PROVISIONAL AGREEMENT REACHED FOR INCREASING WHEAT DEMANDS

Concrete Goal of Wheat Parleys for Past Few Years Not Yet Reached Despite Latest Accord Between Producing and Importing Nations—Attempt to Bring Wheat Talks Within Framework of World Economic Conference Again Foiled.

London, July 20.—After a long conference the great wheat producing nations and the principal wheat importing countries of the world today reached provisional agreement on measures to increase the demand for wheat, thereby restoring the price of the principal agricultural commodity.

The concrete goal of the wheat parleys, which originated some years ago and were resumed with the exporters' conference this spring, is therefore by no means accomplished as yet.

The first step was to gain provisional agreement among the "Big Four" exporters on restricting production and agreeing to quotas for exports. This was accomplished contingent on co-operation of the smaller European exporters such as Czechoslovakia, Hungary and Yugoslavia.

Provisional co-operation of the European exporters was secured, the Danubian basin countries figuring on an export quota of 54,000,000 bushels this year and 50,000,000 next. Then the great wheat importers were approached, with the result today's further meeting is seeking to evolve a satisfactory formula which, it is hoped, will permit the whole great plan to be set up.

Another attempt was made today to bring the wheat negotiations within the framework of the World Economic Conference, but following further protests from the "Big Four," who started the business and have conducted all the negotiations, the wheat men continued their deliberations distinct from the Conference agenda.

A comparison of the drafts of the offer of the importers and the demands of the exporters shows virtual agreement on the following points:

- 1.—Discouragement of wheat sown areas in importing countries.
- 2.—Recognition of the principle of lower tariffs as a price for wheat increases outside of the importing countries.
- 3.—Necessity for measures to increase the consumption of wheat, that is to say, improve the quality of bread.

The exporting countries made a fourth demand not mentioned by the importers, for modification of the general policy for restriction of wheat outside of the importing countries.

Other demands not included in the offer were for cessation of subsidized exportation and recognition that the projected new wheat production and marketing programme would render obsolete and inapplicable "tariff" of regional cereal preferences.

MANIFESTO OF THIRD PARTY UNDER REVIEW

Common-Wealth Co-Ops Would Completely Reform Constitution, Industry, Finance, Laws and Agriculture.

Regina, July 20.—Delegates to the gathering of the Co-Operative Common-Wealth Federation today resumed their study of manifesto prepared by the provisional executives and its assistants—the "brain trust" of the federation.

Starting with the preamble, the delegates last night made amendments in some instances and approved the sections dealing with establishment of a national planning commission, socialization of finance, establishment of import and export boards for external trade and declared in favor of encouragement of producers' and consumers' cooperative institutions.

Still before the delegates today was the debate on the agricultural programme, the labor code, socialized health services, amendments to the British North America Act, foreign relations, taxation and public finance, and freedom of speech and assembly.

Fraternizing greetings were read from the Independent Labor Party at Fort William; Arthur Mold, London, Ont.; The C. C. Club at Glace Bay, N.S.; Finnish Workers Association of Sudbury, Ont.; and the Young Canadian Common-Wealth League of Toronto.

BALBO TODAY PAID VISIT TO U.S. PRESIDENT

Eleven Planes Required to Carry Leader of Italian Armada and His Staff to Official Reception at Washington.

Washington, July 20.—General Italo Balbo, leader of the Italian armada that flew across the Atlantic by way of Canada to visit the Century of Progress Exposition in Chicago, arrived at Washington at 10:25 o'clock this morning, Eastern Standard Time, for a visit to President Roosevelt.

In all eleven planes were required to carry the leader of the Italian armada and his staff to the official reception in Washington.

General Balbo wore a heavy leather jacket and flying helmet. He said he wore this grab because he had caught a slight cold.

The bearded young man who brought twenty-four huge waterbirds 7,100 miles from Italy to Chicago and New York by way of Shediac, N.B., and Montreal, appeared as fresh as if he had rested a week.

The roar of applause with which New York greeted his sky armada still echoed about him as he set out from New York today with ten of his ranking officers to be President Roosevelt's guest at luncheon.

Above the din from New York skyscrapers, rivers, bays and sidewalks, the eight hundred horsepower motors could be heard. As the planes dropped to a landing on Jamaica Bay, a crowd of at least 75,000 at Floyd Bennett Airport went wild, but it was a girl of fourteen who stole the show.

Clad in a scarlet bathing suit, Miss Grace Mastelloni dived into the bay and swam to the barge carrying dignitaries to greet Balbo.

She hooked on to the prow, waved and cried: "Viva Itafia; avante Balbo!"

Balbo's eyes flashed, he smiled and saluted.

COST OF CHICAGO FLIGHT ESTIMATED AT \$3,000,000

Rome, July 20.—The flight of the Italian air armada under General Italo Balbo to Chicago is estimated to have cost about \$3,000,000, including \$56,000 for each plane. The expenses along the route, including the bases for trawlers, were about \$54,000, which will be met by a special sale of air stamps. This sale already has reached \$100,000. The fuel and lubricants for the planes were supplied by commercial concerns. Other expenses include costly instruments at about \$2,500 each. The training of the crews required two years. It was part of the usual air force training.

THE WEATHER

FINE AND WARM.

Pressure is comparatively high from the St. Lawrence Valley southward over the Atlantic coast and from Dakota westward to the Pacific, with a trough of low extending from the west coast of Hudson Bay southward across the Rainy River district and Minnesota. Light to moderate showers have occurred in many parts of the Western Provinces and in a few sections of Ontario, while over the greater part of Quebec and the Maritime Provinces the weather has been fair and moderately warm.

Forecast: Mostly fair and warm today and Friday with some local thunderstorms.

Temperature yesterday: Maximum 75, minimum 43.

Same day last year: Maximum 72, minimum 50.

CANADIAN DOLLAR REBOUNDED UPWARD AT NEW YORK

New York, July 20.—After following in the wake of sterling during early trading, the Canadian dollar deserted the pound's trend in later dealings today and moved upward along with the United States monetary unit.

The Dominion's currency opened down three-quarters of one per cent. at 95 1-8 cents, but soon firmed, and at noon had reached 95 5-8. The United States premium on Canadian funds, after opening at 5.124, dropped to 4 1-2 per cent.

Sterling firmed somewhat after suffering an overnight decline of nine cents to \$4.73. The noon price on the pound was \$4.75 3-8 with trading continuing fairly active.

French francs joined in the downward movement, losing 7 1-2 points to 5.60.

GERMANY AND VATICAN SIGN NEW AGREEMENT

Vice-Chancellor Von Papen of Germany and Papal Secretary of State Affixed Signatures to Important Document.

Vatican City, July 20.—A concordat between Germany and the Vatican was signed today by Vice-Chancellor Franz Von Papen, of Germany, and Cardinal Pacelli, Papal Secretary of State.

Those present at the signing of the pact were Baron Von Boers, chief of the cabinet; Under Secretary of Interior Buttman; Minister to the Holy See Von Kie; Monsignor Kaas, former Center Party leader; Monsignor Ottaviani, Under Secretary of State; and Monsignor Pizzardo, Under Secretary of the Congregation for Extraordinary Ecclesiastical Affairs.

It was revealed that Monsignor Kaas had intensively assisted in the negotiations resulting in the concordat. He has been living in Rome in strict retirement for several months and was also present at the recent initialing of the concordat.

Baron Von Boers expected to be received in audience by Pope Pius XI following the signing. The next will be published tomorrow.

REPEAL FORCES FIND SUPPORT IN TENNESSEE

Third Strictly Southern State and Nineteenth of American Union to Advocate Abolition of Prohibition from Constitution.

Washington, July 20.—Tennessee, dry for nearly a quarter century, voted today on the proposal to repeal the United States Eighteenth Amendment.

It was the nineteenth state to do so. All eighteen of those voting previously have approved repeal. Tennessee is the third strictly southern state to ballot on the question, Alabama and Arkansas having voted on Tuesday to wipe prohibition from the constitution.

Oregon votes tomorrow. Seventeen other states have decided definitely to hold elections before November 7th, while repealing express confidence that still other states will take similar action and that before Christmas the Eighteenth Amendment will be a thing of the past.

In Tennessee repeaters claimed victory by a margin as high as two to one, while a dry leader predicted a minimum majority of 75,000 for prohibition.

MANY PILGRIMAGES ARE ON WAY TO STE. ANNE CHURCH

AUTHORITIES APPARENTLY GAINING UPPER HAND IN KIDNAPPING BATTLE

Although Seriously Wounded, Philadelphia Real Estate Agent's Plucky Fight Prevented His Abduction—Early Return of Young Albany Man Expected—Federal Agents Hold Six Persons in Kidnapping of Aged Alton, Ill., Banker.

New York, July 20.—The tide appeared to be turning against the kidnaping racket in the United States today.

A complete failure in an apparent attempt at kidnaping was scored against abductors in Philadelphia, because the victim—Frank A. McClatchy, fifty-six-year-old member of a prominent real estate firm—dared to put up a fight.

McClatchy, however, was shot and seriously wounded when he was seized by two men, who tried to tie his hands behind him with a piece of rope, while they were about to step into a house they said they wished to buy. McClatchy jerked himself free and struck one of them in the nose and kicked the other.

One of the assailants drew a pistol and fired. McClatchy was shot in the chest. A passing motorist took him to a hospital, where he was given an even chance to recover. Philadelphia police believe the assailants, who escaped on foot, originally had planned to kidnap McClatchy's wealthy brother, John H. McClatchy, for ransom.

High hope for the safe return of twenty-four-year-old John J. O'Connell, kidnaped National Guard lieutenant, was held by his relatives

DEFINES STAND OF GOVERNMENT ON T. B. BOUNTY

No New Zones to Be Established for Inspection Work, but Present Tests Are to Be Completed.

Ottawa, July 20.—It would seem that there is error in the interpretative despatch which stated that the compensation for cattle tested and destroyed for cause, had been withdrawn entirely. The Federal Department of Agriculture is not undertaking any new tests in Compton County, which was apportioned into zones, but will complete all the work under progress. Dearth of money and the need for economy may prevent the making of any more initial tests at this time.

George Hilton, V.S., Veterinary Inspector General, has despatched a letter to Samuel Gobeil, M.P., for Compton, in which he explains the present situation. This letter is under review by the 7th, referring to the publication of an Ottawa despatch in the Record of July 10th: S. Gobeil, Esq., M.P., La Patrie, Quebec.

Dear Mr. Gobeil: I beg to acknowledge the receipt of your letter of the 14th instants in which you state that an item appeared in two Sherbrooke papers stating that the Federal Department of Agriculture was not paying compensation for cattle reacting to the tuberculin test.

In reply to your query I would say that there was no change in the regulations and the Department is still paying compensation for cattle which react to tests conducted under its compensation policies.

Yours sincerely,
GEORGE HILTON,
Veterinary Inspector General.

SON OF FORMER MINISTER OF AGRICULTURE DROWNED

Paul Emile Caron, Son of Late Hon. J. S. Caron, Lost His Life While Visiting a Friend at Lake Beauport.

Quebec, July 20.—Paul Emile Caron, son of the late Hon. J. S. Caron, former Minister of Agriculture, was drowned at Lake Beauport according to word received here today.

Mr. Caron went to lake Beauport Sunday to visit a friend and rented a canoe to cross the lake to the home of his brother-in-law, Emile Laroche. Mr. Laroche was not expecting him, and no alarm was felt until the body was found yesterday.

Mr. Caron, thirty-three years old and entered the government service as secretary to his father when he was fifteen years of age. He was also secretary to the late Hon. J. E. Perron who succeeded his father as Minister of Agriculture and afterwards went to the Revenue Department.

He is survived by his widow, a brother, Amedee Caron, K.C., of Rimouski, M.L.A. for Magdalen Islands and one sister, Mrs. David Clerk, of Quebec.

"CAT AND CANARY" STORY

Chicago, July 20.—The story of the cat and the canary as it came out in court was like this:

QUICK RECOVERY TODAY ON CANADIAN WHEAT MARKET

Winnipeg, July 20.—Sweeping declines marked the start of trading today on the Winnipeg grain exchange. Prices dropped as much as 4 1-2 to 4 1-4 cents, but the market staged a rally shortly after and came back about one cent above extreme lows. Scattered rainfall throughout the west overnight spurred bears to activities.

THIS WINNIPEG MAN IS BELIEVED IN EFFICIENCY

Winnipeg, July 20.—And now the pram-cycle. Hand it to the inventive Winnipeg father who hitched baby's perambulator to a bicycle frame. It rides on one bicycle wheel and two pram wheels. Papa pedals along the street, baby riding smoothly on the "back seat."

Father wins coming and going. Not only does he escape pushing the pram, but he evades the city police license. His machine, technically speaking, is a tricycle.

BRITAIN SEEKS REDUCTION IN INTEREST RATE

Requests that United States Holders of War Loan Bonds Accept Abrogation of Gold Clause to Permit Conversion.

London, July 20.—Great Britain has asked American holders of the 1917 war loans bonds to accept abrogation of their gold clause to permit their conversion from 5 1-2 per cent. to 2 1-2 per cent. sterling bonds.

An offer was made to change each \$1,000 bond into a sterling bond of £260 at the rate of \$3.84 against the \$4.86 parity, reached yesterday by the dollar and pound.

The explanation was given that recent American legislation provides that gold obligations can be paid in currency "which at the time of payment is legal tender for public and private debts" and that "payment of interest and repayment of principal can only be made in currency or coin which is at the date of payment legal tender in the United States for the discharge of debts, that is, paper dollars, and not gold dollars."

Chicago, July 20.—Somebody stole the gallstones from the gallstone exhibit at the world's fair.

QUEBEC SEEKS TOURIST FROM ANCIENT LANDS

England and France to Form Ground for Next Publicity Campaign of Quebec Tourist Bureau.

Quebec, July 20.—With a view to increase the tourist traffic in the Province of Quebec the Tourist Council plans to launch a publicity campaign in England, France and in various other countries of Europe, it was announced last night at the end of the fourth regular meeting of the council.

Plans for the organization of local agencies for the promotion of tourist traffic were brought to completion. The province will be divided into eight districts, each under the supervision of a local tourist agency. One of these will be organized to look after Beauce County and the Eastern Townships.

Hon. J. E. Perrault who presided also announced plans for setting up sign posts along the highways calling attention to the more picturesque and historical spots in the province.

It was decided to print a brochure for distribution outside the province calling attention to the picturesque and beautiful spots open to the tourist.

YOUTHFUL MOTHER CARRIED DEAD BABY LONG DISTANCE

"He's Dead, Will You Bury Him?" Eighteen Year Old Mother Asked As She Walked into Undertaker's Establishment.

Blair, Neb., July 20.—Funeral services were held here today for the infant child of Mrs. Raemond T. Reyes, eighteen years of age, of Blair. The baby died Tuesday morning in an Omaha hospital and Mrs. Reyes, carrying the dead child in her arms, hitch-hiked from Omaha to Blair so that the child might be buried here. The distance is eighteen miles.

Arriving last night, Mrs. Reyes entered a mortuary. "He's dead," she said, pointing to the body of the child, "will you bury him?"

The undertaker buried the child without charge.

CONFERENCE COMMITTEES PREPARE REPORTS ON PRODUCTION CONTROL

Experts Studying Coffee, Tin and Sugar Situations Making Ready for Closing of Great Conference Next Week—United States Delegates Preparing to Leave Tomorrow—Reconvening of Parley Month or Two After Adjournment Being Discussed.

London, July 20.—The World Economic Conference, which began its last week today, speeded up the work of numerous committees.

Experts studying the coffee, tin and sugar situations issued a draft of reports outlining methods for continuing negotiations for a world organization to control the production and marketing of those products.

James Couzens, Canadian-born Senator of Michigan, and a member of the United States delegation, who is leaving for home today, told a London reporter that "we came over here with hopes for the Conference higher than were realized."

"When we got here," he added, "we discovered a business revival in progress in several important countries."

"Well, countries, like persons, are a little more conceited when they are on the upgrade. This made the nations a little more indifferent to the need of co-operation."

The coffee and sugar committees limited their reports to arranging that any suggestions or proposals should be submitted to the Secretary-General of the Conference for distribution to interested countries.

POST LEADING OLD RECORD BY FIFTEEN HOURS

Despite Series of Setbacks, Wiley Post Today Started on Pacific Leg of Round-the-World Journey with Good Lead.

Moscow, July 20.—Wiley Post began the long and arduous trans-Pacific hop of his world flight today when fifteen hours and forty minutes ahead of the record he wants to beat, he hopped off from Khabarovsk, Siberia, for Alaska.

The stocky, daring Oklahoman arrived at the eastern Siberian town at 8:45 a.m. today, Moscow Time, or 7:45 p.m., Wednesday, E.S.T. from Rukhlovo, seven hundred miles away, and was off again at 5:58 a.m. or 9:58 p.m., E.S.T., taking just two hours and thirteen minutes for refueling his plane, the Winnie Mae.

His haste eclipsed the speed of Communication facilities, and for several hours news of his take-off from Rukhlovo and arrival at the jumping-off place was lacking.

His relentless pace, even in the face of almost complete exhaustion, was occasioned by his intense desire to better the mark he made in 1931 with Harold Gatty over much the same route.

He and Gatty were 129 hours and thirty-four minutes out of New York when they started the trans-oceanic hop from Khabarovsk. Post alone had an elapsed time at that point of only 113 hours and forty-eight minutes. Post had seen his advantage whittled down to only four minutes because of rain and fog that he encountered on the trip from Moscow to Novosibirsk, Siberia, and later from Irkutsk to Rukhlovo, but he increased it by the fast flight to Khabarovsk and the fact he stayed there so short a time, whereas he and Gatty were grounded at Khabarovsk about a day.

Post left Irkutsk, 1,400 miles west of Khabarovsk, at 7 a.m., Moscow Time, and arrived at Rukhlovo at 2:32 p.m., Wednesday, Moscow Time or 6:32 a.m., E.S.T. Bad weather forced him down there—he had planned to continue to Blagoveshchensk—and his plane was slightly damaged before he arrived there.

He left Rukhlovo at 11:25 p.m. Wednesday, Moscow Time or 3:25 p.m., E.S.T., and landed at Khabarovsk at 3:45 a.m. today, Moscow Time, 7:45 p.m., Wednesday, E.S.T.

Reports conflicted as to his exact destination in Alaska, Nome or Fairbanks. It was considered most likely, however, that Fairbanks was his objective. His next stop will probably be at Edmonton, Alta.

Shortly before reaching Rukhlovo the Winnie Mae brushed some tree tops, because fog forced him to fly close to the ground, but nevertheless he made a perfect landing despite the danger. He was very tired on arrival there, but he decided to forego the much needed rest in favor of gaining time.

Anxiety was felt for his safety at that point for he was long overdue at Blagoveshchensk. He had announced a plan, however, of going beyond the later place if weather conditions cleared up.

MAY STAGE AIR RACE TO NEW YORK

Moscow, July 20.—There was a possibility today that Wiley Post and Jimmie Mattern may race from Alaska to New York by way of Edmonton, Alta., as a climax to their world flights.

Post took off from Khabarovsk, Siberia, for North America today in his plane, the Winnie Mae, and Mattern prepared to leave Anadyr, Siberia—where he was last on June 14 after taking off for Nome from Khabarovsk—in a Soviet rescue plane.

The former, an Oklahoman, halted in Khabarovsk only long enough to refuel after fighting bad weather and rain squalls and high winds

most of the way from Novosibirsk, Siberia, nearly 2,300 miles away. He took off at 5:58 a.m., Moscow time, 9:58 p.m. Wednesday, E.S.T., for the difficult overwater hops. He hoped to make Fairbanks, Alaska, nonstop.

He was very near exhaustion when he left.

No word had been received here this noon as to whether Mattern actually had left Anadyr, although dispatches yesterday stated the Soviet pilot Levansky intended to hop off with him today for Nome.

At that place Mattern hopes to get a new plane to replace the one destroyed when he was forced down on Anadyr Peninsula, Northern Siberia. In it he probably will exert every effort to beat Post into New York.

LIBERAL CHIEF ON A FIVE-WEEK VISIT TO WEST

Hon. Mackenzie King Left Ottawa Last Night on Journey which Will Carry Him into Three Prairie Provinces.

Ottawa, July 20.—Following an itinerary which provides for two weeks in his own constituency of Prince Albert, Rt. Hon. W. L. Mackenzie King, Dominion Liberal leader, left last night on a five-week visit to the West. His trip will carry him into the three Prairie provinces, and will include a visit to the constituency of Mackenzie, where a parliamentary vacancy now exists and a bye-election campaign is in progress. His itinerary also calls for a visit to the world grain exhibition at Regina on Tuesday, July 26th.

Mr. King will reach Winnipeg on Friday morning and spend the day there. On Saturday, July 22nd, he will motor to Rock Lake for an evening meeting. The following day he will leave for Brandon and spend the night there. On Monday he speaks at a picnic at Virden. Tuesday will be spent in Regina, after which Mr. King will visit Prince Albert for a fortnight. He will arrive there on Wednesday, July 26th. The subsequent itinerary will be announced later.

"Your daughter also has filed a complaint against you."

"Well, she ought to be shot, too."

Mrs. Conley was held for a hearing.

BONNER-POVEY "BEAN EATERS" SEEKING OFFICIAL RECOGNITION.

Another "battle of the century" was waged in the Sherbrooke "Gas Works" League last evening, and when the "Dow Girl" had marked in the last out in her score book the Bonner-Povey "Bean Eaters" were unanimous in their proposal to seek official recognition for their feats.

By a score of eighteen to four, the "doughnut" squad defeated the North Ward boys, an aggregation assembled by the astute Cuthbert Jones.

There are few people who have not seen examples of estates mismanaged, dissipated, lost to women and children who could ill afford to lose them.

In most cases such losses could be avoided if the proper Executors and Trustees had been in charge.

Have YOU given the question of naming an Executor for your Estate any thought?

ASKS PEACEFUL SETTLEMENT OF SPORT PROBLEM

Stanley Bruce, Australian Minister to London, Expresses Hope that Controversy Over "Body-Line" Bowling Will Be Settled Without Outside Interference.

London, July 20.—"Come face to face for God's sake. Don't exchange charges." This fervent advice regarding the controversy raging in English and Australian cricket circles over "body-line" bowling was offered by Stanley Bruce, Australian Minister to London, at the Marylebone Cricket Club's official reception and dinner to the English team which defeated Australia in the cricket tests last winter.

The function was held at Dorchester House and was attended by notables in the sporting world as well as representatives of the Dominions.

Lord Bruce hoped the controversy, which arose over the style of bowling adopted by Harold Larwood, the English fast bowler, would be settled by the Marylebone Cricket Club and Australian Board of Control without outside interference.

Tomorrow's Radio Programme

North Warders gave their opponents a close battle. In this frame, however, the sixty-five spectators saw the winners sail the game away, sandwiching ten runs between the first and third outs. The Jones aggregation showed obvious lack of experience, but keenly await a return game.

The importance attached to this "simon-pure" circuit may be gleaned from the fact that on the North Ward show-up appeared the names of such prominent athletes as Cuthbert Jones, Gordon Prideaux, Ken Flanders and Stew Dunbar.

Harry Kouri served up the benders for the winners with Bill McNab behind the plate, while "Pudgy" Rawlings and Stew Durier composed the North Ward battery.

Exhaustion stopped the contest after five innings. The lumbermen made fourteen home runs.

A Scotman, upon entering a saddler's, asked for a single spur. "What use is one spur?" asked the man. "Well," replied Sandy, "if I can get one side of the horse to go, the other will have to come with it."

MANY CANADIAN MARKSMEN GAIN SECOND STAGE

Eleven Canadians Advanced Through First Round in Classic King's Prize Event—Private Thompson Scored Forty-Nine Out of Possible Fifty in Daily Telegraph Competition.

Bisley Camp, England, July 20.—Lieut.-Commander D. S. Swanson, of the Royal Navy, today won the Prince of Wales prize of \$500, one of the richest individual events of the Imperial Rifle Association. He posted a score of sixty-nine out of seventy with the first stage of Bisley's classic King's Prize out of the way and eleven Canadians qualified for the second stage on Friday, the far-spreading Bisley ranges resumed something of their normal appearance.

In addition to the Prince of Wales match and its associated Northland prize, the principal individual event today was the Daily Telegraph match. This afternoon Canada sent a team of twelve men against those from other parts of the Empire in the shoot for the historic MacKinnon Challenge Cup, one of Bisley's two great team trophies.

The Maritimes and Quebec came to the fore among the Canadians. Lieut. D. O. White, of Sackville, N.B., posted a good total of sixty-six out of seventy in the Prince of Wales and Northland, while Pte. George A. Thompson, of Sherbrooke, Que., scored a fine forty-nine out of a possible fifty in the Daily Telegraph match. Final results in the Telegraph were delayed.

Buckingham Palace Communique Provides that Permission Must Be Obtained for Use of Royal Letters. London, July 20.—A gentle warning to authors and others who might be tempted to become too free with letters or papers addressed to King George "or any of His Majesty's predecessors" was contained today in a communique from Buckingham Palace.

The Daily Telegraph match at 300 yards carried first prize of a valuable silver cup and \$50. Canadian scoring in the two big individual events of the day, in order of merit in the Prince of Wales, was as follows: Tele. Prince Northland graph of Wales 300 yd 300 yd 600 yd Ttl.

PROMINENT FRENCH DAILY NEWSPAPER CHANGES HANDS

La Patrie, Strong Conservative Organ, Acquired by La Presse, Canada's Largest French Daily Newspaper.

Montreal, July 20.—Official announcement has been made of the acquisition by La Presse, the largest French daily newspaper on the North American Continent, of La Patrie, another widely-known Montreal paper which has long served the Conservative cause.

Rumor of the purchase of La Patrie by La Presse circulated in downtown Montreal yesterday, and confirmation of the deal was forthcoming from Oswald Mayrand, editor-in-chief of La Presse, who would not, however, divulge any of the details. It was learned, notwithstanding, that Oswald Mayrand would assume full control of La Patrie, which will, it is said, continue to appear daily on the street.

An experienced journalist, Mr. Mayrand entered La Presse in 1900 and, strangely enough, left there for a few years to act as news editor of La Patrie, to which he now returns.

LONG TERM ISSUE QUEBEC PROVINCE FOR \$10,350,000

Big Syndicate Offers Twenty-Five Year 4 1/4 Per Cent. Issue to Yield 4.40 Per Cent. Does Not Add to Debt, Being for Purpose of Repaying Treasury Bills.

Montreal, July 20.—Offering is being made to the public by a big syndicate of banking and investment houses headed by the Bank of Montreal and the Banque Canadienne Nationale of an issue of \$10,350,000 of 4 1/4 per cent. 25 year non-callable bonds of the Province of Quebec at a price of 97.75 to yield 4.40 per cent. This loan does not represent new borrowing on the part of the province, being for the purpose of repayment of short term treasury bills issued to provide the funds necessary to cover abnormal expenditures in relief of unemployment, authorized in previous years by the Legislature.

Despatches from Quebec during the past week indicated that general expectations had been that borrowing by the Government would be on a heavier scale than the \$10,350,000 decided upon, and the view is expressed that the comparative smallness of the loan must be due to certain definite and cheering factors, namely: reduction in expenditures on the part of the Government; secondly, an inflow of revenue on a scale better than anticipated; thirdly, that during the fiscal year which commenced July 1st, the Government believes that times will improve to the extent that revenues will become higher, and collections better.

The egg market held steady at 19-19 1-2c for extras, 15 to 15 1-2c for firsts, and 12 1-2c to 13c for seconds, for graded shipments in carlots or i.c.l. lots. Prices on small lots to retailers were quoted by jobbers as follows:

Cartons Loose. Special brands 26c 25c. Extras 24c 23c. Firsts 17c 16c. Seconds 14c 13c.

The potato market was firmer on old potatoes and lower on new potatoes. New Quebec stock was \$1.20 to \$1.40 per 80-lb. bags. Old Island Green Mountains were generally New Brunswick or Prince Edward early \$1.25 for 80-lb. bags or \$1.40 for 90-lb. bags.

Poultry prices are quoted by wholesale distributors here as follows: "A" "B". Milkfed chickens 31-32c 29-30c. Selected chickens 29-30c 27-28c. Fowls 17c 15c. Broilers 22-20c 18-22c. Turkeys 23c 20-21c.

THEIR LOST COMRADE.

"Mac" Bradford is gone. Printer, Reaconter and Comrade—a quiet, unassuming, methodical man—a thoroughgoing printing man whose atmosphere was of the old school, Malcolm Bradford came from a family of born journalists.

But "Mac" is gone, and his comrades of the Record office are mourning his departure. For twenty-four years Malcolm has been in charge of the battery of type-setting machines which so revolutionized the printing craft, as he learned it in his teens. He came to the Record in the early months of 1909, and at a recent dinner to the old employees "Mac" modestly confessed that he was beginning the last year of his quarter century with the paper.

Because of his previous connection with the Sherbrooke Gazette, the pioneer newspaper of this city, Mr. Bradford had charge of the corner of reminiscences of "Thirty Years Ago," and until he was taken ill a month ago he took a delight in delving into the old Record files in this office.

George H. Bradford, his father, succeeded to the paper founded by Robert Armour, Jr., scion of the then owner of the Montreal Gazette, and the paper was modelled on the typography and style of that journal. It afterwards came under the control of the Waltons, and the Bradford family. It was an historic paper and was finally absorbed by the Record, with "Mac" Bradford as the sole lineal connection.

He died at his post, standing by until the last day that he was able to walk, and not complaining of illness until he was unable to get out of his bed. To him his work at the office called for his first duty and his staunch loyalty.

Mr. Bradford was faithful and true, interested always in his work. His comrades in the office extend their sympathy to the members of the Bradford family.

AN OFFICE WHICH IS NOT INFALLIBLE.

Mistaking a figure 2 for a 7 in newspaper copy has made the Editor apologize for himself, his printer and his proofreader. The error was made in a column of figures on the travelling expenses of the Federal Government staff, which altogether totalled \$3,796,810, including \$414,848 for motor cars.

The salary list of the Government, including all its employees, was \$89,857,355. The exact number of employees would take a week to count; some one on the non-permanent staff, which is always helpful.

The item herewith objected to and cheerfully corrected read:

"The Civil Service Commission spent \$7,322 for travelling 'round, and not a cent for motor cars."

This letter is from W. Foran, secretary of the Commission which employs and promotes in the Civil Service:

The Editor Sherbrooke Record: Dear Sir,—According to a recent editorial which appeared in your paper under the caption "Toting Up One Year's Travelling Expenses," the statement is made that the travelling expenses of the Civil Service Commission were \$7,322.99 for the year 1932. Will you permit me to say that the Auditor-General's report shows that the travelling expenses of the Commission for that year amounted to \$2,322.15.

I trust that you will be willing to make this correction in your widely read paper.

We apologize for the error. On referring to page D 5 of the Auditor-General's report we find the item of \$2,322.15 for travelling expenses among the salary list of \$250,714, and the contingencies of \$34,969, or a grand total of \$305,684.

But what's five thousand between friends?

DOWN BY THE SEA, AND THE SEE-SEE-EFFS.

Going to the country in August Premier Harrington will have the sympathy of all the vacationists who also "go to the country" in August.

Increasing the heat of the month with the heat of a political campaign will find many onlookers who fail to divine the difference between the "ins" and the "outs."

Whilst two other Premiers are shivering by the water, afraid to plunge—Henry, of Ontario, and Tolmie, of British Columbia—the general public will look upon the results as a trial test of the Federal Governments-standing in the provinces. The Nova Scotia elections are but a month away, and the fate of the Conservative Government, last returned by a majority of three, will be looked forward to with interest.

Restive under taxation, particularly the irritat-

ing taxes such as those on sugar and those on meats, the people are likely to turn on a man they trust and select one they do not know, or perhaps know too well.

The weakness of the Hon. Mackenzie King as a leader is the strength and hope of the merger of the three-four-five parties who believe in Common Wealth, a party which is next door to making a man share all he has with the who hath not.

SOME PROVINCIAL TAXES.

We have no present record of what was paid for meal taxes by the millions who lunch away from home at restaurants and hotels, but there are many other taxes, some of them just as irritating.

Take these taxes collected last year which are a considerable sum paid for the citizens:

Motorists paid for licenses \$5,275,206
Motorists paid for gasoline taxes 5,107,379
Those whom we mourn as dead had subtracted from their estates 3,766,684
Law stamps cost the nation \$24,691
Liquor profits brought 7,200,000
Alcoholic liquor Act 2,000,000

These are sums which, thirty years ago, would have paid the whole cost of government within the province, and left a handsome surplus. Yet in 1932 we had a deficit.

They form a small part of the story we tell from day to day in the hope that some courageous economists will face the issue of saving Canadians from the rapacious tax collectors.

This can only be done when each and every taxpayer will take pains to acquaint themselves with the details of every dollar spent in municipal, provincial and federal government.

We can start with the small things which, added together, mount into the millions.

Why should we spend \$41,609 in a School of Fine Arts in Quebec, and another \$49,376 in a similar school in Montreal? That is a luxury which those who pursue such studies should pay the cost of with fees.

Arts and Trades Schools cost another \$38,333. Night Schools and Dress Cutting Schools cost \$74,000.

There are all sorts of other fancy schools, for which the total grants mount up to \$4,174,766, and most of which expenditures should be left to private schools maintained by the parents of the pupils. These are aside from the accepted forms of elementary education in public schools maintained by the municipalities.

There are grants to cheese factories; grants to dairy product factories; grants to butter factories; to aviculture; to the purchase of rams; to agronomists and to their secretaries, \$479,132. There are grants for the purchase of tomato plants; for the purchase of potatoes and potato diggers; grants to canning factories, yea, even for pulverizers.

Is it fair that the thrifty farmer should be taxed for the thriftless? Was it ever intended in the erection of government by the people, for the people, that we should inculcate paternalism and breed pauperism in both business and industry? God Save Canada!

EDITOR'S NOTE BOOK.

Cookshire is going to give a special prize this year for the best pumpkin pie at their county Fair. This epitomizes the good old days when home-cooking of pastry was an art and a pleasure. Should any of the County Fairs offer a special prize for butter-milk, three days after the churning we can cheerfully recommend as contestants these three: Mrs. Ben Grimes, of the Beckett Road, Sherbrooke; Mrs. Henry Kidd, of Dudswell; Mrs. Frank Thompson, of Glen Iver farm. We have tasted, and can aver that these three ladies can pass any test in butter-making, and in that luscious by-product, buttermilk. For haying time it is the great thirst-satisfier. Always delicious—like mother used to make.

William Pugliese began his campaign to enter the Laurier administration by denouncing his friend Blair for taking an attitude in the Grand Trunk Pacific, which was finally accepted as the right one. "The St. John Telegraph, threatened with a loss of \$15,000 in government patronage, still boldly upheld Mr. Blair. If Mr. Emmerson is selected, one writer said, "St. John constituency is out on the shift."

Ted Bullock.

Wesley Bradley, an up-and-coming college man in these parts, writes to chide me for a bloomer which appeared in our valuable journal a few days ago.

"To say that Louis XVI built the Bastille," he points out, "is as sensible as to say that George III built the Tower of London."

"Of course," Wes, continues tell you, "you don't need me to tell you that the Bastille was used principally for political prisoners during the reign of Louis XIV, that it was completed in 1370 by Charles V and commenced twelve years later, that at the time of the Revolution there was no garrison stationed there to speak of, and that when the Revolutionaries finally did break in they found only two or three miserable prisoners who shrieked and screamed when they were carried off to 'liberte, fraternite et egalite.'"

I felt very virtuous when I read his letter—though I had not the faintest idea when the Bastille was built—because I happened not to have written the article you printed on the French national holiday.

But my vanity got a sad blow when, five minutes later, I received a note from Mary Elizabeth Hays, of this city, asking why, in my column of last Saturday, I called Tom Sawyer's Aunt Polly, "Aunt Sally."

Yet even the lofty Wes. Bradley has his off moments. In the letter he sends me, he spells "egalite," "equalite."

So the only person who appears to come out of this mess with banners flying is Mary Elizabeth Hays.

If Alfred DesRochers, critical La Tribune scholar, tells me I have erred in spelling "liberte, fraternite, egalite" without acute accents on the final "e," I shall point out to him that it is no fault of mine the English-language type founts we use in the Record's linotypes are not equipped with accents.

The wonder in a newspaper office is not that we make mistakes, but that we make so few.

When, half an hour or so before deadline, the city editor decides to remember that the day is an anniversary of some kind or other, and shoots across the editorial rooms to an already-harassed reporter that he wants half a column in ten minutes on such-and-such a subject, "and you'd better snap into it," the poor devil of a reporter can scarcely be expected to go through a reference library before he begins to warm up his keyboard.

He slaps down the first things that pop into his head about the holiday in question, and he hopes for the best.

These "feature" stories we are all expected to turn out from time to time—almost invariably on short notice—remind me of examination papers, only they are far worse.

A theme is chucked at you, and you must grind out an essay on it whether you know the subject or not.

You may pass. But you may fail. If you pass, you never know it. If you fail, you hear about it in short order.

The newspaper man gets no medals, no certificates and no scholarships when he does a good piece of work. But he gets fits when he does a bad one.

There is only one of him to make blunders. But there are thousands of subscribers to spot those blunders. It's a great life.

Fortunately most of us have learned to be rather happy-go-lucky about the omniscience the general public expects of us. And so we think getting caught once in a while is a good lark.

I'd rather be allowed to expose my ignorance in this department day after day, for a darned small cash return, than live at a good salary in mute, useful and inglorious anonymity.

Newspaper men are always grouching about their work.

But in their hearts they love the excitement, the variety, the influence and the spot-light they can find nowhere on earth as easily as in their business.

All humans, even newspaper men, enjoy seeing themselves in print.

It is like having your picture taken every day in the week, and being paid for it.

NO TIME FOR NIGHT LIFE IN CHINA

Peiping, China, July 20.—No Chinese can afford to indulge in the pleasure of dancing while China faces one of the greatest crises in the history, Yuan Ling, Peiping's new mayor, said today in an order closing dance halls and cabarets, both foreign and Chinese, within the city.

Washington, July 20.—Secretary of Labor Frances Perkins today estimated that more than 500,000 persons found employment in the United States during June.

These figures cover only the manufacturing and sixteen non-manufacturing industries, and do not take into consideration agriculture, railroads and other lines.

Press Comment

PEOPLE PLACE A BAN ON ADVERTISERS WHO MAR SCENERY
Halifax Herald.

The Ottawa Journal is authority for the statement that in three years 10,000 "objectionable and unauthorized advertising signs" have been removed from the highways in the Province of Ontario.

"We in British Columbia," the Vancouver Province comments, "boast about our scenery. We have a right, to what a much better right we would have if we only did what they do in Ontario."

The elimination of what the Vancouver paper describes as the "indiscriminate and obnoxious use of advertising signs and billboards" is sought in all provinces of the Dominion, and, indeed, in all countries today; and a great deal of gratifying progress has been made in this direction here in this Province and elsewhere. It is for this reason that so many view with concern the action of the Canadian National Railway authorities in leasing space for advertising signs on railway bridges. The whole trend of public thought and desire is in the other direction.

A WORD TO THE WISE.

Halifax Herald.

An analysis of Canadian business conditions, just published by the Alexander Hamilton Institute, reveals that—

Employment in Canada showed notable expansion during May. While the gains were less than normal for the period from May to June for all Canadian industry, the increases in the number of factory employees in the manufacturing industries exceeded those reported in all but two of the thirteen years for which records exist.

The declaration just made by Dan & Bradstreet is worth repeating here: "It no longer is an opinion that business is on the upgrade. It is a fact."

Every report on business issued from any source on this continent is rapidly the same story. Stock and commodity prices are advancing rapidly, and retail prices are certain very soon to follow them upward.

And the wise retail buyer will "get in on the ground floor" now.

NO HARM IN EXPOSING THE HUMAN BODY. JUDGE RULES

"Evil to Whom Evil Thinks, It Is All Old Stuff to Me," Declares Judge Joseph B. Davis, of Chicago.

Chicago, July 20.—Nudists today found support in a ruling by Superior Judge B. Davis, who settled the question so far as a certain exhibit concerned with the observation that "there is no harm and certainly no injury to public morals when the human body is exposed."

The judge dismissed a case brought in an effort to prove that certain performances at the Century of Progress were "degrading to public morals."

Said Judge Davis: "Some people probably would want to put pants on a horse. Why, I hear that even the figures in the county building aren't immune and that some day some one is likely to climb up to drupe them."

"There is no harm in exposing the human body. It is a beautiful work of nature. Evil to whom evil thinks. It's all old stuff to me."

The plaintiff's lawyer perspired, "thumb" law books and cited laws. He outlined that at certain exhibits a girl danced only with two fans to distinguish her from mother Eve. Elsewhere, he added, persons dropped in to sketch models showing "themselves without benefit of coverage." And he outlined other causes to uphold the contention of his client, Mary Belle Spencer, another attorney.

When he finished, the judge started.

RECOVERY ACT PROMISES AID TO NEWSPRINT TRADE

Col. John H. Price Sees Era of Continued Price Cutting Unless Industry Files Code Under National Recovery Act.

Montreal, July 20.—Lower newspaper prices will probably prevail unless their danger is removed by the United States' national Industrial Recovery Act, Col. J. H. Price, president of Price Brothers and Company, Limited, and former president of the Newspaper Institute of Canada, declared here yesterday.

"The industry's outlook was encouraging," he declared, "but lower prices would probably cause a price-cutting war. It is pointed out that although the official Canadian newspaper price was \$40 a ton in United States funds, delivered in New York, some United States manufacturers in Canada sold as low as \$31 a ton.

A royal commission to investigate the industry was not necessary, he stated. The Recovery Act in the United States was the principal problem confronting the industry.

She's looking for someone to buy it from her and market it because it takes all her time to care for her two-year-old sister, Marie, she wrote a newspaper. Meanwhile she's withholding the details.

MYRON HUNTING FATALLY HURT THIS MORNING

Sixty-Six Year Old Sherbrooke Resident Passed Away in Sherbrooke Hospital Following Accident at His Home.

The death of Myron Hunting, sixty-six years old, as the result of a thirty-foot fall from a ladder while engaged in repairing the roof of his home on Wolfe street, occurred in the Sherbrooke Hospital at ten o'clock this morning.

Mr. Hunting, who moved to Sherbrooke twenty-eight years ago from Huntingville, possessed a large number of friends and acquaintances who were shocked to learn of his tragic death. He was an employee of the Customs Office in Sherbrooke, a position he had capably filled for many years, and had planned to retire within a short time. He was also past president of the Sherbrooke Snowshoe Club, in which organization he took a keen interest for many years, and was known as a man of sterling character. Mr. Hunting enjoyed fishing and camping, these two pastimes being his favorite sports.

He was repairing the roof of his residence this morning and had climbed on a ladder when, in some manner, he lost his balance and fell to the ground below, fracturing his left leg and dislocating his left shoulder. He was removed to the Sherbrooke Hospital by Lord's ambulance, but the shock proved too much for his advanced years and he succumbed to his injuries.

Mr. Hunting leaves his wife, nee May Glenday, and a son, Clarence, of Lennoxville, together with two brothers residing in Huntingville, to mourn his loss.

The bride was in white, with long flowing veil, and was held in place by a large silver buckle.—Local paper.

The bridegroom was chained to the spot by fear.

The previous meeting was entertained by Mrs. Truman Dawson, when Mrs. W. J. Lane won the bridge prize.

Messrs. Herb Fisher and Bob Doak, of Lennoxville, sailed for Dublin, Ireland, from Montreal, on the tramp steamer Fanad Head. CONDITIONS IN THIS DISTRICT ARE IMPROVING

Many Industrial Concerns Working Full Time and with Complete Staffs in an Effort to Keep Pace with Heavy Orders—Textile Mills Especially Active.

With many industrial concerns—especially the textile mills—working full time and with complete staffs in an effort to keep pace with the heavy orders that have been coming in during the past few weeks, a marked improvement in business conditions has taken place in Sherbrooke and throughout the Eastern Townships. This upward trend, apart from affording employment to a large number, has inspired confidence and optimism that conditions are slowly but surely returning to normal.

A survey of local business plants today indicated this revival in affairs, while the Dominion Textile mill at Magog and the Bruck Silk mill at Cowansville are reported to be working at maximum production, having taken on numerous additional hands during the past few weeks.

A vast improvement has been noted at the Sherbrooke Cotton Mills during the past month, and this concern alone today is employing two hundred more hands than a month ago. The Drummondville Cotton Company is also working full strength in order to fill the numerous orders on hand.

"We are now working full time," Walter Mutchler, general manager of the Julius Kayser Company, stated to the Record. "Three months ago we were working only half time, but a rapid pick-up in business, as far as we are concerned, has taken place. We certainly cannot complain. We are receiving all the orders that we can handle, and if things can continue like this we will be very satisfied."

An especially active concern is the Aeroxon Fly Catching Company on Council street, where 350 people are working two shifts a day from six o'clock in the morning until nine o'clock at night. Officials stated that the business to date has been fully up to expectations, and that prospects for next year looked very good. "It is difficult to say if there is any improvement, however, for we opened up only a few months ago and did not feel the slump that was evident in other lines," the Record was told.

Many of the employees at the Aeroxon Company, especially among the women, take home work that is working two shifts a day from six o'clock in the morning until nine o'clock at night. "Officials stated that the business to date has been fully up to expectations, and that prospects for next year looked very good. "It is difficult to say if there is any improvement, however, for we opened up only a few months ago and did not feel the slump that was evident in other lines," the Record was told.

J. R. McGregor, superintendent of the city electric department, stated that the first noticeable increase in electric power consumption occurred in the month of June, amounting to about \$500, this increase being divided between factories and private houses. The present month is also registering an increase, and Mr. McGregor is of the opinion that "things are moving upward," at least as far as his department is concerned.

Optimism—not the false optimism that has been expressed so many times during the past three years, unwarranted and never realized; but optimism that is based, apparently, on past experiences, which seems built upon a strong foundation—is evident in almost all directions. Of course, there are exceptions; but these are few.

A. A. Munster, head of the Canadian Silk Products, stated: "We are working twenty-four hours a day in shifts, and have employed about fifty more hands than we had a month ago. We are at maximum production. In fact, the supply on hand has not been sufficient to meet the demand, but we are taking care of all orders. We have always been running fairly well, but the past month has witnessed a rush that has not been experienced for quite a long period."

While the bulk of business at the Ingersoll Rand Company has not improved materially, P. H. Skelton, superintendent, declared that the future looked promising. "The general sentiment is much better, and the next three months should witness an improvement in our line of activity," he stated.

The Paton Manufacturing Company, according to its general manager, J. W. Booth, is working at full capacity, the work being spread out

CLAIM MANITOBA FISHING INDUSTRY SUFFERS ABUSE

Witness Claims United States Dealers Have Industry at Their Mercy.

Winnipeg, July 20.—United States dealers have the Manitoba fishing industry at their mercy, Paul Reykdal, independent fish dealer, declared yesterday when he appeared before the special committee appointed by the Manitoba Government to investigate the fish industry in the province.

Frequently, he said, American dealers took advantage of Manitoba distributors by cutting prices after shipments had been made, particularly where there were sudden fluctuations in the market.

to enable as much employment as possible. "An improvement has taken place during the past three months, but especially during the past two months," Mr. Booth said to the Record. "I believe that we are returning to normal times, and it can be safely said that general conditions are much better. We are doing very well and only hope that things continue that way."

"We cannot complain," stated Miller Hall, of the Hall Machinery Company. "Business is pretty good. We have been running full time, with a full staff, since January." Prospects for the future he believed to be "fair." Conditions generally, he said, appeared to be improving.

A similar opinion was expressed by K. E. Barrett, of the E. and T. Fairbanks Company. "I would say there are signs of improvement. An increase in business has been noticed in the past four weeks and we have been working full time on our new oil burner line."

FEWER APPLICANTS FOR WORK NOTED IN ONTARIO

Steady Improvement in Industrial Conditions Reported by Employment Bureau Superintendent.

Toronto, July 20.—"There has been a considerable reduction in the applicants here during the past few weeks. Many of the men have been recalled to their old jobs," said J. F. Marsh, superintendent of the local government employment service today. "Conditions have a long way to go yet before the industrial barometer registers normal weather," he said, "but there has been a pleasing trend in the last eight weeks."

MAC BRADFORD ENDED EARTHLY CAREER TODAY

Sherbrooke Record's "Senior" Type-Setter Passed On Early This Morning—Funeral Will Be Held Saturday Afternoon. No longer will a linotype machine in the Record Company respond to the caressing touch of the expert fingers which turned out galleys of type daily during the last quarter of a century. In the early hours of this morning death removed "Mac" Bradford from his earthly labours, writing "30" to the career of one of the Record's most faithful and efficient type-setters. His death, though not entirely unexpected, brought in its wake a pall of sorrow and removed a link from the chain connecting the cradle days of the Record with its present high standing. About a month ago "Mac" Bradford was first missed from his daily work. The printing department seemed at a loss, missing this familiar figure who entered on his career twenty-four years ago this month. His companions, however, lived in the hope that the rest he was taking at North Hatley would prove beneficial to his health. But this morning came the sad news that "Mac" Bradford had passed on. Malcolm H. Bradford was a Sherbrooke boy. Born in this city fifty-five years ago, he was the oldest member of the family of George Bradford and his wife, Ellen Newell. Educated at the old Sherbrooke Academy, "Mac" as he was affectionately known to his host of friends, entered in 1909 the employ of the Record. A quiet and retiring disposition, "Mac" made many friends and retained the esteem of his fellow employees and all with whom he came in contact. Through the column, "Thirty Years Ago," he conducted until illness prevented him, "Mac" linked events of the early part of the century with the present, bringing back to the minds of the older citizens interesting anecdotes which had all been forgotten. Never forward in offering advice, "Mac" nevertheless could give sage counsel to the younger generation which followed in the footsteps of his co-workers who filled the vacancies created by the deaths of several typesetters who started with the Record at the same time as he. The deceased will be sadly missed not only in his family circle, but also among every division of the Record staff. Beside his multitude of friends and acquaintances, "Mac" leaves three sisters, Emily, Mrs. Clive Dobell, and the Misses Adelaide and Edith Bradford, all of Sherbrooke. The remains will be removed from North Hatley to the chapel of the Funeral Home until Saturday morning, when they will be taken to his late residence, 39 Magog street, where the funeral will be held at two o'clock Saturday afternoon. Service will be conducted at St. Peter's Church and friends will pay their final tribute of respect when the casket is lowered into a grave in the Prospect street cemetery.

CENSUS WILL BE MADE OF TOURIST CARS IN QUEBEC

Highways Department Plans to Secure Complete Information Regarding Number of Tourists and Duration of Their Visits. Quebec, July 20.—During the month of August the highways department will take a census of all tourist automobiles entering the Province of Quebec. A similar census has been taken in previous years, but last year it was interrupted, and it has been decided to resume the former practice. During the month observers will be on duty at all highway points of entry to Quebec and in addition to counting the number of cars entering a tabulation will be made of the duration of the visits of the tourists.

WINDSOR MILLS PARISH PRIEST LAID TO REST

His Lordship the Bishop of Sherbrooke Officiated at Solemn Mass of Requiem in St. Philip's Church, which was Attended by an Unusually Large Gathering of Sorrowing Friends. Windsor Mills, July 20.—Race and creed knew no distinction when the citizens of Windsor and sorrowing friends from surrounding places filled St. Philip's Roman Catholic Church here on Tuesday morning to pay their final respects to Rev. Canon J. E. Hebert, parish priest of Windsor, whose death has caused universal sorrow to the people of Windsor, among whom he had ministered for the past eight years. The solemn mass of requiem was sung by His Lordship Bishop A. O. Gagnon, Lord Bishop of Sherbrooke, who was assisted by Mgr. J. E. M. Vincent, Vicar-General of the Sherbrooke diocese, Mgr. O. Z. Letendre, parish priest of St. Michael's Cathedral, Sherbrooke, and Rev. Canon J. S. Larocque, of Bromptonville, as honorary deacons, and by Rev. Fathers N. Gohere, of St. Charles Seminary, Sherbrooke, and Albert Dionne, former priest at Windsor, as deacon and sub-deacon. Other priests taking part in the service were Rev. Fathers Irene Pinard, Damien Lessard and Origene Vel. Masses were also said at side altars by Rev. Fathers Marcotte, one of the sons Windsor has given to the priesthood, now of St. Charles Seminary, and by Rev. Father J. E. De Blois, of Flin-Flon, Manitoba, also formerly of Windsor. Serving at these masses were Dr. Raoul Morrissette and Horridas Morin. The pall-bearers were P. B. Lemire, Phyllis Milette, J. W. Quinn, Dr. J. A. McCabe, Benjamin Brady and Honorius Langlois. The bearers were Alphonse Milette, Joseph Duval, Charles Walsh, David McCarthy, Achille Cote and Philippe Paquet. Impressive music was rendered by the church choir, which was augmented by several outside singers. Mrs. Auguste Provencher was at the organ. Yon's mass was rendered under the direction of Notary J. A. Lagasse, of Windsor, and at the offertory "Domine Jesu Christe" was rendered, the soloists being Notary Lagasse, Prof. Oscar Gauthier, Albert Terrier, Philippe Lagasse, Eugene Menard and C. E. Bachand. At the conclusion of the mass J. A. Lagasse and Albert Terrier rendered Faure's "Crucifix" and C. E. Bachand sang "Jesu Salvator Mundi". Among the mourners present at the funeral were Mrs. J. O. Ledoux, sister of the deceased, Horace Hebert, brother and Mrs. Hebert, Mr. and Mrs. C. Mignault, Mr. and Mrs. Arthur Pelletier, all of Sherbrooke; Miss Rose Alba Hebert, Windsor Mills; Gaston Ledoux, Miss Juliette Ledoux, Miss Gabrielle Ledoux, Mr. and Mrs. Wilfrid Hebert, and Armand Ledoux, also of Sherbrooke; Gaston and Robert Ledoux, Montreal; Jean and Paul Mignault, Sherbrooke; Mr. and Mrs. Dupont, Montreal; Mr. and Mrs. Vermette, Shawinigan; Mr. and Mrs. L. Bourque, Miss Bernadette Archambault, all of Sherbrooke. Among those present at the funeral were Hon. Jacob Nicol, Dr. F. Lafleche, M.P., S. E. Desmarais, M.P.P., Mayor Albert Sykes, members of the Windsor town Council, Dr. C. H. Tanner, Mayor Coderre and members of the council of the

MARRIAGES

STARK—MORRISON. Scotstown, July 20.—St. Paul's Presbyterian Church was the scene of a pretty wedding on Saturday afternoon, July 8, when Miss Anna Marion Morrison became the bride of Ted Stark. The ceremony was performed by the pastor, Rev. George Murray, B.D. Entering the church with her brother, Murdo Morrison, the bride looked very attractive being gowned in white silk with white hat and accessories to match and carrying a bridal bouquet. Miss Anna MacLeod, the bridesmaid, was dressed in blue and carried flowers. Mr. Victor Magnusson supported the groom. Miss Jean MacKenzie was the organist. After the ceremony a reception was held at the home of the bride. The happy couple left for Gull Lake, Sask., in the evening. Distance. The bride is the only daughter of Mr. and Mrs. A. D. Morrison, of Scotstown, where she has always made her home, while the groom's home is at Gull Lake, Sask. He had spent the past two years in this town. The bride's aunt and uncle, Mr. and Mrs. William Foote, of Sherbrooke, were among those from out of town attending the wedding.

QUEBEC FINDS MANY WILLING TO LEND MONEY

High Rate of 96.31 for Twenty-Five Year 4 1/4 Per Cent. Issue—Better Than Previous Issue. Quebec, July 20.—Members of the legislature who have been insistently advocating that the Provincial Government do not hesitate to borrow for public works in relief of unemployment, and who have been talking of the fine credit of the province, receive backing for their opinions in the results of the Quebec loan tenders for which were received yesterday. The province has done better than was the case in its loan of January 11th last, still better than the previous loan of November, 1931, and only slightly less favorable than a loan issued earlier in 1931. Yesterday's loan \$10,350,000 issued at a rate of 4 1/2 per cent. for a term of 25 years brought 96.31 from the all-Canadian syndicate which subscribed it, which means a cost for the money of 4.497 per cent. The last loan issued previous to this was on January 11, 1933, for \$9,000,000 of 4 1/2 per cent., for 30 years, and brought 97.119, making the cost of the money 4.67 per cent. Hon. R. F. Stockwell, Provincial Treasurer, referred in his budget speech last session to the loan issued November 1st, 1931, one for \$7,750,000, 5 per cent., for which 99 and accrued interest had been obtained, but this was a loan for five years only and consequently does not allow of accurate comparison with the subsequent two long-term loans. On May 1st, 1931, the province also borrowed \$7,500,000 for thirty years. This loan bore interest at 4 1/2 per cent., the same rate as that of yesterday, and brought a price even better than did yesterday's loan, the cost to the province being 4.36 per cent. This May 1st, 1931, loan was the first long term loan issued by the province since the prosperous days of 1928, and was the lowest priced money secured by any provincial or federal government since 1928. The four loans mentioned were all issued in the depression period, and the curve in the cost of money to the province tells its own story.

ALLOWANCE IS MADE IN NEW FIREARMS LAW

British Subjects Residing in Quebec Province Need No License to Own Revolvers as Means of Self Defence, Provided They Do Not Take Weapons Outside Their Homes. No license is required by British subjects residing in the Province of Quebec to keep revolvers in their homes as a means of self-defence provided that they do not take these weapons outside of their homes, it has been pointed out since the new law governing the possession of firearms came into effect. Such British subjects, however, have no right to carry these weapons on their persons or exhibit them on the streets without first obtaining the necessary permit. Since the amendment of the Criminal Code of Canada passed at the last session of the Federal Parliament at Ottawa which specified the automatic cancellation of revolver permits on June 15 last, and the centralization of the control of issuing licenses to carry firearms, the provincial police have received upwards of 2,000 applications for such permits from all over the province. While some permits have been granted, detectives are investigating the other applications in order to learn whether there is sufficient reason for the granting of such permits. Before any permit is issued the application is thoroughly investigated. So far permits have been issued to paymasters of various firms, bank cashiers and messengers, and all those who usually carry valuables in connection with their work. All those applying for a permit to carry a revolver have to specify reasons which are checked up by detectives and then the provincial police chief decides whether there are sufficient grounds to issue a permit. The centralization of the control of issuing permits to carry revolvers will permit the authorities to keep a close check over the sale and licence of firearms. Since the amendment of the Criminal Code of Canada the power of issuing permits for the carrying of revolvers was placed in the hands of the Attorneys-General of each province in Canada. The Attorneys-General, however, have delegated their power to the chiefs of the provincial police or to the divisional heads of the Royal Canadian Mounted Police in prov-

Forty-Five Year Old Man and Wife in Michigan Jail Today Following Fight Against Poverty. Fennville, Mich., July 20.—A forty-five year old farmer and his wife who told sheriff's deputies they were "nearly starved all the time" were in jail today after wounding three men in a daring daylight hold-up of the old state bank here. The \$2,000 cash they obtained was recovered. The pair, Edward Austin and his wife, Grace, also forty-five, awaiting arraignment, which was held up pending the outcome of injuries to the three men. Austin also suffered wounds which physicians said are not serious.

WIND CAUSED CONSIDERABLE DAMAGE

Medicine Hat, Alta., July 20.—Every residential street of this city today was littered with tree branches and uprooted shrubs in the wake of a wind of almost cyclonic fury which laid a number of fences flat and damaged roofs late last night. In places where there are no provincial police. The permits which have been issued during the past will not be automatically renewed. Those in possession of such permits have to communicate with the head of the provincial police and there specify his reasons why he wants the permit renewed. If it is found that the reason given is not sufficient, the permit will not be granted and the holder of the cancelled permit is liable to arrest and five years imprisonment if he is arrested and found in possession of a revolver. Those selling, lending or giving away a revolver without a permit from either the provincial or federal police, are liable to a maximum penalty of a fine of \$100 and costs, and three months imprisonment.

WILL INVESTIGATE VALUE OF ARBUCKLE'S ESTATE

Difference of Opinion Between Former Film Comedian's Wife and Brother Over Extent of His Wealth.

Fresno, Calif., July 20.—Asserting the announced value of the estate of the late Roscoe "Fatty" Arbuckle, former film comedian, is so low as to be certainly incorrect, B. W. Gearhart, Fresno attorney, announced today he had been retained by Arbuckle's brother, Harry Arbuckle, of Fresno, to attack the document.

Mrs. Arbuckle announced after her husband's death the estate is valued at only \$2,000.

"We believe," Gearhart said, "that Arbuckle's estate has assets consisting chiefly of a large amount of unregistered government bonds and that it is worth far in excess of the \$2,000 announced."

POLICE CALLED TO QUELL FIGHT AT PITTSBURGH

Disputed Decision Caused Argument Between Giants and Pirates which Stopped Just Short of Riot—Yankees and Senators Back on Even Terms for Leadership.

New York, July 20.—New York's two leading ball clubs, the Giants and the Yankees, both are having red battles on their hands, but in yesterday's round at least they were of entirely different varieties...

While the Yanks were being shoved back into a tie with Washington's Senators through the medium of an eight to four defeat at the hands of the Chicago White Sox, and the Senators' eight to seven victory over the St. Louis Browns, the Giants very nearly had to go in for fistfights to get an even break with the Pittsburgh Pirates and hold their three and a half game lead over the idle Chicago Cubs...

A disputed decision in the fourth inning of the opener, when even the umpires failed to agree, caused an argument that just stopped short of a riot and delayed the game fifteen minutes...

Both teams and then the fans joined in the dispute and the police were kept busy for a while restraining the crowd of 22,000...

The Cleveland Indians had to go thirteen innings to beat Boston's Red Sox by eight to seven, scoring the winning run on an error by Bob Seeds at first base...

The defeat put the Dodgers a point behind the Phillies, who, with St. Louis, Boston and Chicago Nationals, had an open date.

YESTERDAY'S STARS. Marvin Owen, Tigers—Led attack on the Athletics with seven hits in double-header. Larry French, Pirates, and Carl Hubbell, Giants...

Hubbell, Giants — Their pitching featured even break of a twin bill. Buddy Myer, Senators—Knocked in four runs against the Browns with triple and two singles. Harley Boss, Indians—Rapped Boston pitching for double and two singles. Chick Hefey, Reds — Walloped homer and single against the Dodgers. Red Kress, White Sox—Hit triple with bases full in rally to beat the Yankees.
