World News In Brief

Auckland, N.Z., May 14.—(CP)—The Canadian cruiser Ontario sailed for home today after a 14-day goodwill visit to New Zealand.

On the homeward voyage the cruiser will stop at Suva, Fiji Islands, to drop off stores for New Zealand army and air force units stationed there. Owing to a waterfront strike no merchant ships have been able to ship the stores, and the Canadian navy made the Ontario available to New Zealand authorities.

Taipei, Formosa, May 14.—(Reuters)—The United States will spend \$5,700,000 before the end of June to build up the Chinese national army, Maj.-Gen. William Curtis Chase, chief U. S. military adviser to the nationalists, announced today.

He said the money is in addition to \$50,000,000 already allocated for building up the army.

Port Moresby, New Guinea, May 14.—(Reuters)—An island crater in the Suanons, 500 miles from Mount Lamington, scene of the most devastating volcanic eruption of modern times, stirred ominously today.

Officials warned that there were mounting signs that an explosion may be near in the long-silent crater of Bougainville island.

Lamington, 500 miles away in New Guinea, erupted in January, spraying molten rock thousands of feet in the air and killing 4,000 people.

Rangoon, Burma, May 14.—(AP)—The Burmese government has been confirmed today the capture by the communists of a government stronghold near the southern coast port of Tavoy.

The government said the communists drove into the town in passenger buses, overpowered the government garrison and burned the court house and police headquarters.

The announcement added that government troops from Tavoy had been sent to try to retake the town.

London, May 14.—(AP)—David Lees, 4-year-old came upon one of London's big, red letter boxes with the door open and climbed in. His sister, Linda, 6, closed the door behind. It locked. Police and passers-by fed David candy and fruit through the letter-slot and stroked his head to pacify him until a postal worker arrived to release him.

Tulsa, Okla., May 14.—(AP)—A determined bid by Governor Earl Warren of California for the 1952 Republican Presidential nomination was forecast today by party leaders as the Republican national committee members wound up a week-end conference here.

Alerting Of U.K. Brigade Linked With Iran Dispute

London, May 14.—(AP)—Britain told its trouble-shooting 16th independent parachute brigade group today to bring itself to an instant state of readiness.

Simultaneously, Foreign Secretary Herbert Morrison, interrupting his Whitman holiday on the Isle of Wight—kept in touch with the foreign office by phone on the latest developments in Iran.

There was speculation that the two events were connected and that Britain is ready to make a strong stand, if necessary, to hold its rich oil concession in Iran.

But this speculation was without official confirmation. A war office spokesman stressed that the parachute brigade is not under sailing orders. He described the alert order to the brigade as routine war office business.

The unit now is assembling at Aldershot, 35 miles from London. It is known as the "fire brigade," because it is geared for emergencies.

Some sections of the British press have been demanding a stronger attitude toward Iran. The line taken by these publications is that Iran's oil is so important to Britain and the Atlantic powers that Britain should resist any attempt by Iranian authorities to take over the installations of the Anglo-Iranian Oil Company, as Iran's parliament has voted to do.

A few days ago the Economist, a weekly independent journal of opinion, said Morrison has drafted a note to Iran hinting that Britain will resist by force, if necessary.

The recall order cut short by two weeks the training exercises that units of the parachute brigade have been taking in North Wales, Kent and Devon. Members on leave also are being concentrated at Aldershot.

The air ministry said the transport command which provides planes for the parachute troops is co-operating with the war office in planning for the brigade.

Chinese Expand Bridgehead Across Choyang River; New Offensive Is Expected Soon

London, Ont., Is Canada's Drama Centre

By KAY REX

London, Ont., May 14.—In keen anticipation of a week of lively theatre, Londoners settled down today to watch the Dominion drama festival take the boards.

Canada's top amateur theatre talent made busy last-minute preparations—boring up on lines, laying out wardrobes and sets, checking lighting effects and attending to the hundred other details that make a play.

The public's interest in the affair was illustrated in the case of the Vancouver Repertory Theatre which opens the competition tonight with its production of Thomas Job's "Therese."

At least six spectators from Vancouver accompanied the cast of eight and director Christine Chanter when they arrived yesterday. As many as 300 outsiders—actors and actresses as well as just plain theatre-goers—are slated to attend the opening.

In addition, a group of four has been sent by the Newfoundland Little Theatre to study the festival with a view to entering next year. These are Christopher Frere and Mrs. Elsie Homer, both of Cornerbrook, Allan Vannan, St. Johns, and Mrs. Neala Griffin, Grand Falls.

Finally, 15 persons are scheduled to arrive today from Saint John, N.B., bearing an invitation for the 1952 festival to visit that city.

The festival's honorary chairman, D. Parke Jamieson of Sarnia, Ont., said other groups from points without entries in the festival will be on hand, seeking drama tips from adjudicator Jose Ruben's criticism.

The New York theatre director at a press conference yesterday lauded the current little theatre movement as "a school not only to train the actor but also the public."

He felt amateur theatre was the "salvation" of the modern stage. Scene of this 12th national drama competition and the first in London since 1947 will be the Grand Theatre, home of the London Little Theatre, one of the strongest amateur groups in Canada. It boasts a membership of 10,000.

Most visitors will be doing more than just seeing the eight productions competing for the Bessborough trophy.

A three-day Canada theatre conference will open Tuesday under the chairmanship of Dorothy Somerset of Vancouver. This is scheduled to bring out discussions on all phases of theatre craft.

The brigade, which returned from service with the Rhina army in Germany about two years ago. It consists of three parachute battalions together with airborne units of Royal Engineers and Royal Signals.

Tehran, Iran, May 14.—(AP)—Fearing for his life, Premier F. Mohammed Mossadegh moved last night into the sanctuary of the parliament building. He says he will remain there until his "dream"—nationalization of Iran's huge oil industry—is completed.

Mossadegh fainted and fell from the rostrum yesterday after telling the Majlis (lower house of parliament) of threats on his life by the fanatic secret Moslem sect of Fedayan Islam, whose assassination tactics have made it a power in Iranian politics. Carried to the parliament dispensary, he recovered a few minutes later.

The jittery, elderly premier was laughed at during his talk by skeptical deputies, many of whom felt he used dramatics characteristic of him to pressure them into quick action.

However, the Majlis speedily acceded to Mossadegh's demand that it elect five members to work jointly with a senate five-man group on a board to run the giant Anglo-Iranian Oil Company when it is taken over from British control.

All five board members named by the Majlis are known supporters of Mossadegh—making it appear there will be little compromise with Britain.

Nationalization of the British-owned oil company has been approved by parliament. Starting with the assassination of Premier Ali Razmara last March, the drive for the take-over was marked by killings, strikes in the oil-fields and clashes by rival demonstrators.

After yesterday's vote Mossadegh ordered servants to take his

Fighting Along Front Limited Almost Entirely To Patrol Actions.

By OLEN CLEMENTS

Tokyo, May 14.—(AP)—Chinese communist troops today expanded a threatening bridgehead across the Choyang river on the central Korean front despite the pounding of American guns.

These forces northeast of Chunchun may spearhead a second spring offensive by the 500,000-man Red army, expected in about 10 days.

Elsewhere along the 100-mile front, United Nations patrols probed no-man's-land with little opposition. However, two sharp clashes broke out on the western front.

One American task force ran into a Chinese ambush and pulled back after a battle. The second prolonged fight began when an armored American outfit ambushed a Chinese patrol.

For the first time in the war, U.N. forces are getting a small but steady trickle of Chinese deserters, AP correspondent John Randolph reported from this front.

The Reds appeared to be avoiding strong contact while rushing fresh troops into build-up areas on the west and central fronts.

Bad weather screened their movements Monday. AP correspondent George MacArthur reported the Chinese deepened their penetration below the Choyang river.

The bridgehead poses a flanking threat to Chunchun, key to rail and road networks, 45 miles northeast of Seoul.

Allied pilots hunting through the rain clouds reported Reds steadily filtering southward. Air men reported more than two divisions, roughly 15,000 men, were concentrating north of Chunchun. The other main build-up was on the west central sector, north and northeast of Seoul.

An Eighth Army spokesman said the Reds could strike again any time they wanted. The consensus was that they would in about 10 days.

There were hints that the new onslaught would be backed by greater fire power—and possible planes.

A new airfield was discovered at Pyong, 25 miles northeast of Pyongyang, the Red Korean capital. B-29 Superforts tore it up with 130 tons of bombs.

Lt-Gen. Earle E. Partridge, U. S. Fifth Air Force commander, said the Reds "could build up (an air force) fairly rapidly. . . . We are keeping a watchful eye on them."

A Red patrol surrounded and over-ran on the western front was equipped with an unusual number of automatic weapons. Associated Press correspondent John Randolph reported.

The first Chinese spring offensive was by infantry alone. It cost the Reds 75,000 casualties by U. S. estimates. That drive began April 22 and died out in 10 days.

Probing U. N. troops killed or wounded more than 2,600 Reds during the week-end.

Low clouds held allied air force sorties down Sunday and Monday. Prime targets were Red efforts to supply their front line troops for the expected assault.

On the ground, patrols played a grim game of hide-and-seek.

U. N. patrols reaching out in front of their lines on the western and central fronts found few Reds, or none at all. AP correspondent Nate Polowetzky said "the lack of ground contact sounded an ominous note." It indicated the communists had pulled back to strike.

Allied artillery and planes rained explosives on the hills north of Chunchun on the central front. Chinese are believed massing north of that ruined road centre.

Combined air and ground fire Sunday failed to dislodge Reds discovered dug into ridges northeast of Chunchun.

Farther to the northeast, the Reds showed stiffening resistance from the Inje area to the east coast. The U. N. line here runs through rugged mountain terrain north of the 38th parallel.

The communists appeared determined to keep South Korean troops from driving a wedge into the Red supply road linking Inje and Kansong on the Sea of Japan. Three Sunday battles wound up with both sides right where they started.

Delayed reports from the east coast said artillery halted an attack by a battalion of Reds.

Behind the other end of the battle line, U. N. troops were having trouble with civilians sneaking back into war-shattered Seoul. About 110,000 have returned despite army attempts to keep them out. Guards were posted to try to keep the city clear for the military.

Sidelights On Conflict In Korea

Canberra, May 14.—(Reuters)—The 14,000-ton Australian aircraft carrier Sydney will join the United Nations fleet in Korean waters this fall, Prime Minister Robert Menzies announced Saturday. The Sydney will relieve the British carrier Glory.

Tokyo, May 14.—(AP)—A B-29 Superfort and five allied fighter planes were shot down by Red ground fire during the last week, Far East Air Force headquarters said Sunday.

The B-29 exploded just after it completed a run over railroads at the North Korean capital of Pyongyang May 7.

Washington, May 14.—(AP)—The United States Air Force has lost 212 planes in Korea while the communists were losing 149.

In making these figures public Saturday, the U.S.A.F. offered no explanation. However, the American aircraft have been used in support of ground forces and in bombing missions to enemy-held areas guarded by anti-aircraft guns.

On the other hand, the U.S.A.F. has had difficulty in locating enemy planes to destroy. In the first few weeks of the war, the originally North Korean communist air force was wiped out. Since communist China entered the war she has chosen to base her planes safely in Manchuria, sending them out only on occasional sallies close to the Yalu river boundary.

West Central Front, Korea, May 14.—(AP)—The Chinese communists Saturday sent 15 American war prisoners back to United States lines. They were picked up by South Korean troops and sent to a rear-area hospital for observation.

Brisbane, May 14.—(Reuters)—Army minister Josiah Francis yesterday said Australian army reinforcements for Korea will be flown immediately to Japan if needed.

He said he has asked for a report on claims that shortage of Australian reinforcements in Korea is making it necessary for men wounded four or five times to return to action.

U. S. Eighth Army Headquarters, Korea, May 14.—(AP)—Lt-Gen. James A. Van Fleet yesterday paid tribute to the fighting ability of South Korean troops on the eastern and western fronts and said they now are ready "to make a major contribution to the war effort."

The United Nations ground forces commander issued a statement saying the South Koreans "have shown great aggressive spirit all during early May which furnishes a tremendous example to the rest of the Republic of Korea troops."

Tokyo, May 14.—(AP)—The South Korean government yesterday expressed its gratitude to Britain for the gallant action of the Gloucestershire regiment in the Chinese communist offensive last month.

It conveyed to the British embassy the South Korean national assembly's "deep regret" for the heavy casualties suffered by the British Commonwealth troops.

Wellington, N. Z., May 14.—(AP)—The first 12 days' recruiting for additional New Zealand units to go to Korea has brought in 2,000 volunteers, defence minister Thomas MacDonald announced today.

He said that New Zealand forces in Korea will enter a training camp early next month.

considering the odds. But whenever the command has had a change between a bold move or a cautious one, it has usually been cautious.

Now, when the Chinese are obviously reorganizing after some murderous losses, there seems to little U.N. desire to make even swift, limited but determined counter-attacks, although this is the best time to do so.

But bold offensive action and counter-attacks, even if they do not risk the safety of the army, would mean casualties. And ever since the dark hours of last fall the command has been extraordinarily and has made every effort possible to avoid them.

By RUSSELL BRINES
 Tokyo, May 14.—(AP)—A lanky, eager war correspondent drifted out of the Korean dusk one night and asked permission to accompany an American outfit preparing for an attack.

The battalion commander tried to talk him out of it, because it was April 23, the second night of the heavy Chinese offensive on the western front.

But John Randolph, Associated Press war correspondent, went along anyway.

Washington Stirred By Rumors About New Top Command Plan For Korean War

Nazi Rise Is Causing Some Concern

By GEORGE BOULTWOOD
 Bonn, May 14.—(AP)—Are the Nazis making a comeback in western Germany?

This question has been asked by alarmed allied and German officials since the startling election successes of a new political party which openly backs Nazi ideas. Nearly 400,000 West Germans voted for the radical right-wing Socialist Reich party May 5 and gave it 16 seats in the lower Saxony state parliament.

The party won 11 per cent of the state vote by calling for the restoration of the "many good features of Nazism," rule by the 10-per-cent elite of the country through the Hitlerite "leadership principle" and the neutralization of Germany between east and west.

The Bonn cabinet says it will ask the new federal constitutional court to outlaw the party, but it may be months before a ruling is handed down.

Meanwhile, Bonn must be content with outlawing the party's jack-boots "Reichfront" guards, and with asking the various state governments to keep the activities of the neo-Nazis in bounds.

The present situation has a spine-chilling resemblance to the 1930's when Hitler's thugs bullied their way into power.

S.R.P. speakers at mass rallies trotted out many old clichés. There was talk of "German blood" and "German honor." There was no apparent party program or any reasoned discussion of West German politics. The Bonn government was condemned as "the traitors collaborating with the allies."

Another popular party line was the demand for evacuation of Germany by all four powers and the refusal to have anything to do with aiding western defence. The party doesn't bar rearmament. Only "German blood" must be shed only for Germany—not to cover the retreat of the western armies.

In the end the Japanese did most of the fighting themselves.

Newsprint Prices Will Rise Again

Quebec, May 14.—(AP)—An increase in the price of newsprint will occur "some time in the future," an informant in touch with the pulp and paper industry said today.

Newsprint manufacturers have reported steady increases in the cost of producing newsprint, he said.

The informant was commenting on a Washington dispatch yesterday which said Senator Edwin C. Johnson (Dem. Colo.) has called on United States price officials to head off a reported plan by manufacturers to boost the price of newsprint.

A spokesman for Price Brothers and Company Ltd., commenting on the same story, said at present there is no plan for an increase. Rising cost to newsprint manufacturers was mentioned April 27 at the annual meeting of Price Brothers.

H. J. Symington, chairman of the board, said in a statement newsprint production costs were growing in an "alarming way."

He said: "Exchange premiums are lower and taxes are much higher. This is a matter of grave concern to both the manufacturers and publishers and meeting the situation will require reason and understanding on both sides."

Telegrapher Has Been Acquitted

Prince George, B.C., May 14.—(AP)—Alfred John Atherton, 22-year-old railway telegrapher, Saturday night was acquitted of manslaughter in connection with the Canoe River train wreck last November that took 21 lives.

A jury found the former Canadian National Railway employee innocent after deliberating 40 minutes of December.

Hotel Burned, Victims Sought

Sorel, Que., May 14.—(AP)—Police and firemen began searching the ruins of the ancient Quebec Hotel today for possible victims of a general alarm fire which destroyed the interior of the three-story building Saturday.

Chief Police Albert Tanguay is conducting an investigation into the cause of the blaze which caused serious injury to an elderly roomer, who jumped from the second floor of the hotel.

Aldie Pelouquin, 62, suffered fractures of the pelvis and both wrists when he landed on the sidewalk.

The fire started in the basement and spread rapidly through the rooms. Part of the hotel is 85 years old and a later addition is 35 years old. Only the walls remained standing.

Only a few persons were in the hotel when the fire started.

The building is a block south of the ill-fated Verdon Hotel which was destroyed in a similarly fierce blaze last winter. One man lost his life in that fire.

Singapore, May 14.—(Reuters)—A conference with great bearing on United Nations military plans in southeast Asia opens here tomorrow with representatives of the United States, Britain and France attending.

Caution Is Keynote Of U.N. Strategy In Korean Fight

By JOHN RANDOLPH
 Somewhere in Korea, May 14.—(AP)—There has been a lot of talk about the Korean war becoming a stalemate.

As a matter of fact it has been a stalemate for the last 5½ months.

Except for the evacuation of northeast Korea and some guerrilla fighting in the south, the main front has never moved more than 85 miles since the first week of December.

All the sound and fury of battle since hasn't changed the real military situation in Korea.

The United Nations army is playing it cool, keeping out of the clinches, and cutting up its adversary when it can without trying too hard for a knockout.

Last November the allies were on the Yalu river. North Korea was on the mat and the referee was up to the count of nine.

Then Red China stepped in. Since Red China stepped in, almost gone out of its way to avoid taking chances with the Chinese—almost as if the Far East command was marking time deliberately until the diplomats settled the war or their governments sent over enough troops to win it.

This doesn't mean that the army command over here isn't playing the game. It has done wonders

Dance Bands Beat Out
Merrier Financial Tune

By RICHARD KLEINER
New York — (NEA) — The
dance band business, which had
been hitting some pretty sour fi-
nancial notes since World War II
began, is showing signs of perk-
ing up.

But whether it will ever get
back to its pre-war glory is doubt-
ful. Ralph Flanagan, who should
know about such things, isn't
sure.

"Sure, I could be optimistic and
say the bands will be as big in
six months as they ever were,"
says band leader Flanagan. "But
I honestly don't know. It's pretty
doubtful."

Flanagan is leading the first
new band to capture public fancy
since the war. Most of the other
top bands of today are hold-overs
from the early 1940's and before—
men like Tommy Dorsey, Sammy
Kaye, Guy Lombardo, Flanagan,
who has had only a little better
than a year with his own crew,

His orchestra has sparred the
band revival, pulling it up from
the depths it was plunged into
by the war. But the 31-year-old
former Sammy Kaye arranger and
pianist thinks there are terrific
obstacles these days, which may
hold back the band business.

"Musicians are tough to get
today," he says, "at least, it's
tough to get them to go on the
road. It costs them, say, \$5 a day
in hotels and maybe \$3 a day to
eat. Over a week, that's \$77. If

mediately following, Lawrence
Tilton was elected president and
a vote of appreciation was given
to Solan Gray, the retiring pre-
sident, for his faithful service
through the years in his several
offices. He came into this Company
in 1924. R. J. Meekren was re-
elected vice-president; Frank S.
Ladd was hired as treasurer and
superintendent, replacing the late
Charles H. Howe, who served in
this office for eight years. Lloyd
O. Selby was appointed secretary-
clerk.

A dividend of two per cent was
declared payable on July 14, to
stock holders as of July 1.

A MUNICIPAL MEETING
The Rock Island municipal meet-
ing was held on Monday evening,
May 7, in the Town Hall with
Mayor Lawrence Tilton and all
six councillors in the chairs.

The minutes of the last meet-
ing were approved as read by
secretary E. Gagne. Bills were
presented and ordered paid.

It was voted that the municipali-
ty would make an offer of \$250
to Archambault and Toule for a
sewer plan for the municipality,
for a sewer system and other
purposes.

Plans were discussed and ap-
proved regarding more sidewalks,
resurfacing streets at West Park,
and a new street to serve as an
outlet from West Park onto the
Beebe road. The undesirable
building on Riverside Avenue
joining the Holmes Memorial Park
Boulevard, is being torn down
and taken away by
Roy Brothers.

THE HELPING CIRCLE
The Helping Circle of Stanstead
South Church met at the home of
Mrs. Daisy Platt with Mrs. Ste-
wart Taylor for the assisting hos-
tess.

The meeting was opened by the
president, Mrs. Raymond Wheel-
lock, by reading the scriptures
from Act XI. She also presided
over the business transactions.

The secretary's report was given
and approved but the treasurer's
report was omitted as Miss E.
Taylor was absent. A report was
given that the financial standing
was much the same as at the pre-
vious meeting.

Plans were completed for the
rummage sale being held on May
19, by the ladies' societies in the
church hall.

The members who have not
turned in their Sunshine bags are
asked to do so at the next meet-
ing to be held May 23, at the home
of Mrs. William Davis, on the Beebe
Road.

The evening concluded with the
serving of delicious refreshments.

were enjoyed.

Finnish Blocks Merge
To Start New Party

Heilsinki. — A new middle-class
party has been formed in Finland
to compete in the free general
elections this summer.

Known as the Finnish People's
Party, it is really a fusion of the
recently dissolved Liberal party
and the independent middle class
party, formed some two years ago,
but never really successful.

The new party is headed by
university professor Eino Saari.
In a vaguely-worded manifesto, the
party says Finland is split over
domestic politics because the mid-
dle class is not organized.

The party therefore appeals for sup-
port from all "wage-earners,
business men, farmers and profes-
sional people who confess to the
Finnish way of life."

The Finnish way of life, the
manifesto adds, is based on Chris-
tianity, national unity and firm
democratic principles. The party
has, however, no clear-cut pro-
gram yet for protecting the inter-
ests of the middle classes.

For this reason it will be handi-
capped in fighting Finland's five
other parties in the election cam-
paign.

The Agrarians say: Why form
a middle class party when we are
already looking after their inter-
ests? The Social Democrats
accuse the new party of trying to
protect the interests of the middle
class at the expense of the rest
of the community.

To the Peoples' Democrats—a
merger of communists and left-
wing socialists—the Finnish Peo-
ple's Party is just a "fascist
gang." The Conservative Party is
uneasy over the appearance of a
new competitor, although they
have not said much yet.

Finally, the Swedish People's
Party, the protector of the
Swedish-speaking minority's
rights, is worried about the new
party's insistence on the "Finnish"
way of life. The "Swedes" fear
Professor Saari and his colleagues
may be out to reduce facilities for
the Swedish-speaking population
of this bilingual country.

Busy with its own organiza-
tion, the Finnish people's party
has not yet answered its opposi-
tion; furthermore, many of the
charges may well be only pre-
election sparring in which poli-
ticians here never pull their
punches.

Recalls N.S. Town,
Back After 30 Years

Stellarton, N. S. — Three men
who used every Belgian ruse to
harass the Nazis in the last war
are in this coal-mining town look-
ing for a job.

Lucien Lefevre and Jules Delaux
are here because Arthur Tolbeck
had a hankering to see his "second
home" again. They are former
members of the Belgian resistance
movement.

Tolbeck, who lived here from
1905 to 1919, figures Stellarton
looks good. He is a machinist and
the smoke stacks and industrial
hum remind him of home.

They are sure they will get jobs.
Eventually they hope to save
enough to bring their wives and
families to Canada.

The Belgians arrived at New
York recently on a small immi-
grant ship. They had originally
planned to find employment in
Montreal or in Quebec's gold
fields.

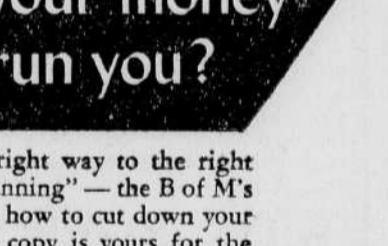

But Tolbeck figured Stellarton,
as he remembered it, was a fine
place to go. So Lefevre the barber
and Delaux the welder tagged
along.

During the war, they played a
large part in deluding and sabo-
taging German troop movements.
After liberation by allied forces,
Tolbeck served as an interpreter
with the U.S. army and later the
Canadians.

"I think I will be happy here,"
says Tolbeck. "I speak good
enough English to get around and
my eight-year-old boy would pick
it up easily."

"But my wife, I don't know. She
doesn't speak English at all," he
added.

National League Race Confirms Forecasts By Some Managers That It Would Be Tight Affair All Year

The closeness of the National League scramble is lending added stature to those managers who predicted an eight-team dogfight.

As the league enjoys a day off today, the eight clubs are so bunched up that only 3 1/2 games separate first from last place.

The American League also is shaping up for a tight pennant race with 3 1/2 games between first and sixth place.

In the National, Brooklyn Dodgers, New York Giants and Cincinnati were chiefly responsible for contracting the standing yesterday.

Brooklyn took over first place from Boston, overcoming the Braves 12-6, behind 6-0 after two innings, the Dodgers tied it up in the sixth and went ahead for keeps on Carl Furillo's three-run homer.

The Giants whipped the defending champion Philadelphia Phils 11-2 and 4-2 to climb past the Whis Kids into sixth place, only one game away from third.

Cincinnati inflicted the sixth and seventh defeats of their last eight games on the floundering St. Louis Cards, 7-2 and 6-3. Two homers by outfielder Joe Adcock was all Howie Fox needed to win the opener.

Larry Jensen and Sal Maglie went the route for New York and received good support at the plate as Leo Dupoche's hitters came up with five home runs, two of them by Eddie Stanky.

Cincinnati defeated the sixth and seventh defeats of their last eight games on the floundering St. Louis Cards, 7-2 and 6-3. Two homers by outfielder Joe Adcock was all Howie Fox needed to win the opener.

Chicago and Pittsburgh split a twin bill to move past the Cards into tie for third place. Mel Kousser pitched a six-inning and singled in the run that gave the Pirates the 2-1 opener.

Birkdale, Eng., May 14.—(AP)—and-a decision over Joan Morgan. His victory was followed by Sam Urzetta's 4-and-3 verdict against Mac McCready and Big Bill Campbell's 5-and-4 triumph over Ed Ewing.

The British fought with amazing strength to prevent that recurring trip, but they bowed in the end, six matches to three, with three halved.

The three British victories and one of the seven breaks came in Saturday's singles.

It was the best British showing since the one time they were cupped in 1935. They knocked off Frank Stranahan, twice British amateur champion; Charlie Coe, former U.S. amateur king, and Willie Turnesa, American captain and a former British and American amateur champion.

Three of the four American victories were lopsided.

Wings Beginning To Set Hot Pace In I.L. The defending champion Rochester Red Wings are beginning to assert themselves in the international league pennant race.

Off to a poor start, the Wings are zooming in high gear with six straight victories in eight out of their last nine starts.

The Wings took both ends of a doubleheader from Syracuse Chiefs yesterday, 4-2 and 5-0, to move into third place, 1 1/2 games behind the second-place Chiefs and five in back of the leading Montreal Royals.

Bob Habenicht, a recent acquisition from the Cards, posted his third victory without a loss in the opener. Home runs by Charley Kress and Hal Rice featured the triumph.

Johnny Yuhas blanked the Chiefs on eight hits in the finale and fanned eight. Bud Hardin's three-run single in the second was the big blow for the Wings.

The Royals swept a pair of games from Toronto's Maple Leafs 8-2 and 4-0 behind the excellent pitching of Bob Alexander and Bud Podbielan. Alexander limited the Leafs to four hits, three by Lew Morton. Podbielan restricted the Leafs to two singles.

Springfield and Baltimore divided a doubleheader. The Orioles won the opener 1-0 behind the three-hit pitching of Karl Drews. Spec Padgett held Baltimore to two hits in the windup.

Buffalo Bisons and Ottawa Giants also split a twin bill. The Bisons won the opener 7-2 behind Rudy Minarcin. Ottawa grabbed the nightcap 4-0 behind the one-hit pitching of Charley Eisenmann and Alex Konikowski. Frank Carwell singled for the only Buffalo hit in the second.

WHITE SOX OPTIONS 2 PLAYERS TO SEATTLE Chicago, May 14.—(AP)—First baseman Gordon Goddard has been optioned by Chicago White Sox to Seattle of the Pacific Coast League on 24-hour recall. The Sox also assigned rookie pitcher Harold Brown outright to Seattle.

The Drummondville City Hall disclosed this week, that building permits during the month of April amounted to \$319,000 which is \$200,000 less than that during the same period of last year, however tightening up of present building government controls is showing its marked effect upon the building trades here as well as elsewhere across the Dominion. The following are a few of the larger building permits which have been given out: Canadian Celanese Co. warehouse, \$180,000; Mr. Berard corner Heriot and Berard streets, alterations \$11,000; Trinity Church, Mansie, Dufferin St., \$16,000; Wilfrid Faucher Garage, corner Melancon and Ringuet streets, \$15,000; Real Jean, Adhemar streets, three tenements, \$12,000; Edouard Geoffroy, Villeneuve street, three tenements, \$14,000.

Twenty-seven fully trained textile technicians will receive their diplomas at the third annual convocation ceremony of St. Hyacinthe Textile School, on May 31. School Director Stephen Toupin mentioned that members of the clergy, government and textile industry will be invited to join parents and friends of the graduates at the ceremony in the auditorium of Centre Notre-Dame in St. Hyacinthe. Each new technician will receive a diploma, while prizes will be awarded to outstanding students. Of these young men graduating this year twenty-four are residents of the Province of Quebec; one is from France; one from Cornwall, Ont., and the other from Marysfall N.B. Of the 27 graduates completing the four year, college-level course, 17 were sponsored at the government operated school by textile companies. All have had some practical experience, either in textile plants before registering at the school or by working in the mills during summer vacations. This is the largest class to graduate from the school to date. In 1949 there were 26 graduates and last year 19 technicians received diplomas. Director Toupin pointed out that continued expansion of school facilities since the opening in 1945 now makes it possible to enlarge the classes. There are 139 students enrolled at present in all classes.

Weather Control Seen Possibility For Future Years

Victoria, B. C. — The man who put rain-making on a scientific basis explained his work here recently to a conference of Canadian and United States government officials.

Tall, youthful-looking Dr. Vincent J. Schaefer of Schenectady, N. Y., addressed a joint meeting of the Columbia river basin forecast committee and the western snow conference. The meeting was attended by more than 100 officials from British Columbia and eight American states.

Employed by the General Electric Company for 29 years, Dr. Schaefer has been in the research department for 20 years. During the second world war he did research work on aircraft icing for the U. S. government and discovered that icing occurred because of super-cooled clouds.

"It was while studying why clouds super-cooled that I discovered how to make rain," Dr. Schaefer said in an interview. Not only did his studies show him how to make rain, he added, but how to prevent thunder, lightning and hail.

The 44-year-old researcher said his work now on producing certain types of weather, and preventing others, was being done for the United States signal corps and the office of naval research. General Electric, he said, was only interested in making rain from the scientific, and not commercial, standpoint.

Dr. Schaefer himself, however, believes great benefits will someday be derived from control of the weather. He maintains that there should be government control of rainmaking and that there will be need of international agreements.

"Weather is no respecter of boundaries," he said, "so if we're going to do anything about it, there has got to be a plan on a large scale."

Dr. Schaefer feels, too, that as the art of rainmaking is developed, there will be need for licensing those engaged in the practice in order to protect the public from unscrupulous operators.

While he discovered the method of seeding clouds with dry ice and silver iodide he actually has yet to make any rain himself.

"I work in the laboratory," he said. "Others do the seeding."

He said that close to 1,500, and possibly more, rainmaking tests have been made so far and that results have been very successful.

Let's Play Pyramid Checkers

BY JULIA W. WOLFE

HERE'S a checker game played on a triangle board. The diagram shows how to make the board of 25 squares and the players use four men each—which we'll call the blacks and the whites.

PYRAMID CHECKERS

To start the game, the whites are lined up in squares 1, 2, 3 and 4, while the blacks are in squares 6, 7, 8 and 9. Use two checkers, one on top of each other for the "leaders" or "kings," which are placed in square 1 for the whites and in square 9 for the blacks. The object of the game is to send the kings to square 25, on top of the pyramid. The first player who does this wins the game.

In playing you move one square at a time, either ahead, backward to the right or to the left, but never diagonally. In jumping or capturing only do players move diagonally. (Jumping and capturing are two different moves, however.)

For example, a man in square 12, can be moved to squares 18, 11, 13 or 4; if those square are vacant. He cannot move to 17, 19, 3 or 5.

"Jumping" works to the disadvantage of the jumper in this game, contrary to the advantage gained in checkers. Pieces are never removed from the board, either in jumping or capturing, so a player always has four men on the board.

A player must jump but he can jump only diagonally and back-

ward over an opponent. For example a man in square 18 can jump over an opponent's man in squares 11 or 13, which places him in square 2 or square 6, providing they are vacant.

"Capturing" a man is not a "jump." A man in square 18 can be captured by an opponent in square 11 or 13, simply by moving the man in 11 or 13 to square 18. This sends the captured man back to the first row of the pyramid. A white checker, when captured, must be placed in the nearest empty square to square 1, and a black checker, when captured, must be placed in the nearest empty square to square 9. You can't jump or capture your own men.

You must jump or capture when you can. If you have an opportunity to do both, you can do either, but of course it is usually best to capture rather than to jump. Double jumps cannot be made, even by the kings.

In playing it is best to keep the king protected by the three men and maneuver him forward toward the top. There can be a deadlock, but usually the best man wins.

PRIVILEGED MEMBERS NIGHT

"Privileged Members Night" April 30, was observed at the Kiwanis Club, when Mr. T. Y. O'Neill, the first president of the club, was the speaker.

The club was founded in Granby twelve years ago, in the year 1939, and has a very useful and active record to its credit.

Seated at a special table for "Privileged Members" were the Messrs. George Avery, J. A. Coe, Messrs. A. Ziguy, A. C. Smith, J. S. Mullin, S. MacLaughlin, and W. D. Hinkhouse.

On February 21, 1939, its charter night, there were sixty-five members and fourteen of these, are now "Privileged Members." 21 had resigned, 10 had moved away, 10 had passed away, 10 are still active and 14 are "Privileged."

Mr. O'Neill was introduced by Herve Roichand and thanked by H. W. Gendreau.

A MUSICAL TREAT

Granby had another musical treat on Friday night, May 4, when two famous pianists, from Valencia, Spain, in the persons of Amparo Iurbi, and his sister, Jose, visited the city and appeared at the Palace Theatre for one performance.

They have appeared with great success in many cities in both Europe and America, and the famous Iturbi technique for two pianos has been most popular.

They have been heard with the New York Philharmonic, the New York Symphony, the Rochester Philharmonic, the Los Angeles Philharmonic, and other famous world known orchestras.

General Notes

Miss Audrey Meyer flew from Bermuda, on May 4, with two sick children, which she took to the Children's Memorial Hospital, in Montreal for treatment. 'Mr. And Mrs. Cupid' 14 Million Wear Their Rings

New York — Of the some 2,000,000 American girls who will walk down the aisle this year, it's been estimated that at least a quarter of them will wear wedding rings by Mr. and Mrs. Cupid.

"Mr. and Mrs. Cupid," as they are known here, are Mr. and Mrs. O. M. Resen, husband and wife team specializing in the wedding ring field. Dorothy Resen designs the rings that her husband sells. They estimate that, since they went into business in 1930, about 1,400,000 men and women have bought their rings.

When the Resens started their business, in the depths of the depression, the accepted wedding ring was a narrow band. The Resens felt that it was time to revive the wide Victorian band. They did, and now the wide band outsells the narrow by far.

Since that original Victorian motif, Dorothy Resen has borrowed inspiration from furniture design, the iron grillwork in New Orleans' French Quarter and a wish of chimney smoke. During World War II, the Resens heeded the requests of soldiers and sailors. They turned out wedding rings engraved with such sentiment as "I Love You" and "I Thee Wed".

The Resens themselves are partial to rings that depend on line and design for beauty. The simple

Mother Of The Bride Her Gowns Become Less Pompous And More Flattering

New York. — (NEA) — Though the mother of the bride gladly plays a secondary role at her daughter's wedding, she still wants to look her best. The dress she chooses will be largely determined by the size and kind of wedding and by her own figure problems. Dresses for the bride's mother are right in either the long or short length. Again, it depends on the

wedding. These dresses are far prettier and less pompous than in bygone days. They offer real figure flattery.

Designer Philip Hultier transforms fragile mauve-orchid silk chiffon (left) into a floor-length gown. The soft folds of the skirt are banded in deeper shades of the mauve at the sides. A hand-embroidered spray of violets cascades across the bodice. The neck-

line is draped. Soft, concealing folds of the fabric cover the shoulder and upper arm.

For a wedding that's informal and pretty this same designer has dressed the bride's mother (right) in a short length, pure silk chiffon ombred in gray. The portrait neckline is caught with a spray of moss roses. The flared skirt nips in at a snug bodice that's belted by an emerald green velvet sash.

A Three Car Accident Occurred On The Granby—Cowansville Highway

Sweetsburg, May 14. — A three car accident occurred at 5.30 p.m. on May 5, on the highway between Granby and Cowansville, at the point where a side road leads to the farm formerly owned by Mr. Thomas Noyes, on the Granby South Ridge, only one mile above the marsh.

A panel truck followed by a taxi were proceeding toward Granby. The taxi, owned by Mr. Reginald Besette, of Cowansville, No. T-17186, was operated by Mr. George Colnoir.

The second truck, F-32456, driven by Mr. G. Maheu, of Granby, who wished to turn onto the side road, was heading south toward Cowansville.

The taxi and the truck collided with the result that the two front wheels and axle of the truck were completely removed from the frame, which rested on the pavement. The gas tank was broken open and a stream of gas was running down the road into the ditch. The taxi jumped the ditch and stood on its side against a tree with the top of the car smashed in.

The panel truck stood intact above the intersection. The Fargo truck driver and an older gentleman were unhurt.

The taxi driver got out of the ditch on his own power and was conscious but with blood streaming down his neck and face. He suffered minor injuries and he is in St. Joseph's Hospital at Granby.

Nickel is on the job most everywhere

Hundreds of everyday uses for Nickel have been developed by the Nickel industry through a planned program of research. Today a large share of Canada's Nickel production is being diverted from peacetime uses into channels for preparedness. So the Nickel mine facilities, greatly expanded over the past decade, are again being operated at peak capacity. There is actually more Nickel now being delivered by Canada to the free world than in any peacetime year.

The Case of the Silent Neighbour

I WATCHED in silence as my neighbour walked by without a greeting. He was more than a neighbour. He was my friend... or had been. For years we had worked side by side, but since my retirement Jim never came to see me. In fact, he deliberately avoided me.

I understood why. The sight of me taking it easy must surely depress him, for Jim was still tied to his job. No doubt he was envious of the things I was now free to do... and the years that lay ahead for me to do them. Worse still, my old friends at the plant told me that Jim seemed tired all the time... losing his grip. They even said the boss was keeping him on out of sheer charity. Jim, too, must be aware of that and, knowing him, I was sure his pride must be deeply hurt.

Years ago our insurance man had suggested we both take out a proper amount of retirement insurance. But Jim had neglected his advice. Now he was forced to carry on at his job, but the day would come when that job would end. What then?

Think. Could this happen to you?
