A Mild Laxative

Ask your doctor to name some of the results of constipation. His long list will begin with sick-headache, biliousness, dyspepsia, thin blood, bad skin. Then ask him if he would recommend your using Ayer's Pills for constipation. Just one pill at bedtime, a few times, that's all.

PANDORA RANGE

The easiest way to remove ashes from a range is with an ash pan—the Pandora method (see illustration). Such an extra large ash pan is provided with the Pandora that will contain more ashes than will accumulate in one day. All the ashes are in the pan, too, because they are guided there by flanges attached to either end of the fire-pot. Easiest, cleanest, quickest, is the Pandora way. With the scraper and pan provided with every Pandora it's merely a matter of a minute or so to clean out the dirt in the Pandora flues. Less dirt accumulates in Pandora flues than in ordinary flues, because they are wider and deeper, with no bolts, projections, or crevices to catch the dirt, consequently you need not clean them out so often. Saves a lot of labor, does the Pandora. If your local dealer does not sell the Pandora write direct for **Free Booklet**.

HOTELKEEPER KILLED.
PROFESSIONAL BASEBALL PLAYER IS CHARGED WITH HIS MURDER.

Batavia, N.Y., Sept. 17.—Edward Conliffe, proprietor of the Byron Road Hotel, six miles east of here, was shot and instantly killed Friday afternoon. Francis Earl Bentley, a professional baseball player, is under arrest charged with murder in the first degree. Bentley claims that he had an altercation with the hotel man, which led to a fight, and that he shot Conliffe in self-defense. At the hotel it is said, Bentley, who is without money, demanded a drink, which was given him. He asked for more, and upon being refused, he drew a revolver. Bentley, it is claimed, tried to take away the revolver, and in the scuffle, was shot in the head. Bentley at one time played with the Rochester Baseball team, and this year played with Portland, Ore.

NORTH HATLEY.
Mr. J. B. LeBaron and Captain J. A. Simpson have gone to Breches Lake for the week's fishing.

The band boys have returned home from a two weeks' stay in Sherbrooke. Some of them have had colds owing to the inclement weather.

The steamer Pocahontas makes her last trip to-day for the season of 1907.

Mr. and Mrs. B. Ham are once more installed in their own home.

Recent departures include: Miss J. K. Scott for Scottsmore; Miss Marion Taylor to Brockville, Ont.; Mr. Taylor to Sherbrooke; Mrs. and Misses Nairn to New Jersey; Mrs. Stone and family to Boston; Mr. Jay to New York.

Mr. J. W. and Mrs. McConnell, of Pith Bay, called on relatives here on Friday last.

INVERNESS.
A union Gospel temperance meeting was held in the Methodist church on Sunday evening of last week. The Rev. Mr. Sinclair, of the Presbyterian church, preached the sermon. He showed that the great unrest now in the political, commercial and social world presaged the righting of wrongs and the incoming of better times, and argues that the great unrest and wonderful activity in temperance and moral reform presaged the coming of the overthrow of the great enemy of mankind.

The Rev. Mr. Mick also took part in the service which was a very profitable one. The church was well filled with an appreciative audience.

On Tuesday evening of last week in the Methodist church the Rev. Mr. Prudham, a returned Methodist missionary from Japan gave a most interesting and instructive lecture on Japan and the work of missionaries there. A very large audience greeted the lecturer, and were delighted with what they heard and saw. Rev. Mr. Sinclair moved a vote of thanks to the lecturer for his very able and most instructive lecture and the felicitous way in which he presented the facts. The motion was seconded by Dr. Lambly, and was enthusiastically carried. Mr. Mick was unavoidably absent by the marriage knot for a happy Belcher Range couple.

Mr. J. W. Mooney found one of his horses and a very fine ox dead in his pasture last week. The horse evidently died of pure perversity of spirit but the ox was evidently struck by lightning.

Mr. Harold Mooney was kicked by his pet colt last week. The accident though painful was not serious.

The County Council met on Monday. There was a good attendance, notwithstanding the very wet morning. The Council was advised to take an appeal in the case of leveries vs. County Council, but they did not make any move in that direction. A petition was presented by a number of inhabitants of Notre Dame de Lourdes asking the County Council to annex certain lots in Lotbiniere not yet municipally organized, but the Council decided that such annexation was a matter for the Legislature to deal with.

In the last correspondence, in referring to the petition of John Edmund Clark, the report read that the petition was granted. The word "not" was dropped out. The petition was not granted.

A term of the Circuit Court will be held here on the 24th inst.

The Onlooker.

The Listener.

In the report of the Royal Commission, which has been enquiring into the methods of the Bell Telephone Co., the existence of the "listeners" who are known as "listeners" is taken to the word suggests, are operators whose duty it is to "break in" on any line at any time to see if the wire is working smoothly and the company claims that they are necessary to the efficient working of the system, but the opportunity for leakage which they present is all too apparent to those who have occasion to use the telephone for private business, which it is important should be kept secret.

Enlarging Scope.

The Canadian Trades and Labor Congress, which met in annual session at Glace Bay last week, passed a couple of resolutions favoring strongly of presumption. One of these was that the Government be petitioned to abolish Dominion Day, as such, and continue it as Labor Day. The ill-affected, it is to be hoped, unintentional, arrogance in this suggestion does not need to be dwelt upon. The other resolution was that the Government be petitioned to provide better dock facilities at Quebec and Levis, and was akin to the first in spirit.

A PLEASANT PETITION.

There is a certain village church, where a good member, known as Brother Kirby, is always stirring up strife and causing sorrow. At a prayer-meeting, one of the brethren who had suffered from Brother Kirby's meddling methods, offered up a petition in this fashion: "O Lord, we pray that Brother Kirby may die."

THE ORIENTAL.

(From the Canadian Courier.) The Japs and Chinese in B.C. Are as anxious to stay as can be; But their ways are not nice; As we've said once or twice; And we wish they'd go back o'er the sea.

SAWYERVILLE.

Mr. and Mrs. Albert Loring, of Coaticook, were visiting their cousin, Mrs. W. Henry Leavitt, one day last week. Mrs. Leavitt has three children, of whom the youngest, a boy, has been visiting at her father's, also other relatives and friends.

AMUSEMENTS.

Next Thursday at the Clement Theatre, Allen Doone, styled "Joseph Murphy's successful successor" will appear in the part of "Larry O'Daly" in his new and successful scenic comedy-drama "A Romance in Ireland," in which the young comedian-singer is said to have scored the hit of his career. The play is said to be a clever, witty comedy of the County Mayo in the picturesque Seventeenth century, containing all the delightful characteristics of the Irish but constructed upon distinctly original and novel lines and away from the time-worn themes of the conventional familiar play of its class.

Advertisement for Seal & Sanborn's Brand Coffee, featuring an illustration of a woman and the text: 'The beginning and the end of the meals of the day should be Chase & Sanborn's SEAL BRAND COFFEE. It's the first thing for breakfast—the last for dinner—and the "best thing" in every meal.'

KNOWLTON.

Mr. T. B. Curtis is daily improving, now being able to drive out often. Mr. E. R. True is again quite ill. Hugh Macfarlane, though quite ill, is not seriously so.

The last Saturday afternoon special train was not so crowded, although it brought many familiar faces to the village for the last of the summer season. The Monday morning "early" train to Montreal was utilized by a few who wished a longer day in town or "en route" and the Lake House dance was a pleasant gathering, where all made merry for a few hours as a farewell to the season.

Although Mohawk broke a few days ago, some of the gentlemen were out again on Saturday as the weather promised a fine week and all are loathe to leave the comfortable camp and beautiful shores of Bromé Lake.

Still a stray flag or so reminds one of the theories of the vice-regal procession and the arches triumphant are gay with mottoes and pennants and in the sunshine almost glitters showing how beautiful "they might have been" on the great day had Queen's weather prevailed, instead of gloom, deluge, and mud.

Arrivals include Mr. Chas. Rollit, of Quebec, spending the week end with Mr. and Mrs. McGowan; Mr. John Hall, returned from his two weeks holiday, spent with his brother, Mr. Jas. Hall in Coventry, N.Y.; Miss Dorothy Bancroft left on Monday morning to attend Trafalgar School, in Montreal for the winter.

Miss Ruby Knowlton returned from Montreal on Saturday evening, having started for home for a short visit, not knowing of her father's, Mr. Myron Knowlton, illness. Miss May Knowlton was telegraphed for and arrived Sunday p.m., driving from Sutton. Miss Rena came home Friday evening from her school in West Bolton.

Mr. Wyatt, of Sutton and friends visited Knowlton in his auto on Sunday. Mr. and Mrs. Savage entertained a large party of friends at dinner Sunday, including most of their children and brothers and sisters and their families from Sutton and Stukely.

Mr. and Mrs. Robinson, of Sutton spent the week end at his son's, Mr. J. N. Robinson's. All the summer guests who have spent the last three months at Lordelle, have gone to their homes in Ottawa and Montreal. Mrs. Rubie will spend a week with Mrs. Stevens before the house is closed for the winter and Mrs. Stevens will return to Montreal.

DOING BEATS PROMISING

Is an old saying but one that will bear repeating. We believe in doing as we say and not promising to do and not doing. We want our customers to know that when we say WE EXCELL IN THESE: We mean ever- word of it and that they can buy of us and feel that they are receiving their money's worth in every way. Did you ever buy of us and not find goods as represented? If so, did we object to making it right?

KERR & FOSS

The Group of WILSON PIANOS

which attracted so much attention in our exhibit at the Fair were samples, so far as tone and action goes, of what we are now ready to furnish our customers promptly. The quality of materials used in building the Wilson Piano is the best that money can buy, and no better workmanship can be found in any instrument.

We invite the fullest inspection from musical people and all who are interested in the purchase of strictly reliable pianos at a fair price.

Just what a good piano is worth and no higher. The same price to every buyer. Walnut, mahogany, oak cases. Only one Exhibition Piano left. This is a Louis XV. case, in very fine Burl Walnut.

Yesterday at noon, as the great delivery wagon of the Silver Spring Brewery was turning from Water street into Dufferin Avenue, the load, of gas-filled empty bottles tipped over, immediately upon the sidewalk, quite blocking traffic for a time. It was fortunate that no one happened to be in that particular spot at the moment, or a bad accident would have resulted.

SMELTER MAY BE ERECTED HERE. American Mining Engineer Visits Canada in This Connection.

MR. J. C. UNDERWOOD THINKS SHERBROOKE MORE SUITABLE PLACE THAN MONTREAL.

The erection next year of a big smelting plant is the business which has brought Mr. J. C. Underwood, M. E., to Canada. He is the representative of a big American syndicate, which has commissioned him to go through Eastern Canada, in the search for mining opportunities.

Mr. Underwood, who is a mining engineer of many years' experience in North and South America and Mexico, has been in Sherbrooke at different times within the last year in connection with the sale of the Golconda Mine, believes that there is a good opening in the reduction of the ore of the Sherbrooke copper fields.

"There are sixty or seventy miles," he said, "of copper lands in the neighborhood of Sherbrooke, and with a liberal treatment of the miners, these fields could be made to yield rich returns. As it is, there is no market for the product, beyond the very small and irregular one furnished by a couple of companies which run smelting plants."

Mr. Underwood went on to say that a big plant which would do general work, accepting small amounts of ore, one ton loads, for instance, and which would assay it immediately and pay cash. In this way the miners of the district would be encouraged and a great deal of valuable ore would be brought in, as the fields were more and more developed.

Mr. Underwood wants to say that the smelter should be located either in Montreal or in Sherbrooke, but preferably in Sherbrooke, as it was not only a railroad centre, but also was nearer the copper fields.

His company did not ask for any Government grants, except a site for their plant, and no favors, except freedom from taxation, which, he thought would be much more than repaid by the development it would bring to the district.

Mr. Underwood intends going over the mineral lands of the northern part of Quebec, and in the meantime, is endeavoring to get as much information as possible on the subject, and get in touch with the best mining authorities.

FOOTBALL.

INTERESTING GAME AT COWANSVILLE ON SATURDAY.

Cowansville, Sept. 17. (Special)-A fine and exciting game of Association football took place on Saturday afternoon on Mr. P. A. Butler's grounds, near the railway track and was witnessed by a large number of people.

The game was between the Woodburn Sons Co. and the Village of Cowansville, most of whose players were from the Eastern Townships Bank. Mr. E. W. Westover, was captain of the village team, which won by a score of four to one against the Woodburn team, captained by Mr. Beart.

The line-up of the Woodburn team was Messrs. Beart, Flegg, Pole, Lewis, Anthony, Jones, Labelle, Barnett, Marion, Plumb and McAnnes, while that of the village team was Messrs. Westover, Stringer, Geo. Hughes, J. Irving, McCabe, Ned. Buzzell, E. Percy Jones, Horace Chandler, A. Hulbert, Harrison Bell, Geo. W. Johnston and Lyle Leonard.

It was a hot game in more ways than one and exciting enough, too, at times and much sport was had out of it, even if it was not very long premeditated or in practice.

ALL A MISTAKE. Neptune, rising the waves, suddenly came upon a fair bather.

"Young lady, may I ask why you are in the water without a bathing suit?" However, catching a better glimpse of her, he saw that she was suitably attired, so he apologized and continued on his way. (Milwaukee Sentinel).

The New Hydro-Electric Plant of the Sherbrooke Power, Light & Heat Company

We extract the following description of the S. P. L. & H. Co.'s new plant from the Canadian Electrical News of September, 1907:

The Sherbrooke Power, Light & Heat Company have had in operation for the past nine months a new hydro-electric plant of an interesting design and construction. The company was originally established in 1888. The plant consisted of a brick building on a small island in the middle of the river just below the main dam, as shown in Figure 1. The waterwheels for this plant were placed at

low that it would be very warm at certain seasons of the year, when the plant was operating to its maximum capacity.

The power-house is lighted by means of two sky-lights glazed with fire-proof glass and so arranged that the lighting effect in the day time is remarkably good, as will be seen by referring to Figure 3, which shows the waterwheels, generators, watershed governors, and a portion of one of the waterwheels for driving the exciter. There are two exciters, either having suffi-

600 r.p.m. exciters. The switchboard consists of six single phase panels; five 3 phase power panels; three generator panels, and one exciter panel. Each line is equipped with an automatic oil circuit breaker controlled by time limit overload relays. The single phase circuits are so arranged by means of transfer switches that any single phase circuit can be transferred to any phase of the three phase system for equalizing the load on the three phase bars. The instruments are mounted on blue Vermont marble panels, and the switchboard is placed ten feet from the rear wall. The lightning arresters are placed on a board covered with asbestos on each line as it enters the station on the rear wall. In addition to the regular instru-

cient capacity for operating three generators. Figure 4 shows No. 2 exciter, switchboard gallery, switchboard, etc. In the lower left-hand corner of Figure 4 will be seen a portion of one of the waterwheels used in the original plant. This waterwheel will be utilized for driving No. 3 generator in the new plant, which will be of the same capacity as the two now installed and will be located in line with the same. This waterwheel is supplied by two pipes, which enter the wall of the old power house, and are clearly shown in Figure 5. These pipes enter the wall of the old building, the portion of which is shown in this figure, and has been made part of the new plant. In this figure we also have a good view of the method of bringing out the wires in the new plant. The new power house is constructed with fireproof material throughout.

ments for operating the various circuits, generators, etc., a special frequency indicator is shown on the left-hand wall, from which the operator can see at all times the exact speed of the apparatus, also the synchronizing indicator and the recording voltmeter. The waterwheels consist of two units, each unit comprising two 35 inch runners, guaranteed to develop 875 horse-power at 225 r.p.m. The exciter waterwheels have a capacity of 50 horse-power each at 600 r.p.m. Each exciter waterwheel receives its supply of water from separate sources, so that in the event of repairs being necessary to either section of the plant, it will not interfere with the operation of same. The waterwheels are regulated by means of Lombard governors, located as shown in Figure 3. The hydraulic equipment of the pow-

er house was constructed and installed by the Jenckes Machine Company, of Sherbrooke. The new plant was put in operation last December, since which time a large amount of new business has been contracted for. At the present time the Power Company are supplying power to the Jenckes Machine Company, Canadian Rand Drill Company, Quebec Central Railway Company's shops, and many other smaller concerns, having in all about 500 horse-power in motors, 24,000 incandescent lamps and 100 arc lamps. The outlook is also very promising, as the demand for electric power is increasing daily. The entire new plant was designed and contracted for by Mr. R. S. Kelsch, of Montreal, the company's consulting engineer, and installed under the supervision of Mr. A. Sangster

to call in the services of a consulting engineer, and this resulted in the company reaching a decision to abandon the original power house, as a power house, and construct an entirely new building and plant, making the same up-to-date in every respect. Plans and specifications were prepared and contracts let, and the work completed without a single hitch or accident of any kind. The new plant is shown in Figure 2, and it will be seen that it has been built, so to speak, down in the bed of the river, between the island supporting the old plant and the forebay. In this view, we see the wires entering the new power house under the copper covered entrance for the wires, showing a gallery for making these wires accessible, which view also shows the method employed for ventilating the power house, which was situated so

The foundations and walls are made of concrete. The roof, which is constructed of concrete, is supported with steel trusses, and the window frames, sashes, skylights, etc., are all made fireproof, being constructed of galvanized iron and wire glass. The lighting effect in the day time is remarkable, and the temperature of the power house can be kept exceedingly low by means of the small ventilating fans, notwithstanding the fact that the power house is 80 feet below the average level of the city, and actually surrounded on four sides by walls, dams, etc. The switchboard and electrical apparatus were furnished by the Canadian General Electric Company, and consists of the following: Two 625 k.v.a. 225 r.p.m. 60 cycle 2,300 volt 3 phase generators; two waterwheel driven 35 kw. 125 volt

BALLOONIST KILLED.

WOMAN DASHED TO DEATH IN VIEW OF 8,000 PEOPLE. Olean, N.Y., Sept. 17.—Mrs. Carrie Myers, 32 years old, of Springfield, Mass., a professional balloonist, fell from a parachute, 1,000 feet above the fair grounds here Saturday, and was dashed to death in plain view of 8,000 people. Mrs. Myers made her first ascension

from Winnipeg, which I fear is too true. "Think 70 per cent. of wheat territory will be badly frosted. Have had severe frosts there the last two nights. Should say about 50 per cent. of Northern Manitoba badly frosted. Have had some cars inspected from Southern Manitoba, and all show some frost, grading Nos. 2 and 3 northern. Do not look for over 25,000,000 bushels No. 2 northern or better, balance No. 3 northern down to chicken feed. That condition is the way I figure it out at the present time. Unless this weather improves quickly conditions will be even worse than this. Taking

DORISE MENARD DROWNED AT DOCK AT WALKERVILLE, ONT., YESTERDAY. Walkerville, Ont., Sept. 17.—(Special)—Dorise Menard, of Cedars, Quebec, a wachman on the city of Ottawa fell from the scrubbing stage of a boat at the dock here yesterday and was drowned. The body was recovered. Mr. J. H. Armstrong leaves to-day for the New Ontario mining district.

here on Wednesday, when she sprained her left wrist. On Friday, she made another successful ascent, using a life belt attached to the parachute trapeze as a precaution. Mrs. Myers was asked to use the life belt again, Saturday, but refused, saying her wrist felt well and strong. When about 2,000 feet above the Fair grounds, Mrs. Myers out of loose from the balloon, with a double parachute. The canvas was spread out and the rapid downward flight of the parachute was suddenly checked, Mrs. Myers fell backward. It is believed the sudden jar hurt her lame wrist. Her body struck just outside the Fair grounds fence. Every bone in her body was broken.

BUILDING COLLAPSED

TWO MEN AND A WOMAN KILLED IN CINCINNATI ACCIDENT. Cincinnati, Ohio, Sept. 17.—Two unknown men and one woman were killed and a dozen other persons narrowly escaped death in the collapse of the Dohann Shoe Company's 4-story building in Central Avenue, Saturday. The building was undergoing repairs. Shortly before noon, after a warning rumble, the front of the building fell forward into the street, leaving only the rear section standing. An unknown man who was passing on the sidewalk was killed. A second man, apparently a laborer, was found dead in the ruins, as was Mrs. Mary Daley, who lived on the second floor. Of the seven workmen in the building, three were reported missing, but all were later found unhurt. A number of women in the apartments on the upper floors were in their kitchens, preparing the midday meals, and to that fact owed their escape.

Mr. James Ellis, Quebec, High Chief Ranger, Independent Order of Foresters, and Mr. L. G. A. Chase, K. C., Montreal, Vice High Chief Ranger, were in town on Saturday conferring with Mr. John W. Stocks, High Secretary, in regard to a preliminary meeting to be held in Quebec shortly when the necessary arrangements will be made for the organizing work for the next two years.

A little girl aged about four years was in imminent danger this morning on the Magog bridge. The child, who was with a companion, had climbed upon the railing, and was intently looking into the water far below. An incautious movement or a step higher and she would have plunged to a terrible death by drowning. Children should be warned of the danger of such feats as the above.

The new warden of Divinity House, Bishop's College, Lennoxville, Rev. Harold E. Hamilton, M.A., who succeeded Rev. E. A. Dumm, M.A., has arrived in Lennoxville, to take up his work. Will be Signed in Paris This Week.

SIR F. BERTIE, HON. W. S. FIELDING and HON. L. P. BRODEUR TO SIGN ON BEHALF OF BRITISH AND CANADIAN GOVERNMENTS.

Toronto, Ont., Sept. 17. (Special)—Globe Ottawa Special says: "Franco-Canadian trade treaty will be signed in Paris this week by Sir Frank Bertie, English ambassador, Hon. W. S. Fielding and Hon. L. P. Brodeur, on behalf of the British and Canadian governments.

This is the first time that a treaty affecting Canada has been entirely negotiated by Canadians. When the present treaty with France was negotiated Sir Charles Tupper represented Dominion but along with him was Lord Dufferin, representing the British government. On the present occasion the Foreign Office entrusted the negotiation to Canadians and upon that account it is likely to be the more acceptable to Canada.

Mr. Fielding is expected to leave for Ottawa next month.

OPENING OF PROTESTANT SCHOOLS

Classes Larger Than Ever Before.

NEARLY 130 ON ROLL AT ACADEMY FOR GOVERNMENT GRADES.

The classes of the city schools opened in real earnestness yesterday, and show a considerable increase over previous year. In the Academy nearly 130 pupils are already on the roll in the Academy and Model School classes. This is the largest enrollment ever made in Sherbrooke, being 25 per cent. more than last year, which itself was a record year. The rapid strides made by the Academy may be seen from the fact that five years ago the total enrollment in the grades mentioned was 57.

In the course of his remarks while greeting the pupils yesterday, Mr. N. T. Truell, principal, made reference to the excellent results obtained last year. For the third successive year all of the pupils of the grading classes successfully passed their examination. In the list of the ten highest pupils in each grade now published annually by the Department, Sherbrooke Academy gained 12 places out of the 50 places open to the 76 superior schools in the Province. In the graduating class, Miss Dorothy Selwright and Miss Clara Hyndman each won \$100 scholarship in the McGill University. The former also won the gold medal given by the Superintendent of Public Instruction for general proficiency. In Grade II Academy Miss Kate Lawrence led the entire Province, winning Bank medal. In addition to the above the following pupils won scholarships in Grade I Academy: Miss Gill in Grade III Model School, Hugh Nourse; in Grade II M. S. (senior), Charlotte Coley; Grade II M. S. (junior), Clifford Major, Pauline Bradley, Donald Macfarlane and Pansy Wyatt.

TERRIBLE FATALITY ON JAPANESE BATTLESHIP.

Forty of Crew of Koshima Killed by Explosion of Shell.

UNEXPLODED SHELL WENT OFF WHEN BEING REMOVED FROM GUN AFTER TARGET PRACTICE.

Tokio, Sept. 17.—(Special)—Forty of a crew were killed and injured on board the Japanese battleship Koshima, by the explosion of a twelve-inch shell within the shield after target practice, near Kura, at 4 p.m., on Sept. 9th.

The Koshima, under the command of Captain Koizumi, reached Kura at 6 p.m., where the wounded were placed in a hospital.

The fatalities included a lieutenant, two cadets and one staff officer.

The exact details regarding the effects of the explosion are lacking.

The ship is badly damaged.

The explosion followed an attempt to remove an unexploded shell from the gun.

A majority of bystanders were fearfully mutilated.

DAILY NEWS FROM TOWNSHIPS

Rev. G.E.C. Caffin, was followed by a reception at the residence of the bride's parents. The bridegroom gave the bride a pearl and diamond pendant. To the bridesmaids he gave pearl brooches, to the best man, a pearl scarf pin, and to the ushers, gold monogram scarf pins.

RICHARDSON-TRACY.
A very pretty wedding was solemnized this morning, at the home of Mrs. Jas. Tracy, when her daughter May, was united to Mr. N. Obanda Richardson, of Boston, the ceremony being performed by Rev. Charles E.C. Fiset, of St. Patrick's Church.

The bride wore a beautiful gown of pale grey crepe de chine over tulle, and carried a shower bouquet of white roses. She was escorted by her brother, Mr. William C. Tracy. The groom was attended by Mr. Gustave Richard, of Ottawa.

The drawing-room was beautifully decorated with palms, ferns, roses and sweet peas, a large bouquet of white roses being suspended from an arch of green foliage.

Madame Chas. Beaudoin played charmingly during the ceremony, after which a recheche breakfast was served.

The wedding was of a private nature, only the family being present.

The bride was the recipient of many beautiful presents, including cut glass, silverware, china, and also, several cheques.

The happy couple left immediately for a trip through the principal cities of the United States, after which they will take up their residence in Boston.

DRYSDALE-BELLAMY.
Phillipsburg, Sept. 16.—(Special)—A very pretty wedding was solemnized this morning, at the church of St. Paul, when the daughter of E. Bellamy, of Southey, and Robert F. Drysdale, of Montreal, Rev. A. Ireland officiated. The church was prettily decorated with white phlox and sprays of asparagus.

The bride was prettily gowned in cream voile over white satin with fall veil and orange blossoms and carried a bouquet of white chrysanthemums, lilies of the valley and maiden hair ferns.

Miss Agnes Denel was bridesmaid and was charmingly dressed in white crepe de chine with veil and orange blossoms. Her bouquet was of pink and white flowers. Little Miss Doris Denel acted as flower girl and was prettily dressed in white silk with hat to match and carried a basket of pink sweet peas with long streamers of white tulle ribbon. Mr. J. M. Watt, of Montreal, supported the groom.

The groom's present to the bride was a beautiful gold bracelet, it being the only piece of jewellery she wore, to the bridesmaid a beautiful gold brooch set with a diamond, and to the little flower girl a gold bracelet set with a tiny ruby. Mr. L. V. Dent gave the bride away.

Mrs. Montgomery played the bridal chorus as they entered the church and struck the wedding march as they were leaving.

The newly married couple were recipients of many beautiful and valuable presents. They remained at the Robin Nest farm until Tuesday morning when they left for Montreal, where they will reside.

Paroid Roofing—The Roofing With a Money-back Guaranty

Paroid Lasts Longest

Buy one lot of Paroid; open it; inspect it; apply it to your roof, and if then you are not satisfied that you have the best ready roofing material, send us your name and address, and we will send you a check for the full cost of the roofing including the cost of applying it.

Because it is made of the best felt—made in our own mills (established in 1897); other manufacturers buy their felt outside and stamp every fibre.

Because it is soaked (not dipped) in a water proofing compound which makes it water proof in every fibre.

Because it is coated on both sides with the strongest, thickest, smoothest, toughest, most flexible coating used on any ready roofing Paroid with any other. You can see and feel the difference. Paroid does not break or crack in the coldest weather or run in hot weather.

Because it is applied with our patented squares, rust proof caps—water proofed on both sides—the only caps that will not rust, work loose and cause leaks.

These are some of the reasons why we can give Paroid so strong a guaranty: why it lasts so long—why it is so largely used by governments, railways, factories and farmers—everywhere.

All we ask is that you try it on our money-back guaranty. Paroid is made by F. W. Bird & Son, Hamilton, Ont. Established in U.S. 1871. Don't take a substitute but send for samples and prices to—

RICHMOND AND DRUMMOND CLUBS SHOOT FOR A DINNER.

OWING TO DARKNESS ALL CONTESTANTS COULD NOT SHOOT.

Richmond, Sept. 17.—(Special)—The much talked of rifle contest between teams representing Richmond and Drummond took place on the Ulverton ranges on Saturday and resulted in a victory for the former by the close margin of ten points. The conditions at the first range were perfect, but a mirage and shifting wind at five hundred yards target played havoc with some of the scores, sending more than one competitor who was expected to approach a possible tumbling away below the twenties.

Owing to the darkness all the competitors did not shoot at the last

range, and the match was decided by the total number of shots fired at all ranges.

At the banquet which followed the expenses of which were defrayed by the dedicated team, the health of the Ulverton team was happily proposed by Major R. J. Hewton, Captain of the Richmond team, and responded to by Mr. George Miller, captain of the Drummond cracker.
