RIOT IN MONTREAL.

AN ANTI-VACCINATIONIST MOB DEFEAT THE AUTHORITIES

SEVERAL BUILDINGS WRECKED—FEEBLE OPPOSITION OF THE POLICE—ATTEMPT TO INCENDIARISM—MORE TROUBLE EXPECTED TONIGHT

MONTREAL, Sept 28—This evening a disgraceful anti vaccination riot broke out among the French Canadian population. For some time past there have been mutterings against the stringent measures enforced by the Board of Health and this afternoon at the meeting of the City Council the grant for vaccination was cut down from \$5000 to \$3000. Three French Canadian Aldermen announced that the city was on the eve of a riot. This proved only too true for about seven o'clock a howling mob surrounded the East End branch Health Office and COMPLETELY WRECKED THE BUILDING. The police on duty were powerless and the mob gathering strength from this marched upon the central office, in the City Hall. By this time, however, the riot alarm had been sounded and a strong force of constables were gathered inside the building, but for some time the constables were like dumb driven sheep, as there was NO ONE TO COMMAND them. After the mob smashed the Central Health Office they turned their attention to the Central Police station and soon had all the windows there reduced to atoms. Revolver shots were freely fired at the police and to scare them the officers fired over their heads, only to be received with jeers and laughter. Things now looked so bad that the men were armed with rifles and fixed bayonets, but happily it was not deemed necessary to use them. The constables now CHARGED THE MOB, clubbing the right and left, and succeeding in dispersing them, but not before they had managed to wreck the greater portion of the Court House windows, opposite the City Hall. The mob now broke up into different bodies and proceeded to wreck the windows of the *Herald* Office, the windows of the Finance Committee and of public vaccinators. A number of arrests were made and the city is in a state of great excitement. It is thought the riots will be continued tomorrow night. The police will patrol around the public buildings all night, while the military tomorrow will be held in readiness to quickly put a stop to a repetition of such scenes.

SET FIRE TO THE RESIDENCE

of Dr L'Esperance, one of the public vaccinators, on Plessis street, but the fire extinguished before any material damage was done by fire. The house, however, was badly wrecked by the stones fired by the mob. Dr Laberge, medical health officer, had his house also damaged by them, and Alderman Grenier, chairman of the Finance Committee.

ANOTHER ATTACK

was made on the East End health office the policemen on guard being overpowered, and the chief who went in to protect the building got clubbed and kicked about the face. They cleared out all the placards and disinfectants in the office and did other damage. They also tore down the placards making the vaccination stations in several places. While the Chief of Police was at the health office he noticed a man trying to knock down the stove to set fire, when he gave a fire alarm, and when the firemen came to put the fire out some MEN CAME UP WITH AXES and threatened to cut the hose as soon as the water was turned on. The Chief of Police was rescued and taken home. Bats were used with vigor and many of the rioters were badly cut about the head and face. Several arrests have been made, including the ringleaders of the rioters.

Christianity has found a warm and zealous friend in the King of Siam.

JUMBO'S DEATH.

AN ABURD CHARGE OF ELEPHANTICIDE AGAINST BARNUM

HARTFORD, Ct, Sept 26—A special from Bridgeport to the *Sunday Globe* gives an interview with one of Barnum's employees, who declares that Jumbo was led to the track at St Thomas for the express purpose of being killed. Jumbo was suffering from an incurable pulmonary trouble and was becoming worthless, and it was feared that if the public learned this they would become indignant at Barnum for cruelly exhibiting the huge pet, who was almost unfit to walk at all, consequently he was to be killed for advertising purposes in the most tragic manner. An attempt had before been made at Montreal, but it had miscarried.

EXCESSIVE BOYCOTTING

A case illustrating the unscrupulous excess to which boycotting has been carried has just come under notice. A respectable farmer named Lane, residing near Cork, was a prominent Leaguer, and, having excited some local jealousy, was pointed at as having taken the grazing of an evicted farm, and was subjected to boycotting by his neighbors. It transpired that Lane was not the person who took the land in question, but a person of the same name. An inquiry by Denis Lane in the Dublin courts resulted in the discovery that among prominent members of the local Leaguers who promoted the boycotting of Lane four or five of them had actually sent in tenders themselves for the evicted farm, and their action was altogether promoted by local jealousy.

HE HAD TO PAY.

A rich man in Davenport, Illinois, hired a man to dig him a cistern, agreeing to pay \$12 for the job. After it was done the rich man seized the laborer's tools and locked them up, alleging that the cistern leaked. It was really a ruse to make the workman take less pay. The latter discombed his rage and induced the rich man to descend into the cistern to examine it. No sooner had he done so than the laborer drew up the ladder and stood guard over the cistern with a club, vowing that the other should not come up until he had settled the bill. The imprisoned one yelled "Murder!" and "Fire!" and a crowd of his neighbors gathered, but when they learned the trouble no one would interfere, and they let him stay until he liquidated.

WHAT IS THIS DISEASE THAT IS COMING UPON US?

Like a thief at night it steals in upon us unawares. Many persons have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and clammy. After a while a cough sets in at first dry, but after a few months it is attended with a greenish coloured expectoration. The afflicted one feels tired all the while, and sleep does not seem to afford any relief. After a time he becomes nervous, irritable, and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow, the urine is scanty and high-colored, depositing a sediment after standing. There is frequently a spitting up of the foot, sometimes with a sweetish taste; this is frequently attended with palpitation of the heart; the vision becomes impaired with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-third of our population has this disease in some of its varied forms. It has been found that medical men have mistaken the nature of this disease. Some have treated it for a liver complaint, others for kidney disease, etc., etc., but none of the various kinds of treatment have been attended with success, because the remedy should be such as to act harmoniously upon each one of these organs, and upon the stomach as well; for in Dyspepsia (for this is really what the disease is) all of these organs partake of this disease and require a remedy that will not upon all at the same time. Seigel's Curative Syrup acts like a charm in this class of complaints, giving almost immediate relief. The following letters from

chemists of standing in the community where they live show in what estimation the article is held:

John Archer, Hartill, near Sheffield: I can confidently recommend it to all who may be suffering from liver or stomach complaints, having the testimony of my customers, who have derived great benefit from the Syrup and Pills. The sale is increasing wonderfully.

Geo A Webb, 142, York street, Belfast: I have sold a large quantity, and the patients have testified to its being what you represent.

J S Metcalf, 55, Highgate, Kental: I have always great pleasure in recommending the Curative Syrup, for I have never known a case in which it has not relieved or cured, and I have sold many gross.

Robt G Gould, 27, High street, Andover: I have always taken a great interest in your medicines and I have recommended them, as I have found numerous cases of cure from their use.

Thomas Chapman, West Auckland: I find that the trade steadily increases. I sell more of your medicines than any other kind.

N Darroll, Clun, Hereford: All who buy it are pleased and recommend it.

Jos Balkwill, A.P.S., Kingsbridge: The public seem to appreciate their great value.

A Armistead, Market street, Dalton-in-Furness: It is needless for me to say that your valuable medicines have other sale in this district—greater than any other I know of giving great satisfaction.

Robt Lafine, Melksham: I can with all confidence recommend the Curative Syrup from having proved its efficiency for indigestion myself.

Frickheim, Abroath, Forfarshire, Sept 23, 1882

Dear Sir,—Last year I sent you a letter recommending Mother Seigel's Syrup. I have very much pleasure in still bearing testimony to the very satisfactory results of the famed Syrup and Pills. Most potent medicines die out with me, but Mother Seigel has had a steady sale ever since I commenced and is still in as great demand as when I first began to sell the medicine. The cures which I have come under my notice are chiefly liver complaint and general debility.

A certain minister in my neighborhood says it is the only thing which has benefited him and restored him to his normal condition of health after being unable to preach for a considerable length of time. I can mention also a great many cases but space would not allow. A near friend of mine who is very much addicted to costiveness, or constipation, finds that Mother Seigel's Pills are the only pills which suit his complaint. All other pills cause a reaction, which is very annoying. Mother Seigel's Pills do not leave bad after-effect. I have much pleasure in recommending again to suffering humanity Mother Seigel's medicines, which are no sham. If this letter is of any service you can publish it.

Yours very truly,

(Signed) William S Glass, Chemist
A J White, Esq
(Signed) John H Lightfoot
15th August, 1883

Dear Sir,—I write to tell you that Mr. Henry Hillier, of Yatesbury, Wilts, informs me that he suffered from a severe form of indigestion for upwards of four years and took no end of doctor's medicine without the slightest benefit, and declares Mother Seigel's Syrup, which he got from me, has saved his life.

Yours truly,

(Signed) N. Webb,
Chemist, Gaine.

For sale by W. B. BUNNET & Co, Drugists, 139 & 141, St. Joseph St., St. Roch, Quebec; and A. J. WHITE, L.D., Branch Office, 76 St. James St., Montreal.

ADVERTISEMENTS IN ENGLAND... will find a complete...

QUEBEC DAILY MERCURY

TUESDAY EVENING, SEPTEMBER 29

It is rumored the English Cabinet will advise the Porte to depose Prince Alexander...

The English Government is considered at St Peterburg to have sustained defeat in the formation of the new Turkish Ministry...

THE SMALLPOX.

The Rev Mr Emard, Assistant Secretary to His Lordship Mgr Fabre Sunday morning read from the pulpit of the Bishop's Church a letter from His Holiness Pope Leo XIII...

The disease was certainly caused by want of attention on the part of a certain class of the population; that the present epidemic had been due to the negligence of isolation and vaccination...

The Rev. Mr. Emard added a few words to the above by pressing upon the citizens to be obedient to the command of His Holiness...

ORDINATION

The following ordinations took place on the 24th instant at the Seminary Chapel:-

Tonsure—John McMillan and Pat'k McElmees, of Charlottetown; N Pichon, A E Boilard, C Langlois, E Langelier, T Mercier, J E Gingras, J Vaillancourt, O Cloutier, F Audet, P Therberge, and A Bourras, of Quebec; W Hennessy, J Curry, W Foley and D J Summers, of Halifax; F McKenna, of Allegany West, and R McDonald, of St George, Newfoundland; N Desgagnier, of Chicoutimi. Minor Orders—E Roy, Quebec.

The following were ordained subdeacons on Sunday morning at the Basilica:—P Garneau, J B Ruel, J Langlois, J Galarneau, A Fiset, T Marcoux, T Paquet, C Nadeau, L Olivier, T Blais, A Grenier, E Garon, J Laberge, P Plante, F X Casgrain, A Aagnan, C E Labouriere, J Lavoie, of Quebec; D Leger, of St John, NB; Angus Chisolm, of Arohat; J McLellan, of Charlottetown; P Reardon, of Portland.

This morning twelve subdeacons were made deacons. The Rev J B Ruel, formerly a medical student of Laval, will be ordained priest on Sunday next.

A STRONG ATMOSPHERE

The atmosphere around the corner of St Lewis and St Ursule streets since yesterday has been decidedly odoriferous as though all the drains in the town had been let loose. It is likely the drain has become stopped some where in the neighborhood.

CUSTOMS COLLECTIONS. Duties collected at the Custom House today amounted to \$2928 81.

SIR ADOLPHE CARON.

The presentation of the address of the citizens of Quebec congratulating Sir Adolphe Caron, Minister of Militia on being made a K C M G by Her Majesty, drew together in the Council Chamber of the City Hall this morning a very large gathering of the leading members of the professional and commercial community...

NORTH SHORE R.R. ENQUIRY

Before the Commission yesterday Mr Wurtelo, Speaker of the Legislative Assembly, was examined, and said he was Treasurer of the Province when the railway was sold. The Treasurer had no knowledge of the nature of the expenses except in very few cases.

THE TERRACE ILLUMINATION

The Quebec and Lewis Electric Light Company propose giving the exhibition of the light supplied by the power at Montmorenci Falls, on Buffarin Terrace, commencing this evening and on the following evenings this week, when the electric current will be turned on at 8 precisely.

CITADEL DRAINS

There seems a lack of drainage on the Citadel, if, as it is stated, there are no water closets for the married women of the Battery. All the slop and other soil are, it seems, thrown and emptied behind the magazine and almost in front of the Canteen.

MILITARY.

Major Short, of B Battery, in reviewing the artillery at St John, expressed himself as very much pleased with all he saw, and stated that the smartest men that ever came to the Quebec Artillery school were from the Shefford Field Battery.

PROVINCIAL MEDICAL BOARD.

The Provincial Medical Board meets here tomorrow at Laval University. Doctors Hingston, Howard, Campbell, Lachapelle, Leproche, Lamarche, Geo Ross, Kennedy, Rodger and Durocher, of Montreal, are expected to be present.

FATAL GORING ACCIDENT.

Mr Murphy, the mail conductor, who was so badly gored by a bull at St Foy on Friday, is not expected to recover. The doctors this morning declared they could hold out no hope for the recovery of their patient.

MUSICAL

The bandmaster of A Battery, Mr Joseph Yezina, has purchased his discharge so as to remain in Quebec. A grand complimentary benefit concert has been tendered him by our musical societies, to take place on October 8th, which deserves hearty support.

ECCLESIASTICAL

Mgr Paquet preaches the retreat of the pupils of the Commercial Academy and the Rev Father Pichon, SJ, that of the pupils of the Ursuline Convent.

RECORDER'S COURT

Owen Jones, drunk, \$2 and costs or 4 days. John Williams, Richard Nason and John Jones, drunk, sweating and collecting a crowd, \$2 and costs or 8 days each; on a second charge, for entering a house and refusing to leave, \$4 and costs or 15 days each. Edward Dubeau, drunk, 2 and costs or 8 days.

VALUABLE HINTS

ISSUED BY THE CENTRAL BOARD OF HEALTH

The following valuable suggestions have been published by the Central Board of Health:

"As it has been conclusively established by all medical authority throughout the world, and by the experience of almost every nation, that smallpox can be prevented, or greatly modified by vaccination; and the revaccination confers an almost entire immunity from that disease, it is of the greatest moment that care should be exercised in the selection and preservation of pure vaccine virus; that its employment should be made with prudence; so that those who avail themselves of it should have every surty of its protection; and that those who, for various causes, should not be subjected to vaccination may be so advised."

"Vaccinate those who have had small pox, for one attack does not forbid another. Vaccinate those who have already been vaccinated, for vaccination often loses its protective power through time, and revaccination greatly increases immunity from smallpox. Revaccinate as often as the virus can be made to act, and in time of contagion, as often as once in five years."

"Re vaccination, which should be resorted to from time to time, and especially in time of epidemic, sometimes produces the same local changes and the same febrile disturbances as primary vaccination. But this is not usual, and much local and general disturbance is supposed to indicate either insufficient primary vaccination in the first instance, or an interval too long to be covered by this prophylactic shield. Commonly, however, in persons properly vaccinated, the true vesical forms, but merely a popular elevation, surrounded by an areola; and this result, having attained its maximum on or before the fifth day, quickly declines, or if a vesicle forms its shape is apt to vary from that of a regular vesicle, and its course to be more rapid, so that its maturity is reached on or before the sixth day, its areola declines on or before the eighth day; and the scabbing begins correspondingly early. In either case the areola tends to diffuse itself more widely, and with more affection of the areolar tissues, than in primary vaccination. When the results of revaccination are not well marked, protection should not be presumed, unless the same virus is proved to be efficient in a primary vaccination."

"Combat, with all your energy, the groundless prejudice existing in the minds of some, that persons exposed to smallpox contagion incur additional risk in being vaccinated; and of having one disease ingrafted on another. Tell such uninformed persons, the following is the teaching of all medical authority on the question: If vaccination is performed sufficiently early, so that the areola may have time to form, it will prevent smallpox; if later, it will modify that disease. Suppose an unvaccinated person to inhale the germ of variola on a Monday, if he be vaccinated as late as on the following Tuesday, the vaccination will be in time to prevent smallpox from being developed. If it be put off till Thursday, the smallpox will appear, but will be modified. If the vaccination be delayed till Friday it will be of no use. Revaccination will be effective two days later than this, because the revaccinated persons the stage of areola is reached two or three days sooner than in persons vaccinated for the first time."

MARINE ITEMS

The tug steamer Lake received \$1000 for towing the ship Polyneian to Montreal and back.

The schooner Hudson went into Davies dock yesterday for repairs.

The Government steamer Napoleon III is about starting on her last trip to the Gulf light houses this season.

100 head of prize cattle were landed here today from the steamship Toronto and placed in the Lewis quarantine.

The bark Republic, recently seized in an action for towage, has been released, the amount claimed having been deposited in Court.

The Bark Patagonia has been chartered by a Montreal house to load lumber at Pierreville for the River Plate. Rate \$11 50.

Mr F Gunn yesterday placed the ship Prince Eugene and bark Festina Lente, both to load timber for Liverpool at 18.

The same firm also disposed of the cargoes of Scotch coals ex bark Norway and Almedia to Messrs Webster & Co and Crawford & Co respectively at \$4 25.

MILITARY

Captain the Honorable H. P. C. S. Monck, Coldstream Guards, retired from the service, Captain and Bt Major W H Hobbs, 60th Royal Rifles, has been gazetted Major.

LECTURES

We are requested to state that the double tickets at 35 and 15 cents for the illustrated lectures—London and Around the World—will admit one person for both nights or two on the one night. The description of places, people, scenes and incidents is very entertaining and instructive. The views illustrating scenes in all parts of the world are excellent.—Montreal Star.

"The whole entertainment high class and enjoyable"—Halifax Chronicle. "The entertainment was one of the most pleasing character combining in it a vast amount of instruction and amusement"—Halifax Herald.

New Advertisements.

THE Quebec & Lewis Electric Light Co'y

An Exhibition of this Light from the power at Montmorenci Falls will be given on the Duferin Terrace, on TUESDAY, the 29th inst., at 8 o'clock SHARP (weather permitting).

By the kind permission of the Officers, the Bands of the 8th and 9th Regiments will be in attendance.

SIX O'CLOCK EDITION

QUEBEC DAILY MERCURY

TUESDAY EVENING, SEPTEMBER 29

SIX DEATHS A DAY

A Disease in Nova Scotia that is Causing Alarm.

By telegraph to the Mercury: BANGOR, Maine, Sept 29—There is much anxiety in Eastern Maine regarding reports of the existence of Asiatic cholera at Hantsport, Nova Scotia. It is reported the deaths at Hantsport average six a day out of a population of 1000. The epidemic is said to have been caused by the stench from a pit where the carcasses of a great number of dead fish were buried last fall.

FALL OF AN AEROLITE

By telegraph to THE MERCURY WASHINGTON, Sept 29—The aerolite which caused so much consternation last Saturday, was discovered last night buried deep in the ground on the farm of Samuel Connor, near Canonsburg. It is very large.

BANKING HOUSE ASSIGNED.

By telegraph to the Mercury. NEW YORK, Sept 29—The well known banking and brokerage house of Sonthern & Co, made an assignment to Morris & Miller, with preferences amounting to \$69,000.

FLOODS IN BENGAL

By cable to The Mercury. CALCUTTA, Sept. 29 —Disastrous floods have occurred in Bengal. Fair Bay was swept completely so that most of the inhabitants perished.

LONDON'S NEW LORD MAYOR

By cable to THE MERCURY. LONDON, Sept 29—Alderman John Staples, F.S.A, was today elected Lord Mayor of London

DR BARNARDO'S HOMES

THE LAST BATCH OF JUVENILES SENT OUT TO CANADA THIS YEAR.

DR. BARNARDO has despatched the last of his emigration parties to Canada for this year. The party consisted of 45 girls, who, Dr. Barnardo writes "like all the children which have been sent to Canada this year, are the very flower of our flock. We have picked these 45 out of 300 little girls in residences at our village homes. They have been brought up, not as paupers, for indeed none of them were such, they are simply orphaned children or children of a poor but industrious class. No one is vicious, dishonest, untruthful, or lazy; all have been trained in our little cottages for the practical work of a small but busy household. In all 400 children have been sent from Dr Barnardo's Homes to Canada this summer. Each child has been well outfitted, and all at first were sent to the Home at Peterborough. "They will be placed out," Dr. Barnardo writes, "with great care in selected families. Subsequently they will be looked after, written to, visited and kept well within touch for many years to come. If they fall in one situation, which is quite possible, they will be taken away and sent to another, so no child will be allowed to come upon the rates in Canada or become a public charge. Not one of our girls—and about 600 have, since 1868, been sent out—has as yet come upon the rates or been any expense to the public, and everyone, without exception, is known to be living a virtuous and industrious life."

THEY ALL WENT PROBABLY FOR FUN

(Le Journal de Quebec.) As L'Electeur says Mr Charlebois was indeed in Joliette on Thursday; but there could be seen in the county also on that day, Mr McShane, a rich cattle dealer, and the millionaire Stephens, both rouge leaders from Montreal who had arrived the night before the election. We do not wish to insinuate that these gentlemen were there to buy up voters; but why should L'Electeur impute to Mr Charlebois motives that he would not have imputed to Messrs McShane and Stephens themselves?

After an attack of Fever, Measles, Diphtheria, or any wasting disease, HAMILTON'S QUININE WINE AND IRON is the best medicine to take. It gives lasting strength. See that you get "Hamilton's" the original and genuine.

THE MONTREAL RIOT

Intense Excitement—The Troops Under Arms—More Trouble Expected To-night.

By telegraph to The Mercury. MONTREAL, Sept 29—The excitement among the citizens today over the anti vaccination riot last night is intense, and many declare that the time has come to proclaim martial law. As there is danger of another riot tonight the Mayor has asked that 600 men of the 5th military district be

PLACED UNDER ARMS TONIGHT

He has also ordered the detectives to scour the city and find the ring-leaders of the riot. The rioters last night were well organized and were headed by three men in a carriage who directed their movements. Chief Paradis, who was clubbed and stoned at the corner of Hubert and Ontario streets, received some very painful wounds, but fortunately no serious results are anticipated.

MAYOR BEAUGRAND ROSE FROM HIS SICK BED

and came down town to take measures to quell the riot. His energetic measures are commended by all. He says if the Aldermen will not assist him in this matter he will protect the lives and property of the citizens on his own responsibility. Col Kennedy had a guard of the Montreal Engineers on duty at Bonsecours Market all night.

WHILE THE RIOT WAS IN FULL PROGRESS

at the City Hall, Sergt Beauchemin and sub Constable Bureau arrested a man named Alphonse Moreau, a shoe maker, in the act of throwing stones at the windows. Sergt Kehoe and sub Constable Prevost also arrested an individual named William Black, a barber, for a similar offence. They were brought before the Magistrate this morning and their trial postponed until tomorrow. A woman in the health office at the time of the attack was hit with a stone and wounded.

AMONGST THE INCIDENTS OF THE RIOT

A prominent member of the city council expected his house to be attacked. His duties demanded he should come down town, and his wife and coachman took positions inside at the door, one with a gun and the other with a revolver—prepared for the first ruffian who attempted to enter.

AT ONE O'CLOCK

this afternoon the fifty men of the Victoria Rifles are stationed in their armory, and the Royal Scots are mounting guard at the City Hall. The Mayor and several aldermen have been notified their houses would be burned tonight.

TORONTO TOPICS

What Queen City Residents are Talking About Today

By telegraph to the Mercury.

TORONTO, Sept 29—The city assessed for next year amounts to \$72,721,559, an increase of about three million over the last.

MYSTERIOUS DISAPPEARANCE

Parkdale is considerably excited over the mysterious disappearance of Louise the 14 year old adopted daughter of Reeve McLatt. The young girl left home on Sunday evening. Football play is feared.

THE NORTHWEST.

MORE INDIANS CONVICTED—THREE TO BE HANGED AND ONE SENT TO THE PENITENTIARY FOR 20 YEARS.

BATTLEFORD, Sept 25—The trial of four more of the Indians concerned in the rebellion were concluded today and sentence pronounced by Judge Rouleau as follows:—

Dressy Man, Charlebois, and Bright Eyes were charged with the murder of a crazy squaw. The two former were found guilty of murder and sentenced to be hanged on Friday the same day as that fixed in the case of Wandering Spirit, namely, the 27th of November. Bright Eyes was convicted of manslaughter, his sentence being twenty years' imprisonment in the Penitentiary.

Louison Mongrand, charged with the murder of Mounted Policeman Cowan, was found guilty and also sentenced to be hanged.

Big Bear was formally sentenced last night at Regina by Judge Richardson, to three years in the penitentiary.

A dozen other Indians go down for from four to fourteen years for arson and horse stealing.

OTTAWA HAPPENINGS.

Current News in the Capital City

By telegraph to the Mercury: OTTAWA, Sept 29—Mr Burbridge, Deputy Minister of Justice, leaves here today for England to take part in the argument of the liquor license act case before the Privy Council.

ENLARGING THE WELLAND CANAL.

Mr Page, Chief Engineer of canals, is engaged in preparing plans for the proposed enlargement of the Welland canal so as to admit vessels drawing 14 feet of water. The execution of the work will occupy a period of two or three years and the estimated cost is a million dollars, for which an appropriation was made last session. Tenders will be called for heavy timber for the lock gates. Then will come the elevation of embankment in one, level dredging in another, and the stone work.

A CHILD ABANDONED

A healthy female child, apparently only a few days old, was found on Sunday evening inclosed in a valise, which had been left on the sidewalk opposite Mr Lascell's butcher shop on Dineen street, Chaudiere. Attention was attracted to the valise by sounds of squealing, which appeared to come from it and on examination being made the child was discovered. A woman living in the neighborhood, who has no children of her own, charitably took the little one in charge and intends to adopt it.

DOINGS IN MONTREAL.

An Interesting Budget of News from the Sister City.

By telegraph to The Mercury.

MONTREAL, Sept 29—The returns at the health office this morning shows that there were 62 deaths in the city from smallpox yesterday; also, 7 in St Jean Baptiste Village, 3 in Cote St Louis, and 2 in St Cunegonde Total; 79

At a meeting of the Protestant Clergy this am, a committee was appointed to distribute relief to the Protestant sufferers

LIVE STOCK SHIPMENT.

Exports of live stock from Montreal last week were 2333 cattle and 693 sheep. Total exports of cattle this season to date were 51,403 an increase of 8,257, compared with 1884. The exports of sheep to date were 34,086, a decrease of 16,104 head compared with 1884. The total exports of beef to date were 11,191 quarters, against 11,191 last year.

STOCK MARKET.

Stock market continues very weak today, prices being over 1 per cent lower than yesterday.

PERS. HAL.

Capt Chittenden, an American gentleman, who has devoted the last ten years to the examination of various districts in the far West, from Mexico, to Alaska, is in town.

ANALYSIS OF JOHN LABATT'S CELEBRATED ALE AND PORTER OF LONDON, ONTARIO, -BY-

Rev. P. J. E. Page, Professor of Chemistry, Laval University

Quebec, 4th May, 1885

I have analysed the India Pale Ale manufactured by JOHN LABATT, London, Ontario, bottled by N. Y. MONTREUIL, Quebec. I have found it a light Ale, containing but little alcohol, of a delicious flavor, and of a very agreeable taste and Superior Quality, and compares with the best Imported English or American Ales.

I have also analysed the Porter, XXX Stout, of the same Brewery, which is of Excellent Quality; its flavor is very agreeable; it is a tonic more energetic than the above Ale, for it is a little richer in alcohol and can be compared advantageously with any imported article.

These Ales and Porter of John Labatt, of London, Ontario, are manufactured with the best quality Malt and Hops and they do not contain any unhealthy ingredients.

P. J. E. PAGE, Professor of Chemistry, Laval University, Quebec.

THE HOTEL METROPOLE, LONDON, ENGLAND.

SKIN DISEASES

Are of two kinds; firstly, those which are only skin deep (which are not now to be considered); secondly, those which are caused by a bad state of the blood, and which attack various parts of the body in different ways. Skin disease shows itself in the HEAD some times in the form of Dandruff which no amount of brushing and combing will get rid of, and sometimes in the form of Scaly Eruptions. In the NECK, by an enlargement of the glands (commonly called Glandular Swellings, which if unchecked become very unsightly wounds. In the ARMPITS, and the inside of the ELBOWS, by an inflamed Roughness of the Skin, which is very painful when washed. In the HANDS, by deep Cracks or Fissures, which, if healed for a few days, speedily open again, or by horny-looking patches. In the LEGS, by Hard, Shiny and Inflamed Swellings, or by wounds more or less deep. And on the BODY, in Red, Scaly Patches, which as often as rubbed off form again, or in the discharge of a thin, watery fluid of a very disagreeable nature. In all these cases the treatment must be twofold. An Ointment is required to relieve itching, and Medicine must be taken to change the state of the Blood, and render it pure.

Both these requirements are supplied by Dr. Roberts' Celebrated Medicines. The OINTMENT called 'THE POOR MAN'S FRIEND' and the PILLS, called, PILULE ANTI-SCROPHULES OR ALTERATIVE PILLS.

These Two Medicines have now stood the test of 100 years' trial, having been introduced to the public in the latter part of the last century. They may be obtained of all Chemists, or the Proprietors, BEACH & BARNICOTT, BANGOR, DORSET. Price 1s. 1/2d., 2s. 6d., 11s. and 22s. each. Postage extra. June 24, 1885
