

Opens April 14

About 20,000 blooms to be the stars of Spring flower show

Gardeners at the Westmount Greenhouses are keeping one eye on the plants and the other on the calendar. April 14 has been set as the day the Spring show will open and it can't come soon enough for the gardeners.

That spell of warm weather a few weeks back brought some plants into bloom that weren't suppose to flower until just before the show. However, even if some of the plants don't last the whole three-to-four weeks of the show, there will still be plenty.

Last year the number of plants and flowering shrubs on view numbered over 19,000; this year the figure is expected to pass 20,000. Though the show is still somewhat in the planning stage, features definitely set are the traditional cross made up of Easter lilies, and a waterfall. Conservatory officials are still exploring the possibility of adding a fountain.

Highlight of the show, of course, will be the Easter lilies, but blooms grown from other bulbs and plants will garner their share of attention.

There will be 82 varieties of tulips, 15 varieties of daffodils and narcissi, four varieties of hyacinths, and a 1/2 dozen other flowering bulbs. There will be 12 types of azalea and rhododendrons; flowering shrubs will number about 12 varieties. Twelve different kinds of roses will be on view, mainly florabundas.

Seeing the Easter show, over the years, has become a family habit in Westmount and attendance this year is expected to surpass the 16,447 mark set last year.

The show will be opened about 5 p.m. April 14, by city officials. Following the ceremonial opening, the public may visit the green houses any weekday from 9 a.m. to 10 p.m. and on Saturday and Sunday from 9 a.m. to 6 p.m.

'Y' achieves 39.1% in Saturday Blitz

Westmount Division reported \$4,498.00 or 39.1% of its objective at the first City-Wide Report Luncheon this week (City-Wide was 24%).

"Our Saturday Blitz was a tremendous success", stated D. H. Gatehouse, Campaign Chairman. "Approx. 60 persons attended an 8.30 a.m. Breakfast and canvassed throughout the day. A total of 285-300 cards were covered and our increased money is holding at 25%."

"With this fine start, we are very confident that our objective will be reached during the 17 day period", commented G. L. Welton, local "Y" Secretary. "Our thanks are extended to the many Westmount citizens who assisted by awaiting the can-

Skateboarding

Girl, boy injured in new fad

Two teenagers have been injured in Westmount in connection with skateboards, the new craze among young people. One man was injured in another accident in the city.

A boy and a girl, both residents of Belmont avenue were injured in separate mishaps when they lost balance and fell while using skateboards. The skateboards are boards with rubberized roller-skate wheels attached. They are city youth's answer to surf-boarding.

Police declined to identify the boy and girl but they did report that the girl, 14-years-old, broke an ankle in the fall March 23rd. The boy, also 14, injured his left ankle, March 20, but was released from hospital after being treated.

MAN INJURED

Police also reported that Roland Paisseault, 54, of 1049 Greene avenue, was struck by an automobile while crossing the street at Atwater and St. Antoine streets about 11.50 p.m. March 26. The driver of the car was identified as Yvon Lussier, 21, of 6860 Fielding avenue. Police say the man was not seriously injured.

vassers call at their home".

The Y.M.C.A. of Greater Montreal is seeking \$310,000.00 in its Annual Campaign. A large portion of this amount enables the "Y" to train leaders, a very costly program — yet, so important, in this period of our history. Over 2,600 leaders benefited from this program in 1964.

The "Y" seeks to meet the challenges of the late sixties by training young leaders today. Eight branches are participating in this Annual Campaign.

ROTARY PUBLIC SPEAKERS

ROSS MCGREGOR of Lower Canada College centre in the front row won the Rotary Public Speaking semi-finals at Westmount Rotary's session in Victoria Hall Wednesday. Others par-

ticipating were: Top row — David Levy, Gerald Roseberry and Jody Allison; bottom row: Melvyn Grimes, winner McGregor and Vaughan Dowey.

6 semi-finalists compete

LCC youth is top Rotary talker

Ross McGregor, a student at Lower Canada College, won out over five other semi-finalists in a Rotary Public Speaking Contest held at Victoria Hall Wednesday in connection with the regular weekly luncheon meeting of Westmount Rotary Club.

His subject was "How we can build a better Canada." His material was well presented, and he handled himself in an easy fashion that made his delivery and over-all presentation the envy of several of the club members.

House on Western is robbed

Thieves broke into a home at 4447 Western avenue Tuesday afternoon and escaped with silverware and possibly other articles.

Police report that a maid at the house left the premises in the morning, and upon her return home found the contents of cupboards and drawers strewn all over the house. Also found were empty ginger ale bottles where the thieves had apparently sat down and had a drink. Police doubted that the job was done by professionals. The owners of the home are presently vacationing in Florida, and police say the extent of the loot taken will not be known until they return.

Other contestants: David Levy, Westmount High; Jody Allison, Selwyn House; Vaughan Dowey, St. George's School; Gerald Roseberry, Malcolm Campbell High School; Melvyn Grimes, St. Leo's Academy all received the plaudits of the judges for fine performances and were the winners of consolation awards.

Ross goes on to the finals to be held next week at Montreal Rotary.

"Sired by France, suckled by Great Britain and nurtured by the United States" said Ross McGregor, "Canada is a complex entity facing great dangers."

There is a need, he said, for unity; and for a strengthening of government, strengthening to be brought about, in his opinion, by constitutional changes.

The British North America Act, he submitted, was a worthy instrument a century ago, but now faced a need for modernization. Educational standards, differing as they did in the ten provinces, should, he said, be standardized. Canada's problems, he found, were accentuated by racial differences.

He pointed to tolerance and understanding as the keynotes to a better Canada in the future.

Vaughan Dowey, speaking on the same subject, urged the need for unity, cooperation, understanding and national pride. He urged that similarities in the various nationalities making up Canada be stressed instead of the differences.

David Levy, a bird-watcher, took as his topic "What man can learn from nature" and dwelt on the fact that education is not all book-learning. Man, he said, has an innate desire to copy na-

ture, and can learn much by observing the creatures of nature and the universe in its natural operations. Farmers, he said, mature more quickly in many cases than do city-dwellers.

Jody Allison urged economic union between Canada and the United States. This country, he contended, was already nearly 60% U.S.-owned and stated that

'Centre' will soon call for tenders

Plans for the \$20,000,000 Westmount Centre will move a little closer to being realized next month when demolition at the Western - Wood - St. Catherine - Greene area site is complete.

The remaining tenants on the site will be out by May 1st and demolition will be completed soon afterwards. Officials of Westmount Centre Inc. are presently preparing to call tenders for construction of phase one of the office - apartment - shopping complex.

The complex will include a 20-storey office building, two 21-storey apartment towers and a two-storey retail department store as well as shopping concourse and underground parking. Phase one calls for construction of the office building and one of the apartment towers. The whole project is scheduled to be finished for 1967.

Smile! You're in competition! Come July and all proprietors of business establishments and apartment houses, as well as ground superintendents of schools, churches, etc. in the great West End will have cause to be concerned about the landscaping and appearance of their properties.

At the March meeting of the directors of the West End Horticultural Society, it was unanimously agreed to broaden the competition for the famous Rawplug Trophy and to enter all deserving properties in Westmount, Notre Dame de Grace, Hampstead and Cote St. Luc regardless of membership in the Society.

It is hoped that the result will

be a more beautiful West End . . . a more attractive place in which to live.

The W.E.H.S. is having a great year and both membership and interest are increasing, they report. Meetings are being very well attended.

Every gardener, every lover of flowers and every property owner is invited to join. To do so, just send \$2 to the treasurer, Hector Paradis, Apartment 26, 5009 Clanranald avenue, Montreal 29.

Tariffs, he said, were in his opinion a hindrance to expansion. The Gross National Product, he added, had risen but little since 1956, while at the same time unemployment was up and national confidence down.

There was a fear in Canada, he added, that economic union might be followed by political union, but he chose to underplay this possibility. Under the Common Market arrangement in Europe, he said, several distinct political entities were able to live in economic harmony.

Gerald Roseberry, in an address that was decidedly sub-tone in presentation and type of material, spoke of the dependence of man on past events, listing particularly Greek and Roman history and Christianity.

He traced social changes from the time of the industrial revolution, and brought in the advent of socialism and Communism, dating political changes from the Reform Bills and speaking of the rise of the labor unions.

Melvin Grimes chose the subject: "What is success?"

His measure of success turned out to be the ability of the individual to fulfil his role in society.

Courage and hard work he set as his cornerstones on the road to genuine success, which, he concluded, was not measured in terms of money.

The speakers were introduced by Lloyd McClintock, prominent sightless worker for the blind, a member of the Montreal Rotary Public Speaking Committee. The contest is a Montreal-Rotary-sponsored annual event in which Westmount and other Rotary clubs participate and the current series is the 27th annual presentation of the event.

President W. M. Reay was in the chair.

HOUSE FLIES

House flies are dangerous pests that spread disease germs and filth which they pick up in their breeding places in sewage, farmyards or garbage. They may transport the germ laden dirt to exposed foods or to a baby's face. This pest breeds from early Spring to late Fall, at a possible rate of 430,000 in seven weeks. Well screened doors and windows and the use of reliable fly sprays will help to keep them out of your home.

WE SAY

Skateboards and the community

THE young people of Westmount are taking to the new past-time of skateboarding. Unfortunately most of them are using the skateboards in the wrong place and in the wrong way.

Two teenagers have so far suffered injuries as a result of using the skateboards. Many others have narrowly missed injury as they rode on the boards on streets normally used by cars alone. In any tangle with a car, the skateboarder is bound to lose.

It is not necessarily desirable to ban skateboards entirely or to forbid them to the youngsters. The skateboard phenomenon should be a challenge to city recreation officials. Some kind of skate run could perhaps be built where the boards could be used without the traffic dangers. And too, a recreational official could learn the proper, and safe, technique to be used with the skateboards, and, in turn, teach the youngsters the proper ways of skateboarding.

Youth cannot be forbidden a pursuit because there is risk inherent in it, or because it is difficult. It is up to the community to provide the proper location for this new fad, and to foster facility in the use of skateboards.

In any case, the skateboarders must be taken off the roads, where they may be the cause of serious accidents, and off the sidewalks where they are a menace to pedestrians.

We hope recreation of-

Youth will be served

IT is of more than passing interest that two of six high school entrants in a public-speaking contest at Westmount Rotary Club this week, spoke on the subject:

"How to build a better Canada."

And equally of interest that they stressed unity, understanding, tolerance as keystones in building a better nation.

It is apparent here, as everywhere, that youth is becoming more and more aware that the difficulties this country faces, in national, in provincial and even in local matters are differences that are caused to a great extent by our multi-racial panorama as much or more than by our ties to the United Kingdom and our proximity to the United States.

The former has had a constitutional effect, one that is bound to be changed in the not too distant future, and the latter has serious economic implications — but hyphenated Canadianism certainly will no longer serve us, and it is today's youth that is most aware of this bald fact.

To put it bluntly — if we don't hang together, we'll hang separately, and true Canadianism will most quickly be brought about, as these public speaking enthusiasts stressed, by highlighting our similarities and not our differences.

Officials will study the matter, and, if possible, come up with a solution acceptable to adventurous youth and the community.

Reader expresses disillusionment with Westmount ways and means

(Editor's Note: The immediately following letter comes in response to the editorial note under our "You Say" heading of last week, identifying an unsigned letter withheld for lack of a signature. It should be noted, for guidance of all letter writers, that whether or not a 'nom de plume' is used, the author must identify himself or herself to the editor who, if requested, will keep such identity in confidence. The almost universal theory and practice of newspapers regarding letters-to-the-editor was expressed in an article in this space in our issue of March 19. Also carried below are the letter held from last week as well as an earlier letter from the same source which was not printed because of libelous remarks, which have been removed. We trust that by publication of the following views that The Examiner may be cleared, at least on this score, of "in-breeding and insularity"!)

Sir: I have just seen your unsigned letter in The Examiner stating that you have received my unsigned letter. This was an oversight as some of the copies were sent out unsigned. However, this should not have been a deterrent to publication as (a) your leaders are not signed, (b) your readers with the exception of myself never sign the letters. Look at the last issue: "Time Conscious," "Pro Armistice." They seem to be afraid to speak out in Westmount or sign their letters. Is this due to the 200 years of in-breeding and insularity?

I did imply that probably my letter would not be published bearing in mind that another one on the same lines was not. I personally feel very strongly about the voting especially in the light of what is happening in the States. Basically it is the same though we do not have to go through the mental and physical sufferings, to such an extent.

I wish to quote from an article before me dating to Jan. 1960:

"The Westmount Voters' Association was formed this week with the purpose of forcing an election in the city, which has traditionally elected by acclamation candidates put forward by the Westmount Municipal Association. Another objective of the new Voters' Association is to try to have public business discussed and transacted in public, instead of behind closed doors, at city council meetings . . ."

The "Westmount Examiner" says in a lead editorial that the reason Municipal Association candidates have been unopposed is because "Westmount is an extremely well run city, perhaps the best in the country," etc.

Even after five years of the publication of this article I do not agree. If it is then why do we have no nursery, cheap housing projects for business people or pensioners, what are we doing about the slums in St. Henry, why did we have a well known . . . buying property and voting in Westmount for so long though he lived in N.D.G., why was I visited by two private police of Westmount in my office in the City of Montreal, why was not a case of bribery in the City Hall investigated. Why do they try to whitewash everything?

The answer is because they do not want to tarnish the wondrous name of Westmount. Last but not least there should be an inquiry whether there has been land speculation in Westmount and by whom. There are too many luxury apartments mushrooming everywhere while no duplexes are allowed. Nobody had any say in this.

This is for the record, but the only way out of this impasse is to get a private member's bill either through Ottawa or Quebec.

V. Skerl.

Sir: I wish to comment as follows to various comments

in The Examiner of March 12.

What Mayor Tucker said:

"The charge by Mr. Lucien Saulnier, indicates once more an apparent contempt for any demonstration of the popular will. In effect, the citizens of Westmount and their elected representatives are being condemned for exercising their right to make representations to Provincial authorities."

"The City of Westmount, cannot and will not agree to implementation of a proposed system which would have the effect of giving Montreal life and death powers over the entire Island."

What I say:

Mayor Tucker has apparent contempt for the citizens of Westmount and for their popular will. How can Mayor Tucker bandy such phrases "as citizens of Westmount and their elected representatives" when most of us cannot vote. I do say to the Mayor he is misrepresenting facts.

Strong words, Mr. Tucker. The sooner we are taken over the sooner we can put pressure in Parliament to get the vote and then vote against certain arrogance and malpractices in the City of Westmount. England passed the Reform Act 1832, giving people the vote in local government. We are 100 years behind the times. If we stress ONE CANADA then we must avoid double standards and stress ONE MONTREAL.

What Mr. R. L. Hunter said, the President of the WMA.

... "but such an organization must not be under the complete domination of any one community."

What I say:

We the citizens of Westmount who have no vote in order to exercise our rights do not want to be under the domination of a small tight group which meets behind closed doors and which passes by-laws affecting us and in which we have no say.

In the light of what is happening in the South, I would remind both Mayor Tucker and Mr. Hunter and The City of Westmount and all and sundry, ONE MAN ONE VOTE, and votes should not be bought with property and money.

What The Examiner said:

... "The will of the people can only be known if they speak up; and we hope that the voice of the people still is able to 'pressure' their government into taking into consideration the popular will."

What I say:

Oh, Mr. Sancton. Last brave words. "The will of the people. The voice of the people." Mine is right here but as in the past when I raised this subject it will not be published. However, I am sending this out individually to the following:

Municipal Affairs Minister Laporte, Mr. L. Saulnier, Mayor Tucker, Mr. Dawson, Mr. R. L. Hunter, Mr. Lynch Staunton, Mr. Sancton (The Examiner), Mr. C. M. Drury,

Ottawa; Mr. R. J. Hyde, Quebec; Mr. Chipman Drury, Westmount.

When there is a will there is a way and you cannot still the voice of the people.

V. Skerl.

Sir: It was certainly very apt of the Montreal Star to call it "the regime of Mayor Drury" — a small tight body of Westmounters who vote each other in by acclamation year in and year out. I have a report before me which was published a year ago and which I would like to quote. "In the City of Westmount in 1963, powers are being exercised by a few property owning feudal electors on behalf of a populace of 31,840. This city is supported by taxpayers, not all proprietors. All pay their share of taxes with which to run this city. Everyone enjoys the benefits offered and surely everyone who pays taxes directly or indirectly should be allowed a voice in the elections. It seems strange though we can vote and are exhorted to vote in both provincial and federal elections we are debarred from the municipal elections."

I have a book before me, and under paragraph "Municipal Government," it reads: "The laws concerning the conduct of elections are extremely well defined so as to assure that the voter is safeguarded in the exercise of his franchise; . . . Municipal Institutions in Canada, like those of the provincial legislatures and the Parliament of Canada, are highly treasured in our country and are a major factor in maintaining our democratic way of life." Unless we have the vote how can we make sure that the laws of the municipality are carried out, or that negligence, bribery, dishonesty is done away with? As things are at the moment we are not in a position to do anything about it with the patriarchal system we have in Westmount.

Further, how can we see that the City adopts measures that will lead to the welfare of the old people, the slums. The reply I get is that it is not in the charter.

I completely disagree with Mayor Tucker. The Westmounters are very lethargic and insular. To prove it I am quoting from one of my letters: to Mayor Drury on 29 May 1963: ". . . Isn't there a way of bringing East and West together (French and English) with classes of French, discussion groups, lectures, concerts, etc. This would help immeasurably?"

Mr. Drury's reply was: ". . . the most important element is a wish on the part of the participants to come together, and if that exists there will be no problem." The Education and Library Committee of the WMA stated: "Re your letter, the following is quoted from the rules and regulations of the Association: 'The object is to ensure sound civic administration by the development of informed opinion amongst the residents' . . . I think you will agree that your suggestion does not fit the objects of the Association" I could quote many more in the same strain.

Mr. Tucker stated in his speech that Westmount neither erects nor tolerates ethnic or religious barriers, but certainly there is discrimination regarding voting.

It seems to me rather an anachronism that though we are stressing one Canada, the

The City traffic dept. should either give up the idea of making the block on the north side of Sherbrooke between Prince Albert and Claremont a "No Parking" zone for the use of buses only or police it more strictly. Wednesday morning, there were a soft drink truck, a plumber's truck and a garage tow-truck parked in a row and buses were having a hard time loading and unloading passengers. It seems that trucks of all descriptions are immune to traffic tickets. Soft drink and beer trucks are the worst offenders, sometimes partially blocking the sidewalk as well. The ordinary motorist will get a ticket if he only stops to draw his breath but these truckers seem to get away with anything. Also the situation in front of the new Westmount Medical Building just west of Claremont is ridiculous. Not only is the sidewalk badly broken up and covered with muck but trucks are allowed to back across it to unload, forcing the pestered pedestrian out onto the dirty, traffic-laden street. Elderly people are specially concerned.

Schofield and Churchill books head new works at the Library

Works of history, travel, interior decoration, and novels head the new books acquired by the Westmount Library.

In the history division already proving to be popular is ex-Westmounter Stephen Schofield's *Musketoon*. A work by Winston Churchill, grandson of Sir Winston Churchill, *First Journey*, is getting the attention of many readers interested in the travel section of the library.

INTERIOR DECORATION

Works on interior decoration always interest Westmount readers. This month the library has purchased *Decorating; Volume 1. Connaissance des Arts; and The Finest Rooms*, edited by Katharine Tweed. Also of interest to interior decorators is *The Illustrated History of Furnishing*, by Mario Praz.

A new book on theatre, *Stage Design Throughout the World*, by Rene Hainaux, includes photographs of some Montreal theatrical groups including the Théâtre du Nouveau Monde.

NEW NOVELS

Among the new novels are a few already making the best seller lists: *Hurry Sundown*, by K. B. Gilden, and *Hotel*, by Arthur Hailey. Other novels of interest are *A Single Man*, by Christopher Isherwood; *The Fratricides*, by Nikos Kazantzakis; and *Late Call*, by Angus Wilson.

That door at the bottom of the stairs leads to the cells. It's a good thing *The Examiner* printed a diagram locating the offices, still, what if . . . ?

If we print humor, people say that we're silly; if we don't they say we're too serious; if we reprint things from other papers, we're too lazy to write for ourselves; if we don't, we're too fond of our own stuff; if we don't print contributions and poetry we don't appreciate true genius; and if we do, the paper's full of junk. Chiropractor to quit premises after zoning battle with City

Del Hushley, a chiropractor practicing in Westmount, says he will sell his property and vacate his Sherbrooke street west premises by April 30, following a long battle with the City of Westmount to remain where he is.

Mr. Hushley charges that the City administration "took it upon themselves to force him out of his "property and premise."

Westmount officials have taken the position that the building in which Mr. Hushley has his office is not zoned for chiropractors. They say that the province of Quebec does not classify chiropractors as professional men, and that the

building at 4287 Sherbrooke west cannot therefore be occupied for these purposes.

In a letter dated Dec. 4, 1964, addressed to Mayor Chipman Drury and other city officials, Mr. Hushley said, in part:

"Your injudicious charge, and persisting litigation against me, under by-law 632 amending by-law 555 article 10, permitting ten other professions to practice in this premise while discriminating against me and my profession without just and mature cause, does not, in the light of reason, conform to common sense and justice.

"You are throwing stones at me prosecuting me, because I practice the art, science, and

philosophy of chiropractic which you know nothing about. You have resorted to investigation but rather to condemnation without investigation."

Mayor Drury, in reply wrote to Mr. Hushley: "We are charged by the citizens with enforcing the law as it exists.

"Our city attorney advises that our present actions are necessary to enforce the law.

"If you feel we are incorrect, then I suggest the courts of country be used as a source of redress."

In a letter dated Jan. 18, 1965, Mr. Hushley rejected Mayor Drury's argument and went on to say:

"Since it is indicative that you justify yourself in holding steadfastly to your discriminating laws, and are not inclined to reform, not consciously recognizing your folly . . . redress, as an individual, on my behalf, is paramount . . ."

He added that he had resorted to the courts only to find the decision of the Superior Court of May 12, 1964, against him.

"I, hereby, bow to your favor, and put fourth the proposition to move, disposing of the property . . ."

"If you, and your administration are that concerned . . . and if a chiropractor is felt to be a pollution to Westmount, the administration should purchase the property . . . or the citizens that you owe to, should purchase it . . ."

Mr. Drury stated, in reply: "It is not within our province to prove or disprove any action you wish to take regarding your own personal property. At the present time I do not believe the City of Westmount would be interested in purchasing your house. However, should it be put on the market by you, and there should be any interest by the City of Westmount, an offer would be made in the formal manner at that time."

On the 2nd of February Mr. Hushley addressed a letter to Mayor M. L. Tucker in which he stated Mr. Drury did not answer his question. Mr. Hushley then asked for confirmation that moving his practice and selling his property would "satisfy your desire? put an end to litigation?"

Mayor Tucker in a letter dated Feb. 9th, told Mr. Hushley that he had reviewed the letters to Mr. Drury and that he concurred with the former Mayor.

" . . . I can only advise you that moving your practice to a zone where such occupancies are permitted would satisfy the requirements of the by-law, thereby eliminating the necessity for any new litigation.

"The current litigation, however, is before the court and is now a matter for court decision.

"The question of disposing of your property is not necessarily related to moving your practice and, in connection with the disposal of your property, the City, as Mayor Drury indicated, has no right to approve or disapprove."

In reply, Mr. Hushley said that the city permitted, among others, medical doctors, dentists, advocates, architects, chartered accountants, engineers, and landsurveyors to occupy the building; "the latter have not more jurisdictional closed-shop jurisdiction than chiropractors. What is your method of discrimination?"

He added: "Moving my office from this premise deprives me from re-

search into esotheria, which is linked to my work . . ."

Mr. Hushley attempted to put his case before the public meeting called by the Westmount Municipal Association, but was ruled out of order. The crowd at the meeting shouted for Mr.

Hushley to sit down as he persisted in attempting to state his case over the microphone. Chairman R. L. Hunter ruled that Mr. Hushley's case had nothing to do with the subject of the meeting. Finally, Mr. Hushley gave up.

At Westmount High

Plans are now being made for April 29th school elections

Exams are over at last in Westmount High. This fact could be noted by even a stranger who, upon entering the halls of the school, would notice the glum faces of students, receiving their marks and the glum faces of teachers who have just finished correcting the examinations. But these interruptions have, in no way, curtailed the resumption of the regular activities.

On Thursday, April 1, a special Assembly was held for the grades ten and eleven; the reason for this Assembly was twofold. One was a great honor which has been given to last year's book (the VOX DUCUM's) staff. An award granted by the Gazette will be presented to last Year's editor Karen Stein. The second reason for the assembly is to discuss plans for the upcoming school elections; as of now the probable date of the elections is set as April 29, and the candidates' speeches are to be given on April 27.

Another former Westmount graduate, Eric Levy, has had the honour of being among those named to the Dean's List at Union College, Schenectady, New York. Eric is a Junior at

MUSIC FESTIVALS

Music is a prominent topic these days at the school. Not only the band but also the choir are busily rehearsing for the Kiwanis Music Festival while the band only is also rehearsing for the Ottawa Festival. The date for the annual May Melodies, a night which features all the musical talents of the school combined, has been set for May 13. Also in the 1965 Senior school curriculum a music appreciation course is in the

planning.

Two movies have also been shown in the past week. At noon on March 30, Major Bluteau showed a film on Careers in Forces. On Wednesday, March 31, a film "Life Under the Sea" was shown. The school would also like to welcome three student teachers: Mr. Yale with Mr. Zambra, Mr. Rabinovitch with Miss Stoliar, and Miss Moffit with Miss Jamieson.

The final total in the collection for the victims of the disaster in Ville LaSalle was \$223.34.

On April 8, there will be a combined Junior-Senior Red Cross dance. On Tuesday night,

Those April showers don't mean a thing!

The old saying that "April showers bring May flowers" is a European saying which found its way to New England, but it doesn't mean a thing north of the border, according to weather prognosticator Eric Neal.

"April in Canada has the reputation of being a killer for plants and people," he says, "and when Easter falls late in the month, the unpleasant conditions can continue for two weeks into May."

Around here, he continues, April often has cold nights, dry, harsh winds, torrid warm

spells, snowstorms, icestorms, cold rains and blustery winds.

Mr. Neal warns that snow melting while the ground is frozen deep means that water runs off and can cause floods. He says, also, that ice and rainstorms might overload Montreal storm sewers, causing flooding of underpasses.

And for those waiting the first robin, Mr. Neal says that crows and rooks arrive in the week of the first quarter of the moon, but if they find fields covered with snow, they return south to warn the rest of the flocks.

"Only after Palm Sunday do they arrive to stay," he says. "Robins, the first swallows, thrushes, chickadees and woodpeckers arrive with them, as do certain ducks and white geese."

Mr. Neal says that plants with long tap roots can draw water from below the frozen ground, but transplants may have these roots damaged or cut off because of cold winds and sudden sunny periods.

LCC picks play-in-play

Six Characters In Search Of An Author is the title of the play-within-a-play to be performed by students of Lower Canada College at West Hill High School auditorium on April 29 and 30, it was announced this week.

The work is described as a classic, by Luigi Pirandelle, written in 1921, "but with relevance for audience in 1965."

John Clark, producer of the play, is on leave of absence for a year from The Dragon School, Oxford, to teach senior English at LCC. He said the audience achieves a unique degree of participation in the dramatic events presented to them.

The theme is one of reality, and the appalling difficulty of really understanding what another human being is thinking and feeling.

Leading male actors are Julian Wise, Alan Goldbloom, Bernard Jacques and David Chenoweth. Principal actresses are Beverly Light and Miriam Cline.

Among the other actors and actresses are Ian Anderson, David Cove and Alan Pavlanis.

The history of the congregation goes back to the late 1880s. This present building is the third church building housing this continuing congregation for all these years.

At 11 a.m. his subject will be "This New World", and at 4.30 p.m. his subject will be "The Church in This New World". There will be special music by the Senior and Junior Choirs at both these services.

At 5.30 p.m., in the main auditorium of the new hall, there will be a congregational reception and anniversary tea, held by the United Church Women for the congregation. This will give Dr. Campbell an opportunity to meet members of the congregation.

Christian Science

"Unreality" is Sunday subject

How the power of God operates in human affairs is explored in the Bible Lesson to be read in all Christian Science churches this Sunday, the week's subject being "Unreality."

The Golden Text is from Luke; "The things which are impossible with men are possible with God." Pertinent selections from the Christian Science text book will include: "From beginning to end, the Scriptures are full of accounts of the triumph of Spirit, Mind, over matter . . . When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible" (Science and Health with Key to Scriptures by Mary Baker Eddy).

ST. LEO'S AND ST. PAUL'S CARNIVAL: Students at St. Leo's Academy and St. Paul's Academy held their annual skating carnival late last week. Seen above are some of the students

St. Paul's & St. Leo's

Carnival is rated a success

By BEVERLY JONES

St. Leo's and St. Paul's held their annual skating carnival last Thursday evening, March 25. At 5:30 p.m. there was an intramural hockey play off between the Lions, coached by Mike Howlett, and the Saints, coached by Gerald Cairns. The referees were Allan Jones and Neil Fernandes. The Saints defeated the Lions. (See page 15).

Other activities got underway at 7 p.m., commencing with a masquerade for everyone. Immediately following the masquerade, there were races and games for the younger kids in grade one, right up to the oldest in fourth high. These activities ranged from candy races to treasure hunts, to three-legged races, with prizes for all the winners.

As a grand finale, a hockey game was staged between the senior and junior girls. The Seniors scored an outstanding victory of 1-0, with Zoe Murray, assisted by a hockey stick, slamming in the winning goal. There were prizes for everyone on both teams. Many thanks to St. Leo's School Commission, and all the teachers, especially Mr. Bedford, who helped to make our carnival a success.

SOCIAL WORK

Last Wednesday afternoon, March 24, Father Braley, a social worker as well as head of Christopher House in Montreal, came to speak to the high school girls of St. Paul's. He talked about social work and especially described the wonderful help Christopher House is giving to such places as Mexico, Latin America, the United States and Montreal. Christopher House is completely run by teen-agers, averaging from the ages of 15 to 19, and everyone is welcome there.

ST. LEO'S CHANGES

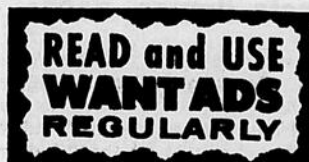

If you've walked down Kitchener Ave., lately, and noticed that St. Leo's is slowly fading from view, don't worry too much about it. The boys certainly aren't alarmed. The old part of the school is gradually being torn down, and completely modernized to add to the recently

finished new part. We do hope the boys don't have to miss any school.

The Career Club of St. Paul's, a branch of the YCS presented an interesting display in the library, in honor of Vocation Week, last week.

At the last meeting of the babysitting Club, Mary McCormick was elected secretary, and

Stephanie Colvey was elected treasurer. Any one needing a competent babysitter may contact Maureen McCormick, the director of the Babysitting Club.

METHODS MUST CHANGE
... A survey carried out in 1963 estimates that about half of the farms in Eastern Canada are uneconomic . . . This does not mean that all farming has

gone sour. It does mean that farmers have to up-date their methods of farming because where a farmer before World War II fed 10 to 12 people, he now feeds 30. — Gananoque (Ont.) Reporter.

A few puffs lead to pipe smoking

By Millicent Hickmore

SHE'S DIFFERENT: Wenda McNevin, a 20-year-old McGill student and associate editor on the McGill Daily likes the idea of being different. This is how Wenda started smoking a pipe, after taking a few puffs of her father's briar, some time ago.

Miss McNevin will compete in the Montreal session of the Canadian open pipe smoking contest taking place at the Show Mart this evening.

The person who keeps 3.3 grams of tobacco burning for the longest time, regardless of where he or she participates, will represent Canada in the world pipe smoking contest in New York this summer.

Until recently Wenda smoked only men's pipes but now she has acquired an attractive, slim ladies' model. "I entered the contest on a dare," she said. "However, now that my entry has been accepted by the Pipe and Tobacco Council, I am looking forward to the experience. I don't expect to win — I mean it wouldn't be tactful — but just think of the reaction if a woman were national champion in a masculine field."

DAFFODIL DAY. Mrs. A. F. D. Campbell is chairman over more than 500 volunteers to place fresh daf-

This event is to launch the Canadian Cancer Society's annual fund raising appeal which has an object of \$350,000 in the Greater Montreal area.

Capital spending program no strain, B of M states

The large program of capital spending planned for this year in Canada should not put undue strain on the economy, according to the Bank of Montreal's Business Review for March, just issued.

However, the B of M warns that if acceleration of the program were to take place, as seems quite likely, it could exert pressure on prices and the balance of payments.

The B of M notes that if capital spending plans are achieved, 1965 total outlays on construction, machinery and equipment will amount to about \$12.3 billion, almost 14 per cent more than in 1964.

"This large increase will follow

a 15 per cent rise last year which brought total public and private investment to a level that exceeded the previous peak in 1957 for the first time," the bank states and observes that all regions of Canada are expected to share in the increase.

The B of M points out that these capital spending plans are subject to change. It notes past experience shows that, when business slows down, some of the projects included in first estimates are deferred or "stretched out" during the year and, when business expands, the estimates are often exceeded by a wide margin.

"Last year's estimate at this time indicated, for instance, that capital expenditures would climb 8 per cent," the bank states and recalls that expenditures actually rose 15 per cent as business activity continued at a high level throughout the year.

"Thus, with business conditions continuing buoyant the projected increase of nearly 14 per cent for 1965 may well be exceeded."

"At this stage of the business cycle, when total activity has been expanding steadily for over four years, acceleration of a program of this magnitude might exert pressure on prices as well as on the balance of payments," the B of M states.

But, "although capital expenditures now planned for 1965 could represent about 25 per cent of the gross national product this would still be well below the peak percentage reached in 1957."

"Furthermore, as the (official) survey points out, productive capacity in the investment supporting industries has grown to such an extent that it should be adequate for the most part to

meet requirements of the program currently envisaged."

The bank observes that the Economic Council estimates the average annual growth of capital spending would need to be 9 per cent to achieve its over-all target for the economy.

"If, therefore, current investment plans are realized and if prices do not rise markedly it would appear that in this area at least the performance of the economy is so far matching the target set by the Council," the B of M review concludes.

Lions take hockey intramural title

By ANDY MCGILLIS

Last Thursday afternoon at the Westmount artificial rink, St. Leo's intramural hockey league closed out another successful season, with a thrilling sudden death play-off game for the title.

Mike Howlett's Lions rallied from a two goal deficit in the first half, to go on to win 4 to 3 over Gerry Cairns Saints, with Mike Gormley netting the win-

ning counter in the dying seconds of the game.

HAT TRICK

The Saints looked to be on their way after Pierre Tremblay came up with a hat trick in the first half but the Lions roared back led by Mike Gormley's three goals to snatch victory away from the tiring Saints.

TO RECEIVE AWARDS

The following members of the champion Lions will receive awards at the annual athletic day presentations; Claude Bonneau, Eddie Kelly, Marco Ricci, Jimmy Thomson, Phil Chapman, Richard Knight, Ross Sherriffs, Mike Gormley, Sigmond Stosik, Stan Jablonzki, John Callaghan, Jamie Fitzpatrick and coach Mike Howlett.

CARNIVAL CAPERS

ACADEMY BRIEFS: The trio of Bob Brault, Dalton Barnoff and Neil Fernandes were easily the best in the senior hockey team relay at the carnival. Pat Fennell showed a burst of speed in the relay race but had the misfortune to fall before completing his turn, maybe we could prevail on Pat to do some barrel jumping in the next years carnival. St. Paul's Academy girls participated in a ball hockey game among themselves for the feature carnival attraction but fell short of the previous years attraction when the boys and girls engaged in a game that was advertised as a hockey game.
