lam, the head of the hierarchy in Turkey, the Sultan yesterday took the oath of allegiance to the constitution on the Koran. As the result of a long meeting of the council of ministers, Hamid Bey, who was recently appointed minister of police, has been dismissed. Mehmed Abi has been appointed governor of Persia and other changes are contemplated. Hamid Bey's removal has been demanded by the reformers. It is reported that Izzet Pacha, secretary to the Sultan, whose dismissal also was demanded, has fled to Syria.

The people are looking to the Sultan to make good his promises. They are divided between gratitude for the promises and realization of the stubborn fact that the old abuses, which the masses expected to vanish magically at Abdul Hamid's word, have not yet been removed.

MRS. GUINNESS A SUICIDE. ARSENIC IS FOUND IN HER STOMACH. Laporte, Ind., July 31.—Coroner Mack announced Thursday that Dr. Haines, of Rush Medical College, who analyzed the stomach of Andrew Hamilton, of Aberdeen, S.D., last victim of Mrs. Belle Guinness, finding strychnine and arsenic in fatal doses, has also found in the stomachs of Mrs. Guinness and two of the children sufficient to have caused death. This discovery has opened up the possibility of Mrs. Guinness having killed the children in the same manner in which she took the lives of her victims and then having ended her own life with a fatal dose. Attorney Worden, who represents Ray Lamphere, charged with the Guinness murders, declares that the discovery shows that his client could have had nothing to do with the death of the woman and her children.

Dr. Foss was telephoned for, but at the time of phoning he was at the Protestant Hospital. He left immediately accompanied by Dr. Williams in an automobile and arrived on the scene of the accident in less than 35 minutes, a distance of some 8 miles, nearly all up hill. Restoratives were administered and the young lad is doing nicely.

HIGH CHIEF RANGER AT COATICOOK.

Discussed the Readjustment of Rates.

NO MEMBER NEED DROP OUT OF ORDER ON ACCOUNT OF INCREASE.

Coaticook, July 31.—(Special)—A good number of Foresters from the local lodge, Court Coaticook, and from courts in the district were present to meet James Ellis, High Chief Ranger of the Independent Order of Foresters, at their Court room on Tuesday evening.

After the business of the Court had been finished the Chief Ranger called on the High Chief Ranger for remarks. The principal topic of the evening was the readjustment of rates as set forth by the Supreme Court at their meeting held in Toronto to last month.

The High Chief Ranger explained why it was necessary to raise the rates on the old members in order to pay them the 1-10 per cent. on their policy yearly after reaching the age of 70 years.

Mr. Ellis also explained why this raise in rates does not affect those who joined prior to 1899. The Supreme Court has provided so that no member need drop out of the order because he cannot afford to pay the increase.

It is the intention of the Supreme Court to loan any member who wishes to continue at his old rate enough from the Supreme Court funds at 4 per cent. to cover the balance.

Mr. Ellis visits Court Stanhope at Norton Mills, and Court Goodhue, at East Hatley, and will return to Quebec on Friday morning.

COMMONS DEFIED BY PEERS.

LATTER AMEND OLD-AGE PENSION MEASURE.

London, July 31.—Another conflict was entered into between the House of Lords and the House of Commons, on Tuesday night, the Lords carrying the amendment which limits the operation of the old age pensions bill to seven years, despite the Lord High Chancellor's warning that such interference with a money bill was an infringement upon the privilege of the House of Commons, which would be firmly resisted. When the Upper House passed the bill on its second reading some days ago it was not foreseen that the peers intended to amend it in committee.

It is regarded as a money bill, and it is the principle of the constitution that the House of Commons is in supreme control of the nation's expenditures. When the House of Commons sends a money bill to the House of Lords it is customary for the latter to reject or pass it in its entirety. It is not forbidden to amend a bill of this kind, but the Upper House adopts this procedure so rarely that the general opinion is that it has not the power to do so. Nevertheless, seven pages of amendments to the old age pensions bill were introduced. The first was by Lord Cromer, limiting the operation of the bill to seven years, except that pensions granted during the seven years will be continued till the beneficiaries die. Apart from this provision, the whole pension scheme, according to the amendment, will expire on Dec. 21st, 1915. The Lord Chancellor warned the peers that they were interfering with a money bill and said the amendment would certainly be regarded as a breach of the privilege of the House of Commons.

Lord Rosebery reiterated his condemnation of the socialism of the bill. He dwelt upon the increasing burden of taxation, to which would inevitably be added shortly provision for aerial armaments. However, while sympathizing with the amendment he did not believe it was practicable. The House of Commons was not likely to accept it, and he did not suppose the House of Lords intended to enter upon a serious conflict with the Lower House on the question. The peers had already decided not to reject the bill in its entirety, yet, if they amended it they would assume a share of the responsibility for it.

CASTRO SCORED BY THE BRITISH.

RESULT OF HIS ORDER SHUTTING OFF COMMERCE WITH TRINIDAD AND ANTILLES.

Port of Spain, July 31.—Following the issuance of a decree by President Castro last May prohibiting the dispatch of vessels from Venezuelan Gulf ports to Trinidad, cocoa and other Venezuelan products have been forwarded from the Lesser Antilles and thence to Trinidad. President Castro has now issued a decree prohibiting the dispatch of vessels with cargo for Grenada or other islands in the Antilles, thereby closing all ports entirely to export and import trade with the West Indies. Great indignation is felt in the British colonies, and it is expected that the aid of the British Government will be sought to secure protection against the methods of President Castro.

BRYAN EAGER FOR FRAY

HE WILL TAKE STUMP EARLY IN SEPTEMBER.

Fairview, Lincoln, Neb., July 31.—William J. Bryan returned to Lincoln yesterday after an absence of four days in Chicago and Omaha. While Mr. Bryan has not definitely decided the question, he intimates that should his presence be especially desired at the meeting in Chicago within a fortnight by the proposed executive committee of his campaign forces he would go there as a matter of service to the committee. Judge Taft's letter of acceptance was read by Mr. Bryan with manifest interest, and he said he would probably submit some comment for publication.

From present indication Mr. Bryan has no intention of taking the stump before early in September, but the plans now being made map out a pretty strenuous campaign trip of indefinite length. Mr. Bryan is not in the same physical trim as eight years ago and he will not be able to perform the spellbinding stunts that marked his former campaigns. His friends have been advising him to take it easy but he is fairly chucking the bit to get into the fray. He will make definite statements about his plans within a few days. He expects to begin work shortly on his notification speech. He has no present idea, he says, how long it will be.

A big row is likely to follow the alleged discovery that the Lincoln postmaster, who is Senator Burkett's campaign manager, has been sending out in unstamped "official business" envelopes campaign matter of a decided partisan flavor. Mr. Bryan's attention has been called to the matter, but he referred it to the campaign committee. It is proposed to send a complaint to Washington.

DR. PHILLIMORE HAS A NARROW ESCAPE.

While riding through the crowded streets of Quebec on Sunday, Sur. Lt. Col. Phillimore, of the 7th Hussars, experienced a marvellous escape from a serious injury. His horse slipped at a street car, and owing to the slippery condition of the asphalt, fell heavily to the ground. The horse instantly struggled to its feet, and Dr. Phillimore, remounting, rode back to camp. The only injury he received was a bruise on the forehead of the car. The incident created some excitement at the time, for an automobile was following behind, and another car approaching in another direction. On the Saturday previous, an outsider accompanying the Royal carriage, met with a similar accident.

NEWS FROM SVEN HEDEN

REPORT OF SWEDISH EXPLORER FROM TIBET.

Simla, July 31.—A caravan that has arrived at Lhasa from Leh, in the valley of the Indus, brings a report that Sven Heden, the Swedish explorer, is in good health and that his caravan is in good condition. A protracted silence from Sven Heden gave rise to anxiety with regard to his safety which now has been set at rest by the Lhasa report.

You can, of course, "afford" to miss a dollar-saving chance now and then through failure to read the ads.—but is it worth while?

25TH ANNIVERSARY OF THEIR MARRIAGE.

(Continued from Page 1.)

scolded a little and coaxed a good deal; he is lectured a little and petted a lot; he is groomed and made to do the things he dislikes; he bolts and balks, but sooner or later he becomes so docile that he will eat out of her hand. And thus consciously or unconsciously he becomes moulded to his wife's will. And who with the heart of a man in his breast could resist the pleasure of that moulding?

"I cannot say that this gift is a fitting emblem of our regard. This silver will tarnish, but so long as you live such a life as you are now living, our esteem will never tarnish or grow dim. With time this silver will corrode and wear away, but our sentiments will never corrode or wear away, until each one of us wearying of the world shall have laid his burden down by the wayside and folding his arms shall have passed over the great divide never more to return. Even then these sentiments shall not die. They shall live in the hearts of your children and their children, growing, enlarging, spreading, even widening until they become one of the important; and every heart shall echo to that great burst of democracy 'Rank is but the quinea's stamp the man's the soul for a that'."

"Mr. and Mrs. Bell. In the name of those present I herewith present you with this tea set. It is but the visible symbol of far better things that beats for you in so many invisible hearts. Do not judge of the giving by the gift. Do not judge of our sentiments by our imperfect utterances, but rather judge of it that we being Scotsmen are here giving it voice at all.

"I am but voicing the sentiments of each one here when I say that I hope that you may both be spared to celebrate your golden and diamond wedding, and that all may be here to congratulate you upon the happy occasions.

Mr. William Bell, in reply, thanked his friends for the very kind present which they had given to him, and Mrs. Bell on the occasion of the 25th anniversary of their marriage. It was an unexpected pleasure, and he sincerely thanked them on behalf of Mrs. Bell and himself.

Mr. F. J. Griffith, Secretary-Treasurer, congratulated Mr. and Mrs. Bell on their silver wedding, and hoped that they would be spared to a still further period of wedded happiness.

Congratulations having been conferred on the happy couple, a social programme was then entered into. Notwithstanding the heat, Mr. Geo. Dick, mounted the rostrum, and his fiddle was being in tune, a Scotch reel was started, in which Mr. and Mrs. Bell led off. Several other dances peculiar to the Scotch were engaged in, after which the vocal part of the programme was entered into. Among those who took part were: Messrs. George Dick, J. Irving, P. Taylor, C. S. Macdonald, J. George Dick, J. F. John Ballentyne, W. Ballentyne, Miss Christina Bell, Mrs. Doloff. The songs were mostly Scotch and the old familiar strains were very much enjoyed.

During the evening refreshments appeared in a mysterious manner. An evening that was full of mirth and enjoyment, broke up at midnight with the singing of Auld Lang Syne and God Save the King.

Among those present were: Mr. and Mrs. George Dick, the Misses Jessie and Lizzie Dick, George Dick, Jr., J. Irving, T. Irving, Mr. and Mrs. Ballentyne, J. Taylor, E. B. Scott, J. Cole, J. Macdonald, Mr. and Mrs. John Dempster, Miss Dempster, Mr. and Mrs. P. Edney, J. Sangster, Miss Sangster, Miss Johnston, J. Pierson, Mr. and Mrs. H. Doloff, W. Mennie, A. Johnston, C. S. Macdonald, Mr. and Mrs. W. Johnston, Mr. F. J. Griffith, Mr. W. B. McCaw, Mr. and Mrs. J. Robertson, Mr. H. Logie, Mr. J. Ballentyne.

Mr. William Bell, who with Mrs. Bell, was the recipient of a token of good will from a few of their friends last evening, has been in the employ of the city of Sherbrooke for over 26 years. He joined the police force on the 26th of June, 1882, a few months after the city took over the policing of the city from the Provincial Government. At that time there was only the present chief and three men. Mr. Bell made application for the position, and having satisfied the then Mayor, the late James Wiggott, and Mr. D. McManamy, the then chairman of the Police Committee, he was sworn in as a constable for the city of Sherbrooke and continued on the force until about seven years ago, when he was transferred from the Police Department to the Secretary-Treasurer's Department as collector of taxes. At the time of his transfer he was a sergeant, and during the period that he was on the force he enjoyed the respect of all, and he carried the same respect of the citizens in his present position. A year after he entered the city's employ he sent to Scotland for Miss Jean Campbell, the present Mrs. Bell, and on the day of her arrival in Sherbrooke, the 30th of July, 1883, he was united in marriage by Rev. Mr. Cattanach, who was Presbyterian minister at that time. They have eight children alive and were present last evening. Some of them have already started out in life and are following the upright walk in life for which their parents are respected by a large circle of friends.

Mr. William Bell, who with Mrs. Bell, was the recipient of a token of good will from a few of their friends last evening, has been in the employ of the city of Sherbrooke for over 26 years. He joined the police force on the 26th of June, 1882, a few months after the city took over the policing of the city from the Provincial Government. At that time there was only the present chief and three men. Mr. Bell made application for the position, and having satisfied the then Mayor, the late James Wiggott, and Mr. D. McManamy, the then chairman of the Police Committee, he was sworn in as a constable for the city of Sherbrooke and continued on the force until about seven years ago, when he was transferred from the Police Department to the Secretary-Treasurer's Department as collector of taxes. At the time of his transfer he was a sergeant, and during the period that he was on the force he enjoyed the respect of all, and he carried the same respect of the citizens in his present position. A year after he entered the city's employ he sent to Scotland for Miss Jean Campbell, the present Mrs. Bell, and on the day of her arrival in Sherbrooke, the 30th of July, 1883, he was united in marriage by Rev. Mr. Cattanach, who was Presbyterian minister at that time. They have eight children alive and were present last evening. PARIS STRIKERS INVADE VIGNEUX.

Several Thousands Marched Carrying Red Flags.

IN FIGHT AT BARRICADES, TWO MEN WERE KILLED.

Vigneux, France, July 31.—Vigneux was invaded yesterday morning by several thousand strikers from Paris carrying red flags and singing socialist songs. While a squadron of cavalrymen were fired at them. No one was hit, but in a conflict later several of the manifestants were slightly hurt. Additional troops have been ordered in.

By 8:30 o'clock last night comparative calm had been restored owing to the firm and energetic action of the authorities, the manifestants being driven from position after position and finally taking a train for Paris, carrying their wounded with them.

A fight at the barricades was the most serious incident of the day. Two men were killed and many injured, 15 of them seriously by the fire of the soldiers. The troops finally dislodged the workmen.

The military suffered severely from stones thrown by the strikers, and General Vercotte and a colonel of the dragons were struck by revolver bullets, but not seriously hurt.

It is reported that the casualties total six dead and sixty wounded.

I would suggest that you should publish enclosed message in the evening papers and appeal to all concerned to help you to secure a production of the Wolfe and Montcalm march, which will enable the people of Great and Greater Britain, including all parts of the Dominion, to form some idea of the pageant, which, under Mr. Lascelles' admirable management, has delighted so many thousands at Quebec during the past week.

I remain yours sincerely, (Signed) GREY.

THE OLYMPIC REGATTA.

THE ARGOS, THOUGH BEATEN, ROWED A GREAT RACE.

Henley-on-Thames, July 31.—Some few people competent to express an opinion, say that the Argonaut Leader race Thursday was the finest race they had seen for some time. They especially complimented Wright, the Canadian coach, for the excellent training of the Canadians. It was a great race. At the halfway the Argonauts were ahead and reduced the lead of the Leaders by a length, but the Argonauts spurted near the finish, though the water here was unable to win them the race.

ARGO BIGHT BEATEN.

GAVE LEADERS GOOD RACE, BUT LOST BY A LENGTH. Henley, July 31.—The International Olympic regatta was continued here yesterday, and the Leader crew beat the Canadian Argonauts, after a fine and hard race, by a length in the time of the championship eight.

NEW YORK TO PARIS RACE.

THE THOMAS CAR REACHES FRENCH CAPITAL. Paris, July 31.—The Thomas car in the New York to Paris automobile race crossed the frontier at noon yesterday and reached Paris at 8 o'clock last evening. The car was escorted up the boulevards by automobile enthusiasts who met it at Meux, 25 miles east of Paris, and was greeted with cheering. The race committee was waiting at the office of the Matin to receive the car. Congratulations were showered upon the crew, the members of which proceeded to a hotel after their health had been drunk.

PAY THE PENALTY.

TECUMSEHS AND CAPITALS EACH CHARGED WITH LOSS AT LEAGUE MEETING LAST NIGHT.

Montreal, July 31.—Tecumsehs and Capitals have each forfeited a game for playing an exhibition instead of a championship match at Toronto on July 18th. This was decided at the league meeting last night by a vote of 4 to 2. The Montreal, Shamrock, National and Cornwall club representatives voted for the decision, with Tecumsehs and Capitals against. Jimmie Murphy, the Toronto representative, did not vote. With this change, the standing of clubs is as follows: Played, Won, Lost, Points. Tecumsehs 7 5 3 3. National 6 4 2 3. Shamrock 5 2 3 3. Cornwall 4 3 1 4. Montreal 6 2 4 4.

IRISH AMERICANS.

ATHLETES GIVEN A GREAT RECEPTION ON THE OLD SOIL.

Dublin, July 31.—The members of the Irish-American Athletic Club, who are visiting Ireland, received a tremendous popular welcome here last night. Thousands of persons were at the station to meet the athletes, and the streets along the route to the hotel were completely blocked. Arriving at their hotel, the athletes were greeted by John Devlin, member of Parliament. Lawson Robertson, the sprinter, responding to Mr. Devlin's address, said that although he and his team mates had expected a "fish welcome, what they had met with quite took away their breath. The Gaelic Athletic Association has declared Saturday's athletic meet, in which the Americans are to compete illegal.

LACROSSE.

CRESCENT AND BAND TEAMS HOLD FINALS PRACTICE.

The Crescent and Band teams both had a hard work out last evening, and should be in the best of condition when they line out on Saturday. The Crescent line-up will, it is expected, be as follows: Cameron, Wiggett, Hallett, Fuller, McAllister, Albert, Smith, Dunmore, Grant, Atto, Griffith, Hawkins. The Band team will not be known until they take the field, but their line-up will be a surprise even to their supporters, and it may safely be said that there will be very little choice between the teams, and one of the most closely contested games of season may be looked forward to. The Crescents will be without the services of their Captain, Mr. Geo. Povey, he being absent from the city on

SCHOLES' DEFEAT A SHOCK. Toronto, July 31.—There was consternation in local rowing circles Wednesday when the news reached here from England that Lou Scholes, of the Toronto Rowing Club, has been beaten first crack out of the box in the Olympic singles. The talent could hardly believe the news. Scholes, undoubtedly faster than ever before in his life, to be defeated, and beaten decisively by an unknown German was the hardest blow of all, and Canadians have had many athletic reverses recently at the Olympics.

JAPAN ANXIOUS FOR PEACE.

HER PROGRAMME IS NOT MILITARY EXPANSION.

Tokio, July 31.—In an interview Wednesday General Viscount Teruchi, Minister of War and Acting Minister of Foreign Affairs, expressed himself as having the keenest desire for the maintenance of peace and continuance of the friendly relations between Japan and all the Powers. Viscount Teruchi said that the entire Japanese nation, himself included, regarded America as a real friend, and that in the event of the election of William H. Taft to the presidency in the coming campaign, these bonds of friendship would be drawn closer. He believed it would result because after three lengthy interviews with Mr. Taft at the time of the latter's visit to Japan he felt that they reached in the course of their talks a mutual understanding of the purpose and attitudes of both countries that would make that end.

CRUISER REINFORCED.

BATTLESHIP IS ORDERED TO THE CARIBBEAN.

The Hague, July 31.—Orders have been issued that the battleship Jacob van Heemskerck be made ready to sail for the Caribbean Sea, and it is expected that she will start without delay. It is explained officially that this battleship is being despatched to the Caribbean at present contemplates sending to the West Indies. There never has been a report of an enemy vessel in the waters, as has been reported. It is said that the main object of sending the Jacob van Heemskerck to the West Indies is to have a second ship handy in case, for any reason, the cruiser Gelderland, which is at present in Venezuelan waters, should not be available at the moment wanted. The Gelderland is at present the only Dutch war vessel in the West Indies. The Jacob van Heemskerck is one of the two biggest battleships belonging to Holland.

THE TURKISH BEGGAR AT HOME.

(From Charities and the Commons). Beggars are never suppressed in Turkey. The story is told and they say it is true) about an American lady who by a mistake gave a beggar of Constantinople a gold piece. The man had left his position when she returned, but one of his colleagues told her where he "re- sided. It was a fine house and at the door was a servant who politely informed the lady that "my master is dressing. He will be down soon," and then the beggar, appearing and gladly returned the gold piece, explaining in the meantime that such mistakes were highly embarrassing.

GERMAN DIRIGIBLE FLEET.

TO HAVE NAVY OF THIRTY AERIAL VESSELS.

Berlin, July 31.—While Count Zeppelin is preparing his great trial with his aluminum airship, other experiments with semi-rigid and entirely flexible dirigible balloons are proceeding in various parts of the country under the supervision of Government officers. One of the most important of these is the Zeppelin model, with a gas capacity of about half a million cubic feet. The taking over of this depends upon the result of the endurance flight, and their ability to descend on dry land. Two others are of the semi-rigid class, and are now in the possession of the army balloon corps, and have a capacity of 50,000 and 100,000 cubic feet respectively. Three of the balloons are of the Parseval class. These are flexible envelopes of 90,000, 115,000 and 140,000 cubic feet. The eighth is an enormous flexible balloon now under construction at the Siemens-Schuckert works here, with a capacity of 420,000 cubic feet. The acceptance of the flexible balloons is conditioned on the ability to pack and transport the entire balloon on wagons, so that after unloading it can be filled from portable gas cylinders wherever desired, while following in the train of the army. These acquisitions will form the basis of further tests in order to decide which system is most useful for army purposes. At the conclusion of the experiments a fleet of at least thirty will be constructed. Tests will be made of the dirigible in the vicinity of Berlin, which will include the dropping of explosives from airship a distance of 100 miles. The result of these tests will be kept secret.

TO PLAN WAR ON STANDARD.

COUNCIL IS HELD AT LENOX BY BONAPARTE.

Lenox, July 31.—Plans for another great battle in the courts with representatives of the Standard Oil Company will be worked out here, among the members of the Council of Appeals at Lenox, within the next few days. Under the direction of Attorney General Charles J. Bonaparte, who is passing his vacation time in Lenox, the first move in the new action, which it is understood, is to be brought by the Government against the Standard Oil Company, will be made here and the machinery of the Department of Justice at Washington will be set in motion. This action, following the recent decision of the United States Circuit Court of Appeals at Chicago, setting aside the judgment of \$29,240,000 returned by Judge Kenesaw M. Landis against the company, indicates that the Government is determined to carry out its intention of the Administration to renew the proceedings to be carried out promptly.

THE BEAUJEU CHANNEL.

TO BE OFFICIALLY OPENED BY MR. BRODEUR TODAY.

Quebec, July 30.—Hon. L. P. Brodeur, minister of marine and fisheries, and party of Montreal arrived here to inspect and officially open the dredged Beaujeu channel.

THE BEAUJEU CHANNEL.

Formerly the Beaujeu bank was the point of delay below Quebec. With a bend and only 2 feet depth, it had been slightly less than two years ago, and the channel has been widened to a depth of 12 feet.

THE BEAUJEU CHANNEL.

The complete channel is now over 600 feet, and it is hoped to make it 1,000 feet in length by the end of the present season. The sweeping having been made and found satisfactory, the lights have been lighted, and the navigation is open, and at the urgent request of the shipping people, the minister has decided to open this new waterway.

THE BEAUJEU CHANNEL.

This will come as a great relief as ships will now be able to pass at any stage of water.

THE BEAUJEU CHANNEL.

Mr. St. Thomas flats, a few miles nearer Quebec, is now the only point in the lower St. Lawrence where the new dredge, completed by the department at Sorel last year, has been working.

THE BEAUJEU CHANNEL.

Generally, the prompt action of Hon. Mr. Brodeur and the officers of the department, in undertaking this work, with so much vigor and opening the channel within the estimated time of two years, is a matter of great credit to the shipping channel organization.

THE BEAUJEU CHANNEL.

The Galveston, a dredge purchased for this work, is now in operation, and by the end of the season nearly one million cubic yards will have been removed.

TO-DAY'S WIRE GOSSIP.

New York, July 31.—(Special)—Caution is desirable in the stock market commitments on the constructive side by daily operators at present. The general active standard stocks of high price are still within the narrow trading range and appear to be meeting offerings in the market. Speculative operations in the industrial and low price stocks continue but not with any pronounced aggressive interest. The market is moderate declines up to the present, withdrawals would cause a shake out in the market, interest in foreign markets is still at a neutral position with but little progress in the market.
