TYPESETTING MACHINES DUTY

Canadian Press Association Will Ask Government to Remove it.

Ottawa, June 6.—With over 150 members in attendance at the opening session, the fifty-fourth annual meeting of the Canadian Press Association convened this morning at the new Chateau Laurier.

A discussion which was not on the programme developed just before adjournment, when President Young (Cornwall Freeholder) announced the appointment of a committee to wait on the government to request the removal of type-setting machines and parts of printing presses.

Mr. Hal Donly, of the Simcoe 'Reformer', asked if the association as a whole had resolved to wait on the government with this request.

Mr. Norman Smith (Ottawa 'Free Press') joined Mr. Donly in opposition to the deputations idea.

'We have nothing to protect in the way of manufacturers of typesetting machines,' Mr. W. H. Givens (Kingston 'Standard') rejoined.

Officers were elected as follows:—President, John R. Bone, Toronto.

There was a capital attendance of delegates at Zion Congregational Church on Thursday.

While the publishers of the 'Witness' exclude from its columns all financial and other advertisements which they consider of no interest to their readers.

THE PEACEMAKER. When King Edward came to the throne during the South African war Britain was hated throughout the Continent.

Table with columns for days of the week (S, M, T, W, T, F, S) and rows for dates (2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30).

It is again very definitely set forth in to-day's despatches that Canada has no flag.

USE THE SUNSHINE. Surely it was a fortunate accident for the city of Moose Jaw when its electric power house burned down.

Moose Jaw, June 7.—From papers found on the body of a man discovered in the rear of the Brunswick Hotel, police think Alexander Watson of London, has met a mysterious death.

Who Know Alex. Watson? Moose Jaw, June 7.—From papers found on the body of a man discovered in the rear of the Brunswick Hotel, police think Alexander Watson of London, has met a mysterious death.

by having been run over by an automobile. Such an accident might easily have resulted in a life-long cripple. The pedestrians must have the right of way on street crossings, and only very determined action on the part of our magistrates can give it to them.

Many thousands of settlers have come to Canada from the United States during the last few years, and the stream has now grown into a full-sized river of immigrants.

There was a moment when a terrible calamity seemed possible at the recent Imperial Exhibition in Delhi. It was on the night of the Royal Investiture, when all the most important personages in India were packed in a vast marble marquee.

A remarkably fine find of prehistoric weapons and ornaments has been made in a cavern at St. Kazan, in the Karst Mountains, not far from the city of Trieste.

The 'Volks-Zeitung,' a Jewish Socialist weekly, in a big head-liner today, makes a strong appeal to the Jewish clothing employees to join the cause of the strikers and urge employers to a finish.

To-night the week's 'notice' given to the 'bosses' comes to an end. From to-night all work must be stopped, no machines must run.

On Sunday, June 9, at 2 p.m. a general meeting of all the strikers will take place at the Labor Temple, St. Dominic Street.

A series of small wholesale clothing firms have made a settlement with the strike committee, and the work in these shops will therefore continue.

in-practice in some isolated places, as at the Boys' Farm at Shawbridge.

Unfortunately for Moose Jaw the federal offices stick to standard time. The railways also hold by it, as any local change would throw the station out of gear with the rest of the system.

A TRYING MOMENT. King George's Coolness Prevented Panic.

There was a moment when a terrible calamity seemed possible at the recent Imperial Exhibition in Delhi. It was on the night of the Royal Investiture, when all the most important personages in India were packed in a vast marble marquee.

Mr. Robert Newton, who headed the list of graduates of Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Jewish Socialist Weekly Wants 'A Fight to a Finish.'

The 'Volks-Zeitung,' a Jewish Socialist weekly, in a big head-liner today, makes a strong appeal to the Jewish clothing employees to join the cause of the strikers and urge employers to a finish.

On Sunday, June 9, at 2 p.m. a general meeting of all the strikers will take place at the Labor Temple, St. Dominic Street.

GRADUATED AT MACDONALD

Twenty students of Macdonald College received their degrees of Bachelor of Science in Agriculture from McGill University this afternoon.

They are now well equipped for scientific farming, and will no doubt also help materially to improve the standard of agriculture in Quebec, the Maritime Provinces, and wherever they may settle.

Mr. Robert Newton, who headed the list of graduates at Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. Leandre V. Parent, Graduate of Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. M. E. Davis, who won second place among Macdonald College graduates, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. D. Bruce Flewelling, Graduate of Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. E. A. Lods, who won third place among Macdonald College graduates, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Canadian Militia. His home is in Westmount.

Mr. Leandre V. Parent, the youngest of the graduates, was born at Grande Ligne, Que., in 1892.

Mr. D. Bruce Flewelling came from New Brunswick. He distinguished himself as a vocalist, filling the position of leading bass in the college choir, and in all the quartettes and choruses.

Berwick, N.S., in 1886, in the famous Annapolis Valley. He went to the Berwick public schools, and in 1908 entered the Nova Scotia Agricultural College at Truro, where he won first class honors in the first year, and also attained some distinction as a hockey player.

Mr. Fred S. Brown, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. A. A. Campbell, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. W. W. Baird, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. J. W. Simard, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. Stuart M. Fiske, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. Kenneth M. Fiske, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

Mr. Ernest Rhoades, who graduated from Macdonald College, was a good student, but a good leader's man, a good soloist and a first rate athlete.

KING OF SAXONY THROWN

Fell at Army Manoeuvres, Wrenching His Leg Badly.

THE WEATHER

Toronto, Ont., June 7.—A heavy rain shower covered the city yesterday morning. The temperature was 64 degrees.

NEARING THE CONVENTION

President's Name May Not be Presented First at Chicago.

Washington, D.C., June 7.—Presidential names may not be the first presented to the Republican convention at Chicago, and, in fact, the names still in Washington said that the President's name might not be presented before the convention unless Roosevelt has been put in nomination.

As the Taft leaders at the head of the convention roll, the names of the Alabama delegates for Taft, his political friends, suggested that she should be put in nomination, the President's own name would put him in nomination, that might put Taft in nomination, that might put Roosevelt in nomination.

Although the Taft leaders also claim New York by a large majority, it was not permitted to present the name of Roosevelt at this point in the convention.

Another state claimed by the Taft leaders under this plan, would yield to Ohio and the name of the President be put before the convention, probably by Warren Harding, former lieutenant-governor of the state, and C. C. Bates.

Although this was said last night to be the plan most favored at present, it has not been considered. One name by Mr. Harding before other candidates. Another was that Mr. Roosevelt be suggested to the convention by New York. This appeared to some of the President's friends, particularly because it is Mr. Roosevelt's home state. One reason advanced against the giving of the honor to Ohio was that the state has more Roosevelt than Taft delegates.

AT THE CONVENTION. Chicago, June 7.—Publicity will govern the Republican National Committee in its deliberations on the contests for seats in the National Convention. This was decided without opposition at the opening session of the committee yesterday, in accordance with the expressed wishes of President Taft and Col. Theodore Roosevelt.

The public and the newspapers will be represented by the five press associations recognized by admission of their reporters to the floor of the National House of Representatives at Washington. Two men from each such press association will be permitted to be present during all deliberations and decisions of the committee, there will be no executive sessions.

VENICE TUNNEL. Venice, June 7.—The problem of communication between the city and the mainland is about to be solved by the construction of a tunnel under the lagoon, with openings at St. Mark's square and in the islands of Giudecca and Lido. The tube will be from seventeen to forty feet below sea level and will cost \$2,400,000.

DROWNED IN THE ASSINIBOINE. Portage La Prairie, Man., June 7.—Sidney Herroll, of Winnipeg, and Graham Paisley, of Portage, were drowned when their canoe upset yesterday in the Assiniboine river.

Had Boils On Neck and Arms. Had Them Lanced But Got No Relief Until He Used Burdock Blood Bitters.

Boils in themselves are not a dangerous trouble, but still, at the same time are very painful. They are caused entirely by bad blood, and for you to get rid of them it is absolutely necessary to put the blood into good condition.

My boy, of nine years, had a rash come over his back and legs, so we gave him a few doses and now he is all right again. Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

SHOULD BURN CARTERPILLARS

Dr. Louis Laberge Advises Citizens to Destroy Them in Their Cocoons

Dr. Louis Laberge, City Medical Health Officer, to-day issued advice to the public to burn all the caterpillar cocoons in sight on the trees.

"I took a trip through the city and Westmount yesterday," said he to a "Witness" reporter, "and I saw cocoons hanging on trees, I saw many gardens, particularly in Westmount, with the trees bearing cocoons almost as thickly as ordinary edible fruit. But this fruit is very pernicious, and prompt action," says the doctor, "is required to destroy it. If the owners of trees take proper precautions they should not have much difficulty in stamping out this pest."

Dr. Laberge said he believed the big crop of caterpillars this season is due to unusually wet weather. An inquiry concerning the best methods of destroying rats was received by Dr. Laberge from the Manitoba Government this morning. The letter says that much trouble has been experienced from this pest in that Province.

TO STUDY REQUIREMENTS. Shipping Agents Will Open Offices All Over the West.

Mr. W. Beaver Jones, of Messrs. Beaver Jones, Chant and Company, Passenger and Freight Agents for the White Star-Dominion Line Steamships called at the general offices of the Grand Trunk Railway system here this morning. Mr. Jones arrived on the S. S. "Megantic" on Tuesday evening, and it is his intention after a brief stay in the East to go to Western Canada, where he will remain for a considerable time with a view of opening up permanent branch offices in several of the best towns and cities. This move has been decided upon in order that his company may have first hand information so far as labor requirements in Canada are concerned, and their aim will be to come under contract, and will be sure of work immediately on arrival at his destination. To do this Mr. Jones has concluded that permanent Canadian offices are necessary and eventually will in all probability remain in Canada permanently himself. Aside from his White Star-Dominion line from his White Star-Dominion line, he is preparing to buy Western lands, which eventually will work into a part of his immigration schemes. He is also interested in the Old Country. Mr. Jones remarked, "notwithstanding the many inducements field out in other directions to them, are firm believers in Canada, and it is possible," he said, "that he is convinced that the Dominion will continue to draw immigrants in ever increasing numbers."

SS. "Royal George" Got in a Clear Channel With Fog on Both Sides. (Canadian Associated Press.) London, June 7.—The Canadian liner "Royal George," which arrived at Avonmouth yesterday from Canada, reported a curious experience off Cape Race. The "Royal George" was involved with others in a recent collision, and it passed into clear atmosphere with fog banks on either side. While going at full speed she was in wireless communication with a vessel on the other side of the Atlantic, including the "Megantic" and "Montrose."

FOR PROHIBITION. Temperance Party Endorses Candidate Who Promises Most. St. John, N.B., June 7.—The temperance party at their meeting here last night received from the candidates of the two political parties. In the present provincial campaign, their representative, J. W. Keirstead, formerly pastor of the "Tabernacle" Baptist Church, and a member of the Liberal party, it was decided to endorse him as the temperance party candidate, and public meetings in his favor will be conducted during Sundays and week days to the close of the campaign.

LIQUOR IN CAMPS. Niagara-on-the-Lake, Ont., June 6.—After having held two sessions and heard the testimony of the commandant and officers of the eight rural units in camp, the Board of Inquiry, appointed in response to an order from the Militia Department to investigate statements to the effect that liquor was being used in officers' messes contrary to the regulations, returned a verdict late this afternoon, giving the camp a clean sheet.

NO SHIPS EXPECTED TO-DAY. No ocean ships will arrive in Montreal to-day, and only one, the "Fishpool," docked here yesterday. The dense fog which has prevailed off Cape Race for the last week or more have delayed every vessel several days. The "Royal George" is now expected on Sunday. The "Empress of Ireland" will reach Quebec to-morrow afternoon, over a day late.

COMPELLED TO FIGHT. Stockholm, June 7.—A Swedish fruit syndicate has been compelled to bid fair to become a powerful competitor in the European fruit markets. The company intends to build and operate steamships of its own and begin a service with western America on the opening of the Panama Canal.

NOT ENDED YET. Ottawa, June 7.—Partnership charges against employees of the government printing bureau here are to be investigated by W. J. Code, K.C., before this morning's sitting of the Railway Commission, and the various lawyers present presented their final summing up. Judgment was reserved.

HAZELTON CASE. Ottawa, June 7.—Evidence was concluded in the Hazelton case before the Railway Commission, and the various lawyers present presented their final summing up. Judgment was reserved.

CITY WILL NEED \$13,000,000

Mayor Says that That Sum is Required to Meet Old and New Obligations

Mayor Lavallee said last night that in addition to the loan of seven million dollars that the city was waiting for, the corporation would need six million dollars in order to pay off the obligations for public works incurred last and this year.

The city will place its loan on the London market as the opportunity is favorable. The Mayor said, however, that while the amount named was needed, no decision was reached as to the amount of the loan or when it would be made. The Mayor said that Outremont floated its loan at a higher price than was offered Montreal, because Outremont was paying four and a half percent interest, while Montreal is offering only four percent.

BLAME STRIKE ON AMERICANS

Clothing Manufacturer Hints that They Hope to Gain by it.

One of the large clothing manufacturers of the city referring to the prospect of a strike among the garment workers said that four of the biggest shops had the 52-hour week, with light-weight buildings, good ventilation, higher wages than in any other Canadian city, and with better surroundings than the crowded loft buildings of New York or Chicago.

The speaker added that the proposition of a strike here was prompted by American labor interests who wanted to prevent Canadians from going over to the American cities when strikes are on, as is alleged to have happened in New York, Chicago and Rochester. The American clothing manufacturers were also bothered by the agitation against the 100 percent tariff on woollens and the consequent high price of clothes. A suit of clothes cost from \$10 to \$15 more in Canada than in the United States, and the Americans would be glad to see the cost of a suit in Canada increased \$8 or \$4, as it would be if the demands of the unions were granted.

SAYS WORKERS ARE WELL PAID. The clothing workers are among the highest and best paid artisans on inside work. Cutters average over a week, while the best operators, both men and women, make from \$15 to \$25 a week.

Even the learners, the young apprentices make from \$5 to \$7 a week in the earlier years of their apprenticeship.

Cutting is a simple and mechanical operation under the modern system of pattern-making. It is easy for a custom tailor cutter to make himself expert in the big shop. Most of the cutters are recruited from custom tailors and designers, who find that their business conditions are changing. A few good cutters make less than \$1,000 to \$1,200 a year.

MET GOVERNOR WILSON. Ex-Lord Mayor Thought He Would Make Good President. New York, June 7.—The White Star liner "Baltic" was at noon yesterday for Liverpool with 350 first cabin, 435 second cabin and 1,000 steerage passengers, which was practically a full ship. Among her passengers was Sir William Trehear, former Lord Mayor of London.

"I had the pleasure of meeting at dinner last night," he said, "one of our possible Democratic candidates for Governor Wilson. He is a very fine man. I think that he is the kind of man the country would like as president, as he is a scholar and reserved in his manner, and a man of serious acting, flamboyant character like Roosevelt."

The Rev. Dr. J. H. Jowett, the English preacher, who was called last year to the pulpit of the Fifth Avenue Presbyterian Church, sailed on the "Baltic" with Mrs. Jowett, and will be abroad until September. He said that he liked his work in New York, and found the poor here better off than in the cities in Great Britain, and the slums not so degrading as in London, Glasgow and Liverpool.

Two Titanic survivors, the Misses Elizabeth and Clara Allen, daughters of James B. Allen, a former mayor of St. Louis, sailed on the "Baltic" to be married in London on July 11. Miss Elizabeth will wed Dr. J. B. Menzell, of London, and her sister, Clara, Prof. Charles Haskins, of Harvard University. They were crossing in the "Titanic" to complete their trousseau when the disaster occurred.

USE CANADIAN COAL. Parliament Buildings to be Heated by Cape Breton Product. Ottawa, June 7.—Canadian coal is likely to be used in the House of Commons and government departments in the buildings for the first time this coming winter.

It is understood that the tenders for the annual supply, which runs into several thousands of tons, must have a discounting of the future by using up more rapidly the little strength you have left.

Get a real tonic—a true tonic, one which will increase the amount of pure, rich blood in the body, revitalize the feeble, wasted nerve cells, and so prove of lasting benefit to you.

A good example of a true tonic is Dr. Chase's "New Food." This tonic does not give you false hope, but gradually and naturally builds up the tired, worn-out system. You may take the benefits so quickly, but not feel the satisfaction of knowing that the gain you make is natural and lasting. There is no spring tonic half so satisfactory as Dr. Chase's "New Food."

Spring Tonics Real and Unreal

Some people use stimulating medicines in the spring. This is a mistake. The action of the heart is increased. You feel better for a time, but the reaction sets in. You are discounting the future by using up more rapidly the little strength you have left.

BARRICADING CITIES IN CUBA

Employees of Mines Attack Rebels and Twice Repulse Them.

Santiago, Cuba, June 7.—The rebels Wednesday night attacked the Cobres Mines, the firing continuing for one hour, when they were repulsed by armed employees. No government force was present.

The rebels also engaged a government guard at Punta Del Sal, the landing place for Cobres, but were repulsed after some firing. Citizens at Palma Soriano are barricading the city momentarily expecting an assault by the rebels, who are believed to be near in strong force. The foreigners there have telegraphed to their consuls here begging for protection.

The columns under Colonel Valiente and Colonel Valiente returned from the field to-day. It is understood that their plan of campaign proved a complete failure and that a halt has been called until a new plan can be perfected.

The United States gunboat "Paducah," recently stationed at Daiquiri, lay off the vicinity of the Cuero Mine yesterday for the night, but as no trouble occurred, returned yesterday morning to Daiquiri.

Lieutenant Charles Belknap, acting under the order of Captain George K. The commandant of the Guantanamo Naval Station, arrived here yesterday to investigate conditions and report back the wishes of American citizens with regard to militia protection. Lieutenant Belknap had a conference with the American consul, Ross E. Holaday, and many Americans and made lists of their applications for troops for the protection of property in the city and vicinity, amounting altogether to 950 soldiers.

The lieutenant stated that if the Cuban Government was unable to supply these American marines would be sent as soon as possible. Later he and Consul Holaday had a conference with General Montaguado, the Cuban commander-in-chief.

PERSECUTING SAM'L GOMPERS

Charge Made by Defence Against Burns Detectives at Darrow Trial.

Los Angeles, Cal., June 7.—Bert H. Franklin yesterday was on the stand, but his ordeal at the hands of Chief Counsel Rogers for the defence was broken several times by verbal controversies between opposing counsel, one of which included a denunciation of William J. Burns, by Rogers.

Rogers' denunciation of Burns grew out of continual objections by the prosecution. He had asked the witness if he had not been told to bring Gompers' name into his testimony whenever the opportunity offered.

"Burns' men are concerned in every detail of this case," retorted Rogers, "even to hounding our witnesses and watching our office and using telephonic devices in our place. No man can truthfully deny Gompers in this case. The latest charges against Burns' men, employed by the National Erectors' Association, were behind this case in every particular."

District Attorney Fredericks said no one had sought to implicate Gompers in the present case, a statement which brought Rogers again to his feet with a statement that the United States Government in this state and others was trying to bring the name of Gompers in the case.

"This prosecution of Darrow is but a step against Gompers," he said. "Burns announces that he is going to get Gompers through Darrow."

"If Burns has anything against Mr. Gompers and is following Mr. Gompers through Darrow, he is following Mr. Gompers, that is his business, not ours," said District Attorney Fredericks.

Two Titanic survivors, the Misses Elizabeth and Clara Allen, daughters of James B. Allen, a former mayor of St. Louis, sailed on the "Baltic" to be married in London on July 11. Miss Elizabeth will wed Dr. J. B. Menzell, of London, and her sister, Clara, Prof. Charles Haskins, of Harvard University. They were crossing in the "Titanic" to complete their trousseau when the disaster occurred.

Get a real tonic—a true tonic, one which will increase the amount of pure, rich blood in the body, revitalize the feeble, wasted nerve cells, and so prove of lasting benefit to you.

A good example of a true tonic is Dr. Chase's "New Food." This tonic does not give you false hope, but gradually and naturally builds up the tired, worn-out system. You may take the benefits so quickly, but not feel the satisfaction of knowing that the gain you make is natural and lasting. There is no spring tonic half so satisfactory as Dr. Chase's "New Food."

Spring Tonics Real and Unreal

Some people use stimulating medicines in the spring. This is a mistake. The action of the heart is increased. You feel better for a time, but the reaction sets in. You are discounting the future by using up more rapidly the little strength you have left.

Get a real tonic—a true tonic, one which will increase the amount of pure, rich blood in the body, revitalize the feeble, wasted nerve cells, and so prove of lasting benefit to you.

A good example of a true tonic is Dr. Chase's "New Food." This tonic does not give you false hope, but gradually and naturally builds up the tired, worn-out system. You may take the benefits so quickly, but not feel the satisfaction of knowing that the gain you make is natural and lasting. There is no spring tonic half so satisfactory as Dr. Chase's "New Food."

REGULATION FOR CLEARING HOUSE

Manager of Association With Unlimited Power, Concedes its Necessity

New York, June 7.—The immense power wielded by the New York Clearing House Association over the banks of the country's financial centre, and arbitrarily lodged in the hands of five men, will be placed under judicial regulation, it was conceded by William Sherer, manager of the association, on the witness stand yesterday.

Mr. Sherer was the chief witness at the first hearing held by the House Committee on Banking and Currency, which is investigating the so-called "money trust."

The Clearing House Committee, composed of Frank Vanderlip, president of the National City Bank, the largest in the country; James G. Cannon, president of the Fourth National Bank; Walter E. Frew, president of the Corn Exchange Bank; Richard Dalefield, president of the National Park Bank; and Otto T. Barnard, president of the New York Trust Company, had full power over the admissions to membership according to the testimony of the witness, and the power of suspension.

"Then these five men can keep a competitor out of the association?" inquired Samuel Untermyer, senior counsel to the committee. "Don't you think that is a monstrous regulation for an institution doing an inter-state business?"

"The average banker," replied Mr. Sherer, "realizes that he can make more money by walking straight than crooked. I have never known honorable men who are able to fulfil financial requirements for admission to be refused. If the committee took the narrow view of keeping out a competitor, it would react against the association."

"I am not speaking of motives," pursued the attorney, "but of the unbridled and unlicensed power of these men. Don't you think this power should be subject to judicial review and control?"

Mr. Sherer explained that the clearing house association was a voluntary institution like a club, and that no court would compel such an institution to accept as a member one who could not comply with its regulations.

"But you know that this great power exists; should it not be judicially controlled?"

"I agree with you," finally conceded Mr. Sherer.

"And this mere whim, determination or order, whatever you call it, to stop clearing for non-member banks. Don't you think that that is a great power without judicial review?"

"The witness agreed," but asserted that the power is not so bad as it looks, citing an instance where that power was exercised to protect an institution whose officers were not of good character, but obtaining membership by buying out and merging it with a clearing house bank.

"The character of the construction which group of banks you belong to, doesn't it?" queried Mr. Untermyer.

"Oh, I don't admit that," said the witness.

At the meeting of the Council of Montreal South, held last night, many ratepayers being present, the Mayor announced that the manager of the Montreal and Southern Railway had promised to give the town its first public lights, one at each end of the town, and it was resolved to appoint a deputation to thank him and ascertain the cost of obtaining further lights for the town.

It was also decided to appoint a road foreman and a chief of police. Councillor Rochester gave notice of a motion for a new town hall, and it was resolved to erect a temporary shed, at a cost not to exceed \$150, in which the fire engine and other plant of the town could be housed, and it was also decided to have all streets cleaned and levelled for the Fete Dieu procession on Sunday next.

Councillor Hardy reported on his visit with Mayor Smiley to Mr. Rainville, M.P., to ask for 20 feet additional ground, so as to widen Victoria ground for a government farm. Mr. Rainville had made a special visit to Ottawa regarding these matters, and held out the hope that the requests would be granted.

MR. BONAR LAW NOT COMING. (Canadian Associated Press.) London, June 6.—Mr. Bonar Law states that he has not made any arrangements to visit Canada.

MISSING RELATIVES. Ferguson (Alec), left London for Canada nine years ago. Sister Sophie asks.

Palmer (Waiter), was last heard of in Illinois, U.S.A., 1910. Mother asks. Powell (John Thomas), left Highgate for Canada, 1905. Brother Arthur asks.

Rogers (Mary), nee Synn, is believed to have left Sutton for Toronto, 1907, and Maud, sister Harriet asks.

Hobland (Joseph), was a publican of Marylebone when last heard of, 1870; is believed to be now living at Halifax. Daughter Eliza asks.

Greenough (Edward), left Wapping Wall 40 years ago, and was last heard of in Toronto 40 years ago. Brother Alfred asks.

Scribshaw (Wilfred), was serving N.W.M. Police at Fort McLeod, Canada, 1898. Brother Robert asks.

Hunt (John), left Cornwall 29 years ago and went to Port Elizabeth, Canada, with his children, Ethel and John. Sister-in-law Harriet asks.

Lloyd (Richard), left Marston Green Cottage Home for Lake Superior 30 years ago. Brother asks.

Newton (William), left Old Lakeland, Norway, 1891, and is believed to have gone to Nova Scotia. Brother Henry asks.

Green (Alice, Lily, Frank, Edith, and Bertie), children of the late John Green, of Penzance, who died at Leyton, 1902, are sought by aunt Emily. Hayward (William), formerly a C. essemonger, of Artley, Canada, and his wife, went to America with friends of the name of Seabrook, 1873. Brother Thomas asks.

NOT RETIRING Premier Scott, of Saskatchewan, Will Start Within a Week.

Regina, Sask., June 7.—The following statement was given to the Western Associated Press correspondent here yesterday by the Hon. A. Turgeon, attorney-general of Saskatchewan:

"The statement that Premier Scott is retiring from political life and will not enter the coming campaign in Saskatchewan is absolutely without the slightest foundation. Mr. Scott will be in Regina within a week. His health is completely restored and he will be actively at the head of the Government forces whenever the election takes place."

**ALL READY FOR THE CLEANING**

**GILLETTS LYE**

EATS MADE IN CANADA

**MANY LOSE JOBS IN YUKON**

**Quebec Men Dismissed; Replaced by Men Outside of Province**

Ottawa, June 7.—News comes from Dawson that through the Department of the Interior there have been wholesale dismissals in the Yukon of men appointed by the Laurier Government. Among those who received notice that their services would not be required after June 1, were F. X. Gosnell, Civil Commissioner, and James and timber agent, who is succeeded by George P. Mackenzie; Napoleon Laliberté, registrar, to be succeeded by Albert E. Lamb; Victor G. Gagnier, succeeded by Frank Brock; T. D. McParlane, mining inspector, replaced by John Fraser; Thomas Hinton, recorder at Mayo, succeeded by Thomas Henehy; M. A. Fleet, mining recorder at Fairbank, replaced by William Schofield. James A. McKinnon is appointed recorder of the gold office in place of Mackenzie, which is the only promotion. All the others are new appointments, and, needless to say, are all Conservatives.

There may be trouble in Quebec Conservative circles when it is pointed out as it will be, that while three French-Canadians have been dismissed, not one man from that province has been appointed in their place.

**SUIT FOR DAMAGES.**

**Milk Dealer's Dispute Carried to Superior Court.**

The question of compensation for damages to the reputation of a milk dealer owing to a conviction on a charge of possessing adulterated milk is occupying the attention of the Superior Court. The case is that of Jerome Pilon vs. Joseph Papineau. The plaintiff is a retailer of milk, and since May 1, 1911, has been supplied by defendant. On May 23 of the same year he was fined by the Recorder for having in his possession milk unfit for human consumption. This milk, it is claimed, was obtained from the defendant. On November 25 plaintiff had 60 gallons of milk analyzed, and it was declared to be adulterated. He alleges that owing to the publicity given his conviction and fine, his reputation has suffered to the extent of \$200, which sum is claimed. Messrs. Leonard, Patenaude, Filion and Montette are acting for the plaintiff.

**CANADA'S FLAG.**

**Secretary for Colonies Says It is the Union Jack.**

Ottawa, June 7.—There has been some controversy of late in the capital as to the actual flag of Canada. The matter is settled by the following dispatch received from the Secretary of State for the Colonies by His Royal Highness the Governor-General:

Sir,—I have the honor to transmit to Your Royal Highness a copy of a letter in regard to the flag which should be used by private persons who are British subjects.

I should be glad if you would be good enough to cause the public to be informed that the Union Jack is the national flag of Canada as of all other parts of His Majesty's dominions, and may be flown on land by all British subjects, and that the Red Ensign with the arms of the Dominion of Canada in the fly, is intended to be used only by Canadian merchant vessels.

I have the honor to be, Sir, Your Royal Highness' most obedient, humble servant.

(Signed) 'L. Harcourt.'

**MONTREAL FURS SEIZED.**

**Consignment of Skins for Local House Captured by Game Wardens.**

Ottawa, June 7.—Game Wardens Loveday, of Ottawa, and Reinhardt, of Hull, yesterday captured a consignment of 75 beaver skins valued at over \$400, shipped from Maniwaki, to a Montreal house via Ottawa. During the last week the same officers have captured pelts to the value of \$1,000.

Prosecutions will be taken against the firm to which the furs were being shipped.

**ANOTHER VICTIM.**

Hamburg, June 7.—The German aviator, Gottlieb Rost, was mortally injured while making an aeroplane flight yesterday.

**EASTERN TRIP IS CANCELLED**

**Royal Party Not Going to Quebec or Maritime Provinces.**

**DUCHESS IMPROVING.**

**Duke Will Probably Go to Winnipeg to Open the Exhibition.**

While another favorable bulletin regarding the condition of Her Royal Highness the Duchess of Connaught was issued last night, she is still suffering from the attack of peritonitis, and, it is said, it will be a week or two before she is able to leave the hospital and engage in any social duties. In the meantime the royal party will remain in Montreal.

The Quebec engagements have all been abandoned, as well as the trip to the Maritime Provinces. The Duke had promised to go to Winnipeg to open the Exhibition on July 9, and he is likely to do so if the recovery of the Duchess is fully assured. Neither the Duchess nor Princess Patricia are likely to accompany him west, however, under the circumstances.

The Duke and Princess Patricia spent a good part of the time yesterday at the Royal Victoria Hospital, and were pleased at the favorable reports of the doctors.

The bulletin handed out last night read as follows:—

"Her Royal Highness the Duchess of Connaught passed a satisfactory day, sleeping a considerable portion of the time, and complaining less of pain. Her Royal Highness continues to make satisfactory progress."

The degree of M.Sc. on James Stopford Lauder Brunton, B.Sc.

The degree of Mus. Doc. on John Edward Hodgson, Mus. Bac. (Durham University), Regina, Califas, Regina, Sask.; Herbert Sanders, Mus. Bac. (Toronto), Ottawa, Ont.

The sessional address will be given by Dean Shepherd.

**PHYSICAL EDUCATION**

**Summer Course at McGill Will End June 22nd.**

Although the session in Arts, Science and Law at McGill University is finished and the students have left for their homes, and although to-morrow afternoon, when the Medical Convocation is held, will finish the attendance at the University of the medical students yet, another department is still busy with studies and lecture. This is the summer course in physical education which is being conducted at the Royal Victoria College under the Department of Education.

Professor J. A. Dale is chairman of the committee; Dr. F. W. Harvey, medical director; Miss Ethel M. Cartwright, G. C. G. P. H., physical director, and the committee also includes Mr. C. B. Powter, supervisor of physical education, Protestant Board of School Commissioners, and Mr. H. J. Silver, B.A., superintendent of the Protestant Board of School Commissioners.

The staff is composed of the first-mentioned four, and Dr. A. Mackenzie, Dr. F. S. Jones, Mr. J. E. Merritt, Mr. J. C. Simpson, B.S.C., Dr. F. J. Tees, Dr. Marion Hanford, Miss Elizabeth Helm, Miss Ivy K. Kirby, Miss Sadie Roby Smith, and Miss Edith L. Strong.

The course, which will last until June 22nd, is open to men and women and is for the purpose of training teachers of physical education, and to give teachers already at work the opportunity of strengthening themselves in theory and practice. The course of instruction will include physiology and histology, heredity and evolution, anatomy, applied anatomy, personal hygiene, public hygiene, first aid to the injured, physiology of exercise, anthropometry and physical examination, and finally adopted with the amendments tackled on when it went to the Senate a few days ago. The Senate naturally concurred, and the bill was immediately sent to the Governor for his signature.

Governor Foss has shown himself generally favorable to this legislation, but he has very much at heart other legislation providing for a Public Service Commission to regulate railways and other public services.

**TO SEE PREMIER**

**Mayor and Controllers Go to Ottawa in Park Avenue Viaduct Matter.**

Mayor Lavallee and Controllers Godfrey, Lachapelle, Ainey, and Dupuis went to Ottawa this morning to ask the Hon. R. L. Borden, the Prime Minister, to grant a stay in the order of the Dominion Railway Board to proceed at once to the construction of the Park Avenue viaduct at the two crossings of the Canadian Pacific Railway. The Controllers will tell the Prime Minister that as this part of the city has been newly annexed, time has not been given to the city to prepare proper plans, and an extension of time is needed. They say also that the Canadian Pacific Railway is willing to bear part of the cost of constructing this viaduct, while the order places the whole burden of costs on the city.

**FELL FROM TRACKS.**

Late last night Achilles Bachon, 30 years of age, of 327 City Hall Avenue, was taken to the General Hospital from a street west of the Windsor Station suffering from an injury to his spine. Bachon was found lying on the roadway, and is supposed to have fallen from the elevated tracks.

**THE 'WITNESS' DAILY PATTERNS.**

The home dressmaker should keep a little catalogue such as this daily pattern cuts. These will be found very useful to refer to from time to time.

**DELEGATION SAW PREMIER**

**Dominion Government Asked for Several Favors to the City.**

The civic delegation to Ottawa returned last night after seeing Premier Borden. Mayor Lavallee said that he was well satisfied with the result of the trip. The representatives of the city told the Premier that it would be disadvantageous to the city to have an elevated line of railway as was proposed by the Canadian Northern Railway. The Hon. Frank Cochrane, Minister of Railways, said he had not yet approved the plans of the part of the route of the Canadian Northern Railway from Lagachetiere street to the harbor front.

The delegation also demurred at the order of the Railway Commission on the city to pay the whole cost of constructing a tunnel under the Canadian Pacific Railway at Park Avenue. This undertaking will cost \$200,000, and as a second tunnel under the second line of tracks not far away will have to be built the cost will be doubled. It is asked that the C. P. R. should bear part of the cost.

Premier Borden said the regular procedure would have to be followed, and the case determined by the courts. The Premier will also consider the application of the city to open several streets that have been closed by the Harbor Commissioners.

Controller Ainey said that the Premier was told that elevated tracks as proposed by the Canadian Northern Railway would be a bad precedent for Montreal. In all large centres elevated lines of this sort were being taken down. The railway could reach the waterfront from its Moreau street station.

Ald. L. A. Lapointe said that the application for leave to appeal from the decision of the Railway Commission on the Park Avenue tunnel would have to be first submitted to the Governor-General-in-Council.

The delegation comprised the Mayor, Controllers Godfrey, Lachapelle, Ainey and Dupuis, Aldermen L. A. Lapointe and Emard, Mr. W. H. Butler, and Mr. A. W. Atwater, city attorneys, and Mr. George Janin, chief engineer.

Pique is very fashionable this season, and simple little frocks of the style pictured here are of pique with hand scalloped collar and cuffs. The skirt is short enough to show a neat buttoned boot or Oxford of white buckskin.

**PHYSICAL EDUCATION**

**Summer Course at McGill Will End June 22nd.**

Although the session in Arts, Science and Law at McGill University is finished and the students have left for their homes, and although to-morrow afternoon, when the Medical Convocation is held, will finish the attendance at the University of the medical students yet, another department is still busy with studies and lecture. This is the summer course in physical education which is being conducted at the Royal Victoria College under the Department of Education.

Professor J. A. Dale is chairman of the committee; Dr. F. W. Harvey, medical director; Miss Ethel M. Cartwright, G. C. G. P. H., physical director, and the committee also includes Mr. C. B. Powter, supervisor of physical education, Protestant Board of School Commissioners, and Mr. H. J. Silver, B.A., superintendent of the Protestant Board of School Commissioners.

The staff is composed of the first-mentioned four, and Dr. A. Mackenzie, Dr. F. S. Jones, Mr. J. E. Merritt, Mr. J. C. Simpson, B.S.C., Dr. F. J. Tees, Dr. Marion Hanford, Miss Elizabeth Helm, Miss Ivy K. Kirby, Miss Sadie Roby Smith, and Miss Edith L. Strong.

The course, which will last until June 22nd, is open to men and women and is for the purpose of training teachers of physical education, and to give teachers already at work the opportunity of strengthening themselves in theory and practice. The course of instruction will include physiology and histology, heredity and evolution, anatomy, applied anatomy, personal hygiene, public hygiene, first aid to the injured, physiology of exercise, anthropometry and physical examination, and finally adopted with the amendments tackled on when it went to the Senate a few days ago. The Senate naturally concurred, and the bill was immediately sent to the Governor for his signature.

Governor Foss has shown himself generally favorable to this legislation, but he has very much at heart other legislation providing for a Public Service Commission to regulate railways and other public services.

**TO SEE PREMIER**

**Mayor and Controllers Go to Ottawa in Park Avenue Viaduct Matter.**

Mayor Lavallee and Controllers Godfrey, Lachapelle, Ainey, and Dupuis went to Ottawa this morning to ask the Hon. R. L. Borden, the Prime Minister, to grant a stay in the order of the Dominion Railway Board to proceed at once to the construction of the Park Avenue viaduct at the two crossings of the Canadian Pacific Railway. The Controllers will tell the Prime Minister that as this part of the city has been newly annexed, time has not been given to the city to prepare proper plans, and an extension of time is needed. They say also that the Canadian Pacific Railway is willing to bear part of the cost of constructing this viaduct, while the order places the whole burden of costs on the city.

**FELL FROM TRACKS.**

Late last night Achilles Bachon, 30 years of age, of 327 City Hall Avenue, was taken to the General Hospital from a street west of the Windsor Station suffering from an injury to his spine. Bachon was found lying on the roadway, and is supposed to have fallen from the elevated tracks.

**The One Best Sugar for Preserving**

is

**Redpath Extra Granulated Sugar**

When you pay a good price for your strawberries, and spend a lot of time preparing, cooking and bottling them, isn't it too bad only to get after all, preserves that "might have been better"?

Yet that is what you do get, unless you use the very best sugar as well as the finest fruit.

Every trace of impurity in the sugar has a bad effect on the flavor and the keeping qualities of the preserves.

Redpath Extra Granulated Sugar is refined to absolute purity, and put up, without being touched by human hand, in 2 and 5 pound Sealed Cartons and in 20 and 100 pound bags.

Buy Redpath Sugar in these original packages and you get Canada's finest sugar, at its best. Make your preserves, jellies and jams with Redpath Extra Granulated and you'll get the most gratifying returns from your time, skill and money.

**Try this way of preserving Strawberries—it works splendidly.**

Hull and clean the strawberries and put them into jars which have been sterilized with boiling water. Fill each jar, but do not pack the fruit down.

Make a thin syrup by boiling for ten minutes 3 parts of REDPATH Extra Granulated Sugar in 5 parts of water. You will need nearly as many plants of syrup as of fruit.

Pour the syrup over the fruit, filling the jars. Screw on the covers, without the rubbers, stand the jars on strips of wood in a wash-boiler, and cover them to within an inch of the tops with cold water. Bring this water to a boil and cook for from 15 to 20 minutes, according to the ripeness of the berries. Watch closely after they have boiled 15 minutes, and when cooked remove at once.

Have the syrup, which was left over, very hot. With a fork gently stir the fruit so as to get out all the air bubbles, then fill each jar up with the hot syrup and seal, being careful no leave no air inside.

Strawberries, raspberries or any other fruit preserved in this way keep their shape and size, and retain much more of the fresh fruit flavor than if they are cooked up in the ordinary way.

PREBYTERIANS AND THE GOVERNMENT CENSUS

Rev. Dr. Somerville at the General Assembly Draws Attention to Small Increase in Membership in View of Volume of Immigration

Edmonton, Alta., June 7.—The plan of the Home Mission Committee of the Presbyterian Church to unify the mission work of the Church received an unexpected check when the matter was introduced yesterday afternoon.

The first recommendation of the committee was that the division of the church into two sections should be terminated and that in the future administration this separation should be recognized.

Dr. Campbell, who is one of the representatives of the Maritime Provinces who were present in the assembly made, however, a vigorous protest, and no decision on the subject was reached.

MEMBERSHIP INCREASE SMALL

Two incidents of note occurred at the morning session. The Rev. Dr. Somerville spoke of the small increase in the membership and indicated that there was something seriously wrong in the matter when in the face of an immigration of 350,000 the church gained only two or three percent in membership.

Principal Baird, speaking in reply, threw doubt on the statistics furnished by the Government with reference to immigration, and indicated that the reason why the church did not get a larger proportion of the new-comers into the membership was due to the fact that they did not remain in the country.

ON CHURCH UNION

Principal Springer raised an interesting point in connection with the church union debate. Certain statistics were presented by the Rev. Dr. Campbell, of Montreal, as clerk of the assembly, setting forth the actual vote of the denomination on the issue.

Dr. Campbell, as is well known, is in sympathy with the union movement, and it appeared to Principal Springer that in connection with the church union debate, certain statistics were presented by the Rev. Dr. Campbell, of Montreal, as clerk of the assembly, setting forth the actual vote of the denomination on the issue.

M'GILL MUSIC DEGREES ARE COVETED

Speaking of the two musicians who to-day will be presented by Dean Moyse, in the absence of Dr. Perrin, for the highest degree in music which the university can confer, Miss Looke, tenstein, vice-director of the McGill Conservatorium, said that the event was a good illustration of the esteem in which the Department of Music is held.

Dr. Hodgson, who is now director of the Department of Music in Regina College, Regina, is an Englishman by birth, and has had an equally brilliant career, being an F. R. C. O. and holding the degree of Bachelor of Music from Durham University, England.

Dr. Somerville reported in the morning for the committee on statistical information and indicated the size and strength to which the communion has grown in Canada. The point had almost been reached when a million dollars was annually raised for church purposes.

OYSTER CULTURE

Ottawa, June 6.—One of the most important discoveries ever made with respect to oyster culture was explained for the first time yesterday to the Committee on Fisheries of the Commercial Travellers' Mutual Benefit Society.

The great difficulty of oyster culture heretofore has been the inability to determine the exact time when the swimming oyster eggs are ready to sink to the bottom to attach themselves to hard, clean bodies, called cutch, put there for that purpose.

INSURANCE RULING

Companies Are Liable in the Territory in Which They Collect Decides Judge

Ruling that an insurance company is liable in the territory where it collects, Mr. Justice Charbonneau has dismissed an objection raised against a suit by the Commercial Travellers' Mutual Benefit Society.

JAMES BAY RAILWAY

Government Sending 25 Engineers to Investigate Nelson and Fort Churchill

Twenty-five engineers will be sent to Hudson Bay by the Hon. Frank Cochrane, Minister of Railways, to investigate the ports of Nelson and Fort Churchill, one of which will be chosen as the terminal of the proposed James Bay Railway.

FOR SOUTH AFRICA

Sir Chas. Werhner Did Not Forget Land Where He Made Money

London, June 7.—The estate of Sir Julius Charles Werhner, head of the De Beers Diamond Syndicate, was provisionally sworn at \$25,000,000 yesterday.

THE CUMMINGS MURDER TRIAL

Man Who Was With Murdered Girl Was Insured in Her Favor

WRITTEN CONFESSION Mrs. Cameron Tells of Warning That Cummings Intended to Shoot

The fact that Edward Packer, the star boarder at Cameron's, as pictured by the prosecution in the court yesterday, had an application form for an accident insurance policy made out in favor of Isabella Cameron, was one of the interesting points brought to light in the resumed hearing of the Cummings murder trial yesterday afternoon, before the King's Bench.

The insurance application was dated Nov. 14, 1912. Packer, the witness, appeared a very much embarrassed when the prosecution presented the document signed by him. Mr. Mathieu first carefully folded the insurance application so that Packer's signature only was visible.

He was questioned if his parents were living, and he answered that his father was dead, but that his mother was alive. Then why did you leave her insurance form made out to Mrs. Cummings? asked the prosecution.

"I might as well have left it to her as anybody else, and it's none of your business who left it to Packer," he answered. Then why did you leave her insurance form made out to Mrs. Cummings? asked the prosecution.

Chief Detective Carpenter was the first witness called in the afternoon. The Crown Prosecutor, Mr. Walsh, asked him if he recalled the details of the case.

As a written confession had been signed by Cummings for the police, the prosecution proceeded to introduce the name as evidence. Both the lawyers for the defence did all in their power to exclude it.

CUMMINGS' CONFESSION

In substance the confession stated that Cummings admitted having shot his wife, but his statements of all the incidents that led up to the shooting rather appeared to put him in a better light.

He stated, in the confession, that he had been on a street car when he saw his wife and Packer walking along the street. He got off the car, but as he approached he saw them walking arm in arm, and there he shot her.

Before the confession was read to the court the evidence of Mrs. Cameron was taken. In addition to the incident regarding the supposed letter of her daughter, Mrs. Cummings, to the prisoner asking him to come back to her, many important facts were learned.

The acceptance of Cummings' written confession closed the afternoon session of the court at 5.30 o'clock.

Don't try to save money by buying low grade coffee. An extra half cent or cent a day will buy Seal Brand and you will know the exquisite flavor of the finest coffee obtainable. CHASE & SANBORN MONTREAL

SHIPPING NEWS

VIRGINIA'S LIST. The 'Virginia' which sailed for Liverpool this morning carried the following saloon passengers:—Mr. R. E. Alford, Miss Adams, Mr. H. Bateson, Col. B. A. Blennerhassett, C.M.G., Mr. S. Binny, Mrs. Binny, Mr. H. D. Blackader, Mrs. Blackader, Mr. Roland T. Gergan, Miss D. Bromfield, Mr. Geo. Blackbird, Mrs. Blackbird, Mr. Butler, Mrs. Butler and infant, Miss Black, Mr. J. F. Cubitt, Mr. W. W. Conzantine, Miss M. Frances Delphany, Mr. E. E. Donnell, meet her daughter each evening when coming from her work. 'My daughter was afraid to go out, and said, 'Mother, don't you come out or you will get it as well, and there will be no one to keep the children,' sobbed the witness.

PUBLIC NOTICE

IS HEREBY GIVEN that under the First Part of Chapter 78 of the Revised Statutes of Canada, 1906 (The Companies Act), letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 22nd day of May, 1912, incorporating Andrew Ross, Manager, having as its object the City of Westmount; Talbot M. Papineau, Advocate, Auguste Angers, Student in Law, and the Company, Secretary, all of the City of Montreal, and Miss Gertrude H. Flawn, Secretary, of Outremont, for the following purposes, namely:—

(a) To purchase, take in exchange, or otherwise acquire or deal in real and interests therein, with all buildings or structures that may be hereon, (b) To develop, lay out, improve, and in any other way deal with its own or other movable property, including the division of larger parcels of land into building lots, streets, squares, lanes, playgrounds, and upon and in connection with such property to make, construct, build and maintain roads, bridges, and other means of communication, sewers, drains, water works and other works of sorts and kinds necessary, or expedient for, the occupation, improvement or use of the property.

(c) To take and hold hypothec and other security for the payment of the purchase price of any property sold by the Company or money due to the Company from purchasers, or any other persons, or advanced by the Company to purchasers, or for any other persons.

(d) To advance money to purchasers on property owned by the Company, or to other persons having dealings with the Company.

(e) To insure in insurance companies the lives of persons purchasing property by instalment on the Company, and for that purpose to act as insurance agents and brokers.

(f) To manufacture electricity, gas, and all other means of generating power, light and heat, and any other apparatus as may be necessary for the manufacture and distribution of same, and to sell, however, that the sale, distribution or transmission of power, light or heat thereon, shall be subject to local and municipal regulations.

(g) To acquire in any way whatsoever any property or other things necessary or expedient for the carrying on of the Company's business, and to pay for the same in stock or other securities of the Company.

(h) To carry on any business which may seem to the Company capable of being profitably carried on in connection with the business of objects of the Company, or calculated to enhance the value of or render more profitable the Company's property, or rights.

(i) To apply for and accept, or to hold, any bonus or any concession from any municipality, and to enter jointly with any municipality into any scheme whereby the property of the Company can be improved.

(j) To pay and make any securities rendered to the Company either prior or subsequent to its incorporation, organization or otherwise, by bonds, notes, debentures or assets of the Company, or by the issue and delivery of funds or capital stock.

(k) To use any of the funds or assets of the Company for the purchase or acquisition of the shares, bonds, or other securities of any other corporation, carrying on a business similar to that of the Company, and also to acquire such shares by giving debentures, bonds, debentures or other securities of the Company, or by the issue and delivery of funds or capital stock, or in any other manner.

(l) To enter into any arrangements for the sale, lease, conveyance, reciprocal concession or otherwise with any person or company carrying on or engaged in, or about to carry on or engage in, any business or transaction which this company carries on, or any business or transaction capable of being conducted so as directly or indirectly to benefit this Company.

(m) To sell, lease, or otherwise dispose of all or any part of the undertaking or assets of the Company for such consideration as the Company may deem fit, including the shares, debentures or other securities of any other corporation having obligations to the Company.

(n) To do any such other things as may be incidentally conducive to the advancement of the Company's objects.

(o) The powers of each paragraph hereof are to be exercised by the directors, but may be extended by means of a resolution, or inference from, any other paragraph.

The operations of the Company to be carried on throughout the Province of Quebec and elsewhere under the name of 'The Montreal House Construction Company, Limited'.

Capital of two hundred thousand dollars (\$200,000), divided into two thousand shares of one hundred dollars (\$100) each, and the chief place of business of the said company to be the City of Montreal, in the Province of Quebec.

Dated at the office of the Secretary of State of Canada, the 22nd day of May, 1912.

THOMAS BULWYN, Under-Secretary of State, Campbell, McMaster & Papineau, Solicitors for Applicants.

CHANGES AT KINGSTON

Ottawa, June 7.—As a result of the Hon. Judge Doherty's trip to Kingston and the investigation which has been made into the management of the penitentiary it is likely that various changes will be made in the management.

### The Montreal Light, Heat & Power Co.

Power Bldg., 83 Craig St. W. 358 St. Catherine W.

for all the delegates, and served luncheon and supper free to all delegates, in the basement of the convention church each day.

The interest in the convention was enhanced by the fact that local option had been adopted by the local municipality, at the last election, by a sweeping majority, more than one hundred and fifty, but the by-law was quashed by the courts upon a technical irregularity of the Municipal Clerk. The local temperance people fought the renewing of licenses, and only the day before the convention, the commissioners decided to decline the applications and to issue no licenses.

The resolutions adopted by the convention may be summarized as follows: That the Southern Manitoba Association be made a permanent branch of the Moral and Social Reform Council of Manitoba, and that the temperance policy of the Council be heartily endorsed.

That a local branch be formed in each of the eight electoral divisions of the province, and that the president and secretary be elected by this convention to become responsible for the organization of each riding.

The principle of placing electors and the employment of the forms supplied by the Provincial Executive be advised.

That the principle of Direct Legislation be endorsed.

The only difference of opinion in the convention was over the form of the Electoral Convention. Some thought it should be stronger than a negative pledge, and that electors should enter into covenant to vote for the candidate who pledged himself to the abolition of the bar-room. It was suggested that if any one of the electoral district organizations, chose to experiment with a more advanced covenant, it would be all right.

Mr. D. S. McLeod, of Goodlands, was elected President, and Mr. H. L. Montgomery, of Deloraine, Secretary.

These officers, along with the president of each of the electoral division organizations, will make the Executive.

The annual election contest of Southern Manitoba for a diamond medal in the Royal Templar series, was held on the evening of the first day of the convention, and the Royal Templar medal was presented on the occasion.

Five gold medals from different parts of the district competed, and the medal was awarded to Miss Owendine Thomas, Mrs. T. F. Hooker was the superintendent of the contest; Mr. W. W. Buchanan presided, and the judges were the Rev. H. A. Ireland, of Brandon; the Rev. Manson Doyl, of Killarney, and the Rev. Robt. Aylward, M.A., of Winnipeg.

On the Sunday following the convention, union services were held in Crystal City and practically all the churches joining in the movement, and the pulpits were filled by visitors to the convention.

The quarterly session of the Provincial Temperance Parliament was also held at Crystal City during the same two days, greatly increasing the interest in the gathering.

At a reception banquet in the City of Winnipeg, Mr. W. Y. Buchanan, who was one of the speakers, made a very clever reply to a statement of Premier Roblin's, which is destined to live. He is reported as follows:

"The Premier says that the Referendum, so far as it is not mischievous, is as useful as a steam engine, a coach, and I thank him for the illustration. Modern invention has given us the automobile for a coach, and with the automobile the steam engine has become as obsolete as a wooden gun-boat. The man found fifty miles from his garage, without a fifth wheel on his automobile, would not require the help of a commission in order to open the asylum doors for him. We do not change the mechanism of the car to apply the fifth wheel, nor put it on an axle that does not have a fifth wheel. We strap it on behind with the fervent hope that it may stay there. We do not want to use it unless something goes wrong, and then we know where it is, and we are not left stuck in the mud, or sitting by the side of the road where the race of the automobile is being run. The referendum is certainly like the fifth wheel on the modern coach. We do not want to use it, unless something goes wrong, but when something does go wrong, it is the very article that is required to keep the state coach running on the highway of human progress."

HE FOUND THE LEAK. But Gas Ignited From Match and Damaged House.

Looking for a leak in a gas pipe with a lighted match caused a small fire in the residence of Mr. C. Dalrymple, 47 St. Mark street, early last evening. The gas ignited and burned inside the wall between the baseboard and the floor. A hand extinguisher smothered the fire, and the damage consisted chiefly in a hole cut in the wall by the fireman.

FISHING AT NIAGARA. Canadian Government Will Send Commissioner to Enforce The Law.

Niagara Falls, Ont., June 7.—Illegal fishing by American Canadian water along the Niagara frontier, has resulted in the department at Ottawa issuing instructions to Chief Mains to prosecute all offenders. It is said the government intends sending a special commissioner here to enforce the law as a result of complaints.

HUMANITY TO ANIMALS. The regular monthly meeting of the Executive Committee of the Canadian Society for the Prevention of Cruelty to Animals was held at the Secretary's Office, 288 St. James Street, yesterday.

RIVER YIELDS VICTIM. The body of 85 St. Joseph Boulevard was found at Beauport, Quebec, yesterday, not far from the spot where he was drowned on May 27th. The drowned man was Rosario Filion, both of whom were engaged in a drug store in the city, and were attempting to raise their canoes up the rapids near Bordeaux, when Hamell fell into a hole and was carried off by the current before assistance could be given.

## STRIKE IN BOSTON

### Elevated Railway Men Came Out Suddenly

### MANY ARRESTS

### Early Morning Cars Held Up and Conductors Beaten

Boston, June 7.—Violence marked the beginning of a strike of several thousand of the employees of the Boston Elevated Railway at daylight. Those who refused to work demand recognition by the company of a recently formed union. The company's reply is that they have treated the men unusually well for many years, and refuse to deal with them other than individually.

The street railway service and the elevated road were being operated on about half time at eight a.m. to-day, and up to that hour five arrests had been made for assaults on motormen. Although the strike has been threatened for a week or more, it burst shortly after four a.m. with a suddenness and a clash that surprised not only the company officials, but the police of Boston, Brookline, Cambridge, Somerville, Everett, Chelsea, Medford and Malden.

The men had been discussing the matter nearly all night at a mass meeting at Public Memorial Hall, and as daylight was breaking it was decided to take a vote. As soon as it was known that the men were going out were in the majority the gathering of nearly 2,000 men began cheering, and a rush was made for the first early morning cars.

RUSH FOR EARLY CARS. The first one was met on Tremont street, one hundred yards from the hall. The car was stopped, the trolley yanked from the wire, the windows were smashed, and the motorman and conductor badly beaten. A number of passengers were rushed out of the car, and although none were injured, all seemed relieved when they gained the street.

A few minutes later word of the strike had reached the vicinity of the North Station, and there two other cars were stopped, windows smashed, some of the passengers disabled and several passengers were slightly injured by flying glass. Several arrests were made at this point.

In the form of a parade coming from the direction of strike headquarters, encircled several cars on Adams Square about six o'clock, and more violence ensued. Two arrests were made here. One of these taken into custody was charged with assault on a policeman, and the other was charged with inciting a riot.

In City Hall, in the afternoon, very nearly the same riot only on the surface lines but in the tunnel, and also on the recently opened viaduct. The outbreak in City Hall was almost as severe, with similar occurrences took place in Everett and Chelsea.

It was announced during the forenoon that the actual vote in favor of a strike was 1231 to 8. The strike committee claims that up to the time of calling the strike to-day 3,200 men had signed union papers, and had paid the initiation fee. At the same time, the company issued a statement that 3,500 employees were still loyal, and that every effort would be made to keep the system in operation.

Four hours after the strike began, cars were running on nearly all lines, but with about half the usual frequency.

## TEMPERANCE IN THE CHURCH

### Thereby Sovereign Conviction of its Importance, Says Dr. Chown

### THE TREATING SYSTEM.

### Rev. G. H. Copeland Elected President of Bay of Quinte Methodist Conference.

Cobourg, June 7.—The Rev. George H. Copeland, formerly of Deseronto, who will probably go to Campbellford next month, was elected president of the Bay of Quinte Methodist Conference yesterday by a narrow margin.

A resounding declaration of Methodists' independence of party politics in the matter of the temperance policy came from the lips of the Rev. S. D. Chown, associate general superintendent, in an address to the conference. Dr. Chown's address was on the relation of Methodism to the country and dealt with the extension of the West, the need for missionaries, and finally, the importance of Methodism keeping the temperance question out of partyism.

He said the temperance question was in the church by the authority of the highest courts of the church and by the sovereign conviction of its importance with no reference to a party but with all reference to the cause. He was not in favor of the abolition of the treating system as a temperance measure. He had talked this matter over carefully with the Hon. George W. Ross, ten years ago, and that was the attitude he assumed then, and has never seen reason to change it.

"Don't let us approach this question in a spirit of partyism," he said, "but in a spirit of soberness and common sense. But if we have said the truth in the resolution, we have adopted at the various conferences from year to year, we must put into our ballot that which represents ourselves and our own honest convictions. It is not for us to be away about by the foolish of party. We must stand by our convictions irrespective of parties."

## PRINCE'S BRAIN

Was Threatened by Abscess Which Has Been Now Removed.

London, June 7.—The Madrid correspondent of the London 'Times' sends this despatch: 'The operation performed yesterday on Infante Don Jaime was of a somewhat serious character, but the abscess has now been successfully removed. It had invaded the middle of the ear, and threatened the brain. The Infante from birth had suffered an affection which had prevented the normal development of his hearing, and consequently, speaking faculties. It is hoped that after recovery from the operation he may be able to resume the treatment, which during last year he had been receiving at Fribourg.'
