

## PREPARING FOR OCCUPATION

### Italian Troops Landed at Tripoli With Small Loss of Life.

FEW BODIES FOUND AMONG THE RUINS OF TURKISH FORTS.

London, Oct. 6.—The little war news of yesterday is practically confined to the activities of preparation by Italy for the occupation of Tripoli and to further despatches about the bombardment of Tripoli. These despatches, as all news to date has been, are contradictory.

What apparently has happened has been the destruction of forts, with very little loss of life, the withdrawal of the Turkish troops, and the landing of a body of Italian sailors, who will remain under protection of the guns of the forts.

Expert commentators are inclined to wonder at the bombardment, unless it was merely intended as a demonstration which might possibly bring Turkey to terms at once. Otherwise the action of the fleet in not having the co-operation of troops is criticised as likely to prolong the next stage of the campaign. Had the bombardment been supported by troops on either side of the city it might led to the cutting off of the garrison in the rear. Now they have practically been allowed to concentrate with the Arabs back of the town. In the meanwhile Tripoli has not formally surrendered, though the port is defenceless. Little credit has attached to the reports from various sources, all of which are unofficial, of naval engagements and bombardments of Mitylene, Prevesa, Derna, Begazi and other places, especially in the Dardanelles.

Constantinople is seething with political intrigue.

## ITALIAN FLAG RAISED.

London, October 6.—The Italian flag floats over Sultana fort at Tripoli which is occupied by landing parties. Part of the fleet is anchored in the harbor and other warships lie a short distance from the dismantled fortifications. Few bodies of Turks have been found among the ruins of forts, and apparently no great number of Turks were killed by the bombardment.

An interesting report is current from Constantinople, that while Germany favors the adoption of the Italian ultimatum as the basis of peace negotiations, Great Britain proposes that Tripoli shall become a privileged Turkish vilayet under joint Turco-Italian administration, thus retaining the sovereignty of the Sultan.

## BENGHAZI AND DERNA.

London, October 6.—The Chronicle's Constantinople despatch from Tripoli says that Italian warships are bombarding Benghazi and Derna, and that the former is vigorously returning the fire.

## FUGITIVES FROM TRIPOLI.

Malta, October 6.—Fugitives from Tripoli who arrived last night, say that small parties of Italians are landing all along the coast from Tripoli to Benghazi. It is believed, however, that there will be no landing in force until the main expeditionary arrives. Small bodies of Arabs skirmished with the landing parties.

## OFFER FOR SERVICE.

Rome, Oct. 4.—Five thousand soldiers, natives of Erythraea, the Italian protectorate in Africa, have offered themselves for service in Tripoli.

## REFUSE TO SERVE.

Berke, Switzerland, Oct. 6.—Six thousand Italians living in Switzerland have been called to the reserves but a large proportion of them have refused to go. Meetings of protest have been held, and some hundreds have declared that they will renounce their nationality and become Swiss subjects, rather than serve under the colors.

## MILITARY AVIATORS.

Naples, Oct. 6.—Nine military aviators with eight monoplanes and two biplanes will be sent to Tripoli. The aviators will be commanded by Captain Piazza, who won the air race from Bologna to Venice.

## ROYALISTS ENTER NORTHERN PORTUGAL.

### Claim They Have the Sympathy of People in That Section.

TWO WARSHIPS ARE IN READINESS WHEN OPORTO IS TAKEN POSSESSION OF.

Vigo, Spain, Oct. 6.—The report that sixty Royalists entered Cotamados, a Portuguese frontier village, has been confirmed. Republican infantry and artillery from Chaves have started in pursuit. The invaders entered Portugal in three parties under Captains Coceiro, Machado and Christie. The soldiers, all Portuguese, are mostly members of the reserve. Others are students and members of distinguished Portuguese families. Coceiro has with him artillerymen who were with him in Mozambique. He went to Braganza with two thousand men and 12 cannon, and was welcomed by the inhabitants who cheered the monarchists, who claimed to have the sympathy of the whole north of Portugal. They also say that they will not be used until they are in possession of Oporto.

## RISING SUCCESSFUL.

Madrid, Oct. 6.—If one may believe the messages coming across the frontier, the monarchists of Portugal have risen successfully in the northern provinces. Prince Francis Joseph of Braganza and Captain Coceiro are described as having 4,000 men under arms who are advancing towards Oporto in three divisions, acclaimed by the people and attracting many recruits to the royal flag.

## DENY REPORT FROM NORTH.

Lisbon, Oct. 6.—Perfect tranquility prevails at the capital on this first anniversary of the revolution that overthrew King Manuel, and the day, which according to recent reports had been set for a monarchical uprising in the north. The declaration from English sources that the monarchists occupied Northern Portugal are without the least foundation in fact, according to the Government.

## SHOPBREAKING AND THEFT.

### S. Guilmette on Trial Before Court of Kings Bench.

THERE IS ALSO A CHARGE OF ATTEMPTED MURDER REFERRED AGAINST HIM.

The proceedings in the Court of King's Bench opened at ten o'clock this forenoon, Mr. Justice Globensky presiding. When the panel of petty jurors had been called, the case against Samuel Guilmette was proceeded with.

The grand jury found two true bills against the accused. One was for attempted murder of Albert Briere, Lake Weedon, and the other for breaking into the store of Mr. Briere, sr., and with stealing certain articles therefrom.

It will be remembered that on the morning of the 8th February last the accused attempted to break into the store in question. When he was surprised while trying to break open the door of the store, by Mr. Albert Briere and his wife, the accused fired at them as they stood at the door leading to the dwelling house, and which is just alongside that leading to the store. The bullet crashed through the glass in the door, through two partitions, and lodged in the frame of a picture hanging on the wall. The bullet in its passage just grazed the head of Mr. Albert Briere. Guilmette, after the shooting, then proceeded into the store and stole a quantity of articles. The Crown will also endeavor to prove that when the accused was first seen at the door Mrs. Briere stated to her husband, "That is Sam Guilmette," and accused replied, "Yes, it is Sam Guilmette." Immediately afterwards he fired the shot. Witnesses have also been summoned to prove that they traced the marks of Guilmette's sleigh from the store to his dwelling house, and also that certain goods found in the house of the accused were identified as belonging to Mr. Briere.

PAINS OF RHEUMATISM ARE ENDED BY ZAM-BUK

When you have any deep-seated pain in the joints, the back, the wrists or elsewhere, place a liberal supply of Zam-Buk on the fingers or on the palm of the hand and rub it in. The penetrating power of this "embrocation-balm" is very great. It kills pain and removes stiffness.
Mrs. Frances Wyatt, of 25 Guy Avenue, Montreal, says: "I have found Zam-Buk most soothing and valuable in a very bad case of rheumatism, and also so for stiffness of joints and muscles. I suffered long and acutely from rheumatism, and tried one ointment after another in vain. I also took medicines internally, but it remained for Zam-Buk to effect a cure. I began applying the balm when I felt the aches and pains of rheumatism coming on, or felt any of the stiffness. The result was truly wonderful. Zam-Buk seemed to penetrate to the very seat of the pains, driving them completely out, and I am now quite cured.
If rubbed on to the chest and between the shoulders in cases of cold, Zam-Buk will give speedy relief.
Apart from its use as an embrocation, Zam-Buk is a cure for eczema, rashes, ringworm, cold sores, ulcers, scabies, chapped hands, piles, varicose veins, cuts, burns, bruises, etc. All druggists and stores sell it. Price, 50c. per post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

THREE COOKS AND THREE REASONS

These three cooks differ widely in ability and experience, but all are agreed that the prime essential in good cooking is the stove on which to cook, and all concede that every stove necessarily is met in a GURNEY-OXFORD RANGE.
For no matter how much or how little cooking is done; no matter what the experience given or required, there are certain prime requisites for every kitchen range. Whether the cook be a professional chef or the young house with only "ham" to please, the stove must furnish these three essentials—steadiness and control of heat, even baking facilities, and a grate that gives plenty of air to the fire with a saving of fuel and convenience in handling.
For these three essentials—on which all cooks are agreed—the GURNEY-OXFORD RANGE has three answers, three good reasons why.
THE OXFORD ECONOMIZER is a small lever for the steady maintenance of heat, licensed for use only on Gurney-Oxfords. It effects a remarkable saving in fuel as well as labor. Nothing can go up the chimney but smoke and odor.
The Divided Fire Strip distributes the heat evenly, front as well as back of oven, thus securing against failure in baking. There is no better test of practical stove work than this oven control.
Are you always dusting? The Gurney-Oxford Reversible Grate saves dirt and labor; one-half turn and the ashes are out, while the interlocking teeth grind the hardest clinker.
There are plenty of other "reasons" for the advantages of the Gurney-Oxford, as a call on us will convince you. Come in and see our varied line, and we will demonstrate all these features to your entire satisfaction.

J. S. MITCHELL & CO.

APPEAL ON BEHALF OF THE KNOWLTON CONFERENCE.

The Record has kindly placed at my disposition its columns to make an appeal to the public of the Eastern Townships on behalf of the Knowlton conference, and I gladly and thankfully avail myself of this generous offer.
At the last annual meeting of the Corporation I was asked to accept the office of Vice-President, and in the capacity to make an effort to wipe out the floating debt, amounting to about \$300. I need not speak of the work which brought the Conference into existence and which have since been assumed by it—they are well known by means of the wide publicity which has been given to its proceedings through the press and otherwise. The chief executive officers are the Rev. Edgar T. Capel, President, and Rev. Ernest M. Taylor, Secretary-Treasurer—these gentlemen are well and widely known for the zeal and devotion which they give to any cause which they espouse. Its platform is so broad and tolerant that the members of all our churches, clergy and laymen, join in its support. It has done, and is doing, a great and good work, which is increasing from year to year as its merits are better appreciated. Unfortunately, like all similar movements, in its initial stage it is not receiving the financial assistance which its needs demand. I have already addressed a personal appeal to a number of people, who, I thought, would be interested in aiding those who are earnestly endeavoring to maintain and advance the work. I knew I could not reach, in that way, many who would gladly help if they were asked; and hence I adopt this method of drawing the attention of everyone to the needs of the Conference.
Anyone willing to assist can send his or her contribution either to me direct, or to the Record, which has kindly offered to receive the same.
Knowlton, 2nd October, 1911. W. W. LYNCH.

**SMOKER AT THE ARMORY.**  
 No. 2 Company 33rd Regiment held the first of a series of entertainments at their quarters in the

new armory last evening, there being a good number present.

A letter of regret of absence was read from Capt. V. Sparring, Lt. N. C. Pilcher presided until the election of new officers and spoke very encouraging words to the boys.

The meeting proceeded with the election of officers, with the following results: President, Pte. J. W. Cottrell; Vice-President, Corp. R. Harmon; Sec.-Treas., Corp. Ralph Hassall, Corp. Moorehouse and Pte. E. Oakes were chosen for the committee.

Lieut. N. C. Pilcher vacated the Chair to the newly-elected President, who opened up the social with a popular song. Several songs and recitations were given and a very enjoyable evening was spent.

A big programme has been arranged for the winter and all young men who intend to join are invited to attend our next social on November 2nd. Coffee, sandwiches and cigars will be served as usual at every social.

Four prizes have already been offered. Capt. V. Sparring and Sgt. W. Davidson offered prizes for shooting. Lieut. N. C. Pilcher one for bowling and Corp. R. Hassall a hat prize to the member bringing in the most recruits for the next inspection.

Refreshments were served and everyone fared sumptuously.

Serjt. Major McAlister gave the boys a heart to heart talk and advised them to pull together, work themselves for the interest of the company and not leave the burden to one or two members which often is the case.

The evening closed with the singing of the National Anthem everyone expressing themselves as well pleased.

**CONGREGATIONAL WOMAN'S BOARD OF MISSIONS.**

The morning session yesterday of the Congregational Woman's Board of Missions was devoted to reports of superintendents, etc., with brief addresses by various delegates and members.

Mrs. Savage presided. In the afternoon Mrs. Hilary Read conducted the devotional exercises, following which an excellent paper on "The Benefits of Mission Study," by Mrs. S. W. Jenckes, was read by Miss Alice Jenckes, Mrs. Jenckes not being present, owing to ill health. Mrs. F. W. Macallum gave a short address on the "Women of Turkey," stirring missionary hymns were sung very heartily, and the afternoon closed with a "Children's Hour," conducted by Mrs. E. C. Woodley, of Danville, which was entered into with quite as much appreciation by the older portion of the audience as by the children, of whom a large number looked in after school.

Mrs. Woodley's word-pictures of life in Calcutta, the great city of India, her descriptions of the schools for girls and boys, of the women and children of the Zenana, their sad lives, and the cruel idol worship from which the missionaries are striving to turn them, were touching and interesting to a degree.

Familiar hymns were sung, an offering made for missions, and after a few words from the pastor the meeting closed with the benediction.

At 6.30 "high tea" was served to the delegates and the hour of social intercourse and relaxation was thoroughly enjoyed and will be long remembered by those present. The arrangements were in charge of the Young Ladies' Guild of the church.

The closing session of the annual meeting opened shortly after 8 o'clock Mrs. Moodie presiding. Special features of the evening were a paper by Miss Lamb, of Montreal, "The World in Boston," which was read by Mrs. J. Munson Hill, and an illustrated lecture, "Strangers Within Our Gates," by Mrs. F. J. Day, wife of the Rev. Frank J. Day, a former pastor of Plymouth Congregational Church. The lecturer said: "Although pictures cannot usurp the place of books, they are a great aid in giving a lifelike conception of what we read or study. To-night we are going to take the pleasant picture way of studying the people who are coming into Canada from Great Britain, Europe, Japan and China—the strangers within our gates—the new settlers from one country and of one speech, but of many nationalities and tongues. We shall see them, not in their native surroundings but far away from home and friends in the strange land to which they have come to better their condition.

"Let us try to view them from their own standpoint, and try to understand how the influences of their national customs and surroundings have given them certain characteristics, certain habits of living and thought, and different religious convictions from ourselves. Do not regard them, as is too commonly done, as ignorant, uneducated foreigners, who speak no English."

The views thrown upon the screen were most interesting, including a map, showing the different peoples who come to Canada, a view of a street in Lancaster, Eng.; children of England's slums; group of Italian women and children, Naples; immigrants disembarking at Halifax; British immigrants, "Shacktown"; farm houses of foreigners; an immigrant's letter home; a lumberman's camp in the snow; Dunkirkers on the march; a Chinese funeral in British Columbia; public school, Winnipeg; Chinese Girls' Home, Victoria, B.C.; a Japanese and Chinese Mission; "Just arrived. What will they do? What will we do for them?" and many others, with a short descriptive talk on each.

It is quite safe to say that those who listened to Mrs. Day last evening have a clearer idea than ever before of the great problem with which Canada has to deal, and its far-reaching import.

As Dr. Riddell, principal of Alberta College, Edmonton, has said: "Our institutions, civil, political and religious, are sacred. If we would preserve these we must make the whole people Canadian in thought and sentiment."

This is the task outlined in this lecture. During the evening a charming solo was sung by Mrs. J. M. Jenckes, and a couple of songs contributed by Miss Mary Hubbard, who was accompanied by Mrs. J. R. Sangster. A mission offering was made, and the annual meeting closed with prayer and the benediction.

**MISS LA PALME**  
**AT HIS MAJESTYS.**  
 Sang Before a Fair Sized Audience Last Night.

HER SINGING WAS THOROUGHLY ENJOYED—THE PROGRAMME

Grace of personality and sweetness of voice were the two outstanding features of Miss Beatrice La Palme, the talented young Canadian singer, who appeared before a fair sized audience at His Majesty's Theatre last night. That her singing was thoroughly enjoyed was emphasized by the hearty applause which was accorded every number.

The programme was well chosen and brought out the range and beauty of her well trained voice. Her pleasing rendition of the "Jewel Song", Miss La Palme's opening number, won rounds of hearty applause. She was also equally good in her selections from modern French authors, while her collection of English, German and Canadian numbers won for her unstinted appreciation. One of the English numbers which aroused enthusiasm was the song "A Birthday," her sweet rendering of which fairly carried away the audience, who applauded her until she graciously consented to sing it over again.

During the evening Miss La Palme was presented with an eloquent bouquet of roses.

Mr. Karl Klein, the violinist, shared honors with Miss La Palme. He was unable to complete his part of the programme as he had to leave town. Piano solos by Mr. George Hirst, the pianist, were substituted, and were well received.

**BEAN MARKET EASY.**  
 Montreal, Oct. 6.—The tone of the market for beans is easy, but there is no further change in prices to note as the volume of business doing is small, and three-pound pickers are offering in car lots to arrive at \$2.05 per bushel, ex-trait.

**POTATO MARKET FIRM.**  
 Montreal, Oct. 6.—A firmer feeling prevails in the market for potatoes on account of the smaller offerings

and car lots of Green Mountains are quoted at 90c to 95c per bag ex-trait, and in a jobbing way sales are being made at \$1.10 per bag.

## DAIRY PRODUCE.

**CHEESE MARKET FIRM.**  
 Montreal, Oct. 6.—Receipts of cheese were 4,099 boxes, as compared with 5,208 boxes for the corresponding date last year. There is no change in the condition of the market which remains firm with a fair volume of trade passing in finest westerns at 1 1/2c to 1 1/4c, and in easterns at 1 1/2c to 1 1/4c.

**GOOD DEMAND FOR BUTTER.**  
 Montreal, Oct. 6.—Receipts of butter were 2,237 packages, as against 419 packages for the same date a year ago. A fair trade is being done for both retail and export account and the tone of the market remains firm. Choice Townships creamery is quoted at 27 1/2c to 27c, and seconds at 26c to 25 1/2c.

**ONTARIO BOARDS.**  
 Woodstock, Ont., October 6.—This cheese board met Tuesday. There were 196 boxes of cheese boarded, of which none were sold. Price bid was 1 1/4c.

Peterborough, Ont., Oct. 6.—The offerings on the cheese board were 2,207 boxes colored cheese. After the start bidding was brisk. The price obtained was 14 5/16c and 14 1/4c. There is a rapid shrinkage in the output in this district. Next sale in two weeks.

Madoc, Ont., October 6.—At Tuesday's cheese market 390 boxes were boarded. All sold at 14 5/16c.

## PROVISION MARKET.

**GOOD TRADE CONTINUES.**  
 Montreal, October 6.—A fairly good

trade continues to be done in all lines of provisions for the season of the year, and, as supplies in packer's hands are not as large as they usually are at this season of the year, a steady feeling prevails in the market and prices show no important change. The demand for smoked and cooked meats is principally for small lots to fill actual requirements, as the consumption of such at present is not as large as it was during the warm weather. The trade in bared pork is slow, but the movement of lard is fairly good. Abattoir fresh-killed dressed hogs are steady and selling in a jobbing way at \$9.75 to \$10 per 100 lbs.

## FINE RESIDENCE FOR GOVERNOR

The New Home of the Lieutenant Governor of Ontario Will Be Palatial

No residence in Toronto will equal that of his Honor the Lieutenant-Governor of this province, according to the plans and preparations of Mr. F. B. Heakes, who planned and designed both the building and the landscape effect for the new property in Chorley Park. The Chateau Frontenac in Quebec, and the Hotel Laurier in Ottawa are practically the only consistently carried out French chateau designs in Canada. In Chorley Park house will be built a French renaissance chateau consistently carried out. It will be more elaborately finished than the Chateau Frontenac, though, of course, not so large. Its windows will look out over a magnificent prospect of woods, valleys and gullies. Around its walls will circle a terrace with a stone balustrade overlooking the tree tops of a steep gully leading down to the old Belt Line tracks. In front of the porte cochere will extend a balustraded brick-paved court, connected by a bridge over a gully, with a circular outer court, also brick-paved and balustraded. A drive leads from the outer court, over another bridge to Roxborough Avenue. Down stone steps from the terrace on the lower flat will be situated the tennis-court, surrounded by trees, with a peep into the beautiful valley of the Don. North-east of the main building on the edge of the ravine is the site for the stable and garage. The servants' wing stretches out from the main building on an unconventional slanting angle, with kitchen, scullery, serving pantry, servants' dining-room and sitting-room, bed rooms, and everything complete and all practically detached from the main building.  
 Where the grounds are level on the north and west a stone wall will form the outer boundary on the ravine side. To the east and south the terrace will be supported by a retaining wall of concrete reinforced by twisted steel rods and wire mesh binding. In one place this wall will be 30 feet high, with almost a bird's-eye view of natural forest grounds reaching down away into the valley. The house itself will be built of grey Credit Valley stone. The contract for the stone work was let to Fred Holmes and Son at \$125,000. The front entrance, or porte cochere, leads first to a vestibule, then to a large circular lobby, behind which is the grand hall. The latter will be open for three storeys to a skylight, with a balustrade at each story. To the right of the hall a State reception room and drawing room are arranged en suite. To the left a magnificent State dining room and a private dining room for the Lieutenant-Governor's family on ordinary occasions. At the rear of the Grand Hall is an immense ball-room, with an alcove and a veranda overlooking the ravine. The living room adjoins the main hall on the east, with a palm-room of glass and a writing-room.  
 The building will have a frontage of 155 feet, with a depth of almost as much. With three storeys, a tile roof, and its pointed turret towers, it will follow somewhat the lines of the French palaces. The inside construction will be carried out in marble and wood. The color scheme has not yet been decided upon. Steel and terra cotta provide practically for fire-proof construction.

Canadian Colony in Palestine  
 That the Canadian flag would soon be flying in Palestine was the statement made by Dr. John Shayne in an address delivered before the Zionists of Toronto. "The Canadian Jews have decided," he said, "to establish a Canadian colony in Palestine. Relatives of Canadian Jews who are in Russia will be assisted there, and they will be given the protection of the Canadian flag."

## PROSPECTS OF WORLD-WIDE METEODISM.

Was Subject of Discussion at the Ecumenical Conference.

MANY MORE ADVOCATES ADDED TO SIDE OF CHURCH UNION—PROGRESS IN JAPAN.

Toronto, Oct. 6.—The Ecumenical Methodist Convention, at its further sessions in this city yesterday, took a survey of the accomplishments, status and prospects of world-wide Methodism as reported by veteran workers and observers. In general, it found many facts which gratified the delegates; in particular it was brought face to face with numerous problems of admitted difficulty. But optimism continued to be the prevailing spirit among the representatives gathered here from the four quarters of the globe. The western section, comprising the Methodist churches in the United States, Canada and Japan, reported a loss in net membership increase during the past decade, while the eastern section covering the churches in Great Britain and Ireland, France, South Africa, Australasia, and mission fields, showed an absolute loss in membership. Church union was prominent in the discussions of yesterday and considerable gains in its advocates and in its membership were noted. Representatives of the Primitive Church presented facts indicating vigor and accomplishments in that branch.  
 Nearly all the speakers who pointed out problems suggested possible methods of solving them.  
 Especial interest was shown in the address of Rev. S. Ogata, of the Japan Methodist Church, who reported remarkable progress of the denomination in his country since the merging of the three Methodist Churches in one about four years ago. Nothing was more perplexing to the ordinary Japanese mind, he thought, than the fact that there are so many religious denominations and so many different Methodist Churches. He believed Christianity's strongest appeal eventually would be found in one church, comprehensive enough to cover all religious needs, instead of in twenty-five or thirty denominations.  
 The striking decrease in growth of membership in the Methodist churches of the western division was shown by L. K. Carroll, of New York, secretary for that division at the present conference.  
 The increase in members in the decade ending 1891 was 1,261,209. In the last decade it was only 437,562, the latter increase being but fifteen per cent, as contrasted with the former of 33 per cent. This he accounted for in part by a decrease in earnestness. "Our pulpit is not less desirous of reaching the unconverted in foreign lands," he said, "but it seems to be less burdened with anxiety for the unconverted in Christian lands. Our preaching is conforming somewhat to the spirit of the age, which carelessly says God will not condemn those who do the best they can."  
 The various Methodist bodies in Great Britain gained about 150,000 members in the past years, according to Rev. Simpson Johnson, of London, secretary of the Westminster Methodist Conference. During the last half of the decade, however, there has been a notable decrease, attributable he thought, to conditions outside the church and a weakening of forces to meet changed social conditions. Social reforms and institutional methods must be subordinated to the Gospel methods, he asserted.

## MR. J. A. RUDDICK REPORTS ON DAIRYING SAYS LAWS RELATING THERETO HAVE BEEN WELL OBSERVED.

Ottawa, Oct. 5.—The annual report of Mr. J. A. Ruddick, chief dairy and cold storage commissioner, on the work of his department, just issued, contains much valuable information on dairying, extension of markets, fruit shipments and cold storage works carried on under the supervision of the Department of Agriculture.  
In his reference to dairying Mr. Ruddick states that the laws relating to the manufacture and sale of dairy products are well observed on the whole. The inspectors of the department found it necessary to prosecute only three traders for selling and two for manufacturing butter containing an excess over the legal limit of water, and two cheese makers for stuffing new cheese with old and worthless curd, during the whole year. In each case a conviction was secured.  
Regarding the extension of markets the report states that the experiments conducted in the export of Canadian peaches has opened up a new market for this fruit in Great Britain.  
Greater interest is being taken in the cold storage work of the department, and during the year there have been increased demands for the plans and specifications furnished by the department throughout the country. Trial shipments of apples in cold storage have evidenced that apples can be shipped with safety any time during the winter months.

WRITE ROCK ISLAND COUNCIL THAT CERTAIN PIPES ARE IN DANGER OF BEING DAMAGED.  
Rock Island, Oct. 6.—(Special)—A regular session of the Council of the Municipality of Rock Island was held in their Council room at which session were present Mayor Holmes and Councillors Norris, Ball and Lanctot. The list of parliamentary elections was before the Board for examination and approval. The Council was requested to add several names to this list, and it was moved by Councillor Ball, seconded by Councillor Lanctot, that final action upon the

revision of the Voters' List be deferred until one week, and that the Mayor be requested to take legal advice respecting the qualifications of a voter. This was unanimously carried.  
It was moved by Councillor Lanctot, seconded by Councillor Ball, that certain bills be paid.  
A letter was received from Mr. A. N. Thompson, Superintendent of the International Water Company, claiming that in the changing of the grade on Foundry Hill the depth of earth covering the mains has been so lessened as to endanger the pipes from frost. ## "Do Let Us Have Some FRY'S Cocoa"

Is it any wonder the dear little kiddies slip out of their cot and steal-downstairs when they "suspect" that father and mother are treating themselves to some "Fry's"? Will mother give them a drink too? Yes, indeed she will, for she knows that the best drink they could have, anytime, is

**FRY'S, Since 1729**

Throughout the world "FRY'S of Bristol" is known as the synonym for cocoa and chocolate in their purest and most delicious forms. The history of the cocoa trade is the history of the colossal business of J. S. FRY & SONS, Limited, of Bristol. It is the oldest firm of chocolate and cocoa manufacturers in the world, for letters patent were granted to the ancestor of the present generation of the family by King George in 1729.

The Bristol works of J. S. FRY & SONS, Ltd., comprise eight great buildings and employ more than 5,000 hands. The purity and excellence of their chocolate and cocoa have won more than 300 Grand Prix, Gold Medals and Diplomas in open and international competition, and in the course of the long history of nearly two centuries the firm has received many marks of Royal favor. Her late Majesty Queen Victoria, in the early part of her reign, appointed FRY & SONS by Special Warrant Manufacturers of Chocolate and Cocoa to the Royal House.

His late Majesty King Edward, whose warrant as Prince of Wales the firm held for nearly forty years, confirmed the appointment after he ascended the Throne.

**Fry's THE Cocoa**

25c. the Tin

Give the children Fry's Cocoa OFTENER. So much better, more enjoyed and safer than milk. Easily and quickly prepared—enriches the blood, builds up and fortifies the body.

**SURPASSING GOOD FOR EVERYONE—ANYTIME**  
And remember "Nothing Will Do But FRY'S"

Trade Supplied by J. S. FRY & SONS, Limited, 27 St. Sacrament Street, Montreal, P.Q.

Makers to H.M. George V

His Majesty King George V, whose warrant FRY'S held as Prince of Wales, has honored them with his Royal Warrant as King, as have also her Majesty the Queen, her Majesty Queen Alexandra, her Majesty Queen Margherita of Italy, their Majesties the King and Queen of Spain, and their Majesties the King and Queen of the Hellenes. A similar mark of Royal favor came long ago from France, when, in 1867, the late Emperor Napoleon, by a special brevet, appointed them Manufacturers of Chocolate and Cocoa to the Imperial Household, and Messrs. FRY still have the honor—one that they prize very highly—of numbering her Imperial Majesty the Empress Eugenie among their illustrious patrons.

This record of honors is as magnificent as it is unique. It is a tribute to the highest purity and quality in its goods and the fullest value for money. Whatever bears the name of "FRY'S" is of the best. By no other means could the firm have so triumphantly stood the test of time.

usual happy manner, the Rector, Rev. W. A. Adcock, in his usual humorous manner, introduced the Rev. Messrs. Galeu Craik, of the Congregational Church, Melbourne, and the Rev. Rural Dean Hepburn of Richmond. The latter delivered stirring addresses on the Peace Movement. Addresses intermingled with that peppy humor for which the Caledonian is famous, followed. Mrs. R. L. Billingsley sang a solo in her usual manner, which was well applauded. The dialogues were well rendered, showing painstaking study on the part of the performers. The songs were well up to the average. Mrs. D. Stuart also sang a solo with good effect. The programme on the whole was well rendered and reflects credit upon all those taking part.

### MARRIAGES.

#### PAIGE—HOULE.

#### McIVER—ROSS.

Lake Megantic, Oct. 6.—(Special)—The marriage of Mr. Danis G. McIver, eldest son of Alex. McIver and Miss Mary Ross, daughter of widow Ross of Marston, was solemnized on Wednesday, October 4th, at the McIver homestead at Echo Vale, Lake Megantic; the ceremony was performed by the Rev. M. McCord, Presbyterian Minister of Marston. Their friends all wish them long life and much happiness. They will make their home at Echo Vale on the homestead.

#### MARTIN—CROSBY.

St. George's Church, Flushing, N.Y., was the scene of the first of the fall weddings on Wednesday, September 29th, when Miss Mary Floyd Crosby, daughter of Mrs. Allen H. Crosby, of Jamaica Avenue, was married to Mr. James Blythe Martin, of Dundee, Scotland, but a resident of Flushing for the past seven years. The decorations of the church were of white flowers and palms and at four o'clock the edifice was filled with guests, friends and relatives of the bride and groom.

The ceremony was performed by the Rev. Henry D. Walker. The bride wore a gown of white satin, with a tunic of embroidered chiffon, trimmed with point lace that had been in the family for years.

The point lace veil was fastened with orange blossoms, and she carried a bouquet of white roses and lilies of the valley. Her only ornament was a sapphire and diamond pendant, the gift of the groom.

The matron of honor was Miss Roger Brooke Hopkins, sister of the bride, whose marriage took place only a few months ago. She was gowned in white satin and crystal net and wore a white lace hat. The bridesmaids, Misses Clara Newton, Florence Goodwin and Edna Franklin, of Flushing and Miss Elizabeth H. Powell, of Manhattan, a cousin of the bride, wore gowns of salmon pink chiffon over white satin and caps of gold lace and pink roses.

Mr. Reginald Saunders, of Flushing, was best man, and the ushers were Messrs. Roger Brooke Hopkins, of Baltimore, Samuel A. Savage, Robert De Raisnies, Roger Bulard, of Flushing, Francis H. Richmond, Philadelphia and Alden Blodgett, of Manhattan.

The bride's family is well known in North Hatley and Lennoxville, where she spent her summers and winters, respectively, for a number of years, and their friends in both places and in Sherbrooke will be much interested in the happy event.

## SICK HEADACHE

A Symptom of Troubles Which are Removed by

Dr. Morse's Indian Root Pills.

Sick headaches are not merely afflictions to be borne as patiently as possible—they are danger signals. They never come unless the digestive system is out of order, and their regular recurrence is proof positive of serious trouble and a warning that should be heeded promptly.

Sick headaches are caused by Indigestion, Bilio-nousness or Constipation, and no amount of "headache powders" will do more than temporarily relieve them. The only way to get rid of them entirely is to cure the Constipation or Indigestion that is causing them, and nothing will do this quicker or more effectively than Dr. Morse's Indian Root Pills.

Dr. Morse's Indian Root Pills are purely vegetable in character, and are free from any harmful drug. For over fifty years they have been in constant use in Canada, and have proved most effective in regulating the bowels, aiding digestion, banishing sick headaches and restoring vigorous health.

Dr. Morse's Indian Root Pills have stood the test for over fifty years, 25¢ at all dealers. W. H. Comstock Co., Ltd., Brockville, Ont.

### SEAT FOR MR. FIELDING.

Ottawa, Oct. 6.—It is stated definitely that Mr. B. B. Law, M.P. for Yarmouth, will retire to make way for Hon. W. S. Fielding, in what is regarded as a safe Liberal seat. Mr. Law's majority was 1,200.

### MR. BUREAU'S MAJORITY INCREASED.

Three Rivers, Oct. 6.—The result of the counting of the votes given at the election of Three Rivers leaves, according to the decision rendered yesterday by Mr. Justice Tourigny, the Liberal candidate, Mr. Jacques Bureau, with a majority of nine instead of two. Mr. Jacques Bureau is declared elected, thanks to the irregularities committed by the deputy returning officers. This in one of the polls of St. Barnabe, Mr. Normand, who had a majority considerable enough, saw it diminished by 20 votes. When this poll was being examined it was stated that the cross in 116 votes had been made with pen and ink instead of being in black lead pencil, and Judge Tourigny has put all these bulletins aside, of which 68 were for Mr. Normand and 48 for Mr. Bureau.

The city valuator met last night for their first meeting since the City Council referred back to them the fifty odd complaints entered against the roll as prepared by them. To-day they are visiting the properties under dispute. It is expected that it will take all day to-day and to-morrow to complete this work.

The city valuator will then prepare their report and submit it to the City Council. It is not thought that they will make many reductions in their original figures. In case they do not the members of the City Council can, if they see fit, make any change they desire.

In the meantime the man on the street still continues to find fault with the valuator's work, and is clamoring for redress.

Miss Eva Dumont

## PAINS in the BACK and in the KIDNEYS

Pale, weak, suffering from anemia, Miss Eva Dumont, of Isle Verte, Temiscouata County, finds in ST. MICHEL'S WINE her health restorer.

## A COMPLETE CURE

There are many young girls who have suffered for years when they could easily have strengthened themselves by taking ST. MICHEL'S WINE and thus have renewed their blood impoverished by growth, losses, irregularities in the system and many other troubles peculiar to their sex.

ST. MICHEL'S WINE acts as a tonic: it is the oil which helps the normal functions of the human machine, it acts also as a restorer repairing as they occur the continual losses sustained by our bodies.

This is what Miss Eva Dumont writes us:

MESSRS. BOIVIN, WILSON & CO., Montreal.

Gentlemen:—It was by reading your advertisements in the newspapers that I learned of the marvellous and beneficent effects of ST. MICHEL'S WINE. Two years ago, I was pale and weak, and I felt pains in the back and in the kidneys. I called upon a doctor but without result. One of my friends came to see me and during our conversation we talked about ST. MICHEL'S WINE. She advised me to take some as she had found her own health improved by its use. I followed her advice and after the first bottle, I felt relieved. I am continuing to take it and I feel its good effects, so I advise all those who read this letter to give it a trial.

Yours very truly,  
EVA DUMONT,  
Isle Verte, P. Q.

The weakness from which so many persons suffer, women, young girls, children, proves conclusively that the blood is impoverished and that it requires certain reconstitutive elements, precisely those that are found in ST. MICHEL'S WINE and which are so much better assimilated because nature has made them in her marvellous laboratory, for the use of suffering humanity.

ST. MICHEL'S WINE contains all the qualities, that makes the blood rich and pure. Superior in every way to pills or other inert products which are not digested by a delicate stomach, it is in its liquid form, immediately digested, absorbed and assimilated, that lies the secret of its action in cases of weakness and anemia, which it has completely cured.

Why then should it not be efficient in your case, and effect another cure? Try it and you will not fail to be benefited by its use.
