World News In Brief

New York, Oct. 26.—(P)—Stoppage of milk deliveries to 11,000,000 consumers in the metropolitan New York area was averted today by tentative settlement of a threatened strike of 15,000 milk deliverers and handlers. The settlement—reached after 60 hours of almost continuous negotiations and mediation—requires ratification by five locals of the International Brotherhood of Teamsters (A.F.L.).

Tokyo, Oct. 26.—(P)—Slight earth tremors were felt in most of Japan last night. There were no reports of extensive damage or of any casualties. Epicentre of the shocks was placed by the central meteorological observatory as near Kashimadanda in Ibaragi prefecture, about 70 miles north of Tokyo.

Rome, Oct. 26.—(P)—Dispatches from southern Italy said hundreds of land-hungry peasants "invaded" farm land yesterday in Calabria and clashed with police. Four police men were hurt. Sporadic "land invasions", usually Communist-led, have occurred in many parts of Italy since the war.

Port Deposit, Md., Oct. 26.—(P)—A private plane plummeted out of an overcast sky and crashed into the side of a hill last night, killing four persons, including H. L. Straus, a wealthy New Yorker.

The plane was owned by the American Totalizer Company, of which Straus was president.

Bloemfontein, South Africa, Oct. 26.—(Reuters)—Prime Minister Daniel Malan disclosed today that South Africa will make a renewed bid for the incorporation of British protectorates in Africa into the union.

He said he was "waiting for an appropriate moment to make representations to the British authorities."

British protectorates in Africa are Bechuanaland, Basutoland and Swaziland.

London, Oct. 26.—(AP)—Peter Beatty, 39, millionaire race horse owner and son of the late Earl Beatty, plunged to his death today from a sixth-floor window of the fashionable Ritz hotel on Piccadilly.

Beatty's mother was the former Ethel Field, daughter of Marshall Field, Sr., the Chicago department store magnate. She left him \$1,000,000 when she died in 1932.

Oshawa, Ont., Oct. 26.—(CP)—Upwards of 3,000 employees of the general motors factory here left work at 11 A. M. today to hold a mass meeting at noon to consider company dismissals of four employees who had caused a similar interruption of work yesterday.

The walk-out followed a meeting between company executives and officials of the union local of the United Auto Workers (C.I.O.) at which no agreement was reached.

Olds reminded newspaper men that neither U. S. Steel nor the striking C. I. O. steelworkers union has made a direct move to resume negotiations since the strike began October 1.

"It seems to me," Olds said, "the sensible thing would be to sit down and see how far we could get toward agreeing on a pension program. We might even reach some common ground on contributory and non-contributory features."

He implied that the amount of proposed pension and insurance might provide a basis for bargaining. That issue has never come up, he said, because of disagreement over another matter.

U. S. Steel has agreed to install a pension-insurance plan for workers costing up to 10 cents an hour, but insists the employees contribute something too. Philip Murray, head of the C.I.O., and the striking union, has insisted on a Presidential board's recommend-

Britain And Continent Are Battered By October Gale; Death Toll Is At Least 14

Mrs. Pitre Returns To Court Today

Quebec, Oct. 26.—(P)—Mrs. Arthur Pitre, the buxom Quebec housewife who provided police with clues to the alleged parcel-bomb explosion of a plane in mid-air Sept. 9th, was scheduled to appear in court today for voluntary statement on a charge of attempted suicide.

The charge followed police investigation into the possible sabotage of the Canadian Pacific Airlines plane which exploded and crashed into a rocky promontory at Sault au Cochon, Que., 40 miles east of here, with loss of 23 lives.

Mrs. Pitre appeared for preliminary hearing last week and was released on \$500 bond. It was not immediately known if witnesses would be called at today's court session.

The 41-year-old woman—a friend of jeweler J. Albert Guay, charged with the murder of his wife who died in the crash—was found by police in a Quebec hospital in a dazed condition. She said Guay had told her to commit suicide by taking sleeping tablets and to leave a note admitting responsibility for the air disaster.

Later, she admitted delivering a "parcel" to the plane at Guay's request before it took off from Ancienne Lorette airport, but she thought the package contained a statue.

Police charge that the parcel contained a home-made bomb which exploded while the plane was in mid-air.

Guay is awaiting trial on the murder charge, set for Jan. 9th. At the preliminary hearing last week, Mrs. Pitre's doctor testified that the dark-haired woman complained of abdominal pains Sept. 19th. He said he examined her in hospital the following day but found no trace of toxic matter in her system.

Mrs. Pitre's younger brother, Jean Marie Ruest, and his wife said Mrs. Pitre gave them about a dozen sleeping pills and two yellow capsules Sept. 19th. She claimed Guay had given them to her to take her own life.

Two hospital nurses also testified at the hearing. They said Mrs. Pitre appeared dazed and slept heavily in hospital. One of the nurses testified she found "a quarter of a sleeping pill" in the woman's bed.

Newmarket, England, Oct. 26.—(CP)—Stereo today won the one mile and one furlong Cambridgehire Handicap, Britain's last major classic of the fall flat-racing season.

Stereo was a 33 to 1 choice. Good Taste was second in a photo-finish with Stereo in the lead.

The classic on which the Irish Hospital Sweepstake was based. Stereo won the race last year as well.

Third place went to Meysey Hampton. The official decision was that Stereo won by a head. Good Taste had a three-length margin over Meysey Hampton.

Small Ships Are Grounded—Channel Steamer Unable to Dock—Channel Coast Residents Suffer \$620,000 Loss to Property.

London, Oct. 26.—(P)—The heaviest October gale in 25 years today battered Britain and the continent. At least 14 persons were reported dead or missing.

The winds drove small ships aground, smashed fishing craft and swept eight seamen and two fishermen to their deaths. Three seamen were reported missing. One person was drowned.

An English Channel steamer with 200 aboard was unable to go on to Dover or return to Dunkerque. The storm prevented its docking.

Seaside resorts on Britain's Channel coast estimated their property damage at \$200,000 (\$620,000).

Planes were grounded, trains were delayed and torrential rains flooded highways.

At the peak of the storm the Belgian channel steamer Konig Albert, breaking drift from her moorings in Dover harbor, was involved in a collision with British railways newest channel vessel, Maid of Orleans.

The Konig Albert was anchored four miles out of the harbor this morning. A harbor official said damage was slight.

A British collier, the 147-ton Archangel, was driven ashore near Dover. Lifeboat men brought members of the crew ashore by breech's buoy.

Wild seas battered boats in the Kent harbors of Ramsgate and Broadstairs. Many small craft were sunk.

Shipping passing through the Straits of Dover had a terrific buffeting. The Cunard White Star liner Fort Spokane (7,128 tons) took four hours to pass through the Downs roadstead off Deal, a journey usually done in 20 minutes.

Down-channel the 23,000-ton British aircraft carrier Illustrious was pouring oil on raging seas, 30 miles off the Lizard Cornwall, in a bid to save the crippled 827-ton steamship Yewpark.

A radio message from the warship said a tug was on her way to take the Yewpark in tow.

Lifeboat stations were placed on the alert through the British coast, though in some places seas were so heavy lifeboats were unable to go out.

Off Holyhead, northwest Wales, the crew of one coastal vessel, the 370-ton Mayflower, had to be taken off by a rocket-fired line. The lifeboat men later stood by a Dutch motor ship which had dragged anchor to within about 20 feet of dangerous rocks.

Tremendous seas and 70 mile-an-hour gusts carried away temporary repairs made to seawalls at Sandgate, near Folkestone, Kent. New breaks were made and parts of the town flooded.

Harbors on the south Devon coast were swamped. The body of a bather, believed swept away by heavy seas, was recovered from the salt-water swimming pool at Plymouth.

Trains on the main London-Penzance line were diverted after foundations of the track had been washed away near Dawlish, Devonshire.

Householders had to be evacuated from waterside districts in Scotland. Two railroad lines on the border were blocked as a result of the overnight storm, and the main east-coast line from Edinburgh to London was closed for 4½ hours.

Storm havoc on the continent also was reported. French and British vessels were today on their way to aid the Italian ship Assunzione, which signalled she had lost her rudder off Saint Nazaire, Brittany.

Eight sailors were drowned in the storm which has raged off the Breton coast for three days. Three more were lost when a tug was in collision with a banana ship off Capet Janet, near Marseille.

The giant liner Queen Elizabeth, due to reach Cherbourg this morning, will not arrive until tomorrow, owing to heavy seas in the Atlantic.

Athens, Oct. 26.—(Reuters)—A team of United Nations observers investigating the Komina-Kastoria area in Greece, were fired upon from Albanian territory, the Greek general staff reported today. No casualties were reported.

Nehru Ends Visit To Dominion

Ottawa, Oct. 26.—(P)—India's official views on a tense, taut world today were pondered by the Canadian government as Prime Minister Nehru headed away from Ottawa and a potential controversy with Pakistan on Canadian soil.

The Indian leader left by air this morning, for Chicago and renewal of his United States tour. He reached here Sunday evening.

He met Prime Minister St. Laurent and External Affairs Minister Pearson three times yesterday, at a luncheon, a reception and a dinner, and surveyed with them the broad international scene as his government sees it.

In the midst of the day, Pakistan's high commissioner, Mohammed Ali, rebuked him for "misstatements" in a statement expressing "surprise and sorrow" about things Pandit Nehru said about Pakistan at a press conference Monday.

There was a retort from Nehru because, an aide said, he "wouldn't wish to enter into controversy in Canada" over a matter not concerning Canada. Feeling has been high between the two countries ever since they emerged as independent neighbor nations from British-ruled India.

Mohamed Ali quoted Nehru as saying Pakistan "is developing a theocratic state" where not a single non-Muslim holds high office.

Denying this, he said Pakistan "makes no distinction of any kind in its appointments" and named a cabinet minister, officials, judges and the heads of the three forces as non-Muslims holding high positions in his country.

Nehru's second full day in Ottawa was quieter than his first. He placed a wreath on the national war memorial, lunched with Mr. St. Laurent and Mr. Pearson in the Prime Minister's suite of offices, was guest at an Indian government reception and dined with Rt. Hon. Mackenzie King, former Prime Minister.

Earth Was Created From Dust, Not From Fire, Scientist Says

By HOWARD BLAKESLEE

Associated Press Science Editor
Rochester, N.Y., Oct. 26.—(P)—A theory that the earth was created from dust instead of fire was unfolded before the National Academy of Sciences today by one of the world's foremost chemists.

The author of the new theory is Dr. Harold Urey of the University of Chicago—eminent atomic scientist, Nobel prize winner and discoverer of heavy water.

Urey did something unique. He looked with a chemist's eyes at the earth beneath our feet to find the signs and clues to its origin.

The first thing he found was the temperature which had to exist in the top crust of the earth about 1,000,000,000 years ago to form the present chemical compounds of the ground. That temperature was nearly 2,000 degrees Fahrenheit.

But that temperature was not the creation, he reasoned. Some 1,000,000,000 years still earlier the earth was cool, just a huge aggregation of dust gathering into a ball as the sun passed through one or more vast dust clouds in space.

This primeval dust contained every kind of chemical, including a lot of radio active dusts. The temperature of the dust ball began rising, due to the heat from this radio-active activity, and the heat pressure of gravitation as the dust got denser. Thus it rose to nearly 2,000 degrees.

Prominent Blood Donors

Seen here, at the opening of the blood donors clinic yesterday, are four prominent residents of Sherbrooke. Standing, left to right, are Mayor Alphonse Trudeau and Col. Emile Levesque, waiting for their turn to give blood. The donors on the beds are Georges Sylvestre and Lt.-Col. John Blue. Col. Levesque and Lt.-Col. "Canada Standard" To Signify Best Quality Goods Is Proposed In Senate

Russia Bans Yugoslavian Ambassador

Moscow, Oct. 26.—(P)—Russia has charged Premier-Marshal Tito's ambassador to Moscow with anti-Soviet spying and declared that he can no longer serve as the Yugoslav envoy here.

A Soviet note delivered yesterday to the Yugoslav embassy said the Budapest treason trial of Hungary's former minister, the late Laszlo Rajk, had revealed that Yugoslav ambassador Kario Krazovic "had for a long time engaged in spying and subversive activities against the Soviet Union."

Krazovic left Moscow for Yugoslavia in August and has not returned since, though technically he remains ambassador to the Soviet Union. It had been presumed he would return to the Russian capital eventually.

The Kremlin's note said also that Krazovic "while being Yugoslav ambassador in the U.S.S.R., had come out in the Yugoslav press with numerous fabrications against the Soviet Union."

Russia, the note concluded, considers it "impossible" for Krazovic to continue to represent the Tito regime in the Soviet Union.

The Soviet action does not mean a break in diplomatic relations with Yugoslavia, since the Yugoslavs were asked in effect to recall their ambassador, not to withdraw their diplomatic mission in Moscow.

Presumably Yugoslavia's acting charge d'affaires Lazo Laimovic will continue to serve as head of the mission, a post he has filled since Krazovic left Moscow.

By HAROLD MORRISON

Canadian Press Staff Writer

Ottawa, Oct. 26.—(P)—Future buyers around the world may spell out "Canada Standard" in a variety of tongues to signify top-flight quality in Canadian goods.

The two words form the heart and body of government legislation introduced in the Senate this week in a move to swing Canadian production to new quality heights.

The legislation is known as the National Trade Mark and True Labeling Act. It was introduced in the Upper Chamber during the last session but wasn't approved before Parliament dissolved for a general election.

If Parliament adopts the bill this session, it may spark changes in the shopping habits of Canadians.

The changes, may be gradual for not all business firms are expected to use the mark at once, nor reach the quality standards the mark implies.

Those businesses and industries which feel the mark will be valuable in their domestic and foreign trade will get together with the government and work out quality standards.

There is no intention, says the government, of interfering with nationally-known brands and their high quality standards, but these manufacturers, too, may use the mark in addition to the brand name which they already have made popular.

Sharp penalties are involved if manufacturers decide to use the mark and don't conform with quality and size standards. Corporations can be fined as much as \$5,000; individuals, \$1,000. In addition, a six-month jail term is provided in the act.

The idea behind the mark is to set useful commodity standards for the consumer in domestic and foreign markets. For example, a mother troubled by the lack of uniform sizes when buying children's clothes, may have their future shopping days made easier—all children's clothes labelled "Canada Standard" will be pat-

Oil Production From Coal Urged

Ottawa, Oct. 26.—(P)—A man who wielded a pick and shovel in Nova Scotia coal mines for more than 25 years before entering politics has urged the government to finance research into the production of oil from coal.

Claire Gillis (C.C.F.—Cape Breton South) said in the Commons yesterday that the government has done practically nothing to help research on the possibilities of getting oil from coal. It should, he said during continued debate on the 1949-50 budget, undertake such research as a possible insurance against the eventual disappearance of natural oil resources.

He made the statements after saying that the abolition of the eight-per-cent tax on fuel oils should be passed on to the consumer by government order.

Oil is considered the fuel of the "near future," he said. But oil resources in northern America were not inexhaustible and the day might come when supplies would begin to dwindle.

Canada's coal resources "are a great national asset," he added. But if the present trend continued toward general use of oil as fuel, the coal fields of both Alberta and Cape Breton would lose their place in the economy.

Balkans And Colonies Are UN Problems

Lake Success, N.Y., Oct. 26.—(P)—American diplomats today took the lead in backstage negotiations aimed at disposing of two of the toughest political problems before the United Nations.

The United States was reported sponsoring talks on ending the three-year Greek-Balkan conflicts. The U.S., Argentina, France and Ethiopia met in secret, informal negotiations in what was called a final effort at the current U.N. Assembly to find a workable solution for the future of Italy's pre-war African colonies.

The political committee has been stalled over the dispute between Greece and her Balkan communist neighbors by the acid east-west fight over death sentences for political prisoners in Greece's civil war.

Colombia tried to resolve the dispute yesterday by proposing that the U.N. ask all countries to suspend death sentences indefinitely in political cases such as those reported almost daily from eastern European countries.

The Colombian plan came up today but concrete action on it was doubtful. An informed western source expressed the opinion the proposal was too broad to be of much use.

The American-sponsored talks were said to be based on a tentative draft resolution which would continue the U.N. special commission on the Balkans, blame Albania for the recent failure of a special U.N. conciliation committee to end the conflict, and recommend that the conciliation group be prepared to resume its work if the situation looks promising for peace in the Balkans.

The secret meetings on Italy's colonies were proposed yesterday by China in the 21-member sub-

Better Training Of Staffs Urged Upon Small Stores

By FORBES RUDE

Montreal, Oct. 26.—(P)—The corner grocer got a going over today at the annual meeting of the Canadian Chamber of Commerce—and so, indeed, did the Chamber of Commerce.

And if the corner grocer is afraid of the chain stores; well, he had better listen.

The going over was from D. H. Collier of New Westminster, B.C., who spoke on the subject, "Merchants in the Chamber."

"Too often, the small merchant is inclined to blame others for his own deficiencies."

He points to the growth of chain stores, department stores and wholesale houses as the reasons for his lack of business expansion.

Actually, there has been a decrease in the number of chain stores in recent years, with no increase in volume. Retail sales by department stores and mail order houses have remained a constant 11 per cent of all retail sales across the nation.

And Mr. Collier concluded: "These facts point up the need for an added effort to train staffs and management, if business of smaller stores is to be developed."

However, before he took the

150 Donors Gave Blood In Sherbrooke

Officials of the drive for voluntary blood donors announced this morning that some 150 volunteers visited the clinic in Ste. Jeanne d'Arc Parish Hall yesterday and it is expected that figures today should reach well over the 400 mark.

Joint presidents, Col. Emile Levesque and Lt.-Col. John Blue, in a radio interview yesterday afternoon, outlined the benefits to be derived from the Canadian Red Cross Blood Clinic, which will provide the local hospitals with whole blood and plasma to be administered to patients free of any charge whatsoever. Miss Isabelle Payette spoke briefly to the women of Sherbrooke asking them to respond generously to the appeal.

Blood donors will be accepted today, tomorrow and all day Friday, at which time it is hoped the objective of 1,000 bottles of blood will be attained.

Saturday night will see the crowning of the Red Cross popularity queen at a dance given in the William Street Armoury by the Sherbrooke Firemen's Association. Free tickets to this ball will be given to all blood donors.

Housing Costs Probe Is Asked

Ottawa, Oct. 26.—(P)—A public investigation into home-building costs was asked from reconstruction Minister Winters today by the Canadian Congress of Labor.

A. R. Mosher, president of the 360,000-member Congress, made the proposal in a letter to Mr. Winters. He suggested immediate establishment of an investigating Royal Commission or a Parliamentary committee.

Mr. Mosher said \$8,000 was practically the minimum price of a house—exclusive of interest rates—and that placed new homes out of the reach of most Canadian workers, who average slightly more than \$14 a week in wages.

Mr. Mosher said that four reasons generally were given for the high cost of residential construction:

Excessive profits by contractors, high labor costs and the claim that construction workers were not "doing a proper job" on home-building, decentralization of the industry making for high unit costs, and high interest rates.

"One presumes that the operations of real estate interests are a contributing factor to high costs as well," Mr. Mosher said in his letter.

Mr. Mosher added: "Our congress believes that the spotlight of public inquiry should be directed into every aspect of the high cost of home construction which makes it impossible for literally tens and hundreds of thousands of Canadians to own their own homes."

Oliver Twist Ban Confirmed

Quebec, Oct. 26.—(P)—Premier Duplessis yesterday confirmed that he has instructed the provincial censorship bureau to ban the British-produced motion picture "Oliver Twist" in Quebec province.

He confirmed the announcement made last night in Toronto by Max Seigler, a Montreal city councillor, who told the Canadian Jewish Congress that the Premier had banned the film. Mr. Seigler said the picture's presentation of Fagin, a major character in the Charles Dickens story, would provoke racial and religious prejudice.

The Premier's only comment was that it was "necessary to ban all that is prejudicial to any of the races and religions and to respect all legitimate sensitivities."

smaller store to task, he gave the larger business organizations a panning, said he:

"Boards of Trade have always been interested in industrial promotion and civic development. On the Prairies, Boards have made wonderful progress with agricultural programs. But little is being done for the business which employs one in every seven employed persons in Canada. The retail merchant seems to be the forgotten man....

"There are so many things which can be done to provide a service to the merchant. His business needs protection and it can be developed through co-operative effort. It is surprising that our Boards have not done more in this regard."

And then, in a rash of contrition, he added:

"Of course, most of the blame lies on the shoulders of the merchant himself. He is usually so busy with his store that he does not take time out to examine ways and means of improving retail trade of the area. Too often, meetings of retail merchants which he attends are negative in character, and much time is spent making sure his own narrow interest is not affected adversely."

HOPALONG CASSIDY ISN'T ANXIOUS TO MEET 'ABBOTT AND COSTELLO'

Hollywood — Bud Abbott and Lou Costello are getting fussy about the people they meet on the screen now that they're in the "Abbott and Costello Meet" cycle. UI wants them to meet the invisible man in their next. The comics are rebelling. They want to meet Hopalong Cassidy. But Hoppy (Bill Boyd) tells me he doesn't want to meet them. Says Boyd:
"I'm going to stick to my ideas and ideals and play it straight. They're modern comics. Hoppy is an 1890 character. It wouldn't work."

Here's added proof that Bill is the hottest star in the business. He made a personal appearance in New Orleans. Neither his TV films or radio program have started there. Yet 275,000 people turned out to meet him.

Business of being a glamor star and a wife has its complications. Esther Williams has notified M-G-M that she'll retire from the screen again next year—to have another baby.

Dale Robertson and Mary Stuart will co-star in "Canyons West" for Nat Holt. Holt is predicting quick stardom for Dale when the bobby soxers get a look at him as Jesse James in "Fighting Man of the Plains." Holt has been so busy

Waterloo Is To Have War Memorial Monument To Honor Its Soldiers

Waterloo, Oct. 25.—The Waterloo Branch of the Canadian Legion, Branch No. 77, has undertaken the task of securing and erecting a monument of solid granite as a dedication to those from Waterloo, who sacrificed their lives in the two wars, 1914-1918 and 1939-1945.

This monument, which will cost in the neighborhood of six hundred fifty to seven hundred dollars, will be an overall height of six and one half feet. The main monument will be five feet high, four feet wide at the bottom, tapering to three feet at the top, and eighteen inches thick. It will be placed on a granite base. On the monument will be a solid cast bronze plaque, two and one half feet by one and one quarter feet in size, on which will be the dedicatory inscription.

Although the Legion has undertaken the job of securing and erecting it, it will not be the property of the Canadian Legion, but rather it will be the property of the citizens of Waterloo. Each resident of the town will have an opportunity of donating to the cause, as a door to door canvass will be made by members of the Legion.

A small replica of the monument, to scale, may be seen in the window of the Southern Canada Power Co.

It will be installed on the site in front of the Post-Office, directly in the centre of the plot of ground. It will be unveiled on Saturday, October 29, at 3 p. m., with the Hon. Milton Greig, V. C., doing the honors.

The Hon. Milton Greig is the Minister of Veterans' Affairs and his presence at this ceremony will add greatly to its significance. This will be Waterloo's remembrance of its sons, who so gallantly laid down their lives. It will be their money that will place this monument in its place of honor.

All assistance necessary will be expected by the members of the Canadian Legion of their fellow citizens in order to make this remembrance come true.

The canvass is to begin immediately.

AN INTER-CLUB KIWANIS MEETING

A most enjoyable evening was experienced by the Waterloo Kiwanis Club, when the members of the Sherbrooke Club paid them an inter-club visit, one Tuesday night.

Sixteen Kiwanians from Sherbrooke, along with a good percentage of the Waterloo members, made a routing time out of it. President Newman Hunter from Sherbrooke, was unable to make the trip, and the Inter-Club chairman, Len Keeler, was in charge of the visiting delegation.

President Bert Fisher was chairman of the affair, and the main item of interest was a report given on the O. Q. M. S. District Convention recently held in Halifax, N. S., by two of the Sherbrooke boys, Freeman Gill and Fred Clark. These reports were both concise and instructive, and covered the convention thoroughly and interestingly.

Rev. John Comfort, of Sherbrooke, was the song leader, and led the gathering in several popular numbers.

Kiwanian Len Keeler presented the "Travelling Gavel," the District Governor's gavel, to the Waterloo president, whose job it will now be to pass this gavel along to another club in District 7, who has not as yet had it. It will have to be either St. George's, Montreal, or Thetford Mines, who have just begun a club in that city within the last two weeks, with Sherbrooke sponsoring them.

It was an excellent meeting, wonderful spirit and inspiring fellowship, the way it should be when Kiwanians get together.

TWO WATERLOO ATHLETES FETED

Two well known athletes in Waterloo, Allan Norris and Clark Jones, were royally feted at a party one Monday night, prior to their weddings on October 22 and 19, respectively.

A group of friends arranged for the mixed party to be held in the Town Hall, when the hall was almost filled to capacity.

Dancing was enjoyed and refreshments were served during the evening, after both unfortunates had been paraded through the streets of Waterloo.

However, both of these gentlemen were presented with a purse of money, collected from their friends in town, and who had gathered to pay them tribute at this time. Both boys were wished the best of luck and much happiness in the approaching marriages, and they responded to this honor in a few words of thanks and appreciation.

Another note from Joan Fontaine in Rome:
A tourist guide was conducting a party through the ancient ruins of Pompeii while Joan and Joe Cotten were working there in scenes for "September." The stars were relaxing in the shade of a 2000-year-old courtyard wall when the tourists passed by.

In the dull monotony his profession, the guide added:
"And on your right you will see Joan Fontaine and Joe Cotten."

Independent producers are finding themselves with an unusual problem. In casting pictures they are not as concerned with what stars will bring in customers but which ones will keep people away from the theater.

Current list of stars who are poison at the box office is startling.

PITCHING HORSESHOES

By BILLY ROSE

CONVERSATION PIECE

Today, I'd like to tell you about a talk I had with a doctor who is doing research work at one of the New York cancer clinics. He made me promise not to use his name because he was afraid he might be blacklisted by the foundation which pays his salary.

I began by asking him to sketch in his pre-research career.

"The usual ten-year grind," he said. "Four years of college, four more at medical school, a year as intern, and a year in residency training."

"What made you go into research?"

"Like a lot of young doctors," he said, "I couldn't get used to sitting while a patient died simply because I didn't know anything else I could do for him. Every time I looked up into the eyes of relatives gathered around the bed of a man in the last stages of cancer, I told myself that my job wasn't to go on using the hit-or-miss techniques but to get into a laboratory and help find the real cure."

"How did you go about getting started?"

"I made the usual applications," said the M.D., "but I soon found the hospitals and universities had no funds to hire research men, and that I couldn't get a job unless a foundation paid my salary. To complicate things, most foundations won't give you a fellowship unless you first have a job. In addition, it's almost impossible to get a grant until you've published a certain number of scientific papers and, of course, you can't publish such papers until you've worked in a laboratory and had a chance to do research worth writing about."

"It finally boiled down to this—I could work for nothing in a cancer laboratory, or I could take a job paying \$120 a week doing research for a cosmetic outfit. Well, I had just gotten married and was ready to settle for the money, but my wife wouldn't hear of it—she went out and got an office job and made me stick to my test tubes."

"How long did you work for free?"

"About a year," said the doctor.

James P. Sprague, District Governor Of Rotary, Pays Visit To Local Club

James P. Sprague, of Montpelier, Vt., District Governor of Rotary, made his official visit to members of the local Club at their regular meeting in the New Sherbrooke Hotel last night.

He described the foundation of Rotary which he said "grew out of the loneliness of Paul Harris' heart, in the huge city of Chicago." This was the beginning of Rotary on a local level, but it took on international character in 1910 when it crossed the border into Canada.

"Today," he added, "it has expanded until now the Rotary world is divided into 186 districts."

District Governor Sprague mentioned four types of Rotarians who are of no value to their respective Clubs. He termed them the tired, retired, rubber tired and flat tired kind of individual, and said that what Rotary needs are working

V. O. N. Thrift Shop Sale Starts Today

The Victorian Order of Nurses' two-day Thrift Shop sale opened this morning at Plymouth Church with a wide-variety of articles, new, nearly new and "not-so-new," being offered for sale.

This annual sale is conducted for the purpose of raising funds to help the work of the V.O.N. nurses who, for many years now, have made an outstanding service contribution in this district.

The V.O.N. is a "family" organization that gives the mother guidance in her pre-natal period, gives the new baby nursing supervision and gives nursing care when the child or grown-up needs it.

A few months ago the local V.O.N. nurses had occasion to do nursing for a member of a family

Knowlton.—At their committee meeting on Monday night, the City of Sherbrooke Council discussed the dog by-law and assigned City Attorney Albert Rivard to draw up an amendment to the dog law for council consideration. This is the dawn of a new day in humanitarian work in Sherbrooke.

When I got this news last night I barked for pure joy. I yipped so hard that my master thought I'd been hurt. It certainly is a great feeling to know that at long last some interest has been aroused officially in our pooches. If Mr. Rivard gives us a break, I feel sure the council will approve. Personally, I am so excited I can hardly type. So instead of just bubbling all over the place, I'm going to let you readers know what others in your midst think of the situation.

Here's a letter forwarded to me the other day by the Record boys. I think it shows the right spirit of co-operation among Sherbrookers, the kind of spirit that prompted over half a dozen persons to visit or phone the Record office offering financial aid and services to the new S.P.C.A.

"Dear Mr. Pup:
 "Your letters have been read with much interest, although I found your description of conditions in the city pen somewhat harrowing. In fact, I almost dreaded to read your next letter for fear something worse might have happened.

"However, it was a great relief to know that you yourself have a good home in the country and it is splendid of you to continue to take such an interest in your less fortunate friends.

"I too think the gas chamber would be preferable to shooting. Although I live in an upstairs apartment, I have several times adopted homeless dogs and cats (if you'll pardon my mentioning the latter) and in cases where no permanent home could be found have taken them down to the veterinary and personally paid to have them painlessly put to sleep.

"Anything you can do to encourage the people of Sherbrooke to establish a local branch of the S.P.C.A. will be greatly appreciated by all who really love their own and all dogs.

"Trusting that you are having a lot of fun in the country, (I am) Sincerely, Mrs. Reg. Saunders, 126A London Street."

Thanks loads for the letter, Mrs. Saunders. I know you must be one of the people "who love their own and all dogs." Your interest in our cause has also been noted and greatly appreciated by the boys organizing the S.P.C.A. They'd give plenty for a few thousand more citizens like you. (And as for your personal references to me: I'm in great shape now, gained quite a bit of weight, and have never been happier. Thanks for your good wishes.)

Only letters addressed to A. PUP reach me, but many other people have written to the editor of the Record along the same lines. You readers might watch the Letters to the Editor column on the editorial page for these. Some of them reflect what we hope is sincere public opinion.

Let the City Council also keep an eye on them; public opinion might prove valuable when the time to vote on the amendment rolls around.

I'm going to end this column today with a poem. It's the sort of poem that really makes a little pup feel good, hucks up his spirit, tells him that man hasn't and will not forget him. This poem was written and submitted to me by an Eastern Townships man who adopted a dog. It is a true story.

Found one night on a lonely street, Cold, hungry, nothing to eat, A woolly pup with a playful eye Left alone to starve and die.

I took him home and warmed his feet, Gave him a dish with lots to eat. Now he's as happy as a pup can be With a good warm bed and nary a flea.

He had no name so we called him Mike, Now he guards the place day and night, And any gentry travelling light Put on speed when they see woolly Mike.

He isn't as handsome as a dog could be, But I like Mike and Mike likes me. Now the tale of a pup must end, But still I think a dog is man's best friend.

Paralysis Is Cured Through Rotary Help

A cyst on the brain is a nasty thing, particularly for a 14-year-old girl. It causes paralysis.

Mary X. had a cyst on the brain in December 1948. Her whole side was paralyzed. And that isn't very pleasant for a girl whose whole life lies before her.

Her condition was brought to the attention of the crippled children's committee of the Sherbrooke Rotary Club. She was examined at their expense and sent to Montreal.

There the world's finest neurological surgeon, Dr. Wilder Penfield, removed the growth. Little Mary spent nine hours on the operating table. When she came home, her side was mobile once more.

Charges amounting high over \$100 were paid by the committee so that they might record the following words in their case book:

"Child back home and getting along well."

Payment for the treatment of this girl came from money which the Rotary Club makes at its annual Rotary Fair. This year's Fair takes place next week.

Death Of Father Simon Perreault Termed Accidental At Inquest Here

A verdict of accidental death was returned by a coroner's jury, after an inquest into the death of Rev. Simon Perreault, of Sherbrooke, killed in an auto collision on the Brompton Road, Wednesday, October 12.

The six-man jury returned the verdict after deliberating only a few minutes. Dr. Louis Gagnon, coroner for the district of St. Francis, presided.

The deceased was a passenger in a car, driven by Ernest Fradet, 21, which collided with another auto, driven by Roy C. McMoragie, 40, of Ottawa. It was revealed at the inquest that Fradet's car, headed toward Quebec, zig-zagged along the slippery road and after barely escaping a collision with a truck collided with Mr. McMoragie's car, coming to Sherbrooke, Mr. McMoragie is employed by the Creamery Package Manufacturing Co. Ltd., and was represented by Lawyer H. Tansey, of Montreal.

The inquest developed into a lengthy discussion as the witnesses failed to give the same picture of the accident. There were many versions, but that of Henry-Paul Bourgeois, 24, and Jean-Paul Vadenais, 26, truck driver and passenger in the truck which escaped being hit was accepted.

Lawyers Maurice Delorme and Ashton Tobin represented the deceased.

Other witnesses included: Jean-Paul Beaudoin, 26, a truck driver, employed by the Sherbrooke Warehousing Company, who arrived on the scene shortly after the accident occurred; Gerald Hayes, 45, of Lennoxville, employed by the Bell Telephone, who rendered first aid to the crash victims; Provincial Police Traffic Officer Rosario Bergeron, who with Detective Rene Coupal, investigated the accident; and Dr. Adelard Allard, of Brompton, who pronounced Father Perreault dead.

Jack Kramer Downs Pancho Gonzales In Their First Professional Tilt; Proves Too Good For Amateur King

New York, Oct. 26.—(AP)—Even if he never beats Jack Kramer in their professional tennis bout, Richard (Pancho) Gonzales is going to have a lot of fun and make a lot of money.

They launched the tour in Madison Square Garden last night and Kramer showed that he still is the best tennis player in the world by defeating the 21-year-old Mexican-American youth, 6-4, 3-6, 6-3, 6-2.

But the crowd of 13,357 fans who came out on a rainy night and contributed a gross gate of \$41,120 at \$8 tops rode with Gonzales all the way.

Cries of "Come on Pancho" echoed from the galleries frequently. The cheers were virtually all for

Field Of 40 Horses Scheduled To Go To Post Today In Cambridgeshire

Newmarket, England, Oct. 26.—(AP)—A bulky field of 40 horses—barring last-minute scratches—was scheduled to go to the post today in the running of the Cambridgeshire Handicap, final major stake race of the British flat-racing season.

Post-time was 10:45 a.m. A.D.T. Hyperbole, owned by British millionaire James V. Rank, was the favorite in the one mile and one furlong event. The four-year-old colt was quoted at odds of 17 to 2 in the final callover yesterday at the Victoria Club in London.

The Cambridgeshire is the second leg of the "Autumn Double" of British racing. And the rank stable would make racing history if Hyperbole wins. Rank's 25-to-1 long shot, Strathespey, took the Cesarewitch Stakes two weeks ago. The Cesarewitch is the first leg of the double.

Only twice in 109 years has the same owner won the two big Autumn Races.

Lecturer Tells About Christian Science Work

Mankind's inquiring mood today for better ways of living is being met in Christian Science by proofs of restored health, abundance, and well-being in all branches of living, declared John S. Sammons, C.S., of Chicago, in a public lecture here last night on "Christian Science: The Science That Meets the Human Need."

Four years ago, at a time when the newspapers were giving prominence to a certain type of paralysis, a friend of Mr. Sammons awoke one morning and found himself manifesting the symptoms of this disease. He was quickly and permanently healed in Christian Science.

This and other verified experiences of healing were offered by the lecturer to substantiate his statement that Christian Science brings the full salvation promised by Christ Jesus, including freedom from sickness as well as from sin.

Mr. Sammons came to Sherbrooke in the course of a national speaking tour. He is a member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts. His visit here was sponsored by First Church of Christ, Scientist.

The lecture was held in the church edifice, and Mr. Sammons was introduced by Mrs. Olive Vaudry.

"Christian Science reveals God's presence and power and the science and art of relying upon this presence and utilizing this power," Mr. Sammons said. "As prophet and apostle of an earlier day so beautifully and conclusively demonstrated, so Christian Science is proving today that wherever there is a human need this sacred presence may be found available and ready to adjust and correct, to heal and bless."

Throughout his lecture Mr. Sammons explained how any sincere inquirer can learn to make scientific use of the rules for living whereby works of healing are accomplished.

"To Mary Baker Eddy, the discoverer and founder of Christian Science," he said, "the welfare of others was always a matter of immediate concern. She was ever inclusive in her thinking and early developed an interest in and love for mankind."

"Mrs. Eddy's offering knew no bounds, her sacrifices no end. The Sunday services and Wednesday meetings, the lectures, the quiet sanctuary of the reading rooms, her present witness to her conscious desire to meet the human need and evidence the universal nature of her love. She accepted without reservation and consistently practiced what she taught. She had a childlike trust in God, a great compassion for the sufferer, a graciousness and tenderness towards all, an unqualified acceptance of her mission, and a complete willingness to bear the cross of spiritual leadership—a leadership which continues to illumine the path of her followers."

The key to Mrs. Eddy's rediscovery of the healing power taught by Christ Jesus for His followers in all ages to come is her perception of the divine qualities, Mr. Sammons continued. Power, for example, is a divine attribute expressed through laws which can be learned and applied. Since God is good, His power brings blessings to mankind.

that they have been visiting since 1943. There are 10 children in this family and the V.O.N. has nursed eight of them as well as the father and mother.

The mother calls the V.O.N. when she is expecting a baby and the nurses see the baby as soon as it comes home from hospital. The mother twice has had V.O.N. care when she herself was ill. The father had an infection in his foot which needed dressing.

There have been other dressings—one child ran a nail into his knee, another fell and the wound became infected. There have been times when the baby had bronchitis and the 11-year-old had flu. The family calls the V.O.N. whenever nursing care is needed for a little person sick in bed with a fever.

The mother of that family is one who is glad to be able to call on a Victorian Order nurse to help her with her many problems.

The V.O.N. has many families—though not many that large—who know the comfort of being able to call in a registered nurse. The fee is small—many cases are free—but as long as a doctor is in charge of the case, the V.O.N. is glad to help.

E. W. Morse To Speak Here Tomorrow

A meeting to organize a Women's Canadian Club in Sherbrooke will be held tomorrow at 8:15 p.m. at the Sherbrooke High School with Eric W. Morse, national director of the Association of Canadian Clubs, as guest speaker.

Mr. Morse is a native of India but came to Canada at an early age and went to school at Trinity College School, Port Hope, Ont. He went from there to Queen's University where he took his Master of Arts degree in modern history and political science and was president of the Debating Union.

He was awarded the R. B. Bennett scholarship in international relations which took him to the School of International Studies at Geneva. He also spent a year travelling abroad, chiefly in Italy and France.

In 1936 Mr. Morse returned to his old school, T.C.S., as senior history master. During the war, from 1942, he was in the R.C.A.F. and was demobilized in 1945 as a squadron leader.

Mr. Morse was national secretary of the United Nations Association in Canada from 1945 to 1948 and during this period attended various meetings at the U.N. General Assembly and Security Council as an observer. He also wrote a monthly commentary, "World in Review," for The Legionary, organ of the Canadian Legion.

He assumed his present position last January.

The subject of Mr. Morse's address tomorrow will be "What the North Atlantic Treaty Means to Canada."

Again aimed at consumer protection and the prevention of public deception, "true labelling" deals and advertised to show quality and with the day the goods are marked content.

These trends already have been put into practice by some industries. Furriers, advertising imitation Hudson seal coats, let the buyer know the coats actually are dyed rabbit.

Receipts Of Livestock Are Light Today

Montreal, Oct. 26.—(AP)—Trading was good but receipts light on the two Montreal livestock markets today.

Early offerings consisted of 64 cattle, five sheep, 115 hogs and 66 calves.

Cattle receipts were very light. Early trading was active and prices steady with yesterday. Good cows were bringing 14-15, cutters 9-11. Good bulls made 15.50-16.50 while common were 11-14.50.

Light calf receipts moved easily at firm prices. Mixed lots of grassers and drinkers were selling from 11-15.

Early sales of lambs were made at 24 for good quality. Sheep were mostly 9 with some common down to 6.

Grade A hogs made 29 and sows were 20 with a few 21 dressed.

The Doctor Says

TAKE GOOD CARE OF TONSILLITIS—IT MAY GROW TO BE SERIOUS

By Edwin P. Jordan, M.D.

There are several kinds of inflammation of the tonsils, or as it is more commonly known, tonsillitis. Tonsillitis often results from infection with a germ called the streptococcus. Indeed tonsillitis, or in the absence of the tonsils a severe sore throat, is typical of the beginning of a scarlet fever which is a streptococcal disease.

Jordan

Tonsillitis may be caused by other germs and perhaps some by viruses. Most of those who have not lost their tonsils early in life have experienced one or more attacks of acute tonsillitis, and they do not have to be told that this is an unpleasant and painful disorder. Usually they have fever with it and feel just miserable!

If they go to bed promptly, drink plenty of fluids, and perhaps are given one of the sulfa drugs or penicillin, recovery also occurs without much delay.

Acute tonsillitis is never treated by removing the tonsils at the time when the inflammation is severe. If it is necessary to remove the tonsils at all—and this is not always the case—one must wait until the acute infection has quieted down. If this is not done there is danger of getting dangerous germs into the blood stream, causing blood poisoning and perhaps death.

Although figures on the frequency of acute tonsillitis do not seem to be available, there are many reasons for believing that there are fewer cases now than in the past. Probably this is partly because of our better sanitary knowledge which has resulted in fewer dangerous germs in drinking water, milk, and other sources of infection.

Q—Since great herds of cattle, horses and even elephants get their strength from eating green grasses or herbage, would it be advisable for human beings to extract the juices from such grasses and herbage and drink them?

A—The digestive processes of human beings are different from those of the animals mentioned. Human beings belong to an animal group called carnivora, or meat eaters. I am afraid the answer to your question is "no."

WATERVILLE

The chicken pie supper held in the Roman Catholic Hall on Wednesday evening, October 12, was a decided success, socially and financially. Over seven hundred persons enjoyed the delicious supper prepared by the ladies of the parish. The people arrived by buses and taxis and private cars and spent a very pleasant evening. Father Archambault, parish priest, expressed his appreciation and the appreciation of the organizers for the wonderful response and attendance at the supper. The young ladies of the parish waited on the tables, and the young boys served coffee. The parish hall was very nicely decorated and the different booths held many attractive articles.

Selfish Daughters

Sisters Refuse To Pay Share Of Mother's Medical Expenses

Dear Miss Dix: We are a family of two sons and two daughters, all married. Our financial conditions are all on a par. Recently our mother became seriously ill, necessitating doctors, nurses and the other expenses of sickness. At that time at my sister's suggestion we all agreed that the four of us should divide the expenses equally so that the burden would not rest on just one's shoulders. Well, the sisters have contributed but a very small part and are so sorry they can't help, but she has promised to send her children to a summer camp and the best ones are \$10 expensive. So they leave Fanny with the bag to hold, and they would be perfectly outraged if Fanny should refuse to bear her share of responsibility for mother and send her to an old ladies' home. They would consider such conduct heartless.

My candidate for the meanest person's medal has always been the son or daughter who passed the buck to some one else when it came to providing for the parents who are just as much his or her parents as they are his sisters' and brothers'. For, if all the children would do their part, the burden would fall heavily on no one.

ALL OF US HAVE SEEN THIS HAPPEN A HUNDRED TIMES. John can't pay anything on mother's doctors' bill because he is buying a new automobile. Tom can't pay for the new dress mother just had to have because his young daughter has to have a new ball gown. Mary can't contribute a cent because she is going to Europe and Sally is so sorry she can't help, but she has promised to send her children to a summer camp and the best ones are \$10 expensive. So they leave Fanny with the bag to hold, and they would be perfectly outraged if Fanny should refuse to bear her share of responsibility for mother and send her to an old ladies' home. My candidate for the meanest person's medal has always been the son or daughter who passed the buck to some one else when it came to providing for the parents who are just as much his or her parents as they are his sisters' and brothers'. For, if all the children would do their part, the burden would fall heavily on no one.

ALL OF US HAVE SEEN THIS HAPPEN A HUNDRED TIMES. John can't pay anything on mother's doctors' bill because he is buying a new automobile. Tom can't pay for the new dress mother just had to have because his young daughter has to have a new ball gown. Mary can't contribute a cent because she is going to Europe and Sally is so sorry she can't help, but she has promised to send her children to a summer camp and the best ones are \$10 expensive. So they leave Fanny with the bag to hold, and they would be perfectly outraged if Fanny should refuse to bear her share of responsibility for mother and send her to an old ladies' home. They would consider such conduct heartless.

My candidate for the meanest person's medal has always been the son or daughter who passed the buck to some one else when it came to providing for the parents who are just as much his or her parents as they are his sisters' and brothers'. For, if all the children would do their part, the burden would fall heavily on no one.

The decorations were carried out in pink and American Beauty colors.

Miss Fields was taken for a ride previously by Mrs. Martel, who had called to ask her over for the evening. Miss Fields, not suspecting anything, was taken by surprise, when on her arrival upwards of twenty-five friends awaited her.

A beautifully decorated baby carriage filled with useful gifts was then wheeled in and presented to the bride-elect by the hostesses.

The gifts were passed around and then placed on a table, where everyone was able to see them.

A buffet lunch was served and tea was poured by her grandmothers, Mrs. Mary Richard and Mrs. Joseph Fields.

A Talk On "Communist Russia" Was Given By M. Brown, Of Willoughby, Vt., At The Community School

Derby Line, Oct. 26.—"Russia is still the great enigma," said Milton Brown, of Willoughby, Vt., in the course of an unusually interesting talk entitled, "What Price Communism," given at the public assembly session of the International Community School.

"There are newspaper reporters and congressmen, who go to Russia, tour the country for four or five weeks, seeing just what the powers that be wish them to see, and then come back and write a 300 page book about that country. I lived there for five years, and still do not feel that I know too much about them. I know that the Communists are a ruthless group of men, intent on getting

their own way, who believe that anything that furthers their efforts is automatically correct and the right thing to do. They have no scruples, no moral sense, and no honesty, as we understand those words.

"The Communists believe in expansion. Their intent is to rule the world. In every possible way they will aid in creating chaos, knowing that when trouble comes they will benefit. When they seemingly act willing to co-operate with others, it is not because they wish to help, but because they believe that in some way it will be of value to them. They will up their pressure on all the countries near them, in the hopes of getting their way and bringing more and more of them behind the 'Iron Curtain.'

"The shadow of the 'Iron Curtain' works both ways. Russia itself is in the shadow of this curtain, and it is blinding many of the leaders to the facts of life in other countries. The truth does not penetrate this curtain, and frequently the decisions of the Politburo are wrong because they are based upon a false impression of the conditions that prevail in other countries. Russian spies are in many cases actually afraid to report the truth, for fear they will be thought to have fallen for 'Capitalist propaganda.' Consequently, many of the reports that reach Russia are what those reporting know will square up with the ideas that then prevail in the Kremlin, rather than what is really the facts of the case.

"The United Nations must continue," said Mr. Brown, "and we

must give it our support. The idea and ideal of 'One World' is too important to be allowed to die. Eventually it will come to pass, and our support of the United Nations may help speed the day. At the same time, we must realize that there are two worlds today, and make ourselves sufficiently strong and healthy to resist any efforts on the part of Communism to overwhelm our friends in other democratic countries. Russia was damaged in the last war more than any other country and is in no position to maintain a real war; she will depend upon the present 'cold war' to gain her ends, and we can beat her at this if we all work together.

"They are trembling in the Kremlin for fear that the democratic, capitalist countries may continue to be prosperous and maintain our present high standards of living. If we do these things, if we continue to spread democracy throughout the world, we may yet see Russia defeated without a real war."

The speaker made it clear that we were distinguishing between the rulers of Russia and the people of that country in his remarks, saying that the people were friendly and pleasant, and that given a chance could be real friends of the United States and Great Britain.

Mr. Brown was introduced by G. Earl Heath, and thanked by Rev. A. McKinley Rose, Lloyd MacPierston, president of the school, presided at the public assembly.

The various interest groups of the school continue to maintain their membership, and the hobby and handicraft groups are busy. In the absence of E. J. Struthers, Miss Elsie McIntosh took over the direction of the class in World Affairs, and Arthur Sprague, of St. Johnsbury, Vt., gave a talk on insurance for the class in "Minding Your Own Business."

Three-Act Comedy To Be Staged At Haskell Opera House On November 4

A three act comedy entitled "Too Many Relatives" is being held in the Haskell Opera House on Friday evening, November 4, under the auspices of members of Christ Church, Stanstead.

This comedy has just about everything any comedy play folks like, a really funny plot, a balanced cast, outrageously funny sayings that are sure to be a laugh. It has a fast and furious tempo without a single letup from start to finish.

Harry and Mabel Savage are a pair of newlyweds delightfully in love with each other. Harry tries writing poetic stories, but is unable to find an editor who appreciates his efforts. He lives on an allowance from his Uncle, Otto, which is really Harry's inheritance from his father, who is dead and who had appointed Uncle Otto to be custodian of the family funds.

Uncle Otto is a sour old woman hater and is very much against having his nephew Harry ever marrying, therefore the love-birds must keep their marriage a secret from him.

Mabel's Aunt Ermintrude, on the other hand, is all for the marriage, thinks marriage is a great institution. The fun really begins when Uncle Otto and Aunt Ermintrude both arrive unexpectedly at the Savages' tiny apartment.

Henry and Mabel have told them two different stories and therefore, must keep them from comparing notes. This isn't hard, as both the uncle and the aunt are very deaf, and you'll certainly get a laugh at the at the misinterpretations by this couple.

There are also Mabel's sister, Gracie and her bashful beau, Jasper Wilkins. Gracie is doing her very best to wrangle a marriage proposal from Jasper, who is one of the shyest youths on record and won't say "Will you be my bride." Their scene is hilariously funny. Then there are Officer Longfellow J. Butterfield, who is a poetic policeman, Smokey McGee, a criminal, who in his flight from the law wanders into the Savage apartment.

It is all good clean fun and there's a laugh in it from start to finish, for folks of every age. So make it a date to attend this play November 4.

The following are the characters in order of appearance: Harry Savage—a young writer; Hector Channel; Mabel Savage—his recent bride; Dorene Farley; Mrs. Donnelly—her landlady; Kitty Millet; Gracie Evans—Mabel's sister; Wanda Keeler; Jasper Wilkins—her bashful beau;

son, Arthur, accompanied by Mrs. Lawrence Rever, of Tomifolia, were in Barnston to attend the Ladies' Aid Harvest sale and supper.

Mrs. Leona Hansen and daughter, Miss Marilyn Hansen, Mrs. Emery Derusha, Mr. Arnold Brewer and Mr. Ernest Wilson were in Inverness to attend the Derusha-White wedding.

Miss Edith Bronson has returned home from the Sherbrooke Hospital, where she had been a patient for a few days.

Mrs. Jessie Holden, of Rock Island, was a Sunday guest of Mr. and Mrs. David Grieve.

Mrs. Minnie Eryou, Miss Aileen Eryou and Mr. Herbert Fry were in Magog one Sunday. They also visited Mr. and Mrs. Sidney Dewey, in Judd's Mills.

Miss Alice Molton, of Boynton, was an afternoon caller of Mrs. Mary Lorimer and Miss Madeline Lorimer.

Mr. and Mrs. Roland Sheldon and son, Bruce, have returned home, after spending three weeks in Rock Island, at the home of Mrs. Forest Rollins.

Mr. and Mrs. John Lepitre accompanied Mr. and Mrs. John Wilson, of Derby, Vt., to Montreal.

Miss Evelyn Rollins, of Rock Island, was calling on her friend, Miss Shirley Grieve.

RAMBLING ROUND THE BORDER

The November issue of "Young Wings," the publication of the Junior Literary Guild, contains a picture of the Rotary Children's Room of the Haskell Library. A specially inscribed book from the Junior Literary Guild is being sent to the Library.

Plans are underway for the celebration of Children's Book Week, November 13 to 19, and it is hoped that there will be a number of entries in the book-review contest. Anyone interested—teachers especially—can get the particulars from Mrs. Pospst at the Library.

Speaking of the Haskell Library, a considerable number of books have been left there by the Vermont Public Library Book Wagon, and among them are titles of real interest and value. Library open hours are: Tuesday, Wednesday, Thursday and Saturday, 1 to 5 p. m. Thursday and Saturday, 7 to 9 p. m.

The hunting season will soon be underway, and one of our neighbors is already practicing. Last week he shot the tail off a skunk! Didn't kill the skunk, just removed the tail. No smell either.

The value of the co-operation between the fire companies of Rock Island and Derby Line was demonstrated again last week at the Three Villages Building Association. The two companies working together can do a fine job of reducing the amount of fire losses here at the Boundary.

It seems that people immediately rush to the telephone when they hear a fire alarm, and accordingly clutter up the board with calls at a time when the girls are busy trying to get calls through that are really important. Fire Chief Albert Bliss was quite right in asking that persons wait for at least a half hour after an alarm is sounded before using their phones, except in cases of absolute necessity.

Stanstead South Church Marks Anniversary

Rock Island, Oct. 26.—The Stanstead South United Church, Rock Island, observed its one hundred and thirty-third anniversary, on Sunday, October 23, with a service at 10:30 a. m. The church was filled with worshippers, who had gathered to commemorate the anniversary.

The speaker was Rev. T. W. Tyson, whose sermon theme was "Why the Church?" Special music was rendered by the full choir and the anthem was "In His Holy Temple," with the solo part sung by Mrs. Kenneth Rice.

The beautiful basket of mums was given by the Ladies' Aid, Helping Circle and "35" Club Societies, while on the piano was a lovely potted plant, placed there by Mrs. H. A. Rice.

Mr. Tyson gave an interesting outline on the history of the church. He told of how in 1796 the people worshipped in an old log barn, owned by Captain Israel Wood, then from 1810 to 1817 services were held in the Stanstead Plain school house, and from 1817 to 1829 in the Union meeting house.

Then in 1829 the first church was built of brick, just north of Stanstead Plain. Here the people worshipped until the present Church was built in 1876 and the first service was conducted by the Rev. John Taylor. Since that time several pastors have served this church and community. It was in 1876 that the congregation was organized. The present pastor is Rev. T. W. Tyson, who came here from Ayer's Cliff Parish in June, replacing Rev. H. A. Carson, D. D., who was pastor here for 26 years.

In this little white church, just north of the boundary, Canadians and Americans work in perfect unity for the betterment of these communities. Societies connected with the church are the Ladies' Aid, Helping Circle, "35" Club, Mission Band, Young People's Society, Missionary Society and Men's Own.

The anniversary chicken pie supper was held Tuesday evening, in the church parlors.

SAINTS BLAST SHAWINIGAN FOR FIFTH CONSECUTIVE VICTORY

**"Sport Shots
and
Pot Shots"**

BY LEN O'DONNELL

The Sherbrooke Saints extended their winning stride to four straight over the week-end when they took the measure of Chicoutimi and Valleyfield to move out in front of the pack in the Senior Group.

And although the team is at present leading the league some of our MONDAY MORNING COACHES are at work making changes on the squad already. And rumors, well, they are so thick one would think that a complete new team will be on the ice next time the club takes to the glossy surface for an encounter.

I suppose if the team should drop a few everybody on the squad would be on their way out. But that's the way in the sporting world—a hero today, a bum tomorrow. We all know that we haven't the best amateur team in Canada, but I think we have a pretty fair club and in the long run they won't be far from the top at the final counting.

I think we should consider ourselves very fortunate that we have the team we have, especially after reading about all the trouble the rest of the clubs have been having trying to secure good players.

The executive is still working to try and reinforce their club, but it takes time, as every pro team in the country is on the hunt for players, and if they have a string on anybody they dictate the policy and tell him where he has to play.

The only players on the market are some who have played professional and want to return to the amateur ranks. But to get back with the select class takes time as they must be released by the pros and that sometimes is very hard.

Building a team is quite a problem, but so far the locals, I would consider, have been very lucky. The new additions to the club have turned out to be successful, and if they continue to improve as the season goes along, well, then, before long things should look bright.

Eddie Dartnell, top scorer of the Senior Group last season, didn't get away to a very good start as pilot of the Ottawa Senators Sunday as his team took a 7-2 drubbing at the hands of Shawinigan Falls.

Dartnell is replacing Alex Connell, one of the Capitals' former hockey stars, who in turn had taken over from Buck Boucher, now with the Boston Bruins. But on the other hand the Senators were missing four of their regulars and perhaps that may have had something to do with it. Eddie may find things a little tough trying to play and coach a club like the Senators at the same time, but on the other hand he may receive plenty of help from T. P. himself.

Anyway good luck to you in your new job as I frankly think you will need it. Don't forget that

Earl Walls Wants Bout With Bruce Woodcock

London, Oct. 26.—(C)—Earl Walls of Toronto wants to take on Bruce Woodcock, British Empire heavyweight champion, in a boxing match and the Walls management is even willing to bet \$1,000 (\$3,100) that the Canadian can whip the Briton.

Harry Levine, manager of Walls, last night issued a challenge for a Walls-Woodcock match at \$1,000 a side shortly after the Toronto Negro knocked out Austria's Kurt Schiegl in 2:07 of the first round of their scrap at Earl's Court Stadium.

Walls, at 188 1-4, gave away 16 1-4 pounds to the Austrian.

In a second bout at Earl's Court, Vern Escoc of Toronto outpointed George Rogiers of Belgium over the ten-round bout.

Escoc scored almost at will over the bulky Belgian but couldn't put his opponent away. Escoc weighed 181 1-2 to Rogiers' 193 1-2.

Valleyfield Downs Verdun Maple Leafs

Montreal, Oct. 26.—(C)—Valleyfield Braves moved into a second-place tie with Quebec Citadelles in the Junior Amateur Hockey Association here last night by defeating Verdun Maple Leafs 6-4 in a league game.

Charles was the big gun for the visiting Braves when he sank three markers. Dougie, Joannette and Plante scored the other goals for the winners. Bellemare led Verdun snipers with a pair of tallies and Bernard and Auger accounted for the others.

London — Earl Walls, 188 1/4, Toronto, knocked out Kurt Schiegl, 30 1/2, Vienna (1); Vern Escoc, 181 1/2, Toronto, outpointed George Rogiers, 193 1/2, Belgium (10).

Rich Ferguson Nominated For Viscount Alexander Trophy; Glen Brown Named Vice-President

Montreal, Oct. 26.—(C)—The Quebec Branch of the Amateur Athletic Association of Canada reached out of its division last night to nominate Rich Ferguson of Toronto as its choice for the Viscount Alexander Trophy.

The trophy, donated by the Governor-General, is awarded annually to the outstanding junior athlete in Canada.

Ferguson is a youngster who has fast developed in his specialties of the mile and three-mile runs and has been named to Canada's British Empire Games team.

For the Norton Crovo Trophy awarded to the A.A.U.'s outstanding senior, the Quebec branch nominated Fernand Payette of Montreal, a wrestler who holds the Canadian title in the 191-pound class and has also been named to

Locals Display Too Much All-Around Power For Cataracts; Hold Edge In All Departments

Sherbrooke Saints chalked up their fifth consecutive victory last night and strengthened their hold on first place in the Quebec Senior Hockey League when they swamped the Cataracts of Shawinigan Falls 7-3 before 2,500 fans at the Arena.

The Saints outshot the Cataracts 40-29 and held the better of the play throughout the game. At the end of the first period the Saints were out in front 2-1. In the middle frame they added three more while the Cataracts notched one. In the final period they again outscored the visitors with two goals to one for Leo Lamoureux's squad.

The game was dull with only a few goals being scored in spots as the Cataracts preferred to take things easy. Jack Carthy, Bucky Buchanan and Hugh Riopelle carried the brunt of the work for the visitors while the locals kept up their pace. Gilles Gouppille took over Bernie Vinet's place and turned in a fair performance. Ten penalties were handed down, eight to the Saints and two to the visitors.

Shawinigan was the first to draw blood when Jack Carthy tipped in Bucky Buchanan's shot to put the Cataracts out in front.

However the only time during the game. However the Saints overcame this in quick order as Ray Barry and his mates, Jimmy Planché and Ossie Carnegie, came through with two quick goals.

Planché tied the first one and Carnegie tied the second within twenty-four seconds to put the Saints ahead and from then on it was all Sherbrooke.

At the start of the second session the fans had barely reached their seats when Ad Cote teamed up with Marcel Fillion to register the Saints' third goal. On the next shift Ray Barry and Jimmy Planché teamed up with Ivan Irwin on a passing play and the husky defenceman drove the rubber by Halverson, who didn't have a chance on the play.

Gouppille then drew a penalty but he returned before anything happened. Sinclair and PrunEAU went off for a high-sticking duel. During their absence Jack Carthy notched his second marker of the evening on a double passing play with Buchanan and Bonin. This seemed to give the Cataracts a new lease on life and they started to press a little harder. The locals defence was throwing their weight around and Lamoureux's crew was trying to keep away.

Claude Savary tallied the next local goal, when he tipped in Red Gouppille's blue line drive. Gilles Gouppille missed from close range when he was right on Halverson's doorstep. Gouppille received his second penalty of the game, but during his enforced rest Reg Sinclair, Fern Gladi, Bill Heindl and Guy Labrie kept things under control until he returned.

At the start of the final period Jimmy Planché received a penalty and during his sojourn Gladi and Sinclair came through with a nice goal to ease matters. It caught the Cataracts could only get he returned Ossie Carnegie was deled a major penalty when he clipped Bonin on the head with his stick. During his absence the locals threw up a strong defense and the Cataracts could only get three shots at Leclerc. Heindl broke away with Barry but he was misaid with their shot. Reg Sinclair was in all alone but he rifled his shot into the pads of Halverson, when he had him beat the whole way. Buchanan came through with a goal on a screened shot. Carnegie returned, but Gouppille got the nod before the Saints could get organized. During his four forwards, but they failed to get anywhere before Gouppille returned.

Checking was getting heavy on both sides with sticks high. When Gouppille joined his mates he proceeded to team up with Gladi and Sinclair for the final tally of the evening on a breakaway.

Chilean Army Claims Upset At Horse Show

Harrisburg, Pa., Oct. 26.—(AP)—The Chilean Army jumping team today claimed the biggest upset of the Pennsylvania National Horse Show.

Its leader, Maj. Pelayo Izurieta, 37-year-old cavalry officer, nailed down the International Individual Championship despite a string of six first places caught by the Mexican team — 1948 Olympic Champions.

It was a heart-quickenning triumph that the Chilean team captain flashed last night before 5,000 horse enthusiasts at the show which ends tonight.

The Chilean triumph was a bitter blow to Mexico's team. The Mexican squad previously won a half-dozen first places in Individual Military Competition. But the Governor's Challenge Trophy event is the prize for the official individual championship.

The Mexicans, nevertheless, remained the outstanding team of the Harrisburg Show on the basis of all-around performance in all eight individual events of the exhibition.

Counting five points for first place, three for second, two for third and one for fourth, an unofficial tabulation would show Mexico with 55 points, Chile with 24, the Republic of Ireland with 20, the Chilean Carabineros (Federal Police) with 7, and Canada with 5.

White Plains, N.Y.—Pete Kennedy, 149 1/2, New York, outpointed Billy Wyatt, 152, Trenton, N.J. (8).

National Hockey League Race Tightens; New York Rangers Vacate Cellar On Basis Of First Victory

New York Rangers came up off the floor to nudge themselves out of the National Hockey League cellar for the first time this season on the strength of a one-goal victory over their former last-place partners, Chicago Black Hawks.

The Blue Shirts were forced to come from behind a first-period one-goal deficit to eke out a 2-1 triumph over Black Hawks in the only league fixture Tuesday night. The New Yorkers with four points made up of one victory and two stalemates in five starts are now in a fourth-place tie with Toronto Maple Leafs.

Montreal Canadiens continue to hold a slim one-point lead atop the six-rung ladder, but the race is tightening for the first four positions which are separated only by one point each.

Boston Bruins, in the runner-up spot, get a chance to overtake the Montrealers tonight when they clash with Rangers at New York in the only league game.

Thursday night Canadiens will meet Toronto Maple Leafs at Montreal while Chicago and Detroit Red Wings clash at the Windy City.

Tuesday night's Ranger-Hawk game was a dull affair for 15,618 fans who turned out to see the 1949-50 edition of the Hawks make their local debut.

Edgar Laprade settled the outcome of the contest at 10:39 of the third period.

Hawks had taken the lead at 7:19 of the opening session when Metro Prystal sank a goal on a pass from Bep Guidolin while New York was short-handed due to a high-sticking penalty on Fisher. They never again were in real contention as Alex Kaleta tied it up for New York at 6:58 of the second period. He carried the puck into Chicago ice and Guy Kyle set him up on a brilliant passing play seconds later.

Near the close of the game, Hawks' passing was wild and their shooting wilder as they sought to pull out with at least a tie.

The most action came in the second period insofar as the rival goalies were concerned. In that heated 20 minutes, Frankie Brimsek came up with 17 of his 32 saves of the night and Chuck Rayner of New York turned aside 15 of his total of 30 shots.

Joey Maxim Tosses Challenge At Charles

Cincinnati, Oct. 26.—(AP)—"I want Charles and I'll cut him to ribbons? That was the challenge tossed at Ezzard Charles of Cincinnati, the N.B.A. heavyweight boxing champion, today by Joey Maxim of Cleveland after a fifth-round technical knockout here last night over Joe Kahut of Portland, Ore., before a sparse gathering of 3,211 in the big Cincinnati Garden.

Maxim pulled no punches in glamorizing for another crack at Charles who won a 15-round decision from the Cleveland here last night.

"I want Charles again," he said. "He's a dirty fighter. He doesn't break clean. He shoves with his shoulder on what is supposed to be a clean break and then socks you with a right."

"I've always been a clean fighter and have respected my opponent as they have respected me. If I can get Charles into the ring again I'm going to cut him to ribbons."

Maxim weighed 182 1/2 and Kahut came in at 188.

In a little stream in the woods, near Lake Memphremagog, on October 5, your correspondent found a bunch of forget-me-nots as fresh and sweet as the ones that grow early in the summer.

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out about 2 pints of bile into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then you blow up your stomach. You get constipated. You feel sour, sunk and the world looks pink.

CHILD'S SULKY SPELLS WORRIED HER UNTIL...

If your child has moody, cross, irritable spells for what seems to be no reason, watch for "hidden" constipation. Oftentimes, youngsters bowels, when moving regularly, do not move completely. As a result, harmful waste remains in the intestine, making the child listless, nervous and not feeling like eating. What may be needed is Children's Own Tablets. They help give the thorough evacuation that quickly helps make most children feel like their usual happy selves. Pleasant tasting, small, easy to swallow. Children's Own Tablets are especially prepared for kids from 3 to 15. Only 25¢ at your druggist. Get a box today.

Seashell Swirl Cues Curls

SEASHELLS are calling the cues for latest hair-do's. The mollusk in particular has inspired Berthold, a style director of the Hair Fashions Council of America, to give fashion-wise girls their new "shell curls."

The mollusk's graceful curves and clean-cut outlines have further inspired New York's Berthold to mould girls' hair into shell-like contours, as the style pictured (right) shows.

For this shell style, hair is parted at the side. From the narrower side of the parting, hair is curved back sleekly toward the neck. From the other side of the parting hair is rolled to curve with the head. This curve was inspired by the seashell's sharply contours (left).

To duplicate this shell's one and only curl, a strand of hair, coiled to match, is lodged above the model's ear.
