ANOTHER BRITISH AVIATOR KILLED

LIEUT. KENNEDY OF ROYAL FLYING CORPS MEETS DEATH ESSAYING A TURN.

London, June 13.—Lieut. James R. Kennedy, of the naval wing of the Royal Flying Corps, was killed, and C. Gordon Bell, another aviator, seriously injured in the fall of a monoplane near the Brooklands Aerodrome today. Bell was driving the machine with Lieut Kennedy as a passenger.

The monoplane, at a height of about 80 feet, was flying at the rate of 80 miles an hour when Bell essayed a turn and banked the machine at too great an angle. The nose of the monoplane dipped suddenly and a wing struck the ground, causing the machine to turn turtle. Both Kennedy and Bell were buried in the wreckage.

This is the second fatality in the Royal Flying Corps in less than a month. Lieut. Desmond L. Arthur, of the Fifth Battalion Royal Munster Fusiliers, having been killed near Montrose, Scotland, May 27, while practicing aeroplane reconnoissance. Arthur fell with his machine from a height of 2,000 feet.

ALBERTA EXPECTS THE GREATEST CROP IN HISTORY

Calgary, Alb., June 13—Given reasonably good weather for the next two mnths Alberta will this year harvest the greatest crops in its history. This is the summary of crop reports received today from forty points in this province.

While the spring was undoubtedly a backward one, the early summer has more than made up for this. There has been plenty of moisture and bright, warm sunshine in addition. With the soie exception of the extreme south there are no complaints of lack of rain.

HUNDREDS CHASE ESCAPING BANDIT

COWARDLY THIEF CHOKES AND ROBS FRAIL GIRL IN CROWDED STREET.

New York, June 13—Miss Dorothy Daniels, a frail little woman of 22 years, was beaten, choked and robbed in the street this afternoon by a lone bandit who had followed her to the bank and two-thirds of the way back to her place of employment on Varick street. The highwayman escaped with $128 in currency and a certified check for $1,000. Hundreds pursued him for several blocks, but he eluded them by darting through a hallway. The hold-up occurred in a busy downtown section in full view of the noon day crowds.

WOMAN REPUDIATES MURDER CONFESSION

Harrisonville, Mo., June 13—Mrs. Ida May Kellar, who yesterday confessed, in the presence of sheriff, county prosecutor and coroner, that she killed her husband, Arthur Kellar, and their seven-year-old daughter, Margaret, on Tuesday, with an axe, today called the sheriff to her apartment in the county jail and repudiated the confession, saying that the Kansas City detective who investigated the murders, "scared it out of her."

SPANIARD FRACTURES SKULL OF HAMILTON BARTENDER

Hamilton, Ont., June 13—This evening Jose Roddiguez, a Spanish cigarmaker, entered the Northern Hotel and threw a stone at the bartender, Jack Simms. The stone, which weighed about three pounds, struck Simms on the head, fracturing his skull. The Spaniard left the hotel but was captured by the police.

BOURASSA DEFINES HIS NATIONALISM

MEASURE CANADA'S OBLIGATIONS BY EXTENT OF HER PRIVILEGES AND LIBERTIES

Edmonton, Alb., June 13—That Canada's national obligations should be measured by the extent of her national privileges and liberties, and that, as the sole control of the army and navy lay with the British Parliament, England should bear the whole cost of Imperial defence, formed the basic priciples of the Nationalist conception of Imperial relationships as defined by Henri Bourassa, the Nationalist leader, at a public meeting held in the Empire Auditorium this evening.

Canada and the other self-governing colonies, said Mr. Bourassa, had absolutely no control and no voice in the government of the Empire. The people of the United Kingdom, through their Parliament, were the sole and absolute masters of the Empire. Should a question of external policy arise Canada was not consulted, the decision lying solely with the British Parliament. Matters of foreign relations were arranged by English diplomats and settled by the English Parliament, none of the colonies being consulted in the army and navy. Mr. Bourassa maintained that they should be responsible for the entire cost of its maintenance.

Going on to deal more particularly with the Borden naval policy, and the Nationalist reasons for opposing it, Mr. Bourassa stated that Canada's sea-borne trade was Britain's trade, and the United Kingdom was just as much interested in protecting it in time of war as was the Dominion. Depending as she did on the overseas dominions for the greater part of her food supply, Britain was much more vitally interested in purchasing Canadi n foodstuffs in time of war than was Canada in selling them.

Even with all its snares and dangers, full-fledged Imperial partnership was considered by Mr. Bourassa to be preferable to the low, undignified, jingo-inspired alternative offered to the Canadian people by the present government. Despite its dangers, said Mr. Bourassa, full Imperial partnership was inspired by high ideals of national equality while the policy of the Borden government would simply result in the self-abnegation of the Canadian people. That policy meant that Canada accepted an Imperial policy over which she was denied by the British Government the slightest share of control.

DIVES TO DEATH IN TEST FLIGHT

AVIATOR DREW KILLED AT LIMA, OHIO, AEROPLANE CATCHING FIRE.

Lima, Ohio, June 13.—Andrew Drew, a Chicago aviator, fell 200 feet while making a test flight near the Lima State hospital late yesterday, and was instantly killed. When in the air but a short time, Drew shut off his motor and the men at the aviation grounds saw a red tongue of flame dart from the machine.

The flash of red at the rear of the machine increased, and Drew, evidently hoping to land in a field a half a mile away, made an emergency dip in an effort to save himself. The biplane, hesitating for a moment, suddenly shot downward, careening as it fell.

As the spectators ran across the fields to the wrecked machine, there was a sound of an explosion and the machine was torn apart.

Drew evidently had landed on his head. His skull was fractured, and both arms and hips were broken. Word of his death was sent to relatives in St. Louis.

Drew was heir to a large fortune. He had devoted himself to aviation, studying under Orville Wright, and had made flights all through the Middle West.

The Weather

Toronto, June 13—Light showers have occurred today in the Ottawa and St. Lawrence Valleys and thunderstorms have been fairly general in the western provinces while over the greater part of Ontario it has been hue and warm.

Minimum and maximum temperatures:

Vancouver, 48-60; Kamloops, 56-70; Calagry, 46-78; Edmonton, 56-76; Battleford, 54-64; Moose Jaw, 60-76; Qu'Appelle, 54-88; Winnipeg, 62-80; Port Arthur, 56-74; Parry Sound, 48-72; London, 49-85; Toronto, 55-89; Kingston, 48-70; Ottawa, 50-78; Montreal, 52-74; Quebec, 50-70; St. John, 48-56; Halifax, 32-60.

Forecasts:

Lower St. Lawrence—Fresh northwesterly to northerly winds; fair and cool.

GERMANIZING OF ALSACE-LORRAINE PROVOKES FRANCE

SNUB AT RECENT BERNE CONFERENCE ADDS FUEL TO FRENCH RESENTMENT.

Paris, June 13.—Germany's new policy towards Alsace-Lorraine, constituting the Kaiser's latest attempt to Germanize the patriotic inhabitants of France's lost provinces has aroused a storm of indignation all over France, and if we are to believe the German press, a feeling of consternation also in Germany where peace-loving citizens realize the danger of driving hundreds of thousands of orderly citizens to desperation simply because they refuse to give up their old language and the love of the country of their ancestors.

DORMANT HATRED STIRRED.

The new German jingo policy inaugurated by the Chauvinists and militarists is denounced by the whole French press in the most violent language and this naturally has stirred up the dormant hatred of the German arch enemy in the hearts of the French people.

The fact that not a single influential member of the German Reichstag saw fit to come to the recent Berne conference added fuel to the flames of indignation and is still the subject of bitter comments.

One of the leading Paris papers writes in a recent political editorial: "If the Reichstag passes these odious laws against the people of Alsace-Lorraine who in spite of extreme provocation have refrained from a single disloyal act against their oppressors, in order not to embarrass their old country, France will know that there is nothing to expect from a people who allows the conqueror to violate the most sacred rights, the most elementary liberties, and she will act accordingly."

Annexation a Failure.

The protest of the French press in Alsace-Lorraine is equally sharp. One Strassburg paper of great influence considers it strange that if the German authorities believed that nationalism was dead in Alsace-Lorraine they should have resorted to the new laws which makes Germany's failure evident to the whole world. Another paper is firmly convinced that it will be impossible to find in the Reichstag a majority ready to pass these even more stupid than odious laws and suggest that the French people are right when they assert that the attempts made for nearly half a century to annex morally Alsace, have failed as lamentably as have similar methods in Danish speaking Schleswig and in Prussian Poland.

The Socialist press sympathizes with the patriotic inhabitants of Alsace Lorraine and openly laws the whole blame on the Kaiser personally who, during his recent visit to the provinces ordered the governor to adopt the new policy which is resented by the working classes of all Germany.

MAKE JOKE OF LAUREATESHIP

HOUSE OF COMMONS HAS A LITTLE FUN OVER THE VACANT POSITION.

London, June 13—The House of Commons was enlivened last night with a question in regard to the Poet Laureateship, which is vacant owing to the death of Alfred Austin.

Mr. Arthur Lynch, the Irish member for West Clark, wanted to know the salary, perquisites, and privileges which attach to the office, and the nature of the duties required.

The Premier said the salary was $550 a year with an allowance of $135 in lieu of "a butt of sack." He did not know the exact duties of the office.

Mr. Smith, member for St. Helen's and Mr. McNeal suggested a revival of the post of King's jester, whereupon another member drew roars of laughter by asking the Premier to consider the claims of Messrs. Smith and McNeal for the post.

Capt. Lynch wound up the discussion by asking whether a butt of sack for a ha'porth of poetry was not an intolerable deal.

PUBLIC RECEPTION TO PREMIER AT HALIFAX.

Halifax, N.S., June 13—The Prime Minister, Right Hon. R. L. Borden, Hon. Frank Cochrane, Minister of Railways, and F. P. Gutelius, general manager of government railways, are due to arrive here at 8 o'clock Saturday evening. A public reception will be tendered the Prime Minister at the City Hall immediately upon his arrival.

TRANSCONTINENTAL AGREES WITH CITY

CONDITIONS FOR WORKSHOPS AND TERMINALS ARE ACCEPTED BY COMMISSION.

Although the City Council had not held a meeting for two weeks, last night's meeting was of short duration and only lasted 45 minutes, the principal business being the appointment of a pro-mayor for the next three months, and the reading of a letter from Mr. P. E. Ryan, secretary of the Transcontinental Commission.

Mayor Drouin presided and among those present were Aldermen Cannon, Lavigueur, Dussault, Campbell, Lockwell, Gauvin, Trudel, Berube, Martin, Collier, Dinan, Verret, Cote, Emond, Gosselin, Madden and Plamondon.

After the reading of a couple of letters of very little importance all the reports adopted by the Finance, Roads and Ferry committees during the week were read and adopted. When the report of the Ferry Committee, granting Mayor Bernier's application for leave to transfer his rights in the Quebec and Levis Ferry to the Levis Ferry Co., Ald. Collier remarked that he hoped that the Quebec city authorities would see that Mr. Bernier would not transfer his rights without securing satisfactory sureties to the city.

Mayor Drouin replied that he would not sign the transfer unless Mr. Bernier furnished satisfactory guarantee that the new company would carry out the contract to his satisfaction.

Ald. Lantier was unanimously appointed pro-mayor for the next three months, on proposition of Ald. Cannon, seconded by Ald. Lavigueur.

The City Clerk then read the following letter, which he received a few days ago from Ottawa:

"Mayor Drouin, Quebec.

"Following the instruction of the commission, I have the honor of acknowledging the receipt of your letter to the president, dated 23rd May, transmitting certified copies of the resolutions of the Municipal Council adopted on the 23rd of May last, relating to the entrance of the Transcontinental in the City of Quebec, and the construction of the Union Station and the workshops at St. Malo, and to inform you that the commission hereby accepts the conditions stipulated in said resolutions, including the exemption of taxes, the free supply of water, the permission to establish a system of drainage, etc., and the execution of the works mentioned in the different resolutions, within the city limits.

"A contract will be prepared in consequence and will be submitted for signature, to the Mayor of Quebec, to the Canadian Pacific Railway and to the commission representing the Government.

"(Signed.) P. E. RYAN,
"Secretary."

The Council adjourned to Friday next.

STRANGE DOINGS CAUSE LOSS OF LIFE IN LISBON.

London, June 13—Many persons were injured here yesterday in a panic which attended a subscription performance given at a theatre in aid of the numerous political prisoners recently arrested in a series of anti-Government uprisings.

Most of the foreign diplomats were at the theatre, which was crowded with spectators, when a number of men entered and began firing revolvers. A stampede followed in which many were knocked down and trampled under foot.

A troop of cavalry surrounded the building and arrested many Royalist sympathizers.

Many were also killed or wounded here yesterday by the explosion of a dynamite bomb thrown from a window at a procession passing along the streets.

AIR BRAKES FAILED TO WORK, SIX WERE KILLED

Engineer Doherty Breaks Down and Sobs as He Tells of His Efforts to Avert Stamford Wreck

Stamford, Conn., June 13.—Declaring emphatically that the brakes had failed to respond properly, that he had tried to take precautions and had done all he could to avert the accident, Engineer Charles J. Doherty of New Haven, told a dramatic story today at the inquest into the wreck in this city last evening and the ramming of the first section of the Springfield express by his engine, of the second section, on the New York, New Haven & Hartford railroad, which resulted in six deaths besides injury to many others.

DID ALL HE COULD.

He described his trip in detail from Bridgeport to Stamford. He first discovered that his air brakes were in trouble at Norwalk and because of that fact had applied them sooner than ordinarily and before seeing the distant signal at Stamford. When he found this was set against him he gave the brakes "more air," and when that did not work he "let her have the whole thing."

That failing to stop the train he threw on the emergency brake and applied sand to the rails, but could not stop it. "That was all I could do," he cried, and, breaking down completely, sobbed for several minutes.

When asked if he had tried to reverse his engine he replied that he did, but the heavy lever was stiff and because of an injury to his back which he had sustained on Tuesday, he could move the lever only a few notches. He thought if he could have gotten it over it might have made things better, but did not think it would have averted the collision.

In the midst of the examination of witnesses, Coroner Phelan turned suddenly to Attorney Benj. i. Spock, of the New Haven road, who was seated in the audience, with this question.

Company Burned Wrecked Car.

"Is it true, Mr. Spock, that the wrecked parlor car, the Skylark, was burned?"

Mr. Spock replied that it was true.

BRITISH CABINET MINISTERS ACTED IN GOOD FAITH

COMMITTEE ABSOLVES THEM FROM BLAME—MINORITY REPORT CENSURES.

London, June 13—British Cabinet Ministers were today absolved by the Parliamentary Committee from all blame in connection with the scandals alleged to have surrounded the contracts between the British Government and the Marconi Wireless Company.

COMMITTEE REPORTS.

The report of the Parliamentary Committee which investigated the affairs was issued today, and declares that there is no foundation for any of the charges made against the Attorney General Sir Rufus D. Isaacs, the Chancellor of the Exchequer, the Right Hon. David Lloyd George, or the Postmaster General, the Right Hon. Herbert L. Samuel.

The committee finds that all the ministers concerned acted throughout is the sincere belief that there was nothing in their action which would conflict with their duty as ministers of the Crown.

The report further says that no evidence was given showing that any member of the British Government exercised any influence in order to procure the contract for the British Marconi Company, or in any wayy acted contrary to the public interest in behalf of that company, or used knowledge acquired in their official capacity for their private profit, or were in any wise concerned in any

QUEBEC, SATURDAY, JUNE 14, 1913.

A GOOD THING FOR QUEBEC.

The declaration that the arrangements for the establishment of the Transcontinental workshops at St. Malo and for the location of the Union Station at the Palais are now complete and that orders have been given to the workmen to start work immediately is one that will be generally welcomed by the people of Quebec who have awaited this consummation so long.

It is nine years ago since Laurier implored the Parliament to begin the construction of the Transcontinental to save our trade from getting into the hands of the Americans. As he invoked Heaven that the work might begin at once he let it be understood that the country might well be ruined if this road, the cost of which he estimated at about thirteen millions, were not completed in 1908. He promised us that the shops and everything would be hastened with all speed so that the Ancient Capital might come into its own.

The year of 1911 came and a good deal of water had run over the Quebec Bridge, or at least over a considerable part of it, but there was practically nothing done, only the same old endless tale of Liberal promises and effervescent banquet speeches. Quebec was still about the same as she had been for numerous years.

Now, eighteen months after the Conservatives came to power, the question of the shops and the site of the station has been definitely settled in spite of the delays which have been necessitated by Liberal blockers, speculators, etc. And not only that, but other important works long left in abeyance have been started. The dry dock question has been settled. The much-needed harbor works are being rushed both vigorously and effectively. The contract for the damming of the St. Charles has been awarded. A splendid new post office that will be in keeping with the needs and importance of the city will soon arise. The contract has been given for the construction of a first-class ferry to connect the north and south shores until the bridge is finished. Railway and harbor work is being pushed on the west side of the city. Giant elevators are to be built. Powerful new icebreakers more suited to the requirements of the St. Lawrence are to be constructed and the channel is being greatly improved. All these and a host of other things the city of Quebec owes to the energy and good-will of the Borden Government.

Against all this put the Liberal record of achievement or otherwise. A paltry little Post Office in St. Roch and a bridge that fell down carrying millions of dollars and seventy lives with it. It is a striking contrast.

PUGSLEY'S CONFESSION.

Mr. Pugsley made an interesting confession when he explained why the Laurier mnistry did not begin preparations for naval shipbuilding before they were fired out of office. He had been explaining that Cammell and Laird had offered to construct a shipyard in Canada and to build ten war vessels for the Canadian Government. The tender was received on the first day of May, 1911, and the Laurier Government remained in power nearly six months after that without paying any attention to it. When Mr. Borden took office nothing had been done. Mr. Pugsley said afterwards that the works would have been constructed and the ships built at St. John. Sir Wilfrid said Montreal would have been the chosen spot. And, from the way that the Quebec Liberals now talk, we should have had the whole thing here.

When Mr. Pugsley was asked why his government did not accept the Cammell and Laird tender and begin business, he made the following interesting answer:

"The reason was that in the Province of Quebec the question of a Canadian navy was being made an issue. In that province there were public men going from platform to platform seeking to create a prejudice against the Government, seeking to make the people believe that in some way the creation of a Canadian navy would work disastrously to the people of Quebec, that it would mean conscription, and that be drawn off into foreign wars. The Government it would mean that the young people of Quebec would thought that under the circumstances, as only a short time had elapsed from the return of the then Prime Minister and the then Minister of Marine from England before the dissolution took place, that it would be proper to leave the awarding of contracts for the building of war vessels and not to start upon the Canadian navy until after the election took place."

Here, then we have an interesting confession of cowardice on the part of the Laurier Liberals. We learn that the tenders were not accepted because these Liberals thought it necessary to conceal from the people of the Province of Quebec the fact that the government proposed to build a navy. In other words they were scared to death of Bourassa. The talk about conscription had been used by Brodeur and Lemieux and others like them against the Tupper Government in 1896 and Mr. Brodeur, who had now become Minister of Marine, was afraid of being hoist with his own petard. Therefore, while Pugsley was promising shipyards to St. John and Laurier to Montreal, the tenders were not accepted and contracts were withheld lest Laurier should play into the hands of the Nationalists. We do not know whether Mr. Pugsley is now trying to deceive the public or whether he was then trying to deceive Quebec and so we cannot tell whether the ships would have been built if the government had been sustained. It is quite likely, however, that the fear of the Nationalists which prevented the signing of the contracts before the election would have continued to prevent it if the Laurier heelers had been sustained. In any case Mr. Pugsley's confesion is an acknowledgment of deception and poltroonery.

It is a wise man who knows whom to shoot in Mexico today. The underdog of today may be at the top of the pile tomorrow.—Cobalt Nugget.

The bottom has clean dropped out of the stock market, the financial papers tell us. Rents and the necessities of life do not seem to have noticed it.—Hamilton Times.

OUR WHEAT PRODUCTION.

In the matter of wheat production Canada is swiftly forging to the front while her competitors are falling back. Already, in the matter of quantity she is fifth among the wheat-producing countries of the world, which is a wonderful thing when her area and population are compared with those of the countries that precede her. It is noticeable also that she produces ten times as much grain today as she did ten years ago.

The relative positions are as follows:-

	Sq. miles.	Pop.	(1912) Bushels.
Russia	8,647,657	165,000,000	749,941,000
United States	3,743,344	100,000,000	720,333,000
India	1,773,168	295,000,000	366,930,000
France	207,218	40,000,000	335,039,000
Canada	3,729,665	7,204,772	205,685,000

So far as it is a question of quality this country stands pre-eminent among new countries. She has, it is computed, an average of twenty-one bushels of fall and spring wheat to the acre as against sixteen in the States, thirteen in Russia and eleven in the Argentine. Naturally, these figures are not very high when compared with those prevailing in the older countries where expensive fertilizers are used and the cost of production is generally higher. Thus France yields twenty and a half bushels to the acre, Germany thirty, England thirty-three, Belgium thirty-five and Scotland forty-one.

That more and more dependence will be placed on Canada to supply wheat seems evident. In the States the increase in wheat production bears no proportion to the increase in population and it is quite possible that exporting will have finished in another generation or two. The Argentine is handicapped by drought and other causes and in both India and Russia the crops flustuate in a most extraordinary manner.

Consider for a moment the great wheat-growing provinces of the West, Manitoba and Saskatchewan. Their total land area is 334,894,320 acres, of which probably 218,000,000 acres are available for cultivation and 60,000,000 for ordinary methods of wheat-growing. In 1911-12, roughly 9,000,000 acres were under fall and spring wheat, yielding a total of nearly 190,000,000 bushels. If, therefore, the full area available were under wheat, it would produce, at the same rate of 21 bushels to the acre, 1,260,000,000 bushels.

Now, it takes six and a-half bushels of wheat to feed one person for a year. The wheat of the North-West Provinces alone, were they cultivated to their full capacity, would therefore feed the entire population of Great Britain, Canada, and the United States, and still leave one-fourth over for export to other countries.

Or we may look at the same facts in terms of dollars. The 190,000,000 bushels (or thereabouts, realized for the farmer a total of nearly 109 million dollars. The value of the potential wheat crop of these three provinces would, at the same average price of 59 cents a bushel, amount to some 710 million dollars, or considerably over £140,000,000.

Comment of The Press

Press despatches coming through United States channels allege that King George lost $100,000 by the slump in C. P. R. stock. Well, these are the days for fish stories. The King could not lose money in C. P. R. stock unless he was gambling on margin. A drop in the market value of a safe stock does not hurt a person who is holding it as an investment—unless circumstances compel him to sell, which would not be the case with the King. No likelihood exists that King George would buy C. P. R. or any stock on margin. Still less likelihood exists that such stock would be bought on margin in his own name, or in any way in which outsiders would suspect that the King was buying. Thirdly, in any case nobody who knew would be likely to leak. The chances are more than large that the story is made out of whole cloth. It isn't half as particular and emphatic as was once the libel that King George had contracted a morganatic marriage, which was proved to be an absolute lie as gratuitous as it was dirty.—Ottawa Journal.

The young woman who seized the race horse on the Derby track is dead. The unfortunate suicide, who thought in her delirium that she was serving a cause,, was evidently insane. Mrs. Pankhurst and the other incendiaries have hastened to plead that they were not responsible for this poor demented woman's death. As a matter of fact they are accountable. They have deliberately incited a large number of women to acts of lawlessness, violence and cruelty altogether unnatural to women. Beginning by breaking the windows of unoffending citizens, they have gone on to blow up houses, burn churches, injure public gardens, wreck railway cars, mutilate pictures in the galleries, assault persons,, destroy private letters in the post office boxes, and commit other crimes. Sooner or later such a campaign committed to young and irresponsible girls must cause the loss of life. Young girls hardly fit to be out of sight of their parents have been invited and paid to go about the country on general and indefinite missions of destruction. The most reckless are found to be on the regular payroll. They receive medals if they do something particularly reckless. If they are sent to prison for their crimes that is a proof of merit, and brings them nearer the level of the chief. What could be expected of all this but murder or suicide? The poor girl, now dead, came near killing a man, and is herself a victim of the older and worse women who drove her to her fate.—Vancouver News-Advertiser.

For more than a generation English humor was enriched by stories illustrating the failure of the French people to understand sport and to excel in athletics. Forty years ago, or even twenty years ago, though at the latter date the British prize ring was declining, anyone who had predicted that the day would come when a Frenchman would be the heavyweight champion of the British Isles would have been laughed at. A few days ago, however, George Carpentier, of France, defeated Bombardier Wells, the champion of England. Wells had the advantage in size, in weight, in experience and in skill. He was deficient in his ability to withstand punishment, the very quality above all others that used to distinguish the worthies of the British ring.—Toronto Mail.

Words mean little in the philosophy of patriotism. —Winnipeg Telegram.

FIGHTS PORTUGAL FOR PRISONERS

DARING ROYALIST WOMAN IS BATTLING TO SAVE THEM FROM ILL-TREATMENT.

Paris, June 13—A young and beautiful Portuguese woman, Mademoiselle Constance da Gama, is indefatigable in her efforts to secure better treatment for Royalist prisoners in Portugal who suffer bad treatment at the hands of the Portuguese Government. Court proceedings do not deter her any more than the hardships of navigation deterred her famous ancestor, Vasco da Gama, from sailing out to India in the fifteenth century.

The activities of this young woman brought her before a court martial in Lisbon in April on a charge of conspiracy against the government. She was tried and acquitted. She at once resumed her campaign in Oporto, where she has collected $15,000 for the relief of Royalist prisoners. As Mademoiselle da Gama journeys through the country she is hailed as a heroine by Royalist prisoners, who bow down before her in grateful acknowledgment of her self-sacrifice in their cause. Her courageous persistence is attracting considerable admiration even from officials of the Republic.

To the Duchess of Bedford, another woman devoted to the Royalist cause, belongs the distinction of being the principal accuser of the Portuguese Government in the matter of their treatment of political prisoners. Material for her revelations, which have caused something of a sensation, was secured during visits which she made in person to the various prisons. The Portuguese Government, however, protests against these revelations, as well as the attacks against the Republic which have appeared recently in foreign newspapers.

HEALTH AWAITS GOOD DIGESTION

When the Stomach is Wrong the Whole Body Suffers—How to Keep it Health.

Indigestion is one of the most distressing maladies afflicting mankind. The stomach is unable to perform the work nature calls upon it to do, and the result is extreme pain after eating, nausea, heartburn, painful fluttering of the heart, sick headache, and often a loathing of food, even though the sufferer is half starved. People with poor digestion are prone to try all sorts of experiments to aid the process of digestion, and there is only one way in which the trouble can be actually cured, and that is through the blood. That is why the tonic treatment with Dr. Williams' Pink Pills cures even the most obstinate cases of indigestion. They make the rich, red blood that strengthens the stomach and its nerves, thus enabling it to do its work. The process is simply, but the result means a good appetite and increased health and pleasure in life. Mr. R. Lussier, of Sorel, Que., offers ample proof of this. He says: "For several years I was a sufferer from indigestion, and the torture I suffered after meals was often almost endurable. Often I would go without a meal rather than undergo the suffering that followed. Accompanying the trouble I had headaches, dizziness, and often a feeling of nausea. All the time I was taking one medicine after another in the hope of getting relief, but without avail. Finally I read of the case of a similar sufferer cured through the use of Dr. Williams' Pink Pills and I decided to try them. I took the Pills steadily for about six weeks with result that I was fully cured, and could eat anything I cared for, I may add that I have not since had any return of the trouble."

If you are suffering from indigestion do not waste time experimenting, but begin to cure yourself today with Dr. Williams' Pink Pills, which go right to the root of the trouble through the blood. Sold by all medicine dealers or by mail at 50 cents a box, or 6 boxes for $2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

UNCLE WALT MASON'S DAILY PROSE POEM

DESPONDENCY.

I sometimes think when I am tired of writing dippy verse, that naught to which I have aspired is worth a tinker's curse. I look around with gloomy eyes, in these, my doleful moods, and everything beneath the skies seems bargain counter goods. "All men are false, all women fierce," I cry, with scornful jeers, and then proceed to shed a tierce of effervescent tears. "There's nothing permanent but woe, and that's a cinch," say I; "there is not virtue here below, and truth itself's a lie." But when I stop to think a while, this fact comes home to me; my system is too full of bile—I need some boneset tea. And when I drink about six quarts, this life seems a delight; my liver actively cavorts, my stomach's working right. And then all men and women, too, seem lovely and serene; and thus perchance, it is with you, oh specialister in spleen! You roast this good old merry globe and make the swear words buzz, and think you're harder up than Job the gentleman of Uz; you cry alackaday! alas! and rend your tearful garb, when all you need is sassafras or t'other useful yarb!—Walt Mason.

UNPRECEDENTED BARGAINS.

Our unprecedented offer is made to you to secure a good square piano or harmonium at a bargain. The firm of C. Robitaille, 320 St. Joseph street, have on hand thirty square pianos, from the best firms, which have been renewed and which will be sold on good conditions to make room for other pianos. The harmoniums are also in perfect order. Come and see them before leaving for the country, as, at the prices they are offered for you can afford the luxury of having one transferred to your summer residence. C. ROBITAILLE, 320 St. Joseph St.

We buy old gold jewellery, the gold is melted, refined and used again in the manufacture of modern jewellery.

We buy any quantity from a pennyweight to a pound or more.

In many old cash boxes and jewel boxes, there are hundreds of dollars' worth of useless old fashioned jewels that could be made useful.

Antique clocks, antique medals and antique silverwares are in demand during the summer tourist season, we accept such antiques for exhibition purposes and when desired we find purchasers.

A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. Once lodged in the stomach or intestines, fever with its hallucinations, or biliousness with its aches and pains, is the result.

ENO'S 'FRUIT SALT'

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive tract.

Be prepared for emergencies by always keeping a bottle in the house.

Prepared only by J. C. ENO, Ltd., 'Fruit Salt' Works, London, England
SOLD BY CHEMISTS AND STORES EVERYWHERE.

56 D'ARTIGNY STREET. INCORPORATED.
Founded and under the direction of Dr. Coote, professor of eye and ear diseases at Laval University. Specially organized for the treatment of eye, ear, nose and throat diseases.

GLIMPSES OF OLD QUEBEC

From the Files of the CHRONICLE, June, 1813 and 1883.

A HUNDRED YEARS AGO TODAY

From Montreal.

The Major General Commanding has received a report from Major Taylor of the 100th Regiment, giving an account of a gallant affair which took place yesterday between two gun-boats, a detachment from the garrison of Isle aux Noix, and the enemy's armed vessels Growler and Eagle, from Lake Champlain, having each 11 guns, with 4 officers and 45 men on board, and which ended in the capture of both these vessels, after a well contested action of three hours and a half. Major Taylor speaks in high terms of the gallantry of all the officers and soldiers employed on this occasion, particularly of Lieut. Low, of the marine department, Ensigns Dawson, Gibbon, Humphries, and acting Quartermaster Pilkington, of the 100th Regiment, with their crews, and reports the material assistance which he received from Capt. Gordon, Royal Artillery, Lieut. Williams, 100th Regiment, with parties on shore, who contributed greatly to the capture of the enemy. The General Commanding will have much satisfaction in reporting to His Excellency the Commander of the Forces, this action, which does high credit to the arrangements of Major Taylor, and to the conduct and bravery of all concerned. Nor can the Major General omit to notice the report from Major General Stoven—highly flattering to the men of the embodied militia, who are entitled to receive their discharge this day, and who notwithstanding, on a report that the enemy was advancing, volunteered their services, and marched in a style honorable to themselves and to the Canadian character.

HE ATE ROAST TAPIR AND STEWED MONKEY.

Beloit, Wis., June 12—How he lived in the Brazilian forest on monkey stew with dumplings and roast tapir is interestingly told in a letter from Robert Becker, Beloit, Wis., to his mother, printed in the Beloit Daily News. Becker is doing research work for the Field Museum. He says:

"One day Mr. Anderson and I shot five howling monkeys, and that evening we had the famous Brazilian dish, monkey stew with dumplings. Now, mother, I know that does not sound very appetizing to you at home, but it was surely fine. Another time we killed a 600-pound tapir and an Indian woman roasted some of the meat for us, preparing it with lime juice, and that, too, was delicious."

Inclosed in the envelope Mrs. Becker found the skins of two little birds, besides several feathers plucked from rare birds that the young man had shot. One of them, a humming bird, was about the size of a small canary, with a beautiful green body and purple wings, while another was called a vermilion fly catcher. This bird is very common there and is one of the prettiest imaginable, the body being brown with a bright red breast and head.

A little silky white feather was found in the envelope, which Mr. Becker stated was taken from the aigrette of a rare and beautiful bird which resembles in many ways the American pheasant. Mr. Becker stated that recently while on a tour through the mountains he saw the most beautiful sight he had ever seen.

Coming to a small pond or lake in the mountains they came upon a small army of storks of all sizes, killing one that measured seven feet from tip to tip and stood five feet tall. This one was black with a white head, and is not only beautiful but very valuable.

THIRTY YEARS AGO TODAY

Our New Governor General.

Mr. George W. Smalley, correspondent of the New York Tribune in London, has the following to say: The appointment of the Marquis of Lansdowne to be Governor General of Canada for five years has been extremely well received by the press of both parties. The only important opinion hostile to him is an Irish opinion, and that is based on his dealings with his tenantry. The greater part of his Irish estates lie in Kerry, but the land and tenants are alike poor. Some thought he was the receiver of enormous rents. Well, he owns 95,000 acres in Kerry, and rent amounts as nearly as possible to half a hollar an acre. Lord Lansdowne was accused because he set his face resolutely against allowing the number of tenants to be increased on a holding already inadequate. For instance, when a man gives his daughter in marriage and seeks to establish his son-in-law on the same property and in the same cottage. I thought Lord Lansdowne's action in this matter wise and humane. There is, it must be added, a Radical outcry against his appointment. The people of Canada, if the Radical oracles may be trusted, like to be governed by a man of high birth. Our Canadian friends, I apprehend, will like to know what manner of man the actual Lord Lansdowne of today is. They know him as the possessor of a great name, a historic title, heir to estates that might once have been called great, but which lie unhappily for their present possessor in just those two parts of the United Kingdom, where estates have no value. Lord Lansdowne is just Lord Lorne's age, so comes to the viceroyalty of Canada with five years more to the good than did Lord Lorne.

GERMANY HAS TOWER OF GOLD

Even the modern burglar, with his oxy-acetylene gas, would find some difficulty in getting at the Franco-German war indemnity, stored up in the Julius Tower of Spandau, the great Prussian fortress eight miles from Berlin.

According to a German law passed in 1871, $30,000,000 in gold, representing the indemnity, must always be kept by the government in the tower in reserve for a great war. In addition to the $30,000,000, however, there is also a vast quantity of specie which would come in particularly useful if put into circulation during the present shortage of gold in the commercial world.

Of course, every precaution has been taken to guard this mass of treasure. It is kept in the citadel of the tower and on two stories of the citadel. As many as 2000 large wooden chests are employed to contain this great mass of gold. Each chest holds $25,000 in gold, so that altogether the chests conceal $30,000,000. They are piled up one upon another 30 deep.

The inviolability of the treasure chambers is secured in the following way: The rooms of the citadel are provided with three doors apiece, and each of them has several locks. The keys of these locks are kept by different high officials of the war office, so that no one by himself can enter the chambers. The doors are of steel with an oak core, and each door weighs one ton. This gives some idea of their strength.

The gold is not simply piled up in heaps, but is stocked in bags. Each chest holds 10 of these bags. The chests themselves are so arranged that a burglary seems impossible. Every screw in the wood is sealed up so that a breakage would appear out of the question. It would, moreover, be immediately noticed, says the Evening Standard. The weight of each bag is known, as well as the weight of each chest, down to a gramme.

An examination of the monstrous piles of gold pieces by counting them can naturally be only very seldom carried out. Nevertheless, the guardians of the treasure make every year sundry examinations, in the course of which an assay of the metal is taken. On such occasions the chests are looked over to make sure that the seals are absolutely untampered with; the weight of a row is taken, and some chests are even opened. From these the sacks of gold are taken and the pieces of gold are counted. Frequently members of Parliament take part in the examination.—Tit-Bits.

CHILDHOOD COLIC COMPLETELY CURED.

No other medicine will so quickly cure colic as will Baby's Own Tablets. They regulate the bowels, sweeten the stomach and drive out every trace of this trouble. Concerning them Mrs. Wm. A. Smith, Rockhaven, Sask., writes: "I like Baby's Own Tablets and always keep them in the house. Whenever my baby has colic I give her a couple of Tablets and she is soon well again. I know of no other medicine for little ones to equal them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Company is authorized to act as Trustee, Executor under Will, Assignee, etc., to give Bonds in connection with Judicial Proceedings, and to accept any Financial Agency.

As the law of the Province of Quebec does not require Executors to give security for their administration, nor does it oblige them to render accounts to the Courts, the nomination of

The Royal Trust Company

rather than an individual, as Executor, affords the greatest possible security to Testators. The Company does not die. Its charges are reasonable and its appointment is the best guarantee a Testator can have that his Estate will be honestly and economically managed.

The Company will act as Agent and Attorney for Executors already acting, will manage Estates, and will receive free of charge, for safe keeping, Sealed Wills in which it is named Executor.

The Company is also prepared to receive securities for safe keeping, collection of coupons, etc.

Solicitors and Notaries placing business with the Company may be retained to do the legal work in connection with such business.

Information and advice may be obtained at the Company's Quebec office Bank of Montreal Building, St. Peter Street.

THE COLOR OF WARSHIPS.

The color which warships shall be painted has long been the subject of much study and controversy, the object being to make them as invisible as possible. Since 1905 England has adopted a neutral color mixed with the white of zinc and a smoky black, approximating to the color used on American battleships. Japanese and Russian vessels are painted in the same way, but with a somewhat brighter tone. These of Italy are a little darker, while those of Germany are almost blue.—Exchange.

IN AND ABOUT TOWN

SLOW AT DAMMING ST. CHARLES RIVER

CONTRACTORS PERHAPS BELIEVE IN SPELLING IT WITH AN "N."

Nothing definite can be learned as to when the contractors, Messrs. Quinlan & Robertson, awarded the contract for the daming of the river St. Charles, will commence the import work. The contract for the daming of the river St. Charles was awarded over two months ago, and the money voted by Parliament for the undertaking. Notwithstanding, no serious move has as yet been made by the contractors to begin the work.

The public, naturally looking forward to see the beginning of this very important undertaking for the development of the river St. Charles that means great commercial benefits to St. Rochs and St. Saveur manufacturing centres, and the whole city and district of Quebec, is now wishing to learn some definite information in regard to the intentions of the contractors, especially as the advancement of the season.

The Department of Public Works is ready to have the contract proceeded with, and the district engineer is awaiting word from Messrs. Quinlan & Robertson, who evidently do not even think it worth while to pay Quebec an occasional visit.

A rumor is current that the absence of Messrs. Quinlan & Robertson is due to the fact that they are busy in Montreal looking after a big contract in connection with the Montreal Aqueduct, which is of more importance to them than the daming of the river St. Charles contract.

There is also a presumption in the minds of the contracting business that in the event of Messrs. Quinlan Quinlan & Robertson being awarded the contract they are after in Montreal, they would be willing to relinquish the Quebec undertaking to the next highest bidder. The firm of Quinlan & Robertson bid for the daming of the river St. Charles was some $400,000 lower than the next lowest bidder, and it may be that after more mature consideration they find that they have bid rather low.

In the meantime the project is held up, and the Quebec public is clamoring for a solution of the reasons for the delay in not proceeding with the work.

BAPTIST CHURCH.

At the Baptist Church, Sunday, June 15th, the preacher will be the Rev. W. Willis Wilks. 11 a. m., "March As Well As Move." 7 p. m., "The Development of Faith."

METHODIST CHURCH.

"Life's Hidden Quarries" and "Rewards—Natural and Exact," will be Rev. G. H. Cobbledick's subjects tomorrow. A week from tomorrow he will conduct the closing services of his pastorate in Quebec.

VISITORS AT ST. JOSEPH.

Quite an influx of residents of the Eastern Townships arrived in town yesterday to visit the camp at Levis, where two cavalry corps from that district are presently undergoing training. The officers are giving an at home this afternoon, which is expected to be largely attended by not only Quebecers, but by prominent residents of the various towns in the Eastern Townships, from which the brave boys hail. The camp breaks up on Tuesday next.

MISS SMITH, OLD RESIDENT OF QUEBEC, PASSES AWAY.

The death occurred yesterday morning of Miss Henrietta Smith, beloved sister of Mr. Henry Smith, after a lingering illnes, at her residence, 36 d'Artigny street. The late Miss Smith was one of the oldest residents of the Ancient Capital, and she enjoyed the esteem of a wide circle of friends, who will feel her loss keenly. Besides her brother, dedeased leaves to mourn her loss a nephew and niece, Mr. and Mrs. Ernest H. S. Woodside and one grand-nephew.

ENGLISH CASHMERE.

O Canada.
God Save the King.

CHAS O'NEILL,
Bandmaster R.C.A.

Commencing on Monday next, the Band wil perform every evening until end of August, except Sunday, on which day afternoon concerts will continue to be given.

A VENETIAN TERRACE FOR UPPER QUEBEC

NATIONAL BATTLEFIELDS COMMISSION IMPROVING SURROUNDINGS OF MONUMENT DES BRAVES.

The work of improving and beautifying the surroundings of the Monument des Braves, on Saint Foye Road, is rapidly nearing completion and, as it is now, the wide drive-way known as Avenue des Braves, linking Saint Louis road and Saint Foy road, is practically finished. The macadam will be all done by the middle of next week, and immediately work will be started for the erection of ornamental electric lamp posts all along the avenue.

Both sides of this attractive drive way are bordered by wide cement side walks separated from the vehicle road by a pleasing row of trees, and it will surely be, when given the final touches, the most pleasing and restful section of Greater Quebec.

As everybody knows, the Monument des Braves stands on the north side of Saint Foye road, facing the Avenue, and the National Battlefields Commission is actually engaged in erecting, between a wide terrace-promenade, with kiosks, benches, walks . . .An artictic stone balustrade will border the promenade all along the side of the cliff.

The improvements under way along Avenue des Braves and about the Monument are certainly appreciable and they will give this section, the most attractive and pleasing of looks.

QUEBEC CLEARING HOUSE.

Clearings through the Quebec Clearing House for the week ending June 12 were $3,557,489, against $3,304,984 for the corresponding week of 1912.

WEEK-END.

For your week-end outing, consult J. H. Mullin's adv., for English Flannell Trousers, in grey or white; also English Silk, or Flannel Shirts, with soft double cuffs and collar, or the cricket style collar.

COURT OF SESSIONS.

In the Court of Sessions yesterday Hector Vaiu, of Montreal, who has been in jail here since February last, on a charge of obtaining money under false pretences, pleaded guilty. He was allowed out on suspended sentence.

SAVOY CAFE.

We would draw the attention of our readers to the advertisement in another column of the above cafe, where excellent meals are served at all hours. The Savoy is noted for being one of the most up-to-date cafes in the city.

CHALMER'S CHURCH.

Rev. Mr. Tanner, Superintendent of Missions for the Synod of Montreal and Ottawa, will preach in Chalmer's Church Sunday morning next, and in St. Andrew's Church in the evening. Subject, the Home Mission Work of the Church.

RT. HON. PREMIER BORDEN PASSES THROUGH LEVIS.

The Right Hon. Premier R. L. Borden arrived at Levis by the Intercolonial Ocean Limited on his way to Halifax, N.S. He was met on the arrival of the train by the Hon. J. D. Hazen and others, and after a short stop Premier Borden, accompanied by the Minister of Marine and Fisheries, proceeded to the Maritime Provinces.

RECORDER'S COURT.

Seven prisoners appeared before the Deputy Recorder yesterday. Five of them, accused of drunkenness, were condemned to fines ranging from $2 and costs or four days' jail, to $10 and costs or fifteen days. One for loitering was discharged.

One Perron, from Limoilou, who amused himself by dragging his wife all around the house by the hair, was fined $25 and costs or ten days' jail. He chose the latter and will spend that time pulling oakum out of hard tarred rope, which will put his hands in better condition for practising on his unfortunate betterhalf's hair.

K. OF C. DELEGATES.

At the provincial meeting of the Knights of Columbus held at Valleyfield on the 10th instant, the following delegates from this Province were selected as delegates to the annual convention to be held in Boston on the 5th August next: Dr. N. A. Dussault and David Murray, Quebec; Dr. Masson, Montreal; and Notary Lussier of St. John's, P.Q.

LABOR TROUBLE NOT YET SETTLED

BOOT AND SHOE SITUATION IS STILL EVIDENTLY FAR FROM SATISFACTORY.

From inquiries made, it is learned that the decision rendered by the board of arbitration in respect to the dispute between the boot and shoe manufacturers of St. Roch's and their employes, members of the National Trades and Labor Union, is up to the present not being complied with by the union. The manufacturers have held several meetings to consider the situation and have endeavored to hold a conference with the executive members of the union without success, as the latter have asked for a postponement of a conference for some days.

Neither the manufacturers nor the labor interests will give out a statement for publication. The former merely state that they have hopes of coming to an amicable understandding on all questions at issue.

In the meantime the rank and file of the union, as expressed by some of the individual members, feel like ignoring the decision rendered by Hon. Judge H. C. Pelletier and members of the arbitration board associated with him. But cooler heads in the union, who are viewing the situation with calm judgment, expect to arrange an amicable understanding that will improve the relations between the employer and employe.

The chief stumbling block in the way of a settlement is the remittance of the extra charge collected from the sole and heel beaters, which, it is said, the manufacturers do not wish to claim. They are saitsfied to suffer the loss providing that the operators continue to operate their machines at the old rate fo wage, in the case of the sole beater 35 cents per case, and the heel beater 12 cents per case. This it is said the manufacturers will insist upon, as well as the observance of the other points of dispute, decided in their favor by the board of arbitration.

The manufacturers are anxious to come to a permanent agreement with their labor that will settle for all time frivilous causes of dispute, and reported demand for higher rates of pay which they are unable to comply with, and conduct their business on a paying basis. They also desire to feel that they are masters of their own business and secure in their large capital investment, which is not the case under present conditions.

The public have very little idea of the conditions that govern the boot and shoe manufacturing industry of Quebec. To begin with, the National Council of Trades and Labor Union is essentially a Quebec labor organization without any affiliation whatever with the Federation of Labor, or any outside organization whatever, and is a closed corporation. Boot and shoe operators from the outside cannot come to Quebec and work in the factories and the manufacturers dare not dismiss a man in their employ for cause without the consent of the union. They are besides the highest paid operators on the continent. The sole beaters in the employ of the Marsh Co., Ltd., who insisted on 10 cents extra per case and paid during the past year 45 cents per case, earned between $45 and $55 per week, and the heel beater with the Ritchie Company earned a similar weekly wage, rather a big salary for illiterate, unskilled labor.

These rates of high wages are practically paid by the public who wear boots and shoes that have doubled in price within the past few years by the demands of labor.

MRS. SIMON O'NEILL PASSES AWAY.

The many Quebec friends of Mrs. Simon O'Neill will regret to learn of her death, which occurred suddenly from heart disease in Montreal yesterday. Mrs. O'Neill was the daughter of Mr. Frank Gallagher of Sillery, and wife of Mr. Simon O'Neill, a former well-known Quebecer, and brother of Mr. James O'Neill in the employ of D. Morgan & Co. of this city, who moved a dozen of years ago to Montreal, is now in the employ of Messrs. Morgan & Co., Montreal.

Mrs. Simon O'Neill was during her earlier years a devoted member of St. Patrick's congregation, and a favorite with her friends. She was accomplished, and beloved for her large hearted genial disposition and Christian womanly virtues.

Mr. and Mrs. O'Neill were in Quebec two weeks ago on a visit to her father, Mr. Frank Gallagher, who is seriously ill in his home at Sillery, and was then in the best of health and as light hearted as ever. She returned to her home in Montreal some days ago, to allow her sister, Miss Gallagher, who lived with her, to come to Quebec and visit her father, who was deeply grieved to learn yesterday of her married sister's sudden demise.

The husband, father and family of the deceased have the sympathy of their friends in their sad bereavement.

FRECHETTE VS. C. P. R. CASE GOES TO JURY MONDAY.

The jury trial in the case of Frechette vs. C. P. R. for $15,000 damages, will be concluded Monday afternoon when the case will be given to the jury.

All the evidence given by 16 witnesses was concluded yesterday afternoon and Mr. Stuart, K.C., moved that the case be withdrawn from the jury as there was not sufficient evidence adduced by the plaintiff against the railway company. Hon. Mr. Taschereau supported the motion, which was opposed by Mr. St. Laurent. Judgment will be rendered on the motion on Monday morning and if the motion is dismissed by Judge Dorion, argument will be heard on the merits of the case.

The "tips" outwear the gloves

"The Kayser" SILK Glove

will give more "real" service and satisfaction than the "ordinary kind"—and "cost no more"—than the glove represented as "just as good."

"KAYSER" Silk Gloves are not the outcome of "claims" or "arguments," but solely the result of a lifetime of striving for the attainment of an ideal, the achievement of which has not been hampered by restrictions of cost or time.

The guarantee you receive with gloves, sold without the maker's name, rarely ever goes back any further than the clerk who sold the goods.

Every pair of "KAYSER" Silk Gloves contains a guarantee ticket—both the glove and the ticket bear the name "KAYSER." Look for it—it is assurance of quality, fit and value and is there for your protection.

THE COLLEGE OF PHYSICIANS AND SURGEONS OF THE PROVINCE OF QUEBEC

The preliminary examinations for the study of medicine will take place at Laval University, Montreal, on Tuesday and Wednesday, the first and second day of July, 1913. All candidates for these examinations must produce the certificates and the deposit of twenty-five dollars to the undersigned registrar before the fifteenth June.

The semi-annual meeting of the Governors of the College of Physicians and Surgeons of the Province of Quebec will take place at the same place on Wednesday, eighth July, 1913.

The Committee on Credentials will also meet at the same place on Tuesday, eighth July, 1913, at 9 a. m. Every candidate for a provincial license must present himself before the committee to be sworn, taking good care to produce his certificate of admission to the study of medicine and his diploma of doctor in medicine, failing which he will not be sworn.

By order,
DR. J. GAUVREAU.
Registrar, College of Physicians and Surgeons of the Province of Quebec. 30 St. James street, Montreal.

TORONTO PITCHERS WIN TWO STRAIGHT

MONTREAL FURNISHED THE GOAT—GAW KEPT ROYALS GUESSING

Montreal, June 13.—Toronto came to life today and won two games from Montreal. The pitching of Brant and Gaw was chiefly responsible. The latter, who was with New Bedford last season, behaved like a find and had the Royals popping up almost as fast as they came up.

Scores:

First Game.

CORRECTION.

Sporting Editor:

Sir—Would you oblige me by inserting a correction in your next issue re our field day sports, to the effect that the tug-of-war was won by Company B of the A. O. H. Cadets instead of Company A, as was stated, no doubt, by mistake.

BRO. MEMORIAN.

GREAT FINISHES AT BELMONT PK.

KINNELON WINS MILITARY STEEPLECHASE—EUGENE TAKES THE HANDICAP.

Belmont Park, N.Y., June 13—The day's leading events were the Belmont Handicap, for 3-year-olds, at a mile and three furlongs, and the Military Steeplechase. Then there was a handicap steeplechase and also a handicap on the flat.

Kinnelon, with Lieut. Rockwell in the saddle, won the Military Steeplechase after a long drive with Zogg. The latter was over the last jump first, but was joined immediately by Kinnelon, which beat him home after a sensational finish. Wool Tex made the pace, but tired in the last half mile.

The Belmont Handicap furnished another sensational finish between Prince Eugene, Rockview and Flying Fairy. The latter made all the running to the home stretch with Rockview laying within two lengths of him. The other two were close trailers. When the straight was reached Flying Fairy tired and Eugene joined her by making a good and close home turn while Rockview went a trifle wide.

JENNINGS' SUSPENSION LIFTED YESTERDAY.

New York, June 13—It was announced her today that the indefinite suspension imposed on Manager H. Jennings of the Detroit Club, of the American League, by President Ban Johnson, had been lifted on payment of a fine. Jennings was sent down for using abusive language to Umpire Ferguson in a recent game. Jennings was on the coaching line today.

LACROSSE MATCH THIS AFTERNOON

ST. PATRICK'S AND ST. GEORGE WILL BATTLE FOR SUPREMACY.

There is likely to be a thrilling lacrosse match this afternoon, when St. Patricks and St. George meet in the Quebec City League.

Each team has a victory to its credit so far so that the issue of today's match will put one or the other ahead.

Mr. Thos. Brophy, a former Shamrock Lacrosse Club player, will handle the game, and will have an able assistant.

The teams will be selected from the following players: St. Patrick's—J. Lyons, E. Hugill, W. Lambkin, W. Hughes, M. Cleary, W. Wilson, R. Crotty, P. Aubin, T. Fuller, F. McLaughlin, C. Lepinay, McElroy, M. Redmond and C. Lockwell, Dave Beland, captain.

St. Georges—L. Gilbert, A. Deschenes, C. Robitaille, A. Tremblay, L. Letarte, G. Parent, E. Brousseau, J. Martineau, A. Bilodeau, E. Paradis, E. Gilbert, E. Richard, J. Gilbert, A. Parent, E. Hutchison, R. Ruelland, P. Pelletier, captain.

BASEBALL DOUBLE HEADER TOMORROW

LAVALS VS. VICTORIAS, AND ST. PATS VS. C. B.'S AT EXHIBITION GROUNDS.

As usual, there will be a double-header at the Exhibition Grounds tomorrow afternoon, when Lavals meet Victorias and C. B. stack up against the St. Patrick's men. The latter game is likely to be the feature though it is recognized that if Laval had not shown poor judgment last Sunday they might have trimmed the formidable C. B.'s.

The batteries will be:

St. Pats—Frezell, Campagne and Loisel.

C. B.—Latulippe, Giguere and Lizotte.

Laval—Beaule and A. Lizotte.

Vics—O'Hara, Breton and Marks.

J. Bruneau and H. Ledden will umpire in the first game and G. Cartier and H. Bowen in the second.

MOTOR BOAT RACE.

Hamilton, Bermuda, June 13—The return race between the motor boats Barbara II., The Dream and Toosam from Bermuda to Philadelphia has been fixed to start at 10 o'clock on Tuesday morning, from David's Light.

CRICKET MATCH IS CANCELLED

Three Rivers Team Unable to Play Today, Will Come to Quebec Next Sa lay.

It was expected that the Quebec Cricket Club would play a match on the Plains this afternoon with the Three Rivers XI but a telephone message received here last night was to the effect that the Three Rivers men could not come this week and would come next Saturday instead.

The news was a surprise to local cricketers as the team had been chosen and all arrangements made for a match today. Instead there will be a practice this afternoon.

MIKE GIBBONS KNOCKS AHEARN OUT IN FOURTH

New York, June 13—Mike Gibbons of St. Paul knocked out Young Ahearn of Brooklyn in the fourth round of a scheduled ten-round bout at Madison Square Garden tonight. The fighting was fast throughout and up to the knockout it was an exhibition of clever boxing, with Gibbons the aggressor. Ahearn used a left jab with good effect, while at close quarters Gibbons favored a right jaw to the body. A right to the head staggered Ahearn in the fourth. Gibbons followed up his advantage with a right to the jaw and a right uppercut, ending the battle. Gibbons' weight was 149 and Ahearn's 144.

Tom Gibbons, brother of Mike, outpointed Jack Denning of this city in a ten-round bout by a strong finish in the final round. Gibbons had the better of the third, fifth, eighth and tenth rounds and his opponent carried of the fourth, sixth and seventh. The other rounds were even. Gibbons had a pound the better of Denning, who weighed 158.

GOOD FOR SOMETHING.

She—"The Rev. D. Dreary is something of a faith healer, you know, and I'm thinking of attending his church for my rheumatism."

He—"I can recommend him for insomnia."

SHE—"I can tell by his looks that he has been successful since he came to town."
HE—"Yes, I suppose it's not hard to lay your finger on the successful man. His clothes breathe prosperity and his face beams it. I know that he goes to the Semi-ready Store for his clothes. You know Semi-ready Clothes have the 'air.'"
SHE—"Yes, I wish we could buy Women's Suits of such quality so quickly as men can."

HARVEST FOR BAD SINGERS.

A new road to fortune for amateur singers—really bad amateur singers, especially—seems to be be opened up by a scheme for raising money which goes by the name of the non-singing concert.

The vocalist, says the Manchester Guardian, begins his song. Then someone in the audience rises and says, "I'll put down sixpence for him to stop," and throws sixpence into a collection box on the table.

"I'll pay a shilling to go on," cries the singer, and puts his shilling down. Then someone else planks down eighteen pence for him to stop.

Then a friend of the singer's comes to his aid, and so it goes on, the singer and his friends and the audience "raising" one another in poker fashion till either the song is sung or the singer beaten.

So far the record is thirty-two shillings, raised from the non-singing of one song, but many of can recollect singers who will earn more than this.

The Mediterranean cockle (Venus vurrucosa) can exert a pulling power equal to 2,071 times the weight of its own body. If the human being possessed strength as great in proportion as that the average man would be able to lift the enormous weight of 3,106,500 pounds.

$42,500 FOR A SINGLE BOOK

The late J. Pierpont Morgan left among his vast collection of unique articles the only perfect copy in existence of axton's "Morte d'Arthur." It is one of the rarest books in the world, and fell to the late millionaire at the Hoe sale for the tremendous price of $42,500. That is to say, each page is worth about $2.50.

Some years ago, when the Antwerp collection was sold at Sotheby's, a great American collector coveted the First Folio Shakespeare which was included in the sale. His agent travelled 6,000 miles to secure the treasure, and returned to the United States with the great book. But he left behind him the record price—$15,000.

There is a story of the unearthing of a Caxton at Thorneck Hall, Lincolnshire. The butler was intrusted with the work of weeding out superfluous books. A perfect copy of Dame Juliana Berners' "Boke of St. Albans" was thrown aisde and sold to a pedler for 18 cents.

The most valuable printed book in the world is the first ever issued from the press—a Gutenberg Bible. But even in those early days there were "editions de luxe." An ordinary paper copy, with three leaves "restored," fetched $15,000 the last time it appeared on the market, but at the Hoe sale a tremendous sensation was caused by the inclusion of a fine copy on vellum, printed by the very first printer.

Dealers hurried like homing pigeons from all quarters of the globe to view this treasure, and also to bid for it. It was finally secured by Henry E. Huntington, the greatest book collector on the globe, for the record price of fifty thousand dollars.

MUTE ADVISES BETTORS.

Tipster Uses Unusual Methods at Race Tracks in France.

Paris, June 12.—A tipster with a novel method is earning fame, and incidentally a good deal of money, at Longchamp, Auteuil, St. Cloud, and the other race courses. He dresses like an Englishman, and is believed to be one, though nobody has ever heard him speak, for the man either is, or pretends to be, deaf and dumb. He is inavriably well dressed, in clothes of a horsey cut, and his light fawn overcoat and brown hat are well known on every race course.

He frequents the weighing inclosure only, and his method of giving tips is a curious one. Before each race his customers flock around him, and one after another hand him their programmes. He makes a mark in pencil against his tip for the race, and he is said to be unusually fortunate in his selections. A romantic story is told about this man which may or may not be true. He is said to have been a jockey, who made a large fortune, and who used to bet heavily on his own mounts.

One day, when he had bet heavily, his horse fell with him, a few yards from the post, when he was a clear length ahead of the field. The fall and the money loss which went with it made him deaf and dumb forever. Nobody knows the man's name, and when a question as to his identity is put to him in writing, either in French or English, he only shakes his head and smiles. Whether his infirmity be assumed or not, the man is certainly very clever.

GILLETTE

The Symbol of Clean-cut Modern Manhood

By making shaving so easy, the Gillette Safety Razor has done much to develop the typical man of to-day—that strong, aggressive, successful individual who scorns to disguise his features with a beard or to appear with an unkempt stubble on cheek or chin.

Shaving with the Gillette takes but three refreshing minutes. You waste no time honing or stropping—or fuming in the barber's waiting row. The Gillette makes home shaving so easy and luxurious that it is no more a task, but an agreeable incident in the morning toilet.

There are over 40 Gillette styles from which to choose. Standard Sets, like the illustration, cost $5.00—Pocket Editions $5.00 to $6.00—Combination Sets, with brush, soap and other toilet articles, run from $6.50 up. From the assortment which your Hardware Dealer, Druggist or Jeweler can show you, buy a Gillette—you'll enjoy it.

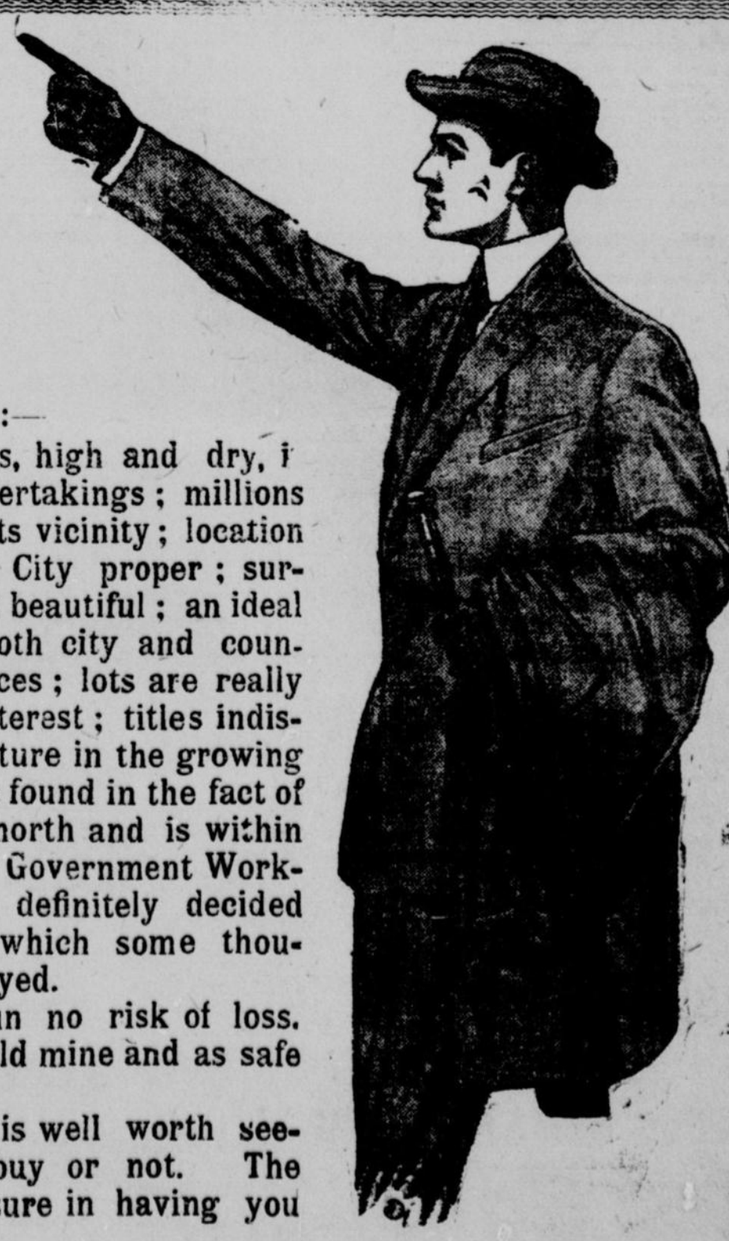
Building Lots as a most desirable investment for either home seekers or speculators.

There are many reasons:—

The property is first-class, high and dry, in the very heart of great undertakings; millions of dollars are to be spent in its vicinity; location is unsurpassed; adjoins the City proper; surroundings both historical and beautiful; an ideal spot for a home; possesses both city and country attractions and conveniences; lots are really cheap; payments easy; no interest; titles indisputable. A most emphatic feature in the growing value of this property is to be found in the fact of its adjoining St. Malo on the north and is within a few minutes walk of the new Government Workshops, which it has now been definitely decided are to be built there and in which some thousands of hands will be employed.

Investors in Park Lots run no risk of loss. They are as profitable as a gold mine and as safe as the Bank of England.

Pay the Park a visit. It is well worth seeing, anyhow, whether you buy or not. The manager will take much pleasure in having you shown over the property.



Buy now and watch your investment grow. It is bound to do so, and that very rapidly.

THE LIFE OF A MARTYR

Was an Agony For Years And Nothing Gave Him Relief Until He Used "Fruit-a-tives" The Famo u Medicine Made From Fruit.

ALFRED FERRIS, ESQ.

PENETANGUISHENE, ONT., March 4th, 1913

"I want to inform you of what your remedy "Fruit-a-tives" did for me.

"For years, I was a martyr to Dyspepsia and Constipation, often having to leave work from the agonizing pains of Acute Indigestion. Doctors treated me continually, but without satisfactory results. It seemed to me that I tried every advertised medicine on the market, and got no relief.

"On one of the days that I was compelled to absent myself from work, a neighbor came to my house to whom I told of my suffering, and he said to me that all I had to do, if I had Dyspepsia, was to take "Fruit-a-tives". They would cure me. He had cured himself. I immediately procured a 50c. box and continued taking them until cured. I suppose I took in all, about eleven boxes and I am glad to be able to say that I have been free of indigestion for nearly two years. They cured the Constipation also. They were worth their weight in gold to me and I will be glad to have you publish this letter, along with my photo, if it will induce another dyspeptic to take the right road to a permanent cure."

Yours truly, ALFRED FERRIS.

Don't suffer any longer. To-day—right now—get "Fruit-a-tives" and cure yourself. "Fruit-a-tives" will sweeten the stomach—strengthen the stomach muscles, increase the quantity of digestive juices, regulate kidneys and bowels, and make the digestion as sound as a bell. "Fruit-a-tives" will positively cure every case of Dyspepsia, Indigestion, Sour Stomach, Belching Gas, Bloated Feeling after eating and al other disorders of the Stomach, Liver and Bowels. 50c box, 6 for $2.50, trial size 25c. At dealers or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

WE CORDIALLY INVITE

Our numerous patrons and the public in general to visit our show-room, where they will find a large assortment of Porcelaine, Cast and Enamel Baths; latest style Lavatories of all kinds, Shower Baths, Water Heaters, Bath-room trimmings.

Contractors should see us before placing their orders elsewhere.

First-class goods at prices defying all competition.

U.S. RETALIATES AGAINST CANADA

FREE LIST NOT EXTENDED TO PRINT PAPER MADE WHERE THERE IS AN EMBARGO.

Washington, June 13—Amending the section of the Underwood Tariff Bill which would place on the free list all print paper valued at not more than 2½ cents a pound, the majority members of the Senate Finance Committee today voted to incorporate in the bill the provisions of the Canadian Reciprocity act passed in 1911. This action would extend the free list to include all print paper valued at not more than 4 cents a pound on the condition "that no export duty, export license fee or other export charge of any kind whatsoever, or any prohibition or restriction in any way of the exportation shall have been imposed upon such paper, board, or wood pulp, or the wood pulp used in the manufacture of such paper or board."

MORE DUTIES PROBABLE.

Although the word "Canada" is omitted from the amendment adopted by the committee, it would operate against Canada because of that nation's restrictions on exports of wood and chemical pulp. Senator Simmons, chairman of the Finance Committee, said that other restrictive provisions, or countervailing duties aimed against Canada which have been proposed had not yet been acted upon by the majority and that the matter would be taken up again tomorrow. He added that there might be reconsideration of the action thus far taken.

Under the reciprocity amendment, pulp wood or paper could come in free from Canada when it is the product of free lands in Canada, lands unrestricted by export duty or license fee.

Senator Simmons stated he believed the committee could conclude its work by next Wednesday and that the Democratic caucus could then be called to meet immediately.

"I believe," Senator Simmons said, "that the bill can be reported to the Senate by the following Wednesday, which would be June 25.

"I do not anticipate that the caucus will be prolonged or that the caucus will materially change the report of the Finance Committee inasmuch as our work has been almost unanimous."

Administrative features of the bill which have delayed the work of the committee thus far, the senator said, would be solved by the committee within a few days, as the sub-committee would complete its work on these feautres and submit them to the majority members tomorrow. Secretary of the Treasury McAdoo, he stated, had submitted many valuable suggestions, many of which would be accepted.

A GASEOUS GHOST.

A rather curious plagiarism by fact of a ghost story which appeared in an English magazine (the Idler) some years ago is related by Prof. Schneider in Science. He was asked to examine a haunted house, where the servants and hildren who slept on the third and forth stories were harassed by strange sensations at night. Servants would awake with a sense of oppression "as if someone were tapping upon me," or "with a creeping feeling as of being paralyzed." Sounds were heard, and the sensations went on even after the sleeper had been awakened and the lights turned on. The children suffered similarly, with the addition of symptoms of greater fright, and awoke ill and sluggish in the mornings. Previous tenants of the house had left on account of similar occurrences, and Prof. Schneider, though a biologist and not a believer, was asked to investigate them. He quickly found a simple and mechanistic explanation. It appeared that a large amount of "furnace" gas escaping from a viciously defective hot-air furnace would account for the preliminary symptoms. The furnace pipes were so badly damaged that the inhabitants of the house were bathed in an atmosphere of diluted flue gases, including small amounts of that very poisonous one, carbon monoxide, which is the cause of many deaths in mining accidents. The gas even in small quantities has marked psychic effects, and long continuance of the evil exaggerated every contributory cause, even noises in the next house, into ghosts.

POSLAM MAKES THE SKIN CLEAR AND HEALTHY

A clear and healthy skin is surely a blessing, and thousands to-day owe their enjoyment of such to the wonderful curative properties of Poslam—the modern healing remedy.

All skin diseases including acne, tetter, psoriasis, piles, skin-scale, salt rheum, barbers' and all other forms of itch, are quickly eradicated by Poslam. Minor troubles such as pimples, red and inflamed noses, rashes, dandruff, complexion blemishes, etc., respond so readily that overnight treatment is often sufficient.

POSLAM SOAP used daily for toilet and bath will keep the skin in healthy condition, and improve its color and texture. Beautifies complexions; purifies the scalp.

All druggists sell Poslam and Poslam Soap. For free samples, write to the Emergency Laboratories, 32 West 25th Street, New York City.

HISTORIC OLD SARUM.

Recent Excavations and "Finds" on a Site Occupied Successively by the Belgae, the Roman Legions, the Saxons and the Normans—Connection with Ecclesiastical and Political History.

(From the London Standard.)

A small army of workmen under the direction of skilled antiquaries, are now excavating on the historic site of Old Sarum, the ruins of which are situated two miles to the north of Salisbury, or New Sarum. The place is marked by the footsteps of the ancient Briton, the Roman, the Saxon, the Dane, the Normans, and was connected with many stirring events of early English history. Until the Societay of Antiquaries took possession nothing remained of Old Sarum but an elevated plateau, ringed by deep fosses or ditches and covered with soft springy turf, the growth of ages.

Even now it is easy to realize the early military importance of this stronghold. The garrison, securely intrenched, were masters of a fertile slice of land, and, as even the scanty records in existence show, the fortress was coveted by invader and defender alike. The earliest authentic history reveals Old Sarum in the possession of the Bedgae. Vespasian's legions recognized the advantageous position of the fortress, and, ousting the Belgae, turned it into a strong Roman fort under the title Sorbiodunum. After the Romans came the Saxons, and Alfred the Great, in his successful resistance of the invasion of the Danes, strengthened the citadel. Great national councils were convened there by William the Conqueror, William Rufus and Henry I., and some believe that here the British Parliament took its rise. The old city did not reach its crowning glory until after the translation of the Episcopal See thither in the reign of William the Conqueror, and as it attained its greatest prosperity under the successive bishops—Herman, Osmund, Roger, Jocelinde Bailul, Hubert Walter and Herbert Poore—so its fortunes declined when the ecclesiastical establishment withdrew. The place gradually fell into decay, and the process was hastened by the builders of the new city, who ruthlessly treated the old city as a stone quarry. They broke down the walls of the old cathedral, the fortress, and houses existing there, and bore away the masonry with which to build new habitations. Out of the choas present-day excavators are producing something like order.

Colonel H. Hawley, F.S.A., is in charge of the excavations, and he has had the assistance of Mr. St. John Hope and Mr. Montgomery, both well-known members of the Society of Antiquaries. By the time this season's work was commenced, the citadel or fort, encircled by what was at one time a deep moat, was laid bare, and the visitor obtains a good idea of the great walls and battlements. The original level of the courtyard has been preserved, and all around it are the walls dividing the apartments of the garrison. Workmen from His Majesty's office of works are now engaged rendering these excavated walls permanent. Ancient pottery and coins have been discovered in plenty, and the interest of the excavations is in the uncovering of the massive masonry, some in surprisingly good condition.

In the centre of the castle the excavators came upon the well, which doubtlessly supplied the garrison with water, and, incidentally, a botanical phenomenon was observed. Soon after this well, which like together in hopeless confusion. Colonel Hawley has been particularly careful that these and other remains should be treated with reverence and respect. When come upon they have been collected and buried in a spot where they are not likely to be again disturbed. The skeleton found in the Purbeck marble coffin was that of a man of unusual stature, greater than the person for whom the coffin was apparently intended, and the marble sides had been chipped away to allow the body being placed therein. The skeleton was reinterred, and the coffin, a unique specimen, will probably be conveyed to Salisbury and placed in the Cathedral cloisters.

The great feature of the season's work has been the uncovering of a stupendous curtain wall, of a solidity that compels admiration. It was the containing wall of the old city, and built with such thoroughness as to be a practically impregnable barrier. "Until we excavated," said Colonel Hawley, "we had no knowledge that there would be this sort of a curtain wall, and I look upon it as the most important part of this year's work." Operations will be suspended at the end of the present month and resumed next summer. It is estimated that 8 years will elapse before the excavation of this city of the past will be completed, and the site will then be handed over to the Government Office of Works.

CAT WITH HARELIP WHISTLES LIKE BOY.

Springfield, Mass., June 12—Stanislaus Czynszky, of Prospect avenue, West Springfield, is the owner of a cat with a harelip, which whistles with the facility of a schoolboy, but cannot mew or, at least, never has mewed.

Czynszky is inclined to believe that no animal in its normal state of mind would whistle, but is loath to do away with the cat, which, he says, attracts more attention than any other member of the family, and is regarded as a musical prodigy.

Neighbors have suggested that the cat would prove a treasure to a maker of catgut violin strings.

REVISING THE GEOGRAPHIES.

Recent explorations around the Arctic and Antarctic poles make necessary a revision of all geographies. These say that water covers two-thirds of the earth's surface, land being only one-third. The latest figures are: Land, three-sevenths; water, four-sevenths.

HOLIDAY CLASSES
For Teachers,
MACDONALD COLLEGE.
July, 1913.
Ste. Anne de Bellevue, Que.

The Teachers' Training Committee has arranged the following courses for the month of July:

1. DRAWING AND SCHOOL ART.
Instructor, Miss F. I. Goodenough, Assistant Supervisor of Drawing in the Public Schools of New York City.
Elementary and Advanced. Fee, $15.
2. FRENCH.
In charge of Messrs. H. H. Curtis and F. R. Robert, Supervisors of French in the Protestant Schools of Montreal.
Elementary and Advanced. Fee $25.
3. PHYSICAL EDUCATION.
Under the Departments of Education and Physical Education, McGill University. In charge of Miss E. M. Cartwright, of the Royal Victoria College, with a large and efficient staff of medical, scientific and educational experts.
Classes graded into 1st, 2nd and 3rd year. Fee $25.

Board and lodging in College, $8.00 a week.

A limited number of bursaries, covering cost of tuition, are available. Some are offered by the Government; and some (for students who could not otherwise afford to come) by the Committee. Full particulars on application.

For syllabuses apply

FIRE DEPARTMENT.

Quebec, May 30th, 1913.

TENDERS FOR AUTOMOBILE CARRIAGES FOR THE CHIEF AND THE DEPUTY CHIEFS OF THE FIRE DEPARTMENT.

PUBLIC NOTICE

Is hereby given that sealed tenders, endorsed: TENDERS FOR AUTOMOBILE CARRIAGES will be received by the undersigned, City Clerk's Office, from now until the 16th of June next, at four o'clock sharp, in the afternoon, to supply the City with three automobile carriages, of which one to be a "touring-car," to carry five passengers and two carriages commonly called "roadsters," each to carry two persons, a description of which now follows:

1st—The body of the carriage shall be in metal and built in such a manner as to allow space sufficient to put in cloaks, boots, helmets, etc., and all the necessary tools;

2d—The carriage shall be painted in vermillion colour, a sample of the colour to be seen in the Fire Department, City Hall.

3d—The wheel base to be not less than one hundred and twenty inches (120 ins.)

4th—The engine shall not be of less than thirty-two forces and four-tenths (32 4-10) A. L. A. M., and with four cylinders of 4½ inches (four and a half inches).

5th—The rubbers shall be four and a half (4½) by thirty-six (36) and demountable, together with an additional extra rim for the wheels.

6th—The carriages shall be equipped with electric self starters.

7th—The lighting shall be by electricity.

8th—The carriages shall be equipped with tops and wind-shields.

9th—The "roadsters" shall not carry any glass or wind shield in front, but instead shall have a search light of the same capacity as the head light on both sides of the carriage.

10th—The carriages shall carry sirenes of the same quality as those being used here, and shall be equipped with an attachment on each side for three gallon Babcock fire extinguishers and also equipped with bumpers.

11th—The contractor who shall get the contract shall guarantee the machine for two years after delivery against all defects in material and workmanship.

12th—The carriages shall be delivered within fifteen days (15) of the signing of the contract.

13th—Each tender shall enclose specification of the carriages to be supplied with a complete description thereof, and such information as is necessary to find out the real quality and value of said carriages.

14th—The tenders for automobile carriages must be drawn in conformity with the notice or call for tender.

15th—The automobiles shall be delivered by the contractor at his own expense to the City, and the price mentioned in the tender must include the cost of delivery.

16th—The tenders shall be enclosed in an envelope accompanied with an accepted cheque for the amount of deposit required, which is 10 per cent (ten per cent) of the price demanded by each tenderer for each of the said three vehicles, and each of the said envelopes shall contain on its face a receipt from the City Treasurer of said deposit.

17th—The said deposit, after the contract is awarded, shall be returned to all persons whose tender have not been accepted.

And as regards the one to whom the contract is awarded, his deposit shall be kept back by the Treasurer until full execution of the contract and after the said automobile carriages shall have been delivered and accepted.

18th—The City does not bind itself to accept the lowest or any of the tender.

19th—If all the above conditions are not fulfilled, the City shall keep back and confiscate the said deposit and reserves its recourse for damages for non delivery in satisfactory condition.

20th—The contractor shall sign the contract within three (3) days after he shall have been notified that he is awarded the contract, and he shall pay the cost of said contract and of a copy to be delivered to the City.

For further information, apply to the Chief of the Fire Brigade, City Hall.

By order,

H. J. J. B. CHOUINARD,
City Clerk.

Explains Mysteries of Baseball To Englishmen

At last the Britisher's idea of baseball has been put into cold type. Charles Skokes a well-known sporting authority in England, wrote the following for an English newspaper, and it is reprinted to give American fans a few points on their favorite sport.

"The Englishman who fares to the other side of the Atlantic—whether to Canada or the States, for in this matter the two nations are as one—is at the first loftily contemptuous toward the national gaem of baseball. Complete ignorance of the game (except that it is a kind of grown-up rounders) is largely the cause of this attitude, for notwithstanding the large number of exoteric pastimes which have become acclimatized in England—such, for instance, as baseball or diabolo—baseball is never seen here; and the Englishman is apt to sneer at baseball as being childish with the same readiness that Americans laugh at cricket as being a thing of 'white flannels and afternoon tea.'

"What especially amuses the American is the dignified slowness of cricket The three days' match, the all-day batting session, the intervals for lunch and tea, tickle his imagination when compared with their own beloved 'ball game.' For baseball is a game of frenzied excitement. When each side has nine innings and the whole business is over in two or three hours, it follows there are no protracted or flat periods.

"Baseball is really rounders. Who expanded and modified the children's game is a mystery, but for all hiss ingenunity he did not hide the original. Hit and run, that is the principle. Off a hit which is not a foul ball or within foul territory the batter drops his bat and runs as fast as he can to the first base, or beyond that to the other bases if he can do so safely.

Never Called Batsmen.

"Four bases make the round which secures a run, each runner halted at a base resuming his running directly the succeeding batters (they are never called 'batsmen'), strike, and often stealing bases while the ball is in play elsewhere.

"The only change of consequence that has been made is that the ball is not thrown at, to hit, a runner, to put him out of play, which is necessary (if my recollections are correct), in rounders; at the first base a fielder from the opposing team has only to have the ball in his hands and his foot on the base plate before the runner reaches it; at the other bases the fielder can either have the ball in his hands and his foot on the plate, or, with the ball in his hands, touch the runner with it.

"A ball delivered by the 'pitcher' directly over the batting plate is a 'strike,' not over the plate 'a ball,' and four 'balls,' a body hit from a ball, a 'wild pitch,' entitle the batter to a base without further ado. On the other hand, to miss three 'strikes,' to be run out at a base in either of the ways described above, to be caught off a fair ball, to run outside the limitss between bases, and certain other contingencies, concludes his innings, and directly three men are out the side is out.

From this cursory explanation the uninitiated may probably derive the impression that the game is childish. On that opinions differ, but this can be said—that baseball, properly played is an exceedingly fast game, and because of its fastness and frequency of incident a more interesting game to watch than cricket or football.

"Rugby football is the only parallel as regards rapidity. Of the batting I will not speak, except to point out that with a round bat, only 2 3-4 inches wide, greater accuracy of judgment is needed to hit a ball delivered about waist high than with a cricket bat; nor of the running. It is the fielding and the throwing which are truly amazing.

"The ball is throw from player to player with the speed and precision of rifle practice. Watch the fielders in cricket, see how they fumble the ball and make faulty returns, then consider that in baseball a fielder in the outfield will send a ball to the pitcher with lightning speed and with so true an aim that neither has moved from his original position to catch it.

"Similarly, the quickness with which a man fields the ball and then decides what to do with it is remarkable. True, this is achieved only with constant practice—practice in the streets, practice everywhere—and also with the aid of a catching glove worn on the left hand; however, this does not alter the fact that in catching the ball, and especially in returning it to any part of the field immediately, they work like highly organized automatons.

"For instance, I saw the following—and not in a professional National League match, but in a match between two spare-time office teams in a remote part of Canada. The batter struck the ball to the outfield, and immediately ran to first base—about 30 yards; the ball was fielded, thrown to the fielder at first base, and caught him so quickly that when the runner, covering the short distance as quickly as he could, reached the base, he was out by fully a second.

"In the same match a runner left a base for the next, but, seeing he could not reach it in time, turned back when half way to his old position. The fielder with the ball threw it to the fielder at the old base so that it reached him before the runner did, and then that runner doubled backwards and forwards for five times, while this jugglery was going on over his head, till at last he was touched.

"But this is not the serious side to baseball, and no one follows it for that. In saying that it is exceedingly fast, I must add that it is exceedingly amusing.

"The players themselves are amusing in their quaint costumes—baggy knickers that come half way down between the knee and ankle, reminding one somewhat of a Frenchman's idea of a cycling costume; socks with broad crude-colored rings, flannel shirts with Gladstone collars very much like a Gladstone flyaway, and above all, a most ridiculous hat, something of a cross between a jockey's and a railway porter's.

"There is not the graceful lissomeness of the cricketer, nor the brawny muscularity of the footballer, but a kind of clumsy, misfit, comic tram appearance. Add to this that in baseball chaff and 'back-chat' are not only allowed, but encouraged a little for the encouragement of players, but mainly for the delectation of not only the audience, but the players, too.

"Baseball has given birth to a whole dictionary of slang—'boob,' 'mutt,' 'bonehead,' 'fan,' 'bleacher,' 'guy,' and 'dub,' are only a few with which the novice has to become familiar; but the greatest of them is 'root.'

"To 'root' is to 'rattle,' otherwise to annoy by abusive or ironical remarks To the British mind this is bad shport and undignified; to the baseball 'fan' it is as much a part of the game as the actual play.

"It is carried on, ussually, in a small falsetto voice—indeed, typical music-hall 'back-chat.' The spectators root at the players, the players who are awaiting their turns to bat root at the fielding team; the batter, as he swings his bat, roots at the pitcher, the catcher (i. e., the equivalent of a wicketkeeper), roots at the batter, the fielders root at the base runners, the coach roots at the umpire, and even the umpire roots at the spectators.

"'Now you've got him, kid,' 'Want another pitcher, fellers?' 'Chuck that ump off!' 'Come and do that yourself, then, you guys!' and so on, a tremendous noise generally, and all with the idea of balking the pitcher and throwing the batter off his guard, but generally extremely comic, and, as the team, manager, and coach, a man whose only job it is to root, and this is the man who gets the cheers and the applause. And all the time the players chew gum—chew when they bat, run or catch."

WAGNER AND "THIRTEEN."

The Great Composer's "Combination" Recalled by the Year 1913.

"Let those who are superstitious, who fear that the year 1913 will be one of disaster and hard luck, read the Wagner thirteen combination," says a writer in a Munich paper, "and be cured or have their superstitious notions confirmed.

"Richard Wagner—it takes thirteen letters to write the name—was born May 22, 1813. M is the thirteenth letter of the alphabet, and one plus eight plus on plus three equals thirteen. The Wagner operas number thirteen. When Weber died Wagner was thirteen years old. The lad heard a performance of the 'Freischutz,' under the leadership of its composer, on October 13, 1824, and there determined on a musical career.

"Wagner's first place as a director was at the Stadt theatre, in Riga, when he began the duties on duties on September 13, 1837. He finished 'Tannhauser' on April 13, 1844, and heard it hissed at Paris on March 13, 1861. It was loudly applauded on May 13, 1895. The composer was banished from Saxony for thirteen years.

"The great auditorium at Baireuth was dedicated on August 13, 1876. It was there that the master finished the 'Parsifal' score on July 13, 1882, and on September 13 of the same year he went south on a trip which he never returned alive. He died in Vienna on February 13, 1883, in the thirteenth year of Germany's imperial era."

VERONA'S PASSENGERS DETAINED AT QUARANTINE

New York, June 13.—Eleven cases of illness of an undetermined nature among the steerage passengers of the steamer Verona from Naples caused that vessel's detention at quarantine by the health officer today, pending the result of a bacteriological examination. The examination will not be completed till tomorrow morning.

Doctor Said He Had Diabetes

Dodd's Kidney Pills Cleared Out Every Trace of It

That's Why Mr. David Heon of Nicolet Co., Quebec is Recommending the Great Canadian Kidney Remedy To His Neighbors.

St. Wenceslas, Nicolet Co., Que., June 13 (Special).—"I started to take Dodd's Kidney Pills because the doctor told me I was threatened with diabetes. After taking ten boxes I was again examined by the doctor, and he told me that all trace of diabetes had disappeared."

This is the statement of Mr. David Heon, well-known and highly respected here, and he is only one of many in this neighborhood who have found a new lease of life in the great Canadian Kidney Remedy.

It is cures such as this that have given Dodd's Kidney Pills their reputation. They are now known from the Atlantic to the Pacific as the remedy that never fails to cure kidney disease, not matter where or in what form it is found.

Dodd's Kidney Pills are no cure-all. They simply cure diseased kidneys. The reason they cure backache, dropsy, rheumatism, neuralgia, diabetes, urinary troubles and Bright's disease is that all these are either diseases of the Kidneys or are caused by disordered kidneys failing to do their work.

SHIPPING NEWS

VIRGINIAN DUE THIS MORNING

REMAINS OF MR. PAUL DE CAZES WILL ARRIVE HERE ON THE POMERANIAN.

ALLAN LINE.

R. M. S. Virginian, Captain Gambell, from Liverpool, passed Fame Point at 11.35 a.m. yesterday. Due here at about 9 o'clock this morning. She has 111 first, 452 second and 930 third class passengers, the mails and a general cargo.

Steamer Pomeranian, Captain McDonald, from London and Havre, passed Father Point at 4.30 p.m. yesterday and is due here at 6 o'clock this morning. She has on board the remains of the late Mr. Paul De Cazes, which will be landed here.

Steamer Hesperian, Captain Main, F. R. G. S., from Glasgow, passed Cape Race at 11 a.m. yesterday, and is due here on Sunday afternoon at 4 o'clock.

Steamer Scotian, Captain Henry, from London and Havre, was reported 130 miles east of Cape Race at 12.30 p.m. yesterday. Due in port on Sunday night.

Steamer Corinthian, Captain Bamber, for Quebec, left London via Plymouth, yesterday.

C. P. R. LINE.

R. M. S. Empress of Ireland, Lieut. Forster, R. N. R., left Liverpool yesterday afternoon for Quebec with passengers, mails and general cargo.

Steamer Tyrolia, Captain Carey, left Trieste for Quebec, on Thursday.

Steamer Lake Michigan, Captain Parry, left Antwerp for Quebec on the 11th instant, with passengers and general cargo.

Steamer Montezuma, Captain Griffiths, left London for Quebec via Antwerp on the 11th instant.

Steamer Mount Temple, Captain Moore, from London and Antwerp, with passengers and general cargo, passed Cape Magdalen at 11.15 a.m. yesterday. Due here this morning.

CANADA LINE.

Steamer Willehad, Captain Filsinger, arrived from Montreal yesterday afternoon and proceeded for Hamburg.

DONALDSON LINE.

Steamer Letitia, Captain McNeill, from Glasgow, with passengers and general cargo, was 110 miles east of Cape Race at 1.20 a.m. yesterday. Due here tomorrow evening.

NORTH SHORE LINE.

R. M. S. Aranmore, Captain Cherrier, leaves port this afternoon for North Shore ports, with passengers, mails and general cargo.

QUEBEC STEAMSHIP COMPANY

Steamer Parima sailed from New York for the West Indies at 2 p.m. yesterday.

THE TUG CRUZIER.

The damaged C. P. R. tug Cruzier arrived up from St. Catherine Bay early yesterday morning in tow of the steamer Lord Strathcona. She was placed in Davie's dock for repairs. She is considerably damaged forward.

STEAMER WABANA DOCKED.

Steamer Wabana, Captain Reside, arrived from Montreal yesterday afternoon in ballast and anchored in the stream. She was placed in Davie's dock last midnight. It appears that on her way up from Sydney, with a cargo of coal, she touched ground below Matane. She proceeded on her way to Montreal, discharged cargo there and returned here to go into dock for examination.

FREIGHTS AND CHARTERS.

New York, June 13—Steamer rates continued to slump, influenced by free offerings of boats for prompt and early loading and but little inquiry for same. Quotations to Liverpool, 2¾d; London, 3d; Glasgow, 2½d; Rotterdam, 7c; Hamburg and Bremen 50 pfennigs; Hull and Bristol, 3½d; Antwerp, 3d; Cork for orders, 3s 3d; picked ports, large tonnage, 2s 6d; cotton to Liverpool, per 100 lbs., 25c.

Charters—British steamer, 1165 tons, timber, Pensacola to Genoa, 123s 9d. June; British steamer, 2624 tons, sugar, Cuba to United Kingdom, 15s 9d, June-July; British steamer, 2721 tons, River Plate, one round trip with options, 3s 6d, June; schooner, 522 tons, lumber, Owen's Ferry to Boston, $7; schooner, 360 tons, dry cypress, Palatka to Beverley or Portland, $7; six vessels United States coasting trade, private terms.

MATTERS BECOMING SERIOUS FOR MONTREAL

Montreal, June 13—Anxiety is being caused in shipping circles by the comparative shallowness of the ship channel this year. The table issued at the Harbor Commissioners' office early this month showed that the depth of water in the ship channel throughout the harbor on May 31 was considerably less than it has been on the corresponding date for years past. It was further stated officially yesterday that besides the fact that the average depth of the channel was 18 inches deeper for May last year, than was the case during May, 1913, the difference in the depths for the present month, so far, is still more disquieting. The mean depth for the first week of June, 1912, was 3½ feet greater than for the first week of the current month. Natural causes, such as difference in rainfall, and the fall of snow during the preceding winter, is held to account partially for the diminished depth, but many Americans admit that Chicago, though refused the increased supply from the Great Lakes for which she asked, is taking more water than she is allowed to do by law. New York Shipping Illustrated says: "The Chicago Drainage Canal authorities are at present diverting more water than they are entitled to do, with a consequent lowering of levels at various points."

GENERAL NOTES.

Steamer Saskatoon arrived from the Upper Lakes with a cargo of coal yesterday and moored at the Quebec Central Railway wharf, Levis, to discharge.

Steamers Kendall Castle and Eir from Sydney for Montreal, and Navigator from Montreal for Sydney, passed here yesterday.

Steamer Meaford, from Erie for Quebec with coal, passed Port Colborne on Thursday.

PORT OF QUEBEC.
Arrived June 13.

SS. Kendall Castle, Donohue, Sydney; coal.
SS. Eir (Nor.), Marcussen, Sydney; coal.
SS. Saskatoon ——, Upper Lakes; coal.
SS. Wabana, Reside, Montreal; ballast.
SS. Cruzier, ——, St. Catherine Bay; in distress.

SIGNAL SERVICE REPORT.

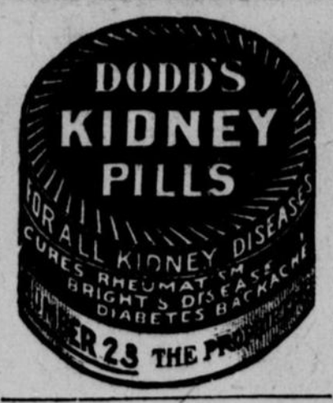
H. S. McGRETVEY,



FINANCIAL

(From Barry & McManamy.)

The following notice has been posted on the Stock Exchange: "Announcement was originally made that stockholders of record June 16 would receive the dividend on the stock of the California Petroleum Co., but this was later corrected to June 15, which, being Sunday, makes the stock ex-dividend Friday the 13th.

Earnings.

Chicago G. W., first week of June, increase $8352; from July 1, increase $1,059,609.

Minneapolis & St. L., first week of June, $172,201, increase $910; from July 1, $9,099,220, increase $1,808,553.

St. L. & S. W., first week of June, $22,4100, increase $2000; from July 1, $12,522,863, increase $1,206,823.

CLOSING LETTER.

By private wire to Neuville Belleau & Co., 93 St. Peter st., Quebec. Phones 946-4076.

New York, June 13—The better feeling engendered as result of yesterday's rise in the market was further continued today.

London sent irregular quotations, but our market opened strong, with advances in practically all issues and made additional gains in the early dealings.

After the first hour prices sagged, the shorts having covered and the traders feeling inclined to make another try on the bear side.

However, the attempt was not very satisfactory, for after receding a point, a sharp rally carried quotations again to the highest of the day.

It must be very evident to traders, as well as to the general upblic, that a change has come over the temper of speculation and that the bears or short side is no longer the cinch that it has been heretofore.

The bug-a-boo of Friday, the 13th, has been harmlessly laid on the shelf and superstitious operators for the fall have their experience for their credulity.

A report that Interborough-Metropolitan Company would declare dividend at the 5 per cent rate was responsible for the strength of these issues and we are given to believe there is more truth than fiction in the report.

New York Railways 5 per cent bonds at 54½ are also attractive.

The Reid-Moore issues were strong strong and looked as though the liquidation that had prevailed in these issues earlier in the week had been completed.

Rock Island collateral trust 4's can not be dangerous at present prices.

In the last half hour profit-taking caused a recession and the closing was one-half to one point below the highest.

The outlook continues favorable, the feeling is better and we anitiicipate higher prices in the near future.

SALESMAN WANTED.

Salesman wanted — no experience required. Earn while you learn. Write today for list of hundreds of positions now open paying $1,000 to $5,000 a year. Address Dept. 575, National Salesman's Training Association, 156 Yonge street, Kent Bldg., Toronto, Ont.

50 YEARS OF POPULARITY

¶ There is not a more popular brandy in Canada than

JULES ROBIN & CO. COGNAC

which has been in highest favor in this country, ever since its introduction over fifty years ago. Its popularity has increased every year for very simple reasons: it is absolutely pure, it has an exquisite aroma, a mellow and penetrating flavor and standard quality. The success of JULES ROBIN CO., COGNAC is due solely to its merits.

SOLD BY ALL LEADING WINE MERCHANTS.

If the public were aware of the great advantage of Toric Lenses over the ordinary kind, Torics would be the only kind in demand. The focus of those glasses is absolute, while in the ordinary flat glasses it exists in a limited space only. These are recommended by oculists as the only lens to prescribe.

GRAIN AREAS SHOW A GOOD INCREASE

CROPS ARE UNSEASONABLY BACKWARD, BUT THE CONDITIONS ARE GOOD.

Ottawa, June 13—A bulletin of the Census and Statistics Office issued today gives preliminary estimates of the areas sown to the principal grain crops and reports on their condition at the end of May, according to the returns received from Crop-reporting correspondents throughout Canada. The reports show that the month of May proved cold and dry, with frequent night frosts, and these conditions, while favorable to seeding, retarded the growth of the crops sown and caused them to be unseasonably backward.

The total area under wheat in Canada is provisionally estimated at 9,816,300 acres, or 57,900 acres more than in 1912, the area in spring wheat being 8,900,500 acres, or 13,100 acres more. Oats occupy 9,603,500 acres compared with 9,216,900 acres in 1912, an increase of 391,600 acres; barley occupies 1425,200 acres, an increase of 10.00 acres, and rye 126,500 acres, a decrease of 9,610 acres. For wheat barley and oats taken together the increase represents 459,500 acres. The estimated acreage under hay and clover is 7,475,600 acres compared with 7,632,600 acres last year.

For the thre north-west provinces of Manitoba, Saskatchewan and Alberta, the total wheat area is estimated at 9,013,800 acres, as compared with 8,961,800 acres, that of oats at 3,207,700 acres compared with 4,913,-900 acres and that of barley at 852,-600 acres compared with 809,800 acres, these differences representing increases of 52,000 acres for wheat, 293,800 acres for oats and 42,800 acres for barley, or 388,600 acres for the three crops.

On May 31st, the condition of the crops was reported as generally favorable throughout Canada. Expressed in percentage of the usual standard of 100, taken as representing the promise of a full crop, the condition on May 31st, for the Dominion, was as follows:

Fall wheat, 80.62; spring wheat, 91.55; oats, 91.72; barley, 91.19; rye, 87.7 ; peas, 88.24; mixed grains, 90.1 ; hay and clover, 81.2; pastures, 85.08, and alfalfa, 70.01. At the corresponding date last year the condition of fall wheat was only 71.46. All the other crops wer then above 90, excepting rye 87.24; peas 83.85 and mixed grains 87.72. The poor condition this year of alfalfa is due to the effects of the winter and cold spring.

MRS. BEEMER REMANDED.

Woodstock, Ont., June 13.—Mrs. Fred E. Beemer, charged with the murder of her husband, was remanded until Wednesday, when she appeared before Magistrate Ball this morning. No evidence was taken. The accused woman is being represented by Mr. W. T. McMullen, K. C.

LATONIA RESULTS.

Latonia, Ky., June 13.—Loitus piloted W. Linker's Sebago to a rather unexpected victory in the handicap today. Closer, the favorite, and Casey Jones, regarded as a serious contender, finished away back in the ruck. Casuarina justified the confidence of her big following by winning the five furlong event for fillies.

Inishtrahull: Lake Manitoba, Montreal.

BUSH FIRE ROBS SETTLERS OF HOMES

Cobalt, Ont., June 13.—Nearly fifty settlers in the townships of Tudhope, Truax, Robillard and Dack, in the immediate vicinity of the town of Charlton, lost their homes and all their belongings in a bush fire which cut a swath several miles in width and swept through the townships Wednesday and Thursday.

Settlers with their families fled with their lives from the oncoming flames and no fatilities have occurred.

Not since the Porcupine in 1911 has such a fire swept the north country. Not only Charlton is affected, but practically every other township in the district where slashings have been made. In addition to the farmers' homes which were destroyed, many saw mills also have fallen, and lumber camps wiped out. Twelve miles in length was covered by the fire in the Long Lake section. The large saw and planing mill of the Northern Ontario Lumber Company, which stood on the shores of Long Lake, was destroyed by fire late Wednesday evening. The company's loss will amount to about $15,000.

A TALK TO THE BOYS.

A schoolmaster in the country delivered an address to the scholars, of which the following passage is an example.

"You boys ought to be kind to your little sisters. I once knew a bad boy who struck his little sister a blow over the eye. Although she did'nt fade and die in the early summer time, when the June roses were blooming, with the sweet words of forgiveness on her pallid lips, she rose and hit him over the head with a rolling-pin, so that he couldn't go to school for more than a month, on account of not being able to put his hat on."

VISITING BANKERS HAVE SHANTY LUNCH

OTTAWA VALLEY LUMBERMEN REGALE CONVENTION WITH PEA SOUTH, ETC.

Ottawa, June 13—Probably the most successful convention in the history of the New York Bankers' Association convention was brought to a close tonight, after a full round of interesting sessions and delightful entertainments.

This afternoon the visiting bankers, their wives and daughter, were entertained by the Ottawa Clearing House to a "shanty lunch" at the Royal Shanty, Rockliffe Park, cooked and served by Ottawa Valley lumbermen. Special cars conveyed the visitors to the foot of Pine Hill. The fare at the lunch consisted of pea soup, pork and beans, Dutch oven bread, doughnuts, maple syrup and tea. Noval, indeed, was the event to the visitors, who entered heartily and with zest into the spirit of the affair and appeared to hugely enjoy themselves.

Business sessions of the convention were completed this morning. This evening a debate between New York and Syracuse chapters on the subject "Resolved, that it is for the best interests of the State of New York that some new form of financial institution be established in order to properly finance the business of agriculture in said state," was on the program, but this was postponed until a later date and will take place in New York.

The delegates attend a reception and dance this evening, and in the morning will leave by special trains for their homes.

TRAINING BEETLES FOR THE MOVIES

At 2 o'clock in the afternoon of March 13, 1881, the Czar Alexander of Russia was blown to pieces in a street in St. Petersburg by a bomb thrown by a Nihilist.

At once the police proceeded to arrest everybody and anybody whom they suspected of complicity in the outrage, the innocent sharing the same fate as the guilty. Among hundreds of others there was seized a young university student named Lozshki.

He was soon released, for as a matter of fact he was guiltless of any participation in the revolutionary movement. But during the weeks he lay in his lonely cell he made friends with the beetles which infested it, feeding them with his scanty prison rations.

To his surprise, they quickly learned to come at his call, to obey his voice, even to perform simple little tricks at his bidding. After he came out of jail he turned his attention to training these highly intelligent insects, experimenting with different kinds, and eventually choosing the large and exceedingly strong stag beetle as being the kind best adapted for his purpose.

Lozshki bred his beetles as poultry-keepers breed chickens or dog-fanciers dogs, carefully selecting the strains. The life of a beetle is short. This helped him greatly. The beetles he is experimenting with today represent the 453d generation in the direct line of descent from the original ones he started to teach in 1881. It would have taken at least 6000 years, starting, say, with Adam, to have evolved in similar manner a special strain of men and women.

He has taught his beetles to do all sorts of humanlike things, including dancing, soldiering, fencing and play-acting. Each succeeding generation proved cleverer and more adaptable than the one that had gone before.

At the beginning young Lozshki's aim was a scientific one solely. He wanted to prove that in insects, as in the higher animals, acquired characteristics are transmitted; that is to say, that effects produced in one generation through education, and so forth, reappear in succeeding generations.

In this he succeeded. A twentieth century statesman or philosopher does not differ more widely in mental power and understanding from the ape-like man of the prestone age than do Lozshki's trained beetles from the ordinary members of their tribe.

With the advent of the cinematograph the still youthful experimentalist was able to magnify the various poses and movements of his beetles, and study them at leisure and more closely. From this to filming a drama in which beetles should take the place of human beings as actors and actresses was but a step.

Taking advantage of the stag beetle's pugnacity, Lozshki marshalled them in regiments like soldiers, dressed them in uniforms, and marched them forth to battle against one another. The effect, as seen on the screen, is most weird and wonderful.

The rival beetle armies march and countermarch in the most perfectly natural manner, with drums beating and banners flying. The sub-title of a film now showing in England is "A Drama of the Middle Ages," and the beetles are seen armed with spears and battle-axes, and dragging cannons and battering-rams to the assault of a typical medieval castle.

Scaling ladders are erected and a fierce struggle is waged between the besiegers and the besieged, both sides keep, where, disdaining to surrender, the way, to the lowermost part of the stubbornly contesting every inch of the remnant of the defenders retire, losing heavily. Eventually, the attacking party proves victorious, and they set fire to the reserve of gunpowder and blow up the castle.

The histronic ability shown by many of the principals is really almost uncanny. They fence, fight, make love and crave mercy with all the skill of human actors. The movements of their horns and the attitude they adopt convey as clearly as human beings their thoughts and feelings. Fear, anger, craftiness and courage are all displayed by gestures which no one can mistake.

A SAGACIOUS ELEPHANT.

The elephant's brain is always actively working, and his little eyes take in far more than it is imagined he sees. Hagenbeck's circus of animals from Germany was parading in Chicago, eight elephants being part of the display.

The animals appeared to be quite sleepy, the day being warm and showery. They plodded along unmindful of the crowd of happy boys cheering about them. Suddenly the head elephant discovered a delivery wagon horse down on the street car tracks. He had fallen in a fit of sickness. The elephant made for him and with a twist set him on his feet. The horse, badly frightened, fell down again. The elephant set him up again. Once more the horse fell down. This time the elephant patiently set him up and held him up until his keeper ordered his release. Mr. Elephant then ambled on, satisfied he had done his duty.—Tit-Bits

BOSTON PAPER DEFENDS CANADA

SAYS THERE IS NO FEAR OF LAND COLLAPSE AND NO SERIOUS LOSS IN VALUES.

In a very lengthy article, in which the general situation in Canada is reviewed, the Financial News of Boston comes to the conclusion that there is no fear of a land collapse in Canada. It argues that the speculative boom is already over, without serious loss in values. Trade is active and labor well employed, and the population of the Dominion is growing rapidly, the News points out, in answer to the New York critics.

The article goes on to say:

"With a view to ascertaining the facts without prejudice, the Boston Financial News has made inquiries of competent leaders in the financial and commercial circles of the Dominion. We are able to secure an unofficial statement from a source which would be recognized, were the name made public, as an authority of the highest standing and one unquestionably in a position to have unusual facilities for obtaining comprehensive and exact knowledge of the state of affairs, while at the same time possessed of a conservatism which guarantees a candid review of all features. This authority says:

"'There is no question that money is tight in Canada, but when this is a world-wide condition of affairs and not applicable more in Canada than elsewhere. Payments in the Northwest are undoubtedly slow, but I do not hear similar complaints from other sections. The real estate boom there, as generally throughout Canada, has ended, but I cannot learn of any marked depreciation in the value of the properties in the larger centres. No doubt many of the outside subdivisions will, however, be slow, if not difficult of sale.

"'Caution is being exercised by the banks generally, but there is nothing that I can see approaching a commercial panic, or even uneasiness in business circles. General trade is active and labor well employed, and the continued large expenditures on railways will go on. With the increased population of some 400,000 persons per year a large amout of money will be kept in circulation. Of course, for the continuance of prosperity in Canada, much depends, as must always be the case in a country employed in agriculture, on the forthcoming crop.'"

River Gulf and Sea

Two Weeks —of sightseeing —of rest —of exquisite scenery —of supreme comfort $60.00 up.

Including meals and berth.

If you want an ideal vacation that is not expensive, take

SYNOPSIS OF REGULATIONS.

GOVERNING Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract of Three and a Half Million Acres Located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES.

A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only at public auction. A rental of $5.00 per square mile, per annum, is charged on all timber berths excepting those situated west of Yale in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in section 20 of the regulations.

TIMBER PERMITS AND DUES.

Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 50c. per thousand feet, B.M., and of a fee at the rate of $100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.

Any occupant of a homestead quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in Section 50 of the Regulations.

W. W. CORY,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Subagency for the district. Entry by proxy may be made to any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price $3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry including the time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price $3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth $300.00.

W. W. CORY.
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Westmount, P. Q. Postal Station 'L'," will be received at this office until 4:00 p. m., on Wednesday, July 2, 1913, for the construction of the building mentioned.

Plans, specification and form of contract can be seen and forms of tender obtained at the office of Mr. Alphonse Piche, 52 Victoria Square, Montreal, Que., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted, the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, June 9, 1913.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—40518. june12x3

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Interior Fittings, Postal Station 'B', Quebec," will be received at this office until 4:00 p. m., on Wednesday, June 25, 1913, for the work mentioned.

Tenders will not be considered unless made upon forms supplied by Department and in accordance with conditions contained therein.

Plans and specification to be seen on application to Mr. C. Chapais, District Engineer, Quebec, and at the Department of Public Works, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender.

By order,
R. C. DESROCHERS,
Secretary.

BLADDER AND KIDNEY TROUBLES

Are caused by poisoning impurities which clog the kidneys; intense pain is the result and sleepless night follow. The patient becomes annoyed with sharp pains shooting through the back and up the spine. These pains often so violent and acute that the victim suffers the greatest agony and is driven almost to despair. The refuse and sediment which settled in the kidneys must be removed in order to procure relief.

SANOL, the Kidney Cure, is the only reliable remedy which has a combined effect of acting on the kidneys, and restoring them to their natural condition, and removing Kidney, Bladder and Gall Stones by dissolving same. It cleanses and purifies the system, strengthens and invigorates the Kidneys, and encourages proper filtration. It relieves the pain and gives strength and energy to the body. Price, $1.50 per bottle.

Literature free from the SANOL MANUFACTURING COMPANY, of CANADA, LTD., WINNIPEG, MAN.

FRENCN COLONISTS TO ALBERTA FARMS

PROJECT IS DISCUSSED AT CONGRESS AT EDMONTON, ENDED YESTERDAY.

Edmonton, June 13—The question of establishing a colonization bureau in Alberta for French-Canadians from the East and French people from the old land was discussed at the congress of French-speaking people of Alberta which concluded here today.

The Rev. J. A. Normandeau gave an able address on colonization. In a country like Alberta the question of assisting and directing newcomers, he said, was one of the greatest questions which could be taken up. The settlement that was going on at Alberta by placing people on virgin soil and bringing crops out of new ground was adding enormously to the wealth of the Dominion and to the wealth of the whole world.

There was a danger, however, that immigrants would come here insufficiently prepared to make the best of their opportunities either by lack of education and information, or by reason of their lack of finances. The speaker was opposed to encouraging immigration of settlers who were not supplied with the means of making a good start in a new country, and he urged that it would be better to advise settlers to wait rather than come here and find themselves dependent upon their fellows for support.

He thought there was ample room for a good information and colonization bureau such as might be established by the French Language Society as part of their work.

The adoption of the bi-lingual system in the schools of Alberta, where French children were in attendance, was advocated by Father Hudon, in a characteristic address on education.

It was decided to appoint a special organizer to visit all the French districts and organize local branches of the French Language Society.

BOXING DIFFERENT IN OTHER LANDS

"Boxing here in America is not the same advanced game that holds sway in Australia, France and Belgium.

"In Paris and other parts of France contests of the ring are society's favorite diversion. The Cirque de Paris is a fine place in which to display one's jewels and one's beautiful gowns. Yes, indeed, the women attend the fights over there; as many women as men. And they are seemingly as deeply interested. They sit gaze at the gladiators through beback in the gold painted boxes and jewelled lorgnettes," says J. P. Harvey, the well known sportsman.

"Boxing is a rich sport in the French capital. The crowd comprises the best people, all attired in evening clothes; the ring is plush-lined; the ropes are incased in silk; the seats are upholstered in satin; there are carpets on the floor. Women ushers have charge of the seating arrangements.

"The referee, or directeur, is impeccably dressed, even to white gloves, monocle and a carefully groomed mustache. He is not required to lay a hand upon the boxers. The boxers have glasses to drink from; there is no confusion during a battle. A rising rally on the part of one participant brings forth a few bravos and handclaps and that is all. There is no smoking; perfect order prevails at all times.

"In Ghent, Belgium, I note that Bombardier Wells and Georges Carpentier are going to fight 30 rounds this month on a Sunday. Imagine what would happen if an affair of the ring were held in America on the Sabbath.

"Australia, a country that has done as much as any other to foster boxing, points with pride to the manner in which contests are conducted in Snowy Baker's Stadium in Sydney. There men are women witness twenty-round bouts which are featured by their orderliness. The management even goes so far as to serve tea to the ladies between events. And on one day a week there is a special program for the ladies, when the star boxers train for their entertainment.

"When Tommy Burns was in the antipodes working for the jousts with Lang, Squires and Johnson, he was more or less of a matinee idol. Burns attracted large feminine audiences every week.

"At the National Sporting Club of London, probably the most famous boxing club in the world, the game is run on a gentlemanly basis. The referee works from a position outside the ring. He wears dress regalia, as does the audience. Only members of the N. S. C. and privileged guests are invited to the contests."

A GOLFING PARSON'S APPEAL.

Parsons are famous for their arts and blandishments in raising money for the estimable causes they champion, but I think the reverend gentleman in charge of the parish of Horslydown, in south east London, has excelled all rivals. He is sending printed circulars to members of golf clubs—I have had one down here in Cheshire—appealing "as a lover of the royal and ancient game, though a poor player," to "brother golfers" for funds for his parish. He says the people of his parish have a "bad lie," and to help them even "your old golf balls" would be thankfully received and expeditiously sold for the benefit of the sick and poor fund, which is administered by "a brother sportsman."—Manchester Guardian.

CORDOVA EASY FEATURE WINNER

THIRD DAY'S RACING AT KING EDWARD PARK GIVES GOOD SPORT.

Montreal, June 13—Cordova turned up as an easy winner in the feature event of the third day of the King Edward Park Jockey Club's meeting. She went to the front soon after the break and had little trouble in standing off Right Easy, the nearest contender.

The card was well divided between first and second choices. A number of horses were shipped from here to Connaught Park at Ottawa for the opening of the meeting there tomorrow.

First race, 2-year-old maidens, four and a-half furlongs: Steorsta, 98, Snyder, 6 to 1, 2 to 1 and even, won; Montreal, 108, Warrington, 4 to 1, 2 to 1, and even, second; Red Rajah, 98, Carroll, 6 to 1, 2 to 1 and even, third. Time: 56 1-5. Shippigan, Booth, Bob Riley, Transcinia, Smiling Face, Agnes Dale and Spit Fire also ran.

Second race, 4-year-olds and up, selling, six furlongs: Miss Felix, 115, Griffin, 5 to 1, 2 to 1 and even, won; Stelclif, 104, Skirvin, 3 to 1, 6 to 5 and 3 to 5, second; Oriental Pearl, 106, Franklin, 6 to 1, 2 to 1 and even, third. Time: 1.16 2-5. Barn Dance, McAndrews, Rubia Gradia, May Bride, Fox Craft, Ben Loyal and Shillaleh, also ran.

Third race, 3-year-olds, selling, five furlongs:—Clothes Brush, 107, Dreyer, 4 to 5 and out, won; Spirella, 107, Pickens, 3 to 1, even and 1 to 2, second; Madeline B., 106, Snyder, 3 to 1, even and 1 to 2, third. Time: 59 1-5. Lady Robbins, Kinder Lou, Cedar Green, Pass On, Bell Chilton, Protagoras, Boss, W. T. Buckner and Smash also ran.

Fourth race, the Gazette Handicap, for 3-year-olds and up, six furlongs: Cordova, 116; R. Brooks, 4 to 1, 2 to 2 and even, won; Right Easy, 115, Deronde, even, 7 to 15 and out, second;; Auto Maud, 106, Pickens, 10 to 1, 4 to 1 and 2 to 1, third. Time: 1.17 2-5. Nila, Miss Jean, Earl of Rishmond, Lord Wells, Tom Holland, Firbal, Sylvestris, Batwa, Leiatoha and Veneta Strome also ran.

Fifth race, 3-year-olds and up, selling, six furlongs: Miss Primity, 100, Alley, 5 to 2, 4 to 5 and 2 to 5, won; Boano, 106, Dennison, 8 to 1, 3 to 1 and even, second; Cheer Up, 112, Knight, 5 to 2, even and 1 to 2, third. Time: 1.18 2-5. Jennie Wells, Beau Brummel, H. M. Sabbath, Inclement and Miss Dulin also ran.

Sixth race, 3-year-old and up, selling, one mile and twenty yards: Agnier, 112, Warrington, even, 3 to 5, and out, won; Miruli, 111, Gore, 10 to 1, 4 to 1 and 2 to 1, second; Vigorous, 111, Johnson, 4 to 1, 8 to 5, and 4 to 5, third. Time: 1.46 2-5. Camel, Cloud Chief, Jim Milton, New River, Kaufman, Dr. Halzberg, Johnny Harris and The Royal Prince ran.

Seventh race, 4-year-olds and up, selling, six furlongs: Agnes May, 103, Dreyer, 4 to 1, 2 to 1 and even, won; Ministra, 97, Snyder, 20 to 1, 7 to 1 and 3 to 1, second; Curious, 105, Denuler, 2 to 1, even and 1 to 2, third. Time: 1.17 2-5. Senator Sparks, Joe Gaitens, Bogard, Port Arlington, St. Jeanne, Johnny Wise and Clan Alpine also ran.

BRITISH CABINET MINISTERS ACTED IN GOOD FAITH

(Continued from Page One)

dealings in the shares of the company.

The report in conclusion strongly condemns the publication of charges which were absolutely untrue and which those responsible for their circulation had not reason to believe to be true.

Absolved By Majority.

The foregoing extracts are from the majority report. The majority of the Parliamentary Committee was composed of Liberal and Radical members of Parliament.

The proceedings of the Parliamentary Committee are published in detail in a parliamentary White Book, and they include a draft report proposed by Lord Robert Cecil, a Union member and the leader of the anti-governmental members of the committee.

The draft report submitted that while no minister of government official had been influenced in the public duties by any interest in the Marconi undertakings, the ministers concerned had acted with grave impropriety in making an advantageous purchase of shares of the American Marconi Company on advice received by them from a director of the English Marconi Company, which was then negotiating a contract with the British Government. The draft report was lost by 8 votes against 6.

Public Opinion describes the committee's report as "whitewash," and the Unionist press and public are showing great resentment against Sir Edward Carson and Mr. Frederick E. Smith, two of the Unionist leaders, for having associated themselves with the exoneration of the Cabinet Ministers by acting as counsel for Mr. Godfrey Isaacs, managing director of the Marconi company, and a brother of Sir Rufus Isaac, in the recent libel case against Cecil Chesterton, who was found guilty and fined $500 and costs at the Central Criminal Court.

EVEN BETTING ON THE POLO MATCH

LOSS OF MONTE WATERBURY AFFECTS AMERICANS—FREAKE REPLACES CAPTAIN EDWARDS.

New York, June 13.—Despite the rather easy victory of the United States in the opening game of the international polo series a close contest is predicted in the second game with the English cup challengers at the Meadowbrook Club field tomorrow afternoon. Various factors, including the loss of "Monte" Waterbury at No. 2 on the defending four, contribute to this impression.

Stoddard Is Stuffed.

In order to use Stoddard to the best advantage it has been decided to move the New Haven player up to No. 1, shifting Larry Waterbury back to the position usually held by his brother, who is out of the series as a result of broken fingers due to a blow from a mallet in Tuesday's game. This change will undoubtedly break up the American team play to some extent, since the two Waterburys, Whitney and Milburn have been playing together for years, and no substitute, regardless of his skill with mallet and mount, can fit into the combination at the eleventh hour and co-operate with the nicety of a veteran like "Monte" Waterbury.

Edwards Off Form.

A change in the English line-up also will mark the second game, for F. M. Freake, reservist, has been substituted for Captain A. Noel Edwards at No. 2 in the cup challengers formation. This re-arrangement is said to be due to the fact that Captain Edwards has been off form during the past week in both hitting and riding. Mr. Freake, who will take his place, is a veteran of international polo play, having been at No. 2 for England in the matches of 1902 and 1909.

Just what the result of these shifts in the two combinations will be, polo experts are unable to state. It is the general impression, however, that the invading line-up will be stronger than the four of last Tuesday. It is certain that the American team will be unable to "jump" the challengers as they did in the first game, since the English will bring out their best ponies for the opening period in preparation for just such tactics. Wagering on the outcome of tomorrow's game was at even money.

THE LOST SIXTH SENSE.

Mysteries in the Animal World That Can Be Explained Only Through Existence of a Special Sensibility.

The pigeon, although taken hundreds of miles away, is able to find its way back to its dove cote; the swallow, returning from its winter quarters in Africa, crosses the sea, and once more takes possession of the old nest. What guides the birds on these long journeys? Is it sight? or is it the influence of changes in the climate?

It is useless to talk of sight and of changes of climate when a cat returns home, from one end of town to the other, threading its way through a labyrinth of streets and alleys that it sees for the first time. And it is not sight that guides my mason-bees especially when they are let loose in the midst of a wooded country. Their low flight, two or three yards above the ground, does not allow them to take a panoramic view, or gather the "lay" of the land. What need have they of topography? They hesitate only a short time: after they start in the direction of the nest, they start in thed irection of the nest, despite the cover of the forest, despite the screen of chain of hills that they cross by mounting the slope at no great height from the ground. Sight enables them to avoid obstacles, but it does not give them a general idea of their road. Meteorology has nothing to do with the case: the climate has not varied in those few miles of transit.

To explain these mysteries, we are driven, therefore, to reply upon another mystery, a special sensibility that is denied to mankind. In strange country, a sense, so foreign to our organism that we are not even able to form a conception of it, guides the pigeon, the swallow, the cat, the mason-bee and a host of other animals. Whether or not this sense is magnetic I shall not undertake to decide; I am content to have contributed, in no small measure, to proving that it exists.

Why is mankind deprived of it? It would have been a fine weapon, and of great service in the struggle of life. If, as men of science contend, the whole of the animal kingdom, including man, is derived from a single mould, the original cell, and has evolved itself in the course of time, how comes it that that wonderful sense is the portion of a humble few, and that no trace of it is left in man, the culminating achievement of evolution? Apparently our precursors were ill-advised to let so magnificent an inheritance go: it would have been better worth keeping than a vertebra of the coccyx or a hair of the mustache.

Does not the fact that this sense has not been handed down to us point to a flaw in the pedigree? I submit the little problem to the evolutionists, and I should be interested to know what those who talk of the protoplasm, and the nucleus have to say to it. —Jo Henri Fabre in The Youth's Companion.

"What you need, madam, is oxygen. Come every afternoon for your inhalations. They will cost you sixteen shillings each."

"I knew that other doctor didn't understand my case," declared the fashionable patient. "He told me all

VERY HEIGHT OF THE SOCIAL SEASON IN LONDON AND BERLIN

Alma-Tadema Collection To Be Sold in London

Wonderful Treasures, Gathered by the Great English Artist, Including Many of His Own Paintings, Will Be Dispersed at Auction Beginning Next Monday.

WORKS OF ART FROM ALL PARTS OF THE WORLD

(Special Dispatch.)
LONDON, June 7.

ONE of the most important and certainly from many points of view the most interesting sale of the season will be that of the art treasures collected by the late Sir Lawrence Alma-Tadema, which are to be dispersed by Messrs. Hampton & Sons, of Cockspur street, at the late artist's residence in St. John's Wood, commencing next Monday.

When Sir Lawrence acquired the property from the French artist, Tissot, he set to work to transform it into one of the most wonderful palaces that any artist ever inhabited, which he accomplished after years of enormous labor and the expenditure of a large part of the fortune which his pictures brought him. He gathered together a collection of works of art of every possible description from all parts of the world; pictures and sculptures, antique and modern pottery and glass, bronzes, old cloisonné enamel, Egyptian antiquities, tapestries, old brocades and specimens innumerable of all kinds.

To describe all would make an interesting volume; but taking the studio first, where the sale is to be held, a feature here is the wonderful semi-circular settee made to fit the apse, to the same design as used by Sir Lawrence for the late Mr. Marquand's Greek music room in New York. It is of coromandel, ivory, ebony and other precious woods, the ends of cedar, decorated with scroll designs, inlaid raised ivory and mother-of-pearl, and having swan's head terminals and carbuncle eyes. It is upholstered in yellow Morocco, with alternate panels of fine embroidery.

Here also is the famous "autograph" piano, made by Broadwood about thirty years ago, from designs by George Fox, under the supervision of the artist himself. Music was one of his greatest pleasures, and it was his delight to receive the most eminent executants, such as Paderewski, Sarasate, Joachim, Melba and a host of other instrumentalists and singers. Every one inscribed his or her autograph on parchment panels fitted inside the cover of the piano, and among its beautiful ornamentations is a silver bas relief panel by G. B. Amendola, representing the head of Orpheus and his lyre floating on the waves.

There is also a wonderful Moorish cabinet of mother-of-pearl inlaid with tortoise shell panels, designed in Arabesque, with scroll top, and two doors, standing sixty-six inches high. In the gallery are a fine old Italian commode of ebony inlaid with etched ivory, in devices of masks, birds, flowers and scrolls; a winged settee of seventeenth century design, upholstered in old crimson silk velvet, and a massive walnut and inlaid shaped table, with three extra leaves, on finely fluted carved arch stretchers supported on twelve columns, spirally fluted with shell terminals.

In the dining room are a valuable old Portuguese seventeenth century cabinet of oyster shell walnut, inlaid with various colored woods and ivory in geometrical devices, mounted on a stand with turned column supports and stretcher rails; an old Italian seventeenth century walnut and inlaid table carved in high relief with acanthus leaves and other foliage, and a rare old Flemish early seventeenth century refectory "withdrawynge" table, with supporte formed as Renaissance arches.

The collection of paintings, of course, includes many by Sir Lawrence himself, one of them being his last work, "Preparations: In the Coliseum," 60 inches by 31 inches, characteristic in subject and treatment, but there are few collections of greater interest in modern art than the forty-five panels in the hall, each done by a personal friend of the late artist, one of the most wonderful tributes of regard ever known. They are all of uniform size, 32 inches in length. They include "The Bath of Psyche," by Lord Leighton; Anna Alma-Tadema's "Flags;" "Temple at Philae," by the Hon. John Collier; "Lions," by Briton Riviere, "Valley of Sweet Waters," by Sir Alfred East; "Silver Birches," by John MacWhirter; "Wild Roses," by Alfred Parsons, R.A.; "Poplars and Sheep," by H. W. B. Davis, R.A.; "A Christian Martyr," by Herbert Schmalz; "The Bathers," by J. R. Weguelin; "Sunset," by David Murray, R.A.; "Indian Water Carrier," by Val Prinsep; "Venetian Girls," by C. Van Haanen; "Grecian Moonlight," by Sir Edward J. Poynter; P.R.A.; "A Javanese Dancer," by John Sargent, R. A., and a study for "The Ancient Mariner," by Paul Falconer Poole, presented to Sir Lawrence by the late George Aitchison, R.A.

In the Dutch room and bedchamber adjoining are to be seen some fine pieces of old furniture. One is a winged easy chair of late seventeenth century design upholstered in red silk velvet with old appliqué borders, on walnut club legs and stretchers; two fine Charles II. chairs, carved with crowns and foliated scrolls; an old Dutch coffer of ironwood relieved with ebony mouldings; an old Flemish seventeenth century linen press of carved oak inlaid with ebony, and an unusually fine early seventeenth century Flemish oak bedstead with panelling and moulding, inlaid with marqueterie in holly and ebony, carved with a figure of the Virgin and Child, the canopy adorned with masks in bold relief inscribed "Anno 1608." The contemporary cloth hangings are of appliqué velvet and silk embroidery.

Among the Flemish seventeenth century tapestries there is a large panel, 16 feet 7 inches by 7 feet 9 inches, depicting an archery party in wood and distant landscape seen between the trees. An upright Chinese panel of dark blue silk is beautifully embroidered with a figure of the God of Longevity, with staff holding a persimmon and sacred stag running at side; and an old Japanese four-fold screen, which Sir Lawrence got from the Lord Leighton collection, is painted with storks on a gold ground by Kano Baiun, and stands 72 inches high.

Of other objects of art there are hundreds, every one testifying to the taste and discrimination of the late artist, including many beautiful pieces of Chinese porcelain of the Kang-He and Kien Lung periods, Japanese carvings, old French caskets, snuff boxes and some fine examples of old English silver.

* * *

Another of the many interesting art sales of the year is announced to take place at Christie's between June 10 and 16, when the notable Oppenheim collection of French furniture, objects of art and pictures will be dispersed. Though it cannot be compared with the Taylor sale in the same rooms last year, which realized nearly $3,000,000, nor the Doucet sale in Paris, still the late Mr. H. M. W. Oppenheim had a faculty for buying what every dealer of repute wants to-day, for he possesses many of those works of art now, rapidly becoming rarer.

Among the Sèvres porcelain, with which the first day of the sale opens, there is a fine pair of Eventail jardinières, by Viellard, dated 1757, 7½ inches high and 7¾ inches wide, painted with children, trophies and cottages, in landscapes, in oval panels, on a gros-bleu ground marbled with gold. Prominent among the Dresden groups and figures there are a Meleager and Atalanta, 11½ inches high, in which Meleager is shown presenting a head of the Calydonian boar to Atalanta, and a dog at their feet. The figures are supported on an octagonal plinth modelled with a white trophy in relief, and another pair of figures of a lady and gentleman, wearing flowered costumes, holding oval baskets and seated on rockwork plinths.

The Chinese porcelain includes a celadon vase, twenty inches high, of oviform shape, composed of coarse celadon crackle of the Ming period, with Louis XV. ormolu mounts. A pair of famille-noire vases, with Louis XV. ormolu mounts, are composed of Chinese porcelain of the Kang-He period, enamelled with peonies and other flowers in famille-verte on a ground enamelled black. There are also several sets of mazarin blue vases, bowls and covers of the Kang-He and Kien-Lung periods.

A pair of famille-rose mandarin jars and covers, fifty-two inches high (Kien-Lung), are enamelled with Ho-ho-birds, peonies, rooks, magnolia and other flowers and flying birds. The shoulders are decorated with a diaper pattern in pale blue and enriched with variously shaped panels of river scenes, the covers surmounted with gilt figures of kylins.

There are numerous other very good specimens of Chinese porcelain, including pairs of powdered blue and famille-verte bottles, famille-verte canisters, Nankin vases and famille-rose cisterns of the Kien-Lung period.

There are other objects of Chinese art, such as cups and bowls of jade, a bronze group, twenty and a half inches high, depicting a sage riding a pack ox, a koro and other objects in cloisonné enamel, some pieces of mounted Japanese porcelain, including three pottery figures, seven inches and four and a half inches high, mounted on Louis XVI. ormolu plinths and jardinières of Satsuma ware, mounted with ormolu.

A feature of the French furniture will, perhaps, be found in a suite of Louis XV. tapestry furniture. The Beauvais tapestry, with which the framework of the settee and chairs are upholstered, depicts hunting and hawking scenes and subjects from Aesop's Fables in borders of scrollwork festooned with flowers woven in colored silks. There is another large settee of Beauvais tapestry with a bold design of flowers and foliage, introduced among which are figures, squirrels and birds, the whole woven in colored silks on pale blue background; and still another smaller, with a basket and bouquets of flowers in arabesque borders festooned with flowers, woven in colored silks on cream ground.

A Louis XIV. four leaf screen, sixty-three inches high, has its twenty-two and a half inch panels finely painted in oils, after the manner of Watteau, the subjects representing a lady and a gentleman dancing, with a hurdy-gurdy player sitting under a tree; a courtier and lady in a landscape; a lady singing, with gentleman accompanying her on a flute; and "The Swing."

A pair of Louis XV. encoignures, thirty-six inches high, twenty-nine inches wide, stamped J. Dubois, ME., have doors formed of Japanese lacquer with mountainous landscapes, the trees and buildings in gold, slightly heightened with red, in black ground.

A Regence fauteuil of gilt wood is covered with Beauvais tapestry. A Louis XV. secretaire, designed in the manner of David de Luneville, has a cylinder front enclosing writing table and panels inlaid with festoons of flowers and sprays of foliage, executed in light wood stained green on a dark satin wood background in mahogany borders. A Louis XV. parqueterie commode, constructed of oak, is entirely veneered with tulip and kingwood, and inlaid in a trellis and cube design; and among other French decorative objects are a pair of Nevers-ware vases, marbled to represent agate, on ormolu mounts.

AMERICAN HOSTESSES ARE PROMINENT IN THE BRILLIANT DAYS IN LONDON

LADY INVERCLYDE

THE DUCHESS OF PORTLAND

LADY DALKEITH

With the King and Queen at Home the Season Once More Swings at Its Height.

(Special Dispatch.)
LONDON, June 7.

THE royal standard once more is flying over Buckingham Palace and save for brief intervals will be seen there throughout June. Since returning from Germany the King and Queen have been enjoying a few days' rest, but the coming weeks will see both very busy.

Although the heat has been tropical society has been busy from day dawn, with concerts, theatricals and musical and other at homes going on every afternoon.

There have been brilliant audiences at the Royal Opera and His Majesty's Theatre, where the production of "Ariadne in Naxos" was the operatic sensation of the week. The King and Queen have not been at Covent Garden yet, but the royal box has always been occupied. King George lent the box to Prince and Princess Alexandra of Teck, when Signor Caruso sang in "Aida" to a crowded house, from which most went on to dance, the chief event being the dinner and dance given by the Duchess of Marlborough and the royal ball by ord and ady Inverclyde.

Another American hostess who gave a brilliant ball was Lady Barrymore, at the Ritz Hotel, many coming from other dances in time for the kidney and bacon breakfast in the small hours.

A BRILLIANT MATINEE.

The Duchess of Marlborough, the Countess of Desart, Countess Pappenheim, Edith Countess of Hardwicke, Lady Maud Warrender, Lady Loudesborough and Lady Naylor Leyland were among the distinguished persons present at the matinee at the Court Theatre in aid of Lady Chichester's hospital at Hove. The programme included a favorite with English amateurs, a pantomime rehearsal in which Lady Alington appeared, and "A Bit of Old Chelsea," in which Lady Susan Fitzclarence played. Others acting were Mr. and Mrs. Noel Curtis-Bennett, Mrs. Walter Reubens and Miss Eva Stanford. The programme sellers were some of the most charming professional actresses.

Though with the exceptions mentioned the leading hostesses have not yet arranged the dates, it is believed there now are prospects of some brilliant balls toward the end of June and early in July.

Lady Dalkeith is mentioned as one of the royal hostesses who will give a ball this month at Montagu House with the King and Queen present.

The Duchess of Portland will give at least one ball, but this and a semi-political reception on June 17 probably will be all she will do this season.

Another pretty American hostess who has had several successes in past seasons, Mrs. Ker Smiley, will entertain again this season in her Belgrave square house, which since Mr. Smiley purchased it from Mrs. Meeking has been thoroughly renovated and now is considered to be one of the most comfortable and complete in the square.

There was great disappointment at Bridgewater House, the residence of the Earl and Countess of Ellesmere, where a large and fashionable audience gathered in the expectation of hearing the Marchionesse of Dufferin, who before her marriage was Miss Florence Davis, of New York, sing for the benefit of the funds of St. Andrew's Church, in Well street. Princess Christian and Princess Victoria of Schleswig-Holstein were present, but the Marchionesse, who is a beautiful singer and is rarely heard in public, was unable to appear. The Countess of Limerick, one of the finest of amateur pianists, contributed to the excellent programme.

The Hon. Mrs. Anderson, the Hon. Faith Dawney, Mr. Geoffrey Campbell and Mr. E. B. Alderson were among the amateurs who gave the first of a series of performances of "The Country Mouse" in Kings Hall, Covent Garden, recently in aid of the Victoria League. Lady Jeanne Plydell Bouverie conducted the ladies' orchestra.

Many Persons Returning from Their Continental Automobile Tours Will Stop in London.

THE POPULAR TERRACE.

Another sign that the season actually is in full swing is that the terrace of the House of Commons is now open for afternoon tea—an occasion which usually marks the opening. The season in a parliamentary sense has been advanced this year by the fine weather, and the terrace has been crowded every afternoon, presenting a pretty summer picture. About five hundred teas are served daily.

In the London season the terrace is reckoned the most popular afternoon rendezvous, catching the cooling southwest breezes and also affording a fine view of the river. The socially inclined take to tea their friends, and the more serious minded members of Parliament keep fit by walking up and down the terrace. For that reason it is called the Parliamentary Quarterdeck.

The whole of the royal family is much relieved by the excellent progress of the Duchess of Connaught, who soon will be removed to Bagshot Park.

The King will follow King Edward's time honored custom of giving a dinner to the members of the Jockey Club on Derby Day. The Prince of Wales also is expected to be present, though he is not yet a member, as the Queen does not desire that he be elected until he has turned twenty-one, but the Prince is allowed to go about more, coming up to London every Saturday and Sunday, and is quite settled. He will be present at the dedication service of the Knights of the Bath in the Henry VIII. chapel of Westminster Abbey, when he will be created a Knight of the Grand Cross of the order.

THE PRINCE'S NAPIER.

The Prince, who has grown much in the last few months, is losing much of the shyness which formerly characterized him, and in many respects it is remarked that he is becoming extremely like King Edward in his youth.

The Prince of Wales at last has won the gratification of a wish very dear to his heart, the King having assented to his owning an automobile. It already has been cabled to America how the Prince paid a surprise call at Althrop Park and took Lord Spencer's daughters for a drive, but it was not until the Prince had proved to his father and mother that he had become a thoroughly efficient driver and had acquired a sound knowledge of the mechanism that the King sent to him at Oxford a powerful Napier. The car arrived in the absence of his father and mother in Berlin, and the first thing the Prince did at the Palace, it has now been revealed, was to rush to London and take his sister Mary on a ninety minutes' spin. Several times the Prince opened the throttle and "let 'er go," much to the Princess' delight.

Princess Mary a Big Girl Now

She Is Proud, Too, and Has an Idea She'd Like to Go Up in an Aeroplane.

(Special Dispatch.)
LONDON, June 7.

BEING now in her seventeenth year Princess Mary has put up her hair, though not quite in the orthodox sense. It is made into a plait and tied up with a large bow of black ribbon on her neck. And very charming she looks, the new style giving the first suggestion of the young lady to be.

According to all accounts Princess Mary was very excited over the fresh arrangement of her beautiful tresses, for putting up the hair is a great landmark in a girl's life. It is nearly as important as putting on her first trailing dress or receiving her first love letter.

Of all the royal family none takes a more hearty interest in airships and air heroes than Princess Mary, whose great ambition is, it appears, to fly. She made a tour of her own of the airsheds at Aldershot and was fascinated by all she saw.

Princess Mary has her own suite of rooms now at Buckingham Palace. They are those which used to be occupied by her aunt, Princess Victoria, and have a charming view up Constitution Hill. They have been considerably altered for her, made all pink and rosy, with white walls and woodwork. There is a school room where she pursues her studies and does her reading, and a delightful room it is, with its chintz covered chairs and bookcases filled with volumes all bound in rose leather with the Princess' own book plate within.

Ruskin is one of the authors the Queen approves for her daughter's perusal, and every one of his works finds a place on those shelves. Princess Mary is as fond of her camera as the rest of the family, and she does not shirk developing her pictures herself. In fact she regards it as the best part of the fun.

The Prince of Wales, if custom and etiquette allowed him, would reside with the King and Queen until he marries. He is reputed to be very shy on the subject of matrimony. Indeed, it is said of him that the less he has to do with ladies the better he likes it. He will talk eloquently about war, about aeroplaning or sport of any kind, but the moment the fair sex is mentioned he is boyishly reticent. There is one exception, however. The tactics of the suffragettes are said to cause a merry twinkle in his eye.

The Prince is to pass another year at Oxford and not go to Trinity College, Cambridge, as had originally been contemplated by the King. The heir apparent, who has been enjoying the best of health since his return from Germany, will remain at Magdalen until the end of the summer term of 1914. As soon as he leaves Oxford preparations will be made for his proposed visit to Canada, but how far it will be possible for him to visit other parts of the British Empire remains to be seen.

MAIDUN CASTLE IS NOW THE PRINCE'S

(Special Dispatch.)
LONDON, June 7.

ONE of the most interesting relics of prehistoric times has just come into the possession of the Prince of Wales as Duke of Cornwall, in the shape of Maidun Castle, the famous prehistoric encampment near Dorchester.

The encampment was offered for sale at auction, and has been bought by the Duchy of Cornwall at the instigation of the King. It first came into the market in July last, when it was offered at auction in Dorchester. The bidding started at $5,000, and the property was withdrawn at $7,125.

Maidun Castle, according to Mr. Sydney Heath, the great authority on the South Devon and Dorset coast, is "a memorial that has remained in almost perfect condition to our own day, whereas its only rivals in interest and importance, Stonehenge and Old Sarum, have but few fragments to show for their greatness. All our leading authorities now agree that this stupendous stronghold, earthwork or oppidum is not only of pre-Roman date, but that it was occupied, and probably strengthened by the Durotriges, the race of immigrant Belgae who wrested it from older Celts, who named it Mai Dun. It was certainly used by the Romans, who strengthened it with Purbeck stone, and for whom it provided something in the nature of a summer camp."

GOOD SHOOTING SEASON EXPECTED

(Special Dispatch.)
LONDON, June 7.

THERE is a confident ring in the reports that are coming in from the keepers on both the Highland and Lowland grouse moors in Scotland. While the gloomy season has been long and stormy, it was neither hard nor severe. There was also a complete absence of low temperature, although hillside and corrie were covered with snow. As a result grouse were occasionally on short rations, and a very considerable number of birds whose health was not up to the standard succumbed. But the weaklings are far better away, and even on the moors that have been most badly bit there is still an ample stock left. Much now depends on the weather, and should next month prove propitious, a good season will be practically assured.

Judging from reports, partridges, too, are quite as abundant as they were during the last two seasons, and certainly much more in evidence than they were, say, nine or ten years ago. As far as can be learned they have suffered no serious setback within the last few months. The mortality is reported to have been much lower among the brown birds than the red, the reason being that the former occupy the sheltered straths, where the snow does not lie any time. As a result their food was more certain than the food of the grouse, and they seem in good condition for the rearing of young broods.

Horse Show at Olympia To Have Unique Features

No Set Scenes, but All Open Spaces Will Be a Fairyland of Flowers, and Hedges and Gates Will Be Portable to Insure More Room for Harness Classes.

AMERICANS AND CANADIANS ARE DIRECTORS

(Special Dispatch.)
LONDON, June 9.

ARRANGEMENTS proceed apace for the seventh annual International Horse Show at Olympia, which opens on June 12. As in previous years, King George is patron, and there are four American directors, including Mr. Alfred G. Vanderbilt, three from Canada and France, while among the English directors are Lord Lonsdale, Lord Redesdale, Sir Gilbert Greenall and Mr. Walter Winans.

The prize list shows that about $50,000 will be awarded, more than $30,000 of this sum being in cash. There are 111 classes, ranging from the "Coaching Marathon" to costers' turnouts, and from military jumping displays to a fire brigade competition.

A unique feature of this year's show will be the scheme of decoration. There will be no "English Village" or other set scene, but the whole place will be a perfect fairyland of flowers, while round the rear of the seats will be a floral promenade. More than twenty thousand yards of blue green silk are being used for the decoration of the roof, the lighting requires eighty arc lamps, and besides thousands of artificial roses enormous numbers of real plants and flowers will be used.

An innovation will be the total absence of all fixed jumps in the arena. There will be no water jump, and all hedges and gates and even the ornamental flower beds will be portable. This is to insure more space for the harness classes, the tandems and the four-in-hands. The spectators will find that this plan also provides a better view of the general operations.

Each afternoon and evening a party of fifteen Arab chieftains will give a "powder play and fantasia," mounted on wonderful Arab horses, with harness and accoutrements of rare value and beauty. This is in no sense a "circus turn." These Arabs are distinguished personages in their own country, and are over here as guests. They come from South Algeria, from the heart of the desert, more than three hundred miles from civilization.

All the entries have not yet been tabulated, but there is evidence that the list is bigger than in former years. The jumping classes are particularly full. The Edward VII. $2,500 gold challenge cup is always an interesting event. It is competed for by teams of three officers from various nations and must be won three times to give permanent possession. Russia now holds it, but more than a hundred British officers are now in training at Netheravon and Woolwich in the hope of bringing it back to England.

The three largest exhibitors are Miss Mona Dunn, who is only ten years of age and has entered thirty-five hackneys and jumpers; Judge Moore, with forty of his American horses, and Mr. Walter Winans, who is showing trotters, hunters, jumpers, hackneys, ponies and harness horses in singles, doubles, tandems and four-in-hands. Mr. A. G. Vanderbilt will take part in the "Coaching Marathon," for which there are already twelve entries.

All Berlin Sees Fete for Red Cross Society

Gardens of the Home and Foreign Offices Thrown Together for the Occasion, at Which Royalty Attends and Play Is Produced in Natural Theatre.

(Special Dispatch.)
BERLIN, June 7.

SOCIETY, still under the spell or gala atmosphere, responded with enthusiasm to the brilliantly successful garden fete organized by Countess von der Groeben for the benefit of the German Woman's Auxiliary Red Cross Society.

Throngs of smartly dressed women and officers in uniform grouped about the tea tables or promenaded under the fine old trees in the gardens of the German Home Office and the Foreign Office, which had been thrown together for this occasion. Two military bands provided an accompaniment to the lively exchange of gossip reminiscent of incidents connected with the royal wedding. The thoughtfulness of Princess Victoria Luise in instructing the wealth of flowers used in the decoration of the palace to be distributed among the hospitals is much commented on.

The chief guest was the Crown Princess, who was looking well in a dress of white tulle and a white satin coat, with a large white hat veiled with tulle. With her was the Grand Duchess of Mecklenburg-Schwerin and the latter's sister, Princess Olga, the Duchess of Brunswick and Lunenburg, Prince and Princess Eitel Friedrich.

Prince and Princess August Wilhelm, the latter in dark blue, formed another group, which included Duke Johann Albrecht, Regent of Brunswick, and the Duchess, Prince Oscar of Prussia and two younger sisters. Princess August Wilhelm conducted Countess von der Groeben, who was in pale gray charmeuse, with gray feathers in her hat, and wearing a pearl necklace.

PLAY IN NATURAL THEATRE.

The royal party proceeded to a natural theatre, where the company from the Deutsches Theater was giving scenes from the Reinhardt production of "A Midsummer Night's Dream."

The sale of flowers was presided over by Frau Ellen von Siemens, in pale mauve and a hat of the same color, who had efficient helpers in Countess Roedern, Señorita de Quesada and Fräulein von Carnap.

A spirted little pony, one of the many novel gifts presented by the committee, was auctioned off and captured by Prince Wrede. The latter, with Princess Isenburg, Countess Bismarck, Countess Colorado-Mannsfeld and the Princess of Pless, were in charge of the tea tables. The Princess of Pless, in black and white under a long coat of ermine, was remarkable for the pearls she wore, which attracted much attention. She is still a semi-invalid, although taking part in all festivities this season, and on such occasions is wheeled about the grounds in an invalid's chair.

Among the other well known persons I noticed the Colonial Secretary, Dr. Solf; the Austro-Hungarian Ambassador, Count Von Szogyeny-Marich; the Prince zu Wied, Mr. and Mrs. Joseph Clark Grew, the latter in a blue flowered chiffon tunic over an underdress plisse of mousseline de soie; Frau Anna von Rath, Señora de Quesada and her niece, Señorita Angela de Quesada; Countess Sierstorpff, Countess Ernst Wedel, Frau von Below and her son and Frau von Bethmann-Hollweg, whose daughters were selling baskets of flowers.

Among the Americans present were Mrs. Eginston and her daughter, Mrs. H. C. Whitehead; Mrs. Anna McElwee, Mrs. Emily Curtis, Miss Agnes Kerr and Miss Lela Heitmann.

The fête resulted in a profit of 18,000 marks ($4,500), which was turned over to the coffers of the Red Cross Society.

ARGENTINE MISSION FETED.

The Argentine special mission is being much entertained. A large reception was given for its members by Dr. Luis B. Molina, the Argentine Minister to the German court, which was largely attended by the Diplomatic Corps. Frau Wilhelm Staudt also gave a dinner of sixty covers for the Argentine mission at her home in the Thiergarten strasse.

Dr. Gonzalo de Quesada, the Cuban Minister here, is the author of a book on "The German Fatherland," which, as the title suggests, deals with manifold phases of German life and which is one of the most exhaustive works on Germany which has appeared in the Spanish language.

The Pied Piper of Hamelin could not have exercised a more potent spell than the announcement that the bridal finery and the wedding gifts of Princess Victoria Luise were to be displayed at the Arts and Crafts Museum here for three days. An eager crowd of women and young girls besieged the doors, and for once the Berlin police were caught off their guard. They had failed properly to gauge feminine curiosity.

Thousands blocked the streets near the museum before tardy police measures were initiated to establish order. It is estimated that more than 25,000 persons viewed the display and more than that number were turned away.

STAFFORD HOUSE PICTURES TO GO

(Special Dispatch.)
LONDON, June 7.

Since it was announced that Stafford House had been sold by the Duke of Sutherland the question is being asked:—"What will be done with his wonderful collection of pictures there?" Many have been or are to be removed to Dunrobin, the Duke's place in the Highlands, and the remainder are to be sold at Christie's next month. How many will be dispersed has not yet been announced, but the pictures at Stafford House, which originally numbered about three hundred, included some of the greatest Italian and other masterpieces.

Most of the gems came from the collection of the Regent Orleans. When the Regent's collection was dispersed, some generations ago, an ancestor of the present Duke of Sutherland picked up the bulk of them for a mere song. Those he bought are now to be found either at Stafford House, or in its next door neighbor in St. James', Bridgewater House, the town residence of the Earl of Ellesmere. Lord Ellesmere is also a descendant of the purchaser of the Regent's pictures.

It is reported that the treasures removed to Scotland a few days ago were worth $1,000,000, though if they had come to the saleroom there is no calculating how much more they might have realized.

The Dog Day Trio.

Cincinnati Enquirer:—

They're coming, they're around the corner now,
A week or two and they will make their bow;
The fool who rocks the boat, the slim capsized canoe,
The man who asks if it is hot enough for you.

AUSTRALIANS LEAD MONTREAL

CRICKET SCORE ONE SIDED, 287 TO 85 IN FAVOR OF ANTIPODEANS.

Montreal, June 13.—Although today's score of 287 to 85 in the cricket match between the Australians and Montreal was not exactly flattering to the home side, the visitors did not amass quite such a large total as was generally expected.

Goodman carried off the bowling honors, taking his four wickets for the comparatively modest figure of 52 runs, while Lane and Hart helped materially. Lane would have figured more successfully in the analysis had he not encountered some bad luck, for not only were several chances missed off his bowling, but in the first over a ball of his struck the wickets without dislodging the bails.

The game started at mid-day on the M. A. A. A. grounds under none too favorable circumstances. The light was bad and there were several showers of rain, one of which was sharp enough to stop the play for a few minutes.

The scores were as follows:

Australians:

E. R. Mayne, b. Hart	50
H. L. Collins, c. and b. Goodman	48
C. G. MacArtney, b. Hart	57
J. Bardsley, run out	7
C. N. Crawford, b. Goodman	22
L. A. Cody, not out	59
G. Down, lbw, Goodman	7
A. Diamond, bowled Lane	4
S. H. Emery, lbw. Lane	0
G. C. Campbell, c. Baber b. Burgess	15
A. A. Hailey, c. Lane, b. Goodman	9
Extras	9
Total	287

Australian analysis: Lane got two wickets for 50 runs; Goodman 4 for 52; Burgess, 1 for 55; Hart, 2 for 50; Baber, 1 for 30; Wallace, none for 27; and Hawkins none for 8.

Montreal:

F. J. Goodman, c. Collins b. Mayne	13
C. E. Hawkins, c. Diamond b. Collins	4
E. S. Cameron, c. Crawford, b. Mayne	2
R. Malone, c. Diamond b. Collins	4
E. M. Thompson, c. and b. Hailey	18
E. J. Wallace, not out	20
W. C. Baber, b Emery	1
A. E. Ince, b. MacArtney	5
C. F. Lane, b. MacArtney	4
A. T. Burgess, b. Emery	0
R. S. Hart, b. Emery	0
Extras	14
Total	85

NEW ENGLAND WEATHER.

Washington, D. C., June 13—Forecast: Northern New England, fair Saturday; cooler northwest portion; Sunday fair, moderate south and southwest winds.

ICEBERGS IN ATLANTIC CAUSE FOR CAUTION

London, June 13.—Shipping authorities consider that the Olympic's meeting with an iceberg 120 feet long a few hundred miles south of the scene of the Titanic disaster means that ice is coming down in a manner that behooves caution by mariners during the summer.

An expert at the Meteorological Office said:

"Icebergs persist in drifting down further every year, and the Atlantic Ocean may in the approximately near future become as cold as the seas that wash the shores of Greenland."

NEW VANCOUVER BUILDING COLLAPSES, ONE KILLED

Vancouver, B. C., June 31—With a crash that was heard for many blocks, three stories of a new four-story block near Main and Pender streets east collapsed at 10 o'clock this morning, killing Harry Anderson, a carpenter, instantly, burying two more in a mass of debris and injuring five others so seriously that they were taken to the General Hospital in an unconscious condition. The accident was caused by a defect in the concrete work at the Laen end of the structure. Three of the injured men taken to the General Hospital were bricklayers—A. Robinson, Tom Evans and A. Berle.

PLANNING MEMORIAL FOR RURAL DEAN ROBERTSON.

Cookshire, June 13—A movement is on foot here to erect a memorial to the memory of the late Rural Dean Robertson, whose death took place a short time ago. The project is sure to meet with success, as no citizen of this vicinity has taken a great reinterest in the welfare of the country than did the deceased gentleman.

As yet nothing definite has been decided upon as to what the nature of the memorial will be, but as one of Mr. Robertson's wishes was a brass lectern in the chancel, it is probable that this will be installed. The leading ladies' of the congregation have taken the matter up.

GERMAN IMPERIAL LOAN A FAILURE IN BERLIN

Berlin, June 13.—The attempt to place the new $12,000,000 four per cent Imperial loan and the Prussian loan of $43,000,000 has practically resulted in failure.

The subscription books closed yesterday. While no announcement has been made as yet of the exact amounts taken up, it is said that not more than 60 per cent of the loans was subscribed for.

In view of the fact that the Chinese loan of $30,000,000 was oversubscribed six times, the failure of the German loans would seem to indicate a lack of confidence in domestic loans. The speculative elements made no bids, despite the fact that the new loans were offered at 97.70.

ASTOR'S ESTATE IS $86,966,611

SAID TO BE THE LARGEST EVER APPRAISED IN THE UNITED STATES.

New York, June 13.—The estate of Col. John Jacob Astor, who perished in the Titanic disaster, was officially appraised this afternoon at $86,966,611, of which Vincent Astor receives $68,964,499; Mrs. Madeline Force Astor $7,678,896; Muriel Astor, $4,856,758 and John Jacob Astor, son by his second marriage, $2,922,672.

The estate is declared to be the largest one ever appraised in this country. The cost of determining its value was made remarkably low owing to an understanding by which the Astor estate bore one-half the expense and the State of New York the other half. This made it unnecessary for each side to employ a set of experts with a possibility of having to engage neutral appraisers in the event of a disagreement.

Aside from the announcement of the amounts that revert to the heirs, there are two outstanding features of interest in the appraisal.

One is an affidavit from the examiners that the property embraced in the ante-nuptial agreement for Mrs. Ava Willing Astor, amounting to about $1,738,000, which was to have reverted to her at the time of her husband's death, now terminates and goes to Vincent Astor for the reason that the youth's mother, although once Col Astor's wife, was never his widow. Mrs. Ava Willing Astor divorced her husband, whose legal widow is Mrs. Madeline Force Astor.

The second feature referred to concerns the inheritance tax of Col. Astor. The estate saved a large sum of money by paying $3,150,000 to the state last October, within six months of Col. Astor's death, this payment earning a 5 per cent rebate. The sum mentioned greatly exceeds any amount ever paid to any state as an inheritance tax, it is declared.

STEFANSSON NOT FIRST DISCOVERER

DENIES THAT HE WAS FIRST TO FIND THE BLONDE ESKIMOS IN ARCTIC.

Vancouver, B. C., June 13.—Attributing the discovery of the blonde Eskimos to Sir John Franklin and later to the Dease-Simpson expedition, Vilhjalmar Stefansson today denied being the first to discover the interesting people.

Stefansson will not visit the blonde Eskimos on his present expedition, but will go to the north, while Dr. Anderson's base will be in the country where the blonde Eskimo resides.

The Karluk will sign her crew tomorrow and the date of sailing is expected to be announced before the end of the week.

PRINCE OF WALES GOES TO CAMP AS PRIVATE

London, June 13.—The Prince of Wales will go to camp for a week as a private soldier on Saturday. His comrades, however, will not be Tommy Atkins. The prince is a member of the officers' training corps, whose curriculum includes a week annually under canvas under the same conditions as the enlisted men.

MISS GREEN MEETS MISS BROWN IN CHALLENGE ROUND

Philadelphia, June 13—Miss Dorothy Green, of the Merion Cricket Club, near here, defeated today Miss Edna Wildey, of Plainfield, N. J., in the final round of the women's national tennis championship in singles. The score was 6—2, 6—4. Miss Green will tomorrow meet in the challenge round Miss Mary Brown, of California, the title holder, for the championship.

TWO DROWN AT EDMONTON.

Edmonton, Alb., June 13—Robert Wilkinson, 35 years of age, and Chas. May, 30, were drowned in the Saskatchewan River here today by the upsetting of a boat in which they were crossing the stream. A. Mitchell, who was also in the boat, succeeded in reaching the shore. Both the victims were single men and so far as known have no relatives in the city.

DOCTOR DIES TRYING TO BRING PATIENT TO LIFE.

Utica, N.Y., June 13—Dr. George N. Denike of Clinton, died suddenly at his sanitarium in that village tonight while endeavoring to resuscitate a patient whose death occurred just previous. Dr. Denike was a Canadian, but had practiced in Clinton for twenty years.

PERSONAL.

Mr. E. E. Lepine of Joliette, is spending a few days in town.

Capt. Verret, Ottawa, deputy postmaster general, was a guest at the Chateau yesterday.

Mr. Horace Dussault was among the passengers who left on Thursday last for England by S. S. Empress of Britain.

YALE

Look for the Name Yale on Locks and Hardware

The worst thing about a spring door is the slam. Bad for the nerves and bad for the door. Yet without a spring, a door almost never gets closed.

The way out of it all is the Yale Door Check. It is a door closer without a slam. It closes a door quietly, but positively.

Your hardware dealer will show you the Yale Door Check. Yale Locks and Hardware sold in Canada are now made in Canada.

Ask for our book, "The Quiet Life."

AIR BRAKES FAILED TO WORK, SIX WERE KILLED

(Continued from Page One)

The car had been ordered burned by officials of the New Haven road. This was the regular procedure, he added.

"Is it the regular procedure before an inquest has been held?" asked the coroner.

"It is," replied Mr. Spock, "when the car in question is not directly responsible in the accident."

In response to further questions by the coroner Mr. Spock explained that the car belonged to the Pullman Company and was a wooden car but it was so badly wrecked that when the wreckers came to remove it they had to tear the superstructure apart to get it off the engine. It was simply a mass of wreckage and the company officials ordered it burned up, he said. This was simply following the regular procedure of all companies. It was not necessary to wait for permission from the Pullman Company. The railroad company, he said, had to bear the expense incurred.

The taking of testimony was then resumed.

Among the other witnesses called were Fireman Barry Smith, of the colliding engine, Thomas Dunn of New York City, conductor of the second section, and William A. Wilson of New York, baggage master on the second train. The testimony of Smith was corroborative of that of Doherty as to the airbrakes and the efforts made by the engineer to avoid the collision.

Conductor Dunn told briefly of the trip from New Haven, and while he was unwilling to say definitely whether or not the brakes were working properly, because he had not sufficient knowledge on that point, he did say it seemed that they were not responding as they should.

When the hearing adjourned for the day the coroner went to the railroad station to observe how the train came in today.

The inquest will be resumed tomorrow.

ROAD WOULD SADDLE BLAME ON ENGINEER

New York, June 13—A statement made by General Manager Bardo, of the New Haven road, after the close of the investigation at Stamford, was given out at the general offices of the road here. The statement said:

"An investigation was conducted by the railroad today, attended by Inspector Howard, of the Interstate Commerce Commission, and Chief Inspector Elwell, of the Connecticut Public Utilities Commission. This investigation is in addition to the investigation now being conducted by Coroner Phelan, of Fairfield County. Every indication at this time points to a complete disregard of signals on the part of Engineer Doherty.

"A further investigation will be conducted by the inspectors of the Interstate Commerce Commission and the Public Utilities Commision in New Haven on Monday next, and a public hearing by Chief Inspector Belknap, of the Interstate Commission, at Bridgeport on Wednesday next.

"In the meantime exhaustive tests will be made by a board of experts appointed by the railroad to determine, beyond doubt, the efficiency of the brakes, which, from the testimony of engineers in charge of the train both before and after the accident, were efficient in all respects."

O. P. Sauer, assistant superintendent of the Pullman company, said tonigth at his offices at the Grand Central Station, that his company had supplied the New Haven with something like 75 steel Pullmans under the contract entered into last January. The road, he said, had between 160 and 170 Pullmans, all of which except the 75 mentioned were of the old type and of wooden construction. Steel cars were being supplied to the road as quickly as they could be made, he said.

Engineer Doherty was arrested tonight charged with manslaughter, upon a warrant issued by Assistant Prosecuting Attorney F. W. Huxford. Bail was fixed at $5,000 which was furnished by John Dillon of New Haven, his brother-in-law.

At the Stamford Hospital tonight it was reported that all the injured were resting comfortably.

FACTS AND PROOF

To Establish that the Firm of J. E. POULIN

Is carrying on a most Prosperous Automobile Trade and Represents the Best Firms

Among others The Cadillac, The Kissel Car, and the popular Ford.

Since two months, 14 Cadillacs have been sold and delivered. Among others a magnificent roadster has been purchased for the Provincial Road Department for the inspection of roads throughout the Province and another to an important manufacturer at Levis, who also has to travel throughout the Province of Quebec.

It is only after seeking information from those who know the value of a car, that the choice was made

At the Cadillac workshops no car is allowed out before being thoroughly inspected, undergoing a minute inspection and being well tried by experts.

The Cadillac cars give satisfaction 100 times out of 100. As a proof of what we advance, we may state that the Fre Department of Montreal preferred the Cadillac to any other car, and two months ago purchased one tourist and three roadsters, and after having satisfied themselves of the superiority of these machines, gave an additional order on Tuesday last, for four other cars.

138 Cadillac Cars have been sold in Montreal since the commencement of this season; and at the present time over 500 Cadillacs are owned in the Metropolis.

A large manufacturer of this city has just purchased from the Poulin firm this week a magnificent "Kissel Car," 6 cylinders, 60 H. P.

The buyer of one of Quebec's most important dry goods stores also purchased a "Kissel Car" roadster, 30 horse power.

The popular "Ford" is also in great demand judging from the fact that the Poulin firm sold 61 of these machines in the district of Quebec alone.

735 Ford Cars, during the past three months have come out of the Ford shops daily.

The qualificative "Popular" is therefore an appropriate expression.

What makes the success of the Poulin firm is the fact that they give perfect satisfaction, and the cars are delivered with great rapidity. There is no need of waiting for your car, as you can select one from 22 we have in stock and 6 Fords and 2 Cadillacs will arrive here on Monday or Tuesday next.

It is therefore necessary to pay Mr. Poulin a visit if you want a good car and immediate delivery.

J. E. POULIN,

319 St. Joseph Street

MILITANTS BUSY IN EDINBURGH

RAID MAIL BOXES, PLACE CLOCK WORK BOMB IN A RAILWAY STATION.

Edinburgh, June 13—The militant suffragette campaign was resumed here tonight with the biggest raid that had yet been made on mail boxes. Twelve of these receptacles from one end of the town to the other were attacked. Chemists test tubes with a colorless acid which caught fire when the glass was broken, were dropped into the boxes by the suffragettes and many letters were badly damaged.

A bomb, sewed up in an oil soaked cushion, was found tonight in the railway station at Eden Park, Kent. Attached to the bomb was a clock, which was time to explode at 2 o'clock Saturday morning. The clock had stopped when the bomb was discovered. Kerosene had been used to saturate the cushion enclosing the bomb and if the cushion had become ignited the station, which is a wooden structure and situated in a lonely spot, doubtless would have been burned down.

BIG POSTCARD SCHEME FOR KAISER'S ANNIVERSARY

Many suggestions have been made in the Fatherland as to what form the national thanksgiving for the 25th anniversary of the German Emperor's accession to the throne shall take.

One writer proposes that the postoffice shall supply a special form of postcard with the address of his Majesty on one side and on the other a suitably worded greeting, and that it should be on sale everywhere at a penny.

"I estimate," says the writer, "that of 64,000,000 inhabitants, one-third will take part, or at least 20,000,000. As each postcard costs the postoffice only a half-penny, there would be a profit of 20,000,000 halfpennies, or, roughly, £41,650. Possibly the cards could be allowed to go as printed matter, in which case there would be a profit of ¾d, and an extra £20,000."—Tit-Bits.

A GOOD PARROT.

Purchaser—But is the parrot a good bird? I mean, I hope he doesn't use dreadful language.

Dealer—'E's a saint, lady, sings 'ymns beautiful. I 'ad some parrots wot used to swear something awful, but, if you'll believe me, lady, this 'ere bird converted the lot.—Tit-Bits.

JAPAN'S PREMIER LOOKS FOR PEACE

REGRETS CONTROVERSY OVER ALIEN LAND LAW AND EXPECTS NO TROUBLE.

Tokio, June 13—Count Gombei Yamamoto, the Japanese Premier, today declared that he deeply regretted that the controversy over the question of the California land ownership legislation was still unsettled. He was addressing a rather of Japanese journalists on the subject of foreign politics.

The Premier said that with due regard to the importance of maintaining peace and friendship between Japan and the United States, the Japanese government was taking appropriate steps and looked confidently for an amicable settlement.

The Premier also announced that the government was introducing administrative reforms which would effect an economy of $35,000,000.

HIS OPINION.

Private Jones Did His Best to Help the Captain Along.

A regiment in India was about to be inspected by a General just out from England, who was particular that the Captain of every regiment should know the name of every man in his company, and also where he came from. Now, it happened that a Captain, in this particular regiment had just returned after a twelve months leave of absence, and during his absence many changes had occurred.

On the morning of the inspection the Captain addressed his company as follows:

"Now, men, the General is particular that I should know every man's name and also to what county he belongs. Now, there are many here who are strangers to me, so whatever I say your names are or where you belong to, mind you, don't contradict it."

The General at length arrived, and as he passed down the lines he stopped before a man and said to the Captain:

"This is a smart looking soldier. What is his name?"

"Brown, sir" replied the Captain.

"Where does he come from?"

"Wiltshire, sir."

The General passed on and soon stopped before another man.

"What's this man's name?"

"Jones, sir."

"Where does he come from?"

"Devon, sir."

"Ah, I'm a Devonshire man myself. Fine country is Devon, is it not, Private Jones?" said the General.

Private Jones looked startled for a moment, and then in a broad Irish brogue replied:

"There ain't a foiner counthry in the wurruld, yer 'onner."—London Weekly Telegraph.

COMMERCIAL NEWS

NEW YORK STOCK MARKET.

McDonald & Lesperance, stock brokers, private wire to New York and Montreal, Hochelaga Bank Building. Telephone 1227.

(Canadian Press Service.)

New York, June 13—The recent violent breaks in stocks and the equally swift recovery yesterday were followed today by slower and calmer trading, with some further progress upward. Final changes in most cases, however, were small. The most urgent demands for short covering seemed to have been met yesterday, and while there was a further retreat today by the bears, they were able to buy in their stocks at better advantage. Investment buying, which was a feature of yesterday's market, fell off considerably today. A few stocks, including Reading, Union Pacific, Amalgamated and American Can showed substantial gains at times, but the movement in general was narrow. New Haven, which was affected unfavorably by yesterday's wreck, was exceptionally weak, touching a new low figure at 99¼.

In spite of the slackening demand sentiment was more cheerful than had been the case for a long time. Not only here, but in London a better feeling prevailed. There was some buying here for London account. The favorable deductions drawn from the change of yesterday were reinforced by the events of today, particularly in the money market. Time rates were notably easier and several of the leading banks were in the market as lenders of 60-day and 90-day funds, although over the year money was in still scant supply. A spirit of caution still prevailed, however, and speculative interests wished to ascertain, before making extensive commitments, whether a definite turn in monetary conditions had come. Forecasts of the bank statement indicated that another addition to cash would be shown. The known movements of currency of the week indicated a cash gain of $8,000,000 or $9,000,000.

The bond market was firm. Total sales, par value, $2,648,000.

United States 3's advanced ½ on call.

NEW YORK CLOSING LETTER.

By private wire, to M. L. Dohan, broker, Dominion Building, St. Peter street. Phone 4748.

New York, June 13—In the late afternoon there was a sharp spurt of bullish activity which carried a number of the active stocks up to new high figures, but realizing was still observable in many parts of the list. Conservative interests thought the market would be all the better for the period of inactivity.

The Reid-Moore issues were particularly strong. This refers to Reading, Lehigh and Rock Island stocks, as well as American Can, all of which reached new high figures for the present upward movement.

Interboro-Metropolitan preferred made a very good response to the reports published by Dow, Jones & Co., to the effect that some of the directors favored placing the stock on a 5 per cent basis and the declaration of an extra 1 per cent on account of back dividends. These reports appeared to emanate from good quarters and the response made to them was regarded as circumstantial evidence of their truth.

The undertone of the market at the close was strong, with buying of a very good character, which will undoubtedly be followed by firmness during the first hour Saturday morning, with considerable realizing during the second hour's trading.

Total sales 517,700.

A CHALLENGE

We defy all the real estate firms of Lauzon to prove the contrary of what is affirmed here.

The lots of the Parc Levis are the nearest to the dry dock, the church, the convent, college, the Intercolonial station, and the Ruel factories than the lots of all the other firms.

The Parc Levis HAS FOR ITSELF ALONE the advantage to adjoin the government land and to be crossed from one end to the other by the aqueduct of the town of Lauzon.

PERSONAL

Mr. J. B. Trudelle, medical student at Laval University, Quebec, who passed with great success his final examination, enters at Hotel Dieu as house-surgeon.

Among the pupils to pass the Junior Exams. at the Dominion College of Music is the Misses Irene Place and Cecil Duquette, of Montmorency Falls, pupils of Miss Ricken.

The Misses Dorothy and Naomi Barrow and Master Charlie Craig, pupils of Miss Craig, have passed with distinction their musical examinations of theory and istrumental of the intermediary class, before the Dominion College of Music.

Dr. George J. Boyce, one of the house surgeons of the Washington Emergency Hospital, who has been spending some days with his parents, Mr. and Mrs. J. J. Boyce, and who has just completed his provincial licence examination, will return to Washington this afternoon to resume his duties.

Mrs. Fred Stockwell, of Danville, Que., is in town and registered at the Chateau. Mrs. Stockwell is here on a visit to her son, Major Stockwell, a rising young lawyer of Montreal, who is second in command of the Eleventh Hussars, and whose regiment is presently undergoing training at the military camp at St. Joseph de Levis.

WINDING UP ORDER.

A petition has been presented to Judge McCorkill by Mr. W. Stone Thomas, asking for a winding up order against Pratt Bros., whose head office is in Metapedia. The petition was granted yesterday and Mr. Raphael Nolin, of Cedar Hall, has been appointed provincial liquidator.

MINISTER HAZEN INSPECTS HARBOR

WITH HARBOR BOARD MAKES TRIP AROUND AND VIEWS WORK IN PROGRESS.

Hon. J. D. Hazen, Minister of Marine and Fisheries, arrived in Quebec yesterday morning and spent the day with President William Price and members of the Quebec Harbor Commission, taking information in regard to progress made and needs for the future development of the port.

President Wm. Price met the Minister on his arrival, and had a consultation in regard to the work that will be proceeded with. Later the minister, with the members of the Harbor Commission and its Chief Engineer, Mr. St. George Boswell, proceeded by special boat to inspect the property acquired by the Harbor Commission at Indian Cove, and observe its present utilization for the building of cut work masonry for the St. Charles bulkhead pier and docks to be built along the frontage of the River St. Lawrence west of Priests' wharf.

The party afterwards proceeded up the river as far as the bridge site, and on their return kept close to the Quebec shore to take observations of the work in progress by the Transcontinental Railway Commission and the location which it is proposed to build the car ferry landing, with docks for shipping, 2,000 feet in length on either side of the car landing.

The p resident and members of the Harbor Commission next visited the Louise Docks with the Minister, and showed him over the work now in progress, including the grain elevator on the north embankment in course of construction, the new office building for the accommodation of the Commission and its staff, the new freight sheds and the new freight depot west of the Custom House, at the foot of St. Paul street, also the car ferry landing at the foot of St. James' street, which one is being rushed to completion.

Hon. Mr. Hazen took a keen interest in all he saw and complimented the Harbor Commissioners on the progress made, and also closely examined the plans described by the Chief Engineer and Manager of the Harbor Commission, Mr. St. George Boswell, which gave him an idea of the work in contemplation and the results of the Commission expected at the navigation.

Devolp River Frontage.

It is now definitely decided that the Quebec Harbor Commission will begin next week to assist in the work of developing the frontage of the St. Lawrence river in line with the Champlain street in connection with the Transcontinental Railway Commission. The Harbor Commission will commence to build the crib work for the construction of a retaining wall from the Priests' wharf west, between which filling-in, already commenced, will be extensively done.

The Commission will also start at once on the preliminary work, including the crib to be sunk for the Transcontinental Railway Car Ferry landing and docks on either side for the accommodation of steamships, and thus provide four spacious steamer booths, fitted with all modern apparatus, freight sheds, etc., to facilitate the loading and unloading of ships in conjunction with the completion and operation of the Transcontinental Railway.

No decision as to the building of grain elevators in the coves has as yet been arrived at, but it is expected when Hon. Mr. Cochrane, Minister of Railways and Canals, and Major Leonard, president of the Transcontinental Railway Commission reach Quebec on the 25th, this and other matters of importance will be dealt with

At King's Wharf.

In the meantime the Transcontinental Railway Commission has issued orders to the contractors, Messrs. M. P. & J. T. Davis, to proceed with all haste with the construction of the work needed for the leading of the double track along the river frontage to the former Champlain market site. In this connection the Quebec Agency of the Marine and Fisheries Department has received orders from the Trancontinental Railway Commission to provide for the right of way through its property. This means that the paint shop,part of the small machine shop and stores runing south-west on the King's Wharf must be demolished, which is sure to demoralize the mechanical arrangements of the Agency.

The buildings must be cleared away for the railway contractors to lay down the rails by September first, and this order is imperative. The same order applies to all property owners along the south side of Champlain Street.

BODY OF PAUL DE CAZES ARRIVES HERE TODAY

The body of Mr. Paul de Cazes, formerly Secretary of the Department of Public Instruction of the Province of Quebec, will arrive this morning on board the Pomeranian. On reaching here it will be conveyed to the house of Mr. Robert Rocher, Law Clerk of the Legislative Assembly and son-in-law of the deceased. In the afternoon the funeral party will leave the residence at 3.30 o'clock for the Basilica and thence to Belmont Cemetery.

Tramp: "Can't you give me somethin' to eat, ma'am?"
Lady of the House: "Yes; here's a piece of home-made pie.'
Tramp: "I asked for food, madam, not work."—Tid-Bits.

WILL INSPECT MILITIA TODAY

GEN. SIR IAN HAMILTON AND HON. COL. SAM HUGHES ARRIVE IN QUEBEC

General Sir Ian Hamilton, with Hon. Col. Sam Hughes, Minister of Militia; General Wilson, A. D. C. to the Inspector General of the British Army and Oversees Forces, and Col. Williams, Adjutant General, arrived in Quebec at 4 o'clock this morning and are registered at the Chateau Frontenac.

General Sir Ian Hamilton with the Minister of Militia and staff; Lt. Col. J. P. Landry, commanding officer of the Fifth Military District and staff, will cross to Levis this morning, go to St. Joseph de Levis to inspect the Seventh and Eleventh Cavalry regiments in camp under command of Lt. Col. Worthington.

This afternoon General Sir Ian Hamilton will inspect the Eighth Royal Rifles and Ninth Regiment of Volunteers, together with the city school cadet corps on the Esplanade at 5 o'clock.

The rank and file of the Eighth Royal Rifles are specially requested to muster at the Drill Hall this afternoon at 3 o'clock.

AMATEURS PLAY GILLETTE FARCE

"ALL THE COMFORTS OF HOME" FOR BENEFIT OF THE ANTI-TUBERCULOSIS LEAGUE.

A fairly good-sized audience gathered at the Auditorium last evening to see a company of Quebec amateurs play William Gillette's famous farce, "All the Comforts of Home." The performance was under the patronage of the Lieutenant Governor of the Province, Sir Francois Langelier, who, with a party, occupied one of the lower tier boxes.

The performance, which was staged under the direction of Mr. Irving Beers and Miss Edith Osborne, was well given and amused the audience throughout the four acts. The performance was for the benefit of the Quebec Anti-Tuberculosis League. The cast was as follows:

Alfred Hastings...Justin K. McGrath
Tom McDow, R. O. Alexander, R.C.R.
Theodore Bender.....Irving Beers
Josephine Bender, Mrs. H. E. Huestis
Evangeline Bender .....
.....Miss Daphine Gibsone
Egbert Pettibone.....R. A. Stirling
Rosabelle Pettibone, Miss Hope Glass
Emily Pettibone, Miss Shirley Gowen
Chris Dabney.....R. H. Brown
Judson Langhorne.....C. Later
Fifi Oritanski.....Miss Dora Brown
Augustus McSnath.....Archie Gibson
Victor Smythe.....R. H. Jennings
Wm. Thompson.....A. J. Gibaut
Katy.....Miss Marjorie Glass
Gretchen.....Miss Olla LeMesurier
Mr. Struthers.....R. Bartholemew

"All the Comforts of Home" is one of Gillette's earlier plays, belonging to the farce era which also brought out "The Private Secretary." It belongs to an old, but ever-popular school, and its crisp dialogue and ludicrous situations always produce a world of fun.

It was very well played, and the parts were well distributed. If there was a fault it was that many of the voices did not carry all through the large spaces of the Auditorium, partly because of first-night nervousness, but more because the company had been rehearsing for the most part in a much smaller room. This fault will doubtless be corrected at the performances this afternoon and tonight.

All the parts were exceedingly well taken. Mr. R. O. Alexander as Tom McDow, the cockney partner in the borrowed lodging house, was the real star of the company, and his work had some splendid touches. Mr. Justin K. McGrath was an excellent Alfred Hastings, and his big scenes, especially the dainty love scene in the second act, were splendidly done. Mr. Beers played the role of Theodore Bender and was a dominating figure in all his scenes.

Mrs. H. E. Teustis was a notable figure as Mrs. Bender. Miss Daphne Gibsone, as Evangeline Bender, was sweet, dainty and winsome, and not only played her part superbly, but contributed a charming waltz song in the second act.

Mr. R. A. Stirling made the most of his few moments as Egbert Pettibone, as did Miss Hope Glass as Mrs. Pettibone and Miss Shirley Gowen as Miss Pettibone—charming figures, both of these latter. Mr. R. H. Brown was amusing as Chris Dabney. Miss Dora Brown was an excellent Fifi Oritanski, and her charming duet with Mr. Beers in the second act was a feature of the performance.

Mr. C. Later, Mr. Archie Gibson, Mr. R. H. Jennings, Mr. A. J. Gibault, Miss Marjorie Glass, Miss Olla LeMesurier and Mr. R. Bartholemew were all excellent in minor roles.

The farce will be repeated this afternoon and tonight.

The cast presented a beautiful bouquet of roses to Mrs. Beers, who has been of great assistance in preparing the piece for performance.

At the performances this afternoon and evening Miss Shirley Gowen will interpolate a dance between the acts.

Nini—George says that my beauty intoxicates him.
Elsie—I heard that he said you were enough to drive a man to drink.

F. SIMARD & CIE
