

GOVERNMENT BY COMMISSION NEEDED IN SHERBROOKE.

Ald. McManamy Charges Careless Spending of City Funds—Demands An Investigation—Urges Appointment of Well Paid Commissioner To See That Officials of City do Their Work.

"Public business that is everybody's business is nobody's business."
"We need a well-paid Commissioner to see that the officials of the city do their work."

"A city cannot expect to have its affairs conducted by unpaid men. They have not the time, especially if engaged in active business of their own."

"Hundreds of dollars are spent carelessly every year under the present system."

The above statements were made by Ald. McManamy at last night's session of the City Council, when he brought to the attention of Mayor Cate the fact that in several departments of the city there was need for an investigation.

In opening his remarks, Ald. McManamy said that he had brought the matter on which he was to speak to the attention of the Board of Con-

matters of this kind could not get into the above-mentioned condition.

On being questioned as to why the collections had not been made, Mr. Griffith said that the division of the work had not been made, so it was impossible to charge the proprietors. The charge was based on frontage.

In answer to a further question, he stated that the divisions should have been made by the City Engineer.

Ald. Simoneau said that a year ago he had submitted a motion, seconded by Ald. Howard, asking the Council to appoint a competent man to look after the Road Department. The motion had been voted down, and Ald. McManamy was one of those who opposed it.

He contended that there was a misunderstanding between the City Engineer and the Road Department. He was also of the opinion that the City Engineer should make a charge against the Committee.

Ald. McManamy replied that he did not bring this as a charge against the Road Committee. He wanted to find out where the trouble was and rectify it. While he was chairman of the Road Committee he had seen that all such charges were collected. He said in part: "The city cannot expect to have its affairs carried on by unpaid men. We have not the time. Our officers must be pushed along. Hundreds of dollars are lost each year through carelessness."

Ald. DENAULT SURPRISED.
Ald. Denaault said he was surprised. The city had a secretary, assistant secretary, tax collector and assistant collector. These officials were well paid, and it was a simple matter for the Council to see that these men did their work. The aldermen were not to blame; it was the officials. If the amounts were not established, it was an easy matter for the secretary to go and get them from the proper person. It was simply a matter of collections. Ald. Denaault then moved that the matter be left with the Mayor to investigate.

ALD. DENAULT AND THE ROAD DEPARTMENT.
Ald. Denaault then brought up the recent criticism of the Road Department, and proceeded to read press reports of the meeting at which the criticisms were made. Mayor Cate ruled the reading of the report out of order unless Ald. Denaault had a special matter of privilege to bring up.

Ald. Denaault replied that he had, and read the item, in which it was reported that "Ald. Jenckes and L. H. Olivier were added to the committee, with the privilege of choosing their own chairman." Mayor Cate said that the report was inaccurate and that the committee only had power to name provisional chairman. This explanation was accepted by Ald. Denaault, and the matter closed.

ANOTHER TANGLE.
Ald. Denaault figured in another discussion immediately following the above. After he had read his report, Ald. McManamy objected to having his name placed as having been present at the Road Committee meeting, claiming he was not present, and had not been asked.

Ald. Denaault said he had asked Ald. McManamy to be present, and was backed in his statement by Ald.

Continuing, Ald. McManamy said: "If the citizens look into these matters they will be satisfied that we need a paid Commissioner who will see that the officials of the City do their duty. We must follow them up and see that they do their work. Nothing has been done for the collection of these amounts, showing carelessness. I call on the Mayor to see that all departments are put into proper shape."

Mayor Cate stated that if the condition of affairs was as Ald. McManamy stated, someone had been neglecting his duty. There was no doubt but the city should have a system of book-keeping by which

control about a year ago. Nothing, however, had been done. Continuing, he said: "Public business that is everybody's business is nobody's business. The affairs of the City of Sherbrooke require better attention than can be given by the City Council. The business of the city is so great that no body of unpaid men can give the required time, and, as a result, the affairs of the city are being neglected."

Ald. McManamy then referred to the state of affairs in connection with the public works of the city. He submitted figures showing that in 1909 the city had spent nearly \$2,000 for the purpose of laying sewers. At least half of this amount was to have been charged to the proprietors. In 1910 nearly \$3,000 had been spent for the same purpose, half of which should have been collected from the proprietors. The Road Department had also spent a large amount in building footpaths, half of which should have been charged to proprietors. He was surprised to see that the proprietors had not been charged up for their share of the outlay.

BONAR LAW AS LEADER.

Chosen as Chief of British Liberal-Conservative Party

HIGHEST HONOR EVER CONFERRED ON CANADIAN BORN MEMBER OF BRITISH HOUSE.

London, Nov. 11.—(Special)—Mr. Bonar Law, M. P., has been chosen as the leader of the British Liberal Unionist party in succession to Hon. A. J. Balfour, who resigned a few days ago. The other candidates for the position, Mr. Austen Chamberlain and Hon. Walter Hume Long, withdrew so as to assure the unity of the party.

No other Canadian born member in the British House of Commons has had such an honor conferred upon him. The appointment will be ratified at a meeting of the party on Monday.

THE HON. ANDREW BONAR.
The Right Hon. Andrew Bonar Law was born in Kent Co., New Brunswick, in 1858, the son of Rev. James Law, M. A., a Presbyterian minister. He was educated partly in his native province and afterwards at the Glasgow high school. Mr. Law is a prominent iron merchant in Glasgow

chairman of the Scotch Pig-iron Association, and ex-Chairman of the Glasgow Iron Trade Association. He entered Parliament, in 1900, as representative of the Blackfriars division of Glasgow, defeating by a thousand votes Mr. A. D. Provand who had represented the division as a Gladstonian and a Radical since 1886. His present seat is the Booth division of Lancashire.

Unless some other procedure is followed, the Court has the authority to call each of the applicants and have him examined as to his qualifications. This would mean heavy costs for both political parties, and it is probable that an arrangement may be arrived at whereby this can be avoided.

ALBERTA STRIKERS ARE IN BAD FIX.

Temperature Below Zero and Coal At Eight Dollars a Ton.

HITHERTO ONLY THREE DOLLARS A TON WAS CHARGED THE MINE WORKERS

Winnipeg, Man., Nov. 11.—(Special)—With the thermometer registering below zero, their rations running low and the price of coal at \$8 a ton, instead of the usual \$3.00, striking coal miners in the Alberta district are facing a serious situation. The conference committee of miners and operators is still meeting at Frank. The towns are patrolled by mounted police.

While it was evident that the plaintiff did not give satisfaction to the General Manager, yet it was not proved that there was sufficient cause, based on the incompetency and neglect of work for the dismissal of plaintiff without notice. The plaintiff was entitled to a month's notice or one month's salary, and was, therefore, entitled to damage. The Court condemned the defendant company to pay the plaintiff the sum of \$100, as used for the costs of suit.

ACTION UNDER WORKMEN'S ACT.
C. F. Little, sued F. G. Gale, Waterville, under the Workmen's Compensation Act. The plaintiff alleged that he was working for defendant at the rate of \$2.00 per day, and while so employed met with an accident by which he was permanently and partially incapacitated from work. The plaintiff asked that the defendant be condemned to pay him the sum of \$25.00, being half the amount of the wages he lost, and also an annual rent of \$97.50.

The defendant confessed judgment for the \$25. for loss of wages, and for an annual rent of \$39.40. This confession of judgment the plaintiff refused. Under section 23 of the act, the plaintiff now petitioned the court to be granted a provisional allowance at 25 cents per day.

The court held that the plaintiff was only entitled to this daily allowance provided his demand for an annual rent was proved to be correct, that would be \$97.50 per year. On the other hand if the defendant's contention as to rent was correct he was only entitled to 10 cents per day. Until the amount of the annual rent had been determined plaintiff's petition could not be granted except for the amount of 10 cents per day, and this was too small amount to be paid daily without causing trouble and inconvenience. The petition of plaintiff was therefore, dismissed, costs to follow final result of suit.

GRANT TO SAWYERVILLE
Sawyerville, Nov. 11.—(Special)—The Government grant and bonus received this year by the Sawyerville Model School amounted to \$902. The school also received a special grant of \$30.83.

WOMAN KILLED AND ROBBED.
White Plains, N.G., November 11.—A posse of sheriffs, farmers and laborers on the New York Aqueduct rounded up late yesterday four Italians in connection with the murder yesterday morning of Mrs. Henry Hall, the young wife of a superintendent of the Aqueduct, near Yorktown. Mrs. Hall was attacked and robbed of \$70 by several men who invaded her little cottage near Yorktown while her husband was at work upon the aqueduct, a mile and a half away. She was stabbed twice one would being near the heart.

CANADIAN CLUB BANQUET.
New York, Nov. 11.—(Special)—The Canadian Club of New York is to hold its annual banquet at the Hotel Astor next Monday night and as it will be the first dinner of this kind since the defeat of reciprocity, much interest is being shown as to the prospective utterances of the distinguished Canadian and Americans who will address the club. The new Cabinet at Ottawa will be represented by the Hon. George E. Foster, Minister of Trade and Commerce. Other Canadian speakers will be Robert A. Falconer of Toronto, C.P. Branch of Montreal, the Right Rev. Frederick Courtney, former bishop of Nova Scotia; Judge D.B. MacTavish of Ottawa, and C.R. McCullough, honorary president of the Association of Canadian Clubs.

SUTTON BOY PROMOTED.
Sutton, Nov. 11.—(Special)—Mr. Ernest Hurlbert, son of Mr. L. A. Hurlbert, of Sutton, has been promoted from the position of foreman for the Bell Telephone Co. in Manitoba to the position of inspector of lines in Alberta. This is good news to Ernest's many friends here.

SUNDAY SCHOOL ORCHESTRA.

MANY NAMES WERE LEFT OFF.

Magog People Petition Court To be Put on Voters List.

WHEN COUNCIL ADJOURNED ON OCTOBER 26 THERE WERE 385 NAMES DROPPED.

A petition was presented before Mr. Justice Hutchinson in the Superior Court yesterday afternoon on behalf of the Conservatives and Liberals of Magog.

The petition alleges that the Council left off some 385 names from the voters' list. The last day for the revision of the list was the 26th of October, and the Council sat until midnight on that date, and when they adjourned it was found that the number of names mentioned had been left off. The petition asks that the Court have the names put on the list. Mr. J. P. Wells, representing the Liberals, has 185 names, while Mr. O'Bready, representing the Conservatives, has 159.

Unless some other procedure is followed, the Court has the authority to call each of the applicants and have him examined as to his qualifications. This would mean heavy costs for both political parties, and it is probable that an arrangement may be arrived at whereby this can be avoided.

TEAMSTERS STRIKE IS THREATENED.

New York May Have Most Dreaded Of All Labor Troubles.

DRIVERS MAY GO OUT IN SYMPATHY WITH GARBAGE CARTERS EMPLOYED BY CITY.

New York, Nov. 11.—(Special)—Most dreaded of all the labor troubles, a general teamsters strike threatens New York unless the city speedily settles its differences with several thousand laborers in the street cleaning department. The strike of cartmen, who collect city's ashes and garbage, extended to the street sweepers today, and tonight department store drivers and others will meet to consider quitting work in sympathy with city employees.

ONE MAN KILLED.
New York, November 11.—Fierce rioting, in which one man was killed, another probably mortally hurt scores of others injured and the police practically held at bay, marked the strike of drivers of ash and garbage carts here yesterday.

KING AND QUEEN START FOR INDIA.

Their Departure Was Marked By Much Ceremony.

THEIR MAJESTIES WERE GIVEN AN ENTHUSIASTIC SEND OFF BY PEOPLE OF LONDON.

London, Nov. 11.—(Special)—King George and Queen Mary left London this morning for Portsmouth to board the liner Medina which will carry them to India for the imperial Durbar to be held in Delhi next month. As this was their Majesty's last appearance in Capital for nearly three months, their departure was with much ceremonial.

Accompanied by the Prince of Wales and Princess Mary, and escorted by Imperial Horse Guards, they drove in an open carriage over a roundabout way to Victoria Station. The streets were lined with people who gave King and Queen an enthusiastic send off.

HOW A MOTHER USED

"How do I use up my stale bread? Why, with OXO Cubes. They taught me a new dish that perhaps other women, who keep house, would like to try.

"With two children in the house, it is only natural that there are many broken slices and ends of loaves that would accumulate.

I call my new dish Oxo Bread Pudding

"For four persons, I soak 3/4 pound of bread to a pulp in boiling water—then drain. I chop 2 ounces of suet and a small onion, and stir into the bread. Season this with a teaspoonful of minced parsley, pepper and salt, and mix in a dessertspoonful of flour.

"Dissolve two OXO Cubes in a little boiling water and stir into the pudding. Turn into a greased mold, press down and bake brown in a moderate oven.

"I have found OXO Cubes wonderfully helpful in making Soups, Sauces and new dishes, and now I do not feel as if I could keep house without OXO Cubes. They are so handy".

OXO Cubes are the greatest advance in food invention since men began to eat and women learnt to cook.

Mrs. Edwards (who is really a famous trademark) has just brought Edwards' desiccated Soup from Ireland. She's "Getting on fine." "Edwards' Soup," she says, "is a favourite with Canadian housewives already." And no wonder.

Here is a real "home-made" soup—made for you. Everything that is a trouble to do is done before you buy. You simply pop the soup into water, boil for half an hour, and it's ready to serve. Such a soup, too.

A soup that you're eager to begin and sorry to finish; a soup that warms you

through and through; a soup that will give your husband such an appetite that it will make you hungry to see him eat.

Edwards' Soup is also an excellent addition to your own soups. It adds strength when they're weak, flavour when they're watery and colour when they're thin. Read below about the special sample offer.

EDWARDS' DESICCATED SOUP

For a few days more Mrs. Edwards is keeping open her FREE introductory offer of two full-sized 5c. packages of Edwards' Soup—one each of the Brown and Tomato varieties. Each package will make a pint of thick, nourishing soup, sufficient for two people. Sign and send the coupon, together with 5 cents in stamps to cover postage and packing, and we will forward the sample packages by the earliest post.

SHERBROOKE W.C.T.U.

The monthly meeting of the Sherbrooke Woman's Christian Temperance Union, was held yesterday afternoon at the home of Mrs. C. Skinner, Prospect street. Although the weather was very unpropitious, a number of members and visitors were present. Among the latter was Mrs. Morrill, from Stanstead, a prominent officer and well known temperance worker, also Mrs. Findlay, from Danville.

The treasurer, Mrs. Dowlin, gave the account of the expenses of the recent Dominion convention, also the donations from members towards the same, and arrangements were made for meeting the comparatively small deficit, the whole being very satisfactory.

It was decided to present certain temperance literature, given by Miss Elizabeth Cochrane, of Montreal, in the Central School, to be placed in the library.

Mrs. Jones, the president, said she wished to return thanks to the members of the W.C.T.U. who had done so much for the Dominion convention by their unselfish efforts and untiring energy had practically ensured its success. A letter was read from Mrs. Sanderson, provincial president, in the same vein, expressing her personal satisfaction at the entertainment of the Dominion Convention in Sherbrooke.

A discussion followed on the cigarette law, and it was resolved to redouble the efforts of the Union in regard to its proper enforcement.

Mrs. Jones read the report of the provincial convention at Leclerc, which she attended as delegate, and also briefly reviewed the proceedings of the recent Dominion convention. In all 109 names of delegates were sent in, but as few superintendents of departments were present a number of reports were omitted.

The report closed with the reading of the resolutions of the Dominion convention for the benefit of those who had not been present on the last day of the meeting.

A ring of thanks was tendered to Mrs. Jones for her able reports, also for the very efficient way in which she had carried out the work which devolved upon her in connection with the recent convention.

The flower collection was taken up and the meeting adjourned after singing the doxology.

Y.M.C.A. NOTES.

On account of the Concert course Concert to be held Tuesday evening at His Majesty's Theatre the Board of Directors will hold a meeting on Monday evening.

To-night at 9.00 o'clock the Y.M.C.A. Basketball team will meet the University of Bishop's College at the Y.M.C.A. for the Eastern Townships Championship.

This will no doubt be a fast, as well as close game and a large attendance is hoped for. The teams will probably line up as follows:

BISHOP'S COLLEGE Y.M.C.A. Alward Def. Wiggett Def. Wood Def. H.G. Tate Def. Cameron Cen. Holt, Centre McKee Fwd. Miller, fnd. Ireland fnd. Edney, fnd.

The game will be handled by Mr. W. S. Maguire and Sgt. Harkey.

There will be a preliminary basketball match between Bishop's School Jr. and Y.M.C.A. Jrs. at 8.15 to-night.

MEETING OF CREDITORS.

A meeting of the creditors of I. S. Mellon Ayer's Cliff, was held in the Superior Court yesterday. Mr. John J. Griffith, Sherbrooke, was appointed curator, and Messrs W. A. Abbott, Stanstead; Geo. Gardner and D.A. Berne, Montreal, inspectors. The liabilities are about \$7000 and assets around \$3000, with real estate.

INDIGESTION

Dyspepsia Means Slow Starvation

By the testimony of actual cures—by the words of those who have proved the merit of Dr. Hamilton's Pills, you can satisfy yourself that indigestion and dyspepsia are curable.

"Four years ago I got into a condition of low health—suffered all possible torture with acute indigestion, wind on the stomach, and dizzy headaches. The very smell of food often was sufficient to make me violently ill. Energy was gradually fading away, I no longer had any desire for work, or for the company of other people, and was in the depths of despair. Worse martyrdom brain and body could not suffer and live. I used so many remedies without success that I was in poor hopes of getting relief when I started on Dr. Hamilton's Pills. In a month I noticed a slight improvement, and kept right on using one pill every second night. In a month I was another man, looked ruddy, strong, hearty, and I felt as if I had been made anew. Four years have gone by, and I still rely on Dr. Hamilton's Pills and attribute to their power my present condition of robust health."

THE GATLIN TREATMENT CONQUERS DRINK HABIT

IN

3 DAYS

No Hypodermic Injections, no Disagreeable Features, no "Strong" Drugs — a Pleasant, Mild Treatment that a child could safely take.

DOING AWAY with the CAUSE of continued liquor-drinking is the secret of the Gatlin Institute's success — the secret of the permanent results obtained in THREE DAYS' TIME.

Alcohol is a cumulative poison. Once in the system it demands more. In THREE DAYS the Gatlin treatment drives every trace of this stored-up poison out of the system, and with its disappearance, all desire for liquor, and all symptoms, and any inclination to drink liquor also disappear, leaving the drinker in the same condition as regards liquor as the day he took his first drink.

Each patient treated under a plain, legal contract, that the patient shall be satisfied with the results of treatment, or the full fee paid shall be refunded at the end of the third day, and the treatment shall cost nothing. The Gatlin Institute has been established ELEVEN YEARS. Twelve thousand cases have been treated, with failure in no case. The very highest financial references are offered.

The Gatlin Institute is the only Institute authorized by the Province of Quebec under License.

The only Original Three-Day Cure, and absolutely Reliable. Every privacy desired is to be had, including Private Room for each patient with nurse, and every comfort and convenience.

Medical Superintendent in attendance Day and Night.

The Gatlin Home Treatment is for those who cannot come to the Institute for three days. It is just as efficient as Institute treatment if directions are followed.

Operating over 67 Institutes in Canada and the United States, we have effected 12,000 cures in eleven years.

BUTCHERY IN NANKING.

Men, Women, and Children Ruthlessly Massacred by Chinese Soldiers.

WHITE, THE EMBLEM OF REVOLUTION, MARKED THE VICTIMS FOR DEATH.

Nanking, Nov. 11.-Nanking is desolate. Fully a thousand of its inhabitants lie massacred, and numerous business houses and dwellings have been looted and burned. Seventy thousand persons already have fled the city, and still others are joining the exodus. Along the railway tracks leading from the city a long snake-like line of humanity is trudging, seeking a haven of safety.

It was the hand of the Manchus that brought the devastation. While the republicans were in camp three miles away awaiting ammunition and reinforcements, the Manchus began the work of carnage. Men, women and children were slaughtered. Neither youth nor age was taken into account. White, the emblem of the revolution, marked its wearers for instant death. Chinamen with white shoes, a sign of mourning among them, or even a handkerchief, were ruthlessly slain. Queerest heads were everywhere to be seen.

The sun set upon a scene of fire, rapine, desolation and butchery unrecorded in modern history. Last night 12,000 Manchus and Imperial old-style soldiers held Purple Hill, where they are entrenched, while from beneath their stronghold they are driving out before them hordes of Chinese out of the city. Meanwhile the Manchus scoured the narrow streets of the city and the houses of wealthy merchants were sacked.

The correspondent of the Associated Press saw several women executed and their children stabbed and trampled under foot.

Innocent Chinese, leaving everything behind them, fled terror-stricken and destitute to the shelter of the fields at the rear of the reform forces. The latter, numbering between 20,000 and 30,000, were impotent to check the slaughter or revenge the slain, because of their lack of ammunition.

The revolutionists had delayed a second concerted attack upon the Manchus pending the arrival of ammunition expected from Shanghai. The Manchus took advantage of the situation.

BANK CLEARING HOUSE HERE.

Likely to be Established in Near Future.

SHERBROOKE'S IMPORTANCE AS BANKING CENTRE JUSTIFIES IT.

It is understood that steps are being taken to establish in Sherbrooke a clearing house. Sherbrooke's importance as a banking centre and the volume of banking business done here, it is felt, justifies the establishment of a clearing house.

GRACE GEORGE AT HIS MAJESTY'S THEATRE, MONDAY, NOVEMBER 13th.

The London Daily Mail speaks of her as follows:

All London must go to see Miss Grace George, the dear little American actress who appeared at the Duke of York's Theatre last night—her first engagement in England—in Margaret Mayo's adaptation of Sardou's gay comedy, "Divorcées." Miss George will be compared, of course with the French actresses who have made Cyprienne familiar, and it is possible that some of the comparisons will be unfavorable. Yet she may snap her pretty fingers at adverse critics! She is bound to conquer, for she is so human, so humorous, so sly, so tender, so bewitching, and all in a breath, that every woman who sees her will envy her, and every man will love her.

The old play went splendidly last night, and the greater share of the honors undoubtedly fell to Miss George. Her colleagues would be the first to admit the fact of her triumph and to congratulate her upon it. Her coming had not been boomed, and her charm and freshness, therefore, found us unprepared and took us by storm. By the way, she is sweetly pretty. That seems a detail, somehow or other. Her prettiness is a minor attraction, for personality is everything on the stage. Miss George's personality is irresistible because it combines the depth of true womanliness and the gaiety of June sunshine.

One writes enthusiastically, and not without reason.

As for the play, you will be astonished to find how little it "dates." And, anyway, take the "straight tip" and see Miss Grace George in "Divorcées." You will laugh till your sides ache and clap till your hands are sore.

VIEWS AND REVIEWS RE CITY AFFAIRS.

THE MAYORALTY.

His Worship Mayor Cate will soon have completed his term as Chief Magistrate of the City of Sherbrooke. During his tenure of office Mayor Cate has shown ability and tact, and has presided over the deliberations of the Council with a spirit of absolute fairness. His ability to keep the Aldermen from wandering from the subject under discussion was a feature of his rule. By making them talk to the motion he prevented many a lengthy and unnecessary harangue.

The question of his successor in office is now being discussed by the man on the street. It is the turn of a French-Canadian, and the names mentioned, so far, are Ald. Ledoux, Mr. F. H. Hebert and Mr. Ernest Sylvestre.

THE VOTERS' LISTS.

It is rumored that the recent tangle in connection with the revision of the Voters' Lists will be aired in the Courts. The political parties interested are not, it is understood, satisfied with the manner in which the lists were homologated. During the progress of the revision the attorneys for both sides were heard to state several times that if justice was not given them by the Council they would appeal to a higher body.

The revision should bring home to the leaders of both political parties the fact that in revising the Voters' Lists, honesty is the best policy. Had each party only submitted the names of citizens whom they knew were entitled to vote they would have been better off. The lists were taken up ward by ward and the names considered as they appeared on the lists. Had the Conservatives, for instance, only applied to have the names of legally qualified voters placed on the lists, the one hundred and seventy-five names proposed by them could have been added. As it was, about seventy-five names proposed by them were not admitted, while hundreds of other names, entitled to be on the list, were left off, owing to so much time having been taken up in discussing the names struck off. This applies to the Liberals as well who had many names struck out but were a little more lucky on the total round up.

The election law covering the revision does not appear to be entirely satisfactory. Take for example the provision making it necessary to notify personally every person whose name is to be added or struck off of the list. In many cases this is an impossibility. In the case of the recent revision some of those whose names were on the list were in Louisiana, Winnipeg, Boston, etc. Others were dead. Would it not be desirable to have the law amended so that a notice mailed to every person, addressed simply Sherbrooke, would be sufficient? Even to serve personal notice on over a thousand people in Sherbrooke is no easy task. A rather pathetic case came up during the revision in which the Election law refused a vote to a man because he was not earning \$300 per year.

DAIRY PRODUCE.

BUTTER MARKET QUIET BUT STEADY.

Montreal, Nov. 11.—Although there is a quiet and somewhat easier feeling on current receipts, there is a firmer tone to the market, for choice September and early October creamery sales of which in car lots have transpired at 27c to 28c. Current receipts have been placed in round quantities at 27c to 27c for finest and sales of June creamery are reported at 26c to 27c as to condition. There is still some demand from the Northwest, seven cars of creamery butter leaving for that destination this week up to the present. Vancouver seems to have been fairly well supplied, and is buying very little just now. The local trade is fair for the season, although retailers kick against paying current prices, but they may have to pay higher still before spring. Dairy butter has been sold in a wholesale way at 20c for Manitoba, and at 21c to 23c for Western as to quality.

CHEESE MARKET HAS A FIRM UNDERTONE.

Montreal, Nov. 11.—There is certainly a firmer tone to the market, and what business transpired, has been done on a fractionally higher basis. As to values holders are firmer in their ideas, and are asking 14c to 15c for finest Western colored some refusing to accept anything less than 14c for September high colored. Eastern colored are quoted at 14c to 14c and white at 14c to 14c. Under grades which are very few range from 13c to 13c.

COUNTRY PRODUCE.

POTATO MARKET GOOD.

Montreal, Nov. 11.—There was a firm feeling in the potato market this week, although the receipts were fairly heavy. Several car loads of Green Mountains were sold this week at \$1.05 track Montreal. While white Quebec stock sold at \$1.00. There are quite a lot of inferior grades coming in from the Lower Provinces, which have sold as low as 80c track Montreal. The better grades are scarce and will bring top prices.

POULTRY MARKET QUIET

Montreal, Nov. 11.—There has been a few parcels of poultry come into the market, but the mild weather has curtailed the bulk of the supplies. Turkeys are in good demand at 12c to 19c per pound. Large chickens are wanted at 14c to 15c per pound while the smaller sizes are worth 11c to 12c per pound. Fowls are commanding 8c to 9c per pound. Ducks are scarce at 16c to 17c per pound. Geese are in good demand at 12c to 13c per pound.

LIGHT OFFERING OF BEANS.

Montreal, Nov. 11.—The market is quiet with light offerings. Shippers are now asking higher prices. A few cars were offered this week by Western shippers at \$2.10 to \$2.15 track Montreal for three pound pickers. Most shippers asking the outside figure.

PRICE OF TURNIPS.

Montreal, Nov. 11.—Car lots of Quebec Swedes are beginning to arrive more freely, sales being reported at \$11 per ton, track Montreal. Ontario Swedes are quoted at \$8.00 per ton f.o.b. at points in Eastern Ontario.

EGG MARKET FIRM.

Montreal, Nov. 11.—The egg market during the past week has remained firm with a further advance in prices. The trade are paying in the country 23c to 25c per dozen f.o.b. for fresh gathered stock. There is quite a sprinkling of new laid eggs in with the receipts. No. 1 stock is commanding 24c in round lots, and 26c in a jobbing way. There are very

few sales of selects being made in round lots, but they are nominally worth 28c, there is, however, a very good demand from the grocery trade for this trade which is commanding 30c in a jobbing way. New laid eggs are worth 40c per dozen. There is quite a quantity of American eggs coming into this market. American eggs are April cold storage stock and are quoted at 22c f.o.b. shipping point, with storage paid to December 1st, to this price must be added the duty, freight, etc. A few hundred cases of eggs were exported to the United Kingdom last week.

MARKET REMAINS STEADY.

Montreal, Nov. 11.—There has not been a notable change in the local hay situation. The market continues strong and active. Prices on all grades are very firm, but unchanged. It is still difficult to get cars to move the hay. American buyers are operating rather liberally at country points. Cables from Liverpool are firm at 90s c.i.f. London cables report the situation easier, owing to heavy arrivals, the quotations just to hand quote 95s c.i.f. The Bristol market is also unsettled owing to liberal receipts but quotations are unchanged at 97s 6d c.i.f. The prices in the Manchester market are firm but unchanged at 97s 6d c.i.f. Glasgow is also firm, but prices show no particular change, they range between 81s to 82c 6d c.i.f. as to quality.

We quote prices purely nominal, as follows:—
No. 1 hay \$15.00
No. 2 extra quality 13.50
No. 2 hay ordinary 12.50
No. 3 hay 10.00
Clover Mixed 9.50 to 10.00

PROVISION MARKET.

GOOD DEMAND FOR DRESSED HOGS.

Montreal, Nov. 11.—The receipts of live hogs have been fair, but there is a good demand from packers. Prices are unchanged. Packers are paying \$6.25 to \$6.50 per hundred pounds weighed off cars. Dressed hogs are firmer, selling this week at \$9.50 to \$10.00 per hundred pounds.

GOOD DEMAND FOR FEED STUFFS

Montreal, Nov. 11.—There has been a very good demand for bran, but the offerings are still light and the trade find it difficult to supply the demand. Millers have maintained their prices, they are asking \$23 per ton. There has been some large orders placed for bran from Germany for future delivery and equal to \$23.70 to \$23.80 Montreal freight. Shorts are also in demand, and as stocks are very light, prices are firm, they are quoted at \$25. Middlings are also firm owing to the limited offerings and active inquiry. Sales this week are being made on the basis of \$27.00 per ton.

We quote prices purely nominal: Manitoba bran \$23.00 per ton. Shorts \$25.00 per ton. Middlings \$27.00 per ton in bags.

THE GRAIN TRADE.

MARKET GENERALLY FIRM DURING WEEK

Corn.—The market continues firm with sales of No. 2 old in car lots at \$2.00, a lot of 4,000 bus. sold at \$2.00. Mixed is quoted at \$1.9c.
Oats.—The market is steady. No. 2 C. W. quoted at 48c; No. 1 extra feed 47c; No. 3 47c; No. 2 local 47c; No. 3 do 46c to 47c. A lot of 4,000 bushels No. 3 local sold at 46c track.
Peas.—The market is firm, and good to choice boiling peas are quoted at \$1.30 to \$1.35. A small lot of fancy sold at \$1.42. Supplies are very small.

Barley.—Malting barley is quiet and quoted at \$1.01 to \$1.02. 2 cars being reported to arrive at \$1.02. Manitoba No. 3 is quoted at 82c and feed at 64c to 65c. Poorer samples of malting barley weighing 44 to 45 lbs. have sold as low as 92c to 95c.

Buckwheat.—The market is steady at 65c in store.

Malt.—The market remains firm at \$1.20 to \$1.25.

Hops.—The market is strong. British Columbia being quoted at 48c to 51c. Bobemians 84c. East Kent Goldings 55c. Ordinary English 47c. Oregon etc New York State 55c. No. Canadian offering.

Seeds.—At Western points, the following are prices dealers are paying:—

Alsike—Fancy \$9.50 to \$10.00; No. 1 \$9.25 to \$9.50; No. 2, \$9.

Red Clover—Fancy, \$11; No. 1, \$10.50 to \$10.75; No. 2, \$10.25 to \$10.50.

Timothy.—Fancy \$7; No. 1, \$6.50; No. 2, \$6.25.

IT WILL COME, SURE.

A Dalling correspondent writes: We are waiting for that slight rise which that weather prophet promised in the Record some time ago was to come in a month after the first snow fall. The time was up ten days ago.

CHAMP CLARK MAKES EXPLANATION.

He did Advocate Annexation, But Only Through Peaceable Means.

WOULD BE BROUGHT ABOUT BY MUTUAL CONSENT OF BOTH COUNTRIES

St. Louis, Mo., Nov. 11.—(Special.)—Speaker Champ Clark, writing to the Republic from Bowling green, Mo., admits that he was quoted correctly as declaring in his speech at Fremont, Neb., for annexation of Canada to the United States, but says that the full text of his remarks in this connection was not reported. Mr. Clark says that his reiteration at Fremont of a declaration for annexation was supplemented by the statement that he favored only a peaceful annexation, brought about by the mutual consent of both countries, and that he has so qualified all his expressions favoring annexation.

PREPARING FOR A HOLY WAR.

Arabs and Delegates to Tunis to Invite Natives to Join Them.

COMBINED TURKISH AND ARAB FORCE TRIED TO CAPTURE TRIPOLI.

Tripoli, Nov. 11.—(Special.)—Various reports have been received here to the effect that the Arabs are preparing for a hot war and that they have sent delegates to Tunis to invite the natives to cross the frontier and join Mohammedans in Tripoli.

Rome, November 11.—Consolidated despatches received here from Tripoli says that the first engagement of importance since October 26 was fought on Friday in honor of the Mehammedan festival. A combined Turkish and Arab force apparently tried to re-capture the town, but did not succeed.

The official despatches do not mention the casualties on either side. Unofficially it is stated that the execution in the Turkish ranks was tremendous. Because of the numbers of the Turks and Arabs it is evident that recently they have been reinforced.

NOT SALTS, OR OIL PILLS BUT CASCARETS

No odds how sick your Stomach, how hard your head aches or how Billous--Cascarets make you feel great.

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have back-ache and feel all worn out.

Are you keeping clean inside with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep, cleanse and regulate the stomach, remove the sour, undigested and fermenting food and fowl gases; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels.

A Cascaret to-night will straighten you out by morning—a 10 cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

THE DANDRUFF GERM And the Guinea Pig

When Drs. Lasser and Bishop made a pomade by mixing scales of dandruff and vaseline, which they afterwards rubbed on a guinea pig, they were contributing to science more than they knew.

This was merely one of the preliminary steps which made possible the discovery of Newbro's Herpicide. After establishing beyond question the existence of the dandruff germ, a remedy was needed to kill this parasite.

There was nothing which would do this until Newbro's Herpicide was placed upon the market. Being the first recognized remedy for dandruff, it has long been called the "original remedy."

Herpicide kills the germ, prevents falling hair and stops itching of the scalp. Don't take a substitute; you can always get the genuine article.

Herpicide is for sale at drug stores. Applications may be obtained at good barber shops.

One dollar size bottles are guaranteed. Send 10c in postage or silver for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich. W.H. Griffith, Special Agent.

DO NOT PULL OUT THE GRAY HAIRS

A Simple Remedy Applied a Few Times Restores Natural Color

GET A 50c. BOTTLE OF WYETH'S SAGE AND SULPHUR AND TRY IT.

"Pull out one gray hair and a dozen will take its place." is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some zoor, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "Sage and Sulphur" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It retards dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, W. H. Griffith, Wellington Street.

OLD TIMER AND TENDERFOOT

By W. D. McBride.

CANADA'S WEST: ITS PROGRESS SINCE FRASER.

(Copyright by Publishers Press Ltd.)

The buffalo herds during the year swung round in immense ellipses from south to north and back again. They kept to well watered land with good pasturage all of which has proved to be good farming country. The settlers in the West drove a wedge across the prairies along the line of the rail-ways. The left of the wedge was in Manitoba, and in May 1882 the thin edge penetrated as far as the Regina plains and the Last Mountain Lake country. Near where the railway was planned to cross a small stream was a small hill or butte which had been for years the camping ground of the buffalo hunters, and here the settlers pitched their tents calling it Pile of Bones, Indian Wagon. It was 4 o'clock of the 23rd of August in the same year before the railway was opened to this point. The then General Manager, now Sir William Van Horne, brought up a party in his special car, among them Lieut. Governor Dewdney and Donald A. Smith (now Lord Strathcona) to the end of the rail to christen what was shortly selected as the new capital of the North West. Even in those days the settlers preceded the railway. A gentleman, still a resident of this city, who came in on a Pullman car in November told me his partner took him to the shack he had just erected as their home, it being

the second two years they had been of their homestead they never tasted meat except that which was the spoil of their shot gun. Their sight had been gladdened for the first time in twenty five years by seeing a kine-man's face when a brother's family came out to join them. The old lady rather surprised me by saying she would not go back to England if she had a million dollars. They had taken root, and had established for themselves an enviable social and financial position in the new land. This, I take it, is the explanation

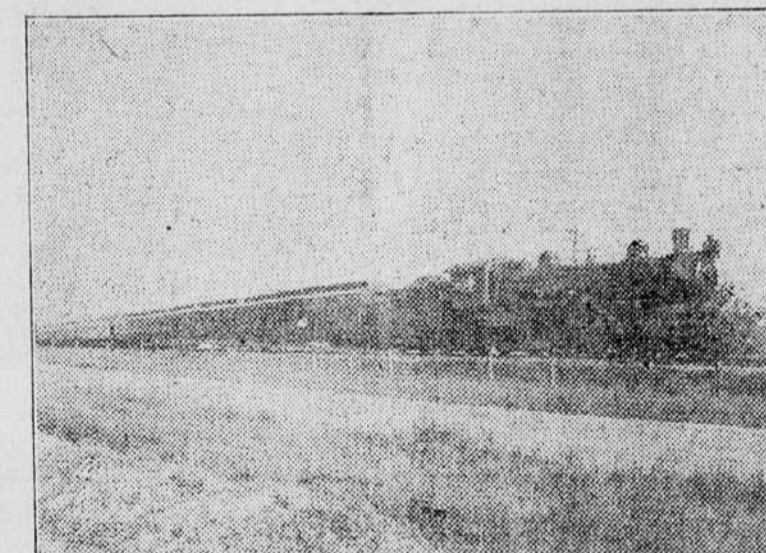

harvest and land seekers' excursions. In the Spring following he is found West looking out of the door of the car in which his horses munch hay with many an enquiring glance at the unfenced fields. Carlo looks up at his master betimes in a bewildered way or bustles himself barking at saucy small boys on the station platform dotted across the prairies. The tenderfoot's family meanwhile are crossing the continent in a crowded train, making new friends and comparing notes as to their destinations, with perchance an occasional backward glance. A few months later

THE EVOLUTION OF PRAIRIE TRANSPORTATION. THE OLD WAY

of her attitude. But it was not achieved without hardship, work and persistence. But what must have been the feelings of the Selkirk settlers who were brought out by Hudson's Bay, up the Nelson river, and on to the present Winnipeg where there was neither house nor shelter for them at first nor implements to work their land? The conquering of a new territory is not accomplished without heart break, and it is the women who suffer most. The instinct of a boy is to wander, of a girl usually to cling to the old home. A young man cares naught for the "old familiar faces," but hearkens to the call of the sea, or the spell of the romance of strange new lands. Thus has the British race spread over the world. This was the class that pushed on beyond the railway to the waste places seeking adventure, and gold if it was to be found, and gathered herds of cattle and horses upon the buffalo ranges of the far west up to the Rockies. The homesteader from Eastern Canada and from across the sea moved forward in more orderly fashion beyond the last tent or shack and pitched his tent where he had decided to make a home. The old timer was injured to hardships by a long voyage beyond the rail end in wagons dragged by oxen. The tenderfoot comes out today in a Colonist

they are settled on their land, and getting their land broken, and find to their surprise that they have already many friends about them. Thousands flock into one district in a season, and social organization is complete in no time. Steel is laid on a new railway in the Autumn. Even before its advent a new town has sprung up, unpainted and littered it is true, but debonair and busy and hopeful. Next Spring the cars of hundreds of settlers are being unloaded at the siding, and by Autumn one or two elevators are receiving the grain of homesteaders who came in possibly years before. One railway put some thirty fire such towns on the market in Saskatchewan alone last year. One class of new comer is no tenderfoot. His father had their feet hardened on the plains of the American West in the early years of last century when there was in reality a "wild and woolly west." They have been spying out this last Great West for some years, and half a million of them, nearly all English speaking though often, European descent, have come in to possess a share of its riches. They came to farm with steam plows, and see that every pound of power is used. They have started old timers with their estimate of the value of time and business

THE EVOLUTION OF PRAIRIE TRANSPORTATION. THE NEW WAY

or parlor car, and grumbles if he is a few hours late in arrival. The multitudes in English cities, who know nothing of the soil of England even, crowd out to the prairies, and are appalled by their vastness and foreign aspect. Nothing is as it was at home and nothing is right. The old timer who loves Canada grows impatient with the English and wonders aloud if England has indeed become decadent and produced a race of incompetents and "quitters." It is one of his cherished ideas that the English are a colonizing race, and are these faint hearts then the colonizers? But the winds of the West quickly winnow the chaff from the wheat, and the old timer comes to admit in time that even much of this unpromising material is sound at the core. I have given two cases in proof. The Englishmen, however, never ceases to maintain that many things are not as they should be because not as they are at home. In that attitude of mind that has its good features. If it were not too dangerous a point to dwell upon one might insist that the chief limitation of the West is a realization that it has many things to learn yet. However, while it has so many things to teach that tenderfoot must learn for their own and the country's welfare this is a realization that will come slowly. Things are going on fairly well now. The new comer and the newer understand each other fairly well and the newcomer is being gradually changed by efflux of time into an old timer with the right to lay down the law to tenderfeet. There is so much to be done at once that it is better to do than to grumble. The tenderfoot today comes to spy out the land; thousands of him on

ST. CHARLES SEMINARY.

The regular meeting of the Academy St. Pierre of St. Charles Seminary was held this week as usual, under the direction of the Rev. E. Chartier, who has replaced the Rev. R. A. D. Biron. The secretary, Mr. G. Bienvenue, read the minutes, which were approved, and recitations were given by the following members: Messrs. Amedee Masse, Eugene Prud'homme, Sylfrid Couture, Mat-

rice Lussier and A. Adam. The chronicle of the week was read by Mr. V. Bienvenue, and a reading from Paul de Cassagnac was contributed by Mr. Leon Trudeau. "The Two Dogs," a fable, was recited by Mr. R. Giroux. A few critical remarks and words of approval from the director closed the session. Coaticook House—Popular Home for Travellers. A. A. LORD SHOLTO DOUGLAS.

HAS NOT THE SLIGHTEST IDEA WHO THE NEW YORK SUICIDE IS.

Seattle, Wash., Nov. 10.—Lord Sholto Douglas said to an Associated Press correspondent yesterday:

"I have not the slightest idea who the New York suicide is, but undoubtedly he is one of the numerous men who have been impersonating me and caused me endless worry. As two persons positively identified Maurice Stuart as Lord Sholto Douglas, he must have used my name at some time."

"At various times during the last fourteen years I have met people who told me they had run across men who were using my name and title. Once I was arrested in Portland, Me., for a crime committed by one of my impersonators, and was held in jail four days before I could prove my identity. A swindler was married under my name. I have always shrunk from notoriety and have not had a photograph taken for sixteen years."

Lord Sholto, who was in great distress over the New York incident, and who hoped that his mother in England had not read of it, vowed that he would close his little cigar and grocery store at once and be in Chicago within ten days.

DOCTORS HAD GIVEN UP ALL HOPE

"Fruit-a-lives" saved my Life

RIVER & BERRÉ, Q., May 9, 1910. "I look upon my recovery as nothing short of a miracle. I was for eleven years, constantly suffering from Chronic Dyspepsia and Indigestion. I was treated by several doctors and they simply did me no good. During the latter part of my illness, I was so thin that I weighed only 90 pounds, and I vomited everything I ate.

The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. I received the Last Rites of the Church. At this time, a lady strongly urged me to try "Fruit-a-lives". When I had taken one box, I was much better and after three boxes, I was practically well again, and had gained 30 pounds. I have taken 13 boxes in all and now weigh 150 pounds and am well.

WILL STAND TRIAL IN NEW HAMPSHIRE.

EVIDENTLY HAVE A HORROR OF CANADIAN AND VERMONT JUSTICE.

St. Johnsbury, Nov. 10.—Peeping through the bars of their cells in the St. Johnsbury, Vt., jail, Edwin McCarthy, Arthur, alias "Kid" Burns, and Charles Everett, alias Old Jed Prouty, received the shock of their lives when they beheld Chief of Provincial Detectives McCaskill and Assistant-Superintendent Parsons, of the Pinkertons, gazing at them intently.

Chief McCaskill and Mr. Parsons, working in conjunction with the Post Office Department, had been requested to go to St. Johnsbury and endeavor to identify the three men and if possible to see if they had any connection with the Post Office robberies that have taken place all over the Province of Quebec and Eastern Ontario.

The three men were picked up at Rouse's Point, as mentioned yesterday after the Post Office at that point had been broken into. The Vermont police had no proof against them for that job and the men had stubbornly refused to speak. They protested their innocence.

Chief McCaskill knew the trio well, especially McCarthy. He has been the leader of the gang of safe-breakers that has been operating in the Province of Quebec and through the Eastern States, since his release from St. Vincent de Paul penitentiary four years ago. He had served a term of ten years for the robbery of the Danville Bank, minus good behavior allowance. Chief McCaskill says that the career of McCarthy reads like a dime novel. He has been concerned in every line of crime with violence on the calendar, from kidnaping to safe-breaking. Very few are the penitentiaries in North America that he has not visited.

"If the Vermont police have nothing on you for this job, I have enough evidence to send you to the pen for ten years on this job at the Post Office at St. Pacome, a year ago," said Chief McCaskill to the trio. They smiled.

A few minutes after the Canadian visitors had departed, the jailer was called and he was advised by the three crooks that they would plead guilty to the Post Office job in New Hampshire, providing the Canadian charges would not be pushed. They seemed to have a horror of Vermont and Canadian penal institutions. This was agreed to by the Vermont police. They will be tried in Concord, N.H., next term of the assizes.

NEW CENSUS WILL BE TAKEN

SUCH IS THE REPORT FROM OTTAWA TO TORONTO PAPER.

Toronto, Nov. 10.—A World Ottawa special says: There is now every possibility that the census of June last will have to be taken over again. It is understood that the question has already been informally considered by members of the Government, and that there is a strong likelihood that a new count will be taken in 1912.

A decision will be finally reached when it is shown beyond question that the census machinery broke down in June, and that the returns now in the hands of the Chief Commissioner are so hopelessly unreliable as to be useless. A thorough investigation will be made on the return of Hon. Martin Burrill to Ottawa.

The new census will likely be taken on the English system. In order to have a recount it will be necessary to pass official legislation and vote money for the cost.

NEXT WEEK AT HIS MAJESTY'S.

Grace George in "Just to Get Married" on Monday.

SECOND CONCERT OF Y. M. C. A. COURSE ON TUESDAY.

Local Theatregoers are looking forward with a great deal of pleasure to the appearance of Grace George in this city on Monday night. Miss George is appearing in "Just to Get Married," and is supported by Mr. J. V. Harding, the great English actor.

Briefly, the story of "Just to Get Married" is of a young woman on the verge of quitting her twenties for the fatal thirty, that is customarily regarded as the period in an unmarried woman's life when hope is to be abandoned of hearing the tintinnabulation of wedding bells. It is her ambition "Just to Get Married," no matter to whom, just so she won't have the finger of ridicule pointed at her.

Adam Lankester, a big, good-natured Canadian who has fallen heir to a fortune opportunistically comes along, and meets the spinster, Emmeline Vicary, by name, and proceeds to fall in love with her.

There is much satisfaction in the numerous family of relatives in which she is living over the fact that at last she is to be married well off, as they themselves are rather cramped for the necessary means in order to keep the high social standing to which they have been accustomed.

Miss George plays the part of Cousin Emmy, the poor relation with all of the vivacious piquancy and delicacy of touch which this comedienne is famed.

THE MENDELSSOHN TRIO

On Tuesday night the Mendelssohn Trio, assisted by Miss Elizabeth Foss, will give the second concert of the Y. M. C. A. Course.

The Mendelssohn Trio and Elizabeth Foss are destined to become the most satisfying combination of artists in the Lyceum field. Just now the musical world is discussing the meritorious performances of this trio of young ladies. Miss Mary Brooks, violinist, commenced playing in concert at the age of nine. She is now the finished artist. Miss Helen Tyler Grant has studied under such of the later masters as Josef Adamowski, of the famous Adamowski Trio, the late Erich Loeffler, of the Boston Symphony Orchestra, and Willem

Willeke, of the Kneisel String Quartette. She has attained a stage of Edith Gyllenburg is pupil of Madame Hopekirk She brings to the trio a delicate touch, combined with firmness and brilliancy, and an insight into the good things musically. In solo and ensemble work she is equally proficient. Miss Elizabeth Foss, the reader, who accompanies the trio, has been selected for this most difficult position because of exceptional ability, delicate treatment of things both humorous and dramatic; womanly bearing and splendid personality. Many of her readings are given with musical accompaniment.

WEST BOLTON.

There seems to be no improvement in the condition of Mrs. R. McLaughlin whose serious illness is causing the family much anxiety.

Mr. Herbert Turner went to Montreal on Tuesday and accompanied his wife home. Her many friends will be pleased to know that she has fully recovered from the severe operation she passed through three weeks ago at the General Hospital, Montreal.

Service in the Brill Church has been withdrawn for the past two Sundays owing to the illness of the pastor, Rev. G. C. Wood.

Miss Aggie Wilson, who has recently gone to Weeping Water, Neb., was given a post card shower from her friends here. Latest reports are that she is much better and it is hoped the change may prove beneficial in bringing back her usual good health.

Recent visitors include Mr. and Mrs. Hiram Williams and Mrs. A. R. McLaughlin, of Foster, at Mr. O. A. McLaughlin's; Mr. and Mrs. Alvin Goddard, of Foster, at the home of his brother, Mr. Henry Goddard; Mr. George Worden, of Bromo Centre, at Mr. Wm. Major's; Mr. H. McLery of South Stukely, at Mr. Harrison McLery's.

CHERRY RIVER.

Arrivals and departures include: Mr. and Mrs. A. I. Turner home on Thursday; Miss Maggie Sullivan and Mrs. A. Delina to Sherbrooke for the week end; Rev. Mr. England, of Marquette, at Mr. G. Turner's on Wednesday.

Mrs. Hiram Powers, who died on Monday last, was buried here, on Thursday.

BOSTON AND MAINE MEETING.

Stockholders Authorize Guaranty of \$5,000,000 Portland Terminal.

PRESIDENT MELLENS EXPECTS TO SUBMIT BETTER STATEMENT LATER TO SHAREHOLDERS.

Boston, November 11.—Boston & Maine stockholders held a special meeting at the North Station and voted to authorize and approve a guaranty by their company jointly with the Maine Central Railroad of the payment of principals and interest of the bonds issued and to be issued by the Portland Terminal Company.

The immediate issue will be about \$5,000,000 and President Mellen explained that \$10,000,000 had been authorized by the Maine Railroad Commission. The proceeds are to be used by the Boston & Maine and Maine Central for land taken by the Portland Terminal Company and other improvements.

President Mellen estimated the floating debt of the Boston & Maine at about \$6,000,000 and 7,000,000. He said that before July 1, 1912, the company must have \$10,000,000 to pay this debt and to provide for improvements, as the Boston & Maine must keep in the same relative position as the Maine Central. Every time that the Maine Central increases in its stock and makes improvements the Boston & Maine must reach down for 51 per cent of the costs, as they

own that proportion of the Maine Central stock. In conclusion President Mellen said: "I expect at the next annual meeting of the shareholders to have much better statement, as we intend to keep expenses down."

SAVAGE'S MILLS. Arrivals and departures include: Mr. Albert Quinlan a few days of last week with friends in Bolton; Mr. J. P. Cleary Tuesday in Bolton, guest of Mr. and Mrs. S. Marshall; Mr. and Mrs. Rounds and daughter of Richmond, Vt., here last week guests of Mrs. J. P. Cleary.

Mrs. Connors is seriously ill at the home of Mr. Louis Dunn.

Mr. William Gilmartin has leased his farm to Mr. Jas. Ingram and intends moving to Granby.

'MARVELOUS' CURES OF SKIN ERUPTION

Four Children Constantly Scratching. Nearly Tore Limbs Off. Cured in a Month by Cuticura Soap and Ointment

"Two of my daughters and two of my sons were suffering from very bad heads, the doctor ordering my daughters to have all their hair cut off so as to prevent it from spreading all over their heads, and to get to the seat of the trouble in order to be able to rub some ointment, which he gave them, well into the sores. These sores started in small blotches larger and larger and then burst and spread all over their heads, and in some cases down their backs and bodies. The doctor said it was eczema, but they seemed to be daily getting worse. The sores formed like little boils, then filled with matter, and looked like abscesses. They became all inflamed and irritated, causing them to be constantly scratching themselves. This made the sores burst, and the matter flowed all over their heads. We had to cut their finger nails, and at times to put gloves on their hands. The irritation was so bad, to keep them from digging into the flesh, and at night they would nearly tear their limbs off. The doctors would be literally covered with blood."

"The teachers would not let them attend school for fear of infection spreading among the other children, so I resolved to try the Cuticura Remedies, which I found to benefit my children greatly. I combined with the Cuticura Soap and Cuticura Ointment for one month, and the result is a marvelous cure." (Signed) George Arthur Robinson, 37 Fitzwilliam St., Hoyaland Common, nr. Barnsey, Yorks, Eng., Jan. 9, 1911. Although Cuticura Soap and Ointment are sold throughout the world, a liberal sample of each, with 32-p. booklet on the skin will be sent free, on application to Potter, P. & O. Corp., 46 Columbus Ave., Boston, U. S. A.

POWER OF ADVERTISING; 20TH IS CANADA'S CENTURY.

(Article in Municipal Development (By E. S. Sutcliffe, Vice-President J. J. Gibbons, Limited Toronto and Montreal.)

The Hon. Clifford Sifton when Minister of the Interior, 1896, planned and executed an advertising campaign for Western Canada, which put there a million of people and untold millions of dollars.

It is stated that the Canadian Government is the only government in the world which said: "We will build up our country and make it one of the finest in the world—and we will do it by advertising!"

We are learning that advertising, when properly directed and intelligently persisted in, is a force greater than any other single force in the world of commerce today. Advertising not only builds up industries to giant proportions, not only builds up cities to greater cities—but can actually create cities, can actually make a country.

Western Canada, created by advertising, could support the whole white population of the United States. While Western Canada (that is, from Manitoba to the Pacific), is growing so fast three new towns are being put on the map every day, and villages which thirty years ago had a population of 100, today are cities of from 125,000 to 200,000 people and people of a great type of character that make a city great; yet Eastern Canada (that is Ontario to the Atlantic Ocean), while not so spectacular in its growth, benefits by the growth of the west in that its factories are working overtime to fill orders and in that its population has increased over 1,000,000 since the last census taken in 1901. Yet Eastern Canada is not attracting in itself the attention that the west is. This is due entirely to the fact that the east does not advertise itself anything like the west.

EASTERN CANADA RESOURCES.

The resources of Eastern Canada, including Ontario to the Atlantic, in coal, iron, forests, fisheries, silver, etc., are beyond calculation. It could have a population of 40,000,000. Here is Eastern Canada to get this population—to wait and grow on merit or to advertise and tell its advantages to the millions? There are millions of people who could benefit themselves by settling in Eastern Canada. There are thousands of factories that could grow rich in Ontario and East and if each province and each town and city knew how quickly still greater development would come by properly letting the world know of their advantages there would be such a civic awakening that the world would look on with the same wonder as it now looks on the development of the golden west. Each Eastern Province should have a promotion bureau similar to Oregon, U. S. Oregon, for instance, five years ago aggregated but \$5,000,000 in its dairy output; last year it was \$17,000,000 and the increase was due to advertising.

The Provinces of Western Canada can each furnish magnificent examples of wonderful development due to advertising. Towns and cities of Eastern Canada should each have industrial Commissions, of the right sort, like hundred of Western Canadian and American cities. The story of how Memphis, Tenn., found its feet would be an inspiration to any city. In fact the story of the development of Dallas, Seattle, Vancouver, Winnipeg, Calgary, etc., reads like the romance of those gigantic industries whose reputations, in our lifetime, have become worldwide by advertising.

The Toronto, Ontario, Exhibition is an example of what can be accomplished when a body of men make up their minds to have a standing advertisement—the greatest of its kind in the world.

New York City, it is said, would give \$10,000,000 to have such an exhibition. But it takes twenty-five years to build a first-class exhibition. Exhibitions not only educate the farmer, but teaches the farmers to travel, help the country, help government, education, business and broadness of views, etc. While Canada needs grain gatherers and railroads need builders rather than warships, what would be the price of No. 1 hard if Germany controlled the seas? We should have our defence as well as our grain fields.

Another phase of city building that is illustrated at this exhibition is the playground movement. This is a movement that has gained great recognition throughout America and the authorities at the Toronto exhibition have shown their wisdom in seizing the opportunity to let visitors see what model playgrounds look like, so that they can carry away with them a right idea of just how the system works out. If the Toronto exhibition did nothing else, the spread of knowledge it affords on the matter of city play grounds for the little ones, would make it well worth while alone.

Eastern Canada has all the advantages that man could want. Social, manufacturing, farming, transportation, power, climate, mining, professional, etc., and all we need is civic pride to such an extent that we are too full to hold ourselves. Then the world would know about what we have to offer and our populations and industries would increase almost beyond belief.

EASTERN CANADIAN CITIES
Nearly all Ontario and eastern towns more or less have splendid advantages for manufacturers. Most of them have power and fuel in abundance, water and rail transportation as good as any on the continent, ample labor markets, low taxation, municipal government of the very best and climate all that man could desire. What many of these towns lack is an insistent voice to awaken the people—some one man who will put his shoulder to the wheel and awaken the latent energy of the citizens. It is almost a crime to neglect our resources and opportunities the way some of us do. We certainly

fail to show a broad spirit when we are content to benefit only indirectly through the progressiveness and hustle of our towns around us.

As an example of what a conservative town can do, Boston, Mass., and its Chamber of Commerce are well worth studying—especially so in educational matters, taxation, fuel supply, transportation, extension of retail trade, etc. Boston, with a population of some 500,000 people, has doubled its membership in its Chamber with one year. Its Chamber of Commerce now has 4,000 members. Surely other towns can make a showing fully as creditable in proportion to their populations.

SHERBROOKE'S EXAMPLE
I might mention the town of Sherbrooke in Quebec Province, having some 18,000 people. Mr. W. Clum recently showed this town its possibilities and in two days some \$5,000 was in sight for advertising. Mass meetings of the people showed that the fire of civic pride permeated the whole town. This town will soon look large on the map of Canada. It has an industrial Commissioner, Mr. C. E. Bradford.

Ottawa, Ontario, is another city that has recently collected \$15,000 in

MR. E. S. SUTCLIFFE.

a few days for the purpose of advertising. It has an industrial Commissioner. I hope to see every town with a Publicity or Industrial Commissioner and citizens subscribing, in conjunction with the city councils, sums to advertise the advantages and possibilities for both new manufacturers and new citizens.

CITY BUILDING POSSIBILITY
The people of the United States are a great people and we are learning from them how wise it is to conserve our forests, fisheries, etc. We are also learning from them that city building is a magnificent possibility and I hope our pleasant relations and friendly rivalry will continue and let the world marvel at another great country building itself into a great nation principally through advertising.

The building of a city not only means greater wealth and population, but should mean greater happiness, greater comforts for the masses, through good city government, good streets, water, parks, playgrounds, perfect milk supply. A well governed city should take care of its industries and people from the building of a battleship to looking after the children of the poor.

A great deal can be learned from German cities and from the writings of Mr. F. C. Howe, who has studied these cities minutely. Especially noteworthy is Mr. Howe's study of the city of Dusseldorf, a German municipality ruled by business men. The government of this city not only dream dreams, but put the dreams into practical execution. The people are cared for properly in every way. Built for beauty this city is managed by experts—and well managed! Mr. Howe's writings can be read with great interest and profit

by those concerned, in the welfare of their city.

Something is wrong that some of our Ontario towns have not developed into proportion to the development of other towns in the same province with opportunities and advantages not one whit superior. In fact, some towns that should be going ahead are going behind. All that these towns need is an awakening of their civic pride—an awakening that cannot fail to be very quickly followed by results of a tangible nature. Canada's western cities are splendid examples of what civic pride can do.

Yet all our towns in Ontario and the east have wonderful natural advantages which if told in the world would insure successful development.

One does not have to look far to find towns that have built themselves up almost out of nothing—towns lacking the natural advantages that other unprogressive places throw aside so carelessly. Notwithstanding that Winnipeg lacks the advantages of the east, especially in the way of coal and labor, still clever advertising and the right kind of follow-up literature is bringing magnificent results to this wonderful city away out on the prairie. In the last two years, Winnipeg has secured some twenty-four factories, to say nothing of the wonderful increase in its bank clearings, in its population and its manufactured output.

What a grand opportunity secretaries of boards of trade have to study their possibilities and then to lay before their members, a comprehensive plan of what may be done. It is wonderful the amount of enthusiasm that can be worked up and the co-operation that can be secured from local newspapers. For instance, the secretary who is fully alive to his subject, has a splendid opportunity to drive home to the leading citizens of this town the far reaching effects that a well thought out advertising campaign would have in building up the community. He can explain the commercial club idea, explain how other cities have raised the necessary money and how they have successfully gone about the work; he can point out very numerous examples—they exist on every side—of how when a town has its civic pride aroused and sane, effective and informative advertising and promotion plans worked out, that the effects are very far reaching. Then he can bring in outside experts on town building, have addresses delivered to the Board of Trade and to mass meetings of the citizens and it is far more than likely that a spark of enthusiasm will be ignited which will burst into a flame of results—a flame that will grow into a beacon light so great as to be visible across a whole continent.

Every town needs such a man—a man full of enthusiasm who will step into the breach, awakening his fellow-citizens. Every town needs some strong, active organization with the citizens behind it, to not only see that its manufacturers and citizens get a square deal from the government, etc., but to see that outsiders are told of this square deal, are told every fact that will induce them to come there and make, that town a greater town. One large city, for example, has an extremely exacting building by-law and poor harbor facilities which two facts combine to retard the establishment and growth of large industries. Just think how a strong commercial club could change all this. Such a club as a branch of the Board of Trade and the Chamber of Commerce would make short work of these conditions. Such a club, moreover, would not only rectify these strong conditions, but, through its several committees, could inaugurate a publicity bureau that would attract industries, conventions and more citizens.

Yet, after all, the best thing that such a club could accomplish, would be the increased civic pride and the more enthusiastic belief in the community which it is capable of awakening among citizens.

THE ONLOOKER COMMENTS.

The Historian Appeal. For nearly all young people the art of the actor has a fascination even beyond contemplative admiration. A very natural ambition exists in probably every other one of us to try his own skill in theatrical representation, if only in an amateur production on a local stage.

As a drawing card for youthful enthusiasm, interest, and co-operation, the amateur theatrical performance is always successful. Educational as well as entertaining, broadening in its influence on a participant's practical knowledge of artistic effect in utterance or movement, the amateur production is a desirable feature in the social life of any town.

Any local theatrical club would attract bright and ambitious young people, and an association of this nature should find a place waiting in even the smaller communities, where, even should a play of length be out of the question, individual recitation or one-act sketches would be possible.

Where local associations exist, able to produce good plays, interchange of visits and productions is very interesting and provides novelty. Many amateur productions are superior to the average small town show, and might well be produced in neighboring towns as well as in the home community.

One feature usually overlooked by local theatrical associations is a literary or stage department for the study of the history of the stage and the theatre, and an acquaintance with plays and players, past and present. Vastly entertaining this department can be made, for the lives of great dramatists and actors are never commonplace or dull, and many are as full of real 'heroics' as of sham 'heroics' on the boards.

Eastern Townships young people, who are preparing for the winter's study and amusement, might well give a corner, however transitory or amateur, to a consideration or imitation of the histrionic art.

The King's Hall Change.

King's Hall, the ladies' college now under consideration for a change of residence from its present situation in Compton, seems a very desirable institution indeed to Eastern Townships communities. Any town or village would welcome the school gladly, and even a bit of good-natured rivalry has entered into the matter.

Lennoxville has been mentioned, and as an educational centre has already won distinction. It may be remarked that no memorial from the boys of the B. C. S. and Bishop's University has been recorded, but very likely the students would not hold an indignation meeting if the trustees decided upon the establishment of King's Hall in that pleasant village.

Undoubtedly, if day pupils were admitted, the enrollment would be considerably increased in a centre where many families resident in the town would extend their patronage.

The decision of the trustees will be awaited with interest. To the satisfaction of the public concerned, the institution will not be removed from this part of the province, but in one of our E. T. centres will continue usefully to serve the educational needs of the younger generation.

A New Citadel

The Salvation Army marks an important event in its local history in the opening for use of that society's new Citadel. Through opposition, stress, and oftentimes hardships, the Army has continued for several years in Sherbrooke, increasing in membership and assisting the poor.

Through evolution, of a kind difficult to explain, the Army has taken up the greater part of the welfare work once included in the work of the churches. The Roman Catholic Church alone has an organization for the relief of the sick, aged and poor, that is at all adequate to relieve systematically these unfortunate in their parishes.

In this connection the Army adherents do a work that has received worldwide recognition. Their efforts need no apologist, and their local growth is a cause for gratification on their part and congratulations from fellow-citizens.

A Real Estate Boom

The advancement in real estate values in Sherbrooke appears to be a sign of the times, rather than a business growth due to local conditions. Throughout the Province, noticeably in Montreal and suburbs, the real estate market is alive and profitable, and in the smallest towns values have risen correspondingly.

Sherbrooke's real estate business has advanced commensurate with her population's growth. Not alone in the Centre Ward, where good business blocks are in demand, but in even the outlying parts of the other wards, the activity is noticeable. Ten years have given the city extensive suburbs, with small stores, that spring up to meet the immediate needs of suburban households.

Real estate investments are profitable, for value and demand adjust themselves to a landlord's benefit. Rents have increased. Building lots are better than cash, and if prosperous conditions continue promise a profit solid and satisfactory.

The Coming of Grace George

Grace George is one of the few actresses who holds an unquestioned place in the estimation of the public. While not a Marlow, nor, indeed, a tragedy queen in any respect, her excellence as a conscientious actress is of the highest order, and her success for her the deserved praise of even exacting theatrical critics. Her popularity is of the assured kind that makes her appearances welcome ones to the theatre-lovers, and her engagement in Sherbrooke is a notable event of this year.

SKIRMISHING IS REPORTED.

Advance of Italian Army Inland Has Been Begun.

NO FURTHER IMPORTANT ENGAGEMENTS REPORTED FROM TRIPOLI. London, Nov. 10.—No further important engagements are reported from Tripoli. Skirmishing continues, with a few casualties among the Italian troops.

The Daily Telegraph's Tripoli despatches and other censored telegrams report a general heartening of the invaders since the arrival of General Frugoni with reinforcements. The advance of the army inland is said practically to have been begun. A gradual penetration is intended, with a clearing of the country as the army proceeds. It is proposed to advance beyond Zara twenty kilometres before February.

Fort Hamidieh is now very strong and is held by the Italians, who are clearing the palms to the eastward. It is reported that the Turks have been scourged by cholera and that the Arabs are deserting them.

There is a noticeable decrease of the stories of "massacres" in Tripoli now that the vagrant correspondents have sold their "thrillers." As the real correspondents begin to be heard from there are no longer statements of mosques filled with the dead and terribly mutilated bodies of Moslem women and children. The whole thing simmers down to a harsh repression of Arab treachery.

CHARGE VICE-CONSUL WITH INTERFERENCE.

PORTLAND 'LONGSHOREMAN' SAYS MR. J. B. KEATING IS ORGANIZING RIVAL SOCIETY.

Portland, Me., Nov. 10.—The strike of the Portland 'longshoremen' assumed an international aspect last night when resolutions were passed by the 'longshoremen's society' charging that British Vice-Consul John B. Keating is promoting the organization of a rival society for the purpose of breaking the strike. The resolution says that the "Society" resents the interference on the part of a vice-consul officer of the Kingdom of Great Britain," and proposes that his "conduct" be called to the attention of the State Department and the British Ambassador.

Mr. J. B. Keating is well known in Sherbrooke, being a frequent visitor to friends here.

Monarch Peninsular

How Do You Judge a Range?

YOU can't judge a range by looking at it. True, you can see whether it is good looking or not. You can see whether it will be hard or easy to manage, whether the doors open or shut easily; whether it is easy to clean. You can see how the grates work and what oven room you have.

But you can't see how much coal it will take to heat the oven. You can't see whether your pies will burn or not. You can't tell how long the parts will wear.

This unseen part, you can be sure of when you buy a Monarch Peninsular or, in fact, any Peninsular range. Fifty years of building stoves—honest stoves—are behind every range that bears the name Peninsular. That name says the materials are good—the flue arrangement is good—the oven will heat evenly—the range will wear.

Monarch Peninsular is a steel range—the easy-to-clean kind. There are Peninsular ranges in a great variety of styles and sizes. Every one is thoroughly Peninsular. Our booklet, "The Cost," tells how they save you money after you buy them. Write for it.

It has a large square oven, twenty inches both ways—just right for four pies. The oven is made of quick radiating steel and will heat up as soon as a fire is started. It has a drop oven door, strongly made.

The Rayo Lamp

The Lamp That Saves The Eyes

Children naturally never think of possible strain on their eyesight when poring over a fascinating book. It is up to you to see they do not ruin their young eyes these long evenings by reading under a poor light. The Rayo Lamp is an insurance against eye troubles, alike for young and old.

The Rayo is a low-priced lamp, but it is constructed on the soundest scientific principles, and there is not a better lamp made at any price. It is easy on the eye because its light is so soft and white and widely diffused. And a Rayo Lamp never flickers. Easily lighted without removing shade or chimney; easy to clean and rewick. Solid brass throughout, with handsome nickel finish; also in many other styles and finishes. Ask your dealer to show you his line of Rayo lamps; or write for descriptive circular to any agent of The Imperial Oil Company, Limited.
