ADVANTAGES.

Among other advantages held out by this Company, to which the attention of the public is specially requested, the following may be particularised :

I.—The *Security of a large guaranteed Capital.*

II.—The *moderate rate of Premium*, which may be paid yearly or half yearly, at the option of the party assuring.

The *increased facilities to the assured* as regards *Residence and Travelling*—the limits being generally very extensive, and in particular, *the assured being at liberty to pass by Steam Vessels or Sailing Packets betwixt any North American port and any European port, at any time of the year, without extra charge.*

The assured need thus be under no apprehensions of losing the benefits of their policies by the omission—perhaps inadvertant,—on their part, to give the notice required by other Companies, of their intention to cross the Atlantic.

IV.—The *prompt despatch in the disposal of business*—the Local Board here being invested with full powers to examine into, and accept of proposals, putting the Company on the risk at once, even without communicating with the parent Board.

V.—The *Exemption from Stamp Duty, Entrance Fee, or any other Expense in effecting Assurances.*

VI.—The fact of the Company being *wholly a Life Office*,—unconnected with either Fire or Marine Insurance.

This Company is composed of a numerous body of proprietors, affording, in addition to the paid up capital, ample security to the Assured. On commencing the Fire Department of the business, the Company reduced the rate 25 per cent., and the decided success which has attended its operations in that department, affords satisfactory proof that the advantages which it offers have been duly appreciated by the public.

At the recommendation of many of the most respectable merchants of this city, and elsewhere, the Directors were induced to embrace the Inland Marine branch of the Insurance business, and accordingly have commenced to grant Insurance against all Loss and Damage to Vessels or their Cargoes, navigating the Rivers and Lakes of this Province.

In a short time the Company will also be prepared to commence the Life Department of the business, due notice of which will be given.

This Institution embraces important and substantial advantages with respect to Life Assurance and Deferred Annuities. The Assured has, on all occasions, the power to borrow, without expense or forfeiture of the policy, two-thirds of the premiums paid; also, the option of selecting benefits, and the conversion of his interests to meet other convenience or necessity.

Assurances for terms of years at the lowest possible rates.

Persons insured for life, can, *at once*, borrow half the amount of annual premium for five years, on their own note, and deposit of Policy. PART OF THE CAPITAL IS PERMANENTLY INVESTED in the United States, in the names of three of the Local Directors—as Trustees—available always to the assured in case of disputed claims (should any such arise) or otherwise.

The payment of premiums, half yearly or quarterly, at a trifling advance upon the annual rate.

No charge for stamp duty.

Thirty days allowed after each payment of premium becomes due, without forfeiture of policy.

Travelling leave extensive and liberal, and extra premiums on the most moderate scale.

DIVISION OF PROFITS.—The remarkable success and increased prosperity of the Society has enabled the Directors, at the last

annual investigation, to declare a fourth *bonus*, varying from 35 to 85 per cent, on the premiums paid on each policy effected on the profit scale.

Persons assured by the Society are allowed to cross and re-cross the Atlantic in Royal Mail or First Class Steamers, or in *first class* vessels, during the months of May, June, July or August, September and October, *free of extra charge*; and during the months of November, December, January, February, March, and April, on payment (previous to embarkation) of an extra premium of a *quarter* per cent (25 cents on each \$100 insured.)

DIVISION OF PROFITS AMONG THE ASSURED.

This Joint Stock Company, established by Act of Parliament, without limited responsibility, affords the most perfect security in an ample paid-up Capital, and in the great success which has attended it, since its commencement in 1834, and the large accumulation of Premiums which has taken place.

On the 1st of July, 1841, the Company, at their General Meeting, declared an addition of one-half to the sums paid by the

Stockholders, and appropriated to those holding Assurances at the participating rate of £2 per cent per Annum, from the dates of their policies, so that the addition to a policy for £1000, in force for the previous 5 years, has been £100, making it in all £1,100. The Premiums payable to the Company are nevertheless very moderate, and only one half of them, when an Insurance is for Life, need be paid for the first five years after the date of their policy; the other half, subject to the payment of interest at 5 per cent annually, to be deducted at death, or paid off at convenience. By this arrangement, it becomes easy for a person of moderate income to secure a provision for his family; and the policy may be relinquished on the acquisition of a fortune, within the 5 years, the Assured having paid only one half of the Premiums, instead of the whole, according to usual practice.

Thus, a person of 25 years old, may, by an annual payment of £28 16s. 3d., for the first five years, and afterwards of the full premium £57 12s. 6d., secure to his widow and children at his death, payment of no less than £3000, subject only to the deduction of £144 13s. 3d., being the amount of premiums unpaid. A person requiring a temporary advance of money may also, in terms of this arrangement, should he within five years relinquish the policy of Assurance, by means of which he has obtained the advance, give it up on payment merely of one-half the Premiums instead of the whole, according to the usage of most other offices.

The great facilities afforded by the Company, in these and other respects, are such that it really appears to be a moral duty in every parent who is not possessed of a fortune, but of an income, however moderate, to insure his life for a sum which may yield a comfortable provision for his family.
