RUSSIAN SOVIET FORCES SUFFER SEVERE DEFEAT Hope To Settle Differences Between Miners And Operators

THE BOLSHEVISTS HAVE BEEN OVERTHROWN IN BREST-LITOVSK AFTER A HARD BATTLE WHICH LASTED EIGHT DAYS--CAPTURED MUCH GRAIN

Enemy Troops in Siberia Have Captured Ninety Thousand Tons of Grain, Says a Soviet Wireless Despatch—Another Wireless Message Says that an Immense Quantity of Oil Was Burned in a Fire at Grozny, in the Northern Caucasus.

(Associated Press Despatch)

LONDON, Nov. 14.—(Russian)—The Bolsheviks have been overthrown in Brest-Litovsk, a Soviet wireless despatch from Moscow today admits. After fighting the insurgents there for eight days, the despatch says, the Bolsheviks withdrew "underground". (This expression is commonly used in Russia to indicate the temporary abandonment of an attempt to control the defeated elements scattering and abandoning open organized efforts for the time being.)

The communique asserts that the Bolshevik army in Siberia has captured ninety thousand tons of grain. Another announcement in the message is to the effect that ninety thousand tons of oil were burned in a fire at Grozny, in the northern Caucasus.

INTER-ALLIED COMMANDER HOLDS UP GERMAN PAPERS

(Associated Press Despatch)
MAYENCE, Nov. 14.—(Havas)—General Douthet, commander of the Inter-Allied troops of Occupation on the Rhine, has forbidden circulation in the French Zone of the Frankfurt Gazette and the Frankfurt Volks-Zeitung because the newspapers published slanderous articles against the French authorities.

BOLSHEVISTS PLANNED ANOTHER BOLD MOVE

(Associated Press Despatch)
CONSTANTINOPLE, Nov. 14.—The Georgian Government was compelled on November 6, to repress an attempted coup d'etat by Bolsheviks. Four hundred Bolshevik offenders were arrested.

LITHUANIANS CLAIM ANOTHER SUCCESS

COPENHAGEN, Nov. 14.—The Lithuanian General staff announces that Lithuanians have driven detachments of Colonel Bermond's troops from Ponevneuk and Shabshid, about forty-five miles west of Drinsk.

U. S. SENATORS HAVE ADOPTED RESERVATION

Designed to Bring Final Action on Ratification Within Week.

WASHINGTON, Nov. 14.—Squarely joining the issue with President Wilson, the Senate adopted yesterday a reservation qualifying the obligations of the United States under article ten of the League of Nations covenant. A solid Republican line-up, reinforced by four Democratic votes, put the reservation across exactly as it came from the foreign relations committee and in virtually the same language which the President declared on his western tour would cut the heart out of the covenant and mean the rejection of the treaty. The vote by which the reservation won was 46 to 33.

The fight for reservations having thus been carried to a climax, the Republicans presented for future action a closure proposal designed to bring final action on the question of ratification within a week. A less sweeping measure, proposing limitation on the reservation debate only, had been put in by the Democrats earlier in the day, but it was rejected when the Republicans voted to sustain a point of order against it.

A vote on the question of clamping down a closure on debate will come Saturday morning, and the Republican leaders say it will depend entirely on the Democrats whether the move rallies the necessary two-thirds to make closure effective. The Democratic leaders were not ready tonight to say how they would vote, being fearful that agreement to so sweeping a programme might imperil their chances to secure action on a ratification resolution of their own. The article of the reservation as adopted by the Senate follows: "The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere with controversies between nations—whether members of the League or not—under the provisions of article ten, or to employ the military or naval forces of the United States under any article of treaty for any purpose, unless in any particular case the Congress, which under the constitution has the sole power to declare war or to authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."

LLOYD GEORGE MAKES OFFER TO RAILROAD MEN

(Associated Press Despatch)
LONDON, Nov. 14.—Premier Lloyd George has offered the railwaymen's union membership in committee and management of the roads with railroad directors and Government officials, according to a statement by J. H. Thomas, general secretary of the National Union of Railwaymen. Mr. Thomas announces that the Government also has made a definite offer of new machinery to deal with wages of railwaymen and a settlement of disputes. Both offers were made at a conference of the Premier with a delegation from the National Union of Railwaymen on Thursday. The plan will be submitted to the executive of the union today for decision.

CORK, Nov. 14.—The Celtic Cross, erected in memory of Cork soldiers killed in the Boer war, has been badly damaged by high explosive bombs placed by Sinn Feiners.

ELECTIONS ACT TO BE TAKEN UP AT NEXT SESSION

Disfranchising Clause Likely to Bring About Quite a Lengthy Discussion.

(Associated Press Despatch)
OTTAWA, Nov. 14.—One of the most important measures next session will be a Federal Elections Act. The War Time Elections Act has been repealed and the by-elections are being held under a special act. The new act will provide for lists independent of those compiled by the provinces. The provincial franchise very considerably, and these lists are frequently anticipated when a federal contest is announced. Under the new franchise it is expected that many will be made ineligible owing to defaulting in military service under the Conscription Act, and it is doubtful if conscientious objectors will be enfranchised.

The new naturalization law will not permit of women voting on their husband's naturalization, and this in Western Canada will considerably reduce the women's vote. There are many who desire a literacy test, but no decision has been reached on this question. The disfranchising clause will, no doubt, give rise to considerable discussion, and this measure is certain to be very controversial.

VALEDICTORY IS ISSUED BY SIR WILLIAM HEARST

Says Future Prosperity and Happiness of Ontario is His Dearest Wish.

(Associated Press Despatch)
TORONTO, Nov. 14.—Upon quitting the office of the Prime Minister of Ontario yesterday afternoon to make way for Premier Drury, who takes charge today, Sir William Hearst issued the following valedictory: "In retiring from office I have nothing to add to what I have already said, save that I recognize heartily and gratefully the staunch support for good measures which the Government has received during its term of office from the great majority of the people of Ontario. "It has been an honor and a privilege to serve this great Province, particularly during the strenuous war period through which we have just passed, and the future prosperity and happiness of Ontario will be my dearest wish."

Trouble Caused By Radicals Among The Coal Miners Has Complicated The Situation

Few Miners Have as Yet Obeyed the Order to Return to Work and Only a Slight Increase in the Amount of Bituminous Coal Produced Throughout the United States Was in Prospect Today.

(Associated Press Despatch)
CHICAGO, Nov. 14.—Only a slight increase in the amount of bituminous coal produced throughout the country was in prospect today. The miners generally showed a disposition to await developments of the meeting today at Washington of miners and operators, called by Secretary of Labor Wilson, to negotiate a new wage scale.

In some states, notably Illinois and East Virginia, it was said that threatened trouble by radicals or insurgents among the miners had complicated the situation brought about by the lack of a desire on the part of workers to resume production in response to the strike recall message sent out by John L. Lewis, acting President of the United Mine Workers of America, under direction of a Federal Court mandate.

In the general summary of the situation, optimistic statements regarding resumption of fuel production were received overnight only from Colorado. A number of independent mines there were reported to have started operations yesterday for the first time since the strike was called two weeks ago. Here and there operators were hopeful that some of the approximately 425,000 men who walked out would return to work pending settlement of the misunderstanding, but the majority of operators apparently viewed the outlook with pessimism.

EXPERT TO SETTLE DIFFICULTIES TODAY.

(Associated Press Despatch)
WASHINGTON, Nov. 14.—At the conference of coal miners and operators from the bituminous coal fields beginning at 2:30 this afternoon Secretary of Labor Wilson, acting as mediator hoped a lasting settlement would be reached of the difficulties which led to the recent soft coal strike. Fuel administrative Garfield has accepted an invitation from Secretary Wilson to attend, and likely will act in an advisory capacity, although exactly what part he will

PRESIDENT POINCARÉ
INSTALLED LORD RECTOR
OF GLASGOW UNIVERSITY
(Associated Press Despatch)
GLASGOW, Nov. 14.—Raymond Poincaré, President of the French Republic, was installed yesterday as Lord Rector of Glasgow University. The French President was given a hearty welcome.

SIR ROBERT BORDEN PRESENTED.
Sir Robert Borden, Premier of Canada, who has been at White Sulphur Springs, W. Va., recuperating from a recent illness, arrived in Washington during the day to greet the Prince. The Premier attended the dinner at the British Embassy last night and the reception which followed.

VISITED PRESIDENT WILSON.
One of the most cheerful twenty minutes which President Wilson has spent since his illness, he thoroughly enjoyed late yesterday, when the Prince of Wales called upon him at the White House. In describing the visit afterwards, Rear Admiral Grayson, President Wilson's personal physician, said, the two had a "fine old time." Mr. Wilson sat propped up in a great old-fashioned bed in which not only Abraham Lincoln had slept, but in which the Prince's grandfather, Edward VII., had reposed when he visited this country nearly sixty years ago. Even before Prince Edward knew of this, his attention was attracted by the great mahogany bed, with its towering headboard. He kept talking about it to President Wilson.

THE WEATHER

COLDER.
The cold wave has spread eastward to the Atlantic Coast. A disturbance now developing in Northern Ontario is likely to cause gales on the Great Lakes. The weather continues very cold in Manitoba and Saskatchewan, but has become milder in Alberta. Strong westerly winds, fair and colder. Saturday, strong westerly winds, light snow falls, becoming colder.

FINLAND WILL ASSIST GENERAL YUDENITCH

(Associated Press Despatch)
HELSINGFORS, Nov.—Baltic States conference at Dorpat has been advised that Finland has decided to aid General Yudenitch with thirty thousand volunteers in a new attempt to take Petrograd within the next few weeks. This development, late today, may seriously interfere with and perhaps speedily bring to an end the efforts of the Baltic States' delegates here to reach an agreement with the Russian Bolsheviks.

Prince of Wales Bids Adieu to Washington--Decorated many Veterans of the Great War

Most Brilliant Reception Was Held at the British Embassy Last Night—Royal Visitor and President Wilson Had a "Fine Old Time"—Premier Borden Arrived at Washington During the Day to Greet the Prince.

(Associated Press Despatch)
WASHINGTON, Nov. 14.—At a brilliant reception held in the British Embassy last night, the Prince of Wales made a formal adieu to the city, which for three days has given expression in unobtrusive hospitality as to the friendliness of the American people. By general consent, popular demonstrations of welcome have been avoided, big crowds, which were a feature of the Canadian tour, have been absent, the people of Washington have showered the warmest hospitality on the Prince wherever he has gone and there have always been small crowds who have discovered the unpublished movements of the Royal visitor and assembled to second with cheer the official welcome which has been so effectively given by officers and society leaders. The Prince has kept house for himself at the Perry Belmont Residence, which was placed at his disposal. Here has been entertained a constant stream of visitors. The city's entertainment has taken the shape principally of private functions. The principal official event was the reception in the Library of Congress, where members of both Houses of Congress were presented to the Prince. Members from every state and of every political stripe, without exception, attended to welcome the Prince to the United States in the name of the people they represent in Congress. The reception is being generally spoken of as the most brilliant of its kind ever held in Washington. Most popular have been the Prince's special tributes to America. He has honored the tombs of Washington and Lincoln, and in sympathetic visits to hospitals he has paid high tribute to heroes recovering from the ravages of the Great War.

THE ITALIANS RAISE FIUME BLOCKADE

COPENHAGEN, Nov. 14.—The Italian Government has officially raised the blockade of Fiume, according to advises from that city received through Laibach, Austria.

ANNUAL MEETING OF Y. W. C. A. HELD AT HAMILTON

Expenditures Have Grown from \$15,000 in 1913 to \$109,000 in 1919.
(Associated Press Despatch)
HAMILTON, Ont., Nov. 14.—The Ninth National Convention of the Young Women's Christian Association was opened at the Y. W. C. A. here yesterday afternoon. Lady Callender, the National President, was in the chair, and the address of welcome to the delegates was made by Mrs. A. F. Hatch, president of the local Y.

Miss U. Saunders, presented her report as secretary of the National Executive and stated that though the war had greatly interfered with the activities of the Y., much progress had been made and the Y. was daily coming into closer touch with Canadian womanhood. She alluded to the social service work of the Association, and how the national associations had favored an increase from an expenditure in 1913 of \$15,000 to \$109,000 in 1919. Women specialists had been added to the staff who were of real service to all the associations. One of the most important growths of the Association had been the formation of the western field, with its own headquarters. This extended from Port William to the Pacific Coast. She stated that the east would have a similar institution.

MR. JUSTICE WEIR SERIOUSLY ILL.
MONTREAL, Nov. 14.—Mr. Justice Weir, who is critically ill with pneumonia, was last night reported to be showing a slight improvement.

President in splendid humor. It was something of a family party, for President Wilson asked many questions about King George, Queen Mary and Queen Alexandra, all of which the Prince was, of course, able to answer in detail. He brought President Wilson many personal messages from the Royal Family.

GIANT BOMBING PLANE STARTS OUT ON AN ATTEMPTED NON-STOP TRIP FROM MINEOLA TO CHICAGO

Plane Left Ground at Seven O'clock This Morning and Expects to Make Journey in Ten Hours—Has Eight Passengers on Board and Carries Fifteen Hundred Pounds of Express Matter—Trip to Demonstrate Possibility of Aerial Transportation for Such Express Matter.

(Associated Press Despatch)
MINEOLA, N. Y., Nov. 14.—In the face of a twenty mile north-west wind, the giant Handley Page bombing plane, commanded by Vice-Admiral Mark Kerr, started from Mitchell Field here at seven o'clock this morning, in an attempted non-stop flight to Chicago. The plane carried eight passengers and fifteen hundred pounds of women's clothing and furs for the American Railway Express Company. Admiral Kerr expects the trip to take about ten hours.

Major J. Brackley, of the British Royal Air Force, piloted the giant craft. Colonel Archie Miller, commanding all army aviation fields in Long Island, was on board as a guest of Admiral Kerr. A representative of the Express Company and four mechanics were the other passengers. It was intended to start before day-break, but cold weather chilled the engines and delayed the departure. The mechanics had worked on the engines for the greater part of the night in the glare of powerful searchlights and flares. Just before the start containers filled with hot food, which the passengers expected to eat en route, were placed on board.

The flight was originally scheduled to begin November 6, but was held up when the plane was seized by customs officials because it had not been "declared," when it crossed the Canadian border on its way from Parrsboro, N. S., to Green Port, L. I. Admiral Kerr subsequently called on the customs officials and paid duty on the craft, as a "consignment of merchandise" after appraisers had placed a value on it.

Admiral Kerr planned to follow the New York Central route, passing over Binghamton, Buffalo, Cleveland and Toledo. Motor trucks are scheduled to meet the plane in Chicago to expedite the delivery of the express matter to its destination. The purpose of the flight is to demonstrate the possibility of aerial transportation for rush express matter. A whole business day will be saved in the delivery of express packages on board, if the flight is successful.

PRESIDENT WILSON SAYS HIS HEALTH IMPROVING

WASHINGTON, Nov. 14.—President Wilson in a cablegram to Queen Alexandra of Great Britain, said he was happy to say that his health was steadily improving. His message was in reply to one from the Queen, thanking him for receiving her grandson, the Prince of Wales, and expressing the hope that his rest would give him "fresh strength and health for the future."

LIKE THROWING HIS MONEY AWAY SAYS POSTMASTER

Could Find Nothing to Help Wife Until He Found Tanlac—Restored Her Health.

"You can tell them that Tanlac has helped my wife, too, and of all the people who have made statements about being benefited I believe we have the most cause to be thankful," was the statement made by J. Kuyper, postmaster at Cardiff, Alberta, while at the Owl drug store in Edmonton, recently.

"For the past six years," explained Mr. Kuyper, my wife has been so crippled up with sciatic rheumatism that she could hardly get about, and while I have spent lots of money for treatment and medicines it was just like throwing it away, for nothing was the least bit of help to her until she began using Tanlac. Since she has been taking this medicine, however, she has been steadily improving all the time. Aside from the fact that she has almost gotten rid of the rheumatism, her general health has improved wonderfully and her weight has increased from less than one hundred pounds to one hundred and ten.

"Her condition, before taking Tanlac, seemed almost hopeless and was very discouraging. She had continual pains across her back and her right hip and limb were so stiff and painful she was barely able to get around. She was so weak she was easily exhausted and would have to lie down three or four times a day. Her nerves were badly shattered and this, together with her awful pain, made sleep almost impossible for her. Her stomach was also out of order in some way, for her food seemed to do her no good and in place of gaining strength she was losing all the time. Her appetite was poor and altogether her condition was serious, and regardless of the best care and attention she kept getting worse.

"After reading so much about Tanlac and knowing of the good results others in our community had gotten from it, my wife began taking it and gradually improving from the first. She was in such a bad shape that we could not expect complete recovery without time and patient use of the medicine. So she has stuck right to the treatment and it certainly has paid well, for the results have been nothing less than wonderful. She has taken twelve bottles now, eats three hearty meals a day, sleeps eight hours or more every night, and says she hardly feels the rheumatism any more. In fact, her entire system has been toned up and she is now about as strong as she ever was. Tanlac is the only medicine we have ever found that we could depend upon for results and it is so good that we feel it our duty to tell others about it."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. Dufferin under the personal direction of a special Tanlac Representative.

Four Cleaning Processes

No Screenings—No Weed Seeds—No Waste of Feed

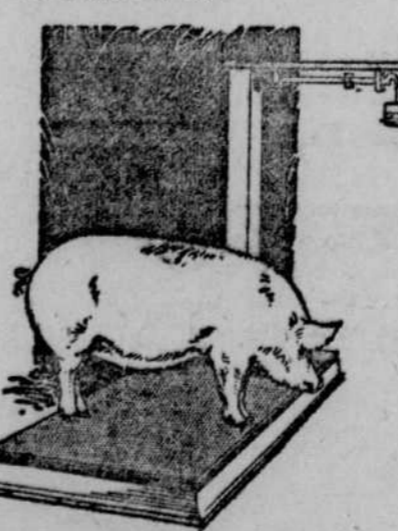

Monarch Poultry Feeds.

There is a feed for every branch of your work, specially made to give best results. Monarch Chick Feed, Monarch Developing Feed and Monarch Growing Mash for your chicks from the time they are hatched until they reach laying maturity. Monarch Scratch Feed and Monarch Laying Mash for your hens and Monarch Fattening Mash for finishing your cockerels for market.

Monarch Dairy Feed.

A properly mixed combination of Oatmeal and Cotton-Seed Meal with the bulky feeds, Bran and Corn Feed. Guaranteed analysis: Protein 20%, fat 4%.

Monarch Hog Feed.

Consists of Corn Feed, Barley Oatmeal, Shorts and Digestor Tankage. Guaranteed analysis: Proteins 15%, fat 4%. This is a special purpose feed for hogs only. A complete feed for the brood sow and the growing pig. High in protein and low in fibre, it furnishes body-building material of high digestibility.

WHEN you have bought a ton of Monarch Feeds you can absolutely depend upon having valuable feeding materials only. These will build up your poultry or stock at low cost. You know before you buy that you positively are not paying for quantities of useless materials such as screening weed seeds, chaff and dust. These are often dangerous to stock and poultry.

Monarch Poultry Feeds, for instance, are made from sweet, sound grains. They are cleaned no less than four times, twice before and twice after mixing. This painstaking care is typical of every brand of Monarch Feed. The result is that every pound of

Monarch Feeds

provides the maximum of feed value. Besides, in Monarch Feeds you are always sure of scientifically correct amounts of body-building protein and other essential ingredients in true and proper balance.

Buy from the Mills that have a Reputation to Maintain

If you want to feed so as to make every dollar bring you fullest value in big hogs for early market, large yields of milk from properly fed cows and heavy production of eggs from your poultry, follow strictly the advice of the Farmer's Advocate:—

"We would advise farmers to be careful in their feed purchases and deal with houses having an established reputation for an honest product."

The reputation of the Campbell Flour Mills Company Limited is of fifty years standing. Each different Monarch Feed is the best for the purpose for which it is made. Every bag bears our name, and you can depend upon these feeds at all times.

You will find Monarch Feeds at best dealers everywhere—if your dealer does not sell them, write us direct for full particulars and we will tell you nearest place to get them.

Sonora

THE INSTRUMENT OF QUALITY
CLEAR AS A BELL

Picture The "Sonora" in Your Home

For the home furnished with thoughtful care there is a place set aside for the phonograph.

The Sonora is the choice of the real musician—it is so free from that disturbing scratching, which destroys his pleasure in the finest record.

Its rich, deep, rounded tone; its wonderful Swiss motor, which runs with the precision of the finest watch; its tone controlling device; the quiet elegance of its cabinet; and its universality—for the Sonora plays every record—make this instrument a welcome addition to the finest music room.

—NOTE WHERE IT IS SOLD—

The "Sonora" Adds to Their High Prestige

Much of your faith in a phonograph quite naturally depends upon your faith in the firms which sell it. Note the representation of the Sonora wherever you see it sold.

The supremacy of the Sonora was strongly apparent at the Panama-Pacific Exposition, when the judges who heard and tested all the phonographs bestowed upon the Sonora highest honors for tone quality.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development of secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as bisulphated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms, so to be certain to ask for and take only Bisulphated Magnesia, which is especially prepared for the above purpose.

DOES MONEY EVAPORATE?

Money spent on medicinal preparations often does! In this way—You buy a preparation, use perhaps a third of it, and put the remainder on the shelf. When next you need it—unfit for use! Two-thirds of the money value of your expenditure has "evaporated."

Just there is where Zam-Buk is so different—so superior! Zam-Buk is not only 100 per cent. medicine, but, owing to its freedom from animal fat, it never becomes rancid, but will keep indefinitely. Buy a box to-day, use what you require, put the remainder away, and when you have occasion to use it again, you will find its healing, soothing and germ-destroying powers just as effective as the day you bought the box!

Zam-Buk stops bleeding, endospasms, draws out soreness and prevents blood-poisoning in cuts, burns and scalds. Without equal as a remedy for eczema, sores, piles, ulcers and blood-poisoning. 50c. box.

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

FREE TRIAL. Cut out this article, write across it the name and date of this paper, and mail it (with 1c. stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

SHERBROOKE CITIZENS will never be offered a BETTER INVESTMENT

If you were to board a train at Halifax or Vancouver and ride for 3,500 miles across this broad country—you would see something of the security behind the Victory Bonds. You would ride for a week—but even then you would only see a narrow strip of Canada's hundreds of millions of acres

—a country nearly twice as large as all Europe. Would you see—
the farm and forests
the prairies and plains
the mines and the mills
the docks and the elevators
the steamers and the railroads
the cities

the towns—
All this is the security behind your Victory Bonds. This is the security that makes Victory Bonds one of the world's premier investments. Victory Bonds are the safest securities. Victory Bonds pay a good rate of interest—nearly twice as much as Savings Banks.

And you know how vital it is to Canadian Prosperity—and your own welfare—that the Victory Loan shall be successful.

It means that Canada's prosperity and your own prosperity will continue.

DISCUSSION RE THE TECHNICAL SCHOOL SITE

Some are Now in Favor of "Old Coffee House" Site Instead of King Street Lot.

In municipal circles today, the principal topic of conversation, and one concerning which numerous rumors are circulating, is that of the Technical School, the preliminary plans for the erection of which have been made, but concerning the location of which, there has now arisen considerable argument. At a meeting of the council some weeks ago, it was decided in the usual manner, to build the new school on King Street, next to the present site of the Central School, the grounds reaching from the latter edifice to the C. P. R. tracks. This was generally conceded to be about the best site that could be found, and it was practically decided that this would be the location of the new building. So much so, in fact, that the city attorney was instructed to go ahead with proceedings to expropriate, if the deal could not be put through any other way. An element has now arisen, however, which seeks a more central location for the Technical School, and the matter is to be taken up at the next meeting of City Parks and Real Estate Committee. The site which is proposed by certain of the aldermen is that known as "The Old Coffee House," and the lot immediately behind it, which commands a splendid outlook over Strathcona Square, and which is located at the corner between the Court House building and that of the Bell Telephone Company. The advantages of this latter site, according to the claims of its advocates, are that a more central location could be secured, that no expropriation would be necessary as the owner would be willing to sell, that the site would cost less than the King Street lot, and that there would not have to be so much destruction of buildings on the newly proposed site. It is expected that the matter will be publicly discussed at the next meeting of the City Council.

ARMISTICE DAY IS CELEBRATED AT SCOTSTOWN

School Children Paraded Streets on Anniversary of Peace—Other News of Town and Vicinity.

SCOTSTOWN Nov. 14.—(Special) The school children were granted a holiday on Armistice Day. In the afternoon they formed a procession and paraded the streets led by the older children down to the smallest tots, with their flags and drums, showing some of the joyful feeling experienced a year ago that day. The mills observed the two minutes absence from work granted by the King, the bells and whistles also reminding the citizens of the same hour last year. On Wednesday evening, a number of the citizens gathered together in St. Onge's Hall, for a social evening. The hours were pleasantly passed with music and games, the ladies serving refreshments. Ladies' Aid Hold Meeting. The Ladies' Aid meeting was held at the home of Mrs. G. Kinsey on Wednesday afternoon and was well attended, and a good deal of work as well as business was accomplished. Arrangements were completed for the annual sale and supper, which it was decided would be held on Wednesday, December 11. The supper will be a "chicken pie" one, the ladies being very successful in getting chickens donated. General Notes. Mrs. Lyford Elger has returned from Montreal, where she was receiving treatment in the general hospital. Mrs. John MacDonald is confined to the house with a very bad cold. Mrs. Norman MacDonald and Mr. John MacDonald, of Lingwick, were in town on Wednesday. Mr. and Mrs. P. Warren and children have returned to their home in Lowell, Mass. Mrs. Warren has been the guest of her parents, Mr. and Mrs. L. Alger, for a few months. Mr. Donald Stewart has gone to Montreal General Hospital, where he expects that he may have to undergo an operation. Mr. Stewart has been to Sherbrooke twice, during the last two months, when he underwent an operation each time. Mr. John Sharman and Mr. Gordon Simons were the guests of Mr. and Mrs. G. W. Beard, for the week end, en route to their home in Quebec, after spending a week on a hunting trip in this vicinity. Mr. Jack Lax is the guest of his brother, Mr. Herman Lax. Mr. Payson Sherman went to Emberton a few days this week.

ELECTION FIGHT IN AUSTRALIA ON IN EARNEST

Both Parties are Battling for the Soldiers' Vote—Returned Men Appear Solid for Premier Hughes.

(Associated Press Despatch) LONDON, Nov. 14.—The Sydney correspondent of the Morning Post, says the Federal election campaign is now fairly launched and there is every prospect of a fierce fight for the soldiers' votes. The executive of the Returned Soldiers Association seems solid for Premier Hughes, but their organization is still loose, and many of the rank and file are uncertain. Apparently the soldiers' votes will decide between the two parties. In a few cases farmers candidates are splitting the vote for Hughes. A battle has raged for two weeks over promised gratuities totaling twenty-five million pounds. Mr. Hughes offered bonds redeemable at a subsequent date, while Mr. Ryan, the opposition leader, offered cash. There upon Mr. Hughes offered cash to those in need of it, but appealed to the soldiers to accept bonds from patriotic motives. Now, however, Mr. Hughes has discarded the compromise, and has announced at Adelaide that the banks have agreed to cash the bonds on demand. The bonds will be issued when parliament meets. Several returned soldiers are candidates, including generals, junior officers and non-commissioned officers. They are all of the Nationalist party. If General Monash, the Australian overseas commander had been in Australia, it is certain he would have been asked to stand.

The Moose

All Canada is the natural home of the "King of Canada's big game, but New Brunswick, Quebec, Ontario and Manitoba afford the best moose hunting.

There are two methods followed in moose hunting—"calling" and "still hunting." During the rutting season the first method is the one usually followed, but there is more satisfaction in tracking. Absolute silence is the one great essential in still hunting and stalking must be done "up wind."

The tracks of a bull moose can be readily distinguished from those of the cow. The former are rounded and blunt—the cow's long and pointed.

During the winter, moose gather on the hardwood ridges between cedar and spruce swamps, through which they make beaten lanes. A "yard" sometimes contains twenty to forty animals.

Opinions differ as to the most suitable cartridge for moose hunting. Choose one with shock ing power back of it and be sure the big "D" trade-mark is on the box.

DOMINION Ammunition

Is always dependable for moose and other big game. Users of 30-06 rifles should look for the yellow label on the back of the box—it insures more speed, flatter trajectory and greater shooting power.

"You want my daughter, eh? I presume, young man, you have made an estimate of what it will cost to keep her in the style to which she has been accustomed?"
"I have, sir."

"And your figures?"
"Ten thousand a year, sir."
"I'm sorry my boy," said the old man, "but I cannot afford to throw away \$2000 a year. Another suitor has figured that he can do it for \$8000."

But if you won't exercise vigorously you must take "Cascarets."

There is nothing like bending exercises, taking long walks, or chopping wood to keep the liver and bowels active, but most folks take their exercise in an easy chair. Such folks need Cascarets, else they suffer from sick headache, sour, acid stomach, indigestion, colds and are miserable. But don't stay bilious or constipated. Feel splendid always by taking Cascarets occasionally. They act without griping or inconvenience. They never sicken you like Calomel, Salts, Oil, or castor, harm Pills. They cost so little, too—Cascarets work while you sleep.

Cut this Out

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your druggist 1 ounce of Parment (Double strength). Take this home and add to it 1-4 pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parment used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a try.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incandescent material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take lime-baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully dark and glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

ARMISTICE DAY IS CELEBRATED AT COOKSHIRE

Excellent Concert Followed Banquet Marking Anniversary of Return of Peace—Notes of News.

COOKSHIRE, November 14.—(Special)—An event of the greatest success and interesting was the Armistice Anniversary celebration which was held here on Tuesday in Victoria Hall.

An excellent supper was served in the basement of the hall from 5.30 to 8 o'clock, and was followed by a concert, consisting of speeches, by Senator R. H. Pope, Rev. J. A. R. MacDonaid and Mayor F. A. Cromwell, who acted as chairman. Vocal selections, rendered by Messrs. William Hazzlett and Douglas Taylor, while Mrs. F. DesRousseau recited "The Habitant." Instrumental selections were given by Panche's Orchestra with players from out of town.

Mr. A. MacKee, M. P. for Edmonton, Alta., formerly of this town, and Major-General D. C. Draper, of Sutton Junction, who were to have spoken were unable to be present.

The conclusion of the concert was followed by an old time dance, the programme consisted of a grand march, portland fancy, military, scottische and so forth.

Supper was served about 9 o'clock after which a new dance programme was arranged for the young people.

The proceeds which amounted to about \$150.00, went towards furnishing equipment for the Cookshire Concert Band.

The celebration was a success from every viewpoint and it is hoped that at each anniversary of the signing of the Armistice, the event will be celebrated in some similar manner.

General Notes.

Mrs. Robert Bryson, of Montreal, is visiting in town, the guest of her sister, Mrs. Charles Sawyer.

Miss Gladys Hunt, of Bur was in town on Tuesday, for the Armistice Celebration.

Mr. S. B. Saunders was in Sherbrooke on Thursday.

Miss Florence Harvey of Bulwer, attended the celebration at Cookshire on Tuesday.

The weekly meeting of the Epworth League will be held in the Methodist Church Hall on Monday, November 17, at eight o'clock.

Band practice for the Junior Band will be held in the band room on Monday, November 17, at 7.30.

Mr. F. A. Noble was in Montreal last week on business.

The Junior Guild and Auxiliary held its weekly meeting at the same time as the Misses Hazel and Gladys Woolley on Friday last at 3.30 o'clock. It was decided at this meeting to hold their annual sale and afternoon tea on Saturday, December 6, from 3 to 6 p.m.

There will be three booths, the first a candy table which will be taken charge of by the Misses Dorothy Hall, Winnifred Kirby, Eleanor Macdonald and Geraldine Weyland. The Misses Norah Warren, Katherine Kirby, Hazel Woolley and Alita Osgood will have charge of the sale table, while the bran pie will be taken charge of by the Misses Louise Charbonnell, Aline Planché, Katherine Walker and Rita Kenney.

EXHIBITION GAME AT BISHOP'S COLLEGE

On Wednesday afternoon the University team played a friendly game with the Bishop's College School team, on the College campus.

The extremely muddy condition of the field made any open play very difficult, so that the lighter team of the School were at some disadvantage, while the backing tactics employed by the University won yards almost every time. From the outset of the game, the School used considerable kicking, and on one of their kicks scored one point for a rouge. This occurred in the first three minutes of play.

In the first quarter of the second half, Robinson, of the University team, by means of a fake play, got well away, winning some twenty-five yards, which brought the University team within about one yard of the School's touch line. Moore then took the ball through the centre strick and made a touchdown for the University.

The final result of the game was a score of 5 to 1 in favor of the University team, which proceeds to Montreal tomorrow to play Loyola College.

"A LIGHT IN THE DARK" WAS WELL PRESENTED

Urban Stock Company Had Excellent Bill Last Evening.

Frank in its theme, analytical in its details, and dramatic in its denouement, is "A Light in the Dark," played last evening by the Urban Stock Company at His Majesty's Theatre as the fourth bill of a week which is drawing all too quickly to a close. It is a play of excellent technical work, melodramatic if you will, yet true to life, and it was presented by the competent company, as well if not better, than any of their previous efforts.

The story of the play relates the tale of a young man, the spoiled child of a wealthy family, and of a girl who is wronged by this "gilded son," a rather cadish, but intensely human character, excellently played by Mr. Leroy Kenneth, who gives a portrayal of the role showing a rare appreciation of the various characteristics of his part. The play progresses with the adoption of the girl by the man's family, the attempt to rob the house by the girl's own father, and his capture and sentence to prison, the relationship between them remaining unknown. His return furnishes the not strikingly original but highly dramatic climax of the play, and after a well worked-up scene of reconciliation, "a new day dawns," and the curtain falls with the young man and the girl pledging to meet it "together."

As the girl, Miss Isabel McMinn gives a characterization of rare charm and finesse, showing excellent taste in her distinction between the character in the first and second parts of the play. Her scene where she is brought in intoxicated by the man, is a real accomplishment of artistry. As the girl's father, Mr. Frank Urban has a splendid role which he takes full advantage of, and Mr. Charles E. Mills and Miss Dot Karroll contribute thumb-nail sketches of the father and mother of the young man. Altogether, it is an excellent performance of an interesting play, and what more is a audience to ask?

Tonight the company will present "After Office Hours."

A LEGAL TURN.

The following is told of a late railway magnate and a prominent Philadelphia lawyer. Said the magnate to the lawyer:

"I want you to show that this law is unconstitutional. Do you think you can manage it?"

"Easily," answered the lawyer. "Well," go ahead and get familiar with the case."

"I'm already at home in it. I know my ground perfectly. It's the same law you had me prove was constitutional two years ago." — Lancaster News-Journal.

ZINC AND LEAD HERE!

The Gaspé Peninsula

THE average Canadian hears time and again that his country has unlimited natural resources. What does he do about it?

He leaves it to foreign capital to develop and profit by these resources. The greater part of Canada's mineral production is financed by shrewd investors outside the Dominion.

To be candid about it, Canadians do not know their own country. The Gaspé Peninsula is a name only, except to the few dwellers bordering on the St. Lawrence and the Bay of Chaleurs—and even they are blissfully ignorant of the wealth of Zinc and Lead lying beneath the surface of the ground in the interior of the peninsula.

Here is property that will rival the famous Joplin-Oklahoma mines in the States and the Australian zinc and lead mines.

The deposits in the Gaspé Peninsula occur in fissure veins, fourteen of which have already been uncovered. Shafting sunk over 100 feet shows no lessening in the quantity or quality of the ore.

Strategic Location of the Mines

Everything is in favor of the Federal Mines, located near the point of the arrow in the above sketch map.

A road is under construction from the mines to Cascapedia, which, with its rail and water facilities, will give the Federal Mines excellent outlets to the Zinc refineries of New Jersey, Cleveland and Wales.

Federal Mines is the subject of a detailed report by the provincial mining department. It remains to be seen how far the people of this province will take advantage of Quebec's natural wealth, KNOWING the facts.

MARRIAGES

KLINGNER-FELTUS.

BEIBE, November 14.—A very quiet wedding took place on Wednesday evening at the home of Mr. and Mrs. Josiah Feltus, when their youngest daughter, Carrie, was united in marriage to Mr. Arthur H. Klingner. Only the immediate relatives of the bride were present.

The bride wore her travelling suit of taupe broadcloth, with hat to match, and blue ostrich plume, blouse of pink georgette crepe, blue beading. Her only ornament worn was an onyx and pearl ring, the gift of the groom.

Mr. and Mrs. Klingner left on the evening train for New York, amid showers of rice and confetti.

A LONG LINE.

"Will you marry me?" "Sir! You are the last man on earth I would marry."

"Never mind, then. I didn't suppose there were so many ahead."

DEVOTED TO THE INTERESTS OF EASTERN TOWNSHIPS AGRICULTURE AND PUBLISHED EVERY FRIDAY AS PART OF THE SHERBROOKE DAILY RECORD

From Eastern Townships Experimental Farm

MORE ATTENTION TO THE FEEDING OF DRY COWS

Should Be Remembered that Even Though the Cow is Dry, the Developing Calf Must Be Nourished.

The dry cow receives little attention for the majority of dairy farmers, for they consider that a cow not in milk doesn't require a grain ration, and there is a tendency to considerably reduce the ration of the dry cow in order to save feed. It should be remembered that even though the cow is dry, the developing calf must be nourished. If it takes all the energy of the feed to develop the calf, the cow remains thin and consequently has no reserve power, when she freshens. The aim should be to feed a ration which will flesh up the cow in preparation for the season's work. The cow which is kept on little more than a maintenance ration from the time she is dried until she freshens never

gave the amount of milk and fat during the milking period she would have had she been in good condition at the time of dropping the calf. By limiting the ration for six weeks or two months, you may save a little in feed, but you lose many times what you saved before the lactation period ends. A pound of meal a day during the dry period is worth as much as two or three pounds of meal fed after the cow has freshened.

Feed the dry cow, hay, silage or roots and a grain ration of two parts of any two of the following meals; bran, ground oats, ground corn, ground barley, plus one part of ground oil cake. To the thin cow feed 4 to 7 pounds daily if the cow is in good flesh, give hay, silage or roots as needed and one to two pounds daily of the above-mentioned grain mixture. The time to start feeding grain to a cow is when she is dry, and after freshening she should be put on a full grain ration just as soon as she can be safely worked up to it. Give your cows a chance and one way to do so is to feed them a grain ration when dry.

MACHINE FOR USE OF FARMERS TO THRESH CLOVER

Will Be in Running Order for Tuesday, November 18th, at Huntingville Grist Mill.

The high prices that have been ruling lately in the Clover Seed Market, has brought our farmers to a point where they find it necessary to secure another source of supply other than that of abroad. To meet with this emergency, the farmers are resorting to producing this seed on their farms here in the Eastern Townships, which can be done with a degree of success if proper care is exercised in selecting a piece of the clover field where the stand of plants are not too heavy; cut when the first blossoms show, so as to have the second crop develop early in the season. It is from this second crop that the seed can be obtained. This holds in the case of medium red clover, but in the case of alsike the first crop is taken to obtain seed from. For those who saved clover this year with the idea of getting seed, it will be of special interest to know that the Clover Huller owned by the Sherbrooke County Agricultural Society will be in running order for Tuesday, November 18, at the Huntingville Grist Mill. The machine is for the use of the farmers who wish to thresh clover. The membership fee to the Society is one dollar, and a nominal charge per pound on the amount of seed will be made to help defray the extra cost of setting up of the machine, and for its running. This effort by the Society and the Special Committee should be appreciated by the farmers, and the best sign of this appreciation is for a good response to this effort, which is being made to help the community. T. FRED RITCHIE, Sect.-Treasurer.

MASSAWIPPI

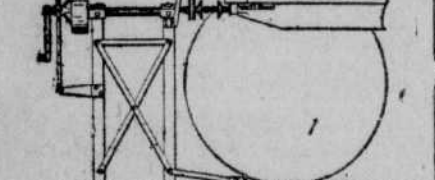

Road work on the Hatley road has been going on apace this fall, and great improvement has been made by this municipality. Hatley Council has contributed gravel from their pit to assist, as this road is much used by Hatley people, and their assistance was asked for in this direction, and very commendable. The Halloween party given by the Homemakers' Club was attended by thirty-five couples, who enjoyed dancing to the strains of Sloggett's Orchestra from 9 till 3 o'clock. Rain coming on in the evening prevented many from attending. Supper was served at midnight. The Club propose to hold a box social on the evening of November 21. Dancing, Sloggett's Orchestra. All come and remember the date and place, Town Hall. The Homemakers' Club held their regular meeting Wednesday afternoon. Dinner was served at noon and business followed. Owing to the resignation of the president, Mrs. P. Whitcomb, Mrs. L. Colt presided pro tem, was asked to finish out the year. Mrs. A. Laduke was chosen first vice-president in the place of Mrs. L. Colt. Mrs. A. Libby and Mrs. R. Libby were present from Cassville. Two subject of women's franchise was new members were enrolled. The taken up and several good points shown up along that line. Mr. George Reburn and Miss C. Reburn, after a few weeks' stay in the village since leaving their farm, The Highlands, have gone to visit relatives, Mr. and Mrs. James Reburn, at White Plains, N.Y. They expect later to continue their journey south, owing to the delicate health of Miss Reburn. Mr. E. Mosher has leased and moved to Mr. Harkness' farm, known as the Ham place. Mr. Harkness and family have gone to reside in Sherbrooke for the present. Mr. and Mrs. C. Taylor are staying a few weeks with her parents, Mr. and Mrs. W. Frappier. During the illness of Mrs. Taylor, Mrs. E. Ayer is caring for her and infant. Mr. H. Bean, of Beebe, was calling on his brother, Ernest, on Wednesday. Mr. and Mrs. A. LaFoe, of Holland, were in town on Wednesday, calling, and went on to Sherbrooke for the

RECENT INVENTIONS OF INTEREST TO EASTERN TOWNSHIPS FARMERS

(By C. J. Lynde, Macdonald College, Que.)

POWER MECHANISM.

The mechanism shown here makes the power of an automobile available for other purposes. It is connected to

the crank shaft at the front of the car by means of two universal joints and it operates an outside fan to produce the extra cooling needed when the radiator is stationary. (Autopower Co., Detroit, Mich. U. S. Patent, 1,315,106.)

KILLING HOGS.

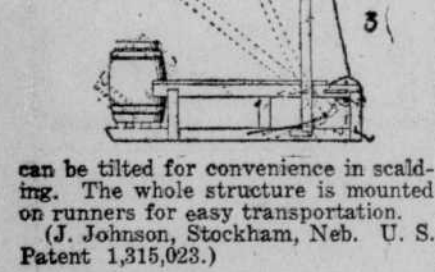

Farmers' Bulletin 913, "Killing Hogs and Curing Pork," has 39 pages

and 22 illustrations on this subject. Write for it to: Superintendent of Documents, Washington, D. C. It costs five cents.

BUTCHERING TABLE.

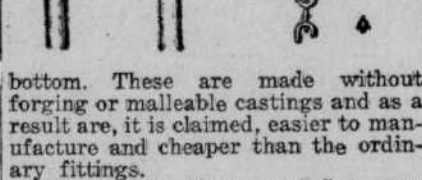

The derrick at one end of this table can be tilted to facilitate handling the hog and the barrel at the other end

can be tilted for convenience in scalding. The whole structure is mounted on runners for easy transportation. (J. Johnson, Stockham, Neb. U. S. Patent 1,315,923.)

STANCHION.

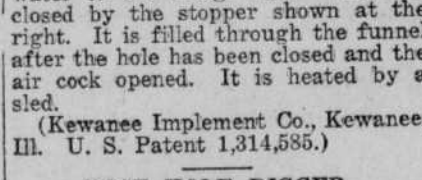

The improvement here lies in the latch at the top and the hinges at the

bottom. These are made without forging or malleable castings and as a result are, it is claimed, easier to manufacture and cheaper than the ordinary fittings. (Hunt, Helm, Ferris and Company, Chicago, Ill. U. S. Patent 1,314,955.)

WATER HEATER.

The barrel of this watering device is protected by an outer covering and has at one end a hole which admits

water to the trough and which is closed by the stopper shown at the right. It is filled through the funnel after the hole has been closed and the air cock opened. It is heated by a sled. (Kewanee Implement Co., Kewanee, Ill. U. S. Patent 1,314,585.)

POST HOLE DIGGER.

The post hole digger here is so constructed that it can be mounted on the

chassis of an ordinary motor truck and its operating mechanism can be driven by the engine of the truck. (International Harvester Machine Co., Chicago, Ill. U. S. Patent 1,315,565.)

Guessing Doesn't Pay

Accurate Weighing Soon Saves Cost of Scale

"Absurd, foolish idea!" That's what you would very properly say if your dealer proposed to guess the weight of your seed grain that you pay good money for. No indeed—you demand it weighed, and accurately weighed, too.

Then why in the world is it considered safe to sell thousands of dollars' worth of live-stock by guess!

Don't lose money any more by guessing the weight of what you sell—weigh everything! Know to a pound where you stand. That's business! Get a

Renfrew TRUCK SCALE

With an easily contrived extra platform you can weigh cattle, horses, sheep and swine.

You can wheel the scale to any spot on the farm and weigh grain. Just slip the nose of the truck under the bag and tip it up onto the scale. That is easier, surely, than lifting it bodily onto a platform scale.

In the pictures you see how the Renfrew is tested. Note that it will weigh accurately on the corners as well as on the centre. It weighs correctly on uneven ground—a platform scale must be level. And the Renfrew Scale takes up no valuable floor space. Just tip it up on end anywhere out of the way.

It is built for a lifetime of knocking around. It's not heavy for it is built of the very strongest materials that combine strength with light weight.

It is accurate as a watch. Every individual scale is tested by a government inspector and a certificate of correct weight comes with every scale.

Can you afford to be without one any longer? Write now for free illustrated literature and name of nearest dealer to you.

Another Epidemic OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after effect such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system. If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify your system against this terrible plague. If you had the "Flu" before and it left you with any bad after effect Milburn's Heart and Nerve Pills will bring you back to health and strength. Mrs. C. C. Palmer, Keppel, Sask., writes:—"I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house." BEDFORD GIVES BIG MAJORITY TO THE BY-LAW

Vote on Transfer of Property is Almost Unanimous—Other News Around Town.

(Special to The Record.)
BEDFORD, Nov. 14.—On Monday and Tuesday last the voting in regard to whether by-law No. 51 should be passed or not took place, with the result that at the close of the polls on Tuesday the vote stood 129 to 2 in favor of passing the by-law, the valuation of the property being \$316,215 for and \$2,980 against. The returning officer was Mr. A. T. Gould.
The following shows in what way the town was at a disadvantage under the old system: In the spring of 1910, under written agreement, the town agreed to transfer to the Bedford Light Company for six years the waterworks system, which cost the town about \$38,500. The town also agreed to pay the cost of completing the system, about \$8,000, and agreed to pay interest at 7 p.c. on the cost of extension, if the town took back the system before the end of six years—about \$1,350. It also agreed to take over the electric light plant at a cost of \$18,500. The town owns the Electric Light Company today in round figures about \$29,500.
In the meantime the town derives not one cent of revenue from this, but must pay interest on the money borrowed to install the waterworks, amounting annually to \$2,275, and also interest on the cost of extension, which up to December 31, 1919, will amount to about \$1,350.
By the passing of by-law No. 51 the town will benefit in that the above property will be returned to the town, the revenue from which will more than cover the interest on the total investment, thus relieving the taxpayer of his taxes in this direction.

HAD ECZEMA FOR OVER 28 YEARS

Eczema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed, and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat is almost unbearable.
The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done or can do, so much for those who are almost driven to distraction with the terrible torture.

Mr. James Watker, 152 Niagara St., Hamilton, Ont., writes:—"I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 28 years, and have tried almost everything you could think of. I was recommended to use Burdock Blood Bitters, and I am now clear of my skin trouble. It is certainly a good remedy and I shall recommend it to all my friends."

LAD IS KNOCKED FROM HIS WAGON AT ST. JOHNS

Auto Collided With Delivery Wagon—Boy Was Not Very Seriously Hurt.

(Special to The Record.)
ST. JOHNS, Nov. 14.—The reckless manner in which autos are driven in this city and the careless way in which grocery deliveries are driven by mere boys, was demonstrated yesterday, when what might have been a serious accident occurred at the corner of St. James and Jacques Cartier streets. A delivery auto truck belonging to Boulais Brothers, confectioners, collided with a grocery wagon driven by a young man named Desjarlais.
Desjarlais was knocked off his wagon to the ground. He was picked up by a passer-by, and upon examination on his return to the store was found to have received no injuries of moment.

DEFIANCE OF GAME LAWS.

What are the game wardens in the Eastern Townships doing at the present time to earn their pay envelopes from the Government? That is the question which a number of sportsmen have been asking of late. This is supposed to be the busy season for the game wardens in this district, but the bold and regular manner in which one of the most important game laws is being broken leads one to believe that the wardens have not been losing a great deal of sleep in their efforts to see to it that the game laws are being enforced.

The season for deer hunting is now in full swing and many a fine prize has fallen before the hunters' gun. However, there are evidently quite a number of hunters who have not an over abundance of "sporting blood," for from all accounts they are taking unjust advantage of a weakness of deer and at the same time breaking one of the chief game laws in "jacking."

"Jacking" for deer is an offence which calls for a fine of \$200, on conviction, and although it is being done with great regularity in this district, not a single offender has been punished in the local courts this year as yet. It is a mean and unsportsmanlike trick played on an animal that does no harm. In "jacking" a party of sportsmen equip themselves with a fairly powerful light which they play along the woods. The rays of light not only attract the unsuspecting animal, but appear to paralyze his movements. A bright light is a mystery to the deer and he stands there trying to solve the mystery. Meanwhile the light reflects in the animal's eyes and makes an excellent mark for the hunters who lack real sporting blood.

By "jacking," hunters are not only breaking an important game law, but they often cause considerable waste of excellent meat at a time when thrift is so necessary. The story is related of three hunters from this district who set out recently on a "jacking" expedition. They were equipped with a powerful search-light. Whenever they spotted the eyes of a deer as he looked into the rays of the light, all three hunters fired. They had a merry night's shooting and after a short sleep set out the day following to determine just how they fared in their efforts. They found one dead which had been instantly killed, and then a second that was lying on the ground with its leg broken. They also noticed blood stains in the snow, but after following these for the trail for some distance they gave up the chase. The deer which had left the trail of blood, however, was found lying dead a few days later, but decomposition had set in and the meat was useless. Thus many pounds of excellent meat were wasted.

One well-known local sportsman claims that there are parties going out "jacking" almost every night, and that a man who was fined last year for such an offence, is as busy as ever with his light this year. Asked if the game wardens did not do anything, this sportsman replied: "Why, I know of several hunters who openly boast that they have no fear for the game warden in their district, for they claim a shot in his direction will frighten him off for a week."

LASTING FRIENDSHIP.

King George in greeting President Poincare in England emphasized the sentiment of friendship existing between France and England by expressing his belief that it was lasting. The English and French, so long ancestral enemies, have in the face of common attack found themselves to be possessed of very many human qualities that are similar. And no one could have fought with a country so brave as France has proved herself during the war, without acquiring very great admiration and respect for her brave national soldiery.

Nothing can erase the sentiment of appreciation of the "pre-eminent ally" France, among those nations privileged to help her in her fight for liberty.

VON CAPELLE AND THE SUBMARINE.

Previous to the outbreak of war between Germany and France the German navy possessed only forty-five submarines. During the early period of hostilities little encouragement was given towards increasing this number. Indeed, Admiral Von Capelle, the German Vice-Admiral, states in his discussion of the construction of the submarine before a committee of investigation that at first "the Reichstag took an overwhelming stand against the submarine." The Government, he declares, decided to live up to interna-

tional law and not sink merchantmen without warning. But the exigencies of warfare changed the opinions of many men of power and influence in the German government and navy, and eventually favored a submarine campaign.

Von Capelle devoted himself to a most intimate and detailed study of U-boat building, overcame the opposition of his government, and had built, during his term of office, 579 submarines. Admiral Von Tirpitz was responsible for the building of 186. So that Germany owned 810 submarines when the war closed.

Von Capelle in his testimony regarding the purpose of the campaign makes the statement that the intention was to force England to peace within five months, and then ambiguously adds: "there was no hope in the navy that food or ammunition could be kept from England."

Such is Von Capelle's inside story of the submarine against which he declares the Reichstag took so decided a stand in 1916. Yet the inside story is slightly different. In February, 1915, the submarine blockade of the British Isles began. On May 1, the American steamer the Gulfight was torpedoed by a submarine. On May 7, the Germans torpedoed the Lusitania, and were not so attached to the rules of international law as to regret its sinking. On May 24, they torpedoed the Nebraskan. On June 1, the German Government had a spasmodic reaction and apologized for sinking the Gulfight, but quickly recovered and torpedoed the Leclanaw and the Arnic before the summer was over. They did not get Henry Ford in December, on his way to Europe with the dove of peace, and during 1916 were almost wholly inactive in submarine warfare. During this transitional period from Tirpitz to Von Capelle, from indecision to decision, only ninety new submarines were built. In 1917 Von Capelle was ready for action.

If we are to believe the Vice-Admiral's statement the German Government was not favorable to submarine warfare previous to 1917. Yet it was surely this same government that sanctioned public celebration of the sinking of the Lusitania in 1915.

ELECTION BETTING.

(New York Times)
As no effort whatever is made by our police authorities to prevent or punish election betting, it would be well if the law which prohibits and pretends to penalize it were repealed. It is, of course, a good and proper law as everybody knows and admits, but in the evident estimation of the public the evil it was designed to suppress is not sufficiently serious to create a demand for the enforcement of the statute, and, as usually or always happens in such cases, it is not enforced.

To treat any law with contempt and openly defy it lessens respect for all law, and therefore this one, being dead, should be buried. There has been comparatively little of election betting this year, at least in this State, yet a good many hundreds of men and not a few women went to the polls and voted yesterday, though they had made bets, large or small, on the result and therefore, had no legal right to cast a ballot. They are all conscious law-breakers, and that they feel no compunction or remorse is the very worst feature of the situation which the existence of this law creates.

PARTY POLITICS REMAINS.

(Toronto Star)
It would be rash to predict that the present upheaval in politics means the end of a party government in Canada. All that can be said is that great changes have occurred and that others may be coming. The old parties have been demoralized. They may be restored. Much will depend upon leadership and policy. Personality will count as it always does. New issues have made new alignments, and there will be more changes of a similar kind.

HER PROBLEM SOLVED.

(San Francisco Argonaut)
The young man, one of the favored few who can still run a car, reached home late for dinner. "I got caught for exceeding the speed limit on the way home," he explained rather sheepishly. "Have to appear tomorrow morning and get a fine of fifteen days." The wife clapped two blistered little hands. "What a Providence!" she cried joyfully. "Take the fifteen days, Harry. The cook has just left."

NOT A "BONE-DRY" LAW.

(Toronto Globe)
The general use of the term "bone-dry legislation" in reference to the liquor laws passed by Parliament before prorogation cannot fail to mislead many citizens who have not studied the measures. There is a widespread belief that Parliament has supplemented the prohibitory laws against the retail sale of liquor as a beverage now in force all over the Dominion, save in the Province of Quebec, by the adoption of a statute preventing the importation of liquor by any citizen of a dry Province for his own use. The supposition is that empty cellars must remain bone-dry under the new law.

This is not the case. Parliament has provided machinery under which the people of any Province that wishes to prevent the importation from another Province, or from abroad, of liquor on the order of a private citizen for his own use may do so by majority vote. To secure the adoption of such a law the Legislature of the Province interested must request the Dominion Government to take a popular vote of the electors on the issue. This request may not be set aside by the Government, but must be granted within three months. Upon the taking of the vote, in which women shall have the same right to participate as men, a bare "yes" majority will be regarded as a mandate to prevent importation. The

Canada's Victory Bonds 1919

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

Dominion Government, which has sole jurisdiction over inter-provincial and foreign trade, will have to co-operate with the Provinces in the enforcement of bone-dry laws, and for this provision has been made. The fear is expressed by representatives of the Dominion Alliance that the new Federal laws which are intended to secure greater respect in wet provinces for the prohibitory laws in force in adjoining dry Provinces may cause confusion rather than provide better facilities for law enforcement. Until the text of the new Federal laws is available for comparison with the Provincial laws judgment on this aspect of the case must be reserved.

DAMAGE BY FIRE IS ESTIMATED AT OVER \$50,000
VICTORY LOAN TOTAL STILL ON INCREASE

Biscuit Factory at Bedford, N. S., is Destroyed By Flames. A Total of \$452,256.78 Has Been Subscribed Up to Noon Today.

(Associated Press Despatch) HALIFAX, N.S., Nov. 14.—The saw mill and box factory at Bedford, owned and operated by Morris, Limited, biscuit mill and confectionery factory, was destroyed by fire early this morning. Company officials said this morning that they were unable to estimate the loss. The buildings, which were fully equipped with modern machinery, were insured for \$50,000. An unofficial estimate of the loss exceeds this amount. The fire is believed to have originated in the basement of the box factory. Fire apparatus was despatched from Halifax, but arrived too late to save the burning buildings, though preventing the blaze from spreading to the chocolate factory and large lumber piles nearby.

MUNICIPAL MEN TO HOLD SESSION AT MONTREAL

Practically Every Municipality in Quebec Province to Be Represented.

FINANCIAL AND MARKET NEWS

In The World Of Finance

(Furnished by F. B. McCurdy & Co.)

GOSSIP OF THE MARKET While the severest phase of the situation is undoubtedly past, too much consideration should not be given to yesterday's recovery, as money conditions are still acute and will be an important matter of concern for some time to come. There must have been a considerable amount of short covering yesterday, which accounted for the quick rebound, and while despatches from Washington indicate that no further statements are likely to emanate from the Federal Reserve Board, it can be taken for granted that the speculative situation will continue to have their close attention, and any resumption of excesses will call for further action in the House was on the whole highly satisfactory to railroad holders.

NEW YORK PRESS MARKET COMMENT

(Furnished by McManamy & Walsh.)

Wall Street Journal—There was a great cleaning out of marginal accounts as a result of the setback in prices. Therefore, the market is naturally filled with disgruntled individuals who see no reason why the screws should have been applied in so forcible a manner. Sun—A further sharp decline in the market at the outset apparently marked the final stage of the downward movement, for the time being at least.

Fair Strength Shown by the Corn Market

CHICAGO, Nov. 14.—Today's corn market showed considerable strength at the opening, due to advances in New York stocks and higher quotations on hogs, but the strengthening influence failed to last.

VERY IRREGULAR TONE MARKED WALL STREET

NEW YORK, Nov. 14.—(Wall St. Noon)—The feverish moment of speculative shares indicated that the market was still in a state of transition. General motors was a striking example, falling from 324 to 304, rallying to 316, followed by another setback to 307. Reversals of two to seven points marked the early close of other motors, also oils, steels, equipments and prominent specialties, the undertone becoming strong later, buying of rails under lead of Southern Pacific exerting favorable influence. This was tempered, however, by the money market, call loans opening at 14 per cent, as against yesterday's final rate of six per cent.

PARTY OF AUSTRIANS AND HUNGARIANS NOT WANTED
Organized Picket of Returned Men Refused to Let Party Land.

KELOWNA, B. C., Nov. 14.—Twenty-seven Austrians and Hungarians who sought to settle in the Okanagan have decided to return to their former homes at Horizon, near Weyburn, Sask. The party were refused permission to step off at any point in the district by an organized picket of returned men, who guarded the gang plank wherever the Okanagan steamer stopped.

COURT OF KING'S BENCH ADJOURNS UNTIL DECEMBER

Sentences Will Be Given Next Month—Jury Lists to Be Revisited By Board.

Adjourned until the ninth of December, the Court of King's Bench ended for the present its session today, and it was announced that no sentences would be given until the end of the term, which will be after the adjourned cases have been heard next month.

The court opened today with Mr. Justice Desy on the bench, and Mr. Jacop Nicol, K.C., Crown prosecutor, made a motion that an order be given to the board of revision to prepare a list of grand juries for November 25, and of petit juries of November 20. The juries will be assigned when the court reopens.

The fact that no sentences were given leads to the belief that Mr. Justice Desy will return for the December sitting, and although this has not been officially stated, it is generally supposed that this will be the case.

The appeal of Rodolphe Vallee in regard to the closing of the motion picture shows on Sunday, because of actions taken by the Lord's Day Alliance, although expected to come up today, will probably also be brought up before the December term.

THANKED COURT FOR SENDING HIM TO JAIL

Man of Seventy-Nine Given Six Months' Sentence—"It Will Be Warm There," He Says.

"Six months in jail," said Judge Mulvena.

"Six months in jail," repeated the clerk, in a loud voice, close to the ear of the very deaf accused.

Benjamin Leblanc, 79 years of age, accused of vagrancy, smiled tolerantly.

"Thank you, judge," he said. "it will be nice and warm there this winter."

Such was the humorously pathetic little scene enacted before the Sweetwater Magistrate's Court yesterday, when the old man appeared on a charge of vagrancy and begging. He was married and had a family, but was apparently unable to support them, and had been found sleeping in a barn. Very coquettishly he told the court that his youngest child was just nine months old.

He admitted having been convicted on three previous occasions, and was given six months in jail, where, according to his own statement, he will be "nice and warm."

NUMEROUS OTHER CASES.

A long roll of cases of various types came before the District Magistrate yesterday. A number of liquor cases were taken out by C. D. Griggs, collector of provincial revenue, Joseph Brodeur, restaurant keeper of Granby, and Paul Lavoie, grocer of East-ray, each being charged with selling liquor without a license. The former pleaded guilty and was fined \$50 and costs or three months, while the latter pleaded not guilty, and hearing in this case was fixed for November 24, as was that of Homer Yates, of Stanbridge East, accused of the same offence.

Charged with selling butter with a percentage of water greater than that allowed by law, Zepherin Bousquin and Joseph Leclerc, both of Granby, were each fined \$10 and costs.

The usual roll of Military Service cases resulted in several fines, and a number of others being adjourned. Frederick Murray of Waterloo; Rene Lusignan, Albert Hebert and Aime Cote, of Farnham, were each fined \$250 and costs, while some score of other cases were adjourned until the 24th.

THE ADMISSION OF FINLAND TO LABOR SOCIETY

(Associated Press Despatch)
WASHINGTON, D.C., Nov. 14.—"Finland is to be admitted to the International Labor Conference on the same conditions as obtain in the case of other countries which have not adhered to the covenant of the League of Nations."

The end of the two days' debate on the majority and minority reports of the committee on administrations ended in a substitute motion presented by L. C. Christie, of the Canadian delegation on behalf of Hon. N. W. Rowell, who was unable to be in attendance at yesterday afternoon's sitting of the conference.

Mr. Rowell had presented the minority report of the committee, a report which took the stand that "Finland could not be admitted to the International Labor Organization without first becoming a member of the League of Nations. In its new form Mr. Christie said the resolution would secure the practical object on which all were agreed so far as Finland was concerned, and at the same time would not prejudice the constitutional foundation of the International Labor Organization. Gino Baldesi, Italian workers' delegate, who presented the majority report favoring admission of Finland, accepted the substitute motion with the addition of a provision that the conference in extending an invitation to Finnish delegates is not giving a ruling on the question of principle.

A telegram from the Austrian delegation at Paris was read, stating that while the Austrian Government would be unable to send its own representatives to the conference, it transmitted its best wishes for success. The conference adjourned till Monday afternoon.

HALF WAY MARK IS REACHED IN VICTORY LOAN

Total is Now About Three-quarters of a Million—Many Districts Win Honor Flags.

With several additional contributions during yesterday, the Victory Loan total for Sherbrooke climbed slightly beyond three-quarters of a million dollars, which is just half of the allotment for the city, if the Prince of Wales' Honor Flag is to be won.

The canvassers are working hard, and an attitude of hope is still maintained at local headquarters, but all admit that Sherbrooke will have to hurry along, if the honor flag is to be won.

PRINCE OF WALES HONOR FLAGS

The following counties have won their flags in the Victory Loan, in addition to those already published. STYLE HEADQUARTERS
Society Brand Clothes

First With the New Styles

It is through our doorway that the new styles first make their appearance in this city, because it is here that Society Brand Clothes are sold.

At the start of each season men come to us and ask, "What is Society Brand showing?" When we display these new ideas, as we are now doing, it's an opportunity you ought not miss.

Society Brand Clothes

FOR YOUNG MEN AND MEN WHO STAY YOUNG
MADE IN CANADA

These clothes cost a little more, but it costs more to make them. Each garment is cut by hand. Each tailored by hand in accordance with most exacting specifications. Thus the style is in-built. It is not put in with a hot iron. As a result a Society Brand garment never loses its style and shapeliness.

The Store That Sets The Pace

VESSEL RAMMED AND SUNK AFTER A LONG VOYAGE

Attainment Was Just Completing a Fifteen Thousand Miles Trip When Accident Took Place.

(Associated Press Despatch)
NEW YORK, N.Y., Nov. 14.—After a voyage of fifteen thousand miles, the 318-ton Newfoundland schooner Attainment was rammed and sunk by a Spanish steamer in the harbor of Cadiz last September on the eve of her home trip. The yarn was spun here today by members of her crew, who arrived as passengers on the Italian steamship Caserta.

The last voyage of the Attainment started early in the present year, when she sailed from St. John's, Newfoundland, with a cargo of dried fish for Brazil. There she loaded with coffee and made an English port, where a cargo of coal for Spain was offered and accepted. It was then September, and her skipper, Captain Mercer, contracted to load and deliver a cargo of salt for the fish packeries of his native shores.

The eve of the sailing day had arrived, and with visions of Christmas at home on their minds, the members of the crew of the schooner were looking forward to a fast voyage across the Atlantic, when along came disaster in the form of a Spanish ship. None of the crew were injured.

President and Madame Poincare, departed for France today before leaving the President expressed his gratitude to the British for the welcome he had received, saying that Great Britain and France in the future would be inseparable in the sacred task of rebuilding the shattered world.
