

## Remarkable Picture of One of the Most Successful Balls in History of the St. Andrew's Society

A REMARKABLE PICTURE OF ST. ANDREW'S BALL—The Standard to-day presents to its readers the best flashlight picture of a ball-room scene ever taken in Canada. Several attempts have been made to photograph this great Montreal society function, but until this year without success. With the invention of a new process, the Swan Photo Co. was able to take the above remarkable picture without smoke, or any other inconvenience to the guests. The ball this year was one of the most successful ever held, and was under the presidency of Colonel Roert Gardner.

## Thousands of Montreal Ladies Are Now Hard at Work at Their Christmastide Shopping Duties

MONTREAL LADIES BUSY SHOPPING FOR CHRISTMAS—The Christmas shopping is now in full swing, and daily hundreds and thousands of ladies frequent the big retail Montreal business houses. Christmas shopping commenced early this year, and there is a disposition to complete it leisurely rather than wait until the last few days, when the clerks are tired and worn out with the rush. (Photos by Gleason.)

THE FIRST FALL OF SNOW AT BONSECOURS MARKET, MONTREAL—This famous spot was a very busy place during the past week. On market days the area was crowded with bargain hunters, and the farmers drove excellent bargains in all kinds of produce.

will take a decided liking to Moir's chocolates. The Chocolate coating is marvellously smooth, and so fine that no grain is discernible. It is richer, more delicious, more acceptable to the refined palate than ordinary chocolate coating. So many exquisite flavors in each box that it will keep one guessing to think of what the center of the next chocolate will contain. Surprise your lady friend this evening with a box of Moir's.

MOOSE HUNTING IN NEW BRUNSWICK.

It is claimed that New Brunswick has more big game to the square mile of its territory than any other province of Canada. At least one-third of the province is good hunting ground and most easily reached, from the fact that in New Brunswick as a whole there are more than sixteen hundred miles of railway, or a mile of railway for each nineteen miles of area. Moose are

found in at least twelve of the fourteen counties, and both moose and caribou in all but two. Moose, caribou, or deer are found in every county, and sometimes all three are in one neighborhood. The best moose grounds are in the counties of Restigouche, Gloucester and Northumberland, or what is generally known as the North Shore of New Brunswick, being that portion of the province bordering on north-eastern seashore. There is also excellent hunting in the northern part of the counties of Kings and Queens, designated among sportsmen as the "Canaan Woods." These portions of the province have been described as a vast game preserve.
