"May Never Come Back"

Townsend Announces World Tour

BRUSSELS — (Reuters) — Group Capt. Peter Townsend today announced that he is giving up his career in the RAF to go on a lone motor trip around the world which will take him through the United States and Canada.

He indicated the 18-month tour would end in Africa, from where "I may never come back."

The group captain has continued to work in the British embassy here since Princess Margaret publicly renounced marriage with him last October.

Townsend, whose match with the Queen's younger sister was opposed by the Church of England authorities because he had been previously married, said his journey would take "at least 18 months, because it is a long way; it may even take longer."

He told Reuters news agency: "I am to resign from the Royal Air Force towards the end of this year."

"I am not sure about the date. It depends on the arrival of my successor, which I do not think is fixed yet."

World News In Brief

MONTREAL. — (P) — Det. Sgt. Michael Hayven Thursday was suspended from the police force for accepting a bribe from an east end restaurateur to "keep quiet" about teenagers' activities in the basement.

DARTMOUTH, N.S. — (P) — The raft Egar Thursday was unable to give its position to ham operators for the fourth consecutive day.

Maritime amateur radio spokesmen said, however, they were able to give the four-man crew the weather forecast. The French-born Montrealeers acknowledged reception of the forecast but their replies were garbled.

NICOLET, Que. — (P) — Workers have started to demolish the Roman Catholic cathedral, undermined by a landslide here Nov. 12 last.

The cathedral stands on the brink of a crater formed by the landslide which took three lives and caused \$5,000,000 damage. Six buildings were destroyed.

OTTAWA. — (P) — Legislation to permit construction of a \$12,000,000 toll bridge across the St. Lawrence River near the city of Trois Rivières, Que., was among legislation given royal assent in the Senate and put into law Thursday.

The federal legislation, necessary because the bridge crosses a navigable international waterway, will permit construction of the span by a six-man corporation which already has been set up by an act of the Quebec legislature.

Flood Fighters Hope For Best As River Drops

CRESTON, B.C. — (P) — Weary flood workers crossed their fingers Thursday night as British Columbia's flood-raised rivers continued their slow drop.

In Creston, about 250 miles east of Vancouver, the expected crest of the Kootenay river did not materialize. The crest, expected to be the crisis of the situation, apparently came Wednesday.

The level of the Kootenay lake—as dangerous as the river—dropped accordingly.

Magistrate Guy Constable, coordinator of diking efforts, said "barring a cloudburst, everything is reasonably safe."

No Comment On London Yard Raids

LONDON. — (P) — Scotland Yard declined comment Thursday on a report that the homes of Greeks in London's Soho and Camden Town districts are being raided by special branch police.

"We have no comment whatever," a spokesman said.

A report in the Daily Express quotes Panos Tofarides, who runs a Greek club in London, as saying homes have been raided and documents seized by British police. The story says the documents include appeals for money signed in red ink by Archbishop Makarios, deported from Cyprus last March.

The Express quotes Tofarides as saying:

"Most of the raided Greeks happen to be members of our club. The British security men told them: 'If there is any terrorism here we shall hold you responsible.'"

Tofarides is also quoted as saying that his group condemns terrorism as such, but "you have to know the circumstances."

"We condemn British actions in Cyprus. We do not condemn EOKA (the terrorist organization). We cannot condemn it. It is a question of national feeling."

Eye Bank Operating 7 Months

TORONTO. — (P) — Canada's first eye bank, to provide new corneas for persons with defective sight, has been operating experimentally in Ontario for seven months, the Canadian National Institute for the Blind said Thursday.

The CNIB said all hospitals in the province with more than 130 beds have been provided with special containers for the eyes and a routing service has been set up to supply surgeons who need eyes for corneal transplants.

The institute said it did not release news of the project until it was definitely known that a need for an eye bank existed.

To Administer Loan; Gov. Signs Agreement For Prairie Section

OTTAWA. — (P) — In two swift moves the government has set up a five-man crown corporation to oversee the building of the cross-country natural gas pipeline and signed an agreement with Trans-Canada Pipe Lines Ltd. for the first section across the Prairies.

Formation of the crown corporation was announced Thursday night less than two hours after the government's pipeline bill, fought over in the Commons for more than three weeks, became law with a royal assent ceremony in the Senate.

The new corporation then signed an agreement with Trans-Canada covering the treasury loan of up to \$80,000,000 for the Prairie section authorized in the legislation.

President of the Northern Ontario Pipe Line Crown Corporation is David A. Golden, 36-year-old deputy minister of defence production. Four senior civil servants will act with him as directors.

The corporation will administer the loan, to cover 90 per cent of the cost of building the Prairie section to Winnipeg. Trans-Canada must complete it by Dec. 31 and repay the loan, at five-per-

cent interest, by next April 2. If it defaults the government can take over the line and all of Trans-Canada's assets.

N. E. Tanner, Trans-Canada's president, said at a press conference his company is "going out to raise that money by public financing."

The crown corporation is authorized—once Trans-Canada repays the loan—to build the \$118,000,000 northern Ontario section of the 2,200-mile line from the Manitoba border to Kapuskasing, Ont. Ontario will help finance that section, up to a maximum \$35,000,000.

Prime Minister St. Laurent, announcing the crown company's formation, said two of the five directors "will in due course be replaced by directors to be nominated by the government of Ontario."

Trans-Canada officials said Thursday tenders will be called immediately for the Prairie section. Work would begin early in July. The 34-inch pipe, now being stockpiled in the United States, would start to move into Canada in about a week.

Mr. Tanner was asked who first made the proposal for the Prairie loan. He replied to reporters that Mr. Howe already has said in the Commons that the government put forward the proposal.

Explosives Found At Airfield

NICOSIA, Cyprus. — (Reuters) — British security forces today discovered a large quantity of explosives on an RAF field near Limassol after two explosions rocked the area early in the morning.

One lot of explosives with a time fuse was found near a hangar where jet planes are usually parked. Dynamite tied with gasoline-soaked rags was found on the airfield tarmac.

The first explosion was in a contractor's building on the edge of the field, and a search revealed the gasoline-soaked dynamite. After a second explosion, searchers discovered the explosives near the jet hangar.

In Nicosia, troops mounted a machine-gun guard in the heart of the city while engineers patched numerous gaps pierced in a barbed-wire line dividing the Cyprus capital into Greek and Turkish quarters. It was put up May 30 after Nicosia commissioner Martin Clemens said clashes between Greek and Turks must stop.

But in two days iron joists were bent and wire coils pushed aside so pedestrians could make their way to streets meant to be sealed off. Engineers today made the barricade impregnable by driving thick iron rods into the pavements.

Meanwhile, troops roped off two sectors of Lathos—trouble spot of Cypriot terrorist activity—and rounded up all males in sight for screening after two grenades were thrown at a military vehicle.

Adenauer Will Pay U.S. Troops

BONN. — (P) — Chancellor Konrad Adenauer smoothed the way for his fourth visit to the United States Thursday night by announcing settlement of the long dispute over German financial support for U.S. troops in Germany.

West Germany has agreed to pay "quite a nice sum" to help maintain American troops here, Adenauer told a press conference on the eve of his departure for Washington. He hopes to discuss with President Eisenhower and State Secretary Dulles the question of a "new Western initiative" to break the East-West deadlock on unification of Germany.

Although Adenauer did not give the terms of the troops support settlement, a communiqué later announced that West Germany would contribute \$154,700,000. Presumably this is for the year. The German cabinet was said to have approved.

This apparently was a sharp reduction from what the United States had asked.

Intensive Study On Bulganin

Ike, Top Aids Discuss Red Letter

WASHINGTON. — (P) — A new 15-page message from Premier Bulganin of Russia to President Eisenhower—believed to concern disarmament problems—was put under intensive study today by Eisenhower and key American advisers.

Soviet Ambassador Georgi Zarubin handed it late Thursday to State Secretary Dulles, who called at the White House later. Presumably translation had proceeded far enough to enable Dulles to give Eisenhower some word of the contents.

Eisenhower and Bulganin have exchanged a number of letters since the "summit" conference at Geneva last July. All the previous one dealt with the problems of arms reduction.

On another aspect of foreign policy growing in part out of Russia's changing behavior and the effect it has had to spur neutral sentiment in some countries, the White House sought late Thursday to dispel any misunder-

standing over remarks Eisenhower made Wednesday.

It issued a new statement, described as a clarification, which reiterated Eisenhower's arguments in favor of increased security through collective defense. It said such collective arrangements represent "the best and most effective means of preserving world order within the framework of the United Nations."

The remarks this was designed to "clarify" were made by Eisenhower at his press conference Wednesday.

Arguing in support of his foreign aid program, Eisenhower said then that there are many reasons why some countries find it impractical to join military alliances. Moreover, he said, this does not always work to the disadvantage of the United States.

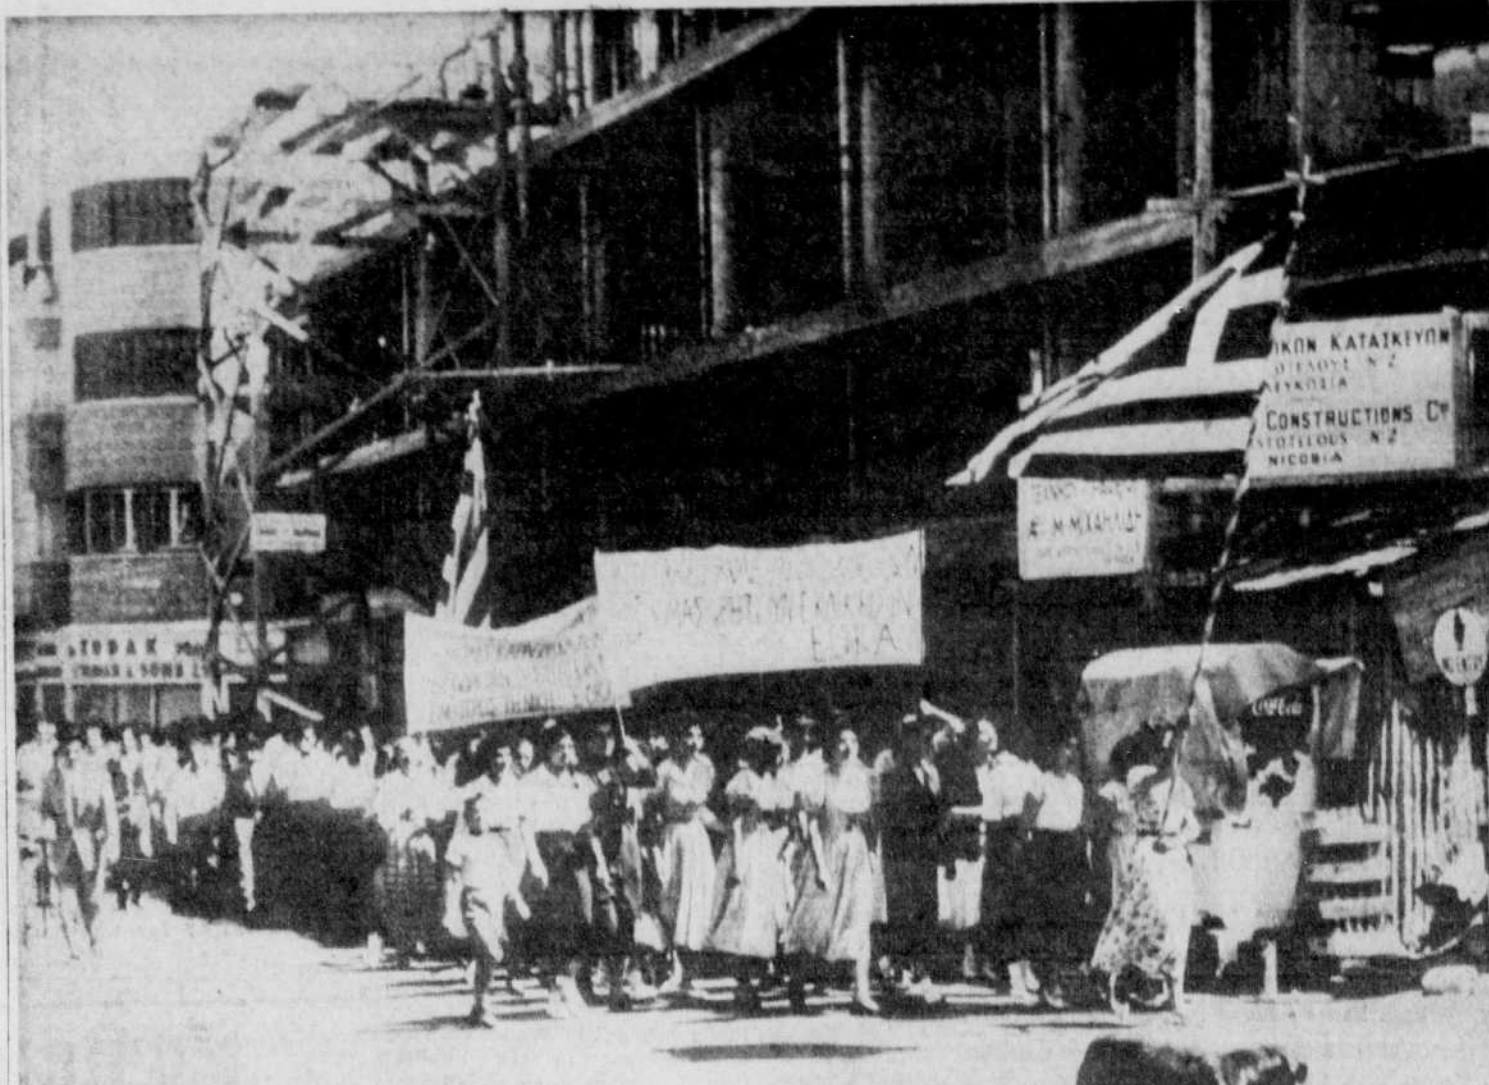

Some alarm was expressed in diplomatic circles that these remarks might have created an impression that the U.S. was setting a lower value than hereto-

fore on the importance of its alliances, and was putting premium on neutrality in the cold war.

West Germany may have figured in the decision to put out the statement. Chancellor Konrad Adenauer has encountered strong opposition in putting through laws authorizing the raising of military forces which Germany has undertaken to add to North Atlantic Treaty strength in Europe.

The statement implied a caution from Eisenhower that countries which form alliances with the Communist powers may find themselves in unspecified "difficulties."

"The president does not believe," the statement added, "that association for mutual security with the United States will involve any country in added danger, but on the contrary will provide added security on the basis of mutuality and scrupulous respect for the independence of each."

Duplessis Opens Fair At Ormstown

QUEBEC. — (CP) — Premier Duplessis, taking time out in his campaign for the June 20 provincial election, inaugurated the 43rd annual Ormstown Fair Thursday night and said his Union Nationale government intends to encourage the decentralization of Quebec's industry.

Meanwhile, his principal opponent, Liberal leader Georges Lapalme, told an election rally at Baie Comeau that if elected his party would conduct a royal commission investigation into giant hydro-electric developments on the Bersimis river.

Mr. Duplessis, in calling for decentralization of industry, said farming "must remain" the cornerstone of the province's economy but now it is time for every region to have its own industries.

Mr. Lapalme, speaking in Saguenay county, where the Bersimis river power developments are located, said "hundreds of millions of dollars are being swallowed up" on the project.

"The development is known throughout the province as the scandal of Bersimis," the Liberal chief said. "We already have enough information to start a royal commission investigation and bring out the truth about the waste going on."

When completed, the Bersimis project is expected to produce 1,200,000 horsepower and cost \$180,000,000.

With Premier Duplessis at the Ormstown inauguration were Arthur LaBerge, Alister Somerville and Edgar Hebert, Union Nationale candidates in Chateauguay, Huntingdon and Beauharnois, respectively.

Mr. Duplessis resumes his campaign schedule Sunday at Joliette.

In Mr. Lapalme's speech at Baie Comeau, the Liberal leader also criticized the Union Nationale government's "gift" of iron ore from Ungava to American steel companies.

Mr. Lapalme, who speaks at La Malbaie tonight, spoke in support of Gerard Lefrançois, Liberal candidate in Saguenay county.

Approve Slash

WASHINGTON. — (P) — The House of Representatives dealt a major jolt to President Eisenhower Thursday by approving a big slash in his \$4,900,000,000 foreign aid bill despite his plea that the cost would "seriously impair" free world security.

With large numbers of his own party revolting against his leadership on this issue, the chamber voted 192 to 112 against a motion to restore \$600,000,000 of the \$1,109,000,000 a House committee had cut from the bill.

Note Of Regret Rings Through Commons On Speaker's Rulings

OTTAWA. — (P) — A note of sad regret rang persistently through opposition speeches Thursday as the Commons considered an unprecedented censure motion by opposition leader Drew against Speaker Rene Beaudoin.

"There have been many members who, in the course of this debate, have said this is a tragedy," said Alistair Stewart (CCF—Winnipeg North), "and that is so, and in a personal way."

He had held, with others, a genuine respect for Mr. Beaudoin even when he thought he was wrong at times.

"You had raised the prestige of the speakership, you were our Speaker," he told Mr. Beaudoin, who occupied the chair during much of the debate.

But, he added, the Speaker "made a mistake which is almost unforgivable because you impaired the rights of the opposition as we saw them."

Maj.-Gen. G. R. Pearkes, VC, (PC—Esquimaux-Saanich) said he appreciates deeply "the ordeal to which Mr. Speaker now has been subjected."

Gen. Pearkes, however, like other opposition speakers in the day-long debate, also had his criticism.

"The events of the last few days have shown that his honor the Speaker and his deputies have not permitted equality before this chair."

Finance Minister Harris said the censure motion is little more than a reminder that some members disagree with Mr. Beaudoin.

One thing that had to be decided in this debate, "if it can be decided, is how this Parliament can function if the Speaker's decisions are to be subject to appeal," Mr. Harris said.

If every Speaker's ruling was to be appealed "quite obviously we shall not be able to legislate."

He said a suggestion by Angus MacInnis (CCF—Vancouver Kingsway) that a committee be set up to suggest rule changes to avoid such a situation in future "certainly appeals to me."

The censure motion against the Speaker was brought forward a week ago during the bitter pipeline debate. Four days earlier, in protest against rulings by Deputy Speaker W. A. Robinson as Commons chairman, Mr. Drew presented a motion—ruled out of order—charging the government with subordinating the office of chairman "to serve the partisan interests of the government."

The censure motion arose last Friday after Speaker Beaudoin ruled out of order a motion the previous night by Colin Cameron (CCF—Nanaimo) that two letters printed in the Ottawa journal be censured by the House as being derogatory to Parliament. That Thursday night, Mr. Beaudoin had allowed Mr. Drew to begin speaking on Mr. Cameron's motion.

Debate on Mr. Cameron's motion prevented the government from carrying out its announced intention of imposing a closure motion that night. It was imposed the following day to limit the pipeline debate, during which opposition to Mr. Beaudoin's rulings rocked the Commons with unprecedented rebellion.

Gen. Pearkes said the Speaker and deputy have made mistakes, but the ones mainly responsible for their being put "in this terrible situation" were Prime Minister St. Laurent and Mr. Harris, government House leader.

"We will never know what sort of means were used to lure Mr. Speaker from his path of duty. The government honors its secrets."

"Your fault, Mr. Speaker, on that tragic day was one of weakness and lack of resolution. Far greater responsibility rests on those men who, by threats or promises, played upon your vanity and your ambitions."

There is only one solution "to the honor." That was for the prime minister to call an election to justify his debauchery of the House of Commons of Canada."

Mr. Harris said dissolution of Parliament for an election might lead to further attacks on the Speaker in later Parliaments. If an opposition felt that a government would be obliged to dissolve Parliament if the Speaker were attacked, "these attacks might possibly be more frequent than they have been."

John Diefenbaker (PC—Prince Albert) said consideration may have to be given to reforming the way the Speaker is chosen "to give him that detachment" the Speaker of the British Commons has.

Huge Power Station Swallowed In Niagara Gorge; One Life Lost

NIAGARA FALLS, N.Y. — (P) — The most destructive rockfall in the recorded history of the spectacular Niagara gorge took one life late Thursday and left the huge power station on the American side in tumbledown ruins.

More than 40 other employees of the Niagara Mohawk Power Corp. scrambled along the precipitous bank to safety as two of the station's three sections roared into the wild rapids behind them.

Company officials were appalled at the damage, which wiped out a 360,000-kilowatt power capacity in the twinkling of an eye.

They could only say that the damage will run well into the millions. Original cost of the two completely wrecked sections was about \$35,000,000 more than 30 years ago.

Lost in the maelstrom of rocky debris was Richard A. Draper, 39, of nearby Lewiston, a machinist. Two companions saw him disappear in the cascading remnants of powerhouse walls.

Draper and the others had been working feverishly sandbagging a leak at the base of the station from half a mile downstream from the American falls, where a giant rockfall destroyed Prospect Point July 28, 1954. The seepage had been discovered only hours earlier.

The staccato reports of cracking walls warned the men that the end of the building was near. "All I know is that the walls and ceiling started to come down and I ran like hell," said Chris Nelson, 25, one of the crew. "I didn't stop for anything. I was really scared."

The station, largest hydro plant in the Niagara Mohawk system, was hit by three earth-shaking slides which followed each other in rapid order starting just before 5:30 p.m. When it was over, the six turbine generators in the two sections were buried in debris at the foot of the 220-foot gorge.

The destroyed generators, all used in Niagara Mohawk's 25-cycle service for heavy industry, had a total capacity of 200,000 kilowatts. The sudden loss of power brought much of the area's big chemical industry to a halt.

All power in this highly industrialized city of 100,000 was instantly cut off. But a gradual return began within two hours as the company drew in power from its central division, from steam plants and from the Ontario Hydro-Electric Power Commission across the river.

Hundreds of tourists along the Canadian lip of the gorge and on the Rainbow Bridge, which crosses between the station and the falls themselves, watched in horror as the rockfall crashed into the rapids. Thousands more poured into the area afterward.

Traffic jammed the two bridges linking the border to watch emergency operations.

American residents, unable to cook dinner on electric stoves, headed for Ontario for meals. Many others came to view the ruins just across the river.

The United States Post Office has released the figures for the total sales at the Fifth International Philatelic Exhibition which was held in New York from April 23rd to May 6th, 1956. There were 810,750 of the 11-cent Souvenir Sheets sold; 3,416,417 of the 3-cent PIPEX stamp; 491,679 of the 6-cent PIPEX Airmail Envelope; and 867,318 of the 2-cent PIPEX Postal Card. The total value of the PIPEX items sold was \$450,853.59, and there were also other stamps sold to the value of \$30,745.68. The above figures do not include any PIPEX items sold at the Philatelic Agency in Washington.

The 10-cent Independence Hall stamp of the new ordinary series is the eighteenth and final stamp of this series, and will be placed on sale at Philadelphia this July 4th. Stamp collectors who desire to obtain First Day Covers may send a reasonable number of addressed envelopes to the Postmaster, Philadelphia, Pa., U.S.A., with money-order to cover the cost of the stamps to be affixed. An enclosure of medium weight should be placed in each envelope and the flap either sealed or turned in. The outside envelope to the Postmaster with the covers should be endorsed "FIRST DAY COVERS."

I suppose every collector has heard of the fabulous "tin can" mail service which was available up to 1946 from the Island of Niuaou of the Tongan archipelago. The man who started this unique mail service recently died. His name, George Quensell. Due to the dangerous surf which barred the use of boats to pick up mail, the natives would swim to the mail boats with letters in sealed tin cans. The mail boats would carry the letters to New Zealand for distribution. Most of the mail sent from the Island was for collectors who wanted covers with the cachet which Mr. Quensell applied. In 1946 the 1,200 people who lived on this Island were evacuated due to volcanic activity, and this meant the end of a remarkable mail service.

Stamp collecting must compete with all the outdoor activities that summer brings, and yet, a real collector never forgets his stamps entirely. Even on hot summer days you will see him with the latest edition of his favourite stamp paper looking for bargains, or for some value he needs to complete a page. But, if you are one who stores the collection for the summer, it is well to remember that humidity is one of the greatest enemies of your stamps. So be sure to provide adequate ventilation and good protection.

If any one has information regarding the early postal history of the Townships would they kindly forward their names and addresses to this paper. This information will be used in a Club project and for writing up a collection of early Canadian stamps.

AUDITORS' REPORT

We have examined the balance sheet of the General Department and the Water Department of the Municipality of the Town of Lennoxville as at 31st December 1955 and the statements of capital, surplus and revenue and expenditure of these departments for the year ended on that date and have obtained all the information and explanation we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion, the accompanying balance sheet and statements of capital, surplus and revenue and expenditure for both the General Department and the Water Department are properly drawn up so as to exhibit a true and correct view of the state of the affairs of the Municipality as at 31st December 1955 and the results of its operations for the year ended on that date, according to the best of our information and the explanations given to us and as shown by the books of the Municipality.

The Great Dunninger, who amazes even the skeptics with his telepathic powers, has predicted that the missing British frogman, Cmdr. Lionel Crabb, will be found alive within one year. Well, that's certainly more than Sir Anthony Eden told us.

Inhalation of cigaret smoke is one of the aspects of discussion on lung cancer, and gentlemen in South Africa, writing in the London Times, suggest another expectorator. This is the Sunday synonym for a more vulgar four-letter word which is hardly used nowadays. It is seldom used because smokers rarely seem to spit—we mean expectorate. The Times correspondent says that in days gone by, smokers, chiefly pipe or cigar smokers, expectorated freely, and what he called spitoons, which are more generally referred to today as cuspidors, were an essential part of the home furnishings and of the bar-room. Men used to pride themselves on their skill in hitting the centre of the cuspidor at short or long range, but if less competent expectorators missed it,

Two meetings Monday, one of Great Lakes shipping operators, the other of top men in the Canadian Seamen's Union appeared today to hold the answer to settlement or continuance of the now nearly two-weeks' old strike of Great Lakes seamen in demand of an eight-hour day. On this demand, the seamen who have tied up one ship after another to the number of more than 100, were adamant.

in every Quebec area

Hydro electric capacity had to be increased to keep pace with Quebec's growing industrial development. Premier Maurice Duplessis faced up to the task in 1944 and in the subsequent decade boosted hydro electric energy from 5,800,000 to 8,000,000 horsepower. We now have an additional 2,400,000 horsepower under construction in the province and total output will soon exceed 10,000,000 horsepower. Quebec's hydro electric potential is known to be 26,000,000 horsepower.

HOME BUILDERS...

here are a few of the reasons why YOU should specify R.O.W. Windows on your project.

• REMOVABLE — R.O.W. Windows are instantly removable from the INSIDE, making cleaning and glass replacement easy.

• INSULATED — R.O.W. construction assures a minimum of air infiltration.

• PREFITTED — R.O.W. Window units are shipped to job sites completely assembled, ready to insert into rough opening.

• QUALITY — R.O.W. Windows are manufactured of CLEAR kiln dried Pine. No other window material blends so well with home furnishings. No provides better insulation than wood.

• DOUBLE GLAZING — R.O.W. double glazing is applied from the exterior, a feature possible only with a "removable" sash, and is supplied as an extra when preferred in place of regular storm sash.

• CUSTOM BUILT — R.O.W. Windows are built to YOUR requirements and specifications.

• ECONOMICAL — R.O.W. Windows cost no more than ordinary windows, and in many instances cost less due to the saving made on site labour.

For further information and prices, call or write MacPherson's at Magog, manufacturer and distributors of R.O.W. Windows in the Province of Quebec.

MIND YOUR MANNERS
If you borrow a book from a friend, don't feel free to lend it to someone else. Read it in a reasonable length of time and then return it promptly. The reason why so many borrowed books are never returned is that a book gets lent to a second person. And don't leave it on your own book shelf so long that you forget to whom it belongs.

Indians Dump Miners 7-2; Meet Here Sunday; Claude Ruel Leads Way With Three-For-Four; G. Dube Hits Double

The Sherbrooke Indians brought home the wampum last night when they scalped the Theftford Miners 7 to 2 in a long-drawn nine inning game at the local stadium.

Both teams racked up the same number of hits, nine apiece, but Guy Proteau's Indians won over the opposition by batting home three runs in the first inning and from then on making the best of Theftford's errors.

Although Indian Ralph Guerette struck out only six men as compared to Theftford's eight, the strong infield of the hometowners prevented the Miners from making good their hits. Theftford switched pitchers three times with Robitaille being the most effective. He hurled three innings replacing Jean Bournet in the sixth. From then on the Sherbrooke drive came to an abrupt standstill. Thivierge was replaced by Bournet early in the first inning after the Indians scored three runs while he was on the mound.

Theftford opened the scoring in the opening frame when Simons reached home on a single by Auclair. Perron popped a fly in the hands of third baseman Bert Morin, leaving his teammates Auclair and Goulet on base.

Morin made Sherbrooke's first bid by knocking a single into left field. His bloodbrothers, Forques and Dussault, followed suit with a single each. Claude Ruel banged a first-baser into right field and unloaded the bases, bringing the count to three to

one. Gilles Dube hit another single but quick work by pitcher Thivierge killed Ruel's hopes of making home. Paul Ruel was out after a fly to center field and Gilles and Fern Dube were left on base when Stan Marcoux grounded out.

In the third Gilles Dube smashed a long drive into right field for a two base hit and then stole third for good measure. Paul Ruel was walked and stole his way to second. Marcoux hit one to center field but was tagged on third. In the meantime Dube and Ruel streaked home.

Again in the fourth, the Indians chalked up another mark when Forques made home on errors by Perron and Goulet. Goulet made another error in the fifth which allowed Paul Ruel to score Sherbrooke's seventh and last run.

Vachon hit paydirt for Theftford Mines in the sixth on an error by Claude Ruel. The score stood 7-2 till the end.

The only spot of excitement in the final innings was a protest lodged by Sherbrooke. Apparently Theftford's Labonte, substituting for Simons, batted out of turn and was called out by the umpire.

Herb Score Lost To Indians For A Few Days

BALTIMORE (AP)—Doctors said Thursday Herb Score, fireballing pitcher of the Cleveland Indians, will miss the coming series against the New York Yankees and it is "only a possibility" he may be able to rejoin the Indians Monday in Boston.

The Hurier's ailment was diagnosed as "an inflammation of the colon," a condition which was not considered serious.

Manager Al Lopez was advised it would be best to permit Score to remain here for a "few days rest."

ST. LOUIS (AP)—Third baseman Henry Thompson of New York Giants "rested comfortably last night and his condition is good," a hospital spokesman said Thursday.

The 30-year-old ball player suffered a severe concussion when hit on the head in the fourth inning of the Giants' game with the St. Louis Cardinals.

Archie Moore To Meet Romero At San Francisco

VANCOUVER (AP)—Light heavyweight champion Archie Moore will fight 235-pound Edgardo Romero of San Francisco here July 19 in an outdoor bout at Capilano Stadium, promoter Earle Kalani said Wednesday.

Kalani said he expects confirmation from Romero's manager today. He said he will send out contracts next Wednesday.

Last summer at Weston in Ontario, Arnold Palmer showed a magical touch in handling his putter which assured him of winning in quite a spectacular fashion just as was the case of another golfer bearing the same name, Johnny Palmer who in 1952 in Winnipeg established the new Canadian record for 72 holes with an impressive total of 263.

The young Latrobe golfer advised Ken Murray, the Labatt Open Manager, that he wished to play in the \$26,800 Labatt Open which leads to believe Palmer will defend his Canadian

Floyd Patterson Is 2-To-1 Favorite Over Hurricane Jackson Tonight In Elimination Round For Heavy Title

NEW YORK — (P) — Floyd Patterson, a graceful, precision puncher ticketed early for fistic greatness, and Tommy (Hurricane) Jackson, 24-year-old eccentric, clash tonight in a 12-round elimination bout that will move the winner one step from the vacant heavyweight throne.

The 21-year-old Patterson, grown into a 181-pound, six-footer, is a 2-to-1 favorite to whip the tireless 6-2½, 193-pound Jackson and go on to a title fight against lightweight champion Archie Moore in September.

Not in recent years has a non-title fight whipped up such interest around the world as this collision of heavyweights with widely contrasting styles. Although the scrap will be broadcast and telecast locally as well as nationally, a crowd of 10,000 will pay around \$50,000 to see the "live" action.

Each fighter will receive \$40,000 for their biggest purses to date.

Patterson, beaten only by former light-heavyweight champion Joey Maxim in a 30-fight career, was a 13-to-5 favorite early in the week. It will be one of the biggest betting fights in a long time.

The Jackson supporters say the indefatigable Hurricane from New York's Far Rockaway section will take everything the 1952 Olympic champion has to throw and wear him down with his mauling style.

Patterson's forte is speed and he can pour it on from the opening bell.

Floyd, who first won international acclaim by winning the Olympic 165-pound title in 1952, has a 29-1 record with 21 kayos. Jackson's record is 27-4-1 with 13 knockouts.

Rocky Nelson Bursts Out In Hitting Splurge In Final Appearance With Royals; Jets Wallop Maple Leafs

Glenn Rocky Nelson said good-bye to the International League today and headed for another trial in the majors with Brooklyn Dodgers but it'll be a long time before the hard-hitting Montreal first baseman is forgotten in the triple A circuit.

The 31-year-old Royal bowed out of the league with two doubles last Thursday as the league-leading Montreal Royals thumped Richmond Virginians 8-3 for a sweep of their three-game series.

Nelson, who is scheduled to take over first base for the Dodgers in Cincinnati, left the Royals with a .396 batting average, second in the league only to teammate George Anderson's .414, 14 doubles 12 home runs and 37 runs batted in.

Montreal's Bill Harris and Jim Coates of the Virginians were locked in a hurling duel for six innings with Montreal leading 1-0. But the Royals lowered the boom in the seventh with three runs, added two more in the eighth and the same number in the ninth. Clyde Parris' inside-the-park homer accounted for the two eighth-inning tallies and Bobby Wilson's circuit smash was good for the two in the ninth.

Looks Like Lou Boudreau Should Have Tried To Figure Shift Out For Berra; Redlegs Take Over

Now that Kansas City manager Lou Boudreau has Mickey Mantle "figured out," what's he going to do about Yogi Berra? Boudreau did about as good a job of "stopping" Mantle as any one has this season, employing a shift that packs the defence to the right when the switch-hitting Mickey bats lefthanded. Mantle got only four hits in 11 trips and his major league-leading average dropped from .411 to .403 in the three-game series just completed by the As at Yankee Stadium.

But what about Berra? Yogi smacked six hits in nine trips in the three games, drove in five runs, scored six and hit three homers.

He powered his 16th homer of the season—and fourth in four games—to get the Yankees rolling on a 9-1 decision over the As Thursday. He also added two singles and drove in two runs.

The victory pushed New York into a 4½-game lead as runner-up Cleveland was dumped by Baltimore 5-2. Chicago White Sox beat Washington and Boston timed Detroit 6-5 in 10 innings.

Cincinnati's rugged Redlegs boomed into the National League lead by half-game over idle St. Louis by blasting Philadelphia 8-5 while Chicago Cubs were dropping Pittsburgh to third 5-2. Milwaukee closed Brooklyn's winning streak at four games as Bob Buhl pitched a four-hitter to win 4-1.

Hank Bauer hit his 13th homer for the Yankees, knocking in his 34th run—not bad for a guy hitting .203.

The loser was Alex Kellner while Bob Turley won it for a 3-2 record.

The Redlegs moved into the NL lead for the first time in 16 years this late in the season by clipping losing reliever Bob Miller for three runs in the eighth. Smoky Burgess started the rally with his fourth homer. Joe Nuxhall won it in relief as the Redlegs swept the four-game set.

The Cubs, moving out of the cellar as the Phils dropped in.

SETS AMERICAN RECORD
 LOS ANGELES — (AP) — Joe Tyler of the San Diego naval training centre set a United States record Thursday night in the 10,000 metres of the Southern Pacific AAU track and field championships. His time was 30:31.9.

Buhl hung up his third straight decision over the Brooks while Carl Erskine, winless since his May 12 no-hitter, lost his sixth. Three runs in the sixth, two on Buhl's double, wrapped it up.

Bill Wight, who gave up all five Cleveland hits, and George Zuerink, making his 23rd relief call in 47 games, checked the Indians.

A double by Ted Lepcio, who earlier homered, won for the Red Sox against reliever Al Aber. Frank Sullivan won it with a six-hitter and he should have had it in a breeze. The Red Sox had 18 hits—but left 17 men stranded, one off the record. Boston's Mickey Vernon had four hits for a .379 average and a nine-game streak.

Ninthinning triples by Nellie Fox and Dave Philley, combined with sacrifice flies by Minnie Minos and Larry Doby, won it

for the White Sox and reliever Howie Pollet. Pete Ramos lost in relief.

OBITUARIES

JOHN ALBERT TILTON, OF STANSTEAD
STANSTEAD — The funeral of John Albert Tilton took place in Centenary United church on Monday afternoon, May 28, where many business associates and friends gathered with the family in tribute to a highly respected citizen.

Words of comfort were spoken by Rev. A. McKinley Rose and Mrs. A. P. Gordon, at the organ console, rendered medleys of favorite hymns. The bearers were old friends and employees from the Three Village Building Association, Merton Davis, Carl Lane, Harry Bacon, Jack Keeley, Paul Boiessey and K. I. Curtis.

Burial took place in the family lot in the Griffin cemetery. Mr. Tilton was born at Tomifobia on March 19, 1872, the son of John and Mary (Gale) Tilton. He received his education at the public schools, and as a young man went into business for himself. In 1895 he purchased the Mack's Mills lumber mill, operating as sole owner until 1905, when he formed a partnership with M. Raymond, of Tomifobia.

In 1912 he sold his interests in the business and formed a partnership with Col. B. B. Morrill. Two years later a stock company was formed as the Three Village Building Association. Mr. Tilton and the late John Holland being the largest stock holders. Mr. Tilton was vice-president and general manager of the company. About ten years ago he retired owing to failing health.

Mr. Tilton led an active life outside of his business. On October 6, 1906, he was initiated as a Master Mason of Golden Rule Lodge No. 5, A.F. and A.M., Stanstead. Later he joined Golden Rule, Chapter 1, Royal Arch Masons, Sherbrooke, and was one of the charter members of Lively Stone Chapter, No. 16, formed at Stanstead on November 15, 1913. He served as First Principal in 1926 and in 1930 was appointed Grand Steward of the Grand Chapter of Quebec. In January 1955 he was made a life member of Lively Stone Chapter.

He was made an honorary member of Golden Rule Lodge in October, 1946, and was to have received his 50 year Grand Lodge medal this October. He was also a member of the Shrine and other Masonic bodies leading up to it. An accomplished story teller, Mr. Tilton was called upon to speak at many gatherings.

He served as a school commissioner for the Township of Stanstead from 1910 to 1911 and in July, 1924, was elected a school commissioner for the Village of Stanstead Plain. In October of the same year he was elected chairman of the school board, and continued in office until September 21, 1945. Upon his retirement he was presented with a framed testimonial.

In 1914 he was elected a councillor for the Village of Stanstead Plain, serving efficiently for many years. Mr. Tilton was also a past vice-president of the Stanstead Board of Trade. He was an adherent to Centenary United church and contributed generously to its support. He was also a generous supporter of all worthy causes.

As a young man he was united in marriage to Henrietta Gould, of Waterloo, who predeceased him in 1911. On June 30, 1914, he was remarried to Bertha Clark of Stanstead.

About two years ago, Mr. Tilton became ill and was for a time at the Hetherington Rest Home. Returning home, he was given every care by Mrs. Tilton and Mrs. Bertha Shelton, who came to reside with them, and were assisted by his son Lawrence, of Rock Island. On May 15 he entered the Sherbrooke Hospital, where he passed away on May 25, death being attributed to coronary thrombosis.
