GERMANY IS NOW OFFICIALLY OUT OF INTERNATIONAL FAMILY GROUP

Letter Containing but Three and a Half Typewritten Lines in German, but Having Great Bearing on World Developments, Formally Submitted to Geneva This Forenoon—No Discussion as to Future Relations of Germany with the League Followed Presentation of Withdrawal Note.

Geneva, October 21.—Germany's divorce from organized international life became complete today. The official note announcing her withdrawal from the League of Nations, signed by Foreign Minister Konstantin Von Neurath, was presented this forenoon.

Explaining that she was retiring under article one of the League Covenant, Germany likewise announced withdrawal from the international labor organization.

Just a week after Germany startled the world by proclaiming her break with the Disarmament Conference and the League, a solemnly appearing man, German Consul-General Krauel, visited J. A. M. C. Avenol, League Secretary-General.

The Consul was wearing a funeral black suit and a black and white cravat as he presented the letter which was only three and one-half typewritten lines in German.

The visit was strictly formal. There was no discussion as to the future relations of Germany with the League.

All other German functionaries of the League and the Labor Office probably will tender their resignations, it was said, but there will be negotiations whereby it was considered probable some would stay, as was the case when Japan resigned from the League.

An official communique said: "The German Consul at Geneva has presented the following note to the Secretary-General today:

"Sir:—On behalf of the German Government, I have the honor to inform you that Germany hereby declares she withdraws from the League of Nations in accordance with article one, paragraph three, of the Covenant."

TWO REASONS GIVEN FOR GERMANY'S WITHDRAWAL

Berlin, Oct. 21.—That the League of Nations was a "forum for Jews and Marxists" and that it had refused to admit Germany from the beginning were two reasons offered last night for Germany's withdrawal from the League.

The semi-official Wolff News Agency in a statement said the League lost the right to represent the civilized world "because it had become an anti-Fascist mass meeting and a platform for Jewish and Marxist oratory."

The Allies' refusal to admit Germany from the first estranged the German people from the League, said the official-inspired Diplomat. Politische Korrespondent, adding that the "Geneva League never deserved this name, which had its origin in the German philosophy of the 18th century."

But not until the German Consul General in Geneva, has presented the withdrawal notice today will Germany know the contents of that momentous document. The decision to leave the arms conversations and the community of nations was announced a week ago. Germany took her time about notifying the League secretary-general of her resignation.

While Arthur Henderson, chairman of the disarmament conference, received a telegram last Saturday advising him of the Reich's abandonment of the arms discussions, the slower method of the mail pouch was chosen to advise the world that Berlin is through with the League.

The Associated Press was reliably informed that the League note will be very brief and formal and will give no reasons.

The German Government regards the letter of notification as a mere formality and believes the world, through Chancellor Hitler's speeches and interviews, has sufficiently been informed regarding reasons.

SHOULD A BAGGAGE FEE BE CHARGED ARTIFICIAL LEG?

Airline Officials Decide It Is All Right If One-legged Man Wants to Sit with One Leg Beside Him and Another in Baggage Car.

Miami, Fla., Oct. 21.—The question arose here as to whether a passenger with an artificial limb, commuting on an air transportation plane, should be charged an excess baggage fee.

Also how many legs a passenger is entitled to.

If the traveller wishes to leave one of his legs with the plane's steward, should he be charged for it according to weight?

There was nothing in the traffic book to cover the case of John Hudson, of Miami, who sought passage on a Pan-American Airways plane and said he desired that his artificial limb go along with his baggage.

After considerable searching of heads, officials of the air line sold him a ticket to Havana and applied a "common sense" rule that if a one-legged man wants to sit with one leg with him and another in the baggage compartment, the said artificial limb would be carried free.

ANTARCTIC RESEARCH EXPEDITION SAILED TODAY

London, Oct. 21.—The steamship "Discovery II," carrying the British Government Antarctic research expedition, sailed today on a voyage of twenty months into the frozen south with the intention of studying the movements of whales and their relation to the direction and source of ocean currents.

The ship carried fifty-two persons, including four scientists. It is commanded by Captain A. L. Wilson.

THE BRITISH CURRENCIES WERE MODERATELY STRONG TODAY

New York, Oct. 21.—British and gold standard currencies, firm one day and weak the next all week, today were moderately strong in the foreign exchange markets.

Sterling opened 1 5/8 cents higher, while the French franc added .07 1/2 of a cent at 5.52 1/2. The Canadian dollar moved up one-eighth of a cent at 95 5/4 cents, which is equal to a premium on United States funds of 3 5/16 per cent.

EMPLOYMENT CODE DRAWN UP FOR "ANIMAL ACTORS"

Los Angeles, Oct. 21.—No more than forty-four hours a week, and a scale of minimum "wages" for wild and domestic animals in the movies are provided in an employment code submitted to the California Corporation Commission today under the California Industrial Recovery Act.

The aristocrat of animal actors—not the lion, but the giraffe—would get no less than \$500 a day. The pay schedule—minimum rates—scales down as follows: rhinoceros, \$350; lions, tigers, leopards, wolves, hyenas, jackals, trained seals and horses, \$25; ponies, burros and mules, \$2.50; alligators by the foot, small ones \$2, others ranging up to \$25; trained bucking goats \$10, and common goats \$1.

Trainers rate \$20 a day, keepers of elephants and reptiles \$25, and ordinary keepers, such as of lions and tigers, \$5.

FATE OF ASCAH GIRLS REMAINS MYSTERY

Although fresh reports prepared by both Royal Canadian Mounted Police and Provincial Police have been studied by the Attorney-General's Department, the seven-week-old mystery of the disappearance of Marguerite and Maud Ascah, pictured above, apparently is as far from solution as ever. The 'teen-age cousins disappeared from Peninsula, Gaspe, while returning to their homes about ten o'clock Thursday night, August 30, after paying a visit to an aunt's house.

UNREST STIRS STUDENTS IN MANY PARTS

Politics, Strikes and Dissatisfaction Responsible for Trouble Among Students in Widely Separated Parts of the World Today.

Unrest stirred among students in widely separated parts of the world today. And their purposes were almost as varied as their scenes of action.

In Monterrey, Mexico, for example, it was politics. There, students contemplated with satisfaction a peaceful demonstration in behalf of Governor Cardenas—politically at odds with both the national revolutionary party and the state legislature.

And in Puerto Rico, the entire student body of the University of Puerto Rico, at Rio Piedras, found itself in a position of virtual suspension, according to Chancellor Carlos Chardon. The students struck three days ago as the climax of protests against the appointment of a Socialist, Alfonso Torres, to the Board of Trustees.

Meanwhile, far from there in Barcelona, Spain, university medical students were on strike in protest against the adoption of the Catalan language—and because the "university is otherwise badly organized."

Topping off these reports of student uprisings was one from Chihuahua, Mexico.

All students in the City of Chihuahua went on strike demanding the resignation of Professor Antonio Ruiz Ayalá, director of schools. And why?

He increased the hours of study to four hours daily.

UPTURN IN EMPLOYMENT

North Bay, Oct. 21.—An upturn in employment conditions, due to an increase in lumbering activities in this district, is reported by H. A. Desjardins, superintendent of the government employment service here, who stated today that the lumbering industry this season had provided employment for three or four times as many men as in either of the two years preceding.

SASKATCHEWAN STILL IN GRIP OF COLD SPELL

Rural Communities Remain Isolated as Snow Piled in Drifts Several Feet High in Many Localities.

Winnipeg, Oct. 21.—A first of the season's blizzards held sway in Saskatchewan today, sweeping over the province from the Alberta to the Manitoba boundary, across southern areas and as far north as Saskatoon.

Snow piled in to drifts several feet deep, isolating rural communities.

Driven by a high wind, the snow blocked country roads and main highways, and many minor motor accidents were reported while stalled automobiles dotted roadsides.

Early today the storm showed no signs of abatement.

In other districts of the west, hit by the first real touch of winter on Friday, it was clearing. From the Rocky Mountains to the Ontario border, all areas had had snow, ranging from ten inches in southern Alberta to a modest two inches in Manitoba.

Forecast: Fresh to strong easterly winds; mostly cloudy; probably some rain this afternoon or tonight, Sunday—strong winds; partly cloudy; probably showers.

Temperature yesterday: Maximum 50, minimum 30.

Same day last year: Maximum 66, minimum 43.

UNIVERSITY IS DESTROYED BY RAGING FLAMES

\$1,500,000 Damage Caused by Destruction of Five University Buildings, Six Barns and Five Structures Outside Campus at St. Joseph, N.B.

St. Joseph, N.B., Oct. 21.—Fire still gripped the new wing of St. Joseph's University at noon today after destroying all other parts of the university, excepting a gymnasium and rink.

Hope had been held the chapel would be saved but this, too, seemed in danger of destruction. The wing contains the museum, library, classrooms and study halls. Cause of the fire is unknown. No one was injured.

Estimates of damage caused by the destruction of five university buildings, six barns and five structures outside the campus increased to \$1,500,000. The amount of insurance could not be ascertained definitely but was placed tentatively at a third of the loss.

Most of the 300 students left for their homes last night and today. Accommodation will be made later for the senior class, probably in Memorial Hall, to enable its graduation, it was said.

Discussion of plans for the university's future would be premature today, a member of the faculty stated.

"Although our loss is a very serious one, God was good to us," he continued, "in that the fire had not started after the boys and staff were in bed, which would have been the case an hour later. It is doubtful if they could have escaped as easily and with as much clothing as they did from the chapel."

Priests and students had just assembled in the chapel for evening services when smoke was detected. Efforts to leave by the main door were fruitless, smoke barring the way. The students resumed their seats in a direction of the fathers, and they were marched in orderly manner to the grounds by a rear exit.

TWO MEN WERE BURIED ALIVE IN GRAVEL PIT

A Third Man Trapped Under Falling Mass at Sherbrooke, N.S., Rescued by Fellow-workers.

Sherbrooke, N.S., Oct. 21.—Two men were buried alive and crushed to death today when a gravel pit caved in near Sonora. A third man trapped under the falling mass was rescued by fellow-workers and escaped with cuts and bruises.

All three belonged to the village of Sonora.

Edward Cross, one of the dead men, is survived by a widow and ten children. He was about fifty years of age.

The other victim is Osborne Gale, twenty-two, single. Bill Archibald, the injured man, was taken to his home in Sonora and a short time later was reported as recovering.

Fifteen men were working in the pit when the accident occurred. Without warning the upper wall broke and crashed downward.

Cross and Gale were completely buried and several minutes of shovelling were required to dig them out. Both were dead.

Archibald was only partly covered by the gravel. He was released very soon after the cave in.

Carried out with very good results, according to an official communique today.

WARNS FRANCE INFLATION LOOMS UNLESS PRESENT BUDGET IS BALANCED

Paris, Oct. 21.—Solemn warnings that inflation looms unless the budget is balanced were sounded before the finance committee of the French Chamber of Deputies today.

Both Premier Edouard Daladier and Budget Minister Lucien Lamoureux joined in the warning, as the Premier carried on his fight for legislation to balance the budget—legislation on which he has staked the life of his cabinet.

M. Daladier went so far as to say that inflation would come within five or six weeks unless the budget is balanced.

INCREASE REGISTERED IN SEPTEMBER PAPER EXPORT

Ottawa, Oct. 21.—The export of paper and the manufactures of paper in September was valued at \$6,920,004 compared with \$5,633,433 in September, 1932, says a report issued today by the Dominion Bureau of Statistics.

The largest item was newsprint which accounted for \$6,612,258, most of it going to the United States. The values of the export to leading purchasers were:

United States, \$5,814,387; Australia, \$199,797; Great Britain, \$171,680; Argentina, \$163,375; China, \$86,650; Japan, \$70,885; New Zealand, \$31,717; British South Africa, \$11,544; Peru, \$10,866; Chile, \$10,755; Irish Free State, \$8,192; Cuba, \$7,865; Havana, \$5,576. Canadian newsprint went to twenty-eight countries last month.

SPEEDY RECOGNITION OF RUSSIA BY UNITED STATES IS FORECAST

It Appeared Certain, However, that Considerable Opposition to Roosevelt's Move Would Appear when Congress Reconvenes—American Federation of Labor and American Legion Have Already Taken Stand Against Recognition—Soviets Ready to Rush Representative to White House.

Washington, October 21.—A speedy recognition of Soviet Russia, with a resultant increase in Russo-American trade, was forecast authoritatively today close upon the receipt of word that the Communist state intends literally to rush its representative to the White House.

In an informed but unofficial quarter, it was stated that Maxim Litvinoff, the stocky, out-spoken Soviet Commissar for Foreign Affairs, probably would sit down with President Roosevelt "in about two weeks."

Litvinoff, by employing fast boats and trains, could make the lengthy trip from Moscow to Washington in about ten days.

The whirl of preparation set off by the President when he read to newspapermen his letter to Mikhail Kalinin, President of the Soviet Central Executive Committee, that the time had come to "end the present abnormal relations" between the two countries, today brought a generally favorable reaction at Washington.

Some officials expressed the private opinion that should the Roosevelt-Litvinoff conversations solve the difficulties in the path of recognition, a trade spurt passing beyond the \$100,000,000 mark could be expected.

The President himself warned that his letter to Kalinin did not in itself constitute recognition, but from within his administration came authoritative indication that this result could be expected in little more than a month, if not sooner.

Talk progressed so far that there was speculation today that Henry Morgenthau, Jr., Governor of the Farm Credit Administration, would be prominent among those considered as an Ambassador to the Soviet state, if and when problems between the two countries were solved.

It appeared certain today that some opposition to the President's move toward recognition would arise when Congress reconvenes. The American Federation of Labor and the American Legion already have expressed their opposition. There was little indication, however, that sufficient strength could be mustered in the Senate to defeat confirmation of an Ambassador should the President have occasion to name one.

Behind the prediction of officials that exports of beyond \$100,000,000 to Russia might be expected should recognition be granted, lay the sound foundation of negotiations already far advanced between the American Export Trading Company and the Reconstructing Corporation for credits of more than \$50,000,000.

The credits, which almost assuredly would be arranged in the event of recognition, would account for the purchase of 1,000,000 bales of cotton, in addition to sizeable purchases of heavy machinery of various sorts.

Officials have seen in Russia a ready market for rail equipment, as well as mill machinery. Farm administration experts are known to believe that Russia would take two million bales of cotton annually if conditions were propitious.

MOSCOW SEES THREE-FOLD BENEFITS FROM AGREEMENT

Moscow, Oct. 21.—Russia hailed as a boon to world peace and to better trade relations today its agreement with the United States to negotiate concerning the resumption of diplomatic relations between the two countries.

Events moved swiftly after President Roosevelt announced he had accepted an invitation from President Roosevelt, dated October 10th, and added he would send Foreign Commissar Maxim Litvinoff to Washington to represent the U.S.S.R.

Plans were rushed for Litvinoff to depart for the United States within a very few days. Government officials gathered to consider the points around which the Washington conversations should be centered.

"President Roosevelt's action can only serve the cause of world peace and encourage friends of peace in the whole world," a Foreign Office spokesman exclaimed.

As the developments were greeted with cheer and enthusiasm throughout the world, Russia claims that the resumption of official relations, namely:

1. Greatly increased credit facilities, the lifting of barriers against some of its goods, and a strengthening of its position in the Far East as regards Russo-Japanese relations.

Russia, believing that the world economic situation has worked it into a position to bargain with the United States in its bid for trade, is expected to ask that the United States meet two terms if trade between the countries is restored to a big scale basis.

These are sufficient credits with which to make purchases in America, and removal of U.S. restrictions against Soviet goods. Russia claims it does not enjoy equality with other countries in access to the American market because of what it terms discriminatory restrictions set on articles produced by "forced labor."

A WEAKER FRANC CAUSED A DROP IN GOLD PRICE

Washington Financial Service Claims Roosevelt Has Not Abandoned Devaluation Idea — Forecasts Announcement Early in December. Toronto, Oct. 21.—Another week of back-tracking took United States industrial stocks through their low points established in the break of last July and cancelled more than half the advance registered in the "new deal" bull market between March and July 19. Canadian stocks, both industrial and mining, are still holding on an average above their low levels of July.

While the heavy selling of the present week was attributed mainly to an unloading by holders disappointed over the side-tracking of currency inflation, the week's operations have been of special interest to compilers and students of market charts, many of whom contend that a reaction in a bull market will seldom cancel more than half the upswing. The 1933 advance in stocks began in March at 43.9 of the standard statistical averages and reached its top at 95.9 on July 18. The averages had worked back to 68.4 on Thursday of this week, which is two points below the half way mark. The rally carried the market forward to 74.4. The reaction that followed the 1932 bull market wiped out seventy-seven per cent. of the advance, thus demonstrating the unreliability of charts. A similar reaction in this market would take the averages back to 56.1 of sixteen points below its present position.

Canadian distillery stocks provided the fireworks in this week's slump just as they did in the July break. Walkers common was pushed up to twenty around 52, with the other stocks trading with the group. Held stubbornly in the early part of the current sell-down in the New York market until the story got about that the United States administration would put an embargo on liquor imports. The general view now is that the embargo is only a temporary affair to allow pending actual ratification of repeal. Nervous holders, however, dumped considerable stock on Thursday and Friday, and Walker's common broke to 33. Distillers Seagram to 15 1/2, Canadian Industrial Alcohol to 10 1/2. These prices compared with 23 for Walkers at the low of July break, 17 for Distillers Seagram and 10 for Industrial Alcohol. The group rallied in the late trading on Friday and closed one to three points above the low marks.

Weakness in the Canadian gold stocks this week was explained chiefly on the ground of the drop in the price of bar gold in London, which in turn was due to weakness of the franc, the world's principal gold standard currency. Canadian gold producers are marketing their output in London through the agency of the Canadian government, and the cut in the bar gold price means reduced incomes for the mines. The franc has been slipping in recent weeks. Exchange speculators are reported to be selling the franc on the expectation that France will be forced off the gold standard in time. Easing down on the talk of devaluation of the United States dollar in terms of gold has also played a part in slowing down the market for gold shares. A Washington financial service, however, says the devaluation idea has not been abandoned, and forecasts an announcement around December 1st reducing the quantity of gold represented in the United States dollar from twenty-three to about fifteen grains. The operation would have the effect of fixing the value of gold to about \$30 an ounce.

NEW BRUNSWICK BY-ELECTION IS TODAY NEARING DRAMATIC CLIMAX. Continued from Page 1. Mackenzie, Sask., and down east in Restigouche-Madawaska, N.B., bordering for a distance the picturesque Bay of Chaleur, oratorical guns will cease fire tonight. In the pocket-like constituency of Yamaska, in Quebec, whose settlement dates back to the French regime, the fireworks will continue on Sunday.

In all three ridings, widely separated geographically, the elected representatives in the House of Commons. The result will be the first political test in the Dominion since the by-elections which will fill all vacancies in parliament, with the exception of South Oxford, Ont. In the case of the vacancy for the Ontario constituency, caused by the death several months ago of the sitting Liberal member, T. M. Cayley, by-election writs remain to be issued.

STOCKS TURNED DOWNWARD ON WALL STREET EXCHANGE. New York, Oct. 21.—Stocks turned downward after an early buying flurry today, led by falling commodities and rails. Alcohols turned heavy, while tobacco and other industrials were also in supply. Trading was quiet. Initial advances of one to two points or so were sharply reduced or cancelled in Case, Harvesters, Allis-Chalmers, Union Pacific, Santa Fe, Deere and New York Central. National Distillers slumped three points, while losses of one to two or more were recorded by American Telephone, Seaboard Oil, American Tobacco, Liggett and Myers, U. S. Industrial Alcohol, Delaware and Hudson and U. S. Smelting. United States Steel eased fractionally.

CROWN CONCLUDED CASE AGAINST SIX COAL COMPANIES YESTERDAY

Continued from page 1. cargoes of British coke which his company purchased in 1932 from the Elias Rogers Company and Andrew Baile Limited. "Have you imported any British coal during 1933?" "Yes. We were forced to import some because of the strike in the United States I might say, however, that it did not come from Durham."

"Did you try to secure some there?" "I instructed our agents that we would be glad to buy 75,000 tons, but they were told the companies much preferred to export the manufactured product or to sell us between 200,000 or 300,000 tons. That wasn't a bad position, considering they had never placed a pound of coal here. Very nice people."

John Baile, president of the Susquehanna Collieries Limited, was questioned by the Crown concerning the cargo of British coke which his company imported in 1932, and which was sold to Montreal Coke and Manufacturing for \$7.50 a ton, with the understanding that Susquehanna could secure coke from a bull market will seldom cancel more than half the upswing.

Mr. St. Laurent produced several letters exchanged between Mr. Baile and the Hon. Mr. Reid, regarding attempts of the Susquehanna to secure coal from the Amalgamated Collieries. Evans and Reid wanted Susquehanna to secure their coal from the Amalgamated's representatives in Canada—the Webster interests, but Mr. Reid in his letters insisted in importing direct. "In one letter from Evans and Reid it was stated Sir Alfred Cove was very sympathetic to Susquehanna but appeared to be prejudiced against R. S. Lane, Limited."

ANNUAL SCHOOL CLOSING HELD LAST EVENING. Continued from page 1. two choruses, "School Days" and "Sing When You're Happy," in a very creditable manner. Cynthia Baker played two piano solos and Imogene Allen and Geraldine Lane were heard in a piano duet. A Japanese song by pupils of grades eight and ten met with much approval, as did "An Old-fashioned Garden," rendered by the pupils of grade nine in costume.

Regret was expressed that the generous benefactor of the school for many years, Mr. J. E. Wilder, of Montreal, was unable to be present. His prizes, however, will be continued this year on the same basis as in previous years, a total of two hundred dollars being provided by him for prizes in the high school grades and for athletic equipment for the gymnasium. A good financial year was reported by the chairman, with no additional tax to meet the extra expense of the recent addition to the school building.

A special opening for the pupils of the lower grades was arranged for the afternoon when the parents of the children were present in large numbers. An attractive programme was carried out, including songs by grade one; a sketch, "The Discovery of Canada," by the boys of grade five in costumes of the period; songs by grades two, three and four; a French song by grade three, all of which showed careful training and preparation.

Dr. G. E. Read, of Sherbrooke, was introduced by Principal Stevenson as "a life-long friend of the school." Dr. Read held the attention of the young pupils and in reply to his own question, "Why do you go to school?" gave some inspiring reasons for the pursuit of knowledge. Not merely to be able to make money, but to teach habits of work, how to work honestly, to play so that playing might help work, as Dr. Read's summary of the purpose of school life.

A playlet by grade five girls and a song by grade six concluded the programme. In the senior section the winners of the prizes offered by the school for first place in each grade and the percentage marks of the successful pupils were: Grade VI, Dorothy McDougall, 86; grade VII, Peggy Richardson, 86; grade IX, Barbara Pierce, 82; grade X, Sid Plunkett, 82; grade XI, Vernon Mayhew, 87; Evelyn Browne, 72; James Stevenson, 71; Keith Lane, 70.5. The Commissioners' prizes for second place and the percentages of the winning pupils were: Grade VI, Susan Lewis, 83; grade VII, Lloyd Lane, 88.6; grade VIII, Marjorie McGee, 84.7; grade IX, Ronald Barrett, 80.4; grade X, Imogene Allen, 77. The special prizes, the Commissioners' scholarships to Bishop's University, were won by Vernon Mayhew, Geraldine Lane and Catherine Spils, Robichaud. A scholarship was awarded the Women's Institute and Dorothy McClintock won the W. C. T. U. prize for hygiene with a percentage of 93. Other prizes were awarded as follows: Latin.—Grade IX, Damon Barrett, 81%; grade X, Bernice Glass, 79.5%. History.—Grade IX, Ronald Barrett and Annie Pearson, 79%; grade

GERMAN PRINCE IN CUSTODY AS NAZI SUSPECT

Allegedly Incriminating Documents Said to Have Been Found by Vienna Police Who Searched Palace Occupied by Prince Bernhard Von Sachsen-Meiningen. Vienna, Oct. 21.—The German prince Bernhard von Sachsen-Meiningen and his wife, Princess Margot, were arrested in Carinthia today in connection with an alleged Nazi conspiracy. The arrest was occasioned by the Prince carrying a Nazi flag on an automobile he drove through the streets of Klagenfurt yesterday.

Taken to a police station, he aroused suspicion when he asked permission to telephone to his wife at his castle near Pitzelacten, Carinthia. The police, it was alleged, overheard him instruct her to "destroy the documents." Thereupon the police, who were listening in, notified the gendarmes at Pitzelacten. A gendarme lorry loaded with twelve men rushed to the castle, arrested the Princess searched the house and grounds and found allegedly incriminating documents. These were said to include letters from Dr. Joseph Goebbels, Reich Minister of Public Enlightenment and Propaganda, and Wilhelm Goering, Chancellor Hitler's right hand man.

The Princess was taken to Klagenfurt and questioned extensively. She was allowed later to return to the castle for the night under the guard of two detectives, while the Prince was held in jail. The Princess today again was taken to Klagenfurt, where the inquiry continued. X. Imogene Allen, 90%. P. N. G. CLUB MET. Mrs. E. Bert Dundin, Warren street, was hostess for the monthly meeting of the Past Noble Grand Club at her home on Thursday evening. Business discussed included plans for a card party early in November. During the evening, bridge was played three tables and the prize was won by Mrs. E. J. Astell. Refreshments were served at the conclusion of the games. Peru, Ind., Oct. 21.—Two gunmen invaded the Peru City police station late last night, herded three officers into the basement, and escaped with a machine gun, a high-powered rifle and two revolvers. It was the second time in less than a week that desperadoes had raided Indiana City police stations in search of arms. Last Saturday night three men obtained a machine gun, rifles and a number of revolvers from the Auburn police station. Officers locked in a cell by the gunmen at Auburn have since said they believed the raiders resembled some of the ten convicts who escaped from the Indiana State prison at Michigan City on September 26th.

SHARP UPWARD TRADE TREND IN PAST WEEK

Clothing Manufacturers State Wage Problem Has Been Satisfactorily Settled and Factories Are Now Working Full Time — Improvement in Steel Industry. Montreal, Oct. 21.—According to Dun's Bulletin today, statistics gave the most impressive performance for some time during the past week. Montreal's bank clearings of \$75,997,784, while 26.6 per cent. below those of the previous week, were sixteen per cent. above the total of the corresponding week of 1932. Loadings of revenue freight for the week ended October 7th totalled 53,189 cars, an increase of 1,929 cars over the preceding week, and 418 cars over the corresponding week of last year. The total for the week ended October 7th marked a new high for 1933 to date, and is the first time in five weeks to register an increase over the like 1932 period.

Freight passing through the St. Lawrence canal during September totalled 1,129,076 tons, the heaviest September traffic since 1928 and an increase of 68,034 tons over September, 1932, while the gross earnings of both the C. P. R. and the C. N. R., for the week ended October 14th showed a decrease as compared with the corresponding week of 1932. Those of the former were only \$16,000, while the latter were \$273,273. The packing industry is said to be enjoying favorable operations, especially in the export market. As a result of the trade agreement with the United Kingdom, exports of Canadian bacon and ham have been on a very much larger scale. There has also been an improvement in the price situation.

Up to the end of August Canada had shipped 43,726,500 pounds of bacon and ham to the United Kingdom this year, approximately double that of the corresponding period last year. Improvement is noted in the steel industry. Orders were recently placed for the rolling of 31,500 tons of rails, which will keep this particular plant occupied for at least three months. A prominent oil concern reports a considerable expansion in business since the beginning of the summer. Manufacturers of clothing state that the wage problem has been satisfactorily dealt with, and that factories are now working full time, with, in some cases, additional men being employed.

A further indication of returning confidence is the report of the installation of 1,401 telephone in homes during the period September 23th to October 3rd. Of this number 34.1 per cent. represented new subscribers and 65.9 per cent. former subscribers. Wholesale grocers continue to report a good volume of business in the aggregate. Boots and shoes are in fair demand.

Contrary to the general opinion, unemployment at the end of September was about the same as in the corresponding month of last year. Industry is apparently able to increase production faster than it can provide new jobs for workers. In the cattle market, all good qualities found a ready sale. Exports amounted to 2,945 head, which brings the total for this year to date to 42,428 head. The price trend in both butter and cheese was easy. A persistent decline in sterling affecting export business and the report of large stocks were the reasons given.

The move made by the Montreal Harbor Commissioners to expedite the movement of grain through the local port appears to be bringing results. Deliveries to date amount to 57,906,187 bushels as compared with 84,709,025 in 1932, a decrease of 31.6 per cent., whereas the preceding week the decrease amounted to 44 per cent. Collections in the retail trade appear to have changed little. They are reported as somewhat disappointing and wholesale fairly satisfactory. Fourteen district failures, with liabilities of \$166,500, were reported for the week.

CLAIMS ACCUSED PLANNED REICH FIRE LONG AGO

Marinus Van Der Lubbe Plotted to Burn Reichstag About a Year Ago, Laborer Testifies at Arson Trial. Berlin, Oct. 21.—A laborer named Organistka testified today at the Reichstag fire trial that the burning of parliament building was planned long ago by Marinus Van Der Lubbe, young Dutchman who has confessed setting the blaze.

The trial was in its 21st day. Organistka told the court how he met Van Der Lubbe and a companion about a year ago while hiking in southern Germany. He added that he had a political argument with two hikers over his wearing of the Swastika badge. During the course of the argument the witness continued, Van Der Lubbe said: "The Reichstag's days are numbered." Organistka testified that he then left the two hikers, reporting: "Your politics is doomed. There is only one Nazism." On Van Der Lubbe, he said, rejoined "if that becomes true, then it will be done with fire and sulphur."

MR. PICOBAC Chats with Alberta Range Riders

In Calgary, after Mr. Picobac had finished his investigation into local smoking conditions, his enthusiastic friends and admirers insisted on running him out to see the High River Ranch of the Prince of Wales.

Here a group of jolly cowboys surrounded him on their cow ponies and offered him the Freedom of the West. "We represent the Range Riders of the great free Province of Alberta," they told him. "You can go as far as you like." "Thanks, boys," said Mr. Picobac. "I'm going through to the Coast. Tell me what does Alberta think of Picobac tobacco?" "It's a mild... cool... sweet smoke," replied the cowboys in chorus. "And it's good for making cigarettes, too," Mr. Picobac reminded them. "You bet!" agreed the bunch. "That's what we use it for."

NEW ERA IN TRANSPORTATION BRINGS AIR SPEED TO EARTH

Hide-bound conservatives may stick to their conviction that air travel has its hazards, but with engineers now adapting the streamline principle of airplane design to boats, railroad trains and motor cars, there is little room for doubt that people soon will be seeing the country at a speed of nearly two miles a minute from a transcontinental air liner or the cushions of modern earth-bound speedsters.

Ordinary citizens, statesmen, baby chicks, grocery orders and spare parts will go whizzing along the surface of the earth with almost the speed of the night air mail. Above left, a new tear-drop, three-wheeled automobile capable of a speed of 120 miles an hour. Right, a new air transport, hailed as the latest achievement of streamlining in air planes, on its initial flight. It is used on one of the transcontinental air lines. Lower right, modern streamlined train now under construction at Philadelphia for a transcontinental railroad. It is expected to travel at a speed of 120 miles per hour. Lower left, blocks of wood used in actual wind tunnel tests, illustrating how streamlining lessens air resistance, greatly increasing speed, through elimination of back drafts and unnecessary air turbulence.

QUEBEC BISHOP PRESIDED OVER CONFIRMATION

Conducted Confirmation Services in Thetford Mines and Officially when Candidates Made First Communion.

Thetford Mines, October 21.—The Lord Bishop of Quebec held a confirmation service in St. John's Church on Sunday evening. The candidates were presented by the rector, Rev. Mr. Seeley, while Rev. Mr. Parry, of Maple Grove, acted as Bishop's chaplain.

The church, which was beautifully decorated with leaves and flowers, was filled to capacity. Before the Bishop preached his sermon, he took the opportunity of thanking and congratulating the congregation on its "magnificent contribution to the Restoration Fund, being one of the best, if not the best, in Canada." His text was taken from the 24th chapter of Joshua, the 15th verse, "Choose you this day whom ye will serve."

The following candidates were confirmed: Mr. G. Wright, John Talmadge, Douglas Donaghy, Merritt Bateman, Victor Magwood, J. Herbert Tremblay, Vernon Smith, Doris Talmadge and Elva Bardon. The organist for the occasion was Miss Bertha Hammerich. The Bishop arrived in Black Lake with Rev. Mr. Parry on Sunday evening and had supper at Mrs. P. Hammerich's, whose guests he was during his stay. After the service Mrs. Hammerich invited friends to meet the Bishop.

On Monday morning the Bishop, assisted by the rector, celebrated Holy Communion and the newly confirmed candidates, accompanied by their relatives and godparents, made their first Communion. After the service, the candidates had breakfast with the Bishop and rector in the Masonic Hall, Mr. A. S. Johnson, Jr., and Mr. A. E. Johnson, wardens, accompanied by their wives, were also present at the meal, which was planned, arranged and under the supervision of Mrs. W. Cooling, Mrs. W. A. Christie and Mrs. P. Hammerich were hostesses. Mrs. S. Bateman and Mrs. H. A. Vaudry poured coffee, and Mrs. J. Johnston, Mrs. Gordon Simons and Mrs. D. Simons assisted in serving.

The Bishop in a short address expressed his pleasure at being present at breakfast with the newly confirmed candidates, and thanked the ladies for their valuable work in making the occasion a success. The Bishop left shortly afterwards for Quebec.

ODD FELLOWS HELD ANNUAL BOWLING TOURNAMENT. The Odd Fellows of District No. 15 held their annual bowling tournament in Thetford Mines Saturday, October 14. The teams that participated were two from Quebec, three from Inverness, three from Kinross, four from Thetford and one from Lennoxville.

Games were played in both the Odd Fellows' and Masonic halls all afternoon and evening. Ayton Crutchank's team from Lennoxville, Lodge, Kinross' team from the tournament, each player receiving a cup, while Mr. Moshier's team from Inverness came second. Howard McIlrath's entry of Thetford Odd Fellows won the consolation prize.

The Odd Fellows' ladies' committee served a bean supper to all the players and at the close of the evening a buffet lunch was served to the visitors.

General Notes. Friends of Mr. D. Evans will be glad to hear that he is now recovered.

Rheumatism Got Him. 80-year-old Pianist is Relieved by Kruschen. Although old age has not yet kept this man from his occupation as a pianist, rheumatism did threaten to do so recently.

"Two years ago," he writes, "I was suddenly taken with rheumatism, all down my left arm. I tried many things—all to no purpose. It then commenced taking a half-teaspoonful of Kruschen Salts every morning, and soon felt benefit. My arm, which was painful and nearly useless, to my astonishment is now, after a few weeks' treatment, quite better. I am more than pleased, as I am a pianist, and playing made matters worse. I am just entering my 80th year, and am in good health."—G.L.A.

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminatory organs to proper working order, and so prevent constipation, thereby checking the further formation of uric acid and other body poisons which undermine the health.

CHILD WELFARE CLINIC FOR- CED TO CLOSE OWING TO LACK OF FUNDS

Owing to lack of the funds the Child Welfare Clinic of Sherbrooke will be temporarily closed. Such was the decision regretfully arrived at by the directors at a well attended special meeting held yesterday at the Clinic's headquarters in the Whiting Block, with the president, Mrs. H. E. Goodhue, in the chair.

of the Clinic's funds, a general dis- cussion ensued, resulting in the un- animous decision that the lack of funds made it impossible to con- tinue the good work for the time being.

The President was requested to convey the grateful thanks of the directors to Dr. W. E. Baker, who for the past three years has gener- ously given his professional services free of charge.

The Clinics will be held as usual next Wednesday and Thursday, after which the Clinic rooms will be closed and activities suspended temporarily.

HIGH SCHOOL GIRLS' CLUB DISCUSSED

Thirty-five High School girls met last evening for supper at the Mac- Kinnon Memorial Y. W. C. A. After supper, which by the way was exceptionally good, the girls discus- sed their reasons for wanting to form a High School club.

It was later decided to postpone plans to organize a club but to meet every Friday for supper, with a business session afterwards. The hope was expressed that every gathering would be as happy and interesting as the initial event.

HART HOUSE QUARTET HAS TRAVELLED MUSIC-LOVING WORLD

Lord Willington, former Governor General of Canada, speaking of the Hart House String Quartet, to be in Bishop's University Hall on Wed- nesday evening, said: "I would be most happy and would help in every way to see the Hart House quartet make a tour of the British Empire, for they are veri-

SYDNEY "REN" CLOUGH.

One of the young men who has never missed a Horse Show or an Exhibition since forty years is Sydney L. Clough, who was in his younger days one of the best horse- men in Canada, and who had an international standing as a good judge of horses. It is not just to please "Ren" that the Horse Show is being held again next month, but it would not be like old times if the old-timers did not see him there.

WOMAN ACCUSED OF HITTING A YOUNG CHILD

Sentence Suspended in Case of Mrs. John Nutbrown, of Lennoxville, Who Appeared Before Judge J. H. Lemay in Magistrate's Court Yesterday.

Accused of striking a three-year- old child, Mrs. John Nutbrown, of Lennoxville, faced Judge J. H. Lemay in the Magistrate's Court yesterday afternoon and wept when Lawyer Cesar Gervais, in request- ing the Court to order her to put up a bond to keep the peace, label- led her "a daercus woman."

The woman was charged with as- sault, and admitted when she took the witness stand that she had struck Romeo Ducharme, son of Amedee Ducharme, because he had taken her little daughter's toy.

Her little daughter, the witness pleaded, was playing on the veran- dah. Mrs. Nutbrown, noticing that the boy was interfering with her little girl's pastime, gave the latter a short stick with which "to de- fend herself."

Mrs. Nutbrown said that the boy grabbed the stick away from the girl. Then Mrs. Nutbrown in turn grabbed the stick away from the boy and struck him on the arm.

Mr. Gervais, who found himself in the role of "prosecutor," ex- hibited a stick to the Court and asked Mrs. Nutbrown if that was the one she had used. "Any way," he said, "it was one like this."

"Yes, I used a stick like that. Just like that. I use it on my own child, too, when she does not be- have. A mother has to bring up her children..."

Mr. Gervais: "And you have used it on your husband, too? Isn't it true?"

"I object, Your Honor," exclaim- ed Ashton Tobin, who was defend- ing Mrs. Nutbrown.

Yes—object to that question? counselled Mrs. Nutbrown, glancing at her lawyer.

The Judge over-ruled the objec- tion and the question was allowed. "Isn't it true that you struck your husband one night?" Mr. Gervais asked.

ANNUAL SCHOOL CLOSING HELD LAST EVENING

Lennoxville High School Gym- nasium Filled to Capacity for Annual Distribution of Prizes—Junior Section Held Closing Yesterday Afternoon.

The gymnasium of the Lennox- ville High School was filled to capacity last evening when the formal opening and distribution of prizes took place. Mr. Arthur T. Speid, chairman of the board of school commissioners, presided and welcomed the audience of parents and friends of the school.

In his annual report, Principal J. W. Stevenson gave the enroll- ment of the past year. Two hun- dred and seventy-four pupils had attended with the largest upper grades ever known in the school. In grade eleven, nine pupils mat- riculated and seven are now attend- ing Bishop's University.

Dr. Stevenson's report stated that the school had received dur- ing the past year the largest govern- ment grant in its history and the largest in the province. Fea- tures of the school life of the year in addition to its regular work, were a mother-craft class in which eleven diplomas were granted from the V.O.N.; reproductions of the- oretical paintings from the National Gallery at Ottawa, placed in the class rooms by the I.O.D.E.; a Women's Institute scholarship; phys- ical drill in all grades, a rugby team and basketball and badminton for recreation periods.

Dr. Stevenson requested that parents send their children to school in good condition, with plenty of sleep and rest and limited so- cial engagements. The success of co-operation between parents, pu- pils and teachers and on the good will of the community.

Dr. E. E. Boothroy was the principal speaker of the evening and his humorous way of present- ing wholesome truths met with hearty appreciation. Impressions from school life, he stated, were received in two ways—the ex- citations from instructions of teach- ers and in classes, and the uncon- scious, from the restrictions and the discipline of the school. These taught the pupil of life in the world, of law and order and of be- havior as a good citizen of Can- ada.

The programme prepared by the pupils was a thoroughly enjoyable one, each grade presenting its own special number. Grade seven sang. Continued on Page 2.

We Ask You to Become a Subscriber to the Public Library

It is inconceivable that the City of Sherbrooke should be without its Public Library and Free Reading Room when smaller towns in the Townships have them.

The Library is doing its level best with the best of the new literature at a reading cost of less than one cent a day. Books were taken out within a year to the number of 30,038, of which 27,180 were stories by the best authors and 2,858 were books of instructive literature.

In the Reading Room there are 19 Newspapers and 23 Magazines — both English and French dailies. There is a good average attendance. In the Library are 7,000 books, and many valuable Reference Books.

The Library is open each day from 9.30 to 11 a.m.; from 2 to 5 p.m. and from 7 to 9 o'clock each evening. It is a veritable House of Knowledge and Entertainment, open to all the people of Sherbrooke and Lennoxville.

The subscription is but \$3 a year and there is no limit to the number of times a book can be returned and another one issued. We invite you to come and see the good work being done.

JOHN LEONARD, President. MISS FARMER, Librarian.

OLIVE MANN A cordial invitation is extended to all my valued customers to visit our new salon at 44 Rue de la Fabrique, Quebec, where I shall carry an extensive stock of tailor mades, gowns and wraps, imported hats and lingerie with accessories from New York and Paris.

ONTARIO CLUB PAYS TRIBUTE TO JACK MINER

Friends and Fellow-Townsmen of Canada's Great Naturalist Assemble at Testimonial Banquet Given in His Honor.

Kingsville, Ont., Oct. 21.—It is written in the Bible that "a prophet is without honor save in his own country," but such cannot be said of Jack Miner, the Canadian naturalist, and his home town of Kingsville, Ont. The Lions Club of that town, which consists of the officials of the town, the executive of the Board of Trade and other prominent citizens, sprang a surprise on their best known citizen, Jack Miner, in the form of a testimonial banquet, which was one of the most enthusiastic affairs that ever took place in this southern town in Canada.

The citizens realize that during the last twenty-five years the Jack Miner Bird Sanctuary has become known all over the world and at the same time Jack Miner's home town of Kingsville has been put on the map. Canadians all know the value of his bird sanctuary, not only from the conservation standpoint, but also from the tourists. Both the provincial and federal governments have rightly spent millions of dollars in national parks, yet Jack Miner challenges any one to produce a picture showing more cars lined up in these public parks than he can show lined up along the roadside in front of his humble home. People from all parts of the world have been attracted to his home town of Kingsville solely to visit his bird sanctuary during the spring and fall migration seasons of the year.

Jack Miner said that during the past twenty-five years he had been the honored guest and sole speaker at banquets in the Waldorf-Astoria Hotel in New York City, where Hon. Alfred E. Smith had introduced him. He had been a guest in the Stevens Hotel, where he and the President, Herbert Hoover, of the United States, were the sole speakers at the Isaac Walton banquet, where twelve hundred sportsmen sat down at once. He had been honored by being given the Outdoor Life Gold Medal in Denver, Colo., while his American friends in Washington had honored him by making him vice-president of the American Forestry Association and many other such honors, but none had made him feel more humble than for his own home town citizens whom he has grown up with from a boy to spring such a surprise and to have their support and thanks was worth more to him than dollars and cents and any other honors he had ever received. "Yes, and not only to have the support of the men of my own age, but of the young men of this generation makes me want to live forever in my humble way, trying to do something for others."

IVES HILL

Mrs. J. R. Cowan, who has been in Montreal for the past two weeks, has just returned to the Ives Hill "Y" held a very pleasant social evening at the home of Mr. and Mrs. R. Sutor at Milby. Recent visitors at the home of Mr. and Mrs. E. Crawford were Mr. and Mrs. Frank Holtham and family and Mr. and Mrs. Fred Wheeler and daughter, of Sherbrooke, and Mrs. G. Price and Mr. and Mrs. J. Spray and daughter, of Lennoxville.

Prayers were said at the late residence of Rev. C. T. Lewis, rector of St. Paul's Church, Bury, where the cortege ended its way to St. Paul's Church, Bury, where an impressive service was held. Rev. C. T. Lewis pronounced an appropriate eulogy, recalled the sterling qualities of a Christian heart, and spoke of his long friendship with the late Mr. Turner.

WINTER AIR MAIL SERVICE OVER ARCTIC IS NOT SAFE

Prospects of North Atlantic Air Line Via Greenland Next Year Have Faded with Col. Lindbergh's Report.

London, Oct. 21.—Prospects of a North Atlantic air line via Greenland next year faded as British aviation experts discussed the results of Colonel Charles A. Lindbergh's Arctic survey as disclosed to them by the airman.

From their conversations with the pilot, now on a visit here with his wife, the experts have reached the conclusion that Lindbergh's summer survey led to his forming the opinion that summer service offers no difficulties which could not be overcome.

The idea of winter service, however, is considered out of the question for the present and there would need to be a test of winter flying before a definite conclusion on this point could be reached.

However, the Telegraph's Commentator reported today, Lindbergh "is manifestly in no way perturbed in respect to Arctic storms or fogs or provisions of suitable landing places."

The Times' commentator said "A winter flight along the route may be expected to follow Lindbergh's summer survey and no one can forecast its result."

The flight which has just ended is a step in the right direction, although establishing a regular service by any route may have to await a number of other experiments."

FRESH DIFFICULTIES LOOM ACROSS HAVANA'S HORIZON

Troubled Regime of President San Martin Now Facing Impending Breakaway of Powerful A.B.C. Radical Society.

Havana, Oct. 21.—Threats of a new crisis faced the troubled regime of President Ramon Grau San Martin today.

They loomed in the prospect of an impending breakaway by the militant and powerful A.B.C. radical society—one of Grau's strongest supporting arms when he took the reins after the overthrow of Carlos Manuel de Cespedes.

They were intensified by reports of unrest bred of labor difficulties throughout the island, the spread to eighty-four of malaria cases in the city of Havana, and trouble concerning the imprisonment of officers captured in the National Hotel battle.

"The A.B.C.R., not to be confused with the A.B.C. student organization, of which it is an offshoot, is disgusted with the government's proceedings," said Armando Rodas, leader of the group, who is participating in the participation. Now it is withdrawing."

The members of the flock, farm hands say, will live high for the next few weeks to make up for the weight they lose on the march.

SPORTING NOTES

BODY-LINE BOWLING CONTOVERSY WILL BE OPENED

Adelaide, Australia, Oct. 21.—The whole body-line bowling controversy which threatened to rupture cricket relations between Australia and the Mother Country, possibly leading to abandonment of the Aussies' tour of England next summer, will be reopened at a special meeting of the Australian Board of Cricket Control here on November 16.

The rumpus which resulted from Australian resentment of the howling tactics of Harold Larwood during the English tour has flared for many months, but not long ago it appeared amicably settled, and the itinerary for the Australian tour of England was arranged.

Several members of the Australian Board, however, were not satisfied with the stand taken by the M.C.C. and demanded another meeting to thresh the matter out.

MARIE REACHED SEMI-FINAL IN COLLEGE TOURNEY

Kingston, Ont., Oct. 21.—Marcel Marier, of Drummondville, Eastern Townships men's singles champion in 1932, has established himself as one of the most promising of Canadian college tennis players. Marier, playing for the University of Montreal, reached the semi-final in his first bid for Dominion college honors before acknowledging defeat to the defending titleholder, Laird Watt, McGill ace. The scores were 3-6, 6-0.

In the final act, a seasoned campaigner, will meet another court veteran, Edwin Connelly, modest young Ottawa who calls Queen's his Alma Mater. Connelly smashed McGill's hopes of making the singles final an all-McGill affair by winning a grueling three-set battle from Bob Murray, McGill's second ranking star. Connelly's superior strength gave him a 3-6, 8-6, 6-3 victory.

Results of the singles final may decide the team championship. McGill boast seven points to Queen's trailing them are University of Montreal and University of Toronto, each with four. However, the semi-final and finals of the doubles also must be played today.

McGILL RETAINED TRACK AND FIELD CHAMPIONSHIP

Kingston, Ont., Oct. 21.—McGill retained her intercollegiate track and field championship here yesterday, defeating University of Toronto and Queen's with ease as Phil Edwards, great Olympic middle distance runner from British Guiana, and Gordon Meiklejohn, former Michigan State University weight man, accounted for four Red triumphs between them.

Meiklejohn, winning twice over Queen's Abe Zvonkic in the field events, established two new records. Zvonkic broke the intercollegiate record in capturing the javelin throw at 162 feet, 10 1/2 inches.

The strong Red force from Montreal amassed a point total of 73 to Varsity's 38 and Queen's 24. Bill Fritz, one of the most promising short distance runners in Canada, scored smashing victories for the Tricolor in the 220 and 440-yard events, beating Edwards at the quarter.

But the point-winning power of McGill was too widely spread for the Blue and Tricolor foes. Meiklejohn gave the Redmen a great start with his record-breaking performance on the field. He threw the 16 pound shot 39 feet, 2 1/2 inches to shatter the former mark of 39 feet, 1 1/2 inches. And when he came to better the discus mark by more than three feet with a toss of 122 feet, 3-10 inch.

Edwards took up the work for McGill on the track, winning the mile and half mile with ease and placing second to Fritz in the 440. Old Phil was never in danger as he stepped home in 4:39 for the mile with his team-mate, R. C. J. Goode, in second place and J. McGladdery, of Varsity, third.

The 220 was just as easy for the colored medical student who is perhaps the greatest runner on the continent over this distance. He was timed in the extremely slow figure of 2:08 3/5. W. J. Hasser, McGill, was second, and J. Bonnell, Queen's, third.

HOCKEY

OLDEST AMATEUR HOCKEY TEAM IN WORLD WILL CARRY ON

Montreal, Oct. 21.—The oldest hockey club in the world, Victoria, will continue in active existence. Yesterday survived a crisis in their historic career when it was announced they were on the verge of withdrawing from competition in the Senior Group, but, at a meeting of the players and executive on Monday, they were unanimously agreed to operate in their Diamond Jubilee year.

Lorne White, secretary of the club, issued the following statement: "As a result of the players' meeting of the Victoria Hockey Club, it was unanimously decided to operate again this coming season."

"As long as amateur players of the calibre required for senior hockey are available, it is the feeling of the club executive that they should operate a team."

Rumors that certain players intended leaving the club led to the consideration of suspending activities. The conference was called yesterday and it was left to the players to decide for themselves. Assurances were given that the members of the team would "stick together" and with that, it was agreed Vics would start out on their sixtieth annual campaign.

It was also arranged to enter a Victoria team again in the J.A.H.A., although three members of the 1932-33 juniors will likely be brought up to the seniors this year for a trial. This trio of players is: Howard Neville, centre; Joe Desrochers, right wing, and Jimmy Orlando, defence-man.

DANVILLE GOLF CLUB MEMBERS CLOSE SEASON

Mixed Four-Ball Handicap Competition Final Event—Prizes Presented and Year's Activities Reviewed.

Danville, Oct. 21.—Henry Smith and Mrs. W. Greer were winners of the mixed four-ball foursome handicap competition which brought the Danville Country Club season to a formal close. The club house and tea tables were appropriately decorated for the tea which followed the match and preceded the distribution of prizes.

Angus McIntyre, in the absence of the president, C. H. Shoemaker, complimented the members on the successful season they had experienced. The men's and ladies' teams played several friendly home-and-home matches, while several members had participated in the various field days. The men's teams were successful in every game played on their home course, while they had lost but three events on foreign fairways. In July, the ladies' section sponsored a highly successful field day.

H. K. Sherry and Mrs. A. E. Wright presented the ladies' prizes, while H. W. Wilson and Mrs. A. E. Ward distributed the men's awards.

The prizes were awarded as follows: Opening mixed two-ball foursome, Mrs. W. Greer and L. E. Findlay; handicap sweepstake on May 20, N. Henry Smith, mixed two-ball foursome on August 19, Miss Edith Watson and N. Henry Smith; handicap sweepstake on August 25, Francis Smith; Isleigh Grange trophy, Dr. R. H. Stevenson, runner-up, T. Heron; Waterloo trophy, W. Wilson, runner-up, Francis Smith; best net prizes, A. E. Ward, Francis Smith, Stanley Dawber and Dr. R. H. Stevenson; ringer competition, Jack Cleveland; tombstone competition, L. E. Findlay; sealed hole competition, T. Heron; mixed foursome handicap on October 14, Mrs. W. Greer and Henry Smith.

The prizes in the ladies' department was awarded as follows: match play Class "A", Mrs. W. Greer, donated by Mrs. A. E. Ward; match play, Class "B", Mrs. Eric Morrison, donated by Mrs. D. H. Other prizes were won and presented during the season for matches against par in six classes and for sealed hole competitions.

Director of the National Hockey League, Frank Patrick today announced the names of referees appointed for the season which opens on November 9.

The new National Hockey League officer selected twelve referees and five reserve officials, out of over fifty applications. With two exceptions, all the whistle blowers chosen have had previous experience in the National Hockey League as referees.

One familiar face will be missing from the line-up of official arbiters. Cooper Smeaton, former referee-in-chief and one-time manager of the Philadelphia Quakers, owner of that team operated a National Hockey League franchise, will not officiate this season. Frank Patrick announced that a contract had been tendered to Smeaton as a referee but that he had replied that he was obliged to decline it owing to pressure of his own personal affairs.

When the whistles shrill the start of another National Hockey League schedule, the following will be in the thick of the struggle as referees: Mike Rodden, Odie Clegburn, George Mallinson, Jerry Desjardis, Bobby Hewitson, Jerry Goodman, Cy Denny, G. Smith, Bill Stewart, Ken Paul, Harry Cameron and Jack Cameron. On the reserve staff, to see action only if regular referees through illness or injury are unable to officiate, are: Dinsmore, Ed French, Bert Corbeau, Vic Wagner and Billy Bell.

Kobe, Japan, Oct. 21.—Sixty-six persons, including an English woman, were feared to have perished when the coastwise steamer Yashimama foundered in a typhoon off Suma near here.

Owners of the vessel said their figures showed that of the crew of fifty-eight and fifty-nine passengers, fifty-one survivors had been reported. She was en route here from Bepu, Japan.

The Yashimama, formerly the British mine sweeper Sunflower, at first was reported to have burned, but later it was learned she had foundered in the storm, almost within sight of her destination, according to survivors.

The typhoon also carried death to fishing fleets. Several ports reported that craft had foundered or were missing.

YOUNG BOY, FACING DEATH, SHOWED PLENTY OF NERVE

Fatally Injured in Train Mishap, Thirteen-Year-Old Joliet, Ill., Youth Joked with Hospital Attendants.

Joliet, Ill., Oct. 21.—Thirteen-year-old Carl McFarland, the doctors will tell you, had plenty of nerve. A freight train hit him today as he walked toward school.

To the ambulance driver he grinned and said, "Hello, Pal." He rode to a hospital without whimpering and underwent a blood transfusion without flinching.

When they told him his right leg must be amputated, he replied, "That's nothing. A train killed my father in Cincinnati four years ago." The boy died soon after the transfusion.

AGED COUPLE ARE MARRIED AFTER A LENGTHY ROMANCE

Seventy-Year-Old Buffalo Woman and a Sixty-Four-Year-Old Maine Doctor United in Matrimony.

Buffalo, N.Y., Oct. 21.—After a fifteen year romance, a seventy-year-old Buffalo woman and a sixty-four-year-old Maine doctor have been married here, the bride revealed today. She is now Mrs. Henry B. Esmond. The doctor is a resident of Cumberland, Me., his bride, the former Mrs. Annie Ironside, explained. The doctor returned to Cumberland immediately after the ceremony yesterday and Mrs. Esmond plans to join him in about a week.

JAPANESE PROTEST RACIAL DISCRIMINATION BY NAZIS

Government and People Are Highly Indignant at Germany's Branding Them as "Inferior."

Tokyo, Oct. 21.—Japan has protested to Germany against Nazi racial discrimination as anti-Japanese, a foreign spokesman revealed yesterday.

He added that the Japanese government and the people of Japan are highly indignant at Germany's branding us inferior.

Referring to "the well-known sensitiveness of the Japanese on racial matters," the spokesman pointed out that even in the United States the Japanese are not subjected to the same treatment as negroes. Germany, he said, has linked them in the same category.

Ambassador Matsuzo Nagai at Berlin reported to the Foreign Office that he had visited the Vice-Minister of German foreign affairs, calling his attention to "the fact that speeches of Nazi leaders and legislation by the German Government have specified discriminatory treatment of the Jews, negroes and other colored races — banning mixtures thereof with the German race."

Nagai declared the Japanese government would be gravely concerned if the German government and its people practise such racial prejudice against the Japanese.

LONDON WHEAT AGREEMENT UPHELD BY FARMERS' BODY

Manitoba Pool Elevators' Delegates Recommend Principle of Quota Be Carried Right Back to the Farm.

Winnipeg, Oct. 21.—First of the organized farmers' associations to formally endorse the London wheat agreement, which gives Canada an export quota of 200,000,000 bushels, the Manitoba Pool Elevators delegates, in annual meeting, adopted a resolution of approval yesterday. The endorsement of the 150 delegates was unanimous.

In announcing the decision, the spokesman for the co-operative stated the resolution recommended that the principle of the quota be carried right back to the farm—the placing of each farm on an individual quota of deliveries. Details of the plan, it was added, would have to be worked out by the federal and provincial governments.

MARINE MONSTER IS ONLY A BIG EEL, NATIVE CLAIMS

Savants Define Vancouver Island Creature as "Cadorosaurus" or "Hiaschuckoluk" but Fulford Harbor Resident Contends It Is a Huge Conger Eel.

Vancouver, Oct. 21.—Savants may be scratching their heads trying to decide what sort of creature Vancouver Island's marine monster is, but A. Davis, of Fulford Harbor,

REQUEST FOR COAL PROBE IS MADE IN NOVA SCOTIA

Long Memorandum Containing Fourteen Contentions Presented to Premier Macdonald by Nova Scotia Coal Protective Association.

Halifax, Oct. 21.—Immediate investigation into all phases of the Nova Scotia coal industry has been asked of the provincial government by representatives of the Nova Scotia Coal Protective Association.

A long memorandum containing fourteen contentions was presented to Premier L. Macdonald and Hon. Michael Dwyer, Minister of Mines, by the delegation, headed by A. J. Mason, of Springhill, chairman.

The brief said its sponsors realized bulk of legislation that might be passed to assist in the coal problems would be a matter for the Dominion Government, but it was felt in view of royalties received by the provincial administration and the fact that a large percentage of Nova Scotians depended on the industry for a livelihood, the Nova Scotia body should consider the present coal situation one of its major problems. Co-operation of the body was promised for "any practical measure that might be evolved."

Salt Spring Island, is quite certain "cadorosaurus" or "hiaschuckoluk" if you prefer, is a huge conger eel. In a letter to a Vancouver paper, Davis jocularly objects to the "infernal cheek of someone coming along purloining my baby—which is over eight years old—and actually christening it Amy." He asserts in serious vein, such monsters do exist in local waters.
