Thirty-Fourth Year.

FIRE LOSS EXTREMELY HEAVY IN ONTARIO DURING PAST FEW DAYS

Forest Fires Are Raging in Many Districts—Firemen Fighting Flames on Outskirts of Port Arthur and Fort William—Four Lives Feared Lost and Several Persons Have Suffered Injury—Three Plants and Three Homes Destroyed Within Few Hours at Hamilton.

TORONTO, Ont., June 3.—Fire loss throughout Ontario has been singularly heavy in the last two days. In cities, farm land and bush country there has been severe damage. Four lives are feared lost and several persons have suffered injury. The following is the situation in brief:

Thunder Bay district—Port Arthur and Fort William fringed by forest fires. City departments fighting flames at outskirts. Danger area extends west from Burckett and Nipigon. One family feared dead.

Algoma district—Fires near Michipigoten Falls, and at Mile 134, Algoma Central Railway, out of control, and driven by high wind. Green timber destroyed.

Rainy River district—One small fire at Glenochry.

Kenora and Patricia districts—Change of wind has driven fires back toward Sioux Lookout, which again is menaced. Robinson settlement abandoned. Mine officials say Howey Settlement is in no danger. Women and children have left Dymont.

Hamilton—Three plants and three homes burned within twenty-four hours. Loss \$270,000.

Walkerville—Two plants destroyed. Loss \$250,000. One man seriously injured.

Rydal Bank—House and three barns destroyed. Loss \$10,000.

Southampton Beach—Summer cottages threatened by bush fire, but serious damage prevented by change of wind.

BLUE-SKY LAW APPOINTMENTS ARE DELAYED

Will Not Be Made Until After End of Fiscal Year—To Take Up Question of Federal Elections Thursday.

QUEBEC, June 3.—Premier Taschereau will leave this evening for Montreal, and will spend Wednesday at the Provincial Government offices. He will preside at a meeting of the cabinet on Thursday. Appointments in connection with the enforcement of the blue sky law, will most likely be delayed until after the end of the fiscal year on the twentieth instant.

It is likely that the financial report of the province for the fiscal year, which ends as stated above on the 30th instant, will be known at an earlier date than usual. This is due to the fact that a radical change is now being introduced in the financial administration of each department, which from now on will be centralized under the direct control of the auditor of the province, Mr. Vesina.

At Thursday's meeting it is expected that all the ministers will be present and the situation created by the federal elections will certainly be amongst the important questions taken up. While Premier Taschereau and his colleagues will not take part in the federal campaign officially on behalf of the province, it is understood that the Prime Minister and the other ministers will follow their usual tactics of addressing the electors in the constituencies they represent in the provincial House.

STOCKHOLM, SWEDEN, June 3.—Carl Gustav Ekman, leader of the People's party, today accepted King Gustave's invitation to form a cabinet in succession to the Lindman government which resigned yesterday after a defeat in the Riksdag.

THE WEATHER

FAIR AND DECIDEDLY WARM

Pressure is decidedly high over the Eastern States and Manitoba, while a low area extends southwestward from Hudson Bay to Texas. The weather has been fair from the Great Lakes eastward, decidedly warm in Ontario and rising temperature in Quebec and the Maritimes. It is cool throughout the West.

Forecast: Moderate southwest winds; fair and decidedly warm today and Wednesday.

Northern New England: Fair tonight and Wednesday; not much change in temperature; moderate south to west winds. Temperature yesterday: Maximum 67, minimum 33. Same day last year: Maximum 56, minimum 28.

EVACUATION OF FRENCH TROOPS IS UNDER WAY TODAY.

TREVES, Germany, June 3.—The French occupation force consisting of the Sixth Cuirassier Regiment began to evacuate this city today. The complete evacuation will take some days.

CANADA SENDS GREETINGS TO HIS MAJESTY

Happy to Join With Other British Nations in Extending Best Wishes to King George, Who Today Is Observing His Sixty-Fifth Birthday.

OTTAWA, Ont., June 3.—On the occasion of the birthday of His Majesty King George, a message of respectful greetings and best wishes from the Government and people of Canada was despatched by Premier Mackenzie King to Lord Stamfordham, the King's private secretary. The message was as follows: "Will you kindly convey to His Majesty the King, on behalf of the Government and people of Canada, respectful greetings and best wishes upon the celebration by His Majesty of his sixty-fifth birthday anniversary. That His Majesty may be spared in health and strength long to reign over the British Commonwealth of Nations is a wish which will find heartfelt expression in all parts of the Dominion of Canada."

VIENNA, June 3.—New problems confronting the theatre fraternity, including radio and talkies, will be discussed at the third international actors' congress here from June 21 to 28.

TOURIST INDUSTRY ESTIMATED AT \$299,188,000 DURING PAST YEAR

Figures Represent Increase of Thirty Millions Over 1928—Ranks Next to Agriculture and Manufacturing, Report of Dominion Bureau of Statistics Reveals.

OTTAWA, June 3.—The value of tourist trade in Canada in 1929 is estimated at \$299,188,000 in a report issued yesterday by the Dominion Bureau of Statistics here. This is an increase of nearly thirty millions over the previous year's total expenditure by tourists of \$266,695,000. More than sixty-nine millions over the 1927 total.

The report also deals with expenditures Canadians made while touring in other countries, estimating the total in this respect at \$111,301,000 last year as compared with \$100,646,000 in 1928 and \$101,296,000 in 1927.

The tourist trade has become one of Canada's major industries, ranking next to agriculture and manufacturing in importance. Canadian tourists abroad, traffic is greater than that between any other two countries in the world, says the report. The high per capita wealth in both countries entails leisure and wealth to travel while the close inter-locking of business interests necessarily means many business trips across the frontier. The reports further point out that as yet little advantage has been taken of the sales opportunity presented by the annual influx of millions of visitors, money expended for merchandise amounting to only a small fraction of the \$100,000 worth of goods which United States visitors are permitted to carry back home duty free.

The immense growth of this industry is indicated by the fact that in 1920 its value to Canada was estimated at only \$89,754,014. Since then the increase has been rapid.

The foreign tourist trade has been divided by the bureau of statistics into three classes; one, those travellers arriving via ocean ports; two, those coming by automobile from the United States; and, three, those from the United States by rail and steamer.

There was a decline in saloon and cabin passengers by ocean steamships, but an increase in the third class tourist group. Calculations respecting the second class passengers via automobile from the United States—based on the fact that, according to figures furnished by the department of national revenue, a total of 4,508,809 motorcars were entered. Of these 3,416,588 came for a period not exceeding twenty-four hours, 1,091,014 for a period not exceeding 60 days, and 1,173 for a period over 60 days. The estimated rates of expenditure for these groups are \$13, \$150, and \$560 per car, respectively.

Those motor-car arrivals were distributed among the province as follows: The Maritimes, 197,952; Quebec, 523,825; Ontario, 3,505,500; Manitoba, 48,514; Saskatchewan, 21,653; Alberta, 29,567; British Columbia, 181,798.

In connection with their balance of payments study the United States department of commerce estimated the expenditure for merchandise.

"GENTLEMEN,—THE KING"

Today is the sixty-fifth anniversary of the birth of His Majesty King George the Fifth, an occasion when British subjects throughout the world are happy to unite in offering to His Majesty their best wishes and prayers for continued good health and happiness.

KING CELEBRATED HIS BIRTHDAY QUIETLY IN BUCKINGHAM PALACE

His Majesty Stayed Indoors Because of a Recent Attack of Rheumatism, and Royal Salute at "Trooping of Colors" Was Taken by Prince of Wales—Hundreds of Messages of Congratulation from All Over World Poured into Palace from Early Morning—Ancient Ceremony Witnessed by Large Crowd.

LONDON, June 3.—The King celebrated his sixty-fifth birthday anniversary today, remaining quietly in Buckingham Palace, while his eldest son, the Prince of Wales, took the Royal salute at the "trooping of the colors."

Hundreds of messages of congratulations from all over the Empire on which the sun never sets, and from other countries all over the world poured into the Palace from early morning. The members of the Royal Family called early to convey their greetings, and the grandchildren brought little gifts.

Principal among the official celebrations was the ancient ceremony of trooping the colors by regiments of the Household Cavalry and the Grenadier Guards' Parade, which was watched by thousands of interested spectators, despite the cold grey dawn without a gleam of sunshine.

The Queen and the other Royal ladies watched the proceedings from the windows of the Government offices. The King stayed indoors because of a recent attack of rheumatism, and the salute was taken instead by the Prince of Wales. The Duke of Gloucester, the Earl of Hounslow and Prince Arthur of Connaught all were on horseback.

After the various regiments had paraded their colors to the accompaniment of music from the muffled drums, a procession formed to Buckingham Palace. Government offices and the Royal Courts of Justice took a holiday on the occasion of the King's birthday. The Duke of Connaught, senior of the Brigade of Guards, who was to have been the King's deputy, decided at the last moment not to undergo the strain of the parade and sat with the Queen and Princess Mary and Prince George at the window of the royal box.

Throughout the review the Prince, his face set and serious beneath his towering bearskin, the broad blue ribbon of the Garter across his tunic, sat like a stone military figure on a magnificent chestnut charger, erect and motionless save when he raised his white-gloved hand in salute.

SERIOUS FOREST FIRES IN MINNESOTA ARE REPORTED

Three Farm Homes Destroyed and Several Thousand Acres of Land Burned Over—Fires Under Control.

DULUTH, Minn., June 3.—With three farm homes destroyed and several thousand acres of land burned over, the first serious forest fires of the season in northern Minnesota today were reported under control, due in part to diminishing winds.

Three of the five major fires reported are in the immediate vicinity of Duluth, another is near Cramer on the North Shore of Lake Superior, while one large fire was reported in the Superior National Forest. The farm homes destroyed were in the Rice Lake district, near Duluth. The humidity on Monday was very low, with the warmest weather of the year.

Several hundred men were fighting the blazes, the most serious in four years.

TEN CHILDREN STRUCK BY LIGHTNING

BLATINIZ, Czechoslovakia, June 3.—Ten boys and girls were struck by lightning while seeking shelter today under a tree from a downpour of rain. Two boys and two girls were killed instantly. The others, it was feared, were burnt fatally.

DELEGATES TO PRESS MEETING ARE WELCOMED

Premier Ramsay MacDonald Urges Press and Statesmen to Unite in Holy Conspiracy to Drive from Politics Operation of "Gresham's Law."

LONDON, June 3.—Individuality and co-operation—Premier Ramsay MacDonald urged them today as the guiding stars of the British Commonwealth of Nations. On behalf of the British Government Mr. MacDonald was bidding the delegates to the Imperial Press Conference welcome. To philosophers, said Mr. MacDonald, the two words individually and co-operation, represented separate conceptions but "we are not philosophers; we are men of action."

PARADE IN HONOR OF KING TODAY BOYCOTTED BY KARACHI NATIVES

In Former Years Ceremony Was Always Very Popular and Was Attended by Thousands of Natives—Martial Law Being Seriously Considered by British Authorities.

KARACHI, India, June 2.—As a result of vigorous propaganda by the local civil disobedience committee Indians today boycotted the parade of troops in honor of the King's birthday. In former years this ceremony always was very popular, and was attended by thousands of natives.

APPOINTMENTS LIKELY DURING PRESENT WEEK

Stated There Will Be a Shake-Up in Ministry—Cabinet Meetings Will Be Held Daily This Week.

OTTAWA, Ont., June 3.—A number of matters pertaining both to the business of government and of the election were discussed, but no decisions were reached and no appointments made in the cabinet yesterday, according to Premier King. Meetings of the cabinet will be held daily throughout the present week, and it is expected that appointments will be announced within the next few days.

With the certain appointment to the Senate of Hon. Dr. J. H. King, Minister of Pensions and National Health, a certain shake-up in the Ministry is inevitable. It is stated Hon. J. L. Ralston, Minister of National Defence, will be promoted to the post vacated by Dr. King, and that the readjustment of Quebec representation in the cabinet will be effected by the appointment of H. W. Fred Kay (Brome-Missisquoi) to the post of National Defence. No change will be made in the other Quebec portfolios in the federal Ministry.

It is expected that the first appointment to the newly created separate Ministry of Fisheries will be Captain Ian MacKenzie, who is to be the Vancouver seat. Hon. Mr. Motherwell, Minister of Agriculture, while having passed the seventy-year mark a few months ago, is likely to be a candidate in the general election and to retire later to his Lieutenant-Governorship of Saskatchewan. In that event it is believed that Hon. Thomas A. Crerar, Minister of Railways and Canals and Minister of Agriculture in the Union Government, will revert to this latter portfolio after the election.

Senate appointments are likely to be announced before the end of the present week. Hon. John Sinclair, it is stated, is a certainty for the Prince Edward Island vacancy and those mentioned for the four Quebec vacancies are as follows: Hon. Rodolphe Lemieux, who has just terminated his tenure of the speaker-ship of the House of Commons; J. E. Provet (Terrebonne); E. W. Tobin (Richmond-Wolfe); and possibly P. R. DuTremblay, Montreal.

CAMBRIDGE, England, June 3.—A. F. R. Wallaston, a tutor at King's College, Cambridge, was shot and killed today by a student who later wounded himself.

DIFFERENCE OF OPINION BETWEEN COUNCILLORS ABOUT INCINERATOR

Chairman of Health Committee Favors Type Made by Nye Company, But Several Other Members of Council Feel that as Good Service Can Be Secured from Other Type Which Would Involve Saving of Several Thousand Dollars—City Will Proceed With Paving Programme in Order to Relieve Unemployment.

MURDERERS AGAIN ACTIVE IN CHICAGO

Records Show that Eight Persons Have Been Assassinated and Six Wounded in Three Days.

CHICAGO, Ill., June 3.—An epidemic of murder—eight in three days, with six persons dangerously wounded—today was treated with the police panacea—an intensive, city-wide cound-up of bad men.

More than two hundred persons, including three who are listed among the Crime Commission's "public enemies", had been arrested at dawn, with police squads still employed throughout the city. Even as the squads spread over the city guns blazed and men died.

Among the two hundred arrested as first fruits of the round-up were Jack McGurn (called the machine gunner of the Capone gang); James Belcastro and Rocco Fanelli—three "public enemies"; and Joseph J. Stagg, a member of the "Public Enemy Stages" investigation of the gun outbreak led to the discovery that gang leaders recently have been tapping the telephone wires of each other, listening in on each other's plans, and thus being able to "get the jump" on their rivals.

As chairman of the health committee, Alderman Dr. F. H. Bradley has given the incinerator considerable study and has taken every means of securing what he considers to be the best type for Sherbrooke. Last evening he presented a committee report in which he recommended that the tender received from the Canadian Nye Incinerator Corporation, Limited, for \$49,866 be accepted. It was pointed out that the payments on the contract price would be made only after the incinerator had been in operation and tested to the satisfaction of the city. The contractors further agreed to use Canadian material and Sherbrooke labor, the wages of which would not be less than the city's five cents per hour.

Alderman J. LaCombe, a member of the health committee, said that he was objecting to the recommendation made by Alderman Bradley because the city, he maintained, was paying \$13,000 more for an incinerator than the purchase price quoted by another company. As the discussion progressed it was evident that the chief concern was the Francis Hankin Company, who had furnished a tender for \$37,070.

In explaining why he had favored the Nye product, Alderman Bradley made it clear to his conferees on the Council that he had no axe to grind. He was not interested in either of the companies in question, but he was merely trying to do his best for the city and for the people that he represented on the City Council.

Dr. Bradley read a report which favored the Nye incinerator. This plan, the report stated, consisted of one unit capable of burning twenty-five tons of garbage in ten hours, with combustion chamber, forced draft fan, flues and chimney of a sufficient size to operate another unit of the same size. The chimney would be 125 feet above the foundation of the building and would be lined throughout its entire length with fire brick. The furnace would be circular in shape and the entire furnace, combustion chamber and that portion of the flues on the operating floor within the building would be encased in steel plate jacket. The advantage of receiving the garbage direct from the top of the furnace, falling into the center of the furnace, thus making it easy to stoke by the stoking doors placed around the furnace.

The Nye Company agrees to install dumping plates whereupon the residue can be discharged into the ash pit underneath the furnace. There is a tunnel extending from this ash hopper out under the furnace floor, providing means to remove the residue from the plant. The committee considered this to be an attraction, as the furnace room could be kept clean and painted to make it attractive, as well as reducing the labor cost. The company further agreed to burn the refuse of Sherbrooke as collected without the use of coal.

Taking all the features into consideration, Dr. Bradley said that he could not but favor the Nye company. In this stand he was supported by Alderman Loranger and Langis, but Alderman LaCombe, Edwards and Morin did not appear to be in accord with him.

Alderman Morin seemed to lay special stress on the fact that the city could save a considerable amount of money by purchasing from the Hankin concern, although Dr. Bradley insisted that the Nye product was better suited to Sherbrooke and that in the long run the city would save money.

When it was seen that the matter was not coming to a head, Alderman J. K. Edwards made a motion that the incinerator matter be left over until Monday evening next.

The tender furnished by Mr. Hilaire Robidoux in connection with the Webster parking ground was accepted by the Council at its regular meeting last evening. According to this tender Mr. Robidoux agrees to pay the sum of twenty-six dollars per week from June 9th until October 31st, and will operate and supervise the parking ground continuously from seven o'clock in the morning until midnight, Sunday included. The lessee will be expected to keep

ORDER PICKETING OF SHOPS SELLING BRITISH ARTICLES

BOMBAY, June 3.—Picketing of all shops in Bombay dealing in British goods was ordered for today by the "war council" of the Satyagraha or Indian Nationalist movement.

The orders, issued Monday, called upon Nationalist volunteers also to picket the liquor shops, a move which has not been taken heretofore in Bombay city. Five hundred Bombay women Monday picketed the city's cloth shops in inauguration of the new campaign.

Behind the picketing and boycotting there loomed today the even more seriously national project to bring about non-payment of taxes. The correspondent of the London Daily Herald returning here from Simla, summer capital of India, said that the authorities were considering seriously proclamation of martial law within three weeks unless the civil disobedience campaign abates.

ST. FRANCIS DISTRICT

COOKSHIRE

Members of the Guild of St. Andrew's Church, Eaton Corner, were entertained at the Rectory. There was a very large attendance and much work was done.

SAWYERVILLE

Dance, I.O.O.F. Hall, Sawyerville, Thurs., June 5. Rolly and Ray Orch.

BARNSTON

Mr. and Mrs. G. A. Smith have moved back on their farm after spending the past two months in the village.

JOHNVILLE

The Ladies' Guild will meet in the guild room for dinner on Thursday. Mrs. Mack and Mrs. Butler will entertain.

BEEBE

The Jolly Junior Club met at the home of Miss Lise Brunet on May 31st. The meeting was opened by hymns and games.

BROOKBURY

The infant daughter of Mr. and Mrs. Wm. R. Batley was baptized in St. John's Church on Sunday last by the Rev. C. T. Lewis, being named Beiva Diantha.

Dizzy, Weak Heart Terrible Headaches All Gone. New Life

"Was bothered with dizziness, weak heart, terrible headaches. After taking 'Fruit-a-tives' an entirely relieved, feel like new person."

JR. RED CROSS AT MELBOURNE COMPLIMENTED

Provincial Supervisor Praises Melbourne School Juniors on Portfolio—Newsy Notes from Melbourne.

MELBOURNE, June 3.—Miss M. Taber, director of the Melbourne Junior Red Cross Group has received the following letter of congratulation from the supervisor, Mrs. Ruth B. Shaw:—

Dear Miss Taber, I was delighted to get those nice scrap-books. They are always eagerly welcomed by the nurses in the hospitals, as well as by their little patients.

I am so glad to get that lovely answer to send to the Juniors of Johannesburg. I know that they will be delighted with it and will be thrilled to get such a lovely answer to their greeting.

EATON CORNER

Nurse Myrtle Chute has returned to her home for an indefinite time after caring for Mrs. A. A. Learned for the past nine months at Dr. J. A. Butler's at Cookshire.

BURY

On Sunday last, in St. Paul's Church, the infant daughter of Mr. and Mrs. Albert Turner was baptized by the Rev. C. T. Lewis, receiving the names June Ruth Louisa.

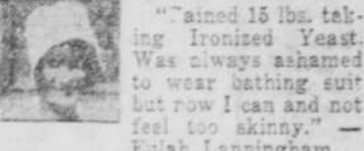

NORTH HATLEY

The Ladies' Aid of the Universalist Church will meet at the home of Mrs. Wm. Raymond on Thursday afternoon, June 5th.

BRITISH FARMERS TO TOUR CANADA

MONTREAL, Que., June 3.—Quebec will welcome, in August of this year, the sixth touring party of British farmers to be sent out by the British National Union of which L. C. M. Amery is chairman.

"So Skinny Shamed In Bathing Suit. Gained 15 Lbs."

"Gained 15 lbs. taking Ironized Yeast. Bony limbs round out. Ugly hollows fill in. Emaciated skin gets clear and rosy like mine."

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now."

Lydia E. Pinkham's Vegetable Compound

BURGESS BEDTIME STORIES

How Sharp Eyes Were Fooled

By Thornton W. Burgess

Even those in cleverness most schooled By simple tricks are often fooled. —Carol the Meadow Lark.

Reddy Fox knew that Carol the Meadow Lark and Mrs. Meadow Lark had a nest on the Green Meadows. Mrs. Reddy knew it. Old Man Coyote knew it. Redtail the Hawk knew it. You see, it was no secret.

Mrs. Reddy grinned. "I wish you luck, my dear," said she

"I don't suppose it is of much use to look for Carol's nest, but just the same I am going to try it," said Reddy Fox to Mrs. Reddy.

Mrs. Reddy grinned. "I wish you luck, my dear," said she. "I have already searched the Green Meadows several times for that nest. Perhaps your eyes are sharper than mine. Anyway, I wish you luck."

"Of course," said Reddy to himself, "that nest isn't there. I know Carol well enough to know that he never would make the mistake of flying directly to his nest. But I also know that that nest is not a great distance from that spot. It is near enough for Carol to walk to. The thing to do is to search in a circle round that spot."

So Reddy came out of his hiding place and started across the Green Meadows. As he drew near the place where Carol had disappeared in the grass he began to move very carefully. He would "take a step or two and then stop to look and listen. Startled."

Presently the very thing that he expected happened: Carol took to his wings and came out of the grass at a point some little distance from where he had dropped into the grass. Reddy grinned triumphantly.

So Reddy made right straight for that spot. As he approached it he moved very cautiously indeed. Yes, sir, he moved very cautiously. He looked to right he looked to left. With every step he stopped to look, listen and smell. He knew when he reached the spot where Carol had been squatting in the grass. Carol had left a feather or two there.

In this Reddy was right. As a matter of fact, twice Reddy passed within easy jumping distance of Mrs. Meadow Lark. Twice he looked straight at her and didn't see her. Yes, sir, Reddy looked straight at Mrs. Meadow Lark and didn't see her. The reason was that she kept perfectly still and her feathers were so nearly the color of the dead grass that it was difficult to tell grass from feathers. So in the end Reddy had to give up. When he got home Mrs. Reddy said nothing at all. She merely grinned.

TRANSPORTATION

THE wheels of transportation—how they have groaned, creaked and rattled down the ages before Science set them spinning. Formerly, only the rich might ride. But today in Canada everyone can travel in comfort.

From the safe, dependable street cars,—which remain the ultimate in city transportation,—to the transcontinental railways, the needs of travellers are served.

It is a source of pride with the Northern Electric Company that, by supplying a large proportion of the immense quantity of cable and wire needed, as well as the telephones used in train dispatching, it is helping to maintain the excellent transportation systems of the Dominion.

Northern Electric COMPANY LIMITED A National Electrical Service

1600 NOTRE DAME ST. W. MONTREAL, QUE.

INFORMATION

The Northern Electric Company manufactures the telephone and its accessories, wires and cables for the transmission of power, fire alarm systems, public address systems, talking motion picture equipment; and also distributes well-known brands of electrical supplies and electrical household appliances of all kinds.

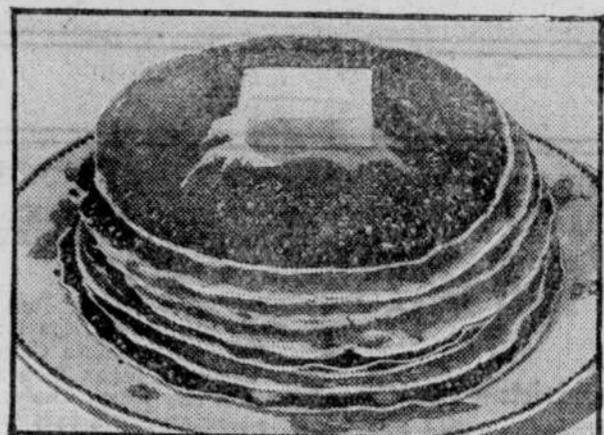

DUDSWELL JUNCTION

Miss Muriel Willard, of North Hatley, spent the week-end with her parents in this place.

Mr. and Mrs. Alvin Sutcliffe, of Sherbrooke, were guests of their parents, Mr. and Mrs. A. Sutcliffe.

Mrs. Albert Willard spent a day last week at the home of Mr. and Mrs. M. Willard at Lime Ridge.

Mr. A. Harrison is in this place every day loading wood for Mr. L. Martin, of Bury.

Serve GRIDDLE CAKES for tomorrow's breakfast

RECIPE FOR GRIDDLE CAKES

- 1 quart flour 2 tablespoons shortening
3 teaspoons Magic Baking Powder 1 egg
1 teaspoon salt 2 tablespoons molasses
2 tablespoons sugar 1 pint milk

Mix and sift dry ingredients; beat egg, add milk and molasses, pour slowly on first mixture; beat well. Add melted shortening. Cook at once on hot, well greased griddle. Serve with Maple, Caramel, or Brown Sugar Syrup.

Look for this mark on every tin. It is a guarantee that Magic Baking Powder does not contain alum or any harmful ingredient.

BEDFORD DISTRICT

SWEETSBURG

Mrs. C. E. Cady entertained the regular monthly meeting of the Women's Auxiliary of Christ's Church on Friday afternoon.

Fifteen ladies were present and much work was accomplished. Rev. Mr. Norman opened the meeting with prayer, after which the vice-president, Mrs. C. H. Whitehouse, and secretary-treasurer, Mrs. Jameson, conducted the routine of business.

Mrs. H. Ashness-Wells entertained the bridge club on Wednesday afternoon. The prize-winners were Mrs. A. J. E. Leonard and Miss Marie Leonard.

ROUGHAGE IS ESSENTIAL IN REDUCING DIETS

Kellogg's ALL-BRAN is Ideal Roughage

If you are following a reducing diet, it is doubly important that you take a regular amount of roughage into the system daily.

Also, because it contains the iron needed to help prevent anemia—another danger in reducing diets.

ALL-BRAN is not fattening. Its bulk sweeps the system clean of poisonous wastes—helping to promote glorious health and beauty.

Kellogg's ALL-BRAN is recommended by many doctors and dietitians because it contains the bulk necessary to insure proper elimination.

COWANSVILLE PERSONALS AND NEWSY NOTES

Newsy Items of General Interest from Cowansville and Neighborhood.

COWANSVILLE, Que., June 3.—Trinity Church Guild held a most successful food and plant sale in the church hall on Friday afternoon, May 30th.

A meeting of the members and adherents of the United Church is called for Wednesday evening, June 4th, at half past eight to discuss alterations in the auditorium of the church.

The Ladies' Aid will be entertained in the church parlors on Thursday afternoon, June 5th, with Mrs. McClure and Mrs. Dean as hostesses.

Mr. Murray Mason is suffering from a dislocated elbow, which he sustained in a fall from a wagon.

Mr. and Mrs. Downing, of Peterboro, Ont., motored here and are visiting the latter's mother, Mrs. W. B. Reid.

Miss Edith Soles, of Montreal, was a week-end guest of her parents, Mr. and Mrs. C. Soles.

Mr. and Mrs. Malcolm Doak and son, of Montreal, were recent week-end guests of Mr. and Mrs. J. H. Doak.

Miss Jean McPhee, accompanied by her friend, Miss Mildred Pibus, of Montreal, were week-end guests of Mr. and Mrs. A. C. McPhee.

Dr. S. W. Boyd, Donald Boyd and Reginald Gurchy, of Stanstead, Archie Dryden and Basil Doak attended the Dominion sports meet in Montreal on Saturday.

Congratulations are extended to Miss Isabel Beach on winning the Frederica Campbell Macfarlane Scholarship in the School of Household Science at Macdonald College.

The scholarship is of the value of fifty dollars and is awarded to a student from a rural district in the Province of Quebec taking the highest standing in the junior administration or home-maker class.

Mrs. Leon Jordan, Mrs. Mott, Mr. and Mrs. W. Rowley and daughter, Barbara, Mr. and Mrs. O. Rowley and son, Charles, of Springfield, Mass., are guests of Mr. and Mrs. Bruce Miner for a week.

The Women's Institute will be entertained by Mrs. George Boright at her home on Saturday afternoon, June 7th.

There will be a report of the county executive meeting at Stanstead East. Roll call, "Ways of serving strawberries."

Mr. W. Ross, of Detroit, Mich., was a recent guest of his parents, Mr. and Mrs. A. E. Ross.

Miss Helen St. Pierre successfully passed the McGill College examinations in the theory of music and piano playing.

On Thursday, May 29th, Ascension Day, all the business places were closed. Services were held in Trinity and St. Therese Churches.

A picnic under the auspices of the Y.P.S. of the United Church was held at Orford Mountain on Victoria Day. About forty young people with Dr. and Mrs. Boyd attended and a most enjoyable day was spent.

Miss Cora Seale has returned from Montreal, where she spent a month with Mrs. W. Logie and family.

The Friendly have discontinued their meetings for the summer months. Mrs. Nesbitt and Miss A. Lowe entertained the last meeting in the church hall on May 21st.

Mr. and Mrs. Archie Short and son, Douglas, Mr. and Mrs. Cliff Wilkinson and family, of Montreal, were calling on Mrs. Fred Vail on their way to their cottage at Selby Lake over the week-end.

Miss Annie Vail and Master Donald Vail accompanied them to the lake.

Mrs. Grout and daughter, Evelyn, of Toronto, were birthday guests of the former's parents, Mr. and Mrs. Robert Curley.

Mr. and Mrs. Charles Gleason, of Montreal, spent Saturday and Sunday here.

Mr. and Mrs. George Comrie spent the holiday week-end at their home here, Mrs. Comrie later visiting her aunt, Mrs. W. H. Macfarlane, at South Stukely.

The five table bridge club was entertained on Monday evening, May 26th, by Mrs. Nasos Ingall and Miss Doris Bridgette at the home of the former.

The annual meeting of the ladies' branch of the golf club was held at the home of Mrs. H. Tessier on Tuesday afternoon, May 27th, with a large number present.

Honor the Mayor" to a very appreciative audience in the Princess Theatre. Following is the cast of characters: Lester Parmenter, (candidate for Mayor), Roy Fortin; Hon. Mike McGoan, (political boss), Billy Rhicard; Clarence Greenway, (Eve's brother), Royce Smith; Eve Greenway, (Lester's fiancée), Kate Westcott; Mrs. McNabb, (new and suffragette), Maud Fortin; Doris Denton, (an athletic bud), Esther Black; Rosalie Meyers, (Doris' chum), Muriel Harris; Eliza Goober, (the "cullud" cook), Addie Westcott; and several suffragettes. The story of the play is briefly this: Eve Greenway, a wealthy young lady, is engaged to Lester Parmenter, who is a candidate for mayor of the town. The newspaper announces that Lester is to make a speech denouncing the suffragettes and three of their number call on Eve to make the speech for him. She is equally indignant and joins their party. She tells Lester that she must choose between her and his party, if he insists on his making the anti-suffrage speech. Mr. McGoan, his political manager, arrives and tells her that she must keep her mouth shut. If she does, he will be sure of election. Lester refuses and even declares intention of making a speech favoring the cause. McGoan steals the anti-suffrage speech and determines to make it himself. But how shall he keep Lester from the men have lost their vote and women have been elected to all public offices. Lester Parmenter, becomes the Mayor's hired girl; Clarence Greenway becomes the village groom; Eve Greenway becomes the Mayor's wife; Mrs. McNabb becomes a naval officer; Doris Denton becomes the fire chief; Rosalie Meyers becomes a millionaire; Eliza Goober becomes the chief of police. In acting out the duties of these public offices the players portrayed many amusing scenes which were greeted with much applause. In the last act, Eve is awakened from her sleep just as her friends are returning from the political meeting, and is much relieved to find that all her tribulations were only a dream. The play was

for the benefit of the Band. Instrumental music was furnished between the acts, under the direction of Mr. Benoit. From far and near motorists travel to the Buzzel Motors garage in Cowansville, where Clare Buzzell is looked upon as an authority in care and equipment. "I am enthusiastic about the new Dunlop cleated-grip tire", he says, "for I believe it gives double life to the wear and tear on the country highways. It makes spring and winter driving safer, grips the wet roads, bites into snow or ice and is as sure-footed as a horse in mud and slush. I think we have at last the real idea for allaying that helpless feeling when one's car skids. Then after the cleats wear off there still remains a complete traction tread on the tire."

EAST BOLTON

Dance at Mountain View Hall, Bolton Centre, Friday, June 6th. Novelty Orchestra. 50c a couple.

EAST FARNHAM

Mr. Shufelt, of New Haven, Conn., was a week-end guest of his sister, Miss Hattie Shufelt, and also of Mr. and Mrs. Levi Shufelt.

Mr. Levi Shufelt has had a milking machine installed, which gives splendid satisfaction.

Mr. and Mrs. Galbraith and his uncle motored to Essex, Vt., on Sunday, and were guests of Mr. and Mrs. B. Galbraith.

Miss Katherine Taber has returned home from Macdonald College. Mr. E. J. McCullough has not been quite well as usual for the past week.

Mrs. Levi Shufelt sustained a bad fall about a week ago and was unable to walk about for a few days.

MANSONVILLE

Dance at Mountain View Hall, Bolton Centre, Friday, June 6th. Novelty Orchestra. 50c a couple.

GLEN SUTTON

On Tuesday evening, May 27th, the Lord Bishop of Montreal paid his annual visit here for the purpose of administering the rite of Confirmation. The service was largely attended and his Lordship delivered

a most interesting and inspiring sermon, which was attentively listened to by the large and appreciative congregation. The supper which was held at the home of Mr. and Mrs. C. J. Gibney, on Thursday, May 29th, under the auspices of the Ladies' Guild was a success both socially and financially. The net proceeds amounted to \$10.75.

Mrs. Marion Esty and Mr. L. A. Wilson spent a few days in Montreal recently.

Mrs. Miller and Miss Rollins, of Westfield, Vt., were guests of Mr. and Mrs. C. J. Gibney, on Thursday evening.

Messrs. D. A. Aldrich, O. A. Brock and Murray Davis were business callers in Waterloo, Cowansville and Granby on Wednesday.

Mr. and Mrs. C. Courser, of Morrisville, Vt., were guests of Mr. and Mrs. Donald Rüter on Sunday.

SOUTH STUKELY

Dance at Mountain View Hall, Bolton Centre, Friday, June 6th. Novelty Orchestra. 50c a couple.

ABBOTSFORD

Mesdames E. F. Carter and G. W. Buzzzell and Mr. G. H. Buzzzell attended the convocation at McGill on Thursday.

The Smeaton property here has recently been purchased by Dr. Wm. Watson, from Mr. Jas. Smeaton, of Toronto.

Mr. Edward Fisk has been home from Granby High School for the past week, suffering from an attack of la grippe.

A meeting of the executive of the Abbotsford Fruit Packing Company, was held at Mr. E. B. Chaplin's on Friday evening.

Mr. W. I. Lawse, of Montreal, was at Mr. M. E. Honey's recently.

BOLTON CENTRE

Dance at Mountain View Hall, Bolton Centre, Friday, June 6th. Novelty Orchestra. 50c a couple.

A GATE-CRASHER GETS HIS HOSTESS (spotting uninvited guest)—How do you do? I didn't send you an invitation because I knew you'd be here just the same.

A Small Purchase . . . but an important hygienic service

Kotex, the New and Improved Sanitary Napkin, costs but very little, yet it is a hygienic service millions of women wouldn't think of doing without. It amply protects against the serious consequences that may easily follow times of hygienic distress unless proper precautions are taken.

The comfort, freedom to work or play, peace of mind and security that women desire, can be obtained only from Kotex. No embarrassment when buying. Just say Kotex at any drug, dry goods or departmental store. Regular size 60c for box of a dozen. Super-size 75c. Directions in every package.

MADE IN CANADA

KOTEX

Sanitary Napkins

- 6 Features of the New and Improved Kotex
1. Kotex is soft—Not a deceptive softness, that soon packs into chafing hardness. But a delicate, lasting softness.
2. Safe, secure . . . keeps your mind at ease.
3. Kotex filler—is far lighter and cooler than cotton, yet absorbs 5 times as much.
4. In hospitals . . . Kotex is the identical material used in 50% of Canada's leading hospitals.
5. Deodorizes, safely, thoroughly, by a patented process.
6. It is easily disposed of. No unpleasant laundry.

Stubborn skin troubles yield to yeast SAYS SPAIN'S FOREMOST SKIN SPECIALIST

MORE than a hundred important medical articles and books have come from the pen of Dr. José Sánchez-Covisa, Honorary President of the Academy of Dermatology of Spain! He says: "Skin diseases which before were treated locally are today treated from within, with quicker and more successful results." "Pimples and boils are nearly always accompanied by constipation. Fresh yeast diminishes intestinal putrefaction and is of great aid in treating rebellious cases of these skin affections." "When 'irradiated,' yeast contains the 'sunshine' vitamin D, which has an extraordinary action in hardening bones and teeth." For health that brings true beauty eat 3 cakes daily of Fleischmann's Yeast. Each cake is rich in two indispensable vitamins—B and D. At grocers', restaurants, drug stores, soda fountains. Directions on label.

Photo by Manuel Urech, Madrid

"My physician advised me to eat Fleischmann's Yeast"

Leading Skin Doctors recommend Yeast: DR. E. BRUSGAARD, most famous skin specialist in Norway, says, "I have used fresh yeast for years." DR. ALFRED BRANDWEINER, dermatologist of Vienna's largest free hospital, says, "Fresh yeast will keep the intestinal tract free of the poisons which upset digestion and cloud the skin." DR. EDWARD EHLERS, internationally known Copenhagen skin specialist, says, "I invariably rely on yeast in all cases of rebellious acne, and for boils, in which its effect is astonishing. It should be continued until all poisons are eliminated from the system."

(At left, above) "Busy days at school and nights at study wore me out completely," writes MISS ODETTE WILLARD of Montreal. "I was suffering from acne and nervousness. An eminent doctor here advised Fleischmann's Yeast and I ate it three or four times a day. The acne disappeared. Now I am perfectly well." (Right) "An automobile accident left me in a very nervous condition," writes MISS VIRGINIA MATHEWS of Philadelphia. "My skin was horribly broken out . . . Soon after starting to eat yeast, a noticeable improvement took place. I slept better. My appetite came back and my skin cleared beautifully. I am delighted with how well I feel."

Fleischmann's Yeast (with the familiar yellow label) is the only yeast that contains "sunshine vitamin." Fleischmann's Yeast is made in Canada by Canadians

Masson, Contractor and Builder. Specializing repair work, building, floor sanding. Royal Hotel. Phone 1111. The meeting of St. Peter's A.Y. P.A. for tonight is cancelled on account of the death of Miss May Burbridge. The congregational meeting of St. Andrew's Church has been postponed until further notice. Kushner's Beauty Parlor is now open to receive applicants for those wishing to learn beauty culture. Complete course \$55.00. Don't forget the Battle of Music tomorrow night at the Avalon Dance Club. SPECIAL WATCH SALE See our window display of specially priced watches, which will be sold at 10 p.c. discount, fully guaranteed and on easy terms.—F. E. Wark, Jewellery and Gift Shop, 25 Wellington St. North. Phone 2725. Y'S MEN'S CLUB TO ELECT NEW OFFICERS The regular weekly meeting of the Y's Men's Club will be held on Thursday evening, June 5th, at 8:15 o'clock when new candidates will be initiated, officers elected for the coming six months, delegates appointed for the International Convention at Wilkesbarre, and final arrangements made for the "Ladies' Night" to be held at North Hatley on Saturday, June 7th. NEW PICTURE GRACING WALLS OF COUNCIL CHAMBER It was noticed at last night's meeting of the City Council that a picture of ex-Mayor J. S. Fiset result has been added to the collection which graces the walls of the Council Chamber. This picture has been hung on one side of the Mayor's chair, while on the other side of the Chief Magistrate is the picture of Sherbrooke's first mayor, R. W. Heneker. COMPLAINTS HEARD REGARDING ROAD CONDITION OF ROADS A number of motorists have been heard to complain recently regarding the condition of the highway between Lennoxville and Birtchton. This road has been covered with fresh cut stone and no attempt has been made to put gravel over the stones. The result is that the road is a bed of sharp stones, which is anything but beneficial for tires and many punctures and blow-outs have been reported from that vicinity. BAND FESTIVAL AT ST. CHARLES SEMINARY The annual Conge Musical or Band Festival at St. Charles Seminary was held yesterday afternoon by the students of the College. Early in the afternoon a contest was held at the Seminary among the various soloists in the band, following which the boys marched to the Seminary farm in East Sherbrooke, where a field day was enjoyed. Supper was served at the farm and a special service held at St. Jean Baptiste Church, East Sherbrooke. Excellent music for the marching was furnished by the band, which is under the direction of Prof. A. S. Bourgeois and Father F. Morin. BROMPTON ROAD WOMEN'S INSTITUTE Members of the Brompton Road Women's Institute were entertained on Saturday afternoon at the home of Mrs. Hiram McLeod. There was a large attendance, and after the usual opening exercises a number of business matters were brought forward for discussion. It was decided

FUNERAL OF MR. PHILIP A. LYSYTER

The funeral of the late Mr. Philip A. Lyster, an old and highly respected resident of Sherbrooke, whose death occurred at his home on Walton avenue on Wednesday of last week, was held on Friday afternoon, June 1st, at 2 o'clock, at the home of Mrs. M. Lyster, 210 St. John's Street, Sherbrooke. The deceased was born in Scotland and came to Canada in 1870. He was a member of the Methodist Church and a devoted family man. He is survived by his wife, Mrs. M. Lyster, and several children. The funeral was held at the home of Mrs. M. Lyster, 210 St. John's Street, Sherbrooke. The Rev. Dr. W. S. Lemmon, of Trinity United Church, who conducted the funeral service at the home of the deceased, speaking briefly on the prayer of Baalam, "Let me die the death of the righteous," remarked that the special significance of the prayer lay in the fact that the man who uttered it was one to whom "God whispered in the ear," but who was also very conscious that lower voices were speaking to him. He was in a strait between two, being pulled heavenward and earthward. He is neither altogether worldly nor altogether religious. But he is conscious that in the finality of things it is religion that has the supreme value, and so prays that the end may find him facing death with the "righteous." However, it is to be remembered that Jesus did not put the world that now is sharply over against the world that is to be. He did not make earth and heaven spiritual opposites, but rather insisted that men should carry a certain heavenly temper into earth's concerns; that they should seek and find that eternal life which is neither a thing altogether of earth nor a thing altogether of heaven, but of both. In referring to the deceased, Dr. Lemmon spoke of him as "a good man who served his God according to his light through long years," and also laid stress on his great loyalty to the public worship of God. His presence at the services of the church made the long walk necessary a strain upon his strength being an evidence of his continued longing to learn more about God and His truth. During the brief service a quartette from the church consisting of Mrs. E. G. Pierce, Mrs. E. A. Salter and Messrs. R. Harvad and J. G. Armistage, sang "Peace Perfect Peace" and "Abide With Me."

LOCAL POLICE HAD VERY BUSY TIME IN MAY

Eighty-Four Arrests Feature Activities of Local Department in Past Month—Many Doors Unlocked. With a total of eighty-four arrests, May proved to be the busiest month of the year for the local police, according to the report issued by Chief H. D. Camirand this morning. These arrests, however, were chiefly for minor offences, the most important being two arrests on charges of theft. Drunkenness accounted for the largest number, thirty-one being taken in on this violation. Violation of municipal traffic by-laws caused fourteen arrests, while violations of the Quebec Liquor Act caused a similar number of arrests. Nine persons were held for vagrancy, six for breaches of the Motor Vehicles Act, one for breaking in with intent to steal, one was charged with keeping a disorderly house and six were accused of being inmates. Twenty-eight of those arrested paid the fines imposed, an equal number were committed to jail for non payment of the fines imposed, twenty-three were sent before the District Magistrate and five received suspended sentence. Numerous other duties were also carried out by the department. Twenty-five fire calls were answered, three ambulance calls responded to, and ninety-five police calls answered. Fifty-three persons received protection, goods were found exposed twice, fifty-three street lights were found not burning and eight dangerous places were reported. The doors of twenty-six places of business were found unlocked after their owners had left. Twenty-four loads of wood were delivered to the poor and 848 loads weighed on the public scales. Collections by the department for the month totalled \$294.80, comprising fines from the Recorder's Court, \$216; scales, \$84.80, and rent \$94. In commenting on the large number of doors of business places reported unlocked after closing hours, Chief of Police pointed out that this habit not only increased the difficulty of law enforcement, but from the store-keeper's angle might possibly make theft insurance policies void.

LENNOXVILLE

Summer sale of fancy work, home cooked food, afternoon tea and ice cream, Wed. June 4th, 4 to 6, St. George's Guild. Pirates Ancient and Modern

The pirate of old preyed on legitimate commerce.

His black flag flying sinister in the breeze, he plundered honest merchantmen and despoiled them of the trade they had acquired through fair dealing and an equitable exchange of values.

To-day the pirate of business flies the false colors of "Something Just as Good". An outlaw---he robs manufacturers of their well-merited trade and foists on the public goods of uncertain quality.

He works in the dark because he fears the light. Under the cover of substitution he proffers "something else" in lieu of branded advertised goods asked for. He dare not place his merchandise in the spotlight of advertising.

Advertising reveals the true character of goods. Manufacturers or merchants who trade-mark and advertise their products conduct their business in the open. They welcome inspection of their goods for they insist on the best of quality before the name goes on.

Nationally advertised goods are leaders in quality and value. For only goods of the highest standards of excellence can thrive under the searching scrutiny of advertising. Trade-marked goods *must* be as advertised, because every time a merchant or manufacturer advertises his products he places at stake the whole reputation of his business.

And daily newspapers are the outstanding medium through which the buying public are informed of the merits of these trustworthy products.

A Selfish Optimist is one who whines because the good Lord does not neglect the nine hundred and ninety-nine millions of other people to give personal service to himself. He would grumble when a refreshing rain comes down to water the parched earth just because it interfered with his golf game. Never mind, old dear, Septimus Potts is going to invent a Weather Control.

THE KING'S BIRTHDAY.

Countless British subjects scattered throughout the entire world will today drink "a health unto His Majesty" on this the sixty-fifth anniversary of his birth.

For twenty years King George the Fifth has reigned over an Empire on which the sun never sets. His reign has been one of the most difficult in British history, for it has brought forward many trying times, one of which was the period when the World War was fought and the very foundation of the world threatened. The years certainly have called for the exercise of the greatest qualities of heart, mind and spirit. King George has bravely faced the problems as they presented themselves. He has given faithfully of his best services to his country and his people, and in return has won in overflowing measure the love, loyalty, respect and admiration of his subjects.

It is, therefore, not only on their lips, but in their hearts that British people pledge anew their loyalty to His Majesty, and pray that Providence may spare him for many years to come and bless him with health, contentment and happiness.

OVER THE FRIGHTFUL ROADS.

I am sending a public invitation to the Hon. J. E. Perrault, our congenial and companionable Minister of Roads, to take with me a trip through the Eastern Townships to survey the highways, not to speak of the by-ways that spread hither and yon.

We can journey together in my little four-braked Ford, and as we jump and jolt joyfully from hillock to hillock and from hump to hump we can judge who is to blame for the something that is rotten in the State of Denmark. We can judge, too, ere we get bruised too much for placid judgment, whether 'twas the contractor, or whether it is just one other of a dozen alibis.

The while, as we circle the holes and sidestep the ruts, we can converse on such topics as may improve my command of the beautiful French language, which lack of diligent understanding can stand considerable improvement.

In both languages, bilingually, and then each choosing his own language for lucid expression, we can try our best to express in sulphuric words our opinion of the disgraceful condition of the highways in the richest, happiest and most complacently inhabited portion of our Quebec, surnamed the "Land of Freedom," and known throughout the broad United States, from California to Iowa, and thence easterly to Maine, as the Land of Sunshine and Moonshine.

Frankly, my dear Seigneur Perrault, we would have close speech with thee. The radio is used so much for advertising peanuts and such like nowadays that we cannot send our kindly words by air route. But come. We will refresh you at the St. George's Club so that on your return journey you may bear up with anticipatory glee.

In our weekly Tourist pages, we boast of our hills and valleys, but we did not intend that our tourists should travel over them—on the roadway.

So, my dear Sir, let us join together with you as true disciples of Mahomet, and remove the mountains and the gorges from the King's highway.

It's a fright.

CABINET VACANCIES.

When the Hon. Thomas Crerar was called to the King Cabinet to take the place of the Quebec Minister, the late Hon. James Robb, there was a mild protest from one of the provincial dailies, but this was quickly squelched. The squelcher showed some lack of wisdom.

There will be another vacancy when there has been called to the Senate the Hon. Robert Forke, who retires as Minister of Immigration and Colonization, and who was elected as a Progressive, but who contracted to deliver his party to the Liberals for a seat in the Senate. But the delivery to the Western provinces of all colonization lands annuls the need of any such portfolio.

Let the \$10,000 job be lost to the Cabinet patronage it is proposed to divide up the Marine and Fisheries into two departments, so that a Minister of Fisheries may be appointed at \$10,000 plus \$4,000 sessional indemnity.

Then the fact remains that the English minority in Quebec, deprived of representation by the appointment of one of Sir Arthur Meighen's Cabinet colleagues, is still without the representation accorded them since Confederation. There are only four English members in the Province of Quebec who were eligible for this vacant post. The session has elapsed and it would appear that Quebec is to be permanently deprived of this post.

Should the Hon. James H. King, of British Columbia, be called to the Senate, the post of Minister of Health will be vacant. It might mean a loss of the only two Liberal seats in that province should his successor be chosen from any other province.

It may be that several members will be given posts as "Minister without portfolio" to help them

in their election, but this will be small solace to the English minority in Quebec. It will be like the last will and testament of a man who has forgotten his friends until he was in extremis.

THE FRANCHISE FOR WOMEN.

At times we may have been jocular in referring to "Aggie" and "Carine," the member for Grey County and the Senator from Ottawa, but this is a time to be serious.

Women have been given the right to vote in almost every province except Quebec. In all other provinces they enjoy equal status with men, and we sincerely believe that their influence is for good.

A mother has the greatest influence of any individual in the world, and a motherly household is an inspiration to all men.

At times the cause of women in the seeking of the franchise has been hindered by impolitic females who have not studied diplomacy, but who rush in to cure all the faults of humanity by hollow harangues. But these unfortunate women do not represent the true type of womanhood any more than does the impolitic man.

To give the Quebec Premier an opportunity of studying women in politics let them show their sincerity by registering their names for the Federal election. This will afford such an illustration as cannot be ignored. Nor will it be.

By taking full advantage of that which they have, the ladies can gain more.

We place ourselves on record now and for all time as being in favor of giving women full status with men in the bestowal of the franchise for voting at all elections, Federal, Provincial and Municipal, as well as for entry into any profession they may choose to enter.

Why not?

PROPORTIONAL REPRESENTATION

There are sixty-five constituencies in the Province of Quebec. The population of the province is over 2,500,000, and our French-Canadian cousins are in a strong population ascendancy. In Ottawa where there are about twenty-five per cent. French-Canadians both parties accept the fact that one of their candidates shall be English and the other French—always. At the Capital the bonne entente was established many years ago, and continues cheerily as it does in Sherbrooke with the mayoralty.

In Federal Quebec there are presently sitting in the House of Commons but eight English members of the sixty-five, which is but fourteen per cent. though the English voters number twenty per cent. of the population of Quebec.

We give these figures not in any spirit of racial prejudice, but with the hope that not even proportional representation should be adopted to correct them. For we believe in the fairness of our French-Canadian cousins, and in their generous spirit of encouragement towards those who have helped develop and enrich this great province.

EDITOR'S NOTE BOOK.

It is quite time that the cement brigade were out and doing. The holes should be repaired and the sunken sidewalks adjusted. So that we can all hold up our heads and echo cheerfully the good things our summer visitors may have to say about Sherbrooke. Visitors bring good-will and gold, and we should inspire them with golden thoughts which they can carry away. It takes a long time to kill a bad impression.

Should the uprisings in India reach alarming proportions it will be the death knell of the Labor party in England. When a crisis occurs the Britishers always call for a Conservative Government, for among the Conservatives are the great executives of the country. They look for the security of business leadership.

O, Kindness! What crimes are committed by parents in this name.

The flogger has faults, but it will always afford a place of refuge where nobody will insist on playing bridge.

A kid is smart. If Dad says "yes," that's sufficient. But he never accepts Dad's "no" as final until he asks his mother.

An important citizen is one who can't see you when he's busy and gets mad if you can't see him when you're busy.

In a few weeks now those who bought sun lamps last winter will be hunting a place in the shade.

Every town has a few slick fellows who know some distant place where they can buy supplies cheaper than at home—and all of them are failures.

A motor horn is put on a car to be blown when one goes around sharp corners or passes intersecting streets. We have seen several places and been present on several occasions where the horn saved collisions. These stop signs obviate much of the need of horn music. So far, so good. We prefer a horn to a collision.

What is a motor horn for? Many newspapers find a great deal of fault because people blow horns. The Biddford Journal says we need a noiseless motor horn.

A motor horn is put on a car to be blown when one goes around sharp corners or passes intersecting streets. We have seen several places and been present on several occasions where the horn saved collisions. These stop signs obviate much of the need of horn music. So far, so good. We prefer a horn to a collision.

Lewiston Journal.

SOCIAL AND PERSONAL

Mr. and Mrs. Isaac E. Bushey, of Richmond, were in Sherbrooke on Saturday to attend the Elks' banquet and dance.

Mrs. Gordon Laird, who has been the guest of Mr. and Mrs. George Ewing, Queen street, has returned to Montreal.

Miss Alice Lyster is spending a few days with her parents, Mr. and Mrs. T. W. Lyster, at their home near Richmond.

Miss Bernice Fuller, Queen street, is in Montreal for the Warren-Byrd wedding. She is the guest of Mrs. Alfred S. Byrd, Gladstone avenue.

Mrs. W. E. Loomis, Queen street, has returned from Montreal, where, as regent of the King George V Chapter, I.O.G.E., she attended the annual meetings of the National Chapter I.O.G.E.

Mrs. George Hume, Montreal street, regent of the Kingston Memorial Chapter I.O.G.E., has returned from Montreal, where she attended the annual meetings of the National Chapter held there last week.

Miss Mary White has returned from Kingston, Ont., where she was the guest of Mr. and Mrs. H. R. Duff for two weeks. Before returning Miss White went on to Toronto where she was the guest of Mr. and Mrs. E. L. Stewart-Patterson for a few days.

The annual exhibition of household science and art will be held in the High School, Ontario street, on Thursday and Friday, June 5th and 6th, opening at four o'clock each day. Tea will be served on Thursday afternoon from four until six o'clock.

Mr. and Mrs. Henry W. Downes, of Bishop's Crossing, Que., announce the engagement of their daughter, Mabel Irene, to Mr. Maurice S. Gilbert, of Hartford, Conn., only son of the late Clarence Gilbert, of Bishop's Crossing, Que., and Mrs. Conrad, of Hartford, Conn. The marriage will take place the first part of August.

At a meeting of the Y. W. C. A. executive committee held yesterday afternoon at the Kingston Memorial Building, the following officers were elected: Hon. president, Mrs. B. C. Howard; hon. first vice-president, Mrs. F. N. McCrea; president, Mrs. F. S. Rugg; first vice-president, Mrs. D. Wilson; second vice-president, Mrs. A. E. Blackie; third vice-president, Mrs. W. H. Abbott; fourth vice-president, Mrs. A. H. Foss; fifth vice-president, Mrs. A. Edwards; sixth vice-president, Mrs. J. F. S. McCaw and treasurer, Mrs. D. J. Salls. Conveners of committees are: Finance, Mrs. D. J. Salls; religious, Mrs. M. S. MacDonald; membership, Mrs. B. C. Howard; educational, Mrs. S. A. Jones; physical, Mrs. W. G. Cross; girls' work, Mrs. B. C. Howard; house, Mrs. J. F. McCaw; and social, Mrs. D. Wilson.

MARRIAGES

HAZZARD—NOBLE. GLEN SUTTON, June 3.—A quiet but pretty wedding took place on Friday evening, May 23, at 7 o'clock at the Rectory at Glen Sutton, when Rev. John A. Ratray united in the holy bonds of matrimony Miss Ida Adeline Noble, youngest daughter of Mr. and Mrs. G. A. Noble, of Kirkland, and Mr. Gordon Porter Hazzard, eldest son of Mr. and Mrs. Robert Hazzard, of Sutton. The bride was attended by Mrs. Nelson Parth, sister of the groom, and Mr. Nelson Parth was best man.

At the conclusion of the ceremony the wedding party motored to the home of Mr. and Mrs. Nelson Parth, East Hill, where lunch was served. Mr. and Mrs. Hazzard will reside on the home farm at Sutton.

ALEN—DUBOYCE. MANSIONVILLE, Que., June 3.—On Saturday afternoon, May 24th, the marriage of Doris Phoebe, only daughter of Mr. and Mrs. Ernest Duboyce, of Duboyce's Corner, Que., and Mr. Herbert Matthew Alen, eldest son of Mr. Harry Alen, of Brownville, Me., was solemnized at the parsonage at Mansionville, Que., by Rev. Charles Huxtable officiating.

The bride was charmingly attired in her travelling costume of blue Georgette and a becoming hat in sun tan shade with shoes, stockings and gloves to match. The bride was attended by Miss Lela Marsh, while Mr. Ray Duboyce, brother of the bride, acted as groomsmen.

The young couple were the recipients of many useful and pretty gifts and after a most homely moon will make their home in Verdun, Que.

DESLAURIER—FOURNIER. GRANBY, Que., June 3.—The church of Notre Dame de Granby was the scene of a very pretty wedding on Wednesday morning, when Miss Aliette Fournier, daughter of Mr. and Mrs. Marc H. Fournier, was united in marriage with Mr. Gaston Deslaurier, also of Granby. The bride was beautifully gowned in a satin and lace gown, with long veil caught with orange blossoms; and lilies-of-the-valley, and carried a shower bouquet of roses and lilies-of-the-valley.

Miss Beaudry was organist and solos were rendered by Rev. Father Fortier and Mrs. A. Marivan.

A luncheon was served at the home of the bride's parents on St. Joseph Street, at which there were a large number of invited guests.

The happy couple left for a trip to Niagara Falls, Buffalo, N.Y., and onto the bride travelling in a satin and lace gown, with long veil caught with orange blossoms; and lilies-of-the-valley, and carried a shower bouquet of roses and lilies-of-the-valley.

The gifts were very numerous and beautiful, testifying to the high esteem in which the young couple were held.

On their return they will reside in Granby.

Miss Edith Webster, Queen street, has returned home after spending the past week in New York.

Mrs. H. R. Fraser, Belvidere street, Lennoxville, who attended the annual meeting of the National Chapter I.O.G.E., in Montreal, is returning this evening. During her stay in Montreal Mrs. Fraser was the guest of Hon. Mr. Justice and Mrs. Campbell Lane.

Mr. H. E. Grundy, who spent the convocation week in Montreal, has gone to Sorel, where he is the guest of Mr. Gordon Nairn. The two graduates in law will occupy a houseboat on the Richlieu river for a month reading for the Quebec Bar examinations, which take place early in July.

CITY BRIEFLETS

REPORTS ON ROTARY CONVENTION. Reports on the last set Rotary Convention in Montreal last week end will be given at the regular weekly meeting of the Rotary Club this evening at 6:15 o'clock at the New Sherbrooke House by the delegates.

SHERBROOKE HONORING KING'S BIRTHDAY. The streets of Sherbrooke are gaily decorated with flags today in honor of the sixty-fifth anniversary of the birth of His Majesty King George the Fifth.

The King's birthday is observed as a legal holiday throughout the Dominion of Canada, and consequently the banks are closed for the day, as well as the court house. Stores, factories and offices, however, are open as usual, as it was the King's own wish that May 24, the anniversary of the birth of Queen Victoria, be observed in preference to his own birthday.

DIFFERENCE OF OPINION BETWEEN COUNCILLORS ABOUT INCINERATOR. (Continued from page 1)

The ground and approaches in a clean and tidy condition, and in return will be permitted to charge the following tariff: Single parking 25c. Card for ten parkings, \$1.00. Card good for one month \$2.00. The lessee is also given the right to construct to his own expense a platform for the waiting of cars at a place to be designated by the Superintendent.

The committee, after having notified that Mr. Wm. Hubbard has put up a fence between his property and the city property on Meadow Street, closing a road which had been opened to the public for many years and interfering seriously with the entrance to the parking ground recommended that the city attorney be requested to advise Mr. Hubbard that unless the entrance is restored to its former width he will be forced to remove his house and verandah off the city street line.

The aldermen were waited upon last evening by a large delegation of local workmen, representatives of the Catholic workmen of the city. Speaking on behalf of the delegation, Rev. Father Fortier and Mr. Chas. Mignault explained the object of their visit to the City Hall. The delegation asked that in spite of present unemployment conditions that the city maintain the present three dollar per day scale of pay for laborers. It was further requested that in connection with plasterers and others, the city determine a certain scale of pay. There were some workmen who, owing to climate conditions, were unable to work the whole twelve months of the year, and these men have to earn sufficient during the period that they are able to work to keep them and their families for the whole year. Mayor A. C. Skinner assured the delegation that their requests would receive careful consideration.

Later in the evening Alderman Fortier called the attention of the Council to the present lack of employment in Sherbrooke. As chairman of the poor committee he was continually receiving requests from citizens for assistance. In order to give the city a night, at least to a small extent, the present condition, Alderman Fortier made a motion that the Road Department proceed immediately with as much of its paving and sewer work as possible in order to provide more work. If the city does not provide the work it will have to help the poor families, as Alderman Fortier could not see where they would be any saving in the long run. Alderman Lang's made a motion, which was seconded by Alderman Fortier, that the chairman of the road committee make a special report to the Council showing exactly what work can be done at this time.

Several petitions were presented to the Council for consideration. One of these related to the unsanitary condition of a sewer on Front Street, another was from residents of Dorval Street, asking to have this street opened; while there was also a request from the employees of the electric department that they be paid their regular salaries on holidays when the City Hall is closed.

A letter was read from Mr. J. H. Blue in which, as a resident of Elizabeth Street, he requested that the dressing rooms on the Parade Ground be opened immediately. With these rooms closed young men who took part in the various sporting events on the Parade Grounds were forced to undress in cars parked along the side of the street. Such a system, Mr. Blue said, was embarrassing to everyone and decidedly objectionable.

ASBESTOS CORP. CASH POSITION QUITE SERIOUS

Management Explains Reasons for Delaying Interest—Cash Position Curtailed—Meeting Planned to Discuss Situation.

MONTREAL, Que., June 3.—It is stated in quarters in close touch with the affairs of Asbestos Corporation that the meeting of its general mortgage bondholders has been under consideration for some time, the intention being that the present management will discuss the situation of the Asbestos Corporation before all parties interested. Nevertheless, the tie-up in the commodity market has, it is said, precipitated the move.

The present management took over the operation of the Asbestos Corporation following the election of the board at an adjourned meeting of shareholders in May, 1929. Immediate steps were taken to provide ore to keep the mills running; exploration work was also carried on with the hope of locating ore bodies which would insure the progress of the property; changes in the interest of efficiency were also introduced in the mills; costs reduced and the results of the year after charging stripping and other current items to operation showed a profit of \$710,192, compared with a loss of \$1,100,000 by the annual statement of the year previous in the amount of \$812,946.

It is further stated that the work of the year revealed deposits of higher grade rock than that which had been milled in recent years and all promised well for the future. The crash of October, 1929, and the subsequent curtailment in general conditions and the commodity tie-up in general hit the sales of the company. Had the company been able to make shipment on the orders it now has on its books for the month of 1929 equal to that of the same months of 1928 and at the current prices the revenues would have been over \$500,000 greater than those actually received, and according to the management, the net position of the company would have been materially improved.

The building of the Beaver mill in the year 1928 and the stripping contract made late in 1928 at the King Mine and from which the company has yet received no benefit deflated the financial position of the company by approximately two million dollars. Hence, with a seriously curtailed cash position and a tie-up in the commodity market, the company is finding difficulty in meeting its immediate requirements.

The directors believe that the interest on the security holders will best be served by the postponement of the general mortgage coupon due on July first and January first, 1931, but irrespective of this they desire an opportunity to confer with all parties interested. Should the ore bodies which have been located prove up as they appear likely to do, there should be no doubt as to the future and the payment of the coupons would not be long delayed. The whole situation depends on ore and financing the company until the bearing rock is available in profitable quantities.

The assassin fired two shots through the bedroom window of Mrs. Lottie Brenner Dechow. The bedroom is on the second floor of Mrs. Dechow's costly residence at 5928 Sheridan Road. The assassin climbed to the roof of a garage abutting the house, placed a gun against the bedroom window and fired twice. Mrs. Dechow, fifty-five years old and possessor of a fortune left her by the late Alderman Nate Brenner, had arisen five minutes earlier to go to the chamber of her sister, Mrs. May Gross, whose husband was buried yesterday. It was while in her sister's room that she heard the shots and hurried back to her own.

The bullet had drilled the screen and window just below the point the shade reached. Detectives said that from the position of the bullet holes Mrs. Dechow would have been wounded in the side had she been in bed.

Seeking a motive, officers asked Mrs. Dechow if she had been unusually active in seeking to trace robbers who, in the guise of census enumerators, invaded her home March 31, taking valuable jewelry. She said she had not. They also inquired concerning her feelings toward her divorced husband. She said that although she had sought his arrest on a charge of false swearing in the procurement of their marriage license, she and Dechow were now on friendly terms.

UNITED CHURCH ASSEMBLY OPENS AT MONTREAL TODAY. MONTREAL, June 3.—At St. James' United Church the sixth annual meeting of the Montreal and Ottawa Conference of the United Church Assembly opens this evening, under the presidency of Rev. John H. Miller, of Huntingdon, Que. Rev. Dr. W. T. Gunn, Moderator of the General Council, will bring official greetings to the conference.

INMATES MADE 'BREAK' TODAY FROM ASYLUM

Twelve of Thirteen Former Inmates of Bad Wards at Michigan State Hospital Still at Liberty.

IONIA, Mich., June 3.—Thirteen inmates of the "bad wards" escaped from the Ionia state hospital for the criminal insane early today, after making a prisoner of the night superintendent. The inmates forced the night guard to release them by threatening to kill the superintendent, Gene Owen. One of the fugitives was recaptured three hours after the break. The others were the object of a widespread search.

Before leaving, the thirteen men cut telephone wires leading from the institution, which is a mile and a half from the city limits and opened the doors of other wards of the first floor. This released approximately 100 men, who, however, conducted themselves in an orderly manner and made no attempt to escape. Percy C. Robertson, superintendent of the hospital, described the release of the 150 men as creating "a very serious situation."

The capture of Night Superintendent Owen was effected by a nurse. One of the eighteen men in the ward stopped a guard on his rounds at 2:30 a.m., and told him that another inmate was crawling out at the rear of the ward. The guard called Owen and the two unlocked the door of the ward.

Owen and the guard were set upon by the inmates, who were armed with improvised knives and some of them had razors. They submitted to the men as they saw that fight was hopeless. Owen was taken to the front door, where the inmates told the guard that they would kill the night superintendent unless they were let out of the building. In the meanwhile some of the thirteen had cut telephone wires and opened doors of other wards. Five of the men in the ward from which the escape was effected remained with the 150 from the other wards.

As soon as the thirteen were outside they scattered and ran in different directions. A guard came into Ionia and arrested William F. Ranch, who notified his deputies throughout the county and asked the aid of police and county officers in surrounding territory and of state police. Ivan Coardaw, 39, sentenced for murder, was recaptured on state highway number 16, seven miles south of the hospital.

Of the twelve prisoners still at large, five were under prison sentence for murder or assault with intent to murder. The remainder were robbers or house breakers. The French press has interpreted Tardieu's address as a notice to the world that, whatever other people may be saying, France and her leaders are determined with high moral energy and devotion to continue to struggle for the cause of peace.

But there are Frenchmen who seem convinced that France is showing over-indifference to the activities of Italian Fascism. Foremost among these is Henry Berenger, former French ambassador to Washington, who Secretary Mellon, fashioned the accord which arranged the war debt between France and the United States. Mr. Berenger believes that the Mediterranean problem needs attention. He thinks that if the "Italian temperature" has risen a little too high in recent years, on the other hand the French temperature has fallen too low.

LABOR CABINET CHANGE MOOTED BY NEWSPAPERS. MacDonald Expected to Make Announcement Today—Back Benchers May Be Advanced.

LONDON, June 3.—Several British newspapers say that an announcement of important changes in the Cabinet of Premier MacDonald might be announced with publication of honors to be bestowed on the occasion of the King's birthday today.

Some reports were that the changes would be extensive and would amount to reshuffling of the Cabinet. It was generally expected that at least posts would be found for two or three back benchers. The changes were said to have been decided upon at a meeting of Mr. MacDonald, Hon. Philip Snowden, Chancellor of the Exchequer, Rt. Hon. Arthur Henderson, Foreign Minister, and others of the Cabinet at Chequer's yesterday.

The Evening Star said it had learned that Rt. Hon. Benjamin Turner, Minister of Mines, had had his resignation to Premier MacDonald. The impending retirements, from the Cabinet of Ben Turner, picturesque trades unionist, was reported on May 8. It was said he desired to give all his time to the miners' organization, with which he has been associated for many years. "There is no doubt," the newspaper adds, "that the Prime Minister will consent to the release of his colleague and friend for this purpose."

The newspaper forecasts also a number of other changes in the Cabinet, but adds there appears no justification for current rumors of the transfer of Rt. Hon. J. H. Thomas, Lord of the Privy Seal, in charge of unemployment matters, to some other department.

THOUGHT MANY LIVES LOST IN STEAMSHIP EXPLOSION. Unable to Explain Explosion and Subsequent Fire on Steamer Goengna Near Colombia.

BOGOTA, Colombia, June 3.—Many passengers aboard the steamer Goengna were believed today to have lost their lives when the boat sank in the Magdalena river yesterday, after an explosion. The accident happened near the port of Tenerife. The captain was drowned but the purser saved himself. The boat was believed bound from Barranquilla to Dorada. The explosion and subsequent fire were unexplained.

CLASH BETWEEN MUSSOLINI AND TARDIEU SEEN

Italian's Fiery Words Answered by France in Form of Peace Moves—Henry Berenger Believes French Temperature Has Fallen Too Low.

PARIS, June 3.—All Europe is watching with interest and some anxiety a political situation which promises to develop into a duel between two European statesmen, Benito Mussolini, Premier of Italy, and Andre Tardieu, Premier whom France regards generally as a worthy successor of men like Clemenceau and Poincare.

Mussolini has attracted attention again because of his recent series of political speeches in northern Italy, wherein he warned the world that Italy's independence and Italy's future cannot be neglected and that, if occasion necessitated, the world would find that the Italian people would form themselves into a solid mass to defend Italian rights.

In another speech he declared that there is nothing more insulting to the pride of the Italian people than to suppose that Italy's recent naval programme is a thing which will not be brought to its consummation. And he continued with the phrase that has rung around Europe, "Words are beautiful, but gatling guns, warships, aeroplanes and cannon are even more beautiful."

Frenchmen generally believe that Mussolini's addresses are directed against their country, first, because of the French refusal at London to grant naval parity to Italy, and secondly and thirdly, because of the failure of negotiations concerning Tripoli and Tunis to materialize in a manner pleasing to Mussolini.

But French leaders have intentionally sought to minimize the effects of Mussolini's speeches. Formerly Minister Briand has ignored Mussolini's utterances, replying only in the form of announcing his great peace move for the creation of a federal union of Europe.

Tardieu indirectly answered Mussolini by ordering the evacuation of the one zone of the Rhineland. And then on May 18, in a speech at Lyons to former soldiers, he called upon France's veterans to devote themselves henceforth to the cause of peace. "The dead have given their all," he said. "Let the living give their all. Let us struggle against the powers of decadence, of disorder, of routine and of inertia for there is a road to a worthy, proud and fraternal peace. Comrades, raise up your hearts once again. France is in need of you."

The French press has interpreted Tardieu's address as a notice to the world that, whatever other people may be saying, France and her leaders are determined with high moral energy and devotion to continue to struggle for the cause of peace.

But there are Frenchmen who seem convinced that France is showing over-indifference to the activities of Italian Fascism. Foremost among these is Henry Berenger, former French ambassador to Washington, who Secretary Mellon, fashioned the accord which arranged the war debt between France and the United States.

Mr. Berenger believes that the Mediterranean problem needs attention. He thinks that if the "Italian temperature" has risen a little too high in recent years, on the other hand the French temperature has fallen too low.

RAILWAY COMMISSIONERS TO SIT IN QUEBEC WEDNESDAY. Seven Applications Will Be Heard—Commission Will Be in Montreal on June 6.

OTTAWA, June 3.—Seven applications will be heard by the Board of Railway Commissioners at Quebec on June 4. These deal with a variety of subjects. The village of Giffard is asking for a reduction of carfare for passengers between that place and Quebec City. The present rate is seven cents. Other requests deal with removal of tracks, apportionment of costs for various services, the construction of subways and the like.

On June 6 the Commission will sit at Montreal, where three applications will be dealt with.

AUSTRALIAN GOVERNMENT IS TAKING STEPS TO ASSIST UNEMPLOYED PROSPECTORS. Camping Outfits Supplied and Allowances Given in Scheme to Promote Gold Prospecting Among Unemployed.

SYDNEY, N.S.W., June 3.—The departure of 150 men to certain districts to search for gold marked the inauguration of the Government's scheme to promote gold prospecting among unemployed prospectors.

The government supplied camping outfits and tools and appointed five geologists to visit the zones in which the men will be working and give technical advice. The men will get free railway transportation and an allowance of twenty shillings (about \$5) weekly.</

PHILLIES HAND OUT A SETBACK TO CARDINALS

Philadelphia Overcame a Big Lead to Finally Win Out in Only Major League Game Played Yesterday.

NEW YORK, June 3.—The lowly Phils, hating to get out of the cellar, have turned back the first western assault of the National League this season.

While all other major league clubs rested yesterday in preparation for general east-west engagements, the Phils outgamed the St. Louis Cardinals at Philadelphia by nine to six in a preliminary skirmish of inter-sectional warfare.

The victory lifted the Phils a half game closer to seventh place, while the Cards, league leaders not long ago, now hold a lead of only one game over the fourth place Pittsburgh Pirates, and trail the second place Cubs by one full game.

The Cardinals apparently had yesterday's battle won as early as the first inning when Chick Hafey hit Collins for a home run with two on, bringing the total count for the inning to four runs. The Cards touched Collins for two more runs in the fifth, but could do nothing at all with "Ace" Elliott, who relieved him in the seventh. Bill Hallahan, the Cards' speed ball ace, sailed along smoothly for three innings, but the Phils reached him for pairs of runs in the fourth and fifth innings.

Entering the seventh the Cards held a two run lead, but Hallahan was driven out of the box in the last half of that frame as the Phils rushed into the lead with three runs.

Bell pitched the rest of the game and was nicked for two more runs in the eighth. Arthur Whitney was the batting star of the day with two doubles and two singles.

The American League scored two victories over the National in exhibition games. The New York Yankees defeated Cincinnati by eight to five and the Philadelphia Athletics conquered Pittsburgh by eight to two.

Table with 4 columns: Team, Won, Lost, P.C. Includes Baltimore, Buffalo, Montreal, Rochester, Toronto, Reading, Newark, Jersey City.

BASEBALL CLUB PLANS OPENING THIS THURSDAY

Chappie Johnson's All-Stars Retained to Meet St. Roch in Opening Game of Local Season Thursday Evening.

After being forced to postpone their official local opening for two consecutive Sundays on account of rain, the officials of the St. Roch Baseball club have determined to try a mid-week opening.

The Chappies need no introduction locally, having been seen here several times last year, while they administered a double defeat on the Saints in the Ancient Capital some weeks ago. They have their two regular pitchers, Lovett and Hagget, while they have recently acquired a new left-hander, Winters, who hails from the sunny south.

The locals will use their regular battery, Morin and Cabana.

BRUSHING UP SPORTS... By Laufer

encouraging in tone. "All realize that conditions are not as good as in the immediately preceding years," said Mr. Hutchings. "We know that this depression like all previous depressions, will pass. There are already visible certain encouraging signs of improvement. When prosperity will return in full tide is impossible to forecast. The co-operation of all is necessary now, as at other times. Government can help by formulating and maintaining with the highest possible measure of stability, wise policies. After that individuals will have to work out their own destinies, while the aid of the qualities of adventure, initiative, courage, intelligence and thrift."

Touching upon existing conditions in his opening remarks, Mr. Hutchings said that while the business recession had been severe, all could remember worse conditions than those of the past year. He spoke of the efforts made by manufacturers to maintain employment, and of the limitations of these. Some well-meaning persons exhorted manufacturers to maintain their staffs, irrespective of whether they were selling goods or not. But reasonable people knew that a factory which, for example, was paying out \$10,000 a day for wages cannot go on very long unless it is selling its products. "It must be remembered," he said, "that there is no law to compel consumers to buy goods."

Proceeding he gave an interesting review of the development of agriculture, manufacture, business and finance, for the period from 1871, when the C.M.A. was organized, to the present. Dealing with the fiscal policy, he thought he could not do better than quote verbatim, which he proceeded to do, the report of a special committee presented to the annual general meeting at Halifax last year, and which was then unanimously adopted. A salient paragraph read: "No country in history has been able to make substantial progress in prosperous state without establishing and maintaining a fiscal policy, including customs tariff rates, and important restrictions, which protected and safeguarded its agricultural and industrial production, as well as the people and capital engaged in various forms of enterprise. We are firmly convinced that no people will ever achieve such development without a reasonable policy of protection."

Mr. Hutchings touched upon British and United States investments in Canada, and Canadian investments abroad, as showing that this country was in no danger financially. He paid considerable attention to the development of aircraft construction and use in the country, noting that all manufacturers of aircraft in Canada were in the section of the Association organized for them during the past year. The developments in research, for the benefit of all the community were mentioned. As to immigration, he thought that the "general principles which should govern an immigration policy for Canada should be fairly clear. Immigrants should be predominantly British and French origins, including those registered from the United States. Of other racial origins, those of Northern Europe should be preferred. Employment at fair remuneration should be the keynote of our immigration policy."

R. S. White MAY BE GRANTED ACCLAMATION (Continued From Page 1.) have courage. Yet there are often surprising changes occurring in the big cities. R. S. White, of Mount Royal, is perhaps the only member on the island of Montreal, who can rest easy as to the outcome. A lovable man, energetic for his years, and ever ready to help a friend, he already has his organization well in hand and is ready for any kind of opposition which might develop.

DELEGATES TO PRESS MEETING ARE WELCOMED to do these things as a common faith and as an Empire and yet hold out the hand of family helpfulness to the rest of the world." Mr. MacDonald pleaded that

BRITAIN TO TAKE PART IN ANTWERP'S WORLD EXHIBIT Participation Will Combine Economic Demonstration With Homage to Belgium Upon Centenary of Belgium's Independence. BRUSSELS June 3.—Antwerp's world fair opening next month will have a special British section, just as France has taken an outstanding position in the Liege world's fair. Britain's participation will combine her economic demonstration with homage to Belgium upon the centenary of Belgium's independence. "British Week" will find a squadron of six warships in Antwerp harbor with the Prince of Wales on the flagship, to be guest of the Belgian royal family from July 17th to 22nd. The Prince and King Albert will review the Belgian army on Independence Day, July 21st.

FLOOD WATERS SPREAD ALEXANDRIA, La., June 3.—The expansion of overflowed areas in the Red River Valley was greater than ever today and the number of homeless refugees had increased, but levee workers labored with undaunted courage to hold to a minimum any further flood damage. press and statesmen should unite in a holy conspiracy to drive from politics the operation of "gresham's law" (the economic law) under which base coinage drives the good circulation of a sound coinage of ideas and ideals. Mr. MacDonald recalled his own yearly connection with newspapers recalling how he had once applied to a London daily for a position. "The editor," said Mr. MacDonald, "asked me to write an editorial on the spread of influenza over central Europe. I wrote the editorial but I did not get the job."

LONDON, June 3.—Labor party women from all parts of England gathered today to review their party's year in office which closes on June 7th. About 1,200 delegates and 1,500 visitors crowded Kingsway Hall for the annual National Conference of Labor Women.

KIPLING PAID A BRIEF VISIT TO MONTREAL

Famous Poet Was En Route to England After Three Months' Visit in Bermuda.

MONTREAL, June 3.—Protesting that he was well justified in describing Canada as "Our Lady of the Snows," and writing the limerick about the "Man of Quebec" who was in snow "up to his neck," that his reference to Queen Victoria as "the widow" was written so long ago that it concerned nobody of this age, and lastly, that he knew "nothing about India," Rudyard Kipling gave a five-minute interview to newspapermen on his arrival here yesterday en route to England after a three months' visit in Bermuda. Mrs. Kipling, who accompanied the famous poet, was said to have been much improved in health. Mr. Kipling was in a whimsical mood and refused to be drawn into any serious discussion, except when he sought information on the subject of trade relations between the British West Indies and Canada, which he thought should be stimulated to an even greater degree than has been done. Mr. Kipling said he thought Masfild "a very good choice" as poet laureate, and when asked by an interviewer which of his poems was his favorite replied, "The Last Baby Is the Best Loved."

Mr. Kipling said he thought Masfild "a very good choice" as poet laureate, and when asked by an interviewer which of his poems was his favorite replied, "The Last Baby Is the Best Loved."

MONTREAL LIVE STOCK MARKET QUOTATIONS

Table of Montreal live stock market quotations including MONTREAL, June 3. There were 103 calves, 3,324 calves, 3,993 hogs and 56 sheep and lambs for sale on the two Montreal live stock markets today.

VERDICT WAS RENDERED IN ACCIDENT CASE

Mr. Hugh Crochetiere Held Responsible for Death of Miss May Burbridge.

Mr. Hugh Crochetiere, of this city, was held responsible, shortly after noon today, for the death of Miss May Burbridge, also of this city, twenty-two years of age, who passed away at the Sherbrooke Hospital Sunday, as a result of injuries received in an auto accident, which occurred on the Sherbrooke-Montreal highway on Easter Sunday afternoon. This verdict was rendered by a coroner's jury following an inquest which opened at ten o'clock this morning at police headquarters and was concluded about twelve-thirty o'clock. Mr. Crochetiere was granted four thousand dollar bail.

CHINESE COMMUNISTS FIRE ON BRITISH AND U.S. SHIPS

Machine Gun and Rifle Fire Rakes Vessels at Hosueh on Yangtze River.

WASHINGTON, June 3.—Chinese Communist soldiers last Wednesday fired upon American and British vessels with machine guns and rifles at Hosueh on the Yangtze River, according to a report received by the State Department today, from Frank P. Lockhart, American Consul General at Hankow.

Insurance Production Well Maintained

H. A. and E. B. PEABODY, of the Canada Life Assurance Company, Sherbrooke.

Business conditions react on life insurance as they do on other forms of business, and the fact that local life insurance men are able to continue producing a substantial volume of business should be encouraging news to other local business men at this time.

VATICAN STATE PROVES CENTRE FOR SMUGGLERS

Attempt Being Made to Stop Illicit Trade in Salt and Tobacco With Italy.

VATICAN CITY, June 3.—One of the first effects of the proclamation of the independent Vatican State was that it became a great centre for the smuggling of salt and tobacco into Italy, where both these commodities are state monopolies sold at retail at several hundred per cent more than their cost of manufacture. Now the Vatican state is yielding in part to pressure of the Italian Government, which was greatly troubled by the activities of the smugglers, and has also declared a monopoly on salt and tobacco.

ALLEGED RUM RUNNING SHIP SEIZED BY U.S. COASTGUARD

Commander of Government Patrol Boat Claims Ship Was Only Seven Miles Off Paramore Banks When Seized.

NORFOLK, VA., June 3.—A whiskey laden former United States chaser, now known as the "Metmuzzel" and believed to be of French registry, was seized off the Virginia coast and brought into Norfolk last night by the coastguard patrol boat C-22, as a suspected rum runner. The craft, her cargo of one thousand cases of supposedly Bourbon whiskey and twelve men found aboard her were under guard at coastguard headquarters here.

Boatswain C. F. Garrison, in command of the C-22, reported to his superiors here that the Metmuzzel was flying no flag and was only seven miles off Paramore Banks when she was seized. Those on board the former sub-chaser, however, claim they were much further off shore.

In Emergencies

In case of illness or accident, who would sign your cheques, subscribe for new stocks on your behalf, or attend to other important matters for you? The appointment of the Royal Trust Company as your STANDING-BY ATTORNEY will provide for continuity in the management of your affairs, should you become temporarily incapacitated at any time.

MARKET NEAR STALEMATE

NEW YORK, June 3.—The Wall Street Journal says today: "The stock market can be said to be as near a stalemate as it is possible to be. It is marking time waiting for some startling piece of news to shock it out of its lethargy. It can safely be said that some lines of business are already showing better advantage and the fog which still envelops the whole situation will have been blown away by the end of this, the last month of the second quarter. In other words, the period of uncertainty is drawing to a close. While it is not considered advisable to buy stocks on rallies, the person with idle funds should keep close watch of the stock market situation and be prepared to buy standard issues on any setback. Today's session should show many sections. Earnings for the year are again estimated at around \$9 per share.

HEAVY TONE NOTED ON WALL STREET EXCHANGE

NEW YORK, June 3.—The stock market was inclined to heaviness at the opening today. Columbian Carbon lost 2 points, Case 1 1/2, Westinghouse Electric, Air Reduction and Western Maryland 1 point, and Woolworth, American Can, United States Steel and Montgomery Ward, rose 2 1/2. Eastman Kodak, however, rose 2 1/2 and A. M. Byers 1/2.

NEW YORK PRESS MARKET COMMENT

New York World—The market slipped quietly back into its rut, with half hearted professional operations continuing to account for the bulk of the business. Such news as the day was of little speculative interest.

STeady Advancing of Safeway Stores

As steadily advancing prices is based on the improved outlook for the company. Those in a position to know declare the stock is headed for a price of \$125 on the move. Deared with high inventories, officials took their loss and cut prices to the bone. A company of the type of Safeway has its pulse on the public buying and one of the company heads declares there are unmistakable signs of improvement in many sections. Earnings for the year are again estimated at around \$9 per share.

GOOD BUYING IS AGAIN MAKING ITS APPEARANCE IN AIR REDUCTION

A good short interest is still reported locked up in Worthington Pump.

FIRE LOSSES IN DOMINION MUCH LARGER

Reached \$47,232,272 or \$4.82 Per Capita During Past Year, as Compared With \$36,402,018 in 1928.

TORONTO, Ont., June 3.—Important statistics with respect to fire losses in Canada last year were furnished by the Insurance Committee to the annual meeting of the Canadian Manufacturers' Association today. A gratifying decrease in fatalities by fire was reported, the number of deaths being 238, as against 314 in 1928 and 465 in 1927. Property loss was unfortunately higher, reaching \$47,232,272 or \$4.82 per capita, as compared with \$36,402,018 or \$3.79 per capita in 1928 and \$32,254,084 or \$3.29 per capita in 1927.

The estimated total insured value of property in Canada was placed at \$11,210,325,377, which compared with \$10,596,061,416 in 1928. The loss per \$100 of insured value was thirty cents, a reduction of three cents from 1928. Also, the average insurance rate per \$100 declined from eighty-seven to eighty-one cents. The most common cause of fires was overheated or defective stoves, furnaces and pipes. These accounted for 4,406 fires. Next in importance came sparks on roofs, causing 2,793 fires; smokers' carelessness, 2,601; and defective chimneys and flues, 1,987. Forty-seven fires caused loss in excess of \$100,000 in each case.

Dealing with the automobile insurance enquiry in Ontario, the committee referred at length to the report of Hon. Mr. Justice Hodgins, the Royal Commissioner appointed with the main findings of the Commissioner was expressed but one recommendation of the Commissioner was noted, of which the committee, after due consideration, could not approve. This was the proposal that authority should be given to the Superintendent of Insurance to order "after due notice and a hearing before him, an adjustment of automobile insurance rates whenever they are found by him to be excessive, inadequate, unfairly discriminating or otherwise unreasonable." The principal reason given by the Commissioner for this recommendation was that it would not be fair to introduce the safety responsibility principle "throwing upon the offending motorists the duty of procuring insurance without a corresponding provision securing them the right to obtain it on terms fair both to the insurance companies and themselves."

The committee, while admitting that the Commissioner's argument had some weight, approved this proposal on the ground that it gave the Superintendent of Insurance too wide powers in his official capacity to regulate the automobile insurance business. Such legislation, the committee believed, created a precedent for control of business and government regulation of prices, which, experience had shown, had not often produced satisfactory results. The Act based on the Commissioner's recommendations contained this provision but the committee's objection was recognized to the extent at least that the provision was not brought into effect with the passing of the Act but was to become effective only on Royal Proclamation.

Appended to the Committee's report was a statement prepared by Roland D. Craig, of the Forest Service, Department of the Interior, showing the importance to Canada of the forest products industries and sounding a note of warning with regard to forest depletion. He contended that the simple forest land ownership and control of business and government regulation of prices, which, experience had shown, had not often produced satisfactory results. The Act based on the Commissioner's recommendations contained this provision but the committee's objection was recognized to the extent at least that the provision was not brought into effect with the passing of the Act but was to become effective only on Royal Proclamation.

IS MAYOR HOUDE STAYING UNDER COVER NOW?

Conservatives of Quebec Are Looking to Him as the Vigorous Leader in Federal Fight.

MONTREAL, June 3.—Where is Camille Houde, M.P., and Mayor of Montreal? Not a peep out of Mayor Houde about the Federal election, even though the Ontario Premier jumped into the limelight immediately after Premier King's announcement that he would give one five-cent piece to any province governed by the Tories. Nor did he give one cent to any province governed by the Grits.

But where is Houde? All through the Province of Quebec the Conservatives are looking to Houde to put forward his talents and make for himself the prestige which would accrue in the event of a Conservative victory.

It has been said that Mayor Houde has pleaded that he is interested only in provincial politics, and that he will not avail himself of a logical opportunity to go forth into the counties and build for himself a wider acquaintance with the electorate. He may have been ill-advised by his friends to abstain from mixing in the wider fields, but to the disinterested onlooker he will lose prestige by diffidence and disturb the confidence of his Conservative friends in the country ridings.

Mayor Houde is looked upon as a public man who is devoting all his time to the furtherance of his political ideals, and should he decide to be silent in an emergency he will disturb the confidence of his followers, and thus assure his defeat in the provincial field.

Premier Taschereau, the astute Premier of Quebec, is watching the Premier of Ontario, and the other on the constituencies. Should Mayor Houde stay inside the tents during the Dominion elections he will not have behind him the organization being built up by his followers in the earlier contest, and he may rest assured that his opponent will spring an election on him in the fall of the year if the analysis shows the time to be propitious.

The weakness of Patenaude was in his timidity in following through. He wanted to be half a Conservative and feared that if he interfered in provincial politics it would injure him in the Federal arena. The Conservatives admire an out-and-out. So does everybody. Any sign of timidity, and lack of courage, any fear of the voting combat—and it's all over.

As the Conservative leader, Quebec looks to Houde. The professional or paid organizers are but ships that pass in the night to the electors. They are business politicians.

Of what interest to the public would be a Bobby Jones if he were to join the ranks of professional golfers with Hazen and the rest of the pot-hunters? None. Of considerable expansion, if the forests were protected from fire and we were able to secure the growth rate which is maintained in European countries, similarly situated as to the climatic and soil conditions. The investigations so far conducted indicate, however, that only a fraction of the possible net annual increment is being realized under the existing unregulated handling of our woodlands. Until the fire loss is very materially reduced and systematic management, which provides for future crops of the valuable species, is substituted for destructive exploitation, we will continue to consume our forest capital, the result of which is an inevitable curtailment of these important industries which are now responsible for a large part of the prosperity of the Dominion.

UNEMPLOYMENT INSURANCE IN CANADA UNWISE

Industrial Relations Committee of Canadian Manufacturers' Association Feel General Unemployment Insurance Scheme Would Not Solve Unemployment Problem as It Exists in Dominion.

TORONTO, Ont., June 3.—That it would not be wise to introduce unemployment insurance in Canada was the carefully considered opinion of the Industrial Relations Committee in its report to the Annual General Meeting of the Canadian Manufacturers' Association today. The committee felt that such unemployment insurance as existed in Canada was largely seasonal, occurring in such occupations as agriculture, building and construction, lumbering, fishing, shipping and road making, rather than in manufacturing—a view which was confirmed by the government statistics of employment over a period of years. The circumstances it was claimed that a general unemployment insurance scheme, which presumably would be applied in the main to manufacturing, would not solve the unemployment problem as it existed in Canada.

The committee further felt that unemployment insurance was at best a mere palliative that might actually aggravate the evil it was expected to cure. The real course was, of course, to provide more jobs, or failing that, to spread out the existing amount of work more evenly over the year and thus eliminate the seasonal and other fluctuations which accounted for so large a part of the unemployment. More and more attention was being given to this phase of the problem by industrial firms, employers and the committee suggested that the example might well be followed to a much greater extent by the various governments in carrying out their building programs.

Other objections to unemployment insurance advanced by the committee were that when such a scheme is introduced, it tends to be lost sight of and that, as experience in England and other countries showed, the principle of insurance was lost sight of and under political exigencies the scheme was reduced to the mere distribution of public monies among the unemployed regardless of whether they had contributed or not.

On the other hand the committee found there was a growing interest in the health insurance and felt that the attention of all members of the Association. Experience in England, Germany and the United States showed that sickness caused more loss of time than all the other causes put together. It was said to cause five times as much cost as accidents. For Canada it was estimated that the cost to the community, directly by way of expenditure on hospitals and medical services and indirectly by way of loss of productive capacity, was \$60 million dollars per annum. It was contended that a very large proportion of this could be saved if, for the present haphazard system, there were substituted a system of state health insurance contributed to by employees, employers and the state and primarily directed, not so much to relief as to cure.

On the subject of old age pensions, the committee noted that the only question which had arisen in the past year in connection with the legislation now in force in six of the provinces was that of the relation between private industrial pensions and the Government pensions and representations had been made to the Dominion Government in the matter. As the legislation was now being administered, the government pension was reduced by the amount of the industrial pension with the result that most industrial pensioners became ineligible for many part of the Government pension of \$20 a month (maximum). This was discriminatory as between employers who had industrial pension schemes and those who had not, and contributing equally to taxation out of which the Government pensions were paid. The result was to discourage the industrial movement, which ought rather to be encouraged. The Government's reply to the Association's representation on this matter was that the matter would have to be considered by Dominion-Provincial Old Age Pensions Conference to be held in the near future.

Recalling that in 1928 the Association had passed a resolution favoring the adoption of the monthly calendar, the committee noted that, following a strong recommendation by the League of Nations, national committees had been set up by some twenty-one countries to study the question and educate public opinion upon it. The committee had recommended that the Dominion Government be advised of the desire of the Association to co-operate should a national committee for Canada be set up.

DR. HARRISON ANNOUNCES INTENTION OF RETIRING

McGill University Professor to Resign on Account of Ill-Health—Is Dean of Faculty of Graduate Studies.

MONTREAL, June 3.—Dr. F. C. Harrison, professor of bacteriology and Dean of the faculty of graduate studies at McGill University, has announced his retirement owing to ill-health. Dr. Harrison was born in 1871 and was educated at the University of Toronto. He took post graduate courses in the United States, Switzerland and Denmark and held professorships at Guelph Agricultural College from 1903 to 1905 when he came to McGill.

MANUFACTURERS MAKE PLANS FOR FUTURE EVENTS

Report of Commercial Intelligence Committee of Canadian Manufacturers' Association Shows Considerable Work Accomplished During Past Year.

TORONTO, Ont., June 3.—Useful contact with officers and officials of the Women's Institutes of Ontario was reported by the Commercial Intelligence Committee of the Canadian Manufacturers' Association reporting today to the annual meeting here. A feature of the work of the Women's Institutes during the past year was instruction on cotton, woolen and linen textile material for personal and household use. A group of officers and officials of the institute visited a number of textile mills, taking careful notes of all processes and on many other matters connected with that business. These notes and other general experiences will be circulated among the fifty instructors and officers who handle the work of the instruction meetings held during the summer.

The committee reported scores of communications had been received as to Empire Shopping Week for the autumn of 1930 but due to the present disturbed conditions it may be possible to make suitable arrangements. While the Canadian Manufacturers' Association had in the past taken a leading part in carrying on this work there were also associated twelve other social, commercial and industrial organizations whose group memberships composed a national section of the Canadian Trade Index; an 880-page book listing 10,000 Canadian manufacturers, the committee noted this was circulated in ninety-eight different cities throughout the world, where the fifty-page special Export Section was of real interest, in addition to the information that it conveyed to exporters in Canada. A huge fund of additional information respecting Canadian industry was compiled from thousands of revising sheets that manufacturers were in, in connection with the Trade Index.

The committee further reported that it had been cooperating with the Association of Canadian Advertisers, the Canadian Daily News-press Association, the Canadian Business Newspapers Association and the Retail Merchants Association in making representation to the Minister of Trade and Commerce regarding the desirability of having a thorough census of retail establishments giving Dominion-wide data. It was also felt there should be a preliminary survey of a widely distributed portion of the retail trade from whom it would be possible to collect monthly information as to sales and inventories. This would cause put together, it was said, the purchasing power as derived from month to month, a barometer which has previously not been available in Canada.

Referring to the fact that propaganda and work in connection with an Empire mark of origin had for many years been in the hands of an Association in Great Britain on whose Board a number of Dominions were also represented, the committee reported that the Secretary of this organization had visited Canada during the year and had had conferences with the committee and Association officers. It had been agreed that an endeavor should be made to establish the feasibility of an Empire mark of origin for voluntary use by producers who wish to use it, the propriety of this use being left in the care of competent firms and interested associations in a way similar to that in which the Made-in-Canada and Produced-in-Canada marks operated. As a result of communications definitely favorable replies had been received from many organizations in different parts of the Empire and Canadian Manufacturers' Association had been invited to consider the presentation of a resolution at the annual general meeting suggesting that the Canadian Government consider the advisability of having the subject presented for discussion at the forthcoming Imperial Conference.

Analyzing export trade figures for the fiscal year 1930, the report noted that while there had been a total net decrease in commodities of \$243,451,370, thirty-three items alone had been responsible for a decrease of \$317,839,500. Grains alone accounted for \$248,000,000 of the decrease, while ten other agricultural items accounted for most of the remainder. On the other hand, increases for 1929 to the amount of

SITUATION IN SOUTHWEST END OF PROVINCE

Politics and Candidates in Huntingdon-Chateaugay, Where Only Two Tories Ever Elected.

HUNTINGDON, June 3.—Efforts are being made to induce Dr. Moore to allow his name to go before the Conservative convention for Chateaugay-Huntingdon, the two counties joined together in 1914, and for 21 years represented in the House of Commons by the late Hon. James A. Robb. There are several towns of size in this constituency including Huntingdon, Ormstown, Howick and Chateaugay, but it is essentially a farming constituency, where 10,662 votes were registered in the last election.

Upon the sudden demise of the Hon. James Robb, a hurried election was called, catching the Conservatives unawares, and they were handicapped by an effort to get rid of a perpetual candidate in John Sullivan, K.C., who was only a summer resident in the constituency. Dr. Moore was ready at the time, but Sullivan would not consent to evacuate the field until it was too late for organization work. As one of the eight English-represented counties in Quebec Province the Conservatives were loth to a trial of strength on a week's notice. O'Connor got the seat by acclamation.

Now Dr. Moore, a talented physician is loth to leave his practise to enter into politics, but the party are trying their best to persuade him to run. In 1926 the Hon. James Robb defeated John Sullivan by 750 majority. His majority in 1925 was 1212 over the same opponent. Previous to that in 1921 Mr. Robb had a majority of 1854 and in 1917 it was 1845.

Huntingdon elected a Conservative only once in its history, and that was in 1904 when B. N. Walsh of Ormstown, received a Conservative majority of 149. Robb redeemed it in 1908 by 80 majority. J. Scriver held Huntingdon in the Liberal column from 1872 until 1895. Chateaugay, when a self-contained constituency, was one of the thirty-eight items, only two of which were agricultural products.

ed constituency from 1887 to 1914, was ever loyal to the Liberal party, and has only once in its history been other than Liberal. For twenty years it was represented by Luther and Edward Holton with majorities varying from 427 to 61. J. P. Brown represented Chateaugay as a Liberal from 1891 to 1913, when, after his death, J. Morris, a Conservative, elected by 145, held it until 1917. With the majorities in normal

times being only slim, it is thought that in the selector of a really able man the Conservatives can capture Chateaugay-Huntingdon. But they will require to be promptly in the field in order to have their organization complete. Complaint has been made on former occasion that the Quebec Conservative organizations were slothful in getting into action. The Liberals are confident and

are already hard at work in furthering the cause of the sitting member, Mr. O'Connor, an ex-Mayor of Huntingdon. There are only two weekly papers published in the constituency, one in Huntingdon and the other in Ormstown. One of the proprietors of the Huntingdon paper was for years private secretary to the late Hon. James Robb.

"GUTTA PERCHA" GUM CUSHIONED TIRES

You drive farther before they wear smooth

"GP" Gum Cushioned Tires will give you 47 1/2% more resistance to wear... The new tough "Resisto" tread is built to meet the strain of high speeds and the grinding effect of quick braking... The famous Gum Cushion feature completes a tire protection you cannot buy in any other standard tire sold at a similar price... See this tire now at any Gum Cushion Tire Station.

"Built Better to Wear Better"

Gutta Percha & Rubber, Limited
TORONTO
The Largest All-Canadian Rubber Company
Founded in 1883
