yours very truly, GRAHAM, Reg'd

Y. M. H. A. NOTES

Continuing the series of lectures on public speaking, Rev. R. Burgoyne will speak on Monday, January 15th, on the subject "Introducing and Concluding".

This Wednesday and the following Wednesday, A. M. Klein, head instructor in the YMHA School for Jewish Studies, will deliver two special lectures in the Folkways Series on "Jewish Humour and Jewish Proverbs." The mid-season program in the history course will consist of papers and discussions on detailed comparison between Jewish Legislation in Germany in the Middle Ages and in 1933.

The guest speaker at the Leaders Training Course this Wednesday will be Mr. Leslie Pepperdine of the University Settlement, whose subject will be "Games and Game Leadership."

The Second Boxing Tournament of the season will be held in the YMHA gymnasium on Wednesday, January 17th. The committee in charge of this Boxing Tournament consists of Henry Zeff, Louis DeZwerek, Harry Shulman, Irving Phillips.

English series in Public Health begins with a lecture on "Oral Hygiene" given by Dr. S. L. Hyams on Thursday, January 11th. Next Thursday, January 18th, Dr. H. N. Segall will speak on "The Heart" in its relation to physical activity. Subsequent speakers will be Dr. B. Usher on "The Care of the Skin"; Dr. S. E. Goldman on "Posture"; Dr. H. R. Griffiths on "Artificial Respiration"; Dr. Norman Viner on "The Nervous System"; Dr. A. S. Lamb on "How the Body Moves"; Miss Mary McLelland on "Eyes"; Dr. H. C. Ballon on "Tuberculosis among Jews"; Dr. Grant Fleming on "Public Health Services in Canada."

To complete the series there will be a special lecture to be given by Dr. Alton Goldbloom.

Y.M.H.A. Debating Program On Monday, January 23rd, J. Ryan and N. S. Grabstein of the Speakers' Club will support the negative of the resolution "That the High Tariff Policy of the United States is detrimental to her Own Interests." E. A. Thorne and A. W. O'Brien of the Y.M.C.A. Spoke Club will uphold the affirmative of the resolution.

Harvey Golden, Executive Director of the Y.M.H.A. and formerly on the staff of Harvard University in the Department of Sociology and History, will start a new series of Friday Evening Lectures this Friday, January 12th. Mr. Golden's topic will be "A Decision at the Crossroads."

Donald Cook Has Now Become Castus Conscious

When Donald Cook, leading man in Columbia's feature, "Fog" first went to California he had no opinions on cactuses, except that they were green things with rather annoying spines. His interest in them was entirely negative and the only thing he knew about them was that they shouldn't be sat upon.

Then some one invited him to spend a week-end at a desert resort near Hollywood. It was in the spring when the desert was in bloom and the cactus were at their best. There were pale pink ones; dark green ones; cactuses with no spines at all. Some were covered with a downy fuzz; some stood upright, round and firm as a post, others crept along the ground.

In short, Cook discovered cactus—and he loved the plant in all its varieties is his hobby. His garden is crowded with it—And he knows every variety by name.

**North Branch
"Y" Notes**

All the established athletic institutions are again in full swing at the North Branch "Y", while an old-time activity is being revived, and at least one innovation gotten underway at the present moment. An Inter-Y Basketball League is again being formed for those who do not play on any City League team, in which it is planned to enter two teams from North Branch and this end those interested are requested to see the secretary. A younger business men's gymnasium class will be started shortly, to take care of those who find it convenient to have a short workout before supper. The class on Tuesdays and Fridays will start at 6.15, and will include a short, snappy calisthenic drill, and a basketball game, breaking up about 7 o'clock.

A Recreation Department review follows:

Young Men's Gym Class

The program of the young men's gym class on Tuesday and Friday 8.00 to 9.30 includes calisthenics, games, apparatus, basketball and volleyball. Those wishing a heavy workout are invited to join the members of this class any evening. New competitive games are scheduled this month.

Junior Basketball

Junior Basketball players are now ready to go, with the first opening city league game on Jan. 11th, running through the winter months to the end of March. This year's team promises to be one of the best from the Branch, and we hope they will have a good following at all their games.

Advanced Apparatus

Each Saturday from 4.00 to 6.00 is set aside for those interested in apparatus and wishing to improve their feats on high bar, mats, rings, horse, and parallels. The leaders are also using this period for practice for the big Spring Gym Display.

Bus Men's Volleyball

The Business Men's volleyball class on Tuesday and Friday 5.15 to 6.15 is now showing some rare form in handling the volleyball, with everyone having a good workout as well as plenty of exercise.

Inter-Y Basketball

An Inter-Y Basketball League is again being formed for those who do not play on any city league team. We would like to enter at least two teams this year so everyone interested please see one of the secretaries.

Wrestling Club

The wrestling club have hit upon a novel idea of a weekly competition to last through out the year, and a final count will be reckoned up at the end of the season. Although practice periods on Wednesday and Saturdays are well attended, coach Allan Turnbull will always welcome new wrestlers.

Boxing Group

The boxing group are holding their club championship about Jan. 15th, so everyone is on his toes to be in

To "Stardom"

Earl Roche, who along with his brother Desso jumped into pro hockey with Maroons and is now at Ottawa showing the way to veterans in the scoring column, is one of the few players who made his way to the headlines through the waiver route. Since waiver was asked on him, however, he has played his best hockey, and to-day he couldn't be bought.

**SPORTING JAPS
STARTLE WORLD
WITH PROGRESS**

Have Giant Stadiums In Which Crowds of 50,000 See Amateur Ball

MANY GOLF LINKS

Ladies Learning to Sink Putts and to Avoid Hooked Drives

The Japanese are serious about their sports and aiming toward the day when they'll be able to bid for world supremacy in practically every line of amateur athletic endeavor. There's no form of game or competition that they haven't already imported from foreign lands, and they work at all of them so diligently that it is not surprising that in 25 years they have advanced from nowhere to a position where they feel themselves entitled to play host to the twelfth Olympic games in 1940. If the bid is successful Tokio will be able to offer facilities equal to those at the 1932 Olympic games, held in Los Angeles.

The city of Tokio, third largest in the world, boasts an athletic layout probably unequalled anywhere. In one park, named the Outer Garden of the Meiji Shrine, there are four separate establishments built to meet the requirements of various games. One is a modern stadium for rugby, soccer and track and field events. It has a capacity of 60,000. One is a swimming pool banked by seats accommodating 15,000. Another is a huge baseball stadium seating 65,000. The fourth is a bowl-like affair, in the centre of which basketball and similar games can be played in the open air.

Best Big League Parks

In the stadium devoted to track events there is a 700-foot straight-away paralleling the grandstand. The oval track measures 400 metres. The ten-lane pool in the swim stadium is

tip-top shape. There is room for more members to join the group on either Monday or Friday.

Swimming Pool Notes

No matter how cold it is, there is always swimming for both the beginner and the advanced swimmer. Beginners should get in touch with the secretaries for their classes, while the advanced group meet each Wednesday from 8.00 to 9.00 for swimming and water polo. The temperature in the swimming pool water is always maintained at the same level whatever the weather outside.

**LUKE CALAGHAN
MEMORIAL SCHOOL**

Struggling through a 1-1 tie in the first period, St. Michael's School Juniors, Section "A", in an exhibition tilt with the Regents Hockey Team, of the North-end, rushed headlong into a whirlwind counter in the second, adding two more goals to the St. Mike's score, while the Regents succeeded in only obtaining one. In the concluding period, the Juniors added another tally to their score, and the game ended with a win of 4-2 by the St. Mike's Juniors. Hennessey, Keiley and Marks starred in the game, each showing brilliant tactics in getting around the opposing team.

The Line-up for St. Michael's Juniors, Section "A", was: Marks in the nets, Hennessey, Keiley and Keisner on defence, MacClean, Picar and McMininiam of the front line, and Coleman, Brennan and Gimault on the reserve line.

The final score was, St. Michael's Juniors, 4, the Regents, 2.

The St. Michael's Junior, Section "B", ushered in the New Year with a bang when they swept the doughty Rockets, North-end team, to a 4-3 loss in an exhibition game. Only one goal was scored in the first period, by Rochon, who played on the reserve front line of the St. Michael's team. The second period emerged into a furious ding-dong tilt, with Wright, Snyder and Keyes each scoring for St. Michael's, while Levine, of the Rockets, managed to slip in a goal. The Rockets bored down upon the St. Mike's team in the final period and despite a fierce defense, Ither and Hennessey of the Rockets each succeeded in scoring. The game ended, St. Michael's Juniors, Section "B", 4; Rockets, 3.

The line-up St. Mike's: Sullivan in the nets, Coleman and Moffett on the defense, Wright, Snyder and Keyes, with Barry, Rochon and Carragher, on the two front lines.

Rockets, Benoit in the nets, Poit and Taub on the defense, Levine, Hennessey and Ither, with Silverman, Newman and Touche on the two front lines.

The players for the two Juniors Hockey Teams have been selected and their names are listed below:

Juniors, Section "A"

Picard, M. Hennessey, W. McDougald, A. McMininiam, R. Keiley, J. Marks, Keisner, J. Coleman, W. Brennan and Gimault.

Juniors, Section "B"

T. Sullivan, E. Wright, H. Keyes, B. Ronald, J. Barry, G. Snyder, D. Devlin, C. Williams, F. Harris, and J. Smith.

The School House League has been formed, and while dates are subject to both weather conditions and to conflicting regular games, the arrangement of teams in rotation has been completed, as follows:

Senior Division

Tigers vs Rangers
Maple Leafs vs Spartans

50 metres in length and half that in width. Adjoining is a separate pool for the diving events. The fan-shaped baseball field exceeds in playing area most of the big league parks in America. The size of these plants might make a lot of people wonder if they ever are filled with spectators. They are, for most every event scheduled, including track meets, which in America draw about one spectator for every peanut butcher.

When Japan first began to look around for sports it could adopt it selected baseball. For more than 25 years now it has been the empire's national game. It is the big sport in all the universities. To be a member of a college nine is the ultimate in athletics.

Colleges Draw Throngs

A college baseball game in America can't attract enough people to make a crowd, but that isn't the case in Japan. When the colleges like Keio, Imperial, Waseda, Meiji, Hosei and Rikkyo, all in Tokio, meet on the diamond the games rival a world series in interest. As many as can be accommodated will crowd into the stadium, in some cases as high as 55,000. It is the rule instead of the exception for a line to form outside the general admission gates before sunrise on the day of one of these varisty battles. Prices for these games range from 50 sen (25 cents)

Noreen Patterson, Editor

A letter was received from Mrs. L. C. Tarlton of the North End Protestant Relief Association thanking our pupils, teachers and principals for our co-operation in assisting in providing relief during the Christmas season in the way of Christmas hampers.

Every class in the school took at least one name of a family who would not otherwise be provided for, and most of these names came from the North End organization or from the School for Crippled Children. The pupils entered into the spirit of the season and of the work which they undertook. The hampers were well filled with the necessities of life as well as with toys for children and other features to assist in spreading happiness and cheer. The opportunity afforded the pupils helped to make their own Christmas that much brighter. The baskets were delivered to families of all denominations and with due regard to necessity.

CHANGE IN STAFF

Miss A. V. C. Kerr, M.A., of the Department of English and Classics at Strathcona Academy, has been granted leave of absence for the balance of the year. Her place has been taken by Mrs. B. Baily, B.A. (Miss Virginia Hume). The work in the various grades has been slightly rearranged to accommodate this change. It is hoped that Miss Kerr will be in a position to return in the Fall much improved in health.

Miss Catherine MacGibbon, who has been on the staff of the Guy Drummond School for a number of years, has resigned and her place has been taken by Miss Elsie Lyth, B.H.S. There is natural regret at the Guy Drummond School that Miss MacGibbon has been forced through ill health to definitely sever her connection with the school and the staff and pupils are hoping that after a period of rest her health will be completely restored.

Miss Elsie Lyth was formerly on the staff of the Montreal West schools. During her course at Macdonald College she won the Prince of Wales' Medal, having taken highest place in Practical Teaching.

Mrs. Baily's work at the Guy Drummond School is being looked after by Mrs. W. Holocroft (Miss Madeleine Maltby) for the balance of this year.

HOCKEY SENIORS

In their first game of the season the Strathcona seniors played a 2-2 draw with West Hill. The Academy team outplayed their opponents in every period, but could not turn their scoring threats into goals. Mosdell opened the scoring early in the first period, when a long shot glanced off Levitt's glove into the corner of the net which sent West Hill into the lead. Here Strathcona settled down and pressed hard with "Sixty" Walker scoring on a pass from Vipond. Four minutes later Scott put Strathcona ahead on a perfectly conducted play with Vipond. In the second period both teams played steadier hockey and Strathcona was holding West Hill well in check when Mosdell picked up a loose puck in front of the net and tied the score with only two minutes left to play. For Strathcona the forward line of Walker, Scott and Vipond played well, while Mosdell and Reid were best for West Hill.

First Period

1—West Hill — Mosdell 4.00
2—Strathcona Walker (Vipond) 7.00
3—Strathcona, Scott (Vipond) 11.00
Penalties: Lowles 2, Reid, Scott 2.

Second Period

4—West Hill — Mosdell 17.50
Penalties: Scott, Ashkanase, McKechnie, Boosamra.

INTERMEDIATE

Strathcona's Intermediates opened their official season with a loss to Montreal West, the score being very close, 1-0. Play was clean throughout, only two penalties being given out, these to Boosamra of Strathcona, and Duff. The sole score came 4 3-4

Women Like Golf

Until 1914 the Japanese didn't know much about golf, except that it was some sort of game required particular skill. In that year the empire's first course was built. To-day there are approximately 50 "links," as they call them, and most are of championship length. The game is as popular with the women as with the men.

**Opening of Basketball
At North Branch "Y"**

On Thursday, Jan. 18th, the City and District basketball opens at North Branch "Y" when the Junior team will be hosts to the Southwestern "Y" Juniors.

A girls game will precede the Junior contest, as Calvary Church meet the "Y" girls team.

Following the games a short social evening will be held in the large assembly room to which the players and their friends are invited to stay.

You can tell when you are approaching a college town by the increased number of pointing thumbs. This is the last cigarette before the guillotine. M. Saurraut.

The prospect of an ordeal is often much worse than the ordeal itself.

There might be fewer divorces if less were said about those that take place.

been played, and it seems as if this year it's going to be the toughest battle ever for those who land on top of the ladder at the close of play. We should like to thank all those girls who took part and are still making it a success, for their keen interest and sportsman-like play.

ORACLE

No sooner had the Editorial Staff for the 1933-34 Oracle been chosen when the work began on it. Meetings of the board were held and the greatest enthusiasm was found among the pupils who began doing their part by offering articles, jokes and other material. The editors ask that the articles be as concise and interesting as possible. They are also willing to hear any original suggestion that might help make this magazine as big a success, or even bigger a one than those the school has published in previous years. All material, however, must be in the hands of the editors by February 23. The school has great confidence in the capability of the Editorial Staff and expects to have published a magazine that will be well worth the months of work.
