

ST. MARY'S, BEAUCE, SWEEP BY FIRE

Over Seventy Dwellings Houses Were Destroyed Up To Eleven O'clock To-day. Fire Started Last Evening at Ten O'clock, and is Still Raging. Lightly Families Are Already Homeless. Loss Will be Heavy.

FIRE STILL RAGING.
(Later)
Up to 11.30 this forenoon, over 70 houses and buildings had been burned down and the fire was then still raging. With a strong wind blowing, it now looks as if the whole village will be wiped out. Nothing can be done to stay the flames, and even the blowing up of buildings has been futile. The people are in desperation.

Up to 10 o'clock this morning, over fifty dwelling houses and four stores had been burned to the ground in St. Mary's, Beauce. At that hour the fire was still raging.
What at first seemed to be an insignificant fire broke out at about 10 o'clock last night in a shed between the store belonging to Mr. Turnival and that of Mr. Morency. This was in the residential part of the town. A strong wind was blowing at the time, and the flames spread with lightning rapidity. House after house was attacked, and the people were practically helpless, as there were no fire-fighting appliances.

HELP FROM LEVIS.
When it was apparent that a serious conflagration would result, help was asked for from Levis. An engine and detachment of men were sent up by a Quebec Central Railway special which made record time over the journey.
UNABLE TO STAY FLAMES.
When the men from Levis arrived at St. Mary's some thirty-five or forty houses had been consumed. Although the engine was set to work, the Levis firemen were unable to get the flames, which had spread over

AMENDMENT TO MINING LAWS

Price of Concessions Reduced to Five Dollars an Acre

PROVISION IS ALSO MADE FOR BETTER PROTECTION TO THE MINERS.
Quebec, Nov. 22.—In the Legislature yesterday afternoon, Hon. Mr. Devlin, Minister of Colonization, Mines and Fisheries, presented his amendments to the mining law. The first amendment, he explained, was to make clearer the definition of mineral substances which belong to the owner of the surface rights.
Another amendment repeals article 2103 introduced many years ago in the mining law in order that the owners of surface rights who had not obtained the patents of their lands on July 24th, 1880, might file their claims to the mining rights with the department. Such owners have now had many years to avail themselves of this provision, which is now obsolete.

The most important of the amendments is the one which reduces the price of mining concessions from \$20 and \$10 an acre to \$5. "Our prices have always been very high," and very few sales are made. In Ontario the prices per acre are \$3.50 and \$2.50, whereas in British Columbia the mining claims are Crown granted on performance of assessment mining work, without having to pay for the land," said Mr. Devlin.
Another amendment gives to the holder of the mining license the privilege of doing two years' assessment work in one year. This amendment also protects him, in case of sickness, he has been unable to perform his assessment work in the course of the year.
The last amendment is to ensure the safety of the men working in the mines. This amendment gives power to order the mine operators to stop or remedy any practices or state of things which the inspector or state deems dangerous to the safety of the workmen.
Hon. Mr. Allard, Minister of Crown Lands in the absence of Premier Gouin, submitted a resolution for increasing the grant to Laval of Quebec by \$3,000 for the maintenance of the normal school. After discussion a bill was submitted based on the resolutions and carried on third reading.

FATHER OF LABOUR DAY PASSES AWAY

Geo. McGuire Was First to Suggest Labour Holiday

FIRST TOOK UP THE SUBJECT AT A CONVENTION IN CHICAGO IN 1884.
Manchester, N. H., Nov. 22.—(Special)—George McGuire, known in Labor circles as "The father of Labor Day," died here last night. Mr. McGuire, who was a cigar maker, first made the suggestion of a labor holiday at a labor convention in Chicago in 1884. He renewed the suggestion at later conventions and from his efforts resulted the widespread observance of Labor Day.

FIRST MONEY GRUBBERS' WAR

In Review Of Mexican Situation London Paper Scores U. S.

UNCLE SAM HAS BEEN FLOCHING TERRITORY FOR THE PAST SIXTY YEARS.
London, November 22.—Under the heading, "A Money Grubbers' War," the Outlook today publishes a bitter article on the Mexican situation. "Across the Atlantic," the Outlook says, "there is in busy preparation, if certain forces can accomplish it, a crime against civilization, against humanity. At any moment we may hear of its first overt stages, with inevitably the ensuing slaughter of tens of thousands of young Americans and half-armed peasants, the devastation of humble towns and rude countryside, the sufferings of the helpless and the innocent, and the outpouring of millions of money. "And all for what or for whom? Wars have been waged for military ambition, but who is the Napoleon of the United States? They have been due to colonial expansion, but half the States are sparsely peopled; and they have been fought for liberty—and what have we seen lately sheltering under this claim? "But there is no pretense of this or of any of the historic reasons here. A war between the United States and Mexico, if it arises, will be the first war waged solely for private greed—the first money grubbers' war."
After saying that the United States has been floching territory from their neighbor for sixty years and have reduced weak states to obsequious dependents through the Monroe Doctrine, "which means anything it is required to mean," the Outlook predicts that American dollars will create revolutions in Trinidad and Jamaica, as it alleges that they did in Panama, and predicts the annexation of the northern Mexican states.
"If the guides of American opinion, among whom we refrain from mentioning Dr. Wilson," the article concludes, "get their way, in a few weeks, perhaps days, Jim Smith of Virginia will be cutting the throat of Leon Ramirez of Morelos in the sacred name of the oil trusts and the band of Wall Street hyenas."

STUDENTS ROUGH ON CHANCELLOR

Undergraduates at Oxford Pelt His Auto With Stones

TOOK PART IN A DEBATE AT DEBATING SOCIETY ON THE LAND QUESTION.
London, Nov. 22.—(Special)—Chancellor of the Exchequer Lloyd George was the guest last night of the Oxford Union, the undergraduates' debating society, and took part in a debate on the land question.
He got a hearty reception, but there was a great show of hostility on the part of undergraduates and others in the street.
The Chancellor's auto was pelted with stones and the windows smashed.

LAST MINUTE TELEGRAPH DISPATCHES

KITCHENER FOR INDIA.
London, Nov. 22.—(Special)—Rumor says Lord Hardinge will retire as Viceroy of India with the New Year, and will be succeeded by Lord Kitchener.
HOSPITAL PATIENTS POISONED.
Rome, Nov. 22.—(Special)—Ten persons at the Umberto Primo Hospital here were poisoned yesterday by a cordial administered by the orders of one of the physicians. One died and seven are in a serious condition.
ZEPPELIN VI. STARTS ON FIRST TRIP.
Friedrichshafen, Germany, Nov. 22.—(Special)—The most modern of Zeppelin airships, the Zeppelin VI, intended for the service of the German army, ascended from Lake Constance to-day and started on her first trip, during which she will try to reach Gottha, about 250 miles due north.
PRINCE ARTHUR RETURNS THANKS.
Ottawa, Nov. 22.—A cordial letter, addressed to Premier Borden, has been received by the members of the Government from Prince Arthur of Connaught in acknowledgement of the wedding present sent by the Federal ministers on the occasion of His Royal Highness's marriage last month.

INVITATION TO CANADIAN PRESS

Publishers May Hold 1914 Convention in This City

CITY'S INVITATION FAVORABLY RECEIVED — COMMITTEE STUDYING PRACTICABILITY OF EASTERN MEETING.
The executive of the Canadian Press Association, at its meeting in Toronto, this week, received the invitation of the City of Sherbrooke to hold its next annual meeting in this city, in June next.
The invitation was exceedingly well received, the idea of coming to the Eastern Townships appealing strongly to the members.
The invitation was referred to a special committee to study the practicality of coming so far east for the meeting. The only question involved is as to whether a large attendance could be secured for the meeting, which for the bulk of the membership would involve practically a week's absence. It is probable that a circular will be sent out to the membership in this connection.
In the meantime the Secretary was instructed to acknowledge to the Mayor of Sherbrooke the invitation which will undoubtedly be accepted if the committee finds that the convention can be pulled off successfully in connection with a week's trip through Quebec.

WASHINGTON, D. C. LAWYER SUICIDES

James A. Twohey Was Chief Counsel For C.P.R. at Capitol

NO REASON CAN BE ASSIGNED FOR ACT IN AN OTTAWA HOTEL.
Ottawa, November 22.—James A. Twohey, a Washington D. C. attorney, and chief counsel for the Canadian Pacific Railway in that city, was found dead in a room at the Grand Union Hotel yesterday afternoon. He was lying on the floor of the room before a chiffonier, and his right hand clenched a broken razor. His throat was cut from ear to ear. The man had evidently made every preparation to end his life, as he had placed a wash basin in front of him and it was partly filled with blood.
On a table in the room was a letter addressed to Mrs. James A. Twohey, 3179 Eighteenth street, Washington, D.C. This has been taken charge of by Coroner Dr. Baptie, who is investigating the case. No next will be held.
Twohey arrived in Ottawa Wednesday morning of this week and was taken from the C.P.R. station by the railway constable to the hotel, apparently ill.
The body is being held, pending instructions from relatives.
PROMINENT IN WASHINGTON.
Washington, Nov. 22.—James A. Twohey, the Washington attorney who committed suicide in Ottawa, Ont., was prominent in legal circles here, his practice being before the various executive departments of the Government and the Inter-State Commerce Commission. He left here for the West on a business trip about two weeks ago, in good health and apparently the best of spirits. His family could assign no reason for his act.
Mr. Twohey, who was born in Burlington, Vt., 43 years ago, is survived by a widow and five children.

BANQUET TO PREMIER BORDEN

WILL BE GUEST OF E. T. CONSERVATIVES IN SHERBROOKE IN DECEMBER.

Ottawa, Nov. 22.—Rt. Hon. R. L. Borden, prime minister of Canada, will be the guest of honor at a banquet of Eastern Townships Conservatives at Sherbrooke early in December. Messrs. Baker and Cromwell, M. P.'s, are in Ottawa preparing for the event.
Mr. Borden has also accepted an invitation to a dinner to be given at Washington by Sir Cecil Spring-Rice, British ambassador, in the first week of December.

APPREHENSION IN DURBAN

EUROPEANS ARE ARMING THEMSELVES AGAINST ATTACK FROM EAST INDIANS.

London, Nov. 22.—The Daily Mail's correspondent at Durban says apprehension exists there owing to the desperation of the hungry East Indians, who are out on a general strike and that Europeans are arming themselves in fear that the Indians will begin looting.
The correspondent adds that the colliery employers are keeping the Indian workers in a barbed wire enclosure, the wire being charged with a powerful electric current supplied by the generating stations.

BOMB FACTORY IN CALCUTTA

CORRESPONDENCE FOUND MAY LEAD TO ARREST OF VICE-ROY'S ASSAILANT.

Calcutta, Nov. 22.—A police raid on a suspected house in Calcutta, yesterday, led to the arrest of four men and the discovery of a new bomb factory.
A quantity of correspondence found in the building is believed to give a clue to the inner circles of the anarchic conspiracy which has resulted in many recent outrages, including the attempt to kill the viceroy with a bomb at Delhi last December.

\$600,000 FOR TORONTO EXHIBITION

Citizens will be Asked To Vote Authorizing Such a Loan

MONEY WILL BE USED FOR THE ERECTION OF SIX NEW BUILDINGS.
Toronto, Nov. 22.—(Special)—Six hundred thousand dollars are wanted from the public by the directors of the Canadian National Exhibition, for the purpose of erecting six new buildings at the fair grounds, and the City Council will be asked to submit a by-law to the ratifiers on January 1st to authorize them to borrow this amount.
The two most important of the proposed buildings are a new machinery hall and a live stock arena.

REPRISALS AGAINST TEXAS THREATENED

Mexican Liberal Party Ask For Mercy For Ammunition Smugglers

INDUSTRIAL WORKERS OF THE WORLD HAVE BEEN IDENTIFIED WITH CHARGE.
San Antonio, Texas, Nov. 22.—(Special)—Activities on the Mexican Liberal Party in Texas, sometimes called the Mexican branch of the Industrial Workers of the World, have been revealed, State officers say, through their investigation of a recent telegram to Governor Clegg threatening reprisals against Texas if mercy is not shown the Mexican ammunition smugglers charged with murder.
Several of the smugglers claimed membership in the Industrial Workers of the World.

ABDICATION OF KING FERDINAND

Ruler of Bulgaria Will Step Down From Throne Shortly

MYSTERIOUS RUMORS ARE IN CIRCULATION CONCERNING CROWN PRINCE.
London, Nov. 22.—The Daily Mail's Vienna correspondent, in a despatch printed to-day, says that King Ferdinand of Bulgaria is about to abdicate and connects with it mysterious rumors concerning Crown Prince Boris, who has left Sofia. According to some reports the Crown Prince quit the capital because he had received threatening letters, while others have it he has gone to a sanitarium in Hungary owing to a nervous breakdown.
FAMINE THREATENS IN NEW ZEALAND.
Christchurch, New Zealand, Nov. 22.—Famine is threatened here and in Wellington as a result of the general strike and the government officials are appealing to the Australian government to send workmen to relieve the stagnation.

THE WEATHER

LOCAL FORECAST.

Fresh winds, shifting to southerly and westerly; a few scattered showers, but generally fair and mild.

DETROIT HAS DESTRUCTIVE FIRE

Manufacturing Plants Destroyed and Others Were Threatened

THE LOSS IS ENORMOUS. FLAMES WERE STILL RAGING THIS MORNING.
Detroit, Mich., Nov. 22.—(Special)—Six manufacturing plants were destroyed and surrounding factories and lumber yards threatened by a sweeping fire in the Frost mill on Weight street, which started early last night and was still raging this morning.
The loss is enormous, and the spread of flames to the surrounding buildings may bring the damage to greater amounts.

THAW MAY ASK FOR LUNACY BOARD

Question is Under Consideration By Attorneys for Matteawan Fugitive

IF DECLARED SANE BY THE UNITED STATES COURTS IT WOULD BE COMPLETE VICTORY.
Concord, N.H., Nov. 22.—Harry K. Thaw may ask Judge Aldrich of the United States District Court, before whom his petition for habeas corpus writ is now pending, to appoint a lunacy commission to determine his sanity.
The Thaw counsel were busily engaged yesterday, it was learned, in consulting the law to determine if this could be done. They were also seeking to find just what material advantage Thaw would derive from the interpolating of this element into the case.
"I would welcome any inquiry into my sanity," Thaw has steadfastly declared.
The probability of the move to have a lunacy commission appointed is strengthened by the recent consultation Thaw had with two of the most prominent alienists in America, who were closeted with him all day in his room at the Eagle Hotel.
If Thaw were declared sane by a lunacy commission appointed in the United States Courts, it would be a complete victory for him, as it would render his return to Matteawan impossible.

NO CONFIDENCE IN W. J. BRYAN

Mining Expert Says He Would Not Invest in Foreign Country

THAT IS, AS LONG AS PRESENT SECRETARY OF STATE HOLDS OFFICE.
Worcester, Mass., Nov. 22.—(Special)—John Hays Hammond, the mining expert, speaking here last night at the closing session of Clark University Conference of Latin America, declared that he would not invest a cent in a foreign country as long as William J. Bryan is Secretary of State. He said any man who would make such an investment is lacking in sense.

NEW CANADA WEST INDIES SERVICE

Halifax, N.S., Nov. 22.—(Special)—A new fortnightly steamship service, between Canada and the British West Indies will be inaugurated to-morrow with the sailing of the steamship, Cobiquid, of the Royal Mail Steam Packet Company. The establishment of the service is a part of the campaign inaugurated by the Government some time ago for the development of Canadian trade with the West Indies.

ST. FRANCIS DISTRICT LOCAL HAPPENINGS

Daily Reports From Correspondents of What is Going on

CAPELTON.

A benefit supper and concert, on behalf of Mrs. Wm. Beattie and children, was held in the Albert Hall, on Tuesday evening, November 18th under the auspices of the L.O.L. "Royal William" of which lodge the late Wm. Beattie was a valued member. Mr. Beattie was also a member of

the I. O. O. F. and the lodges in Waterville and Sherbrooke responded nobly to the appeal made to them and bought tickets freely. The hall was tastefully decorated with bunting and flowers, and the long tables groaned under the burden of good things. Supper was served at six o'clock, and the guests, including contingents from Waterville, Sherbrooke and Hatley, to the number of close upon 200, did ample justice to the ample fare provided. Too much praise cannot be given to the good ladies of Eustis and Capelton,

who furnished the provisions, and worked so hard waiting upon the tables serving the hungry guests. A temporary bar had been rigged up in one corner for the sale of ice cream and soft drinks, the proceeds from which made a considerable addition to the benefit proceeds. When supper was over and the tables cleared away and the crowd seated, the Worshipful Master of the Lodge, Bro. Frank Pearce, in a few well chosen words, thanked the assembled guests for their patronage of such a worthy cause, that of extending a helping hand to the widow and fatherless, and then vacated the chair in favor of Bro. John Wood, L.O.L. "Lord Ernie" Waterville, the senior Orange officer present. Bro. Wood in a humorous speech also thanked the company for their presence, and announced the concert programme. The Executive Committee were very fortunate in securing the services of that gifted musician, Miss Alice Pareno to preside at the piano, for her solos and accompaniments left nothing to be desired. Miss Pareno opened the programme with a brilliant piano-forte solo and later on obliged with another which were highly appreciated. Mr. Andrew Thomas gave three comic recitations, one of which concerned Mr. Geo. Zilrim's racehorse, which made the audience rock with laughter. Miss Willis contributed two charming solos and also sang a duet with Miss A. Pareno. Little Louise Shackleton sang "Daddy" in a sweet childish treble, which was received with great applause. Mr. Wm. Smerdon obliged several times with gramophone selections.

The Waterville contingent also showed up well in the programme. Mrs. E. Fitz-ackerley sang that charming Irish ballad, "Fileen Ailannah." Mrs. T. Sibley, "The Star of Bethlehem" Mr. T. Sibley a rousing military song, "Heroes and Gentlemen." Mr. E. Fitz-ackerley, who has quite a reputation as a humorous vocalist, contributed three comic songs which literally brought down the house. The programme being finished "God Save the King" was sung by all present, after which an auction was held to dispose of the contents of the feast. Everything was put up for sale, and the auctioneer, being up to his business, good prices were realized, which all went to swell the fund. The company then dispersed, well satisfied with the evening's entertainment. The proceeds were over one hundred dollars, which, after expenses were paid, will leave quite a substantial sum for Mrs. Beattie.

See Black Fox, page 5.

LAKE MEGANTIC.

On Thursday the thermometer registered over 50 degrees here, an extraordinary circumstance for so late in November.

Mr. Fred Parry shot a swamp or black partridge recently. It is quite a rarity to see one of these birds in this district. It is much smaller than the regular spruce partridge, and much darker in color, a small head and short pointed tail and the plumage much closer and the feathers smaller than in the birds we get here.

Mr. Albin, who succeeded Mr. Wm. Wood as locomotive superintendent here, has again been succeeded by Mr. Sarney, whose family have moved to town and taken up their residence in the house of Mr. J.B. Simpson, in Ames.

Mr. Alin McRae, of Drumavack, who recently had a serious fall in his barn is reported to be improving. Miss Annie Murray of North Hanover, who has been seriously ill, at Hanover, N.H., arrived at her home recently. She was accompanied by Miss Anna B. McKenzie.

A very well attended box social was held Thursday evening in the Mason Hall, under the auspices of the Royal Templars of Temperance. There were many pretty boxes, for which two prizes were given, the first one being awarded to Miss Annie McDonald, and the second one to Miss Clara Terrell. The judges were Messrs. Bartholomew and Wynne. After a very enjoyable time the party broke up about 1.30 a.m. See Black Fox, page 5.

NEW GRAND TRUNK PACIFIC BRANCH.

On Monday, November 10th, the Grand Trunk Pacific opened their Regina Boundary Branch Line between Regina, the capital of Saskatchewan, and Northgate, Sask. 155 miles passenger service being in effect at that time, leaving Regina at one p.m. Monday, Wednesday and Friday, and leaving Northgate, Tuesday, Thursday and Saturday at 10.30 a.m.

AYER'S CLIFF.

An "All Round the World" Social was held at the Congregational Parsonage, Ayer's Cliff on Thursday. A delightful evening spent by nearly a hundred people. The social was held under the auspices of the Woman's Missionary Auxiliary, assisted by the young people of the Christian Endeavour and Sunday School and others. The entertainment of the evening was in charge of Mrs. F. A. Jognston. Following the social games, in which nearly all had some share, a programme was given, consisting of music and recitations in which the following persons had parts: Piano duet, Florence Bacon, Hazel Chamberlain; solo, Mrs. F. A. Johnston; piano duet, Cora Beas, Alice Buc; recitation, Mrs. Libby; piano solo, Miss Dustin; duet, Mr. and Mrs. F. A. Johnston; solo Miss Chamberlain; recitation, Mr. C. R. Rufford; piano duet, Miss Dustin, Mrs. Johnston; recitation, Mrs. Johnston; piano solo, Mr. W. M. Hislop, Montreal.

At the close of this programme, refreshments were served which gave an opportunity for another social hour, which was enjoyed by all.

A good collection was taken in aid of the missionary work of the Society. See Black Fox, page 5.

RICHMOND.

Mr. John R. Nutter, a prominent G.T.R. Railway official, will speak next Sunday evening at the Methodist Church, especially to railroad men.

A social gathering in the interests of the Brotherhood was held in the Methodist Church, Melbourne, Thursday evening. A very enjoyable evening with good results is reported. Mrs. E. M. Dickson is seriously ill at the home of Thos. Bushell, College Hill, Richmond.

The Record recently reported the brave action of Mr. Paul Alonde, engineer on the G.T.R., who stopped the express near Sherbrooke at a great risk to himself saved the lives of some children. Your correspondent's attention has been called to the error in the name. It is Mr. Paul Londe, of Richmond, and is favorably known here. Such bravery should not go unnoticed or unrewarded.

Mrs. Evans and daughter, Muriel, of Greenville, N.Y., are spending a few weeks with her mother, Mrs. R. McMorrin, Melbourne.

J. D. Smith, District Deputy Grand Master L.O.O.F., paid a visit in his official capacity to Drummond Lodge No. 57, South Durham, at their regular meeting Tuesday evening, Nov. 18th. See Black Fox, page 5.

SCOTSTOWN.

Councillor M. A. McKenzie is still in a very serious condition.

Rev. Samuel Clark and family left for Holland, Vt. last Wednesday. Mr. Clark has accepted the pastorate of the Advent Christian Church of that town.

Mr. Clinton McDonald and family have moved away to Prince Edward Island, Mr. McDonald's home town.

This weather is giving everyone a chance to bank their house before the cold weather sets in.

The funeral service of the late Mr. George Mayhew who died last Wednesday at the home of his daughter, Mrs. Dana McKay, was held on Friday at 9.30 a.m. in St. Alban's Church, Rev. J. B. Dickson officiating. There was a large attendance of relatives and friends. The teachers and pupils of the Model School attended in a body, as Mr. Mayhew had been janitor of the school for a number of years. The late Mr. George Mayhew was 85 years old, having passed his 85th birthday since he was taken sick which is about six weeks ago. The deceased was a member of a large family, which came from England some 75 years ago. Mr. Mayhew being only a boy ten years old when his people came to this country. In those days there were few railroads and there were not even any highways in this section of the country, and the late Mr. Mayhew has told the writer many tales of adventure of those early days when a young man engaged in helping to survey some of the townships in the County of Compton. The late Mr. Mayhew was also a Fenian Raid Veteran. He has been a resident of this town for over 32 years and was well known by all in this section. Among the relatives who mourn his loss are five brothers, Messrs. Alfred Mayhew and William Mayhew of Canterbury; James and Ebbie, who live out West; Robert Mayhew, of this town; three sisters, Mrs. T. Cook, of Gould Station; Mrs. M. Goodie, Sr., of Canterbury; and Mrs. B. Lavallie, of Birchton; four sons, Mr. Chas. Mayhew, of Gould Station; Mr. John Mayhew of this town and Messrs. Walter and Ernest Mayhew, from New Hampshire; two daughters, Mrs. E. Paige, and Mrs. Dan McKay, both of this town. The interment was in the Episcopal cemetery at Bowan. See Black Fox, page 5.

ber of years. The late Mr. George Mayhew was 85 years old, having passed his 85th birthday since he was taken sick which is about six weeks ago. The deceased was a member of a large family, which came from England some 75 years ago. Mr. Mayhew being only a boy ten years old when his people came to this country. In those days there were few railroads and there were not even any highways in this section of the country, and the late Mr. Mayhew has told the writer many tales of adventure of those early days when a young man engaged in helping to survey some of the townships in the County of Compton. Walter and Ernest Mayhew, from New Hampshire; two daughters, Mrs. E. Paige, and Mrs. Dan McKay, both of this town. The interment was in the Episcopal cemetery at Bowan. See Black Fox, page 5.

FLANDERS.

Mr. W. H. Gates has been rushing his "drive" the past few days. Mr. George Laize has purchased 100 acres of land from Mrs. Alvan Lake. Owing to the Sawyerville mill being closed Mr. Alvan Lake has been very busy in his grist mill.

Arrivals and departures: Mrs. H. J. Hofer and son, visiting her aunt, Mrs. B. Leberveau; Messrs. R. Lake and R. A. McIntosh, at their homes over Sunday; Mr. and Mrs. Wells Rogers, Sawyerville, and Miss Edna Bailey from Birchton, recent guests of Mr. and Mrs. Alva Lake; Mrs. Bates home from a short stay in Colebrooke, N.H.

SAWYERVILLE.

Mrs. Homer Gregoire entertained the Ladies' Guild of the Roman Catholic Church on Wednesday afternoon. There was a large attendance of visitors and members. The hostess served a delicious lunch.

Mr. Herbert Bartholomew, of Frampton, has secured a position in one of the local mills.

The W. A. was entertained very pleasantly at the home of Mrs. John Hurd on Thursday afternoon. There was a good attendance. The final quilt for the bazaar was tacked and much business prior to the annual meeting next month, was discussed. The hostess served refreshments. See Black Fox, page 5.

STANSTREAD.

Mr. R. Rolfe has recently bought out the stock and trade of Mr. J. H. Clark, and will continue the blacksmithing business in the old Papineau shop at the north end of the Plain.

Mrs. S. Murdoch is visiting her sister and friends at Lennoxville and Sherbrooke.

Mr. J. A. Begin has gone to Victoriaville to visit his son, Tancrede, who is in school there.

Mr. W. Keating has succeeded Mr. Foster as engineer on the branch trains.

Mrs. Fred McGaffey has returned home from Sherbrooke, where she has been caring for her daughter, Mrs. T. Southwood. See Black Fox, page 5.

MELBOURNE.

Messrs. G. W. Ewing and Theodore Webb left on Thursday for Brockville as delegates to the convention being held there.

Recent arrivals and departures include: Mr. James Hastings to Danville a few days with friends; Mr. G.

Lambly, of Montreal, in town Thursday on business; Misses Evelyn and Elva Cross to their home in South Durham after spending a few days with friends.

Miss Ada Rose, who is suffering from a severe attack of rheumatism, is at present a little better.

The annual Xmas tree and entertainment in connection with the Congregational Church will be held on Friday evening, Dec. 26th, in the basement of the church. A large and varied programme will be prepared. Miss Mae Skinner returned home on Friday after spending a few weeks in Sherbrooke with friends.

Messrs. W. E. McIver, H. B. Aylmer, E. Emmerson, G. Campbell and others left on Friday for a week's stay at Brompton Lake. See Black Fox, page 5.

UPPER MELBOURNE.

Mr. John Davidson, of Melbourne Ridge, who has been ailing for the past few months, was removed to the Sherbrooke Protestant Hospital for treatment. He was attended by Dr. Johnston, of Richmond.

Mr. W. H. Fowler is cementing up his well so that it will hold the water and keep impurities out.

Mrs. C. Peplin is able to sit up a little each day after being laid up for over two months. See Black Fox, page 5.

DANVILLE.

Mr. and Mrs. B. H. Barnard and infant and Master Andrew left this week to spend the winter in Florida. They were accompanied by Miss Estelle McKean, who will also spend the winter there.

Mr. O. M. J. Ingalls is putting in a new set of scales at the hotel, in place of the old ones. They will have a capacity of 10,000 lbs.

Mr. Jos. Masson, who has been quite seriously ill for several weeks, is now able to be up. Although not entirely well, Mr. Masson gets down to the store occasionally. See Black Fox, page 5.

CLEVELAND.

Arrivals and departures include: Miss Cox, of Montreal, visiting Mrs. Maud Healy; Mrs. Smith her home in Shipton after visiting her daughter, Mrs. Alex. Stewart.

The Ladies' Aid social of Cleveland held at "Ferncliff" on Tuesday evening was a decided success notwithstanding the disagreeable night. About fifty turned out and they made the neat sum of \$5.40. See Black Fox, page 5.

A Cube to a Cup

Every minute of every day and night Oxo Cubes are being used to strengthen—to invigorate—to save time and trouble. **Much better than Beef-Tea**

Every invalid—old and young—every busy man and woman desirous of maintaining health and "fitness"—needs Oxo Cubes. They combine the rich nourishing prote in with the stimulating beef-essence—the very elements that build up the strength and keep the body "fit."

UNLIKE OTHER FOODS, NONE OF THE STRENGTH THAT OXO CUBES IS LOST IN THE PROCESS OF ASSIMILATION.

Simple—handy—delicious—no cooking—no measuring—no waiting—no waste—just add hot water—and stir. Ready in one minute.

Box of 4, 10, 20 and 50 Cubes.

OXO CUBES

VIN ST. MICHEL

Youth is a critical period in the life of the young girl. Careful mothers know by experience the value of a powerful Tonic at that time and prescribe

VIN ST. MICHEL to prevent Anemia, Weakness, blood discoloration and Nervous Exhaustion.

Vin St. Michel should be taken in doses of a wineglassful before meals or whenever the need of a Tonic is felt.

Hitch yourself to a "STARR"

"STARR" HOCKEY SKATES

That's the starting point of your real skating pleasure. Swing out with broad, confident strokes, cut your corners with ease and speed—off down the straightway—your partner keeps pace with perfect rhythm and you feel the breezes in your face—your blood runs freely—you feel it is good to be alive—you skim over the ice—your "STARR" Skates don't dig—don't stick—they seem like wings.

The "STARR Tube" Hockey Skate (shown in star above) is preferred by discriminating users of the Tube Skates. The light, thin, strong, "Glass Hard" blades make it exceedingly popular. "STARR" Skates are equally good for artificial or natural ice.

(Trademark "Regal" copyrighted at Ottawa.)

All "STARR" Skates are unconditionally guaranteed—if they break, take them back and get a new pair free of cost.

See them at all Sporting Goods and Hardware Dealers.

"Isn't it a BEAUTY"

Drop-doors both on Oven and Warming Closet. Tiled or plain back. Large deep fire-box—a coal saver. Easy working grates. Sliding top sections.

BEAUTIFULLY polished, easy-to-clean steel body. All nickel doors on the warming closet. Heavy plain nickel trimmings that can be taken off when the range is being cleaned.

You cannot help but stand in admiration of the Monarch Range. It is handsome. But its real beauty is this: It saves coal—gives you the best service at a low cost.

There is something in our Book "The Cost of a Range" that every economical housewife should know. Let us send you a copy.

BABY'S OWN SOAP

Many happy Mothers are using Baby's Own Soap in the nursery not merely because they themselves were washed with it, when infants, but also because experience has shown that no other soap will help the skin so much—make it so white, so smooth—be so pleasant to use—and cost as little.

Baby's Own Soap is best for Baby and best for you.

Imitations and substitutes are made as cheap as possible; Baby's Own is as good as clean.

FALLING HAIR
Dandruff and Itching Scalp are Caused by Microbes

There is no doubt about it. Doctor Sangerbond proved it when he injected a guinea pig with dandruff germs and all its hair disappeared in a short time.

Paris leads the world in knowledge of diseases of the hair and remedies for the same.

Parisian Sage which can now be obtained at leading druggists all over Canada is the one great remedy that kills the dandruff germs.

It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair.

Removes disfiguring growths of hair from the face, neck or arms. IT ACTS INSTANTLY WHEREVER APPLIED, leaving the most delicate skin perfectly smooth and clear.

EL-RADO is a scientifically prepared, thoroughly tested and absolutely safe depilatory. Its superiority can be demonstrated with a single application.

HEINTZMAN & CO. PIANOS.

The leader of all Canadian Pianos, and one of the world's best instruments. Higher in price than other Canadian-made pianos, but superior from every point of view, and worth every dollar they cost.

Heintzman & Co. Pianos are used by nearly all great artists who visit Canada, and in practically all the leading colleges of music, convents, etc., in the Dominion.

We have an extra good assortment in stock this week, including the small Parlor Grand in polished mahogany case; a full line of all sizes in Upright Pianos, both full polished cases or the new "Art" finish. The Heintzman & Co. Player Piano, with Patent Metal Action, probably the best player-piano made.

You will never regret the investment in a Heintzman & Co. Piano, and you will find our prices and terms reasonable. We allow fair value for used pianos of any make.

No trouble for us to see your piano and give you an estimate of cost for exchange. Main piano show room is on the first floor up. Special room for Player-Pianos on the same floor. You are invited to call.

CITY NEWS

Do not forget the cheap sale going on at H. J. Labere's store, Lennoxville.

Miss Gladys Chamberlain has gone to Magog for the week-end and will be the guest over Sunday of Mrs. Ernest Williamson.

Mrs. I. N. Batchelder and Mrs. J. H. Spry and little daughter, Althea, have returned home from a few days visit to friends in Lyndonville, Vt.

The Victorian Order of Nurses has now a permanent telephone for Miss Orford, the district nurse. The number is 204.

Miss Moe and Miss Hubbard wish to announce that they have for sale art needle work. Suitable for Christmas gifts, at 57 Moore Street and 33 Queen Street. A call solicited.

The winning number drawn at the Shamrock's Benefit night on the 20th was 991.

Mr. J. M. Jencks is out of town on a business trip to Montreal and St. Catharines, Ont.

The Ladies' Aid of the Baptist Church will hold their annual sale of work in the Church on Thursday afternoon, Dec. 4th. Watch for further announcements.

Mrs. White, of Coaticook, was the guest this week of her daughter, Mrs. F. Colwill, and has returned home, accompanied by Mrs. Colwill, who will spend the week-end.

To save money buy your Christmas gifts at St. Faith's Guild sale next Saturday. Nothing over \$1.

Taylor Satefor sale. One Taylor safe, new, cost \$115. Will sell for \$70 for cash to immediate purchaser. Dr. Williams, city.

Mr. and Mrs. David Wilson, Miss Alice Wilson and Mrs. H. J. Duffett left to-day for Black Lake for a week-end visit to friends.

All kinds Fire Wood for sale. Phone 574, R. A. Lamont, City Wood Yard.

Miss Golda Smith from Coaticook, is visiting her sister, Mrs. Harold Morgan, Frontenac Street.

Mrs. G. E. Borlase, who has been confined to bed as a result of an accident in Montreal, is alighting from a street car, is able to be up again, and, her friends will be glad to hear has nearly recovered her health.

Colonel Worthington returned from a business visit to Ottawa.

A meeting of the Graduate Nurses of Sherbrooke and the surrounding district will be held in the Art Hall, Monday, November 24th, at 3 p. m. for the purpose of forming a Graduate Nurses' Association. It is hoped that all graduate nurses who can possibly do so will attend.

Mr. R. A. Lamont, formerly with F. N. McGee, has purchased the City Wood Yard and will continue the business at the same place, Belvidere Street. Orders for all kinds of firewood given prompt attention. Prices right for good wood. Your patronage solicited.

Mrs. F. Colwill held her post nuptial reception Wednesday, with Mrs. C. E. Soles, also a recent arrival, at their home on Portland Avenue. Mrs. Colwill, who was gowned in her wedding dress, of white satin duchesse, with lace and diamonds trimming, was assisted by her mother, Mrs. White, of Coaticook, and Mrs. Soles, in pale gray silk, with garniture of pink roses, was assisted in receiving by Mrs. W. S. Dresser.

The drawing room was decorated with flowers, and in the dining room the tea table had a lovely centre of yellow chrysanthemums on lace. Mrs. Edward Poutre poured coffee, and Miss Van Vleet tea. The jellies and

Knights of Columbus

Attention is called to the fact that the social evening arranged for Tuesday, November 25th, has been postponed until Thursday, the 27th. Mr. E. Hazen Drury, of the firm of Welsh and Drury, Ottawa, is in town for the week-end.

Social Club for Baptist Bar-ACA Class.

The members of the Baptist Baraca Class gathered at the home of the President, Mr. C. G. Brown on Fulton Avenue last night. A very pleasant social time was spent in games, music, etc. after which a business meeting was held. It was unanimously resolved to form a Social Club in connection with the class and a hall on the Esplanade will shortly be fitted up for this purpose. The Club will be under the control of a special committee and will, it is expected, maintain hockey and basketball team teams in addition to providing social and intellectual enjoyments.

First of Winter Entertainments.

The great eucure bridge, under the auspices of the Cercle Larocque, Young Catholic Association, was the first of a series of entertainments at the Monument National during the season and was entirely successful, upwards of 250 being present. The numerous tables were filled shortly after eight o'clock, and for two hours the games were keenly contested, while the room resounded with laughter and conversation, mingled with the easy music of Bourgeois's Orchestra. The prize winners were the following: Euchre, ladies prize, first, Mrs. J. P. Jutra; second, Miss Rose E. Boucher; third, Mrs. Louis Fissette.

Gentlemen, first, Mr. Pierre Clement; second, Mr. H. Girard; third, Mr. Ernest Paradis.

Bridge prizes, ladies, first, Mr. O. E. Thibault; second, Mr. C. Basin. Gentlemen, first, Mr. L. F. Codere; second, Mr. T. T. Deslisle. Scorekeepers' prize, Miss M. L. Bourque. Entrance prize, Mrs. Napoleon Boucher.

Refreshments were served at a late hour.

Royal Templars of Temperance.

Sherbrooke Council No. 121 Royal Templars of Temperance, held their annual "rally" on Thursday evening in the Sons of England Hall. Mr. Henry Bartlett presided, and after the usual roll call and the reports of the officers, ten new members were initiated, while two names were proposed. The presence of the Grand Organizer, Mr. George Mockford, who has been doing good work in Megantic, added to the pleasure of the occasion.

In Mr. Mockford's brief address, he congratulated Sherbrooke Council on its great increase in membership and said that he hoped that a new era of prosperity was about to begin. The R. T. of T. offered exceptional facilities in the way of insurance and sick benefits, and he was glad to see so many taking advantage of them, and at the same time swelling the ranks of the temperance army. He hoped their enthusiasm would grow in strength and be communicated to others. A committee was appointed to arrange for the programme of the winter, consisting of Messrs. G. Philips, Draw, J. Sawyer, and P. T. Mrs. Geo. Phelps, Mrs. Hallett, Miss Mansford and Miss E. Houlahan.

Refreshments were served before the members dispersed and a social half hour was spent.

Students' Musical Club.

A charming programme was given at the fortnightly concert of the Students' Musical Club, this week, which took place as usual at the Academy of Music. The opening number was a brilliantly executed piano duet "Overture Op. 306" (Carl Bohm), Miss Mary Hubbard and Mrs. Whitney, which met with its meed of applause.

Mrs. Kathleen Robins, whose winning personality and sweet voice are always an attraction, was heard to the best advantage in "All For You" by D'Hardirot, and later in "Calm as the Night" (Bohm).

Miss Flaherty, a recent member of the club, contributed a piano solo, Sonata op. 22 G. Min (Schumann), which was notable for its facility and artistic finish, while her second solo was also a Schumann number, the sparkling "Papillons op. 2" a gay tone poem.

Two delightfully harmonious and tasteful quartettes, "Carmena" (H.

ices were served by Mrs. C. B. Howard and Mrs. Robert Dean. Looking after the guests were, Mrs. N. C. Flicher, Mrs. Harold Morgan, Mrs. Nutbrown, Miss Irene Webster and Miss Golda Smith, of Coaticook.

To-day, November 22nd, is the Festival of St. Cecilia, the patron saint of music.

Messrs. L. C. Belanger, K.C., J.A. Leblanc, K.C., and C. O. Cabana were in Montreal this week attending the Court Review.

Miss Richardson, of Montreal, has returned home from Sherbrooke where she was the guest of her cousin, Mrs. G. H. Parsous.

Invitations have been issued by the Football Club of the University of Bishop's College, Lennoxville, for a dance to be given on Thursday evening, December 27th. The patronesses are Mrs. Farrock, Mrs. Vial, Miss Gill and Mrs. Burt.

The first of a series of six dances was given by the "X's" this week at the handsome Hall in the Metro-pole building, which was beautifully decorated for the occasion in the club colors, red and purple. A large number of guests, principally of the young dancing set, were present, and were received by Mrs. O. G. Gendron and Miss Mudd. Music was furnished by Turcotte's Orchestra and as the floor was in excellent condition and partners were plentiful, the enjoyment was unalloyed.

WILL CELEBRATE ST. ANDREW'S DAY.

The Burns Club will celebrate St. Andrew's Day on Friday evening next. A fine programme of the Auld Scotch Songs is being arranged, and Mr. John Macdonald will give a few words on the patron saint. It will be a good opportunity for the Scotch folks to have a wee bit crack, for a cup o' tea will be handed to each after the programme is completed.

Lane Wilson) and (a) "Sleep Little Child," (Spence) (b) "The Maid and The Buttery" (d'Albert) were sung by Mrs. Malcolm Mackay, Mrs. Parker, Mrs. Sangster and Mrs. Read. The shading was admirable, and the four voices were in perfect accord. The National Anthem closed an evening of enjoyment.

ON TRACK OF HORSE THIEF.

Dear Sir:-

I saw through the columns of the Sherbrooke Daily Record that a man had stolen a whole rig from Mr. W. Baldwin, Pittsburg, N. H., and other stuff. He stopped down the road and tied his horse to a telephone pole at six o'clock in the morning and inquired the road to Lake Mearns. He wore a grey coat, dark moustache. The horse was a dull bay and he had an express wagon.

Yours Truly,
 G. J. LOCKE.

COLUMBIA

No one thing gives so much real pleasure to so many people, at so little cost, as a Columbia "Grafonola."

E. C. FRASER,
 "The Druggist"
 Sole Agent for Sherbrooke.

FEW FOLKS HAVE GRAY HAIR NOW

DRUGGIST SAYS LADIES ARE USING RECIPE OF SAGE TEA AND SULPHUR.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

BEAVER BOARD

takes the place of lath, plaster and wall-paper in every type of building

We Sell a Car of Beaver Board Every Month

in Sherbrooke and vicinity, to say nothing of the numerous shipments made to customers direct from the factory.

Will Improve Any Building

Beautiful walls and ceilings add 100 per cent to the effectiveness of your home. To that advantage you may add many others by using

Beaver Board

It is made in large panels of pure-wood-fibre.

It is quickly and easily put up.

It can be painted in beautiful and durable colors-is never covered with unsanitary wall-paper.

It needs no repainting as it does not crack.

Let us show you just what it looks like, and tell you its 41 great advantages.

BEAVER BOARD IS BEST for the builder to use, BECAUSE it has proved its superiority to every other article for the class of work intended. IT SATISFIES.

We carry a very large stock in the following sizes:

32 inches wide x 72 inches long.
 32 inches wide x 84 inches long.
 32 inches wide x 96 inches long.

Agriculture: Stock Raising: Farm Notes

OPENING OF THE SILO

The silos will soon be open and winter feeding begun. Many will open their silo for the first time in its history and much depends upon their adventures in compounding rations in which silage figures as a part. Bear in mind that much of the good derived from this fodder comes from its succulent nature as well as from the food material which it contains. It does not answer all the requirements of the animal body and must be supplemented with hay and grain. The amount dairy cattle will profitably consume depends upon the size of the animal and the amount of milk produced. A 1,200 to 1,300-pound cow, giving forty pounds of milk, testing three to four per cent, should receive about 40 pounds of silage; 10 pounds clover hay, and eight to ten pounds of grain mixture made up of oat-cake meal, bran and chop. A smaller cow, yielding 30 pounds of milk, would require 30 pounds silage; 10 pounds clover hay and 7 to 10 pounds grain mixture. They should clean up the manger at each feeding, and a wise herdsman will slightly underfeed rather than have the stock mess over the fodder and leave some in the manger. When silage is fed directly after milking, odors are less likely to be noticed later in the milk.

Stockers and beef cattle will consume a considerable amount, but the quantity fed will depend largely on the other roughage at hand. Twenty-five, thirty or thirty-five pounds, varying with the quantity of roots, corn stover or grain to be disposed of, will not be out of the way. Roots, corn stover, hay, oil meal, corn and chop, all help to make up the ration and the feeder should so balance the mixture that each fodder do a certain service in the economy of the animal system. Breeding cows will do equally well on a liberal allowance of silage, and be in better condition at calving time than if hay and grain constituted the entire daily mixture. When the calves are being weaned they too will take kindly to a small boxful of silage. They require some dry matter and silage will furnish it along with succulence and palatability. They may be given all they will clean up and by the time they are one year old they will consume about one-half as much as mature stock. Good silage, not mouldy or frozen, is greedily devoured from the sheep rack with no unfavorable results. The feeding of silage to sheep has been discouraged by some, but it is hard to locate a case where care was tak-

AGRICULTURAL CONDITIONS IN CANADA

Falling Off in Yield of Potatoes and Other Root Crops

AREA ESTIMATED TO BE SOWN FOR FALL WHEAT FOR 1914 LESS THAN 1913.

Ottawa, Nov. 22.—(Special)—The Census and Statistics Office has issued the usual bulletin upon agricultural conditions throughout Canada as reported by correspondents at the end of October. The report gives estimates of the areas, yields and values of root and fodder crops, of the area sown to fall wheat for next year's harvest, of the proportions of plowing completed this fall and of the acreage summer fallowed in 1913.

The total area under root and fodder crops (potatoes, turnips, mangolds, etc., hay and clover, alfalfa, fodder corn and sugar beets) is placed at 8,693,000 acres, and the total value of the products from this area at \$187,399,100. The estimated total yields and values of these crops are: Potatoes, 76,720,000 bushels, value \$37,379,000; turnips and other roots, 73,090,000 bushels, value \$20,103,800; hay and clover, 10,050,000 tons, value \$114,789,000; fodder corn, 2,436,300 tons, value \$11,273,500; alfalfa, 251,700 tons, value \$2,895,000; and sugar beets 161,000 tons, value \$959,000. These figures are provisional, as finally corrected returns, based on the Census of 1911, will be available for publication at the end of the year. The average yields per acre for the Dominion are reported as 165.85 bushels for potatoes as compared with 172.19 bushels last year; 354.12 bushels for turnips and other roots as compared with 402.51; 1.32 ton for hay and clover as compared with 1.47 ton; 8.64 ton for fodder corn as compared with 10.26, and 2.44 tons for

alfalfa as compared with 2.79. It will be recalled that last year's wet season was especially favorable for roots and fodder crops. In quality all these crops are marked as about 90 or above 90 per cent. of the standard, excepting fodder corn which is 85. The potato yield is highest in New Brunswick, 244 bushels, and lowest in Ontario, 119 bushels. The area estimated to be sown to fall wheat for the crop of 1914 totals 1,006,700 acres, as compared with 1,086,800 acres; the area estimated to have been sold in 1912 for 1913. This represents a net diminution for the five provinces of Ontario, Manitoba, Saskatchewan, Alberta and British Columbia of 80,100 acres, or 7.37 per cent. Ontario, where nearly seven-tenths of the crop is grown, remains practically stationary, the estimated total reduction being only 2,000 acres from 636,000 acres. There is a diminution of 1,100 acres in the two provinces of Manitoba and British Columbia, offset by an increase of 6,000 acres, making 78,000 acres in Saskatchewan. The bulk of the reduction is therefore in Alberta where the acreage is estimated as 229,000 as against 312,000, or a decrease of 83,000 acres—nearly 27 per cent. Correspondents attribute this decrease to the excessive amount of winter killing of fall wheat during the last three years in consequence of which many farmers have given up this crop altogether. The condition of fall wheat for all Canada averages 93.74 per cent. of a standard, Manitoba and Saskatchewan showing the best condition with 95 and 96 points respectively. The percentage of fall plowing completed compares well with last year, when however the conditions were exceptionally unfavorable. The percentage ranges from the lowest of 30 in Saskatchewan to the highest of 70 in Quebec. In Manitoba and Alberta the respective percentages are 58 compared with 27 last year and 44 compared with 24. As compared with 1912 all the provinces devoted a smaller area to summer fallowing, excepting Prince Edward Island and the three Northwest provinces, where the increased percentages are from 2 to 5.

THE COST OF MARKETING

In the past the cost of production and the practical problems involved therein has been uppermost in the minds of agriculturists, and most of the attention devoted to agriculture

has run along the production groove. There is still much to be accomplished at the productive end of the business, but marketing and disposing of the products of the soil has of late been occupying the minds of the least business men and some of the scientists engaged in the calling. Many are able to grow large crops but all do not understand marketing, and fewer still have any idea what it costs them to place their goods in the hands of the purchasers. Especially is this the case with the man who sells small loads on the open market. We read from time to time startling accounts of how a man with a few dollars started truck farming, and by carting his own goods to the market in a few years was able to show profits of any where from \$1,000 to \$3,000 annually off a very small acreage. We are not saying that this cannot or is not being done, but the word painter of such rosy pictures says nothing of the ninety-nine others who make little more than a living. Truck farming is a profitable business rightly operated, but the man who spends all day marketing two or three dollars worth of produce, drives from two to fifteen miles to and from a center of population, pays for horse feed and his own meals while in town, cannot become a Carnegie in the short span of an average life.

A few Saturdays ago there was a large crowd in the London, Ont., market. A few statistics prepared for another purpose revealed some startling facts. That particular Saturday two hundred and ninety-five people were represented, and their loads amounted to \$2,637.92 in value, or an average for 209 loads of \$12.62 each, or a per capita average of \$8.94 each. It would be fair to estimate at least one-third of these rigs as requiring two horses. This being true it took 295 people, 295 single and double rigs, including buggies, demogags and heavy wagons, and 280 horses a whole or part of a day to market \$2,637.92 worth of farm produce. Let us see just how many hours it actually required to dispose of this produce. According to figures given by those interviewed the total time spent on the road and on the market combined by all these people and horses (of course the horses were in hotel stables, but were doing nothing) was for people, counting double time for those rigs with which two people came to market, 1,694 hours, and for horses, counting one third of the wagons as two-horse vehicles, 1,586 hours; or in other words, if one man did all the marketing he would have spent 1,694 hours on the road and on the market, and one horse would have required 1,586 hours. This means 1694 working days of ten hours for a man. A man's time would be worth \$2 a day at least. This being so his wages would amount to \$339. A horse should be worth at least \$1.00 per day. At this low rate horse labor would be worth \$158. Keeping the horse shod and general wear and tear on rigs, etc., would amount to 25 cents per day, or another \$40. At

the very lowest possible estimate, then, not covering any accidents or misfortunes and reckoning the men who in most cases are the proprietors of the farms represented at common laborer's wages, we see that it costs, not including meals and horse feed, \$537 to market \$2,637.92 worth of produce or a little over 20 per cent. of its total value. From figures given by those interrogated it cost them for meals and horse feed exactly \$112.25. Add this to \$537 and it brings the total up to \$649.25 or very close to one quarter of the entire value of produce sold.

A few concrete examples are worth citing. Two people came in with one rig, they drove seven miles, spent 6 hours on the road and on the market (or 12 hours for one person) paid 45 cents expenses, and their load sold for \$2.25. Another drove seventeen miles, spent seven hours on the road and on the market, paid 60 cents for horse feed and meals, and marketed 5.25 worth of produce. Still another drove 20 miles, spent eleven hours on the road and on the market, it cost him 45 cents in town, and he had a load valued at \$4.50. There were scores in this class, marketing all loads, driving long distances and making, when all expenses are counted, small wages. One of these markets weekly, the other two twice per week.

Contrast with these the man who lives only two miles from market, sells a forty-five dollar load with only 35 cents expense in town, or the man living one and one-quarter miles out and selling twenty-dollar loads at 25 cents expense, or even the man living eighteen miles out and selling a load valued at \$140. These are actual cases. In the last named instance the man was seven hours on the road and seven on the market, but his expense was only 85 cents and he had a load.

All these figures were obtained from the people marketing the goods. Scores of instances should be cited from them to prove that it does not pay to drive long distances with small loads if horse time and man's time is valued at anything. The truck farmer or market gardener must either draw large loads or must live near town. The man obliged to travel a distance to market must, in all cases to make greatest profit, draw large and valuable loads. Marketing costs a great deal more than most people imagine. Small wonder that land for gardening sells high close to cities when the difference in time required to market produce is considered. There is a good chance for the man located farther out if he will produce abundantly, market in large loads and less frequently, and always at smallest possible expense. Those living at long distances from large towns and having only two or three dollars worth of produce should co-operate in marketing. By clubbing together they could make up large loads and save expenses, or in many instances the railroad could be used to advantage. Economy in selling is just as important as economy in producing.—The Farmers' Advocate.

When you purchase "SALADA" you are getting the maximum of quality at the very minimum of cost. "Not a doubt of it."

BLACK or . . . Sealed Lead Packets Natural Green } only—Never in Bulk

THE HORSE

Swine are good in their place, but that place is not near the horses.

If the horse can be excluded from the atmosphere breathed by all other animals, so much the better for the horse.

Do the horses have a salt box in their manger or piece of lump salt they may lick at any time? They will appreciate it, and suit their own taste as to the amount they must consume.

When training the colt this fall do not depricate it on account of a little nervous temperament. This character when recognized and discreetly handled, makes for intelligence and stamina in the animal.

POULTRY

Like the dual-purpose cow, the bred-to-lay hen is not nearly so attractive in appearance as her show-yard sisters, but notwithstanding her lack of brilliant plumage and her bad markings she is the real money maker.

It would be more desirable to make broilers of the very late-hatched chicks than to winter them over. Such chicks do not often commence laying until late next season and their places should be filled by layers.

Poultry is being shipped in car lots from Canada to the United States. Cattle are not the only farm stock to be affected by the tariff change. Christmas goose, turkey and duck may be higher in price than ever.

Provide a separate house for the poultry. This branch of agriculture is growing in favor year after year, and when given care in proportion to that bestowed on the other branches of the business is found perhaps the most profitable of all.

We have seen poultrymen winter a number of ordinary cockerels with the flock of hens. Far better would it be to crate fatten them now, if

this has not already been done. Wintering any cockerels but those intended for breeding purposes is not profitable. They, to use a common expression, "eat their heads off."

There is little to be gained by changing breeds as every new fad develops with the poultry fanciers. Once a hardy, heavy-laying strain has been developed stick to it. Provided the breed is one of the recognized general-purpose breeds or one of the heavy-laying breeds and is doing well it is more than likely a change would bring disappointment. It is always good policy to stick to the tried flock.

Chilblains So Bad He Couldn't Wear Boots

Douglas' Egyptian Liniment Cured Him

Though thousands suffer from chilblains every winter, few are laid up with them as was Mr. J. A. McFarlane, of Napanee, Ont. What cured him will surely cure anything in the way of chilblains.

Mr. McFarlane writes: "Douglas' Egyptian Liniment cured me of chilblains. My case was so bad that at times I was confined to the house, the affected parts being so sore and festering that I was unable to wear boots. Many remedies were tried without benefit, until I procured Egyptian Liniment, which gave immediate relief. Whenever I feel symptoms of this trouble returning, one application of the Liniment is sufficient to check it."

It's wise to keep a bottle of Egyptian Liniment always on hand, ready for immediate use when needed. In the case of frost bites, burns or scalds, it gives instant relief.

25c. at all Druggists. Free sample on request. Douglas & Co., Napanee, Ont.

NOT ICE--CRUELTY

Any person witnessing acts of cruelty to animals, please report at once to S.P.C.A. INSPECTOR.

will be a meeting of the Directors and Patrons of the Hatley Centre Creamery at the School House at Hatley Centre on Tuesday evening at 7 o'clock.

\$3,500 FOR FARM.
East Farnham, Nov. 22.—(Special)—Mr. Chauncey Hawke sold his farm to Mr. Harry Dougall, of Farnham Centre. The price paid was \$3,500.

DISLOCATED SHOULDER.
Stanstead, Nov. 22.—(Special)—Mrs. N. J. Wheeler fell through a hole in the woodshed floor on Tuesday, dislocating her shoulder and breaking one of the small bones in her leg.

LARGE CUT OF LUMBER.
Scotstown, Nov. 22.—(Special)—The Scotstown Saw Mill Company has already about a million feet of logs on its rollways.

WILL SOON HAVE STOCK ON MARKET.
Scotstown, Nov. 22.—(Special)—The Scotstown Mfg. Company will have shares to put into the market in a very short time.

LUMBERMEN WANT COLDER WEATHER.
Scotstown, Nov. 22.—(Special)—The lumbermen are wishing for colder weather so as to freeze up the swamps so that logging may be conducted to more advantage.

NEARLY CAUGHT IN BEAR TRAP.
Granby, Nov. 22.—(Special)—Mr. Neil Fotheringham was nearly caught in a bear trap set for deer last Sunday. The jaws of the trap caught his heel but his foot slipped out, fortunately, or he would have had a lonesome time until his comrade, Mr. Geo. Jackman, who was separated from him by nearly a mile, could have come to his rescue.

STOP TRESPASSING ON C. P. R. TRACKS.
Scotstown, Nov. 22.—(Special)—An effort is being made by the C.P. Railway to stop all trespassing on the railways. The reason of this special effort is because so many accidents are happening on account of people walking on the company's property.

BROKE INTO BARBER SHOP.
West Shefford, Nov. 22.—(Special)—The barber shop belonging to Francis Bienvenu was broken into on Wednesday night and goods to the value of about \$50 taken. Anyone offering any razors or brushes for sale should communicate with High Constable Boisvert as it is believed the guilty party will try to dispose of them in this way.

FARM PROPERTIES CHANGE HANDS.
Lorne, Nov. 22.—(Special)—Mrs. Thomas Bagley has sold her farm to Mr. Jeron, of Tingwick, for the sum of \$4,700. She intends holding a sale on Tuesday, the 25th.

HAND SEVERELY INJURED.
Gore, Nov. 22.—(Special)—A serious accident befell Mr. R. Phaneuf, operator at Gore Station. It appears that he tripped over the rails and cut his hand severely, sustaining great loss of blood. Dr. Hayes was telephoned for and on arrival treated the injured member. He expressed the fear that Mr. Phaneuf might possibly have to endure amputation, but it is pleasing to state that such has not proved necessary.

DISTRICT MEETING FOR WATERLOO.
Waterloo, Nov. 22.—(Special)—The eighth annual district meeting of the Masonic Lodges in Shefford and Bromes will be held in the Masonic Temple, Waterloo, on November 23. The afternoon session will open at 2.30. Work will be exemplified in the first, second and third degrees by Bromes, Lake, Sutton and Shefford Lodges respectively. A banquet will be held in the evening.

IMPROVEMENTS AT DANVILLE MILL.
Danville, Nov. 22.—(Special)—Brown Bros. have been making extensive repairs and alterations to their mill property. They have, under the supervision of Mr. R. N. Arkley, of Sherbrooke, put in an 18-inch Little Giant water wheel with a capacity of 75 h. p. This will give them double the power they had previously. New tubing, concrete bulkhead and a renewal of the foundation of the mill throughout with concrete piers, puts the property in first-class shape.

DANVILLE MASONS TO CELEBRATE ST. JOHN'S DAY.
Danville, Nov. 22.—(Special)—At the last meeting of Doric Lodge, A. F. & A. M., it was decided that this year the lodge would celebrate St. John the Evangelist's Day by a concert and ball. The event will take place in the Town Hall on the 29th of December. A committee has in hand the arrangements for the concert, and in the connection first-class talent from a distance will be secured, while for the dance, which will follow the concert, arrangements have been made for the best music possible. Taken altogether, the entertainment on St. John's Day promises to eclipse many of former years.

VERMONT'S OLDEST ATTORNEY ST. ALBANS, VT., NOV. 22.—(Special)—"Judge" Albert Merriam Albee, the oldest attorney in the state of Vermont and believed to be the oldest resident of the village of Bellows Falls, observed the ninety-second anniversary of his birth at his home Thursday, receiving many letters of congratulations and calls from friends. Mr. Albee was born in Westminister, November 13, 1821, and studied law in the office of William C. Bradley in Westminister and was admitted to the Vermont bar in 1843. December 30, 1846, he married Miss Mary Wait and next month they will observe the sixty-eight anniversary of their wedding. They are probably

P. S.—For a lasting, full-flavored 10-cent smoke, nothing equals the Pharaoh.

"Ask the Man who Has One"

The Asbestos All-Steel Furnace for wood always makes friends with the user, and the demand grows wherever known.

Cheerful Commendation from one of our customers is proof from one who knows, what the Asbestos All-Steel Furnace is.

Mr. Kennedy, Coaticook, Cookshire, Jan. 14, '09.
Dear Sir,—Regarding our "Asbestos All-Steel Range" Furnace, I am sure that you are convinced that the furnace is doing good work or you would have heard from me long ago. However, we wish to say we have given the furnace a fair trial in the worst weather, and it has given perfect and complete satisfaction in every respect.

It heats up quickly, does not require much care or attention, and holds the fire well when closed up. The fire has never once been out in the furnace since you kindled it on October 24th. We are especially pleased with the register in the upstairs room.

Yours truly, WALTER EDWARDS, QUE.

NICKEL-STEEL RANGE WORKS, Coaticook, Que.

This oven test means bake-day "luck"

If your baking results vary, you may find the reason in the flour. For there is only one way that a miller can assure you constant success. An oven test must be made.

So we take ten pounds of wheat from each shipment delivered at our mills. We grind this sample into flour. Then the flour is baked into bread.

If this bread proves to be the "lucky" kind—high in quality, large in quantity—we use the shipment. Otherwise we sell it.

You buy luck in flour bearing this name.

No need to merely try your luck.

"More Bread and Better Bread" and "Better Pastry Too"

FEEL HEADACHY, DIZZY, BILIOUS, SICK? TAKE CASCARETS NOW--DIME A BOX

Sick headaches! Always trace them to lazy liver; delayed, fermenting food in the bowels or a sick stomach. Poisonous constipated matter, gases and bile generated in the bowels, instead of being carried out of the system, is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, sickening headache. Cascarets will remove the cause by stimulating the liver, making the bile and constipation poison move on and out of the bowels. One taken to-night straightens you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular, and make you feel bright and cheerful for months. Children need Cascarets, too.

E. T. BOARDS ON DEC. 3RD

President E. W. Farwell Announces Much Business of Importance Will Come Up

HAS SENT LETTER TO PRESIDENT OF EACH BOARD, OUTLINING PLANS.

The quarterly meeting of the Eastern Townships Associated Boards of Trade, which takes place at Lennoxville on December 3rd, promises to be an important one. Various committees that have been at work on various problems of interest to the Townships will submit their reports, which will then come up for discussion.

REVISION OF MUNICIPAL CODE.
One of the important matters to be considered will be the revision of the Municipal Code. Hon. M. F. Hackett is chairman of a special committee named for this purpose. The Granby Board will be represented by Geo. H. Boivin, M.P., on this committee, and it is expected that several important suggestions will be made.

THE PRESIDENT'S LETTER.

The following letter has been sent to the presidents of the various Boards by Mr. E. W. Farwell, president of the Associated Boards:

Accompanying this communication, you will receive an advice from the secretary of the Board regarding the next quarterly meeting, which is to be held at Lennoxville on Wednesday, the 3rd proximo, upon which occasion we trust that your organization will be duly represented by a full quota of delegates. It is expected that outside the important business matters which will be discussed, the meeting will be of unusual interest. The attendance of two outside speakers has already been arranged for, one, a well-known newspaper man from Boston, who has had years of experience in a Board of Trade work; the other, a prominent representative of Macdonald College, who will favor the meeting with particulars regarding the work the College is doing in our district. The plan is to give the delegates the pleasure of listening to these gentlemen at the Wednesday evening session.

Could you conveniently arrange to hold a meeting of your local Board, in order to discuss and pass upon various items which will appear upon the agenda paper as follows:

IMMIGRATION AND REPATRIATION MATTERS.

Since the last quarterly meeting a delegation waited upon Sir Lomer Gouin and his Ministers at Quebec. Your representatives were upon this occasion led to understand that immediate action would be taken in connection with the subject matter of the memorial which was presented, and which included the making of a substantial grant to our Colonization Society Branch and the appointment of agent-lecturers to work in the Old Country, publication of additional advertising literature, etc.; but up to the present time we have not received notice of further action. Following advice given us when in Quebec, an application has been made to the Legislature for a charter for the above mentioned Colonization Branch. If there are views and suggestions which have not yet been discussed and passed upon, we shall be pleased to hear from your Board, through your delegates, in regard thereto, at the coming meeting.

PROPOSED AMENDMENT TO CIVIL CODE.

You are no doubt aware that this important matter is to come up before the local Legislature during the present session, and we hope to submit for the consideration of that body a composite memorial from this Associated Board, representing the views and suggestions emanating from the different local boards, which we expect will be put into concrete shape at the quarterly meeting. A

DAILY NEWS FROM TOWNSHIPS

(Continued from page six.)
the oldest married couple in the state. Mr. Albee conducted a law office in Londonderry in his early days and from 1855 until 1906 lived in Springfield. During the latter year he moved to Bellows Falls and has since lived there.

ATTEMPTED BURGLARY AT NEWPORT.

Newport, Vt., Nov. 22.—(Special)—Wednesday night, about 12 o'clock, as Edson Hope of Newport was going to his room in the Y. M. I. C. block he noticed a suspicious character hanging around the Bigelow Pharmacy. Not liking his actions he followed the red light instructions to notify Policeman Hinman, who responded at once. Also Ray Sisco, who had been appointed deputy sheriff, and Sheriff Hill with others were soon on hand. On Hinman's arrival he passed to the rear of the store, and found the door had been forced. The burglars inside ran at his approach and made an exit through a cellar window which they had probably opened for just this purpose. In the meantime Sisco, searching around that part of the building with the aid of a lantern, discovered one of the gang lying prostrate in the bottom of the coal pit. Though unarmed himself, he hollered to the other searchers, then ordered the fellow in the pit to get up and throw up his hands, which he quickly did, and was handcuffed and taken in charge by Sheriff Hill. Knowing a freight train was being made up for Montreal, and mistrusting the balance of the gang might use that as a means of escape, the sheriffs and others went to the C. P. yards, surrounded the train and soon routed out another of the gang who, when attempting to run was seized upon by two brakemen and held until handcuffed and taken in charge by Sheriff Hill. Two of the number, as it is evident there were four, managed to escape. Nothing was taken from the store, as their entrance to it was discovered just in the nick of time. From letters on those captured it is evident the parties were from Canada, one of them having a mother at Vancouver. Their work would not indicate they were professionals.

copy of the draft of the bill in its present amended form, in English and French, may readily be obtained by writing the Provincial Secretary at Quebec.

THE SEWAGE QUESTION IN THE EASTERN TOWNSHIPS.

This matter, which is gradually assuming a life and death importance to our people, was, as you are aware, brought up at the last quarterly meeting and a committee was appointed to report in regard thereto at the Lennoxville meeting. The views and suggestions of your Board will be appreciated and doubtless helpful.

PUBLIC WORKS AND IMPROVEMENTS THROUGHOUT THE DISTRICT.

We have all felt, for a very long time, that the Eastern Townships are not receiving anywhere near their fair share of the public money which is being spent by the Dominion Government for public works and improvements throughout the country. Railways, canals, post offices, armories, customs houses, agricultural educational establishments and organized immigration departments have been constructed and established from coast to coast, and millions of capital account spent in such directions every year. Two of the important reasons why the Eastern Townships have not in the past received anywhere near their fair quota of share or public assistance are that our people have not thought out plans or asked for what they need and are entitled to. Would it not, therefore, be within the province of your board to discuss such matters insofar as they relate particularly to your district or section, and at the same time give full consideration to the broader affairs which have a bearing on the development and advancement of the Townships as a whole. We hope that at the coming meeting sufficient matters will be brought forward by the various boards to warrant the Association in organizing and sending to Ottawa a delegation fully representative of the district covered by our organization, with the object of presenting a memorial to the Federal Government in a manner that will give them to understand, in a clear, concise and respectful manner, what the people of the Eastern Townships feel they are entitled to, and what they propose to have.

Again expressing the hope that you will find it convenient to bring these matters, and any others that may suggest themselves to you, before an early meeting of your Board, also that your delegates may be fully instructed and advised the quarterly meeting at Lennoxville on the 3rd proximo, I beg to remain,
Yours very truly,
E. W. FARWELL,
President.

DAIRY PRODUCE

BUTTER MARKET FIRM WITH PRICE ABOUT SAME.

Montreal, Nov. 22.—There has been a fair volume of business for local account during the week with prices about the same as quoted last week. At the auction sale held on Monday

last No. 1 creamery brought 28c and pasteurized 28c. For No. 2 80c was bid and refused, and No. 3 was sold at 26c; but although this lot graded No. 3 that was offered last week, nor was the No. 2 quite as good as the same grade offered last week. On the whole therefore, prices ruled about the same as the week previous. Finest creamery is firm the sale being reported of 110 packages at 28c, and a lot of 50 packages at 28c. A fair quotations of values is 28c to 29c for finest creamery, 27c to 28c for fine and 26c to 27c for No. 3. The Middle West is still holding off, although enquiries are still being received as to the price of car loads of finest creamery. It seems, therefore, that it is only a matter of price that is blocking new business.

CHEESE MARKET QUIET BUT FIRM.

Montreal, Nov. 22.—Holders of September cheese are firm in their demands as they have every confidence in the future of the market owing to the steady reduction in stocks which are now smaller than they have been for years, and will be smaller still after the last steers leave port. Although the market cannot be called active there is some business going on all the time, amongst the latest sales reported to us being a lot of 300 boxes of October white at 12c, and a lot of 250 finest Western September colored at 13c. Also a lot of October Eastern white was sold at 12c 6d c. i. f. Bristol. Most of the October and November cheese have been picked at 12c to 12c, a few lots of finest first half of October goods of September quality bringing 13c to 13c. We have just heard of sales of finest Township September white at 13c, a lot of 250 boxes of finest Western September white at 13c and 250 colored at 13c. A sale was also mentioned of finest Western Septembers at 6s 6d c. i. f. Liverpool, whilst another holder refused to accept less than 6s c. i. f.

COUNTRY PRODUCE

GOOD DEMAND FOR EGGS.

Montreal, Nov. 22.—The demand for eggs has been exceedingly good, in fact dealers are afraid that the stocks held here in store will not be sufficient to supply the demand very much longer, if it keeps up at the present rate. The trade are of the opinion that it is not only the increase in the population, that is causing the shortage, but a good part of it is due to the fact, that people are using more eggs and less meat, owing to the difference in the prices of the two articles, which is much in favor of the hen fruit. One Western shipper turned down 32c f. o. b. for several cars of storage eggs. The trade here have been compelled to advance their prices again this week two cents per dozen on selects and No. 1 stock. There is practically no large lots changing hands between houses, so that our quotations this week are based upon the selling price in small lots to the grocer. New laid eggs are extremely scarce and sixty cents per dozen is obtainable for strictly new laid. We quote prices as follows: No. 1 stock 34c; selects 38c; new laid 60c.

BEAN MARKET STRONG.

Montreal, Nov. 22.—The market for new crop Canadian beans is exceedingly strong, but owing to the absence of supplies the market rules quiet. Prices here are purely nominal at \$1.85 to \$1.90 track Montreal for three pointed pickers.

POTATO PRICES STEADY.

Montreal, Nov. 22.—There has been no particular change to note in the market for potatoes during the week. Prices have been fully maintained but the demand continues limited. Sales of Green Mountains made this week range between 8c to 9c per bag on track, Montreal. Quebec white grades are worth 7c to 8c track Montreal.

PROVISION MARKET

NO CHANGE IN DRESSED HOGS.

Montreal, Nov. 22.—The market without change, supplies are light, without change, supplies are light, sales being made at \$13.75 to \$14.00 per 100 lbs. for dressed hogs. Live hogs are unchanged at \$10.00 per hundred pounds for selected lots.

HAY AND STRAW

HAY TRADE UNCHANGED.

Montreal, Nov. 22.—There has been no further changes to note in the local hay market this week. There has been some let up in the buying for American account, especially for the New York trade, the heavy buying during the last few weeks having

filled all the immediate requirements of that market. Buyers stating that with the advance in prices in this market and with the duty and freight added, there is no profit in making purchases at present. However, some of the other States, have been picking up quite a little Canadian hay in the country districts. There has been no improvement in the cables from the English market, and comparatively speaking there is very little Canadian hay being exported to the United Kingdom. The exports this week consisting chiefly of cut hay.

Cable advices just to hand quote as follows:—Liverpool firmer at 80s, London 70s, Glasgow 82s 6d, Manchester 75s.

We quote prices as follows: No. 1 quality, \$16.00 to \$16.50; No. 2 extra, 15.00 to 15.50; No. 2 ordinary, 13.00 to 13.50; No. 3 hay, 10.50 to 11.00; Clover as to grade, 10.50 to 11.00.

GRAIN MARKET

MARKET REMAINS ABOUT STEADY.

Montreal, Nov. 22.—Further sales are reported of Argentine corn at 79c in car lots in store.

Oats.—The market is quiet at 40c for No. 2 in store, and 39c to 40c for No. 3. On the way down No. 2 C. W. 39c c. i. f. and No. 3 38c c. i. f. local oats 38c to 39c for No. 2.

Barley.—The market is firmer and higher for malting grades which are quoted at 70c to 72c for best samples. This is due to the fact that Toronto brewers, who were late in laying in supplies owing to warm weather came in the market together and put up prices in their anxiety to obtain supplies.

Peas.—There is no change in the market. Canadian peas are quoted at \$1.80 to \$1.95. European peas for bolting \$1.80 to \$1.85.

Buckwheat.—The market remains quiet. Car lots of buckwheat are quoted nominally at 55c in store.

Flaxseed.—Receipts 55,989 bushels and exports 17,141 bushels. Prices are quoted at \$1.30 to \$1.32 in round lots.

Rye.—The exports during the past week were nil. Prices nominal at 72c to 73c.

Feedwheat.—Market steady and prices are nominal at 70c to 72c as to grade.

Malt.—The market continues quiet and steady for new malt at 85c to 88c.

Hops.—The market remains firm. Canadian hops 25c f. o. b. at shipping points. B. C. 30c to 31c f. o. b. at Coast. English East Kent 55c to 57c; Bohemian 62c; Bavarian 57c.

WANT EXTENDED DAIRY INSPECTION.

That the system of inspection of dairies and cheese factories at present conducted in the Province of Quebec during the summer should be conducted throughout the winter, as well as a recommendation passed by the Montreal Produce Merchants' Association at a meeting held Thursday.

Messrs. J. H. Scott, A. A. Ayer, A. Hodgson and Trudel were appointed to bring the matter before the Department of Agriculture at Quebec. Complaint was made that the quality of butter and cheese has been lower of late, and poor milk is thought to be the trouble.

It was also stated that the dairy herds of both Quebec and Ontario are being depleted by the heavy importation of milk cows to the United States. Statistics will be obtained as to the movements of stock between the two countries.

YOUNG MEN OF THE EASTERN TOWNSHIPS AND THE FARM

(BY E. T. C. C.)

These lines are written in particular for the young men of our beautiful Eastern Townships, for the ambitious young man who wants to make something of himself, who wishes to become a successful man; in other words, for the young Canadian who desires to "make good," and these lines are especially written for the young man who lives on the farm and in the rural communities, who are desirous of leaving home and earning their livelihood in some way in the great cities.

While it isn't consistent to expect every boy reared in the country to settle down for life on the old home spot, because as these boys develop into youth their tastes lead them to far away fields. Nevertheless many of our young Canadians could do better right at home today, than they are doing in the large cities. Cases are cited as examples where the youth has gone out from home to the great centres of industry and by hard work, close application to business has risen to high positions, large salaries, and great wealth; but what about the hundreds of boys who have gone out from home with fair prospects of success and are never heard of as successful men.

PREFER THE FARM.

In one of our large cities of over three hundred thousand population recently, a very complete census was taken among the operatives in the factories, employees in large establishments, laborers and so on, with a view to find out if these mechanics, operatives and employees were satisfied with their positions and prospects in life. One of the questions asked by the committee making the investigations, was, "would you like to go back to the farm again, or wouldn't you prefer the farm to your present mode of earning a living?" Some fifty thousand workmen were thus interviewed. With very few exceptions they were unanimous in the desire for the return to the farm, but they could not see any hope of being able to make the change. Their weekly wages all had to go to meet living expenses on Saturday night. Men living without hope, cogs in the wheels of the great factories where they were employed.

INDUCEMENTS TO YOUNG MEN.

Agriculture offers splendid inducements to our young men of Eastern Canada. It requires just as much brains, skill and management to succeed at farming, as it does in any other business. Moreover in thus calling a man can become independent more easily, be his own master more quickly, than he can in almost any other field. Many young men who read these lines may have already determined how they propose to earn their bread and butter. Others, maybe have given little thought to the matter, but generally speaking, next to the young man's love affairs, the thought uppermost in his mind is "What shall I do to earn my living?" While the writer cannot say to each young man what would be the best thing for him to do, but it is the ardent hope that some help may be gained from reading this article.

DO ONLY THOROUGHLY.

When a man has grown grey in the service of his country, and his fellow-men, he is congratulated on his achievement and on his honorable old age. Why shouldn't we strive as earnestly for an honorable youth? It is time we are living for the future, but the only way to do anything worthy for the future, is to do our duty thoroughly today. Youth is the preparatory time, the time when we lay the foundations; the time when we should so train our minds and our bodies, that when the time comes for us to show, we can discharge our duties as becomes men reared in the best country, under the most glorious flag on earth.

The wanderlust comes to every young man. When he feels the call to go out into the great wide world and try his luck in those distant fields, that promise so fair and look so good to youth, indeed it is a never-struggle to decide between the love of home and the ties that bind him there, and the silent forces that are calling him to follow them away out into the unknown.

WHY THE YOUTH LEAVES THE FARM.

There is a great deal of discussion going on in the journals today "why the young man leaves the farm," and how to keep him on the farm. While it is true that education in the schools has had the tendency to educate him back from the farm, two good strong reasons are the main cause for his leaving home and the farm. One is the matter of money; the other of recreation. Many farmers hire a man little older than their sons, pay fair wages, and yet the son who does practically as much work on the farm as the hired man, draws no regular pay, has no tram of his own, has no consideration and has to ask for every trifling thing he receives. Then in the second place he is not permitted to mingle freely in the public affairs of the community.

Drunkenness Can Be Cured ALCURA Will Do It.

Alcura the widely known treatment for Alcoholism can now be obtained at our store. It is guaranteed to cure or benefit, or money refunded. Remedy that has been tried by thousands and found to do just as it claims.

Drunkenness is a disease. Those who are afflicted with the craving for liquor have to be helped to throw it off. Alcura No. 1, can be given secretly in coffee or food. Alcura No. 2, is the voluntary treatment.

Help your loved ones to restore themselves to lives of sobriety and usefulness and in which you live. Only \$1.00 per box Ask for free Booklet. W. H. Griffith, Druggist, Sherbrooke.

He dare not associate with the boys, join the baseball team, take part in social affairs, go to camp with his fellows, or any of the many things that naturally appeal to the boy.

TIED TO APRON STRING.

Tying a boy up to his mother's apron strings does not make manly characters; by creating a race of molly coddles and sissy lads, the morals of our fair land will not be preserved. Let the boy be a boy. Teach him self reliance; make him manly; teach him to live in the open, to do nothing to hide, do nothing to be ashamed of, and life will become to him one glad song every day. After all is said the thing the young man must have, is his opportunity. For achievement 'tis said, the man who causes two blades of grass to grow, where only one grew before, is a benefactor to the human race, and young men here in our beautiful Eastern Townships, the opportunity is yours.

MUST GAIN ALL KNOWLEDGE!

First then whether you elect to be a professional man or take your places as wage earners on the farm or in the factory, to succeed you must strive hard to gain all the knowledge possible about the one thing you choose. We say that a man is a genius, who is a marvelous musician, a great inventor or wonderful Captain of industry. When we come to study closely into that man's history, we find it was work, hard work, hard and constant. That was the genius, why he was enabled to become great in his calling. In a recent number of "Hoard's Dairymen," which by the way is one of the very finest Journals published for the dairymen, there is an article entitled "Why Boys Leave the Farm." The writer of the article in question is evidently sorry he ever left the farm, but the great truth he discloses, at the end of his article is this, which was everlastingly dinned into his ears—yes, and into the ears of too many of our country boys.

"What has been good enough for your mother and me is good enough for you." Times change. The world moves. Prosperity is abroad in our fair land. Be wise and adapt yourself to these changes for the better.

REPLANNING OF FARMS.

As I write I have before me a score of farmers bulletins from various experimental farms and Agricultural Stations, one of which appeals to me with great possibilities. Replanning a farm for profit. As I drive about our beautiful picturesque Eastern Townships, the thought has often occurred to me, many of these fine farms are not worked to their full capacity, or to their best advantage. The reasons why they are not, in many instances is the lack of young men. Attend any of our County fairs, the young men are not in evidence. It is the old men we find there, doing the work, running the affairs that calls for younger blood and more vigorous business methods to make these important county institutions the interesting meeting places, they ought to be. The Eastern Townships is naturally a dairy country, that is the large majority of the farms are suited to that branch of agriculture. There are farms that would be better adapted for sheep raising, then dairying; others better for pasturage; again others suited to truck farming and so on.

STUDY POSSIBILITIES OF FARM.

The purpose of this article is to cause the reader to take stock in his particular farm and study its possibilities more closely, and see whether by replanning the farm increases its income, it will be possible to get the boys to stay at home. Take a renewed interest in the old place, and pay them decent wages. In replanning a farm it is essential that a few fundamental points in farming be kept constantly in mind. (1) The plan should provide a reasonable reward for the labor and capital invested. (2) The fertility of the farm should be maintained or increased. The plan must be suited to the capabilities of the owner for carrying it out. Habit frequently continues a type of farming in a community long after that type has become unprofitable. The farmer finds it pays to change a life long habit. It is no small task to think out and change his long used type to some better kind of farming. It may mean a new line of equipment. It may mean money will have to be borrowed if the proposed changes are effected. We must make these changes in order to keep them at home and we will have faith that the new plans will pay.

REVENUE OF DAIRY FARM.

As dairy farming is one of the most profitable types of stock farming with good cows and good management, we will take up that proposition. Recently an owner of an 80-acre farm wrote into one of our experimental farms for advice as to how he could increase the revenue from his farm. He stated that the total revenue from his farm was only \$450 per annum. In the first place it is assumed that the reader will make a thorough study of all the details of good cows and get the old dual purpose cow idea entirely cleared out of his mind—effective ration, proper herd management, suitable cropping systems, efficient methods of caring for and applying manure, and other factors of importance. And it is assumed that he will keep a herd of well bred grade dairy cows, each which will produce 6,000 pounds of milk per year or make 230 pounds of butter. There should be kept as many young heifers in number as one-half the dairy herd. The question then in replanning we will say, on 80-acre farm for a profitable dairy should be how many cows with corresponding young stock this farm will support. To answer that, it is first necessary to know how many, and how much fixed stock, like horses, colts, bulls and so on will be kept and what they will be fed. As horses

are required to do the work and a team kept for driving, maybe one for the female members of the family, we will assume that four horses are kept, or two horses and two brood mares, and two colts, raised each season, and one pure blood bull for herd use. On most of our Eastern Townships farms there usually is some portion of the farm given over exclusively to permanent pasture, part of which contains the sugar woods, or the bush where the supply of fuel for heating the home is secured. For the purpose of this article we will assume the farm contains 100 acres, 80 of which are under cultivation, 20 in sugar woods, fuel and pasturage, which brings it nearer the average size of our Eastern Townships farms. Many, indeed, are much larger, but the point in question is the number of animals and feed for them which should be raised and kept on 80 acres. As horses and cows will be kept in the barn and fed there the entire year we will base our calculations accordingly. Horses will be fed on an average 15 lbs. mixed grain and 10 lbs. hay per day throughout the year, possibly some sweet peas and oat straw or roots such as carrots and so on: colts 1 1/2 pounds of clover hay for 120 days and one pound of oats for about 300 days.

Cows—The daily ration for cows will average for the year as follows: 35 lbs. of corn silage, 7 lbs. clover hay, daily, 3 lbs. mixed meal 2 lbs. oats and 1 lb. cotton seed meal. Some pea and oat straw in small amounts in addition. This combination of feeds will afford a well balanced ration for cows giving 6000 lbs of milk a year. All the grain will be given on the place except the cotton seed meal or its equivalent which will be bought. Roughly speaking a pound of mixed grain will be fed for every three pounds of milk. Therefore when the cow is giving 30 pounds of milk a day 10 pounds of grain will be fed.

Yearlings will run at pasture from May 1st to October 31st. During their stabling period they will be fed 12 pounds of silage, 10 lbs. hay and 2 pounds mixed grain daily.

Calves that are kept will be allowed to run at pasture six months of the year. Allow half acre of pasture to each calf and one acre to each yearling. Calves will require 6 lbs. corn silage, one pound mixed grains with a little oil meal in addition and about 2,000 pounds of skim milk to each calf.

Bulls will be fed on 6 pounds of hay, 25 lbs. of silage, about 4 lbs. mixed grain with half pound oil meal a day. It is expected to get the average yield 40 bushels of oats per acre say 60 bushels mixed grains, like barley and oat's, peas and so on, 2 tons hay per acre and 12 tons of silage. Many grow more over an acre and many less but this is a fair average for a dairy farm conducted like this one on the intensive plan.

The grain and hay required for horses, colts and the bull as calculated from these average crops per acre. 4 horses 15 lbs. for 365 days mixed grains 21,960; the bull 4 lbsf 365-d-ys, 1460 lbs., total 23,360 lbs. requiring 6 1/2 acres to grow or produce this amount of feed. The hay for 4 horses and two colts with the bull will feed for 17,350 lbs., requiring 4 1/2 acres to produce sufficient amount and with the acreage for the silage for the bull we require for the total fixed stock an area of 12 1/2 acres. Suppose pigs to be kept as they should on a small pasture, where suitable forage plants are produced for them like rape or artichokes, clover or other pasturage and allowing some area for poultry for farm garden, and orchard, with the buildings and yards, it will be safe to estimate four acres, making in all practically 17 acres. This subtracted from 80 acres, leaves 63 acres on which to support the cows and young stock for the farms.

STOCK OF AVERAGE FARM.

To determine how many cows and young stock can be kept on this 63 acres it is first necessary to determine how much land is required to keep one cow and one half as much young stock. Corn silage feed for one year to one cow yearling and calf 13,453 lbs; mixed grain, 1,960 lbs.; clover hay 3,670 lbs., or a little over 2 acres required to support one cow and corresponding number of young stock. So we find that 63 acres will support 23 cows and 12 head young stock and will produce all the grain hay and silage for them with the exception of the cotton seed meal which at \$82 per ton will cost \$126. The acreage of crops to be given then for the herd and fixed stock will be corn silage 13 1/2 acres; mixed grains 1 1/2 acres; oats 1 1/2 acres; clover hay 2 1/2 acres; pasturage for calves, yearlings and so on 8 1/2 acres. Where suitable permanent pasture exists this last item might well be given over to permanent field of hay, or else go in the regular rotation of crops. Deducting the four acres from buildings, yards and so on, we have 76 acres which might be made in 4 fields of 19 acres each for a regular cropping plan in rotation. First year corn and mixed grains well manured in one of the 19 acre fields; second year 19 acres oats and mixed grains; 19 acres of it cut for hay the field seeded down to clover and timothy, third year 19 acres of clover hay, fourth year part of the field might be in corn, part left in hay, part in pasture.

RETURNS FROM LAND.

The gross returns that may be expected from a farm planned on this system 280 pounds of butter from each of the 23 cows at 25c \$1,610, estimating the skim milk at 20 cts. per hundred 100,000 lbs. \$200. 16 calves sold at \$5 each \$80; 2 colts at \$50.00 each \$100.00; leaves a total of \$1,990.00, deducting the \$136 for oil meal leaves a net return of \$1,854.00. That is from the dairy. But suppose there is a couple of boys, and they utilize the skim milk feeding hogs at least one 200 lb. pig can be raised and fattened to each cow kept, making a large increase from the farm with a trifling expenditure for corn meal. Poultry should be kept, not less than 200 good hens—and a good revenue derived from them not less than \$2.00 per hen if properly managed.

SUGAR BUSH SOURCE OF REVENUE.

The sugar woods is a source of

MAPPIN & WEBB

(CANADA) LIMITED

Largest Jewelers in the British Empire

Specialists in Diamonds, Pearls and Precious Stones

Thirteen Mappin & Webb Stores—in Eight Countries

These braided wires, which we control, gave us rulership of tiredom.

The Goodyear Secret

The No-Rim-Cut tire is a Goodyear invention, and we still control it.

An essential feature is these braided wires, which no one else can make.

This tire can't rim-cut—that we guarantee. This fact has saved motorists many millions of dollars.

It has also made Goodyears the world's favorite tires. They now out-sell any other.

Ruins Almost 1 in 3

Time and again we have gathered statistics to show what rim-cuts cost. This year certified public accountants were employed, so the figures could not be disputed.

They examined thousands of ruined clincher tires, taking them as they came. The old-type, hooked-base tires. And they found that 31.8 per cent had been discarded for rim-cutting only.

That's almost one tire in three.

That conveys some idea of the saving accomplished by this Goodyear No-Rim-Cut tire.

How We Did It

We did this by making a hookless tire—one that does not hook to the rim.

Thus your removable rim flanges can be set to curve outward—not inward as with clincher tires.

Then the tire, when wholly or partly deflated, rests on a rounded flange. There is no sharp, curved-in edge to dig into the tire. Thus rim-cutting is made impossible.

These tires fit any standard rim.

Hundreds of thousands of men have adopted them. And this tire has become, after eight years of tests, the leading tire of the world.

How We Combat Two Other Ruinations

Next to rim-cutting, the costliest item in tire upkeep are due to blow-outs and tread separation.

To minimize blow-outs we use the "On-Air Cure."—The tires are final-vulcanized on elastic air bags instead of an iron core.

This prevents the fabric from wrinkling. It equalizes strains. Thus we avoid the cause of countless blow-outs.

This "On-Air Cure," used by us alone, adds to our cost \$300 daily.

Tread separation, when it occurs, comes near the breaker strip. This is the fabric strip which comes at the base of the tread in every standard tire.

For this strip we use a patent "rivet fabric." The tread rubber is forced down through this fabric, forming hundreds of large rubber rivets. Then the tire is vulcanized on mass.

We have exclusive use of this patent. No other tire can thus prevent the ruin of loose tread.

Our dealers are everywhere.

No-Rim-Cut Tires

With or Without Anti-Skid Treads

FOR SALE BY ALL DEALERS

revenue properly attended to. A couple of acres of potatoes is a good truck crop to raise. In Maine average potato crop is 225 bushels per acre. We have the same soil and climate

as they do in Aroostook County, Maine, and can raise potatoes equally as well. They will bring 50c per bushel and there is a keen demand for them. This replanned farm

can be carried on easily by the farmer and one son and one hired man, or two sons. The work should be divided under the different heads, the father manage the dairy, one son

the pigs, the other, poultry, or on the female members of the family might well manage the poultry. T. (Continued on Page 10)

COULD NOT EAT— FAILING FAST

Captain On Great Lakes Restored To Health By "Fruit-a-tives"

For thirty years, Captain Swan followed the Great Lakes. He has no record and lives at Port Burwell, where he is well known and highly esteemed.

H. SWAN, Esq.

PORT BURWELL, ONT., May 29th, 1913. "A man has a poor chance of living and enjoying life when he cannot eat. That was what was wrong with me. Loss of appetite and indigestion was brought on by Constipation. I have had trouble with these diseases for years. I lost a great deal of flesh and suffered constantly. For the last couple of years I have taken "Fruit-a-tives" and have been so pleased with the results that I have recommended them on many occasions to friends and acquaintances. I am sure that "Fruit-a-tives" have helped me greatly. By following the diet rules and taking "Fruit-a-tives" according to directions, any person with dyspepsia will get benefit."

H. SWAN

"Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50, or trial size 25c, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

HAIR ALL FELL OUT— RINGWORM ON HEAD

Also on Neck. Big Bare Spot on Crown of Head. Cuticura Soap and Ointment Cured.

198 Chapleau St., Montreal, Que.— "When my brother and I went to school we got ringworms from the other children and our hair all fell out. We had them on our heads and on our necks. For months I had a big bare spot on the crown of my head the size of a fifty-cent piece. Mother tried everything, all kinds of ointments, to cure us but everything seemed no good until one day she saw an advertisement for Cuticura Soap and Ointment. It was Cuticura Soap and Ointment that cured us." (Signed) Mrs. M. Blake, May 31, 1913.

ITCHY RASH ON HANDS

Fergus, Ont.—"Cuticura Soap and Ointment completely cured me of a rash on my hands. The rash was red like water blisters, very itchy and sore. Scratching made them sorer. The irritation was bad at night. I tried many remedies which did not do any good. I used Cuticura Soap as a wash in warm water night and morning with Cuticura Ointment and in less than a week it was all gone." (Signed) Mrs. Isabella Gibson, May 22, 1913.

The regular use of Cuticura Soap for toilet and bath not only tends to preserve, purify and beautify the skin, scalp, hair and hands, but assists in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads and other unwholesome conditions of the skin. Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

THE ONLOOKER COMMENTS

The City Bill

While the printed bill embodying the provisions which the City of Sherbrooke is asking the Legislature to enact has not come to hand, the early draft contains two or three clauses which should be carefully considered before permitted to pass into law.

One of these is the provision that arrears in taxes shall be prescribed in five years, instead of three years as formerly. One of the most conspicuous faults of the late administration has been its laxity in collecting taxes. Large sums have accumulated in arrears and the City treasury has lost much money. Just why the period of prescription should be extended to five years is difficult to comprehend.

Then there is the clause permitting the Council, pending the collection of taxes, to borrow on notes, by mere resolution and without consulting the ratepayers, sums of money up to \$200,000. If citizens are to be given five years of grace in the payment of taxes, it is easy to understand how the Council will frequently find itself short of money, even to the extent of \$200,000. There would appear to be some relationship between the two clauses.

The general feeling of citizens, however, is likely to be that no council should be permitted to borrow on notes \$200,000, which could only be required in the event of gross carelessness and delay in collecting the revenues of the City.

Then, added to these two clauses, comes another which would do away with property vote in connection with money by-laws. The general law of the province requires that a majority of both valuation and votes shall be required to pass loan, bonus and all by-laws for raising or voting money. The Council, through this clause, is asking for an exceptional law in the case of Sherbrooke. The result will be to make it just so much easier for the City to vote away money. Only a majority of votes by secret ballot will be required. A large corporation desiring to obtain some franchise, bonus or other financial concession, will be in a far better position to manipulate the vote than under the present plan of both individual and property vote. The amendment would make it just so much easier for the City to vote away its money and consign valuable privileges. Is this desirable?

The three clauses, taken together, lessen the safeguards against the careless handling of civic funds. Tax collections may lag. It will be easier to raise money on notes than to go after bills receivable. At the present time the City is about a year late in sending out tax accounts. With the five year prescription and borrowing clauses in force, all this haste will be unnecessary. If the \$200,000 is not enough and the treasury is still empty, a loan by-law can be passed through the ballot box. Property, which pays the piper, will have no voice as such.

A little legislative pruning of the Sherbrooke bill would be in the City's interest.

Sherbrooke's Next Mayor

Who will be Sherbrooke's next mayor? There is still plenty of time to consider this matter, but as 1914 will be election year the question is being asked.

In conversation several names are being mentioned in this connection, such as, Ex-Mayor Cate, Mr. E. Winn Farwell, Ex-Alderman B. C. Howard, Alderman C. G. Thompson, Mr. James Mackinnon, etc.

It is a matter which the citizens might well bear in mind. It is well that general public interest should be shown in the question of selection of chief magistrate. Then the best way to settle the question is at a public meeting called for the purpose some time prior to election date, where the various names in the public mind may be presented, and informal ballot taken to obtain the sense of the meeting, followed by action making the choice unanimous.

Who will be Sherbrooke's next mayor?

Col. Hughes Steadfast

Col. Sam Hughes is not receding in any degree from his original stand for a "dry canteen." Speaking at Toronto the other day, the Colonel said: "The officers who cannot keep liquor out of the training camps, and some of them have got out already. A canteen in a training camp is about as logical as would be a canteen in a collegiate institute."

The time was, not so long ago, when the wet canteen was about the most prominent feature of the annual militia training camps, and the officers were the most constant and conspicuous patrons.

Military training and discipline, mental and physical, are supposed to be the purposes of the annual militia camps. This is what the country pays for.

The country will stand to receive better returns for its investment under Col. Hughes' regime than under conditions which formerly prevailed.

Granby—Railway Centre

Granby, after being sidetracked for many years, may yet become one of the principal railway hubs of the province. The electric line of the Southern Counties Railway is now being built, and will be in operation in the spring. The C.P.R. has made a survey which indicates to get in touch with the traffic of this busy industrial community. Now, is announced an application for charter for a new line through Missisquoi, Shefford and Bagot, with head office at Granby.

Granby's next move should be to bring in an electric power line which will supply all demands for electric current.

In spite of its handicap, Granby has grown to be the second industrial centre in the Townships. With the handicap removed, as it seems likely to be, Granby may yet make a good race for first position.

—Onlooker.

YOUNG MEN OF THE EASTERN TOWNSHIPS

(Continued from page 9.) hours of labor need not be excessive. MONEY IN POULTRY.

On one of the best conducted poultry and dairy farms on this Continent consisting of only 80 acres, the income from the poultry alone is \$2,354 per annum. The income from their dairy is \$2,334.00 per annum, with butter at 25c. per lb. but the cows are of the best, and the total income from the hogs \$400. The

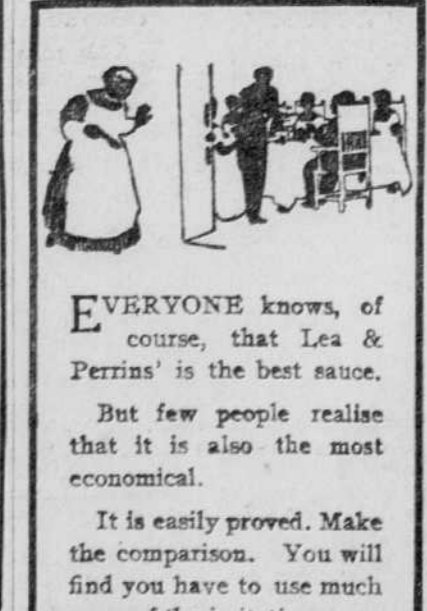

mother and one of the daughters manage the poultry end of the farm; another daughter keeps the books, the father and three sons, do the farm work, milking and so on, and the hours of labor are divided up as follows—5 to 7 a.m. feeding milking and separating; 7 to 8 a.m. breakfast; 8 to 9.30 stable work, cleaning stables cows and so on; 9.30 to 12 a.m. general farm work; 12 to 1 p.m. dinner; 1 to 4 p.m. general farm work; 4 to 6 p.m. chores, including milking and so on. Therefore the work is properly systematized, never grows monotonous and the boys receive ample remuneration for their work with a sure income, a comfortable home and as the famous Geo. Washington once said the best profession in the world for a man.

INDUCEMENTS BETTER TO-DAY.

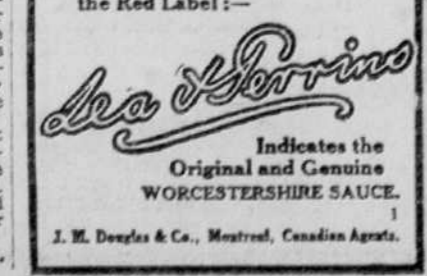

Twenty years ago farming in the Eastern Townships did not offer the inducements which it holds out today; prices were low, values were on the decline. The temptation for a young man who had the opportunity to leave home and go to the city, the New England States or the West was very great. To-day these things are all changed for the better. Prices are good. There is an ever increasing demand for the products of the farm at your very door. We have Macdonald Agricultural College at our call to help us solve our farm problems to educate the boys in the science of farming.

REQUIRED IN E. T.

We need all our young strong men in our fair Eastern Townships. Too many of the sons have left us in hopes of better fortune elsewhere. But believe me boys the stars never shine brighter elsewhere than in our beautiful Eastern Townships. Yes, the stars that gild the heavens of our fair Townships are brighter because the air is cleaner, its acres, with their wealth of grain, its manhood with souls brighter than elsewhere, because, perhaps, the soil of character is richer and the atmosphere of life purer. For we here yet have honest toil, and honest toil breeds better soul than luxury, and it is indeed the day of our fair Townships when her sons fought the honest toil of our founder fathers that founded these fair Eastern Townships by their honest, hard and sturdy good sense. Young men of the Eastern Townships. Don't go away from the farm to become a slave in a factory

EVERYONE knows, of course, that Lea & Perrins' is the best sauce. But few people realise that it is also the most economical. It is easily proved. Make the comparison. You will find you have to use much more of the imitation. And it cannot give you the same satisfaction. The white writing on the Red Label—

or the department store, the trolley car or the shop, but rather emulate the spirit of the founder fathers, and make the soil bring you a fair competence for your labor. This means freedom peace and plenty.

FALL PLOUGHING AND SOIL FERTILITY.

Ploughing early in the fall liberates more plant food for the spring crop and conserves more moisture than does spring ploughing. By loosening the surface soil, thus allowing the air to penetrate, the soil particles which contain phosphorus, potassium, and lime are caused to oxidize, which sets free these elements for the plant. Fall ploughing has a tendency to level the surface, thus allowing the soil to settle, which tends to dissolve and break up the complex soil compounds for the use of the spring crop.

Bacteria, which are found in the soil in countless numbers, generally work better where oxygen from the air is readily available, and these in turn break up the organic matter of the soil into simpler compounds, liberating nitrates or nitrogen food for the plant. This is one of the most essential elements for the early growth of the plant. It is often noticed that spring ploughing will not cause crops to lodge so badly as fall ploughing. This is explained by nitrogen being set free to a larger extent in the loose, porous, fall-ploughed than in the more compact soil.

By opening up the soil the fall rains percolate much more rapidly into the soil, while there is a mulch formed on the surface which tends to prevent the water from the subsoil going directly to the surface and being evaporated. Early fall ploughing makes a reservoir of the subsoil, storing the water for the crop in the spring. Often where the ground is a little rolling, the water will run off. (Journal of Agriculture.)

THE YOUNG PEOPLE ON THE FARMS.

One of the causes of the removal of so many of our young men and women from the farms to the cities is undoubtedly a loss of interest in country life.

The older people are apt to forget that young people have a different outlook on life from theirs; they often regret they they were young once. One fundamental fact must be recognized and that is that the boys and girls desire to do the work of the older people but in a different way, and they want recognition and social life.

With the advent of the city newspapers the affairs of the city took precedence over those of the country

even in the conversation in rural homes. The centre of interest was transferred to the city and the young people naturally wanted to go to the city.

We believe we know country boys and girls well enough to say that the pull of the city will lessen as soon as the enthusiasm for the activities of the farm is created in the young people, and when their hopes are built about farm industries.

One of the best means to this desirable end is the formation of boys' and girls' agricultural clubs. Good results have already been secured in this province through the poultry clubs which form a connecting link between farm and school, the parent and teacher. The members become productive factors in the home and community, and they receive valuable vocational training. A healthy stimulus is aroused in the friendly rivalry of the members for the best results. Pleasure and profit are combined with education and social intercourse.

In Ontario Corn Clubs have been organized which have created real interest in the community. In the States much attention is given to this phase of work, and tens of thousands of boys and girls have been enrolled as members of different kinds of agricultural clubs.

It is a great movement for reviving interest in the farm, for directing youthful energy into lines of activity that will at the same time give training of all the faculties and prepare for efficient living.

We hope the movement will spread in Quebec as it deserves. Leadership is wanted and we would call the attention of the District Representatives to this fruitful field of service in the communities which they are trying to help.

NEW METHOD FOR MARKETING BUTTER.

The Montreal Produce Merchants' Association have been discussing recently more new methods for making and marketing butter. They suggest that buttermakers in factories should mark their butter packages so as to distinguish between different churning and different day's makes. Each box, they claim, should bear the date and number of the churning. As an aid in examination and grading they think this would be a good move.

Killed by Blood Poisoning

Used an old razor for paring his corns. Fochish, because a 25c. bottle of Putnam's Corn Extractor will cure all the corns in a family for a year. Safe, because purely vegetable. Use only Putnam's Extractor, 25c. at all dealers.

SHILOH CURES COUGHS & COLDS

BOVRIL TAKEN

In the remarkable experiments

with Bovril upon human subjects reported to the British Medical Association, an amount of Bovril proportionate to the size of the small dark triangle was proved to produce an increase in flesh and muscle corresponding to the size of the large white triangle, showing that the body-building power of Bovril

is from 10 to 20 times the amount taken.

Bovril is the concentrated goodness of the best of beef. It is a wonderfully warming winter beverage; it builds up the weak constitution and strengthens the strong one; it guards against the grip; it checks colds and chills; it is cook's rich hand in the kitchen; it is nurse's first aid in the sick-room. Buy a bottle to-day.

A Woman Lost Her Hair and Got It Back with Herpicide

While there are no thrills in the narration of Mrs. P. T. Nichols, 628 Broad St., Beloit, Wis., her story is nevertheless one of amazing interest. "Stricken with neuralgia and erysipelas, I lost all my hair. My doctor recommended Newbro's Herpicide. I used six or eight bottles and now have a fine head of slightly curly light brown hair. Not a gray hair in my head. This is the more remarkable as I am middle-aged."

While the results which follow the use of Newbro's Herpicide are always more or less astonishing, they are always natural. Herpicide destroys the dandruff, stimulates the flow of blood to the hair follicles and keeps the scalp perfectly healthy. It makes possible a natural and luxuriant growth of hair, except in cases of chronic baldness.

While remedies said to be "every bit as good" as Newbro's Herpicide are frequently offered, one should insist upon having "the original germ destroyer," Herpicide. This is genuine. It stops itching of the scalp almost instantly.

Newbro's Herpicide in 50c. and \$1.00 sizes is sold by all dealers, who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications may be obtained at good barber shops. Send 10c. in postage for sample to The Herpicide Co., Dept. R., Detroit, Mich.

W. H. Griffith special agent.

GIFTS GALORE ARE OFFERED In Your EATON Catalogue

JUST THINK!—Christmas is almost with us. A few more weeks and then the joyous season begins. With it comes, of course, the usual tokens of goodwill—the giving and receiving of gifts. "What shall it be?" is the premier thought in most minds, and to many it becomes a great problem indeed. Those of you who have a copy of our Fall and Winter Catalogue need have no such trouble to look through your catalogue you will find it a veritable storehouse of worthy merchandise. Further than that, there are many pages which list just such articles that are of popular choice and pleasurable interest.

THE TIME TO BUY IS NOW—AND THE REASON WHY

So many conditions may later arise that it is well for us to buy gifts early. To put off your purchase too long often brings disappointment. Sit down now and give this matter your earnest consideration and make your choice while stocks are large and varied. Do not forget, also, that ours is not primarily a Christmas catalogue but a comprehensive showing of articles of daily use in the home or the personal requirement.

If you have mislaid your catalogue, or will be glad to mail a copy free if you have not now one from any reason, we will send us your name and address.

FARM FOR SALE IN ONE OF THE most progressive and enterprising parts of the E. T. where there is abundant water, good roads, good schools, good neighbors. The farm comprises about 300 acres, level and free from stones about half cleared, balance in timber, mostly hardwood. This farm is reserved until it can be cut, and jobbers are at it now; timber land is also level and free from stones and will make the best pasture in the world when got into grass and clover, or in a few years could be ploughed, if desired. A good roomy house, with cellar 8 ft. deep, kitchen and woodshed, granary, etc.; fair-sized orchard of good fruit; one barn, with slate roof, 60x20, one barn 30x50 (horse barn), one barn 30x40 (sheep barn); brook runs through pasture, spring at house. As good crops as are grown in province are grown on the farm, about 1/2 miles from a station on G.T.R. and about 60 miles from Montreal. If one wanted to dairy there is an unlimited demand for milk. For particulars apply to agent price of \$2.00 per 100 lbs., or it is an ideal spot for a farm to raise fine stock. If well farmed could keep 100 head of stock easily, besides horses to work and drive. This farm has been in the same family for three generations and the last heir to it was a young lady who has just married, and is living in Edmonton, Alta. The price is only \$20 per acre, with easy terms. Further particulars apply by addressing Box 700, South Durham, Drummond Co., Que.

STANSTEAD-FARMS OF VARIOUS sizes in this beautiful section. I can suit you. Free Booklet. E. W. Hay, Stanstead, Que.

All are welcome.

MARRIAGES

SHARMAN - CASS. Martville, Nov. 22.- (Special) - A quiet but very pretty marriage was solemnized on Thursday at one o'clock p.m. at the residence of Mr. and

Mrs. Clarence Cass when their only daughter, Cora May, was united in marriage to Mr. George Ralph Sharmman, eldest son of Mr. and Mrs. Wesley Sharmman, of this place.

The ceremony was performed by the pastor, the Rev. M. Lehigh, of Compton and took place under an arch of evergreens. The bride looked charming in a gown of cream colored Eolien and all-over silk lace caught with orange blossoms and carried a bouquet of lilies of the valley. She was attended by her cousin, Miss Pearl Martin, who looked very sweet in a gown of pink silk mousseline.

The groom was assisted by Mr. J. Martin. The Wedding March was played by Mrs. Irving Cass, cousin.

After receiving the congratulations of their friends the company repaired to the dining room where a most elaborate dinner was served. The decorations of the dining room were white and green.

The bride received a number of presents, including a nice sum of money, dinner and toilet sets, silver, cutlery, china and a fine piano, the gift of her father and mother. The groom's gift to the best man, bride's maid and pianist were very dainty gift pins.

About four o'clock the happy couple left for Montreal and other points further West. They were accompanied to the station by a number of their friends who gave them a pleasant send-off.

On their return Mr. and Mrs. Sharmman will take up their residence for the winter with Mr. and Mrs. Wesley Sharmman.

LAGUE - LASSONDE. Sutton, November 22.- (Special) -The marriage of Mde. E. Lassonde and Mr. Edgar Lague, both of Sutton, took place at the Catholic Church, Sutton, on Oct. 7th, 1913. Rev. Father McGege officiating.

Mr. and Mrs. Lague will continue to reside in Sutton where they are well and favorably known.

GRANBY MAN WAS DISCHARGED

Joe. Chouquette Was Charged With Obtaining Money by False Pretences

JUDGE MULVENA HAD A BUSY DAY AT SITTING OF CRIMINAL COURT AT SWEETSBURG.

Sweetsburg, Nov. 22.—(Special)—A large number of cases were disposed of here yesterday by Judge Mulvena at a special term of the Criminal Court. Among the cases disposed of was that in connection with the land deal in which many Granby people were interested.

Joseph Chouquette, committed for trial with three others in July last at Granby for obtaining money and promissory notes by false pretences in a land deal at Notre Dame de Grace, and also on a charge of conspiring with others to obtain these notes by false representations, was tried on both charges. A large number of witnesses were examined on both sides. The defendant was defended by Romulus Cloutier of Waterloo. The Court discharged the accused on both charges, holding that the evidence did not show anything beyond false and exaggerated promises made by this particular defendant and that the witnesses all admitted that they had not been induced to act by such false statements as the accused was shown to have made, but were allured to sign by the hopes held out to them of making a profit of 52 per cent in the value within a few days, and this without disbursing any money. The defendant had subscribed heavily himself and being a local man, had evidently been used by the promoters to introduce them to his acquaintance and to induce them to sign as well.

NEW Q. C. R. OFFICE BUILDING

The new office building of the Quebec Central Railway Co. on Wellington street and Strathcona Square is a handsome and imposing structure, to which will readily be conceded one of the foremost places amongst the many beautiful buildings which adorn the city of Sherbrooke.

The new offices have a concrete foundation on the solid rock, and are of solid brick with steel frame construction. The Wellington street and Strathcona Square elevations are faced with Indiana limestone, the other elevations being in Scotch firebrick. The floors throughout are of reinforced concrete and all the partitions are fireproof. Two vaults run from the rock foundation to the roof, each being a separate building inside the main building and having altogether seventeen entrances on the various floors.

The basecourse and main entrance steps are of granite; the flooring on the ground floor is of quarter oak as is also the woodwork; the vestibule and main entrance floors and the C. P. R. public space floor are fitted with mosaic tiles, while a marble dado sets off the main entrance corridor to advantage.

A steel staircase with marble treads communicates with the upstairs rooms which have brick finished floors and woodwork.

The solid conduit system of electric lighting has been installed; the premises are steam heated, two furnaces being available in case of breakdown, either of which is sufficient to heat the whole building. The windows on three sides are of plate glass, and the building is designed to give the maximum amount of light inside. A modern passenger elevator serves the four stories, and on every floor perfect sanitary arrangements have been provided.

The downstairs ceiling is eighteen feet from the floor and is divided into panels by heavy moulded cornices; the fine columns on the ground floor are finished with eutheus with ornamental caps and bases.

The building has a frontage of 81 feet, a width of 62 feet, and a height of 80 feet from the rock to the top of the parapet wall.

Some of the pieces of stone used in the construction weigh as much as six tons each, while the carved stone work on the main entrance has been very cleverly executed.

Altogether the new edifice represents the most modern type of fireproof office building in general design, style and finish, and the contractors, Messrs. Loomis-Dakin Ltd., are to be congratulated on its successful completion; it is a credit to the railway company, to the city and to the builders.

One-half of the ground floor will be occupied by the Canadian Pacific Railway for their city ticket, telegraph and express offices, and two of the upper floors will be utilized for the general offices of the Quebec Central Railway Company.

REV. MR. HEPBURN GOES TO STANSTEAD

Will Assume the Duties of Rector of Parish December 1

HAS LABORED FOR THE PAST TWENTY-FIVE YEARS IN THE PARISH OF RICHMOND.

Richmond, Nov. 22.—(Special)—When Rev. James Hepburn, B.A., Rural Dean and late Rector of St. Anne's Episcopal Church, spoke recently in the Richmond Town Hall in reply to the farewell address of parishioners and friends, after presentation of a purse of nearly \$200, and a beautiful cabinet of silver table cutlery, he said among other things that he was not retiring from the work of the ministry, that he was good for many years of service in the work, and that he was assured of another charge in this diocese where he had labored for the past 25 years. That assurance has been made good, and the announcement is now made that Rev. Mr. Hepburn has been appointed Rector of Stanstead, and takes charge of his new field of labor on Dec. 1st next.

The Episcopal appointment wheel, under the experienced guidance of the Bishop of Montreal, has revolved wisely and well. Rev. W.S.G. Bunsbury, B.A., retires from the Cathedral at Quebec to become Rector at Richmond; Rev. Mr. Barclay-Wilmot goes from Stanstead to the Cathedral at Quebec, and Rev. Rural Dean Hepburn leaves Richmond to become Rector of Stanstead, one of the best parishes in the Eastern Townships, a noted beautiful residential spot, and ideal in every way as a field of ministerial labor. As Rector of Stanstead, Mr. Hepburn will be ex-officio member of the executive of Stanstead Wesleyan College, a position for which his ripe experience and broad spirit duly qualifies him.

There is a general feeling of rejoicing in Richmond on the news of the appointment, and congratulations are being tendered to Mr. and Mrs. Hepburn by their many friends and well wishers. Mr. Hepburn is accepting these in the same spirit that has characterized his long years of service in the work of the ministry, commencing as a missionary on the Labrador coast, in other circuits, and a quarter of a century in Richmond, where in cases of sickness or trouble even in the very humblest of homes, he could always be found extending service and solace.

A few facts in regard to Rev. Mr. Hepburn's career will be found interesting:

The Rev. James Hepburn was born in Bucklyrie, Scotland, near Loch Lomond. He was educated at the Bury school under Mr. Wm. Best; subsequently he attended Bishop's College, graduating B.A., in 1857 as Prince of Wales Scholar. The degree of M.A. was conferred on him in 1859. Mr. Hepburn taught for a term in Gould, Que., afterwards in Bishop's College School, and two years in Knowlton Academy. He was ordained Deacon in old St. Anne's, Sept. 25th, 1870, after which he served as missionary in Magog in Nov. 1877, and was appointed Rector of Richmond in 1889.

'STAR CLOTHING HALL

J. Rosenbloom AND CO.

OFFICER DEFIED HABEAS CORPUS

IMMIGRATION SUPERINTENDENT CLAIMED GOVERNMENT INTEREST ABOVE THE COURT.

Vancouver, B.C., Nov. 22.—An application to commit Superintendent of Immigration Malcolm J. Reid to jail for contempt of court is to be made at Victoria on Monday morning before Justice Murphy according to the plans of J. Edward Bird, counsel for Bhagwan Singh, the Hindu priest, who was forcibly deported aboard the Empress of Japan. It is alleged that to secure the deportation Mr. Reid defied a writ of habeas corpus issued by Justice Morrison at Vancouver and notification of which was sent by wireless to Mr. Reid aboard the Empress at Victoria, and that later in the day he defied a writ of habeas corpus issued by Justice Murphy at Victoria and served on Mr. Reid.

The matter was brought before Chief Justice Hunter when Mr. Bird pleaded that a great indignity had been placed upon the court, asked to be heard before other cases were called. He stated that when the writ of Mr. Justice Murphy was served on Mr. Reid and Captain Hopper, of the Empress of Japan, the captain sought legal advice and, in consequence, refused to allow Bhagwan Singh to remain on board.

"Mr. Reid announced all along the way, acting on instructions from the Department at Ottawa, that he would not recognize the order of the court," said Mr. Bird, "and when the gang plank was removed and the steamer was in motion after she had cast off, he secured a gang of men who took Bhagwan Singh bodily and threw him on board the departing steamer."

Mr. Reid insisted that the instructions of the Government was paramount over the orders of this court, and, "I ask your Lordship to take cognizance of the indignity that has been thrust on the court."

Worthy of the world's best music

To most of us the chance to hear human playing of good music comes infrequently. Only in the great cities are the appetites of the music-hungry satisfied—even then one can hear but a small part of all the worth while concerts.

Edison Amberol
Has Diamond-Point reproduction, gentle spring motor, worm gear drive and automatic stop. Beautifully designed in mahogany, cellulose wood and oak.

Fortunately for those who love the masters of the past, and who have the judgment to recognize in present day composers the masters of the future, there is the

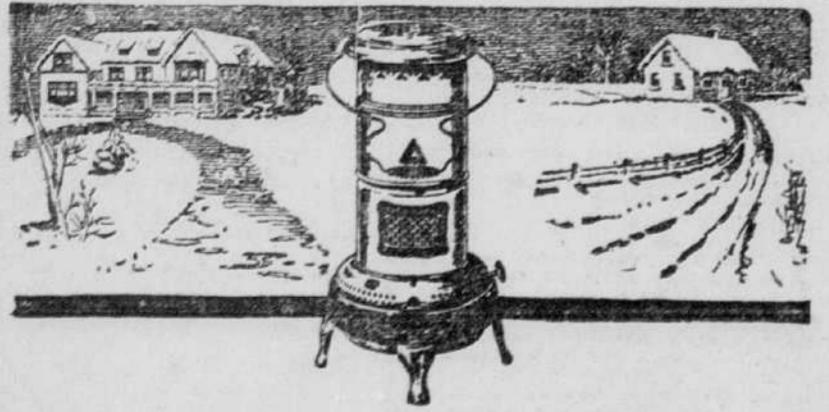

Edison Phonograph

It is worthy of Wagner, of Bach, of Puccini. The clear, sweet tone, remarkable in its purity, is simply a translation of human music into your own home.

Unless you have heard the newest Edisons, you have no conception of their wonderful mellow quality. You never realized that such beauty could be applied to sound. Ask your Edison dealer to play one of the Blue Amberol Records. Then you will know that the whole world of good music—past and present—is open to you.

A complete line of Edison Phonographs and Records will be found at **H. C. WILSON & SONS, Limited** 144 Wellington Street

For best results use **Royalite Oil**

THE IMPERIAL OIL COMPANY, Limited

Toronto, Montreal, Quebec, St. John, Winnipeg, Calgary, Regina, Vancouver, Edmonton, Saskatoon, Halifax

RECEIVED STOLEN MONEY.

Adelard Hebert of Granby vs Leopold Choiniere of Granby aged 49 years. The accused was charged with receiving stolen money, knowing it to be stolen. The evidence was taken at the preliminary hearing and showed that he had received a small sum of money, part of the proceeds of the money found in a children's bank in the Hebert house when it had been broken into and robbed by Armand Beauvais, another juvenile. He was committed for trial and allowed out on bail himself on four hundred dollars bond and the security of two hundred dollars each.

SUSPENDED SENTENCE FOR BOY.

Jos Labbe vs Roderic Arconet of Roxton Falls. The defendant is a juvenile aged 13 years and was tried and convicted on a charge of having broken into the house of the complainant and stolen \$25 in money. As it was his first offense and the proof showed that he had an exceptionally good home he was allowed to go in charge of his father, under reserved sentence on the latter becoming responsible for his future behavior.

STOLE CHILDREN'S BANKS.

Armand Beauvais of Granby committed for trial on a charge of having broken into the house of A. Hebert and stolen the children's toy banks containing about twelve dollars asked for a speedy trial and pleaded guilty. He was shown to be sixteen years old in September last and admitted having been convicted about a year ago, when only fifteen of having stolen \$300 in money and had been released in care of his father. He was remanded to jail for sentence until the 5th of December next.

LED INTO MISCHIEF.

Emile Goyette of Granby, a juvenile aged 13 years was tried on a charge of breaking into the house of A. Hebert with Armand Beauvais, where some mischief was done and where the children's banks were stolen. The evidence showed that he was induced to go in by an older companion and that he did not share in the money stolen. He was allowed to go, under suspended sentence in the care of his father.

PLEADED NOT GUILTY.

Oscar Willard of Roxton Township who had been committed to jail last winter on a charge of breaking into the house of Elie Boucher last winter and stealing therefrom, finally decided to take a speedy trial and pleaded not guilty. His trial was fixed for the 5th, of December next and he was remanded to jail.

PLEADS NOT GUILTY TO THEFT

The King vs Oscar Willard committed for trial about the same time of having stolen a quantity of clothes from a wash line, asked for a speedy trial on this charge also and pleaded not guilty. His trial was fixed for the same day.

CHARGED WITH ARSON.

The King vs John Connolly of East Bolton, committed for trial on a charge of having set fire to the barn of Homer Thomas and destroyed 30 tons of hay. He asked for a trial by jury and was remanded to jail.

CHARGED WITH BURGLARY.

The King vs Frank Racicot of Farnham. The accused was committed for trial on a charge of having broken into the C. P. R. Ticket Office at Farnham with one Byron Cook and stolen therefrom, and who had pleaded guilty was remanded for sentence until the 5th. of December.

THE KING VS FRANK RACICOT, ALSO COMMITTED ON THE CHARGE OF HAVING BROKEN INTO THE CENTRAL VERMONT STATION AT FARNHAM IN SEPTEMBER LAST, TO WHICH HE PLEADED GUILTY WAS REMANDED UNTIL THE 5TH OF DECEMBER NEXT FOR SENTENCE.

TWO YEARS IN PENITENTIARY.

Jean B. Dupuis of Granby, who had been remanded for sentence on a charge of having broken into and entered a loaded freight car at Granby, to allow him time to present petition for lenient sentence was brought up for sentence. The accused admitted that he had been sent to St. Vincent de Paul for 2 years in August 1911, for a precisely similar offense. A lengthy petition largely signed was presented, the court giving full weight to the petition,

sentenced him to a similar term of two years for this second offense.

NO CHANGE IN LAW.

The King vs Louis Caron of Granby vs local magistrates at Granby on a charge of inciting and counselling his grandson, Napoleon Therrien a boy of 17 years to set fire to his father's house asked for a speedy trial, but not pleading to the charge. Mr. Giroux moved to quash the indictment on the ground that there was no offense known to the law, such as the one charged, and also on various other grounds, irregularities at the preliminary hearing, among others that one of the Justices, Mr. Fare, presiding had committed him for trial, while the other, Mr. Mitchell had dissented and that he had been given no opportunity to examine witnesses; that those examined against him had not been sworn; that no statement of the accused had been taken. The Court held that the first ground was sufficient, as the only case when the counselling or inciting another to commit an offence became a crime, was when this offence was actually committed, that moreover anyone of the other irregularities was sufficient to annul the proceedings.

THE ACCUSED WAS DISCHARGED.

SHERBROOKE BLACK FOX CO. LIMITED

NEW COMPANY HAS BEEN FORMED—E. W. FARWELL IS PRESIDENT.

This week's issue of the Official Gazette for the Province of Prince Edward Island contains notice of the incorporation of the Sherbrooke Black Fox Company, Limited. The incorporators are E. W. Farwell, D. J. Steele and Geo. D. Mackinnon, of Sherbrooke; and Oswald Wright, of Charlottetown, P.E.I.

The capital of the Company is \$100,000, divided into shares of \$100 each. The company will start with five pair of black foxes, the best grade procurable, and will breed them on Prince Edward Island.

The head office of the company will be at Charlottetown, but the business office will be at Sherbrooke. The Company's opening announcement appears on another page in this issue.

OLDEST LIVING PUGILIST.

London, Nov. 22.—(Special)—Geo. Brown, a survivor of the prize-fighting of three-quarters of a century ago, and undoubtedly the oldest living pugilist will celebrate his 90th birthday tomorrow at his home in Brighton. Brown was one of the seconds in the famous international championship fight between Sayers and Heenan, more than 50 years ago. After quitting the ring he followed the races for many years. To-day he is not only in good circumstances but good health for his years. His memory is wonderfully retentive and remarkably accurate with regard to the fighters, dates and ring incidents of half a century—and more ago.

Y.M.C.A. NOTES — POOL TOURNAMENT.

In the games played yesterday Matthias defeated Parker by 25 to 14. Gibson having received three balls. Hatcher defeated Hurn by 25 to 20, Hurn having received three balls. There is one more game to be played in the first round between May and Dudley.

The second round will be arranged and played off during the coming week.
