

LONDON'S UNIQUE BATTLE WITH ANARCHIST BURGLARS LEADS TO DISCUSSION OF FOREIGN REFUGEE PROBLEM. FIVE WARDS SCHEME IS THE ONE MOST FAVORED FOR MONTREAL BY THE CITIZENS' COMMITTEE

Action in Regard to Alien Criminals Charged Against Government by Sir Robt. Anderson.

ONLY TWO BODIES FOUND.

Employment of Militia in Struggle Strongly Criticised—Women Accomplices Arrested.

London, Jan. 4.—Public excitement over the hunting down of the anarchist burglars gang continues at fever heat. To-day great crowds swarmed about the dingy east end street, which yesterday was the scene of a battle the like of which had not been known in the history of London's police department.

The police, who have been greatly overworked during the past forty-eight hours had their hands full in keeping the streets open to traffic while the detective department pursued its investigation into the Russian anarchist colony with unremitting energy.

ANARCHY WAS BURGLARY MASK.

It is believed that they found refuge in the tenement on December 29, and before they were discovered by a neighbor, Peter the Painter, and Fritz were members of an anarchist club, which met near Sidney street until recently.

Both attended a meeting, the object of which was to protest against the execution of Prof. Francisco Ferrer, the Spanish teacher who was convicted of revolutionary activities.

Londoners are greatly stirred by the succession of murders, which is wholly unforeseeable to the general public.

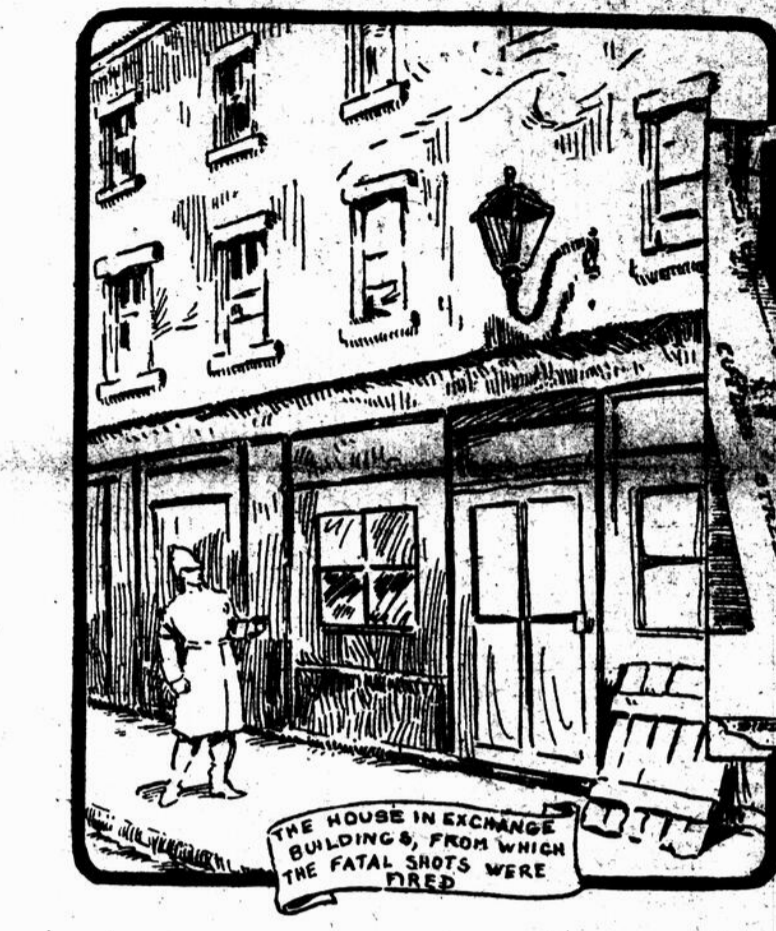

Robert Anderson, former head of the Criminal Investigation Department, says:

The British inaction in regard to alien criminals would discredit a capital of medically certified lunatics.

Some of the evening papers feature the recent discovery of a package of blasting gelatin in the mill town of Barking, seven miles north-east of London, and attempt to connect the discovery with the anarchists.

The London 'Times' this morning editorially points out certain questions which, it says, will be asked with regard to the employment of troops in the fight with the anarchists.

It is held that back rather than the sacrifice of foreign anarchists. We do not see how the ruffians could have been captured by the police.

Scene of the battle between London police and Russian anarchists at Houndsditch, which, through the murder of policemen, led to yesterday's battle at Sidney street, East End. The desperadoes, including the one thought to have been killed yesterday were tunnelling from the house shown above, on the left, into the jewellery store, when interrupted. They opened fire with revolvers and escaped.

CITY WRECKED BY EARTHQUAKE

Practically all Stores and Residences Were Destroyed

IN VYERNY, RUSSIAN TURKES-TAN.

Loss of Life and Property Damage Unknown—Fissures Opened in Ground.

Taskhend, Asiatic Russia, Jan. 4.—A violent earthquake was felt at various points of Russian Turkistan from 4 to 4.30 o'clock this morning.

Practically all of the stores and residences at Vyerny, the capital of the territory of Semipalatinsk, were destroyed or damaged.

Each District Would Comprise About Twenty Thousand Voters and Returns Five Members

WOULD BENEFIT THE CITY.

Another Scheme Proposed by Mr. J. Leroux Divides the City Into Ten Wards, Each Returning Two Members.

At a general meeting of the members of the Citizens' Association, held at the Chambre de Commerce this morning, the scheme for the division of the city into five wards, each returning five members, was laid before the members by the board of directors of the association.

Mr. H. Laporte, president, occupied the chair, and told the meeting that the five wards scheme was the one most favored by the committee.

Another scheme provided for ten wards, each returning two members, had been drawn up by Mr. J. Leroux, but Mr. Leroux had admitted that the scheme favored by the committee was the better plan, and submitted his own scheme only as an alternative.

At a general meeting of the members of the Citizens' Association, held at the Chambre de Commerce this morning, the scheme for the division of the city into five wards, each returning five members, was laid before the members by the board of directors of the association.

Mr. L. Lachapelle proposed as an amendment that the division be into twenty or twenty-four wards, each returning one member, and Mr. Dandurand's motion that the directors of the association be empowered to work the necessary steps to carry out the division of the city into five wards, each returning five members, was passed with only two dissenting votes.

The association's scheme will be forwarded to the city council this evening. The president assured several members of the association that the recently-annexed municipalities that the association would do its utmost to ensure that the city council carried out its contract to work the annexed districts to the letter, but Mr. Laporte did not favor the idea of the association selecting one candidate in each ward.

The following is Mr. J. Leroux's plan for the division of the city into five wards, each returning two members:

Table with 2 columns: Ward Name and Number of Members. Includes St. Denis (3,720), St. Mary's (4,877), Papineau (8,065), Duverney (2,151), Lafontaine (5,698), St. Joseph (4,883), Centre (960), St. Louis (5,780), St. Jean Baptiste (4,898), St. George's (3,670), St. Lawrence (5,144), St. Andrew's (3,154), St. Joseph (4,883), St. Cuneo (2,638), St. Ann's (1,519), St. Ann's (5,408), St. Gabriel (4,850), St. Henri (5,928), St. Paul (1,100), St. Emard (700), Grand total (96,556).

It will be seen that Mr. Leroux's scheme provides for the grouping of many of the existing wards into one electoral district so would give an average of between eight and ten thousand voters to each of the new wards, while the number of voters in each ward at present ranges from 150 in Cote des Neiges to 8,730 in St. Denis Ward.

LEADERS STRONG AND ADVANCED IN BIG BUYING

Rumors Favorable to Certain Companies Have Awakened Interest

It is the hope, if not the belief, that the events of the past few days will be a constructive character. Evidence certainly accumulates that one feature after another in the general situation shows improvement.

The country is beginning to feel the result of liquidation and economy. The Dominion is accumulating capital. Railroad traffic returns are showing confidence and the roads themselves, and the only explanation is that products are being rushed to market.

Now that we have passed the invisible line that separates the old and new year, and new ledgers opened, some increase in mercantile commitments is likely of course, there are a number of financial and commercial problems to be settled, but they should shortly be out of the way.

With the return of interest and dividend money to the centres, the security market is apt to be more active and firmer.

For a long time it has been evident that the market has been held to a standstill, so that the would-be buyer but little real buying to turn it on an upward movement.

Splendid activity was displayed on the Stock Exchange this morning with high leaders as Montreal Power, Shawinigan, and Richelieu in big demand. Prices advanced from two to five points, and the trading was continuous.

Favorable reports as to inside doings in these concerns have no doubt set the street abuzz, and some definite news is expected shortly.

Traction issues were less active, but they held quite firm, several making fractional gains throughout the session.

Steel Corporation was steady at 6 1/2, while Laurentide common advanced to 18 1/2.

Milling securities are in fair demand, and prices are inclined to stiffen, while several small sales, in other issues were made following the trade in bank and bond department.

New York, Jan. 4.—The opening in Wall street was strong and active, and continued so during the two hours of trading. It has been forced to take quite a little realizing, but the demand for stocks has been at all times good, and the recessions have been of the smallest kind at all times, the market tending to diminish in activity on every little decline of a quarter of a point or so.

On each succeeding rally prices have as a rule reached slightly higher levels. Shorts have undoubtedly been large buyers, but the market has been open in all quarters and a more confident tone has prevailed than for a long time past.

Call money opened 4 3/4 percent, and new calls have been quite generally made at that rate.

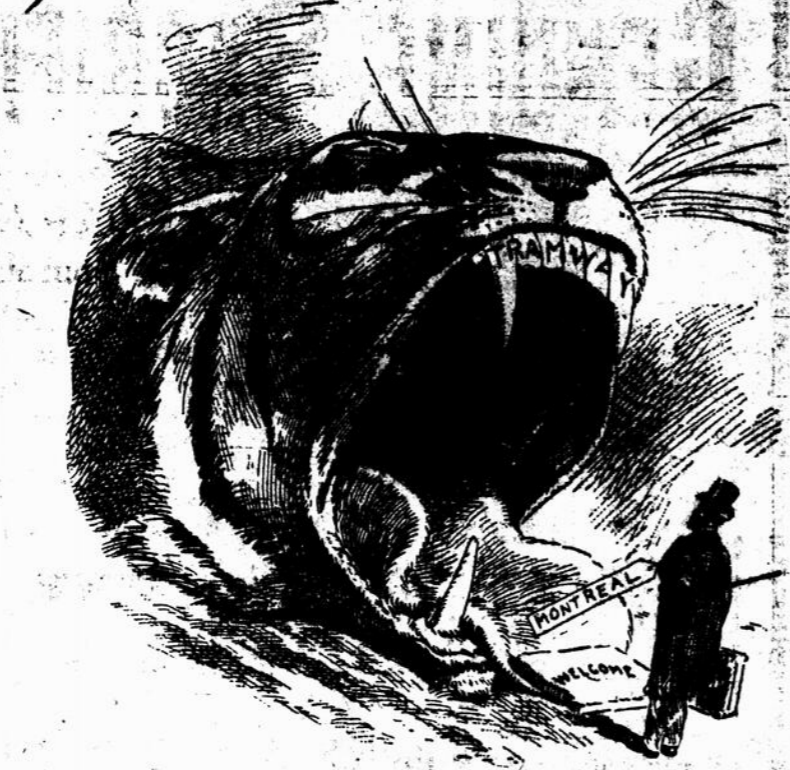

Sales to noon were 322,357 shares.

Ottawa, Jan. 4.—It is reported that the Hudson Bay and Company made two sales of land which will yield \$10,000,000 to \$11,000,000. One buyer bought 500,000 acres, another 200,000.

HEAVY FINES INFLICTED ON BIG RAILWAYS

Philadelphia, Jan. 4.—Judge Holland in the United States District Court today inflicted fines of \$40,000 each on the Philadelphia & Reading Railway, the Lehigh Valley Railway Company, and the Erie Railroad Company, charged with unlawful rating.

The government was the prosecutor, the charges being that the railways had remitted demurrage charges on freight cars used by the steel companies.

COREY RETIRES AS PRESIDENT OF U.S. STEEL CO.

Mr. E. H. Gary, chairman of the Board of Directors of the United States Steel Corporation, has made the announcement that he has resigned as president of that concern.

This position he has held with respectability for some seven years. Mr. Gary regrets the decision of the board of directors, which he believes will work out to the advantage of all concerned.

Mr. Gary has been in view of a new plan in the management of this gigantic enterprise, which they believe will work out to the advantage of all concerned.

Sydney Steel Plant Creates New Record in December Output

Sydney, C. B., Jan. 4.—The Dominion Steel Company's rod mill, which holds the world's record for a mill of its class, closed the year with December a record month for shipments.

A total in the vicinity of 9,000 tons was sent out during last month. This is a big advance on the old record of 3,148 tons, which was established in September of the past year.

Lake Superior Corporation May Receive Big Orders

Sault Ste. Marie, Ont., Jan. 4.—Nearby 2,000 miles of new railway lines are under contract for construction during the present year in Western Canada, and the consequent increased demand for steel rails is causing the plant of the Lake Superior Corporation at Sault Ste. Marie, the largest in the West, to be worked at its utmost capacity to keep pace with orders in hand.

FINANCIAL PERSONALS

Mr. Rodolph Forget, M.P., is in Quebec.

Mr. C. N. Bliss, Jr., has joined the board of the United States Trust Company.

Mr. Charles E. Carr has returned to Quebec from Toronto.

Mr. W. J. Dickinson, of New York, is now vice-president of the Louisville and Nashville Railway.

Mr. George R. Parke, the well-known Chicago broker and banker, is in the city.

Stocks in London

London, Jan. 4.—American stocks in London failed to respond to strength here and developed heavy tone, showing declines of 1-3 to 2-3 on parity.

Money was easy in London. There are fair probabilities that bank rate will be reduced to-morrow, and this seems to be helping Consols, although the rest of the market has not been influenced.

WILL POWER AND SHAWINIGAN CO.S COME TOGETHER

Heavy Buying of Stock by Power Creates Impression—Rumors of Deal

Recent movements on the part of the Montreal Power and the Shawinigan Railway Light, Heat and Power Company, this morning.

Just as to what was the exact nature of the discussion or what were the topics, it was impossible to ascertain, although it is generally thought that the suggestions of the Shawinigan were being talked over.

Possibly within a few days this will be informed on this matter, and any announcement forthcoming is looked forward to with interest.

The company is doing well both on its own behalf and that of the city, and any desire on the part of the management to lay new lines will be readily responded to by the citizens.

Mr. Forget will go from here to St. Leonice, where he will remain for several days.

Winnipeg, Jan. 4.—Two more informations were laid this morning against the Thunder Bay Elevator Company, at Fort William, by Chief Warehouse Commissioner Castle, charging the company with making false returns to the government on one and three Northern wheat in their terminal elevator.

President of the Allis-Chalmers Company Definitely Resigned

New York, Jan. 4.—Mr. W. H. Whitehead has resigned from the presidency of the Allis-Chalmers Company. It was announced today.

Mr. W. Call, formerly assistant to the president of the American Steel Foundries Company, has been elected to succeed Mr. Whitehead.

DEATH OF REV. DR. FLECK

Pastor Emeritus of Knox Church Passed Away in Belfast

MOURNED BY MANY MONTREALERS. Memorial Service to be Held in His Former Church on Sunday Morning.

The death is announced, in Belfast, Ireland, of the Rev. James Fleck, D.D., for thirty-three years minister of Knox Church in this city.

THE LATE REV. DR. FLECK

married most of them, who had had broken words of comfort over the loss of many a loved one.

Dr. Fleck, with his family, was at that time in his native land, Ireland, where he remained until the end of the term of office.

Dr. Fleck was born at Trench, Ireland, in 1841. This is the place where St. Patrick is said to have been engaged as a shepherd.

The golden wedding anniversary of the Superintendent of Education, Mr. P. B. de la Bruere and Mrs. de la Bruere was celebrated by a service in Notre Dame Church, St. Hyacinthe, on Monday afternoon, when Miss Annie Philip, daughter of the Rev. W. A. Philip, was united in marriage to Mr. Henry H. Gibson, of Ottawa, son of Mr. Alexander Gibson, of Metcalfe.

The ceremony was performed by the bride's father, ex-president of the Montreal conference, assisted by the Rev. J. H. Philip, M.A., of St. Lambert, the bride of the Rev. C. S. Desrope, of Ottawa, president of the Montreal conference, the Rev. J. B. Hicks, B.A., and the Rev. S. E. Wood, B.A. The bride wore a dress of duchesse satin, with veil and orange blossoms, and carried a shower bouquet of roses and lilies of the valley.

She was attended by her sister, Miss Nellie and Miss Lulu, gowned in pale yellow messaline and crepe de chine, while her niece, little Miss Jean Philip, acted as flower girl. The best man was Dr. O. K. Gibson, cousin of the groom. Master Arthur Woods and Miss Marjorie Leggett, of Montreal, were ribbon bearers. Following the ceremony a reception was held, after which Mr. and Mrs. Gibson left on their wedding trip.

Two cars, containing dressed beef, were derailed on the C. P. R. near St. Anne's this morning, and a few cars of live stock, chiefly pigs, were kept waiting in the cold until the line was cleared. The accident did not delay passenger traffic.

ST. LAMBERT

Many friends of Mr. Alf. Cope, who was injured in the St. Lambert football match recently, will be glad to know that he is steadily improving. Gonsky has gone to Ottawa to spend the holidays. Mr. F. Dawes is spending the holidays in the city.

MONTREAL SOUTH

The services at the Methodist Church Sunday last were bright and cheery and the attendance was remarkably good every one making a point of attending the first services of 1911. The church was crowded at each service. In the morning the Rev. T. E. Armstrong preached, and in the afternoon addressed the 'Men's Own' on 'Suggestions for the New Year.' In the evening the 'Men's Own' took charge of the service, under the presidency of Mr. Hugh King (president of the society). Messrs. Matthews and Gonsky were the two excellent addresses, which will long be remembered by those who were present. Sunday, Jan. 1st, 1911, will ever remain a red letter day in the history of Montreal South Methodists.

HUNTINGDON

Huntingdon, Que. Jan. 4.—Mr. Allan Stark of Clyde's Corners, recently returned from a three years' residence in Vancouver, speaks optimistically of the marvellous growth of that Western town, and of the good fortune of some former residents of this part who are now in that city.

BROCKVILLE

Brockville, Ont., Jan. 4.—At the Wall street Methodist parsonage, the Rev. Dr. Sparling united in marriage Edward Hollister, to John Beatty, of Mallorytown. Only the immediate relatives were present. The bride was for seven years on the teaching staff of the Brockville public schools.

LONGUEUIL

The annual Christmas tree festival of the Verdun Avenue Presbyterian Church Sunday-school was held last Wednesday evening, at 8 o'clock. The church, when Superintendent Rogers took the chair, was thronged by overflowing by the scholars, their parents, and the congregation and friends. The large room has been decorated with lights, candles, strings of pop-corn, and other decorations stood on the platform.

PANAMA LIBEL CASE ENDS

Washington, Jan. 4.—The Supreme Court of the United States yesterday approved the action of the New York Federal Circuit Court in quashing the so-called 'Panama Canal libel' indictment, brought by the United States Government against the Press Publishing Company of New York. This throws the entire case out of court.

OFFICE OF THE MAYORESS.

The duties of the mayoress of a Canadian city differ from those of the mayoress of an English town—in degree rather than in kind, to the extent that women take much greater part in public life in the Old Country than they do here. So exacting are the duties of an English mayoress, that the nominee for mayor, before his election, sometimes consults his wife or sister, or daughter as to her willingness to undertake her part of the office.

Usually, says the London 'Daily Chronicle,' her first definite social and official action is to call upon the wives of all aldermen and town councillors. This is a sufficiently trying start on a new career, for quite properly the constant members of the corporation belong to widely differing social strata. Some will already be well known to her; others count themselves a more exclusive set; there will be worthy matrons ill at ease in gilt and alabaster drawing rooms, and a few perhaps doing the honors of best parlors, and with some difficulty refraining from dusting their chairs. But, rich or poor, the mayoress, by her tact and the happy touching of their common interests, must lay the foundation of a twelvemonth of goodwill.

A MATINEE HAT OF 1779.

To those who feel inclined to criticize the modern head-gear as represented by the unduly wide hat, the following description of a 'creation' of an eighteenth century milliner is commended as taken from a letter written in 1779: 'If I had thought of it in time I would have sent you a drawing of a cap which I had made for a young lady in Holland. It is the admiration of all beholders, being in the newest and most courtly taste. It is a dropping one on the left, and a bouquet of Jasmijn in the centre. Likewise a bouquet of hyacinths towards the left, and a fine white feather on the right. The whole is surrounded with a row of large pearls (not real) and a row of diamonds on the side and far back, a dangling bunch of pearls something like a bell. There is a great deal of blonde and gaze lancing out from the sides and arranged to send for a wig to open the box to satisfy the curiosity of some that wanted to see it.'

MAGYAR EFFECTS IN VOGUE.

The Magyar effect on bodice and blouse seems to reign supreme, and it is the exception rather than the rule to see the lower part of a dress cut with an armhole. When correctly cut the arrangement is very pretty. It shows the grace of the slender line, and is particularly effective with the separate sleeve and oversleeve. This is particularly the case with evening gowns, many of which are made in the extreme popularity of some pretty fashion results in its speedy downfall, but at present this style is likely to appear in the overdress, with which almost every evening dress is supplied. With the help of this the prettiest, most effective, and most comfortable slip (consisting of a Magyar bodice and plain skirt) of silk or satin. A very beautiful combination is a yellow-pink tone for the foundation of a dress over a tunic of mole ninon, finished with bands of beaded gold or silver embroidery and the some kind of shaped plique or small corded pattern. The narrow waistband at front and back. Then there is the beaded oversleeve which is seen at its best when cut on semi-fitting principles and perfectly plain and close-fitting at the knees. Such overdresses are simple to make, and can be achieved at home with the help of a good pattern and a few defects in some half-worn evening gown.

THE SKATING SKIRT.

It is almost impossible to make the ordinary walking skirt serve in the skating rink this winter, as the narrow skirts will allow no movement so free as the loose athletic strides of the graceful skater. The skating skirt combines with absolute straight lines sufficient fullness to make skating as simple as it was in the days of the side plaited model. It is really easier and more comfortable for all kinds of exercise than the old skirt, which contained so much fullness that the extra folds and plaits of material were continually hampering the wearer. The necessary fullness about the feet for the skating skirt of the present winter is hidden beneath wide double box plaits which hang perfectly straight ordinarily, but open out full and just as wide as desired when active exercise is indulged in. It fits flat and snug about the waist and hips, but must not be drawn back so flat that it will irritate a border of fur about the hem of the skirt is not advisable. Unless it is sewed on very firm there is always the risk of the skirt catching through the fur and causing a nasty tumble. For this same reason any trimming such as beads or folds or heads of material is not to be advised as a means of securing the hem of a skating skirt.

WOMAN'S REASON—A CAUSE.

In growing numbers the women of the United States are being urged to support a campaign with increasing ardor. Some effective suffrage literature, which has been published by the 'Just Franchise League' of

PHOTO BY JOEL FEDER. FUR BANDS ON SATIN.

The use of fur in trimming is one of the salient features of winter dress, and these furry trimmings are shown not only on heavy cloth street gowns and wraps, but on the sheerest, finest fabrics for evening wear. The gown pictured here has a beaded chiffon tunic dropped over flaming colored satin and bands of skunk fur edge the hem of the skirt and also border the short sleeves. While giving great richness and luxury to the gown, these fur bands do not in any way make the costume bulky or clumsy.

A Tenderfoot's Wooing

By OLIVE PHILLIPS-WOLLEY Author of "Gold, Gold in Cariboo," etc.

SUMMARY OF THE PRECEDING CHAPTERS.

Jim Combe, the cowboy foreman of the Risky Rancho and young Anstruther, a tenderfoot Englishman, are both in love with Kitty Clifford. The party, in charge of Mrs. Roll, the wife of the owner of the Risky, have met with bad weather, whilst on a holiday trip. The rivalry between the two men is acute, though Jim, knowing the ways of the country, has all the best of it. We follow and overtake by the darkness they camp in an old log hut, making themselves as comfortably as possible by a roaring camp fire. Thanks again to Combe's deft management, the ladies spend a comfortable night in the old cabin, the men sleeping by the fire outside, under a fly. Next morning they have reason to believe a party of Chilkoot Indians have been stealing the Rancho cattle, and decide to investigate.

CHAPTER IV.

It was a glorious and memorable ride for all of them, four perfect horsemen in a horseman's country, such a taste of paradise as, in this weary old world, generally precedes trouble. "How much of this belongs to the Risky rancho, Mrs. Roll?" asked Anstruther. "All of it as far as you can see. 'None of it,' corrected Jim, except a few meadows and some water front on the Fraser as you can't see. 'How annoying you are, Jim. You know what I mean perfectly well. 'Only you don't say it, and he doesn't know.' 'Well, if it isn't yours,' persisted the puzzled Anstruther, looking from one to the other, 'why should not anyone run their cattle over it?' 'They might if they did not need water or hay. These two Harrison boys are trying it now.' 'What Jim means, Mr. Anstruther, is that we have corralled—oh, I beg pardon, Kitty secured the exclusive rights to the water and all the best meadows in the district, and without these the run would not be worth anything. Stock must have water, and in winter must sometimes have hay.' 'I don't see any fences.' 'We don't keep them, they keep themselves, in summer, and in winter she broke off abruptly, and pointed to where a number of slow moving beasts were strung out in line of march towards the river. 'Do you mean that they have been out all the summer and are coming in now of their own accord?' 'Little parks isolated in that black timber, in groves shady and deep, by little streams, we have hardly seen, but dreamed away their summer undisturbed, and now they are coming home with their calves behind them, our income.' 'It seems easy. Where does the work come in?' Mrs. Roll turned laughingly in her saddle to Jim. 'Isn't any work, is there, Jim?' 'Jim, who was riding in his shirt-sleeves, with his coat tied in a roll at the back of his saddle, looked meditatively at his own bare corded arms. 'Might be some in the meadows in skelter time,' he suggested. 'Round-up the strays keeps a man in the saddle quite a while, and there's some don't hanker after too much branding and such like, but it's all in a lifetime. If it is work 't is better than any play I ever heard of. Guess if I was the boss of the Risky, I wouldn't change places with anyone.' 'That is pretty of you, Jim.' He looked at her smiling, no ways abashed. 'I guess the boss agrees with me, and he knows English as well as he knows B.C., and has sampled the best there is to be had 'prety nigh, all over.' 'Yes, but he had his fill of England first, Jim, and he's older.' Her eyes flashed at the laughing couple which preceded them, as her thoughts followed Combe's, and the pain in his honest grey eyes was reflected in hers. She was sorry for her friend, and knew that it was useless to explain. The old world had called its own, and both knew that Kitty had listened to his call. 'Meanwhile the others had ridden ahead, and now holding up their hands to keep the stragglers back, they left their horses, and stole quietly on to some tall trees which fringed a small blue turquoise set in the red gold of the reeds, and landed amongst the grey-green of the sage brush. 'For the last fifty yards the boy and girl were little more, crept on their hands and knees, and when they raised their heads above the reeds there was a sudden splash, and a quacking from the water. In quick succession four reports followed one another, and two of the electric tumbrels heading into the lake. For moment the rest of the birds looked as if they were going straight away, but some foolish prompting of curiosity brought them back, swinging in a circle high over head. 'Stand still, Miss Clifford,' they heard the Englishman say, 'now let them hear it, and again there were flashes, but even to the onlookers it was almost impossible to distinguish more than two reports. 'Again the birds came down, not all as struggling wings, but with their heads under them, dead in mid-air, killed instantly, as if by lightning. 'That's a fine performance, Miss Clifford. Very few girls at home could beat that,' they heard Anstruther say. 'You were too quick for me.' 'Why didn't you shoot?' 'See, my gun is loaded still, and he threw open the breech, showing the two cartridges which he had slipped in with the rapidity of an old hand almost as he spoke. 'Then I killed those two myself.' 'They died for love of you.' 'And who killed the others?' 'I suppose that you did.' 'Oh, nonsense, I'm not going to believe that.' 'Well, we'll take one each then if I can get them. Give me your hand, and under the transparent pretext of wanting support whilst he balanced himself upon a partially submerged pine pole, Anstruther managed to retrieve his game. 'Perhaps he held the little warm hand a trifle longer and pressed it a trifle harder than the circumstances required, but the girl's rosy face registered no serious protest. 'He's a very pretty liar,' muttered Mrs. Roll half to herself as they rode up. 'Bags his game very neatly,' answered Jim. 'And she's a little fool,' said the lady viciously, but Anstruther neither heard the criticism nor the praise any more than did Kitty. 'In their veins the young blood was beating so that their ears were deafened to everything except the measured tone of one old song, which once trued learned becomes the music of a lifetime. For them the scent of the sage bush,

LIKE PRESS—LIKE PEOPLE AND LIKE PEOPLE—LIKE PRESS

A good sermon might be written on each of the above epigrams

Tell me what newspaper you read and I will read your character. Tell me what your character is and I will tell you what newspaper you support

No newspaper is perfect, for no man is perfect, But the better the newspaper, the better its readers, And the more good subscribers, the more good newspapers. For if character and quality were profitable in a newspaper the standard of journalism would be very quickly raised.

Every earnest man or woman who considers these things carefully will do all they can for the best paper they know, not only for its own sake, but for the cause of better journalism everywhere.

SOME people and some papers are ahead of their times. They are in that measure the prophets of their generation, and prophets are not in business for profits, and are generally disliked by the wholly worldly-minded, both because of their attitude towards the worldliness of the times, and because of their views regarding the future. But the future will vindicate them, and for the present they rejoice in a consciousness of adherence to duty.

REMEMBER Those who do not support what is best are against it, and working to its hurt. There is the highest authority for that.

If you do not know a better newspaper than the Montreal 'Witness,' then take the 'Witness' and get your friends to take it. If you do know a better paper, then support it with your whole soul, for it is probably making sacrifices such as you do not dream of.

### LONDON POLICE STILL SEEKING ANARCHISTS

#### Three Men and Woman, Members of Gang, Taken into Custody.

#### BATTLE WAS UNPARALLELED. Newspapers Demand That Foreign Desperadoes be Barred From Country.

London, Jan. 4.—To state that the battle with anarchists yesterday was unique seems ridiculously inadequate. The reader's imagination must come to his aid for him properly to realize what took place during this day's hours of daylight at a spot within a mile and a half of the Mansion House, and even nearer to the Tower of London. There are now lying in the mortuary of the London Hospital, only a couple of hundred yards from the scene of the astonishing action, the charred, unrecognizable remains of two men. These calcined fragments are all that are left of two men who for more than ten hours held at bay a hundred guardsmen and 1,500 London police, and then perished uncaptured. It seems incredible, but the Home Secretary himself and thousands of people watched the amazing spectacle hour after hour to its dramatic close.

Ever since that Friday night when five unarmed policemen boldly attacked a band of desperadoes who made good their escape after killing three of their assailants, the police of London have been straining every nerve, night and day, to run the gang to earth. Three arrests were made of men whom the police were confident were members of the murdering gang. One had been seen in the neighborhood of the scene of the crime, and another was a woman who remained. Long before midnight last night the police believed they had tracked these down in a four-story tenement house in the street Steppay. A careful watch was kept until the early hours of this morning. Then the other tenants of the suspected dwelling and the adjoining houses were quietly but hastily withdrawn.

#### FEMALE ACCOMPLICE ARRESTED BY RUSS.

The female accomplice of the suspected men was arrested quietly by a ruse, the police getting on the inside of the house to call her down stairs on the pretext of helping with an invalid relation. Armed detectives took possession of the adjoining room, and the police entered the house. Every loophole of escape to the neighboring streets was cut off. Then in the dark of early morning, about five o'clock, the police entered their prey would be asleep, a party of armed police, carrying electric torches, approached the house, but the suspected men were not in the house. They had betrayed the police, for on the instant a fusillade of bullets poured through a window. Then the battle began in earnest, and the total destruction of the house and its occupants.

Not since the news of the British disasters at the opening of the South African campaign has the country been so aroused as by yesterday's scenes at Steppay. The newspapers call loudly for a more effective means of dealing with the growth of alien immigration, no doubt being of the opinion that the desperadoes who fell yesterday were anarchists. A search of the besieged house after the ruins had been cleared away, revealed a cache of a large number of what appeared to be metal dynamite bombs in an unfinished state. At present there is no evidence that the anarchists who occupied the house with their two charred bodies were found. Several others, police and civilians, received minor injuries.

Immense crowds of sightseers invested the neighborhood until a late hour last night, but a strict police guard was maintained. It was impossible for those without authority to get close to the half-wrecked building. Two families who occupied the lower floor of this building were withdrawn by the police before the fighting began, and they profess to know nothing of how the desperadoes gained access to the house. The latter appeared to have been in rooms rented by a Russian woman, Bessie Gershen, who is now under arrest with other suspects, against whom, however, no charge has yet been made.

#### BEHAVE MILITIA WAS UNNECESSARY.

The police officials show aggravation at the calling of the militia. They express confidence that they could have handled the affair without the help of the military. The last occasion on which the militia was so employed was at the time of the notorious Trafalgar Square riots, when John Burns was arrested. Even then the soldiers did not fire.

According to the Daily Telegraph, the police are in possession of information concerning a widespread anarchist plot, which is regarded as one of great gravity. The details are being kept secret.

It is somewhat difficult to establish the identity of the dead desperadoes, or how the police traced them, according to the latest reports, it is practically certain that one is 'Dutch Fritz' and it is almost equally certain that the other is not 'Peter the Painter,' for whom the police are still searching.

It seems that when detectives quietly got the inmates of the lower rooms out of the house the difficulty remained of how to remove the woman Gershen, who was sleeping on the same floor with the anarchists. Finally a

ruse was adopted. A woman from a lower floor went up and awakened the Gershen woman and begged her to descend, saying the woman's husband was ill. Gershen complied with this request and was secured by the police.

According to an unconfirmed report, when challenged by the police and threatened with a revolver, she confessed that 'Dutch Fritz' and 'Peter the Painter' were sleeping upstairs. This story is doubtful, and it is believed that the police had been previously informed from other quarters. There is another story that after the firing had practically ceased on the part of the besieged, the police at the rear of the building heard muffled shots within followed by groans, and it is supposed that the anarchists may have used their last cartridges to shoot each other or to commit suicide. This method of their death, however, will probably never be established, but bullet wounds were found on the remains of both bodies. Further details may develop at the inquest to-morrow.

All the wounded are doing well. Sergeant Leeson is in a serious condition, but is expected to recover. Late last night it was stated that the report that bombs had been found in the besieged house was not true.

#### NEWFOUNDLAND CLUB.

#### Many More Joined at Meeting Last Night.

A number of Newfoundlanders resident in Montreal were added to the recently organized Newfoundland Society at the second meeting, held in the evening at the rooms, 314 St. Catherine street west, last evening. Sir Edward Morris, Prime Minister of Newfoundland, being elected first honorary member and Dr. Roddick and Mr. E. W. Mudge life members. The latter was elected to the board of governors.

The Rev. Father Holland, of St. Ann's parish, who occupied a seat beside the president, Lieut.-Col. Renouf, outlined the work of the new society, which was meant to help along their countrymen.

Music was supplied by the Bennett family, a band of musicians famous in St. John's for generations. The work consisted of Mr. J. Bennett and his four sons, two small boys around eight and ten years of age and two about sixteen and eighteen. The work was particularly clever. The first selection, 'Terra Nova's Greeting,' the Bank of Newfoundland, in the street Steppay. A careful watch was kept until the early hours of this morning. Then the other tenants of the suspected dwelling and the adjoining houses were quietly but hastily withdrawn.

#### LECTURE ON DICKENS.

A goodly gathering of admirers of Charles Dickens' works assembled in the school room of St. Martin's Church last evening to listen to a lecture on the works of Charles Dickens, delivered by Professor Carter Troop, brother of the Rev. Osborne Troop, under the auspices of the St. Martin's Men's Club. The lecture was presided over by His Lordship Bishop Farthing.

The lecturer commenced by describing the early life of the author, the disadvantages which he was subjected to, and how he surmounted them, and his nervousness on placing his work before the public. He then sketched, with the cognomen of 'Boz' at the end, and his delight on seeing it in print; afterwards his first book, 'Oliver Twist,' and the lecture looked into the several works of the great master, particularly 'David Copperfield,' considered by many to be his best. He then touched on 'Bleak House,' and then reading extracts from his immortal work, 'The Pickwick Papers,' creating much amusement by his portrayal of 'Sarah Gamp' and 'Sam Weller,' and a realistic picture of that innocent but truly good character, Mr. Pecksniff. Professor Troop concluded a most entertaining, humorous and pathetic lecture with the author's 'Christmas Books,' drawing particular attention to his character of Scrooge, wherein a most selfish man, through the advent of Christmas, became one, 'With peace and goodwill towards all men.' The lecture carried his audience with him throughout, and resumed his seat amidst great enthusiasm.

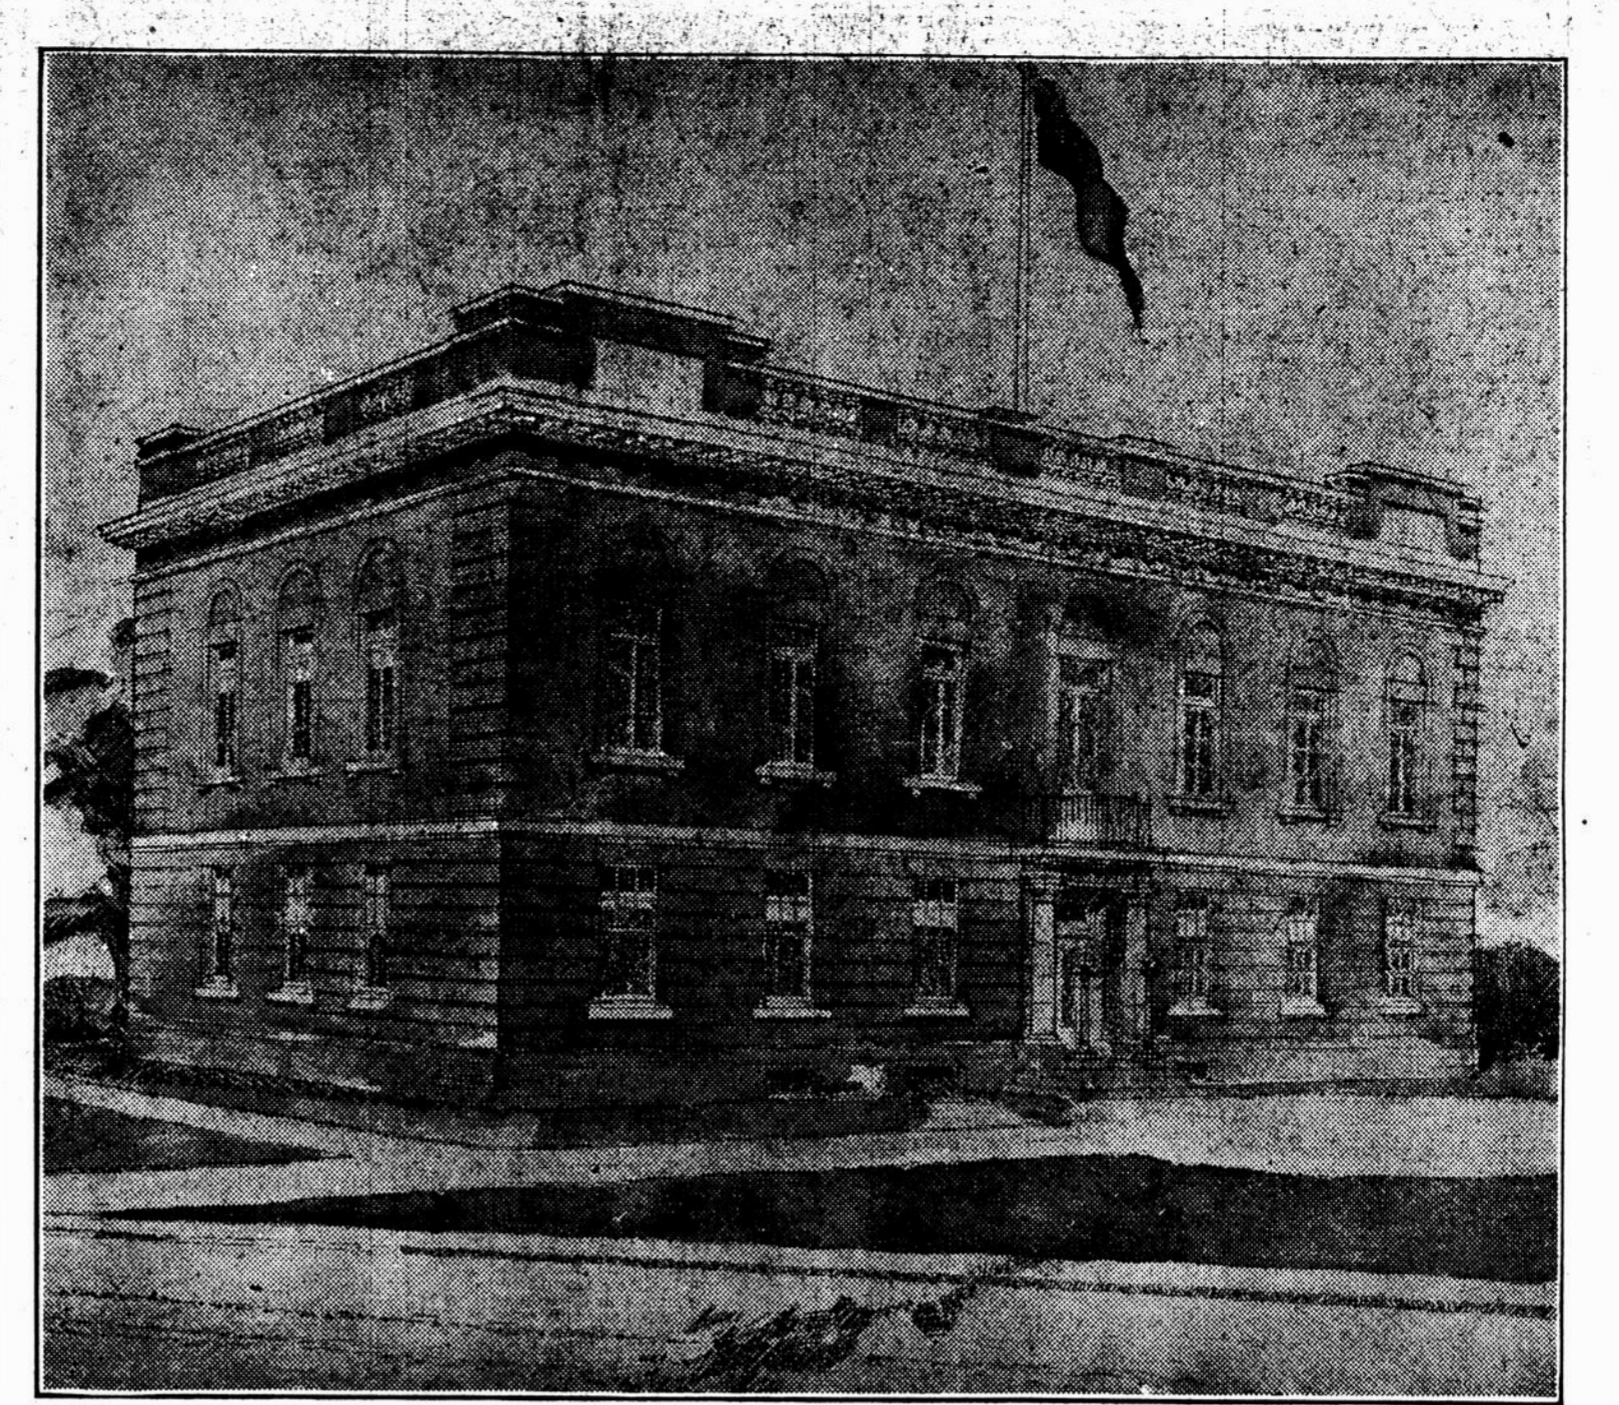

#### PRAISED MISS MAUD POWELL.

Few artists who have come to Montreal to make their first bow to an audience of the music lovers of the city will receive a warmer welcome than will Miss Maud Powell, who makes her first appearance here at the second of the concerts to be given at the Princess Theatre, on January 13, by the Montreal Symphony Orchestra. On that occasion Professor J. J. Goulet will resume the baton, and he is at present at work with the new organization, with special rehearsals, to endeavor to secure a good performance. The performances of Miss Maud Powell are being looked forward to with every anticipation, for she comes here with the highest encomiums that any artist can desire. Henry T. Finck, writing in the New York 'Evening Post,' says that she has no superior among living violinists, and the New York 'Sun' says that she is 'easily first player among women and near to the top among men.' These are but samples of the praise with which she has been received, and they might be multiplied a hundredfold.

#### MR. AMES ON AUSTRALIA.

Mr. H. E. Ames, M.P., will read a paper on 'Australian Advanced Legislation' before the Political Economy Club on Monday evening.

## MONTREAL WEST'S NEW TOWN HALL OPENED WITH GREAT CEREMONY

The formal opening of the new town hall of Montreal West took place last night, when Mayor Davies, on behalf of the town council and citizens, declared the building ready for use. Speeches eulogistic of the public spirit of the ratepayers, which had rendered the erection of the hall possible, were delivered by the mayor and prominent citizens.

The handsome theatre of the town hall, which can seat over three hundred persons, was nearly filled when the proceedings opened. On the platform with the mayor were Councillors J. Ballantyne, H. E. Convery, C. R. Westgate, F. J. Bedbrooke, J. R. Ferguson, the Rev. Messrs. Ross, Stevenson and Martin, and Dr. Kelley. After 'O Canada!' had been sung by the united choirs of the Church of England and the Presbyterian Church, all present standing and joining in the

chorus, Mayor Davies rose to speak, and received a tremendous ovation. His worship reviewed the progress of the town during the past two years, the term during which he and the present council had held office. That hall, he said, was a monument of which they might be justly proud. Then the work carried out by the various civic committees had to be acknowledged. They had a most efficient road department, which had given them eight miles of permanent sidewalks and several miles of good roads. The sewage system had been carefully attended to, and some necessary extensions carried out, while the water system had been thoroughly revised. In the past the water pressure ranged from ten to twenty-six lbs., but is now fifty-six lbs. at normal, and in case of emergency can be raised at almost a moment's notice to 120 lbs. A volunteer fire brigade had been established, and a body of gentlemen sworn in as special constables. Mayor Davies took that opportunity of informing the citizens that the council, sitting under the advice of the town solicitors, had felt

it wise to make application to Quebec for a revision of the town's charter, so as to bring it up to date with the revised statutes, 1909, and in line with the Cities and Towns Act, 1903. The fundamental principles of the old charter would not be interfered with, the municipal tax remaining at a maximum of five mills on the dollar—in fact, the only really radical change was that in future the mayor would be elected by the entire town, instead of by the council, as at present. In conclusion, Mayor Davies thanked the members of the council and the secretary-treasurer, Mr. Patterson, for the loyal support they had accorded him. He also thanked the citizens for the uniform courtesy they had displayed towards him.

Mr. Ballantyne considered Mayor Davies was competent to be a builder of empires. He hoped they would all live long to enjoy that magnificent building.

Dr. Kelley, school commissioner, congratulated the mayor and council on the good work they had done for the town, and asked the citizens to cooperate with them in furthering its interests. He expressed the hope that there would be very few changes in the personnel of the town's executive after the forthcoming elections. Other speakers were the Rev. Messrs. Ross, Stevenson, and Martin, and Councillors Bedbrooke and Convery, all of whom expressed great pride in the splendid structure being thrown open that night, and took a bright view of the future material, intellectual and moral progress of the town of Montreal West. The young people, the speakers pointed out, had not been forgotten, as commodious recreation rooms had been provided in the building.

When the various speakers had concluded, the hall was cleared for dancing, and the beautifully polished maple floor resounded with the well-timed tap of merry feet. The set of honorees consisted of Mayor Davies and Mrs. Ballantyne, Councillor Ballantyne and Miss Fessie Davies, Councillor Convery and Mrs. Hamilton, Mr. Wilfred Trenholme and Miss Winifred Davies. Professor Brisset acted as floormaster, while a well-arranged programme of dance music was discoursed by professional orchestra. Refreshments were served at intervals during the night, several prominent citizens acting as hosts. Flashlight photographs were taken during the dancing.

The hall was beautifully decorated, and the arrangements under the control of Mr. W. E. Gladwish were admirable. The attendance included: Mayor C. J. W. Davies, Councillors J. Ballantyne, E. J. Bedbrooke, H. E. Convery, J. R. Ferguson, C. R. Westgate, Messrs. A. E. Evans, J. J. Kilpatrick, A. Fife, W. Rogers, E. W. Way, T. A. Trenholme, A. V. Snell, T. Hall, J. J. Millen, J. B. Gass, F. Peden, Thomas MacLaren, D. Kelley, Mr. and Mrs. Grant, Mrs. Riddell, Mr. and Mrs. Jack, Mr. Gladwish, Mr. John Bedbrooke, Mr. and Mrs. MacIndoe, L. L. Leet, C. C. Ballantyne, Mr. and Mrs. Hart, Mrs. M. J. McEneaney, Mrs. Taylor, Miss Evelyn and Miss Doris Evans, the Misses Davies, Miss Trenholme, Miss Frederica Trenholme, Miss Elsie Trenholme, the Misses Ballantyne, Mrs. P. McLagan, Mr. and Mrs. Ross, Mr. and Mrs. Edmunds, Dr. and Mrs. Giles, Miss L. Rogers, and many others.

### WESTMOUNT ELECTIONS

#### Nominations Will Take Place on Monday Next

Much interest is being centred in the Westmount municipal elections, which take place on Monday, January 16. A mayor and eight aldermen are to be selected to manage the city's affairs for the ensuing two years. The Westmount Municipal Association favor the reelection of five of the outgoing members, viz., Ald. John Hyde, W. J. Gafferty, J. H. Sherrard, D. H. McLennan and Arthur Jones. Three new candidates, Messrs. J. T. McBride, Thos. M. Todd and E. Herb Brown will receive the association's support. For mayor, the candidate of the association has endorsed the candidature of Ald. Wm. Ruthford, and it is generally believed that if the outgoing mayor, Ald. Trenholme, does not go forward for reelection, Ald. Ruthford will be returned unopposed. A public meeting will be held on Thursday night to hear the reports of the retiring aldermen and discuss the various issues involved in the elections. Nominations take place next Monday.

### FRASER INSTITUTE REPORT.

The thirty-second annual report of the Fraser Institute for the year ending June 30, 1910 shows that the average daily attendance had risen to 329, and 70,175 books were loaned to members of the circulating library. The governors acknowledged receipt of 193 volumes donated by friends of the institute. The financial statement is a satisfactory one and shows that all current liabilities have been fully met. The Kin Post form, situated at Leaside, was sold in the autumn of 1909, the price realized being \$75,000, of which \$15,000 was used to purchase the premises secured by mortgage on the property.

### CANADA STILL LEADS

#### Nothing to Fear From American Immigration Inducements.

Toronto, Jan. 4.—Canada, from an immigration standpoint, has nothing to fear in the attempt of the authorities of the United States to divert a trek of the American farmers from Canada to the Southern States, according to Mr. L. O. Armstrong, organization and industrial agent of the C. P. I., who has just returned from St. Louis.

Mr. Armstrong has been in St. Louis on behalf of his company as an auditor for Canada at the Land Show held there under the auspices of the different railways having lines in the Sunny South. The railways have originated the idea, for the express object of heading off emigration from the Western States of the American Union into Canada.

"I made a special effort to examine all the attractions and inducements offered by the South," said Mr. Armstrong. "I came away satisfied that Canada has nothing to fear. South St. Louis neither good potatoes nor apples can be raised. The quantity and appearance are apparently satisfactory, but the flavor is altogether lacking."

"So it is with the wheat," continued Mr. Armstrong.

### STEEL RAIL DUTIES.

#### Government Increases Rate to Protect Industry.

Ottawa, Jan. 4.—An order-in-council has been passed placing steel rails used for re-rolling railways, weighing not less than fifty-six pounds per yard a duty of 4 per cent, instead of the ad valorem rate of 25 per cent which had been collected in the past. The reason given for this action, which coincides with the expiry of the anti-dumping duty on steel, is that a plant has been established in Canada capable of re-rolling those rails in considerable quantities. The duty on steel rails proper is 47 per cent.

### DOMINION CUSTOMS

#### Totalled Over Sixty-eight Millions in Past Year.

Ottawa, Jan. 4.—The Dominion Government during the calendar year 1910 closed collected in customs duties the sum of \$58,819,253, being an increase of \$11,928,278 in excess of the collection for the year 1909. During the first nine months of the present fiscal year collections totalled \$53,124,488, an increase of \$5,717,207 over the corresponding period in the previous fiscal year. It is expected that the increase is kept up, the increase for the fiscal year, which ends on March 31, will be approximately the same as the increase for the calendar year.

Many persons, even in Great Britain forget that the Irish Parliament existed for several centuries. There was one—to go back no earlier—in the reign of Henry VII. From William III's time Catholics were excluded from it. Later, when the American colonies revolted from England, a volunteer force was raised in Ireland to defend it against any possible invasion, and in 1782 the Irish Parliament was declared an independent legislature. The King, Lords and Commons of Ireland, it was laid down, were to make laws for the people of Ireland. In 1793 the Duke of Wellington, then Lieutenant-Colonel Wellesley, was for a short time member for Trim in the Irish Parliament. In 1801 the Act of Union introduced by Pitt became law, and the separate Irish Parliament ceased to exist. The Parliament House in Dublin is at present used as the Royal Bank of Ireland.

In the picture John Philpot Curran is addressing the House; Henry Flood (in volunteer uniform) is speaking to Henry Grattan (also in volunteer uniform) in the right foreground; John Fitzgibbon, first Earl of Clare, is in the corner in the left foreground, holding a paper; on his right are the Earl of Bristol and the Bishop of Derry. The Speaker is John Foster, afterward Baron Oriel.

FIRE INVESTIGATION

Circumstances Which Led to Death of Two Dresden Citizens to be Probed.

Dresden, Ont., Jan. 4.—Some sensational developments are expected when the inquest into the deaths of former Mayor Hicks and the Rev. C. H. Long, killed in the fire on Sunday, December 23, opens to-day. Twenty witnesses have been called. The competency of the fire department will be inquired into.

Persistent rumors as to the origin of the fire will also be set at rest. The representatives of the Underwriters' Association left town some days ago after an investigation.

One of the most prominent men in Kent County was D. V. Hicks, a former mayor of Dresden, and one of its valued citizens. Mr. Hicks was in the fire and life insurance business, and was a member of the Board of Trade. He took an active interest at all times in the welfare of the town, and served on the council before becoming its chairman. In religion he was a Methodist, and was a staunch supporter of Rev. George Long's Church.

Besides his wife he is survived by one son in the West, another in Chatham and a third at home, and one daughter at home.

The Rev. Mr. Long has been in Dresden for the past two years, having previously been in Highgate. He entered the Methodist ministry in 1881 in the conference of Manitoba, and during his stay in the West occupied the pulpits of Kenora, Edmond, Boissevain, Souris and Minnedosa. In 1889 he was transferred to the London conference, and since that time had been stationed at Kippen, Harrow, Highgate and Dresden. He was president of the London and Hamilton conferences, which is held each year at Alma College, St. Thomas. He also acted as assistant secretary to the London conference.

Besides his wife, he leaves three daughters and one son. George H. Long, editor of the Macon Daily Telegraph, and who for some time was on the staff of the London Free Press.

CAUGHT DESPERADO.

Vancouver Citizen Captured Highwayman in Struggle.

Vancouver, B.C., Jan. 4.—One of Vancouver's busy hold-up men went out of business last night on a West End street when he tackled Frank R. Cornwall with a gun, and closed his little adventure in the lock-up. Mr. Cornwall was going home, and on leaving his rooms at 336 Hornby street, a husky young individual in a long overcoat stepped out of the darkness, and, emphasizing his command with a revolver, suggested that the pedestrian elevate his hands. Cornwall's hands went up all right, and at the same time he ducked, grabbed the would-be robber around the waist and both went to the pavement together, while the revolver exploded, sending a bullet singing under Cornwall's arm. The letter then reached for the weapon, and after a struggle secured possession of it. The rest was easy. With the hold-up man covered he asked a passerby to call the police, and when they arrived the footpad was turned over to them for safekeeping. On his arrival at the station he gave his name as Richard Grey, with the further information that he came from Ottawa and had arrived only that night by boat from Seattle.

FAVORS LONGER TERM.

Champ Clark Would Elect President For Six Years.

Washington, D.C., Jan. 4.—Extension of the presidential and congressional terms of office is favored by Representative Champ Clark, of Missouri, who probably will be speaker of the next House. "I am in favor of amending the constitution," said Mr. Clark, "so as to elect the president for one term of six years and make him forever ineligible for re-election. I am in favor of that because every time a lot of fools boom him for a third term. If the presidential term is made for six years I am in favor of making the term of Congress three years instead of two. Then the states falling into that rule would have an election every three years."

ONTARIO MAYORS RE-ELECTED

MAYOR G. R. GEARY, K.C., Toronto.

MAYOR CHARLES HOPEWELL, Ottawa.

TWO BURNED TO DEATH.

Postmaster of Clyde River, P.E.I., Perished With Sister.

Charlottetown, P.E.I., Jan. 4.—Two aged residents of Clyde River, Colin McPhail, postmaster, and his sister, lost their lives, and the little cottage where they lived was burned to the ground. The occurrence is supposed to have been caused by the old lady falling and upsetting a kerosene lamp while on her way to bed, the man having already retired. The flames spread, setting fire probably to her clothing first and extending to other material. A neighbor, Neil McInnane, passing about 10.30 o'clock, discovered the house was on fire and gave the alarm, and in a few minutes a hundred people had gathered. The body of Miss McPhail was found in a corner of the kitchen, burned to a crisp, where she had fallen, but the body of her brother was removed before the flames got into the bedroom. Life being extinct, however, having been suffocated by the smoke. His body was passed out through the window.

McPhail was 84 years of age and his sister 82. He had been postmaster for about 15 years.

JOLLETTE ENTERTAINMENT.

Jollette, Jan. 4.—The young people of the Presbyterian church, assisted by a few outsiders, gave a musical and literary entertainment which proved to be a success. The Misses Corinne and Nellie Vassot sang a pleasing duet, and the solo by the latter was well received, as well as that by Mrs. McDonald. The quartet, Nellie Vassot and Mrs. Amaron, elicited applause. Miss Crabtree sang with pleasing effect. Mr. Harper, a violinist of no mean repute, contributed two selections, accompanied by Mrs. Robarge. Mr. Salmon contributed a cornet solo. A pantomime, 'The Bachelor's Dream,' proved to be popular, as well as a dialogue, 'The Lady Barber.' Dr. Amaron, the chairman, thanked on behalf of the audience all who had contributed to the evening's entertainment.

NEW POST ARTHUR Y. M. C. A.

Port Arthur, Ont., Jan. 4.—Port Arthur's new Y. M. C. A. building, which was dedicated on Sunday, with Dr. W. H. Solomon of Yale, as the principal speaker, assisted by several local clergymen and laymen, opened to active business last evening. The building was erected at a cost of \$50,000 as a result of a subscription campaign culminating less than a year ago, and is the most complete of its kind between Toronto and Winnipeg.

MR. CANNON SURPRISED.

Washington, D.C., Jan. 4.—Joseph Cannon, speaker, received a momentary thrill yesterday when a curious letter, postmarked Bombay, India, arrived containing the information that \$250,000 had been left him by a Bombay banker 'for a friendly act performed several years ago.' "It's all rubbish," said the speaker to-night. "I never befriended any Bombay banker."

MAINE'S RELICS RECOVERED.

Havans, Jan. 4.—The first human remains from the wreck of the battleship 'Maine' were brought to the surface yesterday by a dredge. They consisted of two ribs and some small bones, apparently bones of the hand, and they were carefully placed in a special receptacle to wait the recovery of other parts.

The dredge also brought up some three-inch shells, a large quantity of coal and a portion of the coal bunkers, lying apart from the ship, which is considered as possibly confirmatory to the theory of an external explosion under the bunkers. This, however, cannot be verified without a further examination of the wreck. The work on the hull is continuing without interruption, the men having expressed willingness to await the settlement of the question of overdue pay and other grievances.

SEEKS \$10,000 FOR SON'S DEATH

Ivan Kurlanovitz has entered action for \$10,000 against the Montreal Locomotive Works, Ltd., for the death of his son, who was killed in an accident at the works of the defendant company on December 31, 1929. Under the Workmen's Compensation Act, compensation of \$2,000 could be obtained without contention. By means of litigation the plaintiff may get five times as much, if negligence on the part of the defendants be established; but if that condition cannot be proved there may be no award at all.

JAILBIRDS INCREASE

Nearly 300 More Prisoners in Montreal Jail Last Year Than in 1933.

Statistics compiled by Governor Vallee show an increase of 300 in the number of prisoners incarcerated in the Montreal jail during the year 1933. Five thousand, eight hundred and forty-eight persons—4,571 men and 1,277 women—were last year inmates of the jail, as compared with 5,554 last year, 4,297 men, 1,257 women, an increase of 294.

Of this number 5,328 were liberated or ended their sentences. Of these latter 1,654 were freed without trial, 3,329 on account of expiration of sentences, 3 by writs of habeas corpus, 8 by pardon, 22 people, 147 have been transferred to asylums, penitentiaries or reformatories, 14 died in prison and one—Timothy Candy—died on the scaffold.

The report compiled by Mr. Vallee is the most complete of any report made to the Provincial Government. One feature of the figures compiled is the indication that marriage is a preventative of crime as far as men are concerned, for five unmarried predominated as prisoners. The contrary is the case with the women, for of the number incarcerated 437 were single, whilst 571 had expired the bonds of matrimony. Of the men 1,199 were married and 3,466 unmarried.

The predominant cause of all the incarcerations is shown to be over-indulgence in drinking. There were 1,938 condemnations for drunkenness alone, whilst drunkenness figures as a contributing cause in upwards of 75 per cent of all other convictions.

The other scores upon which the inmates of the institution have been imprisoned are in the following: Charge of murder, 1; attempted murder, 19; attempted suicide, 6; vagabondage, 594; robbery, 674; indecency, 29; cruelty to animals, 4; seditious conduct in a house of assembly, keeping a gambling, and disorderly house, 124; inmates in latter 172; frequenters, 9; refusal to pay money, 14, etc.

The greatest number of prisoners at any time during the year was during the month of August, when it totaled 538. The report shows that during the year the number of prisoners, as a class, overtopped all competitors in number. There were 978 of them. A close second came the men of 25 to 30 years of age, numbering 724. There were 23 prisoners under 15 years of age—18 boys and 5 girls; from 15 to 20 years the figures were 414—223 male and 191 female. There was a steady decrease in the number of prisoners as the age increases from 20 upwards.

As to the education of the prisoners, 425—3,284 men and 821 women—could both read and write; 1,028—217 women and 811 men—were illiterate. As to religion, 4,143 were Roman Catholics and 1,705 represented the various Protestant denominations, including 589 adherents of the Church of England, 298 Presbyterians, 172 Methodists, 140 Baptists, 140 Lutherans, 140 Anglicans, 140 Episcopalians, 140 Wesleyans, 140 United Methodists, 140 Brethren, 140 Friends, 140 Quakers, 140 Mennonites, 140 Amish, 140 Seventh Day Adventists, 140 Jehovah's Witnesses, 140 Spiritualists, 140 Others.

As to the personnel of the prisoners one man who served eight sentences during the year secured the title of star boarder whilst another, with seven sentences, and a woman with six, came next in order. As to the age at which criminality seems to manifest itself most acutely, it appears, from the report, to be between the years of 20 and 30. The greatest number of sentences were for less than 30 days, there being 1,212 of this latter class. The six months class came next with 321.

As to nationality, there were 3,564 Canadian inmates, 425 English, 425 men, 347 Irishmen, 224 Scotsmen, 216 Americans, 59 natives of France, 19 Germans, 7 Chipmunks, 7 Syrians and 37 Italians.

Of the prisoners 4,429 served single sentences, 634 served two sentences, 152 three sentences during the year.

As to former occupations of the prisoners the liberal professions have been sparsely represented. Thus 1 lawyer, 1 notary, 4 chemists, 1 minister of religion, and 1 optician have been confined at one time or other during the year. Day laborers predominated as a class, there being 1,896 of them incarcerated. Carriers came second, with 285 whilst 145 clerks, 157 school mistresses, 102 housekeepers, 49 dressmakers, 3 stenographers, and 2 painters.

Of the women upwards of 800 were scrub women, 10 servants. There were besides, 1 actresses, 47 washerwomen, 26 cigar makers, 15 clerks, 62 kitchen maids, 4 trained nurses, 1 school mistress, 102 housekeepers, 49 dressmakers, 3 stenographers, and 2 painters.

RAILWAY FILES DEFENCE.

Claims Increased Expenses Justify Higher Freight Rates.

Washington, D.C., Jan. 4.—Wage advances aggregating \$7,096,047 annually and the asserted necessity for increased income in order to meet the public demand for improved and extended operating facilities, are the principal arguments of the Pennsylvania lines east of Pittsburgh in support of their proposed increase in class freight rates.

These arguments are set forth in full in a brief filed with the Interstate Commerce Commission by counsel for the roads, George Stuart Patterson, Francis J. Gowen and George V. Massey, in the investigation of the pending advances in rates by carriers in official classification territory.

'BUCKET SHOP' FINES.

Six New Yorkers, Found Guilty, Pay \$8,100.

Washington, D.C., Jan. 4.—Fines aggregating \$8,100, were imposed upon six New Yorkers yesterday in the Supreme Court of the District of Columbia after pleas of guilty had been entered by them to the charge of conspiracy to violate the law against conducting a bucket shop in the District of Columbia. Jail sentences of two years each were imposed upon three of the men, Richard E. Preusser, Charles J. B. Boggess, O. J. Robinson and Humphrey Owen were the other three men fined.

Winnipeg Garment Workers to Return to Work.

Winnipeg, Jan. 4.—The Garment Workers' Union, which had trouble with the Manitoba Clothing Company following the outbreak of the Street Railway strike, has decided to recognize the principle of open shop at the Manitoba Clothing Company's works, with the exception of the union members who are going to make individual arrangements with the proprietor, Max Goldstein. The absence of the union label from his 'good' is, expected to cause some trouble among the union men who have been buying them.

GALLAGHER IS SANE.

Assailant of Mayor Gaynor, New York, Placed on Trial.

New York, Jan. 4.—James J. Gallagher, the disgruntled employee of the city, who shot Mayor Gaynor last August, was declared sane last night by a jury in the Supreme Court in Jersey City. The trial of Gallagher in the same court on an indictment charging him with shooting with intent to kill William Edwards, commissioner of street cleaning of New York, who was slightly wounded by one of the bullets directed at Mayor Gaynor.

SAVED \$31,000 IN DUTY.

Steamer Arrived With Bent Sugar Cargo Before Jan. 1.

Halifax, N.S., Jan. 3.—The C.P.R. steamer 'Monmouth,' from Hamburg, with 5,000 tons of bent sugar, put into Halifax late Saturday afternoon and entered her cargo at customs. Her destination when the 'Monmouth' left Hamburg was St. John, but the steamer was diverted to Halifax by wireless. The reason for this was that by entering before midnight December 31 the owners of the sugar could save \$31,000 in duty, compared with what they would have to pay on and after Jan. 1. The law provides that sugar refineries must each year import 20 per cent of their total melt from non-British countries under the preferential tariff. This sugar, therefore, had to be imported previous to the end of the year to bring it within the company's proportion for that year.

RAVAGES OF PESTS.

Cost Millions Annually in Effect on Crops.

Washington, Jan. 3.—The fearful ravages of pests on agriculture, entailing many millions of dollars of loss, are outlined in a statement which Acting Chief Powell, of the Bureau of Plant Industry, has submitted to the House Committee on Agriculture in connection with the Agricultural Appropriation bill, which the committee will report next month. Dr. Powell says that, through the use of a sulphur spray, the eastern peach business has been made stable for the first time. He says that the estimated loss annually from brown rot on peaches is \$5,000,000, and from peach scab \$1,000,000, virtually all of which might be prevented by proper spraying of orchards. Blister rust on white pine is estimated to cause losses of \$1,500,000 annually, and other plants show heavy losses from diseases and insects. Investigation of the cotton industry in Egypt has indicated that the mixing of Hindu cotton with the Egyptian cotton has caused a loss of \$100,000,000 a year, but that strains of the Egyptian cotton can be bred in the United States which will not show the conditions that cause these enormous losses in Egypt.

HAMILTON ELECTIONS.

By-law to Reduce Liquor Licenses is Carried.

Hamilton, Jan. 4.—Former Ald. Geo. H. Lees was elected mayor of Hamilton by a majority of 894 over Controller Allan. The power question was the principal issue. License reduction also played an important part. The council was cut down from 25 members to 21, including the mayor and Board of Control. Twelve of the new council are pledged to sign a co-operative contract with the Hydro-Electric Commission. Ten members and the mayor ran on the temperance ticket. Five by-laws were submitted and carried. One provides for a reduction of licenses from 68 to 60, one asks the council to introduce legislation in favor of compensation of those who lose licenses, another is for the purchase of a site for a new hospital, another for detention home and a fifth was to raise \$125,000 for good roads. The new council is made up of the following:—George H. Lees, mayor; Controllers Cooper, Bailey and Garner and ex-Mayor McLaren, controllers. The following are the aldermen: Ward 1, G. H. Horning and Thomas Lovelock; Ward 2, Ald. Howard Ryan; Ward 3, Ald. Campbell; Ward 4, Ald. D. Garson; Ward 5, Ald. Clark; Dr. Davey; Ward 6, Ald. Birrell; Rodgers; Ward 7, Ald. Howard Ryan; Ward 8, Ald. Anderson; Ward 9, Ald. Plunkett; P. Lalonde.
