Americans Greatly Pleased With Mr. Tarte's Speech

Ex-Minister's Remarks at Sault Ste. Marie Were Vigourously Applauded—The Great Work Which Has Already Been Accomplished on the St. Mary's River.

(See also page five.)

The Montreal gentlemen who attended the ceremonies of the formal opening of the great power house at Sault Ste. Marie have returned to Montreal delighted with their trip and deeply impressed with the vast enterprises which have been built up on both the Canadian and American sides of the St. Mary's River.

The Montreal party included Mr. Alexander McFee, President of the Board of Trade; Dean Bovey, of McGill University, Dr. William Henry Drummond, Mr. William Hanson, of Hanson Brothers; Mr. A. J. Ferguson, of Hanson and Ferguson; Mr. E. L. Pease, general manager of the Royal Bank of Canada; Mr. E. N. Heney, Mr. B Hal Brown, manager of the London and Lancashire Life, Mr. John Kennedy, Chief Engineer of the Harbour Board; Mr. Angus W. Mackay and Mr. George E. Drummond, of Drummond, McCall and Company. Mr. Andrew Macdonald, of Glasgow, was also with the Montreal party.

A number of Toronto people were present and among them were: Messrs. Tilhope, Stewart, Freeland, O'Hara, Maclean and Temple, all members of the Toronto Stock Exchange.

HON. MR. TARTE WAS THERE.

The Hon. J. Israel Tarte was, of course, the centre of attention, and his speech, on the returning Montrealers, male the hit of the day. The different members of the Dominion Cabinet were invited to be present, and Mr. Tarte previous to his resignation from office had accepted the invitation. He went up in his private car.

Mr. Tarte responded to the toast to Canada; and the Americans, present to the number of several hundred, not only applauded him vigorously, but in the speeches which followed indicated that they not only believed that a protective policy was the best thing for themselves, but that it was also the best thing for Canada.

The gentlemen who were present state that Mr. Tarte spoke fully as plainly at Sault Ste. Marie as he did in his speech in the Montreal Board of Trade ten days ago. Ex-Governor John T. Rich, of Michigan, in his speech referred to the remarks from the Hon. Mr. Tarte, endorsing the policy thoroughly. He was sure that the United States would not depart from its present protective policy, for they did not purpose being swamped with European goods, made upon the low wage scale there existing. For his part, he could not understand Canada taking any other course.

COMPLIMENTED MR. TARTE.

Another American who complimented Mr. Tarte was Mr. Levingstone, President of the Lake Carriers' Association. He said that he had a due appreciation of the great work which Mr. Tarte had managed to accomplish during his tenure of office. He considered Mr. Tarte one of the very best posted men in America on the problems of transportation, and his retirement had left a vacancy in the Dominion Cabinet which it would be extremely hard to fill.

The vast work which has been completed on both sides of the St. Mary's river particularly impressed such visitors as Mr. Kennedy and Dean Bovey, for they perhaps better than any others in the party, knew what the mighty work meant in brains, enterprise and dollars. The luncheon which was given in the great power house which is now developing 60,000 horse power was attended by thousands of people, the estimate being made that there were not many less than ten thousand present.

In the street parade there were troops present from Canada and the United States. A regiment of veterans just returned from Manilla, Canadians returned from South Africa, and a Canadian militia regiment.

CONSERVATIVE LEADER HAD EXCITING RACE CHALK RIVER—OTTAWA

A record run of 123 miles in 126 minutes, from Chalk River to Ottawa, was made by the special train which carried Mr. R. L. Borden on his way to Montreal last week. The Conservative leader was due in this city to fill an engagement at noon on Saturday and he was, therefore, rather disgusted when his car was accidentally left behind on a side track at Fort William on Thursday. A special engine was at once procured and the race against time began. The regular train had several hours' start. At North Bay the special was still three hours behind but the splendid run from Chalk River made up the difference and the express was caught at Ottawa, thus enabling Mr. Borden to fulfil his engagement here.

DOCTOR J. T. FINNIE HAS HIS LEG BROKEN.

Doctor J. T. Finnie is detained at his home, 35 Park avenue, as the result of a fall which he sustained on Friday afternoon. The wet leaves made the sidewalk on Park avenue very slippery, and the doctor fell with is right leg under him, breaking one of the bones and shaking him up pretty badly. It is thought in about ten days he will be able to be moved to his office where he can see patients.

CARS MOVING WHEAT KEEPS WOOD SUPPLY FROM ARRIVING HERE.

His Worship the Mayor had his usual levee of citizens to-day seeking assistance and advice. He is receiving many applications for wood, many of which he is unable to meet as the Canadian Pacific is unable to furnish cars to transport it to the city. "We have plenty of wood at the stations but can't get it moved," he said. "On Saturday I wrote Mr. S. P. Howard, the general freight agent, telling him he must make an effort to find the cars. They claim they are employed moving the wheat crop. That, however, is not our funeral and they must try to let us have some before the cold weather sets in."

CITY'S GENERAL HEALTH CONTINUES EXCELLENT FOR TIME OF YEAR.

Dr. Laberge, medical health officer, reports the general health of the city to be good for this time of the year. There is only one very mild case of smallpox in the civic hospital and last week the death rate was down to 102. Of this, 87 were Roman Catholics, 12 Protestants and 3 Jews. Infantine debility carried off 19 children, consumption claimed 10 victims, typhoid fever 5, bronchitis and whooping cough and divers other diseases make up the balance.

"A Citizen of Montreal Once More," Says Mr. Tarte

Ex-Minister of Public Works Back at His Desk To-day—Was Charmed With What He Saw of the Development at Sault Ste. Marie.

"I have become once more a citizen of Montreal. I am opening my house here and settling down to newspaper work," said Hon. J. Israel Tarte to a Star reporter who called on him at La Patrie office to-day.

The ex-Minister was hard at work, and declared that he was delighted to be back at his desk again. He remarked that he had been surprised on asking to see the foreman of the composing room to find that his sons had as the head of their printing establishment, Mr. Filteau, a young man whom he had himself taken into Le Canadien office, in Quebec, as a boy, away back in 1882.

"I am back among old friends, as you see, and I hope to get into full touch with the newspaper men again," he said.

Hon. Mr. Tarte arrived early to-day from Sault Ste. Marie, and he comes back enchanted with the prospects there. "The agglomeration of power at that point is the greatest in the world," he says. "Just think, on the American side they have 68,000 horse power. Of that amount they have leased 26,000, which pays fully the interest on the initial cost. The remaining forty thousand is clear profit, and is being leased out to American industrial concerns. That will mean an immense profit to the capitalists engaged in the industry there, who are all Americans, most of them from Philadelphia."

ON THE CANADIAN SIDE.

"On the Canadian side, several industries are in full swing. The rail mill is now turning out five hundred tons a day, thanks to the contract which we gave them for the Intercolonial, and for which I take my share of credit. The paper and pulp mills are also working away. The town of Sault Ste. Marie, on the Canadian side, now has a population of 18,000 souls, whereas it was a village only a short time ago."

The ex-Minister declared that he was not yet certain whether he would go to Paris, as has been announced. He was now in communication with Mrs. Tarte and his daughters, who are at present in Paris, and it is possible that he will join them there. He goes to Ottawa this evening, on purely personal business.

SOUTH SHORE'S APPEAL HAS BEEN DISMISSED.

The appeal of the South Shore Railway Company against the decision of the Superior Court refusing an application for an injunction to force the Grand Trunk to allow the trains of the South Shore to come into Montreal under the contract signed by the former General Manager, Mr. G. H. Reeve, was dismissed by the Court of King's Bench on Saturday.

The following judgments were reversed: DeKeroack and Gauthier; Shallow and Lessard; Poindron and the American Express Co., in which the higher court granted plaintiff $180, Mr. Justice Hall dissenting; and the Corporation of the Town of Farnham and Roy, Messrs. Justices Wurtele and Hall dissenting.

It confirmed the judgment of the lower court in the cases of the City of Montreal and Mathers, Demers and Larocque, Archambault and the church wardens of the parish of Lachenaie, Trust and Loan Company and Keroack and Gauthier, Messrs. Justices Bosse and Blanchet dissenting.

CONSERVATIVE RALLY AT L'EPIPHANIE.

On Wednesday, October 29, a Conservative rally will take place at L'Epiphanie, in L'Assomption county at which Mr. F. D. Monk, will speak.

The meeting will begin at one o'clock to give those from Montreal an opportunity to return on the evening train before the end of the meeting, and also to allow the farmers from the neighbourhood ample time to reach their homes before darkness sets in.

Other speakers are: Hon. L. O. Taillon, Messrs. P. E. Leblanc, K. C., M. L. A., J. G. H. Bergeron, E. Lemire, Jos. Marion, F. J. Bisaillon, K. C., J. A. Renaud, Mayor of Joliette, J. M. Tellier, M.L.A., J. E. Faribault, K.C., J. E. Bumbray, and others.

STERILIZED IN AUGUST MILK IS STILL SWEET.

Dr. L. J. Demers, the Civic Milk Inspector, received from Paris to-day a bottle of milk, which had been sterilized in the Philanthropic Institute there, on the 25th of August, and which, to all appearance, was as fresh and sweet as when it was taken from the cow. The doctor will test it today, and make a report to the Health Committee as to the system followed.

Fire on St. James Street.

Yesterday afternoon, a fire broke out in the premises of Lawrence A. Wilson & Co., wholesale wine merchants, of 87 St. James street, and did considerable damage before it was finally subdued by a stream from No. 1 branch. The blaze originated in the flooring close to the furnace. The men worked well, and confined the fire to the cellar, where it started. The bottled stock suffered during the progress of the blaze, and some damage was caused by water.

CLARK AND HEINZE; COUNTER CHARGES

Senator's Son Accuses Father's Enemy of Making Him an Offer.

WANTED TO BUY LEGISLATURE

Clarke Says Heinze Would Have Given a Vast Sum to Betray Parent and Win Election.

(Special to the Montreal Star.)

BUTTE, Mont., October 27. Two of the most astonishing charges of alleged attempted corruption of the judiciary of Montana in the interest of one side or the other in the mining litigation going on between F. Augustus Heinze and the Amalgamated Copper Companies are contained in signed statements published on Saturday, one by Chas. W. Clark, son of United States Senator W. A. Clark, and the other by Judge E. W. Harney, before whom was tried about a year ago the case known as the Minnie Healey mine suit.

Young Clark makes his statement with the approval of his father, the Senator, and he denies the frequent public statements made by Mr. Heinze, that he, acting for the Amalgamated Copper Company, offered Judge Harney $250,000 if he would resign his position on the Bench, leave the State and admit that he had been bribed to decide the case in favour of Mr. Heinze.

CLARK'S STATEMENT.

Mr. Clark admits being present at the Thornton Hotel during the conference referred to, but says: "There was nobody present during that conversation but my attorney, Jesse B. Roote, Judge Harney and myself. This conversation was held, not as charged by the Reveille, for the purpose of offering a bribe to Judge Harney, but because Judge Harney's integrity of character and honesty of purpose had been assailed by affidavits filed in the Minnie Healey case.

"These affidavits charged Judge Harney with having been unduly influenced in making—in other words, bribed to make—his decision in that case. I regretted very much to have a man occupying the high position held by Judge Harney, and especially one who was nominated and elected on a ticket advocated by myself and my friends, placed in a position where such odium could be cast upon him, and while I was in that room that night with Judge Harney, I pleaded with him to clear his good name of this stigma, and offered to give every assistance I honourably could to bring about that result."

TO BETRAY HIS FATHER.

Young Mr. Clark then proceeds to make the astonishing counter charges against Mr. Heinze to the effect that the latter offered him $2,500,000 if he would use his influence over his father to betray the latter, his political friends and the democratic party and assist Heinze in getting control of the Legislature and courts.

Mr. Clark says he met Heinze by appointment one evening last June at the Silver Bow Club, when he, Heinze, made the proposition to him. According to Clarke's own words: "He then told me that it was absolutely essential to him and his business interests that he should win the election in the State of Montana this coming fall, and particularly that he should have control of the judiciary and of the Legislature."

JUDGE MAKES COUNTER CHARGE.

The Clark statement has created a tremendous sensation throughout the State and has shocked the decent element of Montana. But it was almost instantly eclipsed by the statement of Judge Harney, in which he attempts to corroborate the charge of Mr. Heinze, and adds many more serious ones on his own account against representatives of the Amalgamated company, asserting that they offered him various inducements to decide the Minnie Healy case in favour of the Boscton and Montana Company.

Judge Hearney says he was offered cash, leases on valuable producing mines and that even his wife was approached with an offer of a fine home for her influence on the Judge.

POLITICAL GOSSIP AT THE CAPITAL.

Now Thought That Hon. Jas. Sutherland Will Not Become Minister of Public Works.

(Special to the Montreal Star.)

OTTAWA, October 27.—The political world here is waiting anxiously the announcement of who is to be the Cabinet successor to Mr. Tarte, and meantime the air is full of rumours. No new name is mentioned in connection with the existing vacancy in the Cabinet, but it is said that Mr. Tarte's successor will also succeed to the old portfolio, and that Hon. James Sutherland will remain at the Marine and Fisheries Department. That arrangement will leave Ontario, as it has been since 1896, without control of any of the large spending and patronage departments? What has Ontario to do with it? asked a prominent Quebec politician on Saturday. Ontario does not keep this Government in power. And that spirit seems to rule the outside politicians. In support of the rumour that Mr. Sutherland will not go to Public Works, it is pointed out that, though he has been acting Minister for a week, he has not set foot in the department yet, but has transacted all necessary business from his room in the Marine and Fisheries Department. Dame Rumour is very busy with the name of the Hon. R. W. Scott, and now varies the report that he will become Lieutenant-Governor of Ontario by stating him for the Ontario vacancy on the Supreme Court bench, which will be caused by the retirement of Sir Henry Strong.

The report is, however, officially denied, and there is little doubt that Mr. Justice Armour will be Sir Henry's successor.

Hon. Charles Fitzpatrick and Hon. A. G. Blair have returned to town. There will be no meeting of the Cabinet till after Sir Wilfrid's return, when the changes will be officially announced.

MR. TARTE'S RETIREMENT IS A BAD OMEN.

LONDON, October 27.—The Morning Post referring to the recent rupture in the Dominion Cabinet says: The secession of Mr. Tarte, the outspoken and most energetic of Sir Wilfrid Laurier's lieutenants, is a serious loss to the Liberal party, and may, perhaps, be regarded as an omen of its downfall at next general election.

Hon. Mr. Blair on the West.

TORONTO, Ont., October 27.—Hon. A. G. Blair, Minister of Railways and Canals, who has arrived here after a trip through Western Canada and the Western States, says there is scarcely a possible limit in his opinion to the development which is bound to take place in the Canadian West. At present, he says, the railway development out there is slower than the needs of the condition, and he considers that the Government should lose no time in promoting and encouraging the early construction of railways, which can be done, he thinks, without entailing a burden on the country.

Many More Mines Are Now in Operation

The Output of the Coal Region Will Be Largely Increased To-day—Anthracite Trains Were Rushed Forward on Sunday.

WILKESBARRE, Pa., October 27.—More mines are in operation in the anthracite region to-day, than at any time since May 12 last, when the strike began. The Lehigh region continues to be the exception to the rule. The employes of Pardee and Company, and Coxe Brothers and Company, are still idle. The Lehigh and Wilkesbarre Coal Company started its collieries in the Lehigh region to-day. Ninety-five per cent. of the mines in the Wyoming and in the Lackawanna region are now in operation. There will be a large increase in the output to-day. The output at the collieries of the Delaware, Lackawanna and Western Company, and the Delaware and Hudson Company will be especially heavy. In some of the mines there are many difficulties to be overcome. Falls are of frequent occurrence which retards mining.

IN HAZLETON DISTRICT.

HAZLETON, Pa., October 27.—Operations were resumed to-day at seven additional collieries in the Hazleton region. The Lehigh and Wilkesbarre Company took back most of its former employes. Room has not yet been found for all the strikers at the C. Pardee workings. At Beaver Brook all of the old hands were reinstated. The Coxe employes at Beaver Meadow were not required to sign any agreement, but all who applied for their old positions had to do so as individuals. The Coxe Brothers announce that this would be the procedure at all of their mines.

SUPPLY REACHES NEW YORK.

NEW YORK, October 27.—With tracks comparatively free from passenger traffic, all the anthracite roads rushed trains eastward on Sunday to fill the gap in the coal marts caused by the great strike. More than 10,000 tons reached the receiving yards and piers in Jersey City and its neighbourhood. That coal will be divided into small lots and put on the retail market to-day with the understanding that consumers shall not be required to pay more than $6.50 a ton for it in any instance. Some dealers even went so far as to promise they would sell it to the poor at the rate of ten cents a bucket, which really would be $6.60 a ton. Many dealers who still have coal bought at high prices during the strike will still charge $2.50 a ton more than the dealers who are handling the new supply.

800 RETURNED TO WORK.

POTTSVILLE, Pa., October 27.—The repair shops of the Philadelphia and Reading Coal and Iron Company, which have been operating on half time since the beginning of the coal strike, resumed on full time today. Nearly 1000 hands were suspended owing to the strike and more than 800 of these returned to work to-day.

The Irish Envoys Would Like to Arbitrate

They Desire an Opportunity to Settle Ireland's Troubles as the Coal Strike Was Settled—Nine Thousand Dollars Collected at Last Night's Meeting in New York.

(Special to the Montreal Star.)

NEW YORK, October 27.—Carnegie Hall was filled last night at a public reception to the Irish envoys, Redmond, Davitt, Dillon and Blake. Bourke Cockran, who presided, made an appeal to swell the Irish parliamentary fund. Ushers who went among the audience returned with baskets heaped with five, ten and twenty dollar notes. There were several hundred dollar bills collected.

John E. Millholland and Bourke Cockran gave $1,000 each. About nine thousand dollars altogether was collected.

Mr. Redmond was received with great cheering. He said he and the other envoys appeared before the people of America on behalf of united Ireland. "There is a great need," he said, "of encouragement from the people of this country for those who are struggling against the tyranny of England in Ireland. There is a conspiracy between the English Government and the Irish landlords to crush the movement of the United Irish League. It is the most formidable conspiracy that has faced the Irish people for many years. We would like to settle the trouble between the landlords and the tenant at home in the way the coal strike has been settled here; that is, by arbitration. But the landlords won't arbitrate. We want the Government to compel them to do so."

Mr. Dillon said that England was now engaged in committing against the people the greatest crime she ever was guilty of, with the exception of that against the Boers. We have not overthrown the British Government by our work in Parliament he said, but we have shown the civilized world we are not willing subjects to British rule. The British House of Parliament is now absolutely incapable of governing the British Empire.

Mr. Davis said the British Parliament violates its own constitution in trying to suppress the Irish members, but all in vain.

Mr. Dillon will then proceed to Canada with Mr. Blake, and speak in Toronto, Ottawa and Montreal, returning to Washington to speak there on December 7, and sailing for Ireland two days later.

THE EDUCATION BILL

Government Has Strengthened Its Position by Clever Tactics in Which the Hand of Chamberlain is Traced.

(Special to the Montreal Star.)

NEW YORK, October 27.—The correspondent of the Evening Post in London cables:

By clever tactics, in which the hand of Mr. Chamberlain is traced, the Ministry seem firmer in the saddle as each day passes. A fortnight ago their candid friends joined with their avowed enemies in counting the chances of their overthrow before Christmas. Few talk that way today. The truth is that the Ministry have taken the sting out of the education controversy by conceding the justice of the ratepayers' demand, "if we pay we manage it." Mr. Balfour's own amendments to the bill give a new educational authority, that is to say, a popularly elected borough or county council control over the ratepayers' money expended upon Church schools. The same representatives of the ratepayers also receive the power to reorganize or dismiss the teaching staffs of Church schools if educationally inefficient. Upon the third point of the fierce agitation, namely, the exclusion of women from the Ministry have promised to compel the authorities to place one woman upon each educational body, in this way increasing instead of decreasing the number of women who are members of educational bodies.

Thus, while keeping up a terrific to do on "no-surrender" lines, lest their friends in the Church should grow uneasy, the Government have cut the ground from under the agitation by conceding the largest possible measure of popular control consistent with the maintenance of Church schools, as distinct from the unsectarian board schools. These concessions won the Devonport election for them on Wednesday; and four Nationalist outbursts in the House of Commons this week have further solidified the Ministerialists against the common enemy. In a word, Mr. Balfour and Mr. Chamberlain ride together to win, while Liberalism has lost what a fortnight ago seemed an effective battle-ground for united action.

Sir Wilfrid at Arthabaskaville.

(Special to the Montreal Star.)

QUEBEC, October 27.—Sir Wilfrid Laurier left here on Saturday evening for Arthabaskaville, without having given out any information as to the coming cabinet appointment. He had a long talk with Premier Parent while here, but nobody expects to see another Quebecer enter the cabinet. Mr. William Molson Macpherson, president of Molsons Bank and harbour commissioner, Mr. Davis, contractor of the Quebec Bridge, Hon. Chas. Fitzpatrick, and Mr. J. B. Laliberte, president of the Harbour Commission, were amongst the callers on the Premier.

ST. PAUL STREET IS AT PRESENT TIME IN FRIGHTFUL CONDITION.

Editor of the Star:

Dear Sir,—I wonder if the aldermen for St. Ann's Ward ever happen to pass along that portion of St. Paul street situated within their district? If not, it is high time they did, to see for themselves the filthy and disgusting condition of that important business thoroughfare, that they may be stimulated to stir up the Road Department, if that be possible, to take such action as will render the street at least relatively decent. Its present state is an indelible disgrace to the civic administration. In wet weather it is a welter of puddles of filthy water and mud, and in dry weather the miserable beings whose ill fortune calls them to earn their living there, are choked with equally filthy dust. As one of these unfortunate creatures, may I beg your assistance, sir, in an effort to obtain some measure of relief. Yours truly,

P. W. McLAGAN.

The Transvaal Disappointed.

(Special to the Montreal Star.)

LONDON, Oct. 27.—The postponement of the Transvaal Loan Bill has been received with considerable consternation, says the Johannesburg correspondent of the Times.

However, the best has to be made of the bad business. The people have been waiting in the hope that extraneous circumstances would give them the first start on the road of progress. They must now make up their minds to look only to themselves to make the country go ahead steadily.

Britannias were outclassed.

The Ottawa College team was so superior to them, so superior to the two other teams in the Quebec Rugby Union, as we have seen them play in Montreal, that it is no disgrace for the Brits to have been beaten the way they were.

Clancy is certainly a wonderful coach, compared with those who have charge of the remaining three teams, for the play of the Ottawa College men was almost perfection.

The Brits know it, and the Brits Captain admits that the College team was far superior to his.

The College players have been trained to a fine point. Brain and eye, and hands and legs seem to work simultaneously.

pretty even for a while. There was a scrimmage in which College had the best of it, while McKenzie was standing behind exhorting his team mates to do their utmost. The College men, however, managed to get the ball, and punt it into touch once or twice, gaining a sufficient number of yards each time to make it dangerous for the Brits. Then Dooner got his chance again, and another four was scored by College, Callaghan failing to convert the try again.

There was some fine team play on the part of College now, and a fine run by McKenzie, but College got the ball again, and held it pretty well. Beaulieu also made a magnificent run, being tackled at the end of it till he came down on the ground with a thud. Lightbourn was knocked out for a little while, but he had only lost his wind.

College had a great and good habit of passing the ball to some one else when

CAPTAIN COWAN'S REASONS WHY THE BRITS LOST THE MATCH.

Captain Cowan, of the Britannia team, when speaking about the causes that led to the defeat of the Brits on Saturday last, said:

"First, the fact that we were opposed to a better team.

"Second, the fact that the way in which the Canadian Rugby Rules stand now, officials cannot do justice to them and cannot administer them properly."

When asked if he intended to refer particularly to the officials of Saturday, he replied:

"A little, but I mean the statement about the rules to be applied to the whole game. They should be entirely revised, for they are merely fungus rules, comprising a little of everything, and it is next to impossible to properly apply them either on the part of the players or on the part of the judges."

they were tackled; in most every instance Britannia's tackling did not go for much on that account.

BRITANNIA PLAYING HARD.

The Britannias were trying very hard this time to do something. Bowie was making strong efforts to send the ball towards the College goals, and did some good punting, but often his kicks were rendered ineffective because he kicked when his opponents were too close in front of him. Gleason finally got the ball and ran for all he was worth, to the Brits goal, where the play that had been so effective in the past, was tried again, with the result that Dooner once more managed to bring the ball behind; and once more scored a try for Callaghan to convert. Callaghan failed again, but even then the Collegians had the satisfaction of counting a score of a ... to nothing.

20 and 30 yards before he was successfully tackled and brought down. He shook off his opponents like a duck does water, but after being knocked out didn't display the same vim or dash, though he was always dangerous and required the closest watching. Suckling's punting was always effective, and with Molson he made several pretty running passes. These were brilliant pieces of play, but not always effective, as the fast forward line of Brockvilles bore down on them and held them fast in their tracks. Brockville won the game because they had the happy faculty of keeping possession of the ball. A more beautiful exhibition of this was never impressed with a Canadian football team than in the first half when Brockville played uphill and against the wind. The Brockvilles realized that the Montreal halves were dangerous with their superior punting powers, and Captain McLaren resorted exclusively to the scrimmage game, kicking only when absolutely necessary to do so. The Brockville scrimmage stood head and shoulders over their opponents for finished work, and Doran's heeling out was always sure and clean. Dier handled the oval to a nicety, and with Maclaren bucked the line throughout. The Montreal wings offered a stubborn resistance and the play was marked by hard checking. Brockville fought inch by inch, recovering the ground lost by Suckling's long punts by dogged determination. For the first fifteen minutes the Montrealers were kept on the defensive, and three times the ball was on their line. The situation was relieved each time by a free kick for an off-side. For the first part of the first half, Brockville was on the defensive. Montreal forced the ball over the line several times, but the best they could do was to gain two points by the ball going over the dead line. In the second half Brockville opened up play and completely smothered their opponents. Weatherhead, Phillips and Maclaren made several fine runs, and the forwards nailed the Montreal halves before they relieved their line, pushed the Montreal boys all over the lot and scored almost at will, taking a comfortable lead soon after the kick-off, which was increased until the official score credited them with 29 points. Montreal made a plucky touch-down, which was converted, and with another kick over the dead line brought their score to 9. Six of these was the result of Moore's fumble, who throughout the game played ragged ball. His relieving was most painful, but to some extent excusable, as he was suffering from a very sore hand, covered with a conspicuous bandage. W. W. Burland and Len Johnston, of the Brits, were referee and umpire respectively, and gave entire satisfaction. The latter paid little attention to off-side work, and gave both teams much rope. The weather was ideal and when the teams lined up almost 1,500 spectators were present.

HONOUR FOR WESTMINSTER'S MAYOR

Shamrocks Elect Him an Honourary Member.

Mayor Keary, of New Westminster, is now an honourary member of the Shamrock Amateur Athletic Association.

At the last meeting of the directors of the Association, it was decided to appoint Mayor Keary an honourary member.

This, it was agreed, would be the best way to show to the world at large that there was no ill-feeling whatever between the Shamrocks and the New Westminster Club and that the Shamrocks had not the slightest reason to feel unpleasant towards the latter club, for any action taken by them in connection with the lacrosse trip to the West.

It is expected that this will set at rest all the contradictory rumours that have been spread abroad in regard to existing unpleasantness or unfair dealings.

unsurmountable advantage, and the all-important portion of the game was entirely theirs. When they had the ball, and it was theirs three-quarters of the time, their centre trio stood like a stone wall, and nothing could budge them. The ball was heeled out cleanly and the quarter backs were given every opportunity of making the most of their scrimmages. Toronto was decidedly weak at this point, and Ballard had but little chance to feed the halves, even when his team did not hold the ball. As a matter of fact, the only advantage the home team had in having possession of the ball was to hold their ground. That was the foundation of McGill's easy victory. Again and again the Montreal wings broke through at will, and with the scrimmage simply walking through the Toronto trio and the wings breaking through on both sides on every down, the home team could hope to do little more than hang on without thinking of gaining ground. They were even outclassed and outwitted in that, and the McGill men tackled like demons, fast and sure, and were down on the halves for gains most of the time when Toronto held the ball, for they had the halves before they could get the oval away from them. Biggs' good punting and occasional run kept relieving Toronto when the Easterners had worked the ball down with a grim determination.

While the Montrealers outclassed the local university as a senior team overshadows an intermediate, still they were by no means perfect, and repeated muffs of the back division lost them many of the advantages their lines and scrimmage had earned by fast, sterling play. The feature of the work of the visiting team, apart from the ground work of the scrimmage, was the passing from hand to hand that gained them many a yard. When a man was down another had the ball and was going forward for a gain. As the game progressed this good work became more apparent, and it worried Toronto.

The Montreal team played with a vim and a dash that was inspiring. Every man on the team worked like a demon, and grim bull-dog pluck, fast, clever tackling, and a perfect understanding of one another made them look like stake horses against selling platers. Toronto was beaten from the start, and as the game progressed they lost all courage, though they worked hard all through.

McGill showed some very yellow work in passing, and muffing was quite as frequent as catching. This prevented their running the score up into the thirties.

The first half was made up largely of open play, kicking and running predominating. Toronto had the wind, though it was not strong, while McGill had the advantage of playing down hill. These two balanced each other, and neither team had anything but football to fall back on for points.

The second half consisted of a series of scrimmages and the consequent runs. McGill had all the advantage and relied more on running and passing than on kicking. Bucking the line was easy, and they took advantage of it to the utmost.

Varsity kicked off with the wind, and following up fast on a kick to Martin tackled before he could clear. McGill cleared on a free kick on a hand-out of scrimmage. Toronto pressed again on a free kick to Martin. Kenny had his leg injured, and gave way to Meindel. On Biggs' punt the ball was close up to McGill's line when Meindel made a beautiful run to centre but passed back badly to Hamilton. The Montreal men then held the ball for a succession of bucks for distinct gains and the demoralization of the home fifteen. At Toronto's 25-yard line Ballard stole the ball, but lost it on the down. Meindel went through the centre for a 10-yard gain and when five yards from the line he passed out of scrimmage to Roberts, and Hamilton went around the end for a try. It was not converted. Score, McGill 5, Toronto 0.

An exchange of punts followed to Toronto's advantage, but they could not stand the strain. Bad passing lost ground for McGill, and Toronto was at the visitors' 25-yard line. The ball was gradually worked to centre, and it was at Toronto's 25-yard line at half time. Score, McGill 5, Toronto 0.

The second half opened with an exchange of punts, and the ball was forced into McGill's territory. Molson punted to Toronto's territory. With some neat but apparent interference Meindel made a great run, and passing to Shillington a second try was tallied. It was not converted. Score, McGill 10, Toronto 0.

Toronto secured the ball, and on muffs carried it to McGill's 25-yard line. Biggs passed wide to Gibson from scrimmage, and Richards went down the field for a magnificent run of 60 yards. From the scrimmage Molson gained five yards, and Shillington went over a moment later. Richards converted. Score, McGill 16, Toronto 0.

No further scoring was done.

put up before this season and was especially strong at bucking the line. Andrews at centre half played a star game from start to finish, several time he made very sensational runs and his kicking was equally strong. MacDonald at full played his usual steady game. The wings broke through at will and followed up splendidly, giving the opposing backs little chance to kick. For the visitors. Lynch played the best game: he ran well and his kicking was strong and sure. Their weakest spot was at full when Kennedy made some disastrous muffs. In the first half McGill had the wind and played to their credit three touches, only one of which was converted, a rouge, two touches in goal, and a kick behind the dead ball line. In the second half they let up considerably and scored only one more touch, making the final score 25 to 0. In the second half Seeman was twice injured and at last forced to retire, Jennings going off to even up.

A Substitute's Neck Broken.

JAMESTOWN, N. Y., October 27. — A football fatality occurred in this city Saturday in the game between the Jamestown and Buffalo High School teams. In an unusually fierce scrimmage one of the Jamestown players was injured and taken from the game. His place was taken by George McClurg, a substitute. McClurg had been playing only a few seconds, when he was thrown in such a way that his neck was broken, death occurring almost instantly.

The University of Pennsylvania football eleven defeated the Bucknell team on Franklin field by the narrow margin of 6 to 5. The Lewisburg eleven outweighed Pennsylvania near ten pounds to the man, but the Quakers put more dash into their work than in any previous game this season.

In an exciting game Yale defeated the Syracuse University by the score of 24 to 0. The end runs of Captain Browne, of Syracuse, were a feature, one especially in which he ran sixty-two yards and came within a few yards of scoring a touch-down. Throughout the game Yale's chief offensive play was tackles back ... tion of but a few time[s] ... with the exception ... ball and made thre[e] ...s Hogan carried the ... downs. ... of the four touch-

Both teams played One ... times fast throughout the first half and ... Columbia made big gains through Princeton's centre and left guard, but the latter always forced the visitors to punt before their goal was endangered. Columbia weakened in the second half of the game.

Harvard was held to a single touch-down by Brown on Soldiers' Field, but on the whole played much better football than the team from Providence. Twice the Crimson eleven was within striking distance of the Brown goal, but a fumble and a mistake in signals prevented additional scoring. On the other hand the Brown eleven were unable to get within 42 yards of the Crimson goal line, and in the second half played entirely on their own side of the field.

ODDS AND ENDS.

The Overland A. A. A. will hold a general meeting at the Montreal Handball Court this evening at 8 o'clock.

At Brighton, Eng., A. Shrubb ran four miles here in 19 minutes 31 3-5 seconds, lowering the amateur record by 2 1-5 seconds. Shrubb ran four miles at Red Hill, September 20, in 19 minutes 26 4-5 seconds, but the record was not accepted officially. The record which he made Saturday stands.

It has been definitely decided to send another cricket team to England in the spring. Although the schedule for the team has not been completed, it is stated there will be no trouble in securing the desired fixtures.

It is expected that matches will be arranged with the leading county teams of England, and that the schedule will include Yorkshire, Lancashire, Surrey, Middlesex, Kent, Sussex and Somerset, while games will also be played with Oxford and Cambridge Universities, the Marylebone, County and representative teams in Ireland and Scotland.

The committee of the Associated Cricket Clubs, of Philadelphia, in charge of the selection of the team, at a meeting just held, decided to have the team known as the Gentlemen of Philadelphia. Twenty-five players were selected, to whom letters will be addressed asking if they can make the trip if selected. The actual team of twelve to fourteen men will be chosen from those who reply in the affirmative.

LACROSSE

DINNER TO MR. HAYNES

By Friends of Montreal Lacrosse Club and Others.

At the Oxford Cafe, on Saturday evening last, a complimentary dinner was tendered to Mr. Benny Haynes by a few of his many friends of the Montreal Lacrosse Club. The occasion was made all the more pleasant as it was a mark of congratulation to Mr. Haynes on his approaching marriage.

Mr. William Bramley, president of the M. A. A. A. Lacrosse Club, presided, and among those present were: Messrs. Thomas Carlind, Guy Pettigrew, Arthur Hamilton, A. W. Reed, James Strachan, Charles Liffiton, John Davidson, William Strachan, Fred. Hickey, G. Max Sinn and W. S. Spence. The menu served was of the best and during the evening vocal and instrumental music interspersed the speeches.

The toasts honoured were the King, proposed by Mr. Bramley, in a neat speech and heartily responded to by the singing of the National Anthem. "Our Guest" proposed by the chairman and responded to by Mr. Carlind who also made the presentation to Mr. Haynes of a purse of gold. The toast to "Sister Clubs" was championed by Messrs. James Strachan and Charles Liffiton, in neat speeches, while that to the officers of the Montreal Lacrosse Club drew forth splendid speeches from Messrs. Benny Haynes and Arthur Hamilton.

Mr. Sinn responded for the Press.

Mr. Fred. Hickey delighted the gathering with his fine voice in the rendering of several popular songs. Mr. Spence made a most acceptable accompanist. The dinner was voted one of the most successful and pleasant ever given by members of the Montreal Lacrosse Club.

BOWLING

Bowling at Westmount.

In bowling on the green at Westmount, Saturday, the following results were obtained:

J. H. Chapman	J. W. Fulton
Wm. Brown	H. Mason
(Skip)—24	(Skip)—21

There was a "single" contest, between Mr. A. W. D. Howell and Mr. F. H. Scott, who played two games of 13 points each, with the following results:—

First Game.
A. W. D. Howell—13 F. H. Scott—10
Second Game.
A. W. D. Howell—13 F. H. Scott—7

To the delight of the members of the club the worthy president, Mr. James Brown, was amazed at the keen running nature of the green, so late in the season, announced that weather permitting, a Hallowe'en tournament might be played on Saturday next in order to celebrate the close of the season of 1902.

FELL DOWN STAIRS.—Mr. Savard, of 171 St. Paul street, fell down stairs at his home last night and almost severed one of his ears from his head. He was taken to the Notre Dame Hospital for medical treatment.

STOCK WAS INJURED.—At an early hour yesterday morning a fire started in Armand Leduc's grocery store, at the corner of Notre Dame and Guy streets, and the stock was damaged by water and smoke.

ATHLETICS

CANADIAN AMATEUR ATHLETIC AFFAIRS

Will Be Looked After by a Reorganized Union.

ELECTION OF NEW OFFICERS

Other Business Transacted Including Appointment of Delegates to American Athletic Union.

There was a well attended meeting of delegates and governors of the re-organized Canadian Amateur Athletic Union, at the Windsor Hotel, Saturday night.

Mr. A. F. Rutter, of Toronto, who of late has come greatly to the fore in athletic affairs, was elected President of the Union,

MR. A. F. RUTTER,
New President of the Canadian Amateur Athletic Union.

and Major McAulay, and Mr. E. H. Brown, the retiring president and secretary received great verbal proofs of the appreciation in which their work, particularly during the period of re-organization, was held.

For the purpose of utilizing the retiring president a little further, he was appointed the voting delegate to the American Amateur Athletic Union, and as such was guaranteed his expenses in connection with attending the annual meeting of that Union. The other delegates are not allowed expenses.

The Board, at the suggestion of Inspector Starke, of Toronto, will look into the matter of changing the annual election in future, in such a way as to ensure a full attendance of governors and delegates.

The governors who remained after the regular meeting were:

W. G. Ayling, M. A. A. A.; E. J. Carlyle, McGill U. A. A.; Allan Rankin, Q. R. F. U.; George James, C. A. H. L.; P. Gorman, C. A. B. A.; Capt. F. Loye, C. P. A. A. A.; James Mundie, West C. L. A.; H. J. Trihey, S. A. A. A.; A. F. Rutter, T. L. and A. A.

The election of officers resulted as follows:

President—Mr. A. F. Rutter, T. L. and A. A.

First vice-president—Mr. George Ayling, M. A. A. A.

Second vice-president—Mr. H. J. Trihey, S. A. A. A.

Secretary-treasurer—Mr. O. Heron, A. R. C.

The annual report showing the work done during the last year, read:

Gentlemen,—It is once more my pleasure to present to you the annual report of the work done by the executive of our Union, the most important of which was a revision of our constitution and by-laws. A number of changes were made, particularly in those rules relating to representation on the executive or the board of governors, as it will hereafter be known, and in those relating to the annual fees.

A special meeting of the Union was held in Montreal, on 26th April, and the revised constitution was adopted and has since been published in book form, and a great many copies distributed amongst the members of this Union and other athletic organizations.

Application was made by the Ottawa A. A. C. for permission to hold the championship boxing competitions for 1901-02, which was granted.

Sanctions were also permitted to the Toronto Swimming Club to hold the 100 yards and 880 yards' swimming championships for 1902, and the Argyle Snowshoe Club for snowshoe 'cross-country championships for 1901-02, the latter event was never held and in the future we would recommend that our own members be given first choice for sanction.

Application for reinstatement as amateurs were dealt with in the following order:

M. A. Beale, Moyle, B.C., refused.
J. C. Deitrich, Galt, Ont., reinstated.
Percy Deitrich, Galt, Ont., reinstated.
Thos. Moffat, Montreal, refused.
J. F. Thompson, Nelson, B.C., refused.
C. I. Archibald, Nelson, B.C., refused.
Alfred Jeffs, Nelson, B.C., refused.
Thomas Watson, Victoria, B.C., refused.
Donald Hogarth, Sault Ste. Marie, Ont., reinstated.
J. F. Clarke, Galt, Ont., refused.
D. Guthrie, Winnipeg, reinstated.
H. J. Freeman, Winnipeg, reinstated.
G. E. Perrot, Vancouver, B.C., still in abeyance, as the committee of investigation, Messrs. Suckling, Thompson and Pearson, have not yet made their report.

We are pleased to report an application for affiliation from the Canadian Police Amateur Athletic Association, a body composed of the police associations of Hamilton, Toronto, Ottawa and Montreal, which is well organized, and will be a valuable addition to our Union.

The board of governors who will legislate the affairs of the Union for the next year will be made up of the representatives from our active members, from amongst whom executive officers will be chosen.

The annual championship meeting held this afternoon on the M.A.A.A. grounds was highly satisfactory, although the weather all morning was so bad that the attendance of spectators was no doubt affected. However, the entry list was fairly large, and the competitions were keen in most of the events. The world's record was broken in the 220 yards run by Mr. P. J. Walsh, of the New York Athletic Club, who ran the distance in 21 3-5 seconds, the previous record for this distance on a track with a turn being 21 4-5.

The whole respectfully submitted.

E. HERBERT BROWN,
Hon. Sec. C.A.A.U.

The treasurer's statement showed a balance standing over on the right side.

The Argonaut Rowing Club, of Toronto, applied for the annual boxing championship sanction, and it was granted, as was also the application of the Argyle Snowshoe Club, for the annual cross-country championship on snowshoes.

M. Murphy, of Quebec, who asked to be reinstated to amateur standing, was declared a professional, because he admitted having received gate receipts for participating in a boxing contest with Allen, a professional.

P. J. Murphy, Ottawa, who was professionalized by the O.R.F.U., also applied for reinstatement, and a committee composed of Messrs. Carlyle, Rankin and Loye were appointed to investigate.

Dr. Jack's letter asking that the All Canada team be allowed to go to England under the auspices of the Union, was referred to the president and secretary, who would be responsible for the standing of the men composing the team which will go to England.

Capt. Loye brought up a question regarding the stop board being used in the putting of the 16-lb. throw. He contended that it should be left there. It was agreed that the secretary should communicate with Mr. Sullivan, the secretary of the A.A.U., on the subject.

Mr. Carlyle suggested now that 'Varsity, of Toronto, had organized their clubs into one large association, they should henceforth have representation on the board of governors, and he was granted permission to communicate with them on the subject of coming under the union's wing.

Major Macaulay, after many complimentary remarks, was appointed as governor, representing the union on the A.A.U., and Messrs. A. F. Rutter, E. H. Brown and O. Heron, delegates. Major Macaulay was also appointed governor pro tem., representing the union on the board of the Y.M.C.A. Athletic Union.

AN AUSTRALIAN AFTER INFORMATION ABOUT CANADA.

(Special to the Montreal Star.)

OTTAWA, October 27.—Charles Rogers, of Sydney, N. S. W., called upon the Secretary of State, and asked for information regarding the resources of Canada, the system of Government, the educational institutions, etc. Mr. Rogers is returning from Great Britain to Australia, and this is his first visit to Canada. He declares that in future when travelling in Europe he will always travel by the Canadian route.

Mr. Rogers informed Hon. R. W. Scott that he had received a cablegram from Sydney, stating that the drouth in New South Wales was over, and that rain had fallen to a depth of 2 1-2 inches. In consequences there was great improvement in the crop prospects.

ONTARIO ELECTION CASES.

Dates for the Hearing of Four of Them Have Been Filed.

The following six petitions were postponed for two weeks: North York against Davis, and cross-petition; Centre Bruce against Clark (Conservative), and cross-petition; East Wellington against Gibson (Liberal), and cross-petition; North Ontario against Hoyle (Conservative), and cross-petition; Sault Ste. Marie against Miscampbell (Conservative), and cross-petition.

Hog Cholera in Kent.

(Special to the Montreal Star.)

OTTAWA, October 27.—Upon the recommendation of Dr. Rutherford, Dominion Veterinary Inspector, a proclamation has been issued declaring that hog cholera exists in the Townships of Tilbury East, Raleigh, East Dover, West Dover, Chatham, Harwich, Camden, all in the county of Kent, Ontario, and strictly forbidding the movement of live swine into, within, or out of these townships in consequence. Dr. Rutherford has written the pork packers and the railway authorities asking for their co-operation.

Lumber Company Incorporated.

(Special to the Montreal Star.)

OTTAWA, October 27.—Letters patent of incorporation have been issued to the Great Northern Lumber Company, with a capital stock of $50,000. The incorporators reside in Montreal and Lachine, and will take over and operate the mill and machinery of J. ...stin, and Solomon Cole, in the Township of ...son, County of Terrebonne.

...d for Boer Sufferers.

(Special to the Montreal Star.)

...N, October 27.—The Brussels correspondent of the Times says the total of subscriptions received by the committee ... to aid the Boer war sufferers exceeds £21,000. The Belgian subscriptions amount to £1,800, which is less than a penny per head for the population of Brussels.

Granted Leave of Absence.

(Special to the Montreal Star.)

OTTAWA, October 27.—Justice Lount, of Toronto, has received three months' leave of absence owing to ill-health. The application was made to Chief Justice Meredith on behalf of Judge Lount.

ONTARIO HONOURS

The Rough Riders Won Them From Argonauts by a Score of Twenty to Nothing Saturday Afternoon.

(Special to the Montreal Star.)

OTTAWA, Ont., October 27.—By a score of 20 to 0, the Ottawa Rough Riders easily defeated the Argonauts of Toronto here on Saturday, before 3,000 people on Varsity oval, and became the Ontario Rugby Union champions, the Argonauts were never a factor in the game and did not put up nearly as strong a fight as they did in Toronto. The Ottawas were much stronger except on the half back line and in this division Hardisty was the only man to show up on the argo side in his true form. Darling and Henderson were charged down by Ottawa wings early in the game and were never dangerous after. Hardisty played at all times a brilliant game and fully sustained his reputation both as a runner and a long punter. Britton who was expected to play quarter for Argo did not turn up and McNichol who filled the position, showed very poor judgment. Argos had the benefit of a strong wind in the first half, but Ottawa proved themselves much the best ball getters and even when McNichol got the ball he too often tried to buck the line instead of trusting to Hardisty. This made the first half practically all scrimmage, with Ottawa in possession of the ball and getting the best of the play by bucking the line. In this half, Buckham was off for five minutes for kicking an Argo, and Boucher escaped the referee's eye when he knocked out two of Kent's teeth. In the second half Ottawas had the wind and quickly changed the style of play keeping the ball nearly all the time in the Argo's territory. Hardisty made some nice runs. Two very dangerous ones fell to Rankin and Jim McGee, after Boyd had twice kicked over the line for minor points. Hal Walters bucked the line for a touch down which Parr converted.

brandy, some old handkerchiefs to be used as bandages, and a box of salve he used for bruises when on hunting expeditions. In turning over his clothes his hand came into contact with his old army revolver. He scratched his head. "No, it's too much like a cannon, and there's no room for it in my pockets." He pushed it aside, rose and slammed the lid of the trunk. "Sprained his ankle? He wasn't gone more than an hour. How the deuce is he to see the king to-morrow? Probably wishes to appoint me his agent. That's it. Very well." He proceeded to the office, where he found the messenger waiting for him. "Come on, and put life into your steps."

Together they traversed the moonlit thoroughfare. Few persons were astir. Once the night patrol clattered by. They passed through the markets, and not far ahead they could see the university. It looked like a city prison.

"This is the hotel, Herr," said the messenger.

They entered. Maurice approached the proprietor, who was pale and flurried; but as Maurice had never seen the natural repose of his countenance, he thought nothing of it.

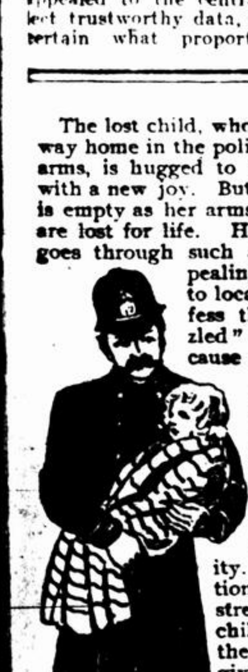
"My friend, Herr Hamilton, has met with an accident. Where is his room?"

"Number nine; Johann will show you."

He acted as if he had something more to say, but a glance from the round-faced porter silenced him. Maurice lost much by not seeing this glance. He followed the messenger up the stairs.

There were no transoms. The corridor was devoid of illumination. The porter struck a match and held it close to ...

The lost child, who presently finds his way home in the policeman's protecting arms, is hugged to his mother's heart with a new joy. But the mother's heart is empty as her arms when her children are lost for life. How many a woman goes through such an experience, appealing in vain for help to local doctors, who confess that they are "puzzled" to understand the cause of the trouble.



In similar cases Dr. Pierce's Favorite Prescription has been used with such success that its record commends it to every woman whose children fail of vitality. "Favorite Prescription" gives the mother strength to give her child. It strengthens the female organism, giving great elasticity to the organs of maternity, and making the baby's advent practically painless. It is the true woman's medicine, establishing regularity, drying weakening drains, and healing inflammation.

"I can cheerfully recommend Doctor Pierce's Favorite Prescription as the best medicine for women," writes Mrs. Mary Murdock, of 228 Taylor St., Topeka, Kansas. I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old, but she was always feeble. I tried different doctors, but none of them could tell what my trouble was. They said I was well and strong. I was examined by surgeons, but they found nothing wrong, and they were puzzled to know what my trouble was. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now I have a fine baby girl, and I cannot praise your medicine enough for the good it did me."

Itching Piles Most Annoying.

Cause Uneasiness and Often Keen Suffering—There Is One Positive Cure—

Dr. Chase's Ointment.

It is a question whether there is another preparation for sale in this country that is so heartily endorsed by persons who have used it as Dr. Chase's Ointment.

Professional and business men and women, farmers, mechanics, railroad men, miners, laborers, all classes of men and women use and endorse Dr. Chase's Ointment as the only actual cure for piles.

Mr. John Harvey, Mayor of Arnprior, Ont., states: "Only persons who have experienced the torture of itching piles can form any idea of what I suffered from this horrible disease. I was advised to try Dr. Chase's Ointment, and can positively say that it has completely cured me. I had tried very many so-called cures for piles, and can truthfully say that there is no remedy on the face of the earth like Dr. Chase's Ointment for this purpose. I would not be without it for any amount of money, and can heartily recommend it to all sufferers, as it is the best thing I ever used."

W. E. Talbot, of Talbot Bros., tobacco merchants, 382 George street, Peterboro', Ont., states: "It is from a desire to help other sufferers that I offer a statement of my experience with Dr. Chase's Ointment as a cure for itching piles. I was for a long time troubled with this unpleasant and torturing disease, and though I tried very many treatments, remained uncured until I came across Dr. Chase's Ointment. It was highly recommended to me, and I find that every word of praise that is given to it is true. I can truthfully say that I am completely cured, and, knowing the misery that this ailment produces, I am anxious for others to know of the surprising virtues of Dr. Chase's Ointment."

THE GERM THEORY OF CANCER.

For many years the medical profession ridiculed the theory of the germ origin of cancer. Eminent German and French bacteriologists have demonstrated recently, however, that cancers are caused by certain germs or microbes, and there are very few physicians now who do not believe that this is their true origin.

A brochure on this subject, published by Messrs. Stott and Jury, Bowmanville, Ont., which will be sent to any one interested on receipt of two stamps, tells all about the germ origin of cancer, and the most successful method of treating this dangerous disease without the need of resorting to knife or plaster. 254 1

ADVANCE GUARD ... WAS WELL IN LEAD

The Canadian Owned Horse Won Another Good Race.

TINY TIM'S GOOD WORK

Mr. Hendrie's Horse Wins Four Races at the Toronto Hunt Club Gymkhana Saturday Afternoon.

TO ADVANCE GUARD.

You're lean and lanky and long of neck,
You son of a sire of fame;
You're fine as to looks from head to hocks
And many times earn your name.
You come from behind when the rest lack zest,
And smother them in the straight;
You can beat any horse in the east or west,
But once you were dubbed a skate.

Now, Guard, don't laugh, you chestnut rouge,
You remember the time quite well,
In those old days you were not in vogue,
Your owner wanted to sell.
He took you into the middle west,
And raced you at Windsor course,
And though on the level you ran your best,
You were only somebody's horse.

"He's worth eight hundred," your owner said,
Next day you were first to land.
"A thousand will take him, and nothing less,"
But in vain were the buyers scanned.
The next time out you were standing flat,
When the others rushed on the trip,
But you caught them all in the last sixteenth,
And won by an upper lip.

That feat endeared you to Alec, shrewd,
He stood for a further raise,
And paid twelve hundred, with hope imbued—
Now he's in his palmiest days,
And you are the cause of it all, old Guard,
You ran through the cold and heat,
East, west and north in a dozen climes,
You've always been hard to beat.

A ticket on you is a certified cheque
In everything else but sprints;
You've never been bothered with spavins or cracks,
Navicular trouble or splints.
And up at Detroit, there's a happy place
For you in your olden day
Where Logan, who captured his hundredth race,
Is munching a bale of hay.

—John F. Ryan, in New Orleans Item.

NEW YORK, October 27. — Advance Guard won the Morris Park Autumn weight for age race at two miles and a quarter at Morris Park on Saturday, eased to a walk. Advance Guard was favourite, with Frank Farrell's Blues second choice. The start was good and Blues immediately went to the front. He led his field for a mile and a half. Rounding the far turn the last time Odom sent Advance Guard up to the leader. As the favourite passed him a rousing cheer rang out, and it was but a few strides when the ... Shields horse had daylight between him and Blues. Lyne, however, on Wyeth, who was riding a good race, sent his mount up, and soon forged ahead of the fast-tiring Blues. It looked for a time as if the Drake horse was going to give the son of Great Tom a race, but when Odom let him down it was a question as to how much he would win by. Advance Guard won eased to a walk by six lengths from Wyeth, who was twelve lengths in front of Blues.

The White Plains Handicap, for 2-year-olds, over the Eclipse course, was won by P. J. Dwyer's maiden colt, Merry Acrobat, with River Pirate second. J. E. Madden on Saturday sold the two-year-old colt, River Pirate, by Pirate of Penzance-H. Grebell, to Perry Belmont for $20,000. The weather was clear and track fast. Summary:

First race, selling, steeplechase, about two miles and a half—Walter Cleary, 153, Johnson, 9 to 10 and 2 to 5, won; Silver Twist, 133, Connelly, 6 to 1 and 8 to 5, second; R. B. Sack, 148, Hollaway, 25 to 1 and 6 to 1, third. Time, 4.40. Howard Gratz, Silent Friend, Mr. Stoffel and Marylander also ran.

Second race, for maiden two-year-olds, the Eclipse course—Flying Jib, 112, Minder, 7 to 5 and 1 to 2, won; Merry Reel, 109, Redfern, 8 to 5 and 1 to 2, second; Rosewater, 109, Lyne, 15 to 1 and 5 to 1, third. Time, 1.11¼. Sailmaker, Trillando, The Cub and Zealtry also ran.

Third race, the White Plains Handicap, for two-year-olds, the Eclipse course — Merry Acrobat, 100, Redfern, 8 to 1 and 3 to 1, won; River Pirate, 118, O'Connor, 5 to 1 and 2 to 1, second; Dick Welles, 118, Knight, 6 to 1 and 2 to 1, third. CONQUERING TUBERCULOSIS

Astonishing Progress Made in the Treatment of This Deadly Disease.

PROF. KOCH ON BACILLI

Sticks to His Argument That Man Cannot Take the Disease From Animals.

(Special to the Montreal Star.)

LONDON, October 27.—Great interest is felt throughout Europe in the first meeting of the International Tuberculosis Congress at Berlin, last week. Some of the proceedings were too technical for popular discussion, but astonishing progress is already recorded in conquering the deadliest malady of the human race. Thus the English delegate reported that the death rate in the United Kingdom in 1838 from consumption was 38 per 1,000. This has been reduced to 13, or more than 60 per cent. The delegates to the Congress last week visited the great public Sanitaria in the Pine Forests, an hour's ride from Berlin. They found there not only the finest modern equipment for the cure of disease, but also what Prof. Brouardel, of Paris, described as an entirely novel and momentous experiment in the realm of social policy. The great institutions provide every accommodation at the public expense to working class victims of this scourge. The delegates were very much impressed and the English representatives declared their intention to induce a deputation of English workmen's friendly societies to visit the Sanitaria.

PROF. KOCH'S VIEWS.

BERLIN, October 27.—The sensation of Saturday's session of the International Tuberculosis Congress came towards the end of the sitting in the form of a paper by Prof. Koch, in which he maintained all his former arguments regarding the non transferability of animal tuberculosis to man. Prof. Koch began by stating that he spoke at the desire of the central committee. He wished it to be understood, he said, that his statements referred exclusively to the transmission of bovine tuberculosis to human beings. He asserted that statistics on the subject of intestinal tuberculosis were too incomplete to establish the frequency of that disease. Some authorities claim, said the professor, that intestinal tuberculosis is very common in the United States and in England, while other authorities hold contrary views. Cases of the disease are not frequent in Germany. An enquiry instituted by the Government has proved the rarity of such cases.

Taking up the alleged proofs that human beings may be infected with bovine tuberculosis through skin lesions, Professor Koch admitted that cases of tuberculosis do occur among butchers and other persons who handle animal, but he asserted that the percentage of sufferers from the diseases among joiners is equally as high as among handlers of animals and meat. He could not see, he declared, any connection between a skin lesion and tuberculosis, ending in death, like the case alleged of a certain workman who scratched his hand and finally died from consumption. The experiments on monkeys which were innoculated with bovine tuberculosis bacilli, and died subsequently, are, according to Prof. Koch, only indirect proof of the tranferability of animal tuberculosis.

SOME EXAMPLES.

"If," said the professor, "infection is so frequent through milk, positive proof of this ought to be obtainable. When poisoned meat is eaten in a community, widespread effects follow. How is it that no general infection follows the eating of tuberculous meat or the drinking of milk from a tuberculous cow? Experts assert that large amounts of tuberculous meats are consumed daily, and that not only the flesh, but even tuberculous organs are made use of for food; yet no widespread infection follows. In view of the quantity of tuberculous meat eaten and the rarity of intestinal tuberculosis, the question must be asked why a general infection is not more frequent. If tuberculous meat is apparently harmless, why is it not the same with milk? People think that boiled milk is harmless, but boiling does not exterminate tubercule bacilli, and sterilizing milk impairs its quality. Why is it that the public is so nervous about milk, but yet we eat butter, in which bacilli are equally nurtured, without hesitation? The fact is that most people have eaten tubercular bacilli. Why is not the infection widespread?

Professor Koch declared that only two cases of alleged general infection were known to him and these two were not proved. He did not affirm he said, that the transmission of tuberculosis from animal to man was impossible, but that cases of the kind were extremely rare if they did occur. He had collected twenty-eight cases of apparant transmission of tubercle bacilli—a very small number—and in none of these could the source of the infection be stated positively, the data being incomplete.

AN APPEAL FOR DATA.

Last year Professor Koch received a number of letters from people who had drunk tuberculous milks for years and who had discovered only upon the death of the cow the milk of which they had been drinking, that the animal was tuberculous. He appealed to the central committee to collect trustworthy data, and, especially to ascertain what proportion of persons using the same meat and milk remained unaffected where transmission of tuberculosis were reported. As the matter stands, no satisfactory proof exists.

"It measures are taken to combat animal tuberculosis," went on Prof. Koch, "they must be on economic, not sanitary, grounds. In order to combat the disease we must find the root of the evil, establish better dwellings and workshops, avoid overcrowding and isolate persons who are affected with tuberculosis. This is the only way to meet the enemy. Experience with other infections proves that tuberculosis can be successfully combatted."

Prolonged cheers followed the reading of Professor Koch's paper.

SPOKE IN OPPOSITION.

M. Nocard, a well-known French veterinary authority, spoke in opposition to Prof. Koch's views. He said the statements made by the professor led to two conclusions, that the transmission of tuberculosis does not occur and that precautions are unnecessary. The speaker said a number of experiments made since Prof. Koch's London address, proved that animals rarely take tuberculosis from man, but that no doubt exists that lower animals can be infected from human tubercule bacilli. It seems that the tubercular bacillis exists in great varieties of virulence, and also that some animals are more susceptible than others. The different degrees of virulence, he said, depended upon environment. The bovine bacillus, M. Nocard asserted, was more virulent than the human bacillus. All tuberculous animal products could infect through alimentation. Milk from a tuberculous udder is highly infectious, though a great number of bacilli are necessary for infection through the digestive organs. M. Nocard said he himself had killed five monkeys through inoculations with bovine bacilli, and he asked why human beings should be immune. The speaker said he regarded the danger from tuberculous animals as established; and he declared that such animals should be destroyed and those suspected of being affected should be isolated.

DANGEROUS FOR CHILDREN.

M. Nocard concluded by arguing that bovine tuberculosis is transferable to man, especially through milk from the tuberculous udder, and that an exclusively lacteal diet for children is particularly dangerous. He recommended a rigid inspection of cow stables and the boiling of all milk.

Surprise and regret is felt by the delegates to the International Tuberculosis Congress, which has been in session here, that the United States did not have a larger representation.

The last session of the congress was held Saturday at midday. Dr. Williams, of England, made an address in which he advocated the classification of patients in sanitoria according to the progress each had made toward recovery. The congress then adjourned to meet next year in Paris.

The lost child, who presently finds his way home in the policeman's protecting arms, is hugged to his mother's heart with a new joy. But the mother's heart is empty as her arms when her children are lost for life. How many a woman goes through such an experience, appealing in vain for help to local doctors, who confess that they are "puzzled" to understand the cause of the trouble.

In similar cases Dr. Pierce's Favorite Prescription has been used with such success that its record commends it to every woman whose children fail of vitality. "Favorite Prescription" gives the mother strength to give her child. It strengthens the female organism, giving great elasticity to the organs of maternity, and making the baby's advent practically painless. It is the true woman's medicine, establishing regularity, drying weakening drains, and healing inflammation.

"I can cheerfully recommend Doctor Pierce's Favorite Prescription as the best medicine for women," writes Mrs. Mary Murdock, of 220 Taylor St. Topeka, Kansas. I am the mother of ten children and only one living—the tenth one. She is one year old and is as well and hearty as can be. She is a beauty. Of my other babies, some were born at right time, but dead, others were premature births; one lived to be one year old, but she was always feeble. I tried different doctors, but none of them could tell what my trouble was. They said I was well and strong. I was examined by surgeons, but they found nothing wrong, and they were puzzled to know what my trouble was. I did not know what to do, so I thought this last time I would try Dr. Pierce's Favorite Prescription. I took it the entire nine months and now I have a fine baby girl, and I cannot praise your medicine enough for the good it did me."

Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent *free* on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*. Address Dr R. V. Pierce, Buffalo, N. Y.

AMERICAN GENERALS TALK ABOUT ENGLAND.

Corbin Was Much Impressed With Lords Roberts and Kitchener—"Bobs" Coming Across.

NEW YORK, October 27.—Major-General Henry C. Corbin, adjutant-general of the United States army, and Major-General B. M. Young, United tSates army, arrived Saturday on the steamer Philadelphia. General Young said: "We attended the manoeuvres of the German army and visited England, where we were cordially received. We wore the new uniform at the manoeuvres, and the press spoke highly of it. The Germans, however, do not think it adapted to their country, while in England they thought favourable of it. I met Generals Roberts and Kitchener and I was much impressed. Kitchener presents a fine soldierly appearance. He is rather reticent until acquainted. I think he is an able soldier. In England it impressed me that while they keep track of Europe, and know its history and habits, they know comparatively little about us. However, they are learning more about us now."

Genral Corbin, in speaking of the trip, said: "One of the most remarkable things which struck me was the small number of prominent men in England who had ever been in America. The Marquis of Lansdowne and Hon. Joseph Chamberlain are the only members of the Ministry who have ever visited America. At Woolwich I met General Kitchener, Lord Roberts, Sir John French and Generals Kelly-Kenny and Ian Hamilton, I do not think any of them has been in this country. In next September, however, Lord Roberts is coming here, and he will take in the country from New York to San Francisco."

MISSED THE APPLE BUT KILLED THE MAN.

Chas. Meinel, in Trying to Accomplish the William Tell Feat, Kills John Volkman.

COLD SPRING HARBOR, N.Y., October 27. — The Coroner to-day held an inquest on the body of John Volkman, a barber, who was accidentally shot and killed on the stage of "Thespian Hall," by Chas. Meinel, of a company, which has been giving a two-weeks' show in connection with the sales of a medicine One of the star features of the show was Meinel's feat of shooting an apple from the head of any person who would volunteer.

Volkman had offered to allow the apple to be placed on his head. When the apple was placed on his head Meinel began shooting at a distance of about twenty feet. The first two shots missed, but the third struck Volkman in the forehead. He died within an hour. Meinel was arrested and held for a hearing on a charge of manslaughter.

Volkman was 18 years of age, and has a father and mother, who live in Germany. His grandmother lives in Buffalo, N.Y., where, it is said, he has other relatives, and where he lived at one time.

BRITISH OFFICERS PLACED UNDER ARREST

LONDON, October 27.—The Army and Navy Gazette prints a sensational story connected with a distinguished cavalry regiment that is now stationed in India. The paper says that all the officers of this regiment who were home on leave, were ordered to return forthwith, and they started for India on Friday's steamer. The secret of the extraordinary affair was well kept, but it is understood that something very serious happened recently in the mess on a great guest night. The immediate result was that a number of officers were placed under arrest, so many indeed, that the recall of all the others became necessary in order to work the regiment.

Londonderry Iron Company.

(Special to the Montreal Star.)

OTTAWA, October 27.—Letters patent have been issued incorporating G. E. Drummond, F. C. Henshaw, T. J. Drummond, J. T. McCall, and E. McDougall, of Montreal, and C. W. Gregna, of Chicago, for the purpose of acquiring the property of the Londonderry Iron Company, now in liquidation, and exploiting and developing the resources of the same. Capital stock, $1,000,000.

Itching Piles Most Annoying.

Cause Uneasiness and Often Keen Suffering—There is One Positive Cure—

Dr. Chase's Ointment.

It is a question whether there is another preparation for sale in this country that is so heartily endorsed by persons who have used it as Dr. Chase's Ointment.

Professional and business men and women, farmers, mechanics, railroad men, miners, laborers, all classes of men and women use and endorse Dr. Chase's Ointment as the only actual cure for piles.

Mr. John Harvey, Mayor of Arnprior, Ont., states: "Only persons who have experienced the torture of itching piles can form any idea of what I suffered from this horrible disease. I was advised to try Dr. Chase's Ointment, and can positively say that it has completely cured me. I had tried very many so-called cures for piles, and can truthfully say that there is no remedy on the face of the earth like Dr. Chase's Ointment for this purpose. I would not be without it for any amount of money, and can heartily recommend it to all sufferers, as it is the best thing I ever used."

W. E. Talbot, of Talbot Bros., tobacco merchants, 382 George street, Peterboro', Ont., states: "It is from a desire to help other sufferers that I offer a statement of my experience with Dr. Chase's Ointment as a cure for itching piles. I was for a long time troubled with this unpleasant and torturing disease, and though I tried very many treatments, remained uncured until I came across Dr. Chase's Ointment. It was highly recommended to me, and I find that every word of praise that is given to it is true. I can truthfully say that I am completely cured, and, knowing the misery that this ailment produces, I am anxious for others to know of the surprising virtues of Dr. Chase's Ointment."

Dr. Chase's Ointment, 60 cents a box, at all dealers, or Edmanson, Bates and Co., Toronto. 254 1

THE PUPPET CROWN BY HAROLD MACGRATH THE GREAT ROMANTIC NOVEL

CHAPTER VII.—Continued.

"Do you want me to walk with you to the Grand? It's a fine night," said Maurice, waving his hand toward the moon. "By George, what a beautiful place this end of Bleiberg is! I do not wonder that the duchess covets it."

"No, I'll go alone. All I have to do is to march straight up the Strasse."

"Well, good night and good luck to you," said Maurice, as he led the Englishman into the hall-way. "Look me up when you have settled the business. I say, but it gets me; it's the strangest thing I ever heard." And he waited till the soldierly form disappeared below the landing.

Then he went back to his chair on the balcony to think it over. At four o'clock that afternoon he had grumbled of dullness. He lit a pipe, and contemplated the soft and delicate blues of earth and heaven, the silvery flashes on the lake, and the slim violet threads of smoke which wavered about his head. It was late. Now and then the sound of a galloping horse was borne up by the breeze, and presently Maurice heard the midnight bell boom forth from the sleepy spires of the cathedral—where the princess was to be married.

One by one the lamps of the park went out, but the moon shone on, lustrous and splendid. First he reviewed his old adventure in the archbishop's gardens. He had spoken to princesses before, but they were women of the world, hothouse roses, that bloom and wither in a short space. The atmosphere which surrounded this princess was idyllic, pastoral. She had seen nothing of the world, its sports and pastimes, and the art of playing at love was unknown to her. Again he could see her serious eyes, the delicate chin and mouth, the oval cheeks, and the dog that followed in her steps. Here was an indelible picture, which time could never efface. Something stirred in his heart, and he sighed.

And ah, the woman in the veil! Who could she be? The more he thought of her the more convinced he was that she stood high in the service of any one but Leopold of Osia. And Fitzgerald! That sober old soldier concerned with crowns and millions! It was incredible, it was almost laughable. They had met up-country in India, and had hunted, and Maurice had saved the Englishman's life Occasionally they had corresponded.

"Well, to bed," said the young diplomat. "This has been a full day." And, like the true newspaper man he was, for all his diplomacy, he emptied the bottle and entered the room He was about to disrobe, when some one rapped on the door. He opened it, and beheld a man in the livery of the Grand Hotel. He was breathing hard.

"Herr Carewe?"

"Yes. What's wanted?"

"Herr Hamilton—"

"Hamilton? O, yes. Go on."

"Herr Hamilton bade me to tell your Excellency that in returning to the hotel he sprained his ankle, and wishes to know it Herr would not be so kind as to spend the night with him"

"Certainly. Run down to the office, and I shall be with you shortly." Again alone, Maurice opened his trunk. He brought forth a pink flask of brandy, some old handkerchiefs to be used as bandages, and a box of salve he used for bruises when on hunting expeditions. In turning over his clothes his hand came into contact with his old army revolver. He scratched his head. "No, it's too much like a cannon, and there's no room for it in my pockets." He pushed it aside, rose and slammed the lid of the trunk. "Sprained his ankle? He wasn't gone more than an hour. How the deuce is he to see the king to-morrow? Probably wishes to appoint me his agent. That's it. Very well." He proceeded to the office, where he found the messenger waiting for him. "Come on, and put life into your steps."

Together they traversed the moonlit thoroughfare. Few persons were astir. Once the night patrol clattered by. They passed through the markets, and not far ahead they could see the university. It looked like a city prison.

"This is the hotel, Herr," said the messenger.

They entered. Maurice approached the proprietor, who was pale and flurried; but as Maurice had never seen the natural repose of his countenance, he thought nothing of it.

"My friend, Herr Hamilton, has met with an accident. Where is his room?"

"Number nine; Johann will show you." He acted as if he had something more to say, but a glance from the round-faced porter silenced him. Maurice lost much by not seeing this glance. He followed the messenger up the stairs.

There were no transoms. The corridor was devoid of illuminiation. The porter struck a match and held it close to the panel of a door under which a thread of light streamed.

"This is it, Herr," he bawled, so loudly that Maurice started.

"There was no need of waking the dead to tell me," he growled.

The door opened, and before Maurice could brace himself—for the interior of the room made all plain to him—he was violently pushed over the threshold on to his knees. He was up in an instant. The room was filled with soldiers, foot soldiers of the king, so it seemed.

"What the devil is this?" he demanded, brushing his knees and cursing himself because he had not brought his Colt when fate had put it almost in his hand.

"It is a banquet, young man. We were waiting for the guest of honour."

Maurice turned to the speaker, and saw a medium sized man with gray hair and a frosty stubble of a mustache. He wore no insignia of office. Indeed, as Maurice gazed from one man to the next he saw that there were no officers; and it came to him that these were not soldiers of the king. He was in a trap. He thought quickly. Fitzgerald was in trouble, perhaps on his account. Where was he?

"I do not see my friend who sprained his ankle," he said coolly.

This declaration was greeted with laughter.

"Evidently I have entered the wrong room," he continued imperturbably. He stepped toward the door, but a burly individual placed his back to it. "Am I a prisoner, or the victim of a practical joke?"

"Either way," said the man with the frosty mustache.

"Why?"

"You have recently formed a dangerous acquaintance, and we desire to aid you in breaking it."

"Are you aware, gentlemen—no, I don't mean gentlemen—that I am attached to the American legation in Vienna, and that my person is inviolable?"

Everybody laughed again — everybody but Maurice.

"Allow me to correct you," put in the elderly man, who evidently was the leader in the affair. "You are not attached, you are detached. Gentlemen, permit me, Mr. Carewe, detache of the American legation in Vienna, who wishes he had stayed there"

Maurice saw a brace of revolvers on the mantel. The table stood between.

"Well," he said, banteringly, "bring on your banquet; the hour is late."

"That's the way; don't lose your temper, and no harm will come to you."

"What do you wish of me?"

"Merely the pleasure of your company. Lieutenant, bring out the treasure."

One of the soldiers entered the next room and soon returned pushing Fitzgerald before him. The Englishman was bound and gagged.

"How will you have the pheasant served?" asked the leader.

"Like a gentleman!" cried Maurice, letting out a little of his anger. "Take out the gag; he will not cry."

The leader nodded, and Fitzgerald's mouth was relieved. He spat some blood on the carpet, then looked at his captors, the devil in his eyes.

"Proceed to kill me and have done," he said.

"Kill you? No, no!"

"I advise you to, for if you do not kill me, some day I shall be free again, and then God help some of you."

Maurice gazed at the candles on the table and smiled.

"I'm sorry they dragged you into it, Maurice," said Fitzgerald.

"I'm glad they did. What you want is company." There was a glance, swift as light. It went to the mantel, then passed to the captive. Well," said Maurice, "what is next on your programme?"

"The other side of the frontier."

"Maybe," said Maurice.

With an unexpected movement he sent the table over, the lights went out; and he had judged the distance so accurately that he felt his hands close over the revolvers.

"The door! the door!" a voice bawled. "Knock down any one who attempts to pass."

This was precisely what Maurice desired. With the soldiers massed about the door, he would be free to liberate Fitzgerald; which he did. He had scarcely completed the task, when a flame spurted up. The leader fearlessly lit a candle and righted the table. He saw both his prisoners, one of them with extended arms, at the ends of which glistened revolver barrels.

"The devil!" he said.

"Maybe it is," replied Maurice. "Now, my gay banqueteers, open the door; and the first man who makes a suspicious movement will find that I'm a terrible shot."

"Seize him, your Excellency!" shouted one of the troopers. "Those are my revolvers he has, and they are not loaded."

CHAPTER VIII.

THE RED CHATEAU.

Two o'clock in the morning, on the king's highway, and a small body of horse making progress. The moon was beginning to roll away toward the west, but the world was still frost-white, and the broad road stretched out like a silver ribbon before the horsemen, until it was lost in the blue mist of the forests.

The troop consisted of ten men, two of whom rode with their hands tied behind their backs and their feet fastened under the bellies of the horses. The troop was not conspicuous for this alone. Three others had their heads done up in handkerchiefs and a fourth carried his arm in a sling.

Five miles to the rear lay the sleeping city of Bleiberg, twenty miles beyond rose the formidable heights of the Thalians. At times the horses went forward at a gallop, but more often they walked; when they galloped the man with his arm in the sling complained. Whenever the horses dropped into a walk, the leader talked to one of the prisoners.

"You fight like the very devil, my friend," he said; "but we were too many by six. Mind, I think none the less of your for your attempt; freedom is always worth fighting for. As I said before, no harm is meant to you, physically; as to the moral side, that doesn't concern me. You have disabled four of my men, and have scarcely a dozen scratches to show for it. I wanted to take only four men with me; I was ordered to take eight. The hand of providence is in it."

"You wouldn't be so polite, Colonel," spoke up the trooper whose arm was in the sling, "if you had got this crack."

"Baron, who told you to call me Colonel?" the leader demanded.

"Why, we are out of the city; there's no harm now that I can see."

"Is it possible," said Maurice ironically, "that I have had the honour of hitting a baron on the head and breaking his arm?"

The baron muttered a curse and fell back.

"And you," went on Maurice, addressing the leader, "are a Colonel?"

"Yes."

"For the duchess?"

"For the duchess."

"A black business for you, Colonel; take my word for it."

"A black business it is; but orders are orders. Have you ever been a soldier?"

"I have."

"Well, there's nothing more to be said."

"America—" Maurice began.

"Is several thousand miles away."

"Not if you reckon from Vienna."

"I'd rather not reckon, if it's all the same to you. Your friend—I might say, your very valuable friend—takes the matter too much to heart."

"He's not a talkative man."

Fitzgerald looked straight ahead, stern and impassive.

"But now that we are talking," said Maurice, "I should like to know how the deuce you got hold of my name and dragged me into this affair?"

"Simple enough. A card of yours was given to me; on it was your name and address. The rest was easy."

Maurice grew limp in the saddle.

"By George! I had forgotten! The woman is at the bottom of it."

"Quite likely. I thought you'd come to that conclusion. Sometimes when we play with foxes they lead us into bear traps. Young man, witness these gray hairs; never speak to strange women, especially when they wear veils."

Fitzgerald was not attending to the conversation.

"And who is this woman?" asked Maurice.

"Mademoiselle of the Veil, according to your picturesque imagination; to me she is the intimate friend and adviser of her Highness Stephonia." He wheeled to the troopers with a laugh: "Hoch, you beggars, hoch!"

Maurice indulged in some uncomplimentary remarks, among which was: "I'm an ass!"

"Every man improves on making that discovery; the Darwinian theory is wrong."

After a pause Maurice said: "How did you get on the ground so quickly?"

The Transvaal Disappointed.

(Special to the Montreal Star.)

LONDON, Oct. 27.—The postponement of the Transvaal Loan Bill has been received with considerable consternation, says the Johannesburg correspondent of the Times. However, the best has to be made of the bad business. The people have been waiting in the hope that extraneous circumstances would give them the first start on the road of progress. They must now make up their minds to look only to themselves to make the country go ahead steadily.

Cheap Trips to Quebec.

Commencing Monday, October 13th, the R. and O. Navigation Company will include stateroom berths, free of charge, with first-class passage tickets between Montreal and Quebec. Fare to Quebec, $3. return $5. Saturday to Monday excursions, $3 round trip. Steamers "Canada" and "Quebec," steam heated throughout, running daily except Sundays. From Montreal at 7 p.m.

A BIG SAW-OFF.

On Saturday twelve Ontario election petitions were dismissed.

By a remarkable, but not unusual coincidence, six were against Liberals and six against Conservatives.

Honours are easy.

So are dishonours.

A majority of one is a ticklish thing for either side to interfere with.

The dismissal of this batch of petitions will seriously reduce the dimensions of that tremendous fight in the courts that we were promised.

It will prevent many interesting disclosures about machine work in the Ontario general elections. Incidentally also it will obviate the necessity for much perjury and subornation of perjury.

Nine election trials out of ten are disposed of nowadays without the slightest regard to the public interest. The only interests consulted are those of the members elect, who are only too glad to make their seats safe; and those of the political parties who go upon the principle that two blacks make a white.

What is wanted is some organization without party affiliations to prosecute election trials on their merits. Unfortunately to ask for such an organization is like crying for the moon.

EXTENSIVE REFLECTION ON A GRATE FIRE.

A good young woman of Montreal was yesterday rescued from trouble in these circumstances: Her husband is seriously ill, to his recovery a steadily warmed room is necessary; the house, a large, old one, with fire-places in the main rooms, is heated by steam; the furnace was out of order; she could not immediately secure a man to repair it; the sick chamber's temperature was falling; she didn't know what to do. The house, once piped for gas, has been wired for electricity, and the gas turned off, so she could not employ a gas heater. At this juncture she had sense enough to call on an Old Timer for advice.

He went into the basement and inspected the furnace. Coke, instead of anthracite, was being consumed. The damage had been done by too much racketing with intent to make the coke burn properly. Immediate repair was impossible. Coke, hardwood and kindling were plenty in the basement.

"Make a fire in the grate," suggested the visitor.

"There is no grate," said she. "All the grates are gone from the fire places."

"Are there any andirons left?"

"What are andirons?" She had either never seen or never understood a fire place burning wood.

He explained andirons, but could find none. "No matter, a couple of these bricks will do." He picked them up, and told her servant to bring some kindling and hardwood to the sick room. There he put the bricks on the bottom of the fire-place, and built wood up properly on them. Then he lit a match.

"Oh, don't set fire to it," whispered the tearful woman.

"Why not," asked the astonished ancient.

"Won't it fill the room with smoke?" she responded, but now with dubiety.

"No; the draft is first-rate," and he had a fine fire in two minutes.

"Well!" she said, "I hadn't the least idea that a fire-place could be used without a grate."

This anecdote is not related as exciting, but to catch attention for some philosophizing. It was an instance of the way civilization often destroys self-preservative knowledge, and atrophies sense. The good woman had all her life been accustomed either to base burning stoves or steam heat. Bred to depend on such sources of warmth, she could not imagine how to get it from the other appliances at hand. She had lost the adaptability of her grandmother. Probably neither she nor her city bred servants could have supplied themselves with cooked food, had the range gone wrong, and no gas stove been ready. The idea of cooking in one of the fire-places, or on an open fire in the back yard might not have occurred to them readily.

In this and analogous cases one sees something of a main element in the difficulty highly civilized people have in warring against powerful savages, or against first-rate old-timers like the Boers. These men, once supplied with the arms of civilization, are far superior in war, not by mere bravery, not altogether by their art of taking cover, but because they can move without impedimenta, and live with considerable comfort where civilized troops do not know how to supply their necessities. The Roman Empire was gradually beaten to bits by abler bodies, rougher faring, hardier people, after they had acquired good weapons, tactics, and strategy from the Roman example.

Rome, all Italy, much of Gaul, much of North Africa, nearly all Asia Minor had been civilized to the Roman point when Constantinople was made the Imperial centre. The people had become luxurious, comfortable, unhandy. Their arts helped them somewhat in war, but they could not stand off forever the incursions of the active, unsoftened peoples of North, East, and South, Saxons, Germans, Scythians, Saracens, Turks. These smashed the Empire because they needed comparatively small baggage, could live on little, knew how to forage, and were altogether more adaptable.

No doubt the courage of the Roman peoples had been somewhat sapped by defeat and subjugation as well as by luxury, comfort and vice. But as the city populations when besieged often put up splendid and persistent defence, one may infer that the Empire weltered slowly down, not so much for lack of men willing to fight, as for lack of men who knew how to get to and around in the savage regions where the fighting should have been done, i.e., wholly on the frontier. When in or near their cities and supplied by the customary agencies of their civilization, they were able to fight, and did it valorously.

Modern or Western civilization appears safe from naked men, men clad in skins, men of the Oriental civilizations. The remaining barbarians are too few to be dangerous, and the Orientals are, on the whole, degenerate races. But the most luxurious, richest, most civilized nations—the leaders in art, science and literature—those who think themselves most highly organized for purposes of business and comfort, may be far less safe than they imagine. The last generation saw France broken and over-run with wonderful ease by the Germans, a people not only organized efficiently for war, but then possessing en masse the virtues and adaptability of comparative poverty, with its automatically enforced training in frugality, adaptability, and the mobility that pertains to the capacity of faring well enough on hard peas, or a little meal. Since then the enriched Germans have probably become softer than they were under the old Emperor, who slept on an iron bedstead, and the princes and heroes of statesmanship and war, who were iron themselves. Still that people keep in pretty good training. They appear very efficient in adventure and business. They are still an amalgam of the highest civilization in respect of efficiency, with the hard qualities of the frugally bred. And the future probably belongs to a race, who, being already rich and strong and numerous, shall strip and exercise and sacrifice much of luxury, and something of the enervating features of mere comfort, to the gods of efficiency.

The United States people, hardy and capable as they still are because as yet they retain much of the pioneer and rural quality, tend to degeneration through the ideals of wealth, luxury, comfort. They seek to wrap themselves softly, to make things go "smooth as silk," to run all "on wheels." We Canadians much resemble them in these points. Discipline for discipline's sake used to be a motive in training up the young. It is not so now, or much less so. Pleasure, enjoyment, "a good time," ostentation are much more sought for. Still efficiency in business and in sport is very much cultivated and prized. Mr. Roosevelt, by voice and example, has done something to make efficiency more than ever the American ideal.

It is the usual thing for people from this continent who visit the British Isles to dwell, with good humoured pity, upon their unprogressiveness over there. But it is a little like finding the boot on the other foot to hear a County Councillor from Gloucestershire describe our streets as twice as bad as any others he has ever seen. Now passible and clean city streets are among the first requirements of a progressive community; and, so long as we are hopelessly behind in this respect, we should not feel too funny over the "unprogressiveness" of the Mother Country. About the first duty that the City Council should tackle, after it decides upon a site for that Civic Hospital, is the making of the streets worthy of the city.

Quebec City has the Bridge, and the promise of the promised "fast line," and the Dominion Premiership, and the Provincial Premiership, and the portfolio of Justice, and the Solicitor-Generalship, and a few other odd offices. So, of course, it wants the portfolio of Public works, just to round out its handful. When Quebec sees a thing, it asks for it.

The Nebraska doctors have solemnly declared against the kiss. Nebraska is where "Billy" Bryan comes from—and goes back to each time. Billy believes that a law can make fifty cents worth of silver really worth a dollar; so possibly these Doctor neighbours of his, believe that a resolution of a medical council can limit the free coinage of kisses.

Now that the coal operators are getting some coal to sell, they raise the price. They kept it down heroically enough so long as they were able to say to all applicants—"Yes, coal is still at the old figure in spite of the strike, but, unfortunately, we have not a pound we can let you have." No one will deny a sense of humour to these gentlemen.

The Pope's Physician Ill.

THE PASSING HOUR.

Now diamonds are going up in price. A sympathetic strike, we presume, with their black brothers.

Up in Toronto their police court prisoners read Browning in the dock. It is now up to Boston to make a last stroke for its reputation.

Sidney Fisher still pins his faith to the Doukhobors. He likes farmers who know less about agriculture than he does.

That low temperature machine at McGill is not needed at Ottawa. The Tarte resignation sent the mercury through the bottom of the thermometer in a solid mass; while, down in Quebec, the Mercury sought shelter in Mr. Tarte's pocket.

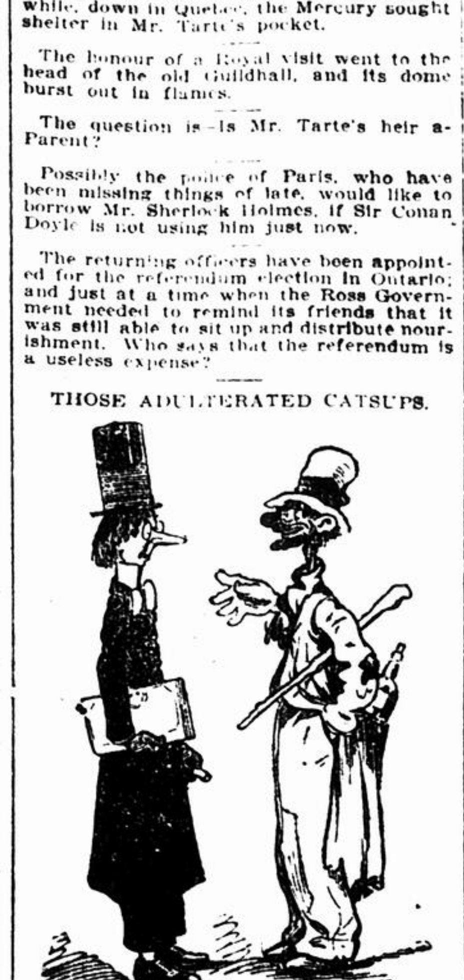
The honour of a Royal visit went to the head of the old Guildhall, and its dome burst out in flames.

The question is—Is Mr. Tarte's heir a-Parent?

Possibly the police of Paris, who have been missing things of late, would like to borrow Mr. Sherlock Holmes, if Sir Conan Doyle is not using him just now.

The returning officers have been appointed for the referendum election in Ontario; and just at a time when the Ross Government needed to remind its friends that it was still able to sit up and distribute nourishment. Who says that the referendum is a useless expense?

THOSE ADULTERATED CATSUPS.



Reverend Sir—That crimsoned nose tells the story of your life.
Rubicund One—Alas, good sir, that is the result of the aniline dyes in the tomato catsup, to which I confess I am partial.

Admiral Dan McGillicudy will never again reach the height of his poem beginning "Hurrah for Tarte, so bright and smart," but he may group every possible successor to the Ministry of Public Works in the following rare cluster of poetic brilliants:

Hurrah for Pref,' who don't get lef';
Hooray for Brodeur, too;
For Sutherland and Dandurand,
Who bang the Tory crew.
—Toronto Telegram.

"So Morterbowl has struck it right at last, has he? I thought he always said there was no money for him in the drug business."
"There wasn't until he got a store located across the street from a football field.

"Were you ever in a tight fix?" asked the Decorative Knot.
"Well," replied the Trousers, "I've often been pressed for money."

Pat—An' so yez shtruck fer shorter hours?
Mike—Yis. We want each wan to consist of for-rty minutes, begorry!

"Do you think son will stand at the head of his class?" asked Mrs. Hayseed.
"Well," answered her husband, "I did have my doubts, but sence seein' him practice with the football team, I reckon he will. Ef Josh starts for the head o' the class he'll get there, or somebody'll get hurt in the scuffle."

"Well, Riggsy, how are you making it? Got a situation yet?"
"Naw! Nuttin' but a job."

"He hasn't got any sense—one of those fellows who is always giving advice."
"Well, that isn't half so bad as always taking it."

Little Bessie—"What's a widower?"
Little Harry—"Why a widower is a widow's husband. I should think anybody ought to know that."

She met him at the kitchen door with a rolling pin in her hand, and she brandished it menacingly.
"Madam——" he began.
"Well, what do you want?" she demanded aggressively. "What are you snoopin' 'round here for?"
"Madam," he explained, backing away, "I called to see if I could place an accident insurance policy on your husband, but, after seeing you, I am satisfied he is too great a risk."

WHEN HE WAS YOUNG.

Our gran'per says when he was young
The boys and girls behaved perlitely,
They knew they had to hold the'r tongue
And go to bed at 7 nightly.
They didn't whoop and stamp and shout
And people didn't need remind e'm
When they came in or else went out
To gently close the door behind 'em.

Our gran'per says in his time boys
To old folks alwus spoke respectful,
They didn't have a mess of toys
To scatter round and treat neglectful.
They et their vituls 'thout a kick
An' thought they wus in luck to get 'em;
They didn't mind the'r bread cut thick,
And as for crusts, they always et 'em.

Our gran'per says boys wiped the'r feet
When he was young, and tied their laces,
And kept theyselves all clean and neat
And washed the'r necks as well as faces.
They never snuck away to fish
Or swim, unless the'r parents let 'em,
Because no decent boy would wish—
Who had good folks—to plague or fret 'em.

Our gran'per says a lot o' things
About them kids when he was youthful,
I guess they got to sprouting wings
And flew away—if he is truthful.
The ones here now ain't built that way,
I know it's long afore I'm flying,
Or any others round here—say!
Don't you believe our gran'pers' lying?

AT THE DAIRY LUNCH.

"Draw you hither, gentle maid,
I would whisper in your ear.
Let reserve aside be laid,
Listen, listen close, my dear.
Bid the cook
In his nook
From his choicest flour prepare
All for me
One, two, three
Cakes of wheat beyond compare,
Browned, not burned,
Nicely turned,
Crowned with butter newly churned,
Served with best of maple sweets."
But the maid,
Fickle jade,
Shouted only, "Stack o' wheats!"

"Draw you hither, gentle maid,
I implore you hearken well.
Closer yet, be not afraid,
Bend your shelly ear, ma bella,
Bid the cook
In his nook
Brew for me of coffee rare
Such a cup
As to up-
Set my woes and drown my care;
And allied
On the side
Cream on which he stakes his pride,
Cream wherein no germs abide."
Ah, the maid,
Fickle jade!
Scornfully, "Draw one!" she cried.

This is the way the London Globe becomes facetious over Canada's Arctic explorer:

Captain Bernier, of Canada, is going to the North Pole in great hopes of locating a seam of coal which he believes extends for 200 miles. "Burnier and burnier," as Alice might have said. One is tempted to quote—"things are seldom what they seam," but who would not rejoice to have another old phrase amended and hear people speak of "carrying coals to the North Pole"? In advance we congratulate the Polar Bernier.

"You want $50 for that old suit?" asked the second-hand dealer; "why, it is full of dust."
"Yes; but it is coal dust," responded the thrifty housewife."

PUBLIC OPINION

As Represented by the Political Papers.

PLEA FOR CHEAP JUSTICE.
(Richmond Guardian.)

Verily we need cheap justice, even more than cheap fuel. But how can we get it under a system where the victim is defenceless? In the most trivial case there is a whole army to get something out of it. It is all the same whether it be a criminal case or a civil. There are two Crown Prosecutors to do one man's work, but both have to be paid; two prothonotaries where one would easily fulfill the duties; often also joint sheriff, then there is the "crier" performing duties that the clerk might do without hurting himself. Then there is the shorthand writer getting almost fabulous fees and the dreaded bailiff. The system is ruinous, and should be overhauled; it is fast becoming intolerable.

KEEP UP THE DUTY.
(Toronto Telegram.)

The fact is that the removal of the duty of fifty cents a ton on anthracite coal did not reduce the price of hard coal to the Canadian consumer.
The theory is that to take the duty off soft coal would be to reduce the price of soft coal by the amount of the duty.
A beautiful theory, but it did not work out in the experiment with the duty on hard coal.
The price of anthracite was not reduced by the removal of the duty. The price to the Canadian consumer remained as it was, and the Pennsylvania producer pocketed the fifty cents a ton duty which had hitherto gone into the Dominion Treasury.
Better keep the duty on soft coal and apply the proceeds towards the deficit incurred by carrying Nova Scotia coal on the Intercolonial Railway. The fear of having to meet Nova Scotia coal on the American market will do more than the removal of the duty to keep down the price of soft coal.

ROSS' FIGHTING SPIRIT.
("Bystander," in Toronto Sun.)

It was pretty certain that the Ontario Government, rather than meet the Legislature at once, would choose to fight out the battle for office in the election courts and such by-elections as might ensue. It was not less certain that if they did take that course the election courts and the by-elections, if any followed, would become the scene of a desperate struggle, such as would call all the machinery of intrigue and corruption into play. This anticipation has been signally fulfilled by the incidents of the trial in South Oxford, the riding on the recovery of which the hopes of the Government were specially founded. It is in evidence that a large sum had been expended in the purchase of evidence against the sitting member. The head of the party in power has been praised for the fighting spirit which he has displayed. Were it a matter of fisticuffs, valour would deserve its meed. Unfortunately the "fight" is to be carried on with weapons the employment of which is degrading to the community and utterly subversive of the integrity of elective government.

MR. TARTE AND THE MINISTRY.
(St. John Globe—Lib.)

The reasonable and matter-of-fact person will note that there are two situations in the whole business. One of these is as to the views expressed by Mr. Tarte on the general subject of the tariff, and which certainly surprise many supporters of the Government, although they may be and may always have been Mr. Tarte's views. The other is as to the constitutional right which a Minister may have to declare a policy for the Government while the leader is out of the country and before the Government itself has agreed upon such a policy. The fact that the policy so declared is, as a matter of fact, contrary to the party traditions adds to the awkwardness of that phase of the matter. Probably Mr. Tarte is right in his references to a past when he held such views as he is now expressing. But when he entered the Government of which Sir Wilfrid Laurier is Premier it is a fair presumption that he did so in a spirit which subordinated these views to the general policy upon the tariff which Sir Wilfrid adopted and which was put forward by the Government through its Finance Minister and other members. It is not sufficient for Mr. Tarte, or a Minister of the Crown, to say: "I am now consistent with my past when I was a supporter of Sir John A. Macdonald." Sir John is dead and Mr. Tarte is a Minister in a Government with a different policy than that of Sir John. On the other side we all know that Mr. Tarte is an impulsive, cheerful, mercurial and genial man, and that he would not act wilfully, unjustly or unfairly to his chief or to his party. Therefore we have not regarded his speeches with deep seriousness, but rather as intended to make the manufacturers and high tariff people while away pleasantly the summer hours. It is not to be forgotten, or overlooked, however, that the Conservative party has derived a great deal of satisfaction from some things which Mr. Tarte has said.

REDMOND AND PARNELL FUND

Sister of the Late Leader Asks for an Accounting of Money.

THREE PRISONERS RELEASED

Attitude of Mr. Balfour and Mr. Campbell-Bannerman Towards the Nationalist Party.

LONDON, October 27.—Mrs. Dickinson, sister of the late Charles Stewart Parnell, has published bitter correspondence between herself and John Redmond, chairman of the United Irish League, and of the Irish Parliamentary party, in which she demands an accounting of the funds raised in America to save Avondale, the estate of the late Mr. Parnell, from the hands of outsiders. In reply to her first letter Mr. Redmond wrote to Mrs. Dickinson, saying the objects of the American funds were the erection of a monument to Mr. Parnell in Dublin, and the purchase of Avondale house and lawn which should be available as a residence of the Parnell family. Mr. Redmond's bid was set aside in favour of one from Mr. Boyland, a Dublin butcher, who had made an arrangement with John Parnell, brother of the deceased statesman. "Thus," said Mr. Redmond, "it was impossible to buy the house and the committee proceeded with the object of erecting a Parnell statue."

Mrs. Dickinson wrote again saying that Mr. Boyland now offered to accept the $25,000 collected for the purchase of the estate and would allow the balance to remain on a ten years' mortgage. To this letter Mr. Redmond did not reply.

NOT ON SUFFRANCE.

A proposal being made that the Parnells and Mrs. Dickinson could reside in the park at Avondale, Mrs. Dickinson wrote: "As to the condition that any members of the family should be allowed to reside at Avondale should they desire to do so, that is to say, on suffrance, as either caretakers or gatekeepers, all I can say is that I think the family has suffered enough through the murder of their brother Charles, through pecuniary difficulties and through the loss of their ancestral home for the good of the country, without the insult of Avondale being placed at their service on such terms. It is almost incredible that such an insult should be offered the family in return for the service of their brother and the sacrifice of his property and life."

In a letter to the Irish Times, Mrs. Dickinson demands a full accounting from Mr. Redmond, saying his chance of success in America would be better "if he could show that as regards the funds he collected to redeem the ancestral home of his former leader, he had honestly and independently carried out the plans and applied the moneys to the purposes for which they were subscribed."

RELEASED FROM GAOL.

The release of the three Joyces, who were undergoing life sentences at Maryborough gaol for the murder of a whole family, of a similar name, in 1882, is announced. The crime was well known in those days as the Maamtrasna massacre. Ten persons were convicted. Nine of them were sentenced to death, but the sentences of six were commuted to life imprisonment. The last three of these convicts have now been released, owing to the clemency of the new Lord Lieutenant of Ireland, the Earl of Dudley. The Earl and Countess of Dudley, during their inaugural trip through Galway, were approached by the wives and other relatives of the imprisoned men. The wives begged that they might have a chance to meet their husbands after twenty years' of separation. One of the women seized Lady Dudley's hand and wept bitterly as she begged for her intercession. Lord Dudley was much affected and promised to do all he could. The pardon of the three men followed.

The chief constable of Birmingham has issued a warning to all arm and ammunition manufacturers not to sell goods for shipment to the proclaimed districts of Ireland. A special order also has been issued that even to such parts of Ireland as are not proclaimed, shipments of arms must be clearly marked as such, under pain of stringent penalties.

LEADERS NOT BLAMEABLE.

NEW YORK, October 27.—The London correspondent of the Herald, says: "Although the Prime Minister would have acted more sensibly in giving the Irish Nationalists a day for discussing the administration of the criminal law in Ireland, the leader of the Liberal party is also responsible for the unfortunate deadlock which has ensued. Without violating or even straining the rules of the House, the Irish members can, by a series of adjustments, easily consume more parliamentary time than the single sitting for which they asked. Nevertheless, it must, in fairness, be admitted that Mr. Balfour strictly conformed to precedent and the practice of the constitution.

No Government is by practice or precedent bound, though every Government is, of course, entitled to surrender any portion of its own time for the criticism of its own conduct, unless notice be given of a vote of censure, with the approval or concurrence of the front bench opposite. It is quite true that the Nationalists are a separate party, with their own leader, their own whips, and their own policy, but the staunchest Home Rulers cannot reasonably expect a Unionist minister to act as if home rule had been carried and formally recognized the principle of nationalities in the House of Commons.

WHAT MIGHT HAVE BEEN.

Sir Henry Campbell-Bannerman thinks Mr. Balfour should comply with the Irish demand without reference to him. Mr. Balfour thinks otherwise. He is master of the situation, but Sir Henry might have obtained control of it by plain, simple means. He could have proposed a vote of censure himself or asked one of his followers to move it, or intimated that he would support the motion of Mr. William O'Brien.

Mr. O'Brien's motion is substantially, though not precisely, similar to one made by Mr. Morley in 1888, for which Mr. Gladstone and the whole Opposition voted, including Sir Henry Campbell-Bannerman, Mr. Asquith, Sir Henry Fowler and Sir Edward Gray. It condemns what is popularly called coercion—that is to say, the trial of political offenders without a jury, and the suspension of the ordinary law in specified districts of Ireland. The Crimes Act of 1887, which Mr. Wyndham has revived, was opposed by the entire Liberal party of that day, acting in close alliance with the Nationalists.

FOUGHT EVERY CLAUSE.

They fought it clause by clause, line by line, until the Government adopted for the first time the system of closure by compartments, nicknamed the "gag." They did so not merely because it was a permanent instead of a temporary bill, but because they had finally abandoned in 1886 the policy of coercion altogether. If, they said, England could not govern Ireland by the ordinary law, Ireland must govern herself.

The Unionists denied there was any such necessary alternative, but the very next year they had to admit their error.

Mr. Wyndham is doing in Ereland now precisely what Mr. Balfour did in 1887, 1888 and 1889. It is true that since 1895, the British Liberals and Irish Nationalists have ceased to act together—that is a question of tactics, not of principle. It was due to the Irish themselves. No Liberal, not even Lord Rosebery, has recanted his opinion that the Crimes Act of 1887 and its administration "undermine respect for the law, estrange the minds of the people of Ireland, and are deeply injurious to the interests of the United Kingdom."

These words are taken from Mr. Morley's motion. They are as true now as they were fourteen years ago.

It is difficult to suppose Sir Henry Campbell-Bannerman has changed his views or to understand why he does not act upon them.

Well Made.

Pure flour and pure yeast do not necessarily mean good bread. It may be spoiled in the making. Just so: material is not everything. Prof. W. Hodgson Ellis, Official Analyst to the Dominion Government, after a number of analyses, reports that "Sunlight Soap is a pure and well-made soap." "Well made" means more than you think. Try Sunlight Soap—Octagon Bar—next wash day, and you will enjoy the benefits of a "well-made" soap, and will see that Prof. Ellis is right. No one should know better than he. 214

KING EDWARD REVIEWS RETURNED GUARDSMEN.

The Spectacle Attracted a Large Crowd—The Troops Thanked by Lord Roberts.

LONDON, October 27.—King Edward reviewed nearly 4,000 guardsmen, who have recently returned from South Africa to-day. The spectacle attracted a large crowd to the Horse Guards' Parade. His Majesty, wearing the uniform of Colonel in Chief of the Guards, and accompanied by the Prince of Wales, the Duke of Connaught, Lord Roberts and a gorgeous staff rode through the ranks and then, addressing the troops, welcomed them home. He praised the work which they had done in the field, saying:

"You have upheld the great name which has made everybody who served in the Guards a proud man. I myself feel proud to have as a young man served in your ranks, though I regret I never had the opportunity, like my brother, of seeing active service. A finer body of men it is impossible to wish to see. It is a proud day for me to have inspected the Guards' Brigade."

In spite of their arduous duties in South Africa, the King remarked, the men had not forgotten their drill, and the march past to-day was as well done, if not better carried out, than ever before.

The Queen and other ladies of the royal family drove past in carriages.

At the conclusion of the ceremony the troops gave hearty cheers for the King, waving their muskets bayonet high.

PROBABLE NEW IRISH UNDER SECRETARY.

It is Stated in London That Sir A. P. MacDonnell Will be Appointed.

LONDON, October 27.—In its issue this morning the Daily News says it hears that Chief Secretary for Ireland Wyndham has appointed Sir Anthony Patrick MacDonnel to the post of permanent under secretary for Ireland, in succession to Sir David Harrel, who retires on account of having reached the age limit.

Sir Anthony Patrick Macdonnell, G.C.S.I., has had a distinguished and brilliant career. Born in 1844, he was educated at Queen's College, Galway, and entered the Bengal Civil Service in 1864. He has been secretary to the Government of Bengal, and to the Legislative Council, and also for the Home Department of the Government of India. He was officiating Chief Commissioner in Burmah in 1899; Chief Commissioner of the Central Provinces, 1891 to 1895; Lieut.-Governor at North-West Provinces and Oudh, from 1895 to 1901. During his last term of office he was created G.C.S.I.

KINGSTON, Ont., October 27.—A fatal accident occurred at Rockport on Sunday, William Card being the victim. He, in company with Henry Elliott were out sailing on the river and their boat capsized and both men were thrown into the water, where they remained for about twenty minutes before their cries were heard. When discovered two launches went to their rescue but just as they arrived near the scene of the accident, Card, who was no longer able to cling to the capsized boat sank and was not seen after. The body lies in about 80 feet of water, both were residents of Alexandria Bay. Card was 40 years of age and leaves a wife.

Lasker Nearly Beaten.

NEW YORK, October 27.—Lasker, the world's champion chess player, narrowly escaped being beaten by the local expert, Lipschuetz, last night, in a match game at the Manhattan Chess Club. Lipschuetz started the game with a Vienna opening, and had a chance of administering a mate in five moves, beginning with his twenty-sixth move. But he allowed Lasker to escape, for he did not see the mate. The game was finally adjourned at an early hour this morning, to be resumed on Wednesday.

Paper Makers Won't Strike.

OTTAWA, Ont., October 27.—There will be no strike of the E. B. Eddy papermakers. The time named in the ultimatum for shorter hours expired on Saturday, and the company made a written agreement to grant the request to go into effect on the first Saturday in 1903. The agreement provides for the abolishing of Sunday labour. The men will quit work at six o'clock Saturday night and the mills will be idle until seven o'clock Monday morning. It means thirteen hours a week less labour without reduced pay.

A "Toddy" made with Sir John Power & Son's famous "Three Swallows Brand" Irish Whisky is simply incomparable.

THE COST OF LIVING HIGH AT JOHANNESBURG.

The Correspondent of the London Times Says Present Prices Have a Bad Effect.

(Special to the Montreal Star.)

LONDON, October 27.—The Times' Johannesburg correspondent says the present inordinate cost of living is exercising a paralyzing effect at Johannesburg. The only panacea is supposed to lie in a reduction of railway rates. However, in the absence of the Transvaal loan, it is difficult to see how the Government will be able to reduce rates, at least to the extent that is needed. Money must be forthcoming from some source during the next half of the year. The correspondent declares there will be no satisfactory reduction in current prices until competition is keener. When this is the case the system of plunder practiced by housekeepers on others under the pretence of high customs and railway rates will inevitably receive its death blow.

THE QUEBEC HARBOUR.

Report That Improvements Won't be Made at Present.

(Special to the Montreal Star.)

OTTAWA, October 27. — It is said that as a result of Mr. Tarte's retirement from the Government, the administration has decided not to go on with the Quebec harbour improvements for the present. Half a dozen tenders are now in for this work, and it had been expected that one of the first actions of the Cabinet would have been to award the contract. The improvements are to cost $900,000, and the $100,000 voted by Parliament will lapse by June 30 next. Hon. J. I. Tarte is expected to return to the Capital to-morrow.

Guilty of Manslaughter.

MR. BORDEN SPEAKS OF TOUR IN WEST

The Leader Entertained at Luncheon at Junior Conservative Club.

THE POLICY OF THE PARTY

It is in Brief One of Adequate Protection to Canadian Industry—Mr. Monk's Speech.

A luncheon was tendered to Mr. R. L. Borden, M.P., on Saturday, by the Junior Conservative Club of Montreal, on the occasion of his return from a tour of the West. Owing to the somewhat confined quarters occupied by the club, the number of invitations had to be severely restricted, which was a source of disappointment to many who would have liked to attend. The sort of family gathering spent a thoroughly enjoyable afternoon, both the luncheon and the speeches being of excellent quality. About 50 people sat down at the tables which were presided over by Mr. B. Connaughton, president of the club.

Among the club's guests were: R. L. Borden, K.C., M.P.; F. Monk, K.C., M.P.; Geo. Taylor, M.P.; W. B. Northrup, M.P.; Hon. P. A. Landry, Hon. Thomas Chapais, T. Chase Casgrain, M.P., Hon. Alphonse Desjardins, Hon. L. O. Taillon, Hon. L. P. Pelletier, and Hon. Louis Beaubien, Hon. A. W. Atwater.

Letters of regret at inability to attend were received from Messrs. A. F. Gault, Donald Macmaster, K.C.; Senator Owens, Dr. Roddick, M. P., and Hon. E. J. Flynn.

The speakers of the day were Messrs. R. L. Borden, K.C., M.P.; F. D. Monk, K.C., M.P.; W. B. Northrup, M.P.; George Taylor, M.P.; T. Chase Casgrain, M.P.; Hon. L. P. Pelletier, Hon. Thos. Chapais, M.L.C., and J. A. Descarries. Some of the addresses were in English and others in French. Mr. Borden himself at the close of his main address essayed a few sentences in French, to the study of which language he has been devoting considerable time and in which he is on the way to become proficient.

After the usual toast to the King had been duly honoured, the president, Mr. Connaughton, proposed the health of "Our Guest," and, in doing so, declared that Mr. Borden had justified the confidence which the party reposed in him. The toast was honoured with great enthusiasm.

THE LEADER'S SPEECH.

Mr. Borden began his reply by expressing the pleasure he felt at being present. The responsibilities and duties of political life were very great, especially for a man in his position, but meetings such as this, might fairly be counted among its compensations, Mr. Borden's remarks were largely on account of what he had said to the people of the West and the impressions which he had formed while there. "We told them," said he, "that the party which was not afraid to stake its political future on the building of the C. P. R., would have enough confidence in itself to be able to deal in a vigorous and effective manner with the question of transportation as it arises to-day."

His own appointment to the leadership of the party and the reasons which determined him to take the western trip, Mr. Borden then detailed.

In this connection he said: "We hear about the West and read about the West, we understand how great an area it has in square miles and we are told what is being done for its development, but no one can realize how great Canada is in the possession of that vast heritage unless he goes into the country and sees for himself, and even then he will come back convinced how utterly inadequate an idea he can possibly have of the great future that lies in store for us."

Both in British Columbia and the Territories they had found the people willing to listen to the doctrine of protection and alive to the advantages of a home market. He and his colleagues found little or nothing of that strong free trade sentiment which they were told to expect by Liberal organs in the East.

He had told the west that he did not believe in sending Canadian raw material to the United States and then sending Canadian labour after that raw material, and then sending Canadian money to the United States to buy the manufactured product made in that country out of Canadian raw material by Canadian labour. (Applause). He had pointed out that the people of Nova Scotia, for instance, are year by year going to the United States to obtain employment which they cannot find at home.

THE TARTE INCIDENT.

"There is," continued Mr. Borden, "one thing I would like to say with regard to the strong communication addressed by the Premier to a gentleman recently a member of the cabinet. Let me remark, in passing, that I am very glad indeed to know that Sir Wilfrid Laurier has returned to Canada improved in health. I rejoice most heartily in that, because, while we have our political differences across the floor of the House of Commons, I have always received from him very courteous treatment as leader, and I have endeavoured to reciprocate by every means. But in this communication you will no doubt note that there is an entire absence of statement as to what the policy of the Liberal party is at this time. I have been charging during my western tour that the Liberal party has not had since 1896 any policy with regard to fiscal matters, which they had the courage to avow to the people and I made that statement looking at the record of the party, looking at the challenges issued across the floor of the House and having regard to the evasive answers they were always ready to give. My statement in that regard is most emphatically corroborated by the letter of Sir Wilfrid Laurier to Mr. Tarte, because if higher duties should be imposed by the cabinet at the next session, if a higher protective tariff be adopted, that will be entirely consistent with every word of the letter, and if on the other hand the tariff is to be reduced, it may be argued with equal force that every word in the letter is perfectly consistent with that course. (Laughter). Indeed the criticism of Mr. Tarte seems not so much a criticism of him because he had avowed a policy which was not that of the cabinet, but rather because while the cabinet had no policy at all he had the courage to avow one. (Applause). There is perhaps just one other word that I might say in regard to it. I had the pleasure in Montreal, in November last, of being present at a banquet given by the Manufacturers' Association. Sir Wilfrid Laurier spoke at that banquet in response to the toast of 'Canada and the Empire.' I think, and I also had the honour of saying a few words in reply to that toast. Mr. Fielding spoke subsequently, and also Mr. Tarte. The speech of Sir Wilfrid Laurier was non-committal so far as tariff matters were concerned. Mr. Fielding's remarks were of a like character. Mr. Tarte's speech, on the other hand, was one of the strongest protectionist speeches I ever listened to in my life. I ask everyone whether or not there was a single word Mr. Tarte has uttered during these past three months which was stronger than the language he used on that occasion with regard to the fiscal policy. It naturally occurs to one, if he has been dismissed on account of his views during the past three months, why was he not dismissed in November 1901. The only criticism we have to make with regard to the dismissal and the reasons given, is that the dismissal seems to have occurred about one year later than the proper time."

After giving some explanation of the condition of political affairs in the Maritime Provinces, Mr. Borden resumed his seat. When he closed the cheering which had greeted his rising and had marked the salient points of his address broke out afresh and lasted for several minutes before the chairman was given an opportunity to call upon the next speaker.

MR. F. D. MONK'S SPEECH.

Mr. F. D. Monk was the next speaker. He said that if he read the signs of the times aright the present political complexion of affairs would be modified soon. The Conservatives were the trustees of the policy of the men who developed Canada's resources and must courageously endeavour to carry it out to its legitimate conclusion. The work of the Fathers of Confederation was a preliminary work. After uniting the country geographically, they set to work to build up a united people by means of a National Policy.

The prospects of the party seemed brighter than they had been during the last

THE BORDEN LUNCHEON.—The leader of the Conservative party emphasizes the necessity for adequate protection to Canadian industries.

15 or 18 months, as was shown by recent by-elections in the province. The sentiment of the French-Canadian people was not to turn their eyes to the south, but to develop a great nation here on the north, a rival of the great republic.

WASTE OF OUR FORESTS.

Hon. L. P. Pelletier called the attention of the business men of Montreal to a state of affairs that was threatening to sap the resources of the province. Some years ago a duty of $1.90 had been imposed on pulp wood shipped to the United States. The Prime Minister, now at Quebec, had had that duty removed, and now each year, to cover the deficit of the ordinary operations of the year, sold immense tracts of timber limits. Mr. Parent had assured the buyers of these limits that no duty would be imposed for ten years to come. The result was that these buyers were despoiling the forests of the province, and instead of taking only full grown trees, were cutting those of two, three, and four inches diameter, and shipping them away to the States to be manufactured into pulp there. Unless the business men of the country called a halt soon, they would wake up to find the province stripped of its forest riches.

Brief remarks were also made by Messrs. N. B. Northrup, M.P., George Taylor, M.P., T. Chase Casgrain, M.P. Then, after short addresses in French by Hon. Thomas Chapais, M.L.C., and J. A. DesCarries, Mayor of Lachine, Mr. Borden proposed the health of the chairman, and a most entertaining afternoon was brought to a close.

MR. E. F. CLARKE TELLS OF WESTERN TOUR

(Special to the Montreal Star.)

TORONTO, October 27. — E. F. Clarke, M.P., has arrived back in Toronto from his trip across the continent with R. L. Borden, leader of the Dominion Conservative party. He was accompanied by Richard Blain, M.P. for Peel, and David Henderson, M.P. for Halton. Mr. Clarke says the trip proved to be an eminently successful one. Mr. Borden was everywhere received with marked enthusiasm, and the West showed itself a unit in support of the Conservative lead-

SKATING RINK BURNED AT BUCKINGHAM.

(Special to the Montreal Star.)

BUCKINGHAM, Que., October 27.—The Crystal Rink was destroyed by fire last night. About seven o'clock the building was noticed on fire and although the fire brigade worked hard, owing to the strong wind nothing could be done to save it. The building was erected 14 years ago and has been used for balls, concerts and theatricals. It was valued at about $15,000 and owned by a stock company. It is not likely to be rebuilt as for the last years it has not been paying. The origin of the fire is unknown. There was no insurance.

IRISH PILGRIMS IN ROME.

The Pope Meets Four Hundred of Them.

ROME, October 27.—The Pope granted a cordial half hour audience to Archbishop Riordan, of San Francisco, Saturday. The Pope remarked that the principle which The Hague tribunal had adopted in the Pious Fund case would simplify the solution of similar questions of "pious funds" existing in the Philippines.

Immediately after the private audience Archbishop Riordan joined four hundred Irish pilgrims, headed by the Bishop of Eastern Cape Colony, by Father Murphy, rector of the Irish College at Rome; Garrett McEnerney, counsel for Archbishop Riordan, and Father Ramm, the Archbishop's secretary. The pilgrims were presented to the Pope by Cardinal Moran. The Pontiff appeared in his sedan chair, surrounded by the Papal Court, and was enthusiastically received by those present, each of whom kissed his hand. The company included representatives of the Irish municipalities and among the addresses was one from the Irish parliamentary party. The Papal benediction was received with cheers and cries of "Long live the Pope-King," "Long Live Ireland,"

KISSING MUST STOP, SAY SOLEMN M. D.'S.

Led by Dr. E. G. Linn, They Denounce the Practice as Unsanitary and Unsafe.

LINCOLN, Neb., October 25. — With analytical arguments adapted to an audience skilled in materia medica Dr. E. G. Linn landed hard on the kiss at the convention of the Missouri Valley Homeopathic Association.

He pounded the fervent token of affection between sweethearts as well as the private home variety of kisses until the members were apparently convinced of the awful horrors which he said were concealed in the kiss. The association was prepared to go on record as adopting the handshake as the hygienic salutation par excellence.

One dissenting M. D. who had been reading Browning approached Dr. Linn and quoted: "Thy lips which spake wrong counsel, I kiss close," but the anti-kiss crusader wouldn't hear of it. He was opposed to kissing first, last and always.

Dr. Linn didn't describe the kiss as "one long, lingering ecstasy of bliss." He called it "an osculatory exercise which promoted the material happiness of microbes."

The promiscuous public smack got a terrible jolt from his scientific battery.

Dr. Linn succeeded in securing the adoption of a resolution declaring kissing unsanitary.

OTTAWA LOST

The Metropolitan Golfers Defeated the Visitors From the Capital City by a Very Large Score.

On the links of the Metropolitan Golf Club, on Saturday, a team representing that organization defeated a team representing the Ottawa Golf Club, by a score of 59 holes up. The match was an altogether one-sided affair, as ill-luck seemed to follow the visitors from the commencement of the game. This was probably due in a measure to their unfamiliarity with the links. Metropolitan had a strong team out, and to this fact is due their excellent score. With the exception of Mr. Hodgson, who went down before the steady play of Col. Irwin, all the home team were up and playing a strong game.

The match was the first to be played this year between these clubs on the Metropolitan links. In May last the local club went to Ottawa, where it was defeated by a score of 58 holes up. Metropolitan, therefore, comes out of the two matches with one hole up—rather a small margin.

Captain Finnie, of the Ottawa team, was unable to participate in the match, owing to his having broken a bone in the right leg by slipping on a wet sidewalk on Friday last. Much regret was expressed at his absence. The following is Saturday's score, and list of players:

SEVERE ERUPTION IN GAUTEMALA.

NEW YORK, October 27.—Since Saturday morning, the volcano of Santa Maria, in the department of Quezaltenango, northwestern part of Guatemala, has been in eruption, cables the Herald correspondent at Managua, Nicaragua. The eruption is attended with a terrifying roar, and shocks are felt all over Nicaragua, Salvador and Costa Rica. No damage has been done here, but there is great alarm.

Car Shortage Across Line.

NEW YORK, October 27.—Railway officials declare that the indications of a serious car shortage throughout the country are becoming more and more pronounced, and the outlook is causing no little apprehension, says the Journal of Commerce. The movement of general freight, both east and west bound, is reported to be unusually heavy. Under normal conditions the principal lines would find their facilities heavily taxed. The termination of the coal strike, however, and the resumption of mining has resulted in an abnormal demand for cars of all kinds suitable to carry coal by the anthracite roads, and the heavy coal shipments are expected to severely tax the hauling power of these lines.

Evidently a Bad Man.

LONDON, October 27.—George Chapman, who came from America in 1893 and who is now the landlord of a Southwark saloon, was arraigned at a police court to-day charged with poisoning a young woman who had lived with him as his wife. It developed that this was the third woman who had died within five years in houses owned by the prisoner.

The Uniform and the Stage.

HALIFAX, N.S., October 27.—An amateur theatrical performance, which took place here Friday night in aid of the funds of Princess Christian's Soldiers' and Sailors' Benefit Society, of London, came within an ace of being called off. A principal part of the entertainment was a comedy written by Capt. Campbell Todd, of the Imperial Army Pay Department, Halifax. Most of the characters were officers, and they were to wear the British mess uniform. General Sir Charles Parsons, commanding the forces, however, objected to allowing the officers to wear the British uniform on the stage. On its being represented that the play could not be produced if use of the uniforms were not permitted, General Parsons agreed to compromise, under which the officers in the cast wore only a part of the uniform.

Killed While Coupling Cars.

(Special to the Montreal Star.)

QUEBEC, October 27.—A Lake St. John Railway train on Saturday brought to town the dead and mangled body of Arthur Drolet, a brakeman from St. Charles de Bellechasse, who was killed by the cars while engaged in coupling them at River a Pierre Junction.

PRAISE FOR MR. CLERGUE.—Mr. C. S. O. Boudreault, of Ottawa, a well known labour man, has just returned from Sault Ste. Marie, where he has been studying the industrial situation in New Ontario. Mr. Boudreault was greatly impressed with the favourable conditions of labour at the Soo, and speaks in the highest terms of praise of Mr. Clergue, who is the head of various big enterprises employing in the neighbourhood of 5,000 men. Mr. Boudreault says that labourers receive as high as $2.50 a day, and even at this price they are not available at the present time, but as a general rule labourers receive from $1.75 to $2.25 a day. In other trades good wages also prevail.

Big Celebration at the "Soo"

The Mammoth Power Canal Handed Over, to the Clergue Company on Saturday — The Festivities Lasted for Three Days.

(Special to the Montreal Star.)

SAULT STE. MARIE, Ont., October 27.—Shortly after noon on Saturday Mr. F. H. Clergue, for Michigan Lake Superior Power Co., formally received from the contractors the world's greatest water power. Miss Helen Clergue, sister of Mr. Clergue, moved a miniature handle setting in motion the turbines of the great power house, that being its formal opening. Contracts for the canal and power house were signed October 25, 1898, just four years previous.

The opening of the power canal was made the occasion of a celebration in its way probably never equalled on the continent. The festivities began on Thursday evening with a reception by officers of the power company to visiting guests, and closed Sunday with a thanksgiving service in the big power house. Some idea of the magnitude of the celebration can be formed from the fact that the company expended in the neighbourhood of $30,000. There were present a large number of capitalists, politicians, journalists and others from American and Canadian cities, including Chicago, Buffalo, New York, Philadelphia, Montreal and Toronto, as guests of the company during the jubilee.

On Friday 2,000 children marched in line and at noon ate lunch from a half mile of tables spread in the power house. In the evening a grand ball, the greatest social event in the history of the city, was held in the armoury.

SATURDAY'S CELEBRATION.

On Saturday, while business was entirely suspended in the American and Canadian Soos, nearly all of the twin cities' population of 20,000 joined in a great celebration in the Michigan Soo. In the morning there was a civic parade a mile in length and in which 3,000 employes of the allied companies of the Canadian Soo marched. There was also a naval parade, in which all the boats on the river took part. They were gaily decorated; the noise of the whistles was deafening. At noon all who would eat were fed at the power house. The great industrial parade in the afternoon was a revelation to those who have not seen the industries become established here. Representations that cost thousands of dollars were in line. Every branch of the great industries was represented and the Clergue company's part of the parade was half a mile long. The ceremony by which Mr. Clergue took over the power canal and Miss Clergue moved the switch, formally opening it, took place at noon on a platform in the open field in front of the power house and was witnessed by assembled thousands.

BANQUET SATURDAY NIGHT.

At the banquet at the Armoury on Saturday evening 400 were seated. The toast list included: Opening address, F. H. Clergue; Sault Ste. Marie, Hon. Chase S. Osborne; sister cities, Judge Johnston; Michigan, Ex-Gov. Jno. T. Rich; Canada, Hon. J. Israel Tarte; Philadelphia, T. C. Search.

This great power canal, for which the contract was let in October, 1898, to H. W. Huppell & Co., E. D. Smith & Co., and Mason & Hodge Co., is thirteen thousand feet long and cuts Sault Ste. Marie, Michigan, into two parts.

Over 300 acres of land were reclaimed during the construction, being filled in by excavated material. 3,500 feet of navigation docks were built, 33 miles of rails were laid and operated.

The excavation was carried on with an equipment of eight steam shovels, 24 locomotives, 354 yard dump carts, all work being carried on night and day except Sundays.

The approximate cost of the right of way, canal, power house, equipment, docks and appurtenant works is about $4,000,000. The total amount of power developed at lowest conditions will be about 57,000 horse power.

HON. MR. TARTE LECTURES AMERICANS

The Hon. J. I. Tarte responding to the toast of "Canada," eulogized Mr. Clergue and was glad that as a Minister he had been able to render him assistance. Canadians appreciated what Mr. Clergue was doing in their midst. He had only one fault to find with the great promoter, and that was that he had remained a bachelor. (Laughter.) After alluding in a jocular manner to the fact that his colleagues had thrown him out of the Cabinet for his recent utterances on the tariff question, Mr. Tarte caused a small sensation by asking the Americans if they would mind his giving them a piece of his mind. (Cries of "no, no.") Mr. Tarte said he was going to strike from the shoulder and proceeded at once to do so. He said that the Americans had treated Canada unfairly. Canada had tried to negotiate a tariff that would be fair to both countries, but our neighbours would not be friendly. We are closing up an epoch of apathy and indifference, and before long we may bring you to time by putting up our fence. That, I think, would have a good result. We are not as big as you, but you cannot swallow us in one mouthful.

CANADA WILL PROTECT HERSELF.

National pride is running high in Canada and we are going to protect ourselves, and in doing so we will bring you to time. We have a country full of natural resources. We have iron, gold, lumber, and magnificent fisheries. You want our iron, and gold, and lumber, don't you? You are joint owners with us in the great waterways, but we are sole owners of the St. Lawrence route. Our waterway from Chicago to Liverpool is 500 miles shorter than your route, and I think you will use our waterway when it is completed, although I don't care whether you do or not. There is strong national sentiment on this subject.

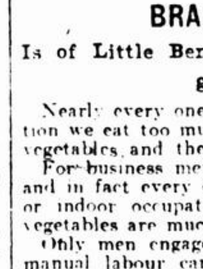
NOVELIST NORRIS VICTIM OF APPENDICITIS.

The Author of That Strenuous Story "The Octopus" Has Passed Away.

SAN FRANCISCO, October 27. — Frank Norris, the novelist, died Saturday, as the result of an operation for appendicitis, performed three days ago.



Norris was born in Chicago in 1870. He received his literature apprenticeship in San Francisco, where he contributed short stories and sketches to the weekly papers. The novel that brought him the greatest fame was "The Octopus," a story of struggle between the wheat growers of California and a railway.

CHRISTIAN SCIENTISTS HELD IN NEW YORK.

WHITE PLAINS, New York, October 27.—John Carroll Lathrop, the young Christian Science healer who prayed over Esther Quimby before she died of diphtheria, told about his methods at the coroner's inquest here. When he had finished his testimony he and John and Georgiana Quimby, the girl's parents, were held for the grand jury charges of manslaughter in the second degree, under section 193 of the Penal Code, which has to do with the culpable neglect in failing to provide proper care and attention to a child. The penalty may be as much as fifteen years' imprisonment, or $1,000 fine, or both. Mrs. Quimby's arrest was only technical, as she and two of her children are sick at home with diphtheria, caught from the child who died. Bail, which was fixed at $2,000 in each case, was accepted by County Judge Platt.

It is the intention of the county authorities to bring the case up at once before the grand jury, which is in session, and try to get indictments. Their zeal is partly inspired by the fact that Lathrop is regarded as one of the leading exponents of the cult, and one of the chief practitioners. He and his mother, Mrs. Laura Lathrop, were instrumental in the organization of the Second Church in New York.

The holding of Lathrop and the child's parents for manslaughter is a new procedure in such cases, as in previous cases it has been on the charge of illegal practice of medicine that indictments have been sought, such an offence being only a misdemeanor.

BRAIN FOOD

Is of Little Benefit Unless it is Digested.

Nearly every one will admit that as a nation we eat too much meat and too little of vegetables and the grains.

For business men, office men and clerks, and in fact every one engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe outdoor manual labour can live on a heavy meat diet and continue in health.

As a general rule, meat once a day is sufficient for all classes of men, women and children, and grains, fruit and vegetables should constitute the bulk of food eaten.

But many of the most nutricious foods are difficult of digestion and it is of no use to advise brain workers to eat largely of grains and vegetables where the digestion is too weak to assimilate them properly.

It is always best to get the best results from our food that some simple and harmless digestive should be taken after meals to assist the relaxed digestive organs, and several years experience have proven Stuart's Dyspepsia Tablets to be a very safe, pleasant and effective digestive and a remedy which may be taken daily with the best results.

Stuart's Dyspepsia Tablets can hardly be called a patent medicine, as they do not act on the bowels nor any particular organ but only on the food eaten. They supply what weak stomachs lack, pepsin diastase and by stimulating the gastric glands increase the natural secretion of hydrochloric acid.

People who make a daily practice of taking one or two of Stuart's Dyspepsia Tablets after each meal are sure to have perfect digestion which means perfect health.

There is no danger of forming an injurious habit as the tablets contain absolutely nothing but natural digestives; cocaine, morphine and similar drugs have no place in a stomach medicine and Stuart's Dyspepsia Tablets are certainly the best known and most popular of all stomach remedies.

Ask your druggist for a fifty cent package of Stuart's Dyspepsia Tablets and after a week's use note the improvement in health, appetite and nervous energy.

LADY HENRY SOMERSET.

Addresses Large Audience in Tremont Temple, Boston.

BOSTON Mass., October 27.—Lady Henry Somerset was greeted by one of the largest audiences which could be accommodated in Tremont Temple yesterday afternoon, at the W.C.T.U. meeting, held to advocate the district option bill for Boston. Lady Somerset and Rev. Henry Sanders, of London, were the speakers. Mrs. Katherine Lente Stevenson presided, and on the platform sat many of the prominent pastors of Boston, Mrs. Mary A. Livermore, Mrs. L. M. E. Stevens, National President of the W.C.T.U., and Miss Anna Adams Gordon, the National vice-president.

Lady Henry Somerset said that twelve years ago, in Tremont Temple, she made her first address in America, and referred to the inspiration she received at that time to carry on the crusade in England. Her address was a plea for patriotism that makes the welfare of the world its own.

In discussing district option for Boston, Lady Henry Somerset advocated putting the responsibility for the presence of saloons upon each community. Rev. Henry Sanders contrasted the matter of temperance reform in this country, and in England, to the disadvantage of the latter, and went on to speak of the suffering and misery caused by the drink evil.

Before the meeting closed resolutions in fafour of district option were adopted by a rising vote of the audience.

The Colonial Secretary Will Visit South Africa

Mr. Chamberlain Will Look Into Conditions There Which Are Described as Grave—King Edward and the People Generally Approve of the Plan.

LONDON, October 27.—It is officially announced that Colonial Secretary Chamberlain has decided personally to visit South Africa and examine on the spot the problems presented by the termination of the war and the settlement of affairs in the new colonies.

King Edward has given his approval of this plan.

Mr. Chamberlain proposes to start for South Africa toward the end of November, and to return the early part of March. His visit will embrace the Cape, Natal, the Orange River Colony, and the Transvaal.

The striking precedent to be established by Colonial Secretary Chamberlain in visiting a colony during his term of office is a subject of universal and approving comment this morning.

The Daily Telegraph thinks that the step will be the precursor of similar visits to Canada, and Australia. Various references are made to the "New diplomacy," and the "New statesmanship," as well as to the political aspects of the absence of the strongest minister at a time when the Government is passing through a critical phase of its existence. There are also some hints that Mr. Chamberlain will be glad to be absent during the awkward discussions arising from the Government's Education bill. On the whole, however, the Colonial Secretary's decision is warmly welcomed as timely and sensible.

The Times says it understands that Mrs. Chamberlain (who was Mary Endicott of Salem, Mass.), will accompany her husband to South Africa, and that his son Austen (who is postmaster-general), will answer colonial office questions in Parliament during his father's absence.

SITUATION IS GRAVE IN SOUTH AFRICA.

NEW YORK, October 27.—The correspondent of the Tribune in London cables: This morning's newspapers, without exception, warmly congratulate Mr. Chamberlain upon his decision to proceed to South Africa. The London Daily Mail says his example will in future be followed by all English Ministers who undertake the art of governing.

The gravity of the situation in South Africa is at last recognized by the Government. Very gloomy accounts of the state of affairs in Cape Colony, Orange River Colony and the Transvaal have been received here from time to time, through private channels, but there has been a tendency to discredit them. The announcement of Mr. Chamberlain's decision to proceed to South Africa to examine on the spot the problems presented by the termination of the war, and the settlement of affairs in the new British colonies has consequently caused the utmost surprise in political circles. It is tolerably certain that if the situation had not been one of extreme gravity, the Colonial Secretary would have left the whole matter absolutely in the hands of Lord Milner.

BITTER FEELING EXISTS.

The feeling between the British and Dutch people in Cape Colony just now is said to be more bitter than it was in the days before the war. The Former Transvaal and Free Staters' colours are worn freely in the Dutch towns of the Cape, and sedition is openly preached. The loyalists are naturally alarmed at this state of things, and Sir Gordon Sprigg is unable to stem the agitation in favour of a suspension of the constitution.

In all probability, however, the situation in Transvaal Colony is causing the Government even greater anxiety, and the Colonial Office announcement must be read in connection with the statement made by the Chancellor of the Exchequer in the House of Commons last week, that there is no intention to introduce a Transvaal loan bill during the present session of Parliament. Evidently Mr. Chamberlain has no intention of making the Transvaal pay more than the colony can bear. Rand magnates have been astonished at the proposed imposition of a tax of 10 per cent. on the gold mines, and they have hinted that they will not use their resources for the development of fresh properties, unless they receive better treatment at the hands of the Imperial Government. At present there is an entire absence of enterprise in the Transvaal, and the Government is warned against the policy of killing the goose which laid the golden eggs.

HE DISREGARDS PRECEDENT.

Ever since Mr. Chamberlain became Colonial Secretary he has been bold enough to disregard precedent, and he has brought about many welcome innovations in the department of which he is chief. One notable instance which has a slight resemblance to the master stroke of policy now initiated by him was his visit last autumn to Malta, to enquire into the petition of the Maltese against the compulsory adoption of the English language. When he returned to London on that occasion he consulted with his colleagues and soon afterwards came the intimation that the objectionable edict had been withdrawn. It is probably this experience which has prompted the Colonial Secretary to study for himself the present position of affairs not only at the Cape, but in Britain's two new colonies, so as to be able to initiate and carry out that line of imperial policy which he believes will be best suited to the requirements of the whole British South Africa.

KING EDWARD APPROVES.

The King has signified his approval of the proposal.

LORD MILNER SPEAKS.

JOHANNESBURG, October 27.—A banquet and enthusiastic reception in honour of Governor Milner was given here Saturday night. In the course of a speech Lieut.-Governor Towley announced that satisfactory progress was being made in repatriation and land settlement, which he announced, were at present the principal aims of the Government. Governor Milner promised an elective municipal council for Johannesburg next year. He stated that there was no necessity for haste in deciding the question of the war contribution, and he endeavoured to allay the fears in reference to Colonial Secretary Chamberlain's intentions. The representatives of the mining interests present received this part of the Governor's spech in silence. These interests hold that the delay and suspense threaten to strangle the progress of the colony and are disappointed that no definite announcement of the Government's intention was made.

FIGHTING THE MAD MULLAH

Engagement of October 6 Was a Rather Serious Affair.

GOOD STAND BY THE BRITISH

A Maxim Gun Was Lost and Seventy Men Killed—Many Natives Also Killed.

ADEN, Arabia, October 27.—Details of the fighting in Somaliland, October 6, between the British expeditionary force and the followers of the Mad Mullah show that a serious disaster was only averted by the splendid example of the few white officers. As it was, the British force lost a Maxim gun and 70 men killed, while 62 of their enemies dead, were counted close to the firing line.

Shortly after the British expedition left their zareba (fortified camp), for Mudug, October 6, the Mullah's forces were reportel about one mile ahead, and within half an hour, while the British were advancing in single file through a dense jungle, the enemy charged the right flank. But the Mullah's troops were met with such a severe fire that they swung round towards the British centre and left. In the meanwhile the transport got mixed up with the firing line, which was thrown into confusion, and a Maxim was rushed and captured, as were many camels.

Major Phillips was shot while gallantly attempting to rally his men, and Lieutenant Everett was wounded while attending Major Phillips.

The disorder spread to the gun teams, which were driven back. Capt. Angus was killed while serving a gun. Col. Cobbe, with a single sergeant, continued serving a Maxim, and then Col. Swayne (the British commissioner in Somaliland, and commander of the expedition), led a splendid charge, checked the Mullah's hordes and re-captured some of the transports, but he was unable to recover the Maxim.

FORMED A ZAREBA.

The British then formed a zareba and sent out parties to collect the scattered transport.

The enemy later tried to get away with the captured camels, but Col. Swayne took out three companies of troops and after a sharp fight recovered the majority of them, and picked up seventy rifles.

LONDON, October 27.—A despatch to the Daily Mail from Simla, India, reports that Col. Swayne and his forces are continuing their march from Bohotle to Berbera, Somaliland, East Africa, and that they are not pursued.

The correspondent of the Daily Mail, who is with the force under Col. Swayne, says in a communication to his paper, that the Mad Mullah's original idea to hold and fortify Mudug, where he could command the only wells available and compel Colonel Swayne to attack him at enormous disadvantage, was a good one, but was spoiled by an unexpected drought and terrible heat, which dried up the wells and killed the Mullah's live stock and ponies by the thousand.

Finally, the beginning of October, it was reported that the Mullah's forces were scattered and that the Mullah himself had only a few riflemen left with him. It was then that Colonel Swayne decided to advance on the chance that a decisive engagement would result in the Mullah's capture.

For the American League.

The League Convention.

NEW YORK, October 27.—The convention of the National Association of Professional Baseball Leagues adjourned Saturday though the board of arbitration will continue in session for several days. The National Board passed a series of resolutions in which the Memphis Club is formally expelled from the National Association of Professional Baseball Leagues.

The next step in the programme for getting rid of the present Memphis Club will come up at the meeting of the Southern League to be held at Little Rock on October 29.

By a resolution, recommended by the National Board, and adopted by the delegates, the attitude of the new minor league organization in regard to the National and American Leagues is clearly defined. The National Association will decline to confer with the two major leagues until they have patched up their differences and then only upon a basis of equal representation in baseball councils.

Chicago Diamond Robbery.

CHICAGO, October 27.—Diamonds valued at $8,000 are reported to have been stolen from the vaults of the jewellery firm of Wesher and Weinman. There is no clue to the robbers. The store is located in the Masonic Temple, where a watchman is on duty all night, but he saw no trace of the robbers.

Canadian Food Stuffs for London Market

Efforts Will Be Made to Establish Centres in the Metropolis for the Exclusive Handling of Canadian Articles—Proposed Capital Is £550,000.

According to the London papers, the scheme to establish stores and dining rooms in London and other parts of the Kingdom for the sale of Canadian food stuff exclusively has take shape and soon a representative of the proposed corporation will land in Canada with the idea of soliciting capital for the enterprise.

The idea is that everything sold in these stores shall be Canadian, and it is hoped, in this manner, to increase the Dominion's exports to the mother country.

The new scheme to be promoted by a Canadian Food Supply Association. Many prominent men are interested in the project, including the Earl of Aberdeen, Lord Stanmore, Lord Balfour of Burleigh, and Mr. William Turner, the late general manager of the Midland Railway.

The proposed capital of the association is £550,000, of which it is hoped to raise £150,000 among the people of Canada, and for this purpose a representative of the company recently sailed for the Dominion.

BAKE SHOPS WILL BE OPENED.

Upon the success of this gentleman's visit will depend the stores and dining rooms portion of the enterprise. This is not all, however, that is desired, for arrangements will also be made for public exhibitions of Canadian cookery, and bake shops will be opened where Canadian flour will be used exclusively. In addition to all this it is proposed to erect cold storage for perishable goods such as pears, apples, tomatoes, fish, game, poultry, sweetbreads, kidneys, and in fact all articles which require a low temperature.

The Canadian manufacturers and produce shippers have not, so far as known, been communicated with upon the subject. They look at such an enterprise in various lights, and while they state there is much in favour of such a scheme there are still points on the other side which must be considered very carefully. For instance, a desirable butter for the market cannot be shipped to England the year round from Canada. For six months of the year Canada can furnish all the butter necessary, but when late winter and early spring comes, high class new butter is out of the question.

SHIPMENTS OF EGGS.

The same may be said of eggs, for at certain times of the year, say the egg shippers, Canada cannot furnish fresh eggs at a figure sufficiently reasonable for the British market. It would, therefore, be necessary, these gentlemen think, to substitute at certain times in the year, other than Canadian goods, or else a steady custom could not be built up. People would not go to one store a certain portion of the year for their butter and eggs and to another the remainder of the time.

In the majority of other goods, such as smoked meats, cheese, flour, etc., Canada stood ready to supply them the year round.

RUBBER MANUFACTURERS PASS RESOLUTIONS FOR MORE PROTECTION.

The manufacturers of waterproof clothing wish more protection in order to save themselves from the American market.

The Montreal manufacturers, employing some six hundred hands, had a meeting and passed resolution to this effect.

The resolution, which was moved by Mr. E. L. Rosenthal, of the Strathcona Rubber Company, and seconded by Mr. H. Wener, of the Montreal Waterproof Clothing Company, is as follows:

"We, the waterproof clothing manufacturers of Montreal, wish to place ourselves on record as being strongly in favour of adequate protection to Canadian labour in all its branches. We believe the important industry we represent should be duly protected against the slaughtering tactics of the United States manufacturers, and we are equally agreed that the cotton manufacturers from whom we obtain a large supply of our raw material should be adequately protected."

The manufacture of rubber clothing in Montreal was begun in 1889, and has been fairly prosperous. The manufacturers claim that the price of waterproof goods to the consumer had been reduced one-half since they went into business. Their particular grievance at the present is the fact that while the Americans have no regular market in Canada, they at times flood the country with cheap goods, at a price which would about cover the cost of the cloth.

CORONATION MEDALS FOR THE SOLDIERS.

Several of the Coronation medals for local members of the Coronation contingent who went over to England in June and returned to Canada before the crowning of King Edward in August, have reached the city. It is expected that they will be presented to those for whom they are intended in the very near future. In one or two cases special parades will be called when the medals will be formally presented to the men.

Each medal is of bronze, in size about as large as the medal struck to commemorate the Diamond Jubilee of Queen Victoria. On the reverse side are medallions of the King and Queen, enclosed in a wreath of laurel. On the observe side are the words, "Coronation of King Edward and Queen Alexandra, June 26th, 1902." This inscription is surrounded by a wreath of oak leaves. With each medal is a bit of red, white and blue ribbon wherewith to fasten the medal to the tunic.

The receipt of the medals in this city puts an end to the rumour that the members of the first Canadian Coronation contingent would not receive these highly prized souvenirs of an important event in British history.

THE PREMIER WILL NAME NEW MINSTER HERE ON WEDNESDAY

Under present arrangements Sir Wilfrid Laurier will reach Montreal from Arthabaskaville on Wednesday, summon another gathering of his Montreal friends, and then make the announcement of the appointment of Mr. Tarte's successor as Minister of Public Works.

A well known Liberal stated to a Star representative to-day that a man from the Montreal district would assuredly be appointed. This narrows the choice between Senator Dandurand, Speaker Brodeur and Mr. Prefontaine, the ex-mayor.

"The week past," said this Liberal, "has been one of the busiest which has ever fallen to the lot of the Premier. His trip to Quebec was an incessant strain, receiving delegations and listening to recommendations. He will go from here to Ottawa in a couple of days, after making known here his choice of a Minister of Public Works."

SUIT WAS TO RECOVER BEQUEST OF $17,000.

In the action of E. Squires Clarke et al, of Edinburgh, Scotland, as executors of the late Miss Catherine Mackay, of that city, against Hon. Robert Mackay, of Montreal, in his quality as executor to the last will and testament of his uncle, the late Edward Mackay, Mr. Justice Trenholme to-day pronounced the offers made by the defendant good and sufficient. The action was taken to recover the amount of $17,000 which the late Edward Mackay had left by his will to Miss Mackay. As Senator Mackay and his fellow executors had some doubt as to the rights of her executors to obtain this amount they left the question to the courts to settle.

Cuts Must be Returned.

Messrs. Charles M. Pirie and Wm. A. Davidson, of Dundas, Ont., obtained judgment before Mr. Justice Trenholme, ordering Mr. M. C. Foley to return to them fifty-three half tone cuts or pay them the sum of $108. The judgment, however, holds that if the defendant returns most of the cuts, he will not be bound to pay the whole amount of $108, but only the value of those which he does not return.

Special Notice.

An Important Piano Appointment.

The Cable Co., of Chicago, the admitted largest Manufacturers of Pianos in the world, making over 20,000 pianos a year. Musical instruments that are praised by all trade Journals and Musicians, have appointed Messrs. Willis and Co., their Sole Agents. The public are invited to see and hear these beautifully toned pianos at their warerooms, Empire Building, 2470-2472 St. Catherine street.

Your Watch should be cleaned once every fifteen months. Send it to R. Hemsley, Montreal, and it will be done by expert workmen at a moderate cost.

Fifteen new Morris Upright Pianos received into stock at Leach's, 2440 St. Catherine street. Those who propose buying a high class piano should see these instruments.

MARCONI SYSTEM TO BEGIN WORK

Mr. Green Is in Canada to Look After the Details.

ACCOMPLISHMENTS ARE CITED

Not Only Will the Company Do Transoceanic Business, But Also Land Work.

Mr. Willard R. Green, of New York, the representative in America of the English Marconi Company, being here for the purpose of completing the organization of the Marconi Company for Canada, he was to-day seen by a representative of the Star.

In response to enquiry, Mr. Green said: "Yes, I am here to complete the incorporation of the Canadian company to acquire all rights to the Marconi System for Canada. The organization at the present time is preliminary to active and commercial operations in Canada. We have been for some time preparing for commercial business, and we are now expecting to carry out these plans at a very early date."

Asked as to the nature of the business to be done by the Canadian company, he said: "It will do a trans-Atlantic business with England and other countries, and also an inland telegraph business throughout the Dominion, Newfoundland and Nova Scotia. The long distance station at Cape Breton is now practically finished and ready. This station has been constructed at a cost of approximately $100,000.00, and the Canadian Government contributed a large sum to its cost. This station will belong to the Canadian company, and will be used for long distance business and oceanic business. Other inland stations will be built for inland business. These cost much less, depending upon distance of operation, and varying from one thousand dollars to twenty-five thousand dollars each."

"Is long distance communication practical?"

"Yes. This has been done for distances of over 2000 miles of ocean, and over distances of from 1100 to 1600 miles of mixed land and water routes. There is no reason to think this communication could not have been further, but these were the farthest apart of the properly equipped stations at the time."

"Has overland transmission been demonstrated?"

"Yes. Within the past few months, messages have been sent from stations on the west coast of England to various points in Denmark, Germany and Russia. During the festivities at the time of the visit of the King of Italy to the Czar, communications were sent from England to St. Petersburg, and courtesies exchanged. These messages, as will be seen, were sent across the widest portion of the South of England, across Denmark and Sweden and the intervening bodies of water. This was over a route supposed to present exceptional difficulties, if there are any, since it was not only across large bodies of land, over various great cities, including London, where powerful electric currents are constantly being generated and liberated, and also including various ranges of mountains and hills. This theoretically is the most difficult task conceivable. Messages have also been sent between England and Mediterranean points, including a point near Rome. This, of course, was done at one jump across the entire intervening continent of Europe, including the Alps Mountains."

THE FUNERAL OF THE LATE MR. W. PATERSON LARGELY ATTENDED.

The funeral of the late Mr. William Paterson, who died very suddenly on Thursday last, took place at 2.30 o'clock this afternoon from the family residence, 406 Pine avenue, to Mount Royal cemetery. The service at the house was conducted by the Rev. James Fleck, pastor of Knox Presbyterian Church, with which Mr. Paterson was identified for many years. The chief mourners were: Masters Wm. H. and Leslie J. Paterson, sons of deceased; Messrs. John and David Paterson, brothers; Messrs. John Wilson, of Ottawa; Ralph A. Beckett, and Reginald Graves, of this city, brothers-in-law, Mr. Alfred Gourlay, nephew; and the sons of Messrs. Wilson and Graves. Among the deceased's intimate friends present at the funeral were: Messrs. James A. Tuttle, John Bailey, Wm. Cairns, Allan Cameron, Alp. Corner, H. Picken and others. There were no pall bearers.

The funeral procession included members of the Masonic order, among whom were Messrs. J. W. Tressider, I. H. Stearns, W. H. White and Mr. McLaren; the employes of the firm with which deceased was connected, and citizens in general. Every Masonic lodge in the city was represented, and a delegation was also present from Mizpah Lodge, I. O. O. F.

The floral tributes included wreaths from Elgin Lodge, Carnarvon Lodge, Montreal Temple Club, Master Tailors' Association, employes of Greenshields, Sons & Co., Ionic Lodge and Mizpah Lodge; an anchor from Knox Church; a pillow from the family; an anchor from Mr. W. J. White; a cross from Mr. and Mrs. J. Robertson; a star from Westmount Lodge; a wreath from Mr. and Mrs. Walker; a pillow from the Montreal District A. F. & A. M., and an anchor from T. Lapointe.

PREMIER OF FRANCE WILL CARRY OUT LAW AGAINST COMMUNITIES

Mgr. Bruchesi has written the Canons of the diocese stating that during his recent tour through France, he visited the mother houses of all the religious communities situated in the diocese.

In his letter, His Grace goes on to say that what he had seen in France had occasioned him much sadness.

"The political and religious situation was such," he stated, "as to cause the gravest apprehensions. In fact, to show how serious it is, I do not think that I could give any stronger instance than in quoting the answer of Prime Minister Combes to one of the leading Bishops, who waited on him to protest against the manner in which the law of associations was being carried out. 'Your Grace,' Combes made answer to him, 'You defend a good cause, but I declare to you that it is lost already. Any discussion would be useless. I represent a party. I have a programme to carry out and I will carry it out right to the very end.'"

MR. SPEAKER BRODEUR WILL SUCCEED TARTE, SAY PROMINENT LIBERALS

"The Speaker of the House of Commons, Hon. L. P. Brodeur, will be the next Minister of Public Works in succession to the Hon. J. Israel Tarte, and Mr. Raymond Prefontaine, K. C., M. P., will succeed Mr. Brodeur in the Speaker's chair."

This is the opinion of Mr. Sheriff Thibaudeau and it was concurred in by Mr. Rudolph Lemieux, M. P., who returned from Quebec to-day where he was visiting his father-in-law, Sir Louis Jette, the Lieutenant-Governor, who is sick with la grippe.

Senator Thibaudeau's views are in Liberal circles believed to be correct and the announcement is expected to be made by Sir Wilfrid Laurier when he returns to the Capital on Wednesday or Thursday. Mr. Thibaudeau says he knows that Mr. Prefontaine will accept the position and that the incident will be closed to the satisfaction of all parties interested.

ARCHBISHOP BRUCHESI CELEBRATES BIRTHDAY ON WEDNESDAY NEXT.

His Grace Archbishop Bruchesi, who is at present in Rome, will on Wednesday next, October 29, celebrate his forty-eight birthday. The particular feature of the celebration will be that His Grace, who was ordained priest in Rome, will be afforded an opportunity of celebrating mass at the altar at which he celebrated his first mass. A message of congratulation will be sent on behalf of the clergy and faithful of the diocese by the Canons stationed at the Palace.

ACTION BY LIQUIDATOR WAS DISMISSED TO-DAY.

Mr. Justice Trenholme to-day dismissed the action brought by Mr. John Hyde, in his quality as liquidator of the Victoria Montreal Fire Insurance Company, against Mrs. Ephrem Mohr, of Arnprior, Ont. The action was for $931.05 for the calls and interest on twelve shares of the company. Mrs. Mohr pleaded that she had been induced to buy the shares through false and fraudulent representations, that they had not been legally allotted to her, and that no place had been fixed for the payment of the calls. The last plea was maintained.

Claimed $200 Damages.

The action brought by Mr. Antoine Molinari against the town of Maisonneuve was dismissed to-day by Mr. Justice Loranger. The plaintiff claimed $200 for damage done to his property at the corner of Notre Dame street and Pius IX. avenue, by the bursting of a hydrant. The court held, however, that the plaintiff should bring his action against the Montreal Water and Power Company if he has a recourse against anybody.

SPECIAL COUNCIL MEETING AND ITS BUSINESS TO-DAY.

A special meeting of the City Council was held at three p.m. to-day, His Worship the Mayor, in the chair. The order of the day embraces a report from the Road Committee to allow the municipality of Delorimier to connect with the city's sewers. Speaking of the application to-day, Mr. Wm. Robb, city treasurer, said: "It will not be granted until such time as the municipality liquidates its liability to the city for water supplied."

Since 1894, the city, it appears, has been supplying the municipality with water, the total amount now due being $8500. The city sued for this amount but by a judgment of Mr. Justice Tellier, of the Superior Court, the suit was dismissed for lack of proof. At the same time the municipality confessed judgment for $260, claiming that they had not collected from the rate payers and that the city of Montreal had been paid for the water consumed by the manufacturing corporations in the municipality, all of which were furnished by water through the same meter as that which supplied the citizens. Ald. Laporte, chairman of finance, is indignant at the stand taken by the municipality and unless the city's water bill is paid he will use his influence to have the request to be allowed to connect with the city sewerage system disallowed.

Sections 1 of by-law No. 276, and section 1 of by-law No. 274 will be repealed at to-day's meeting.

KNOCKED DOWN HATCH—DEATH WAS ACCIDENTAL.

An inquest was held at the morgue today into the death of Zenon Mainville, the longshoreman who was struck and instantly killed on Saturday night by a package of freight, which was being carried on board of the Donaldson Line steamer Lakonia. The evidence showed that the impact of the blow knocked the man through the open hatchway to the hold, about fifty feet below and when picked up he was so disfigured with blood and bruises that his face was almost beyond recognition.

Mrs. William Mainville, of 373 Beaudry street, mother of the deceased, stated that her son was 23 years of age.

Louis Menthrant, of 19 St. Timothee street, and Adelard Casevin, of 213 Craig street, eye-witnesses of the accident, declared that the deceased acted imprudently, having been warned several times to keep away from the open hatchway. It only took the jury a few moments to decide on a verdict of accidental death.

HAND BADLY MANGLED—NO DAMAGES AWARDED.

In dismissing the action of a young man named Robitaille against J. Crowe & Co., hay dealers, Mr. Justice Trenholme called attention to the difference between the law here and that in France, England, and other countries with regard to accidents in industrial establishments. In those countries the workingman is looked upon as a soldier of industry, and recovers damages for every accident. It is different here, however, where the applicant for damages must show how the accident occurred and wherein lies the fault of the employer. This, young Robitaille, who had the fingers of one hand badly mangled as he was cleaning out a hay cutting machine, has failed to do, and the action was, therefore, dismissed.

The Irish in Education.

Rev. Benjamin F. DeCosta, of New York, who is to lecture at the Monument National on Wednesday evening, on "The Irish in Education, Past, Present and Future," arrived in the city to-day, and is the guest of the Sulpician Fathers, at St. Patrick's Presbytery.

Fined for Keeping Gaming House.

H. B. Cohen was to-day fined $100 for keeping a gaming house on St. Lambert Hill. Eight inmates of the place had to pay $30 each.

DEATHS.

EVANS—At 113 Windsor street, on the 27th inst., Robert Evans, aged 54 years, second son of the late Stuart Evans. Funeral private. 254 2

MARSHALL — At Abbotsford, Que., on Monday, October 27th, William Marshall, aged 82 years. Funeral at Abbotsford on Wednesday afternoon at 1.30 o'clock.

Members Are Ready for the Coal Conference

Preliminary Arrangements Will Be Made at Washington This Afternoon—The Scotch Miners Make a Demand for More Pay.

WASHINGTON, October 27.—With one or two exceptions, the parties to the anthracite coal controversy have arrived in the city to attend the conference with the President's commission, which is to be held this afternoon. It is expected that all will be present when the conference opens. The members of the commission are all here. They are hopeful that they will be able to complete the preliminary arrangements at one sitting. So far as the operators and the miners have expressed themselves, they have indicated a willingness to subordinate their desires in the matter of time and place of hearing to the wishes of the commission. It is the general understanding that practically all the meetings for the taking of testimony will be held in the anthracite regions, and it is believed that the commission will be able to start work during the present week.

Another preliminary question which will require attention is that as to the questions to be taken up by the commission.

Mr. Mitchell, who reached Washington early this morning, accompanied by District President Fahey, will press for a very general enquiry, while it is understood that the operators will seek to restrict the enquiry.

MONTGOMERY, W.Va., October 27.—Every coal operator of the Kanawha mines resumed work this morning in full force. An early resumption in the other districts, where the men are still out on account of local differences, is expected.

COAL AND STOWAWAYS.

NEW YORK, October 27. — The British steamer Madura, which arrived to-day from Glasgow, brought 5,500 tons of Scotch anthracite coal. She also had on board five stowaways.

THE SCOTCH MINERS WANT MORE PAY.

GLASGOW, October 27—The Scotch coal miners have demanded an increase of 12 1-2 per cent. in wages. About 70,000 miners are affected.

THE MOLINEUX TRIAL

Expert on Handwriting Explains to Jury Why Believes Prisoner Wrote the Letters Which He Examined.

NEW YORK, October 27.—The trial of Roland B. Molineux was continued to-day. At the first trial of the case it took eight weeks to get a jury and to examine six witnesses. In the seven and a half days of the present trial, since the jury was obtained, thirty-six witnesses have been called and cross-examined, and the counsel have reached an agreement as to expert testimony in handwriting which, it is expected will materially lessen the technical ordeal to which the jurors and audience were subjected when Molineux first faced the charge in November, 1899.

When court adjourned on Friday, John F. Terrell, the Milwaukee expert, was telling the jury why he believed Molineux wrote all the disputed writings, including the address on the poison package wrapper. Assistant District Attorney Osborne re-called him to the stand as soon as the court opened to-day. He took up his testimony where he left off, when interrupted by the adjournment, and told the jury where he found the "Molineux characteristics" in the disputed writings.

Infringement of a Trade Mark.

In an action in the High Court of Justice for Ontario recently tried before Chancellor Boyd at Toronto, the Slater Shoe Co. and Chas. E. Slater, president, of Montreal, makers of the Slater Shoe, obtained a judgment forever restraining F. C. Wilkinson, a boot and shoe dealer of Owen Sound, from selling boots or shoes not made by the Slater Shoe Co., as "Slater Shoes," "Slater Goods" or "The Slater Shoe." The Chancellor also ordered Wilkinson to pay the costs of the action. It seems Wilkinson was offering for sale, shoes made by a manufacturer in Montreal whose name was somewhat similar to The Slater Shoe Co. This maker gave evidence at the trial and appeared to be looking after the defence for Wilkinson, but the Chancellor, after hearing the evidence decided that no one, except the Slater Shoe Co. had a right to use the name "Slater Shoes," "Slater Goods," "The Slater Shoe" or any similar names in connection with boots and shoes, and that Wilkinson had no right to use any name or names in connection with boots and shoes which might enable him to pass off a shoe not of the company's make, as being of their make, nor in any way to reap the benefit of the reputation which the Slater Shoe has acquired throughout the Dominion of Canada.

Zion Athletic Club.

A largely attended meeting of Jewish young men of this city was held last evening, for the purpose of organizing an athletic association. A committee on by-laws, which had been appointed at a previous meeting, submitted its report, and the laws governing the body were adopted after being discussed seriatim. It was decided by a unanimous vote that the society shall support the Zionist movement, and become a constituent member of the Federation of Canadian Zionist societies, contributing per capita tax towards the Shekel and Federation Funds. It is intended that the rooms of this society shall contain a gymnasium and athletic exercising rooms, and the society shall also support the library and readingroom of the Zionist organization. The following officers were elected: President, S. Kirsch; 1st vice-president, J. Fineberg; 2nd vice-president, S. Silver; treasurer, H. Cohen; secretary, M. Bernstein; committee, I. Tannenbaum, S. Davis, A. Morris, J. Aronson, A. Goldstein and I. Lesser. Mr. C. I. de Sola was elected honorary president. A very large number of members have already been enrolled. The name adopted by the society is "The Zion Athletic Club."

The Mascagni Engagement.

The Grand Opera Company, of over one hundred and sixty people, which Signor Mascagni is bringing to Montreal on Friday and Saturday, travels on a special train, the great composer using a private car. Several sleepers, dining cars, etc., make up the rest of the train. The Canadian Pacific Railway will haul the organization from Buffalo to Boston, making the necessary stops at Toronto and Montreal, for the advertised performances. An Italian reception is being prepared for Mascagni at the Windsor Station, on his arrival, Friday morning, from Toronto. The Board of Directors of the Arena spent several thousand dollars last season in installing a steam-heating plant, on the occasion of the visit of the Maurice Grau Opera Co., consequently the building is thoroughly equipped in the matter of warmth and comfort. Another matter is the innovation which the managemnt has made this season of advancing the stage and proscenium twenty-five feet forward, thus further condensing the auditorium.

Canadian Manager Pro Tem.

The directors of the Ocean and Accident Guarantee Association have appointed Mr. Charles Hoffman Neely manager pro tem, of the whole of the corporation's business throughout Canada and Newfoundland. Mr. Neely succeeds Messrs. Roiland, Lyman and Burnett, who have relinquished their office of general mangers of the Corporation in Canada, and have been appointed general agents for the Province of Quebec. Mr. Neely, who comes from New York, has had considerable experience for some time past in casualty and insurance business, and has been associated with the work of the Ocean Accident and Guarantee Corporation in various parts of the world. Mr. Neely will probably make Montreal his headquarters for the time being at least.

The Late Capt. James B. Powell.

The death occurred, last week, at Whitby, Ont., of Captain James B. Powell, father of Mrs. E. Edmund Starr, of Westmount. The deceased had lived in Whitby for 60 years. He was one of the founders of the Whitby Ladies' College, was chairman for several years of the School Board, was the oldest member of the Quarterly Board of the Methodist Tabernacle, and for 24 years was treasurer of Composite Lodge, A. F. & A. M. He leaves a widow, two sons and three daughters.

THE PRINCE OF WALES

It is Proposed That He Attend the St. Louis Exposition—The Matter Not Settled Yet.

LONDON, October 27.—A report cabled from the United States that the Prince and Princess of Wales would probably visit St. Louis Exposition in 1904 created much interest here. The news occupied a prominent place in all the afternoon newspapers. Surprise was expressed in official circles at the question being publicly discussed at all. At York House, the residence of the Prince and Princess of Wales, a representative of the press was informed that nothing was officially known on the subject. From enquiries in other quarters, however, it was learned that while no official invitation has been extended, the matter has been unofficially presented to the King, who returned a polite non-committal reply. It is pointed out that the question of acceptance or declination must, of course, await the transmittal of an official invitation from the United States Government.

PRINCE DEL DRAGA TOURING CONTINENT, ARRIVES IN THIS CITY

Prince del Draga, who during his visit to Quebec, was mistaken for the Crown Prince of Siam, was at the Place Viger for a while to-day, having arrived in the city in a special car over the Great Northern Railway. The Prince and Count Vizoni are the guests of Mr. H. H. Melville, of Boston, on a trip over the lines of the Great Northern Railway. The party includes H. W. Bates, of Boston; Mr. and Mrs. C. M. Ingersoll, New Haven; Miss L. McAllister, Miss Lawrence, Miss Schenck and Mr. Montgomery Strong, of New York.

RETURNED FROM VISITING COLLEGES AND MISSIONS.

Rev. Telesphore Filiatrault, S.J., superior of the Jesuit Order in Canada, has returned from a visit to the different colleges and missions of the order throughout Western Canada. On the way east from Ste. Boniface College, Father Filiatrault spent some time at Sault Ste. Marie, where he completed arrangements for the erection of the new commercial and classical college, which it was decided to build on the advice of Mr. F. H. Clergue, head of the Clergue syndicate.

TWO FINGERS TAKEN OFF—CLAIMS $900 DAMAGES.

Evariste Dubuc, who had two fingers taken off while at work for the Ingersoll Rock Drill Manufacturing Company, of Canada, to-day obtained permission from Mr. Justice Mathieu to proceed in forma pauperis in an action for $900 against the company.

VERDICT OF THE JURY HAS BEEN MAINTAINED.

The verdict of the jury in the district of Beauharnois, finding Albert V. Drew guilty of perjury, was maintained by the Court of King's Bench in appeal, on Saturday. The judgment given was a most elaborate one. Mr. Justice Wurtele and Mr. Justice Blanchet dissented from the majority of the court, whose judgment was rendered by Mr. Justice Hall.

Mr. D. McAvoy, of Valleyfield, who defended Drew at the trial, did not deny the moral guilt of his client, but argued that the oath having been taken before Mr. Recorder Papineau, of the town of Valleyfield, it did not constitute a perjury in law. Mr. Justice Wurtele held that as the information in the case was laid under a given statute, the Recorder had no right to hear it. The majority of the court held that Mr. Papineau, being a justice of the peace for the district of Beauharnois, had full power to hear a case of trespass, in which Drew gave evidence.

Natural History Society.

The Natural History Society's proceedings are to open this evening with a communication from Rev. Dr. R. Campbell on "Some of the Mushrooms of Montreal, Edible and Poisonous." This is a subject in which very many have a deep interest, and if the paper will make people to determine what mushrooms may be eaten with safety, it will be an important economic problem. This branch of botany has received very little attention in Canada, although in the United States a good deal has been written on it of late years.

New Crop Dates.

The Hills Bros. Co., of New York, wire their agents here, Thos. Montgomery & Son, that the SS. Tabariston, with a full cargo of new crop fruit, arrived in New York on Saturday, the 25th, and that the parcel of 10,000 boxes destined for Canada will have prompt shipment, giving the trade new crop dates by 1st November.

Action Was Dismissed.

The action of Stanislas Filiatrault to have the valuation roll of the village of Coteau Landing, for 1899, set aside, was dismissed to-day by Justice Trenholme.

Copper and Lead Markets.

(Special to the Montreal Star.)

NEW YORK, October 27.—Copper dull; lake, $11.75 to $12; electrolytic and casting, $11.60 to $11.80; standard, $11.00. London steady; lead unchanged; London firmer, £10 15s.

PLEADED NOT GUILTY. — Lawrence Whallen pleaded not guilty to-day to a charge of stealing a purse containing about four dollars from Isaac Ford on Saturday night. Whallen gave Judge Lafontaine an explanation about the matter, but it was thought well to postpone a hearing of the case until Wednesday.

REMANDED FOR ENQUETE — Before Judge Lafontaine to-day Ovide Beaucaire was charged with entering the premises 1477 Notre Dame street on Saturday night, and with stealing therefrom an overcoat. He pleaded not guilty, and was remanded for enquete.

A Toronto despatch says that W. W. Stoddart has issued a writ against his brothers-in-law, Rev. L. W. Hill (Methodist), and Jacob A. Hill, for alleged alienation of his wife's affections. The defendants are brothers of the plaintiff's wife. All the parties live in Toronto.

Boot and Shoe Manufacturers Interested in Rumoured Deal.

SLATER PEOPLE NOT IN IT

President of Company Explains That it Would Not Do His Firm Any Good.

The much-talked-of combination of shoe manufacturers is creating a great deal of interest in the trade, though it appears that at least one of the large Montreal manufacturers has not even been approached in the matter.

Mr. C. E. Slater, president and general manager of the Slater Shoe Company, when asked for information about the big boot and shoe combine, stated that he did not know anything more about it than what he had seen in the newspapers, but understood that there had been a movement in this direction on foot for some time past, but was under the impression that nothing very definite had been accomplished as yet. He was rather doubtful if the interests of the different manufacturers could be brought together satisfactorily.

HAD NOT BEEN APPROACHED.

The Slater Shoe Company, Ltd., had not been approached by the promoters, presumably for the reason that on account of the special system under which their business is conducted, there would be no advantage to them in entering into a combination of the kind.

The Slater Shoe business is different from any other shoe manufacturing business in Canada, and combined with two hundred of the largest retailers in the country is already practically a trust in itself, thus eliminating, through their special system, all the items of expense, which it is the apparent object of the proposed consolidation to accomplish.

As to specializing, this had been done for years past by this company.

Mr. Slater states that his company has, during the past year, received numerous and satisfactory orders from Great Britain, South Africa, New Zealand, British India, Newfoundland, and the West Indies, in all of which countries they were advertising their goods, and naturally anticipate largely increased orders during the coming year. So it is obviously unnecessary for his company to enter any combination looking to increased foreign business.

MRS. ROSS, OF MONTREAL, NAMED AS PRESIDENT.

PORT HOPE, Ont., October 27.—The Women's Methodist Mission Board has concluded its sessions. Officers for the coming year were elcted as follows. Mrs. W. E. Ross, Montreal, president; Mrs. A. Carman, Toronto, first vice-president; recording secretary, Mrs. A. M. Phillips, Toronto; field corresponding secretary, Mrs. E. S. Strachan; home corresponding secretary, Mrs. G. P. McKay, Toronto; treasurer, Miss Marcella Willes, Toronto. The presidents of the various branches are also vice-president by virtue of office. The total applications of the board were $49,437, of which $26,370 was for the work in Japan, $6,765 for China, and $7,166 for India.

IMPROVEMENTS TO THE PORT OF LONDON.

LONDON, October 27. — A special conference, summoned by the Lord Mayor, representing the mercantile, banking and manufacturing interests of the capital, met at the Mansion House to-day to consider the improvement of the facilities of the port of London. On motion of Lord Ashbury, president of the Central Association of Bankers, the conference agreed to appoint a thoroughly representative committee to approach the Government on the subject. The committee includes three representatives of the city corporation, which already had a special committee investigating the same question.

CONSOLIDATION OF MINING PROPERTIES.

DETROIT, Mich., October 27.—A mining consolidation of large proportions has just been effected. The Summit Lake Mining Company, the Peninsular and the Imperial Companies have been amalgamated under the name of the Summit Lake Mining Company, with a capital stock of $5,000,000. The consolidated company owns five hundred acres of land in the Manitou district of Ontario adjoining the Big Master mine, which has become famous. The Little Master mine has already been partially developed by the Summit Lake Company, and it is said a continuation of the Big Master vein has been struck. A. F. MacLaren, M. P., president of the Imperial Cheese Company, Stratford, Ont., is president of the consolidated company.

Toronto Street Railway Troubles.

TORONTO, October 27.—Friction has again risen between the officials of the Street Railway Company and the employes due, the men say, to the overbearing and hostile spirit shown by a few of the subordinate officials ever since the strike in the summer. The latest difficulty has arisen over the suspension of four men, all of whom were prominent during the strike and two of whom are old employes of the company, no reasons for the suspensions being given in some of the cases and those given in the others being, the men say, so meagre as to justify a demand on the part of the men for an investigation. This investigation will be demanded at the hands of the company at as early a date as possible.

A Lawyer Brutally Beaten.

WINDSOR, Ont., October 27.—Mr. J. W. Hanna, one of the most prominent criminal lawyers in Western Ontario, was brutally beaten last night near his home in Windsor. In the fight with his assailants one of his ankles was broken, and when he lay on the ground the two men who had attacked him kicked him in the face. The attack took place about 11 p.m. on Crawford avenue. The motive of the men is supposed to have been robbery, but they secured nothing.

British Columbia Mining News.

GRAND FORKS, B. C., October 27.—During the week ended Saturday the ore output of the mines of the Boundary district amounted to 12,358 tons. Shipments were as follows: Granby mines, 4,560 tons; Snowshoe, 900 tons; Mother Lode, 4,928 tons; Sunset, 620 tons; B. C., 710 tons; Emma, 620 tons.

A Large Pulp Company.

TORONTO, October 27.—Judge J. E. McDougall, F. A. Ritchie, T. P. Coffee, S. C. Smoke and J. J. Warren, all of Toronto, have been incorporated by the Ontario Government as the British-Canadian Pulp Company, Limited, with a share capital of $500,000 and a head office in Toronto.

WALL STREET HAD THAT TIRED FEELING.

London's Lower Range of Prices Caused a Set Back and There Was Short Selling.

NEW YORK, October 27. — Wall Street — Lower prices were reported for American Securities in London, and the local market opened under pressure in sympathy. Saturday's realizing sales were continued in the coalers and leading railroads, but the losses were limited to small fractions. Colorado Fuel was the only feature, and advanced 2 5-8 on a few transactions. Prices steadied momentarily, and there was some recovery, but the movement was hesitating and business was very small on the rebound. Reports of labour dissatisfaction in the West and uncertain local monetary conditions encouraged a bear selling and liquidation of long stock by tired holders. Toward mid-day St. Paul was sold anew and dropped 2 1-4 to 189 3-4, causing a setback all around. Atchison and the Pacific declined to the lowest, but the general selling was not so large as during the early decline. Bonds were easier.

Throughout Great Continent a Mighty Race of People

Chief Justice Parker, of New York, Delivers Eloquent Eulogy on the Character of the North American People—Other Speeches Delivered at Dinner of the Montreal Bar.

The legal profession had its annual celebration on Saturday, when the disciples of Themis foregathered at the Windsor to enjoy the good things which the cuisine and cellar provided, and incidentally to hear some good speeches.

The guest of honour was Chief Justice Alton B. Parker, of the Appeal Court of New York, while the local judges and the deans of the two universities were also invited to grace the occasion by their presence.

Mr. S. Beaudin, K.C., batonnier, presided, and on his right were Chief Justice Parker, and on his left Sir Alexandre Lacoste, chief justice of the Court of King's Bench. At the table of honour were also seated Justices Ouimet, Taschereau, Loranger, Davidson, Hall, Lavergne, Mathieu, Wurtele, Pagnuelo, Doherty, Robidoux, Sir Melbourne Tait, acting chief justice of the Superior Court; Hon. L. P. Brodeur, speaker of the House of Commons; Senator Beique, Hon. Lomer Gouin, Hon. L. O. Taillon, Dean Walton, of the Faculty of Law, McGill University; Mr. A. Globensky, K.C., secretary-general of the Bar of the province of Quebec, and Mr. R. Prefontaine, K.C., M.P.

The room was prettily decorated, and during the discussion of the menu operatic and national airs were discoursed by a string orchestra, and the speech-making was pleasantly interspersed with songs by Messrs. Laramee, L. Jodoin and J. H. Loranger.

DRANK THE KING'S HEALTH.

The toast of the King was received with all due honour, after which Mr. H. J. Elliott, secretary of the Bar, read letters of regret from Lt.-Gov. Jette, who was prevented by sudden indisposition from attending; from Sir Wilfrid Laurier, who regretted a previous engagement; the New York State Bar Association, the Lousiana Bar Association, the American Bar Association, the Minister of Justice, Justices Curran, Langelier, Blanchet, Bosse and Fortin; Mr. G. G. Stewart, batonnier of Quebec; Mr. H. R. Fraser, batonnier of St. Francis, and Mr. N. L. Duplessis, batonnier of Three Rivers.

In proposing the health of the Lieutenant-Governor, the batonnier referred to the rumour that His Honour was to return to the Bench of this district. Such an event would hailed with pleasure by the Bar of Montreal, for during the years that he had been on the Bench before he had been held in high regard by all.

Mr. W. J. White, K. C., ex-batonnier, submitted the toast of Our Guests. So far as the local judges were concerned the Bar had for them the highest respect and delighted at such opportunities to do them honour and express their sentiments. The Bar had on this occasion another guest whom they delighted to honour. The Empire State of the neighbouring republic had sent its chief justice and the Bar of Montreal extended a cordial welcome (Cheers.) The speaker referred to the splendid reception which had been given to the members of the Montreal Bar when they were guests of the New York Bar Association, and rejoiced at the pleasant relations thus established.

If the lawyers of the United States and the lawyers of this Dominion had confidence in each other the day was drawing nearer when all strife and force and battles would be abolished, and all difficulty between nations would be settled by reason and by that science of which those at that gathering were humble followers. (Loud applause).

CHIEF JUSTICE PARKER WAS WARMLY RECEIVED.

Chief Justice Parker, who was warmly received on rising to respond, said that he should be overwhelmed by the courtesy he had received during the day and by the reception accorded him, were it not that he appreciated fully that this generosity was not inspired by himself as an individual, but as a representative of the Bench of the state of New York. (Applause). He came not, however, to initiate a movement looking to more intimate relations between the respective bars, for the credit of that movement was secured by the Montreal Bar when, last January, it sent Mr. Justice Davidson and a delegation of distinguished members of the Bar to the New York banquet. He came rather to express the desire of those on the other side of the line to become part and parcel of that movement. ("Hear, hear"). When they thought of the possible influences for good that might result from more mutual and cordial relations between the respective bars, and how much of good it might serve the two countries, they could not but regret that it was so long delayed, and express the hope that in the future it might serve the two countries as the broadest minded among them would have it. (Applause).

POWER TO SERVE COUNTRIES.

That the members of the Bar had power to serve their countries, and to serve in any cause in which they were interested, no one could doubt who had at all considered the influence which the members of the Bar had in moulding and framing the public mind, and in shaping legislation; and this was so because of the wide knowledge that the lawyer had, coming from the fact that his work covered every field of human endeavour, and also because of the fact that the diversity and magnitude of his undertakings broadened his views. He was able to take a high view of the affairs of men. (Applause).

The members of the bench and bar that he had the honour of then addressing, as well as those from which he came, were alike loyal citizens of their respective countries. ("Hear, hear"). But Canada and the United States had many things in common, in addition to common law. They were neighbours, and within their respective spheres they were co-workers in the development of a great continent that within a brief period of time had made progress beyond compare in history.

MEN OF EVERY RACE AND CLIME.

This continent had invited to its hospitable shores the men of nearly every race and clime, and the invitation had been accepted, the result being a hetrogenous population which had adjusted itself to the laws and customs that had developed upon foundations brought here by our forefathers. This population, in the magic crucible of time, had produced homogenity, and aided by the deep laid and securely built na-

THE BAR OF MONTREAL ANNUAL BANQUET—Some of Those Who Delivered Speeches During the Evening.

tional superstructures, had firmly planted throughout this great continent a mighty race of people. (Cheers).

Whatever difference there might be between the forms of government of Canada and the United States, there could be no difference in the ambitions of the two countries, to bestow the greatest possible good upon all their people. The manner of accomplishing this desideratum necessarily included the maintenance of those mutual and helpful relations which ought always to exist between close neighbours having in common an intense desire for the material, moral and intellectual development of a race. To that end the bars of the respective countries could contribute in no small measure. Hence it was hoped that in the future much of good as well as of pleasure would come because of an intimacy and acquaintance so happily begun under the leadership of the Montreal Bar.

A CLOSE RELATIONSHIP.

When Mr. Justice Davidson was at the New York banquet, he said: "The future is the miser of its secrets," and so it was. But the situation so openly promised a close relationship between the countries on this continent in the future that surely it might be said that if the members of the legal profession did their full duty, the future had no unpleasant secrets to hide from us. (Prolonged applause).

The influence of the profession was great in both lands, and if the respective bars did their duty, the relations between the two countries would be weighed in the scale of justice, whose beam stands sure and whose rightful cause prevails.

TOAST OF JURISPRUDENCE.

The toast of jurisprudence was proposed by Messrs. R. C. Smith, K. C., and L. J. Loranger. Both paid high tributes to the Bench of this district, and, indeed, of the whole province, and recalled the glories of the Bench in days gone by, and such names as Lafontaine, Morin, Dorion and Johnson.

Mr. Justice Hall responded in humorous style, and expressed his pleasure at such opportunities for the Bench and Bar to come nearer together. Mr. Justice Taschereau also replied. He regretted being no longer among the lawyers, but felt that unless he could still consider himself one of them he would not consider life worth living.

Legislation was proposed by Mr. Honore Gervais, K. C., in a speech in which he dwelt on the benefits to be derived from Parliamentarianism, and the necessity for preserving the present system of government. He also pointed out the preponderating influence which the legal profession exercised in the framing of the laws under the present style of government.

BIG PROPORTION OF LAWYERS.

Mr. M. Hutchinson, M. L. A., in replying to the toast, remarked that out of 74 members of the Legislature 50 were lawyers. The result was seen in the fact that no laws were returned as unconstitutional by the Federal Government, as was formerly often the case.

Mr. Justice Doherty wittily proposed the toast of litigation, to which, of course, all present drank most heartily. Hon. L. O. Taillon made an excellent reply, and was followed by Mr. A. R. Hall, who also did full justice to the subject.

Mr. F. E. Meredith, K. C., in proposing Our Law Faculties referred to the fact that the standard in both Laval and McGill had been raised higher than ever.

Mr. Justice Mathieu, Dean of Laval, and Mr. F. E. Walton, Dean of McGill, replied in speeches in which they said the object of the two universities was the same, to inculcate the science of law. It was, therefore, a matter of public interest that they should raise the standards. Some people thought a country might do without lawyers, but if we must have them let us have good ones. Dean Walton, referring to a remark by Mr. Justice Taschereau that it was desirable that all lawyers should understand both languages, said that at McGill they were doing their best to have the English students learn French.

The toast of the ladies was proposed by Mr. A. R. McMaster and duly replied to by Mr. E. Fabre Surveyer, after which the health of the chairman was proposed, and the gathering came to a close.

COFFEE FLYERS.

Can be One if You Stick to it.

The coffee habit is as injurious as other drug habits of the same nature. Don't think so? Well, dig in and see. The system craves a stimulant more and more until finally the victim wakes up.

When we are as fortunate as Mr. James D. Kimble, of Northampton, Mass., to realize that we have got to stop or the penalty will be severe, it is, a little startling at first to consider. He says, "I was an inveterate coffee drinker during twenty years of my life.

The first ten years I experienced no ill effects from the coffee, but its insidious working brought forth a train of evils later on. I became very nervous and irritable, in fact felt all the time as if I should 'fly to pieces.' My nerves were all unstrung and I craved coffee as a toper does liquor, in truth I was a 'coffee toper.'

My appetite became very poor and solid food repugnant to the sight; dyspepsia and indigestion were my inseparable companions and food did me but little good. About four years ago a friend advised me to try Postum Cereal Food Coffee. I was loath to believe that coffee was the cause of my trouble therefore I did not have much faith in Postum, nevertheless I commenced its use and from the very first I experienced a decided benefit. My appetite returned, food began to taste natural and did me good. My nervousness gradually disappeared; the brain became clear, the loss of strength and flesh arrested and the stomach gradually strengthened. Life seemed once more worth living and the continued use of Postum has not disappointed me. To me coffee proved slow poison. I have found Postum to be a builder and sustainer of the system and I heartily recommend it to the slaves of coffee, without a single reservation."

Mr. Kimble mentions in his letter many of his friends in Northampton who have recovered health and strength from using Postum on his recommendation.

CITY LOST ITS APPEAL AND MUST PAY $2,500.

The City of Montreal lost its appeal on Saturday in the case of O'Shea vs. the City. The plaintiff-respondent, through his attorney, Mr. J. C. Walsh, took action against the city to recover the profit he would have made in the fruit business, but which he had lost through the failure of the city to deliver him stall 18 in Bonsecours Market, which he had leased. The city's former tenant in that stall refused to give up the premises. The Court below allowed $2,500 damages, and the appeal court, confirmed that judgment, Mr. Justice Tellier ad hoc, dissenting, on the ground that the circumstances were fortuitous and beyond the control of the city.

Regiments May Hold Banquet.

The officers of the various regiments forming the Montreal Brigade have under consideration the holding of a banquet. November 20th is mentioned as the probable date, and the Windsor Hotel as the place. Lord Dundonald, it is expected, will be present.

A New Branch Opened.

The Sovereign Bank of Canada has opened a new branch at Crediton, near Exeter, Ont. The manager is Mr. F. E. Karn.

Baron de Hirsch Institute Had a Prosperous Year

Business Transacted at the 39th Annual Meeting—Retiring Governors Re-elected—A Library and Reading Room Proposed for Institution.

The 39th annual meeting of the Baron de Hirsch Institute and Hebrew Benevolent Society was held yesterday afternoon, the president, Mr. D. A. Ansell, in the chair. The annual report which was presented states that the class rooms accommodate 476 children and 200 in the lecture hall on the ground floor, while the assembly hall on the top flat seats 1,000. The cost has been $45,072.41, of which all but $4,300 has been raised by subscription, legacies, and the sale of property. The fittings, however, are not yet complete and for this purpose $1,000 should be spent on the assembly hall, $500 on the lecture hall, $1,000 on the tinting of the walls, while there are many other deficiencies, including books for the library, and a piano for the assembly hall.

The relief committees have attended to the needs of 1,365 Roumanian, 427 Russian, 57 Austrian and German immigrants, and 352 of other nationalities. The amount expended has been $5,496.35, of which $2,643.34 went toward local and $2,853.01 towards immigration relief. The coal fund needs considerable augmentation this year, owing to the strike, and the coal committee appeal for at least $2,000 for this winter.

SCHOOL COMMITTEE REPORT.

The school committee reported an average monthly attendance last year of 171 boys, 231 girls, 402 in all, out of a total admission during the year of 588 pupils. This year there are 470 pupils in residence, their nationality by birth being: Roumanians, 142; Russians, 111; Austrians, 17; Poles, 7; Germans, 6; Galicians, 2; English, 36; American, 36; Syrian, 2; Canadians born of foreign parents, 111.

Their respective periods of residence in this country is as follows: Under one year, 91; between one and two years, 84; between two and three years, 95; between three and four years, 53; over four years, 147.

The staff consists of eight teachers and the principal. An hour's instruction is given daily in Hebrew, and needlework and drill are taught, besides the regular curriculum of the Protestant School Commissioners.

The medical officer's report was presented by Dr. H. Lightstone, and showed that he had made 1,027 visits to 222 patients during the year, of whom five had died, three whilst under treatment and two after being sent to the hospital.

It was a matter for congratulation that in all the large number of cases treated, only four were sent to a contagious hospital. One woman, a consumptive patient, was sent to Ste. Agathe, where she is improving under the care of Dr. Richer.

WILL OPEN A LIBRARY.

It was decided to take steps to open a library and reading room in connection with the institution and donations were given for the purpose both in money and books.

Mr. Holstein, the chairman of the relief committee, drew attention to the large amount of funds required to meet the increase in immigration from eastern Europe. He much regretted that the state of the society's funds did not permit them to give sufficient assistance to them. He estimated that for the coming year at least $10,000 would be required.

That morning sixty had applied for help, most of them good workers, carpenters, locksmiths, tinsmiths, bricklayers, etc.; but although willing and anxious to work they could not speak the languages of the country and therefore could not get employment till they had been here some time and could understand what was said to them.

The retiring governors—Messrs. L. Holstein, M. Goldstein, B. Goldstein, Harris Vineberg, J. A. Jacobs, Geo. Margolese, D. S. Friedman and S. Fischel—were re-elected, and votes of thanks were passed to the honourary officers and the Jewish Colonization Association of Paris.

C. B. Stamp (Blatspiel, Stamp & Heacock, wholesale furriers), Chairman of the Fur Trade Section and member of the Council of the Chamber.

INCOMING STEAMSHIPS HAD HEAVY WEATHER ON THE ATLANTIC.

The incoming steamships report very bad weather on the Atlantic, the result being that considerable damage was done vessels and in one instance a life was lost.

The Elder Dempster steamship Lake Megantic, from Liverpool, arrived in port yesterday afternoon. Capt. Taylor reports that a hurricane was encountered during the first two days out of Liverpool. So strong was the wind and high the seas that the vessel could make but 60 miles the first day and 100 on the second. Throughout the voyage strong northwesterly winds and high seas prevailed and a good deal of damage was done the vessel in the way of smashed skylights and a broken boat, besides being the means of one poor fellow losing his life.

A steerage passenger coming on deck was struck by a wave which came sweeping over the ship and when rescued it was found that his skull was fractured, a leg and several ribs broken. He died that same evening and the following morning was buried at sea.

The Allan Line steamship Tunisian arriving here yesterday from Liverpool, also reports having encountered heavy northwesterly gales throughout the voyage, though the vessel appears to have escaped the hurricane which the Lake Megantic encountered the first two days out.

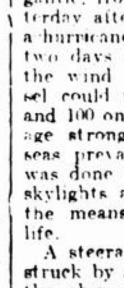
COURT HOUSE EXTENSION SUBJECT OF PETITION NOW BEING CIRCULATED.

A petition in favour of the extension of the Montreal Court House to St. Gabriel street is being circulated among the members of the Montreal Bar. It is meeting with general approval. In this request, which is addressed to the Lieutenant-Governor-in-Council, the lawyers represent that it is desirable to change the present system of communication by a covered way, a hundred feet in length, which is draughty and cold in winter. They pointed out that the same inconvenience will exist if an addition is built, as intended, to the present structure. They set forth that proper plan would be to expropriate the triangular block bounded by Notre Dame, St. Gabriel and St. James, and extend the present building as far as St. Gabriel, facing on Notre Dame street.

The City Council of Montreal also favours that plan, and a number of the aldermen are to meet Hon. Lomer Gouin to discuss the proposition.

Army and Navy Veterans.

The British Army and Navy Veterans, in command of Capt. Bolster, attended Divine service in Grace Church, Point St. Charles, yesterday morning, where they listened to a patriotic sermon from the Rev. F. Whitley, curate of the church. The muster was a fairly large one, and the men were played to and from the church by their own fife and drum band. The parade was probably the last that the Veterans will hold this year. Many of them wore their service medals.



Not New.

Don't think our Vapo-Cresolene is something new, for it isn't. For more than twenty years it has been extensively used for all forms of bronchial and throat trouble. Mrs. Ballington Booth said of it, years ago, that "No family where there are young children should be without Vapo-Cresolene." You breathe-in the vapor, it goes all though the bronchial tubes, soothing, healing, curing. It's pleasant, safe, economical. 18

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a life time, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 180 Fulton St., New York, U.S.A.

AMERICAN CHIEF JUSTICE VISITED THE COURT HOUSE.

The Chief Justice of the Court of Appeals of New York, Honourable Alton B. Parker, was the guest of the justices of the Court of King's Bench, on Saturday. He was received on his arrival at the Court House by Mr. Justice Wurtele, as the Chief Justice, Sir Alexander Lacoste, was on the bench at the moment. Later the Chief Justice met the American Justice, and conducted him to a seat on the Bench, where he remained some time during the rendering of judgments in the cases heard in the September term of the court.

MEETINGS AND SOCIETIES

In the Labour World.

TRADE CONDITIONS GOOD.—The lathers and plasterers report work as being very good. The men are all busy finishing up the season's work.

THE LAUNDRY WORKERS.—The International Shirt Waist and Laundry Workers' Union gained 400 new members during the four weeks just past.

WILL BE REPRESENTED.—The Glass Workers' Union of Montreal will be represented at the coming convention of the American Federation of Labour.

THE CARPENTERS.—There will be a mass meeting of the Brotherhood of Carpenters and Joiners to-night in St. Joseph's Hall to consider the new amendments to the constitution.

THE PLUMBERS.—The officials of the Journeymen Plumbers' and Steamfitters' Union state that the master plumbers have work just now on hand that will keep all local men busy for some time.

BUILDING TRADES BUSY.—Owing to the large amount of construction work to be done in Montreal before the winter sets in, the building contractors state that outside men may have to be brought in.

THE RUBBER WORKERS.—The social given in the Empire Hall last night by the Rubber Clothing Workers was a great success in every way. After the banquet, interesting addresses were made, which were greatly appreciated by the large gathering. It is the intention to give an "At Home" in the near future.

A NEW UNION.—Messrs. Bernard Rose, provincial organizer of the United Garment Workers of America, assisted by A. De Bellefeuille, vice-president of the Wholesale Clothing Cutters' Union, successfully installed the officers of the new local, the membership of which is composed exclusively of women wage-earners. The following were elected to office for the first time: President, Miss A. Heben; vice-president, Miss Quinn, recording secretary, Miss A. Leblanc, financial secretary, Miss Meunier; treasurer, Miss Russell. The union will hold its meetings at the Empire Hall, corner St. Lawrence and St. Catherine streets, and it is their intention to provide a musical programme to be indulged in at the conclusion of routine business.

Fraternal Orders.

MOUNT ROYAL LODGE.—At to-night's meeting of Mount Royal Lodge, No. 1, I.O. O.F., an interesting time is expected. A couple of new members will be initiated, a musical programme will be carried out, and refreshments will be served.

THE ROYAL ARCANUM.—A most successful meeting of Wellington Council, No. 1455, Royal Arcanum, was held at their hall, 715 Wellington street. The Grand Council officers paid an official visit to Wellington Council, and preparations were made for their entertainment. Owing to important business which required his attention out of town the Grand Regent, Bro. W. A. Weir, M.L.A., was unavoidably absent, and the fact was universally regretted. The Grand Council, however, was admirably represented by the Grand Orator, Bro. W. A. Coates, of Laurentian Council, and Deputy Grand Regent, Bro. A. I. Morison, of Mount Royal Council; and there were also present: Bro. W. G. Harsin, representing the Grand Council of New Jersey; Bro. Scott, P. Regent of Aberdeen Council, and Bro. Brown, of Aberdeen Council. At the close of the regular business of the council, stirring and enthusiastic addresses were given by Bros. Coates, Morison, Harsin and Scott, in which the many advantages of the Royal Arcanum were prominently set forth. At the close of the meeting refreshments, which had been provided by the foresight of the Regent, Bro. S. W. Cuthbert, were partaken of, and an enjoyable time was furnished by Bros. Dr. J. H. Lennon, reading; Bro. Coates, singing; Bro. Brown, recitation, and Bro. Blomeley, piano.

Polytechnic School Appointments.

The appointments to the staff of the new Polytechnic School, which is to be situated on St. Denis street, opposite St. James' Church, has been announced, and are as follows:

Mr. V. E. Archambault is to be the principal, and Mr. E. Balete, the director of studies. The following professors have also been appointed: Mr. E. Balete, applied mathematics and infinitesimal calculus; Mr. C. A. Pfister, physics and chemistry; Mr. Jos. Haynes, architecture and construction; Mr. Fred. Andre, elementary mathematics; Mr. S. Leluan, first year physics, chemistry and geometry; Mr. J. C. Laberge, topography and geodesy; Mr. Obalski, mining, metallurgy, and geology.

The complete course will occupy four years, and the scholastic year will begin in September and close in June.

Mr. H. A. Cholette Was Elected.

The election of a member of the council of the bar to succeed the late Mr. L. W. Sicotte, took place on Saturday. As a result of the day's vote, Mr. H. A. Cholette, of the firm of Archambault and Cholette, was elected by a majority of 46 over Mr. Rodolphe Lemieux, K.C., M.P. Several of the members of the bar were of opinion that the position should have gone by acclamation to Mr. R. C. Smith, K.C., who had got the largest number of votes among those who had failed of election at the annual meeting. Mr. Smith refused, however, to let his name go before the bar for the vote.

The Late Mr. Patrick Gallery.

The death occurred yesterday of Mr. Patrick Gallery, brother of Ald. Gallery, at his late residence, 26 Young street. Mr. Gallery was a member of the C.M.B.A., Branch No. 10, and he was also a member of the Third Order of St. Francis, a religious organization for laymen. The funeral will take place in St. Ann's Church, Tuesday morning, at 8 o'clock. The deceased is survived by his widow, two daughters and three sons.

Ste. Cecile Choral Society.

At the meeting of the Ste. Cecile Choral Society held on Saturday, the following officers were elected for the present year:

President, Mr. Auguste Hubert; vice-president, Mr. A. Lavoie; secretary, Mr. J. A. Morier; treasurer, Mr. J. E. Bernier; assistant director, Mr. J. A. Brossard; marshal, Mr. R. Bedard; director, Mr. J. E. Bernier; legal adviser, Mr. A. Dagenais; committee, Messrs. M. Beaudry, R. Dionne, H. Lesperance and A. Decelles.

Annual Pilgrimage Next Sunday.

The annual pilgrimage of the parishes of Montreal and the suburbs to Cote des Neiges Cemetery will take place next Sunday. The religious service will be conducted by Mgr. Racicot, vicar-general of the archdiocese. The choirs of the churches will amalgamate, and, gathering at Mount Calvary, will chant the "Libera," "Dies Irae," and "De Profundis," of the requiem service.

In its spring trade number, just issued, the Canadian Shoe and Leather Journal devotes considerable space to demonstrating that shoes and leather are being made in Canada, equal in style and finish to anything imported from the United States or elsewhere. Several of the articles are profusely illustrated. One shows the machines used in the manufacture of the Goodyear welt, which has now superseded the hand-sewn shoe, and another shows the methods followed by Canadian tanneries in the manufacture of upper leather. A number of photo engravings show what the new spring styles look like, and give evidence of the up-to-date character of Canadian footwear. Other articles discuss the development of the export trade, and enter into particulars of interest to the leather trade generally.

Conforming.

Foot soles are curved and soft.
Shoe soles are flat and hard!

Breaking in new shoes invariably means shaping the foot soles to the shoe soles, till wear moulds the insoles to the curves of the feet.

The **RESILIA** is the only shoe which conforms to the shape of the foot sole immediately, from the first moment it is borne upon, and without any "breaking in."

It does this through the compressible nature of the resilient, elastic, cushion centre-sole, which is placed between the leather insole and outsole, instead of the usual scrap filling.

Observe foot sole in picture of lower shoe beneath.

SUBURBAN NOTES.

Rev. W. R. Harvey, pastor of the Point St. Charles Congregational Church, at the evening service yesterday delivered the first of a series of monthly illustrated sermons. At the morning service the pulpit was occupied by Rev. Ernest Tippett, of Calvary Church.

At the Outremont Parish Church yesterday Mgr. Decelles, of Sa. Hyacinthe, officiated at solemn high mass in honour of the feast of the patronal saint of the parish. The sermon was preached by Rev. I. Adam, cure of the parish of the Immaculate Conception.

The ceremony of the blessing of the cross to be placed on the new church of the town of St. Louis took place yesterday afternoon in the presence of a large congregation. Mgr. Decelles, of St. Hyacinthe, officiated, assisted by Rev. Father Bournival, S. J., and Rev. F. Ducharme. Rev. A. J. Prefontaine delivered a sermon on the meaning of the cross, and what it stands for in the church.

The Rev. Mr. Graham, pastor of the Montreal Annex Presbyterian Church, preached a special sermon to young men last evening. The reverend gentleman chose his text from the second book of Samuel, chap. 19, verse 29: "And the King said, Is the young man Absalom safe?" The sermon was a comprehensive and forcible one, and covered the career of the young man, in business, as well as his moral and spiritual life, and in each case the question was asked: "Is the young man safe?" The Rev. Mr. Graham announced that the usual weekly meeting of the Young People's Society would be held in the church building to-morrow evening. A Scotch concert will be given in the church on Friday evening, November 28, under the auspices of the Ladies' Aid Society.

Queen Alexandra was brought up in a very sensible manner, and learned dressmaking so thoroughly that to-day she could, if need be, make even some of the most elaborate of her gowns.

STOCK MARKET DULL AND HEAVY

Depression in Wall Street Resulted in a Lower Range Locally.

MARKET WAS VERY NARROW

The Public is Taking Practically No Part and Business is Languishing—London Easier.

The correspondents of the Montreal Star in Wall street and on the Chicago Board of Trade report that stocks were heavy, while wheat was steady. In the local market stocks were heavy. Sales on the New York Stock Exchange Saturday were 265,-100 shares.

The stock market was very dull this morning, with a heavy tone prevailing. The market was very narrow, and the principal declines of prices were of stocks directly influenced by Wall Street, which was considerably depressed owing, it was stated in despatches, to a lower range for American securities in the London market. The public is practically out of the market at present, and it is found difficult to get along without that necessary adjunct.

Canadian Pacific opened here at 136 1-2, compared with 137 on Saturday at the close. The second sale was just one point below the opening sale, and was more in conformity with the later tone in Wall street, where the lowest of the forenoon was 135 3-8. Dominion Iron opened at 57 3-4, and sold off to 57, but regained 1-2. Detroit United declined 1 5-8 to 87 1-2. In the domestic list there were no changes of importance.

The Montreal clearing house returns of bank clearings to-day were $2,847,927.

Messrs. L. J. Forget & Co.'s London cable to-day quoted: Grand Trunk first, 107 3-4; second, 95 1-4; third, 44; Canadian Pacific, 140 1-8; Hudson Bay, 32 1-4.

Messrs. J. S. Bache & Co., New York, send the following Wall street advices through their local manager, Mr. C. D. Monk:

Americans in London slightly lower today. Sun says St. Paul directors on Thursday will act on proposition to issue ten million of authorized twenty-five million new stock. Government bonds turned into sub-treasury under Secretary Shaw's offer $14,771,450, par value on which $20,145,362 was paid. Bank B.N.A. notified arrival of $360,000 Klondike gold. R. R. gross earnings for the third week of October all show increases. London Statist again declares present time very favourable for high-class investment purchases. R. I. traffic growing immensely, says an official. All anthracite companies increasing shipments to New York. Coal will be $6.50 to $7 in day or two. St. Paul will spend one million dollars for new sleeping car equipment for its new transcontinental trains. Clover Leaf said to have passed to syndicate acting for Vanderbilts, and St. Louis and San Francisco, Georgia Southern and Florida Railway file mortgage in Macon to New York Security and Trust Co. to secure issue of $10,000,000 bonds.

J. B. Picken & Co., stock and exchange brokers, received the following New York advices over their private wire:

Following London's lead, the market here this morning was dull and extremely heavy. The trading was mainly professional, the public preferring to hold aloft until the market's position is clear. There was some movement in specialties, but early gains in Colorado Fuel and the like were not sustained. London was a seller of small amount. Exchange is firm at 4.86.60. Market is now stagnant.

Messrs. Burnett & Co., stock brokers, have received the following advices over their New York wire:

The "American" says Mr. J. W. Gates and his business associates are said to have borrowed $12,000,000 on call last week. The earnings of H. V. for September show a gross increase of $45,076, a net decrease of $2815. Sub-treasury statement shows banks lost $1,370,000 since Friday. London, 3.30 p.m.—Depression still continues to prevail throughout the list. Earnings of Wabash for September show net earnings $610,923, an increase of $45,438. Earnings of Wabash for three months show a gross increase of $566,141, a net increase of $205,495. Earnings of St. L. and S. W. for September show a gross increase of $39,829; for three months gross $1,705,395, an increase of $27,283, a net increase of $140,777.

Canadian Trade and Failures.

Favourable weather stimulates outside building operations at Halifax, lumber moving freely, and trade is up to the average in general lines, with prospects considered encouraging, says Dun's Review. Coal mines in Nova Scotia are busy, the output surpassing previous years. A fair trade is reported at St. John in dry goods, groceries and hardware. Country produce comes in slowly, as farmers are still harvesting crops, and trade in the outside districts is consequently retarded. Collections continue satisfactory. Wholesale trade is good at Toronto, sorting business in dry goods being active, and a large turnover is expected in winter goods. There is a good movement in groceries, and payments are satisfactory. Sales in nearly all lines are greater than in the corresponding period of last year at Hamilton, with prices firmer. Collections are prompt. Heavy goods move briskly at Montreal, which will continue until the close of navigation a month hence. Dry goods are active, and fur houses have their resources strained to fill orders. Money comes in well. Trade is fair at Quebec, and collections up to the average. Shoe factories have good orders on hand for spring delivery. Trade is good in all lines at Winnipeg, and collections are improving. Business is rather quiet at Vancouver, except that lumber and shingle mills are taxed to their full capacity. Retail trade and collections are only fair.

Liabilities of failures thus far reported for October aggregate $8,345,614, of which $3,829,281 were in manufacturing, $3,901,141 in trading, and $555,292 in other commercial lines. Failures for the week number 232 in the United States, against 240 last year, and 22 in Canada, compared with 29.

WHEAT SUPPLIES

The Visible Supply and Total in Sight Show Large Increases —Flour and Oats are Firmer.

The Liverpool wheat market was steady to-day. December closing unchanged at 5s 10d, and March at 5s 10⅝d. Antwerp closed ⅛ down at 15 3-8 for No. 2 red winter. At Paris, October closed 50 up at 22.90, January and April closing steady at 21.25. London reported Walla Walla, loading, 29s; October and November, 28s 10½d, sellers.

Weather in England was overcast; in France cloudy.

Russian shipments of wheat last week were 502,000 qrs. wheat and 33,000 maize, or 161,000 more wheat and 14,000 less maize than the previous week.

Speculation has gone out of oats in Chicago since the Inspection Department lowered the standard of contract grades. The same action would probably have the same effect on corn, as it would deter manipulation, with an abundance of the poor grades of both in this crop.

The Russian Minister of Agriculture estimates this year's crops as follows: Wheat, 485,000,000; last year, 426,400,000; rye, 808,000,-000; last year, 691,200,000; barley 285,600,000; last year, 229,600,000; oats, 738,400,000; last year, 526,400,000. These are above the earlier semi-official estimates, and account for the free offerings of Russian grain of all kinds on the other side, which is underselling us on barley and oats so far this year, and has on rye until of late we are exporting it more freely.

LOCAL MARKET.—The market was rather stronger to-day, especially for oats. Prices advanced ½c, and oats are now selling around the following figures: No. 1 white, 35½c; No. 2 white, 35c in store; peas are in fair demand and steady at 77c afloat; rye sold at 55c afloat; barley, No. 3, 47c, and No. 3x, 48½c afloat.

New Manitoba wheat, first half October, is quoted at 73c for No. 1 hard and 71c for No. 1 northern.

FEED.—The market is lower on shorts, but there is an active demand for feed of all kinds, and millers are said to be oversold. Quotations in car lots on track: Manitoba bran in bags, $16; shorts, in bags, $19 to $20; Ontario bran, in bulk, $14.50 to $15; shorts are $18 to $19 in bulk; middlings, $22 to $23; moullie, $23 to $30, according to quality.

ROLLED OATS.—The market is steady, and prices range from $4.10 to $4.20 in wood and $2 to $2.05 in bags for broken lots.

FLOUR. — Manitoba millers have advanced the price of their flours 10c a barrel. Quotations in Montreal on track are $3.50 to $3.60 for straight rollers in barrels; in bags, $1.70 to $1.75; extra bags, $1.60 to $1.65; winter patents are $3.75 to $4; Manitoba finest strong bakers, $3.70 to $3.80; patents, $4 to $4.10.

HAY.—The market is fair. New hay is quoted as follows: No. 1, $9; No. 2, $7.50 to $8; clover, $7.

Wheat Went Higher.

(From the special correspondent of the Montreal Star on the Chicago Board of Trade.)

CHICAGO, Ills., October 27.—Wheat was higher to-day, Dec. selling at 72 1-8c to 72 7-8c, and May at 73 1-2c to 74 1-2c, compared with closings Saturday of 72 1-2 and 74c, respectively. The fact that James Patten not only refused to be dislodged from his position on the bull side of the wheat market, but was a buyer on a moderate scale, overbalanced all else in this market. San Francisco reported Australia as a good buyer of wheat on the Pacific coast again to-day, and the Orient as taking all the flour in sight. Duluth advices say exporters have bought all the wheat that point can deliver before navigation is closed. Western and north-western receipts of wheat are larger than last year. The English visible supply increased 990,000 bushels for the week, compared with a decrease of 867,000 bushels a year ago.

The September report of the chartered banks of the Dominion shows considerable expansion over the same month a year ago. The authorized and subscribed capital have increased about $6,000,000, and the paid up capital about $4,000,000. Nearly $5,000,000 has been added to the reserve funds, and notes in circulation have increased well on to the same amount. Deposits on demand are some $25,000,000 larger in amount, while deposits on notice are upwards of $19,000,000 larger. In the assets column good increases in specie and Dominion notes are shown. Call loans in Canada show the very large increase from $38,000,000 to $52,000,000, reflecting the great expansion in stock market operations. In call loans outside Canada the increase is comparatively small, being only $5,000,000. The principal items in the report are as follows:

Owing to the great demand for funds this year as the result of increased agricultural operations, and the general increase in manufacturing and mercantile business there is talk of the necessity of some of the leading banks making further increases in capitalization in the near future, if business continues to expand. Some of the local banks have for weeks been paying out the bills of larger banks, having, as a result of increased business reached the legal limit of their own circulation.

Gross railway earnings in Canada for the first two weeks of October, according to Dun's Review, were $1,827,000, a gain of $273,000, or 17.6 per cent. In the United States, the gross earnings for the same period were $16,467,027, a gain of 4.5 per cent. over last year and 12.0 per cent. over 1900.

[...]ant surprises considering the present [...]te of public unrest; and, until the fina[...]al, political and business prospects bec[...]e more settled and more favourable, we cannot confidently look for a buoyant market. These conditions may have been very largely discounted; still there is no discernible change in the conservative spirit of the big leaders who really dominate the situation."

Mr. James R. Keene, the big Wall street operator, is credited with the following view of the situation:

"There is no sign of a diminution in the general prosperity of the United States. Our foreign debt is smaller than at any period of our history, and our resources immeasurably greater. The industrial and railway outlook of the country could not be better. The greatest menace to American finance and industry is the want of flexibility in our currency, and withdrawal, when business is most active and prosperous, of funds from circulation by the United States Treasury. Loans are not unduly expanded, but more circulation is necessary to do the country's business."

Referring to Canadian securities in the London market, the Canadian Gazette says: In Canadian securities the majority of the movements are unfavourable. Quebec City 4 per cents. and Toronto 4 per cents. of 1889-93 are each 1 up at 104 and 101 respectively. Canadian Pacific shares, after having been 2½ lower, are now ½ better at 136¾, the fluctuation being due entirely to Wall street advices. For the same reason Grand Trunk stocks have experienced a sharp decline, the first preference stock being ⅝ down at 108¾, the second preference stock ⅝ at 96½, the third preference stock 1¼ at 41⅛, the guaranteed stock ¼ at 104¾, the ordinary ¼ at 13¾, and the 4 per cent. debenture stock 1 at 108½. As regards the weekly traffic returns, the receipts of the Canadian Pacific for the first week of October showed an expansion of $78,000, and those of the Grand Trunk Company for the same period exhibited an increase of £8213. Calgary and Edmonton bonds have had a fall equal to 8½ per cent. to 82. Qu'Appelle 6 per cent. bonds are 4 lower at 51, and Shuswap and Okanagon 4 per cent. bonds 1 at 70¼. Hudson's Bay shares have had a slight recovery, being ½ up at 32⅛. Canadian Bank of Commerce are ½ better at 16¼. As regards mining shares, Le Roi and Le Roi No. 2 shares are ¼ down at 1¾ and 1¾ respectively, and Klondike Consols and Ymirs each ⅛, the former at ½, and the latter at 3-8, but Nimrod are ¼ up at 4⅝.

In 1840 she was married to Henry Brewster Stanton, an anti-slavery orator, senator and lawyer, who died in 1887. Mrs. Stanton called the first woman's rights convention which was held at Seneca Falls, N. Y., in 1848. Mrs. Stanton canvassed many states in advocacy of woman suffrage and was president of the National Woman's Suffrage Association from 1865 to 1893, when she was elected honorary president. In 1895 her 80th birthday was celebrated under the auspices of the National Council of Women, by 3000 delegates from all women's branches throughout the world. Mrs. Stanton was the author of a number of works on woman suffrage.

DE WET WILL RETURN TO SOUTH AFRICA.

LONDON, October 27.—General De Wet informed a representative of the Associated Press to-day that he will sail for South Africa November 1. He added: "Botha and Delarey still intend paying a visit to America."

THE TRANS-CANADA RAILWAY.

Chicoutimi and Lake St. John People Favour Proposed Road.

(Special to the Montreal Star.)

QUEBEC, October 27.—A meeting of the citizens of Chicoutimi and Lake St. John districts was held at Chicoutimi yesterday, at which strong resolutions were passed, calling upon the Governments, both of the province and the Dominion, to extend all possible aid to the Trans-Canada Railway. Large numbers of the clergy and others interested in the colonization movement, took an active part in the meeting, at which speeches were made by scientific men who have made explorations between Lake St. John and James Bay, on the route of the proposed road. Dr. Bell, of the Geological Survey, Ottawa, and Mr. Henry O'Sullivan, were amongst the speakers, and testified to the value of the land to be traversed by the road for the purposes of colonization, and also to the ease with which the line may be constructed.

The proposed railway has already been commenced northward from Roberval, and a contract for the first two sections is expected to be awarded in the course of a few days. It is understood that the extreme height of land, being Roberval and James Bay, which has to be surmounted by the railway, is of very much less elevation than that which occurs between Quebec and Lake St. John.

BUTTER IS DEARER

High Prices Paid at the Wharf — Cheese is Steady—Eggs Continue Firm and in Demand.

BUTTER.—Reports from the wharf this morning were to the effect that Quebec makes of butter sold at 20⅝ to 20¾c. The market is consequently very strong, though it is generally considered that the above figures are too high for export at present. We quote 20½ to 20¾c for Quebecs, and 20¾ to 21c for Townships.

Receipts reported on the Board of Trade this morning amounted to 1,607 packages.

Shipments of butter from the port of Montreal last week amounted to 44,262 packages, or 14,996 more than for the corresponding week of last year. Total shipments since the 1st of May amounted to 465,405 packages, or 94,519 more than for the corresponding period of last year.

CHEESE—The offerings of French cheese at the boat this morning sold at 11⅛c. The market continues steady, Quebec cheese being quoted at 11¼-⅜c, and Townships at 11⅛ to 11⅝c.

Receipts reported on the Board of Trade this morning amounted to 14,665 boxes.

Shipments of cheese from the port of Montreal during the past week amounted to 125,126 boxes, or 26,797 more than for the corresponding week of last year. Total shipments since May 1st amounted to 1,-816,185 boxes, or 3,8,177 more than for the corresponding period of last year.

EGGS—The market is firm. Dealers are paying 16¾ to 17c f.o.b. for straight stock, and their is very little to be had.

Straight receipts selling at 17⅝ to 18c; July and August cold storage, 17½c; pickled at 17½c, and straight candled at 18¼ to 18½c.

Receipts reported on the Board of Trade this morning amounted to 3,240 cases.

HONEY.—The supply is light, and demand is not active. White strained sells around 8c a pound, and white comb at 10 to 11½c. Some buckwheat honey is now arriving, which will be sold at about 6½c in bulk.

POTASH.—Very little demand for potash, and prices for first pots are $4.35 to $4.40, and seconds at $3.60 to $3.70. Pearl ash is wanted at $6 to $6.50.

POTATOES.—The market is fairly active, and the feeling is firm. Dealers are buying at 60 to 65c a bag of 90 pounds on track. In a jobbing way they are selling at 70 to 75c.

BEANS—The market was steady to-day at $2.05 a bushel on track for primes, and $2.05 to $2.10 in broken lots. Stock is scarce.

Yesterday's Country Cheese Markets.

COWANSVILLE—Boarded, 934 butter and 966 cheese. Butter sold at 20 1-4 to 21c, and cheese at 11 1-8 to 11 3-16c.

ST. HYACINTHE—Boarded, 2699 cheese; sold at 11 1-8c.

CORNWALL—Boarded, 1482, of which 1195 were white. Canadians sold at 11 3-16c, and Americans at 11 7-16c.

BELLEVILLE—Boarded, 1485 white and 80 coloured. White sold at 11 1-4c, and coloured at 11 1-8c.

LONDON—Boarded, 1635. Sold at 11 1-8c.

CANTON, N.Y.—Boarded, 1864 twins and 1156 butter. Cheese sold at 11 1-2c, and butter at 23 1-2c.

Live Stock Markets.

The market at the East End abattoir was active this morning, but prices ruled low. The offering of cattle was large, in fact, everything was plentiful, including sheep, lambs and calves. The attendance of butchers was large, and demand was good, but not sufficient to absorb supplies.

Receipts of cattle amounted to 1,000 head. Good to choice sold at 4c, fair to good at 3 1-2c, common to fair at 3c, and common at 2 1-4c. Common bulls and canners were 1 1-2 to 2c. The quality was poor, generally speaking.

Sheep and lambs were plentiful also, receipts of sheep being 700 head, and of lambs being 500. The sheep sold at 3c, while the lambs sold at 3 1-4c.

Calves were in good supply, 300 being offered. These sold all the way from $1.00 to $7.00 each.

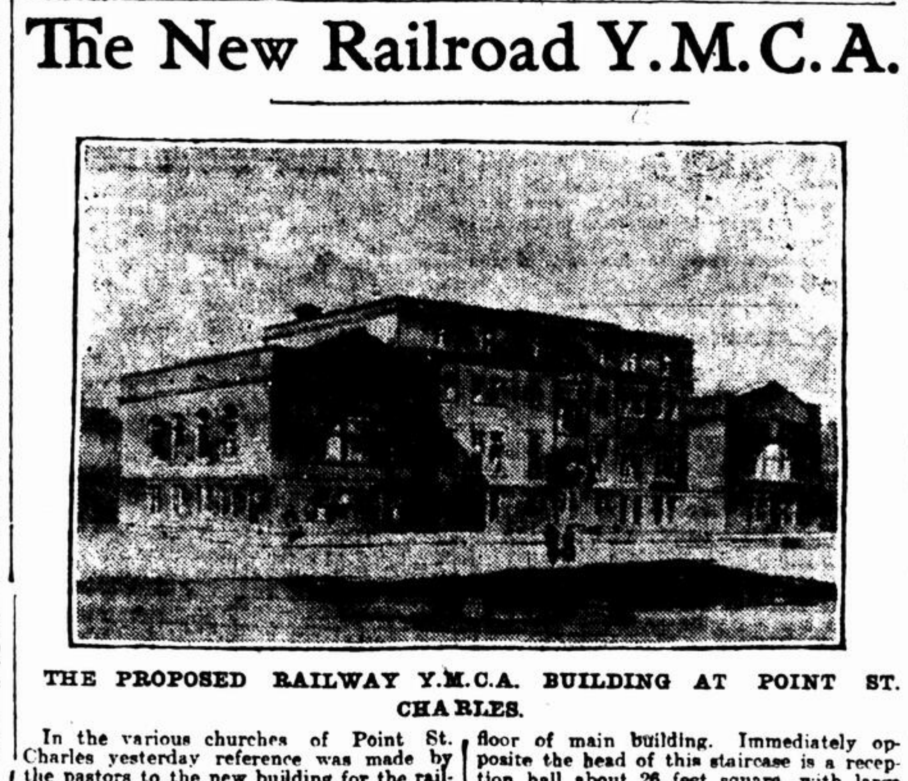
Ontario Apples Affected by Scab Though the Crop is Large and of Good Quality.

TORONTO, October 27.—Although this has been one of the big crop years for apples, returns from all parts are going to be very disappointing for growers and shippers. The trouble is not lack of quantity, or even of quality, in the ordinary sense, for the samples are large and well

The New Railroad Y.M.C.A.



THE PROPOSED RAILWAY Y.M.C.A. BUILDING AT POINT ST. CHARLES.

In the various churches of Point St. Charles yesterday reference was made by the pastors to the new building for the railroad Y.M.C.A., which is to be erected on the corner of Sebastopol and Leber streets. A circular was also distributed to the congregations giving a description of the proposed structure and explaining its financial position.

The building, of which Messrs. Hutchison and Woods are the architects, is of simple design. It consists of a centre building of brick, three stories high above the ground floor, with a wing on each side of same, one story high above the ground floor.

The ground floor will be about three steps below the level of the street, and will be entered from Sebastopol street, in the centre of the main building. The base of main building and wings will be of rock face ashlar, and the whole of the superstructure of brick.

The wing on the left of the entrance contains a dining-room on the ground floor and a library on the first floor; this library has a lofty ceiling, and one end of it is divided into two stories and arranged as a stack room for books.

AN INDEPENDENT ENTRANCE.

An independent entrance to the library and dining-room is made from Leber street, so that parties can use either without entering the main building, at the same time an entrance to both library and dining-room is provided from main building.

The wing on the right of the entrance contains a plunge bath and shower baths, closets, lockers, etc., on the ground floor, and a gymnasium and hall, with lofty ceiling, on the first floor.

The ground floor of the main building contains a kitchen and serving room in connection with dining-room, caretaker's rooms, bowling alley, and also an emergency hospital, fitted with suitable appliances for dealing with emergency cases.

From the main entrance on Sebastopol street a wide staircase leads up to the main floor of main building. Immediately opposite the head of this staircase is a reception hall about 26 feet square, with large fire place.

On the right of the reception hall a game and reception room, 28x44 feet, and on the left are the parlour, the boys' rooms and lecture room.

The main staircase leads direct from the reception hall to the upper stories, and alongside of the staircase on first floor is the secretary's office and small committee room.

The second floor of the main building contains three large class rooms, a ladies' room and lavatory, also a dormitory containing 19 bed-rooms, besides cupboards for linen, etc.

The third floor is divided into three large dormitories, containing in all 47 bed rooms with wash room and lavatory, linen closets, etc.

Tenders for this building amounting to $35,000 have been received. Towards this amount the Grand Trunk Railway has furnished site and $15,000; the Young Men's Christian Association of Montreal has also provided $15,000; an additional $10,000 will be required to open the building free of debt, and provide for furnishings, etc.

The Building Committee having the matter in charge is composed of R. S. Logan, chairman; Alex. Mavor, Thos. McHattie, Arthur Crompton, W. H. Blackaller, L. H. Packard, Robert Munro, D. W. Ross, J. W. Knox, D. Bentley, Gerald W. Birks, D. A. Budge.

Although the structure will be called the Railway Y.M.C.A., its use will not be confined to railway people, but the privileges and membership will be open to residents of Point St. Charles. The institution, when in running order, will conduct classes in many subjects and will be, in fact, a reproduction, though on a somewhat smaller scale, of the main institution in the city and will endeavour to do the same class of work.

WHITE LEAD MINES NEED PROTECTION

Mr. R. R. Fowler, of Nelson, B. C., Reviews the Situation.

MUCH DISSATISFACTION

States That Unless Relief is Given Mines Will All be Closed Within a Short Time.

"Unless we get much greater protection than is accorded us at the present time, it will be only the matter of a very short time when all the white lead mines in British Columbia will be closed down. At the present time, in fact, there is practically no protection whatsoever. If lead mining is to be one of the industries of Canada, we must get protection."

This was the statement made to a Star representative at the Windsor by Mr. S. S. Fowler, of Nelson, B.C., general manager of the Ymir Mining Company, at Nelson, the Enterprise Mining Company at Slocan Lake, and the White Water Mining Company on the Kootenay Lakes.

"As a matter of fact," Mr. Fowler went on to say, "as manager of the White Water Mining Co., which is interested in the development of lead, I would say that we have been unable to operate the mines since June last, owing to the impossibility existing to dispose of our products in Canada with any profit whatsoever. Such a statement I do not make as one who is interested in some particular company, but as one who would like to see the lead industry in Canada prosper, would like to see it made possible to see the output of the mines in the western provinces in the eastern ones. Now that there is some question of a revision of the tariff, I would like to present the facts just as they are.

"The chief reason why we are unable to secure the trade of Canada is that the big American companies are at present able to bring an almost unlimited amount of Mexican lead in bond to New York, and after having had it passed through a slight process of refining brought into Canada under the pretence that it is still raw material.

"As it is impossible for us to get our lead into the United States, without paying the regular thirty-five per cent. duty there is not any reason in the world why the American Mining Companies should be allowed to secure complete control of the Canadian trade.

"Then comes the cry that the Eastern manufacturer would protest against a higher tariff being granted on the ground that he would then be obliged to pay a good deal more for his lead than at present. My answer to any such protest would be that at the present time all the manufacturers of various kinds of machinery are protected by a thirty-five per cent. tariff and yet the mining companies of the West have never protested against coming to the East and securing their machinery at a much higher figure than it could be purchased for in the States if the present tariff did not exist.

"What we need most of all, if the lead industry is to prosper in Canada, is not so much a further bounty, as a substantial increase in the present tariff. We are not so particularly anxious that it should be as great as the American one, as we are that it should be sufficiently high to allow us to make a bid for the trade of Canada. We are unable to compete against other countries on foreign markets and we feel that we should be given a fair chance to get at least our share of the Canadian trade."

HIS MAJESTY WALKED.

Vienna Was Alarmed About the Emperor To-day.

VIENNA, October 27. — While Emperor Francis Joseph was driving from his country place at Schoenbrunn to-day, the horses attached to his carriage became unmanageable and His Majesty jumped out of the vehicle and walked the remainder of the distance to the Hoffburg. No one was hurt, but great excitement was caused by rumors to the effect that the Emperor had been injured.

Bullet Hole in His Head.

CHICAGO, October 27.—The corpse of Nels Anderson, said to have been one of the best known steamship men in the country, was found to-day in a clump of bushels on the Washington Park golf links by a passing policeman. A bullet hole is in the man's head, but no trace of any weapons can be found. Anderson was at one time general agent of the White Star Steamship Company, and was connected also with the Atlantic Steamship Company. His home was in Chicago.

OFFICE OF

CLAUDE ASHBROOK

STOCK BROKER,

MEMBER CINCINNATI STOCK EXCHANGE

Fifth and Vine Sts., Cincinnati, Ohio.

October 20, 1902.

Shrewd observers of market conditions are looking to the Industrials as the logical field of operations for the next bull movement in the New York stock market.

Where ideal conditions are in process of development, it is a pleasure to discuss special cases: for investors are enabled thereby to place their funds where the returns are remunerative, and not only that, but there is found to follow the inevitable enhancement in market values.

As an illustration I will select a company which was formed in 1899, which paid dividends for a time and then retrograded. There has been no receivership, nor any such troubles, but there has been a change of management, and the results speak for themselves.

U. S. Cast Iron Pipe

and Foundry Company, and more particularly its non-cumulative preferred stock, which is now receiving dividends at the rate of 4 per cent. per annum, and quoted under 60, will do to buy for safe investment. It will also do to buy for the assured rise that is in store for it. Properly speaking, it is a 7 per cent. stock, and it cannot therefore be compared to U. S. Steel Common, for there is good reason to believe that it will not be a great while before the old rate of 7 per cent. will be restored; and this being the case, and other conditions being favourable, it is exceedingly improbable that quotations will continue to remain at the present level.

Here are the Facts.

The following financial statement, duly certified to by the Audit Company of New York, shows the profits earned the last fiscal year and how the profits were disposed of under the new administration of the new president, Mr. Hayes:

Results for year ended May 31, 1902.

Profits for year	$901,949
Deduct—	
Improvements written off	117,287
Interest on bonds	77,415
Total deductions	$194,702
Balance	$707,247
Other income	3,937
Total net income	$711,184
Deduct—	
Reserve for working capital	$289,827
Dividend on preferred (2 per cent.)	246,063
Total of above	$535,890
Balance	$175,294
Add surplus June 1, 1901	500,361
Total	675,655

Conservative Disposition of Profits.

Here is a company which earned a net profit in a year of $901,949. It derived from other sources $3,937, so that there was a total of $905,886, which was disposed of as follows: Interest on bonds, $77,415, leaving $828,471. The sum of $117,287 was charged off for improvements, leaving a balance of $711,184. Dividends of 2 per cent., March and June, 1902, were paid on the Preferred Stock, which called for $246,063, leaving a balance of $465,121. From this amount the sum of $289,827 was deducted and set aside into a "reserve fund for additional working capital," leaving $175,294. In June, 1901, the company had accumulated a surplus of $500,361, to which is added the balance for the year of $175,294, which gives the company a surplus fund of $675,655. To this fund may be properly added the recently-formed "reserve for additional working capital," and the company has accumulated a total surplus fund of $965,482—very nearly one million dollars.

An Object Lesson.

The idea of an industrial corporation accumulating a surplus fund is an innovation, and had the custom been adopted ten years ago the modern history of such corporations would have been far different from what it is.

In the present era of prosperity it is a wise administration which prepares for the lean years which a great many people think are to come. The U. S. Cast Iron Pipe and Foundry Company has accumulated a surplus of nearly $1,000,000, and will continue to increase the fund for the rainy day. This policy cannot be too highly recommended; for if the hard times do come there will be an abundance of accumulated profits to tide over the lean years, and holders of the Preferred Stock at least will not suffer.

Since President Hayes took hold of the concern the company has paid off a floating indebtedness of nearly $1,000,000. The surplus, which is the particularly commendable feature, has been invested in the underlying bonds of the constituent companies, which have been purchased in the open market, and also in the company's Preferred Stock, which has been acquired in the same way; $347,555 having been invested in the Preferred Stock, $306,000 in the American Pipe and Foundry Company Bonds, being about one-half of the entire bonded debt. Ultimately all of the bonds will be bought in.

Listed on the New York Exchange

U. S. Cast Iron Pipe Preferred and Common Stock are listed on the New York Stock Exchange, and actively traded in. During the recent slump both stocks held remarkably strong without any effort to support prices. The capital stock outstanding consists of $12,500,000 Non-Cumulative Preferred and the same amount of Common. There are some $1,500,000 underlying bonds of constituent companies. Dividends of 7 per cent. per annum were paid on the preferred stock from 1899 to June, 1900. In March, 1902, dividends were resumed, and are now being paid at the rate of 4 per cent. per annum, in quarterly installments, 1 per cent. having been declared and paid in March, June and September, the next dividend of 1 per cent. coming in December.

Some Big Earnings.

The earnings for the month of June are phenomenal, amounting to $141,000, as well as for July, which was $125,700. The four months, comprising the last two of the fiscal year and the first two following (June and July), show earnings, which if maintained throughout the entire year, would be sufficient to pay dividends of 7 per cent. on the Preferred Stock and 6 per cent. on the Common Stock. It must not be inferred, however, that the company can maintain these earnings. The summer months are no doubt more prolific in earning capacity in this particular line than are the winter months, but it is stated on good authority that President Hayes is confident that they will show at least 4 per cent. earned for the Common Stock, which entitles the latter to some consideration, in view of the fact that it has been selling around $16 per share.

If you will analyze the earning capacity as carefully as I have you will find that 7 per cent. can surely be earned and paid on the Preferred Stock; but the policy of the company is to strengthen its position financially by accumulating a large surplus fund before restoring the full 7 per cent. dividend rate on its Preferred Stock. The fact that the full dividend is being earned, and a good part of it being set aside to strengthen the intrinsic value of the stock is a good recommendation to the conservative investor.

Such a policy carried out for a few years would contradict the idea of inflated values so far as the Preferred Stock is concerned. The company would soon have enough surplus to offset 50 per cent. of its outstanding Preferred Stock issue and its assets would overreach sufficiently to give the Common Stock the unusual condition of having a value other than that of possible earning capacity.

Pipe Preferred as an Investment.

If the above statement of facts is true, the Preferred Stock from a purely investment standpoint is not only a safe security, but a good purchase for an advance in price, which will undoubtedly yield a handsome profit.

All of the facts herein stated can be verified.

Any one who buys U. S. Cast Iron Pipe Preferred Stock at present quotations can have the satisfaction of knowing that the real intrinsic value is there, and that the stock is selling abnormally low. When the combine was forced, the underwriting, which included one share each of the Preferred and Common Stocks was put out at par.

The combined quotations at present existing are 73, and the concern is in better shape physically and financially than when the combine was made. Amalgamated Copper as a comparison is a 2 per cent. stock and is quoted higher than Pipe Preferred, which pays 4 per cent., and is earning 7 per cent.

The latter has so many substantial features that I am recommending it to investors. It will not be a great while until you will see the price quoted at much higher figures, commensurate with its worth.

WYNDHAM DEFEATS MORLEY.

Is Now a Rector of the University of Glasgow.

GLASGOW, Scotland, October 27.—In the election Saturday of a rector of Glasgow University, in succession to Lord Rosebery, Mr. Wyndham, the Irish secretary, defeated John Morley, the Liberal leader, by 674 to 635 votes. The result, which was rather unexpected, will doubtless be claimed as another endorsement of the Government's Education Bill, and the measures adopted toward Ireland.

Plot Against Dowager Empress.

ST. PETERSBURG, October 27.—The police have captured an accomplice in the reported plot recently unearthed at Copenhagen against Dowager Empress Marie Dagmar of Russia.

A despatch from Copenhagen, dated October 4, said the Dowager Empress of Russia, who is a daughter of King Christian of Denmark, was the object of the strictest surveillance by the police, owing to what they considered to be an authentic report that several Italian Anarchists were on their way to Denmark in order to assassinate her.

The Boer Delegates.

TORONTO, October 27.—The Boer delegates went to Guelph Saturday, where they visited the Agricultural College and Experimental Farm. This morning they inspected the Parliament buildings and several industrial establishments, and in the afternoon they visited the carriage works at Oshawa, Berlin, Woodstock and the Niagara district are among the places which it is hoped to get over before Wednesday evening, when they leave for the Soo.

Cook Guilty of Murder.

HALIFAX, N. S., October 27.—The trial of Geo. W. Cook, for the killing of his wife in their home on Albemarle street, July last, by cutting her throat with a razor, was conducted Saturday afternoon, and the jury, after being out an hour and a half, returned with a verdict of guilty of murder.

Jules Cambon Arrives.

INDICTMENT AGAINST GHOULS.

Many Will Have to Stand Trial for Robbing Graves.

INDIANAPOLIS, Ind., October 27.—The grand jury, Saturday afternoon, returned a partial report, including twenty-five indictments in the grave robbery cases which have been under consideration for the last three weeks.

Of the indictments returned ten only were made known. It developed later that five indictments had been returned against physicians who are charged with complicity in the body snatching business, for failure to keep records of bodies received, among whom is Joseph C. Alexander, demonstrator at the College or Physicians and Surgeons.

The indictments against the negro ghouls in each instance simply mention one of the many bodies the indicted men are charged with assisting in removing, as a basis for a prosecution.

In each of the indictments against the ghouls, it was charged that the stolen bodies were taken to the Central College of Physicians and Surgeons.

The five physicians indicted will be arrested. From the evidence given by Rufus Cantrill, the chief of the gang of ghouls, one hundred bodies have been stolen from cemeteries near here during the last year. There have been nineteen arrests and twelve graves opened have been found empty. The ghouls say two of the physicians accompanied them on several of their night trips.

Many New Banks for the West.

(Special to the Montreal Star.)

CALGARY, N. W. T., October 27.—The great development and stability in the North West is attracting Eastern bankers. The Merchants Bank of Canada have just purchased four lots on the corner of Stephen avenue and First Street East, alongside the Post Office, for $13,500. The bank will erect a new building. This means two new banks in Calgary this year, and now making six in all. Throughout the North-West Territories alone there have been fourteen agencies established, to say nothing of Manitoba. The Board of Trade had a meeting and decided to amalgamate with the Retail Merchants' Association, and make provisions for other associations coming in to form sections. The secretary was instructed to write Hon. Mr. Tarte, ex-Minister of Public Works, that if he was coming west as far as Calgary the board would like to receive him and have them address him.

Princeton's New President.

PRINCETON, N. J., October 27.—The inauguration of Woodrow Wilson, as president of Princeton University, took place here Saturday, under auspicious circumstances and beautiful weather. Hundreds of invited guests and alumni filled the streets and campus, and when the inauguration procession started the entire line of march was flanked on both sides by enthusiastic undergraduates and graduates. Among those in the academic procession were J. Pierpont Morgan, "Mark Twain," Booker T. Washington, Robert T. Lincoln, Wayne McVeagh, Edward Clarence Stedman, and James Curtis Hepburn, the oldest living alumnus. The inaugural procession started from the university library at 10.40 o'clock, and moved slowly to Alexander Hall, where the exercises were held.

General Booth's Tour.

LONDON, Ont., October 27.—A very large crowd assembled at the Grand Trunk station here Saturday evening to welcome General Booth, of the Salvation Army, who, on arrival, was escorted by the Army band and the local reception committee to the Tecumseh House. A monster meeting took place Saturday night and Sunday, when the General and party delivered addresses. This morning the party proceeded to Woodstock.

Many Changes at Harvard.

(Special to the Montreal Star.)

OTTAWA, October 27.—Sir Frederick Borden, while in Boston the last fortnight, took occasion to renew old acquaintances at Harvard, which he attended as a young man. He found only one member of the teaching staff of the medical school still serving who was there when he passed through.

The South Caisson Completed.

(Special to the Montreal Star.)

QUEBEC, October 27.—The south caisson of the Quebec bridge over the St. Lawrence, respecting which there were so many sinister rumours lately, has been finally completed and filled in.

INCREASE IN OUTPUT HAS BEEN NATURAL

Senator Cox Discusses the Position of Big Cape Breton Industries.

CONTRACT WITH COKE CO'Y

Likely That An Amicable Arrangement Will Presently be Made in the Near Future.

"The most striking feature about the increase in the output of the mines of the Dominion Coal Company is that it has been a perfectly natural one. It cannot be claimed that it was owing to any extra orders that the company was able to secure on account of the strike in the American coal districts."

This was the statement made to a Star representative at the Windsor by Hon. George A. Cox, of Toronto, vice-president of the Dominion Coal and the Dominion Iron and Steel Companies.

"This can be shown more clearly by pointing out that while the output of No. 2 Mine is at the present time two thousand tons a day, when its full capacity has been reached the output will be six thousand tons a day. The proportion of the increase in the other mines will be almost as great.

"Then it has been claimed that a new contract has been made between the Dominion Coal Company and the New England Gas and Coke Company. While negotiations are now under way, no new contract has as yet been effected. As a matter of fact, the present contract is for twenty-one years, but as it is now an unsatisfactory one, as far as the Coal Company is concerned, we hope to be able to make another contract, through an amicable arrangement with the directors of the Gas and Coke Company. The present contract was made at a time when labour was much cheaper than it is at the present time, and under circumstances which made it necessary for the Coal Company to do so. If a new contract is to be made, it will only be through an amicable arrangement between the directors of the two companies."

"Would you say anything of the progress that has been made by the Steel Company?"

"It has certainly been very marked. The quality of the steel that is now being produced is as fine as can be secured in any part of the world. There has not been the slightest difficulty in disposing of the entire output, and quite a good deal has been sold ahead.

"From a purely business standpoint, I would say that the lease of the properties of the Dominion Coal Company to the Dominion Iron and Steel Company has worked out most successfully. There has never been the slightest difficulty between the directors of the companies. In conclusion, I would not hesitate to say that both companies must be considered as good investments."

UNIVERSITY GYMNASIUM IS VERY MUCH NEEDED BY M'GILL STUDENTS.

The building of a university gymnasium is again engaging the attention of the students and athletes of McGill. It is understood that a canvass for subscriptions to the building fund will shortly be commenced among the students, and it is hoped to raise at least $1,000 from the 1,200 men in residence. The graduates and graduates' societies will then be approached and asked for contributions, and from them the appeal for funds will be carried to the friends and well-wishers of McGill.

Dr. R. Tait Mackenzie is of opinion that accommodation should be provided in the gymnasium for 2,000 men, in which event the building would cost $80,000, if the site were provided, or $100,000, if the land had to be bought as well.

For this amount a three-storey gymnasium could be set up, having a hall, two storeys high, about 120 by 80 or 90 feet. The apparatus would be so arranged that it could all be cleared away at short notice, and the hall used for convocation, lectures or dances. Rooms would be provided for the medical examination and the office on one floor, with perhaps also a room for the meetings of the college clubs.

On another floor would be the dressing-rooms, with lockers for 2,000 students and full shower bath accommodation. A swimming tank would also be desirable, and the football, hockey and other clubs could have their own rooms. In the basement would be the caretaker's quarters and the heating and other apparatus would be placed there. A gallery around the gymnastic hall, with corners banked up, would provide a running track of about 16 laps to the mile that would be of great service in winter or at other times when the weather was bad.

NEW YORK DIVINE OCCUPIED THE PULPIT AT ST. MARTIN'S CHURCH

The Rev. Dr. Wilson, of New York, who is to address the convention for the deepening of the spiritual life in the Stanley Street Presbyterian Church this week, was the evening preacher in St. Martin's Church yesterday. He took as his text St. John xi., 28: "The Master is come and calls for thee."

Dr. Wilson began his remarks by instancing the power of the presence of a great man such as Napoleon or Knox. How much greater he said, was the power of the presence of Christ, full of the Holy Spirit, and ready to pour it on every hungry heart. The Spirit was here to control every desire, to change character, and to create a conscience where it did not exist. He worked in the very centre of every soul and entered into the sacred heart of every man. He never came without a definite purpose. He came to call all.

The preacher believed that God had sent him to the city to help men to come to Him in the next few days.

The annual inter-denominational conference on Spiritual Life opened this afternoon in Stanley St. Church. The Rev. Dr. Wilson, was the principal speaker. Daily meetings will be held, until Friday, at 4 p.m. and 8 p.m.

Court of King's Bench.

The list of cases for the November term of the Court of King's Bench is smaller than it has been for a number of years. It will be opened on Monday next. The cases set for hearing are as follows: Henry Saxe, conspiracy; Albert Trempe and John Hennessey, robbery; Joseph L. Thibault, receiving stolen goods; Pietro Lepore, murder; Albert Trempe, house-breaking; Herbert J. Johnston, conspiracy; Zephirin Thibault, theft.

Confirmed the Judgment.

The Court of King's Bench in Appeal on Saturday confirmed the judgment of the Superior Court in the case of the Bell Organ and Piano Co. vs. Delcourt. The judgment appealed from refused to maintain a seizure in revendication of a piano which had been sold by authority of justice in a suit against the defendant-respondent by a third party.

Deed of Transfer Annulled.

In Johnson, defendant in court below, appellant, and Lamoureux, plaintiff in lower court, respondent, the Court of King's Bench in appeal, confirmed the judgment of the court below, annulling a deed of transfer from the respondent to the appellant, and condemning Lamoureux to pay Johnson $199.95.

A Joker and Bride Paraded in a Cage.

Son of a Pittsburg Millionaire Captured After His Wedding and Made to Furnish Fun For Three Hundred Persons.

(Special to the Montreal Star.)

PITTSBURG, October 27.—Nothing delighted George Albert Dimling so much as a practical joke. He would walk miles to play one. He is a son of John Dimling, the millionaire caterer of Market street and Fifth avenue. A wedding within the circle of his friends was good for a solid week's amusement for him.

He was married recently. The bride was Miss Wilhelmina Morgan. When he and his bride were ready to depart for the East Liberty Station to take a train to New York they were seized by their friends and hustled into an express waggon, on which was a wire cage.

They were put into the cage and the door was locked. Between 2,000 and 3,000 persons had gathered to see the spectacle, having been drawn to the house by handbills which had been distributed. They read:

"Circus parade will pass along this street this evening, starting at 9 o'clock from No. 7031 Hamilton avenue. Main feature will be a caged mad bridal couple. If you want to see the funniest show on earth look out for this one."

Of course everybody looked out. First in the parade came a hobo band. Following was a clown on a spotted pony. Then came the cage containing the bride and bridegroom, and after that a coach on which rode the committe in charge. Ten carriages containing the guests fell in at the rear. Four boys were stationed on the cage waggon burning red fire.

The horse wore linen pantaloons and a hat that was an artistic creation of the milliner's art. That the bride and bridegroom were mad there was no mistake, any one could see that, but the cage was strong and they could not break out. At the station red fire was burned and sticks were given to passengers on the train, who lighted them and held them out of the windows as the train pulled out for the East.

The bride and bridegroom believed their troubles were ended; but they found more in New York. They were scarcely settled in their apartments in the hotel, when express waggons began to deliver all kinds of household utensils, cook pots, dippers, pie pans, and so forth, all sent by thoughtful friends in Pittsburg.

BERESFORD NOT AFRAID

Morgan Shipping Combine Won't Hurt England — Britain and the U. S. Together Could Beat the World.

LIVERPOOL, October 27. — Vice-Admiral Lord Charles Beresford arrived here yesterday from New York, on the Cunard liner Umbria. In the United States Lord Beresford studied the construction of American battleships, and investigated shipping matters. He was interviewed on his trip to America, and said he had had a splendid reception in the United States, and that he could vouch for the genuineness of the kind sentiment entertained in America for Great Britain. He said his investigations on the other side had convinced him that Great Britain had nothing to fear from the International Mercantile Marine Company. On the contrary, he believed this combine would benefit England commercially and otherwise. "The United States," said the Admiral, "is certainly ahead of us in engineering and administration, and we need to adapt ourselves more to modern ideas."

Continuing Lord Beresford said he did not take a pessimistic view of the situation, and did not agree that Great Britain was going down hill. Public men ought to strive to bind the two great countries more firmly together. "If Great Britain and the United States," said the Admiral, "were joined in the interests of universal peace, and if the rest of the world wanted to fight these countries then let the rest of the world look out."

THE ALASKAN BOUNDARY.

Russian Monuments Found in Rainy Hollow.

SEATTLE, Wash., October 27.—A special to the Post-Intelligencer from Juneau, Alaska, says: United States Judge Brown has word from Commissioner Gerton, of Porcupine, that Johnny Stick, an Indian, has guided J. W. Smith and Frank Alternose to the Russian boundary monuments, six in number, in Rainy Hollow, southeast of there, found by Lieutenant Emmons. The district is a vast mineral belt, in American territory. The monuments are ten feet high and built of stone.

The confirmation of the reported existence of these old boundary marks is interesting, but not necessarily important to the Alaska boundary controversy with Canada and Great Britain. They were first found by Lieutenant G. P. Emmons, last summer, his investigations resulting from the report, last April, that Canadians had destroyed such a boundary monument. It was pointed out at the time of the discovery last August that the find was of no great value. Such a monument, if antedating the treaty of 1825, between Russia and Great Britain, would have no bearing on the case, because Russia then claimed to the Arctic Ocean, and the object of the treaty was to define her rights. If the monument discovered has been erected since 1825 it would have no value if incompatible with the treaty, the text of which must remain the basis of settlement. Such a monument would never alter the provisions of the treaty which say that the line is to be drawn inland on the crest of the hills of the mainland at a distance not to exceed thirty miles, following the sinuosities and the indentation of the coast. Which hills this description fits is still to be determined.

Western Bank Clerk Disappears.

(Special to the Montreal Star.)

VANCOUVER, B. C., October 27.—The sudden disappearance of young Palmer, the Westminster bank clerk is mystifying the police. On October 14, he said good night to a friend and disappeared in the darkness as completely as if transported to another world. The police in all the coast cities have failed to trace him.

UNEASY DOUKHOBORS

Thousands of Them Assembled Near Yorkton as a Result of Their Religious Mania—Villages Depleted of Population.

WINNIPEG, Man., October 27.—J. W. McCarroll, a real estate agent, has returned from a trip through the Doukhobor district, north-east of Yorkton. Asked if he had seen anything of the large bodies of Doukhobors which have recently been reported to be on the march toward Yorkton, Mr. McCarroll said:

"Yes, there seems to be a general movement from all the villages. I visited quite a number of their villages, and their population was, in every case, very much depleted. In some I would find only a few families, while in one the only living thing to be seen was a dog. It was impossible to judge whether they intended to come back or whether they considered it immaterial what became of their worldly goods. I looked into the communal granary of one village and found one thousand bushels of grain, besides flour. At length I came to a village, forty miles from Yorkton. About five thousand Doukhobors were congregated in the village and little knots were gathered, all discussing one matter earnestly. I was informed the people had gathered to 'make a big prayer,' preparatory to going on a pilgrimage looking for Jesus. There was women, children and old men assembled there as well as the younger men, and all appeared to have their minds centered enthusiastically on the one subject.

PASSED LARGE BODY.

"Last Thursday I returned to Yorkton, and about twenty-five miles from that town I passed a large body comprising probably 1,100 Doukhobors, heading toward the south. They were straggling along for two miles, carrying their sick and children. Their provisions consisted of a peck of bread for each person. I found the bread to be of the very coarsest kind, made of whole wheat, bran and all. It was as hard as bread can possibly be, and they ate it, after dipping it in the water in the sloughs. They were barefooted, and wore nothing but cotton clothing, as their religious principles prevented them from wearing woollens or any other animal products. Their provisions cannot possibly last them for more than a few days, when they will be absolutely destitute.

"They may, therefore, be almost said to be destitute, although they have any amount of provisions in their villages, and have left grain in the granaries and stacks of wheat and flax in their fields. They appear to be perfectly conscientious in their religion, and I do not think they will use force on any consideration. I do not think they themselves have any well formed idea as to where they are going. They are looking for Jesus, and that is about all there is to it. They seem to be heading in a general southward direction, and it would seem that their intention is to centre at Yorkton, where there will probably be a grand rally."

A New Russian Sect.

ST. PETERSBURG, October 27.—A new religious sect has arisen in the Government of Zarizyn, and so the authorities have begun to take energetic steps to check its progress. The followers of the sect call themselves Enochites. Through their disciples they disseminate among the peasants a terrible fear of the approaching end of the world. As signs of universal calamity they adduce all the latter-day manifestations such as railways, telegraphs and telephones. They declare that in every gramophone sit several little devils and one large devil on the top. They affirm that the Prophet Elijah has again appeared on the earth, and lives in the form of Father John, of Kronstadt, near St. Petersburg. The agents of the Anti-Christ imprint their seal upon men; though not upon the body, but upon a paper which they must carry with them, and which is called their pass. Finally, the Enochites teach that the Prophet Enoch is already upon the earth, though as yet he has not been seen by anybody. As soon as he has appeared to his disciples the world will be destroyed. So far as the Enochites are able to see, but two years yet remain before the destruction of the world. In order to check the pernicious activity of the sect, the Government has despatched forty Russian travelling priests to the Government of Zarizyn.

A CURIOUS VOUCHER IN PENSION CASE.

(Special to the Montreal Star.)

LONDON, October 25.—United States Consul-General Evans forwarded to the Pension Bureau in Washington this week what is probably the most curious voucher of identification ever filed in a pension case. The voucher consists of the shell of a field tortoise with the name "Bob Williams" scratched on the underside. It was sent to Consul-General Evans from Christchurch, New Zealand, where the applicant for a pension is now living, and is accompanied by letters and affidavits which explain that the soldier's real name is William Wright, but that he enlisted under the name of "Williams." Wright, or "Williams," says in his application that he caught the tortoise during the Shenandoah campaign, and afterward gave the shell to Mrs. Mary Johnson, of Port Henry, Essex county, New York, who kept it until recently, when Wright decided to apply for a pension and sent to New York for the shell in order to identify himself as "Williams," under which name he served in Company "E," 192nd New York Infantry. The curious document was addressed to Consul-General Evans (who was formerly commissioner of pensions at Washington) personally, and was forwarded to him from Washington by mistake. Mr. Evans returned it to the pension office without comment.

The Store That Sets the Pace.

A Busy Month . . .

We planned big things for October and we've been getting the results. Stocks whose goodness outshines the past and prices so low as to half repudiate the goodness. Liberal methods, daylight in plenty, never so much to do and never so prompt in doing it.

This business is reaching towards perfection—not expecting to arrive at the goal by chance, but by doing the proper thing in the proper way at the proper time.

There's a good deal in winning public confidence and the good will of shoppers. One great principle of this store is to keep perfect faith with the people. That means that these things are precisely as represented:

Ladies' Box Back Coats.

Stylish three-quarter Jackets for ladies, made in a striking style of extra fine quality Black Beaver Cloth, with inlaid velvet collar, the new wide sleeves, with turn-back cuffs, and trimmed with strapping of self, lined throughout with excellent quality black mercerized Sateen. Sentenced for Fraud.

CHICAGO, October 27.—The jury in the Masonic Temple tax fixing case returned a verdict of guilty against Luke Wheeler and Captain Williams Saturday. Captain Williams was sentenced to a fine of $1,500 and to six months' imprisonment, and Wheeler to a fine of $3,500 and two years' imprisonment.

It was charged that Wheeler and Williams, assisted by others, by means of forgeries, made it appear that approximately $27,000 in taxes due to Cook County on the Masonic Temple had been paid.

MRS. HULDA JAKEMAN

Wife of President Jakeman of Elders of the Mormon Church, Salt Lake City, Utah, Recommends Lydia E. Pinkham's Vegetable Compound For Woman's Periodic Pains.

"DEAR MRS. PINKHAM:—Before I knew of **Lydia E. Pinkham's Vegetable Compound** I dreaded the approach of the time for my period, as it would mean a couple of

MRS. HULDA JAKEMAN.

days in bed with intense pain and suffering. I was under the physicians care for over a year without any relief, when my attention was called to Lydia E. Pinkham's Vegetable Compound by several of our **Mormon women who had been cured through its use.** I began its systematic use and improved gradually in health, and after the use of six bottles my health was completely restored, and for over two years I have had neither ache or pain. You have a truly wonderful remedy for women. Very sincerely yours, MRS. HULDA JAKEMAN, Salt Lake City, Utah."

—$5000 forfeit if above testimonial is not genuine.

Just as surely as Mrs. Jakeman was cured just so surely will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

Mrs. Pinkham advises sick women free. Address, Lynn, Mass.

The guest of honour, who received with her hostess, wore a black gown with trimming of Irish lace and touches of blue, and a black picture hat trimmed with tulle and feathers. The house was charmingly decorated, the drawing room being arranged with a profusion of pink roses. Red roses in silver vases decorated the tea table, which was in charge of Miss de Salaberry, who was gowned in black with white silk blouse and picture hat. She was assisted by Miss Beatrice Hamilton, who was in black and white; Miss Frankie Stephen, who wore a gray tailor-made costume, and hat to match; Miss Baker, in cream voile with twine-coloured lace, and blue ribbons, and little Miss Grace Lewis, in a frock of accordion-pleated white silk.

In St. Luke's Church, Toronto, recently the marriage took place of Miss Emily D'Ouchy Holden, daughter of Mrs. John Rose Holden, of Hamilton, to Mr. Solon Chester Kelley, of Hartford, Conn. The bride was given away by Mr. William Laidlaw, K.C., from whose home she was married, and who also gave the wedding breakfast and reception. The officiating clergy were Rev. Canon Sutherland and Rev. Napier Burns, of Hamilton. Miss Holden was married in a gown of pale dove gray crepe de chine, with insertions and guimpe of white lace. She wore a white toque touched with very pale pink, and carried a shower bouquet of white roses and lilies of the valley. Miss Marion Laidlaw was bridesmaid, in a gown of crepe flowered with small roses and leaves, a rustic hat with a wreath of pink roses and foliage, and carrying a sheaf of Americal Beauty roses. A brother of the groom, Mr. M. Kelley, acted as best man. Messrs. Holden, of London, Eng., Morson and Ardagh were the ushers. The choir and organist rendered a full choral service, and the chancel was beautifully decorated with white asters and ferns. After the ceremony the bride and groom held a reception in Mrs. Laidlaw's drawing room, which, with the hall and library, was done with roses. The bride's going-away gown was a costume of dark blue, with white yoke, and a white and blue hat.

The marriage took place recently at St. Anthony's Church, Lennoxville, of Miss Marie Louise Breton, eldest daughter of Mr. and Mrs. P. Breton, to Mr. P. Otis, of Montreal. The bride was gowned in fawn cloth, and picture hat to match.

At the Victoria Club ball, in Toronto, on Friday night, Miss Jessie Scott, of Quebec, wore black sequined net over black silk. Mrs. Sweny wore white satin with touches of pale blue liberty ribbon, and Miss Street was in pale blue silk with cream lace.

Miss Ada Lindsay, of Montreal, is a guest of Mrs. W. Lennox Mills at "Bishop's Court," Kingston. Miss Lindsay was among those assisting at the tea table at the tea given by the Misses Ferguson in Kingston last week, and was also a guest at a large tea given by Mrs. Garrett on Thursday.

The marriage of Miss Katie Leavy, youngest daughter of Mr. Jos. Leavy, of Ste. Clothilde, to Mr. J. Ryan, of Hemmingford, took place recently, Father Laporte officiating. The mass was a choral one, and Miss Ida Pilon, of Montreal, cousin of the bride, sang an Ave Maria. The bride wore a white crepe de chine dress, with tulle veil and lilies of the valley, and carried an ivory prayer book. Her going-away costume was of black broadcloth, tailor made, with hat to match.

A very large number of young people and a few of the younger married set were the guests on Saturday at a very delightful tea given at "Undermount," Durocher street, by Mrs. James H. Peck to meet Mr. and Mrs. J. K. L. Ross. The hostess was assisted in receiving by her daughter, Miss Hester Peck, and by Mrs. Ross. The tea table, which was charmingly decorated with yellow chrysanthemums, was in charge of Miss Edith Molson and Miss Betty Burnett, assisted by Miss Porteous, Miss Skelton, Miss Sutherland, Miss Greta Murray, Miss Oswald, Miss Mabel Hickson, Miss C. Roy and Miss A. Ewan.

Lapointe, Terrebonne.

A Beer Bottling Case.

William Dow & Co., the brewers, have been troubled with complaints to the effect that of late their beer has not been up to the standard.

The complaints became so frequent that it was decided to put the matter in the hands of the Canadian Secret Service, and as a result a well known beer bottler has been summoned to appear before the magistrate to explain his selling Dow's ale in bottles which did not have the corks properly stamped.

Enjoyed Excellent Sport.

Mr. Rene Bauset, Assistant City Clerk, returned from a fortnight's hunting in the Ottawa region, where he had some excellent sport.

COMPLETELY BALD

ALFRED THOMAS.

SEVEN SUTHERLAND SISTERS, Montreal.

Ladies.—It gives me pleasure to say, that I have used your Hair Grower and Scalp Cleaner with great success. Twenty years ago my hair began to fall off and my head became nearly bald. I have tried various preparations, but the more I used the more bald I became. I have used the Seven Sutherland Sisters Hair Grower and Scalp Cleaner for three months and my head is covered with a new growth of hair, and it stopped the old hair from falling out, and also stopped the irritated sensation of the scalp. I can recommend the Seven Sutherland Sisters Hair Grower and Scalp Cleaner to the Public, as I owe the growth of my hair entirely to the Seven Sutherland Sisters Hair Grower and Scalp Cleaner.

I have had my photograph taken for you, which I give you the right to display and use in any way you may desire.

Respectfully yours,

(Sgd.). ALFRED THOMAS.

ONE HUNDRED THOUSAND YEARS OF HUMAN LIFE.

The Congress of Americanists, which lately met at New York, discussed amongst other things certain human remains found not long ago in a deep excavation or tunnel at Lansing, Kansas, and now known to the scientific world as the "Lansing Man." These remains resembled in every important particular the average skeleton of the present Middle States Indian, yet one of the speakers said that there was no reason why it might not be one hundred thousand years old. One is tempted to ask what nature was doing during all those long unrecorded centuries. A few hundred years carry us back to William the Conqueror. Less than two thousand bring us to the first contact of the Romans with the rude inhabitants of ancient Britain. Back of that all is darkness, so far as the annals of our ancestors are concerned. But two thousand years make only one fiftieth of the period during which it is wholly probable mankind existed on this continent. We learn from this how slowly nature does her work of construction. In the human being we see a spark of reason united to a material structure swayed by various physical attractions and repulsions. The problem of the future is: What shall the influence of that spark of reason be? What control shall it gain over the material mass? The long centuries are spent in solving that problem.

Without reason human creatures are the victims of a thousand accidents and dangers, which reason would enable them to avoid; and they perish in comparatively brief generations. There are survivors, however, and the experiment is tried over again and over again with tireless persistence, some slight gain being made with every few generations.

Natural selection of course comes into play. Those who enjoy length of years and produce most offspring will, as a rule, be those in whom the reasoning faculty has shown most activity, and amongst the offspring a similar process of selection takes place. By and by reason itself gets entangled in its own products, and superstitions result which antagonize reason's work. Not, however, absolutely, for by forming customary modes of thought they serve to give some regularity to human action. It is better that men should unite in an error or delusion than that they should not unite at all.

When, therefore, we begin to see how very gradually reason must assert itself; what a task it has to perform in directing human vision into profitable channels and safeguarding human life; what a very fitful guide at best it must be, and how it must utterly disappear before the gusts of passion and appetite, when we see, further, how its progress is clogged by its own products in the way of false theories, misleading analogies and fanciful notions of all kinds, some of them actually destructive of human life, we begin to understand in part the travail of the silent centuries. Long generations must pass before even the most primitive form of society is established. Lucretius, in his wonderful poem, points back to the time when men had no knowledge of the use of fire or even of the skins of animals. The less knowledge they possessed the less they co-operated with one another; and the idea of a common good or of common laws of conduct was absolutely beyond their grasp. Each man, as the poet says, carried off his own spoil, knowing only how to live and be strong for himself. And so the world wore on and on. The gains made from age to age were small, but they were wrought into the constitution of man, became bone of his bone and flesh of his flesh, until, in the long process of things, the beginnings of civilized society were here and there—only here and there—evolved. Amongst certain races the social stability obtained was in its nature unprogressive, the maxims dominating such societies being opposed to change. Thus, for some thousands of years, the Chinese race has been little else than marking time. It is undergoing an awakening now, and what the result will be the world is waiting, not with feelings of absolute confidence, to see.

The spark of reason has itself been transformed in the course of ages, and now it shines with the light of justice, of humanity, of the love of beauty, of religion. Not always nor everywhere. There are vast areas of society in which its work as yet has been but ill accomplished, and in the best of us at times the light flickers. The problem, therefore, remains with us to bring ourselves, and, as far as may be, the whole human race under the guidance of this divine light—the light that is capable of lightening every man that comes into the world.

REQUIREMENTS OF THE AMERICAN NAVY.

Ten Million Dollars Will be Spent This Year on Arms and Armament.

WASHINGTON, October 27. — Admiral O'Neil, Chief of the United States Naval Bureau of Ordnance, in his annual report, made public to-day, says that the Ordnance Bureau wants $13,182,806 next year, of which amount $10,000,000 is to be devoted to arms and armament for new ships. The bureau is preparing a new type of three-inch gun, five calibres in length, of a semi-automatic character, to replace all guns of this size now in use in the navy.

No improvement worth speaking of has been made in the quality of armour of late. All the new ships beginning with the Kearsage and Kentucky have been supplied with smokeless powder and, besides, some thirty of the older vessels have been thus supplied.

The most interesting event during the year as regards projectiles is the development of a new type of shell combining the advantages of the armour-piercing with the cannon shell; that is, having the perforating power of the regular armour-piercing projectile with the capacity for a large bursting charge.

A novel device tried during the year was the "tracer," which renders a shell visible during the night to the gunner, but invisible to the persons at the target, this being accomplished by the insertion of a burning composition in the base of the shell.

The use of electric power for handling guns and turrets is unqualifiedly endorsed as better than any other system.

The report concludes with an urgent plea for the better instruction of officers and men in gunnery.

Saturday's Royal Pageant Was an Impressive Sight

Over One Million People Turned Out to Witness It—Their Majesties Received a Warm Reception—The King Thanks His People.

(Special to the Montreal Star.)

LONDON, October 27.—There were probably a million and a half of persons along the six miles over which the Royal procession through London passed on Saturday, but the crowd was nowhere overwhelming or unmanageable. It was possible to move freely between the spectators and the buildings over a large part of the route. The stands and windows were well filled, but seats were everywhere available and could be had at 2 or 3 shillings each.

The royal pageant itself was impressive. It consisted chiefly of field guns, Life Guards, military chiefs, court dignitaries and members of the royal family.

The conditions for the parade were ideal for this season of the year. It was unreasonable to expect sunshine, but there was a glimpse of it when the King halted at Temple Bar to receive the welcome of the Lord Mayor. The air, however, was mild and dry and no discomfort was experienced during the long wait which many thousands endured with stolid British patience.

KING STARTED AT NOON.

Like almost all official functions in this country, the programme was carried out promptly. The King left Buckingham Palace precisely at noon, and the progress of the royal pageant was uninterrupted except at three points along the route which had been assigned for halts.

The spectators greeted with a cheer the bluejackets who were dragging guns in the van of the procession, many evidently being under the impression that these men were the crew of the cruiser Terrible, who took part in the war in South Africa and who are popular heroes of the day in England, but the Terrible's men took no part in the parade, having seats as spectators.

There followed batteries of Royal Artillery, squadrons of Life Guards, Horse Guards, Hussars and Lancers, all splendidly mounted, but with their uniforms concealed beneath long red or blue cloaks. Next came the staff of Earl Roberts, the Commander-in-Chief, and many mounted aides-de-camp to the King. Eight carriages followed, some containing Princess Victoria, Princess Louise, the Duke of Cambridge, Princess Christian, the Duchess of Connaught and Princess Beatrice. All of these were warmly welcomed and repeatedly acknowledged the cheers of the crowd.

An array of mounted equerries was next in line, and then came Lord Roberts at the head of the Sovereign's escort of Life Guards.

QUEEN WAS PLEASED.

The spectators really woke up as they then caught sight of the famous cream-coloured horses drawing the King's chariot. The cheering was prolonged and hearty as the King and Queen drew near. The King, apparently, was in good health. He wore the full uniform of a Field-Marshal, which was almost concealed by a heavy gray overcoat. The Queen was obviously pleased by the popular ovation which was accorded her and which she acknowledged smilingly. She was quietly attired in mauve and black. The cheering was continued for some moments until the royal couple had passed. A rear escort of the Life Guards brought the parade to a finish, its passing having occupied scarcely twenty minutes.

NOT MUCH DECORATION.

Nothing ambitious in the way of decorations was attempted on the Western portion of the route. Flags of all sorts and sizes strung between red Venetian poles decorated the streets, and flags, with a certain amount of drapery decorated the buildings. Some of the clubs and large buildings in Pall Mall and Whitehall, which were no longer covered with timber stands, looked more picturesque than during the coronation ceremony in August, when the decorations were more elaborate. In point of fact, in decorating, as in other ways, the West End took the day in a quiet mood. There was no early rush to secure places, and the first comers did not arrive before 8.30 o'clock. The appearance even in the neighbourhood of Buckingham Palace and the Mall was then normal, save for the presence of the soldiers and police.

By the time the procession passed the route from the Palace to Temple Bar was well lined with people, but with the exception of a very few places there was nowhere a really dense crowd.

BOER GENERALS THERE.

The Boer generals—Botha, DeWet and Delarey—were the guests of the London County Council on their stand in Trafalgar Square. They were well in the background and attracted no attention. They seemed to take a keen interest in the procession. After the parade had passed they were escorted through the lines up the Strand by a couple of policemen. The crowd recognized the generals and gave them a good-natured chaffing reception. There was no cheering such as that which they received when they arrived first in London from South Africa, but the greeting was perfectly good humored.

On the route from Temple Bar to the Guildhall there was no special feature save eight colossal gilded lions at Ludgate Circus. The Mansion House was adorned with mottoes, which were of an admonitory rather than of a loyal tendency, such as "Fear God," "Comfort the Sick," and "Relieve Distress." The royal party arrived at the Guildhall for luncheon at 1.07 o'clock.

LUNCHEON AT THE GUILDHALL.

The yard of the Guildhall had been converted into a large pavilion where the Lady Mayoress by noon had received 800 guests at luncheon.

Seven hundred covers were laid in the great dining hall, and here the luncheon guests first took their seats. Then the King and Queen and members of the royal family entered, the Lord Mayor carrying the city sword before Their Majesties and halting a few yards before the dais, facing the royal table.

The King and Queen and other royalties took up positions on the dais. The Lord Mayor, Sheriffs and other municipal officers approached, making three reverences. The Recorder read the address and handed it to the Lord Mayor, who, kneeling, delivered it to the King.

The King, in a loud, clear voice, read this reply:

"It gives much pleasure, both to myself and the Queen, to receive in person the loyal and faithful address of the centre of municipal authority on the occasion of our progress through the capital of the Empire, and to receive the greetings of our people on our coronation. Your confidence that my favour will be extended to every measure calculated to ameliorate the conditions of my subjects is well founded, and of the numerous important questions which come under your consideration, none appeals more strongly to my interest and sympathy than those directly touching on the welfare of the poorer classes of this and other great cities. I thank you for your good wishes for myself and my house. I cordially share your aspiration that it may be granted me by the same divine providence which preserved my life from imminent danger to reign over my firmly established and peaceful empire, and in the loyal hearts of my contented and prosperous people."

The King handed his reply to the kneeling Lord Mayor. Several presentations were made to the King, after which the Lord Mayor and Lady Mayoress led Their Majesties to the table.

BRILLIANT LUNCHEON.

The luncheon commenced at 1.25. It was one of the most brilliant gatherings that ever assembled at the Guildhall. Every one attending was in uniform, court costume or evening dress. Among those present were Prime Minister Balfour, Colonial Secretary Chamberlain, Lord Rosebery, the Duke of Devonshire, and the leading members of both political parties.

The luncheon included turtle soup and huge barons of beef. The soup was the only hot dish.

MME. ALBANI SANG.

At 1.50 the Common Crier called for a toast to His Majesty the King. Mme. Albani, who was in one of the galleries, sang "God Save the King," and the whole company joined in heartily. There were toasts to the Queen, to the other members of the Royal family, to the Lord Mayor, and to the prosperity of the city of London.

Shortly before 2 o'clock the King and Queen and other members of the Royal family left the dining hall and went into the withdrawing rooms, while the officers of State, the military men and the equerries entered their carriages. Their Majesties left the Guildhall at 2.20. The crowd cheered them heartily, and the procession started on the return to Buckingham Palace by the south side of the river. The King and Queen reached the palace shortly after 3.30. Later they appeared on the balcony and were loudly cheerd by the crowd which had assembled below.

THREAT TO BLOW UP STANDS.

LONDON, October 27.—The Rev. George Martin was arrested Saturday morning at Southwark. He had a pound of powder in his possession, with which, he said, he intended to blow up the stand at St. George's Church, erected to accommodate spectators of the royal procession through the city.

Martin holds strong views in regard to the desecration of churches, and at the time of the coronation made threats against several church stands.

THE CRUISER BOGOTA ARRIVES AT PANAMA.

PANAMA, Colombia, October 27.—The Colombian cruiser Bogota (formerly the British steamer Cutch, and later the Jessie Banning) arrived here to-day from San Francisco, October 7. Captain H. H. Marmaduke, her commander, says that the vessel had a slow trip because the crew were exercised at target practice all the way down the coast. She stopped at Magdalena Bay for about thirty hours to tighten parts of her engines and for target practice. The Bogota made very good time after that, taking the outside course, and reached here in fine condition, with no sickness on board and ready for action. Soon after the Bogota's officers had landed they were shown the fortifications and sights of the city. Captain Marmaduke visited Generals Perdomo and Salazar, who welcomed him most cordially.

The Colombian gunboats Chucuito and Clapet are under the orders of Captain Marmaduke, who, as chief commander, will have charge of the Colombian fleet, which he will reorganize.

BRITISH MILITARY ATHLETES MAY COME.

CATSKILL, N. Y., October 27.—Major-General S. B. M. Young, U. S. A., is a guest of George W. McLanahan, of Washington, D. C., at Mr. McLanahan's country home here. General Young said to-day that a published report in relation to the coming to America of non-commissioned officers of the English army was misleading. It is possible, he said, that the Englishmen, who are trained athletes, may come over and give exhibitions at the military tournament at Madison Square next spring, and such exhibitions, he added, might prove interesting to Americans as showing the results of physical training in England. The English training, according to General Young, is not superior to the system at West Point, but is much better than can be found at American military posts. The English non-commissioned officers in question are from the first regiment stationed at Aldershot, in command of General Sir John French, and represents physical development in its highest form.

Probabilities for the next twenty-four hours, specially predicted for the Montreal Star at 11 a.m. to-day: Cloudy, with scattered showers; strong north-westerly winds to-night.

Tuesday—Strong north-west and north winds; fair and cooler.

Maximum and minimum temperatures during the past twenty-four hours: Victoria, 52, 50; Kamloops, 50, 42; Calgary, 44, 22; Qu'Appelle, 48, 28; Winnipeg, 42, 32; Montreal, 36, 36; Halifax, 44,30; Port Arthur, 50, 36; Parry Sound, 54, 40; Toronto, 58, 48; Ottawa, 32, 32; Quebec, 34, 28.

MONTREAL, Oct. 27th, 1902.

Readings by the Optical and Engineers' Supply Company's standard barometer at noon yesterday, 30.54; at 8 a.m. to-day, 29.90; 11 a.m. to-day, 29.89; temperature to-day, maximum 55, minimum 36; yesterday, maximum 45, minimum 29.

Sun rose this morning at 6.46 o'clock. Will set this evening at 5.37 o'clock.

THE LONDON TIMES ON CHAMBERLAIN'S TRIP.

A New Departure Which it is Hoped Will Prove a Success.

(Special to the Montreal Star.)

LONDON, October 27.—In an editorial on Mr. Chamberlain's approaching visit to the South African Colonies the Times says: "It constitutes, we trust and believe, a new departure in the consolidation of the Empire. We sincerely hope this statesmanlike departure from routine rules of administration may bear such fruit as to insure that it will become a precedent. Nothing, we are confident, could contribute more effectually to the growth of Imperial feeling at home and in the Colonies than a series of such visits to each of the chief groups of British possessions successively. Can we doubt that the step will deeply impress Europe, and perhaps more deeply impress our kinsmen beyond the Atlantic with the sincerity of our desire to cement the Empire we have built up by the contentment and loyalty of its people."

SUNDAY SERVICE AT ST. PAUL'S CATHEDRAL.

LONDON, October 27.—The last ceremonies connected with the inauguration of the reign of King Edward VII. occurred yesterday, when the King, accompanied by Queen Alexandra, the Prince of Wales, and almost all the members of the Royal family, drove to St. Paul's Cathedral, and offered up thanks for the recovery of his health.

The weather was rainy, and small crowds marked the royal progress through the metropolis. Temple Bar the Lord Mayor of London and the corporation met the King, and escorted him to the Cathedral, where in the naive were gathered several thousand persons, including Premier Balfour, leading members of the nobility, almost all the members of the Cabinet and the foreign ambassadors to Great Britain, among whom was Mr. Choate.

The Hon. Artillery Company formed an imposing line, but before the service was over, several of the artillerymen had fainted as a result of long standing.

The choir, the chapter and the Bishop of London, the Right Rev. Arthur Ingram, escorted the King and the Queen to the throne under the reredos. There was a full choral service of thanksgiving, followed by a sermon from the Bishop of London, who laid special stress upon the fact that this was the second time in His Majesty's life that he had entered St. Paul's to give thanks for his recovery from a dangerous illness. At the conclusion of the sermon the Te Deum was sung.

The Royal party then returned to Buckingham Palace, being greeted wherever the crowds were large enough to raise a cheer. In spite of the rain, King Edward ordered the carriages to be kept open, and Queen Alexandra bowed and smiled from behind a small umbrella.

King Edward was dressed in the uniform of a field marshall and wore the decoration of the Order of the Garter.

From the days of the first Edward to that of our own King Edward successive Lord Mayors of London have vied with one another in the splendour and magnificence with which they have entertained the reigning monarch at the Guildhall.

NOTED FEASTS OF THE PAST.

One of the first and most sumptuous of the feasts given at the Guildhall was that in honour of Queen Isobel ("une de plus femmes du monde," according to Froissart) on the birth of a son to herself and Edward II., when, according to an ancient chronicle, "the conduit of Chepe ran with wine for all those who chose to drink." Again there was a "most faire feast" in honour of the Black Prince on his reurn from Poictiers, which the clerk of those days would insist on spelling "Payters." One of the most imposing of the banquets was that given by Sir Richard Whittington to Henry V. and his beautiful French wife—his English-lisping Catherine—on the victor's return from Agincourt. The King, despite his extravagance, beloved by all for his intrepidity and courage and his winning manners. One is not therefore surprised to read of what happened at the feast. Henry was a creditor to the Lord Mayor to the extent of £60,000. Previous to the feast the King was standing near the fire which had been made up in the old Hall of cinnamons and other spices and fragrant woods. Whittington was standing by his side chatting. What they were talking about is not recorded, but suddenly Sir Richard, producing the bonds for the £60,000, threw them into the fire, thus at his own expense releasing the King from debt! "All were amazed," says a contemporary chronicler, "at such a step, and Henry exclaimed, 'Never had prince such a subject,' to which Sir Richard courteously replied, 'Never had subject such a prince.'"

16TH AND 17TH CENTURIES.

Again in 1554 we find that Philip and Mary were entertained at the Guildhall, the mayor and aldermen officiating as butlers. In the year 1641 a feast of almost unparalleled magnificence was given, the occasion being the return of Charles I. to London from his useless journey to Scotland. How different this to the following year, when Charles again went to the city to demand the surrender on a charge of high treason of Pym, Hampden, and others—there to be greeted with the cries of "Privilege!" "Liberty of Parliament!" and "Liberty!" Charles II. was so delighted with the civic receptions that he dined with the Lord Mayor the record number of nine times.

414 DIFFERENT DISHES.

In 1729 George II. ascended the throne, and in accordance with precedent he accepted an invitation to dine with the Corporation at the Guildhall, where he went with his Queen and daughters. In the following reign George III. was entertained at a banquet at which there were no less than 414 different dishes, exclusive of the dessert. The Lord Mayor waited on the King, and the Lady Mayoress on the Queen, but as soon as the "proceedings," as they are called, commenced, they were requested to sit and partake.

Of all receptions and banquets none have greater interest than those given in honour of Queen Victoria, when the Corporation decided to outdo all previous functions. Neither labour nor expense, indeed, has been spared to entertain with befitting magnificence the members of the present royal house of England, one of these, that to our present King and Queen on their marriage, costing £60,000, and not one of them less than £10,000.

MR. CHARLES THOMPSON DEAD.

For Many Years He Was Cashier of Intercolonial Railway.

(Special to the Montreal Star.)

MONCTON, October 27. — Charles D. Thomson, late cashier of the Intercolonial Railway, died here last night, after nearly a year's illness of heart disease. Deceased was a native of Charlotte county, N. B., and was descended from the Loyalists. He was in the sixty-third year of his age. He was appointed cashier of the Intercolonial Railway in 1876, and previously was ticket agent at St. John. He was only recently succeeded by Mr. A. E. Wall as cashier.

Married for 71 Years.

(Special to the Montreal Star.)

ST. JOHN, N. B., October 27.—Mr. and Mrs. Wm. Kierstead, of Colling, King's County, will celebrate, to-day, the 71st anniversary of their wedding. Mr. Kierstead is 94 years of age and Mrs. Kierstead is 90. It is expected there will be a large gathering. G. W. Ganong, M. P., of St. Stephen, a nephew, will be one of the principal guests at the celebration. Mr. and Mrs. Kierstead can perhaps claim the provincial distinction of being the longest married couple.

New Brunswick Saw Mills Burned.

ST. JOHN, N. B., October 27.—The extensive and valuable saw mill properties of Jardine Brothers, at Rexton, formerly Kingston, Kent county, were destroyed by fire last evening.

Union Mutual Life Insurance Co. Pays Judge Bourgeois' Claim in Three Days.

To Walter I. Joseph, Esq., Manager Union Mutual Life Insurance Company, 157 St. James Street, Montreal, Que.:

Dear Sir.—I hereby acknowledge receipt of draft for $5,000 issued by the Union Mutual Life Insurance Company, of Portland, Me., in payment of death claim re policy No. 53122, carried by late Hon. Judge J. B. Bourgeois, in your Company.

I desire, in my capacity as executor of the will of the late Judge, to testify to the satisfaction I feel at the exceptionally prompt manner in which the Union Mutual has paid this claim, being only three days after claim papers were forwarded to your office. Such businesslike methods as those adopted by your Company must necessarily commend themselves to the discerning public, and I am not at all surprised that the Union Mutual carries large lines on the lives of many of the most prominent men in the Dominion.

I wish, in conclusion, to express to you personally my thorough appreciation of your courtesy in arranging the details re settlement of this claim with such despatch, and I can assure you I shall constitute it both a pleasure and duty to speak a good word for the Union Mutual Life Insurance Company, of Portland, Me., whenever the opportunity arises.

I am, Dear Sir,

Yours very truly,

(Signed), J. J. E. WOODS, M.D.,
Inspector of Public Offices,
Executor of the Estate of the late Hon. Judge Bourgeois.

Get the Most Out of Your Food

You don't and can't if your stomach is weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are uneasiness after eating, fits of nervous headache, and disagreeable belching.

"I have been troubled with dyspepsia for years, and tried every remedy I heard of, but never got anything that gave me relief until I took Hood's Sarsaparilla. I cannot praise this medicine too highly for the good it has done me. I always take it in the spring and fall and would not be without it." W. A. NUGENT, Belleville, Ont.

Hood's Sarsaparilla

Strengthens and tones the stomach and the whole digestive system.
