STALEMATE APPEARS CERTAIN IN MANITOBA'S NEXT LEGISLATURE

With Twenty Seats Still to Report, Bracken Liberal-Progressive Government Holds Single-Seat Margin Over Combined Opposition Forces—First Communist Member Elected for Winnipeg—Cabinet Ministers Running into Difficulties as Counting of Third and Fourth Choice Continues.

Winnipeg, July 29.—The Opposition gained two seats today from the Liberal-Progressive Government of Premier John Bracken as counting of ballots in Manitoba's general election of last Monday continued.

Two seats in Winnipeg's ten-member constituency in which the results were in doubt early today sent one Conservative and one Communist candidate to the Manitoba Legislature. They were Ralph H. Webb and James Litterick, respectively. Seven other seats in this riding remain to be decided. L. St. George Stubbs, Independent, was conceded election previously.

The total of elected candidates stood today at thirty-five. Of this number eighteen were Liberal-Progressives, ten Conservatives, four Social Credit, one Co-operative Commonwealth Federation, one Independent and one Communist. Voting was held for fifty-three seats of the fifty-five member Legislature. Two seats, one at The Pas and one in Ruperts Land, will be decided on August 21st.

With eleven rural seats also in the doubtful column, the Government followers returned in eighteen constituencies faced a potential opposition of seventeen. Liberal-Progressives were leading in five other seats and Opposition groups were ahead in thirteen.

Election of Winnipeg's former mayor and the district secretary of the Communist party was decided after a count of first choices under the proportional representation system.

Election of Litterick assured the Communist party of a first seat in any provincial assembly in the Dominion. He was running second among twenty-one candidates when the election of Mr. Stubbs, a former Manitoba County Court judge, campaigning as an Independent, was conceded Monday night.

Litterick has been prominent in Communist circles in Canada for a number of years. He was active in Toronto and Vancouver before coming to Winnipeg and was campaign manager for Tim Buck, party leader, in the last federal election campaign in North Winnipeg. Mr. Webb was a member of the last House.

Several Cabinet Ministers Ran into Difficulties.

Complete results of the election, returning officers stated, may not be available for several days.

Cabinet ministers in the Bracken administration ran into difficulties as opposition stiffened in various sections of the province. Prospects of re-election of Minister of Education Hoey were not certain. With eleven polls to hear from at St. Clements he was trailing Herbert Sulkers, C.C.F. nominee, 2,240 to 2,938 votes. R. J. Bates, Social Credit candidate was last with 1,156 votes.

Hon. W. J. Major, Attorney General, and Hon. J. S. McDiamid, Minister of Natural Resources, were running close behind John Queen, C.C.F. member and Mayor of Winnipeg, in the race for the ten city seats. Heavy transfers of Stubbs' second choices raised Mr. Queen from tenth to fourth position, and in the lead for election.

Women Candidates Lost Prestige in Later Counting.

Women candidate lost prestige as returning officers resumed their task of selecting ten candidates in the Winnipeg constituency. Mrs. Mary Dyma, Government nominee, slipped from seventh to eleventh position in the transfer of surplus votes. Miss Beatrice Bridgen, C.C.F. candidate, held twentieth place with a total of only 371 votes.

The anti-Government movement that appeared to set in shortly after the first returns trickled in Monday held back the majority Premier Bracken commanded shortly after the election in 1932. At that time his eight-year-old farmer administration was returned to the House with a majority of twenty. Liberal-Progressives elected totalled thirty-eight, Conservatives, ten, C.C.F. five and Independents two for a total of fifty-five.

DUKE AND DUCHESS OF KENT ARRIVE AT ANTWERP BY PLANE

Antwerp, July 29.—The Duke and Duchess of Kent arrived here this afternoon from Le Bourget airport, France, in King Edward VIII's plane.

THE WEATHER

FAIR AND MODERATELY WARM
A shallow depression is moving northeastward across the St. Lawrence Valley and pressure continues low on the Labrador coast, while high pressure and comparatively cool weather covers the central portion of the continent. Showers have occurred in many districts from Ontario eastward while in the Western Provinces the weather has been fair.

Forecast: Fresh northwest winds; fair and cool tonight and Thursday. Friday—probably fair and moderately warm.

Northern New England: Generally fair and cool except on the extreme east coast tonight; Thursday generally fair and cooler.

Temperatures yesterday: Maximum, 79; minimum, 54.

Same day last year: Maximum, 83; minimum, 60.

CANADA GRANTED LEAVE TO APPEAL SUPREME COURT DECISION

London, July 29.—The Judicial Committee of the Privy Council today granted the petition of the Canadian Government for leave to appeal to that body concerning the validity of several acts dealing with labor and employment passed by the Bennett Government last year.

Their Lordships did not request counsel for the appellants to present arguments, granting leave to appeal on all the petitions brought by the Dominion.

The Dominion petitions concern the validity of the act providing for one day's rest in seven; the act providing for a forty-eight-hour week; the Minimum Wages Act and the Employment and Social Insurance Act.

The Supreme Court of Canada held the first three of these partly valid and the last one unconstitutional.

TRAVELLING AQUARIUMS TO MAKE UNITED STATES FISH CONSCIOUS

Washington, July 29.—Travelling aquariums soon will be sent by the Bureau of Fisheries to all sections of the country to make the United States "fish conscious."

Portable units, containing various species of fish, will be displayed to familiarize the public with fish, fish culture and propagation.

GOVERNMENT CLAIMS CAPTURE OF SEVERAL SPANISH REBEL CENTRES

Loyalists Press Drive on Zaragoza as Fascist Troops Seek to Drive Wedge Between Madrid and Barcelona—Cabinet Claims Revolution Has Collapsed—Special Boards Appointed to Confiscate Religious Educational Property—San Sebastian Definitely in Government Hands.

Government forces today claimed capture of several rebel centres in the south and pressed their drive in Zaragoza while the Fascist rebel forces sought to drive a wedge between Madrid and Barcelona.

Madrid:—The government said Leftist forces occupied San Roque and La Linea, near Gibraltar. The administration said the revolution "had collapsed." Special boards were formed in all provinces to confiscate religious educational property.

Vera:—Rebel reinforcements were dispatched towards Zaragoza today, with orders also to try to cut land connections between Madrid and Barcelona, capital of Catalonia.

San Sebastian:—With defeat of the rebel Loyola Garrison, San Sebastian definitely was in Government hands. Ecclesiastical women in breeches were reported patrolling the streets.

SPEED UP CONFISCATION OF RELIGIOUS PROPERTIES

Madrid, July 29.—Official Spain ordered mayors, Government burghers and special boards throughout the rebellion-wracked nation today to complete the confiscation of remaining Catholic schools, colleges and universities.

Article 26 of the Spanish Constitution prohibits religious orders from teaching or owning education institutions, but the section, intended to wipe out teaching which Leftists regard as reactionary and inimical to their cause, has not been strictly enforced.

An official decree, promulgated yesterday, announced "immediate enforcement" of the article was necessary "at this moment" of armed Rightist rebellion.

In those places where "normalcy has not been established" (apparently, where the Fascist rebels are in power) the confiscation is to be carried out within five days from the time "legal authority" is re-established.

Since the February elections of this year, with their sweeping Leftist victories, many church have been destroyed or damaged by extremists. Others were burned following the fall of the Bourbon monarchy in 1931.

There are several thousand churches, church convents, schools, colleges and universities in Spain which are owned by religious orders and the Jesuits, technically dissolved by the constitutional section, the wealthiest of them all.

Religious teaching also has been banned from the public schools, but priests have been permitted to teach religion in churches. They have not been allowed to mention politics from the pulpit, although several of their number have served as parliamentary deputies, a few of them affiliated with modern Leftist parties.

Mayors were ordered to effect the confiscation and to take possession of all "scientific and pedagogic material." Details of the confiscation were to be carried out before notary publics and municipal secretaries.

The entire programme, approved by the cabinet, was under the supervision of Marcelino Domingo, Minister of Public Instruction.

The Government decree, under the provisions of article 26 of the constitution, was designed to complete confiscation of Catholic. Please Turn to Page 2.

ATTRIBUTE WORLD'S TROUBLES TO LOSS OF LEADERSHIP DURING WAR

"If the World Can Find No Other Means of Settling Disputes than War, While Bodies that Fell Twenty Years Ago Are Still Being Unearthed, Then the World Deserves to Perish," Premier Baldwin Told Canadian Vimy Pilgrims—Spoke in High Terms of Canada's Ready Response and of Pride and Confidence Britain Has in Dominion.

London, July 29.—The world's "present troubles" may be traced to the fact the nations lost in war twenty years ago "their best, who today would be their leaders," Prime Minister Stanley Baldwin said as he spoke in Westminster Hall to Canadians of the Vimy pilgrimage.

"If the world can find no other means of settling disputes than war, while bodies that fell twenty years ago are still being unearthed, then the world deserves to perish," said Premier Baldwin. But he saw hope for the future, recalling the recent conference of France, Germany and Great Britain in which the nations had united to preserve the war burial grounds, and the June 8 ceremony in London when French and German veterans laid their colors on the cenotaph.

"When men can do that, there will be no more fighting, and it was the German General Von Seeckert who said he hoped that after the sacrifices of the Great War there might be a long period of human comradeship and peace."

"As you come from Canada on a pious pilgrimage to visit scenes of incomparable heroism, to cement old friendships, to revere and honor those who fell, it is fitting I should meet you at Westminster Hall," said the Prime Minister.

"Canada was born of a union of two great European civilizations, and here you see a building erected by a Norman king, where the first Parliament met seven centuries ago. 'We can never forget how in those first days of war, at the moment of peril, Canada sprang to the aid of Britain and stood with us in that grim fighting around Ypres, and faced there the first gas attack. 'I think we showed you then what we thought of you, for we gave you Vimy, the key-spot of the whole line. We gave you our best—Byng. I think you loved Byng as I know the loved you, and when his work was done he produced a man in your own Currie to take over. 'Byng and Currie were friends in life, and in death not long divided, for both have been called in recent years and each lies honored for all time in the pleasant lands that gave them birth.'"

Baldwin, a Worcestershire man, recalled a recent visit to Ghent, when passing through the Menin Gate, through which every regiment of the Empire had marched, he "felt the air vibrant" and seemed to see the roads crowded. "I seemed to be pushing my way along, and I know that feeling must have been with you at Vimy on Sunday—you must have known those unseen witnesses who are our dead, and are with us today."

Mr. Baldwin was accompanied by Dominions Secretary Malcolm MacDonald and Hon. Vincent Massey, Canadian High Commissioner, with officials of the British Empire Service League, as he appeared at the top of the stairway in Westminster Hall. He was given a tumultuous reception.

ITALY ACCEPTS PRINCIPLE OF LOCARNO TALKS

BRITAIN PLACES ORDERS FOR TWO NEW WARSHIPS

Two Important Reservations Placed in Acceptance of Invitation to Attend Proposed Five-Power Locarno Conference, However.

Paris, July 29.—Italy has accepted in principle, informed sources said today, an invitation to a five-power Locarno conference.

Premier Mussolini imposed two conditions, it was reported, on Italy's participation in the discussions to reconstruct European security. These were declared to include: Acceptance of the fact but not the right of Italy's conquest of Ethiopia.

Discussion of the Mediterranean defence question by only the five powers and after agreement on a new Locarno treaty.

(The five powers—Great Britain, France, Germany, Italy and Belgium—will probably meet in September. France, Belgium and Great Britain recently outlined the prospective session at a London discussion.

Officials said the question of implied French recognition of Italy's conquest of Ethiopia by such a step as transforming the legation at Addis Ababa into a consulate has not been considered. They declined to say what the government's attitude might be.

STRESS IMPORTANCE OF ARGENTINE MEAT SUPPLY
Declared Imperative Adequate Protection Be Given Shipping Lines to Assure Proper Facilities in Event of War.

London, July 29.—The importance to Britain in wartime of the Argentine supply of frozen and chilled meat, and the necessity for adequate transport facilities was stressed by Lord Essendon, chairman of Furness Withy and Co. Ltd., at the general meeting of the shipping line today.

The shipping magnate declared that £20,000,000 (\$100,000,000) was invested in transportation of this meat from Argentina. He held it imperative that adequate protection be given shipping lines to assure proper facilities in the event of war.

Although he agreed that British cattle-breeders should be well-protected and the dominions given a certain preference, Lord Essendon expressed the hope that the British interests would not be forgotten or completely submerged in the new Anglo-Argentine trade agreement.

STATES BRITISH CABINET LARGELY A MINISTRY OF TIRED MEN

London, July 29.—Neville Chamberlain, Chancellor of the Exchequer, is the latest member of the Cabinet to be affected by sickness. He is suffering from gout.

Viscount Hailsham, the Lord Chancellor, is improving in health, but it is unlikely he will resume his duties for some time. Ramsay MacDonald, Lord President of the Council, seems to have recovered from a slight illness.

"The truth is," says the Manchester Guardian, "that this is very largely a ministry of tired men, at least at the top."

"No ministry could ever have a greater interest in an alternative Government than this. They are falling and there is no alternative combination to relieve them. Some of them may regret it nearly as much as the Opposition."

HOT WEATHER BRINGING ON EARLY TOBACCO HARVEST

St. Thomas, Ont., July 29.—The exceptionally hot weather is bringing on an early tobacco harvest, it was said yesterday by blue-cured tobacco growers in the Union and Port Stanley areas. The topcrop of some pieces will be started in a week while indications are the priming of ripe leaves will begin in ten days or two weeks.

SIXTEEN LIVES WERE CLAIMED IN ROUGH WATERS OF LAKE MICHIGAN

Captain and Fifteen Members of Crew Perished when Huge Wave Suddenly Capsized Vessel Loaded with Sand and Gravel—Seven Other Members of Crew Clung to Wreckage Until Coast Guard and Other Ships Reached Scene of Tragedy.

Chicago, July 29.—Sixteen men were feared drowned early today when the motor-powered ship, "Material Service," capsized in the rough waters of Lake Michigan, four miles off Chicago's south side.

Seven members of the crew were rescued, but Captain C. D. Brown and fifteen others were listed as missing by the Coast Guard.

First Mate John M. Johnson, who clung for more than half an hour to pieces of wreckage bobbing in the white-capped waves, gave the first account of the tragedy.

He said the vessel, loaded with sand, listed suddenly to port as it nosed through a heavy sea sometime between 3 and 4 a.m. E.D.T. It lurched crazily to an even keel, Johnson related, and then sank swiftly.

A. E. Pierce, keeper of the Calumet harbor lighthouse station, two miles off 86th street, saw the "Material Service" go down. He notified the Coast Guard and put out in a small boat with R. A. Carlson, his assistant.

They picked up two of the survivors. A south Chicago Coast Guard craft rescued three others. A Benham Towing Company boat lifted the remaining two from the lake.

Other Coast Guard boats, from the old Chicago and Jackson Park stations, and the cutter "Rush" dispatched from its berth at the municipal pier, were rushed out to the scene to comb the waters for Captain Brown and the fifteen missing members of his crew.

The survivors were first taken to the Calumet Harbor lighthouse. There, chilled and exhausted, they related the details of the tragedy.

They told how a wave struck their 2,000-ton sand and gravel carrier.

"We were going along as usual," said First Mate Johnson, "when suddenly the vessel listed to port. Then it came back to an even keel but immediately began to sink. We had the usual complement of life boats, but the sinking was so sudden there was no chance to launch them."

"All we could do was to seize anything which would help us to float and to go along the best way we could."

"The rescued men clung to beams and other wreckage. We would all have gone down in a short time if help had not reached us when it did."

"At one time I had hold of Capt. Brown's hand, but some how he jerked away. Then I lost sight of him. He must have gone down with his ship."

All available Coast Guard boats searched the surface of the lake over a wide area in hope of sighting the missing men, but they rescued mates sadly professed the belief that all of them had been drowned.

The shores of the lake in the vicinity of the tragedy were also combed for signs of the bodies of those believed to have perished.

ELECTION CAMPAIGN IN EASTERN TOWNSHIPS NOW IN FULL SWING

Nomination of Honorat Lussier, of Granby, as Liberal Candidate in Shefford Completes Line-Up of Parties for Eastern Townships Ridings—Minister of Municipal Affairs Tells Granby Audience that Royal Commission May Probe Contributions to Campaign Funds—Opposition Candidate in Sherbrooke Inaugurates Campaign.

With the nomination of Honorat Lussier, a farmer of the Granby district, as Liberal candidate in Shefford County, the battle lines of both the Government and Opposition forces in the Eastern Townships for the forthcoming provincial elections have been completed. Mr. Lussier was nominated at a largely attended convention in Waterloo yesterday afternoon, which was followed by a public meeting at Granby in the evening at which Hon. T. D. Bouchard was the principal speaker.

The complete line-up of candidates for the Eastern Townships follows, with former members seeking re-election marked with an (X):

County	Liberal	Opposition
Brome	Percy Taber	Jonathan Robinson
Compton	Dr. S. A. Banfill	Payson Sherman (X)
Drummond	Dr. A. Rajotte (X)	Joseph Marier
Frontenac	Albert Choquette	Patrice Tardif (X)
Megantic	Louis Houde	Tancrede Labbe (X)
Missisquoi	Jean B. Gendron	Frank Pouliot (X)
Richmond	Ulric Bruneau	Albert Gaudreau (X)
Shefford	Fortunat Lussier	Hector Choquette (X)
Sherbrooke	Hon. Cesarie Gervais	Johnny Bourque (X)
Stanstead	Enos Veronneau	Rouville Beaudry (X)
Wolf	Thomas Lapointe (X)	Henri Vachon

At the Granby meeting, the Minister of Lands and Forests and Municipal Affairs, challenged the stand of the Opposition leader in opposing the naming of a Royal Commission to investigate the administration of the province. A Royal Commission probe was superior to one by a parliamentary committee, declared the Minister, because it would not be swayed by political partisan prejudice and it could delve into many matters that were beyond the scope of a committee. Among the things it could investigate, hinted Mr. Bouchard, was the supposed receipt by the Opposition party of a contribution from the "power trust" to its campaign fund. This charge was originally made by Edouard Lacroix, M.P., for Beauce, at the time of the split in the Opposition ranks.

Mr. Bouchard declared that the present Government is composed of "Progressive Liberals" who would press through the Old Age Pensions legislation and continue the battle for lower electricity rates.

As the Minister was fighting the Government battle in Shefford, Col. Johnny Bourque, Opposition candidate in Sherbrooke county and the former member, opened his campaign with a rally in St. Jean Baptiste church hall in East Sherbrooke. As might be expected the Government and its activities were criticized to great length and with mighty gusto.

Such matters as the evidence before the Public Accounts committee, alleged irregularities in the distribution of road and colonization funds and crooked elections were dealt with, and great pains were taken to impress upon the audience that the Godbout and Taschereau regimes were "one and the same thing. Certain federal Liberal members also came in for attention being rather pointedly told that for their own future good they had better limit their activities.

This evening, political interest centers on Stanstead County, where Maurice Duplessis is delivering two speeches, one at Marzag and the second at Coaticook.

GOVERNMENT TO REMEMBER NEEDS OF CITY WORKERS

Quebec, July 29.—Quebec farmers will receive Government aid, but city workers need not fear the Government will neglect them if returned to power, Premier Adélard Godbout assured a Liberal campaign meeting last night at Fort Couloigne, north of Ottawa.

Subsidies and technical services are devised to return prosperity to the rural areas, and city workers know that they will reap the benefits of increased buying power in country districts, the young farmer-Premier said.

His opponents, the Union Nationale, were spreading false reports that the Liberal Government was trying to create friction between farmers and workers, said the Premier. Public works undertaken through the co-operation of the Dominion Government at Ottawa and the Legislature in Quebec will aid in doing away with direct relief, Mr. Godbout claimed.

Maurice Duplessis, Union Nationale leader, complained at Grand-Mere last night that Government supporters declared in one part of the province that he was Conservative, and then insisted in other localities that he was not a Conservative. Premier Godbout appealed to Conservatives at Hull on Monday night that Mr. Duplessis was "not one of them," said the Union Nationale chieftain.

He did not believe the Liberal Cabinet ministers were the changed men they claim to be, said Mr. Duplessis.

"Hitherto they have had the intelligence to conceal what they really were," he said, "but now they reveal their hypocrisy."

His critics said the Public Accounts Committee probe into departmental affairs he talked of so much would not save the party.

FAMED "PADRE OF THE POOR" DIES AT LACKAWANNA
Lackawanna, N.Y., July 29.—Father Baker, Lackawanna's famed "Padre of the Poor" and one of the oldest Catholic priests in the United States, died here today after a long illness. He was ninety-five years old.

U.S. PRESIDENT RELAXES AT HIS CANADIAN HOME

Docked at Campobello Island Last Night After 437-Mile Cruise—To Journey to Quebec Tomorrow for "Good Neighbor" Visit to Lord Tweedsmuir.

Campobello Island, N.B., July 29.—President Roosevelt, under guard of the Royal Canadian Mounted Police and the United States Secret Service, relaxed in a big, red cottage on a hilltop here today.

A picnic with members of his family and friends in the Campobello summer colony shortly after noon and a reception for his neighbors at the cottage about tea time were the only events on the day's calendar.

Reports were circulated that Major-General Edwin H. Markham, chief of army engineers, was en route here for a conference with the United States President on the Passamaquoddy tide harnessing project, which was abandoned when the Washington Congress refused to appropriate money for further construction.

Harry L. Hopkins, Federal Relief Administrator, has been looking over the model village built to house the Quoddy workers. He was understood to have made some proposal to the President yesterday regarding its future.

The President docked last night after a 437-mile cruise from Maine. On his private wharf were Canadian and American flags and a lane of twenty Royal Canadian Mounted Police, Old friends and fellow-sailors of his boyhood days were on hand to extend a welcome.

Mr. Roosevelt will remain here until Thursday afternoon. He then will board a special train for Quebec, where Friday will be spent in a "good neighbor" visit to Lord Tweedsmuir, Governor-General of Canada, who is at present in residence at the Citadel.

ISLANDERS WAITED HOURS FOR PRESIDENT'S ARRIVAL Campobello Island, N.B., July 29.—President Roosevelt's sea vacation is ended.

In the two-masted schooner Seawanna, the President arrived yesterday at his summer home on Campobello Island after two weeks of cruising in Atlantic coastal waters. Canadian and United States flags greeted him when he arrived from the island, N.B. Also there were a score of Royal Canadian Mounted Police to extend an official greeting.

Mr. Roosevelt left his yacht in a small boat from a point directly opposite his summer home, missing many islanders and visitors who had waited hours for the President's arrival.

The natives of Timbuktu put up roosting poles on minarets to serve as resting places for the returning spirits of their dead.

PAPERS FINED FOR CAPTIONS IN KING STORY

Defendants, Including News Reel Company, Charged with Contempt of Court for Prejudicing Case Against McMahon Before He Was Committed to Trial.

London, July 29.—Two newspapers and a newsreel company were fined a total of \$1,050 (about \$5,250) and about \$1,000 in costs today for publishing captions on the King's life or "The King's assassination attempt."

That was the day that George Andrew McMahon, a spectator at a military parade headed by the King on Constitution Hill, drew a revolver as the sovereign passed by on his horse. He says he did not intend to harm the King, but threw the weapon into the street as a "protest" against police "persecution."

The defendants were charged with contempt of court for prejudicing the case against McMahon before he was committed to trial accused of producing a weapon with "intent to alarm His Majesty."

QUEBEC APPEAL IS ALLOWED BY PRIVY COUNCIL

Freeman T. Cross Sued Gatteau Power Company for Flooding of Lands and Acquisition of Flowage Right in Development of Company's Power Plant on Gatteau River.

London, July 29.—The Judicial Committee of the Privy Council today allowed the appeal of Freeman T. Cross against the Gatteau Power Company arising out of the flooding of lands and acquisition of flowage rights in development of the company's power plant on the Gatteau River, north of Ottawa.

Cross, a lumberman, operated a sawmill and a small electric light plant near Chelsea, Que. He claimed compensation for lands flooded by the company's dam at Chelsea. The case came before the Quebec Public Service Commission but was withdrawn before a hearing.

Cross then took action in Quebec Superior Court and was awarded an aggregate sum of \$348,481 with interest at five per cent. Interest on \$271,500 was to run from March 12, 1927, and on the balance from June 12, 1929.

The company then appealed to the Quebec Court of King's Bench and the award was reduced to \$157,494 with interest at five per cent. Interest on \$82,000 to run from March 12, 1927, and on the balance from June 12, 1929.

Cross carried an appeal against this decision to the Privy Council's Judicial Committee.

ELECTION CAMPAIGN IN EASTERN TOWNSHIPS NOW IN FULL SWING

Continued from Page 1. may be true, but when a man's arm is infected with gangrene the arm must be amputated if the rest of the body is to be saved," he commented.

Mr. Dupont is scheduled to speak at Magog tonight. Addressing his Pontiac County audience in both French and English, Premier Godbout spoke of the harmony between the two races in the province. That very harmony and calmness would not allow them to be swayed into error by the false doctrines of Union Nationale, he said.

The Government had already announced its intention of pursuing the work of the Public Accounts Committee of the Legislature last session in investigating Government departments. The guilty would be sought and punished through the Royal Commission soon to be appointed, said the Premier.

"The Liberal party in this province can hold its head high in the face of any accusations which our opponents might make," he said.

At Granby, just south of Montreal, Municipal Affairs Minister Bouchard assured a Liberal rally that the scope of the Royal Commission inquiry would be broader than the committee probe, and the Commission would investigate campaign funds of both parties.

The new administration formed by Premier Godbout was built up of "Progressive Liberals," and planned many reforms, the Minister said.

GOVERNMENT CLAIMS CAPTURE OF SEVERAL SPANISH REBEL CENTRES

Continued from Page 1. schools, colleges and universities formerly owned by religious orders. The constitutional article prohibited the orders from teaching or owning colleges and already many buildings have been taken over, particularly those directed by the Jesuits.

In a matter of principle, the article itself virtually dissolved the Jesuit order in Spain although many priests have remained, disguised in civilian clothes and teaching in institutes and colleges owned by foundations and trusts.

Large sums of money were reported found in the possession of some priests while other amounts were declared discovered in convents.

LOYALST TROOPS PRESS DESPERATE REBEL PURGE

Madrid, July 29.—The Leftist Spanish republic pressed a desperate purge of its enemies from within today while its troops smashed two insurgent garrisons in the northwest and rushed reinforcements to the siege of Ouessat.

Suspected Fascist functionaries and officers were wrenched from state departments and the army. Special civil boards, given a five-day deadline, hastened to seize all church teaching property "to satisfy the legitimate desire of the people."

Women of prominence were caught in the Leftist dragnet. They included the wife and daughter of Gen. Emilio Barrera and the wife of the trans-Atlantic flier Capt. Julio Ruiz de Alda.

The government announced the fall of the coastal towns of San Roque and La Linea, in the shadow of Gibraltar, and hurried new reinforcements to Zaragoza, in the north, and Cordoba, Granada and Seville in the south.

Categories where military operations were being carried on were declared "war zones" in which military authorities are supreme.

The government appropriated 40,000,000 pesetas (about \$5,600,000) for suppression of the twelve-day rebellion.

In the Somosierra pass of the Guadarrama mountains, militiamen and loyal guards rested from the exhaustion of seven days' continuous battle. They claimed complete domination of the slopes guarding Madrid.

Reserve conscripts of 1934 and 1935 were called to barracks to reinforce the loyalist defenders of Madrid.

Juan Garcia, who escaped after being captured by rebel forces in the Guadarrama, said Gen. Emilio Mola, northern insurgent commander, was not in the sector. Many Fascist civilians, he declared, were included in the rebel forces, some wearing military uniforms, others clad in blue overalls with the insignia of the "Spanish Falange."

Loyalists, although confident of victory, were beginning to admit the fight would last longer than they had expected.

Successes on numerous fronts and a series of rebel aerial catastrophes cheered them.

Canonading was reported resumed in the industrial sector adjacent to the Bay of Biscay, although the town itself was in Leftist hands, with booted proletarian women patrolling the streets.

SEVEN REBEL AIRPLANES CRASHED IN ENGAGEMENTS

Madrid, July 29.—Hard-fighting Liberal troops expelled Fascists from two southern strongholds today, the Government asserted, to occupy the coastal towns of San Roque and La Linea.

Seven rebel airplanes crashed in scattered engagements, carrying an estimated dozen pilots and mechanics to death.

Liberal militia drove forward toward Fascist dominated territories in the north and south as the Leftist administration claimed the "revolution" has collapsed throughout Spain.

The revolutionary forces concentrated north of the Guadarrama mountains were reported dispatching reinforcements to Zaragoza, where a major engagement was believed imminent.

Reports from the rebel camps declared the insurgents were attempting to drive a wedge between the two loyal centres of Madrid and Barcelona in an attempt to cut connections between the field armies and the capital.

The resort town of San Sebastian, in north central Spain, was again in the hands of the Government after a forceful advance which brought the surrender of the Loyola rebel barracks.

Marching armies of Leftists converged on Cordoba and Seville in the south. Two of the rebel planes fell in an anti-aircraft barrage from the loyal destroyer Alsedo and two were shot down by Government planes over Cadix.

Another insurgent plane was brought down at Laredo near Malaga and a sixth fell on the southern coast killing three fliers. Loyola troops captured a plane at Olvera in Cadiz Province.

The Government, citing its progress in quelling the rebellious movement, claimed normal conditions had been restored in many cities.

USED PERSONAL MONEY TO BUY COAL COMPANY

Purchase of F. P. Weaver Concern Arranged Through Personal Financing, New York Financier Told Tory Royal Commission.

Montreal, July 29.—Purchase of the F. P. Weaver Coal Company in 1932 was arranged through personal financing without enlisting outside interests, Charles M. Barnett, New York financier, testified yesterday before the Tory Royal Commission inquiring into the anthracite situation in Canada.

The New Yorker, who will continue testimony today, told Dr. H. M. Tory, of Ottawa, he had borrowed \$598,000 from the Imperial Trust Company to make the purchase and that the money was "very sumably put up by Senator Lorne Webster or some of his banking affiliates under the Senator's guarantee."

Mr. Barnett, because of poor health, was permitted to testify at a private hearing.

The Weaver company had \$1,500,000 credit at the Royal Bank of Canada, Mr. Barnett said.

"When we had got our limit at the bank I put up additional funds," said Mr. Barnett. "Sometimes it was beyond my means and I borrowed it temporarily."

Such loans were obtained from either the Imperial Trust or Royal Trust, the financier said. His personal note was the only form of security on Imperial Trust loans, and there were no endorsers.

The original loan from Imperial Trust had been paid up, said Mr. Barnett. "I borrowed from the Chase National Bank in New York myself, on my own note, and Senator Weaver has agreed to take it up at the end of the year if I don't retire the note myself."

William G. Stobo, of Quebec, first interested him in the purchase of the Weaver company, said Mr. Barnett. Mr. Stobo is vice-president of the Canadian Import Commission and president of St. Lawrence Stevedoring Company. The New Yorker said after conferring with Mr. Stobo he came to Montreal and entered into an agreement with Lovell G. Mickles, president of the Weaver firm, for purchase of a controlling interest.

Mr. Barnett said he never disclosed the origin of the money used to buy Weaver shares.

Orders from the general staffs to oppose the advance of three loyal columns marching on the provincial capital from the south, north and east.

In addition, the Fascist officers were instructed to attempt to drive a wedge between Madrid and Barcelona to cut land connections between the two principal Leftist centres.

Other supporting troops were on their way to the San Sebastian area from Pamplona, reports reaching rebel headquarters said.

Women, wearing breeches, were declared to cut land connections between the resort town after rebels and loyalists clashed yesterday and the Government troops re-occupied the city.

GRIM TRAGEDY IS ENACTED IN MONTREAL HOME

Twenty-Year-Old Patrick Doolan in Critical Condition Today as Police Probed Death of His Mother and Held Injured Husband Under Guard.

Montreal, July 29.—Twenty year old Patrick Doolan remained in critical condition in hospital today while police probed the death of his mother in her Des Erables street home and held her injured husband under guard in hospital.

Police discovered the woman's body last night and her injured son. They also found her husband, former district fire chief Patrick Doolan, sitting on a chair in the dining room, his left arm gashed by a razor blade.

The woman's body lay across the bed, clad in night clothes, and police believed she had been slain as she slept. Her head had been bashed in. The son lay half conscious on the floor of another room. Doctors said he suffered from a fractured skull. Near the injured youth was a baseball bat splattered with blood and on a dresser in the room was a blood-stained dumbbell.

Patrick Doolan, Sr., suffered a gashed tendon and vein in the left arm and doctors said it would be at least three days before he can leave the hospital.

The tragedy was discovered by Mrs. A. O'Brien, Doolan's sister-in-law, who went with her daughter to visit the ex-chief's wife.

Police were called immediately. There was a pool of blood near the woman's head but the room bore no signs of a struggle. In the front room, however, furniture had been broken and the room disarranged.

Police said red-stained footprints marked the floor of the kitchen and there was much blood in the bathroom where they located two razor blades covered with blood.

Detectives said they were informed Doolan, Sr., had been in ill-health for a long time. Two years ago he was retired from the fire department after being injured in a fire.

URGES CHARTING OF ALL GAS MAINS ON CONTINENT

Utica Fire Chief Also Advises Insertion in Mains Themselves of Valves at Four-Block Intervals to Reduce Explosion Dangers.

Toronto, July 29.—J. N. Sullivan, fire chief of Utica, N.Y., advocated charting of all gas mains in United States and Canadian cities and the insertion in the mains themselves of valves at four-block intervals, as he addressed one thousand delegates from all over the continent attending the annual Fire Chiefs' Convention here last night.

Fire Chief Sullivan described his own experience when a broken water main disrupted gas mains, causing fires and explosions that tied up Utica's business section for sixty-two hours.

"You are all liable to the same trouble," he said, "because ninety per cent. of our cities have unvalved gas mains and in fifty per cent. of cities the gas mains are not completely charted."

He urged that all mains be charted and copies given to fire departments. Chief Sullivan also advocated sealing electric substays at the surface to prevent escaping gas entering them and increasing the explosion hazard.

He said a man's mouth circumference of three feet.

FINE GARDENS RESULTED FROM DREAM VISION

Stratford, Ont., Man Has Produced Remarkable Crops in Three City Garden Plots Following Directions Revealed to Him by Spirit "Like an Angel".

Stratford, Ont., July 29.—A vision, "fair like a woman," that came to Herman Greve twelve years ago in his sleep showed him such a successful plan of gardening, Greve said today, that he has kept his knowledge secret, although the plan has "something to do with the conditions and changes of the moon."

Following the directions revealed to him by the spirit "like an angel," Greve has produced some remarkable crops in three garden plots the city left him use.

From little more than half an acre of ground last year, he said, he produced 121 bags of potatoes. In addition, from his same plots, he had forty bushels of carrots, nineteen bushels of parsnips, three bushels of turnips and six bushels of beets.

The visionary gardener said he grew giant carrots last year that measured nineteen to twenty-three inches long and four inches in diameter, and that one carrot could serve as a meal for his family of twelve.

"I received my gardening education in my sleep," he said. "The vision came to me and showed me how to grow plants. It was like an angel, fair like a woman. I remember it yet, holding out its hands and showing me what to do."

Whether the vision or Greve's industry is responsible, his garden shows no effects of the recent drought, although his lots are not near a water supply. Some corn is coming into ear—early for this district. His potatoes are in solid rows with heavy foliage, although the crop about Stratford is approximately half normal. The bean crop in this area is a failure, but Greve's bean vines are dense with foliage and heavily set. There is not a handful of weeds in his three plots.

MONTANA FOREST FIRE CRISIS HAS PASSED

Have, Mont., July 29.—Authorities checked reports of incendiaryism today as one thousand fought to control a forest fire that fatally burned three men and destroyed thousands of acres of timber in the Little Rockies mountain range southeast of here.

Shifting winds last night began to blow the flames back toward burned-over ground, and unless the wind direction is changed again it was believed the crisis had passed.

Sheriff R. L. Campbell of Malta, Mont., near the fire, said he was checking reports the blaze might have been the work of pyromaniacs. Authorities indicated yesterday they believed the fire was started by careless campers.

Sheriff Campbell also said he was investigating reports two fire-fighters were missing. Congestion at the fire front, however, made it difficult to tell.

A coroner's jury last night held that Cameron Baker, twenty-four years old, of Have, Mont., and John Rowles, of Landsky, Mont., "met death by fire over which they had no control."

The two men perished in the

MONTREAL LIVE STOCK MARKET

Montreal, July 29.—There were 50 cattle, 147 sheep and lambs, 145 hogs and 150 calves for sale on the two Montreal markets today.

There was a firm tone to the market. Steers were steady at \$4 to \$6. Good steers sold at \$5.50 to \$6. Medium steers \$4.75 to \$5.25 and common light steers as low as \$4. Good butcher cows made \$3.50. Cows of medium quality were quoted around \$3 to \$3.25 and common butchers as low as \$2.50. Canners and cutters were from \$1.50 to \$2.25.

There was a strong demand for calves. Medium quality veals sold from \$5 to \$6, good kinds at \$6.25 to \$6.50 and grassers from \$3.50 to \$4, with heavy drinkers from \$4 to \$4.50.

Lambs were just steady at \$8, with culls out at \$6. Hogs were firm at \$9.85 for bacon, fed and watered, with \$1 per hog premium on selects. Light lights and extra heavies were not wanted. Sows sold from \$6.50 to \$7.

Country and Dairy Products Prices

Montreal, July 29.—Prices were again stronger on the local egg market yesterday, fresh receipts in the city selling generally 1/2c per dozen above the previous day's levels. Small lots to the retail trade were firm at Monday's advances. The butter market was a little easier, and cheese prices were a shade softer. Further sales of butter for export to the United Kingdom have been made this week. The weekly auction of cheese will be held today at 12:30 p.m. at the Board of Trade.

On the Canadian Commodity Exchange spot sales of butter were 1,800 boxes, all at 23 1/2c. The closing market price was given as 23 1/2c to 23 3/4c. Small lots to the retail trade were quoted by jobbers at 24 1/2c for solids and 25c for prints.

Graded shipments of eggs in cartons or l.c.l. lots were 27-28c for A-large, 25-26c for A-medium, 22c for B and 21c for C. Small lots to the retail trade were quoted by jobbers as follows:

SHERBROOKE, WEDNESDAY, JULY 29, 1936.

The Manitoba Result.

One thing is readily apparent in the results of the Manitoba general elections. That is the poor showing made by the left wing candidates, Co-operative Commonwealth Federation, Social Credit and Communist.

With voters as a general rule being prone to "Take it out on the Government" regardless of the cause of their grievances, it speaks highly for the mentality of the majority of the Manitoba residents that they did not swallow the promises of these radicals "hook, line and sinker" as did certain of their neighbors. Perhaps the failure of the Social Credit plan in Alberta served to drive home the benefits of orthodox finance.

Faced with an apparent deadlock, the merits of the traditional two-party system in politics over the multi-group system that arises from proportional representation and the alternative vote is markedly emphasized. While the Bracken Government will probably be returned by a slight majority, this will be so slim and the multiplicity of minor parties will make its functioning so difficult that the Province will probably be faced with another election within a short period, with a consequent disruption of business generally at the very time that it needs quiet and constancy. Under the two-party system, one or other groups would have been in power and the Government business could have been proceeded with without undue interruption.

Father Coughlin's Statements.

When a study is made of the majority of the "facts" placed before the people of the United States by Father Coughlin, it would appear that the appellation which the Detroit cleric recently applied to President Roosevelt, and subsequently half-heartedly withdrew, could have much better been applied to the deliverer than the recipient.

As an example of the misleading, to say the least, statements presented during the course of his campaigning, the New York Times quotes the following declaration of Father Coughlin on the war debt issue:

"We cancelled \$40,000,000,000 of European war debts and repudiated \$11,000,000,000 more of post-war debts, simply to save the international bankers, simply to save the gold standard."

In commenting on this statement, the Times observes:

"The plain fact is that the grand total of all our pre-Armistice and post-Armistice war losses amounted to \$10,338,038,332.20. In the settlements made for the repayment of these obligations we charged our debtors less than commercial rates of interest. But none of the principal of any debt was cancelled or reduced. Against the \$10,338,038,332.20 loaned by our Government, the contracts made with our debtors called for the payment of \$22,239,040,056.27 in principal and interest."

Father Coughlin makes no attempt to explain away this discrepancy, because he knows he cannot do so. Sinking to the level of the most unprincipled of politicians, he is willing to make statements designed to stir up race and class hatreds, knowing full well that the majority of his hearers will take them for gospel rather than go to the trouble of checking them up.

The Relief Survey.

One of the most important problems confronting any concerted attack on the unemployment problem is that of obtaining a real picture of the situation that exists. To this end, the newly created National Employment Commission has wisely decided to commence on September 1st with the registration of all persons on relief at that date. This is designed to give a human rather than statistical picture of the problem.

The form to be filled in by the relief recipient will show the country of birth, citizenship, whether married or single, the number of dependents, particulars as to children, war service, type of farm or occupation formerly engaged in and reason presented for the need of relief, i.e., drought, crop failure, unemployment or illness.

Once this information has been compiled, the Commissioners can proceed with formulating some definite, long-term policy combining relief works and direct relief to bridge the gap until such time as the basic cause of the problems can be dealt with.

Editor's Note-Book.

Local politicians would be well advised not to attempt to make capital out of the breach between the City Council and the unemployed who do not desire to work. The aldermen, who have been very fair in their decisions, are quite capable of handling

this problem without the advice of vote-seeking orators. Politics must not be allowed to interfere with civic administration.

Things certainly have changed. Scientists now reveal ants live riotously, and western farmers are learning that grasshoppers are not exactly shiftless.

Adrian, Mich., farmers abandoned their annual picnic. They should have given it a try, anyway; it might have brought rain.

If news gets out that a drought makes lawn mowing chore unnecessary and water scarce for the Saturday night bath, small boys will be for it.

Merry Ann is firmly convinced that high heels were invented by an old maid who had once been kissed on the forehead. Any more feasible explanations?

A Hollywood actress' husband ran amok because he was called "Mr. Polly Moran." A mob scene probably would result if somebody shouted "Messrs. Jean Harlow."

Appropos of "National Laugh Week" in Germany in connection with the Olympic Games in Berlin, reports from usually reliable foreign sources say that Nazis are delaying both further acts of aggression across German borders and a new terror drive against Jews until after the games are over.

Herr Goering publicly said a while ago that the Olympics must be considered a great opportunity for German Nazi propaganda. The word has percolated around that "nothing will happen until after the Olympics," but then the persecution of Jews is expected to resume.

This prediction is presented with every hope that it will prove erroneous.

What Editors Say

IS THIS REPUDIATION?

Governor Harold Hoffman, of New Jersey, has announced that the reward of \$25,000 offered by the state of New Jersey for information leading to the solution of the Lindbergh baby murder cannot be paid, the reason being that there are no funds available. It is to be construed that one of the states of the United States of America is repudiating a voluntary offer, or does it really mean that the state of New Jersey is out of funds and cannot pay the reward? The trial of Hauptmann and all that went with it cost a lot of money, but it is difficult to believe that the state is bankrupt and that there are no funds to settle the reward.

Perhaps some difficulty might be experienced in naming the person or persons who might be entitled to the reward, whether it would go to the police or to private individuals. At all events the authorities were in possession of all the facts. If a legitimate offer of \$25,000 was made by the state authorities, they should be prepared to pay over the money, and if they cannot decide who then give it to some police fund, or to charity. Repudiation of a just debt does not smack of good judgment and is a direct reflection on the bona fides of its officials.

BRIDES' PROMISES.

The bride's promise to "obey" her husband is under fire once more.

The National Council of Congregational and Christian Churches of the United States will take up the proposal to omit the word in the near future on the strength of pleas from clergymen everywhere.

Recommendations to the council label "obey" a "needless and irritating word," and one must agree that covers the case.

For the term had its origin a long time ago, when "obey" meant just that to a wife.

The modern view of marriage, on the other hand, sees it as a co-operative institution.

The word doubtless is repeated these days as mere formality, anyhow, so dropping it from the marriage ritual will make little real difference.

It will merely bring the ritual up to date.

TRUCKS ON HIGHWAYS.

A large number of newspapers, to say nothing of highway officials, are becoming aware of the need for legislation that will protect the public's roads and either keep heavy trucks off arteries that are not adequate for great loads, or make commercial highway carriers pay a share of the cost. It's time for a change, unless the individual motorist is willing to assume the financial load of maintaining public rights-of-way for private commercial carriers.

Thirty Years Ago Today

From the Files of the Sherbrooke Record.

July 29th, 1906.

Alex MacLeod, of Scottstown, had both his legs cut off when he fell under a train at Lennoxville.

Heavy purchases by Montreal interests forced the price of butter on the Eastern Townships exchanges up to 22½ to 22¾ cents per pound.

Mr. L. E. Cornell was elected by acclamation to the Bedford Town Council to succeed Mr. M. B. Rice, who was moving to Sherbrooke.

Young Allie Robinson, residing at Freeport, near Cowansville, was seriously burned when his clothing caught fire from an overturned oil lamp.

A St. Francis Golf Club team comprising Messrs. T. P. MacDonald, R. A. Wright, E. C. Fraser, J. P. Morkill, C. D. White, M. A. Macfarlane, G. C. Woodward and Rev. G. E. Read went down to defeat at the hands of a Waterville team comprising Messrs. C. E. Laughton, W. H. Ward, H. T. Sunbury, S. Edgcombe, C. Christian, J. Thompson, C. Innis and Dr. P. Colquhoun.

Class leaders in the final examinations in the senior grades of the Lennoxville Academy were Pauline Partridge, Hazel Cowan, Reginald Baker, Gertrude Pearson and Gertrude Drummond.

Mr. John A. Martin, of Worcester, Mass., was the guest of Messrs. B. S. and H. O. Martin in Dunham.

The large barns on the property of Mr. Edward Deschenneau, of Coaticook, were destroyed by a midnight fire.

GOVERNOR HOLDS OUT HOPE FOR MODERN JEAN VALJEAN

Carlton Chilton Will Not Be Returned to Oklahoma to Complete Twenty-Three Year Old Reformatory Sentence Unless Very Strong Case Presented.

Cleveland, July 29.—From Ohio's Governor came new hope today for a modern Jean Valjean, forty-one year old Carlton B. Chilton, that he might not be returned to Oklahoma to complete a two-year reformatory sentence for a bank burglary more than twenty-three years ago.

"The State of Oklahoma will have to present a very strong case before I'll consent to the filing of extradition papers on Chilton, whose record in the past years Cleveland police have found to be of the best," said Governor Martin L. Davey at Columbus.

The modern Valjean escaped from the reformatory in 1913 after serving one year of his sentence.

SIR FREDERICK AND LADY SYKES TO VISIT CANADA

London, Eng., July 29.—Sir Frederick and Lady Sykes sailed today aboard the steamship Montcalm from Liverpool en route to Canada. They will visit St. Andrews, N.B. Lady Sykes is a daughter of the late Sir Andrew Bonar Law, Canadian-born Prime Minister of Britain. Sir Frederick, who is a major-general, has had a long and distinguished military career.

QUARANTINE DECLARED IN ALABAMA.

Montgomery, Ala., July 29.—A countrywide quarantine was invoked today as reports of nine new cases and another death spurred health authorities' fight against a tri-state outbreak of infantile paralysis.

POSSIBLE DELAY FORESEEN IN EXPERIMENTAL FLIGHTS

Various Factors Likely to Cause Postponement in Great Britain-Newfoundland-Canada Air Service Until Next Year.

Ottawa, July 29.—Possible delay until next year of experimental flights over the North Atlantic leading to a Great Britain-Newfoundland-Canada air service loomed today.

For several reasons they probably will not be made this year, it was learned yesterday.

A sub-Imperial conference here last December decided the flights should be made in April over a route between Canada and England.

Imperial Airways ordered several "composite" flying boats and in the meantime test-flights were delayed until next month. And now, owing to the fact the ships are needed on its lines elsewhere and others probably will not be completed in time, it is unlikely the test flights will be undertaken this year.

Another factor was said to be re-arrangement in Great Britain, where production of civil aircraft is said to be behind schedule.

ADVANCES THEORY WORLD IS GETTING WARMER

Cincinnati, July 29.—Dr. Clarence A. Mills, professor of experimental medicine at the University of Cincinnati and an authority on the relation of weather to human behavior, advanced today a theory the world is getting warmer.

Basing his observation on extensive experiments with animals, he asserted the trend to higher temperatures at the University would provide an effective method of birth control as the fertility of animals, according to the professor's trials, goes down as temperatures increase.

DENIES HE WAS AT CHAMPAGNE PARTY

London, July 29.—Charles McArthur, playwright-husband of the actress, Helen Hayes, said today he was "extremely annoyed" over his reported participation in a champagne party with Eleanor Holm Jarrett, New York swimmer, aboard

the S.S. Manhattan about ten days ago.

"I wasn't at the same bar with her," he said. "I was at a bar at the other end of the ship. I met her briefly, and I am unknown to her otherwise."

PSYCHOLOGY IS IMPORTANT IN WORLD TODAY

Local Rotary Club Hears Address by Dr. J. S. A. Bois, Research Associate in Psychology at McGill University and President of Psychological Institute of Montreal.

The important part which psychology is playing in the social and industrial life of many countries was outlined by Dr. J. S. A. Bois, M.A., Ph. D., research associate in psychology at McGill University and president of the Psychological Institute of Montreal, at the regular weekly luncheon of the Sherbrooke Rotary Club yesterday noon.

The science of psychology, Dr. Bois explained, is fifty years old, but its practical application only dates back to 1912, its development from then on being quite rapid, particularly during the years of the World War.

Some people wondered how certain countries achieved such industrial success in spite of unfavorable social factors, Dr. Bois said, and the answer could be found in the application of psychology. Two hundred industries in Germany have fully organized psychological departments.

Individuals, for psychological purposes, Dr. Bois continued, were classified under three heads — introverts, extroverts and ambiverts.

INVESTIGATION CONTINUED IN WOMAN'S DEATH

Police Unable to Determine Definitely whether Mrs. Alfred Cote Was Murdered or Died from Natural Causes — Many Persons Questioned by Sgt. Detective James Haney.

Sgt. Detective James Haney, head of the Provincial Police homicide squad, and Detective Albert Aggie today continued their investigation into the death of Mrs. Alfred Cote, nee Marie-Louise Rabin, of this city, whose decomposed body was found in the woods near the Belvedere road Monday morning.

Sergeant Haney stated to a Record representative this morning that he had been unable to determine definitely whether the woman, who disappeared from her home on May 26 last, had been murdered or had died from natural causes and been trampled on by some animal.

Although they still entertain the theory of murder, police believe it possible that the woman died of natural causes while walking in the woods and was then trampled over by a horse or cow.

GIRL CAMPERS HAVING JOLLY TIME

Despite the fact that the nights have been a little too cool to suit them and they have had to send an emergency call home for more blankets, the girl campers at the Y's Merle camp at Little Lake Magog are thoroughly enjoying themselves.

Varied activities, including sports and swimming, are indulged in during the day, and in the evening the girls hold camp fire parties about the recreation hall fireplace.

SOMETHING TO MAKE FISHERMEN ENVOIOUS

Captain C. A. Oliver, a former resident of the Eastern Townships and now of East Deering, Maine, and his sixteen-year-old son, F. A. Oliver, of Waterville, Me., were successful in landing a one-hundred pound tuna fish off the coast, near Portland, Maine.

The capture of this fish by a former Canadian will be of interest to many in this district, as Capt. Oliver, who is a brother of Mrs. F. A. Burton, of Waterville, is well known throughout the Eastern Townships.

SEVENTY-FIVE APPLICATIONS FOR OLD-AGE PENSIONS.

J. A. Precourt, who is in charge of old-age pensions at the City Hall, announced this morning that already seventy-five applications had been received. Mr. Precourt explained that he was merely accepting the applications, which will be forwarded to Quebec for examination.

MOFFATS LIMITED PIONEERS IN EXPORT

There are very few Canadians who have not heard of Moffat Ranges—wood-burning, coal and electric. For Moffat Ranges during the last fifty years have prepared a goodly number of meals for Canadian families. What is even more remarkable, Moffat Ranges have performed the same excellent office in other countries, in Great Britain, Irish Free State, South Africa, China, Brazil, Fiji Islands, New Zealand, the Federated Malay States, Japan and others.

Over fifty years ago they produced "The Ploughboy," a wood-burning stove which through honest and sturdy service won much praise. At that time the Moffat Plant, if you can call it that, for it was slenderly equipped, was located in Markdale, Ontario. Trying to sell "The Ploughboy," however, was heavy going, so the Moffats decided to seek a new location. Thus it was that Moffats came to Weston, Ontario, where they have been ever since and where business fame and fortune have sought them out.

The wood-burning stove was soon superseded by other types of ranges. At that time, however, the use of other fuels was not very successful and so the way was indicated at last for the manufacture by Moffats of the first electric cooker in Canada. Through the marked success of this electric range, the Moffats Company found a ready market throughout Ontario. From there Moffats branched out and it wasn't long until the company had warehouses at Vancouver, Halifax, Winnipeg and Montreal.

There is always some turning point in the career of an organization which decides its destiny. In the case of Moffats, this turning point came when T. L. Moffat suddenly developed a desire for export business. He went to New Zealand where he took a trip through the whole country, got to know the New Zealanders, their viewpoints and prejudices. The result of that trip was that today, Moffats sell the bulk of all electric ranges sold in New Zealand.

ADDITIONAL E.T. EXAM RESULTS ARE ANNOUNCED

Belated Reports from Department of Education at Quebec Announce Names of Additional Successful Pupils in School Leaving Examinations.

Belated reports received from the Department of Education at Quebec announce further results in the School Leaving Examinations in various schools of the Eastern Townships.

These reports were received too late to be included in yesterday's list which appeared in the Record.

The following are additional successful pupils with the points secured, the names appearing in the order of merit:

Knowlton: Madeline Wells, 673; Dean Ladd, 658; Evelyn Rollitt, (S), 637; Audrey Ball, 631; Harjlene Wallace, 629; Christine Wells, 608; Isobel Miller, 586; Doris Ladd, 564; Elsie Roberts, 593.

Magog: Jean Russell, 665; Doris McKelvey, 606; Minnie Bullard, 553.

Sawyerville: Edith Thompson, 626; Douglas Scale, (S), 460. Scotstown: Mae Doherty, 692; Roberta Scott, (S), 684; Ruth Doherty, 546; Catherine MacIver, 498.

Waterloo: Robert Heatherington, 690; Edith Bobo, 623; Clarence Copping, 602; Jean Dalton, 592.

Waterville: Beatrice Margaret Charron, 684; Kenneth Lloyd Stoddard, 661; Eleanor Louise Ingham, 658; Barbara Ruth Young, 626; Rhoda Elizabeth Beckett, 608; Charlie William Freetax, 577.

got the wanderlust and set off for the Orient.

In a short time Japan was opened up for Moffat Ranges. The Irish Free State is another country which proved to be susceptible to the merits of Moffat Ranges. Great Britain, too, has proved a responsive market and the Moffats Plant there was established to take care of the increasing demand.

And so it goes. Moffat Electric Ranges are known and sold today throughout the world. They have carried the name of Canada everywhere and made it a token of quality and excellence. They have contributed substantially to the expansion of Canada's foreign trade.

Insects do most of the cross-fertilizing of flowers, although humming birds and bats perform the job frequently. Even snails have been known to carry pollen.

LENNOXVILLE

ENJOYABLE SOCIAL EVENT

One of the most enjoyable social events of the summer season took place yesterday afternoon at the home of Mr. and Mrs. L. V. Parent, Clough avenue, when a very successful garden party was held under the auspices of the Girls' Auxiliary of St. George's Church.

Considerable attention was centered on one corner of the lawn where, under a large and gaily colored umbrella, fortunes were being told by "The Wizard of Cards and Teacups." Mrs. Parent's mother, Mrs. B. Standish, of Wilder, Vt., and judging from the satisfied expressions on the faces of this charming lady's patrons the fortunes told must have all been good ones.

After partaking of the delicious tea served by the members of the Girls' Auxiliary, many of the guests wandered around under the trees, admiring the beautiful rock garden, which is one of the finest in Lennoxville.

Much credit for the success of the afternoon is due the Misses Beatrice McClung, Bernice Glass and Jean Findlay, who were assisted by a bevy of willing workers, with Miss Elsa Burt acting as cashier.

General Notes

The Ladies of St. Anne held a very successful ice cream social last evening on St. Anthony's Church lawn, under the convenship of Mrs. R. Provonost, assisted by the members. One of the most interesting features of the evening was the "Bingo" table, which attracted many contestants for the various prizes on display.

FAMOUS — for fine ranges since 1847.

The modern McClary table-top electric range shown above is the product of 89 years of experience in building fine ranges. It has a full-sized cooking top and table top combined—a practical and convenient feature. It is completely finished—even to the inside of the thoroughly insulated oven—in a lustrous, stainless porcelain enamel that is particularly easy to keep clean. It has automatic oven control and a heat stabilizer. You will be amazed at the speed of the Max-speed and the Speediron cooking elements—giving fast, steady heat. Ask your dealer to show you the many advantages of owning a McClary range—and be sure to see the table-top models.

McCLARY Combination Electric and Coal Range. This range has been specially built to give the benefits of electric cooking and baking with coal cooking and heating. There is an electric baking and roasting oven; four elements on the top; also a coal firebox and two cooking holes. Expertly designed, this range is so compact that it takes up less floor space than an ordinary standard cabinet model. Ask your dealers to show you its many features.

A NEWCOMER AT "PARADISE" CHAPTER I.

It was New Year's Eve, 1905, in San Francisco. Men and women in evening dress watched the midnight din of the revellers from the windows of the old Palace Hotel.

German brass band on foot, followed in its wake. "Hello, Della! Happy New Year!" called Blackie to the large woman.

"You've got a pretty fair set of pipes," was Blackie's comment.

leading the chorus in a number introducing the new year. On their skirts were printed 1905; suddenly, they all ripped off their skirts, to be revealed in black tights on which were painted in white the figures 1906.

"Happy New Year, Blackie." Her voice was as much of a caress as the glance she gave him. He pinched her cheek. "Happy New Year, honey."

this week, Babe. We'd better all buy asbestos suits." Trixie's head, bent over her task, brought her neck about which was a flashy dog collar, under Blackie's eyes.

SPECIAL ADVANTAGES OF HEAT CONTROL IN McCLARY'S RANGES

Your first experience with this control will be a feeling of relief for the many steps and the many moments of worry it will save for you. Then, as you become acquainted with its use, you will appreciate how you can constantly rely on the control to get the results desired in the oven. It does away with those heart-breaking days when everything seems to turn out wrong. But there are some further advantages of this control that deserve special mention. It gives you all the advantages of a fireless cooker, without any of the very obvious disadvantages of that method of cooking, especially when you use cast-iron roasters, Dutch ovens, etc. It allows you to cook a whole meal in the oven, at a low temperature of about 260°, over a time of from three to five hours. In the meantime, the oven requires no watching. You can stay out of the kitchen, or even leave the house entirely, and spend the afternoon calling or shopping. When you return, the meal is cooked and ready to serve piping hot on the table, not the steamy soggy results of the fireless cooker, but with the meats nicely browned and everything cooked just as it would be if you were there to watch it. The oven heat control provides also the ideal method of canning fruits and vegetables, by the so-called "cold pack method," so strongly recommended by government authorities. This method retains in a remarkable manner, the full flavors and natural appearance of the fruits and vegetables you put up. As we have said before, there is nothing complicated or hard to learn about using this control. Simply cook as you always have, except that instead of having to carefully watch your heat indicator, you see

FRIENDS JOIN IN TRIBUTE TO BANK MANAGER

Danville Country Club Scene of Pleasant Farewell Dinner for Mr. Joseph LeMay Who is Being Transferred to Shawinigan Falls.

Danville, July 29.—Some thirty club members and friends gathered at the Country Club House last Thursday evening for a farewell dinner in honor of Mr. Joseph LeMay, popular manager of the Canadian Bank of Commerce at Asbestos, who recently has been promoted to the position of manager of the Shawinigan Falls branch to replace Mr. H. S. Lawrence who has been transferred to Granby. A delicious dinner was arranged by Mrs. William Greer. One long table was set, which was artistically arranged with blue delphinium and blue tapers and silver baskets of fruit. GIANTS GAINED GROUND WITH A DOUBLE VICTORY

New York Took Both Ends of Double-Header from Cincinnati—Phillies Reduced Chicago Cubs' Lead to Two and a Half Games—Yankees Turned on Tigers.

The Phillies and Dodgers appear to be going no place in the National League this year, but they aren't giving up one bit of the honors they've won in the past as the "giant-killing" crews of the Big Time.

At the moment, the Dodgers and Phils have been applying themselves, respectively, to the Pittsburgh Pirates, who were in third place until they reached Brooklyn, and the league-leading Cubs.

The Cubs came to Philadelphia on Sunday and the best they could get was an even break in the four games against Jimmy Wilson's wall-poppers, winding up on the short end of a five to three count yesterday. Dolph Camilli crashed out a pair of homers and rookie Claude Passeau stopped the league leaders with six hits, leaving them only two and one-half games in front of the Cards.

The Dodgers, although losing yesterday's finale to the Bucs by nine to eight in ten innings after an uphill climb to tie the count in the eighth, took three of the five game series with the Pirates to slug them far out of third place and let their arch-enemies, the Giants, take over that spot.

The Giants picked up considerable ground on the one-two clubs by coming through in both ends of a double-header with the Cincinnati Reds, winning by five to one in the opener as Freddy Fitzsimmons pitched his first complete game of the season, and taking the nightcap by eleven to three on the strength of Mel Ott's two homers and "Lefty" Al Smith's seven-hit hurling.

The Yankees maintained their nine-game American League lead with a twenty-hit barrage against the Tigers for a sixteen to six victory. Lou Gehrig hammered out his thirty-first homer, and Johnny Murphy showed fine form in a three-hit, five-inning relief trick.

Earl Averill hit two homers to lead the second-place Cleveland Indians in a six to three win over the Washington Senators; Chicago White Sox climbed back to fourth place with a slugging triumph over the Athletics, getting twenty hits to pile up a nineteen to six score; and the Boston Red Sox held third place by downing the St. Louis Browns by five to two, with Johnny Marcum turning in a six-hit pitching job.

SYRACUSE TOOK DOUBLE-HEADER FROM MONTREAL

If you're trying to dope out that dizzy International League pennant race, don't overlook the Newark Bears. They're still in third place, but they're plenty hot when they hit their home grounds and may go right back into the lead they once held.

Paced by Al Piechota and Steve Sundra, the Bears broke a five-game losing streak all to pieces last night by winning two contests from the Buffalo Bisons.

Piechota and Sundra each limited the slumping Bisons to four hits, winning eight to nothing and three to one. Piechota got the benefit of eight blows, but Sundra hooked up in a mound duel with Truett Sewell, who also hurled four-hit ball for the seven innings he worked.

A five-run blast in the seventh inning, marked by boundary bids by Enli Crabtree and Louis Scoffie, established the Red Wings to get the edge in the slugfest at Baltimore. Woody Abernathy clouted homers thirty and thirty-one for the Orioles.

The last-place Syracuse Chiefs rose up to dispute Toronto's claim to being the circuit's hottest club when they belted over the Montreal Royals twice by three to two and seven to three while the Albany Senators checked the Leafs by scores of two to nothing as Ray Phobus outpitched Len Hermann.

The twilight Syracuse-Montreal game went an extra inning before Nick Dallesandro smashed a triple to bring home the odd run in a mound duel between Fred Fussell and Henry Johnson. Mike Meala followed up with five-hit flinging for the Chiefs.

STIFF CONTEST PROMISED IN ROWING EVENT

Experts Envision Keen Struggle in Olympic Race Between Hamilton Leanders, University of Washington Crew and Italian Oarsmen.

Berlin, July 29.—Canada's stock in the eight-oared rowing event of the approaching eleventh Olympiad soared today following an impressive workout by the Hamilton Leanders.

After Bob Hunter's oar-pullers raced over the 2,000-metre course against strong winds in the comfortable time of six minutes and twenty-one seconds, experts on the scene started envisioning a tight struggle for the classic honors between the Leanders, the University of Washington crew seeking to maintain United States supremacy in the event, and the Italians.

Talk in the Canadian track and field camp centered on the return to the picture of Percy Wyer, the little Toronto marathon machine.

On the approval of the international officers, Vic Callard, of Toronto, was dropped in favor of Wyer. Callard, who like Bartlett and Wyer arranged his own travelling expenses, said that while he was disappointed he fully understood the situation.

The draw for the basketball competition pitted the Canadian squad—the Windsor-Ford team strengthened by four stalwarts from Vancouver and Victoria—against the Brazilians in the first round. If they clear the first hurdle, the wearers of the Maple Leaf will then meet either Hungary or Czechoslovakia.

Granau, site for the rowing races, was a hive of activity yesterday after shells were christened in the presence of German notables. Charles "Chuck" Campbell, single young Toronto aspirant for the single sculls, in which twenty-one are entered, took a spin in his new boat and had onlookers praising his style.

Campbell, who travelled to Berlin on borrowed money, said he was not hurrying his training and believed he would be at top form when his event was reached.

Campbell is training with the Hamilton crew in the palatial rowing club, situated fifty yards from the finish line of the broad course. The oarsmen are looked after by trained stewards and cooks. Hunter revealed the Leanders threatened to quit home before they were installed in the modernistic clubhouse.

"When we arrived on July 19 they put us in a barracks several miles from the course and we had to take the bus down. I said that unless we were placed beside the course we would go home."

The male Canuck swimmers are not so fortunate. They are obliged to spend five hours daily going to and from the practice pool in a bus. Coach Percy Norman said the arrangement was highly unsatisfactory, but there appears small chance of it being remedied.

Track and field men spend twenty minutes reaching their training grounds by bus. There is a field in the village immediately in front of the Canadian cottage but the Americans and others spoke for it first.

RESULTS OF ANGUS SHOOT

East Angus, July 29.—The members of the East Angus Rifle Association recently held their second shoot for the Dominion Salver and Craig Cup. This was also the first of four shoots for the Issued Rifle Cup.

F. C. Neil now holds a one-point lead in the Craig Cup event. R. E. Buttemer's 85 gave him a one-point lead for the Dominion Salver, while A. Fournaise and A. Willard each scored 88 for high score in the Issued Rifle Cup event.

O. S. Joyce won the Class "A" spoon and Fournaise and Willard will have to shoot off for the Class "B" spoon.

The ten high scores were as follows: O. S. Joyce 97, Miss M. McRae 96, F. M. MacKenzie 96, W. A. Hall 96, C. J. Hall 95, Wm. Nourse 95, R. E. Buttemer 95, F. C. Neil 94, Ivan Jenkinson 91, and R. Bell 91. The average for the ten high scores was 94.6.

LADIES BEGIN PLAY IN LAKE PARK TOURNAMENT

Victories chalked yesterday by Miss Fernand Genest and Miss Lucille Tremblay—Sarto Roy, Hector Prefontaine and Yvan Boisvert Successful in Men's Singles Matches.

The ladies' singles division in the annual Lake Park tennis tournament was inaugurated yesterday when victories were recorded by Miss Fernand Genest and Miss Lucille Tremblay, both of Little Lake.

Miss Jean Charpentier, of St. Hyacinthe, gave Miss Genest strong opposition and the match went to three sets before a decision was reached. The St. Hyacinthe girl won the opening set 8-6, but Miss Genest rallied briskly to capture the next set by 6-1. The Lake Park player had greater endurance than her opponent and carried off the third and deciding set by 6-3 to win the match.

Miss Tremblay chalked up a comparatively easy victory over Miss Claire Anger, winning in straight sets 6-2, 6-3.

Play in the men's singles is moving ahead rapidly, with quarter-final match between Dr. Guy Bertrand and Johnny Hibbard scheduled for today.

Yesterday afternoon Sarto Roy, of Richmond, and Connie Gregoire, of Sherbrooke, staged a thrilling three-set match that was finally won by the Richmond contender. Roy dropped the opening set to the former Eastern Townships title-holder 2-6, but came back strong to carry off the next two games by 6-3, 6-2. Both played a good game, driving well and showing splendid form.

Straight sets were all that were necessary to decide the issue in the other two men's singles yesterday. Hector Prefontaine defeating Gagne, 6-3, 6-3, and Yvan Boisvert triumphing over Roland Chicoise 6-1, 6-2.

The following matches are slated for today: 4:15 o'clock, Johnny Hibbard vs. Dr. Guy Bertrand; 5:15 o'clock, Dick Rouleau vs. Earl Douglas; and 6:30 o'clock, Miss Claire Gagne vs. Mrs. Raoul Gagne.

Tomorrow's matches: 2:30 o'clock, Sonny Mooney vs. Ashley Hibbard; 5:30 o'clock, Yvan Boisvert, winner of Douglas-Rouleau match; and 6:30 o'clock, Hector Prefontaine vs. Paul Biron.

MAY BE CURED AFTER LIVING THREE YEARS ON BORROWED BLOOD

St. Louis, July 29.—Braced by the hope he may be cured after three years of living on borrowed blood, James Hedley looked around today for someone to donate his fifty-second transfusion.

Physicians at Barnes Hospital are experimenting with his case in an attempt to cure aplastic anemia.

PEORIA ACTS AGAINST BEDBUGS

Peoria, Ill., July 29.—Bedbugs are not only a nuisance, but, if the health department has its way, they will be illegal, as well.

A proposed ordinance amendment sponsored by health officials would make it mandatory for every citizen to keep his home free of bedbugs and other vermin and would provide for the arrest of owners of bug-infested homes.

PLANES SCARE SHEEP

Blackpool, July 29.—Passing planes held up sheep dog trials here the other day. "Our sheep are most annoyed" an official complained. "They are lying on the ground. How can we have sheep dog trials without sheep?"

GOLF

BIG FIELD TO COMPETE FOR CANADIAN AMATEUR TITLE

Winnipeg, July 29.—Greenskeeper A. W. Creed today reported the St. Charles Country Club golf course in perfect condition, or as near perfect as the labors of an extra crew of men can make it, for the opening of Canada's most important golf week next Monday.

Undoubtedly the 6,671-yard course over which the interprovincial team matches and Canadian amateur championship will be played is in splendid trim. Two new greens have been laid and have responded to special care. Fairways are smooth and green despite the lack of natural precipitation.

Early entries indicate a field of well over one hundred for the amateur classic, with Willie Turse, of White Plains, N.Y., semi-finalist in the American amateur last year, leading a select group of United States stars in search of the title held by Ross "Sandy" Somerville, of London, Ont.

Although there is no Maritime entry so far, linksmen from Montreal to Victoria will compose the representative Canadian field.

The Willington Cup team matches will be played Monday, with four players from each competing—provincially turning in 36-hole cards. Ontario, backed by the ever-dangerous Somerville, will enter the event as favorite to retain the trophy captured from British Columbia at Hamilton last year.

The amateur tournament opens Tuesday with no qualifying round. Matches will be of eighteen holes each until the semi-finals are reached. In the fours Friday and the final Saturday, the matches will be thirty-six holes.

CANADIAN GIRLS GAVE ITALIANS BAD TRIMMING

Milan, Italy, July 29.—Edmonton Grads, world champion girls' basketball team, defeated Milan Americans by twenty-five to eight in an exceptionally rough exhibition game here last night. The Milan outfit has won the Italian championship five times.

The home team got twelve penalties while the Grads had four.

After the game the Grads were awarded championship medals. The British Consul warmly congratulated the Edmonton girls on their sportsmanship in the face of rough play by their opponents.

TWO MORE U. S. ATHLETES OUT OF OLYMPIC GAMES

Berlin, July 29.—Two more Americans were out of Olympic games today as Joe Church, of Batavia, N.Y., and Howell King, of Detroit, featherweight and welterweight boxers, started home aboard the S.S. Manhattan.

Officials said the pugilists became "homesick" and reported of being violated by reports that through the Olympic village, reviving discussion of the case of Eleanor Holm Jarrett, who was dismissed from the United States swimming team for infractions in training rules.

LONDON FEARS AUSTIN MAY BE ON DOWN GRADE

Although Majority of Observers Dismissed Austin's Poor Performance Yesterday with Excuse of Off Day, Some Fear He Can No Longer Be Counted on for Two Points in Team Matches.

London, July 29.—The custom of making Fred Perry and H. W. (Bunny) Austin the toast of the land once a year, at least, was in vogue today.

The tall, athletically-built Perry and the comparatively small and bounding Austin combined to give England the Davis Cup—prized trophy of the tennis world—for the fourth straight year.

If there was any doubt that Perry had lost his grip on the world amateur championship, it was dispelled yesterday when he gave a superb performance, perhaps the best of his career, in swamping the veteran Australian, Jack Crawford, for the third and clinching triumph, giving England a three to two victory over the Aussies.

However, London's joy over another cup conquest was mixed with some concern over Austin's future chances in the international team competition.

Austin has a habit of lifting his game to great heights under the spur of cup competition, but he failed to live up to expectations against Adrian Quist, Australian titleholder, yesterday.

The majority of observers dismissed it by saying he had an "off day," but there were some who expressed fear that he no longer could be counted on for two points in the team matches.

Perry apparently is through with the competitive side of the game for a month or so. He is scheduled to sail for the United States next week in the S.S. Queen Mary to compete in the United States singles championship.

The Briton won the U.S. crown in 1933 and 1934. He lost it last year in the semi-final round when he was injured during his match with Wilmer Allison.

It is Perry's ambition to win the title three times, becoming the first invader to do so.

VIMY PILGRIMS BOW IN HOMAGE AT WHITEHALL

Following Service of Remembrance in Heart of Empire, Wreath Was Placed by Canadian Mother on Tomb of Unknown Soldier in Westminster Abbey.

London, July 29.—Six thousand Canadian pilgrims, back in "Blighly" after journeys through the old battle-areas of Northern France, paraded to the cenotaph in Whitehall today for a service of commemoration.

At the close of the service, conducted by Rt. Rev. Winnington Ingram, Bishop of London, a small group went to Westminster Abbey, where Mrs. C. S. Woods, of Winnipeg, who lost six sons in the World War, laid a wreath on the tomb of the Unknown Warrior. This nameless soldier's body was brought from the Ypres area sixteen years ago and buried in the Abbey with national honors. His coffin bears the simple inscription: "A British warrior who fell in the Great War 1914-1918."

For two hours all traffic in Whitehall was diverted as the pilgrims held service at the cenotaph. Re-inforced by members of the British Legion, the pilgrimage numbered 8,000 while nearby streets were thronged with multitudes of watchers. Later the veterans marched down Whitehall to the Horse Guards Palace for dismissal.

Later today they were guests at Buckingham Palace of the Duke and Duchess of Gloucester, acting for the King.

Two thousand Canadians left London today for Scotland to place a wreath on the Scottish memorial in Edinburgh, and another on Earl Haig's tomb in Dryburgh Abbey. Tomorrow the main body of pilgrims will attend a special service in St. Paul's Cathedral, and a wreath will be placed on the grave of Earl Jellicoe.

Toward the end of the week many will embark for Canada. Others will cross the channel again to France for a five-day tour as guests of the French Government.

Like so many features of English national life destined to be preserved for all time, the cenotaph was the outcome of chance. Solemn observance of Armistice Day had been decreed in London for November 11th, 1919, and the broad thoroughfare of Whitehall, which leads from the House of Parliament to the Trafalgar Square, was selected by the Government as the locale.

It was necessary, however, to

KNIFE THROWER WOUNDS YOUNG TORONTO SERVANT

Sixteen-Year-Old Maid Reported to Be Resting Quietly After Young Man Jumping from Clump of Bushes Threw Butcher Knife at Her.

Toronto, July 29.—Mary O'Neil, sixteen year old maid in a home on Riverside drive in West Toronto, was wounded in the back early today by a butcher's knife hurled at her by a man who jumped from a clump of bushes on that street.

Taken to a doctor's office and later to her home, the girl was reported to be "resting quietly."

York Township and city police combed the district for a trace of her assailant but without success. He was described as a young man wearing a grey suit and a fawn sweater.

Miss O'Neil was returning home and had just turned off Bloor street into a darkened section of the street when she heard a rustle in a clump of bushes. She wheeled around in time to see a man jump from the bushes with a long knife in his hand.

She screamed and started to run, then the man hurled the knife, which pierced her back near the left shoulder blade.
