The Quebec Chronicle

QUEBEC, JUNE 13, 1911.

NEARING THE END.

Sir Wilfrid has fooled some of the people all the time and all of the people some of the time. It must now be beginning to dawn upon him that he cannot fool all the people all the time. It is generally admitted that he has been the chief factor of discord at London in spite of his specious and glittering generalities about the Empire. His truckling to the Nationalists cannot fail to lose him many of his supporters in other parts and it is widely interpreted more as a sign of weakness than clever politics. The English press, which has always hitherto been inclined to put the most favorable interpretation on his words from a sense of hospitality, has not spared him its criticism on this occasion, and it is reported that Sir Wilfrid, conscious of the bad impression which he is making, is very much nettled by this criticism and has intimated as much. Another of his colleagues now in England told some of the English journalists that their denunciations of the Canadian Premier as being Anti-British would make good campaign material in Quebec and would unify this Province in his favor. It is hardly likely, however, that Quebec will be fooled much longer by Sir Wilfrid's lightning changes. He has made too many of these to retain the public confidence.

In this country several of his strongest supporters in the press have put themselves on record as opposing his recent policy and Ottawa advisers report consternation among Liberal ranks. Many who refused to look on reciprocity as anything but a "simple trade measure," are now quite alive to the principle that is at stake and they have no inclination to become independent of England just for the sake of pleasing Mr. Taft. Consequently Sir Wilfrid's "break" at London is likely to cause quite as much defection from the Liberal ranks as the pan-American policy has done. And that is considerably more than a handful.

MR. OLIVER IN THE WEST.

The Hon. Frank Oliver, who is evidently in a state of panic lest the West should give Mr. Borden a fair welcome, has gone ahead to deliver the pure milk of the reciprocity gospel to the farmers before Mr. Borden gets there. But Mr. Oliver's own reception has not been of the most flattering nature and it is doubtful if his mission is not doing more harm than good to his party. Wherever he goes he is invited by the chorus to explain whence he derived the \$69,000 which was paid by generous friends into his private banking account. The question appears to embarrass Mr. Oliver and he seems in no hurry to satisfy curiosity on this point.

Another serious setback was experienced by the Minister of the Interior when he stopped at Selkirk and was met by the Indians of the old St. Peter's Reserve, who did not hesitate to tell Mr. Oliver some plain, home-truths with reference to the way in which the government has swindled its wards out of their property for the benefit of party parasites.

According to a Winnipeg paper Mr. Oliver made no attempt to answer the charges brought against his department by the Indians. He merely told them that, if they wanted redress, they could seek it at the law courts and that the fact that they had received a new reserve would make for their moral and financial improvement. He did not, according to the same authority, endeavor to explain why the department of Indian affairs over which he presides as minister of the interior connived with political favorites, for the spoliation of the St. Peter's Indians, why the surrender was brought about by false representations and why in the face of proof of the most satisfying character the government at Ottawa through its supine majority in the house of commons defeated a resolution for the appointment of a royal commission to inquire into these most serious charges—unless, to be sure, the refusal of the government was dictated by a prudent wish to conceal from the country facts which would shame its pretensions of fair dealing with the Indians of this reservation?

Mr. Oliver indulges in specious pleading when he argues that in all probability the Indians will eventually profit by their removal. That much can be granted as entirely possible. But it does not suffice to acquit the department of charges of gross abuses in connection with the surrender

of the St. Peter's reserve; much less does it make a virtue of what bears the plain marks of a swindle perpetrated for the benefit of agents and favorites of the Ottawa government.

MR. JOHNSON.

Whether Mr. and Mrs. Johnson, now on their way to the Coronation, are enjoying a seat at the Captain's table or not we are not in a position to know. The probability is that they will have a table all to themselves. Solitude is frequently one of the penalties of greatness. As the St. Louis Globe-Democrat points out, Buzzards go in flocks, but Eagles fly alone.

Mr. Johnson will occupy a unique position during his sojourn in the old country. There will be many pious figures in London during coronation week. Great warriors and all of the renowned conquerors of these times, will be then and there present to witness the crowning of the king of the widest-flung empire or the globe. J. Arthur Johnson will be unique among all of the other conquerors, in the sense that he will be the only one among them who is called a conqueror of the Anglo-Saxon, and for whose defeat promoters speculators and managers are all the time searching the world with a field glass to find "the white man's hope." Mr. Johnson will, in a sense, be persona non grata at London. He will incarnate there the ambitions of the colored races of mankind to put down the white man. Mr. Johnson has put down that particular white man who had been selected as the best white man in the world, and the one best fitted to fight for the world's championship. He will be a note of discord in a celebration for the glorification of the white race and of the Anglo-Saxon as its priest and prophet.

THE MILLING INDUSTRY.

Some of Mr. Taft's friends in the Liberal party are shouting themselves hoarse in the endeavor to prove that reciprocity will not be injurious to the milling industry in Canada. This is a very different story to that now being told by the advocates of the pact across the border. There they do not hesitate to say that the proposals are calculated to secure them the benefit of our superior western wheat. Their millers and users of flour are quite aware that a percentage of hard Canadian wheat must be mixed with their softer grades to make a good product. It is this superiority in conjunction with the handiness of our wheat which under present conditions is now making for the growth of a great milling industry in Western cities.

The United States would prefer to see the investment of capital and the employment of labor occur in St. Paul and Minneapolis. "It would not be neighborly," writes M. H. Davis of the Bureau of Trade Relations at Washington, to the North-Western Miller, of Minneapolis, "to favor a move that would be destructive of Canada's milling interest, but we must recognize the fact that if things go on as they have in late years, it will not be long before the major part of the export trade in flour from North America will be permanently lodged with Canada and that the increase in her milling capacity will be extensive. Already inroads are being made by Canadian mills on much trade in the Western Hemisphere that has theretofore been considered vouchsafed to mills of the United States."

In this connection it will do no harm to quote from Mr. Fisher, the Minister of Agriculture. Speaking in the House a few years ago, before the present government had adopted reciprocity as a possible safety-plan—that gentleman said "A large proportion of the Canadian wheat crops, instead of being exported to Europe in the shape of grain, is being ground into flour by the enterprise of our neighbors to the south, and according to the statement of the Winnipeg Board of Trade they are making a profit out of it."

"Is it not reasonable to suppose, yea, is it not necessary to the proper development of our western country that our own people at Winnipeg, Rat Portage and other places in the west, shall grind the wheat of western Canada in flour, and send it as flour to the eastern parts of Canada as well as for export?"

"I know that today the reason why so much wheat is brought from the west into eastern Canada to be ground into flour, is because there is no market in the North-west for the by-products. The people of the North-west have not yet got into the way of feeding bran and middlings and shorts to their cattle and hogs, but when they get to be a livestock producing country in the Northwest, and have an abundant market for the by-products of the wheat when it is ground into flour, then you will see in Winnipeg or somewhere else another centre like Minneapolis where today the wheat of the western states and of Canada as well, is ground into flour;

you will see the erection of enormous flour mills, and the products of our western plains will be shipped to the east in the shape of flour instead of in the shape of wheat."

The above is tantamount to an admission that reciprocity will transfer the milling industry to the United States. It is the same old question of keeping us down as "hewers of wood and drawers of water," of handing over our raw materials to others that they may get the many benefits of manufacture.

The London Globe says: "Despite Fielding's novel doctrine that the Canadian policy must not be criticised by non-Canadians, there is a good deal of criticism of Laurier's latest move against foreign treaties."

"This is something of a novel doctrine, although not so extraordinary as Sir Wilfrid's parallel claim that Canada can be left out of any war in which Great Britain is concerned, merely by giving notice apparently to the belligerents that Canada is neutral."

"Neither the commercial nor military doctrine leaves much unity to the Empire. We do not know that Sir Wilfrid likes them less on that account."

"The free trader who turned protectionist on his assumption of office, the old advocate of secession who turned imperialist when Canadian opinion forced him to think imperially, he seems to have changed once more in consequence, perhaps of his defeat in Arthabaska and the change of population in the west."

"If Canada is satisfied with this kind of leader, nothing more will be said but we should have thought our countrymen in the west would have preferred a statesman at their head who would not have turned his face so completely away from their ideal of a nation within the empire."

"King George has made the grey bowler hat the fashionable male head-gear in London," says the Vancouver Province. "It is a sensible innovation. No headpiece is properly equipped without a reasonable proportion of grey matter."

ELECTRICAL STORMS

DD GREAT DAMAGE.

New York, June 12.—Electrical storms, such as have raged intermittently over New York and vicinity during the past 48 hours with great damage from lightning and wind and flood were reported to the immediate west and north of here tonight. A terrific storm struck Baltimore at 6.30 o'clock and half an hour later both the Western Union and Postal Telegraph companies reported the loss of all wires between Philadelphia and Baltimore. The exchange of news between eastern and western points had to be made by round about routes and then was carried on only with the greatest difficulty.

The violent electrical storm was also raging in Syracuse and other up-State points at dark tonight, and communication was practically cut off up to a late hour.

THE ORIGINAL and only GENUINE Beware Imitations Sold on the merits of Minard's Liniment

MY GLASSES

Dedicated to J. A. McCLURE, Optometrist Without—Weak are my eyes, and dim my sight, blurred are my books; I cannot write. The faces of my friends look strange; the stars retreat beyond my range. The forms of beauty fade away, as if a mist on all things lay.

With—Two crystal disks, with golden bows, I lightly hang upon my nose. And Presto! What a change is wrought, quick as the transit of a thought! My books now smile and speak to me. My pen I use with childish glee. I recognize the friend I meet; I walk with joy the village street. The constellations come in view. Below, above, all things seem new! Old men and women, lads and lassies, help me to praise my precious glasses.

Capt. S. J. HARTWELL, Chester, Vt., May 10, 1911.

J. A. McCLURE, Graduate of Dominion College of Optic, South Bend, Indiana College of Optometry, 18 Mountain Hill.

Mr. John Tyrrell

Scratched Until I Tore The Flesh

"It was in the latter end of the year 1908 that a nasty itch came through my skin, and I scratched it until I tore the flesh. I tried several ointments to no effect. I went to a skin hospital. They advised me to go to the Hospital, but I refused. I could not sleep with the constant itch. I was that way until on or about the month of January One day I chanced to see in the papers a case like mine, but I gave it no credence. At last I said, 'I will try the Cuticura Remedies.' With the first wash and Cuticura Ointment I used, I found their effects. I got one box of the Ointment more, and in less than one week the skin was all right, and left no traces after it. I have not had a return of the same since, and I shall always praise the Cuticura Remedies as being the means of my cure."

(Signed) JOHN TYRRELL.

94, Scotland Road, Liverpool. In a further letter Mr. Tyrrell adds: "The first appearance of my skin eczema was a burning itch which I tore and left my body, legs and arms one mass of sores. It caused sleepless nights, but now I can sleep as well as ever."

STEAMER OLYMPIC

SAILS TO-MORROW

From Southampton for New York—The Newest Hostelry of Father Neptune.

New York, June 12.—In the White Star Line's Atlantic Hotel Olympic, floating out of Southampton water next Wednesday, June 14, and floating into the North River by noon of Thursday, June 22, the ocean has a culminating type, combining with moderate speed, spaciousness, luxury and safety. This new hostelry of Father Neptune, the highest and longest and heaviest skyscraper of its realm, weighs 66,000 tons. The new Woolworth Building, at Park place and Broadway, is to be 750 feet in height, but the Olympic, and also her twin marine hotel, the "Titanic," is 882½ feet in length. While her displacement is 66,000 tons of water, her register is 45,000 tons, against the 32,500 tons of the Lusitania. The Olympic's breadth over all is 92 feet 6 inches; height from bottom of keel to boat deck, 97 feet 4 inches; height from bottom of keel to top of captain's house, 105 feet 7 inches; height of chimneys above casing, 72 feet; height of chimneys above boat deck, 81 feet 6 inches; distance from top of funnel to keel, 175 feet; number of steel floors, 11; watertight bulkheads, 15; passengers carried 2,500, and crew, 850. The colossal rudder, which is to be operated electrically, is of 100 tons weight; the anchors weigh 15½ tons each; the central, or turbine propeller, weighs 22 tons, and each of the two wing propellers, 38 tons. The boss arms, from which are suspended the three propeller shafts, tip the scales at 7½ tons, and the forward boss arms at 45 tons. Each link in the anchor chains weighs 175 pounds. There are more than 2,000 windows in the hotel. There are fourteen levels, and if one were to count the crew's nest he might figure fifteen. The depth of the hull of the Olympic is 64 feet 6 inches. This floating caravanserai is to be propelled at a continuous sea speed of 21 knots, by three screws, the two outer ones being driven by two sets of triple-expansion engines, while the central one is worked by a Parsons exhaust steam turbine. The total horsepower is about 46,000, while that of the Mauretania is about 75,000 or 80,000, but the pace-maker eats up from 1,000 to 1,100 tons of coal a day, while the 21-knot hotel burns only between 700 or 800 tons a day. She has the biggest engine room ever known and a system of propulsion modeled after that of the Laurentic, the Canadian hotel of the White Star Line, which made a series of trips to New York last winter. To carry the greatest amount of freight with the greatest economy and the largest number of passengers with the greatest comfort is the double problem that has been solved in the Olympic, and still she is but the development of the Belfast type, which is just as distinctive as a brand of cigars. You can tell one of the Harland & Wolff hotels almost as far as you can see it coming or going. Three times around the deck house on one of the upper floors of the Olympic will make a mile.

ALLAN LINE.

Str. Scotian, Capt. Moar, having landed her passengers at the Breakwater, went to the company's wharf, discharged Quebec cargo and left for Montreal yesterday afternoon. She brought out 1,057 passengers.

Str. Sardinian, Capt. Henderson, from London and Havre, was 80 miles southeast of Heath Point at 2.15 p.m. yesterday. Due here to-morrow morning.

DONALDSON LINE.

Str. Saturnia, Capt. Taylor, from Glasgow, arrived in port at 2.30 a.m. yesterday and moored at the Breakwater. After landing passengers and Quebec cargo she left for Montreal at 9 a.m. She brought out 836 passengers.

MANCHESTER LINE.

Str. Manchester Engineer, Capt. Beggs, from Quebec, arrived at Manchester on the 10th instant.

QUEBEC STEAMSHIP CO.

Str. Bermudian arrived at New York from Bermuda at 10 a.m. yesterday.

NATIONAL LINE.

Str. Natashquan, Capt. Boucher, left port last evening for Esquimaux Point and way places with passengers and general cargo.

ICE AT BELLE ISLE.

The Signal Service office received yesterday the following reports regarding the ice at and in the vicinity of Belle Isle:

Point Amour: Clear, north; heavy close-packed ice. Red Bay a string of heavy close-packed ice five miles

wide as far as can be seen W.

Belle Isle: Clear, strong north; heavy close-packed ice to W. Nine bergs. In 9.30 a.m., two-master steamer. Supposed Karama inward 11 p.m. yesterday; same vessel outward 4 a.m. to-day, unable to make way through straits.

GREAT LAKES STEAMSHIP CO.

Cleveland, O., June 12.—One of the largest steamship mergers in the history of Great Lakes navigation was successfully carried out here on Saturday when five companies joined a combination which will be known as "The Great Lakes Steamship Co." The concerns involved in the transaction are the United States Transportation Co., the L. C. Smith Transit Co., the Standard Transportation Co. and the American Transit Co. The new concern will have a paid-in capital of \$6,000,000 and a bond issue of \$1,500,000 bearing interest at 6 per cent and payable in amounts of \$150,000 annually during the next ten years. About 21 freight vessels are involved in the deal.

FREIGHTS AND CHARTERS.

New York, June 13.—Steamer freights continued scarce in all trades and but little was done in chartering. Rates were easy, with tonnage offered sparingly. Quotations to Liverpool, London and Glasgow, 1¼d; Rotterdam, 4¼d; Hamburg, 3¼d pennings; Bremen, 30 pennings; Hull, 1¼d; Bristol, 2d; Antwerp, 1¼d; Cork for orders, 2s 3d; picked ports, large tonnage, 1s 9d; cotton to Liverpool, per 100 lbs, 15c.

Charters.—British steamer, 1,522 tons, transatlantic trade, one trip on time charter, basis about 3s 6d, June; British steamer, 2,228 tons, same, private terms, June; British steamer, 3,141 tons, transatlantic, etc., one trip, 3s 3d, delivery Tyne, redelivery New Zealand via Montreal, June; British steamer, 2,094 tons, deals, St. John, N. CITY OF QUEBEC

City of Quebec, To wit

District of Quebec.

BY-LAW NO. 15.

Concerning Vaccination.

At a meeting of the City Council, of the City of Quebec, held on the twelfth day of May, one thousand nine hundred and eleven, the following Law was read for the first time.

Considering that by a circular letter of the Provincial Board of Health any municipal council in this Province is notified to adopt, enact and put in force a by-law, ordering compulsory vaccination and revaccination in the manner hereinafter explained.

In consequence, it is ordered and enacted by the municipal council of the city of Quebec, and the said Council does hereby ordain and enact:

1. From the time the present by-law will come into force, vaccination and revaccination will be compulsory within the limits of this municipality for all persons found in it.

2. Therefore, forty-eight hours after the said by-law shall have come into force, any person, being within the municipality, who will not be able to establish that he has been vaccinated successfully within the last seven years, or who will not be able to establish, by a physician's certificate, that he has been vaccinated but without success within the last six months, will be liable to a fine of five dollars, and also to an additional fine of one dollar for each day he will have omitted or will omit to get vaccinated from the second day after the said by-law has come into force.

3. Forty-eight hours after the said by-law will have come into force, any person being within the municipality will have to exhibit to the executive officer of the municipal authority, whenever the said person shall be so required verbally or otherwise, a certificate from a physician, duly qualified to practice as such in the Province, establishing that said person has been vaccinated successfully or that vaccination has been performed upon him, but without success, within the days fixed in the preceding paragraph, and each refusal or omission from such person to exhibit said certificate, when required to do so, will render him liable to a fine of five dollars.

4. A certificate from a physician duly qualified to practice as such within the Province, stating that the state of health of a person does not allow of his being vaccinated, and establishing the reason for such impossibility, if exhibited to the executive officer of the municipal sanitary authority by such person, when asked to produce a vaccination certificate, will exempt such person from the application of the two preceding articles, but provided two months have not elapsed since the date of the certificate.

5. Any physician who will knowingly give a false certificate upon any facts he may be called to certify in virtue of the preceding articles, shall become liable to a penalty of twenty dollars.

6. Any one who will not have the means to pay to be vaccinated shall, on applying to the executive officer of the municipal sanitary authority, and on satisfying him of his inability to pay, be vaccinated at the expense of the Corporation of this city.

PUBLIC NOTICE.

Is hereby given that, in accordance with section 30 of the Act 29 Vict., ch. 57, as amended by section 11 of the Act 31 Vict., ch. 33, and of section 8 of the Act 39 Vict., ch. 51 and its amendments, the above By-law shall be read a second time and adopted on Friday, the twenty-sixth day of May instant (1911).

RUPTURE

NEXT THURSDAY, the 15th, and
until THURSDAY, the 20th.

THE ASSISTANT OF

MR. A. CLAVERIE

—will be at the—

VICTORIA HOTEL

Hours: 9 a.m. to 3 p.m. and 6 to 9 p.m.

No more spring bandages!
No more so-called elastic bandages with soft inconsistent balls, or balls that are too flat!

The first mentioned are instruments of torture which tear the skin about the hips, and by their violent pressure, crush the rupture, force their way into the muscles, ENLARGE, the opening instead of closing it up—in a word make matters worse instead of healing the rupture.

The others are absolutely incapable of maintaining a hernia IN THE RIGHT PLACE, that is to say in the interior of the body; if the hernia is large, they permit it to drop out AT THE LEAST MOVEMENT; if it is small they hide it, but do not maintain it properly; they therefore do not stop the progress of the disease, nor prevent STRANGULATION.

The only apparatus in which we can have faith are those which are recommended not only by one or two doctors, by one of the sufferers, but those which have THE OFFICIAL APPROBATION OF THE LARGEST MEDICAL ORGANIZATIONS and the testimonials from HUNDREDS OF THOUSANDS OF patients.

AND THE ONLY APPARATUS IN THE WORLD which offers such guarantees are the patented apparatus of Mr. A. Clavierie, the celebrated specialist from Paris, who for a quarter of a century has so often attracted the attention of the scientific world.

His last creation, "The Talisman" solves definitely the question of treating rupture with bandages. This marvellous apparatus, the most POWERFUL of any and at the same time THE MOST GENTLE, and THE MOST COMFORTABLE, maintains any and every rupture without ever becoming displaced. In a word, it is the only apparatus SCIENTIFICALLY constructed with a view to perfect success of the palliative cure.

According to the best surgeons in France, it is really perfection in the way of apparatus in the treatment of rupture.

There should not then be a single person suffering from rupture in Quebec who would neglect this occasion to put an end to his troubles and his fears.

Let everyone go to the Victoria Hotel from next Saturday till Tuesday, the 20th.

MEETING OF THE CITY COUNCIL.

Friday, June 9th, 1911.

Present: His Worship the Mayor, Aldermen Barbeau, Bergevin, Campbell, Cannon, Cote, Cummings, Gauthier, Emond, Goulet, Guillet, Jobin, Lantier, Levallee, Lockwell, Madden, Messervy, Monaghan, Mulroney, Paquet, Pouliot, Shink, Trudel, Verret—(23).

The minutes of the last meeting are read and confirmed.

Read a letter from Mayor Cantin, of Ville Montcalm, acknowledging receipt of resolution of thanks and of gratuity of \$25 to their firemen for assistance in the late fire in Quebec.

Read a letter from L'Union Secourable et Protectrice des Ouvriers de Stadacona, complaining of the defective service of water in that ward. Referred to the Water Works Committee.

Read a letter from Mr. Gareau, praying for the extension of Maison-neuve avenue and also for a street crossing and an electric lamp. Referred to the Road Committee.

Read a petition from Le Conseil Federé des Metiers et du Travail de Quebec et Levis, praying the Council to consider the several complaints which they have laid before them to amend the by-laws concerning masters and servants, inspection of plumber works, and insertion of protective clause for workmen's wages in contracts for municipal works. Referred to the by-law committee.

Read a petition from Assemblée No. 418 of the Canadian Order of Chosen Friends, praying the Council to abrogate by-law 277, concerning Sunday observance as it is a nuisance to the working classes. Referred to the by-law committee.

Read an invitation of the St. Jean Baptiste Society of St. Sauveur, praying the Mayor and Aldermen to take rank in the national procession of La St. Jean Baptiste on the 26th of June instant. Ordered that the said letter lay on the table until the time for motions.

Ald. Verret lays before the Council the draft of a by-law to amend by-law No. 3, concerning markets and private stalls. Moved by Ald. Verret, seconded by Ald. Madden, and resolved: That the said by-law be inscribed on the order of the day to be read this evening for the first time.

Presented the following reports: Finance.—2041st (to grant \$200 as an aid to the publication of an article on the city of Quebec in La Patrie, Montreal). 2042nd (to appoint Mr. J. A. Tremblay as assistant engineer in the Water Works Department). 2043rd (to grant to the Water Works Committee a credit of \$25,000 for water and drainage in St. Malo). 2045th (to grant to the Water Works Committee a credit of \$40,000 for water and drainage in Limoilou).

Moved by Ald. Cannon, seconded by Ald. Pouliot, and resolved: That the said reports be taken up as the 4th, 5th, 6th and 7th orders of the day.

Finance.—2044th (to accept from the Ladies of l'Hotel Dieu the free grant to the city, for civic improvements, of land of 438,718 feet in superficies, subject to certain conditions). Moved by Ald. Cannon, seconded by Ald. Cote, and resolved: That the said report be taken up as the 8th order of the day.

Water Works Committee.—661st (to award contract for the supply of iron pipes to H. A. Drury Co., Ltd., and for valves to Messrs. Drummond, McCall & Co., Ltd. 662nd (recommending the laying of a new water main of 40 inches diameter from Lorette to Quebec). 663rd (recommending that 8-inch water pipes be laid in certain streets).

Moved by Ald. Goulet, seconded by Ald. Jobin, and resolved: That the said reports be taken up as the 8th, 9th and 10th orders of the day.

ORDER OF THE DAY.

First Order of the Day—The Council proceeds to the election of the Pro-Mayor for the current term.

Moved by Ald. Madden, seconded by Ald. Bergevin, and resolved: That Ald. Cannon be elected Pro-Mayor for the current term.

Second Order of the Day—Alderman Fiset being absent, the consideration of the letter of Hon. S. N. Parent, etc., is continued to the next meeting.

Third Order of the Day—Pursuant to notice, Ald. Cote asks His Worship the Mayor: 1. Is it to your knowledge that Mr. Paradis, proprietor of the Palais Royal Theatre has been sued by the Recorder's Court for rebuilding the premises of the said theatre, and if so, what has been the result of the said legal proceedings?

Answer—He has been sued and has modified his plan and no judgment has been rendered.

2. Has Mr. Paradis conformed to the requirements of the Statute 57 Vict., chap. 58, art. 16?

Answer—Not in every respect.

3. Are the other moving picture theatres now operating in Quebec

also built according to the requirements of the said above law?

Answer—I am not sufficiently posted to answer now, but I am of opinion that a thorough inspection of all theatres should be proceeded with.

Fourth Order of the Day—Read the 2041st report of the Finance Committee, which being put to the vote is adopted, and it is resolved: That this Council grants the sum of two hundred dollars to the Montreal newspaper La Patrie to help the publication of a special number devoted to the city of Quebec, the said sum to be charged to contingent expenditure.

Fifth Order of the Day—Read the 2042nd report of the Finance Committee, which being put to the vote is adopted, and it is resolved: That Mr. J. A. Tremblay is hereby appointed assistant engineer in the Water Works Department, at a salary of nine hundred dollars a year to be computed from 29th of April last, said salary to be charged to contingent fund.

Sixth Order of the Day—Read the 2043rd report of the Finance Committee, which being put to the vote is adopted, and it is in consequence resolved: That the sum of \$25,000 is hereby granted to the Water Works Committee for the laying of water and drainage in the following streets: Montmagny, Marie de l'Incarnation, St. Raphael, Marie Louise and the beginning of Napoleon street, the said sum to be charged to the appropriations of Water Works Committee.

Seventh Order of the Day—Read the 2045th report of the Finance Committee, which being put to the vote is adopted, and it is resolved: That the sum of \$40,000 is hereby granted to the Water Works Committee for the laying of water and drainage pipes in Limoilou—the said sum of \$40,000 to be charged to the proceeds of the debentures of \$200,000 authorized by the Legislature for improvements in Limoilou.

Eighth Order of the Day—Read the 2044th report of the Finance Committee, which being put to the vote is adopted, and it is in consequence resolved: That this Council hereby accept the proposition of the Ladies of l'Hotel du Precieux Sang de Quebec to abandon gratuitously to the city, for civic improvements, a certain extent of land covering 438,718 feet in superficies, on condition: 1st. That in consideration of this free grant the city gives the assurance that, in Montcalm ward, the land belonging to them shall not be taxed otherwise than as agricultural land. 2nd. That the city shall not exact the payment of the bill of \$2,717.34 which is claimed from them by the city for taxes of the last four years. And His Worship the Mayor is authorized to sign a contract to that effect.

Ninth Order of the Day—Read the 661st report of the Water Works Committee, which being put to the vote is adopted, and it is resolved: That contracts are hereby granted to Messrs. H. A. Drury & Co., Ltd., Montreal, for the supply of water pipes and special pipes—and to Messrs. Drummond, McCall & Co., for the supply of valves, their tenders being the lowest and most advantageous, the amount of said contracts to be charged to appropriations for permanent works in Limoilou and to the loan authorized at the last session of the Legislature for water works pipes—and His Worship the Mayor is authorized to sign the said contracts.

Tenth Order of the Day—Read the 662nd report of the Water Works Committee, which being put to the vote is adopted, and it is resolved: That this Council hereby order the construction and laying of a new water main of 40 inches diameter between Lorette and Quebec, according to plans and specifications to be prepared by the Water Works Department—the money to be taken from the amount of the loan authorized by the Legislature.

Eleventh Order of the Day—Read the 663rd report of the Water Works Committee, which being put to the vote is adopted, and it is in consequence resolved: That eight inch water pipes be laid in the following streets: McMahon, St. Angele, Deligny, Ste. Marie, D'Youville, Scott, Notre Dame, Notre Dame des Anges and St. Francois before the said streets be paved with permanent material—the cost of said works to be charged to the loan authorized at the last session of the Legislature for water works.

Twelfth Order of the Day—The Council then proceeds to the first reading of a by-law to amend section 38 of by-law No. 3, concerning markets and private stalls, at which first reading the following members are present, forming a quorum of 23 members or two-thirds of the said Council, to wit: His Worship the Mayor, Ald. Barbeau, Bergevin, Cannon, Campbell, Cote, Cummings, Gauthier, Emond, Goulet, Guillet, Jobin, Lantier, Levallee, Lockwell, Madden, Messervy, Monaghan, Mulroney, Paquet, Pouliot, Shink, Trudel, Verret—(23).

His Worship the Mayor then reads

Sloth and Forgetfulness

and inferior dentifrices are the principal dental foes. A dentifrice that scratches the enamel starts decay instead of correcting it. Lactic acid is the active agent of destruction. It is created by particles of food retained in the crevices of the teeth. The more irregular the teeth the greater retention of particles. They must be brushed away night and morning and after every meal with a good tooth brush and

SOZODONT

SOZODONT penetrates the minutest crevices; helps restore circulation to the gums; gives health and tone to the mouth.

SOZODONT TOOTH POWDER polishes without leaving a scratch.

SOZODONT TOOTH PASTE is also free from every particle of grit and acid, and like the liquid and powder is supreme as a dentifrice.

Your druggist keeps them.

DO YOU
DRINK WATER?

CLAIRE FONTAINE

is such a water, it is recognized by many as the best, in fact it is twice as effective as many of the leading waters of the world and is less in price, two prime reasons for giving preference to its use.

"TWICE AS EFFECTIVE" may seem a pretty big claim, but we'll leave that to your decision. Just try it and see.

Be judge and jury yourself, give it a fair trial and we will not be afraid of the verdict.

It is taken from our own artesian spring upon our premises, 271 feet deep in solid rock.

M. TIMMONS & SON, QUEBEC, Sole Proprietors.

For your health, we mean. If you don't perhaps you ought to. Your doctor will tell you about that — we will not pretend to, but most people need a medicinal water occasionally at least. By Medicinal we do not mean purgative, we mean a water that will correct Uric Acid, save the kidneys and will benefit Rheumatism, Indigestion and Dyspepsia.

Quebec Board of Trade

Question of the Water Works

The next regular monthly meeting of the Quebec Board of Trade—the last one from now until the expiration of the summer holidays, in September—will be held Tuesday next, the 13th instant, in the Board Room, 39 St. Paul street, at 2.30 o'clock p.m. sharp.

Mr. O'Sullivan, the distinguished and well known civil engineer, will give his views respecting the construction of the new main pipe from Lorette, and Rev. Mr. Mitchell, from their popular guide in the employ of the Quebec Railway Light, Heat & Power Co. during the summer, on their special tour between Quebec and St. Anne, will show with his electric stereopticon some of the most interesting pictures in Quebec, by which he illustrates his lectures which he gives in the Eastern States, during the winter, to make Quebec known and attract tourists.

T. LEVASSEUR,
Vice-President.

Excursion to Western Canada, June 13th, 1911.

The Grand Trunk Railway have arranged for a special excursion under the patronage of Mr. Amede Cleroux, Immigration Agent for the Province of Saskatchewan from Montreal to points in Saskatchewan.

In connection with this excursion through colonist sleepers will leave Montreal 9.45 a.m. June 13th to run through to Winnipeg, Vanda, Duck Lake, Prince Albert and other points in the west without change. The accommodation in these cars is very comfortable, there are upper and lower berths accommodating two people, but passengers must provide their own bedding. The cars are upholstered in leather, there are regular cooking ranges in the car provided with fuel, and passengers will be able to do their own cooking. Engage the free use of same, and make tea, coffee, heat milk, etc., and there is no charge at all for accommodation in these cars.

On this date, June 13th, Homeseekers' cheap excursion rates will be in effect, and persons intending to travel may obtain full particulars from their nearest railway agent, or by writing Hotel, Grand Trunk Railway, Montreal.

J. QUINLAN,
District Passenger Agent.
May 23x11 June 13.

DU MAURIER'S MOST REPRODUCED PICTURE.

Probably not many people know that the drawing by Mr. du Maurier, which has been the most widely circulated, is the one that millions of people have seen and are still seeing every day without even suspecting whose the drawing is, and it has been seen by millions of people who never even heard of Mr. du Maurier's name.

The drawing in question is the picture of the bubbling spring which decorates the labels on bottles of Apollinaris Water which are each year sold in all parts of the civilized world. The original design is now in the possession of the Apollinaris company, London.

IN AND ABOUT TOWN

CHEQUES FOR \$1,160 FORGERIES

Former Quebec Firm Has An Interesting Experience in Vancouver.

Alleged forged cheques calling for an aggregate of \$1,100 have been floated in Vancouver during the past week, according to information in the hands of the police detective department. It is stated that forty worthless cheques, each for the sum of \$27.50, have been cashed, principally by hotelkeepers of the city. The cheques purported to have been issued by the Ritchie Contracting and Supply Co. and were made payable to either "Fred Woods" or "George Stewart," two supposedly fictitious characters. The cheques were drawn on the Traders' Bank and bore the Ritchie company's stamp and signatures, which purported to be those of Mr. P. E. Ritchie, president, and Mr. A. Morrison, secretary of the company. Mr. Ritchie to-day declared all the cheques were forgeries.

It was stated by Mr. Ritchie this morning that the forgers must have broken into the company's office and there secured the cheques, as those used were taken out of the office cheque book and were numbered successively from the last genuine cheques which had been issued by the company.

The forgery was discovered after the Traders' Bank had paid four of "Fred Woods" and two in favor of the cheques, two drawn in favor of "George Stewart." The bank teller noticed that some of the men in the Ritchie company were evidently being paid twice, and so he examined the next cheque which came in. It was allegedly a clumsy attempt at forgery and easily detected when suspicions were once aroused. According to the statement made by Mr. Ritchie this morning, the signatures were crude attempts at imitation, the only reason given for the paper passing so easily is that the people who cashed them looked no further than the rubber stamp.

A list of those victimized is not obtainable, but nearly all are said to be proprietors of hotels who have been in the habit of cashing Cheques of the Ritchie company for their workmen. The Ritchie Contracting and Supply Company has a large pay roll and the hotelkeepers were glad to get the forty bad cheques.—Vancouver Provincial.

COURT OF SESSIONS.

The youth arrested by Detective Walsh on a charge of stealing from the ferry boats, was found guilty in the Court of Sessions yesterday, but in view of his youth was allowed out on suspended sentence.

THE IMPERIAL LAUNDRY.

The proprietor of the Imperial Laundry has made special arrangements with the Pfeiffer Laundry to carry on its business for the present and the employees of the former company will continue the business until Mr. Seifert has concluded his future arrangements. All business with the Imperial Laundry will be attended to by calling up telephones 523 or 524.
June 13x1w

S. P. C. A. SALE.

The sale held by the Women's Branch of the S.P.C.A. last Saturday on the grounds of Mrs. J. T. Ross realized the handsome sum of \$250 clear and not, as previously stated, \$150. The fine weather and the beautiful grounds made the afternoon an enjoyable one in every respect and the ladies are naturally much elated over their success and grateful to all who so kindly contributed to make it possible.

RECORDER'S COURT.

Nine prisoners appeared before the Recorder yesterday charged with drunkenness. Two were fined \$2 and costs or eight days jail each, and seven \$5 and costs or fifteen days each. A man convicted of using unbecoming and insulting language to a woman was fined \$20 and costs or 1 month. A charge against a resident of Stoneham for polluting the city's water supply by throwing sawdust into it, was heard and taken on deliberation.

WEDDING BELLS AT TRINITY CHURCH.

At Trinity Church yesterday morning, the marriage was solemnized of Miss Ruth Little, daughter of Mr. and Mrs. Edward Little, of this city, to Mr. R. Duncan Smith, Secretary of the Halifax Branch of the Dominion Textile Co. The ceremony was performed by the Rev. A. R. Beverley, rector. The bride, who was given away by her father, was gowned in white silk crepe de chene over silk with veil and orange blossoms and carried a bouquet of white roses and lilies of the valley. Her only attendant was Miss Mildred Ewing, of Sherbrooke, wearing a gown of white silk poplin and a black hat with willow plumes, carrying pink carnations. The groom was attended by Mr. Malcolm T. B. McIntyre, of Westmount. Miss Handley presided at the organ. After the ceremony a wedding breakfast was served at the home of the bride's parents. The groom's gift to the bride was a diamond and sapphire ring, to the bridesmaid a peridot pendant and to the groomsmen a pearl stickpin. Later Mr. and Mrs. Smith left by the 1.30 C.P.R. train for Montreal en route for the Annapolis Valley. They will make their future home in Halifax, N.S.

WATER SUPPLY FOR INTERCOLONIAL

Contract for Next Twenty-five years Has Been Made With Mr. Leofred.

Mr. A. Leofred, who is the owner of a fine, modern system of waterworks and sewers at Chaudiere Curve, Levis, P. Q., which he has built himself through his enterprising spirit, has closed a contract with the Intercolonial for the supply of all the water wanted in the next 25 years in the Chaudiere Junction shops and yards, for engines and general uses. The village is very anxious to get the water from the Leofred systems, which are now operating very successfully, and Mr. Leofred is preparing to resume and complete his systems this season. The Leofred systems are to be continued as far east as the Transcontinental yards and north as far as the Quebec Bridge. The systems are protected with 25 years' franchises which are exclusive. The present outlay is about \$100,000.

PRETTY WEDDING AT ST. MATTHEW'S CHURCH.

A very pretty wedding was solemnized at St. Matthew's church yesterday morning by the Rev. A. R. Kelley, M. A., the contracting parties being Mr. G. H. Whittle, of Manchester, England, and Miss Elizabeth Harriet Hoare, of London, England. The groom was attended by Mr. Vernon Stevens. The bride was becomingly attired in a cream serge suit and hat to match, and was given away by Mr. Martin. The bride was the recipient of a large number of handsome gifts. After the wedding ceremony a wedding breakfast was served at the residence of Capt. and Mrs. Peters.

HERE AGAIN!! WHO? WHERE?

The Empress of Britain Concert party at the Seamen's concert Y. M. C. A. hall tonight. See programme. Special mention must be made of several of the items for the Seamen's concert tonight. Duet of one-string violins the first ever heard in Quebec by Messrs. Pollard and Felton. Mr. George Prince, comedian, will be heard in an original song "On the Day of the Coronation." Your old friend J. Walker is with us still. Mr. Watts in a new role will give "A Racing Recitation," in costume. Also hear J. Roberts in his comic and coon songs. Admission, adults 10 cents, children 5 cents.

DEMONSTRATION ORCHARDS

Will Be Established in Fruit Sections of Quebec.

The scope and importance of the fruit growing industry in this province is likely to be greatly improved in the near future as a result of efforts that have been made by the Quebec Pomological Society. A deputation from this organization waited upon the Provincial Government and asked that a grant be given for the establishment of demonstration of the different fruit sections of the province. The request was granted with the provision that it be made compulsory that a co-operative society be formed in each section to each of which a grant of \$800. would be paid.

The direction of the orchards is left in the hands of the Pomological Society. The general committee in charge of the work are Prof. W. S. Blair, Macdonald College, chairman; Peter Reid, Chateauguay Basin, Manager and Superintendent; R. Brodie, Westmount; and Father Leopold,.... A committee from each local Society will assist these experts in the work.

In these demonstration orchards various kinds of experiments will be conducted, such as the value and uses of fertilizers and manures, of insecticides and fungicides, of cover crops, etc., the difference in results obtained by following clean culture and sod methods of orchard practise, how and when to prune, and many other factors in orchard management. Abbotsford, Covey Hill, St. Hilaire and St. Joseph du Lac already have been organized and work will start immediately.

This is a forward movement in this province. With the hearty co-operation of all persons concerned, backed by adequate Government support, there is no reason why it should not prove as beneficial as a similar movement has done in Ontario.

CABANA.

The management of the Palais Royal who are ever on the alert to please their patrons have secured this week "Cabana," champion strong man, whose exploits of strength are widely known. He does many astonishing feats including lifting five and six men together. Cabana has never been bested in his line and this week at the Palais Royal he would welcome anyone who can do better than him. Participants may send their entries to Mr. Lauduy, manager for Cabana, care of the Palais Royal.

PERSONAL

Mlle. Elsie Richmond, St. Louis, Mo., is at the King Edward Hotel.
Mr. J. D. Keene, of the Pont Rouge Mills, spent yesterday in town on business for his firm.

Mr. R. C. Muir and Miss Corinne Muir have left for Buffalo, Niagara, Toronto and other cities.
Mr. P. C. Smith, formerly clerk of the Legislative Assembly, and Mrs. Smith, celebrated their golden wedding on Sunday last.

A large number of Quebecers left last evening by steamer Montreal for Sorel, where they will attend the annual convention of the Catholic Order of Foresters.

Among those who left Quebec last evening by steamer Montreal were Judge Langelier, Mr. C. Lancelot, Deputy Attorney-General, George Lamotte, Aime Dion, advocate, and D. Ford, contractor, of Montreal.

Ald. W. J. Mulroney, Chief Ranger, St. Patrick's Court No. 620, left last evening by R. & O. boat to attend the Provincial Convention, which opens to-day at Sorel.

Arrivals at the King Edward Hotel: Mme. James Bordley, Chas. T. Bordley, Geo. Cutmore, Boston, Mass.; Ma. Comas, P. Ferland, H. S. Michaud, Montreal; C. Coles, H. Hocking, London, England.

Mr. T. R. Ferguson, Marine Inspector of Boilers and Machinery, who has spent several days in this city, left yesterday for Pictou, N.S., and will return in a few days with his family to take up his residence in Quebec.

Mr. W. J. Doherty, of Duluth, and Mrs. Clifford McDonald, of Chicago, who have been in the city for the past week visiting relatives, left yesterday morning on their way home. Before returning to their respective homes they will visit relatives in Montreal and London, Ont.

Arrivals at the Clarendon: W. D. W. Trites and wife, Baie St. Paul; Antoine Bedard, Miss Bedard, Chicago; P. Dumoulin, Three Rivers; L. A. Turner and wife, Cornwall, Mills. Hervey, Mrs. Ths. Dupere, Chicoutimi; Mrs. R. Smith, Mrs. J. D. Smith, New York; P. S. Doyle, Oscar Rousseau, Montreal; Alfred Larouche, Murray Bay; J. Ross, Mr. and Mrs. J. B. A. Hardfull, N. J. Joyce, Gus Busseau, Montreal; Geo. Delisle, Yamachiche.

Arrivals at the Neptune Inn: Mr. J. A. Delisle, Montreal, Mr. Charles F. Dronne, St. Anne; Mr. Chas. Kidd, St. Anne; Louis St. Onge, Mont Carmel; J. D. Bordeleau, Kildare; Ernest W. Hopkins, Montreal; John N. Webster, Montreal; D. Goulet, Montreal; A. LaRochelle, St. Michel; M. Anieson, Montreal; G. Smith, Toronto; J. Desrosiers, La Tuque; P. Patin, La Tuque; A. LaRouche, La Tuque; R. Riherty and wife, La Tuque; Pire Potvin, La Tuque; G. G. Delourier, Montreal; J. Crosby, Joliette; C. Fisi, St. Simeon; M. Tisi and wife, St. Simeon; Mrs. Chabot; A. Champagne and wife, St. Georges, Bee; Charles Stodd, Prince Edward Island; L. H. Chaperon, Murray Bay; W. T. Turgeon, Beauceville.

TO BUSINESS MEN.

The plans for space in the Industrial Building of the Grand Provincial Exposition are now ready and are deposited at the office of the secretary of the Exposition Company. If one can judge by the great interest which appears to be manifested in this exhibition, it is important that our manufacturers and enterprising merchants should participate in the benefits which a well organized exposition offers, and in particular in the benefits to be derived from the Provincial Exposition of August and September next.

An exhibit at an exposition which will probably attract about 100,000 visitors is one of the best and rare advertisements. Every man who has any idea of business, and to develop his industry and trade and who has a legitimate ambition to progress, should not miss this excellent opportunity.

A Pipe for Every Face

That there should be a pipe for every facial type emphasizes perhaps more than anything else, the wide diversity of pipe styles in the B.B.B. range. For the college man, the business man, the professional man, and the man of quiet and thoughtful habits, there is a pipe to suit their individual needs. Certainly the stock of B.B.B. pipes that any dealer will be glad to show you, will demonstrate his capability to satisfy the extreme fancy or the most conservative taste. Made of flawless briar in an English factory that has for years maintained the reputation for producing the world's best pipes. Guaranteed with fair usage not to "burn" or "crack."

Hygienically constructed B.B.B. pipes are quickly and easily cleaned and have no pockets to secrete saliva or nicotine.

All dealers. All styles. All prices.

MONTREAL MADE

AN EVEN BREAK

Defeated Rochester by a Score of 6 to 5 in Yesterday's Game.

Montreal, June 12.—The Royals stopped Rochester's rally just in time in the eighth inning today and won the game, 6 to 5, thus breaking even with the leaders on the series. Both teams batted hard, Hanford with a homer and a triple, starting.

The Royals got after Holmes for four runs in the first and Rochester did the same to Dubuc in the eighth, but the locals had tallied enough to win by adding runs in the third and seventh. The score:

	Rochester	AB. R. H. P. O. A. E.
Moran, lf		5 1 2 2 0 0
Foster, ss		4 0 2 1 3 0
Moeller, rf		3 1 1 1 0 0

Home run, Hanford. Three base hit, Hanford. Two-base hits, Gandil, Moran. Left on bases, Montreal, 8; Rochester, 11. Double plays, Alperman, Foster, Spencer. Sacrifice hits, Gandil, Dubuc. Stolen bases, Demmitt, Moeller. Bases on balls, off Dubuc, 6; off Holmes, 2; off Manser, 2; off Dessau, 1. Hit by pitcher, Alperman. Time two hours. Umpires, Wright and Pender.

Montreal, June 12.—A body found floating in the river this morning has been identified as that of Donat Wilson, aged 20, of Chute-a-Blondin, near Hawkesbury, Ont. The young man had been employed for some time at Lacine. An inquest will be held.

RESULTS AT THE LONDON HORSE SHOW.

London, June 12.—Poppy, ridden by Lieut. Adna R. Chaffee, U. S. A., gave an almost faultless performance in the third section of the jumping contest. E. H. Brown, a British entry, won the Venture Viking Challenge cup for four in hands, presented by Alfred G. Vanderbilt. He was victorious in this event last year and becomes permanent possessor of the trophy. Walter Winans' Bronze Wing took first for novice riding horses, exceeding 15.1 hands.

HIGH CLASS RACING AT LATONIA.

Latonia, Ky., June 12.—A fair card brought out one of the biggest Monday crowds ever seen at Latonia and the spectators were rewarded by seeing some high class racing. Stinger, an outsider in the betting, well handled by Estep, won the handicap, the feature event on the card. Housemaid, the favorite, set the pace to the final sixteenth when Stinger challenged and won by half a length. It was a bad day for favorites, not one of the first four winning.

At St. Louis—Philadelphia, 8; St. Louis, 4.

MURRAY VETERAN OF UMPIRING STAFF.

Umpires James A. Murray, who made the mistaken decision at the plate yesterday in the Buffalo-Toronto game, is the veteran of the Eastern League staff, having been on the circuit since 1908. Murray is a Pennsylvanian, having been born in Chester on October 26, 1872. Murray comes of a family of athletes, one of his brothers being boxing instructor at West Point, and another physical director in one of the Y.M.C.A. branches in New York. He started out in the Tri-State League in 1904, remaining in that organization for three years. In 1907 Murray rendered decisions in the Connecticut State League, and a year later he was in the Eastern. Murray is a man of exemplary habits, and never has taken a drink or smoked. He was on the wrong side of the play to see it properly, but it was a bad mistake for him to make, as it beat Toronto out of the game.

TOO MANY CRANKS FOR HUGH McINTOSH.

London, June 11.—There are too many cranks and police regulations in the United States to make it safe to open a big sporting club there. This is the reason Hugh McIntosh, the Australian fight promoter, will not include the United States in his "fight circuit," which is to include London, Paris, and either Sydney or Melbourne.

McIntosh announced to-day that he had practically completed arrangements for the building at Earls Court of the largest pugilistic arena in the world.

McIntosh says he will get the best fighters in the world under contract to make his circuit.

McIntosh will pick opponents for his "stable."

ERADICATING TUBERCULOSIS.

My experience in eradicating tuberculosis from my herd, and maintaining its exemption from that disease for over ten years, is a simple proposition—so simple, indeed, as to escape the respect and adherence of too large a class of farmers.

First, let me say that, without the tuberculin test, I could not have done what I have. Therefore, I wish to put that test to the front as being the only test whereby a farmer can determine with any degree of exactness whether the seeds of the disease are in his herd.

About twelve years ago I was building up a registered Guernsey herd. I determined to put my cattle on a clear and determined basis of health. Accordingly, I employed a competent veterinarian, who had made a special study of tuberculosis, to give my cattle a tuberculin test. The herd was composed of about twenty-five animals, young and old, of which half were registered and the balance grade Jersey and Guernseys.

The first test disclosed four animals, as I remember, which reacted, all of which were grades that I had bought in the immediate vicinity. These were killed, and a post-mortem held over each carcass. The disease proved to be there, just as the tuberculin said it was. The next year, two registered cows that I had purchased, both valuable animals, responded to the test, and were likewise killed and buried. The post-mortem on these justified the tuberculin test, although, with one cow, we had to search closely before we found the lesion. In 1899, two more were detected and killed, the post-mortem proving the accuracy of the test, as before. In the meantime the entire stable room was disinfected, first by spraying with white-wash, and then with a coal-tar disinfectant.

This was the last killing done. The test in 1900 showed no reactions, and although an annual test with tuberculin has been made every year since but one, on reactions have been found. Several animals have died from other causes, as they do in all herds, and a post-mortem has failed to find any evidence of tuberculosis, so I believe that the herd is entirely clear of all tuberculosis infection, and has been for ten years.

I will say further that I have taken no animals into the herd for a number of years, except two bulls, and these were subjected to a rigid quarantine for several months, and thoroughly tested at intervals with tuberculin.

To this latter fact I owe a large part of my exemption from the disease. Tuberculosis is bought and sold to an alarming extent. Farmers are not thoroughly established in their ideas and convictions as to the nature of the disease, and especially as to its infectious character. But they must face it squarely and resolutely. Any attempt to belittle its importance, to nurse and coddle it, with the idea that it does not amount to much, or that the hue and cry raised against it is a trick of the veterinarians, will be sure to bring sore disaster. In my belief it is as infectious as smallpox among humans.

Every man should have pride and patriotism enough to wish to maintain a healthy herd. These are always of close competition, high prices of land and labor, and, in my opinion, every farmer should test his cattle once a year, at least, and take none into his herd until he is absolutely certain that they are free from all contagious diseases.—W. D. Hoard, in the report of the U. S. Live-stock Sanitary Association.

THE METHODS OF MILK MAKING.

In a test conducted last year the Ohio Experimental station endeavored to answer the question: Can silage be made to take the place of a considerable portion of the grain ration usually fed to dairy cows? The results of this experiment, as published in bulletin form, are summarized below:

The rations were fed carrying practically the same amount of dry matter. In one ration over 50 per cent. of this dry matter was derived from silage and less than 18 per cent. was derived from grain. In the other ration over 57 per cent. of the dry matter was derived from grain, no silage being fed.

Ten cows, representing five different breeds, were fed these rations from two to four months, five cows taking the test the full four months.

The cows fed the silage ration produced 96.7 pounds of milk and 5.08 pounds of butter fat per 100 pounds of dry matter.

The cows fed the grain ration produced 81.3 pounds of milk and 3.9 pounds of butter fat per 100 pounds of dry matter.

The average net profit per cow per month over cost of feed was \$5.86 with the silage ration and \$2.46 with the grain ration.

Upon the conclusion of the experiment each lot of cows was found to have gained in live weight: The silage-fed cows an average of 47 pounds per head, the grain-fed cows an average of 57 pounds per head.

TEN DOZEN ONLY.

PROGRAMME OF MASQUE OF EMPIRE

Will Be Performed at Spencerwood on Canadian Day and K. O. C. Hall June 2.

The following is the programme of the "Masque of Empire," which will be performed on Coronation Day at Spencerwood and on the following day in the Knights of Columbus Hall at 4 p.m. The masque will be enacted by the Daughters of the Empire, of which chapter Mrs. Montefiore Joseph is regent; Mesdames W. Price and G. Tessier, vice regents; Miss Carter, secretary; Mrs. Verge, treasurer, and Mrs. Arthur Price, standard bearer.

PROGRAMME.

"A Masque of Empire."
"Britannia," Miss Hope Glass.
Chorus—Mrs. C. J. Davis.
The Navy—Masters P. Painchaud, W. McLimont, C. Taschereau, U. Tessier, H. Huestis, J. Bosse.
The Army—Masters Jacques, Raymond, Ross, Sewell, Gibaut, Rosen, Moore, Jack.
Canadian Scouts—Masters L. Wiggs, R. Wiggs, G. Simons, F. Andrews, T. Scott, W. Edgley.
Canadian Navy—Masters Jewell, C. Craig, Endler, Fluhmann, Scott, Stanton, Andrews, Jones.
Canada—Mlle. Irene Grenier.
Newfoundland—Miss Molly Huestis.
Australia—Miss E. Parmelee.
New Zealand—Miss E. Meredith.
United South Africa—Miss Rita Huestis.
Gibraltar—Master Harry Huestis.
Malta—Master Willie Home.
Empire of India—Miss Rosetta Joseph.
Roll call of the Crown Colonies.
Asia—Misses R. Johnston, B. Parmelee, M. Home, R. Green, G. Elliot, M. Larue.
Australasia—Misses M. Ross, F. Ross, M. Ellis, F. Ellis, H. Home, H. Grenier, L. Taschereau, W. Price, M. Taschereau, J. Taschereau, F. Sharples.
South Africa—Aldythie Walcott, Marie Dunn, Eileen Verge, Hilda Woolrich, Elga Lemesurier, Pauline Marois, Ruth Home, Lucie Lanctot.
America—Misses R. Scott, Baby Johnston, M. Elliot, H. Elliot.
The Coaling Stations of the British Empire—Masters Price, Turner, Campbell, Boulton, Willard, Pigot, Price.
Herald—Mr. Huestis.
Stage Manager—Mrs. Huestis.
Tableau.
"God Save the King."
The following selections of music will be rendered by the R. C. G. A. Band:
Rule Britannia. (As curtain goes up.)
Sailor's Hornpipe. (Sailors dance.)
Soldiers of the Queen. (Soldiers march on.)
Rule Britannia. (Sung from behind.)
O Canada. (Played for the entrance of Canada.)
Banks of Newfoundland. (Played for entrance of Newfoundland.)
Australian National Air. (Australia enters.)
New Zealand National Air. (New Zealand enters.)
South African National Air. (South Africa enters.)
Soft music. (Britannia speaking.)
The Maple Leaf. (Sung from behind.)
See the Conquering Hero Comes. (Gibraltar and Malta enter.)
India National Air. (India enters.)
Every Little Movement (waltz). (Asia, six girls dance.)
Australasian National Air. (Australasia, six girls dance.)
African Air. (Africa, six girls dance.)
Butterfly. (America, four butterflies dance.)
Jolly Young Jack Are We. (Coaling stations, wee boys romp.)

CHURCH UNION WAS ENDORSED

Methodist Conference at To-
ronto Expresses Itself Up-
on Two Questions.

Toronto, June 12.—The Toronto Me-
thodist Conference expressed itself
positively upon two burning interests
to-day. At noon, after one of the
most spirited debates that has ever
characterized the meetings of the con-
ference, church union was endorsed
by the overwhelming vote of 241 to
48, a majority of 193. Later in the
afternoon an uncompromising resolu-
tion denouncing the Na Temere de-
cree and pledging the conference to
do all in its power to have it made an
offence for anyone challenging the
validity of a marriage celebrated ac-
cording to civil law, was unanimously
passed, every member of the con-
ference standing and lustily singing the
National Anthem.

A scheme looking to more adequate
salaries for the ministers throughout
the Toronto conference, brought down
by the committee on memorials, was
adopted. It is purely educational in
character. A committee to be called

the "ministerial salaries committee,"
consisting of one lay member from
each district and nominated by the
Laymen's Association, will be elected
by the conference, co-operating with
each district in an effort to increase
the scale of salaries and to secure
added support for the sustentation
fund. The report suggested that the
minimum salary of probationers be
\$600 a year; of unordained unmarried
men, \$900; married men on country
and village circuits, \$900 and \$1,200;
and on town and city circuits, \$1,200
and \$1,500. The trustee board of the
Broadway Tabernacle were granted
permission to sell the present property
on Spadine Avenue and College street.
The proceeds will be devoted towards
the erection of new buildings provid-
ing better facilities near the present
location.

CASE AGAINST ANADIAN NORTHERN R. R.

Winnipeg, June 12.—The case for
contempt of court against the Cana-
dian Northern Railway was concluded
this morning, Chief Justice Math-
ers handing down his decision which
muited the Canadian Northern of
\$1,000. The case arose out of failure
of the Canadian Northern express to
comply with an order of the court
forbidding it to forward the election
returns in the provincial contest be-
tween J. H. Howden and F. L. Davis
until an action brought by the latter
protesting against the returns was
tried. In default of payment of the
fine judgment provides for the seizure
of the express company's property.
J. H. Barlow, the returning officer
was also adjudged guilty of contempt
for not stopping the delivery of the
parcel. He was directed to pay the
costs of F. L. Davis in connection with
the action.

STRIKE AMONG EMPLOYEES OF CAR CO.

Montreal, June 12.—Between 800
and 900 men employed in the Domi-
nion plant of the Canada Car and Foundry
Co. at Turcot village quit work
this afternoon on the grounds that a
raise in wages varying from two to
four cents an hour had been refused.
The strikers marched to the Canada
plant of the company at Ville St. Paul
and asked the workers there to join
them. The plant was promptly closed
for the day. The officers of the com-
pany declare that the strike was very
sudden as they had but little trouble
previously over the wage question.
The plant will be open to-morrow if
the men care to resume work. Police
reserves have been sent to Turcot in
anticipation of any disorder.

To The Housekeepers of Quebec

We have now on exhibition at our Showrooms, 140 St. John St., the finest and most extensive line of GAS COOK-
ING, HEATING AND LIGHTING APPLIANCES ever shown in this city, and extend to you a cordial invitation to call
and inspect them.

Realizing from the large increase in our sales of GAS RANGES that there is a growing demand for the best that
can be procured, we have arranged with some of the leading Canadian, American and English Manufacturers, to place
their respective lines on exhibition and have their own experts on hand to explain the operation and construction.

Every firm represented has established a world-wide reputation for the quality of its goods and will prove to you
that no detail has been omitted which could add to the merit of its products.

NOTE THE NAMES OF EXHIBITORS

THE G. M. Clark Company, Chicago, Makers of the famous JEWEL GAS STOVES, which hold a leading place in every city in America and which have been before the public for the past thirty years. See their New Oven with the GLASS DOOR. You can see into the oven without opening the door.	THE General Gas Light Co'y., New York, Pioneers in the making of Gas Arc Lamps for lighting large areas, inside or out. The cheapest and best method of any now in use. See their New Automatic Distance Lighter.	THE Ruud Manufacturing Co'y., Pittsburg, The builders of the Ruud Automatic Instantaneous Gas Water Heater, which will furnish all the Hot Water you require, day or night, without the necessity of your having to even light a match and giving an efficiency of 90% of the heat in the Gas.	THE Welshbach Company, Chicago, The largest makers of Incandescent Gas Lighting supplies in the world, and who have spent thousands of dollars in perfecting their several lines and are now Furnishing Gas Light Sup- plies to suit every purpose of the House or place of busi- ness.	THE Gurney Foundry Co., Toronto, The oldest and biggest firm of the kind in Canada, and who are now operating large foundries in Toronto, Montreal, Winnipeg and Bos- ton to supply the demand for their several GURNEY OXFORD Cooking and Heating Ap- pliances.	THE Humphrey Company, Kalamazoo, Semi-Portable Instantane- ous Gas Water Heaters, dozens of which are now in successful operation in Que- bec, and more than 125,000 in other places. THE HUMPHREY furnishes a good big Hot Bath at a cost of only 2 Cents.	THE Davis Gas Stove Company, London, England. Shows a new type of Gas Fire to take the place of the old-fashioned Coal Grate in several sizes and finishes of attractive design and moder- ate price. These fires are rapidly dis- placing coal grates in the finest drawing rooms, by rea- son of their high Heating Power and entire freedom from dust.

BRIEF NOTES OF THE WORLD'S NEWS.

St. Petersburg, June 12.—The sinking of an overcrowded ferry boat on the Volga, near Uglitch, is reported. Thirty persons were drowned.

The body was found close to where the upset occurred. Young Hewitt endeavored to swim to shore to summon aid but weakened and sank.

Regina, Sask., June 12.—By the overwhelming vote of 120 to 9 the Saskatchewan Methodist Conference this afternoon voted in favor of the principle of church union.

Kiel, June 12.—A final selection has been made by the committee of Tilly XIV. Wannsee and Seehund III. as the German representatives to race the American boats in the Sonder class events on June 19.

Toronto, June 12.—Mait Aykroyd this afternoon recovered the body of Arthur Hewitt, drowned off Lorne Park yesterday afternoon in an heroic attempt to save his brother and a friend when the dinghy in which they were sailing upset.

Whitby, Ont., June 12.—Judge Neil McCrimmon, senior judge of Ontario County, died at his home late to-night after a lingering illness. Judge McCrimmon was appointed senior judge of Ontario in 1900. Judge McCrimmon was born at Vankleek Hill, Glenbury County, and was in his 56th year. He is survived by a widow and

Brussels, June 12.—The dirigible "Ville de Bruxelles" escaped from its moorings today while preparations were being made for an ascent. There was nobody aboard the balloon, which drifted off quickly and was given up for lost. It descended, however, after a few hours and was only slightly damaged.

Washington, June 12.—The Senate to-night, by 64 to 24, passed the resolution amending the Constitution to provide for election of senators by direct popular vote. The Bristow amendment, giving to the federal government supervision over such elections, was adopted 44 to 44, the vice president casting the deciding ballot. The House has already passed the resolution.

Mequinez, Morocco, June 8th, via Tangier, June 12.—General Moirier's column arrived here today after a long and arduous march from Fez. The French troops had engagements almost daily with the Beni Mitr tribesmen. The gates of the city were opened after a slight resistance and the pretender, Mulai-El-Zin surrendered on receiving a promise that he should not be harmed.

Niagara Falls, Ont., June 12.—A man supposed to be Clark Jones, 25 years of age, of Decatur, Ill., was found early this morning in Prospect Park on the United States side, with a bullet wound above the right ear and a wound on the left side of the head. By his side was a revolver. The man was still unconscious when found and gave the name of Clark when questioned by Park Officer Knapp. There were no letters in his pockets or marks on his clothes. There is no hope of his recovery.

Washington, June 12.—Attorney-General Wickham reported to the House to-day that he did not consider it compatible with public interest to state whether his department is preparing criminal action against the American Tobacco Co. officers. Representative Byrnes, of Tennessee, immediately introduced a concurrent resolution to direct the Attorney-General to immediately begin these prosecutions.

Winnipeg, June 12.—A foreman named B. Dixon was pounded with stones in the hands of two Galicians on Carlton street this evening and they at once made their escape. Constable Lovate was detailed in pursuit from police headquarters, and succeeded in tracing the two men and capturing them after a hard chase. They gave the names of Ross Selegrey and Mike Beka. Dixon's condition is serious.

Winnipeg, June 12.—That death was due to cerebral hemorrhage, possibly accelerated by his arrest and confinement in the police station, was the verdict brought in tonight by the jury employed to inquire into the death of John Hetherington, the man who died in the Winnipeg General hospital after being held in police cells for three nights. Incidentally the widow stated after the inquest that she would at once start suit against the Associated Charities, at whose instance Hetherington was arrested.

Rome, June 12.—King Victor Emmanuel and Queen Helena, attended by their court, to-night, witnessed the first presentation in Rome of Puccini's opera, "The Girl of the Golden West." The performance was of high class and at the end of each act the composer and the singers were enthusiastically applauded, the latter being called many times before the curtain. The King invited Puccini to the royal box and congratulated him warmly on the success of his opera.

Ingersoll, Ont., June 12.—Spontaneous combustion is thought to have been the cause of a fire which early this morning damaged the building and stock of Walley's drug store to the extent of probably \$1,500 or \$1,800. Mrs. Orme, wife of W. H. Orme, photographer, whose studio and living apartments are over the drug store, awakened shortly before four o'clock to find the rooms filled with smoke. A baby, evidently made restless by the smoke, awakened her and probably saved the lives of the whole family, as Mr. Orme was almost overcome by the smoke. Mrs. Orme caused an alarm to be sent in and the firemen responded promptly.

GROWING AND BUYING FEED.

Now, there are two extreme types of dairy management, with every gradation between. In the one the farmer keeps a small herd and grows all the feed; in the other, he keeps a large herd as possible, growing roughage only, and buying all his grain. It is necessary for the farmer himself to determine which of these extremes represents the ideal toward which he should strive. Under the conditions that prevailed twenty years ago, the farmer who kept the large herd and bought his grain made decidedly more profit than his neighbor who kept a small herd and raised his grain, hence the more intensive type of dairy farming became very general. This resulted in a great increase in the demand for the by-products of the mill. Prices of concentrated feeds began to soar. To-day, in the great dairy centers, farmers are paying twenty-eight to thirty dollars a ton for bran, and thirty-five to forty dollars a ton for cottonseed meal and linseed-oil meal. While feeding stuffs have doubled, and in some cases trebled, in value, the price of dairy products has risen barely fifty per cent. As a result, the sheriff has been busy in the

SUDDEN ILLNESS OF MGR. GAUTHIER.

Detroit, Mich., June 10.—Archbishop Gauthier, of Ottawa, who has been taking the baths at Mount Clemens for several weeks past was taken seriously ill while on the trip here yesterday, and physicians became so alarmed over his condition that he was hurried back to his hotel at Bath City. When he arrived His Grace was almost in a condition of collapse, but later he revived and declared his intention of returning immediately to Ottawa. His advisers urged him not to attempt the journey in his weakened condition, but the Archbishop refused to be dissuaded and left Mount Clemens today. He is due to arrive here tonight. When he boarded the train Archbishop Gauthier was so weak that he was scarcely able to converse with his attendants. His sudden departure proved a great disappointment in St. Peter's church, where he was to have confirmed a class of six hundred today.

MURDERESS MAY PAY THE PENALTY

Of Killing Her Husband—Minister of Justice Makes No Response to Petitions.

(Special to the Chronicle.)

Ottawa, June 12.—Sir Alan Aylesworth has made no move towards commuting the sentence of death imposed upon Mrs. Angelica Neapolitana of Sault Ste. Marie to a term of imprisonment despite all the flood of petitions and memorials which have poured in upon him from all parts of Canada and particularly Ontario.

Mrs. Neapolitana was given the extreme sentence for killing her husband, and the trial revealed a sordid domestic story. Unless clemency is exercised she will go to the scaffold early in August and will be the fifth woman to be hanged since confederation. Canada has witnessed a few hangings of women and the records of the Department of Justice provide the following grim examples: Phoebe Campbell, hanged at London, Ont., May, 6, 1872; Elizabeth Workman, hanged at Sarnia, May 23, 1873; Emily Blake, hanged at Brandon, Dec. 26, 1898; Cordelia Viau, hanged on the same scaffold with Sam Parslow at St. Scholastique, March 5, 1899.

The case of the woman, Neapolitana, is a very distressing one. In a few weeks she is expected to give birth to a child and, as her sentence stands at present, she will leave child-bed for the black cap and the drop. Many women's societies are sending in petitions, but so far the Minister of Justice has made no sign.

COUNTRY REGIMENTS HARD PRESSED

Half of Their Strength Have Been Recruited from the Cities.

Niagara-on-the-Lake, Ont., June 12

—The small pay of the volunteers at camp and the scarcity of men in the rural districts has greatly depleted the ranks of country regiments, with the result that some of them have resorted to unusual means to secure full strength. The 20th Halton Regiment, it developed to-night, hired 100 of its 250 members, in Toronto, securing them through want advertisements or employment agencies and serving them with uniforms on the steamer when coming to camp. Some companies are composed of men who were never in Halton County. The 12th York Rangers also hired a number of men in Toronto.

ZAM-BUK
SAVED THIS BABY

Mrs. M. Barrett, 404 Avenue St. Montreal, says:

"A. Horrid rash came out all over my baby's face and spread until it had totally covered his scalp. It was irritating and painful, and caused the little one hours of suffering. We tried soaps and powders and salves, but he got no better. He refused his food, got quite thin and weak, and was reduced to a very serious condition. I was advised to try Zam-Buk, and did so. It was wonderful how it seemed to cool and ease the child's burning, painful skin. Zam-Buk from the very commencement seemed to go right to the spot, and the pimples and sores and the irritation grew less and less. Within a few weeks my baby's skin was healed completely. He has now not a trace of rash, or eruption, or eczema, or burning sore. Not only so, but cured of the tormenting skin trouble, he has improved in general health."

Zam-Buk is sold at all stores and medicine vendors, etc., or post free from Zam-Buk Co., Toronto, for price, 6 boxes for \$2.50. A certain cure for all skin diseases, cuts, burns, etc., and for piles.

Zam-Buk

SUMMER SILOS ARE NEEDED.

Ordinary pasturage is uncertain always, and rarely to be depended on for more than six weeks. Soiling crops are all right, but are more expensive to feed than ensilage, because the latter is put up at one time when the dairyman is making a business of it, and it is at hand to be fed without making a special trip afield when other work is pressing.

It seems to me that the one crying need of our dairies is a Summer silo. It is easy to raise corn, and if the feed is held until dry weather it keeps up the flow of milk and the creamery check at a time when nothing else besides grain will do it. As it saves the price of grain at this season of the year it saves us so much money, which is no small item. Should the season prove uncommon, and pasturage last longer, it will pay to buy a few more cows. The more feed we raise the better our farms become, the more we can put into our pockets, and the less we have to spend, providing cream is the only product sold. It would seem as if farmers would realize this, and not be caught short Summer after Summer with their dairies and every equipment on their hand, but with little or no profit above the bare cost of maintenance.—Milo D. Beach.

Montreal, June 12.—The widow of Frederick Payne, who met death in an accident to a travelling derrick on the National Transcontinental near Harvey Junction, while working for the Dominion Bridge Company, was to-day awarded \$5,000 damages by an English speaking jury.

Just The Garment You've Been Waiting For
Pen-Angle TRIPLEX SWEATER COAT

Three Garments In One
Note the adjustable collar which makes it suitable for all seasons. Can't Beat Nature

Her way is slow, but sure!

"Bad food does not kill the next day—it does not work that way. It does not even cause positive and violent illness at once. It does systematically rob your body and your brain of a little vitality today and a little tomorrow."

—Pearson's Magazine.

Now, concerning good food:

Grape-Nuts

—the "perfectly balanced" food, made of wheat and barley, may not show full results in a day—Nature does not work that way.

But it contains the vital food elements that steadily and surely build body and brain—a little day by day—

"There's a Reason"

Canadian Postum Cereal Company, Ltd., Windsor, Ontario, Canada.

DAME NATURE HINTS

When The Food Is Not Suited.

"Ever since boyhood I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly."

"The result was that I found myself, a few years ago, afflicted with ailments of the stomach and kidneys, which interfered seriously with my business."

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet."

"I found that I was at once benefited by the change, that I was soon relieved from the heartburn and indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased."

"My nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and none the less surely, been restored to normal efficiency."

"Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past."

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I began to use Grape-Nuts food I can work till dinner time with all ease and comfort." Name given by Canadian Postum Co., Windsor, Ontario.

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

SEND US YOUR DAINTY WHITE LINGERIE

Laundry ladies' dainty and elaborate undergarments is a specialty with us during the summer months.

Your garments are washed by a method that keeps them perfectly white, yet does not harm even the most delicate pieces, are carefully starched, and all ironed by girls who are expert at this work.

You will be pleasantly surprised to see how clean, sweet and dainty your garments appear when we return them. We pack them in pasteboard boxes, so they reach you unsoiled. Our charges are reasonable. Try our work.

Ways Mills, Que.—Mrs. Parker, Miss Grace Lyndon, Miss Chadsey, Miss Oliver.

NO LET UP IN MONTREAL DRUNKS.

Montreal, June 12.—There has been no let-up in the number of drunks coming before the recorder's court since the early closing law came into effect. Today out of a total of 70 prisoners, 41 were charged with drunkenness.

CARPET CLEANING HOUSE BURNED.

Montreal, June 12.—Sixty households will be compelled to purchase new carpets as the result of a blaze early today, which played havoc with household fittings that had been sent for cleaning purposes to the Murray Carpet Cleaning Company, 331 Chatham street. It was necessary to get six streams into operation to prevent the flames from communicating to adjacent buildings. The loss to the Murray Carpet Cleaning Company is estimated at about \$1,800. Though there were many carpets in the place to be cleaned, none were of very great value. The cause of the fire is unknown.

THOUGHT IT WAS CANCER

Cured By "Fruit-a-tives"

Sydney Mines, N.S., Jan. 25, 1910.

"For many years I suffered torture from Indigestion and Dyspepsia. Two years ago I was so bad that I vomited food constantly and I lost 25 pounds in weight. I was afraid the disease was Cancer, but medicine gave only temporary relief.

I read about "Fruit-a-tives" and the cures this wonderful fruit medicine was making, and I decided to try it. After taking three boxes I found a great change for the better, and now I can say "Fruit-a-tives" has cured me when every other treatment failed, and I reverently say, "Thank God for 'Fruit-a-tives'." Edwin Oram, Sr.

"Fruit-a-tives" is sold at 50c box, 6 for \$2.50, trial sizes 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

BODY FOUND IN RIVER AT MONTREAL.

Montreal, June 12.—Another body was found floating in the river today by workmen on the wharves at the foot of Berri street. The corpse, according to the morgue attendants, had been in the water for a week. The victim was about 35 years of age, clean shaven, a fair complexion and about five feet 6 inches in height. There was nothing on the body by which to identify him.

CLAIMS CHOPPING RECORD.

Seattle, Wash. June 12.—Alexander McPherson, a giant Scot, claims the world's championship for axemen. He believes he has broken all records at chopping and sawing down trees. McPherson, with an eight-ounce axe bit, succeeded in felling a tree with an average girth of sixty-three inches in one minute and thirty seconds. The tree was a green fir and he was handicapped by a pocket of pitch on the north side of the tree. He did not chop out the cut, but chopped downward, leaving a ragged, long stump.

In sawing with a single hand saw he felled a fir tree fifty-three inches in circumference in one minute and eleven seconds. With a double cross-cut saw he severed a tree trunk, seventy two inches girth, in two minutes even.

The axes used by the record maker were ground so finely that the edge would almost shave a man's face.

AN ATTACK UPON PROTECTIVE SYSTEM.

Washington, June 12.—An attack upon the protective tariff system by an American manufacturer who claims to have studied labor and manufacturing statistics in many countries of the world, held the close attention of the House of Representatives for two hours today.

Representative William C. Redfield, of Brooklyn, a new Democratic member of machinery and long connected with export trade, declared to the House that American manufacturers are abandoning the protective principle as unnecessary, as they develop more scientific management of their own plants, now carried out in the more advanced American factories.

"The protective tariff has simply enabled the American manufacturers to sell at such high prices that they have not studied their own conditions closely," said Mr. Redfield. "They have relied on government support rather than upon close business management. Its effect has been to stimulate the development of plants until they are now so large that products must be sold abroad. In this the manufacturers no longer want to pay the high prices necessary for material under a protective tariff.

Mr. Redfield declared that instead of foreign labor being cheaper, American labor is really the cheapest in the world; that no labor produced as much in proportion to wages received as Americans.

Mr. Redfield attacked the Republican principles of tariff "equal to the difference in cost at home and abroad," saying it was impossible to determine this difference. He declared the American tariff board is "worthless unless empowered to call for the cost sheets of the factories engaged in the line of manufacture it is studying," adding that often the American cost of production is lower.
